WSU Assessment Options Decision Tree for Winter 2020

This tool is meant to help you decide which of two assessment options is better for your program given the COVID-19 disruptions this semester. Given that your program may have additional factors to consider that this tool does not address, your program’s decision may deviate from the suggested option.

Was your program offered online before the COVID-19 disruption?

YES
Follow your usual assessment plan. If COVID-19 has disrupted that plan, use the qualitative analysis guide instead.

NO

Does your program report to a specialized (disciplinary) accreditor?

YES
Follow your specialized (disciplinary) accreditor’s guidelines. If none are provided, continue to the next part of this decision tree.

NO

Has the move to remote teaching affected your program’s ability to collect assessment data as planned or your confidence in the quality or accuracy of that data?

YES
Use the qualitative analysis guide instead of your usual assessment method.

NO

Follow your usual assessment plan. Optionally use the qualitative analysis guide as an additional assessment.

Submit your assessment or qualitative analysis in Planning. (Instructions)
