

## Program Assessment Leadership Panel

October 26, 2016 | 1:30 p.m. - 3:00 p.m. | 150 Purdy Library

Do you have questions about how program assessment gets done in other departments or programs? Do you wonder how to get colleagues involved, who does the different kinds of assessment work, on what schedule, through what committees, or on what timeline?

Then join us to hear from WSU colleagues representing the peer, program coordinator, department chair, and college coordinator levels of assessment leadership. They will share their ideas and experiences on these and other topics, followed by an open discussion period for your questions and thoughts.

### Panel presenters:
