University Mission
Wayne State's mission is to create and advance knowledge, prepare a diverse student body to thrive, and positively impact local and global communities.

Our vision
Wayne State will be a pre-eminent, public, urban research university known for academic and research excellence, success across a diverse student body, and meaningful engagement in its urban community.

Our values
While our vision and mission show where we want to go, our values guide us on the way. They cut across organizational boundaries, bind us culturally, and permeate our strategic and tactical initiatives. They are the defining traits of the Wayne State community.

Collaboration: When we work together, drawing upon various talents and perspectives, we achieve better results.

Integrity: We keep our word, live up to our commitments and are accountable to ourselves and each other.

Innovation: We are unafraid to try new things and learn by both failure and success.

Excellence: We strive for the highest quality outcomes in everything we do.

Diversity and Inclusion: We value all people and understand that their unique experiences, talents and perspectives make us a stronger organization and better people.

Wayne State intends to remain one of the nation's most respected public research universities, and feels that these goals provide a way to make that happen. National recognition is not an end in itself; what matters most is how Wayne State's progress as shaped by these goals will position the university to benefit its students and, ultimately, its city, state, nation and the world.
GENERAL INFORMATION

History of the University

Wayne State University's story begins in 1868 with the founding of the Detroit Medical College, now the School of Medicine. In 1881, the Detroit Normal Training School was established, which is now the College of Education. The now-iconic Old Main Hall was built in 1896 as Central High School, which began adding college classes in 1913. Those classes evolved into the Detroit Junior College (offering a two-year general education program) in 1917, which became the College of the City of Detroit (with four-year degree programs) in 1923, and now is the College of Liberal Arts and Sciences.

In 1924, the College of Pharmacy was organized, and six years later the first regular graduate courses were offered in liberal arts and education. Frank Cody became the first president in 1933, with the existing colleges united into a university organization, eventually named Wayne University, taken from Wayne County in honor of General Anthony Wayne.

Wayne University continued to grow, adding the School of Social Work, the Law School, and the School of Business Administration. In 1956, it was renamed Wayne State University. In 1963, Wayne State was designated one of Michigan's three constitutionally established universities.

1868 — The Detroit Medical College, forerunner of the School of Medicine, was established.
1881 — The Detroit Normal Training School, forerunner of the College of Education, was established.
1917 — The Detroit Junior College, offering a two-year program in general education, was established in 'Old Main' and later developed into the College of Liberal Arts.
1923 — The Detroit Normal Training School became a four-year degree-granting institution under the name of the Detroit Teachers College. The first degrees were granted in 1924. The Detroit Junior College became the College of the City of Detroit with four-year degree programs. The first degrees were conferred in 1925.
1924 — The College of Pharmacy was organized.
1930 — The first regular graduate courses were offered in Liberal Arts and Education. The first Master's degrees were conferred in 1932.
1933 — The College of Engineering and the Graduate School were established.
1933 — The Colleges of Liberal Arts, Education, Engineering, Medicine and Pharmacy and the Graduate School were united by action of the Detroit Board of Education into a university organization, temporarily called the Colleges of the City of Detroit.
1934 — The name Wayne University was adopted, taken from Wayne County and, ultimately, from General Anthony Wayne.
1935 — The School of Public Affairs and Social Work was organized. In 1950 it became the present School of Social Work.
1937 — The Law School, established in 1927 as Detroit City Law School, came into the University.
1945 — The first doctoral programs were authorized in the fields of Chemistry, Physiological Chemistry and Education.
1946 — The School of Business Administration, originating in the College of Liberal Arts, became the tenth academic unit in the University.
1946 — The College of Nursing, which began as a program in the College of the City of Detroit, became a separate college.
1959 — Monteith College was established.
1959 — Wayne State University became a constitutionally established University by popularly adopted amendment to the Michigan Constitution.
1964 — The Division of Urban Extension was established.
1973 — The College of Lifelong Learning was established as successor to the Division of Urban Extension.
1973 — The College of Pharmacy and Allied Health Professions was established.
1989 — The name of the School of Fine and Performing Arts was changed to the College of Fine, Performing and Communication Arts.
1993 — The College of Science was established.
2001 — The name of the College of Pharmacy and Allied Health Professions was changed to the Eugene Applebaum College of Pharmacy and Health Sciences.
2002 — The College of Lifelong Learning was discontinued and its programs transferred to other units.
2004 — The College of Liberal Arts and the College of Science were merged into the College of Liberal Arts and Sciences.
2005 — The College of Urban, Labor and Metropolitan Affairs was discontinued and its programs transferred to other units.
2008 — The Irvin D. Reid Honors College was established.
2009 — The Library and Information Science Program was established as the School of Library and Information Science.
2011 — The Warrior football team made its first appearance in the NCAA Division II championship game.
2015 — The name of the School of Business Administration was changed to the Mike Ilitch School of Business.

Location of the University

More than 100 buildings provide housing for the services, instructional and research needs of the University and its students and staff. Most academic and service units of the University are located on the main campus in Midtown Detroit, largely bounded by York Street on the north, Woodward Avenue on the east, Forest Avenue on the south and Trumbull Street on the west. The major classroom, laboratory, library and other academic buildings are located east of the John C. Lodge Freeway; most of the athletics and recreational facilities are on the west side of the freeway.

The School of Medicine and its affiliated teaching hospitals and clinics are located a short distance south and east of the main campus in the Detroit Medical Center. The Eugene Applebaum College of Pharmacy and Health Sciences is also located on the medical campus. Certain
smaller instructional and service units are located in other parts of the metropolitan area

Academic Regulations

Each student, except those in the annual Doctor of Medicine program, is required to register at the beginning of each term of attendance according to the procedure and schedule published in the official University Schedule of Classes (http://www.classschedule.wayne.edu). Registration must be completed before the student may attend classes. For registration dates, the student should consult the Academic Calendar (p. 9).

Class Ranking

Ranks are determined according to the number of degree credits which the student has satisfactorily completed. The classifications are:

<table>
<thead>
<tr>
<th>Rank</th>
<th>Credits Range (inclusive)</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRESHMAN</td>
<td>0 to 28.99</td>
</tr>
<tr>
<td>SOPHOMORE</td>
<td>29 to 55.99</td>
</tr>
<tr>
<td>JUNIOR</td>
<td>56 to 87.99</td>
</tr>
<tr>
<td>SENIOR</td>
<td>88 credits or above</td>
</tr>
</tbody>
</table>

Definition of Credits

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that reasonably approximates not less than:

1. one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester hour of credit, or the equivalent amount of work over a different amount of time; or
2. at least an equivalent amount of work for other activities, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

Normal Program Load

A full-time undergraduate student is one who is enrolled for twelve or more credits during a semester. The definition of a normal course load will vary depending upon the requirements of each program. In general, for completion of undergraduate degree requirements in four years, full-time students should average fifteen to eighteen credits each semester during the academic year. Undergraduate students may not elect more than eighteen credits per semester except by written consent of the Dean or advisor. Individual Schools and Colleges may set credit restrictions below those specified here; for details see their respective sections of this bulletin.

Auditing Courses

To audit a course, a student must indicate that he/she wishes to audit the course rather than receive academic credit, at the time of registration. Registration to audit a course is subject to the following regulations:

1. Students must pay the tuition assessment for the course, which is the same as if it were taken for academic credit;
2. A student is not permitted to take quizzes and examinations in audited courses;
3. A student may not normally change from audit status after registering for the course. In some cases, exceptions may be permitted during the term with the written recommendation of the instructor and the written approval of the Dean of the college/school in which the student is enrolled. The instructor's recommendation and Dean's approval must be included with the student's Drop/Add Form indicating the desired change.
The Graduate School does not encourage students to audit graduate-level courses.

**Dual Enrollment**

**Undergraduate Election of a Graduate Course:** Highly qualified undergraduate students may, under special circumstances, take a 7000-level course for undergraduate credit only. A written petition initiated by the student’s advisor must be approved by the graduate officer of the School or College, the professor teaching the course, and the Dean of the Graduate School. The petition, with all required signatures, must be turned in at the time of registration.

**Senior Rule Graduate School Admission:** In their last semester, undergraduate students with a 3.0 (or above) upper division grade point average who have completed all general education competencies (mathematics, basic composition, intermediate composition, oral communication, critical thinking, and computer literacy), have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. A Senior Rule student must register for at least one credit which is required for the undergraduate degree in order to be eligible for this status. Students who have completed all required courses for the baccalaureate degree may not obtain Senior Rule status. Completion of the Application for Graduate Admission form is required, and students are advised to consult their advisors and the Office of Graduate Enrollment Services. Application deadlines for Senior Rule admission are the same as for regular graduate admission. Students who qualify and are recommended by the Department or College will be admitted for one semester. Graduate admission will be regularized upon evidence that the student has completed all requirements for the bachelor’s degree.

The University permits a student to pay undergraduate fees for the graduate courses elected in a Senior Rule status. It is recommended that students elect only courses numbered 5000-6999 in their Senior Rule semester.

**Dual Enrollment:** Graduate students may register for undergraduate courses, however these courses will be recorded on the undergraduate transcript. All courses elected under this status will be assessed at the undergraduate rate. These courses cannot be used as graduate credit nor to meet requirements for any graduate degree.

**Dual Registration at the University of Michigan:** A student enrolled at either Wayne State University or the University of Michigan may elect a course or courses in the other institution if the course fits his/her program but is not available in his/her home institution. The student must have written approval of the department chairperson in his/her major area at the home college and the approval of his/her Dean. The election must also be approved by the department which offers the course. Students desiring to participate in Wayne State University - University of Michigan dual registration should obtain the necessary forms from the Office of the Registrar and pay the appropriate tuition at their home institution.

**Undergraduate Course Numbering Systems**

**For the College of Education**

0000-2999 — Preprofessional Courses.
3000-3999 — First Professional Year Courses.
4000-4999 — Second Professional Year Courses.
5000-5999 — Third Professional Year Courses.
6000-6999 — Undergraduate/Graduate Courses.

**For Pharmacy Departments**

0000-2999 — Preprofessional Courses.
2000-2999 — Primarily junior college courses.
3000-3999 — First Professional Year Courses.
4000-4999 — Second Professional Year Courses.
5000-5999 — Third Professional Year Courses.
6000-6999 — Undergraduate/Graduate Courses.

**For All Other Schools and Colleges**

0000-0999 — No degree credit; graded S and U.
– Mike Ilitch School of Business: Elementary courses auxiliary to the usual academic program.
– College of Engineering: Orientation courses.
1000-1999 — Primarily freshman courses; open to all undergraduates.
2000-2999 — Primarily freshman and sophomore courses; open to all undergraduates who have completed course prerequisites.
– Mike Ilitch School of Business: Primarily junior college courses.
– College of Engineering: Lower division courses; open to all undergraduates.
3000-4999 — Junior and senior courses; undergraduate credit. (Ordinarily freshmen and sophomores will not be permitted to register for these courses.)
– College of Engineering: Upper division courses.
5000-6999 — Junior and senior courses; undergraduate and graduate credit.

**Obligations to the Instructional Process**

Since education is a cooperative effort between teacher and student, both parties must fulfill obligations if the integrity and efficacy of the instructional process are to be preserved.

**Responsibilities of Faculty Members**

1. To contribute to and remain abreast of the latest developments in their fields;
2. To continually pursue teaching excellence;
3. To treat all students with respect and fairness without regard to ancestry, race, color, religion, political belief, national origin, gender, sexual orientation, age, marital status, disability, or veteran status;
4. To encourage differing viewpoints and demonstrate integrity in evaluating their merit;
5. To attend regularly and punctually, adhere to the scheduled class and final examination times, and arrange for notification of absence and coverage of classes;
6. To establish and maintain appropriate office hours;
7. To present, early in the semester, the following course information:
   a. course objectives and general outline;
   b. classroom procedures to be followed, expectations concerning class attendance, and proposed dates of major evaluations (including examinations, papers, and other projects);
   c. grading policy;
   d. where appropriate, a schedule of class-related activities, including class meetings and laboratory sessions;
   e. lists of texts and/or other materials needed for the course;
   f. late enrollment, withdrawal, and other special policies.
8. To provide and adhere, within reasonable limits, to the written syllabus of the course;
9. To know course matter thoroughly and prepare and present the material conscientiously;
10. To be informed of University services and recommend their use to students when advisable;
11. To follow these policies concerning written work and grades:
12. To implement unit procedures for student evaluation of faculty teaching, with attention to preserving student anonymity;
13. To behave appropriately in dealing with students so as to maintain a scholarly atmosphere

Responsibilities of Students
1. To inform themselves of and to fulfill all requirements of the University and those of the College and Department from which they expect to receive their degree;
2. To fulfill conscientiously all assignments and requirements of their courses;
3. To attend classes regularly and punctually;
4. To maintain a scholarly, courteous demeanor in class;
5. To uphold academic honesty in all activities;
6. To notify the instructor as early as possible if prevented from keeping an appointment or carrying out an assignment;
7. To discuss with the instructor any class-related problem and follow established procedures in the resolution of these problems;
8. To adhere to the instructor's and general University policies on attendance, withdrawal, or other special procedures.

It is expected that faculty and students will fulfill their obligations to the instructional process. If, however, a complaint does arise, the parties should meet in an effort to resolve the matter. When such a discussion fails to resolve the problem or is inappropriate given the circumstances, the head of the academic unit should be contacted. If this contact fails to satisfy the complaint, the College's published procedures should be followed. Although the University Ombudsperson is not a direct part of the appeal process, students and faculty may consult the Ombudsperson at any point during such proceedings.

Classroom Attendance Policy for Undergraduate Students
Whenever attendance forms a basis for a portion or all of a course grade, students must be provided with explicit written information concerning that fact during the first week of classes. Such information shall be specific with regard to the penalty incurred for each absence and the means, if any, to compensate for the absence. It should be recognized that there may be certain situations where the student may not be permitted to make up the absence(s).

It is recognized that students may be required to miss classes on occasion as a result of their participation in approved University activities. Examples of such activities include formal participation on University sports teams, debate teams, and performing arts groups. These activities are generally directed by a University official, such as a coach, and usually have a set schedule of events.

Students participating in approved University activities should consult with instructors prior to registration, but no later than the end of the second week after the start of classes, to determine the class attendance policy. At this time, the student should provide the instructor with a schedule of planned absences, preferably signed by the University official directing the activity (e.g., Athletic or Program Director or his/her designee), in order to allow the instructor to evaluate and advise the student on the possible impact of the planned absences. In this case, the instructor will consider absences due to participation in approved University activities, as outlined above, to be excused absences, on par with those due to other unavoidable circumstances such as illness. For classes requiring mandatory attendance incompatible with the number of planned absences, students will be advised to register, if possible, during a semester in which they will not be participating in the University activity (for example, during the off-season for a sports team or during the summer).

It is the student's responsibility to learn the course material. When classes are missed, for whatever reason, it is the student's obligation to obtain copies of the class materials and students are responsible for all materials covered in the lectures. An excused absence does not excuse the student from completing assigned work, including exams.

This policy shall be applicable to all courses within the University.

Responsible Attendance and Performance
Students must show diligence and are normally expected to complete the courses they elect. Irresponsible attendance is wasteful of both student and University resources. Those students who consistently receive excessive marks of I (incomplete), WF (Withdrawal Failing), WN (Withdrawal Non-Attendance), or WP (Withdrawal Passing) may be refused the privilege of further registration by the dean or the dean's designee of their school or college.

Student Code of Conduct
High standards of student conduct play a major role in creating an environment of excellence and the Student Code of Conduct is used to maintain these standards. The code:
1. establishes the expectations that students are accountable for their behavior;
2. describes acceptable student conduct, both academic and non-academic;
3. describes disciplinary policies and procedures;
4. specifies the rights of students and other parties; and
5. specifies prohibited conduct and sanctions to be imposed if such conduct occurs.

Examples of prohibited conduct subject to the Student Code of Conduct include, but are not limited to, academic misbehavior, knowingly furnishing false information to the University, disorderly behavior, theft, damage of property, illegal drugs, weapons on campus, physical assault, unauthorized entry, violation of criminal law, etc.

The University Student Conduct Officer, housed in the Dean of Students Office, monitors the student disciplinary process and is responsible for coordinating matters involving student discipline; describing the disciplinary procedures; and informing students and other parties of their rights. Copies of the Student Code of Conduct can be found online (http://www.doso.wayne.edu/codeofconduct.pdf) at or in the Dean of Students Office, 351 Student Center.

Student Academic Ethics
Academic Records: The submission of fraudulent academic records for admission or transfer of credit by a student may be cause for the student's dismissal.

Academic Work: Academic work submitted by a student for credit is assumed to be of his/her own creation, and if found not to be, will constitute cause for the student's dismissal.
Student Rights and Responsibilities

Upon the recommendation of the Student-Faculty Council, the University (Faculty) Council, the President-Deans Conference and the President, the Board of Governors, in January, 1967, approved a comprehensive statement of Student Rights and Responsibilities for the University. Copies of this document are available to students and faculty in the offices of the deans of each College and the Dean of Students Office.

Law School: The faculty of the Law School has approved a set of academic regulations specifically applicable to Law School students, copies of which are available to all students enrolled in the Law School.

Undergraduate Academic Probation

An undergraduate student whose cumulative grade point average (g.p.a.) falls below 2.00 will be placed on Academic Probation. An ‘Academic Probation’ status is placed on the student’s record and the student shall be permitted to register only after consultation with, and approval has been granted by, a designated University advisor.

A student shall be given two subsequent terms for enrollment on probationary status. At the conclusion of the two terms, a student who has not achieved a cumulative g.p.a. of at least 2.00 shall be excluded from his/her program. A student excluded from the University may not apply for readmission or reinstatement for one calendar year.

Each School and College may establish more stringent Probation, Exclusion, and Appeal policies, and students should consult the appropriate Dean’s Office. The Probation Committee of the University Advising Center is responsible for monitoring the University Probation and Exclusion Guidelines for Students in the College of Liberal Arts and Sciences, and the College of Fine, Performing and Communication Arts. Students must consult with an academic advisor regarding appropriate deadlines for academic hold releases and/or reinstatement procedures.

Grade Appeal Procedure

Students should first seek to settle grade disputes informally with the instructor. Each College and School has established formal grade appeal procedures. These procedures are available from the Dean’s Office of the College or School. In most instances, formal grade appeals must be filed within thirty days of the time the student has or should have received his/her final grade.

Academic Appeal Procedure

In matters where a College’s signed final decision is based upon the evaluation of a student’s academic performance, and when review procedures available to him/her within the College have been exhausted, the student may request the Provost to review that decision on the record. A written Request for a Provost Review must be made by the student himself/herself, with a copy to the Dean of the College, postmarked within thirty calendar days of the postmark of the College’s final decision, which is to be sent to the address provided by the student in the College’s review procedures. The Request for a Provost Review should outline any additional arguments the student wishes to be taken into consideration by the Provost’s review. The Provost’s review of the College’s decision will proceed as soon as practicable after notification by the student of his/her wish to seek review.

The student may also file with the Provost a Request for a Postponement of the effect of the College’s final decision. Such a Request must be postmarked within seven calendar days of the postmark of the College’s final decision, and a copy must be sent to the Dean of the College. Upon receiving a Request for Postponement, the Provost will immediately contact the Dean. Unless the College demonstrates clearly and convincingly that the injury to the College or to third persons that would result from such a postponement would outweigh the injury to the student from denying the postponement, the effect of the decision rendered by the College must be postponed until the date that the Provost issues a decision regarding the underlying Request for Provost Review. The Provost will inform the student and the Dean of her/his decision regarding the Request for Postponement within three school days after receiving the request. Exceptions to this procedure may be granted by the Provost upon a showing of good and sufficient cause.

Academic Nepotism Policy

Faculty members are not to place themselves, or allow themselves to be placed, in situations amounting to ‘academic nepotism,’ i.e., teaching or otherwise directing the credit study or research of a student who is also a close relative. Concomitantly, students are not to take courses from close relatives or engage in research for academic credit under the direction of close relatives. All such credit will be disallowed.

Fraud and Misuse of Documents

Intentionally furnishing false information to the University is explicitly prohibited, as is forgery, alteration, unauthorized possession, or misuse of University documents, records and identification cards. The University reserves the right to rescind degrees if the award of the degree was based in whole or in part on deception, fraud, other unacceptable academic conduct, or misuse of University documents.

Accreditation

Wayne State University as a whole is accredited as a doctoral degree-granting institution by the regional accrediting agency:

The Higher Learning Commission
230 South LaSalle St., Suite 7-500
Chicago, Illinois 60604-1411
telephone: 800-621-7440.

In addition, many specific programs and curricula are accredited individually by specialized or professional accrediting agencies. A report is produced annually for the Board of Governors which designates the accrediting agencies of the University’s programs; the report is available from the Office of the Provost (https://provost.wayne.edu/apr/accreditations). The principal accreditation agencies are as follows:

Mike Ilitch School of Business
BS and BA, MBA, MS in Taxation, MS in Accounting, and PhD:
Accreditation Council of AACSB International – The Association to Advance Collegiate Schools of Business (AACSB)

Education

Art Therapy Program: American Art Therapy Association

Counseling (graduate only): Council for Accreditation of Counseling and Related Educational Programs (CACREP)

Educational Psychology, School Psychology concentration (Ph.D. only): National Association of School Psychologists

Kinesiology Doctoral Program: National Academy of Kinesiology/Physical Education

Rehabilitation Counseling and Community Inclusion (graduate only): Council on Rehabilitation Education (CORE)

Teacher Education Programs: Teacher Education Accreditation Council (TEAC)
**Engineering**
Division of Engineering (undergraduate): B.S. degrees in Biomedical Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Engineering, and Mechanical Engineering: Accreditation Board of Engineering and Technology, Inc. (ABET, Inc.)-Engineering Accreditation Commission
Division of Engineering Technology (undergraduate): B.S. degrees in Electrical/Electronic Engineering Technology, and Mechanical Engineering Technology: Accreditation Board of Engineering and Technology, Inc. (ABET, Inc.) Technology Accreditation Commission

**Fine, Performing And Communication Arts**
Communication (B.A. in Public Relations): The Public Relations Society of America, Inc. (PRSA)
Dance: National Association of Schools of Dance (NASD)
Music: National Association of Schools of Music (NASM)
Theatre: National Association of Schools of Theatre (NAST)

**Law**
American Bar Association (ABA) and American Association of Law Schools (AALS) (Joint Committee)

**Liberal Arts and Sciences**
B.S. in Chemistry: American Chemical Society (ACS)
B.S. in Biochemistry and Chemical Biology: American Society for Biochemistry and Molecular Biology
Communication Sciences and Disorders (Doctor of Audiology and M.A. in Speech Language Pathology only): American Speech-Language-Hearing Association, Council on Academic Accreditation (CAA) in Audiology and Speech-Language Pathology
Nutrition and Food Science (Coordinated Program in Dietetics): Accreditation Council for Education in Nutrition and Dietetics
Political Science (Master of Public Administration): Network of Schools of Public Policy, Affairs and Administration (NASPAA)
Psychology (Clinical Training Program): American Psychological Association (APA)
Urban Planning (Master of Urban Planning): Planning Accreditation Board (PAB)

**Library and Information Science**
MLIS: American Library Association (ALA)

**Medicine**
Continuing Medical Education: Accreditation Council for Continuing Medical Education (ACCME)
Doctor of Medicine Degree Program (M.D.): Liaison Committee on Medical Education (LCME), representing the American Medical Association and the Association of American Medical Colleges
Genetic Counseling (Master of Science in Genetic Counseling): Accreditation Council of Genetic Counseling
Graduate Medical Education Programs, Affiliated Hospitals’ Resident Physician Programs: Accreditation Council on Graduate Medical Education (ACGME)

**Eugene Applebaum College of Pharmacy and Health Sciences**
Clinical Laboratory Science: National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
Mortuary Science: American Board of Funeral Service Education, Inc. (ABFSE)
Nurse Anesthesia: Council on Accreditation of Nurse Anesthesia Educational Programs (COA)
Occupational Therapy: American Council on Occupational Therapy Education (ACOTE)
Pathologists’ Assistant Program: National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)
Pharmacy (Doctor of Pharmacy): American Council on Pharmaceutical Education (ACPE)
Physical Therapy: Commission on Accreditation in Physical Therapy Education (CAPTE), American Physical Therapy Association
Physician Assistant Program: Accreditation Review Committee on Education for the Physician Assistant, Inc. (ARC-PA)
Radiation Therapy Technology (undergraduate): Joint Review Committee on Education in Radiologic Technology (JRCERT)
Radiologic Technology (undergraduate): Joint Review Committee on Education in Radiologic Technology (JRCERT)

**Social Work**
Bachelor of Social Work and Master of Social Work: Council on Social Work Education (CSWE)

**Administration of the University**
The general governance of Wayne State University is constitutionally vested in the Board of Governors, consisting of eight popularly elected members and the President of the University, who is named by the elected members. The President is the chief executive officer of the University and is charged by the Board of Governors with responsibility for its administration. For educational and administrative purposes, the University is organized into major academic units - schools, colleges, divisions, centers and institutes. The following schools, colleges and divisions offer degree programs in their respective areas and together constitute the heart of the University.

Mike Ilitch School of Business
College of Education
College of Engineering
College of Fine, Performing and Communication Arts
Irvin R. Reid Honors College
Graduate School
The Dean of the College or School is its chief executive officer. More than half the Colleges and Schools are organized into departments or divisions, each administered by a chairperson (or head). Academic standards, curricular development, course revision and similar academic matters are the primary responsibility of the faculty and dean of the College or School, although these matters are subject to review and approval by the Provost and Senior Vice President for Academic Affairs and by the President and, whenever they involve major educational policy decisions, by the Academic Senate.

The Graduate School is the central unit for the supervision and encouragement of graduate work in the University and has basic responsibility for the improvement and review of existing programs and the approval of new graduate programs. Except for applicants and candidates for the Doctor of Philosophy degree, the detailed supervision of graduate students' work is conducted by the College and School and, where appropriate, by the departments.

All degrees are granted by the University through the Colleges and Schools, except that the Dean of the Graduate School, with the approval of the Graduate Council, recommends candidates for the Doctor of Philosophy degree, selected master's degrees and interdisciplinary graduate certificate programs.

**Board of Governors**

MICHAEL BUSUITO
DIANE L. DUNASKISS
MARK GAFFNEY
MARILYN KELLY
DAVID A. NICHOLSON, Vice-Chair
SANDRA HUGHES O'BRIEN, Chair
DANA THOMPSON
KIM TRENT

M. ROY WILSON, *ex officio*

**President and Cabinet**

M. ROY WILSON, M.D., President of the University
KEITH WHITFIELD, Ph.D., Provost and Senior Vice President for Academic Affairs

SUSAN BURNS, B.Mus., Vice President for Development and Alumni Affairs and President of the Wayne State University Foundation
MARCITA T. CHAMBLEE, Ph.D., Associate Provost for Diversity and Inclusion and Chief Diversity Officer
WILLIAM DECATUR, J.D., Vice President, Finance and Business Operations and Treasurer and Chief Financial Officer
AHMAD EZZEDDINE, Ph.D., Associate Vice President for Educational Outreach and International Programs and Senior Associate to the President for Special Initiatives
DAVID S. HEFNER, M.P.A., Vice President for Health Affairs
STEPHEN M. LANIER, Ph.D., Vice President for Research
LOUIS LESSEM, J.D., Vice President and General Counsel
PATRICK O. LINDSEY, M.A., Vice President for Government and Community Affairs
JULIE MILLER, M.A., Vice President and Secretary to the Board of Governors

EDWARD (NED) STAEBLER, M.S., Vice President for Economic Development
MICHAEL WRIGHT, M.B.A., Vice President of Marketing and Communications and Chief of Staff

**Academic Administrators**

ELLEN BARTON, Ph.D., Associate Provost for Academic Personnel
DEEPAK BHALLA, Ph.D., Interim Dean of the Eugene Applebaum College of Pharmacy and Health Sciences
RICHARD BIERSCHBACH, J.D., Dean of the Law School
JERROLD BRANDELL, Ph.D., Interim Dean of the School of Social Work
MONICA BROCKMEYER, Ph.D., Associate Provost for Student Success
JON CAWTHORNE, Ph.D., Dean of the School of Library and Information Science
LAURIE LAUZON CLABO, Ph.D., Dean of the College of Nursing
R. DARIN ELLIS, Ph.D., Associate Provost for Academic Programs and Associate Vice President for Institutional Effectiveness
ROBERT FORSYTHE, Ph.D., Dean of the Mike Ilitch School of Business
FARSHAD FOTOUIHI, Ph.D., Dean of the College of Engineering
JERRY HERRON, Ph.D., Dean of the Irvin D. Reid Honors College
DAREN HUBBARD, M.B.A., Chief Information Officer and Vice President, Computing and Information Technology
CELESTE LEZUCH, M.S.A., Assistant Vice President for Academic Administration
AMBIKA MATHUR, Ph.D., Dean of the Graduate School and Associate Provost for Scientific Training Workforce Development and Diversity
DAWN MEDLEY, Ed.S., Associate Vice President of Enrollment Management
MATTHEW L. OUELLET, Ed.D., Associate Provost and Director of Office for Teaching and Learning
WAYNE RASKIND, Ph.D., Dean of the College of Liberal Arts and Sciences
MATTHEW SEEGER, Ph.D., Dean of the College of Fine, Performing and Communication Arts
JACK SOBEL, M.D., Dean of the School of Medicine
R. DOUGLAS WHITMAN, Ph.D., Dean of the College of Education
SANDRA G. YEE, Ed.D., Dean of University Libraries and of the School of Library and Information Science

**Admission: Graduate School**

OFFICE OF GRADUATE ADMISSIONS
5057 Woodward, Suite 6305
Detroit MI 48202
Telephone: 313-577-4723; Fax: 313-577-0131
http://wayne.edu/admissions/graduate

**Admission: Graduate**

To be considered for graduate admission, an applicant must hold or be completing an earned baccalaureate degree or its equivalent from a college or university of recognized standing and have adequate preparation with discernible ability to pursue graduate studies in the major field elected. These criteria are subject to standards set by the individual Colleges and Schools, which reserve the right to revise or amend their entrance requirements beyond the minimal requirements of the University. Note: Proof of the earned bachelor’s degree must be submitted before regular admission will be granted.

Before any student can be considered for admission to graduate study, the following must be submitted to the Office of Graduate Admissions: A completed online Application for Graduate Admission and an official transcript from any college or university at which a bachelor's degree was earned. A transcript is considered official only if it is sent directly from the institution where the course work was completed and bears an official seal. International applicants are expected to submit additional
documentation for regular admission. Note: The applicant is also responsible for arranging to take any examinations that may be specified by the Office of Graduate Admissions, the College, or the Department in which the student intends matriculation.

Some academic programs may require an additional departmental application for admission. Students are advised to contact the department to which they are applying and request full particulars on admission procedures.

In most departments (see the departmental sections of this bulletin for variants), a regular admission may be authorized for the domestic master’s degree applicant upon the department’s recommendation, if the applicant’s grade point average is 2.75 (C=2.00) or above for the upper division (approximately the last sixty semester credits) of his/her undergraduate course work and if he/she holds a bachelor’s degree from a regionally accredited institution.

All baccalaureate graduates of unaccredited institutions must present a 3.00 (B) or better upper-division grade point average to be considered for graduate admission. Course work completed after the baccalaureate which is presented as the qualifying basis for graduate admission cannot be applied toward a graduate degree at Wayne State University.

Doctoral applicants must present higher entrance qualifications than those required of master’s degree applicants. A doctoral applicant is required to have an undergraduate grade point average of 3.0 (B=3) or above for the upper division of the undergraduate, bachelor’s degree course work and must have completed an undergraduate major or substantial specialized work in his/her proposed doctoral major field. Certain departments require the completion of a master’s degree with superior scholarship before considering acceptance of a student as a doctoral applicant. Applicants with less than a 3.0 grade point average in undergraduate course work may be eligible for admission to doctoral study if they have subsequently achieved a grade point average of 3.0 or better in substantial graduate course work in the proposed doctoral field.

The individual colleges reserve the right to refuse a non-resident admission if such admission prevents registration of a qualified Michigan resident. This ruling may not be invoked to secure admission to a Michigan resident if his/her grade point average entitles him/her to qualified status only.

Admission: Qualified Graduate

In most Departments, qualified admission to a master’s or certificate program may be authorized if an applicant’s grade point average is between 2.50 and 2.74 or if his/her degree is from a non-accredited institution, provided the major Department and the Graduate Officer of the appropriate School or College have reviewed the applicant’s academic experience, extra-scholastic qualifications and reasons for pursuing graduate study and have recommended his/her admission to the Graduate School.

Upon recommendation of the Department and the Graduate Officer of the appropriate College or School, qualified status may be granted to an applicant whose grade point average is below 2.5, if, since the time his/her baccalaureate degree was conferred, he/she has shown substantial evidence of academic or extra-scholastic qualifications of such merit as to warrant special consideration.

Applications from students who have completed substantial course work at, and/or graduated from, institutions which were not accredited by one of the six regional U. S. accrediting institutions (MSCHE, NEASC, HLC, NWCCU, SACS, or WSCUC) at the time studies were undertaken, will have a special review. If requested, the applicant will be required to furnish documentation of the nature and level of the credit obtained, the bases on which the credit was awarded, institutional operating practices, library holdings, physical facilities, faculty qualifications, and any other matters that may be relevant to an evaluation of credit. The director of admissions is authorized to deny admission to any applicant whose previous education does not conform to Graduate School standards. The Office of Graduate Admission may also make recommendations concerning the appropriateness for transfer of previously completed graduate course work.

All graduate admission procedures and regulations are subject to revision by the University Graduate Council at any time.

Graduate Application Dates

The Office of Graduate Admission will make every effort to process applications in time for the semester of the student’s choice. However, only complete applications received by the last recommended dates shown below are ensured academic review before the semester starts. Unless an application and all supporting materials are received by the date indicated, there may not be adequate time for the desired program to review the application and make the admission decision.

Fall Term — Classes begin Late August: apply by June 1
Winter Term — Classes begin Early January: apply by October 1
Spring Term — Classes begin Early May: apply by February 1

For international students, the application form and all transcripts and documents must be on file in the Office of Graduate Admission at least four months prior to the start of the term in which the applicant plans to begin graduate studies.

Several Colleges and Departments have earlier deadlines. Doctoral programs also have earlier application deadlines. Students should consult the School/College and Department sections of this bulletin, the program’s website, or the Office of Graduate Admissions for complete information.

Change of Graduate Status

A Change of Graduate Status is a type of admission only for those students who have previously been admitted to and registered as regular graduate students at WSU. For such students, a Change of Graduate Status is used to request:

1. to change from one graduate program or level to another graduate program or level; or
2. to add a second graduate program to the one in which the student is already enrolled.

A department’s normal admission criteria apply to Change of Graduate Status applicants. The application form (http://gradschool.wayne.edu/current/forms.php) is downloadable from the Graduate School.

Students should submit the form and transcripts, if needed, to the Graduate Office of the School/College of the new program. Other admission documents required by the department should be submitted directly to the department. The School/College Graduate Office prepares and sends the application and documents to the department for decision. The Graduate Office notifies the student of the admission decision, and, if admission was approved, notifies the Records Office of the change to be made to the student’s record. The department’s regular admission deadlines apply. No fees are charged for a Change of Status application.

The Change of Graduate Status application should NOT be used by the following students: those who have never been admitted through the Office of Graduate Admissions, those who were admitted but did not register, those who were admitted on a Permit to Register or as Guest students, and those who have been registered in graduate classes only.
as Non-Matriculated students through the College of Liberal Arts and Sciences.

**Graduate Non-Degree Admission**

An applicant who wishes to take graduate courses but does not wish to be in a degree program may request admission on a non-degree basis. The eligible applicant will be admitted to a particular College but not to an individual major program. In most instances, a non-degree student may, with the Department's approval, register for any courses for which he/she has the necessary preparation.

The applicant for a non-degree graduate classification is cautioned that only one semester of full-time graduate study, or part-time registrations not to exceed nine credits, is normally permitted in this classification. Beyond these limits, registration as a non-degree student requires the approval of the Graduate Officer of the student's College. Not more than nine credits, subject to the approval of the Graduate Officer, may be applied at a later date toward the residency and credit requirements for either the master's or Ph.D. degree. For the Ed.D. degree, credit earned beyond the nine-credit limitation will be reviewed by the appropriate Division and the Education Graduate Officer for possible application toward the degree.

If a student in non-degree status decides to seek admission to a graduate degree program, he/she should apply to the appropriate College Graduate Office for a Change of Status before completing nine credits. There is no assurance that credits earned while holding a non-degree classification will be acceptable in a degree program, or that prerequisites may not have to be specified if the student later becomes a degree applicant. Also, financial aid is not available to students in Non-Degree status.

**Graduate Guest Admission**

Graduate students actively pursuing degrees and who are in good standing at other accredited colleges and universities may be admitted to elect a limited number of credits at Wayne State University. Interested students may obtain a Graduate Guest Application (http://wayne.edu/admissions/graduate/applying/app-instructions) from the Graduate Admissions. This must be signed by their home institution before it can be accepted for consideration. A guest admission is valid for only one semester and must be renewed with each subsequent registration. A maximum of twelve semester credits may be earned as a Graduate Guest Student. Admission as a Graduate Guest student does not constitute permission to register as a degree applicant.

**Senior Rule**

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. A Senior Rule student must register for at least one credit which is required for the undergraduate degree in order to be eligible for this status. Students who have completed all required registrations for the baccalaureate may not obtain Senior Rule status. Completion of the Application for Graduate Admission is required, and students are advised to consult their advisors and the Office of Graduate Admissions. Application deadlines for Senior Rule admission are the same as for regular graduate admission. Students who qualify and are recommended by the Department or College will be admitted for one semester. Graduate admission will be regularized upon evidence that the student has completed all requirements for the bachelor’s degree; it is the student’s responsibility to provide this transcript.

As a courtesy, the University permits a student to pay undergraduate fees for the graduate courses elected in a Senior Rule status. It is recommended that students elect only courses numbered 5000-6999 in their Senior Rule semester.

**AGRADE: Accelerated Graduate Enrollment**

Several Colleges have established an accelerated combined undergraduate and graduate program (AGRADE) in which highly qualified seniors in the college may enroll simultaneously in some undergraduate and graduate programs of the College. A maximum of sixteen credits may be applied towards both undergraduate and graduate degrees in a student’s major field if that program is an AGRADE participant. Those who elect the AGRADE program may expect to complete the Bachelor’s and Master’s degrees in five years of full-time study.

AGRADE Credits: Students may elect a minimum of three and a maximum of sixteen AGRADE credits. These will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master’s program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program.

Eligibility: AGRADE applicants must have an outstanding overall g.p.a. and have performed at a superior level in their major, as determined by the major department. The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes ninety credits toward the undergraduate degree.

Application: A student seeking AGRADE status should present to the Graduate Admissions Committee of his/her major department all of the materials which that department requires for normal admission (except the GRE; where required, the GRE scores should be forwarded at the normal point in the formal graduate admission process).

Admission and program requirements are described in the respective School and College sections of this bulletin, the Undergraduate Bulletin, and department advising offices.

**Permit to Register Status**

This is a one-term-only admission status which may be granted to applicants with incomplete applications for graduate admission, at the discretion of the academic department, and upon presentation of evidence of an earned baccalaureate degree with an acceptable grade point average and the application fee. Registration beyond the initial semester requires the submission of a regular graduate admission application, official transcripts and other required documentation as determined by the university and department. Admission as a graduate Permit-to-Register student does not obligate Wayne State University to accept the applicant in the future for a graduate degree, nor is there any assurance that credit earned in this status will be accepted toward a graduate degree.

This option is not available in all University Schools and Colleges. Applicants are encouraged to discuss admission options with the staff of the Office of Graduate Admissions. In addition, financial aid is not available to students in Permit to Register status.

**Michigan Intercollegiate Graduate Studies (MIGS) Program**

The Michigan Intercollegiate Graduate Studies (MIGS) Program enables graduate students of Michigan public institutions to take advantage of
educational opportunities at other Michigan public institutions offering graduate degrees. Any graduate student in good standing in a master’s, specialist, or doctoral program at a member institution is eligible to participate with approval of the appropriate academic unit. Students on a MIGS enrollment pay tuition and other fees at the host institution. All credits earned under a MIGS enrollment are accepted by a student’s home institution as if offered by that institution. This type of enrollment is limited to one term for master’s or specialist degree students, or two terms for doctoral degree students. Students interested in this program should contact the Office of Graduate Admissions (https://wayne.edu/admissions/graduate/application-types) for further information.

University of Windsor – WSU Exchange Program Agreement
Wayne State University and the University of Windsor have entered into an exchange agreement whereby students from each institution may enroll in selected courses at the other institution. Courses available are limited to those not offered at the student’s home institution. Limitations also apply to the number of courses and credits a student may take under this agreement. Wayne State University and the University of Windsor students who wish to participate in the program must be in good standing at their home institution and must have prior approval of the appropriate academic unit that the course(s) will be accepted as part of the student’s course of study. Students who participate in the Wayne State University/University of Windsor program pay tuition and fees at the home institution and receive credit for the course(s) only at the home institution. Students should consult the Director of the Office of Study Abroad for further information.

Post-Bachelor Admission
The Post-Bachelor status is granted to college/university graduates who wish to take Wayne State University courses through the 6000 level for undergraduate credit only. The status serves two groups of students:

1. Those who wish to pursue vocational or avocational interests without intending to use Wayne State University credit to earn another degree at Wayne State University,
2. Those who seek admission to a graduate program but need to raise their undergraduate grade point average and/or fulfill specific undergraduate course requirements for graduate admission consideration.

The following special rules apply to Post-Bachelor Admission:

1. Under no circumstances will credit earned in this status apply toward a graduate degree program.
2. The applicant must present evidence of a degree earned from an accredited institution (official transcript or diploma).
3. Post-Bachelor status students are not eligible for financial aid from Wayne State University, except in certain circumstances depending on the program; students should consult the Office of Student Financial Aid (http://www.finaid.wayne.edu) for a list of eligible programs.
4. Applications for Post-Bachelor status from students new to Wayne State University should be made to the Office of Undergraduate Admissions, Welcome Center, 42 W. Warren, Wayne State University.
5. An applicant who earned an undergraduate degree from Wayne State University, or who was previously admitted and registered in a Wayne State graduate program, should contact the Records Office to be re-admitted to the University as a Post-Bachelor student. Post-Bachelor applicants in the Colleges of Education and Nursing must obtain authorization directly from the College.

International Graduate Students
To be considered for graduate admission, international applicants must have completed an appropriate university-level program comparable in subject matter and credits to a program for which a bachelor's degree is awarded at Wayne State University.

The fact that a degree in another country may have a similar name to a degree offered in the United States does not mean the two degrees require similar lengths and content of study or that they should be accepted as equivalents. All graduate applicants must:

1. present an excellent scholastic record;
2. have sufficient financial resources for minimum tuition, supplies and living expenses; and
3. have a sufficient proficiency in English (see the section on English Proficiency Requirement — International Students, below).

FINANCIAL AID: University-sponsored financial assistance for international students is extremely limited and unconfirmed awards should not be included in financial projections.

English Proficiency Requirements
Graduate applicants who graduated from colleges/universities in other countries must demonstrate proficiency in English. To fulfill this requirement an applicant must satisfy one of the following criteria:

1. Complete baccalaureate degree requirements at an accredited U.S. institution or in a country where English is the native language.
2. Present an acceptable score on the Michigan English Language Assessment Battery (MELAB).
3. Present an acceptable score on the Test of English as a Foreign Language (TOEFL) or equivalent tests such as the IELTS or PTE.

Some units may elect to grant qualified graduate admission to academically-talented International Students whose TOEFL scores fall slightly below the University minimum score. Interested students should contact the chairperson or director of their prospective program, to determine whether the program offers such qualified admission. For further information on the English Proficiency policy, please consult the Office of Graduate Admissions.

Faculty Admission
Tenured Wayne State University faculty members holding the rank of Assistant Professor or above may be admitted to Wayne State graduate degree programs outside the faculty member’s school/college, under certain specified conditions. Untenured tenure-track faculty members are not eligible to pursue a graduate or professional degree at Wayne State while in University employment. Faculty members who are not tenured and not on the tenure track may enroll in degree programs outside their own unit with the approval of the dean of their college. For further information, contact the Dean of the Graduate School.

Special Status Students
Visiting Doctoral Guest
The Graduate School may issue a Visiting Doctoral Guest certificate to persons with an earned doctorate who come to Wayne State for scholarly study under the sponsorship of a department. Such Guests may obtain University library privileges and attend classes upon invitation of the department. No official record of attendance is kept on such Guests. For further information, contact the Graduate School.
Visiting Scholar
The Graduate School may issue a Visiting Scholar certificate to persons who have an advanced degree, such as an M.D., or are earning a doctoral degree, and who have come to Wayne State for scholarly study under the sponsorship of a department. Scholars may obtain University library privileges and attend classes upon invitation of the department. No official record of attendance is kept on such Scholars. For further information, contact the Graduate School.

Admission: Undergraduate
Office of Undergraduate Admissions and Orientation
Welcome Center
42 W. Warren Avenue
PO Box 02759
Detroit, MI 48202
Telephone: 313-577-2100, Fax: 313-577-7536
http://wayne.edu/admissions

Service Hours: The Office of Undergraduate Admissions assists students by, telephone, and on a walk-in basis during posted service hours.

The Office of Undergraduate Admissions has the primary function of recruiting, admitting, and enrolling new undergraduate students to the University. This office also helps to coordinate the recruitment activities of individual departments, alumni groups, and students. The office organizes visits and programs at local high schools and community colleges as well as in the State of Michigan and selected regions outside of the State.

Also included in functions of the Office of Undergraduate Admissions are administration of the Presidential and Wayne State merit-based scholarships.

Application for Undergraduate Admission
An official application for Undergraduate Admission (http://www.apply.wayne.edu) should be completed online. There is a $25.00 application fee.

Freshmen Admission Guidelines
Admission to Wayne State is selective. In order to qualify for admission an applicant must submit an official high school transcript indicating college preparation, standardized test scores (ACT or SAT), and ability to undertake a college degree program. Admission decisions will be based on a full evaluation of each student's academic record. Students still in high school may apply after completion of their junior year.

Special Undergraduate Programs for Admission
The Center for Latino and Latin American Studies (CLLAS) and Academic Pathways for Excellence (APEX) both offer special undergraduate programs with additional admission standards. See descriptive information under the headings for: Center for Latino/a and Latin American Studies and Academic Pathways for Excellence (APEX).

Recommended High School Preparation
1. English (four years recommended): Effective use of the English language is central to one's ability to succeed at the University and in the professions and occupations for which our students are preparing. Students entering the University should be able to:
   a. comprehend the main and subordinate ideas in written works, lectures, and discussions; and
   b. conceive ideas about a topic and be able to organize them for presentation in both verbal and written forms.

2. Mathematics (four years recommended): While most careers for which University students are preparing require mathematical competency, an increasing number of careers in science and technical curricula require advanced preparation in mathematics. Entering students should be able to:
   a. understand ratios, proportions, percentages, roots and powers; and
   b. perform the mathematical operations of algebra and geometry.

3. Biological and Physical Sciences (three years recommended): A basic understanding of the physical and biological sciences is essential for many fields of college-level study and is necessary if one is to comprehend our world and the impact of science and technology on it. Students should be acquainted with:
   a. concepts of matter, energy, motion and force and the natural laws and processes of the physical sciences in general;
   b. the science of life and living matter with special reference to growth, reproduction and structure; and
   c. laboratory methods.

4. Social Sciences/History (three years recommended): Students should study different cultures and societies – their social systems, customs, communities, values, economies, governments, and politics. A knowledge of the main events and ideas that have shaped our nation and its place in the world should also be possessed by entering students. They should understand how the past bears upon the present condition and future course of mankind. As the social sciences improve one's appreciation of the scientific method and other approaches to critical analysis, an understanding of history is required for an informed exercise of citizenship in a free society.

5. Foreign Languages (two years recommended): Proficiency in a foreign language not only introduces students to non-English speaking cultures but also heightens awareness and comprehension of one's native tongue. Language is the basic instrument of thought, and the ability to read, speak and write in a foreign language permits one to understand another culture in a more fundamental way. Foreign language competency will open up career opportunities denied to those without it.

6. Fine Arts (two years recommended): Students entering the University should be acquainted with the visual and performing arts, through study and/or participation. Several academic disciplines at the University require high levels of skill in the arts. Study in this area enriches life and heightens one's sense of beauty and aesthetic perception.

7. Computer Literacy: Some formal instruction in the logic and use of computers in problem solving and data retrieval is increasingly important in all fields of study.

Transfer Admission
Transfer students are considered for admission if they meet the following minimum requirements:

A transfer applicant may be admitted, without consideration of high school work, upon completion of at least twenty-four semester credits of transferable college-level coursework from an accredited college or university with an overall grade point average of 2.5 and with no courses below a C grade for transferable credit. If the applicant has fewer than twenty-four semester credits of transferable college-level coursework, the applicant may be admitted provided freshmen admissions guidelines are met, subject to a holistic evaluation of each student's record. Students
who have attended unaccredited institutions should consult with an admission counselor to determine admissibility.

The Office of the Registrar governs the policies for the transfer of credit (p. 47) from other accredited institutions of higher education, both community colleges and baccalaureate-granting colleges and universities.

**MACRAO Agreement**
Wayne State University has signed an agreement making it easier for Michigan community college students to transfer to our institution. By becoming a signatory institution to the MACRAO (Michigan Association of Collegiate Registrars and Admissions Officers) agreement, WSU formally acknowledges that community college transfers who have select associate degrees or MACRAO-stamped transcripts from a community college will have met University General Education Requirements, thereby expediting these students’ path to graduation. This recognition will commence for students transferring to Wayne State beginning in Fall 2013. The conditions governing this agreement stipulate that Michigan community college students covered by the MACRAO agreement will still need to the senior-level writing intensive requirement and any requirements specific to a particular school/college or department within the student’s major field of study. Information can be found online. (http://www.macrao.org/Publications/MACRAOAgreement.asp)

**Michigan Transfer Agreement (MTA)**
The MTA is a more recent agreement than MACRAO. The MTA will take effect for students who begin their studies in the Fall 2014 semester, and it will eventually replace the MACRAO Agreement. Students who started prior to Fall 2014 will be able to complete the existing MACRAO Agreement until the end of the summer 2019. The thirty credits of lower-level General Education from the sending Michigan community college will be accepted as a block of thirty credits by Wayne State University as long as students earn at least a 2.0 in each course. Students may complete the MTA as part of an associate degree or as a stand-alone package. These thirty credits of lower-level General Education should be met according to the following distribution:

- One course in English Composition
- A second course in English Composition or 1 course in Communication
- One course in Mathematics
- Two courses in Social Sciences (from two disciplines)
- Two courses in Humanities and Fine Arts (from two disciplines and excluding studio and performance classes)
- Two courses in Natural Sciences including one with laboratory experience (from two disciplines)

If these courses do not add up to thirty credits then the student must take an additional course from one of these groups. The MTA’s block of thirty transfer credits will fulfill the majority of Wayne State’s General Education curriculum, and all courses will count toward students’ overall degree requirements. All Wayne State lower-level General Education requirements will be fulfilled by the MTA with the exception of either oral communication or intermediate composition. Because the MTA applies only to lower-level General Education, students will still need to satisfy our upper-level requirement for the Writing Intensive (WI), which is fulfilled in the student’s major field of study. Additionally, students must fulfill all requirements specific to school/college and academic programs.

**Special Requirements and Professional Admission**
The following Schools, Colleges and programs have requirements beyond those of regular undergraduate admission:

- Business (p. 70)
- Engineering (p. 136)
- Engineering Technology (p. 165)
- Fine, Performing and Communication Arts (p. 177)
- Nursing (p. 308)
- Pharmacy and Health Sciences (p. 316)
- Social Work (p. 341)

**International Undergraduate Students**
A student from another country desiring admission who is not a permanent resident or citizen of the U.S. should complete the International Admissions Application (https://wayne.edu/admissions/international). There is a $25.00 non-refundable application fee. A student from a country in which English is not the native language must take an English Language Proficiency Examination prior to admission or have a minimum Test of English as a Foreign Language (TOEFL) score of 550 (213 on computerized version). See the Office of International Programs for more information.

**Canadian Applicants**
Applicants who are a citizen or permanent resident of Canada should complete the Canadian Admissions Application (https://wayne.edu/admissions/canadian). There is a $25 non-refundable application fee.

**Non-Matriculated Status**
Non-matriculated status enables students to take undergraduate courses for which the prerequisites are met. Courses, credits and grades will be posted to the University’s transcript. However, these will be used toward fulfillment of a degree only after formal admissions is granted through the Office of Undergraduate Admissions. Students are encouraged to meet with an academic advisor prior to registering for courses. The non-matriculated application should be completed online (https://wayne.edu/admissions/non-matriculate). There is a $25.00 non-refundable application fee. The holder of non-matriculated status is ineligible for any type of loan, grant or scholarship that is administered by Wayne State University.

**Post-Bachelor**
Post-bachelor admission is an optimal choice for students who have already completed a bachelor’s degree and are interested in either earning college credit without intending to use it toward another degree, and those students needing to complete prerequisite course work to gain admission to a graduate program.

**Undergraduate Guest Admission**
Students currently attending an accredited institution of higher education who are interested in taking undergraduate courses at Wayne State for one semester, or who wish to register for courses concurrently are eligible to apply for Guest Admission (https://wayne.edu/admissions/guest). Requirements include the completion of twelve semester credits at the home institution and a minimum cumulative ‘C’ grade point average (equivalent to a 2.0 grade point average at Wayne State).
Re-Entry Following an Interruption in Attendance

Undergraduate students who were previously admitted and registered at Wayne State University and whose attendance has been interrupted need not reapply at the Office of Undergraduate Admissions. It is expected that students who left in good standing report to the College of their choice for any special instructions regarding their return to classes.

University of Windsor Exchange Agreement with Wayne State University

Wayne State University and the University of Windsor have entered into an exchange agreement whereby students from each institution may enroll in selected courses at the other institution. Courses available are limited to those not offered at the student’s home institution. Limitations also apply to the number of courses and credits a student may take under this agreement. Wayne State University and the University of Windsor students who wish to participate in the program must be in good standing at their home institution and must have prior approval of the appropriate academic unit that the course(s) will be accepted as part of the student’s course of study. Students who participate in the Wayne State University/University of Windsor program pay tuition and fees at the home institution and receive credit for the course(s) only at the home institution. Students should consult the Director of the Office for Study Abroad for further information.

Phoenix Program (Second Start)

The Phoenix Program provides undergraduate students who left Wayne State University on Probation or Dismissal with the opportunity to petition for return under a second-start policy. To be eligible for such admission, the student must not have enrolled at Wayne State University for at least five consecutive years, immediately prior to petition for the Phoenix Program. Petitions for re-entry are decided by the Dean of the School or College in which the student is matriculated or seeks to enter. With the approval of the Dean, the student and an academic advisor develop an academic contract, and the advisor closely monitors the student through the first twelve credits of course work.

To return to regular status, students must complete twelve semester credits with a grade of C or better within two years under the Phoenix Program (NOTE: a grade of C-minus is considered to be lower than a C). Students will be expected to complete degree requirements in effect at the time of their return to the University. Should students earn any grade below C in their first twelve credits in the Phoenix Program, they will be excluded from the University. To maintain the integrity of students’ academic records, previous course work will remain on the transcripts; however, the credits and grade point average (g.p.a.) will be adjusted to reflect the grade point average earned since the start of the Phoenix Program.

For information about the Phoenix Program, students should contact the Dean’s office of the School or College in which they have matriculated or wish to enter.

Bachelor’s Degree Requirements

To earn a bachelor’s degree at Wayne State University, a student must satisfy the following minimum requirements, as well as any other requirements for specific degrees stipulated by the Schools/Colleges, Departments, and Programs of the University:

1. Complete a minimum of 120 credits with a cumulative grade point average of 2.00 or higher for all Wayne State University course work.
2. Complete the University General Education Requirements (p. 31).
3. Complete all School/College, Departmental and Program requirements.
4. Complete a minimum of thirty credits at Wayne State University.
5. Observe the following credit limitations:
   a. Credit by special examination may not be counted as resident credit, but such credit, if earned during a semester in which the student is registered for a regular course(s), will not be considered an interruption of residence.
   b. Not more than thirty-two credits earned through one or more of the following programs will apply towards graduation: credit earned by the College-Level Examination Program, Advanced Placement, International Baccalaureate, Credit by Special Examination, or other credit earned for a course in which the student has not been regularly enrolled in a University course.
   c. Not more than sixteen credits by Special Examination may be earned in any one subject.
   d. A maximum of sixty-four credits transferred from a two-year institution may normally be applied toward graduation. Articulation agreements for specific programs may occasionally include more than sixty-four transfer credits, subject to board-approved academic policy.

Second Bachelor’s Degree

A student who holds a bachelor’s degree from any accredited institution may receive a second bachelor’s degree from Wayne State University by satisfying the following minimum requirements:

1. Complete at least thirty credits at Wayne State University beyond the first bachelor’s degree.
2. Meet all School/College, Department, and Program requirements for the degree.

Concurrent Degrees

A student who wishes to simultaneously receive two different bachelor's degrees from Wayne State University must satisfy the following minimum requirements:

1. Complete a minimum of 150 credits.
2. Complete all University, School/College, Department, and Program requirements for each degree.

Application for Graduation

Degrees are NOT awarded automatically upon completion of scholastic requirements. To be considered as a candidate for a degree, students must file an Application for Degree form with Student Records by the degree application deadline published in each term’s Academic Calendar, for the term in which the student expects to graduate.

Bulletin-in-Effect Graduation Policy

All undergraduate students at Wayne State University may choose to graduate under the academic regulations and degree requirements as stated in the Bulletin in effect at the time of their graduation or either of the three previous Bulletins, provided one of the Bulletins covers a period of the student’s registration. All requirements of the chosen Bulletin must be met. However, if necessary, the university-wide Bulletin in Effect Committee, Colleges, and Schools can make appropriate adjustments in order to accommodate students as best they can to adapt their previous coursework to a new Bulletin.

School/College Requirements

Schools/Colleges, Departments, and Programs may establish degree requirements above and beyond those stated here. For statements of any
such specific degree requirements, students should consult the School/College and Departmental sections of this bulletin.

**Application for Degree or Certificate**

Each candidate for a degree or certificate must file an Application for Degree (https://wayne.edu/commencement/apply-for-graduation), no later than the Friday of the fourth week of classes for the semester in which the student expects to complete the requirements for the degree or certificate. If an application for a degree was filed for a previous graduation term in which the student did not graduate, a new application and fee is required. Applications for graduation require that a $40.00 fee be paid in the online application process.

**Commencement**

Information concerning commencement announcements, caps and gowns, invitations, tickets, time and place, assembling and other relevant items will be mailed to the graduates by the Commencement Office (http://commencement.wayne.edu) prior to the event. Candidates for advanced degrees are requested and expected to attend the commencement at which the University confers upon them the honor of the degree earned.

**Campus Life**

**Dean of Students Office**

301 Student Center; 313-577-1010

The Dean of Students Office provides services and affords opportunities to enhance student life and campus activities. The Office coordinates major campus student activities and events, including Orientation Part 2 (O2), New Student Convocation and Festifall, Student Organizations Day, Homecoming, and the Finals Week Late Night Breakfast.

The office coordinates the campus calendar of student activities, community service programs; advises fraternities and sororities; and promotes student involvement in co-curricular life at Wayne State and Detroit including the Thursdays in the D series, the Discover Detroit series, the Weekends in the D series, the Arts in the D program, and the Campus Activities Team program board. The office also coordinates the Warrior Pride program focused on school spirit, and the Warrior Zone athletic events student section. The University Student Conduct Officer is housed in the Dean of Students Office and the office also coordinates the Student Care Report process.

The Dean of Students serves as the Deputy Coordinator for Title IX and the Student Life Wellness Coordinator resides in the Dean of Students Office and focuses on sexual violence prevention education, substance abuse prevention education, and digital citizenship education.

**Student Organizations:** There are over 400 recognized student organizations including such diverse categories as academic/ professional, social action, political, sororities/fraternities, honoraries, ethnic and religious groups, as well as student governments. Student organizations use the Dean of Students Office to process their event planning and all students use the Dean of Students Office to learn about getting involved in campus life. The Office staff also assists students who want to organize new student groups. The staff also coordinates various campus publications including the on-line newsletter Get Involved at Wayne. Student organizations can apply to the Student Activities Funding Board for funds to present events, programs, and activities on-campus.

The official student newspaper is the South End (http://www.thesouthend.wayne.edu).

**Parent and Family Services**

The Dean of Students Office coordinates Wayne State’s Parent and Family Services. Through this office, parents and family members receive the twice monthly parent and family newsletter and have services available to them to help them help their students be successful, including the parents helpline: 1-877-WSU-PARENT. The office may be e-mailed at: parents@wayne.edu.

**Student Senate**

395 Student Center
http://www.studentsenate.wayne.edu

The Student Senate is the recognized student government of Wayne State University. It consists of twenty-eight members, fourteen members at large elected in a University-wide election, and fourteen appointed members, one student representative appointed by the Office of Housing and Residential Life, and one representative appointed by the Associate Vice President for Educational Outreach to represent the extension centers. The Student Senate has an official advisory responsibility in policy formation for the governing of student activities at Wayne State. The Student Senate is advised by the Dean of Students Office.

**Student Leadership Awards**

The David D. Henry Award and the Howard A. Donnelly Award are given annually to the undergraduate man and woman at graduation who have been judged as having made the most outstanding contributions to the University in the areas of student activities, leadership and service. These contributions must be consistent with high scholarship during the recipient’s entire undergraduate career.

The David D. Henry Award was established in 1948 to honor the third University President and recognizes students completing their studies in the Fall semester. The Howard A. Donnelly Award was established in 1927 at the request of Mr. Howard Donnelly, a friend of the University, through a grant provided in his name. The Donnelly Award recognizes students completing their studies in the Winter semester.

The winners of these awards are determined by a faculty selection committee comprised of academic representatives from within the University.

**Office of Housing and Residential Life**

582 Student Center; 313-577-2116
http://www.housing.wayne.edu

Housing and Residential Life at Wayne State fosters student learning and success through engaging residents in an intentional living-learning community. Supported by safe, comfortable and convenient residence hall, apartment and dining environments, residents grow in self-awareness and cross-cultural understanding as they practice social and group development as members of a diverse group of Wayne State learners.

Facilities and programs administered by this Office are located just steps away from classrooms, libraries, the Student Center, and the Recreation and Fitness Center and combine the convenience and activity of the campus with the energy and pace of downtown urban living.

Ghafari Hall, Atchison Hall and the Towers Residential Suites all offer:

- Housing for freshmen, upperclassmen, and graduate students.
- Fully furnished rooms in a range of occupancies, all with private baths.
- Study rooms and social lounges on each floor.
- Wi-Fi throughout each building.

---

**Wi-Fi throughout each building.**
Designated special interest floors.

Live-in Community Directors and Student Resident Assistants.

Free cable.

Fully equipped laundry facilities.

Staffed 24-hour front desk with OneCard access system.

Food court style eateries including a vegetarian and Kosher dining facility.

Academic and social programming.

Housing is also available in the University's campus apartments. The top six floors of DeRoy Apartments are furnished. Students must have at least a sophomore standing to live in these furnished spaces. The remaining floors in DeRoy, as well as Chatsworth and University Tower Apartments are unfurnished spaces. To be eligible to live in the unfurnished spaces students must be at least twenty-one or have junior standing.

Chatsworth, DeRoy and University Tower Apartments offer:

- Internet access with Wi-Fi in DeRoy and University Tower.
- Free cable.
- Fully equipped laundry facilities.
- Staffed 24-hour front desk with OneCard access system.
- Refrigerator and Stove.
- Ability to purchase a meal plan.
- Activity rooms available for resident use.
- 24 hr on-call emergency maintenance.
- Live-in Community Directors and Student Resident Assistants.
- Central air conditioning throughout DeRoy and University Tower.

For more information, current pricing, and application contact the Office of Housing and Residential Life at the Website: http://www.housing.wayne.edu

Athletics, Intramurals and Recreation

Matthaei Facility: 126 Matthaei Building; 313-577-4295
Intramural Sports: Mort Harris Recreation and Fitness Center; 313-577-6712
Intercollegiate Athletics: 101 Matthaei Building; 313-577-4280
http://wsuathletics.com

Wayne State University has a rich athletic tradition dating back to the fall of 1917 and recently celebrated ninety-nine years of singular outreach and academic success. The first Detroit Junior College athletic event (precursor of Wayne State University) was a basketball game against the Detroit College of Law on January 19, 1918. Since then WSU student-athletes have captured numerous honors, including national championships awarded by the NCAA and conference championships. In the past ten years, 301 WSU student-athletes have been recognized as All-American, the most in any decade. In the ninety-nine year history, 591 students have been so recognized. Sixty-three percent (63%) of the nearly 400-plus student-athletes currently involved in competitive athletics have a 3.00 or better grade point average. According to the latest federally mandated report, WSU student-athletes graduate at a seventy-six percent (76%) higher rate than the comparable campus population. The athletic department provides competitive opportunities in the following sports: baseball, men's and women's basketball, men's and women's cross country, men's and women's fencing, football, men's and women's golf, softball, men's and women's swimming/diving, men's and women's tennis, volleyball, and women's indoor/outdoor track. Last season, seven out of seventeen programs competed in NCAA championships. In 2012, women's swimming and diving won the NCAA National Championship joining ten other programs to be so honored. The past fifteen years WSU Athletics has had its fifteen highest ratings in the annual NACDA Cup and in twelve of the past fourteen years finished in the top 12% of the 319 institutions in Division II. The NACDA ranks the top overall competitive intercollegiate athletic programs in the country.

The University competes in both the NCAA Division I (men's and women's fencing) and Division II levels with the other twelve University athletic programs competing in the Great Lakes Intercollegiate Athletic Conference (GLIAC). Members of the GLIAC are: Ashland University, Ferris State University, University of Findlay, Grand Valley State University, Hillsdale College, Lake Erie College, Lake Superior State University, Michigan Technological University, Northern Michigan University, Northwood University, Ohio Dominican University, Saginaw Valley State University, Tiffin University, and Walsh University.

The fencing teams compete in the Midwest Fencing Conference with Ohio State, Cleveland State, Detroit Mercy, and Northwestern, among other schools.

The University offers a wide and varied program of recreational and intramural activities. The Matthaei Complex, and the surrounding athletic campus on forty-three acres of land, located on the west end of campus, offers a myriad of drop-in activity areas that include courts and fields for basketball, football, jogging, racquetball, soccer, squash, tennis, and volleyball, a weight training/exercise room, and swimming facilities. Use of these facilities is free with a current University ID or with a membership through the Mort Harris Recreation and Fitness Center. The recently built Multipurpose Indoor Facility features 35,000 square feet of usable space, four tennis courts and a sprint track. Open recreation hours and rental information for this facility are available on: http://wsuathletics.com.

Ticket and schedule Information is available at the Athletic Office (http://WSUathletics.com), 101 Matthaei Building, 313-577-4280. All men's basketball and football games are broadcast on the Warrior Radio Network at WDTK-AM 1400 and FM 92.7 and are also available for free on the internet. Students are admitted free to all University-controlled WSU athletic events with a One Card.

Sports Facilities

Matthaei Building

Matthaei is normally open from 7:00 a.m. to 9:30 p.m., Monday through Friday; and is closed to recreation on Saturday and Sunday, during the fall, winter and spring/summer semesters. During the spring/summer semester the Building is open from 7:00 a.m. to 7:30 p.m., Monday through Friday. Outdoor tennis courts and track are available during posted hours. A facility schedule is published monthly. Operational hours are subject to change, and not all areas of the complex will be available at all times, due to scheduled classes, intramural activities and varsity athletics. Lap swim is available at the Matthaei for all affiliates and the lap hours are on the monthly recreation schedule, available online or hard copy at Matthaei. Locker and towel services are available for all affiliates daily with current OneCard at no charge. Locker rental plans both semester and yearly are also available. For charges and additional facility information, visit the Matthaei Shop in the Matthaei Building; or call 313-577-4260 or 577-4295.

Mort Harris Recreation and Fitness Center

The Mort Harris Recreation and Fitness Center is open from 5:30 a.m. to 11:00 p.m., Monday through Friday; and 10:00 a.m. to 7:00 p.m. on Saturday and Sunday, during the fall, winter and spring/summer semesters. Operational hours are subject to change, and not all areas of the complex will be available for open recreation at all times, due to scheduled group fitness classes, intramural activities, club sport activities, and varsity athletics. Locker and towel services are available for all students and members with a current OneCard. Locker rentals are available for semester and yearly rentals. For charges and additional
facility information, please visit the Mort Harris Recreation and Fitness Center (http://rfc.wayne.edu) website or call 313-577-2348.

Group Fitness Classes (non-credit)
These classes include a variety of programming, conducted by trained, certified and experienced instructors. Class options include yoga, cycling, Zumba, and a variety of strength and conditioning classes.

Open Recreation: The fitness areas, multi-purpose courts, walking track and climbing wall offer opportunities for unstructured play and participation. Basketball, volleyball, and a variety of equipment and areas for working out, stretching, and socializing are also available.

Intramural Sports Programs: Men’s, Women’s and Co-rec intramural sports leagues are available for all currently enrolled WSU students as well as WSU faculty/staff members of the facility. Leagues and tournaments are available in a variety of sports, including basketball, volleyball, dodgeball, flag football, soccer and more.

Club Sports: The Mort Harris RFC is also the home for all Club Sports. Students interested in starting up a particular club sports, are invited to consult our website (http://www.rfc.wayne.edu) to view the registration process and to become familiar with g.p.a., credit load, and insurance guidelines. All WSU Club Sports are fully funded by the participating students themselves.

Fitness and Wellness Programs: Fitness assessments, personal training, and group fitness programs for every level of fitness are available to all students and members.

Climbing Wall: The facility offers nine top rope anchors with dozens of routes which change regularly. All necessary equipment may be rented; day and yearly passes are available.

Adventure Trips: The Mort Harris Recreation and Fitness Center offers a variety of outdoor excursions for novices to seasoned adventures. Trips include but are not limited to whitewater rafting, kayaking, skydiving, skiing and snowboarding, fishing, camping, and mountain biking.

Team Building: The high ropes course is designed to foster interpersonal and intra-personal growth in a fun and challenging environment. Your Student Organization, Department, Corporation or group will climb up thirty feet and traverse through fifteen different elements that focus on teamwork and interdependency. Groups will learn to communicate effectively, listen to each member, recognize individual strengths and utilize collaborative efforts.

Student Center Administration
Student Center Administration (313-577-4585) is located in the lower level of the Student Center. This office schedules rooms and audio-visual equipment available for meetings, seminars, conferences and special programs. Bake sale, literature and vendor tables as well as Community Arts and St. Andrews reservations are also provided.

Student Center Administration provides the following services for a fee: duplicating service, SMART and DDOT bus passes, fax service, and State Hall locker rentals. In addition, Student Center Graphics, University Lost and Found, and the campus bulletin board posting service are located here.

Student Center Graphics (313-577-3730): Student Center Graphics is a student operated design and print shop. They provide design services and large format printing for the campus community and outside clients. SCG also provides items such as banners, posters, logo designs and consultations for a fee.

Religious Organizations
Various religious denominations have offices on the sixth and seventh floors of the Student Center. Programs and personal and spiritual counseling are available from various denominations. A reflection room is available on the 3rd floor of the Student Center.

Food Service Facilities
WSU has a variety of dining options. At the Student Center Building patrons will find the Panda Express, WingStop, Taco Bell, Starbucks, Mad Anthony’s General Store, and a Bene Pizza GrilleWorks combo location in the lower level. Other quick favorites include Starbucks cafes (one on Anthony Wayne Drive and one in the Bookstore), Subway (In Towers Residential Suites), Jimmy John’s, Einstein Bros. Bagels, Dunkin Donuts, and Freshii. Additional options include Al-Basha, LaPita Fresh, and HalfTime Café (Mazurek Medical Education Commons). Students can use their OneCard at all of these vendors.

Students, faculty, staff or guests looking for delicious, healthy choices, can also go to one of Wayne State’s two dining halls. Residential and commuter students, as well as faculty/staff, may purchase a meal plan, valid at Towers Cafe (in the Towers Residential Suites) offering all-you-care-to-eat breakfast, lunch and dinner. Towers Café stations include food ranging from the Mongolian grill, home-style favorites, international entrees, build your own deli sandwiches, hand crafted soups, an expansive salad bar, fresh-baked desserts and more. Gold ‘n’ Greens is another dining hall option, featuring a vegetarian menu offering and is also certified kosher dairy. Both dining options include entrees that are vegan, vegetarian and gluten-free. Patrons can use a meal plan, Warrior Dollars, pay with cash/credit or use their OneCard.

There are also restaurants located across the campus including a satellite cafeteria in Scott Hall where meal plans are accepted, mobile food vendors at various locations, and three POD Express convenience stores, which include snacks, beverages, and fresh salads and sandwiches in the Academic Administration Building, the Faculty Administration Building and the Undergraduate Library. There is also an Einstein Bros. Bagels Express at the Law School.

Retail Service Facilities
In addition to the wide range of dining options, the University offers a variety of convenient services to make life easier, including banking and financial services to service and specialty shops, including:

- Bank of America - ATM
- Campus Health Center
- Comerica Bank - ATM
- Chase – Full Service Branch and ATMs
- Detroit Yoga Lab
- FedEx Office
- Flagstar Bank - ATM
- Fifth Third Bank – Full Service Branch and ATMs
- Higher One - ATMs
- Little Asia Mart Grocery and Convenience Store
- Michigan First Credit Union - Branch and ATMs
- Social Club Grooming Co.
- Sue’s Convenience Store
- University Pharmacy
- WSU Bookstore
- Yoga Shelter - Midtown

Parking: Faculty, Staff, and Visitor
42 W. Warren, Suite 257, Welcome Center (8:30 a.m. - 5:00 p.m., Mon. - Fri.); 313-577-2273
http://www.parking.wayne.edu

The University maintains numerous parking facilities available to faculty, staff and visitors on a fee basis. The easiest way to approach parking, for faculty, staff and students, is to purchase a semester-long assigned parking pass. This allows unlimited entry and exit to a designated structure or lot, which you’ll choose based on availability and where you spend most of your time on-campus.

All new parking pass customers will pay a one-time fee for an RFID tag ($25 at the time of issuance), which hangs from their rear-view mirror to allow for quick, hands-free entry and exit. The hang-tag is linked to a student, faculty or staff person's OneCard and all current/future parking assignments. If the hang-tag is lost, parking patrons can simply swipe their OneCard to enter their assigned structure or lot. Lost hang-tags should be immediately reported to the parking office to be deactivated.

A replacement tag must be purchased at $25.00 and is required to avoid ticketing or towing.

General parking is also available for visitors and those without a parking assignment. This allows patrons to pay as they go, with access to any of the general parking areas. Students, faculty and staff can deposit funds onto their OneCard for easy in-and-out access. Students only can take advantage of the discounted student OneCard parking rate ($3.75 at time of publication and $4.75 for premium parking areas). The general public may park in designated WSU lots and structures at the public rate, typically between $7.50 and $10.00, using a credit/debit card for entrance and exit and cash at limited locations.

Campus Health Center
Helen DeRoy Apartment Building, Suite 115
5200 Anthony Wayne Drive; 313-577-5041

The Campus Health Center provides comprehensive health care services for students, including physical examinations, family planning, illness visits, and immunizations (including flu, meningitis, hepatitis B, etc.).

Visits are by appointment, but walk-ins are accepted for students experiencing an illness. Counseling referral services are also available. All currently enrolled students receive one free office visit per semester. Additional visits are billed to student’s health insurance with most health care plans accepted. Students without insurance have reduced fees based on a sliding scale and ability to pay for additional office visits per semester. Payment is accepted at the time of service by cash, OneCard, Visa, MasterCard, Discover, or American Express credit cards. To make an appointment, call 313-577-5041.

Police and Public Safety Services
6050 Cass; 313-577-2222
http://www.pолice.wayne.edu

The Wayne State University Police Department patrols and services the University including the city streets, businesses, and private residences within and between the various campus areas. The Department, to the extent that resources allow, also patrols and provides other police services to the neighborhoods and businesses in the area surrounding the University.

Police service is provided twenty-four hours a day, seven days a week. All officers have, at minimum, a bachelor’s degree. They are commissioned as Detroit Police Officers, with full police authority on and off campus, after training at a State-certified Police Academy. Any matter requiring the services of a police officer can be reported at any hour of the day or night.

Blue Light System — Emergency Telephones (7-2222): The University has installed outdoor emergency telephones throughout the campus. These emergency telephones are identified by bright blue lights.

Emergencies (313-577-2222): All emergencies should be reported immediately, i.e.: all crimes, missing/stolen property, automobile accidents, suspicious persons, injured persons, vandalism, break-ins or burglaries.

Accidents (313-577-2222): Ambulatory patients will be transported, by officers, to either Detroit Receiving Hospital or the University Health Center. The Police Department does not provide ambulance service but utilizes the Detroit Fire Department Emergency Medical Service to handle other than minor injuries.

Fire or Other Extreme Hazards (313-577-2222): Emergencies such as fire, smoke, explosions, broken gas or water mains, severe electrical hazards, etc., should be reported.

Crime Prevention Section (313-577-6064): The Police Department’s Crime Prevention Section provides a number of crime prevention services, including personal safety seminars, crime prevention programs, and services. All programs and services are free of charge (except the Rape Aggression Defense Training for which there is a fee of $25.00) to any Wayne State department, student, staff, or faculty member. Examples of services provided include:

- Security Services
- Street Smarts seminars
- Operation Identification
- Alcohol Awareness
- Rape Aggression Defense Training

The Crime Prevention Section also publishes monthly 'CampusWatch' articles. Email inquiries may be made to: campuswatch@wayne.edu.

Computing and Information Technology Division (C&IT)

Office: 5925 Woodward Ave.
Tel.: 313-577-4722; Fax: 313-577-5500
Associate Vice President and Chief Information Officer: Daren Hubbard
http://computing.wayne.edu

Computing and Information Technology (C&IT) provides IT services and resources that support and enhance Wayne State University's teaching, learning, research, and administrative activities. C&IT’s primary goal is to provide technology services that enable our students, faculty, and staff to be successful at WSU. C&IT employees strive to provide excellent customer service, respond to the changing needs of the University community, and make it easy and convenient for everyone to use technology at Wayne State. Functional C&IT organization charts are available on our website (https://computing.wayne.edu/about/org-charts.php).

AccessID

Everyone at Wayne State receives a unique identification code (AccessID) consisting of two letters and four numbers, for example: xy1234. The AccessID and password are key to accessing many University online systems; the Access ID can be found on the One-Card; passwords are assigned with initial email communications in the admissions application process.

Email and Communication Tools

Wayne Connect: The University’s Wayne Connect system is a campus-wide method of communication. It is powered by Microsoft and features email, calendars, online storage, mobile apps, and more.
Broadcast Messaging (Emergency Alerts) (https://broadcast.wayne.edu): This University-wide service delivers emergency alerts and other significant messages to faculty, students, and staff. Recipients can register their cell phones to get emergency alerts, grades, and other important information via text messages.

Mobile Apps
Wayne State Mobile App offers students, faculty, staff, and alumni an easy way to access University information like email, calendar, parking availability, class schedules, campus maps, OneCard balances, and more. Apps are available for free download on Android and iOS devices.

Blackboard Mobile Learn gives students access to their course information directly from their smartphones. Students can check grades and assignments, view documents, create discussion and blog posts, and much more. Apps are available for free download on Android and iOS devices.

Blackboard is WSU's course management and learning platform.

The Blackboard system:
- delivers all or part of many regularly scheduled University courses
- gives both students and faculty a secure location on the Web for course materials, e-Portfolios, and storing and managing files
- allows faculty to create tests, detect plagiarism, post scores (Grade Center), and host live web conferences

Computer Labs (http://www.computing.wayne.edu/computer-labs): The University libraries have both open and restricted-access computing areas, with more than 600 computers and a variety of applications. Additionally, many Schools, Colleges, and academic departments provide special-purpose computers and software for their students and faculty.

Grid Computing (http://www.grid.wayne.edu): WSU researchers with projects requiring high performance computing can use Wayne State University's scalable, Grid-enabled computing system.

Research Networks: Internet2 and MiLR (http://computing.wayne.edu/research-networks): Wayne State's membership in the Internet2 advanced networking consortium offers researchers opportunities for participation and collaboration. The Internet2 Network addresses researchers' bandwidth-intensive requirements, such as: collaborative applications, distributed research experiments, and grid-based data analysis.

The Michigan LambdaRail (MiLR) is a very high-speed, special-purpose data network used in research and higher education. Created by Wayne State University, Michigan State University, and the University of Michigan, MiLR gives researchers access to ten Gbps Ethernet connections between the three universities, as well as national and international research and education networks.

Software Purchases and Discounts (https://computing.wayne.edu/helpdesk/freesoftware.php): The C&IT Help Desk provides free and discounted software to current students, faculty and staff for academic, departmental and personal use.

Computer Repair Services (http://computing.wayne.edu/pc-clinic): If a personally-owned Windows PC or Mac crashes frequently or is unusually slow owners may want to consult the competitive prices from C&IT for diagnostic and repair services on main campus in the Student Center Building.

Computer Security (http://security.wayne.edu): Students can rely on C&IT to protect the confidentiality, integrity, and availability of information on WSU computer systems, but security is everyone's responsibility.

Help Desk (https://computing.wayne.edu/helpdesk): The C&IT Help Desk is Wayne State's campus technology headquarters - a one-stop shop for all your tech support needs. Call, email, or live chat for one-on-one help with any of Wayne State's IT systems, like email, Blackboard, or Academia. Stop in for computer and mobile device diagnostic and repairs computer and mobile device diagnostic and repairs - anything from connecting a phone to Wi-Fi to fixing a broken computer. And shop for free and discounted software - free and discounted software. The C&IT Help Desk's vision is to make sure your computing issue is fully resolved on first contact or routed to higher tiers of support with 100% accuracy.

The C&IT Help Desk is open for walk up appointments at 005 Student Center Building, Monday - Friday 8:30am - 5pm. It is open via phone at 313-577-HELP or Live Chat (http://computing.wayne.edu/helpdesk/chat.php) from Monday - Friday from 7:30 a.m. - 8:00 p.m. You can email any time to helpdesk@wayne.edu.

Qualtrics Online Survey Software (http://computing.wayne.edu/qualtrics): The Qualtrics Research Suite is a user-friendly, feature rich, web-based survey tool that allows users to build, distribute, and analyze online surveys, collaborate in real-time, and export data in multiple formats. All Wayne State students have access to a free account for this service.

Educational Outreach
5057 Woodward Avenue, Suite 3101, Detroit MI 48202; Telephone: (313) 577-4682

Associate Vice President for Educational Outreach and International Programs: Ahmad Ezzeddine
Program Manager: Rebecca Journigan
Director, Business Affairs: Arthurine Turner
Manager, Administrative Services: Heather Howell
Program Coordinators: Cheryl White, Gail Stanford, Nevein Michail, Susan English
Instructional Services Supervisor: Margaret Matyniak
Email: educationaloutreach@wayne.edu
http://www.educationaloutreach.wayne.edu

Educational Outreach is principally responsible for Wayne State University’s off-campus offerings including online programs and courses. This division administers academic off-campus course offerings and programs for most Schools and Colleges of the University; the University Summer Session; and the partnership degree programs at University centers located on community college campuses. Additionally, the division oversees credit and non-credit executive education, certificate, professional development and continuing education programs for the University.

The Division operates several instructional centers in the Detroit metropolitan area as well as in other selected locations in Michigan, and delivers distance learning and online instructional programs. Through these outreach efforts, WSU is able to serve and meet the educational
needs of a diverse student audience: working adults who are unable to pursue traditional on-campus programs of study; persons who desire courses of instruction at or near their place of employment; and others who are simply taking courses to enrich their educational background or improve their technical skills.

Dual Enrollment Cohort Programs
Educational Outreach coordinates dual enrollment cohort programs for high school students in interested school districts. Dual enrollment cohort programs may be offered on site within the school district or at any of the Wayne State University campuses.

Visitor Program (Non-Credit)
Educational Outreach also administers the University’s Visitor Program. Under this program, adults can attend a wide range of selected University courses, both on and off campus, provided classroom space is available. No grade or academic credit may be earned, and students may not be registered for courses taken for credit simultaneously with courses taken under the Visitor Program.

The Visitor Program allows any adult who is not currently enrolled in credit courses at Wayne State University to attend a wide range of University courses in a noncredit status. Visitor status students do not receive academic credit and do not receive acknowledgement on transcripts. Provided space is available and permission has been granted, adults may enroll as visitors in most of the courses listed in the Schedule of Classes.

It is not necessary to be formally admitted to the University to take advantage of the Visitor Program. Visitor status students do not submit written work or take examinations.

Registration for both on-campus and off-campus classes takes place the first two weeks of classes and is processed by the Division of Educational Outreach, located on the main campus.

Students enrolled in the Visitor Program are assessed one-half of the undergraduate resident lower division credit hour rate for each credit hour plus a non-refundable Registration Fee equal to one-half of the regular Registration fee and the full per credit hour undergraduate Student Service Credit Hour Fee. Payment of tuition and fees are due at the time of registration. Tuition must be paid in full at the time of registration. Payment is accepted by money order, check, Discover, Master or Visa Card. Money orders or checks must be drawn from a United States bank and cannot be starter checks. Students may register in person or by calling 313-577-4682.

Travel Study
Sponsoring schools and colleges in the University offer travel study programs through the Division of Educational Outreach. Most programs occur in the spring/summer sessions; times and locales vary each year. Travel study refers to programs in the United States. Please refer to the Office of International Programs (p. 42) for study abroad programs. Recent travel study programs include:

- **College of Liberal Arts and Sciences**: Biological Sciences: marine lab at the Florida Keys; field studies at Fish Lake, Michigan
- **College of Education**: Science Education: ecology courses at Higgins Lake, Michigan
- **College of Fine, Performing and Communication Arts**: Fashion Merchandising: design in New York City

Extension Centers
*Associate Director, Extension Centers and Programs, Oakland Center: Michael Quattro*

Manager, Macomb Centers: Stacy Jackson
Program Manager, Schoolcraft Center: Gail Stanford

The Division of Educational Outreach operates several instructional centers in the Detroit metropolitan area as well as in other selected locations in Michigan. Through these outreach locations, the University is able to serve and meet the educational needs of a diverse student audience. The locations of the centers are listed below.

**OAKLAND CENTER**
33737 W. Twelve Mile Road
Farmington Hills, MI 48331
Telephone: 248-553-3545; 313-577-3592
Fax: 248-553-7733
Email: oaklandcenter@wayne.edu

**SCHOOLCRAFT COLLEGE**
18600 Haggerty Road
Jeffress Center, Suite 320
Livonia, MI 48152
Telephone: 734-853-3450
Fax: 734-853-3446
Email: schoolcraft@wayne.edu

**MACOMB EDUCATION CENTER**
16480 Hall Road
Clinton Township, MI 48038
Telephone: 586-226-4291; 313-577-9632
Fax: 586-226-8570
Email: macomb@wayne.edu

**UNIVERSITY CENTER AT MACOMB**
44575 Garfield Road
Clinton Township, MI 48038
Telephone: 586-263-6700; 313-577-6261
Fax: 586-263-6120
Email: macomb@wayne.edu

**ADVANCED TECHNOLOGY EDUCATION CENTER**
14601 East 12 Mile Road
Warren, MI 48088
Telephone: 586-447-3905; Fax: 586-447-3907
Email: atec@wayne.edu

**Registration for Off-Campus Courses**
Registration for off-campus academic courses is held during the regular registration periods for each semester. For specific registration information, telephone: 313-577-3541 or 313-577-4682.

Fees for credit classes are the regularly established fees of Wayne State University, which are published each semester in the university schedule of classes (http://classschedule.wayne.edu). All fees are subject to change at any time without notice by action of the Board of Governors of the University.

**Non-Matriculant Advising**
Persons who wish to enroll in credit courses offered through this division and who have NOT been formally admitted to the University are registered as non-matriculated students in the College of Liberal Arts and Sciences. Students are advised to consult the non-matriculant advisor as well as the specific degree program requirements cited in this bulletin, and are urged to process formal application and admission documents as soon as possible. Upon admission to a Wayne State school or college, credits earned in non-matriculant status may be applied toward degrees subject to the approval of the admitting school or college.
Admission Requirements

Most credit courses offered through Educational Outreach are open to all students who are qualified by virtue of meeting the prerequisites for individual courses or, in cases where there are no prerequisites, on the basis of their own assessment of their aptitudes. Those individuals who have been formally admitted to Wayne State University for a degree or certificate program, or post-baccalaureate study, and who are in good academic standing, will have course credits and grades earned at a satellite campus/extension center recorded on their transcripts in the same manner as credits earned on campus. Guest students should consult with their home institution when formulating their registration plans and submit an application for guest admission (http://admissions.wayne.edu/guest/requirements.php).

Programs Offered Through Educational Outreach

Educational Outreach offers entire curricula or selected courses applicable to many Wayne State University degrees and certificates at convenient times and places. The following complete degree programs are offered at various extension centers. Students should visit the Educational Outreach (https://wayne.edu/educationaloutreach/programs) website for more details.

Undergraduate Degree and Certificate Programs
Bachelor of Arts with a major in Anthropology
Bachelor of Arts in Business Administration with a major in Global Supply Chain Management
Bachelor of Arts in Business Administration with a concentration in Accounting or Management
Bachelor of Arts in Information Systems Technology
Bachelor of Arts with a major in Communication Sciences and Disorders
Post-bachelor’s program in Communication Sciences and Disorders
Bachelor of Arts with a major in History with optional minor in Political Science or Criminal Justice
Bachelor of Arts with a major in Public Relations
Bachelor of Arts/Science in Elementary Education with a major in Special Education with a concentration in Cognitive Impairment
Bachelor of Science with a major in Computer Science
Bachelor of Science in Construction Management
Bachelor of Science in Criminal Justice
Bachelor of Science with a major in Elementary Education (Integrated Science or Mathematics)
Bachelor of Science in: (Engineering Technology degrees)
  Electrical/Electronic Engineering Technology
  Electromechanical Engineering Technology
  Manufacturing/Industrial Engineering Technology
  Mechanical Engineering Technology
  Product Design Engineering Technology
Bachelor of Science in Mechanical Engineering
Bachelor of Social Work
Bachelor of Science in Nutrition and Food Science
Bachelor of Science in Nursing

Graduate Degree and Certificate Programs
Master of Business Administration
Education Specialist Certificate in Special Education with a concentration in Learning Disabilities or Autism Spectrum Disorder
Endorsement in Bilingual/Bicultural Education with a concentration in English as a Second Language
Master of Arts in Employment and Labor Relations
Master of Education with a major in Special Education and concentrations in:
  Cognitive Impairment
  Learning Disabilities
  Autism Spectrum Disorders

Master of Social Work

Transfer Student Success Center

Director: Douglas Freed
Manager: Jo Bains
Telephone: 313-577-2487
Email: transfer@wayne.edu

The Transfer Student Success Center (TSSC) is the gateway for transfer students to obtain the help they need in order to successfully complete their degree at Wayne State University. The TSSC is designed to help those transferring from a community college or other four-year institution navigate the administrative and academic units of the university and ensure a timely and successful completion of their degree.

The TSSC provides direct service to students, community college staff, and WSU departments.

Direct service to students includes support with:
  Transfer credit evaluation
  Academic advising
  Connecting with major department
  Student organizations
  Engaging students with the larger Wayne State community
  Providing opportunities for prospective students to visit campus

Direct service to community college staff includes:
  Information about Transfer Plans and transferring of credit
  Development of articulation agreements
  Hosting/coordinating staff and faculty visits to WSU
  Opportunities for Professional Development through conferences and workshops
  Providing counselors/advisors and other staff with current/updated WSU information

Direct service to WSU departments includes:
  Facilitating and coordinating the development of articulation agreements
  Acting as a resource and clearinghouse for information on transfer students
  Participating in events and activities for transfer students

Executive and Professional Development Programs (Non-Credit)

Associate Director: Michael Kelly
Project Manager: Abby Cheatham
Telephone: 313-577-4449
http://www.ExecEd.wayne.edu

Executive and Professional Development (EPD) provides proven practical solutions to business challenges through executive education, business training and consulting. Offering a unique blend of expertise and flexible design, EPD moves beyond off-the-shelf, pre-packaged education, training and consulting ‘services’ by applying problem-solving strategies to assess and meet the needs of its clients. EPD is committed to providing customized, fully integrated, in-depth programs to address specific organizational needs and improve individual and organizational capabilities and performance. The EPD portfolio includes:

Executive and Professional Development (EPD) provides proven practical solutions to business challenges through executive education, business training and consulting. Offering a unique blend of expertise and flexible design, EPD moves beyond off-the-shelf, pre-packaged education, training and consulting ‘services’ by applying problem-solving strategies to assess and meet the needs of its clients. EPD is committed to providing customized, fully integrated, in-depth programs to address specific organizational needs and improve individual and organizational capabilities and performance. The EPD portfolio includes:
Business Training and Executive Education
EPD offers programs that respond to problems currently facing business, government and industry. Programs are offered in a variety of formats and deliver the strategies, tools, and knowledge needed to succeed in today's changing business environment. EPD mobilizes the resources of WSU to serve the specific and unique needs of the community by offering customized degree and non-degree programs, be they an onsite MBA program offered for a specific company, an Engineering Management Master program offered for a group of engineering executives, or a master of social work offered at one of the university’s extension sites.

EPD provides a blended training approach by using a variety of alternative delivery methods including on-site facilitated sessions, video-conferencing, online training and computer-based programs.

Certificate Programs
EPD responds to industry’s demand for a more comprehensive approach to continuing education by offering certificate programs that encompass several current management and business issues. These multiple-session programs offer participants the opportunity for higher mastery and competency in a particular subject area and can be customized to meet each organization’s specific needs.

On-Site Consulting Services
In conjunction with training, EPD’s expert staff provides consulting services in a variety of areas including training and design development, leadership and organizational development, succession planning, business process improvement, strategic planning, and executive coaching.

Procurement Technical Assistance Center
The Procurement Technical Assistance Center (PTAC) works with qualified businesses in the Detroit area to prepare them to bid for government contracts. PTAC’s goal is to provide small business owners with a competitive edge in selling to the public sector by educating them about opportunities, and offering marketing and technical assistance. Recently, PTAC services resulted in awarded contracts totaling more than $5 million.

For further information on any Executive and Professional Development services or activities, call: 313-577-4449.

Financial Aid
Office of Student Financial Aid (OSFA)
Welcome Center, 42 W. Warren Avenue,
P.O. Box 2340, Detroit, MI 48202
Telephone: 313-577-2100 or Fax: 313-577-6648
http://www.finaid.wayne.edu

The Office of Student Financial Aid (OSFA) provides need-based and non-need-based financial aid to help eligible students meet the expenses of their education. Financial aid is intended to supplement, not to replace, students’ financial resources. Financial need is determined from the information that students submit on the Free Application for Federal Student Aid (FAFSA). Descriptions of the specific services that OSFA provides are stated below.

Information concerning scholarships (https://wayne.edu/scholarships) is available online. Wayne State University offers a variety of University-wide scholarships that are awarded based on financial need, scholastic achievement, and/or leadership qualities. To apply for University-wide scholarships, students must complete the online application. Note:

Scholarships that have need as a criterion require submission of the FAFSA.

Service Hours: Walk-in service is provided in the lobby of the Welcome Center Monday through Thursday, 8:30 a.m. to 6:00 p.m., and Friday 8:30 a.m. to 5:00 p.m. June through August, appointments and walk-in services end at 5:00 p.m. Monday through Friday.

Financial Aid Types
Financial aid at Wayne State University is awarded in the form of a ‘package,’ or combination of aids, and generally consists of four types: grants, scholarships, loans, and employment. The amount of need-based financial aid that a student may receive cannot exceed his/her financial need, which is based on the information provided on his/her FAFSA. Students may be eligible for non-need-based aid in the form of scholarships or unsubsidized federal loans.

Grants
Grants are gift assistance awarded on the basis of financial need and do not require repayment. The Free Application for Federal Student Aid (FAFSA) is required.

Scholarships
Scholarships are gift assistance awarded on the basis of academic achievement or other special ability and do not require repayment. In some such awards, financial need is a factor.

Loans
Loans are money that must be repaid at a future date, usually following graduation or when the student ceases to be enrolled on at least a halftime basis. Need- and non-need-based loans are available.

Work-Study
Work-study is on- or off-campus part-time employment with eligible employers that pays at least the federal minimal wage. Work-study is awarded on the basis of financial need. Students interested in work study should carefully read the Student Guide to On-Campus Employment, which explains the hiring process and the terms and conditions of employment. The Guide is available from the Office of Career Services (http://careerservices.wayne.edu/student-employment.php), located in Room 1001 of the Faculty/Administration Building.

Application for Federal Financial Aid (FAFSA)
How and When to Apply for Financial Aid: Each academic year, students applying for financial aid do so by completing the Free Application for Federal Student Aid (FAFSA) (http://www.fafsa.ed.gov). This is a government agency and the federal processor will electronically transmit the FAFSA data to the University’s Financial Aid Office if the applicant lists the WSU federal code, 002329, on the FAFSA.

Help Completing the FAFSA: Help completing the FAFSA is provided online throughout the application process. Help also is available by telephone from the Federal Student Aid Information Center: 1-800-4-FED-AID (1-800-433-3243) during regular business hours (Eastern Time), Monday through Friday.

Application Deadlines
Fall/Winter Application Priority Date: The application priority date for financial aid consideration at WSU for fall and winter semesters is the date by which the FAFSA should be submitted to facilitate determination of student eligibility for financial aid before the beginning of the fall
The 2017-18 FAFSA can be submitted October 1, 2016 through June 30, 2018.

The 2018-19 FAFSA can be submitted October 1, 2017 through June 30, 2019.

The 2017-18 FAFSA requires 2015 federal tax information. The 2018-19 FAFSA requires 2016 federal tax information. Applicants may be able to use the IRS Data Retrieval Tool when completing the FAFSA. The IRS Data Retrieval Tool will immediately upload tax data to the student and/or the parent section of the FAFSA. This tool cannot be used until one to two weeks after electronically filing a tax return and six to eight weeks after filing a paper tax return.

Spring/Summer Financial Aid: The Office of Student Financial Aid will use your 2017-18 FAFSA information to determine your aid eligibility for spring/summer 2018 financial aid and your 2018-19 FAFSA information to determine your eligibility for spring/summer 2019 financial aid. Note: If the FAFSA has been submitted for the academic year, it is not necessary to submit it again for the spring/summer semester.

Academic Calendar: At WSU, the spring/summer semester is the third term of the school year; a new school year begins each September and ends the following August. Thus, the spring/summer semester is considered a separate and concluding part of the previous fall and winter semesters. (Examples: The spring/summer semester 2018 is part of the 2017-18 school year, the spring/summer semester 2019 is part of the 2018-19 school year.)

Financial Need Determination
The Student Aid Report (SAR) lists the financial aid applicant's answers to the questions on the FAFSA. Based on those answers, the SAR either states the student's Expected Family Contribution (EFC) or instructs the student to take additional action which will allow an EFC to be determined. The EFC is a measure of the student's financial strength and is used in determining financial need. The SAR also indicates whether the financial aid application has been selected for the verification process.

How Financial Need Is Determined: To determine financial need, OSFA subtracts the student's expected family contribution (EFC) from the average cost of attendance (COA) for his/her program at Wayne State University. COA minus EFC equals financial need.

Verification: The process by which an educational institution confirms the accuracy of the data reported on an individual student’s FAFSA is called verification. The federal processor selects the FAFSA applications for which the data submitted must be verified. If the federal processor selects a student's FAFSA for verification, he/she must provide documentation to confirm the information on the FAFSA.

Note: If an application is selected for verification, the student must complete the verification process before his/her eligibility for financial aid can be determined, and therefore, before financial aid can be paid.

The Cost of Attendance (COA): The cost of attendance (COA), which is also called a budget, components include: tuition, fees, books and supplies, housing allowance (based on the living arrangements reported on the FAFSA) and miscellaneous expenses. If a loan is awarded, loan fees will be an included component. All students are initially assigned estimated tuition costs and estimated costs for books and supplies based on full-time enrollment status for their academic programs. Financial aid awards are offered based on the estimated budgets. At the time of disbursement, each student's financial aid award is adjusted based on his/her current enrollment status (full-time, three-quarter time, or half-time).

The COA may be adjusted to include dependent care directly related to attendance at WSU; costs related to a disability; computer purchase for educational purposes; costs to obtain a first professional license; and an allowance for reasonable costs directly related to one's program of study.

Michigan Resident and Out-of-State Resident Cost of Attendance (http://wayne.edu/financial-aid/resources/cost-of-attendance): Please access our website for detailed information concerning how student budgets are assigned and cost of attendance component amounts.

Current Tuition and Fees (http://reg.wayne.edu/students/tuition.php): Tuition and fees are subject to change by the WSU Board of Governors without notice.

Special Circumstances (http://finaid.wayne.edu/forms/status-appeal.php): The Office of Student Financial Aid recognizes that students may have extenuating financial circumstances that the standard need analysis form (FAFSA) does not consider. Applicants may request a review of extenuating circumstances that they believe affect their financial aid eligibility by submitting a Special Circumstances Appeal Form.

Eligibility and Conditions of Financial Aid
Students must be enrolled in an eligible degree- or certificate-granting program to receive financial aid funds. Enrollment must be at least halftime to be considered eligible for most types of aid. At the undergraduate level, enrollment for six to eleven credits is considered halftime and enrollment for twelve or more credits is considered full-time.

Non-degree programs have aid limitations and not all programs are eligible for financial aid. OFSA can provide more information about non-degree programs, including a list of specific certificate programs that are ineligible for financial aid.

Prerequisite coursework aid eligibility requires submission of the Prerequisite Eligibility Status Form, which is available on our website.

Repeat Coursework
Federal financial aid will pay for only one repeat registration if the student has previously earned credit in a course with a passing grade. That is, students are only eligible to receive financial aid the first time the course is repeated. Example: A student registers for four classes. For the purpose of earning a higher grade, although a passing grade was received in the class previously, one of the classes is being enrolled in for the third time. Financial aid will be based on enrollment only for the three other classes.

Financial Aid Enrollment Policy and the Census Date
Census Date Definition is the date on which WSU counts the number of students enrolled at the institution, which is the tenth day of each semester. It is the policy of the Office of Student Financial Aid to lock or "freeze" the number of enrollment credits after the census date each semester. After the enrollment credits are locked or "frozen," financial aid will not be adjusted (increased or decreased) unless a student withdraws from all classes. Therefore, the number of credits for which a student is enrolled on the census date determines the amount of grant funds that he/she will receive for the semester.

If, after the census date, a student increases his/her credits of enrollment, the amount of his/her grant(s) will not be increased. If, after the census date, a student decreases his/her credits of enrollment, the amount of his/her grant(s) will not be decreased. However, if a student withdraws
from all classes after the census date, federal financial aid regulations require OSFA to determine the amount of financial aid the student has "earned" based on the portion of the semester that he/she has completed. The "unearned" part of the student's award must be returned to the financial aid program(s) from which the award(s) was/were made. As a result, withdrawing from all classes may result in cancellation of all or a portion of all financial aid.

**Calculating "Earned" versus "Unearned" Financial Aid**

OSFA must follow federal regulations in determining the amount of "earned" versus "unearned" federal financial aid disbursed to a student who then leaves school without completing the semester. The refund percentage is determined by the student's effective date of withdrawal from all classes, which is the last recorded date of attendance.

If a student completes 60% or less of a semester, s/he will be considered to have "earned" the same percentage of financial aid as the percentage of the semester completed. The percentage will be calculated by dividing the completed number of days by the total number of days in the semester. The percentage of "unearned" aid will correspond to the percentage of the semester not completed. If a student completes more than 60% of a semester, s/he will be considered to have earned 100% of the financial aid disbursed for that semester and no return of federal financial aid will be calculated.

If a student has not "earned" all of the financial aid received, he/she may be required to repay those funds. Detailed information is provided in the WSU Withdrawals and Return of Title IV Policy (https://wayne.edu/financial-aid/receiving/cancellation).

**Enrollment Requirements for Federal Direct Loans**

Financial aid is awarded based on the assumption of full-time enrollment. Since the actual enrollment status of some students is less-than-full-time at the time financial aid is disbursed OSFA reviews the number of credits for which each student is enrolled. At least halftime enrollment at the time of disbursement is required to receive a subsidized or unsubsidized Federal Direct Loan and a Federal Parent PLUS Loan.

**Satisfactory Academic Progress (SAP)**

Federal financial aid regulations require OSFA to apply reasonable standards for measuring whether a student is making progress toward his/her degree or certificate. The standards, which are called satisfactory academic progress (SAP), must be met for a student to remain eligible to receive financial aid. Academic progress is measured each semester.

WSU Satisfactory Academic Progress Standards are comprised of three components:

1. the cumulative grade point average (at least 2.0 is required at the undergraduate status),
2. the pace of progress toward the degree or certificate must be at least 67%, and is determined by dividing the cumulative number of credits completed by the cumulative number of credits attempted, and
3. the maximum time frame for completing the degree or certificate, which is 150% of the average published length in credits of the program.

Note: Full-time or part-time enrollment is not a factor in determining the pace of progress or the time frame since only credits are the units of measurement.

The WSU Satisfactory Academic Progress Policy is available online. (http://finaid.wayne.edu/receiving/academic-progress.php)

**Consequences of Withdrawing from Courses**

A student's satisfactory academic progress (https://wayne.edu/financial-aid/receiving/sap) may be affected if he/she withdraws from courses (some or all) during a semester. A student who does not comply with SAP standards may be denied financial aid for subsequent semesters. The university has specific instructions for SAP appeals (https://wayne.edu/financial-aid/receiving/sap/sapappeal).

If a student withdraws from all courses, he/she may be required to repay a portion of the financial aid received. Please see the section above titled Calculating "Earned" versus "Unearned" Financial Aid.

If a student’s withdrawal from one or more courses results in less-than-halftime enrollment status, he/she will not be eligible for new federal loan funds. At the end of the grace period on the loans received, repayment will begin. Detailed information about grace periods and loan repayment is available on the Federal Student Aid website (http://studentaid.ed.gov/repay-loans/understand). A student should contact his/her lender to make payment arrangements or request a loan deferment or forbearance.

The amount in federal student loans that a student can receive has annual and aggregate loan limits. Students are strongly encouraged to consider these limits in developing their education plan.

**Financial Aid Disbursement**

**Financial Aid Disbursement:** Financial aid (except work-study) is paid in two disbursements if the award is for the academic year (fall and winter semesters). Half of the award is paid in the fall semester and half is paid in the winter semester. One-semester loans have one disbursement.

**Work-Study Payments:** Work-study earnings are paid biweekly in the form of a paycheck. The department in which the student is employed submits a record of the hours worked to the Payroll Office, and the Payroll Office authorizes payments.

*Note:* Only half of an academic year (fall and winter) work-study award can be earned each semester. Students cannot earn the total amount of a work-study award during only one semester. The spring/summer semester is the third term of the school year. Since the spring/summer semester is separate from the fall and winter semesters, unused funds from a fall and/or winter work-study award cannot be earned in the spring/summer semester.

**Enrollment Requirements for Federal Direct Loans:** Financial aid is awarded based on the assumption of full-time enrollment. Since the actual enrollment status of some students is less-than-full-time, at the time financial aid is disbursed OSFA reviews the number of credits for which each student is enrolled. At least half time enrollment at the time of disbursement is required to receive a Federal Direct Unsubsidized Loan and a Federal Grad PLUS Loan.

**General Education Program**

Wayne State has had a University-wide Program in General Education since 1987 for all undergraduate students pursuing bachelor's degrees regardless of their academic specialties. These requirements contribute to the goal of ensuring that all students have the basic skills fundamental to success in college while simultaneously achieving the intellectual breadth necessary to place specialized and professional curricula in proper perspective. By means of the General Education Program, undergraduate students improve their skills and are introduced to...
methods of inquiry, modes of thought, bodies of knowledge, and representative ideas drawn from a wide range of academic disciplines.

The General Education Requirements for students matriculating or graduating under the 2017-18 University Bulletin are organized into the following categories:

**Competency Requirements**

*Learning Objectives:* Competency Requirements ensure that students develop and demonstrate early in their academic careers fundamental skills in the following areas that underlie and make possible the acquisition of knowledge.

- Critical/Analytic Thinking
- Oral Communication
- Written Communication

**General Education Group Requirements**

*Learning Objectives:* Group Requirements have a two-fold purpose:

1. to enable students to acquire knowledge and demonstrate understanding in a broad range of representative branches of knowledge; and
2. to enable students to develop and demonstrate the ability to apply methodological skills which encourage continued exploration on an independent level throughout their lives.

Group Requirements are organized in the following categories:

- **Humanities**
  - Philosophy and Letters
  - Visual and Performing Arts

- **Natural Science**
  - Life Sciences
  - Physical Sciences

- **Society and Institutions**
  - American Society and Institutions
  - Foreign Culture
  - Historical Studies
  - Social Science

**Exemptions for Second Degree and Transfer Students (General Education Program)**

Students who hold a bachelor’s degree from an accredited institution and who seek a second bachelor’s degree are exempt from the University-wide General Education Requirements, but must satisfy all School/College, department and program requirements.

Equivalent courses taken at another institution may satisfy General Education Requirements. In cases where this would exceed the limitation of sixty-four credits from a community college accepted on a transfer basis, such courses shall satisfy the requirements, but the credits will not count towards the degree.

**General Education Program Course Prefixes**

Parenthetical two-letter prefixes denote content areas of subjects and identify courses approved for satisfying Competency Requirements and Group Requirements in the University’s General Education Program. The following prefixes, listed and defined in alphabetical order, precede course titles in the departmental Courses of Instruction sections of this bulletin, and in each semester’s Schedule of Classes.

- (AI) — American Society and Institutions
- (BC) — Basic Composition
- (CT) — Critical and Analytic Thinking
- (FC) — Foreign Culture
- (HS) — Historical Studies
- (IC) — Intermediate Composition
- (LS) — Life Sciences
- (OC) — Oral Communication
- (PL) — Philosophy and Letters
- (PS) — Physical Sciences
- (SS) — Social Sciences
- (VP) — Visual and Performing Arts
- (WI) — Writing Intensive

**Competency Requirements**

Success in college and the ability to function as an educated citizen require not only the ability to master areas of substantive knowledge, but also a series of fundamental skills that underlie and make possible the acquisition of knowledge. Since competencies or skills are preconditions for higher education, basic competencies should be demonstrated early in one’s academic career. Multiple methods of demonstrating competency are available, including satisfactory completion of designated courses or earning appropriate scores on designated examinations.

Competency Requirements, with the exception of the Writing-Intensive Course in the Major (WI), should be met early in a baccalaureate degree program. Students who fail to meet the specified deadline will be allowed two additional semesters (or equivalent) in which to satisfy the competency requirement. During this time, they must be actively involved in taking the appropriate course or otherwise preparing themselves to demonstrate competence. After the two-semester limit, students who have not satisfied the requirement may be barred from enrolling in courses other than those which satisfy the competency requirement until the requirement has been completed.

The following general principles apply to all competency requirements:

1. Students who satisfy any Competency Requirement by passing a prescribed Wayne State University placement, qualifying, screening, competency or proficiency examination shall be excused from equivalent course work but shall receive NO course credit.
2. Course credit granted for satisfactory completion of an Advanced Placement, CLEP, International Baccalaureate, or Departmental Examination will satisfy the appropriate Competency or Group Requirement; credit so earned will be applicable to a baccalaureate degree.
3. Courses used to satisfy Competency Requirements shall not generally be used to satisfy Group Requirements.

**Written Communication (BC, IC, WI)**

Writing ability is a cornerstone of academic studies and is often considered the touchstone of a university education. Skill and effectiveness in writing serve the individual throughout life — in career, in community, and in social and leisure activities. The ability to write well must be developed so that specialized audiences within professional fields as well as general audiences can be addressed effectively. While writing proficiency may be honed and refined in composition courses, writing is a skill that serves many purposes; one that requires constant renewal. The requirement in Written Communication is structured not only to provide training in how to write well, but also to insure that
writing skills continue to be exercised and enhanced throughout the undergraduate years. The progression of the Written Communication requirements reflects the important notion of ‘writing across the curriculum.’ This requirement contains the following three components:

**Basic Composition (BC) Requirement**
All students must demonstrate competence in basic English composition prior to completing thirty credits. Basic composition competence shall be determined by satisfactory completion of a designated course, or its course equivalent or earning credit for basic composition through a national standardized test.

All students must demonstrate competence in basic composition by:

1. Completing successfully an approved course in basic composition with a grade of C or better: ENG 1020, ENG 1050; (Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements); OR
2. Earning credit for basic composition through Advanced Placement CLEP or International Baccalaureate; OR
3. Transferring credit received for successful completion of a comparable course completed with a grade of C or better at another college or university.

**Intermediate Composition (IC) Requirement**
All students must complete satisfactorily a designated intermediate, or more advanced, course in which the teaching of English composition and rhetoric is a major component prior to completing seventy-five credits. Satisfactory completion requires a grade of C or better. Courses currently approved for intermediate composition are:

- AFS 2390 Introduction to African-American Literature: Literature and Writing 3
- ENG 2100 Introduction to Poetry: Literature and Writing 3
- ENG 2110 Introduction to Drama: Literature and Writing 3
- ENG 2120 Introduction to Fiction: Literature and Writing 3
- ENG 2210 Great English Novels: Literature and Writing 3
- ENG 2310 Major American Books: Literature and Writing 3
- ENG 2390 Introduction to African-American Literature: Language and Writing 3
- ENG 2420 Literature and the Professions: Literature and Writing 3
- ENG 2560 Children's Literature: Literature and Writing 3
- ENG 2570 Literature By and About Women: Literature and Writing 3
- ENG 3010 Intermediate Writing 3
- ENG 3020 Writing and Community 3
- ENG 3050 Technical Communication I: Reports 3

Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.

**Writing-Intensive Course in the Major (WI) Requirement**
Prior to graduation, all students must demonstrate that they have developed the ability to communicate effectively with specialized or professional audiences by completing successfully the writing requirements, or courses which incorporate major writing assignments, specified by the departments or professional schools in which they are seeking a degree. Completion of the IC requirement (see above) is prerequisite to all WI courses. Satisfactory course completion requires a grade of C or better. Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements. A list of WI courses is available in the Table of General Education Courses (p. 38).

**Oral Communication (OC) Requirement**
Educated persons should be comfortable in situations which require them to make oral presentations, be able to convince others of a point of view, or make appropriate remarks in an informal setting. Along with an ability to write cogently, communicating orally is mentioned most frequently by employers and others who evaluate the preparedness of college students as a fundamental skill to be able to compete in contemporary society. Consequently, oral communication is a crucial skill needed for success in virtually every field of endeavor.

All students must demonstrate competency in the fundamentals of oral communication prior to completing sixty credits. Oral communication competency shall be demonstrated by:

1. Completing successfully an approved course in oral communication: COM 1010, ENG 3060 (Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements); OR
2. Passing the Oral Communication Competency Examination; OR
3. Transferring credit received for successful completion of a comparable course taken at another college or university.

**Critical and Analytic Thinking (CT) Requirement**
The ability to reason critically and to analyze information is essential to the acquisition of knowledge in any discipline and may therefore appropriately be regarded as a fundamental skill, one to be acquired by students as early as possible in their education. Critical and analytic thinking includes: formulating and identifying deductively- and inductively-warranted conclusions from available evidence; recognizing the structure of arguments (premises, conclusions, and implicit assumptions); assessing the consistency, inconsistency, logical implications, and equivalence among statements; and recognizing explanatory relations among statements. Competency in critical thinking must be demonstrated by all students prior to completion of the first seventy-five credits earned toward a bachelor degree. Competency shall be demonstrated by:

1. Completing successfully an approved course in critical thinking: BA 1010; COM 2110; PHI 1050 (Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements); OR
2. Passing the Critical Thinking Competency Examination; OR
3. Transferring credit received for successful completion of a comparable course taken at another college or university.

**Group Requirements**
The purpose of the Group Requirements is two-fold: to acquire a broad range of knowledge, and to develop methodological skills which encourage continued exploration on an independent level. As knowledge proliferates and the interrelatedness of separate disciplines becomes increasingly evident, the traditional goal of mastering discrete or representative bodies of common, traditional material has become obsolete; even the aim of becoming familiar with all areas of
knowledge has become an impossible objective. A commitment to intellectual diversity, though, must remain a central goal of any coherent undergraduate experience, and all college students must be exposed to a broad range of basic disciplines. Thus, courses specifically designed to ensure that students are adequately exposed to representative branches of knowledge are fundamental to any set of general education requirements, and course work in areas outside specialized fields is required of all undergraduates at Wayne State University. These courses provide the conceptual framework within which major and professional curricula are placed in proper perspective and supply an appropriate foundation upon which continuing self-education can take place.

In addition to providing breadth of knowledge, however, the General Education Group Requirements aim to foster awareness and understanding of how scholars and scientists in various disciplines acquire knowledge. Group requirements allow students to understand and apply the methods used in different disciplines to acquire knowledge so they will have the ability to continue to explore and learn independently throughout their university careers and throughout life.

Fundamental to any set of general education requirements at the university level are courses designed to ensure that all students have facility with certain branches of knowledge. The Group Requirements introduce students to knowledge and methods in a range of areas to provide the intellectual breadth necessary for completion of the major and for continuing self-education later in life.

To satisfy the Group Requirements, students will be introduced to materials drawn from the natural sciences: physical science, life science, and laboratory; the humanities: visual and performing arts, and philosophy and letters; and society and institutions: social science, American institutions, historical studies, and foreign culture. Courses which fulfill the Group Requirements carry a minimum of three credits and constitute broad introductions to individual academic disciplines.

Such courses are designed for non-majors; however, some courses designed specifically for majors, or for those with substantial prior preparation, may also be acceptable. The following principles apply to the General Education Group Requirements:

1. Courses which satisfy the Group Requirements must be elected from lists of approved courses.
2. Students who place out of a course or courses which satisfy one or more of the Group Requirements will be considered to have fulfilled those portions of the Group Requirements represented by such courses.
3. For the purpose of satisfying these Group Requirements, students may generally elect no more than TWO courses from a single subject area as defined by the University system of Subject Area Codes (the letter prefixes to course numbers). However, majors in certain programs may take more than two courses from a single subject area to satisfy Group Requirements. This exemption applies to courses coded AFS for African American Studies majors; courses coded LAS for Latino/a and Latin American Studies majors; and to the Subject Area Code of a departmental honors major as well as courses coded HON for University Honors co-majors. Courses for these programs may be found in the Departmental sections of this bulletin.
4. Where specified, a Group Requirement may be satisfied by approved course sequences.
5. Pass/No Pass Grading: Courses taken for P-N grades (Pass/No Pass or Credit/No Credit) may be used to satisfy Competency Requirements; however, no course taken on this basis may be used to fulfill specific Group Requirements. Courses used to fulfill Group Requirements must be taken for a letter grade.

All students must fulfill the following Group Requirements by satisfactory completion of designated courses in each area; or, by an appropriate score on designated placement, national or departmental examinations.

**Humanities (VP, PL) Group Requirement**

Meaningful exposure to the humanistic disciplines produces more well-rounded and humane citizens, individuals capable of broadening their view of human experience. It also provides an indispensable creative perspective on the teachings of other disciplines. The General Education Group Requirements in the humanities afford students an opportunity to examine a range of humanistic statements and to consider some of the ways in which they are meaningful. Analyzing works drawn from across the humanities (arts, philosophy, and letters), considering the varied contexts to which they belong and within which they are properly understood, and evaluating a range of interpretations, leads to an appreciation of how imagination and intellect, working in tandem, provide insight into the nature of human experience.

To meet the humanities requirement objectives, all undergraduate students at Wayne State are required to complete successfully at least one course in the visual and performing arts, and one course in philosophy and letters as defined below (a minimum of three credits each).

**Philosophy and Letters (PL) Group Requirement**

Students must complete one course in philosophy, literature, linguistics, the history of rhetoric, or appropriate combinations of these subjects. The following approved options are designed to enhance understanding and pleasure; emphasis is placed on developing the fundamental skills of analysis, interpretation, and evaluation, and applying them to primary philosophical and literary materials.

(Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.)

Natural Science (PS, LS) Group Requirement

The evolution of science in the last four centuries has profoundly influenced the development of thought throughout the world. The natural sciences, both directly and through their applications in technology, present society with problems as well as opportunities. By transforming cultural values and beliefs, the sciences have altered behavior and created new pathways to the future. Thus, university graduates should understand the nature and applications of scientific knowledge, the processes by means of which it is generated and tested, and its limitations and capabilities. They should be familiar with phenomena of the natural world and comprehend how theoretical explanations are provisionally accepted by the scientific community.

All students are required to complete successfully at least two courses (a minimum of three credits each) in the natural sciences (one in the physical sciences and one in the life sciences). To permit the individual student to experience the role of systematic observation in the promulgation of scientific knowledge, a minimum one-credit laboratory or interactive demonstrations or simulations must be associated with at least one of these courses.

Life Sciences (LS) Group Requirement

Students must elect one course from the fields of biology, behavioral psychology, physical anthropology, nutrition and food science, or combinations of no more than two of these areas. The following approved options are designed to explain the mechanisms which govern the behavior and functioning of living organisms; emphasis is placed on factors which control these mechanisms and the nature of scientific inquiry.

**Society and Institutions (AI, FC, HS, SS) Group Requirement**

Understanding human society and institutions is a basic element of general education. To this end, students must develop a historical perspective, an appreciation for world cultures, and learn how the methods of social science are used to develop theoretical understanding of human society and institutions. Studying the social sciences assures that students are introduced to several bodies of knowledge which shed light on contemporary social problems and develop understanding of methods appropriate to social science investigation (research). The findings of social scientists address such relevant issues as race relations, family structure, the organization of social institutions, politics, economic policy, and international relations. The courses which satisfy the requirements in social science introduce the methodology of modern, empirical social science.

To meet the Society and Institutions Requirement, all undergraduate students at Wayne State are required to complete successfully at least one course in historical studies, one course in American society and institutions, one course in basic social science, and one course in foreign culture as defined below (a minimum of three credits each).

**American Society and Institutions (AI) Group Requirement**

Students must elect one course in this area. The following approved options are designed to promote civic literacy by studying American society from the perspective of pluralism; emphasis is placed on the organization of political bodies and the manner in which they function.

**American Society and Institutions Options**

**PS 1030** The American Governmental System 3

**Foreign Culture (FC) Group Requirement**

A significant measure of a college education is the degree to which individual cultural assumptions can be placed in the context of a wider and more diversified world view. Such understanding leads to greater appreciation for the life style and artifacts of different peoples and a tolerance for opinions originating from disparate traditions by helping minimize narrow certainties and dispel provincial attitudes.

To meet these objectives, all undergraduate students at Wayne State are required to complete successfully at least one course (a minimum of three credits) in foreign culture elected from the following list of approved options:

Historical Studies (HS) Group Requirement

Historical studies provide insight into the development of human institutions, their similarities and differences, and the means by which knowledge about the past is acquired. Such studies reveal how contemporary perspectives evolve from past events and enhance our understanding of the present.

To meet the historical studies requirement objectives, all undergraduate students at Wayne State are required to complete successfully at least one course (a minimum of three credits) in historical studies.

The following approved options do not offer a comprehensive overview of history; rather, they are designed to introduce significant historical periods or themes in which comparative perspectives are emphasized and methods of historical studies explained.

This includes completion of any foreign language sequence through courses numbered 2010 or 2110. (Schools and colleges may also have specific requirements; such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.)

Social Science (SS) Group Requirement

Students must elect one course in basic social science. The following approved options provide an overview of social structures and illustrate the role of human beings in different institutional arrangements; emphasis is placed on the approaches and methods of modern social science: the significance of theories, models, data collection, analysis, and inference.

(Schools and colleges may also have specific requirements; such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.)
### Table of General Education Courses

For the purpose of satisfying Group Requirements, students may elect no more than TWO courses from a single subject area as defined by the University system of Subject Area Codes. (Subject Area Codes are the letter prefixes to course numbers.) Co-majors in the University Honors program are exempt from this limitation and may take more than two courses in the Subject Area Code of HON to satisfy Group Requirements.

The University’s honors curricula serve to challenge highly motivated students through courses of advanced study; to provide academic programs of unusual breadth and depth; to provide recognition of outstanding scholastic achievement; to foster interest in research and scholarly activity; and to provide students an opportunity to work with outstanding faculty.

**Dual Recognition**: Students who complete the requirements for University Honors and, in addition, the requirements of a College/Department Honors Program, shall have both designations on the transcript and the diploma. Only a single senior essay, thesis, or project shall be required.

More information about both University Honors and departmental Honors is available online (http://www.honors.wayne.edu) and at the Honors College as well as through the respective departments/colleges.

**University Honors Curriculum**

The University-wide Honors curriculum, managed by the Irvin D. Reid Honors College, allows undergraduate students in any College or School to pursue individually-designed Honors Programs which complement their majors.

Benefits of membership in the Honors College include Honors advising, Honors pre-priority registration, Honors sections of general education and major courses, and designation of completion of the Honors curriculum on the diploma and transcript.

**Admission**: Students with excellent academic records are eligible to apply to the University’s Irvin D. Reid Honors College. Normally, the following are required:

**Entering Freshmen**: Entering freshmen admitted to the University by December 1 are considered for acceptance to the University Honors curriculum. Consideration is based on regular University admission; no further application is required. Invited freshmen are invited to participate in the Honors College scholarship event, Scholars Day.

**Matriculated Students and Transfer Students**: Students who have a minimum cumulative grade point average of 3.3 or above at Wayne State University may apply for acceptance to the Honors College. Applications are available at the College.

**Eligibility to register for Honors courses**: Students whose cumulative grade point average is at least 3.3, but who are not formally in the Honors College, are eligible to elect honors courses to enrich their educational experiences.

**Retention**: The academic record of each student shall be reviewed at regular intervals. To remain in the University Honors College, a student normally shall be expected:

1. to pursue a course of study consistent with the objectives of the Honors College, as recommended by the University Honors Council and approved by the President or his/her designee; and

2. to maintain a cumulative grade point average greater than or equal to 3.3; however, Colleges/Departments may establish a higher g.p.a. requirements for retention in a College/Department program.

A student whose cumulative grade point average is below 3.3 and is, for that reason, dropped from the Honors College, may reapply when his/her cumulative g.p.a. is 3.3 or higher.

**University Honors Requirements**

The College shall require Honors-designated course work totaling a minimum of thirty-six credits for the baccalaureate program the student is pursuing. Students in this College MUST SATISFY THE GENERAL EDUCATION REQUIREMENTS, but the approved General Education courses may differ for the Honors College after review by the Honors Council and the General Education Implementation Committee and approval by the President or his/her designee. The Honors College General Education core curriculum will define a common body of knowledge beginning with the freshman Honors first-year sequence, and including a specified complement of Honors courses chosen from existing General Education options as determined by individual departments in consultation with the College.

**Graduation**: For graduation with University Honors, students must have a minimum cumulative grade point average of 3.3, and must complete a minimum of thirty-six credits in honors-designated course work (including HON 1000, the Honors section of PS 1010, a service learning course with HON 3000, at least one HON 4200-level Honors seminar and a minimum of three credits in an independent research project, essay, or thesis). Graduates of the University Honors College will be so recognized on the transcript and diploma.

**College or Department Honors Requirements**

Undergraduate departments in Colleges and Schools have developed programs leading to honors degrees. Details of these programs are included in the College and Department sections of this Bulletin.

College or Department Honors Curricula require a minimum of twelve credits in honors-designated course work of which at least three credits may be in an independent research project, essay, or thesis in the student’s College/Department and at least one HON 4200-level Honors seminar. Students also must meet the requirements of their major fields. The honors requirements for the major may include approved modifications of normal major requirements.

**Graduation**: For graduation with department honors, students must meet the requirements approved by their department/college/school, including a minimum 3.30 grade point average, an Honors thesis and at least one Honors seminar.

**Graduation with Distinction**

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude.

Graduation with distinction will be indicated on the student’s diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty per cent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

Academic Progress for International Students

Department of Homeland Security regulations require:

1. That F-1 and J-1 students maintain a full course of study and make normal academic progress toward program completion at the institution they have been authorized to attend.

2. Graduate students must successfully complete at least eight credits each semester (excluding continuing students who qualify for an annual vacation semester during Spring/Summer or have been granted an exception to full-time enrollment). Undergraduate students must successfully complete at least twelve credits each semester (excluding continuing students who qualify for an annual vacation semester during Spring/Summer or have been granted an exception for full-time enrollment).

3. Graduate Teaching Assistants and Graduate Research Assistants must successfully complete at least eight credits each semester (excluding students who qualify for a vacation semester during Spring/Summer or an approved annual vacation). If GTAs/GRAs need to take less than eight credits, they must complete the OISS Request for Exception to Full Time Enrollment form and obtain approval from OISS. Students should consult an OISS advisor for details on compliance with this and other requirements.

New International Students and Scholars

New International Students and Scholars receive the OISS welcome booklet with their visa document (Form I-20 or DS 2019) before they leave their home country. The booklet provides information on a wide variety of important topics such as housing, health insurance, expenses, immigration status, local climate, and air transportation. New students and scholars from abroad must report to OISS as soon as they arrive and must participate in a comprehensive orientation program. This program is designed to meet immediate needs in terms of housing information and University registration procedures; introduce them to U.S. culture and the University’s educational system; and provide information on banking, health insurance, safety, and immigration regulations. In addition, a number of social and recreational programs and activities are planned to assist students and scholars in making a smooth transition to their new environment.

Non-Immigrant International Students

Before registering for classes, all non-immigrant international students must report to OISS to complete check-in procedures and have immigration documents reviewed, purchase mandatory health insurance (see below), and obtain an orientation schedule. Transferring F-1 students from other U.S. institutions must have their previous school release their Student and Exchange Visitor Information System (SEVIS) record to Wayne State University and must complete transfer procedures as provided in the federal regulations within fifteen days of the first day of class. F-1 students must notify the OISS of any change in name, address, program (including changes in level and field of study), and full-time enrollment. OISS must provide this information to Immigration and Customs Enforcement (ICE) through the Student and Exchange Visitor Information System (SEVIS). J-1 exchange visitors, including students, may not make a change in level, field, or category without the advance approval of the Department of State, and may be precluded from change of visa status until a two-year home country residency requirement is met.

Commuting Canadian Students

Canadian students (commuters) enrolled less than full time must obtain a part-time I-20 from OISS each semester they are enrolled and should...
consult with an OISS advisor to determine the impact of their status on future immigration benefits including the availability of practical training.

International Faculty and Research Scholars

The University provides foreign professors and research scholars with opportunities to engage in research, teaching, consulting, and lecturing with colleagues at Wayne State; to participate actively in cross-cultural activities; and to share their experience as well as increase their knowledge about the United States, Wayne State University, and the metropolitan Detroit community. OISS provides centralized support services necessary to enable and assure the employability of such non-U.S. citizens within government regulations. Offers of employment to foreign nationals must be authorized by OISS, and only this Office may sign immigration forms and petitions related to employment on behalf of the University. All foreign national employees must complete USCIS Form I-9, 'Employment Eligibility Verification' and present evidence of their identity and employment eligibility at OISS before commencing employment at Wayne State University.

Health Insurance (International Students and Scholars)

416 Welcome Center; 313-577-3422; Fax: 577-2962
Health Insurance Advocate: 313-577-0724

International students and scholars, and their dependents holding F1/ F-2 status and J-1 exchange visitors and their dependents holding J-1/ J-2 status are required to comply with the health insurance requirements of the University. Commuting Canadian students may waive the health insurance requirement by providing proof of OHIP coverage prior to each semester of enrollment. The mandatory international insurance program is designed to provide international students, exchange visitors, and their eligible dependents with continuous insurance protection and access to quality affordable health care services. The University is mandated by federal law to terminate from its program all exchange visitors and their dependents who do not meet minimum insurance requirements. For additional information or to purchase health insurance please access the OISS website (http://www.oiss.wayne.edu) or contact the Health Insurance Advocate in OISS; telephone: 577-0724 or e-mail oissmail@wayne.edu

Cross-Cultural Activities

The OISS provides cross-cultural activities in order to provide exposure to American society, culture, and institutions. Activities include:
International Education Week, new international student learning community, a free international coffee hour held in the Activity Room in the Towers Residential Hall every two weeks on Wednesdays from 11:30 a.m. to 1:30 p.m. Coffee hour provides opportunity for dialogue with and among international students and scholars, American students, and the WSU community. Other activities include monthly sessions on employment options, internships, cross cultural adjustment and more.

Study Abroad and Global Programs Office

906 W. Warren Avenue; 131 Manoogian Hall; 313-577-3207
Director: Kelli Dixon
http://www.Studyabroad.wayne.edu

Study Abroad and Global Programs coordinates international educational activities at Wayne State University. Key activities include:

1. the management of WSU faculty-led study abroad programs and exchange agreements;
2. the administration of the Hostelling International Travel Award for students to encourage international study, research and internship abroad initiatives;
3. the administration for the NSEP - David Boren Scholarship;
4. the administration of the U.S. Student Fulbright Program;
5. the coordination and support of internationally-themed events; and
6. the development and management of international outreach activities and off-campus programs including agreements between Wayne State University and universities outside the United States.

Study Abroad programs are offered in collaboration between academic departments and faculty of both U.S. and foreign institutions, in order to combine academic study with a cross-cultural learning experience in a foreign environment. A variety of program options have been developed to address the diverse needs of students. Programs vary in length, level, academic focus, teaching format, language requirements, cost, and degree of independence demanded of the participant.

The office provides a full range of support services to students on such issues as program selection, academic planning, registration, credit, financial aid, and cultural adjustment. In addition, program materials have been designed specifically to assist students in preparing for their study abroad experience. Books, brochures, catalogs on academic and travel/ study programs in foreign countries are available at the Study Abroad Resource Center, including information on Wayne State's thirty-three study abroad programs and other programs sponsored by American and foreign institutions.

For a complete and current list of WSU Study Abroad programs, learning experiences, and services, please contact the Study Abroad and Global Programs Office (http://studyabroad.wayne.edu).

Arabic Language and Culture at the Lebanese American University, Beirut

This program provides opportunities for WSU students to study Arabic language and culture abroad. During the summer, WSU students may take a variety of language and culture classes while living abroad in Lebanon.

Japan Center for Michigan Universities

The Japan Center for Michigan Universities (JCMU) is a consortium consisting of the fifteen State-supported Michigan public universities, the Michigan Japan Foundation, and Shiga Prefecture. JCMU offers semester- and year-long study opportunities in Hikone, Japan.

The Center's academic program is designed for students interested in acquiring knowledge about Japanese language and culture, including those not majoring in Japanese studies. It provides semi-intensive Japanese language courses and several core courses on Japanese culture to Michigan and other American university students. Academic credit may be granted by a student's home institution upon successful completion of JCMU courses; independent study is also available. The program also features home-stays in a Japanese community, field trips, and participation in cultural events.

Other International Opportunities: Numerous short-term special international study trips for credit are available to Wayne State students.

International Students requiring information on study at Wayne State University should contact the Office of International Students and Scholars (http://www.oiss.wayne.edu).

Resource Center

Books, brochures, catalogs and advising on travel/study programs in foreign countries are available at the Resource Center, including information on Wayne State sponsored study abroad programs and programs sponsored by U.S. and foreign institutions. Course credit is
available on approval for many study abroad programs; credit approval usually must be obtained prior to entering a study abroad program.

Honors College
The Irvin D. Reid Honors College has study abroad experiences; for information, see the Honors College section in the WSU Undergraduate Bulletin.

Fulbright Grants and other grants for graduate study abroad
The U.S. Fulbright student program (http://us.fulbrightonline.org) is designed to give recent B.S and B.A. graduates, masters and doctoral candidates, and young professionals and artists opportunities for personal growth and international experience. Each year the Fulbright Program allows Americans to study or conduct research in over 100 nations. Application deadline depends on the specific program but generally it must be submitted to the campus Fulbright advisor by September of the year prior to the foreign study experience.

Fulbright-Hays Doctoral Dissertation Research Abroad Program (http://eca.state.gov/fulbright/fulbright-programs/programsummaries/fulbright-hays-program): Provides grants to colleges and universities to fund individual doctoral students to conduct research in other countries in modern foreign languages and area studies for periods of 6 to 12 months. Proposals focusing on Western Europe are not eligible.

English Language Institute (ELI)
351 Manoogian Hall, 313-577-2729
Director: Bruce Morgan
http://www.eli.wayne.edu

As the only intensive English language program in the metropolitan Detroit area, the English Language Institute (ELI) has specialized in teaching English communication, cultural orientation, and academic preparation skills to non-native speakers of English from all over the world for more than forty years. The ELI is committed to assisting individuals at all levels of English proficiency to develop their communication skills in the shortest possible time by using the newest language-teaching methodology and the most up-to-date audio, video, and computer technology available. Small classes and highly trained instructors make it possible for students to improve their English rapidly and effectively.

Programs

Intensive Program: For students interested in improving their academic skills in a relatively short period of time, the ELI offers up to twenty-four hours per week of instruction at varying levels from beginning to advanced. While beginning levels focus on basic communicative skills, advanced classes emphasize mastery of the academic skills needed to succeed in the university such as research paper writing, essay test-taking, note-taking, and presenting information to an audience.

In addition to attending class, ELI students are encouraged to participate in weekly extracurricular activities in order to become integrated into the English-speaking community. Each semester the ELI offers field trips around the metro-Detroit area, conversation partner practice with native speakers, and practice TOEFL tests while at the same time urging students to take advantage of all university facilities and services.

Test of English as a Foreign Language (TOEFL) Testing and Reporting: To ensure international students will be successful in the University, all must meet Wayne State’s English proficiency requirements. The ELI administers the TOEFL ITP® monthly on the main campus. Scores are then reported to the applicants as well as Undergraduate and Graduate Admissions.

Graduate Teaching Assistant (GTA) Training and Testing: All prospective GTAs whose native language is not English must pass the SPEAK® test, rated by ELI faculty, with a score of at least fifty (out of sixty) to be cleared for teaching. A score of forty-five allows a person to teach while enrolling in ELI 0520, a course taught by two ELI faculty members. The final exam, also rated by ELI faculty as well as a faculty member from the academic department, is a teaching demonstration in the GTA’s field of study. The SPEAK® test is offered at various times throughout the academic year. ELI 0520 is offered fall and winter semesters.

Members of the ELI faculty also participate in the final day of the Graduate School’s GTA orientation each August by facilitating practice teaching sessions with international GTAs.

Scholarly Writing for Graduate Students: Non-native English speaking Ph.D. candidates who need to publish in scholarly journals and meet other professional obligations can take a course designed specifically to meet their needs. ENG 5850 is a course supported by the Graduate School and taught by ELI faculty each semester.

English Language Institute Courses (ELI)
The following courses, numbered 0100-0999, are not offered for degree credit. For registration in any of these courses students should contact the English Language Institute.

ELI 0100 Level 1: Oral Integrated Cr. 2,4
Focus is simple, basic oral communication in English for speakers who have very little knowledge of English. Students will acquire the ability to understand slow spoken English and interact with others in English about simple topics such as personal information, weather, time, food, clothing, transportation, people, housing, health, workplace, and education. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0110 Level 1: Written Integrated Cr. 2,4
Focus is simple, basic written communication in English for speakers who have very little knowledge of English. Students will acquire the ability to write numbers, common words, phrases and simple sentences in English with very basic grammar. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0120 Level 1: Intensive Reading and Vocabulary Cr. 2,4
Basic reading course in which students will learn to read isolated words and phrases that are familiar to everyday life. Students will recognize familiar names or words and read for information to understand announcements and follow directions. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0200 Level 2: Oral Integrated Cr. 2,4
Focus is to increase the student’s ability to comprehend and produce common spoken English with high frequency vocabulary. Students will be asking and answering questions, taking notes on main ideas, and participating in short social exchanges. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

Fulbright-Hays Doctoral Dissertation Research Abroad Program (http://eca.state.gov/fulbright/fulbright-programs/programsummaries/fulbright-hays-program): Provides grants to colleges and universities to fund individual doctoral students to conduct research in other countries in modern foreign languages and area studies for periods of 6 to 12 months. Proposals focusing on Western Europe are not eligible.

Office of International Programs
ELI 0210 Level 2: Written Integrated Cr. 2,4
Students will acquire the ability to write simple sentences and progress to writing complex sentences using clauses. Students will form a well-organized paragraph with a topic sentence, supporting details, and examples with transitions. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0215 Level 2: Intensive Reading and Vocabulary Cr. 1,2
Focus is to increase students’ comprehension of printed material and increase vocabulary. Students will read a short text and identify main ideas, details, and interpret vocabulary from context; will be able to follow written directions and announcements; and will be able to make inferences from written information. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0220 Level 2: Communicative Grammar Cr. 1-2
Builds communicative competence, or ability to communicate effectively, naturally, and appropriately in a variety of real life situations. In order to build communicative competence, grammar points will be introduced and practiced with an emphasis on the productive skills of speaking and writing. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Freshman or Sophomore; enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0300 Level 3: Oral Integrated Cr. 2,4
Students will increase their ability to communicate in clear standard speech on familiar matters regularly encountered at work, school, leisure, etc. Academic vocabulary will be introduced/increased. Students will increase their ability to comprehend the main points of longer lectures and take notes on main ideas. Students will have group discussions and give short presentations. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0310 Level 3: Written Integrated Cr. 2,4
Students will produce a well-developed paragraph with organization: topic sentence, transitions, two to three main points with two to three supporting details and examples, and concluding sentences. Grammatical structures will be introduced to help students practice compound and complex sentence variety for precision and detail in writing. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0315 Level 3: Intensive Reading and Vocabulary Cr. 1,2
Focus is to increase vocabulary and comprehension of varied reading passages. Students will be able to identify topics, main ideas, and details as well as recognize point of view, purpose and tone. Students will use strategies to discern meaning of words from context and use dictionary skills to increase vocabulary. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0320 Level 3: Extensive Reading Cr. 1-2
Students will increase their reading fluency, or speed and ease of reading. The focus of their reading will be on identifying overall meaning of texts. Class Readers will be assigned to help the students acquire the art of extensive reading, to improve their skills, and to monitor their progress closely. Offered Every Term.
Restriction(s): Enrollment is limited to students with a class of Freshman or Sophomore; enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0410 Level 4: Written Integrated Cr. 2,4
Students will acquire the ability to organize and write a four- to five-paragraph essay using a variety of sentence types, rhetorical modes, and transitions. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0415 Level 4: Intensive Reading and Vocabulary Cr. 1,2
Students will identify the structure, purpose, and connection between ideas in academic texts by finding main ideas, topic sentences, and supporting details in a passage. Students will use strategies to discern meaning of words from context and use dictionary skills to increase vocabulary through word forms. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0420 Level 4: Extensive Reading Cr. 1,2
Students will increase reading fluency by identifying overall meaning of texts. Class Readers will be assigned to help the students acquire the art of extensive reading, to improve their skills, and to monitor their progress closely. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0500 Level 5: Oral Integrated Cr. 2,4
Focus is on mastering communication skills in an academic context. Students will take notes on main ideas and details, orally summarize what was presented, offer opinions on various topics, and give longer presentations on topics using a variety of rhetorical modes. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits
ELI 0510 Level 5: Written Integrated Cr. 2,4
Students will develop critical thinking skills through reading, writing, and classroom discussion. Students will write well-developed five- to eight-paragraph essays and relate assigned readings to their own experience. Students will learn how to incorporate outside sources into their essays and use appropriate citations. Advanced grammatical structures will be reviewed and expanded as necessary. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0515 Level 5: Research Skills Cr. 1,2
Introduces academic writing and research at the university level. Breaks the traditional research paper into shorter writing assignments while focusing on academic writing skills such as paraphrasing, summarizing, and using correct citations. Students will learn how to search for and evaluate academic sources in the library and online databases. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0520 English for Teaching Assistants Cr. 2
American English language skills to improve teaching effectiveness of non-native speakers of English. Pronunciation, stress, intonation, speaking rate; oral presentation practice; cultural factors in U.S. university classroom. Not offered for degree credit. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0530 TOEFL/Timed Essay Writing Preparation Cr. 1-2
Class designed to enhance student's ability to understand and perform on the Test of English as a Foreign Language (TOEFL) for the paper-based and iBT(Internet)-based formats. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0540 Level 5: Media & Culture Cr. 1,2
Provides a greater understanding of American culture and current events via extensive reading from novels and texts as well as print media, leading to integrated learning outcomes such as written assignments, oral presentations, and discussions. TV and radio programs, as well as films and documentaries will provide input for activities and assignments. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 6 Credits

ELI 0550 Academic Preparation III: Oral-Integrated Cr. 2,4
Increasing aural/oral fluency through participation in academic/content-based discussions and other forms of speech in different settings (formal/informal and academic). Presentations are recorded. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0560 Academic Preparation III: Written-Integrated Cr. 2,4
Development of critical thinking skills and advanced level grammar for writing competency in various rhetorical modes for multi-page essays. To increase comprehension, readings will be authentic/native-speaker materials. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0610 Academic Preparation III: Reading and Vocabulary Cr. 1,2
Students learn advanced academic words and gain in-depth understanding of meaning and uses of new vocabulary in authentic readings. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0615 Academic Preparation III: Writing and Vocabulary Cr. 1,2
Students learn advanced academic words and gain in-depth understanding of meaning and uses of new vocabulary in authentic readings. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0699 Directed Study Cr. 1-4
Meets the needs of English as a Second Language (ESL) students in their last stages of preparation for matriculation. Based on students' particular needs, instruction will be provided to strengthen various academic preparation skills, including listening and note-taking practice in an academic context, extensive and intensive reading, and expository and research paper writing. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 8 Credits

ELI 0700 Written Communication Cr. 1,2
Through reading and writing of complex texts, students improve their understanding and use of American English grammar, and mechanics (punctuation and capitalization) for academic and professional settings. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0705 American Pronunciation and Clear Communication Cr. 1,2
Course addresses the communication needs of advanced-level, non-native English speakers who want to reduce the amount of pronunciation errors produced in their speech. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0710 Research Paper Cr. 1,2
Step-by-step instruction in the process of writing an American-style research paper with academic sources and following a prescribed format, such as APA or MLA. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0715 Research Paper Cr. 1,2
Step-by-step instruction in the process of writing an American-style research paper with academic sources and following a prescribed format, such as APA or MLA. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits
ELI 0725 Advanced TOEFL Preparation Cr. 1,2
Students develop strong vocabulary and reading skills in English and prepare for the TOEFL. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0730 TOEFL-iBT Preparation Cr. 1,2
Students enhance their ability to understand and perform on the Test of English as a Foreign Language (TOEFL) for the paper-based and iBT(Internet)-based formats. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0800 Writing Skills I Cr. 3
This course integrates reading, writing, and grammar and focuses on comprehending main ideas and details, inferencing in simplified reading texts, and understanding vocabulary in context. Students will learn to organize and write paragraphs with simple grammatically correct sentences. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Freshman or Sophomore; enrollment is limited to English Language Institute level students.

ELI 0810 Oral Skills I Cr. 3
This course integrates listening and speaking in English and introduces culturally appropriate interaction in speech. Students listen to dialogues, newscasts, and short lectures; give short presentations on a variety of topics; and receive individualized feedback on pronunciation. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Freshman or Sophomore; enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0820 Writing Skills II Cr. 3
This course integrates reading, writing, and grammar and will emphasize how reading and writing are related. Rhetorical modes of essay writing will be introduced, authentic texts will be read, and more advanced grammar points will be covered. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Freshman or Sophomore; enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0830 Oral Skills II Cr. 3
This course integrates listening and speaking in English and focuses on refining students' abilities to understand academic and informal spoken language by listening to academically-themed lectures and extended dialogues. They will develop critical thinking skills for responding to questions and giving presentations. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Freshman or Sophomore; enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0840 Writing Skills III Cr. 4
Course integrates reading, writing and grammar, focus on reading authentic materials and writing essays. Students work to improve their understanding and use of American English, grammar, and mechanisms for academic settings. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0850 Oral Skills III Cr. 4
Course integrates listening and speaking in English and will help students increase their aural/oral fluency through participation in academic/content-based discussions and various other forms of speech in formal, informal and academic settings. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0860 Communication and Culture Cr. 4
This course will involve writing and oral presentations based on academic readings and cultural experiences. Additional instruction in grammar and sentence structure will be provided based on students' needs. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.

Records and Registration

Office of the Registrar

In Person Services: Student Service Center, Welcome Center, 42 West Warren
Mailing Address: 5057 Woodward; Suite 5101, Detroit, MI 48202
Telephone: 313-577-3550, Fax: 313-577-7870
http://reg.wayne.edu/

The Office of the Registrar supports the instructional, research and service missions of the University by providing a wide variety of academic services to students, faculty and staff. The office consists of several units: The Office of the Registrar prepares academic calendars, assesses tuition and fees, determines residency, and reviews all appeals for exceptions to University enrollment policies. Records and Registration oversees registration, adds, drops, course withdrawals, grading, student personal and academic data, and transcripts/academic records. Curricular Services oversees the preparation of each term's Schedule of Classes, degree audit tools, graduation applications and diplomas. Transfer Credit evaluates coursework from other universities for undergraduate credit at Wayne State University.

Registration (http://wayne.edu/register)

Registration is the process of officially enrolling in classes for a particular term. Students can view the Class Schedule (http://classschedule.wayne.edu) online, add courses to their cart, and complete registration within Academica. A student may not attend any class for which he/she is not officially registered.

POST-BACHELOR STATUS: Students wanting graduate credit should NOT register 'post-bachelor.' This status allows students holding bachelor's degrees from accredited institutions to elect only courses open to undergraduate students (numbered below 7000), which may be used to fulfill prerequisite requirements for graduate admission. Credits for courses elected as a post-bachelor student do not count toward graduate credit.

Academica (http://academica.wayne.edu)

Academica is a secure gateway that provides unified access to Wayne State information, services, and computing systems. This comprehensive environment is a one-stop location where WSU students, faculty, and staff can conveniently use online self-service functions and easily access many computing systems, such as the Wayne Connect Email system and the Blackboard Learning System. Using Academica, students also have continual access to specific information and helpful tools needed for communication, collaboration, teaching and learning, and University administration. Current students can use secure self-services to check financial aid, register for and drop/add classes, pay tuition and
fees, check holds and final grades, obtain enrollment verifications and transcripts, self-register for training programs/workshops, and more.

Accessing Academica requires a valid WSU Access ID (http://bulletins.wayne.edu/graduate/general-information/cit) (e.g., xy6789) and password. As soon as a student applies for admission or an employee is hired, a unique Access ID is automatically created. The university’s Help Desk (http://computing.wayne.edu/accessid) services can provide technical assistance if necessary.

Degree Works (http://wayne.edu/dregeworks)

Degree Works is a degree tracking tool that allows you to see your progress toward graduation and help you and your advisor determine which courses you still need to take. Along with your advisor, you can also map out which courses you will take in future semesters, putting you on the right path for graduation.

Drop/Add – Adjusting Your Schedule

Registered students may drop and/or add classes on the date(s) indicated on the Registration Calendar. Note the following requirements:

1. The regulations pertaining to dropping and adding courses are stated as they pertain to regular courses fifteen weeks or more in duration. These regulations are applied proportionately to courses that are offered for less than fifteen weeks. Students can click on the Course Reference Number (CRN) on the class schedule website to view specific deadline dates for each course(s). Students can also contact the Registration Office (registration@wayne.edu) for any questions regarding these regulations.

2. Students who do not officially drop their courses within the first two weeks of classes are financially obligated to pay for the courses even if they have not attended any class sessions.

3. Students who officially drop full term courses before the conclusion of the first two weeks of classes (for the Fall and Winter terms) are entitled to 100% tuition cancellation, and the courses do not appear on the students’ academic records.

4. Students who officially drop fifteen-week courses after the second week of classes (for the Fall and Winter terms) are not entitled to any tuition cancellation; however, courses dropped prior to the conclusion of the fourth week of classes do not appear on students’ academic records. After the fourth week of classes, courses dropped are considered a withdrawal. The withdrawal will include a notation on the academic record of 'WP' - Passing, 'WF' - Failing, or 'WN' - Never Attended, beginning in 2006-07.

5. Students are not permitted to add courses after the first week of the term without instructor and departmental permission. Departments are required to enter a late add permit/override for students if exceptions are made to permit adding of classes during the second week.

6. Students are required to submit their withdrawal through Academica for their instructors’ approval for withdrawals processed after the fourth week of the term. Once logged into Academica, click the Student tab, under Registration from the Student Services menu, choose Withdraw from a Class, follow the prompts on each page. Before a withdrawal request is sent to the instructor, undergraduate and Masters level students will be required to complete a SMART Check. See the Financial Aid website (http://wayne.edu/financial-aid/receiving/withdrawal) for more information.

7. Students are not permitted to withdraw from courses after the end of the tenth week of class for full term classes. The withdrawal deadlines are published in each term’s academic and registration calendar. Withdrawal dates for less than full term courses are adjusted proportionally. Late withdrawal requests will not be approved. Medical withdrawal requests have separate deadlines.

Classes for which a grade has been earned cannot be withdrawn.

College of Engineering: Students are not permitted to withdraw from courses after the fifth week of classes without written approval of their advisor. Some departments have more stringent restrictions on withdrawing from courses.

University Grading System

Final grades are available on Academica (http://academica.wayne.edu). Grades are not mailed to students. Final grades are recorded under the following system.

Undergraduate Grades

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Grade Points per Credit</th>

<td>Marginal pass</td>
<td>no credit</td>
</tr>
</tbody>
</table>

P, N, S, U, M, ANC, BNC, CNC, UNC, SNC, PNC, MNC, and NNC grades are not reflected in the grade point average.

NR — No grade reported by the instructor.
P or N — Passed or Not Passed (undergraduate students only). These grades do not affect grade point averages, but undergraduate courses completed with grade of P may count toward a degree.

S, M, or U — Satisfactory, Marginal, or Unsatisfactory performance in non-degree courses and in certain designated courses such as field work, practicums and internships. These grades do not affect grade point averages.

**Marks**

The mark of I (Incomplete) is given to a student when he/she has not completed all of the course work as planned for the term and when there is, in the judgment of the instructor, a reasonable probability that the student will complete the course successfully without again attending regular class sessions. The student should be passing at the time the grade of I is given. A written contract specifying the work to be completed should be signed by the student and instructor. Responsibility for completing all course work rests with the student.

The mark of I will be changed to a letter grade when the student completes the course work as arranged with the instructor or, if the instructor has left the University, with the Chairperson of the department or other instructional unit. Work must be completed within one calendar year. There are NO extensions.

The mark of I will not be awarded if, in the instructor’s judgment, it is necessary for the student to attend subsequent sessions of the class. If regular attendance is necessary to complete coursework, the student must register for the class for the semester in which attendance is planned. The student will be assessed tuition and applicable fees for the second registration. If the student decides to register for the course, subsequent to the assignment of an I, then the mark of I for the original election will be changed to a Withdrawal/Passing (WP), and the student will be responsible for tuition and applicable fees for the second registration. Students are responsible for notifying their department and the department offering the course that they have reregistered for the course so that the I is not changed to an F.

Any unchanged mark of I will, within one calendar year from the time it was received, be changed to a grade of F or failure. This will not be changed after the I is replaced.

The mark of WF (Official Withdrawal Failing) is given when the student withdraws from the course in accordance with University policy and the student had earned a failing grade as of the date the withdrawal is approved.

The mark of WN (Withdrawal Non-Attendance) is given to students who did not attend any classes and/or did not complete any assignments and/or did not participate in credit-earning activities by the withdrawal date.

The mark of WP (Official Withdrawal Passing) is given when the student drops the course in accordance with University policy and the student had earned a passing grade as of the date the withdrawal is approved.

The mark of Y (Deferred) is given when the student is up-to-date in the work of a course planned to continue beyond the semester (i.e., essay, thesis, dissertation and certain courses taken in sequence).

The mark of Z (Auditor) is given when the student has formally registered for the course for audit. The student’s Academic Dean or his/her designee must provide written audit authorization to the student at the time of registration.

**Change of Grades and Marks**

Once recorded in the Office of the Registrar, grades/marks will be changed only if the instructor posts the grade change in the online grade/mark change system in Academica. Most changes must be posted within one calendar year. (Deferred (Y) grades are the exception.) Failure grades that are posted as a result of a student not completing an incomplete course may not be changed. After a degree has been awarded, the grades associated with that degree may not be changed. Other change of grades or marks older than a year must be approved by the department chair and the Associate Dean of the school or college that offered the course.

**Grade Point Average**

The grade point average (g.p.a.) is the numerical index of the student’s scholastic average. Points are assigned to each letter grade (see University Grading System, above) for each hour of credit. To compute your grade point average, multiply the grade points assigned to each course grade by the number of credits for each course; add the results and divide by the total number of credits.

For example, a grade of A in a class carrying 3 credits would be assigned 12 grade points (3 x 4), and a grade of C in a class carrying 4 credits would be assigned 8 grade points (4 x 2). In this example, the grade point average is: 20 (total grade points) divided by 7 (total credits attempted) = 2.85 g.p.a.

Credit for special examinations, transfer credit, and courses in which a mark of I, W, WF, WN, or WP or a grade of S, U, M, P, and N, has been earned are excluded from grade point average computation.

**Law School: This grade point system does not apply to Law School students.**

**Passed — Not Passed Program**

The University has a program whereby undergraduate students may elect to take courses in which they will be marked as Passed (P) or Not Passed (N) in place of a letter grade. The following regulations apply.

1. The student may elect one P-N course per semester with the consent of an advisor, but he/she may not elect more than six courses in all.
2. After classes have begun, a student may not change from Passed/Not Passed to a letter grade election or vice versa.
3. Courses taken for P-N may be used to satisfy competency requirements; however, no course taken on this basis may be used to fulfill specific group or major requirements.
4. Credits for a P-N course may be used to fulfill graduation requirements but will not count in the grade point average. In the event the student enrolls in more than six P-N courses, those beyond the permissible maximum will be designated on the permanent record as not applicable toward graduation.

Mike Ilitch School of Business: Students in the School of Business may not take courses offered by the School of Business on a passed / not passed basis.

**Repeating Courses — The mark of R**

COURSES REPEATED PRIOR TO WINTER TERM 1998:

If an undergraduate student repeats a course and completes it with a grade of A, B, C, D, or E, the following rules will apply in posting the students cumulative record:

1. The grade, grade points and credits for an earlier attempt will be eliminated from the student’s grade point average computation.
2. The grade, grade points and credits of only the latest repetition will be included in the student's grade point average computation.

3. An R on the student's academic record will replace the original grade in the course repeated under this rule. Thus, the indicator R will appear for all attempts in a course except the last.

COURSES REPEATED WINTER TERM 1998 TO SPRING/SUMMER TERM 2006:

If an undergraduate student repeats a course and completes it with a grade of A, A-minus, ANC, B-plus, B, B-minus, BNC, C-plus, C, C-minus, CNC, D-plus, D, D-minus, or E, the following rules will apply in posting the student's cumulative record:

1. The grade, grade points and credits for an earlier attempt will be eliminated from the student's grade point average computation.

2. The grade, grade points and credits of only the latest repeat will be included in the student's grade point average computation.

3. The original grade in the course repeated under this rule will remain on the student's academic record. Earlier attempts will be flagged for exclusion in the g.p.a. calculation and the latest attempt will be flagged for inclusion in the g.p.a. calculation.

COURSES REPEATED FROM FALL TERM 2006 TO THE PRESENT:

If an undergraduate student repeats a course and completes it with a grade of A, A-minus, ANC, B-plus, B, B-minus, BNC, C-plus, C, C-minus, CNC, D-plus, D, D-minus, or E, the following rules will apply in posting the student's cumulative record:

1. No student shall attempt to take a class more than four (4) times (for a definition of "attempt," see 5, below).

2. If a student anticipates an attempt to take a class for the third (3rd) time, he/she must meet with an academic advisor to receive permission for this attempt.

3. If a student anticipates an attempt to take a class for the fourth (4th) time, he/she must obtain written permission from the chair (or his/her designee) of the department offering the course and the chair (or his/her designee) of the student's home department.

4. When a course is repeated, credit is only granted once. The last grade and credit hours for a repeated course are used in computing a student's grade point average and for awarding credit hours applicable for a degree even if lower than the previous grade. However, a grade of WP (Withdrawal/Passing, no credit) or WF (Withdrawal/Failure, no credit) or I (Incomplete, no credit) will not replace a previous grade or credit hours for a course. All attempts to take a course will be recorded on a student's transcript, whatever the last grade and credit hours awarded may be.

5. Withdrawals, incompletes, as well as courses repeated in an effort to earn higher grades will count as attempts. If a student drops the class before a W would appear on the transcript, this is not counted as an attempt, i.e. the student does a drop or a drop/add to another course. If tuition has been assessed and the time for refunding tuition has passed but the time for having a W appear on the transcript has not, the tuition will not be refunded, but the registration will not count towards the allowed attempts.

6. Any student who has repeated three different courses must meet with an academic advisor for permission to repeat another course.

7. There shall be an appeals process to the dean's office of the colleges offering the course and the student's home department.

After a degree has been granted, no grade computed in that degree may be changed.

If a post-bachelor status student repeats a course originally taken under regular undergraduate status, the repeat will in no way modify the earlier attempt. The second election, however, will be averaged in the grade point base.

Mike Ilitch School of Business: No course in which a student has received a passing grade or mark may be retaken without the prior written approval of the Director of Student Services of the Mike Ilitch School of Business.

College of Engineering: No course may be retaken without the prior written approval of the respective department's Graduate Program Chairperson and the Associate Dean of Engineering for Graduate Studies. Students may not retake any course in which a grade of 'A' or 'B' was received.

Eugene Applebaum College of Pharmacy and Health Sciences: No course may be retaken without the consent of the advisor(s) delegated for each professional curriculum.

Transfer of Undergraduate Credits

Wayne State University policy accepts transfer credit from all accredited institutions of higher education, both community colleges and baccalaureate-granting colleges and universities.

No transfer grades apply in computing Wayne State grade point averages.

Transfer Credit from Regionally Accredited Institutions: Wayne State University will accept equivalent academic credit from regionally accredited baccalaureate-granting institutions, and up to sixty-four semester credits from community colleges and other regionally accredited institutions which offer Associate Degrees. (All credits will be evaluated in the latter case; the most relevant sixty-four credits will apply to the degree.) Courses must be completed with a grade of C or higher to transfer in to Wayne State.

Credit from Institutions NOT Regionally Accredited: Wayne State University will accept transfer credit from other accredited institutions, provided that the institution:

1. grants a baccalaureate or associate degree;
2. is fully accredited by an agency recognized by the Council on Postsecondary Education (COPA); and
3. the courses presented for transfer are shown to have equivalency or are determined to be of a traditional academic nature.

Transfer Credit from Institutions in Candidacy Status: Wayne State University will accept for transfer those credits for which a grade of B or higher was earned from institutions with candidacy status from a regional accrediting agency.

Technical, Vocational and Applied Credit: To facilitate transfer of students, Wayne State University will accept for transfer up to twelve semester credits earned in technical, vocational and applied (TVA) courses at two- and four-year colleges if such courses are determined to be related to a student's intended program. For students transferring from associate degree granting institutions, the twelve TVA credits will be included in the sixty-four credit limitation.

Transfer of Remedial or Developmental Course Work: Credit earned in courses designated remedial or developmental will not transfer.

Transfer of Redundant or Duplicative Course Work: Transfer credit will not be awarded for redundant course work (i.e., courses with substantially duplicative content). Credit will be awarded for only one course in any set of redundant courses.

Residency and Upper Division Requirements: Transfer students will be required to meet the University and College residency requirements and
to obtain the same number of upper division credits in fulfillment of the baccalaureate degree as are required of native students in specific major programs.

**Junior Standing:** Wayne State University will award junior standing to all transfer students for whom fifty-six or more transferable semester credits have been accumulated, whether they are transferred credits or credit earned at Wayne State University. Junior standing will not guarantee automatic entry to major and professional programs in the Schools and Colleges. Transcripts will be individually evaluated to determine whether all prerequisites for major and professional standing have been met by native and transfer students.

### Advanced Placement Tests

Superior performance in the College Board Advanced Placement Tests will entitle an entering freshman to consideration for advanced placement and/or advanced standing credit of up to a maximum of thirty-two semester credits of coursework in the areas covered by the examination. These areas include American history, European history, art history, studio art, biology, chemistry, computer science, English, French, German, Latin, Spanish, mathematics, music literature, music theory, and physics. Advanced placement and/or advanced standing credit will be awarded and such credit may satisfy General Education Requirements (see General Education Program (p. 31)) in accordance with policies adopted by the appropriate Department. Interested students should contact the Office of Undergraduate Admissions (https://admissions.wayne.edu).

### College-Level Examination Program

The College Board sponsors the College-Level Examination Program (CLEP). This program gives students and prospective students the opportunity to demonstrate their academic proficiency at the freshman-sophomore college level in various areas and in specific subjects whether or not they have had previous formal college instruction in materials covered by the tests. As described by the College Board, the examinations are intended to provide a comprehensive measure of undergraduate achievement in the five basic areas of the liberal arts:

- English composition
- humanities
- mathematics
- natural sciences
- social sciences

They are not intended to measure advanced training in any specific discipline, but rather to assess a student’s knowledge of fundamental facts and concepts, his/her ability to perceive relationships and his/her understanding of the basic principles of a subject. The content of the Examinations is similar to the content of those subjects ordinarily included in the program of study required of most general education students in the first two years of college.

The Subject Examinations are essentially end-of-course tests developed for widely taught undergraduate courses. They measure understanding of basic facts and concepts, as well as the ability to apply such understanding to the solution of problems and the interpretation of materials. Questions that require of a student only rote recall are avoided.

Superior performance in these examinations will be considered as a basis for granting advanced placement and/or advanced standing credit as well as for waiving parts of the General Education Requirements of the University (see General Education Program (p. 31)). For further information, please consult advisors, school or college offices, or University Advising Center at 313-577-8889.

For information on credit by Special Examination, see Credit by Special Examination.

### Transcript Request Policy

Official transcripts bear the seal of the University and the signature of the Registrar. They are sent directly to the receiving party. Transcripts are issued free of charge, up to ten copies per year. A fee of $5.00 per transcript is charged for copies in excess of ten. A fee of $20.00 is assessed for each emergency transcript. An emergency transcript is one which is mailed for overnight delivery. The next day service only applies to street addresses (No Post Office Boxes) within North America. Next day service requests must be received by 1:00 p.m.

Students may request transcripts via Academica (http://academica.wayne.edu). There are no on demand transcript requests. Due to the signature requirement for releasing educational records, the University cannot accept telephone requests for transcripts.

Transcripts are not issued to anyone outside the University without the written permission of the student. Requests for official transcripts will not be honored if the student or former student has an outstanding financial obligation to the University.

For students who have been in attendance since the year 2000, transcripts can be sent electronically. A valid email address must be provided.

### Release of Student Records

The University recognizes the educational records of students as being privileged and has a policy designed to ensure that this information is not improperly divulged without the consent of the student. The University is subject to the Family Education Rights and Privacy Act (http://reg.wayne.edu/students/privacy.php) (FERPA) and has promulgated regulations pursuant thereto. Copies of the regulations and a list of student records maintained by the University are available for inspection in the Office of the Registrar. The University reserves the right to provide anonymous academic information to other schools and colleges when it is to be used for curriculum evaluation purposes.

### Michigan's Freedom of Information Act

The Freedom of Information Act (PA 242) provides that a member of the public, in accordance with certain guidelines, has a right to inspect and receive copies of public records maintained by the University. A public record is broadly defined and includes written documents, pictures, recordings, punch cards, magnetic cards, etc., which are maintained by the University in the course of official responsibilities. However, certain records are exempt from disclosure.

The Media Relations Office, located in 3100 Academic/Administrative Building, is responsible for accepting requests for public records, and the Director of that office is the University officer in charge of providing this service. Under statute, a fee can be charged for records released and is based on the cost of labor involved in the search, examination and duplication of records, as well as the mailing costs. Only the Office of General Counsel may authorize the denial of a FOIA request.

### Student Directory Information

Effective Winter Term 2000, and updated Spring/Summer 2017, Wayne State University policy permits the release of certain Student Directory information. The specific items are: name, university-provided email address, major, classification (freshman, sophomore, etc.), participation in official recognized activities, including sports, height and weight.
of member of athletic teams, degree(s) received from Wayne State University, and honors and or/academic awards received.

Unless a student informs the Office of the Registrar that he or she does not want this information released, it will be available to third parties on request. In addition, the student’s name, WSU e-mail address, College/School, and major will be visible in the University’s Electronic Directory on the Internet. Students who do not want this information released must formally request withholding by completing the Release of Directory Information form, available from the Office of the Registrar (http://reg.wayne.edu).

**WSU OneCard**

The WSU OneCard is a multi-purpose identification and debit card all in one. It is a convenient, easy-to-use card designed to provide students with access to a wide variety of campus services including: parking, door access, copying and printing services, food and book-store purchases, and more, all without having to use cash. The OneCard is needed to access the fitness center, the complimentary campus shuttle and serves as the Library Card for the WSU Libraries. Students should contact the OneCard Office (http://www.onecard.wayne.edu) for complete details.

**Retention and Graduation Data**

The following information provided by the National Student Clearinghouse reflects 4-year and 6-year graduation and retention rates of the Fall 2010 cohort. Decisions by students to complete degree programs in more than four years varies from personal to programmatic to economic reasons. Additionally, some students in the 2010 cohort have graduated or will eventually graduate at other institutions through transfer or pre-baccalaureate entry into professional programs.

The Fall 2010 cohort consisting of 2400 students tracked by the Clearinghouse for periods of four years and six years shows:

**Table 1**

<table>
<thead>
<tr>
<th>Description</th>
<th>At the End of 4-years</th>
<th>At the End of 6-years</th>
</tr>
</thead>
<tbody>
<tr>
<td>4-year degree from WSU</td>
<td>13%</td>
<td>39%</td>
</tr>
<tr>
<td>4-year degree from other institution</td>
<td>1%</td>
<td>6%</td>
</tr>
<tr>
<td>2-year degree from other institution</td>
<td>2%</td>
<td>5%</td>
</tr>
<tr>
<td>Certificate from other institution</td>
<td>1%</td>
<td>1%</td>
</tr>
<tr>
<td>Retained at Wayne State University</td>

<tr>
<td>Not retained, not completed</td>
<td>22%</td>
<td>24%</td>
</tr>
</tbody>
</table>

Decisions by students to complete degree programs in more than four years varies from personal to programmatic to economic reasons. Additionally, some students in the 2010 cohort have graduated or will eventually graduate at other institutions through transfer or pre-baccalaureate entry into professional programs.

**Student Academic Success Services**

**Ombuds Office**

790 Student Center Building; 313-577-3487 http://ombudsman.wayne.edu

The Ombuds Office exists to support students in achieving their academic goals by providing them with the tools to access services and resolve issues that are hampering their academic progress. The Office advises students about University policies and procedures, helps them identify possible avenues and solutions, and directs them to relevant University services.

The Ombuds Office is objective, impartial, and does not advocate a particular point of view. It listens to student-related concerns and exercises independent judgment regarding any action it may take. The Office has no authority to change academic or administrative decisions, but it facilitates communication when suitable. Confidentiality is maintained as appropriate and feasible based on individual student needs and desires.

The Ombudsperson is the Chair of the Tuition and Fees Appeals Board (TFAB). The TFAB is charged by the President to be the final arbiter of appeals for tuition and related fees. Students who have exhausted the appeals process in the Office of the Registrar related to tuition and fees may appeal to the TFAB. Each appeal is reviewed as an individual case, and cancellation of tuition and/or fees is granted only when circumstances warrant. It cannot grant tuition adjustments for classes in which students received earned grades, nor can it grant course withdrawals without tuition cancellation. The TFAB will consider only those appeals that are filed within one calendar year following the last day of the academic term in which the challenged fees were assessed.

**University Advising Center**

1600 David Adamany Undergraduate Library; 313-577-2680 http://www.advising.wayne.edu

The mission of the University Advising Center is to help all undergraduate students reach their educational goals, with high academic achievement, and to graduate.

The University Advising Center provides academic advising to all undergraduate students with undeclared majors and to preprofessional students in the College of Liberal Arts and Sciences, and the College of Fine, Performing and Communication Arts. The Center is staffed by professional advisors whose major responsibilities include the following:

**New Student Orientation**

The University Advising Center holds new student orientation (http://bulletins.wayne.edu/undergraduate/general-information/success-programs/%20http://wayne.edu/orientation) sessions prior to the start of each semester for incoming students. All incoming freshman and transfer students are required to attend a new student orientation session.

**Exploratory Student Advising**

Advisors provide specialized advising support to students entering WSU still deciding on a major/program of study. With their advisor, students will explore self, majors and careers and will have an opportunity to explore majors and careers through exploratory activities.

**Pre-Medicine/Pre-Dental/Pre-Veterinary Advising**

Students in pre-medical, pre-dental, pre-osteopathic and pre-veterinary medicine are advised on specific curricula, co-curricular activities, preparation for admission exams and procedures for applying to the
professional school. Credential file services are available to students and letters of recommendation are sent to professional schools as requested by the student.

**Pre-professional Advising**

Advisors assist students in planning programs which will fulfill requirements for admission to the various professional programs offered by Wayne State University, including those of the School of Social Work, the College of Nursing, and the Eugene Applebaum College of Pharmacy and Health Sciences.

**Academic Deficiency Advising**

Students whose grade point averages fall below 2.0 are placed on academic probation and are required to discuss their progress with an academic advisor. Advisors help probationary students consider ways to overcome academic deficiencies. Referrals may be made to other University services where students can find assistance for specific problems or difficulties.

**Early Academic Assessment**

Academic progress for students enrolled in 0000-3999-level courses is assessed by faculty from the beginning of the third week to the end of the sixth week of classes. If a student’s performance is assessed below the C level, the student receives an alert notification referring him/her to appropriate campus resources.

**Academic Success Center**

1600 David Adamany Undergraduate Library; 313-577-3165
http://www.success.wayne.edu

The mission of the Academic Success Center (ASC) is to ensure that all Wayne State University undergraduate students become self-disciplined, motivated and independent learners. The ASC accomplishes this through instruction and services that support students in the development of skills to promote academic excellence and enhance success.

**Study Skills Counseling:** Professional learning specialists are available to support students’ academic success. Any undergraduate Wayne State student may work with a learning specialist to identify specific study skill difficulties and formulate personalized strategies for success. Each plan identifies the student’s strengths, opportunities for development and action steps necessary to help the student become a more effective learner. Programs are designed to improve students’ study skills including reading comprehension, memory improvement and test preparation.

**Study Skills Workshops:** The Academic Success Center offers a series of study skills workshops for all students each semester. Sessions provide strategies and techniques to help students effectively manage their time, prepare for exams, reduce test anxiety, improve memory and concentration, understand the relationships between wellness and academic performance and strengthen other skills. Additionally, workshops may be scheduled for groups, student organizations and academic departments to address specific needs.

**Tutoring:** The Academic Success Center offers tutoring by appointment for a variety of undergraduate courses. In addition to subject material, tutoring sessions address study skill areas such as note-taking and reading comprehension when necessary. All tutors have received faculty recommendation and maintain at least a 3.2 g.p.a.

**Supplemental Instruction (SI)** supports many 1000- and 2000-level courses by offering collaborative learning sessions facilitated by an SI leader. Sessions are designed to help students understand the course’s key concepts, organize the material and develop strategies to effectively prepare for exams. Research suggests that students who consistently participate in SI typically earn a half to a full letter grade better than students who do not take part in SI. All SI leaders have received faculty recommendation, maintain at least a 3.3 g.p.a. and are required to attend the lecture.

**First-Year Success Seminar (FYS 1010):** This one-credit course supports first-year students’ academic and personal development to promote success at Wayne State University and establish learning as a lifelong experience. Coursework and discussions assist students in understanding themselves as learners, setting goals and strengthening time management and study skills while developing a greater awareness of the factors that influence success and the habits that can support success.

**Counseling and Psychological Services (CAPS)**

552 Student Center Building; 313-577-3398
http://caps.wayne.edu

Counseling and Psychological Services (CAPS) enhances students’ development and academic success by promoting an open, problem-solving approach to personal challenges and working collaboratively on building appropriate skills, attitudes, and actions.

**Service hours:** Monday - Friday 8:30 am to 5:00 pm. Registered WSU students may drop-in or call for an evaluation with a CAPS counselor Monday through Friday from 9:00 am to 4:00 pm.

**Eligibility:** All currently enrolled students are eligible for counseling evaluation to assess whether their needs can be addressed effectively via short-term counseling at CAPS or require more specialized or longer-term counseling at another facility. Faculty, staff, alumni, children, or spouses are not eligible.

**Crisis Services:** In the case of a non-life-threatening crisis, students, faculty, or staff can contact CAPS and indicate that a student needs immediate assistance. If assistance is needed during evening or weekend hours, contact the Wayne State University Police Department at 313-577-2222 or call the Wayne County crisis hotline at 313-224-7000. In the event of a life-threatening emergency at any time, contact the Wayne State Police Department.

**Career Services**

1001 Faculty/Administration Building; 313-577-3390
http://www.careerservices.wayne.edu

Career Services provides support to students and alumni in defining career and employment goals and assists them in their search for employment opportunities. In addition to the following services, Career Services offers topical workshops, career events, and group and individual career/employment counseling. Career Services welcomes the opportunity to discuss customized services to meet individual needs.

**Career Development:** The main focus of this service is to help students explore career options, clarify their career goals, and link those goals to appropriate academic paths. Individual and group services are available.

**Cooperative Education, Internships, and Summer Employment:** Comprehensive paid professional, career- and non-career related work experiences are available, including a wide variety of part- and full-time experiential learning situations. Orientation workshops are offered on an ongoing basis.

**On-campus Student Employment:** Students may work on-campus up to twenty hours per week as a Student Assistant or College Work-Study
employee. Job openings may be viewed in-house or online via our open posting system.

Professional Employment: Graduating students and alumni may increase professional full-time employment opportunities through on-campus interviews, resume referral, career fairs, in-house and on-line job postings, along with a myriad of career-related support services.

Testing, Evaluation, and Research Services
686 Student Center; 313-577-3400; Fax: 313-577-0617 http://www.testing.wayne.edu/

Testing
We provide:

• A secure, standardized, testing environment where students can demonstrate their academic skills for placement, course credit, or high stakes decisions.
• The opportunity for students to earn course credit in courses accepted by the transfer credit office through the College Level Examination Program (CLEP).
• Placement testing for students interested in meeting general education and other requirements targeted toward their personal skill level in Biology, Chemistry, Critical Thinking, English Composition and Mathematics.
• Outside exams: Graduate Record Exam (GRE), Testing for the Law School Admission Council (LSAC), Medical College Admission Test (MCAT), Miller Analogies Test (MAT), Test of English as a Foreign Language (TOEFL), Written and Oral exams for the American Council on the Teaching of Foreign Languages (ACTFL), and written exams for doctoral students in the College of Education.

Evaluation
We collect student opinions about faculty teaching through Student Evaluation of Teaching (SET). We share SET reports with students, administrators and faculty members toward the goal of improving quality of teaching at the University.

We survey students and faculty regarding the quality of their education through

1. the Cooperative Institutional Research Program (CIRP) Freshman Survey,
2. National Survey of Student Engagement (NSSE) and
3. Faculty Survey of Student Engagement (FSSE).

Research Services
We offer consulting on best practice in testing for faculty and academic staff. We offer machine scoring of exams, including tabulation of test scores and statistical output to help faculty improve their tests.

Student Disability Services (SDS)
1600 David Adamany Undergraduate Library; 313-577-1851; 313-202-4216 (Videophone)
http://studentdisability.wayne.edu

Student Disability Services is the office at Wayne State University that determines eligibility and implements academic accommodations, services and support for students with disabilities pursuant to the Americans with Disabilities Act (ADA), the ADA Amendments Act of 2008, and Section 504 of the Vocational Rehabilitation Act of 1973. SDS is committed to teaching students to advocate for themselves in order to fulfill their academic goals. SDS also provides training and outreach throughout the university to ensure equal access to all university programs.

Disability Determination: In order to register for SDS services, students must self-identify by providing documentation of their disability. Students will meet with disability specialists to discuss appropriate and reasonable accommodations. Once accommodations are determined, students are guided through the process of providing faculty with their accommodation letters and securing appropriate services. Students receiving accommodations are held to the same academic standards as all other WSU students and are responsible for requesting services and following procedures in a timely manner.

Academic Accommodations: Accommodations and services are individualized and based upon the student’s documentation. It is for this reason that students should ensure that they have sufficient documentation that supports the need for appropriate and reasonable accommodations. Some of the accommodations and services provided by SDS might include alternative testing, interpreter and CART reporting services, alternative text format, note-taking assistance, furniture requests, use of assistive technology, and use of SDS exam/study rooms. Students registered with SDS are also eligible for pre-priority registration for classes. Through the SDS liaison program with University departments and programs, SDS ensures that members of the University community understand the types of support offered to enhance collaboration in providing accommodations.

Assistive Technology: The SDS staff includes an assistive technician who secures alternative text formats for students and teaches students how to use the various assistive technologies. SDS exam/study rooms house CCTV magnification equipment, computers with software such as Zoomtext, JAWS, Kurzweil Educational Systems, Dragon Naturally Speaking and Inspiration. Students are also informed about free downloadable software programs for reading and recording.

Community Resources: SDS collaborates with various community agencies that assist students with disabilities at the university. Students are connected to agencies such as Michigan Rehabilitation Services, the Bureau of Services for Blind Persons, Learning and Disability Network/ Michigan.

Academic Pathways for Excellence (APEX)
5700 Cass Ave., Suite 2800; 313-577-4695 http://www.apex.wayne.edu

APEX Scholars is an alternative admission program designed to assist students with admission to success at, and graduation from Wayne State University. The program is based on the philosophy that students who are interested, committed, and willing to invest the time, can succeed academically when provided with appropriate support services.

The mission of APEX Scholars is to provide an academic bridge to the successful completion of undergraduate studies at Wayne State University. In this quest, the program will strengthen the cognitive abilities of students; encourage a thirst for knowledge; model and demand a disciplined approach to learning; and enhance student achievement by assuring access to a committed staff that provides effective supportive services and leads to a structured path of academic success.

Admission Requirements
Evaluation of applicants: The admissions policy is based on holistic considerations of each student’s potential to succeed at a research University. Holistic evaluation means that each applicant will be evaluated on the basis of full academic records, types of classes taken, grade trends, and personal history. Depending on the individual situation,
applicants will also have an opportunity to submit optional essays and engage in personal interviews. The program is committed to the high academic standards that best prepare students for success following graduation.

**Application:** All students must apply through the regular application process for Wayne State University by submitting an online application (http://www.wayne.edu/admissions). Applicants who might benefit from the APEX Scholars program will be invited for campus interview to determine whether the APEX Scholars program is a good fit for them.

In consideration for admission into APEX Scholars and in order to remain in good academic standing, students admitted into one of the bridge programs (see below) will need to successfully complete all of the bridge program requirements before matriculation into APEX Scholars.

**Summer Bridge** is an eight-week academic program designed to prepare students for Wayne State University and to support the transition into college. Students must successfully complete the academic requirements of the APEX Summer Bridge in order to be admitted to APEX.

**Fall Bridge** is a sixteen-week rigorous program with the same support as the summer bridge program.

**APEX Scholars:** After successful completion of one of the Bridge programs offered student can matriculate to APEX Scholars. As such students will experience continued academic strengthening through enhanced counseling, targeted academic support services, and assistance with course selection. Students must also maintain a C average through three semesters of the program (thirty-six credits). After completion of the thirty-six credits, student(s) will transition into general status.

**Federal TRIO Office**

5700 Cass Ave, Suite 1330; 313-577-5050
http://www.federaltrio.wayne.edu

The Office of Federal TRIO provides academic assistance and support services to promising youth and adults who have been historically under-represented in higher education due to their economic condition, first generation status, or educational preparation. This office provides academic support services, instruction, and college preparation workshops for pre-college students in the metropolitan Detroit area and students enrolled at WSU. Federal TRIO serves an extremely diverse student population that ranges from twelve to nineteen years of age, students enrolled at WSU. Federal TRIO serves an extremely diverse student population that ranges from twelve to nineteen years of age, veterans of the armed services, and other adult learners. Federal TRIO Programs serve over 6,000 students residing in Wayne, Oakland, and Macomb Counties or enrolled at Wayne State University.

Federal TRIO is comprised of six state and federally funded programs designed to increase the post-secondary admission rates of the diverse populations it serves, and to increase the graduation rates of these students in the University. Through continuous improvement of services, the department aims to maximize the academic achievement of its participants and to promote equity and excellence at Wayne State University.

**The Educational Opportunity Center (EOC)**

5700 Cass Avenue, Suite 2701, Academic/Administrative Bldg., 313-577-5050, provides a comprehensive career counseling program that offers free academic, vocational career and financial aid information to eligible applicants nineteen years of age and older, who wish to pursue a postsecondary education.

**Michigan Gaining Early Awareness and Readiness for Undergraduate Programs (MI-GEARUP)**

5700 Cass Ave., Suite 1330, Academic/Administrative Bldg., 313-577-5050, offers life skills programs, career counseling services and college visitations designed to educate parents and encourage seventh- through twelfth-grade students in targeted schools to complete high school and enroll in higher education.

**Upward Bound Program**

5425 Woodward, 313-577-1943, provides services for low income and first generation college students in grades nine to twelve with the potential and motivation to be successful in higher education. The students must attend target area high schools. Upward Bound provides students with a head start on improving the skills required to succeed in college, through academic instruction, tutoring, academic and career guidance, personal counseling, and a six week summer residential program.

**Veterans’ Educational Opportunity Program (VEOP)**

5425 Woodward, 313-577-9710, provides a program of instruction, academic and career guidance, personal counseling, tutoring, and post-secondary placement to veterans who have served in the U.S. Armed Forces from December 31, 1955 to present.

**McNair Scholars Post-baccalaureate Achievement Program**

5700 Cass Avenue, Suite 1330; 313-577-5050, provides faculty mentors, student-faculty research projects, GRE preparation services, stipend support and travel funds to present research for WSU junior and senior students. The goal of the McNair Scholars Program is to prepare low-income, first generation and underrepresented students to successfully complete doctoral studies in the areas of Science, technology, engineering and mathematics.

**Military and Veterans’ Academic Excellence Benefits (OMVAE)**

1600 Admamiy Undergraduate Library; 313-577-9180; Fax: 313-577-5020
http://www.omvae.wayne.edu

This office assists veterans, eligible dependents/survivors, reservists, National Guard and active-duty service members in obtaining educational benefits. Specifically, students are aided in applying for Federal benefits outlined under Title 38, and Title 10, U.S.C., including: the Montgomery G.I. Bill (chapter 30), the Reserve G.I. Bill (chapter 1606), Post 9/11 G.I. Bill (Chapter 33), Reserve Educational Assistance Program, REAP (chapter 1607), Vocational Rehabilitation (chapter 31), and the Survivors’/Dependents’ Educational Assistance (chapter 35). All eligible students must officially request to use their educational benefits each semester.

**Non-Degree Status:** Students must be in a degree program to receive benefits. Those not currently admitted to a degree program and enrolled in classes must verify to the OMVAE via an academic advisor the reason for enrollment (i.e., completing foundation courses for a master’s-level program).
Transfer Credits: Wayne State University will give four transfer credits for veterans, reservists, National Guard, and active-duty service members for service in the U.S. military. The University will require military discharge document DD-Form 214.

Wayne State University will accept up to twelve transfer credits from veterans upon receiving their Joint Service Transcript of military training. These credits are to be evaluated according to the ‘Guide to the Evaluation of Educational Experiences in the Armed Services,’ published by the American Council on Education.

This policy shall be in effect for all veterans, reservists, National Guard, and active-duty service members currently enrolled Fall 2005 and thereafter.

Late Tuition and Late Registration Fee Waiver: Late fees, Partial Payment fees and Late Registration fees can be waived for all students currently receiving VA Educational Benefits. Contact OMVAE for assistance.

Licensing/Certification Reimbursement: In most instances, students receiving VA educational benefits (http://www.gibill.va.gov) are eligible for reimbursement for licensing test fees.

Tutorial Assistance is also available as part of all benefit packages as noted above. Eligible recipients may receive $100.00 per month, up to twelve months to help defray tutoring costs. Contact the OMVAE for further details. No charge to benefit entitlement is incurred for the first six months received of Tutorial Assistance.

In-State Tuition Waiver: Individuals on active duty in the U.S. Military who are stationed in Michigan and their dependents are eligible for Michigan in-state tuition. Stationing orders and proof of relationship (for dependents) must be provided with the application.

Veterans and their dependents are eligible for Michigan in-state tuition. The term “veteran” means a citizen of the United States or a resident alien whose most recent separation from any branch of the armed forces of the United States was under conditions other than dishonorable after having served on active duty for 90 consecutive days or more by reason of disability incurred while serving on active duty.

Individuals who are members of the National Guard of any state, or who were separated from the National Guard of any state under conditions other than dishonorable, and their dependents are eligible for Michigan in-state tuition.

Without regard to the foregoing, any individual using educational assistance under either Chapter 30 (Montgomery GI Bill® – Active Duty Program), Chapter 33 (Post-9/11 GI Bill®), of title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311 (b)(9) who lives in the State of Michigan while attending Wayne State University (regardless of his/her formal state of residence) is eligible for Michigan in-state tuition.

VA Work-study Program: The VA work-study allowance is available to all students eligible for VA Educational Benefits. Those eligible who are at least a three-quarter-time student in a college degree program, or a vocational or professional program, can ‘earn while they learn.’ Pay for VA Work-study is the equal to the Federal minimum wage or your state minimum wage, whichever is greater.

Services performed under a VA work-study program must be related to VA work. Examples of acceptable work are:

- Processing VA paperwork at any university or college having a VA Office (e.g., you may be enrolled at WSU but work at Oakland or Macomb Community College VA Offices)
- Outreach services under VA supervision
- Work at VA medical facilities or National Cemetery System offices
- Work with the Veterans counselor at any of the MESC offices
- Work in the Education or Transition offices at local base
- Work at Department of Defense facilities related to education benefits under the GI Bill.

National Guard Students: Please note that Wayne State does not currently participate in the Guard’s Tuition Grant Program. However, if your branch provides Tuition Assistance and/or Tuition Reimbursement the OMVAE will provide assistance as necessary with regard to grade and tuition certifications to your unit.

Reserve Officer Training Corps (ROTC): Wayne State University offers an Army ROTC program. Students interested in joining the Army ROTC program at Wayne State University should contact M.S.G. Nicholas Lachance 734-647-3034.

Recalled To Active Duty (Reservists / National Guard): Students serving in the Selected Reserves or National Guard who are called up to Active Duty during a semester may request full reimbursement of tuition and fees. Students must file an Exception to Enrollment Policy form and submit a copy of their orders to OMVAE. Students called up active near the end of a semester are encouraged to consider requesting Incomplete grades for coursework.

Early-Out Requests: Potential Students on Active Duty requesting a verification of enrollment to be sent to their Commands must be admitted to Wayne State University and have registered for classes. Please contact the Graduate Admissions Office and the Registration Office for assistance. Once these conditions are met, the VA Certifying Official can complete an enrollment verification for active duty members seeking an ‘early out’ from military service. Hard copy proof of student’s admittance and registration for classes is NOT required for the VA Certifying Official to complete the enrollment verification.

Tuition and Fees

Listed below are the Tuition and Fees per semester in effect at the time of preparation of this Bulletin. Undergraduates in Business, Nursing and Fine, Performing and Communication Arts pay a higher tuition rate than other undergraduate colleges. Please see the Graduate Bulletin for rates in Graduate and Professional programs. Tuition and Fees are subject to change without notice by action of the Board of Governors.

In accordance with action of the Board of Governors, a portion of these fees is used for operation of the Student Center. Current tuition and fee information is available on-line at: http://www.reg.wayne.edu/students/tuition.php

Student Fees

Student Services Fee
Undergraduate students are assessed a $35.62 fee per credit. Most graduate and professional students are assessed a $51.38 fee per credit. Year 1 M.D. students are assessed $24.60 fee per credit. Years 2 M.D. students are assessed $24.00 fee per credit. Year 3 and 4 M.D. students are assessed $23.00 per credit hour. The Student Services Fee is used primarily to maintain, upgrade and replace student computing and technology resources on campus. A small portion is also used to fund student activities on campus, and to enhance programs directed toward improving on-campus activities, including athletics.

Application Fees
The undergraduate application fee is $25.00. Graduate applications, international undergraduate applications and applications for the English Language Institute must be accompanied by the non-refundable $50. There is no application fee for members of the Alumni Association, their spouses and/or dependents, or for applicants sixty years of age or older, except for applicants to the Law School and School of Medicine.

School of Medicine Application Fee
Persons who have submitted a first application to the School of Medicine through the American Medical College Application Service (AMCAS), and who are asked to submit additional material (secondary application), are required to pay a non-refundable fee of $30.00 for the processing of the secondary application.

Matriculation Fee
New undergraduate freshmen and transfers will pay a $250.00 Matriculation Fee. This fee replaced the Orientation and Graduation Application fees.

Student Exchange and Visitors Information Service (SEVIS) Fee
International students and scholars/visitors who must be reported through the federal SEVIS system shall be charged a $50.00 non-refundable fee for each term of enrollment.

Registration Fee
There is a $221.45 registration fee for undergraduates and a $297.29 registration fee for graduate students, except that students enrolled in the Visitor Program shall pay half of the regular registration fee. The registration fee is refundable according to the same principles as tuition and other fees.

Late Registration Fee
Any student registering after the Priority registration date (as indicated in the Schedule of Classes website: http://www.classschedule.wayne.edu) must pay either a non-refundable $35.00 Late Registration Fee if registration is completed before the start of classes, or $70.00 if completed after the start of classes. Late Registration Fees will be waived for new students in their first term of WSU enrollment.

Late Payment Fees
A student who does not satisfy his/her tuition and fee assessment by the prescribed dates on the eBill or delinquent bill shall be assessed a $25.00 Late Payment Fee if the past due balance is less than $500.00, or a $40.00 Late Payment Fee if the past due balance is $500.00 or more. Late payment fees will be assessed monthly until the account is paid in full or sent to collections.

Course Material Fees
These fees are required of some classes (the fee is noted in the fee column after the course listing on the Schedule of Classes website (http://www.classschedule.wayne.edu) in which a relatively large portion of instructional costs is due to the necessary use of consumable resources. The fee is automatically assessed; a fee card is not required. The fee may be canceled when a course is officially dropped within the tuition and fee cancellation period specified in each semester’s term calendar. For additional information, contact the Department offering the course. Courses listed as having special fees require payment of the fee in addition to the tuition.

Credit Card Fee
Students using credit cards for tuition and fee payments shall be charged a 2.9% fee.

Returned Check Fee
A $35.00 fee will be assessed to students’ accounts for any check and/or ACH check payments returned to the University for any reason.

Examination Fee for Credit by Examination
The fee for an examination taken to establish credit by examination is $10.00 per credit. Such examinations will be approved under provisions established by the Schools and Colleges. Credit allowed on the basis of transcript entries from another institution is not applicable to this provision.

Music Fees
Students registering for music courses taken as private lessons pay a fee of $160.00 for one credit. For three credits, the additional fee is $320.00. In the event of withdrawal, the student will receive a refund of the difference between the fee assessed and the cost to the University of any lessons that were provided.

Graduation Fee
There is a $40.00 non-refundable fee for students who apply for a degree or certificate. Beginning in the Fall term 2014 graduate students will not be required to pay this fee. Undergraduate freshman and transfer students who enrolled at Wayne State for this first time in fall 2014 (and pay the Matriculation Fee) will not be charged the Graduation Fee.

Transcript Fees
Transcripts are issued free-of-charge, up to ten copies per calendar year. A fee of $5.00 per transcript is charged for copies in excess of ten. A fee of $20.00 is assessed for each emergency transcript. An
emergency transcript is one which requested by 3:00 p.m. and mailed out for overnight delivery the next business day.

**Lockers Fee**
Students registering for certain activity courses in physical education who wish to use locker facilities are charged.

**Payment of Tuition and Fees**

**Student Financial Obligation for Payment of Tuition and Fees**
When registering for classes each semester students are required to electronically sign a “Financial Responsibility Agreement.” This agreement represents a binding contract obligating the student to pay all tuition and fees assessed including any collection, attorney, and/or litigation costs associated with collecting those fees, in the event of non-payment.

**Payment Due Dates**
- FALL TERM: Payment is due August 15.
- WINTER TERM: Payment is due December 15.
- SPRING/SUMMER TERM: Payment is due April 15.

Students registering on or after these payment dates are expected to pay the balance in full at the time of registration.

Payments not received by the due date(s) are subject to late payment fees. Failure to make payment because a statement of account or invoice is not received does not exempt students from late payment fees. Please refer to the published tuition due dates and the complete eBill Posting Schedule and Payment Due Dates on the Office of University Bursar's web site:

http://fisops.wayne.edu/bursar/e-bills/eBill-Schedule.php

**Payment Options**
Wayne State University provides various options for paying tuition and fees:

1. in person at the Cashier Office, Room 217; Welcome Center, 42 W. Warren; or
2. by mail to Wayne State University, P.O. Box 02788, Detroit, MI 48202; or
3. by telephone - 1-866-520-7786; or
4. online at the website: https://academica.aws.wayne.edu

**Checks, Money Orders, and Cash**
Wayne State University accepts personal and certified checks, money orders, and cash as payment for tuition and fees. Payments can be mailed. However, please do not mail cash. Checks or money orders should be made payable to Wayne State University. The student’s name and University AccessID number should be written on the check or money order.

**Fee-free ACH Checks**
Wayne State University also accepts fee-free automated clearing house (ACH) check payments using WSU Pipeline. Checks (paper or ACH) returned by the bank are subject to returned check fees.

**Credit Card Payments**
Wayne State University does not accept credit card payments directly. Credit card payments can be applied to a student’s University account by a third party processor, CASHNet SmartPay. CASH-Net SmartPay will assess a convenience fee (2.9%) on all credit card payments. To make a credit card payment log into Academica and select credit card payment which will automatically invoke the CASH-Net SmartPay process.

**Installment Payment Plans (IPP)**
Wayne State University is able to offer interest free installment payment plans for students on a semester by semester basis through the following company:

Tuition Management Systems (TMS);
1-800-722-4867;
http://wayne.afford.com

There is a nominal fee for enrolling. Contact the company for terms and conditions.

**Sponsored Tuition Program**
Certain employers participate in direct tuition billing arrangements as part of their employee benefits programs. Students with questions about the University’s procedures or required documentation for a specific plan should contact the Student Accounts Receivable Office at 313-577-6623.

**Delinquent Prior Term Balances**
Personal checks are not accepted as payment for delinquent balances. Payment must be made by cash, certified check, money order or credit card.

**IMPORTANT: Students who do not drop their courses during the tuition cancellation period for the term are financially obligated to pay for the courses even if they have not attended any class sessions.** See the Registration Calendar at: http://reg.wayne.edu/students/registration-calendar.php.

Students with questions regarding any information presented in Payment of Tuition and Fees section above should contact the Office of the University Bursar at 313-577-3653.

**Disclosure Statement**
The University reserves the right to update and/or change this information at anytime.

**Late Registration**
Registration is not permitted beyond the prescribed registration date unless extenuating circumstances beyond the control of the student warrant an exception to University Policy as determined by the University Registrar. In such cases, full tuition, Registration Fee and Late Registration Fee is due on the day of registration.

**Short Term Courses**
Payment of the full tuition and the non-refundable Registration Fee is required on the date of registration or no later than the first class meeting date. Late Payment Fees are assessed to any student who has not paid his/her tuition and fee assessment by the eBill due date.

**Tuition Cancellation**
Tuition may be canceled in accordance with the following schedule when students officially drop classes using the Academica on-line portal, by submitting a properly completed Register/Drop/Add form, or by sending a certified letter to the Office of the Registrar. A certified letter requesting to drop classes sent through the U.S. Postal Service shall be considered effective on the date it is received in the Office of the Registrar.

Students who officially drop classes before the conclusion of the first two weeks of classes (for the Fall and Winter full-term courses) are entitled to 100% tuition cancellation, and the dropped classes do not appear on the academic record.
Students are contractually liable for tuition unless they take official action during the tuition cancellation period to drop classes.

Students who officially drop fifteen-week classes after the second week of classes (for the Fall and Winter terms) are not entitled to any tuition cancellation; however, classes dropped prior to the conclusion of the fourth week of classes do not appear on the students' academic record.

The tuition cancellation schedule shown below applies to courses that start in accordance with the Official University Academic Calendar. The tuition cancellation schedule for courses with specially approved starting dates is dependent upon the starting date of the course. Questions about the tuition cancellation schedule should be referred to the University Registrar.

Classes meeting fewer than four weeks: Students who officially drop scheduled classes before the first day of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting four to eight weeks: Students who officially drop scheduled classes before the second week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting nine to fifteen weeks: Students who officially drop scheduled classes before the third week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting sixteen to twenty-seven weeks: Students who officially drop scheduled classes before the fourth week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting twenty-eight or more weeks: Students who officially drop scheduled classes before the seventh week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Special Adjustments

The University Registrar is authorized to make adjustments in the application of the policies stated in this section when unusual circumstances warrant. Examples of circumstances which may warrant special consideration include: serious illness or death of the student or someone closely related, or mis-advice by a University representative. Tuition cannot be canceled for reasons such as changes in work schedule or other employment demands, claims of lack of information, insufficient funds, unawareness of the difference between tuition and student financial aid, undocumented reasons, or for reasons that are within the control of the student. Non-attendance, except for situations falling under the University non-attendance policy (below), is not in and of itself a reason for tuition and fee cancellation. Students (or an authorized representative in the case of death or serious illness) must submit their applications and supporting documentation to the Office of the Registrar. A medical withdrawal is a complete withdrawal from all courses, supported by medical reports from the attending physician. Requests for exceptions to tuition and fee policies must be submitted within approximately two months of the end of the term, as follows:

- Fall Term - March 1
- Winter Term - July 1
- Spring/Summer Term - November 1

Deadlines falling on weekends will be extended to the next business day.

University Non-Attendance Policy

The University Non-Attendance Policy will allow 100% tuition cancellation only for students in their first term of attendance at Wayne State University. Instructors for all courses must verify the student did not attend classes after the tuition cancellation deadline. This policy is designed to provide relief to those students who in their first semester at Wayne State may not be familiar with the University's Tuition Cancellation Policy.

Where the student has otherwise proceeded properly, (s)he may be granted full cancellation of tuition and fees assessed for the class(es) involved:

- If the University cancels the class(es), or
- If the University re-schedules the class(es) after the student has registered and (s)he is now unable to attend, or
- If an authorized University representative has taken action which causes financial loss related to tuition, e.g., authorizing a student's schedule when the student does not have the necessary prerequisite(s).

Appeal Procedures: If a student (or an authorized representative in the case of death or serious illness) is dissatisfied with the Registrar's decision with reference to this policy, the student (or an authorized representative) may appeal to the Tuition and Fee Appeals Board through the University Ombudsperson.

University policy allows for a Request for Medical Withdrawal. A medical withdrawal is a complete withdrawal from all courses. For approved requests, the University Medical Withdrawal Policy will grant 100% tuition and fee cancellation if a student stops attending ALL classes before the end of the 10th week of the scheduled class meeting period in a full fall/winter term. Medical documentation will need to confirm that medical attention was provided during this time period. For medical withdrawals occurring during the 11th or 12th week, tuition cancellation will be granted at the rate of 60%. There is no tuition cancellation after the twelfth week of the term. These periods are adjusted proportionally for courses that do not run the full term. While a request is under review tuition payments should be made as scheduled.

Holds on Records

Initial eligibility to register for classes each semester is based on a student's admission status with the University. All students must be authorized by the University in order to enroll in classes. 'Holds' may be placed on student records, and registration denied to a student, for academic reasons (e.g., probation or dismissal), a disciplinary problem, money owed to the University, failure to return library books and/or other supplies and equipment, and/or non-compliance with program, Departmental, School/College, or University regulations.

A 'Hold' will be placed on the records of any student who has past due indebtedness to the University. While the hold is in effect, registration for a subsequent term will not be permitted, official transcript of academic work taken at the University will not be furnished, nor will a diploma be issued.

Residency Regulations and Review Procedures: In-State Tuition

The following regulations and review procedures are established by Wayne State University for tuition and fee purposes. Wayne State University recognizes three means by which an individual may establish eligibility for in-state tuition and fees:

- By establishing residence by presence in the State of Michigan;
- By establishing attendance at Michigan high schools; or
- By establishing military service status.

Establishing Residence by Presence in Michigan

Generally, in order to establish residence by presence in the State of Michigan, an individual must document at least six months of continuous physical presence in the State. The six months continuous residence
must be completed before the first day of classes for the semester in which in-state tuition is sought. Even if someone is present in Michigan for six months, the person may not qualify for in-state tuition; it depends on whether the person is in Michigan for educational purposes or some other reason. Under limited circumstances which clearly demonstrate that a student’s presence in the State of Michigan is not primarily for educational purposes, the student may be eligible for in-state tuition prior to the passage of the six-month presence requirement.

**Temporary Absences**

In general, a person’s residence is the place where he or she actually lives with the intention of making it the person’s permanent home and to which he or she intends to return from temporary absences. A person may be temporarily absent from Michigan without affecting his or her previously established residence. Full-time attendance at a school outside Michigan or enlistment in a military service are examples of temporary absences. Other types of absences for more than six months will be presumed not to be temporary.

**Presence for Educational Purposes**

Coming to Michigan from another state or country in order to attend Wayne State University or another school does not establish residence. A non-resident at the time of his or her enrollment remains a non-resident throughout his or her presence as a student, except where it can be established that presence in the State of Michigan is primarily for purposes that are not educational, with enrollment only incidental to the primary purpose of being in Michigan. If a student enrolls in undergraduate school for more than eight credits, or in graduate school for more than six credits, or in Law School for more than ten credits in any one full length semester, within six months after arrival in Michigan, Wayne State University normally presumes that the student is in Michigan for the purpose of attending school. Applicants must demonstrate that their presence in Michigan is primarily for purposes that are not related to enrollment.

**Factors Considered in a Residence Classification**

The following circumstances, although not conclusive, support a claim for in-state tuition on the basis of residence.

1. The student is employed in Michigan on a permanent, full-time basis or has accepted an offer of permanent employment in Michigan.
2. The student’s spouse or partner is employed in Michigan on a permanent, full-time basis and the applicant moved to Michigan as a consequence of that employment; and
3. The student has severed ties to his or her previous state of residence so that he or she no longer can reasonably be considered to be a resident of another state.

**Factors Typically Not Supporting Residence Classification**

The following circumstances, standing alone, do not typically support residence, inasmuch as they may be common to a temporary or short-term presence in Michigan:

1. Employment by the University as a fellow, scholar, assistant, or in any position normally filled by students;
2. A statement of intention to establish residence in this state;
3. Payment of local and state taxes; or
4. Automobile registration, driver’s license, continued presence in Michigan during vacation periods.

Although insufficient to establish residence, certain of these factors may be taken into consideration in determining whether a student has severed ties to the student’s previous state of residence.

For purposes of these regulations, the age of majority is eighteen years. Except as provided in paragraph “g” of this section, a minor does not have the capacity to establish his or her own legal residence. Normally, the legal residence of a minor follows:

1. That of the parents or surviving parent; or
2. That of the parent to whom custody of the minor has been awarded by a divorce or other judicial decree; or
3. That of the parent with whom the minor in fact makes his or her home, if there has been a separation without a judicial award of custody; or
4. That of an adoptive parent, where there has been a legal adoption, even though the natural parents or parent may be living; or
5. That of a “natural” guardian, such as grandparent with whom the minor in fact makes his or her home, where the minor has permanently left his or her parental home and reasonable expectation of substantial financial support from the parents has been dissolved. A natural guardian is someone who, although not legally the minor’s parent or guardian, performs the same sort of parental duties.
6. If a Michigan resident parent or guardian of a minor moves his or her residence to another state, the minor shall remain eligible for resident tuition status as long as he or she continues to attend school regularly in this state.
7. A minor who has permanently left his or her parental home, and who has no reasonable expectation of significant financial support from his or her parents or legal guardian, etc., may qualify for resident status even if under eighteen years of age.

**Non-U.S. Citizen**

A non-U.S. citizen may apply for resident status in the same manner as a citizen, if he or she is in the United States for other than a temporary educational purpose. In order to demonstrate this, applicants must provide evidence from the U.S. Department of Citizenship and Immigration Services of one of the following:

1. A U.S. permanent resident alien with a green card.
2. An applicant for U.S. permanent residence whose Petition for Alien Relative, or Employment-based Immigration Petition for Alien Worker has been approved, or who has been issued an Employment Authorization document pending adjustment of status. These individuals will have documentation of this status such as an I-130 (Petition for Alien Relative) or I-140 (Immigration Petition for Alien Worker) Approval Notice, or an I-151 or I-551 Notice of Action indicating approval of petition to become an immigrant.
3. An alien with a current valid visa type issued for purposes of working in the United States, and currently working in the State of Michigan. These currently include visa types of A, E, G, H, L, R, and TN.
4. An Alien granted asylum or refugee status.

**Attendance of Michigan High Schools**

An individual may be eligible for in-state tuition on the basis of high school attendance if he or she demonstrates that he or she:

1. Attended an accredited Michigan high school for at least three years and thereafter graduated from an accredited Michigan high school or obtained his or her GED in Michigan; and
2. Enrolls at Wayne State University within twenty-eight months of graduating from high school or obtaining a GED.

An individual does not need to be a legal resident of Michigan or a citizen of the United States to qualify for in-state tuition on the basis of attendance at Michigan schools.

**Military Service**

Individuals on active duty in the U.S. Military who are stationed in Michigan and their dependents are eligible for Michigan in-state tuition. Stationing orders and proof of relationship (for dependents) must be provided with the application.

Veterans and their dependents are eligible for Michigan in-state tuition. The term "veteran" means a citizen of the United States or a resident alien whose most recent separation from any branch of the armed forces of the United States was under conditions other than dishonorable after having served on active duty for 90 consecutive days or more or by reason of disability incurred while serving on active duty.

Individuals who are members of the National Guard of any state, or who were separated from the National Guard of any state under conditions other than dishonorable, and their dependents are eligible for Michigan in-state tuition.

Without regard to the foregoing, any individual using educational assistance under either Chapter 30 (Montgomery GI Bill® – Active Duty Program), Chapter 33 (Post-9/11 GI Bill®), of title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the State of Michigan while attending Wayne State University (regardless of his/her formal state of residence) is eligible for Michigan in-state tuition.

**Good Neighbor Policy (Graduate Students Only)**

Residents of Fulton, Lucas, Ottawa, and Williams counties in Ohio, or residents of Ontario, Canada, who are enrolled in eligible graduate programs will pay in-state tuition. This tuition benefit does not apply to certain academic programs, including School of Medicine MD program and the Doctor of Pharmacy program. Please refer to the Tuition and Fee Regulations (http://reg.wayne.edu/students/tuition_and_fee_regulations.php) for additional details.

**Great Lakes Policy (Undergraduate Students Only)**

Residents of the states of Indiana, Illinois, Wisconsin, Minnesota, New York, Ohio, or Pennsylvania, or the province of Ontario, Canada, who are enrolled in eligible undergraduate programs and who are not eligible for the Good Neighbor Policy may pay Michigan resident tuition rate plus 10 percent.

**Online Programs**

Students enrolled in programs which are offered online in their entirety will have the out-state portion of their tuition waived. WSU Tuition and Fee Regulations published each academic year will identify the specific academic programs eligible for this provision.

**Review Procedures**

**Initial Classification and Appeal**

1. The student is responsible for registering under proper residence or tuition status and advising the University of changes in circumstances, which might affect tuition status. Questions concerning a student’s residence or tuition status prior to enrollment should be raised with the Office of Admissions. Questions arising after enrollment should be raised with the Registrar’s Office.

2. After enrolling, a student may challenge the initial classification made by the Office of Admissions by filing an Application for Residence Classification or Change in Tuition Status with the Registrar’s Office.

3. Except for documented delays caused by University personnel, such applications must be filed by:
   - September 30 for the Fall semester and the Medical Year semester
   - January 31 for the Winter semester
   - July 31 for the Spring/Summer semester

Deadlines falling on weekends or on days when the University is closed will be extended to the next business day. Applications received after these dates will be processed for the following semester.

**Further Appeal**

A student may appeal the initial tuition decision as follows:

1. By filing a written notice of appeal with the Registrar within thirty (30) days after the student is notified of the classification decision. The notice of appeal shall include reasons for the appeal, the period for which resident status is claimed, and a complete statement of the facts on which the appeal is based, together with supporting affidavits or other documentary evidence. Failure to file notice within thirty (30) days shall constitute a waiver of any right to further appeal. The student has the right to consult the University Ombuds services at this point in the review procedures.

2. A student may appeal the Registrar’s decision by filing a written notice of appeal with the Office of the General Counsel within fifteen (15) days from the date of the Registrar’s decision. Failure to file written notice of appeal of the Registrar’s decision with the Office of the General Counsel within fifteen (15) days shall constitute a waiver of any right to further appeal.

3. A student may appeal the decision of the Office of the General Counsel within fifteen (15) days with the Office of the President. Failure to file written notice of appeal of the General Counsel's decision with the Office of the President within fifteen (15) days shall constitute a waiver of any right to further appeal. After the notice of appeal, the President or his designee shall review the student’s appeal and render a final decision.

**Erroneous Classification**

1. If an erroneous classification of non-residence occurs, an adjustment for the appropriate period and amount will be made.

2. If an erroneous classification of residence occurs, the student shall be reclassified as a non-resident student. If the cause of his or her incorrect classification shall be found to be due to any material concealment of facts or false statement made by the student before the time of the original classification, the student will be required to pay all tuition and fees which would have been charged to him or her and also will be subject also to appropriate discipline in accordance with University Student Code of Conduct. If it is determined that there is no such concealment of facts by the student, fees shall be adjusted only for current and future semesters.

**Effective Dates of Residence Regulations**

Amended statute as adopted on September 20, 2013, will be effective for the Winter Semester 2014.

**University and College Centers (Undergraduate Programs)**

The centers described below have programs pertaining to undergraduate study. A list of additional centers follows this list. Also see http://
www.research.wayne.edu/ci/ for a full listing of University Centers and Institutes and links to web pages describing their functions.

Michigan Developmental Disabilities Institute

Leonard Simons Building, Suite 268, 4809 Woodward Avenue
Telephone: 313-577-2654 or 1-888-978-4334; Fax: 313-577-3770
Director: Sharon Milberger, Sc.D; Email: smilberger@wayne.edu
Website: http://www.middi.wayne.edu/

The Michigan Developmental Disabilities Institute (MI-DDI) is one of a national network of 67 University Centers of Excellence on Developmental Disabilities (UCEDD), nationally and in U.S. territories. The Institute’s mission is to contribute to the development of inclusive communities and quality of life for people with disabilities and their families through a culturally-sensitive statewide program of interdisciplinary education, community support and services, and research and dissemination of information.

Staff and faculty engage in technical assistance, training, and research programs throughout Michigan via collaborative efforts with schools, community agencies, community colleges, and other Universities. Over 10,000 individuals with disabilities benefit from these activities annually. The Graduate Certificate Program in Disabilities teaches evidence based practices to provide services that enhance the quality of life for people living with disabilities. MI-DDI also collaborates with the Wayne State University School of Medicine on the ARIE Co-Curricular clinical initiative, that assists first and second year medical students in obtaining volunteer hours while providing home visits to families that have children with disabilities. MI-DDI is the lead institution for the Michigan Leadership Education in Neurodevelopmental Disabilities program (MI-LEND) Interdisciplinary training program. MI-LEND is a consortium of six Michigan universities including Wayne State University, Michigan State University, Central Michigan University, the University of Michigan/Ann Arbor, the University of Michigan/Dearborn, and Western Michigan University. The goal of the MI-LEND program is to improve the health and well-being of children with neurodevelopmental disabilities. This goal is accomplished by preparing graduate and post-graduate level trainees from diverse professional disciplines to assume leadership roles in their respective fields, and by ensuring high levels of interdisciplinary clinical competence.

The Institute develops activities and projects based on the needs of persons with disabilities and the communities in which they live and work. A 25-member Community Advisory Council, composed of representatives from key statewide organizations, caregivers, family members and individuals with intellectual and developmental disabilities, meets quarterly to provide information and assistance to Institute staff and faculty in establishing priorities and evaluating activities.

Labor Studies Center

3178 Faculty/Administration Building
Telephone: 313-577-2191; Fax: 313-577-7726
Director: Gayle Hamilton
Website: http://clas.wayne.edu/labor/About-the-Labor-Studies-Center

The Labor Studies Center is a comprehensive labor education center committed to strengthening the capacity of organized labor to represent the needs and interests of workers, while at the same time strengthening the University’s interdisciplinary research and teaching on labor and labor relations issues. The Center’s primary areas of research and practice include: training and technical assistance to unions on labor relations and workplace issues; an undergraduate labor studies major and internship program; interventions to increase the organizational effectiveness of unions; the development and diffusion of constructive labor-management relations practices, particularly in the public sector; the formation and institutionalization of labor-community coalitions; and the impact of lean production systems on workers and labor relations practice in the North American auto industry.

Center for Latino/a and Latin American Studies

3324 Faculty/Administration Building
Telephone: 313-577-4378; Fax: 313-993-4073;
Director: Jorge L. Chinea, Ph.D.
Email: aa1941@wayne.edu
Website: http://www.clas.wayne.edu/clas/

The Center for Latino/a and Latin American Studies is a multi-service unit engaged in teaching, research, and service. The Center plays an important role in the urban mission of Wayne State University and involves four components:

1. The Center hosts two learning communities: the CBS Scholars Program and the College-to-Career Program. The first one recruits students into the University, facilitates their transition between high school and college, and promotes increased retention. The second program supports students through completion of their degrees and beyond, especially in the areas of career development and graduate school preparedness. It also offers courses and related educational

2. The Center supports the University’s...
activities for students interested in Latino and Latin American Studies.
2. It promotes research on issues relevant to the Latino/a community, especially in the urban and workplace environment; and Latin American cultural studies and current issues.
3. It creates and fosters the interaction and exchange of personnel and resources between the University and the Latino/a community; and it serves as a source of expertise on Latino issues to the larger metropolitan community.
4. As an advocate for the awareness and advancement of Latino/a issues within the University, the Center contributes to the University's continuing efforts to create a richer multicultural campus environment.

Center for Excellence and Equity in Mathematics
1309 Faculty/Administration Building
Telephone: 313-577-8839
Director: Steven Kahn, Ph.D.
Email: skahn@math.wayne.edu
Website: http://clas.wayne.edu/ceem/

The Center for Excellence and Equity in Mathematics, in the College of Liberal Arts and Sciences, is a research and educational center with a two-fold mission: to find ways to significantly improve the quality of K-12 and introductory college-level mathematics instruction across the United States; and, by using mathematics as a tool, to provide students from inner cities and underrepresented minority groups with the kinds of educational and lifetime opportunities that should be available to all students.

The Center currently operates five core programs: the WSU Math Corps, an outreach program serving Detroit middle and high school students; the WSU Middle and High School Math Network, which provides day to day instructional and/or operational resources to Detroit are a middle and high school math departments; the Math Corps Learning Community at WSU, a University support and retention program for Math Corps "kids" now attending WSU; and the Emerging Scholars Program (ESP), a WSU honors-level calculus and pre-calculus program; and the Rising Scholars Program (RSP), serving WSU students at the developmental level.

All Center programs are based on a shared commitment to excellence and to fostering a sense of community.

Merrill-Palmer Skillman Institute for Children and Families
71 East Ferry Ave.
Telephone: 313-664-2500; Fax: 313-664-2555
Director: Peter Lichtenberg, Ph.D.
Email: mpsi@wayne.edu
Website: http://www.mpsi.wayne.edu/

The Merrill-Palmer Skillman Institute is an interdisciplinary research institute focusing on urban children and families. It has a long and distinguished history as a research and educational institution, serving as a pioneer in the field of child development and early education. Since it became a part of Wayne State University in 1982, the Institute has encouraged collaborations among faculty from many departments within the University.

The Institute emphasizes research, research training and community engagement and service in the areas of children's health and development. Current research strengths range from prenatal exposures and child development, infant mental health, cognitive development of high risk infants as well as adolescent health and development. The service programs of the Institute are an outgrowth of its research mission. MPSI operates one of the nation's oldest preschools. Community outreach and engagement through MPSI’s Healthier Urban Families Program includes training of mental health workers who serve very young children in the care of public and non-profit agencies; consultation to education and child care organizations; workshops for teachers, parents and the public; and the annual Metropolitan Detroit Teen Conference.

Center for Molecular Medicine and Genetics
3127 Scott Hall; 540 E. Canfield
Telephone: 313-577-5323; Fax: 313-577-5218
Director: Lawrence I. Grossman, Ph.D.
Email: l.grossman@wayne.edu
Website: http://genetics.wayne.edu

The Center for Molecular Medicine and Genetics is interdisciplinary by design, built around modern molecular genetics, and comprising basic researchers, physician-scientists, computational scientists, and genetic counselors. The diversity of the Center’s members and their backgrounds enables activities that range from basic research to clinical genetics to translation to the bedside and, in some cases, to a biotech company. The underlying goal is excellence in molecular biology, molecular medicine, and genetics to increase the understanding, diagnosis, treatment and prevention of human disease. The Center occupies over 28,000 sq. ft. of state-of-the-art space, including both open and closed laboratories, faculty offices, equipment and special procedure rooms, conference and interaction areas, and a server room to support the Center’s faculty, staff and students.

Students in the Center participate in research on gene expression and regulation, including the role of DNA-protein interactions and DNA methylation; the structure, function, and evolution of genes; molecular cytogenetics, genome organization, and mammalian gene mapping; long non-coding RNA discovery and characterization; human reproductive biology; protein-protein interactions; cellular stress responses; mitochondrial biology and genetics; neuroscience and the genetic basis for neurological disease; computational biology and bioinformatics. Considerable emphasis is placed on human and mammalian model systems and on understanding human molecular genetic diseases.

Faculty members of the Center often invite undergraduate students to volunteer in their laboratories - which is an outstanding opportunity for undergraduates to gain experience. The Center encourages students to view the profiles of the faculty and directly contact a professor to inquire about volunteering. In addition, each summer the Center hosts an exclusive Summer Undergraduate Research Program (SURP), from which many undergraduate students have moved on to prestigious universities and programs to pursue graduate degrees.

Summer Undergraduate Research Program (SURP)
Opportunities for research in Molecular Medicine and Genetics are available each summer as part of the Center for Molecular Medicine and Genetics SURP. The program provides sophomore and junior undergraduate students with experience in the research laboratories of the Center, located at the Wayne State University School of Medicine. Over the course of the summer students work in the laboratories of Center faculty members and attended weekly research seminars. When the program ends in August the students present their work to their mentors, peers, and the WSU research community at a symposium.
Center to Advance Palliative-Care Excellence (CAPEWAYNE)
4201 St. Antoine, Suite SC-UHC
Telephone: 313-577-5751; Fax: 313-745-4710
Website: http://www.capewayne.med.wayne.edu

CAPEWAYNE is an interdisciplinary academic center bringing together scholars, educators, researchers and clinicians dedicated to improving the quality of end-of-life care. The main focus areas of this center are education, research and clinical practice, all of which permeated by the field of humanities.

Education: The Center offers an end-of-life curriculum for students, trainees and clinicians across disciplines and levels of training.

Research: The Center gathers researchers who have a shared interest in the conduct of collaborative, interdisciplinary interdepartmental research. Current research projects include evaluating the impact of a palliative care curriculum, called the Compassionate Allies, sponsored by Seasons Hospice Foundation, on the skills and attitudes of pre-medical students.

Clinical Practice: The Center provides resources to clinicians across disciplines and settings that practice palliative care, through a paradigm of sharing and ensuring optimization of clinical care in our community. The Center offered its perennial conference in October, 2014, titled the Palliative Collaborative. It is co-directed by Drs. Mike Stellini and Meg Campbell.

Center for Peace and Conflict Studies
2320 Faculty/Administration Building
Telephone: 313-577-3453; Fax: 313-577-8269
Director: Frederic S. Pearson
Website: http://www.clas.wayne.edu/pcs/

On November 20, 1965, the Center for Teaching about War and Peace opened its doors under the leadership of Director Russell Broadhead and a committee of distinguished faculty members. The mission then was to provide interdisciplinary, University-wide, academic programs in the field of domestic and international conflict and peace issues. In 1987, the WSU Board of Governors, building upon this rich heritage, created the Center for Peace and Conflict Studies.

The mission of the Center for Peace and Conflict Studies is to develop and implement projects, programs, curricula, research, and publications in areas of scholarship related to international and domestic peace, war, social justice, arms control, globalization, multi-cultural awareness and constructive conflict resolution. The Center addresses this mission in three ways. CPCS supports undergraduate and graduate student excellence through its academic programs. CPCS staff and students engage in scholarly research initiatives on aspects of domestic and international conflict management. CPCS provides community outreach programs that emphasize: conflict resolution, development of inter-cultural understanding, and enhance local knowledge of global affairs.

In 2010, the Center added a Graduate Certificate in Peace and Security Studies to its curricular offerings, a program adding an important credential to Masters programs for careers ranging from diplomacy and military affairs to negotiations, violence prevention, education, social service, border security and administration of justice.

Center for Urban Studies
5700 Cass Avenue, Room 2207 Academic/Administration Building
Telephone: 313-577-2208; Fax: 313-577-1274
Director: Lyke Thompson, Ph.D.; Email: ad5122@wayne.edu

Managing Director: Charo Hulleza, M.P.A; Email: c.hulleza@wayne.edu
Email: CUSinfo@wayne.edu
Website: http://www.cus.wayne.edu

The mission of Wayne State University's (WSU) Center for Urban Studies (Center) is to improve the understanding of and provide innovative responses to urban challenges and opportunities. Since 1967, the Center has been committed to serving Detroit and its metropolitan area by conducting and disseminating research, developing policies and programs, and providing training, capacity-building, and technical assistance. The Center is deeply engaged in program evaluation and policy analysis in a range of areas. Through these approaches, the Center participates in defining and influencing local, regional, state and national urban policy. We work with communities, government, institutions and policymakers to transform knowledge into action. The vast majority of the Center’s funding comes from grants and contracts with our customers and partners.

The Center facilitates a wide array of demonstration and research projects through a staff of Ph.D. and Masters-level professionals skilled in social and behavioral science techniques ranging from surveys and focus groups to GIS mapping and information systems development and implementation. The Center employs and engages many students with backgrounds in sociology, psychology, economics, political science, and business administration. The Center collaborates with University faculty who consult on methodological and substantive questions.

Most of the Center’s work is focused within six substantive research areas:

- Healthy Homes
- Early Childhood and Disabilities
- Urban Safety
- AmeriCorps
- Urban Health
- Survey Research

The Healthy Homes Unit supports eliminating housing-based health hazards for at-risk populations through research, performance management systems and facilitation. This unit is deeply involved in local and national efforts to eliminate environmental hazards from homes.

The Early Childhood and Disabilities Unit evaluates programs and conducts performance measurements geared to improve the lives of people, including children and students, with developmental delay or disabilities. Evaluation results are used to improve service delivery in programs across the state of Michigan.

The Urban Safety Unit focuses on identifying and implementing collaborative solutions to reduce crime in select Detroit neighborhoods and other Michigan communities. While these urban safety efforts primarily target the Detroit area, many of the research efforts can be expanded at a national level as effective practices for reducing crime and increasing resident guardianship.

The Center’s AmeriCorps Urban Safety Project is working with Detroit residents to organize and harden their homes to prevent crime in their neighborhoods. Through these efforts and those of the Midtown CompStat Initiative (collaboration between WSU Police, the Center, and other organizations), crime in Midtown Detroit is down over 50% since 2009.

The Urban Health Unit partners with local agencies to conduct community-based participatory program evaluation research on specific urban health issues such as HIV/AIDS and obesity. Research and evaluation
results have improved program delivery and have been published in peer-reviewed journals.

The Survey Research Unit uses the latest computer-aided telephone interview and field data collection methodologies on a variety of research projects for Wayne State faculty and departments and for government departments and community initiatives.

Through these endeavors the Center has major financial and health impacts on the Detroit community while furthering the deeper understanding of our urban challenges.

Office: 3100 David Adamany Undergraduate Library
Tel.: 313-577-4023; Fax: 313-577-5525
Dean of University Libraries: Sandra Yee
http://www.lib.wayne.edu/

The University Libraries support the education, research and service missions of the University and its communities through comprehensive, high-quality resources, services and programs. The Libraries are leaders in providing accurate and timely information to Wayne State University as well as the metropolitan Detroit area and Michigan. Scholarly materials in the University Libraries offer total more than three million volumes, over 56,000 journal titles and a broad range of electronic resources, including and electronic journals and over 800,000 e-books, all available though the Libraries’ website.

The Library System includes the David Adamany Undergraduate Library, the Arthur Neef Law Library, the Purdy/Kresge Library, the Vera P. Shiffman Medical Library and its Learning Resource Center at the Eugene Applebaum College of Pharmacy and Health Sciences, the Walter P. Reuther Library of Labor and Urban Affairs and University Archives and the Library Services Centers at the Oakland Center in Farmington Hills and Macomb Center in Clinton Township. The School of Library and Information Science and the Detroit Area Library Network (DALNET) are also under the Library System’s charge.

The University Libraries offer in-person and online reference and research support, inter-library loan, circulation and course reserve services, document delivery and library and information literacy programs.
The latest information technologies provide state-of-the-art access to instructional and research materials. The libraries provide silent and collaborative study spaces, including a 24-hour facility, as well as classroom support to over 300 general purpose classrooms throughout campus.

David Adamany Undergraduate Library (http://www.lib.wayne.edu)

The David Adamany Undergraduate Library (UGL) is designed to enhance the learning experience of undergraduate students by helping them to master the research skills necessary for academic success. The UGL offers three floors of open, collaborative space for study as well as hundreds of computers for student use. The library features four instructional labs, collaborative study rooms, course reserves and the Student Technology Studio offers hands-on opportunities for learning to use multimedia and electronic information resources. The Extended Study Center provides 24-hour access to nearly 170 student computers and is the home of the Library Computing Help Desk, which serves the needs of students and staff in the libraries. The UGL also houses Student Academic Success Services, which includes the Academic Success Center, Student Disability Services and the University Advising Center, the Writing Center and the Irvin D. Reid Honors College.

Purdy/Kresge Library (http://www.lib.wayne.edu)

The Purdy/Kresge Library supports the research and instructional needs of faculty, graduate students and upper-level undergraduates in these disciplines, as well as the information needs of the greater Detroit community. The library provides access to over sixty computers as well as ample study space in a traditional library atmosphere.

The Purdy/Kresge Library houses a book collection of over 1.5 million volumes, an extensive microform collection, a large document collection and a number of special collections including the Leonard Simons Collection of rare Michigan history texts, the Arthur L. Johnson Endowment collection, and the Ramsey Collection of Children’s Literature. This library is also the home of the Technology Resource Center, a collaborative effort of the Libraries, the Office for Teaching and Learning, and Computing & Information Technology, that assists faculty and instructors in designing and developing instructional experiences for the classroom and online teaching environments.

Arthur Neef Law Library (http://www.lib.wayne.edu/lawlibrary)

Located at the north end of the University’s main campus, Wayne State University’s Arthur Neef Law Library offers researchers a comprehensive legal research center. Its collection of more than 620,000 print and microform equivalent volumes, plus an expansive collection of e-books, databases and other digital resources makes it a leading legal research facility in the State of Michigan. The Law Library is also a depository for U.S. government publications and for the records and briefs filed with the Michigan Supreme Court.

Shiffman Medical Library and Learning Resources Centers (http://www.lib.wayne.edu/shiffman)

The Shiffman Medical Library supports the research, education and clinical and public health care information needs for the University, major hospitals within the Detroit Medical Center and unaffiliated health care providers and trainees throughout Michigan. In addition to assisting WSU undergraduate students with research, learning and internship information needs in the health sciences, all WSU students are encouraged to use the library’s consumer health information services. The library maintains access to all the major health sciences, bioscientific and consumer health databases; a core collection of journals dating to the mid-19th century; and books in print and electronically reproduced. Health information learning programs and informatics workshops, listed on our website, are open to all members of the University community. A Learning Resources Center focused on the daily information and computing needs of students of the Applebaum College is available Monday through Friday.

Walter P. Reuther Library of Labor and Urban Affairs and University Archives (http://www.reuther.wayne.edu)

The archival collections held in the Walter P. Reuther Library cover a variety of topics, organizations, and individuals. In all, the Reuther Library has more than 95 million documents, 20,000 books, monographs, union publications and proceedings, 2 million photographic images; and 20,000 audio and moving image recordings. Due to issues of format, size, and security, the collection stacks are not open to the public and researchers work with these materials in the Reuther reading room during established hours of business.

The Reuther Library has an international reputation as the largest labor archives in the world and additionally holds significant collections relating to social and urban affairs in the metro Detroit area. It collects and preserves records of the American labor movement, related social, economic, and political reform groups, and twentieth century urban America. The Reuther Library has since become the official depository for the inactive files of several labor unions and organizations, including the United Auto Workers, the American Federation of Teachers, the National Association of Letter Carriers, The Newspaper Guild, the United Farm Workers, the Service Employees International Union, the American Federation of State, County and Municipal Employees, the Air Line Pilots Association, the Association of Flight Attendants, the Industrial Workers of the World, the Society of Women Engineers, and many state and local organizations. Records have also been received from urban and civil rights groups as the Citizens Crusade Against Poverty, the Michigan Chapter of the American Civil Liberties Union, the Detroit Branch of the National Association for the Advancement of Colored People, the United Community Services of Detroit, United Way for Southeastern Michigan, and New Detroit, Inc. A unique portion of the holdings is a labor journal and newspaper collection, which has nearly 1,600 current and non-current titles dating from the late 1800s to the present. Many individuals who played leading roles in labor and urban affairs have also placed their papers in the Reuther Library.

The Reuther Library also houses the Wayne State University Archives which provides historical information about WSU and its predecessor institutions that date to 1868. In addition to collecting the University’s historical records, the WSU Archives holds the papers of presidents and administrative leaders, the papers of selected faculty members, and the papers of student and professional organizations that document the development of the University and higher education in Michigan. The WSU Archives also collects all publications created by and pertaining to the University, including the student newspaper from 1917 to present, as well as departmental newsletters. Subjects in the collection range from student activities such as athletics and student organizations, to local subjects such as Central High School, the Detroit Medical Center, and the Detroit Board of Education.
University Policies

University Equality of Opportunity Policy
Wayne State University is committed to a policy of non-discrimination and equal opportunity in all of its operations, employment opportunities, educational programs and related activities.

This policy embraces all persons regardless of race, gender, color, sex (including gender identity), national origin, religion, age, sexual orientation, marital status, familial status, disability, arrest record, weight, qualified Vietnam era veterans, qualified special disabled veterans, recently separated veterans and other protected veterans, or any other characteristic protected by applicable federal or state law. It expressly forbids discrimination, sexual harassment or any form of harassment in hiring, terms of employment, tenure, promotion, placement and discharge of employees, admission, training and treatment of students, extra-curricular activities, the use of University services, facilities and in the awarding of contracts.

This policy also forbids retaliation and/or any form of harassment against an individual as a result of filing a complaint of discrimination or harassment, or participating in an investigation of a complaint of discrimination or harassment.

Wayne State University, as an equal opportunity/affirmative action institution, complies with all applicable federal and state laws regarding non-discrimination and affirmative action. In furtherance of this policy, the University is also committed to promoting institutional diversity to achieve full equity in all areas of University life and service and in those private clubs and accommodations that are used by University personnel. No off-campus activities sponsored by or on behalf of Wayne State University shall be held in private club facilities or accommodations which operate from an established policy barring membership or participation on the basis of race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability or veteran status. Affirmative action procedures, measures and program may be used to the extent permitted by law to establish, monitor and implement affirmative action plans for all budgetary units and the University as a whole.

Inquiries regarding equal opportunity Academic/Administrative policies or complaints may be made to:

Office of Equal Opportunity
4324 Faculty/Administration Building
Wayne State University
Detroit, Michigan 48202
Telephone: 313-577-2280
or http://www.oeo.wayne.edu

Disability Non-Discrimination Policy
In accordance with federal requirements of the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973, there shall be no discrimination on the basis of disability in Wayne State University’s programs, operations and activities, in the hiring, terms and conditions or privileges of employment or any matter directly or indirectly related to such employment, or in the admission, education and treatment of students. The Student Disability Services Office (http://studentdisability.wayne.edu) has complete information on services available to students.

Drug and Alcohol Free Workplace Policy
Wayne State University is committed to providing a drug-free environment for its faculty, staff, and students. The Board of Governors has made this commitment a formal policy of the University. All faculty, staff and students must abide by the terms of the Board policy as a condition of employment or enrollment at the University. The unlawful possession, use, distribution, sale or manufacture of drugs or alcohol is prohibited on University premises, at University activities, and at University work sites.

Pursuant to that policy, the unlawful possession, use, distribution, dispensation, sale or manufacture of any illicit drugs, and the unlawful possession, use or distribution of alcohol on University property, or at any University work site, or as part of any University activity, is prohibited.

Any employee or student employee who is convicted of a criminal drug offense occurring at the workplace is subject to appropriate employee discipline in accordance with established University policies and collective bargaining agreements, and may be required to participate satisfactorily in a drug abuse or rehabilitation program as a condition of further employment or enrollment.

Any student or employee who, while on University premises or at any University activity, engages in the unlawful possession, sale, manufacture, distribution, or use of drugs or alcohol shall be subject to appropriate sanctions, in accordance with established University policies, the Student Code of Conduct, and collective bargaining agreements, and in conformity with local, state and federal law, up to and including expulsion or termination.

The University encourages employees who may have a problem with the use of illicit drugs or with the abuse of alcohol to seek professional advice and treatment. Individuals who seek assistance with such problems may obtain additional information on a confidential basis by telephoning the Employee Assistance Program (EAP) at 1-800-448-8326. Students may also seek referral assistance by contacting University Counseling and Psychological Services (CAPS), at 313-577-3398.

Policy Governing the Use of Alcoholic Beverages on Campus
The use or possession of alcoholic beverages is expressly prohibited in classrooms, lecture halls, laboratories, the libraries, the chapel and within buildings or arenas where athletic events, lectures, and concerts are held. The use of alcoholic beverages is expressly prohibited in all public areas of campus buildings except as follows: the use of alcoholic beverages, subject to State law, is permitted in areas designated by, and with the approval of, the Office of the President, and the use of alcoholic beverages at student social events, subject to State law, is permitted in areas designated by, and with the approval of, the Office of the President.

Sexual Discrimination, Harassment, and Assault Policy
Title IX of the Education Amendments of 1972 is a federal civil rights law that prohibits discrimination on the basis of sex in education programs and activities. Under Title IX, discrimination on the basis of sex can include sexual harassment or forms of sexual assault, such as rape, sexual assault or sexual battery.

Sexual discrimination is prohibited by Title IX and by University Policy. (WSU Statute 2.28.01).

Sexual harassment is a form of sex discrimination that is prohibited by Title IX and by University policy. It is the policy of Wayne State University that no member of the University community may sexually harass another. (WSU Statute 2.28.06).
Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communication of a sexual nature when:

1. Submission to such conduct or communication is made a term or condition either explicitly or implicitly to obtain employment, public accommodations or public services, education, or housing.
2. Submission to or rejection of such conduct or communication by an individual is used as a factor in decisions affecting such individual's employment, public accommodations or public services, education, or housing.
3. Such conduct or communication has the purpose or effect of substantially interfering with an individual's employment, public accommodations or public services, educational, or housing environment, or creates an intimidating, hostile or offensive employment, public accommodations, public services, educational or housing environment.

In the area of speech, what the law and this policy prohibit is speech as action: that is, sexual communication which is either directly coercive as demanding favors, or indirectly coercive, as arising to that level of offensiveness which interferes substantially with the victim's education or employment. The determination of what level of offensiveness is actually coercive, and therefore unlawful and prohibited by this policy, will in some cases be difficult. A significant element in the determination is provided by the fact that an unequal power relationship underlies sexual harassment. The more unequal the relationship, the greater the risk is of substantial interference with the victim's education or employment.

In the area of physical contact, physical contact which is unwelcome is so gravely offensive that it always has the effect of substantially interfering with the victim’s employment or educational environment. Employees and students should not take for granted that they are welcome to touch other employees or students, since if their contact is in fact unwelcome, they will be in violation of the law and of this policy. (WSU Statutes 2.28.06.010-2.28.06.080).

Sexual harassment is also unwelcome behavior of a sexual nature that creates a hostile or abusive work or educational environment. Sexual harassment is also unwelcome behavior of a sexual nature that is severe or pervasive and interferes with an individual's work or performance in a course or program.

Sexual assault is also prohibited by Title IX and by University policy (01-5 University Policy). Sexual assault includes, but is not limited to any of the following:

1. Any intentional, unconsented, unwelcome physical contact or threat of unwelcome physical contact or attempt thereof, of:
   a. an intimate body part of another person, such as a sexual organ,
   b. any body part of another person with one's sexual organs, or
   c. any part of another person's body with the intent of accomplishing a sexual act; or
2. Unwanted, inappropriate disrobing of another person, or purposeful exposure of one's genitals to another without the other's consent; or
3. Forcing, or attempting to force, any other person to engage in sexual activity of any kind without her or his consent; or
4. Any behavior that is proscribed as "criminal sexual conduct" under the Michigan Penal Code, notwithstanding whether criminal charges have been brought against the individual alleged to have engaged in such behavior. This may include rape, attempted rape, sexual assault or sexual battery.

Date rape and acquaintance rape are forms of sexual assault.

For purposes of the University's statutes/policies on sexual discrimination, sexual harassment and sexual assault, consent shall not be deemed to have occurred if given by a person who is unable to make a reasoned judgment concerning the nature or harmfulness of the activity because of his or her intoxication, unconsciousness, mental deficiency or incapacity, or if the product of threat or coercion. (WSU Statute 2.28.06.060).

Any employee or student will be subject to disciplinary action for violation of any of these policies. If any staff, faculty or student of the University community learns of a sexual discrimination, harassment or assault incident, they should immediately report that incident to either the Title IX Coordinator or the Deputy Coordinator, who are:

Linda Galante, Esq. - Interim Title IX Coordinator
Associate General Counsel
4259 Faculty Administration Building
656 W. Kirby Avenue
Detroit, Michigan 48202
Telephone: 313-577-2280
Fax: 313-577-7738
Email: lgalante@wayne.edu

Dean David Strauss - Deputy Title IX Coordinator
Dean of Students
351 Student Center
Detroit, Michigan 48202
Telephone: 313-577-1010
Email: ak3096@wayne.edu

The Title IX Coordinator’s responsibilities include overseeing all Title IX complaints, identifying and addressing any patterns or systemic problems that arise during the review of such complaints, and coordinating the training, education, communication and administration of grievance procedures for faculty, staff, students and other members of the University community.

The Deputy Coordinator is responsible for Title IX compliance for matters involving students, including training, education, communication and administration of grievance procedures for all complaints against WSU students.

Students or employees having a complaint against a WSU student for sexual harassment, sex discrimination or sexual assault, should contact the Deputy Coordinator by phone or email or file a Student Care Report available on Dean of Students’ website (http://www.doso.wayne.edu). Any such complaint can also be filed with the Title IX Coordinator.

The University statutes/policies prohibiting discrimination and sexual harassment-sexual violence can be found on the Board of Governors' website (http://www.bog.wayne.edu/code) and among the general university policies (http://policies.wayne.edu). These are also posted by the Office of Equal Opportunity (http://www.deo.wayne.edu) and the Dean of Students Office (http://www.doso.wayne.edu). The purpose of these policies is to assure the fullest possible awareness of WSU’s stand on sexual discrimination/harassment/assault and to confirm and regularize WSU's procedures regarding the handling of complaints.

Additional Resources
In addition to filing a complaint with the Title IX Coordinator or Deputy Coordinator, in instances involving rape, sexual assault or sexual battery, students and/or employees should also contact the WSU Police Department at:

6050 Cass Avenue
Detroit, Michigan 48202
Violence in the Workplace Policy

Wayne State University is committed to providing a work and educational environment that is free from threats, assaults, or acts of violence. Threats of violence or of physical harm, and any form of physical or sexual assault or threats of physical assault are prohibited. This includes conduct that harasses, disrupts, or interferes with another person’s work performance or creates an intimidating, offensive or hostile work or educational environment.

The University has also adopted a Campus Safety Ordinance (WSU Statute 2.87.03) which applies to all property owned, leased or otherwise controlled by Wayne State University and applies to all individuals when present on such property, regardless of whether the individual has a concealed weapons permit or is otherwise authorized by law to possess, discharge or use any device referenced in therein. The ordinance states that no person shall, while on any property owned, leased, or otherwise controlled by WSU:

1. possess or carry on his or her person any firearm, explosive or chemical weapon;
2. carry on his or her person any sword, switchblade knife, or other knife with a blade longer than three inches; and
3. carry on his or her person any other object or device with the intent of intimidating or injuring another person.

Upon conviction of any violation of this ordinance, the violator shall be sentenced to a fine not to exceed $500.00. In addition, violations of this policy may result in disciplinary action under existing University administrative policies. Limited exceptions to this policy exist for University employees expressly authorized to possess or use such weapons, devices or substances, law enforcement officials so authorized, and any individual whose possession or use is in connection with a research or regularly scheduled educational program authorized by the University, for which the Chief of the Wayne State University Police Department has been given at least one week’s advance notice.

University personnel are expected to notify appropriate management personnel of any violent or threatening behavior, when that behavior is work-related, carried out on University property, or is connected to University employment. Any individual who has obtained a personal protection order that identifies the workplace as a protected area should provide that information to the Wayne State University Police Department.
Mission Statement

Our mission is to prepare our students for challenging and rewarding careers, advance the boundaries of scholarly and practitioner knowledge, and enhance the economic vitality of the city of Detroit, the state of Michigan and beyond through our programs, research and community engagement.

Aspiration and Vision

The Wayne State University Mike Ilitch School of Business aspires to establish itself as one of the leading business schools in the nation as noted in published national rankings (e.g., Business Week, U.S News and World Report, etc.), that reflect favorable student evaluations and recruiter perceptions of both the undergraduate and M.B.A. programs, and the scholarly achievements of the faculty. The School strives to achieve a positive reputation for contributions to knowledge development, for the role it plays in the economic prosperity of the region, and for becoming a school of choice - one which prospective students see as providing a pathway to academic and professional achievement.

Academic Regulations: Mike Ilitch School of Business

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 10) section of this bulletin. The following additions and amendments pertain to the Mike Ilitch School of Business.

All students must fulfill the upper-division requirements of the Mike Ilitch School of Business in effect at the time of admission to the Mike Ilitch School of Business.

Admission to the School

Students seeking a business degree must be granted regular admission (p. 19) to the University to be eligible for admission to the Mike Ilitch School of Business.

Admission to Class

Please consult each term’s Schedule of Classes for appropriate dates and deadlines for registration, late registration, and add/drop period. Students may not attend a class for which they are not officially registered and will not be added retroactively.

Application for Degree

Each candidate must file an Application for Degree (https://wayne.edu/commencement/apply-for-graduation), NO LATER THAN THE TENTH DAY OF CLASSES, for the semester in which he or she expects to complete the requirements for the degree. If an Application for Degree was filed for a previous semester in which the student did not graduate, a new application and fee is required.

Attendance Policy

Regular attendance is a necessary condition for success in college study. This policy recognizes that the course content includes classroom lecture and discussion, certain aspects of which may be covered on examinations, quizzes, term papers, or homework assignments. Each instructor will announce his or her attendance standards at the beginning of the term.

Change of Major

Students wishing to change majors or their Academic Plan within the Mike Ilitch School of Business must submit a request in writing to the
Undergraduate Advisor in the Office of Undergraduate Student Services, 200 Prentis Building. An Academic Plan for the requested major will then be mailed. Students are advised that such changes occurring late in their program may result in additional coursework beyond the minimum requirement of 122 credits.

Student Conduct
Each student is subject to official regulations governing student activities and student behavior. Students should familiarize themselves with the obligations of students in the instructional process; see Obligations of Faculty and Students to the Instructional Process. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Academic integrity means that a student is honest with him/herself, fellow students, instructors, and the University in matters concerning his or her educational endeavors. Thus, a student should not falsely claim the work of another as one's own, or misrepresent him/herself so that the measures of one's academic performance do not reflect his/her own work or personal knowledge. Assignments submitted for any class are expected to be original, i.e., not resubmissions of work submitted in a previous or concurrent class.

If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he or she may be disciplined. Such discipline may include suspension or dismissal, but no dismissal will be directed without reasonable opportunity for an appropriate hearing, as provided in the Student Due Process statute. For the copies of Student Code of Conduct, please refer to the Dean of Students Office (http://www.doso.wayne.edu/assets/codeofconduct.pdf) where the entire document is available for review.

Degrees
Degrees are granted upon the recommendation of the faculty of the Mike Ilitch School of Business. Consideration is given to both scholastic attainment and to compliance with the standards and rules of the School.

Directed Study
A directed study is intended to give students the opportunity to conduct research in an area of interest to them under the supervision of a faculty member; credits vary between one and three. A cumulative grade point average of 3.00 is required to be eligible for consideration for directed study work. Students must complete the Undergraduate Directed Study form and obtain the required signatures prior to registration. No more than three credits of directed study in one Department are permitted in any semester. A total of no more than six credits of directed study may be used to fulfill graduation requirements. Contact the Office of Undergraduate Student Services, 313-577-4505, for further information.

Double Major
Students may pursue a double major within the Business School. For more information, contact an advisor in the Office of Undergraduate Student Services 313-577-4505.

Graduation with Distinction
Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude. Graduation with distinction is indicated on the student's diploma and on the transcript.

Honors Program
Current WSU business students with a cumulative grade point average of 3.5 or higher may enroll in courses with an honors component assignment option, and complete the fifteen credit required program (contact the Office of Undergraduate Student Services for details) to qualify for an honors distinction on their transcript and diploma at graduation.

Incomplete Marks
The mark of 'I' is appropriate only when a student has completed all of the requirements for a course except for a specific assignment, such as a project or final examination, and only when the instructor agrees that a student has a valid reason for not completing the assignment.

The mark of 'I' which is not converted to a letter grade within one year from the time it was received will be automatically changed to an 'F'.

Grade Appeals Procedure
It is the instructor’s prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment. Grounds for appeal of grades include:

1. the application of non-academic criteria in the grading process, as listed in the university’s non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

In those instances where a student disputes the final grade awarded, for one of more of the above reasons, the following steps should be taken to appeal the grade in question.

Informal review
The student should discuss the disputed grade with the instructor of the course. If the dispute is not resolved informally, the student may initiate a formal appeal.

Formal appeal procedure
1. Within 30 calendar days following official notification of final grades for the term in which the disputed grade was awarded, and when the informal review fails to resolve the dispute, the student shall submit a written appeal detailing his/her objection, along with supporting documentation in writing, to the instructor. The instructor should respond in writing within 10 work days.
2. If the dispute remains unresolved, the student shall submit a written statement detailing his or her objections, including a rationale why the department chair should consider this appeal (along with supporting documentation), to the department chair within 10 work days following receipt of the instructor's written response.

The chairperson shall review the complaint and provide a copy of the written complaint to the instructor. The instructor of the course shall be invited to reply in writing to the objections of the student. Where appropriate, the chairperson may consult with a Grade Appeals Committee for advice in grade disputes. Students will be notified of the chairperson’s decision within 20 business days of receiving the request.

3. Matters not resolved at the program level may be appealed to the dean's office. The department chair file folder containing the course syllabus from the semester in which the student took the course, plus the student’s letter, the instructor’s letter, and the department chair’s letter, and the student’s written rationale why the dean’s office should reconsider this appeal, should be sent to the dean’s office. Where
appropriate, the dean's office may consult with a Grade Appeals Committee for advice in grade disputes.

Students shall be notified in writing of the dean's office decision within 30 business days of receiving the request. The dean's office decision shall be the final decision at the college level.

University-level academic appeals procedure
When the procedures within the School have been exhausted, the decision on the record may be appealed with the student's written rationale why the provost's office should reconsider this appeal. Procedures for requesting a provost review are published in the University Bulletin see Appeal Procedures, University.

Normal Program Load
The normal academic load for an undergraduate student in the Mike Ilitch School of Business is from nine to sixteen credits each semester, depending upon the particular courses elected. No student should expect to carry a full load and at the same time be employed full-time. Students desiring to carry more than eighteen credits must obtain written permission from the Office of Undergraduate Student Services prior to registration. Excess credits will not be honored when taken without prior written approval.

Passed/Not Passed Registration
Undergraduate students in the Mike Ilitch School of Business may not take courses offered by the Mike Ilitch School of Business on a passed/not passed basis.

Probation and Exclusion
A student who registers for, but repeatedly fails to complete his/her program and thus does not make normal progress toward graduation, may be placed on probation.

If a student's academic work is unsatisfactory (less than 2.0 cumulative grade point average or less than 2.0 grade point average in his or her major), the student will be placed on probation with the understanding that he or she will be expected to achieve a cumulative 2.0 grade point average within the next twelve credits completed, or a 2.0 major grade point average within the next six credits completed in the major. If probationary status is not removed within the prescribed number of credits, the student is subject to either temporary suspension or permanent dismissal from either the major or from the Mike Ilitch School of Business.

The second (or subsequent) time(s) a student is placed on probation, he or she is subject to immediate dismissal from the Mike Ilitch School of Business.

In the event of a temporary suspension, readmission to the Mike Ilitch School of Business will be considered only with the recommendation of the Undergraduate Committee. (The Undergraduate Committee is composed of the departmental chairpersons and is chaired by the Assistant Dean of Student Services.) If, after readmission to the Mike Ilitch School of Business, the academic deficiency is not removed within the first nine credits attempted, the student will be permanently dismissed from the School. Coursework completed at another institution during a period of temporary suspension will not be considered for transfer credit.

The exclusion of any student will be reviewed by the Undergraduate Committee of the Mike Ilitch School of Business. A student on probation who fails to complete the courses for which he or she registers, without good reason as determined by the Dean or designee, shall not be permitted to re-register in the Mike Ilitch School of Business.

The Undergraduate Committee, upon the recommendation of the student's Department Chairperson, may permanently exclude a student from a major, if the student fails to remove himself or herself from probationary status within the prescribed number of credits.

In matters where the School's final decision is based upon the evaluation of a student's academic performance and when review procedures available to him or her within the School have been exhausted, the student may request the Provost to review that decision on the record.

While on probation, a student may not represent the School in student activities.

Retaking Courses
The University policy on retaking courses is stated at: Repeating Courses — The mark of R. No course in which a student has received a passing grade or mark may be repeated without the prior written approval of the Assistant Dean of Student Services of the Mike Ilitch School of Business.

Residence Requirement
To qualify for a Baccalaureate Degree from the Mike Ilitch School of Business, the final year and the last thirty-two credits must be taken at Wayne State University. In exceptional cases, a limited number of the last thirty-two credits toward a degree may be taken at another accredited college or university. All such cases must receive the approval of the Assistant Dean of Student Services before the work is undertaken.

Students returning to the School after a five-year absence are required to conform to the program requirements in effect at the time of their return.

Records Retention by Instructors
Term papers and examinations shall either be returned to the student or retained by the instructor for a period of ninety days. Thereafter, they may be destroyed.

Transfer of Courses in Major
No more than six semester transfer credits may be applied toward a student's major requirements. These courses must have received a grade of 'C' or better. Transfer of major credit beyond six semester hours may be applied toward free elective requirements. Only transfer courses taken at an AACSB accredited college or university or via community college Articulation Agreements will be considered.

Waiver of Degree Requirements
Students must comply with degree requirements as listed in this bulletin and on their Academic Plan. Students may petition for a modification in degree requirements by completing a waiver form and submitting it to the Office of Undergraduate Student Services of the Mike Ilitch School of Business. Waiver of a School requirement requires the approval of the Dean or his/her designee. Waiver of a departmental requirement requires the recommendation of the departmental chairperson. Undergraduate students are advised that no faculty member is authorized to approve a change in degree requirements.

Withdrawals from Class
Students must follow the university procedures for dropping and adding courses (p. 47).
AGRADE – Accelerated Graduate Enrollment

The Mike Ilitch School of Business has established an accelerated combined undergraduate and graduate program (‘AGRADE’) whereby qualified students in the Mike Ilitch School of Business may enroll simultaneously in undergraduate and graduate courses of the School. A maximum of twelve credits may be applied towards both undergraduate and graduate degrees in a student’s major field if the major department is an AGRADE participant. Those who elect the ‘AGRADE’ program may expect to complete the Bachelor’s and Master’s degrees in five years of full-time study.

Courses Approved for AGRADE

Take no more than four courses or 12 credits from any one of the following program areas.

Eligibility: ‘AGRADE’ applicants must have an overall g.p.a. of 3.5 through their junior year. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a g.p.a. in the major of at least 3.6 at the time of application.

Application: A student seeking ‘AGRADE’ status should present to the Mike Ilitch School of Business Graduate Programs Office all of the materials which that department requires for normal graduate admission, EXCEPT for the GMAT or Graduate Record Examination (GRE). Specific graduate admission requirements can be found in this bulletin or obtained from the Graduate Programs Office of the Mike Ilitch School of Business at 313-577-4511.

The earliest date by which a student may apply for the ‘AGRADE’ program is during the semester in which he/she completes ninety credits toward the undergraduate degree.

AGRADE Credits: Students may elect a minimum of three and a maximum of twelve ‘AGRADE’ credits. These will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master’s program, ‘AGRADE’ credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master’s degree will be earned in the conventional manner following formal admission to the graduate program.

For more details about the ‘AGRADE’ program, contact the Undergraduate Student Services Office or by calling 313-577-4505, or contact the Graduate Programs Office at 313-577-4511 or email gradbusiness@wayne.edu.

Bachelor’s Degrees in Business Administration

Admission Requirements

Effective for students admitted Fall 2009 and thereafter admission to the Mike Ilitch School of Business Undergraduate Program is based upon two criteria: Preprofessional Program Standing and Professional Program Standing, as defined below.

Preprofessional Program Standing is the classification for entering high school students or transfer students admitted directly to the Mike Ilitch School of Business through the Undergraduate Admissions Office. Typically, students are admitted at the freshmen or sophomore levels and pursue Business Foundation requirements, entry level Business Core classes and General Education Requirements. The purpose of the preprofessional coursework is to provide students with business instruction that prepares them for advanced level Business Core courses and business major courses.

Professional Program Standing is the classification for students entering or continuing in the Mike Ilitch School of Business with the completion of fifty-four semester credits at Wayne State University or fifty-four transferable semester credits, and requires a minimum 2.50 grade point average as described in the Mike Ilitch School of Business requirements (consult Undergraduate Student Services, 200 Prentis Bldg.). Entry into Professional Program Standing grants students approval to enroll in advanced Business Core courses and degree-applicable major courses. Students not meeting the grade point average requirement will NOT be allowed to enroll in either of these course groups until the required grade point average is achieved.

High School Students: Students who meet the University requirements for regular admission (p. 19) are eligible for admission to the Mike Ilitch School of Business.

Transfer Students: Students must meet University requirements for regular admission (p. 19). Students currently in another program at WSU must have a minimum 2.00 g.p.a. to be admitted to the Business School. WSU students with less than a 2.00 g.p.a. will not be considered for
All students must complete the following core courses.

**Core Requirements**

- BA 3400  
  Quantitative Methods II: Statistical Methods  
  3

- FIN 3290  
  Business Finance  
  3

- GSC 3600  
  Operations and Supply Chain Management  
  3

- ISM 3630  
  Business Information Systems  
  3

- MGT 2530  
  Management of Organizational Behavior  
  3

Students are responsible for observing all course prerequisites and limitations.
Language Electives
Students who are preparing for careers in the global economy or employment opportunities overseas or with multinational corporations should consider electing foreign language courses. In addition, students who wish to earn the Bachelor of Arts degree may utilize their electives toward the satisfying of the Bachelor of Arts foreign language requirements (see next tab).

Cooperative Education Program

The Mike Ilitch School of Business actively participates in the University Cooperative Education (Co-op) Program in which students alternate semesters of work and academic study. Eligibility begins in the junior year or upon having earned more than the minimum fifty-four semester credits. Students interested in this program should contact the Cooperative Education Coordinator, Career Services, 1001 Faculty Administration Building; 313-577-3390.

Students admitted to the program with minimum junior standing should recognize that an additional calendar year may be needed to fulfill the requirements for the bachelor’s degree. No academic credit is granted for participation in the Co-op Program; Satisfactory/Unsatisfactory (‘S/U’) grades are given, however, and are entered on the official University transcript.

Business Administration (B.S. Program)
Degree Requirements

Candidates for the Bachelor of Science in Business Administration must satisfactorily complete 122 credits including: General Education Requirements, School Requirements, Business Foundation Curriculum, Business Core, Major, and Elective Requirements as outlined below. Within the student’s degree program, no more than sixty-four credits in business subjects and upper division economics may be applied toward the degree. All course work must be completed in accordance with the academic rules of the University (p. 8) and those of the Mike Ilitch School of Business (p. 70).

To be eligible for the degree, students must have earned a minimum 2.0 grade point average in the major requirements and a minimum overall grade point average of 2.0 in all undergraduate course work completed at Wayne State University.

Specific Course Requirements: The courses listed below are required of all business students. No substitute courses are permitted except as noted.

1 A minimum grade of ‘C’ (2.0 g.p.a.) must be earned
2 Prereq: ACC 3010; ECO 2010; and BA 2300 (each with a minimum grade of C (2.0)).
3 Prereq: Completion of Intermediate composition (IC) wit grade of C or above, and COM 1010.
5 Note: Either ECO 2010 or ECO 2020 will satisfy the Basic Social Science Group Requirement.
6 Prereq: Placement through ACT score or English Qualifying Examination or passing grade in ENG 1010.
7 Prereq: Grade of C or above in ENG 1020 or equiv.

Business Administration (B.A. Program)

DEGREE REQUIREMENTS are the same as for the Bachelor of Science, cited above, with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University’s Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 122 credit minimum.

Business Administration Minor

The Mike Ilitch School of Business offers a minor in business for undergraduate students majoring in other disciplines. The Business Minor consists of six courses, totaling eighteen credits. Students must also complete prerequisite courses with a minimum grade of C (2.0 g.p.a.) for each course. The minor provides an excellent opportunity for non-business majors to broaden their knowledge of the business disciplines. In addition, the program enhances career prospects and establishes a solid business base for pursuing a Master of Business Administration degree. To be eligible to apply for the Business Minor, students must have a minimum overall grade point average of 2.5.

Accounting

Office: 100 Rands House; 313-577-4530
Chairperson: Myles Stern

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations.

- Accounting (B.A.) (p. 76)
- Accounting (B.S.) (p. 76)
- Accounting Post-Bachelor’s Certificate (p. 76)

Accounting B.A.

Admission Requirements: Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements

Candidates for the bachelor’s degree must complete 122 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 8) and those of the Mike Ilitch School of Business (p. 70).

The requirements for the Bachelor of Arts are the same as for the Bachelor of Science with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University’s Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 122 credit minimum.

The major program in accounting employs a capstone course, ACC 5115, to assess students’ knowledge of the discipline. Students who concentrate in accounting must complete the following courses.

Accounting Post-Bachelor’s Certificate

The post-baccalaureate certificate program in accounting is designed to enable students who already hold a bachelor’s degree in business administration or accounting to obtain the required educational background to be licensed as a Certified Public Accountant in Michigan.

Admission: Students must have a bachelor’s degree from an accredited institution, with a grade point average of at least 2.0.

Students who have received their undergraduate degree from Wayne State University should process a change in their status at the Registrar’s Office to ‘Post-Baccalaureate.’ Students who have received an undergraduate degree in these areas from another institution must complete the Application for Undergraduate Admission form and request that official transcripts be sent directly to the Office of Admissions.

Certificate Requirements

Candidates for this certificate must successfully complete a minimum of twenty-four credits in course work at Wayne State University following completion of the bachelor’s degree, with a cumulative grade point average of not less than 2.0. Of these twenty-four credits, students must complete a minimum of six credits from courses offered by the Department of Accounting. Additionally, a minimum of twelve credits must be from courses offered within the School (Accounting, Finance, Information Systems, Marketing, and Management). Students, who have not completed ACC 3010 and ACC 3020 (or equivalent courses), must complete ACC 3010 and ACC 3020 in addition to the minimum twenty-four credits required for the Certificate.

Each student’s Academic Plan will be individually designed. Students intending to use this certificate to meet the requirements for licensure as a Certified Public Accountant in Michigan will work with their advisor to ensure that the courses chosen meet the requirements of the licensing body.

Finance

Office: 3rd Floor, Prentis Building; 313-577-4525
Chairperson: Sudip Datta

Finance is primarily concerned with the determination of value and making decisions about allocation of funds in corporate and individual settings.

Students who major in Finance can apply their knowledge working in corporations and public finance in determining optimum investment strategies, raising funds to finance these investments, and managing daily operations. Students employed in investment banking and other financial institutions trade in varying types of financial assets such as stocks, bonds, and derivatives, allocate wealth across these assets, and manage and hedge risk.

With increasing globalization of the economy, many corporations employ people who are experts at analyzing potential future investments in foreign markets. Finance specialists become involved with currency
exchange rates, foreign economic conditions and forecasts, and techniques for reducing the risk of investments.

**Degree Programs**
- Finance (B.A.) (p. 77)
- Finance (B.S.) (p. 77)

**Finance B.A.**

**Admission Requirements:** Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Candidates for the bachelor’s degree must complete 122 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 8) and those of the Mike Ilitch School of Business (p. 70).

The requirements for the Bachelor of Arts are the same as for the Bachelor of Science with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University’s Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 122 credit minimum.

Students earning a Bachelor’s Degree with a major in Finance may find employment in several different areas, including corporate finance, financial institutions, and investments.

**Corporate Finance**

This area is for the student who wants to concentrate on those aspects of finance that will relate directly to financial decision-making in a business or non-profit organization. The corporate finance area offers careers as financial managers in non-financial corporations. Entry level positions are generally as financial analysts or staff accountants, while potential future responsibilities include management of working capital, operating budgets, financial statement preparation, bank relationships, long term financial planning, capital budgeting, treasury operations and stockholder relations.

Suggested courses to include in final choice of electives for students seeking a career in Corporate Finance:

</tr>
<tr>
<td>FIN 5890</td>
<td>Internship in Finance</td>
<td>3</td>
</tr>
</tbody>
</table>

**Financial Markets and Investments**

This area is for the student who is interested in working for organizations which offer financial and investment services such as banks, insurance companies and mutual and pension funds. Investment careers can also be found in other financial intermediaries such as investment banking firms, security and investment brokerage houses, and security and commodity exchanges. Responsibilities within such firms are highly varied and include commercial and personal lending, branch management, security analysis, portfolio and trust management, real estate management, and insurance, commodity and security brokerage.

Recommended electives for students seeking a career in Financial Markets and Investments:

Wayne State University Undergraduate Bulletin 2017-2018
Students earning a Bachelor’s Degree with a major in Finance may find employment in several different areas, including corporate finance, financial institutions, and investments.

Corporate Finance
This area is for the student who wants to concentrate on those aspects of finance that will relate directly to financial decision-making in a business or non-profit organization. The corporate finance area offers careers as financial managers in non-financial corporations. Entry level positions are generally as financial analysts or staff accountants, while potential future responsibilities include management of working capital, operating budgets, financial statement preparation, bank relationships, long term financial planning, capital budgeting, treasury operations and stockholder relations.

Suggested courses to include in final choice of electives for students seeking a career in Corporate Finance:

- FIN 5320 Principles of International Finance 3
- FIN 5890 Internship in Finance 3

Financial Markets and Investments
This area is for the student who is interested in working for organizations which offer financial and investment services such as banks, insurance companies and mutual and pension funds. Investment careers can also be found in other financial intermediaries such as investment banking firms, security and investment brokerage houses, and security and commodity exchanges. Responsibilities within such firms are highly varied and include commercial and personal lending, branch management, security analysis, portfolio and trust management, real estate management, and insurance, commodity and security brokerage.

Recommended electives for students seeking a career in Financial Markets and Investments:

- FIN 5090 Capital Markets 3
- FIN 5220 Portfolio Management 3
- FIN 5280 Entrepreneurs’ Ecosystem 3
- FIN 5320 Principles of International Finance 3
- FIN 5330 Bank Management 3
- FIN 5890 Internship in Finance 3
- FIN 6997 Derivative Securities 3

Management and Information Systems

Office: 3rd Floor, Prentis Building; 313-577-4525  
Chairperson: Christine Jackson

Information Systems Management (ISM) refers to the use of computer-based systems to gather and analyze complex information about all aspects of a business. This information is used by managers to make business decisions. Students specializing in ISM frequently pursue career positions as business analysts, data base analysts, ERP specialists, social media specialist, web content manager, and information systems managers. The courses offered in the ISM program emphasize hands-on technical application of relevant software and coverage of content for course-related certification exams.

The Management major prepares individuals to compete in a technology-intensive manufacturing or service economy. The required courses have students analyze contemporary management problems participate in team projects and develop skills in managing people to drive organizational effectiveness.

- Information Systems Management B.A. (p. 78)
- Information Systems Management B.S. (p. 79)
- Management B.A. (p. 79)
- Management B.S. (p. 80)
- Information Systems Management Post-Bachelor’s Certificate Program (p. 79)

Information Systems Management (B.A.)

Admission Requirements: Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements
Candidates for the bachelor’s degree must complete 122 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 8) and those of the Mike Ilitch School of Business (p. 70).

**Information Systems Management (Post-Bachelor's Certificate Program)**

The Post-Baccalaureate Certificate in Information Systems Management develops information systems competencies in managing and applying various technologies to analyze, design and implement ways to increase organizational effectiveness, efficiency and competitiveness to support managerial decision making.

The certificate provides more than a basic knowledge of information systems. Students completing the program achieve competency in information systems terminology, concepts and principles; information systems analysis/design through application and knowledge of current hardware and software; and planning and carrying out system development and management of information systems

**Admission Requirements**

A bachelor's degree is required for the Post-Baccalaureate Certificate in Information Systems and Management. Any baccalaureate degree from an accredited institution, regardless of major, is acceptable. Because these courses are not technical, this program is available to students with a variety of undergraduate backgrounds.

Students who have received their undergraduate degree from Wayne State University should process a change in their status at the University Registrar’s Office to “Post-Baccalaureate”. Students who have received an undergraduate degree from another institution must complete the Application of Undergraduate Admission form and request that official transcripts be sent directly to the Office of Undergraduate Admissions.

**Certificate Requirements**

A minimum of twenty-four credits are required for the certificate: five required courses (fifteen semester credits) and three elective courses (nine semester credits).

Students must complete all courses with a minimum grade ‘C’ or better, and maintain at least a cumulative 2.5 Grade Point Average (g.p.a.) in order to earn the Post-Baccalaureate Certificate in ISM. All Courses are three credits and all courses are offered online and NO class time is required.

Scheduling: Students may commence the Post-Bachelor's ISM program in any term and should assume at least one year for completion if enrolled on a full-time basis; two years maybe required for part-time registration.

Students have the opportunity to specialize by selecting their electives so that they have three courses in a specific area such as Human Resource Management and Labor Relations (MGT 5700 [core] plus MGT 5740 and MGT 5770).

Marketing and Supply Chain Management

Office: 3rd Floor, Prentis Building; 313-577-4525
Chairperson: John C. Taylor

The Global Supply Chain Management major focuses on management of the flow of goods and information from the source of components and materials through the channels of distribution to the final customer, and beyond, to recycling and disposal. In today’s highly competitive environment, the management of purchasing, operations, quality, transportation, inventory, scheduling, and information flows are ever more critical to an organization’s ability to satisfy customers and create a competitive advantage. Whether sourcing from non-domestic suppliers, outsourcing business functions, or attempting to market goods and services to consumers in other areas of the world, today’s business leaders need a detailed understanding of all the challenges and opportunities arising from a supply chain that is fundamentally global.

The Marketing major is designed to prepare students for a variety of careers in marketing. Marketing is the activity and institution involved in creating, communicating, delivering and exchanging offerings that have value for customers and society. Marketing management involves situation analysis, selection of marketing strategies and target markets, and coordination of product development, pricing, promotion and distribution elements.

- Global Supply Chain Management B.A. (p. 81)
- Global Supply Chain Management B.S. (p. 81)
- Marketing B.A. (p. 81)
- Marketing B.S. (p. 82)
Global Supply Chain Management (B.A.)

Admission Requirements: Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements
Candidates for the bachelor’s degree must complete 122 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 8) and those of the Mike Ilitch School of Business (p. 70).

Required Courses
- GSC 5600 Logistics and Transportation Strategy 3

Marketing (B.A.)

Admission Requirements: Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements
Candidates for the bachelor’s degree must complete 122 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 8) and those of the Mike Ilitch School of Business (p. 70).

Marketing Major
The marketing major is designed to prepare students for a variety of careers in marketing. Marketing is the activity and institution involved in creating, communicating, delivering and exchanging offerings that have value for customers and society. Marketing management involves situation analysis, selection of marketing strategies and target markets, and coordination of product development, pricing, promotion and distribution elements.

As a complement to the basic major, students elect to pursue specializations in advertising or marketing management.

All students majoring in marketing must complete the requirements of their specializations and subsequently take MKT 6996.

Advertising/Marketing Communications Specialization
This specialization prepares students for work in a wide variety of businesses, advertising agencies, public institutions, and other organizations. It may serve as a background for people who plan to work in the advertising/marketing communications industry, or for general marketing jobs where promotional issues play a particularly prominent role.

Core
- MKT 5490 Principles of Advertising 3
- MKT 5410 Marketing Research and Analysis 3
- MKT 5450 Consumer Behavior 3
- MKT 6996 Strategic Marketing 3

Elective

Marketing Management Specialization

This specialization provides students with broad exposure to the discipline of marketing management. In addition to the general focus on marketing management, the marketing management specialization trains individuals for a wide spectrum of marketing careers including marketing research, brand management, sales and sales management and product development.

Undergraduate Certificate in Entrepreneurship and Innovation

Entrepreneurs and innovators are critical to the long-term health and prosperity of our economy and society. The certificate is designed for students from any background or area of study passionate about understanding and being active participants in the process of starting or nurturing startup ventures, including founders, co-founders, team members and those providing support services. The certificate will benefit current and future for-profit and nonprofit professionals in business, arts and entertainment, communication and information technology, manufacturing, engineering, science and technology, health care, community and economic development, and other fields. This multidisciplinary program, offered through a collaboration of several schools and colleges, provides an opportunity for students from diverse academic disciplines and areas of interest to learn from each other and exposes students to entrepreneurial action in a variety of settings.

The use of an integrative curriculum framework and tool kit across all core and elective courses, experiential learning opportunities built into each of these courses, and consistent interactions with and among students, instructors, coaches, mentors, entrepreneurs, innovators and others engaged in the entrepreneurial environment, provides each student a unique pathway to deeper learning, mastery and higher levels of confidence in applying the specialized knowledge and skills required to develop and launch new venture.

Through this certificate program, students will:

- Demonstrate knowledge of the stages of the new venture creation process, from discovering, creating and refining ideas, to building,
testing and evaluating a value proposition and viable business model, to launching, sustaining and growing this new venture by acquiring and managing financial and human resources.

- Learn how lead, manage, and work effectively within teams to achieve success, and to create a positive and ethical work culture.
- Develop a personal network within the entrepreneurial ecosystem with a special emphasis on Detroit and the state of Michigan.
- Tailor their program of study to their unique talents and interests as they explore what it takes to translate ideas into reality, and plan the next steps on their journey of discovery, experimentation and action.

**Admission requirements:** Students wishing to pursue the Undergraduate Certificate in Entrepreneurship and Innovation should meet with the program director and the undergraduate advisor for the school or college providing oversight of their undergraduate degree program and major.

**CERTIFICATE REQUIREMENTS:** Candidates must complete 15 credits in course work satisfying the requirements cited below. All course work must be completed in accordance with the academic procedures of the University governing undergraduate scholarship and degrees; see Academic Regulations stipulated by the school of college which provides oversight of your undergraduate degree program and major.

College of Education

Dean: R. Douglas Whitman

The College of Education at Wayne State University is located in, and serves the needs of, one of the nation's largest metropolitan areas. Thus, the College reflects the dynamic character of urban life, and, in its concern with urban problems, places great faith in education as the means by which human circumstances can be improved. To this end, the College prepares educators who have the knowledge, commitment and competence to help young people achieve academic success, preserve individuality, develop democratic values, and realize self-fulfillment.

Professional field experiences are an important aspect of the preparation program; they bring the prospective teacher face-to-face with the realities of the classroom, the school and the community, as well as provide opportunities for participation in the study, research and analysis of contemporary educational issues. These field experiences are scheduled in numerous school districts, community and cultural institutions throughout the metropolitan Detroit area.

As society has been altered by such factors as the development of knowledge, technological advances and population growth, the purposes and processes of education have changed. New technologies of instruction are evolving rapidly and offer the prospective teacher many opportunities for developing a high level of teaching competence. Problems generated in our urban society are complex, and those related to education are no exception. Yet, the opportunities for curriculum innovation, experimentation and leadership have never been greater.

Accreditation

Wayne State University is accredited by the Higher Learning Commission. The College of Education's teacher certification programs are accredited by the Council for the Accreditation of Educator Preparation (CAEP).

Academic Regulations: College of Education

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 10) section of this bulletin. The following additions and amendments pertain to the College of Education.

Normal Program Load

The normal undergraduate student load is sixteen credits per semester. Only in exceptional cases is a student allowed to elect a heavier load. Approval of the advisor and authorization by the Assistant Dean of the Division of Academic Services must be secured in those cases where the student petitions to carry more than eighteen credits within a full semester.

If a significant portion of a student's time is spent in outside work, corresponding adjustments must be made in his/her college schedule.

Admission

College of Education Level 1

Admission to the College of Education is based on two levels. Students are admitted directly into the College of Education Level 1 from high school or another institution of higher learning by completing an undergraduate admission application to the University, selection of a College of Education program on the admission application, and acceptance to Wayne State University. Level 1 admission is processed by the:

University Office of Undergraduate Admission, Welcome Center
42 W. Warren Ave., P.O. Box 02759
Detroit, Michigan 48202
telephone 313-577-3577

Admitted Level 1 students work on fulfilling University General Education Requirements, College Requirements, and requirements for admission to Level 2. Most students during Level 1 also begin taking courses in their teaching major and minor. In some cases a course may meet both a University General Education requirement and a College requirement (see competency and group requirement codes prefixed to tiles of required courses for each major). For transfer students, careful course selection from Transfer Plans (http://transfercredit.wayne.edu) is recommended.

College of Education Level 2

Admission to the College of Education Level 2 program requires a separate College application (http://coe.wayne.edu/admissions/undergrad-requirements.php), which is available in Room 489, College of Education. Students complete the Level 2 application when all Level 2 admission requirements have been fulfilled. These requirements vary by program and students are encouraged to meet with an advisor in Academic Services (Room 489, Education Building) to review requirements specific to their program. Admission to Level 2 is not competitive and students meeting all requirements will be admitted. During Level 2 students work on the Professional Sequence in their program.

Transfer of College within the University

A student in another college of Wayne State University who wishes to transfer to the College of Education makes application directly to the Division of Academic Services (Room 489, Education Building). Students must be in good academic standing in order to be eligible for this transfer.

Readmission Following an Interruption in Residence

Undergraduate students whose attendance at Wayne State has been interrupted for three or more years will be required to apply at the College of Education Division of Academic Services for readmission to the College. Deadline dates for such applications are the same as those for regular admission to the College. In instances of prolonged absences of five years or more, it may be necessary to revalidate credits, either through examinations or refresher courses, within the student’s major and the professional education sequences.

Attendance

Regularity in attendance and performance is necessary for success in college work. Although there are no officially excused absences as far as College policy is concerned, the conscientious student is expected to explain absences to the instructor. Such absences may be due to illness; to participation in inter-college activities certified by the sponsoring faculty member; or other similar types of absence for which the student can present to the instructor evidence that he/she was engaged in authorized University activities. Each instructor, at the beginning of the course, will announce his/her attendance requirements.

Criminal History Check

Michigan Public Act 68 of 1993 Sec. 1230 requires public and nonpublic schools to conduct a criminal history check of new teachers, school administrators, school psychologists and other personnel required...
to hold State Board of Education approvals. Students interested in becoming certified teachers must supply a statewide criminal history check prior to admission or transfer to the College of Education and again prior to applying for certification. Additional criminal history checks may be required at the discretion of the College. A criminal history check, by name, without fingerprints may be accessed for a fee through the State of Michigan (http://michigan.gov).

Any person seeking admission to a teacher certification program who has been convicted of any offense must provide certified copies of all documents relative to his/her conviction, including the Register of Actions from the court(s) in which the matter was adjudicated and a narrative describing each incident from his/her perspective for review by a committee in the College of Education. Persons determined by the criminal history check to have been convicted of any offense and who do not provide required information at the time of application or transfer will have their admission/certification delayed or denied. After review by the College of Education Committee, the applicant will be notified in writing of the Committee’s decision.

Note the State Board of Education Teacher Certificate Code: R 390.1201 Certificates; denial, suspension, or revocation.

1. The superintendent of public instruction may refuse to grant or renew, or may suspend for a fixed term, or revoke, or may impose reasonable conditions on, a teaching certificate or state board approval granted pursuant to these rules for the following reasons:
   a. Fraud, or material misrepresentation, concealment or omission of fact in the application for, or the use of, a teaching certificate or state board approval.
   b. Conviction of an offense listed in MCL 380.1535a or MCL 380.1599b.

2. The superintendent of public instruction may refuse to grant or renew a teaching certificate or a state board approval for failure or ineligibility of the applicant to meet the criteria for the applicable certification or state board approval.

**Dean's List**

The College of Education Dean's List is a means of recognizing undergraduate students who have excelled academically in a given semester. The Dean’s List will be compiled for each semester in the calendar year. Inclusion requires a 3.75 g.p.a. for students enrolled for twelve or more semester credits (full-time). Students registered for six to eleven semester credits (half-time) must earn a 4.00 g.p.a. Students registered for fewer than six semester credits are not eligible and students who receive marks of 'I,' 'WN,' 'WF,' 'WF,' 'N,' or 'U' are not eligible.

Students will be notified of inclusion in the Dean's List by electronic and written communication. Citation of the Dean’s List will be posted to the student’s record of academic standing. In addition, the Dean’s List will be displayed in the College of Education for each term and posted on its website.

**Graduating with Distinction**

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude. Graduation with distinction will be indicated on the student’s diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty percent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

- Summa Cum Laude: Top five percent
- Magna Cum Laude: Next five percent
- Cum Laude: Next ten percent

Specific minimum grade point averages will be determined each year in the following manner: based on the grade point average distributions of the previous year’s senior class, the grade point average cutoffs for each College will be established to provide for recognition of the top eighteen to twenty per cent of the graduating students. Graduation with distinction will not be awarded in cases of any g.p.a. less than 3.0.

The criteria for Graduation with Distinction include:

1. A minimum of sixty credits in residence at Wayne State University.
2. A qualifying minimum grade point average (calculated as explained above) on all course work at Wayne State University must be completed by the end of the semester of graduation. (For notation in the commencement program, the grade point average on all course work completed prior to the semester of graduation will be used.)

**Probation Policy and Withdrawal**

**Level 1: University Policy**

Effective Fall Term 1988, an undergraduate student whose cumulative g.p.a. falls below 2.00 will be placed on Academic Probation. An Academic Probation status is placed on the student’s record and the student shall be permitted to register only after consultation with, and approval has been granted by, a designated University advisor.

The probation status, which blocks registration, may be changed up to the day before classes begin for any given term. Registration for students with a probation status will not be permitted by the advising staff once classes have begun. Because such registration is permitted for one term only, if the student continues on academic probation, they must meet with an advisor each term to permit registration for a future term.

A student shall be given two subsequent terms for enrollment on probationary status. At the conclusion of the two terms, a student who has not achieved a cumulative g.p.a. of at least 2.00 shall be excluded from his/her program. A student excluded from the University may not apply for readmission or reinstatement for one calendar year. Reinstatement is not guaranteed and the application may be denied.

Academic Probation indicates that a student needs to reassess his/her educational priorities, investigate support services, and/or adjust study habits and techniques. It is important to recognize the warning signs of academic difficulty early in the term so one can seek the appropriate help or make adjustments to their course load or study habits. There are many resources on campus to assist students with academic probation.

**Level 2: College Policy**

If, at any time, an undergraduate’s g.p.a. falls below 2.50 in Level 2 years of the College of Education, the student is automatically placed on probation. If the general average is acceptable but work in professional courses, especially in student teaching is unsatisfactory, the student may be placed on probation. Before registering for subsequent work in the College, a student on probation must secure approval from their Level 2 advisor. The College reserves the right to ask a student to withdraw at any time from specific courses or from the College entirely, if progress does not warrant continuance.
Residency Requirement

Applicants for a degree from the College of Education must complete at least thirty credits as a registered student in the College. The student must be in residence (enrolled in courses at Wayne State University) during the semester in which he/she completes requirements for the degree and certificate.

Transferred Credits

College credits earned at accredited institutions other than Wayne State University may be transferred by an undergraduate to apply toward meeting requirements for degrees and teaching certificates in the College, provided:

1. the student has been accepted as a matriculated student in the College;
2. the grades received in courses where transfer is desired have been satisfactory; and,
3. credits so earned are applicable to the student’s curriculum.

Students should contact an advisor to discuss transfer of credit.

Students currently enrolled or returning students who have taken courses at another institution, should forward official transcripts to:

Wayne State University
Transfer Credit Evaluation
PO Box 92759
Detroit, MI 48202-0759

An applicant for a degree from the College must complete at least thirty credits as a registered student in the College.

Students in Level 2 must consult their advisor prior to registering for any course outside of Wayne State University to discuss the limitations of transferring credits. During the senior year, no transfer credits will be accepted.

When the student has a degree from an accredited institution and is meeting the requirements of the College for a Michigan Provisional Teacher’s Certificate, some credits may be applied toward the certificate by transfer but at least fifteen credits must be completed at Wayne State.

Academic Services: College of Education

Office: 489 Education; 313-577-1601
Assistant Dean: Janice Green
Graduate Advising: LaSondra Dawn, Paul Johnson, Cynthia Ward, Kevin Williams
Undergraduate Advising: Fawne Allossery, Janet Andrews, Ebony Green, Chelsea Smith, Cassandra Tackett
Macomb University Center Advising: Sherry Cormier-Kuhn (Undergraduate and Graduate)
Office of Field Experience: Assistant Director: Lori Lucas
http://coe.wayne.edu/afs/

Purposes of the Office

The Academic Services Division is responsible for admitting undergraduate and graduate students to programs of the College of Education. The Division is also responsible for the Office of Field Experiences (pre- and directed student teaching), maintaining student files, and processing and certifying graduation. In addition, the Division provides a placement service for graduates seeking employment in the field of K-12 teaching.

The Division provides information and advice concerning programs, admission procedures, administrative and teaching certificates, and general University policy. Other services provided include preparation of the Schedule of Classes, and evaluation of transcripts. The unit also maintains curriculum guides and community college equivalency tables, approves official Plans of Work, and monitors the College probation system.

Off-Campus Centers: The College offers undergraduate course work in off-campus centers throughout the Detroit metropolitan area. Courses scheduled at these centers provide residence credit and are comparable to the offerings on the main campus.

Services to Students

Advising

Students seeking admission information should contact Academic Services by calling 313-577-1601, via e-mail at askcoe@wayne.edu, or by attending open advising every Tuesday from 9:00 a.m. to 4:00 p.m. in room 489 Education. The Academic Services Office also advises in-service teachers working for professional certification and those seeking additional certificate endorsements.

Each student admitted to the College of Education is assigned to an advisor. The advisor guides the student in the selection of courses and counsels the student in solving problems.

Education Placement Office

This office serves graduates of the College who have completed initial teacher-preparation or advanced graduate programs, and in-service teachers enrolled either currently or previously in the University. All persons qualifying for teachers’ certificates are urged to register with this office.

Close contact is maintained with school systems in Michigan and in other states. Attempts are made to keep informed of current trends in teacher supply and demand. College and university staff vacancies for professional positions throughout the United States are also listed with this office.

Administrative and Organizational Studies

Office: 341 Education Building; 313-577-1728
Interim Assistant Dean: William E. Hill
http://coe.wayne.edu/aos/index.php

The Division of Administrative and Organizational Studies has as its primary goal the development and enhancement of leadership and organizational learning. It is within the scope of this division to study emergent trends, technologies and educational innovations; to develop rationales for supporting educational change; to present viable programs and models of study for advanced students in education which will enable them to function skillfully as educational leaders in facilitating change, and in developing and conducting on-going programs; and to design and implement learning innovations, and the impact of instructional methodologies on the improvement of human and organizational performance. Program areas, Educational Leadership and Policy Studies, and Learning Design and Technology, are under the guidance of this Division.

• Learning Design and Technology (B.A.) (p. 87)
• Learning Design and Technology (B.S.) (p. 87)
Learning Design and Technology (B.A.)

The Bachelor of Arts and Bachelor of Science in Learning Design and Technology prepares students for work in instructional design, development, and implementation. Graduates of the program will be qualified for careers in business, public or private agencies, health care institutions, military or governmental entities, and a variety of community and professional firms. They will be prepared to become instructional developers, corporate training developers, project managers, media specialists, etc. Graduates of this program may also wish to pursue graduate studies in Learning Design and Technology, Administration, or related fields.

Admission Requirements
1. The admission requirements for the undergraduate program in Learning Design and Technology are the same as for admission to the University. Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the College of Education degree program in Learning Design and Technology.
2. Attend a mandatory orientation to the Learning Design and Technology Program (by invitation only).

Candidates for the Bachelor of Arts or Bachelor of Science in Education with a Major in Learning Design and Technology must complete a minimum of 120 credits. All course work must be completed in accordance with the academic procedures of the College of Education (p. 84) and University (p. 8) governing undergraduate scholarship and degrees. At graduation, the College of Education requires a minimum 2.5 grade point average.

1. Completion of all General Education Requirements (p. 31). General Education Requirements may be met by transfer of community college courses, the WSU General Education Transfer Policy/MACRAO, MTA, and/or by completing WSU courses.
2. Completion of the College of Education mathematics requirement.
3. Completion of required Core Course Subjects.
4. Completion of the required Major Courses.
5. A minimum cumulative g.p.a. of 2.5 with no grade below a ‘C’ in any program course.

Required Core Course Subjects (at least 47 credits, such as the following)

Advanced Game Development 4
Business Communication 4
C++ Programming 1 4
College Algebra 4
Computer and Information Processing Principles or Foundations of Business Information Technology 4
Digital Layout: Adobe 4
Multimedia 1 4
Game Programming 4
Introduction to Game Development 4
Introduction to Photoshop 4
Introduction to Web Programming 3
Introduction to 3D 4
Pre-visualization 4

Any deficiencies in core course requirements must be completed before proceeding to the major course work of the program.

Required Major Courses
The following courses are completed at Wayne State University.

Learning Design and Technology (B.S.)

The Bachelor of Arts and Bachelor of Science in Learning Design and Technology prepares students for work in instructional design, development, and implementation. Graduates of the program will be qualified for careers in business, public or private agencies, health care institutions, military or governmental entities, and a variety of community and professional firms. They will be prepared to become instructional developers, corporate training developers, project managers, media specialists, etc. Graduates of this program may also wish to pursue graduate studies in Learning Design and Technology, Administration, or related fields.

Admission Requirements
1. The admission requirements for the undergraduate program in Learning Design and Technology are the same as for admission to the University. Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the College of Education degree program in Learning Design and Technology.
2. Attend a mandatory orientation to the Learning Design and Technology Program (by invitation only).

Candidates for the Bachelor of Arts or Bachelor of Science in Education with a Major in Learning Design and Technology must complete a minimum of 120 credits. All course work must be completed in accordance with the academic procedures of the College of Education (p. 84) and University (p. 8) governing undergraduate scholarship and degrees. At graduation, the College of Education requires a minimum 2.5 grade point average.
Learning Design and Technology Minor

The Learning Design and Technology Minor is available to undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for non-education majors to broaden their knowledge of the learning and performance improvement disciplines. In addition, the program enhances career prospects and establishes a solid business base for pursuing a Master of Education in Learning Design and Technology degree.

The Learning Design and Technology Minor consists of six courses, totaling eighteen credits. To be eligible to apply for the minor, students must have a minimum cumulative g.p.a. of 2.5.

Total Credits: 18

Students must achieve a cumulative g.p.a. of 2.5 or better with no grade below ‘C’ in the 18 minor credits.

Kinesiology, Health, and Sport Studies

*Office: 2152 Faculty Administration Building; 313-577-4249
Assistant Dean: Nathan A. McCaughtry
http://www.kinesiology.wayne.edu*

The Division of Kinesiology, Health and Sport Studies offers courses at the undergraduate level leading to Bachelor of Science degrees in several professional areas: Kinesiology (with concentrations in Physical Education and Physical Activity Leadership or Exercise and Sport Science) and Health Education (with concentrations in School Health and Community Health). The Division also offers teacher certification minors and/or endorsements in Physical Education, Health Education, or Adapted Physical Education. Additionally, the Division offers courses in lifestyle fitness activities available to all Wayne State University students.

The Lifestyle Fitness Activities (LFA) program is an integral part of the Division; it provides students with the opportunity to enhance physical well-being and acquire developmental skills, knowledge, and attitudes which can be utilized throughout life. Participation in these courses also enhances self-esteem, self-responsibility, and self-determination. LFA courses are offered to both undergraduate and graduate Wayne State students; however, these courses are not offered for graduate credit. LFA courses may also be elected by non-matriculated and visiting students.

- Kinesiology (B.S.) (p. 91)
- Health Education (B.S.) (p. 89)
- Physical Education and Physical Activity Leadership Elementary Minor (Grades K-5) (p. 93)
- Physical Education and Physical Activity Leadership Secondary Minor (Grades 6-12) (p. 93)
- Health Education Minor (p. 90)
Health Education (B.S.)

The B.S. in Health Education is offered with two concentrations: 1) School Health and 2) Community Health.

School Health Concentration

Admission Requirements: Undergraduate students entering Wayne State University from high school or transferring from other universities or colleges are admitted directly into the College of Education with Level 1 standing. Students should request admission into the health education program. General Education classes, along with the health education major classes for Level 1 are taken concurrently. Students must apply to the College of Education for Level 2 standing (http://coe.wayne.edu/as/forms.php) when they have met the criteria listed below.

Criteria for Admission to Level 2 (no exceptions will be made):

1. Completion of a minimum of fifty-three credits of coursework with at least twelve credits in Health Education.
2. Cumulative grade point average of at least 2.5.
3. Successful Completion of Intermediate Composition (IC).
5. Successful completion of the Professional Readiness Exam.
6. Current Negative TB test within the past three years.
7. Verification of forty hours of successful group work with children. The State defines a group as three or more children (not ones own) between the ages of three and eighteen. The group work experience needs to be recent (within the last five years) at the time of admission to Level
8. A current (within the past six months) statewide criminal history check (http://www.michigan.gov/ichat).
9. A copy of all transcripts from all Colleges/Universities attended including WSU.
10. A signed plan of work.
11. Once the above requirements are fulfilled, students must complete a Level 2 Application form to be submitted to the College of Education.
12. Attendance at a mandatory College of Education Level 2 Orientation.

Community Health Concentration

Admission Requirements: Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the College of Education Level 2 degree program.

Admission questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

A minimum of 124 credits are required for completion of this degree: satisfaction of the University General Education Program (p. 31); thirty-three core credits in health education (see below); a minimum of twenty credits in a selected minor; and thirty-five credits in professional education requirements (see below). All course work must be completed in accordance with the academic procedures of the College of Education (p. 84) and University (p. 8) governing undergraduate scholarship and degrees. All courses must be completed with grades of ‘C’ or better and an overall 2.5 grade point average, to meet College graduation requirements. Course changes may occur through periodic curriculum revision and students are urged to consult assigned advisors prior to each registration period to insure that all requirements are met.

School Health Concentration

Teacher Certification: The following requirements apply to students seeking teacher certification:

1. Students must complete one semester of student teaching and seminar at the secondary level.
2. Students must submit the student teaching application (http://www.coe.wayne.edu) by the appropriate date:
   - Term I (Fall Semester): December 1 of the preceding academic year
   - Term II (Winter Semester): April 1 of the preceding academic year.
   An appointment with the coordinator of student teaching is required. Completed application forms MUST be submitted by the application period deadline in order to reserve a student teaching assignment.
3. Students must have a satisfactory health record and a TB test within three years prior to the time the assignment begins. Test results must be submitted with the application.
4. Students must have a current (within the last six months) statewide criminal history check (http://www.michigan.gov/ichat).
5. Students must meet the following qualifications:
   a. Completion of ninety-two credits in course work (excluding courses with an ‘I’ – incomplete mark).
   b. All major, minor, and professional education courses must have been completed with a grade of ‘C’ or better.
   c. A grade point average of at least 2.5 overall, as well as in the major (the major includes all professional courses).
   d. Successful completion of the Michigan Test for Teacher Certification (MTTC), basic skills, and major/minor tests
6. CPR and First Aid certification is required for placement and teacher certification.
7. Students must successfully complete the following courses:
   - BBE 5000 Multicultural Education in Urban America 2
   - BIO 1510 Basic Life Mechanisms 4
   - EDP 5480 Adolescent Psychology 2-3
   - EHP 3600 Introduction to the Philosophy of Education 3
   - HE 2310 Dynamics of Personal Health 3
   - HE 2320 Advancing Policy in Community Health Education 3
   - HE 3300 Health of the School Child 3
   - HE 3330 Methods in Teaching Health 3-4
   - HE 3500 Human Disease 3
   - HE 4340 Family and Reproductive Health 3
   - HE 5220 Health Behavior Change 3
   - HE 5440 Mental Health and Substance Abuse 3
   - HE 5620 Performance Based Assessment in Health Education 3
   - HE 5993 Writing Intensive Course in Health Education 0
   - HE 6430 School Health Curriculum 3
   - HE 5522 Health Psychology 3
   - LFA 2330 First Aid and CPR 3
   - RLL 6121 Teaching Reading in the Content Areas: Grades 6-12 3
   - SED 5010 Inclusive Teaching 2
   - TED 2250 Becoming an Urban Educator 3
   - TED 6020 Computer Applications in Teaching I 3

(An incomplete mark does not constitute satisfactory completion.)

Students who successfully complete all the College of Education and health education course requirements may apply for a Michigan Secondary Provisional Teaching Certificate then they apply for
graduation. The Certificate qualifies the holder to teach health in grades 6 - 12; initial certification is provisional for a six-year period. (For further information, contact the College of Education.)

5. Prereq: HE 2310 or HE 3300

6. To be taken concurrently with HE 5522 (see above)

**Health Education Minor**

Health education plays an important role in the promotion of health and the prevention of disease. A minor in health education provides opportunities for involvement in school health education, as well as an introduction to a career as a health education professional in a clinical or community setting.

In the State of Michigan, a commitment has been made to a comprehensive health education curriculum, the Michigan Model. Promoted by the State departments of public health and education, the Michigan Model has been adopted by an increasing number of schools. The secondary minor in health education qualifies individuals for a health teaching endorsement in grades 6-12. The elementary minor qualifies individuals for a health teaching endorsement in grades 6-8. In addition, a minor in this field may be combined with nursing or other health science fields.

The requirements for a minor in Health Education include courses in six areas:

1. professional preparation;
2. physical health (classes need to be taken in a specific order);
3. mental health;
4. nutrition;
5. personal health;
6. substance abuse.

Students must see an advisor in Health Education to file a Plan of Work prior to begin the minor.

Twenty-one credits are required for the completion of the Health Education minor, as follows:

Kinesiology major program.

below. Upon application, students should request admission into the completed fifty-three credits and must have met all the criteria listed

1. General Education courses are taken concurrently with Kinesiology University, either from high school or transferring from other universities

Admission Requirements

Leadership (PE-PAL Concentration)

Physical Education or Physical Activity Science.

The B.S. in Kinesiology is offered with two concentrations: 1) Physical Education or Physical Activity Leadership and 2) Exercise and Sport Science.

Physical Education or Physical Activity Leadership (PE-PAL Concentration)

Admission Requirements: Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the College of Education Level 2. General Education courses are taken concurrently with Kinesiology requirements. Students must apply for formal admission to the College of Education Level 2, fifteen credits in HE Education Level 2; fifteen credits in HE

Prereq: Completion of all Level 1 classes; Admission to the College of Education Level 2; fifteen credits in HE

Prereq: Completion of all Level 1 classes

Prereq: fifteen credits in HE

Prereq: HE 3300 or HE 6500

Kinesiology (B.S.)

The B.S. in Kinesiology is offered with two concentrations: 1) Physical Education or Physical Activity Leadership and 2) Exercise and Sport Science.

Exercise and Sport Science (ESS Concentration)

Admission Requirements: Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the College of Education Level 2 degree program.

A minimum of 124 credits are required for completion of this degree: satisfaction of the University General Education Program (p. 31); and the major requirements as required by each specific degree program (see below). Electives to complete the 124 credit requirement may be used in any area. All course work must be completed in accordance with the academic procedures of the College of Education (p. 84) and University (p. 8) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of 'C' or better and an overall 2.5 grade point average, to meet College graduation requirements. Course changes may occur through periodic curriculum revision and students are urged to consult assigned advisors prior to each registration period to insure that all requirements are met.

Physical Education and Physical Activity Leadership (PE-PAL Concentration)

The PE-PAL concentration prepares students for the field of physical education as well as the expanding physical activity and exercise market. Specific goals of this program include: physical education and physical activity leadership skills needed to provide instruction from childhood into adulthood and across school and community-based settings; acquisition of skills in and knowledge of a variety of movement activities, including fundamental motor skills, sports, fitness, adventure, aquatic and rhythmic activities; the ability to apply knowledge about human movement acquired from its sub-disciplines to the teaching of kinesiology; the ability to analyze and evaluate individual human motor performance in a variety of age groups and skill levels; and the capacity to systematically evaluate one’s own teaching performance and to plan, implement and manage effective instruction. Students may complete the degree program with or without teacher certification.

Required KHS Courses

Level 1

KIN 1991 Professional Perspectives in Kinesiology 3
KIN 3580 Biomechanics 3
The following requirements apply only to students completing the concentration for teacher certification:

1. Students must complete one semester of student teaching (elementary and secondary levels) with a seminar.
2. Students must submit student teaching applications for the Fall Semester by Dec. 1 of the previous year. Applications for student teaching are obtained from the academic advisor. An appointment with the coordinator of student teaching is also required.
3. Students must have a satisfactory health record and a tuberculosis test within six months before student teaching. A copy of the test results must be submitted with the application.
4. Students must meet the following conditions to qualify for student teaching:
   a. Ninety-two credits must be completed (incomplete grade credits will not count).
   b. 'C' or better grades must be earned in all major, minor, and professional education courses.
   c. A 2.5 grade point average overall and in the major is required.
   d. Successful completion of the Michigan Test for Teacher Certification (MTTC) Professional Readiness Exam (PRE).
   e. Successful completion of the Michigan Test for Teacher Certification (MTTC) Physical Education Test #44.
5. The following courses must be satisfactorily completed with a 'C' or higher grade. (An incomplete grade does not constitute satisfactory completion.):

No more than four credits from Lifestyle Fitness Activity (LFA) courses can be used towards elective credits. Students should consult their advisor for further information and prior to registering for any elective courses not listed on the curriculum guide or plan of work.

### Exercise and Sport Science (ESS) Concentration

The ESS concentration is designed to prepare students for professional fields or graduate studies in the broad field of exercise and sport science, with tailored specializations in exercise physiology, sport and exercise psychology, human development, biomechanics, applied anatomy, fitness evaluation and prescription, and basic health studies. This degree is a prerequisite to the necessary postgraduate study or additional certification requirements in this field.

Adapted Physical Education Endorsement

Courses leading to a teaching endorsement in Adapted Physical Education are available only to physical education and special education majors. The program requires twenty-four credits in approved special education and adapted physical education courses. To be admitted the student must possess a valid Michigan teaching certificate in physical education or any area of special education, or be enrolled in one of those programs. Physical education and special education majors must consult with their advisors, prior to electing courses for this endorsement.

Technology Expectations

The College of Education expects that each initial teacher certification candidate will own or have ready access to a computer (desktop, laptop, and/or mobile device). Throughout their academic program, teacher certification candidates will use a variety of technologies to develop their portfolios, to create multi-media projects to demonstrate knowledge, to create audio and video files, to communicate globally, and to participate in group projects using collaborative tools. Most importantly, however, by using a variety of technologies to progress successfully through their own academic programs, prospective teachers learn how to appropriately use technology as a tool to support teaching and learning, skills that are critical to effective teaching in 21st century classrooms. At graduation, teacher candidates are expected to have technology skills that will facilitate and inspire student learning and creativity, enable development of digital age learning experiences and assessments, promote digital citizenship and responsibility, and use digital tools and resources to engage in professional growth and leadership. A teacher who possesses such innovative technology knowledge and skills for classroom application is an attractive employment candidate to any school district.

Michigan Provisional Certification (Education) - Bachelor’s Degree Requirements

Candidates for the Bachelor of Arts or Bachelor of Science degree in Education must complete at least 120 credits in course work with a minimum grade point average of 2.5. No grade below a “C” may be used to meet requirements specific to elementary or secondary education, the
major, the minor (including the planned program/comprehensive major), or professional education courses; a grade of ‘C-minus’ is not acceptable.

The following outline presents the general distribution of credits to be fulfilled by the student’s choice of curricula from the subsequent program descriptions, below. NOTE: Some programs require more than 120 credits; note also the addendum cited below for the Bachelor of Arts degree.

1. Forty credits in pre-professional coursework including 6-8 credits in English to fulfill Basic and Intermediate Composition requirements and courses specified by individual program areas.
2. Completion of the appropriate professional education sequence.
3. Completion of teaching majors and teaching minors appropriate to the student’s intended level of certification.
4. Three credits in personal health, first aid, health of the school child, or comprehensive school health education.
5. Completion of University General Education Requirements (see General Education Program).
6. Michigan Test for Teacher Certification:
   a. Elementary Education: Elementary Education Test. Examination in additional major/minor subject area(s) is also highly recommended.
   c. Secondary Education: Tests in major and minor subject areas.
7. Current certification in First Aid and Adult and Child CPR as verified by the Certification Office from a provider approved by the Michigan Department of Education.

BACHELOR OF ARTS in EDUCATION Language Requirement: In addition to the above requirements, the Bachelor of Arts degree requires completion of a foreign language through the intermediate level.

Career and Technical Education
Career and Technical education programs are offered in the following curricular areas:

- Business, Management, Marketing and Technology – Comprehensive: Teaching Major (a minor is not required)
- Business, Management, Marketing and Technology – Group: Teaching Major (minor required)
- Marketing Education: Teaching Major (minor required)
- Trade and Industry: Teaching Major (second academic major required); including Health Occupations (second academic major required)

These specializations are offered as majors in many community colleges and this major should be completed prior to admission to the College of Education. For further information, consult a career and technical education program coordinator in the College of Education.

All of the programs offered under these generic headings lead to two kinds of certification: secondary school certification, and vocational certification with required work experience.

All students in career and technical education must complete an academic major or minor as listed above, a vocational endorsement, the baccalaureate degree, and have two years (4,000 hours) of recent and relevant work experience (within the past five years) in an occupation related to the vocational endorsement.

Admission Requirements: In addition to the regular admission procedures (see Admission: Level 2), each applicant must have a personal interview with a career and technical education advisor and complete a Plan of Work.

CREDIT BY EXAMINATION: Credit in some occupational areas may be earned through competency examinations. Consult the CTE Program Coordinator for further information.

Teaching Certificates (Michigan)
The Michigan Department of Education issues two basic teaching certificates: elementary and secondary. The elementary certificate authorizes an individual to teach all subjects in grades kindergarten through five, major and minor subject areas in grades six through eight, and all subjects in grades K-8 in a self-contained classroom. The secondary certificate authorizes an individual to teach his/her major and minor subject areas in grades six through twelve. Some majors such as art, kinesiology, and music cover all grades, kindergarten through twelve.

Teaching Certification Requirements
Most secondary certificates require an academic major and an academic minor in subject areas such as English, mathematics, science, or social studies, approved for teaching in grades six through twelve by the State Board of Education. An elementary certificate requires a minimum of one academic major or a student-centered minor or major and the Planned Program/Comprehensive Major.

Students are recommended for certification after earning a bachelor’s degree from a regionally-accredited institution and completing a specified sequence of professional courses in the College of Education. Holders of a bachelor’s degree may also earn a teaching certificate in a post-bachelor certification program or Master of Arts in Teaching program. Additional information about these programs can be obtained from the Office of Academic Services in room 489 Education.

Certification for Post-Baccalaureate Students
A college graduate holding the bachelor’s or master’s degree may qualify for a teaching certificate by completing a Master of Arts in Teaching degree program, or by completing a recognized post-degree program. See the Wayne State University Graduate Bulletin for general requirements for the Master of Arts in Teaching degree. The student may need to supplement previous degree work in order to satisfy major and minor provisions of the Michigan certification code.

Teaching Certificate Endorsements
Teaching endorsements may be added to any certificate. An individual may add endorsements by completing requirements for academic majors and/or minors in accordance with State regulations. An individual holding an elementary certificate may also earn an endorsement to teach at the secondary level, and vice versa. When adding an additional endorsement, the individual must also pass the Michigan Test for Teacher Certification in that subject area.

Holders of certificates may add an additional endorsement in a content area or in a specialty area. Content areas include English, Language Arts, Mathematics, Science, Social Studies, etc... Content endorsements are generally completed with undergraduate coursework in a post-bachelor status. Specialty areas are endorsements seen as more pedagogical or based upon a specific setting in which a subject is taught. A few examples of specialty endorsements are Special Education, Early Childhood Education, English as a Second Language and Bilingual-Bicultural Education. Many of the specialty endorsements are completed as part of a graduate program and may include only graduate coursework.
For more information regarding adding an endorsement, consult an advisor in the Division of Academic Services, 489 Education Building.

Application for an endorsement must be made within five years after endorsement requirements have been met. State examinations must be passed for all new endorsements.

**Office of Clinical Experience (Teaching)**

Director: Leah van Belle, Ph.D.
Office: 221 Education Building; 313-577-1644

Prerequisite requirements for student teaching eligibility are:

1. Admission to the College of Education.
2. Completion of course work in teaching major and minor(s) with grades of ‘C’ or better.
3. Passing of appropriate tests on the Michigan Test for Teacher Certification (MTTC).
4. Satisfactory completion of required courses in the professional education sequence with grades of ‘C’ or better.
5. Current negative tuberculosis test result.

NOTE: In addition to the above prerequisites, students completing certification requirements directly through the Michigan Department of Education or another university must complete a minimum of six semester credits in the Wayne State University College of Education prior to placement in a student teaching assignment.

**Application Procedures**

Submit completed application forms to the Office of Field Experience, 223 Education Building, prior to the deadline of the appropriate application period (see below).

**Application Deadlines**

Apply September 1 through December 1 for the following Fall semester.

Apply January 1 through April 1 for the following Winter semester.

**Advising Offices**

Information, written descriptions of programs, and referrals to advisors may be obtained from the following advising offices:

- Art Education, Room 163, Art Building
- Kinesiology, Room 260, Matthaei Building
- Music Education, 1321 Old Main
- all other programs, Room 489, Education Building
- Elementary Education (B.A.) (p. 96)
- Elementary Education (B.S.) (p. 116)
- Secondary Education (B.A.) (p. 103)
- Secondary Education (B.S.) (p. 123)
- Special Education (B.A.) (p. 114)
- Special Education (B.S.) (p. 133)
- Art Education, Visual (Post-Baccalaureate Certificate) (p. 95)

**Art Education, Visual (Post-Baccalaureate Certificate)**

The Visual Arts Education major for Post-Bachelor Certification requires thirty prerequisite course credits prior to admission to the program (usually taken during undergraduate studies in art), forty-four credits taken after admission to the College of Education, and six credits of Student Teaching. Potential students should make an appointment with the Program Coordinator, Dr. James Brown, to discuss program requirements by calling 313-577-0902.

**Foundation Requirements (30 credit hours)**

Bachelor of Arts in Education - Elementary Education

Education (Elementary) Leading to K-8 Certification (Bachelor’s Degree Programs)

The elementary certificate qualifies the holder to teach all subjects in kindergarten through grade five and all K-8 subjects in a self-contained classroom. Additionally, the major and minor subjects may be taught if the teacher has passed the MTTC subject test.

Admission: Level 1

Entry to the College of Education
All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 19) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence
The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This course work should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 32) requirement prior to admission.

3. Michigan Test for Teacher Certification (MTTC): All students must pass the MTTC Professional Readiness Exam #96 (http://www.mttc.nesinc.com) prior to admission. Scores must be sent directly from the testing agency to WSU.

4. Physical Health: Defined standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.

5. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

6. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://michigan.gov/ICHAT).

7. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110 and MAT 1120 or have appropriate prerequisite math course in progress.

8. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1110</td>
<td>Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)</td>
<td>3</td>
</tr>
<tr>
<td>PSY 1010</td>
<td>Introductory Psychology</td>
<td>4</td>
</tr>
</tbody>
</table>

9. Secondary Education: Students seeking admission to Secondary Education must have twelve semester credits completed in the major.

10. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing
Upon completion of a minimum of fifty-three semester credits of college course work and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing. Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 19).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend an orientation session.

DEGREE REQUIREMENTS (K-5 all subjects, K-8 self-contained certification)

All students must complete the College Requirements and the Planned Program/Comprehensive Major as outlined below. Students have a choice of selecting a core major or a student-centered minor (i.e. Bilingual-Bicultural Education, Early Childhood, English as a Second Language). Some of the courses cited in the following curricula may satisfy the University General Education Requirements (p. 31) AND requirements in the major and minor. No grade below ‘C’ may be used to meet requirements specific to elementary education, the major, the minor (including the planned minor), or professional education courses; a grade of ‘C-minus’ is not acceptable.

Early Childhood General and Special Education Concentration (non-certification option)
This concentration enables students to qualify for positions in Early Childhood Education (ECE) as lead teachers in infant/toddler and preschool educational settings. Students will earn a Bachelor of Arts in Elementary Education with a concentration in Early Childhood General and Special Education. The program is designed for persons interested in working with young children birth-to-five years old and their families. The program is a minimum of 120 credit hours and the focus of the curriculum is on the growth and development of the young child including children who have developmental delays or disabilities, and the influence of family and society dynamics on the child's development and learning. The ECE curriculum includes the theories, principles, development, and evaluation of relationship-based learning and teaching in early childhood intervention and education settings; as well as assessment and teaching strategies, materials and equipment for physical, social, language/communication, emotional, and intellectual development for all young children. Support systems for children and their families are examined to promote healthy development and learning. A field experience is required.

Bachelor of Arts in Education - Elementary Education
All students must complete the College Requirements, Level 2 Education Requirements, a major area of study, and a minor area of study as outlined below. Students who select one of the following majors are not required to select a minor: Business, Management, Marketing and Technology Comprehensive Major; Social Studies Comprehensive Major; and Visual Arts.

Admission: Level 1
Entry to the College of Education
All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 19) into the College of Education in Level 1 status.

Admission: Level 2
Entry to Professional Education Sequence
The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This course work should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.
2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 32) requirement prior to admission.
3. Michigan Test for Teacher Certification (MTTC): All students must pass the MTTC Professional Readiness Exam #96 (http://www.mttc.nesinc.com) prior to admission. Scores must be sent directly from the testing agency to WSU.
4. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
5. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
6. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://michigan.gov/ICHAT).
7. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110 and MAT 1120 or have appropriate prerequisite math course in progress.
8. Special Education: Students seeking admission to Special Education must have completed the following courses:

### Bachelor of Arts in Education - Secondary Education

**Education (Secondary) Leading to Grades 6 - 12 Certification (Bachelor’s Degree Programs)**

The secondary education curriculum leads to a bachelor's degree in education and secondary school teaching certification in the major and minor areas listed below. Whereas this degree is granted by the College of Education, students also have the option of earning secondary school certification in conjunction with a bachelor's degree from the College of Fine, Performing and Communication Arts or the College of Liberal Arts and Sciences. For information regarding these combined degree programs, see an advisor. No grade below 'C' may be used to meet requirements specific to secondary education, the major, the minor (including the planned minor), or professional education courses; a grade of ‘C-minus’ is not acceptable.

All students must complete the College Requirements, Level 2 Education Requirements, a major area of study, and a minor area of study as outlined below. Students who select one of the following majors are not required to select a minor: Business, Management, Marketing and Visual Arts.

**Bachelor of Arts in Education - Secondary Education**

**Education (Secondary) Leading to Grades 6 - 12 Certification (Bachelor’s Degree Programs)**

The secondary education curriculum leads to a bachelor's degree in education and secondary school teaching certification in the major and minor areas listed below. Whereas this degree is granted by the College of Education, students also have the option of earning secondary school certification in conjunction with a bachelor's degree from the College of Fine, Performing and Communication Arts or the College of Liberal Arts and Sciences. For information regarding these combined degree programs, see an advisor. No grade below 'C' may be used to meet requirements specific to secondary education, the major, the minor (including the planned minor), or professional education courses; a grade of ‘C-minus’ is not acceptable.

All students must complete the College Requirements, Level 2 Education Requirements, a major area of study, and a minor area of study as outlined below. Students who select one of the following majors are not required to select a minor: Business, Management, Marketing and Visual Arts.

**Admission: Level 1**
**Entry to the College of Education**
All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 19) into the College of Education in Level 1 status.

**Admission: Level 2**
**Entry to Professional Education Sequence**
The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This course work should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.
2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 32) requirement prior to admission.
3. Michigan Test for Teacher Certification (MTTC): All students must pass the MTTC Professional Readiness Exam #96 (http://www.mttc.nesinc.com) prior to admission. Scores must be sent directly from the testing agency to WSU.
4. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
5. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
6. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://michigan.gov/ICHAT).
7. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110 and MAT 1120 or have appropriate prerequisite math course in progress.
8. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1110</td>
<td>Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)</td>

<tr>
<td>BIO 1510</td>
<td>Basic Life Mechanisms</td>
<td></td>
</tr>
<tr>
<td>SCE 5010</td>
<td>Biological Sciences for Elementary and Middle School Teachers</td>
<td></td>
</tr>
</tbody>
</table>
9. Secondary Education: Students seeking admission to Secondary Education must have twelve semester credits completed in the major.

10. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

**Application for Level 2 Standing**

Upon completion of a minimum of fifty-three semester credits of college course work and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing. Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 19).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend an orientation session.

**Level 1 Requirements**

The following courses and course options are required of all students seeking secondary (grades 6-12) certification regardless of selection of major or minor studies. Some of these courses may also satisfy the University General Education Requirements (p. 31).

**College Requirements**

- **American Society and Institutions (AI)**
  - PS 1010 American Government
  - or PS 1030 The American Governmental System

- **Critical Thinking Competency (CT)**

- **Foreign Culture (FC)**

- **Historical Studies (HS)**

- **Life Sciences (LS) (select two of the following)**
  - PSY 1010 Introductory Psychology
  - or PSY 1020 Elements of Psychology
  - BIO 1030 Biology Today
  - or BIO 1050 An Introduction to Life
  - or BIO 1510 Basic Life Mechanisms

- **Oral Communication (OC)**

- **Philosophy and Letters (PL)**

- **Physical Sciences (PS)**

- **Social Sciences (SS)**

- **Visual and Performing Arts (VP)**

- **Written Communication (Two Courses)**
  - Basic Composition (BC)
  - Intermediate Composition (IC)

- **Secondary Education Requirements (select one of the following)**
  - HE 2310 Dynamics of Personal Health
  - HE 3300 Health of the School Child
  - HE 6500 Comprehensive School Health Education
  - LFA 2330 First Aid and CPR
  - TED 2250 Becoming an Urban Educator

1. PS 1030 required for Social Studies majors

---

**Level 2 Education Requirements (Grades 6-12 Certification)**

The following courses are required of all students seeking secondary (grades 6-12) certification. The selection of courses to fulfill the methods requirements is predicated on the student's choice of major/minor.

The following courses may be taken in Level 1 or 2:

- BBE 5000 Multicultural Education in Urban America
- SED 5010 Inclusive Teaching
- TED 6020 Computer Applications in Teaching I

The following courses may be elected at any time after admission to Level 2 and must be completed prior to TED 5780:

- EHP 3600 Introduction to the Philosophy of Education
- EDP 5480 Adolescent Psychology
- RLL 6121 Teaching Reading in the Content Areas: Grades 6-12
- TED 5650 Pre-Student Teaching Field Experience for Secondary Majors

- Teaching methods in the major (two courses) 6
- Teaching methods in the minor (one course) 3

The Teaching Major and Teaching Minor and the Michigan Test for Teacher Certification (MTTC) subject area tests must be completed prior to student teaching.

Final clinical experience

- TED 5780 Directed Teaching and Conference

---

</tr>
</tbody>
</table>

**Methodology Requirements**

The required coursework varies by the specific occupational area. Examples of occupational areas include: Drafting & Design Technology, Construction Trades, Automobile Technician, Machine Tool Operations/Machine Shop, Welding, Woodworking General, etc... See an advisor for more information.

**Methodology Requirements**

- CTE 5501 Instructional Practices for the Teacher Cadet Classroom - Module 1
- CTE 5502 Instructional Practices for the Teacher Cadet Classroom - Module 2

Total Credits 36
Teaching of Foreign Languages (ACTFL) by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages. (ACTFL).

Students must score the Intermediate High Level in Arabic, as measured by the Oral Proficiency Interview (OPI) and Writing Proficiency Test (WPT) from the American Council on the Teaching of Foreign Languages. (ACTFL).

Visual Arts Education: Teaching Major
(Minimum of 57 credit hours in Foundation, Intermediate, Advanced Studio/Methodology courses; Minimum of 23 credit hours in Professional Education and Student Teaching courses)

A comprehensive major, as defined by the Michigan Department of Education, does not require a teaching minor.

This program is designed to provide professional preparation for individuals who seek K-12 certification in visual arts education. Students in this program receive the Michigan Secondary Provisional Teaching Certificate. It is recommended that students plan their coursework in advance with an advisor as accurately as possible to avoid extra courses or conflicts.

The program for visual arts education consists of University General Education Requirements (Competency Requirements and Group Requirements) for which see General Education Program: College of Education Requirements (Competency Requirements and Group Requirements) and an advanced studio curriculum of Arabic: Teaching Minor (Minimum 27 credit hours)

Students must score the Intermediate High Level in Arabic, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL).

Total Credits 24

Bachelor of Arts in Education - Special Education

The special education curriculum leads to a bachelor's degree in education and certification in the area of cognitive impairment.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 19) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This course work should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 32) requirement prior to admission.

3. Michigan Test for Teacher Certification (MTTC): All students must pass the MTTC Professional Readiness Exam #96 (http://www.mttc.nesinc.com) prior to admission. Scores must be sent directly from the testing agency to WSU.

4. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.

5. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

6. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://michigan.gov/ICHAT).

7. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110 and MAT 1120 or have appropriate prerequisite math course in progress.

8. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1110</td>
<td>Mathematics for Elementary School Teachers I</td>

</tr>
<tr>
<td>Select one of the following:</td>
<td>3-4</td>
<td></td>
</tr>
<tr>
<td>BIO 1030</td>
<td>Biology Today</td>
<td></td>
</tr>
</tbody>
</table>
9. Secondary Education: Students seeking admission to Secondary Education must have twelve semester credits completed in the major area for which the student is applying.

10. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three semester credits of college course work and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing. Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 19).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend an orientation session.

The entire program in Special Education requires a minimum of 140 credits. All students must complete the College Requirements, the Special Education Comprehensive Major, Level 2 Education Requirements and the major area of study (Special Education Cognitive Impairment) as outlined below.

LEVEL 1 REQUIREMENTS: The following courses are required of all students seeking special education certification. Some of these courses may also satisfy the University General Education Requirements (p. 31).

No grade below ‘C’ may be used to meet any requirement specific to Special Education, the Special Education major, or the professional sequence.

The following courses may be elected at any time after admission to the College of Education Level 2 and must be completed prior to taking TED 5780
Bachelor of Science in Education - Elementary Education

Education (Elementary) Leading to K-8 Certification (Bachelor’s Degree Programs)

The elementary certificate qualifies the holder to teach all subjects in kindergarten through grade five and all K-8 subjects in a self-contained classroom. Additionally, the major and minor subjects may be taught if the teacher has passed the MTTC subject test.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 19) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This course work should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. 10. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.
Application for Level 2 Standing

Upon completion of a minimum of fifty-three semester credits of college course work and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing. Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 19).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend an orientation session.

DEGREE REQUIREMENTS (K-5 all subjects, K-8 self-contained certification): The following requirements in various curricular areas supplement the degree requirements outlined above.

All students must complete the College Requirements and the Planned Program/Comprehensive Major as outlined below. Students have a choice of selecting a core major or a student-centered minor (i.e. Bilingual-Bicultural Education, Early Childhood, English as a Second Language). Some of the courses cited in the following curricula may satisfy the University General Education Requirements (p. 31) AND requirements in the major and minor. No grade below 'C' may be used to meet requirements specific to elementary education, the major, the minor (including the planned minor), or professional education courses; a grade of 'C-minus' is not acceptable.

</tr>
</tbody>
</table>

3 Prereq: ELE 6310 and two additional Elementary Methods courses
4 Prereq: MAT 1110
5 Prereq: ELE 6310
6 Courses are taken in public schools in the Detroit metropolitan area. All of the courses in the professional sequence must be completed before entering TED 5780.
7 ELE 6080 and TED 5790 must be taken concurrently

**Early Childhood General and Special Education (non-certification option)**

This concentration enables students to qualify for positions in Early Childhood Education (ECE) as lead teachers in infant/toddler and preschool educational settings. Students will earn a Bachelor of Science in Elementary Education with a concentration in Early Childhood General and Special Education. The program is designed for persons interested in working with young children birth-to-five years old and their families. The program is 120 credit hours and the focus of the curriculum is on the growth and development of the young child including children who have developmental delays or disabilities, and the influence of family and society dynamics on the child's development and learning. The ECE curriculum includes the theories, principles, development, and evaluation of relationship-based learning and teaching in early childhood intervention and education settings; as well as assessment and teaching strategies, materials and equipment for physical, social, language/communication, emotional, and intellectual development for all young children. Support systems for children and their families are examined to promote healthy development and learning. A field experience is required.

**General Education Courses (28-34 credit hours)**

- Basic Composition Competency (BC)
- Intermediate Composition Competency (IC)
- Oral Communication Competency (OC)
- Critical and Analytic Thinking Competency (CT)
- Life Sciences (LS) (See Core Courses) 8
- Physical Sciences (PS) 8
- American Institutions: (AI)
- Historical Studies (HS) (See Core Courses)
- Social Sciences (SS)
- Visual and Performing Arts (VP)
- Philosophy and Letters (PL)
- Foreign Culture (FC)
- Writing Intensive Competency: (see Early Childhood Education courses below - WI)

Bachelor of Science in Education - Secondary Education

Education (Secondary) Leading to Grades 6 - 12 Certification (Bachelor’s Degree Programs)

The secondary education curriculum leads to a bachelor's degree in education and secondary school teaching certification in the major and minor areas listed below. Whereas this degree is granted by the College of Education, students also have the option of earning secondary school certification in conjunction with a bachelor's degree from the College of Fine, Performing and Communication Arts or the College of Liberal Arts and Sciences. For information regarding these combined degree programs, see an advisor. No grade below 'C' may be used to meet requirements specific to secondary education, the major, the minor (including the planned minor), or professional education courses; a grade of 'C-minus' is not acceptable.

All students must complete the College Requirements, Level 2 Education Requirements, a major area of study, and a minor area of study as outlined below. Students who select one of the following majors are not required to select a minor: Business, Management, Marketing and Technology Comprehensive Major; Social Studies Comprehensive Major; and Visual Arts.

**Admission: Level 1**

**Entry to the College of Education**

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are...
Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This course work should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University Intermediate composition competency (p. 32) requirement prior to admission.

3. Michigan Test for Teacher Certification (MTTC): All students must pass the MTTC Professional Readiness Exam #96 (http://www.mttc.nesinc.com) prior to admission. Scores must be sent directly from the testing agency to WSU.

4. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.

5. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

6. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://michigan.gov/ICHAT).

7. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110 and MAT 1120 or have appropriate prerequisite math course in progress.

8. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td></td>
</tr>
<tr>
<td>SCE 5010</td>
<td>Biological Sciences for Elementary and Middle School Teachers</td>
<td></td>
</tr>
</tbody>
</table>

9. Secondary Education: Students seeking admission to Secondary Education must have twelve semester credits completed in the major.

10. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three semester credits of college course work and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing. Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 19).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend an orientation session.

Level 1 Requirements

The following courses and course options are required of all students seeking secondary (grades 6-12) certification regardless of selection of major or minor studies. Some of these courses may also satisfy the University General Education Requirements (p. 31).

<td></td>
</tr>
</tbody>
</table>
The following courses may be elected at any time after admission to Level 2 and must be completed prior to TED 5780:

- EHP 3600  Introduction to the Philosophy of Education
- EDP 5480  Adolescent Psychology
- RLL 6121  Teaching Reading in the Content Areas: Grades 6-12
- TED 5650  Pre-Student Teaching Field Experience for Secondary Majors

Teaching methods in the major (two courses)  6
Teaching methods in the minor (one course)  3
The Teaching Major and Teaching Minor and the Michigan Test for Teacher Certification (MTTC) subject area tests must be completed prior to student teaching.
Final clinical experience
- TED 5780  Directed Teaching and Conference

**Biology: Teaching Major**

Total Credits 42-49

Visual Arts Education: Teaching Major
(Minimum 57 credit hours in Foundation, Intermediate, Advanced Studio/METHODOLOGY courses; Minimum of 23 credit hours in Professional Education and Student Teaching courses)

A comprehensive major, as defined by the Michigan Department of Education, does not require a teaching minor.

This program is designed to provide professional preparation for individuals who seek K-12 certification in visual arts education. Students in this program receive the Michigan Secondary Provisional Teaching Certificate. It is recommended that students plan their coursework in advance with an advisor as accurately as possible to avoid extra courses or conflicts.

The program for visual arts education consists of University General Education Requirements (Competency Requirements and Group Requirements) for which see General Education Program: College Education Requirements (Competency Requirements and Group Requirements) and Student Teaching courses and a sequence of professional education courses including one semester of half-day student teaching and one semester of full-day student teaching. The policy of the College of Education is to provide teaching experiences in both an urban and a suburban setting.

For specific course selections students should consult the College of Education advisor in room 469, Education Building.

Arabic: Teaching Minor
(Minimum 27 credit hours)

Students must score the Intermediate High Level in Arabic, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL).

Bachelor of Science in Education - Secondary Education
Eligibility for admission is based on the following criteria:

**Entry to Professional Education Sequence**

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education at Level 2: those working for a secondary or elementary education and certification in the area of cognitive impairment.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This course work should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 32) requirement prior to admission.

3. Michigan Test for Teacher Certification (MTTC): All students must pass the MTTC Professional Readiness Exam #96 (http://www.mttc.nesinc.com) prior to admission. Scores must be sent directly from the testing agency to WSU.

4. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.

5. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

6. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://michigan.gov/ICHAT).

7. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110 and MAT 1120 or have appropriate prerequisite math course in progress.

8. Special Education: Students seeking admission to Special Education must have completed the following courses:

9. Secondary Education: Students seeking admission to Secondary Education must have twelve semester credits completed in the major.

10. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three semester credits of college course work and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing. Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 19).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend an orientation session.

The entire program in Special Education requires a minimum of 140 credits. All students must complete the College Requirements, the Special Education Comprehensive Major, Level 2 Education Requirements and the major area of study (Special Education Cognitive Impairment) as outlined below.

LEVEL 1 REQUIREMENTS: The following courses are required of all students seeking special education certification. Some of these courses may also satisfy the University General Education Requirements (p. 31).

No grade below ‘C’ may be used to meet any requirement specific to Special Education, the Special Education major, or the professional sequence.

**Bachelor of Science in Education - Special Education**

The special education curriculum leads to a bachelor’s degree in education and certification in the area of cognitive impairment.

**Admission: Level 1**

**Entry to the College of Education**

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 19) into the College of Education in Level 1 status.

**Methodology Requirements**

Teacher Education

TED 2250 Becoming an Urban Educator

Level 2 Education Requirements (Special Education)

The following courses may be completed in Level 1 or 2

BBE 5000 Multicultural Education in Urban America
EDP 3310 Educational Psychology
ELE 6070 Family, Community and School Partnerships: Supporting Children's Learning

The following courses must be taken prior to TED 5150 Pre-Student Teaching

ELE 6310 Reading Instruction: P-8
One additional method course (see Advisor)

Pre-Student Teaching Experience

TED 5150 Analysis of Elementary Teaching

The following courses may be elected at any time after admission to the College of Education Level 2 and must be completed prior to taking TED 5780

AED 5050 Integrating the Arts into the Elementary Classroom

ELE 6290 Language Arts Instruction: P-8
ELE 6310 Reading Instruction: P-8
ELE 6390 Mathematics Instruction: P-8
ELE 6500 Science Curriculum: P-8
ELE 6600 Social Studies Curriculum: P-8
RLL 6120 Developmental Reading I: Comprehension Preprimary-8

Elementary Field Experience

TED 5780 Directed Teaching and Conference

Final Field Experience

TED 5790 Directed Teaching and Conference for Special Groups
SED 6010 Seminar in Special Education Teaching

2 Prereq: ELE 6310 and two additional Elementary Methods courses

3 Prereq: ELE 6310

Major Areas of Study (Special Education)

Students pursuing a bachelor's degree in education leading to an endorsement in Cognitive Impairment must complete the following major requirements. The courses cited in the major, with the exception of TED 6020, may be completed only after admission to the Special Education Level 2 Program.

Cognitive Impairment (a minimum of thirty credit hours)

SED 5030 Education of Exceptional Children
SED 5040 Language Acquisition and Educational Interventions for Students with Moderate to Severe Impairment
SED 5060 Developing Observation and Assessment Skills: Laboratory/Seminar
SED 5090 Transitions for Students with Disabilities
SED 5110 Introduction to Cognitive Impairment and Educational Interventions
SED 5130 Curriculum and Instructional Strategies: Cognitive Impairments
SED 5140 Behavior Management: Positive Behavior Support
SED 5260 Effective Instructional Strategies for Exceptional Learners
SED 5600 Support and Collaboration for Inclusive Teaching
TED 6020 Computer Applications in Teaching I

Theoretical and Behavioral Foundations

Assistant Dean: Cheryl Somers
Office: 341 Education Building; (313) 577-1670
http://coe.wayne.edu/tbf/
The Division of Theoretical and Behavioral Foundations includes degree programs in educational evaluation and research, counseling, educational psychology, school and community psychology, counseling psychology, and rehabilitation counseling and community inclusion. There are also certificate programs in applied behavior analysis. The Division is designed to facilitate a realization of the following aims:

1. to integrate the educational experiences and course offerings;
2. to perform a service function in meeting the needs of those enrolled in other divisions within the College;
3. to provide degree and specialist programs for those who are majoring in a particular field of the division;
4. to provide students with an opportunity to study those aspects of educational thought and practice that are interdisciplinary as well as foundational;
5. to formulate programs looking toward the development of new combinations of specialties, as in:
   a. counseling-psychology,
   b. pupil personnel managers in school systems,
   c. utilization of theoretical and behavioral foundations in teacher education,
   d. underlying philosophical premises of educational programs and practices;
6. to design interdisciplinary, cross disciplinary, and multidisciplinary experiences for and with students.

Applied Behavior Analysis (Undergraduate Certificate) (p. 135)

The undergraduate option in Educational Psychology is an Undergraduate Certificate in Applied Behavior Analysis (ABA). The training emphasizes working in clinical settings with people with Autism. This is a three course and three practicum sequence that is completed in addition to an existing major. It can be done simultaneous to or after completion of the bachelor’s degree. This training provides students with the eligibility to sit for the Board Certified assistant Behavior Analyst (BCaBA) exam, which is part of earning the BCaBA credential. The successful demonstration of both academic and clinical skills will be achieved through coursework and intensive field experience working with children.

Post-bachelor’s students apply directly to Wayne State University. Existing students may add Applied Behavior Analysis as a second program to an existing major. Each applicant must complete an admissions form, and follow those instructions carefully. Applicants are strongly encouraged to contact the program area secretary to ensure they have received a complete and updated application and program information.

Admission Requirements

Admission to this program is determined by the program review committee. Requirements include: a minimum grade point average of 2.75, a program area application, any applicable university-level application, and an interview with program faculty. The following must be mailed to the program: program area application, transcripts, and three letters of recommendation. Contact the program secretary and director with any questions or for guidance.

This course sequence is calendar controlled in that all students begin and end together, taking the same courses as a cohort. Required courses are:

In each of the three semesters students take one course and one practicum, which involves 20 hours/week in a clinical setting with children with Autism. Students must not receive grades lower than a C in these courses in order to successfully complete the program. All coursework and practica must be completed in accordance with the academic procedures of the College of Education and the University.
College Mission Statement
The College of Engineering has three important missions: teaching, research, and outreach — serving the region, State and nation as part of an urban comprehensive research university. Students are prepared for professional practice, graduate study, lifelong learning, and for leadership roles in society. Faculty members develop the scientific and technological base for the engineering profession, and disseminate advanced technical knowledge to engineers, other professionals, and the public. A balance among the three missions is sought through a partnership built among students, faculty, staff, alumni, government, and private industry. This is achieved by maintaining an academic environment that is both intellectually stimulating and supportive of all of its constituents, regardless of race, gender, or ethnic background.

College Organization
The academic programs of the College of Engineering are organized into two Divisions: Engineering and Engineering Technology.

The Division of Engineering includes seven academic departments:

- Biomedical Engineering
- Chemical Engineering and Materials Science
- Computer Science
- Civil and Environmental Engineering
- Electrical and Computer Engineering
- Industrial and Manufacturing Engineering
- Mechanical Engineering

Programs leading to the Bachelor of Science, Master of Science, and Doctor of Philosophy degrees in engineering are offered by these departments. Five programs leading to a Bachelor of Science in Engineering Technology and a Master of Science in Engineering Technology are offered in the Division of Engineering Technology.

Profession of Engineering
Engineering requires people of imagination who can plan and create. Engineers design, simplify, refine and economize. They are pragmatists serving the needs of society through the development and improvement of technology. The engineer’s resources include an intimate knowledge of scientific laws and their applications to engineering problems as well as ability to use mathematics and computers and, above all, an imaginative and an inquiring mind.

Engineers can start their careers in many functional roles — designer, test engineer, manufacturing engineer, sales engineer, researcher, or a combination of these and other roles. Engineering has become a profession that often leads to executive management positions. As more and more of the decisions of management in government and business are based on technical considerations, engineers with the necessary background are called upon to make these choices. Engineers do not devote their attention solely to innovations in technology. In all of these roles they look beyond their inventions and conceptions to consider the societal effect of their work, including its economic, aesthetic, safety, and environmental aspects.

At present, the minimum education required for general competence in the practice of engineering is a bachelor's degree in one of the fields of engineering. However, many engineering positions require an additional year or two of education at the graduate level leading to the master’s degree. Whenever possible, students are urged to continue their education to this point. For engineering research or teaching, and in some areas of practice, the doctoral degree is recommended. For further information about graduate programs in engineering, consult the Wayne State University Graduate Bulletin.

For all engineers, continuing professional competence in the midst of our constantly changing technology requires educational renewal and a lifelong dedication to continuing education. The College offers seminars, institutes and off-campus programs to meet this need. In addition, regular College courses are available on an elective, post-degree basis.

Engineering Technologist
The evolution of our civilization has always been closely associated with technology and science. Now, and in the future, this association will become even more important. New knowledge has inspired advances in technology, resulting in new career opportunities. Far-reaching developments in communications and instrumentation technology, highly sophisticated machine tools and manufacturing processes, new energy sources and new man-made materials, and computer applications have all revolutionized the techniques of industrial manufacturing and management.

This on-going expansion of scientific and engineering knowledge has changed the make-up of the engineering team through the inclusion of the engineering technologist. The engineering technologist, in cooperation with the engineer, organizes people, materials and equipment to design, construct, operate, maintain and manage technical engineering projects. He or she should have a commitment to that technological progress which will create a better life for everyone. Because of the increasing challenges in this information age, it is no longer possible for one person to master all of the knowledge and skills necessary to execute technical projects. Quite often, a team effort is required -- with each member of the team highly trained in a specific area. Today's engineering teams involve engineers and engineering technologists and may also include technicians, scientists, physicians, craftsmen, and other specialists.

Engineering technology supports engineering activities through a combination of scientific and professional knowledge with technological skills and concentrates on the industrial applications of engineering. Because of the extensive variety of functional opportunities, and the wide variety of industrial enterprises available to the engineering technologist, there has been a great deal of specialization. An engineering technologist can specialize in three related ways: discipline, function and industry.

For example, the discipline could be mechanical, the function could be design, and the industry could be automotive; or the discipline could be electrical, the function field installation, and the industry electric power generation. Through its undergraduate and graduate programs, the Division of Engineering Technology allows students to gain the specialization that they desire to contribute to interdisciplinary teams as engineering technologists.

College Facilities
The College of Engineering’s facilities include five separate buildings with almost 300,000 square feet of classroom, office, and laboratory space. The newest of these is the Marvin I. Danto Engineering Development Center, featuring research and educational space that is dedicated to interdisciplinary work in areas of nanotechnology, automotive engineering, urban infrastructure, and alternative energies. Among the college’s facilities are multimedia classrooms, a comprehensive computer center, electronics and machine shops, student project space, dedicated teaching laboratories, and sophisticated research laboratories. The four multimedia classrooms support innovative course delivery techniques, including interactive distance learning with classrooms at a variety of sites within Wayne State, at other colleges and universities, and
at industrial sites. The PACE Teaming Center is designed to promote interdisciplinary project work with links to real-world engineering problems. The computer facilities include dedicated computer graphics, design, and personal computing hardware and software.

The Division of Engineering Technology is housed in a dedicated building of approximately 24,000 square feet, located at 4855 Fourth Street.

The undergraduate laboratories provide facilities in such areas as computer graphics, fluid mechanics, thermal sciences, system dynamics, statistical computation, materials science, and rapid prototyping. Some specific laboratories associated with departmental engineering specializations include: chemical measurements; chemical unit operations; materials testing and processing; nanomaterials synthesis; characterization, and device manufacturing; electron microscopy; optical metallography; soil mechanics; environmental and hydraulic engineering; roadway and building materials; structural modeling; analog and digital communications systems; computer systems; control systems; analog circuits; digital systems; microcomputers and microprocessor applications; power systems; electronics; optics; computer vision; artificial neural networks; integrated circuits fabrication; automotive engineering; human factors engineering; computer aided manufacturing; 3D printing, 3D CNC; robotics; sand casting and testing; and stress analysis.

These laboratories are used for instructional and research purposes along with such research facilities as a molecular beam laboratory; a clean room facility for device materials research; a biomechanics accelerator and impact laboratory; an acoustics and noise control laboratory; and a structural behavior laboratory. All of these are available for experimentation and research in connection with the undergraduate curricula on a college-wide basis.

The College provides support for the various instructional and research laboratories in the construction, modification, repair, calibration and installation of experimental equipment. In addition, the College offers sophisticated assistance in the design of electronic and instrumentation equipment and devices. Qualified students are encouraged to use these facilities under the supervision of trained professionals.

Many undergraduate and graduate students pursue their studies in the College while working in local industry, either full-time or part-time, where unique research facilities unavailable on campus may be found. In such situations, students are encouraged to pursue their college-credit research at the employment site, where they work under the joint supervision of their faculty advisor and a company representative. Such research can take the form of undergraduate directed study courses, Master of Science theses, or Ph.D. dissertations.

Accreditation
In addition to the accreditation of Wayne State University by the Higher Learning Commission of the North Central Association of Colleges and Secondary Schools, the undergraduate programs listed below are accredited by ABET Inc. In the Division of Engineering, the programs below that lead to a Bachelor of Science degree are accredited by the Engineering Accreditation Commission (EAC) of ABET Inc. The Electrical/ Electronic Engineering Technology program and the Mechanical Engineering Technology program, offered by the Division of Engineering Technology, are accredited by the Technology Accreditation Commission (TAC) of ABET. Program accreditation is based upon careful, periodic appraisal of the faculty, curriculum, and facilities of the College. This approval provides assurance of an up-to-date, high quality education pertinent to the engineering profession. Such accreditation is recognized by other universities, prospective employers, and state professional licensing agencies.

DIVISION OF ENGINEERING (undergraduate)
Bachelor of Science Programs in:

- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Industrial Engineering
- Mechanical Engineering

are accredited by the:

Engineering Accreditation Commission of ABET
111 Market Place, Suite 1150
Baltimore MD 21202-4012
(Telephone 410-347-7700).

DIVISION OF ENGINEERING TECHNOLOGY (undergraduate)
Bachelor of Science Programs in:

- Electrical/Electronic Engineering Technology
- Mechanical Engineering Technology

are accredited by the:

Technology Accreditation Commission of ABET
111 Market Place, Suite 1150
Baltimore MD 21202-4012
(Telephone 410-347-7700).

Location of the College
The College is located in the heart of Detroit, Michigan, renowned as a center of automotive engineering and production. The Michigan economy is in transition, with new focus on the emerging fields of biomedical and alternative energy technologies. This industrial center provides a wealth of examples of modern engineering practice and opportunities to explore the latest in vehicle design and production, automation design, transportation planning, telemetry, hydraulic and pneumatic controls, electric power generation, and computer design and production. The research and educational strengths of Wayne State’s College of Engineering mesh well with the traditional and new engineering industries within Michigan, preparing students for those fields. The many industries of southeastern Michigan provide engineering students with rich and varied work experiences through full or part-time employment or through the Cooperative Education Program (p. 140).

The College is affiliated with the eleven other schools and colleges of the University which, with its 29,000 students, provides a broad selection of educational opportunities on an interdisciplinary basis.

Academic Regulations: Engineering Division
For complete information regarding academic rules and regulations of the University, students should see the Academic Regulations (p. 10) section of this bulletin. The following additions and amendments pertain to the Division of Engineering within the College of Engineering.

Undergraduate Registration
All Division of Engineering undergraduate students are required to meet with their Engineering advisor a minimum of once per academic year in order to discuss their academic progress and curriculum. It is strongly recommended that these meetings take place before each semester’s registration. Special attention should be paid to course pre-
and corequisites as well as College grade requirements in prerequisites. It is the student’s responsibility to ensure that all pre-requisite and corequisite requirements are satisfied. Students will be removed from courses entered without satisfying these requirements. Students may also be required to repeat courses for which they have not completed the necessary prerequisites, following fulfillment of those prerequisites (even though a grade of ‘C’ or above has been earned in the course). Students wishing to receive a waiver of pre- or corequisite requirements must submit an Academic Petition prior to registering for the affected course.

Some courses may be offered only once a year; others may have multiple sections running every semester. The University Schedule of Classes (http://www.classschedule.wayne.edu), published prior to each semester, shows when and where the classes will meet and outlines registration procedures and times.

**Attendance Policy**

Regular attendance in classes is necessary for success in college work. Excessive unexcused absences may result in a student failing a course. The student should arrange with the course instructor in advance for all predictable absences. Absences due to illness or conditions beyond the student’s control should be reported as soon as possible via phone or e-mail to the instructor, and substantiating documentation provided upon the student’s return to class.

**Dean’s List of Honor Students**

A student who achieves a term grade point average of 3.5 or more, based on a program of twelve credits or more, is cited by the Dean for distinguished scholarship and is included on the Dean’s List of Honor Students.

**‘AGRADE’ Program (Accelerated Graduate Enrollment)**

Accelerated Graduate Enrollment: The College of Engineering enables academically superior undergraduate seniors to enroll simultaneously in undergraduate and graduate programs and apply a maximum of sixteen credits toward both an undergraduate and graduate degree in the student’s major field. Students who elect the ‘AGRADE’ Program may expect to complete the bachelor’s and master’s degrees in one additional year of full-time study.

To be eligible, applicants must have completed a minimum of ninety credits of course work applied towards the engineering degree and be accepted in the professional program of their major. The minimum grade point averages for acceptance into the program are a 3.4 in engineering all program requirements and not less than a 3.6 g.p.a. in their department of specialization major area classes, as computed by the rules of the Division of Engineering. See the departmental advisor for further details.

**Student Conduct**

Each student is subject to official regulations governing student activities and student behavior. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Academic integrity means that a student is honest with him/herself, fellow students, instructors, and the University in matters concerning his or her educational endeavors. Thus, a student should not falsely claim the work of another as his/her own, or misrepresent him/herself so that the measures of his/her academic performance do not reflect his/her own work or personal knowledge.

If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he or she may be disciplined. Such discipline may include failure in the course, suspension or dismissal, but no dismissal will be directed without reasonable opportunity for an appropriate hearing. A description of the University’s Student Due Process Policy and a discussion of academic integrity can be found at the Dean of Students Office (http://www.doso.wayne.edu/assets/codeofconduct.pdf).

**Academic Probation**

A student is considered to be on academic probation whenever his or her cumulative grade point average, or his or her grade point average in the College of Engineering, falls below 2.0. A student may also be placed on probation whenever his or her academic performance is deemed unsatisfactory. For a first occurrence of academic probation, a student should meet with his or her academic advisor to discuss what steps should be taken to remedy the academic deficiencies and have the academic hold released. In the case of any subsequent occurrence of probation, either in consecutive or non-consecutive semesters, the student is required to meet with the Associate Dean for Academic Affairs or for Student Affairs before the academic hold will be released. While on probation, a student may not represent the College of Engineering in student activities.

A student on probation is expected to remove the grade point deficiency promptly. If, at the end of the first semester on probation, the student’s cumulative grade point average has not increased to at least 2.0, he or she will be excluded from the College. For part-time students, a semester will be considered to consist of twelve consecutive credits. If the student’s cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, he or she will be returned to regular status. Multiple occurrences of probation in non-consecutive semesters will also result in the student’s exclusion from the College. A student may also be refused the privilege of registering in the Division for irresponsible attendance and performance in class, regardless of any probationary status.

Following exclusion from the Division of Engineering, the privilege of registering in the Division will be withheld for at least one calendar year. Class work taken at any institution during the period of exclusion may not be considered for transfer toward an engineering degree from this Division.

A student who has been refused the privilege of registering in the Division may request a re-consideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to request a meeting with the ASC as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the College of Engineering guaranteed.

**Engineering Division Rules for Calculating Grade Point Average**

The Division of Engineering computes Departmental and College grade point averages using rules that differ from those used to compute the cumulative grade point average on the official University transcript. The College g.p.a. is calculated based on all engineering and technical courses, as well as required English courses, not including Engineering Bridge courses (Students should consult their academic advisors for details). The Departmental g.p.a. includes all courses taken within the major department. The College g.p.a. includes all engineering courses
and those courses that are prerequisite to an engineering course. The preprofessional g.p.a. is calculated to determine eligibility for admission to the professional program. Preprofessional requirements that have been satisfied through transfer credit will be included in the assessment of the pre-professional g.p.a.; however, they will not be included in the official University g.p.a. or final calculation of the College or Department g.p.a. Courses taken as part of the Bridge Program will not be included in the calculation of the Departmental or College g.p.a. once a student enters a preprofessional program.

For students admitted to the College of Engineering for the Winter 2004 semester or later, repeated courses will not be included in the grade point average calculations (following standard University regulations). The new grade will replace the old grade in the g.p.a. calculation, but only a maximum of five repeated courses will be allowed (see Repeating Courses, below).

For students admitted to the College of Engineering prior to Winter 2004, the inclusion of repeated courses in the grade point calculation follows different rules. When a course is repeated, the new grade will replace the previous grade unless the student exceeds the maximum number of repeats: one repeat for each thirty-four credits completed at Wayne State University. After the maximum number of repeats is exceeded, both grades are used in computing the student’s grade point average.

Substandard Performance

If a grade below 'C-minus' is received in course to be applied towards the degree, the student will be required to repeat that course in the next semester in which it is available. The course must be repeated and a satisfactory grade earned before the next course in the sequence is taken. Students may be required to repeat courses and will be administratively withdrawn from courses when they have not satisfied course prerequisites. Courses that are not specifically required for the degree (e.g. AI, FC, HS, and VP courses or technical electives) may be repeated or a different course may be chosen to satisfy that requirement. If a different course is selected, the first grade will not be replaced in the calculation of the g.p.a.

A course in which a grade below 'C-minus' has been earned may not be subsequently passed by special examination.

Auditing Courses: Undergraduate students may elect to formally audit a course that interests them. In order to audit a course, a student must register for the class and pay the appropriate tuition. However, this course will not apply towards any degree requirements. Any course that has been completed for audit may not be subsequently enrolled in for credit, nor may credit be obtained by special examination.

No course taken to satisfy an engineering program requirement may be elected on a Pass-Fail (‘P’-‘NP’) basis.

Repeating Courses

Courses in which a grade lower than a 'C-minus' is earned must be repeated no later than the next regular (i.e., fall or winter) semester in which the course is offered. Exceptions to this rule must be approved by the Undergraduate Program Director or the Associate Dean for Academic Affairs.

Students will be allowed one repeated course for a substandard grade for every twenty-four credits earned at Wayne State University, up to a maximum of five repeated courses. If a student must repeat a subsequent course in order to complete their degree, he or she will be excluded from the College. Prerequisite math and science courses that do not count for degree credit, but are required if students did not place into MAT 2010 and CHM 1225, are also counted towards exclusion from the College. Students who elect to repeat a course to improve their understanding of the material even though a satisfactory ('C-minus' or higher) grade was received will not have this counted towards allowed repeats.

WayneDirect students are given the option of including their community college record in the allowed number of repeated courses. Each WayneDirect student must make this choice at the time of their full enrollment at Wayne State. Full details on the two repeat options for WayneDirect students are provided in the College’s Preprofessional Handbook.

Students admitted to the College prior to the Winter 2004 semester will not be limited in the number of allowed repeats; however, a limited number of repeats will have the new grade replace the old in the grade point calculation (see Division of Engineering Rules for Calculating Grade Point Average, above).

When repeating a course, failure for the third time to pass it with at least a 'C-minus' grade constitutes grounds for refusing a student further registration in the Division of Engineering.

Courses taken at Wayne State and intended to apply to a Wayne State degree must be completed at this University. Exceptions to this policy require that prior written approval be secured from the student’s department chairperson and the Associate Dean for Academic Affairs in order to take the course at another designated institution.

Students are directed to Repeating Courses — The mark of R (p. 47) for University policies related to repeating courses and credit by special examination. See also ‘Division of Engineering Rules for Calculating Grade Point Average,’ above.

Withdrawal From Courses

General rules governing withdrawal from courses and changes of program can be found on Drop/Add — Adjusting Your Schedule. (p. 47) Courses from which a student withdraws, such that a mark of WP, WF, or WN appears on the transcript, are counted as an attempt at the course and are taken into account when assessing the allowed number of repeats. If a student feels that circumstances beyond their control (e.g. family emergency, change of work schedule) justify the withdrawal, a written petition may be submitted to the Associate Dean for Academic Affairs before the end of the semester in which the course was taken. If the petition is approved, it will be noted in the student’s advising record that the course will not be counted towards Engineering repeat allowances.

Graduation

Students must apply for graduation at the beginning of the semester in which they plan on completing their degree requirements. At graduation, the University requires a minimum 2.0 grade point average in the total residence credit. Additionally, the Division of Engineering requires a minimum 2.0 for both the College and the Departmental grade point average. The student’s total g.p.a., as well as departmental grade point average, is calculated using the Division of Engineering rules described above.

Graduates with a minimum of sixty credits in residence at Wayne State University and a grade point average of at least 3.0 may qualify for a special diploma under the following conditions:

**Summa Cum Laude:** Student must have a grade point average in the 95th percentile of the College of Engineering graduating class.

**Magna Cum Laude:** Student must have a grade point average in the 90th percentile of the graduating class.
Commencement: Each year, commencement exercises are held May.

College Order of the Engineer and Professional Order of Engineering Technology ceremonies will be held in both December and May to induct graduates into these organizations.

Guest Students
A student attending another engineering college who wishes to take course work at Wayne State for the purpose of credit transfer to the home institution may be admitted as a guest student for one term. This is done by applying through the University Office of Admissions using either the Application for Undergraduate Admission or the Graduate Guest Application. These applications require certification by an official of the home institution. For information on graduate guest admission and visiting doctoral guests, see the Wayne State University Graduate Bulletin. Guest students are expected to have met the listed prerequisite requirements for courses in which they wish to enroll. Students wishing to register for 3000- or 4000-level engineering classes must first receive permission from the department that teaches the course.

The Michigan Conference of Engineering Deans has entered into an agreement endorsing the exchange of guest privileges between ABET-accredited engineering program in Michigan. For further information call the Engineering Dean's Office; 313-577-3040.

Second and Concurrent Degree
In accordance with the University requirements, students may earn a Bachelor of Science in engineering concurrently with or subsequent to another bachelor's degree at Wayne State University. Such students must complete at least thirty credits beyond those applied toward the first degree and must also satisfy applicable departmental and College requirements; consult an Engineering academic advisor to review these requirements.

Engineering: Minor Options
A number of undergraduate programs within the University allow students to pursue a minor in the field. Engineering students may elect to complete a minor through another school or college in conjunction with their Bachelor of Science in Engineering. This minor will generally require course credit in addition to that required for the engineering degree.

Professional Registration
An additional mark of engineering competence is the successful completion of examinations for professional registration given by each state. Upon being registered in a state, the engineer may legally provide engineering services to the public of that state. Many of the states have reciprocity agreements for transfer of registration. In Michigan, the State Board of Registration for Professional Engineers offers the registration examination in April and November of each year. Graduates at the bachelor's degree level are qualified and urged to take Part I of the examination, Fundamentals of Engineering, immediately upon graduation or at the examination just preceding graduation. Application forms are available in the Dean’s office.

Bachelor of Science: Engineering Division

Undergraduate Program Goals
The overall goal of the undergraduate engineering degree programs at Wayne State University is to prepare students for success in their immediate and long-term professional careers as engineering practitioners as well as for pursuing graduate and professional studies and lifelong learning.

Undergraduate programs in the Division of Engineering are divided into three phases. All students must complete the professional program in order to earn their Bachelor of Science degree. The majority of students begin their engineering curriculum through the pre-professional program, which allows them to complete a limited number of courses while demonstrating their academic preparedness for the professional program. Students who require additional background in math and science before entering the pre-professional program enter the College through the Engineering Bridge Program and progress to the pre-professional program upon successful completion of a defined set of foundational courses.

Academic Programs
The College of Engineering has developed a series of programs to meet the needs of all students who are interested in pursuing a degree in engineering. Students are admitted into the program appropriate to their academic preparation.

High School Preparation (Recommended)
In order to place sufficient emphasis on the English, mathematics, physics, and chemistry required for normal progress in engineering, restrictions are placed on the fifteen acceptable units of high school credit. The recommended high school preparation for admission to the College of Engineering is:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Algebra</td>
<td>2 units</td>
</tr>
<tr>
<td>Chemistry</td>
<td>1 unit</td>
</tr>
<tr>
<td>English</td>
<td>4 units</td>
</tr>
<tr>
<td>Physics</td>
<td>1 unit</td>
</tr>
<tr>
<td>Plane and Solid Geometry</td>
<td>1.5 units</td>
</tr>
<tr>
<td>Social Science or Foreign Language</td>
<td>2 units</td>
</tr>
<tr>
<td>Trigonometry</td>
<td>0.5 unit</td>
</tr>
<tr>
<td>Electives</td>
<td>3 units</td>
</tr>
</tbody>
</table>

An incoming freshman with this background enters the pre-professional program if he or she earns satisfactory scores on the placement examinations in mathematics, chemistry and English (see below).

Students who are interested in pursuing a degree in engineering but who may not have the requisite background in science and mathematics, as demonstrated by their high school record, ACT or SAT scores, or placement exam results, will be admitted to the Eos Program (p. 144). This program is designed to provide students with the necessary background to proceed into and succeed in the pre-professional and professional programs in the engineering major of their choice.

Admission
Admission to the undergraduate programs in the Division of Engineering, College of Engineering, is dependent upon high school grade point average (g.p.a.) and ACT or SAT scores for those students entering directly from high school, and upon grade point average and level of curriculum completion for transfer students from community colleges or other universities. The following admissions criteria cite minimum values used to place students in the professional, pre-professional, and Eos programs. Admission to all of these programs is contingent upon satisfaction of the general undergraduate admission requirements (p. 19) of the University. (p. 19)
Admission: Professional Engineering Program

Freshmen with a 3.5 or above high school g.p.a., both cumulative and in math and science, along with a Math ACT score of at least twenty-six or a Math SAT score of at least 650, are eligible for admission to the professional engineering program of their choice. The final requirement for direct admission to the professional program is placement into at least MAT 2010, CHM 1225, and ENG 1020 on the required placement examinations.

Students who have completed at least the equivalent of the following set of courses may apply to transfer into the professional program of their choice:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 2010</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2020</td>
<td>Calculus II</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2030</td>
<td>Calculus III</td>
<td>4</td>
</tr>
<tr>
<td>CHM 1225/1230</td>
<td>General Chemistry I for Engineers</td>
<td>3</td>
</tr>
<tr>
<td>PHY 2175</td>
<td>University Physics for Engineers I</td>
<td>4</td>
</tr>
<tr>
<td>PHY 2185</td>
<td>University Physics for Engineers II</td>
<td>4</td>
</tr>
<tr>
<td>ENG 1020</td>
<td>Introductory College Writing</td>
<td>3</td>
</tr>
</tbody>
</table>

For direct admission to the professional program as a transfer student, a minimum 3.0 grade point average in college-level courses (overall as well as in math and science) is required, and the listed courses must each have been completed with grades no lower than a ‘C.’

Students who do not meet the minimum requirements for admission to the professional program may be admitted to the pre-professional program as follows.

Admission: Pre-professional Engineering Program

Students entering the College directly from high school will be admitted to the pre-professional program if they have earned at least a 2.5 overall g.p.a., a 3.0 in their science and math courses, and a minimum score of twenty-two on the Math ACT or 550 on the Math SAT. In addition, placement into the pre-professional program requires placement into at least MAT 1800, CHM 1225, and ENG 1020 on the required placement exams (see below).

Students who have completed at least twelve credits of college-level coursework may be admitted to the pre-professional program if they have a minimum of a 2.5 overall g.p.a. and a 3.0 in math and science courses. Students must also have placed into, or transferred the equivalent of, MAT 1800, CHM 1225, and ENG 1020 (see below for descriptions of placement exam requirements). If fewer than twelve credits of college-level work have been completed, students must also submit their high school transcripts and ACT or SAT results.

The purpose of the pre-professional program is to provide students with the first 1.5 to 2 years of engineering instruction, including math and science, and prepare them for the professional program. Permission to transfer to a professional program will be granted to students who successfully complete this set of courses in accordance with the rules governing such matriculation, as described below.

Matriculation

Entering Freshmen: Upon the receipt of notification of admission by the University Admissions Office, entering freshmen should contact the Office of the Associate Dean for Academic and Student Affairs regarding obligations and activities prior to the beginning of classes. All new students must meet with an academic advisor before registering for their first semester of classes in order to review the engineering program requirements and develop a suitable plan of study. Students should plan on attending an Engineering Orientation session, scheduled in concordance with University Orientation, as early as possible to allow maximum flexibility in course scheduling. Students must take their placement exams and receive their results before attending an orientation session - allow at least seven days for the test results to post following the exam.

Transfer Students: For the student who has attended another institution and been admitted to the Division of Engineering, the amount of advanced standing will be determined by the College and will depend upon the quantity and quality of the degree work completed prior to enrollment in this institution. Whether all, or only in part, such transferred credit may be applied toward a degree at Wayne State depending on the requirements of the curriculum chosen. No grade below a ‘C’ may be transferred into the College to satisfy a degree requirement. The student should consult the department undergraduate program director or the Associate Dean for Academic Affairs if he or she has any questions on their transfer status.

Course equivalency tables (http://www.transfercredit.wayne.edu) are designed to provide initial guidance. The decision of the Department and the College regarding the acceptance of transfer credit to be applied to the undergraduate degree in engineering is final and supersedes the published transfer tables. Any request for reconsideration of the evaluation of transfer credits accepted by the College of Engineering should be made in writing within one year of the date of the student's first enrollment in the College of Engineering, or within one year of the date of the evaluation if the latter is made subsequent to the student's enrollment in the College of Engineering.

Pre-professional Engineering Programs

Students in the pre-professional programs complete thirty-five to forty-five credits of their engineering curriculum, depending on their intended major. This program consists of the following courses that are required of all Division of Engineering students:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BE 1200</td>
<td>Basic Engineering I: Design in Engineering</td>
<td>3</td>
</tr>
<tr>
<td>BE 1300</td>
<td>Basic Engineering II: Materials Science for Engineering Applications</td>
<td>3</td>
</tr>
<tr>
<td>BE 1310</td>
<td>Materials Science for Engineering: Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>CHM 1225</td>
<td>General Chemistry I for Engineers</td>
<td>3</td>
</tr>
<tr>
<td>CHM 1230</td>
<td>General Chemistry I Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>ENG 1020</td>
<td>Introductory College Writing</td>
<td>3</td>
</tr>
<tr>
<td>MAT 2010</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2020</td>
<td>Calculus II</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2030</td>
<td>Calculus III</td>
<td>4</td>
</tr>
<tr>
<td>Select one of the following:</td>
<td></td>
<td>5-8</td>
</tr>
<tr>
<td>PHY 2175</td>
<td>University Physics for Engineers I</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2185</td>
<td>University Physics for Engineers II</td>
<td></td>
</tr>
<tr>
<td>PHY 2170</td>
<td>University Physics for Scientists I</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2171</td>
<td>University Physics Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 31-34

1  PHY 2170 & PHY 2171 for ECE majors

Most departments also require that students complete one or more 2000-level courses within their department (contact the program advisor for more information).

The curricula for first three semesters in all engineering programs are quite similar, thus affording students some opportunity to postpone commitment to a specific degree program without subsequent loss of credit. In general, students entering the pre-professional program are encouraged to register in one of the degree granting departments, but
students may register as undecided prior choosing a particular program. Undecided students are encouraged to pursue career counseling during the first year in the pre-professional program. When a decision is reached, the student is assigned to the appropriate department. The planning of a program of study is carried out in conference with a departmental advisor. Students are encouraged to meet with their advisor whenever there may be a need to do so. This contact should be sought at least once each term for registration purposes.

In order to be admitted to the professional program of their choice, a student must complete the pre-professional courses with no grade lower than a 'C-minus' and a College grade point average for these courses of at least 2.5. Calculation of this pre-professional g.p.a. will include the grades earned in all courses listed above in addition to departmental pre-professional requirements. The required courses may have been completed at Wayne State or transferred from another institution. If a course was completed at Wayne State, the highest WSU grade will be included in this g.p.a. calculation. For courses taken only outside of WSU, the highest grade earned at another institution will be factored into the College's calculation of the pre-professional g.p.a. (transfer grades are not included in the calculation of the official University g.p.a.). In addition, each student must satisfy the University's General Education Critical Thinking requirement, either through examination or identified classes prior to being accepted into the professional program. Students in the pre-professional program may opt to complete MAT 2150 and BE 2100, or defer them until after acceptance into the professional program; however, they will not be included in the calculation of the pre-professional grade point average.

Students who do not satisfy these pre-professional requirements will become ineligible to enter the professional program and are prohibited from enrolling in professional level (3000- and 4000-level) engineering courses. Students enrolled in the pre-professional program who fail to meet the 2.5 g.p.a. requirement after completion of the pre-professional courses will be required to meet with the Associate Dean for Academic and Student Affairs and their academic advisor to develop a contract of study. Students will be required to repeat courses, in compliance with Division rules, to demonstrate greater academic mastery and thereby elevate their g.p.a. These courses must be taken at Wayne State University. Such students may be required to repeat certain courses and/or may be required to complete additional courses that may NOT count for credit toward an engineering degree. These additional requirements are designed to improve the student's mathematics, science, engineering science, and English abilities. If, after completion of the agreed-upon contract of study, the student's cumulative College grade point average has not increased to at least 2.5, he or she will be excluded from the College of Engineering.

Professional Engineering Programs

Students must qualify for the professional program in order to complete their advanced engineering courses and apply for their bachelor's degrees. Only students in the professional program in Engineering may register for 3000- and 4000-level engineering courses and, as an undergraduate, 5000-level technical electives. Exceptional students may be granted direct admission to the professional program – the majority of students will progress through the pre-professional program first.

Students directly admitted to a professional engineering program must maintain a g.p.a. of 2.5 or above and must earn a grade of 'C'-minus or better in all course work included in the freshman and sophomore years of their program. Transfer students who qualify for direct admission to the professional program must complete their remaining pre-professional requirements (including Critical Thinking) within two semesters of enrolling at Wayne State. Students who do not meet these requirements will be transferred to the pre-professional program. Such students are eligible to return to a professional program under the conditions described above under Pre-professional Engineering Programs.

Honors Options

Students who qualify, either as incoming freshmen or continuing students, may opt to pursue Engineering Honors and/or University Honors as they complete their Bachelor of Science degree. Students interested in pursuing University Honors will be enrolled in both the College of Engineering (primary College) and the Irvin D. Reid Honors College (secondary College). Students should work closely with both their Engineering and Honors advisor to select courses, as some special arrangements have been made for Engineering students. In order to graduate with University Honors, students must maintain a minimum grade point average of 3.5 and must complete at least thirty-six credits of honors designated courses (please refer to the University Honors College (p. 213) requirements). To qualify for Engineering Honors in addition to University Honors, twenty-four credits of this coursework must include the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BE 2100</td>
<td>Basic Engineering III: Probability and Statistics in Engineering</td>
<td>3</td>
</tr>
<tr>
<td>BE 5998</td>
<td>Engineering Honors Thesis</td>
<td>4</td>
</tr>
<tr>
<td>HON 42XX</td>
<td>Honors Seminar that will satisfy AI, FC, HS or VP General Education Requirements</td>
<td>3-4</td>
</tr>
</tbody>
</table>

Eight credits of honors designated courses within the major department. Students should consult their department advisor for more information.

Total Credits 18-19

The additional credits of honors courses can be taken in any department, either as honors designated or honors option sections. Students can obtain a list of courses that will also satisfy College requirements (such as MAT 2010 or ECO 2010) from their advisor. Students may elect to pursue only Engineering Honors through the listed twenty-four credits of requirements without completing the requirements for University Honors.

Cooperative Education Program

Students who wish to enrich their education with on-the-job engineering experience may enroll in the Cooperative Education Program. In this program, full-time study terms are alternated with full-time work assignments in cooperating industries. The program may be entered at the beginning of the junior year. Special cooperative programs are available on a limited basis and provide special arrangements in the definition of the work-study period. Most of the work assignments are in the Metropolitan Detroit area on a commuting basis; however, job opportunities are available in other cities and states. The Co-op program is available in all undergraduate engineering curricula.

Each Co-op student may enroll for one academic course while on work assignment. This must be done with the approval of the student's advisor and Co-op supervisor. Following each work assignment, the student may elect to enroll in BE 3510 or CHE 3510 for one credit. Election of the course requires the completion of a report on the work experience to the department advisor and to the Co-op Coordinator. This credit for work will not be counted toward graduation unless permission is specifically recommended by the department chairperson. Students are automatically enrolled for a zero credit course (BE 3500) each term that they are on a Co-op assignment to insure that the experience appears on their transcript. A brief evaluation report covering each work assignment is to be submitted to the Co-op Coordinator, whether there has been enrollment in the above one credit courses or not. The student's performance on the job is rated by his/her industrial supervisor. Salaries and other benefits are paid for the time spent on each work assignment.
Degree Requirements

The normal program of study for each of the degrees awarded in the Division of Engineering requires from 125 to 136 credits. Of the total credits for the degree, at least thirty-four credits must be completed as resident credits in the degree program of the College. Departments may impose additional requirements.

Although the curriculum plans of the departmental sections which follow indicate a four-year program, many students will require additional time to complete all degree requirements. The national average time required for students to complete an engineering degree is approximately 4.5 years after beginning the calculus sequence (MAT 2010). Completion of the degree requirements in four years requires the election of an average of seventeen credits each term during the academic year. A student who enters the Cooperative Education Program will require longer. Students may attend the University on either a full-time or part-time basis (twelve credits are considered by the University as a minimum full-time load).

Students who pursue degrees on a part-time basis may require much more than 4.5 years to complete all degree requirements. The actual amount of time required will depend upon the student's academic preparedness and the amount of time available for academic activities. The maximum load that a student carries should be consistent with the student's ability and available time. However, since a credit is defined as one class hour requiring about two hours of preparation per week carried through a semester, the fifteen to twenty-one credit programs shown in the curricular plans represent a full forty-hour academic work week. A three-hour laboratory period is generally regarded as the equivalent of one credit. Students who wish to graduate in four calendar years but who wish to schedule sixteen or fewer credits per semester may accomplish this by deferring certain courses until the spring or summer term. Students should check with their advisors regarding the courses that can best be taken in Spring/Summer term. Students who do not follow the sequence as outlined by their department must make sure that all course prerequisites are satisfied.

Specific requirements for these bachelors degrees may be found in the departmental sections for this College. These requirements are in effect as of the publication date of this bulletin; however, students should consult an academic advisor for verification of current requirements. The following discussion concerns generic aspects common to all Bachelor of Science engineering programs with the exception of Computer Science.

Basic Science Requirement

In order to meet accreditation requirements, all undergraduate engineering students are required to complete at least fifteen credits of basic science courses, including CHM 1225 and CHM 1230 (PS), PHY 2170 or PHY 2175 (PS) and PHY 2185 (PS). These courses are required in all of the engineering curricula (with the exception of computer science), and it should be noted that certain curricula require the completion of prescribed science laboratories and/or additional chemistry and physics courses.

In addition, each student must elect a basic or advanced science course. Students should consult with their advisor for the current list of acceptable courses. Selection of BIO 1510 (LS) will satisfy this requirement concurrently with the Life Science requirement described below.

Mathematics Requirement

Engineering students use mathematics as a tool in all engineering and science courses in their college curricula, as well as later upon entry into the engineering profession. All prospective engineering students are encouraged to complete the number of units of mathematics stipulated in the section entitled Recommended High School Preparation, see High School Preparation, Recommended. Ideally, engineering students elect the first course in calculus (MAT 2010) in their first freshman term; however, many incoming students are not prepared to begin the mathematics program with calculus, and additional foundational coursework is necessary to strengthen the student's background. This foundational coursework is not included in the total credits required for an engineering degree. All students entering the Division of Engineering with no transfer credit in calculus must take the Mathematics Placement Examination (see above).

General Education Requirements

All students must satisfy the General Education Requirements (p. 31) of the University. In some cases, the College prescribes a more limited set of alternatives than permitted by the University in order to meet accreditation requirements while optimizing a path towards the degree. Students are cautioned to observe the following College requirements when selecting courses to satisfy General Education Requirements.

Critical and Analytic Thinking Requirement

All undergraduates must satisfy the General Education Critical and Analytic Thinking requirement. Engineering students are encouraged to satisfy this requirement by taking the Critical and Analytic Thinking Competency Examination. Students who fail this examination are required to pass PHI 1050; however, credit earned by successful completion of this course will not count toward the total credits required for an engineering degree. This requirement must be satisfied before a student is admitted to the professional program of their major.

Communication Skills

In addition to the basic composition course ENG 1020 (BC), six credits in communication skills (ENG 3050 and ENG 3060) are required of all Engineering students, and these satisfy the Intermediate Composition (IC) and Oral Communication (OC) requirements of the University.

Humanities and Social Science Requirement

Engineering today extends far beyond technical decisions. Far-reaching effects of man-made technology require the engineer to be aware of and sensitive to his or her social responsibilities. Courses involving the engineer in sociological, economic, and aesthetic study are incorporated into the engineering program in order to insure an understanding beyond technical problems, which will enable the complete engineer to make value judgments concerning the impact of this technology upon society.

The College has, therefore, included a program in the social sciences and the humanities as a part of all engineering curricula. This program is integrated with the non-science portion of the University's General Education Program, which requires a student to elect one course from each of six categories. The Engineering Division imposes requirements in addition to the University-wide restrictions on some of the courses that satisfy General Education Requirements. These restrictions are described above and are shown in the degree requirements for each engineering program.

Life Science Requirement

All undergraduate students are required to satisfy the General Education Life Science Requirement. Students who wish to satisfy this requirement simultaneously with the basic or advanced science requirement described above must take BIO 1510 (LS).
Technical Electives

Technical electives may be chosen from a selection of course offerings of the College of Engineering and the advanced science and mathematics courses of the College of Liberal Arts and Sciences. Other courses, such as advanced courses in the Mike Ilitch School of Business, may be elected with the prior approval of the undergraduate program director. The purpose of the technical elective is to increase the depth or breadth of one's professional knowledge. Courses should be selected so as to meet this objective. Engineering courses elected as technical electives are normally selected at the 5000-level. These courses are open to both undergraduate and graduate students. Technical electives require the approval of a student’s department and should be discussed with his or her academic advisor.

Placement and Qualifying Examinations

All entering freshmen must take the placement examinations in mathematics, chemistry and English. Transfer students who do not have transfer credit equivalent to MAT 2010, CHM 1225/CHM 1230, and ENG 1020 (with a grade of 'C' or higher) must take the appropriate placement examination. Consult the Office of Testing, Evaluation, and Student Life Research Services (http://www.testing.wayne.edu) for information regarding the schedule for the examinations.

Chemistry (Qualification Exam)

The sequence of chemistry courses for the engineering student normally begins with CHM 1225 and CHM 1230. Qualification for CHM 1225 and CHM 1230 requires a satisfactory score on the Chemistry Placement Examination. If a student is not properly prepared to consider placement in CHM 1225 and CHM 1230, direct entry into CHM 1040 is permissible.

English (Placement Exam)

All entering freshmen and transfer students shall determine their aptitude in English composition by taking the English Placement Examination unless they have earned credit equivalent to ENG 1020 through transferred courses, AP examinations, or the CLEP program. Students whose score on the English Placement Examination indicates a need for additional instruction and practice in writing must elect and pass ENG 1010 before they can enroll in ENG 1020.

Mathematics (Qualification Exam)

The sequence of mathematics courses for the engineering student normally begins with MAT 2010. For admission to MAT 2010, a qualifying examination must be passed. The placement examination must be taken by all students who have not transferred in the equivalent of MAT 2010, completed with at least a grade of 'C', or through AP credit. Students may apply to take the placement examination for either MAT 1800 or MAT 2010 depending upon their preparation in mathematics. The MAT 1800 Placement Examination is based upon one and one-half years of high school algebra and one year of high school geometry. The MAT 2010 Placement Examination is based upon a total of three and one-half to four years of college preparatory mathematics covering algebra, plane and solid geometry and trigonometry.

Failure to qualify for MAT 2010 may result in the student being placed in a lower level course such as MAT 0993, MAT 1050, or MAT 1800, depending upon the student’s performance. Engineering students who qualify at the MAT 0995/MAT 1050 level are required to take MAT 1050 instead of MAT 0995. In addition, students are required to take the seven-credit, PREP version of MAT 1050 in order to obtain a stronger foundation in mathematical problem solving. Requests for exceptions to this requirement (allowing students to complete the five-credit version of MAT 1050) must be made to the Associate Dean for Academic Affairs. Engineering students who do not take the Mathematics Placement Examination prior to registration for the first semester of the freshman year must enroll in MAT 0993.

Emerging Scholars and Rising Scholars Programs

All engineering students who place into MAT 1050, MAT 1800 or MAT 2010 are encouraged to apply to the Emerging Scholars Program. Students who place into MAT 0993 are required to apply to the Rising Scholars Program. These are enhanced mathematics programs that provide additional experience in mathematical applications and problem solving, better preparing students for engineering problem solving. Contact the Department of Mathematics for more information: 1150 Faculty/Administration Building, 313-577-2479.

Eos Program

Students who meet the requirements for University admission but do not meet the academic record or placement requirements of the pre-professional or professional programs will be admitted to the Eos Program.

The Eos Program is designed for those students who are interested in pursuing a degree in engineering but who may need some additional foundational work in mathematics and science in order to obtain the requisite background to succeed. Eos students participate in the following two-semester sequence of courses with a cohort of students:

<table>

Total Credits: 33

In order to progress from the Eos Program to the pre-professional program, a student must complete each of the required courses with a grade of 'C-minus' or higher and an overall grade point average of at least 2.5. Only two substandard grades (p. 137) are permitted within the Eos requirements if a student wishes to remain in the College. Students receive close attention from the engineering advisors so that early intervention may be arranged for students who face academic difficulties. As part of this course work, each Eos student meets on a weekly basis with an engineering mentorship group to provide an opportunity for discussion and peer support.

Students who place into MAT 0993 must complete this course in addition to those listed above. This requirement will delay completion of the Eos Program until the end of the spring/summer semester. Students who place into MAT 0993 should work closely with their academic advisor to develop a three-semester plan of courses to satisfy the Eos requirements.

WayneDirect Program

The College of Engineering encourages students who are considering beginning or have begun their post-secondary education at a community college to participate in the WayneDirect program. Through this program, students may obtain early admission to Wayne State, receive advising from WSU Engineering academic advisors, utilize WSU services, and ease their transition to the University.
WayneDirect students are encouraged to register for WSU courses that support their engineering curriculum but are not offered at their community college. Each undergraduate program has developed a recommended course sequence for WayneDirect community colleges that includes the appropriate scheduling for these dual enrollment courses.

WayneDirect students are required to complete all math and science courses in a sequence at a single institution (either the community college or WSU). This policy results from the slight differences in course organization between schools and will ensure that WayneDirect students cover all of the anticipated learning objectives. The course sequences (with WSU course numbers) are:

WayneDirect students must comply with the entrance requirements established between the institutions, including completion of at least fifty credits of course work or an associate degree at the community college before full transfer to Wayne State, and maintaining an overall g.p.a. of at least 2.0. WayneDirect students must also comply with University and College policies regarding placement examinations (or allowed transfer credit for placement) and minimum grades. Academic policies that are specific to Wayne Direct students are described below, as appropriate.

WayneDirect students are encouraged to meet with advisors at both their community college and in the College of Engineering at Wayne State on a regular basis to ensure that they remain on track.

Transfer of Credit after Matriculation

After enrolling at Wayne State University, all technical courses and prerequisites to technical courses must be taken at the University. Other selected courses may qualify for transfer credit; advance approval via a Michigan Uniform Guest Permit is required. This Guest Permit must be endorsed by the student’s home department or the Associate Dean for Academic Affairs in order for the credit to apply towards the degree. Students should consult their advisor for specific departmental rules for transfer of credit. Students enrolled through the WayneDirect program may take courses at both their community college and Wayne State, as described above, following discussion with their academic advisors.

Transfer of College within the University

A student in another college of Wayne State University who wishes to transfer to the College of Engineering makes application directly to the Division of Engineering. The application is best made in person to the academic advisor of the planned major. This application for transfer should be made as soon as the student decides to work toward an engineering degree and as soon as all admission requirements are met, since delay may cause serious prerequisite problems and loss of credit. Students must be in good academic standing in order to be eligible for this transfer.

Basic Engineering Courses

The following courses in basic engineering are of a general nature and are used by students in all of the Division of Engineering disciplines.

BE 1001 Engineering Bridge Mentorship Program Participant I Cr. 1
Required peer mentorship program for Engineering Bridge students. Offered Every Term.
Corequisite: BE 1060
Restriction(s): Enrollment is limited to students with a major in Engineering.

BE 1002 Engineering Bridge Mentorship Program Participant II Cr. 0
Required peer mentorship program for Engineering Bridge students. Offered Winter.
Corequisite: BE 1060

BE 1050 Introduction to the Engineering Profession Cr. 2
This course introduces new engineering students to the profession and practice of engineering, the history of engineering, and its various disciplines. The importance of teams to the practice of engineering is demonstrated. Offered Fall.

BE 1060 Introduction to Engineering Practice and Design Cr. 1
Teamwork and communication development based on exploration of professional opportunities for engineers. Offered Winter.

BE 1101 Introduction to Officership Cr. 1
Classroom introduction to leadership, and the experiential examination of leadership, followership, decision-making, and group accomplishment of tasks. Offered Biannually.

BE 1102 Introduction to Leadership Cr. 1
Continuation of B E 1101; focus on communications, leadership, and problem-solving. The light infantry platoon and the troop leading process. Offered Biannually.

BE 1200 Basic Engineering I: Design in Engineering Cr. 3
Core principles of engineering practice: design, teamwork, professional ethics. Offered Fall, Winter.
Prerequisite: BE 1101 with a minimum grade of C-

BE 1800 (may be taken concurrently) with a minimum grade of C or MAT 2020 (may be taken concurrently) with a minimum grade of C- or MAT 2030 (may be taken concurrently) with a minimum grade of C- or MAT 2010 (may be taken concurrently) with a minimum grade of C-

Course Material Fees: $50
BE 1300 Basic Engineering II: Materials Science for Engineering Cr. 3
Fundamentals of materials science; emphasis on how material properties and behavior affect engineering applications. Offered Every Term.
Prerequisite: ([CHM 1225 with a minimum grade of C-] OR [CHM 1220 with a minimum grade of C-]) AND ([CHM 1230 with a minimum grade of C-]) AND (May be taken concurrently.) BE 1200 with a minimum grade of C-) AND (May be taken concurrently.) [PHY 2170 with a minimum grade of C-] OR [PHY 2175 with a minimum grade of C-]) AND (May be taken concurrently.) [MAT 2020 with a minimum grade of C-])
Corequisite: BE 1310
BE 1310 Materials Science for Engineering: Laboratory Cr. 1
Laboratory component of BE 1300. Offered Every Term.
Corequisite: BE 1300
Course Material Fees: $35
BE 1500 Introduction to Programming and Computation for Engineers Cr. 3
Use of computational tools, such as Excel and MATLAB, to solve engineering problems. Topics include general engineering problem solving, algorithm development, programming, and computational analysis. Offered Fall, Winter.
Prerequisite: [BE 1102 with a minimum grade of C-]
Restriction(s): Enrollment is limited to Undergraduate level students.
BE 2100 Basic Engineering III: Probability and Statistics in Engineering Cr. 3
An introduction to application of probability theory and statistical methods in engineering, including design and manufacturing. Offered Every Term.
Prerequisite: MAT 2020 (may be taken concurrently) with a minimum grade of C-
BE 2201 Innovative Tactical Leadership Cr. 1
Military organizational leadership with focus on leadership development and interpersonal group dynamics. Offered Biannually.
Prerequisite: BE 1102 with a minimum grade of C-
BE 2202 Leadership in Changing Environments Cr. 2
Challenges of leading in complex contemporary operational environments. Cross-cultural challenges of leadership applied to practical Army leadership tasks and situations. Offered Biannually.
Prerequisite: BE 1102 with a minimum grade of C-
BE 3000 Engineering Bridge Mentorship Program Leader Cr. 0
Documentation of mentor participation in Engineering Bridge Program. Offered Every Term.
Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.
BE 3301 Leading Small Organizations I Cr. 2
Leadership development and interpersonal and group dynamics. Methods of visualizing, planning and leading organizations to achieve set goals. Offered Biannually.
BE 3302 Leading Small Organizations II Cr. 2
Offered Biannually.
Prerequisite: BE 3301 with a minimum grade of C-
BE 3500 Co-Op Record Cr. 0
Engineering practice under supervision in cooperative education program. Offered Every Term.
Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.
BE 3510 Co-Op Experience Cr. 1
Engineering practice under supervision in cooperative education program. Written report required. Offered Every Term.
Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.
Repeatable for 4 Credits
BE 3900 National Design Competition Participant Cr. 0
For engineering undergraduates who are active team members in national engineering design competition projects. Satisfactory completion of this course will document active participation throughout the semester. Offered Every Term.
BE 4401 Leadership and Management Cr. 3
Multiple styles and theories of leadership; ethical decision making, especially as relating to changing organizational and individual behavior; accomplishing goals in resource-constrained environments. Offered Biannually.
Prerequisite: BE 3302 with a minimum grade of D-
BE 4402 Military Professionalism and Professional Ethics Cr. 3
Evaluation and assessment of needs of subordinate units and individuals; near-term and short-term plans to address these needs. Analysis of a historical battle as well as analysis of moral and leadership dilemmas in history. Offered Biannually.
Prerequisite: BE 4401 with a minimum grade of C-
BE 5900 National Design Competition Projects Cr. 1-4
Primarily for engineering undergraduates who are dedicating a substantial amount of effort towards college-sponsored national design competition projects. Offered Every Term.
Repeatable for 99 Credits
BE 5995 Special Topics in Engineering Cr. 4
Special topics not covered in other courses; topics announced in Schedule of Classes. Offered Every Term.
Repeatable for 99 Credits
BE 5998 Engineering Honors Thesis Cr. 1-4
Completion of required Honors Thesis. Offered for undergraduate credit only. Offered Every Term.
Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.
Repeatable for 99 Credits

Engineering Special Topics Courses
The following special topics courses are of a general nature and are used by students in all of the Division of Engineering disciplines.

EGR 5655 Innovation & Entrepreneurship I Cr. 3
Provides education and hands-on experience in innovation and entrepreneurship applied to enterprise, product and service design and delivery. The first of a 2-semester sequence, this course teaches methods and tools to find, formulate, and develop engineering innovation and entrepreneurship, leading to practical, relevant, and productive new commercial and social enterprises. Offered Fall.
Restriction(s): Enrollment limited to students in the College of Engineering.
Wayne State University Undergraduate Bulletin 2017-2018

Biomedical Engineering

Office: 818 W. Hancock; 313-577-1344
Chairperson: John M. Cavanaugh
http://engineering.wayne.edu/bme/

Biomedical engineering (BME) is one of the fastest growing disciplines in engineering. This field has developed from the knowledge that engineering principles can be applied to better understand how the human body functions as well as the effect that outside forces have on it, whether they be diagnostic or traumatic. A biomedical engineer brings together traditional engineering principles with the life sciences in a completely integrated fashion. The result is an engineer who views the human body as a complex system, its diseases and injuries as breakdowns in that system, and medical interventions as design alternatives for the repair of the system. As the population ages and medical costs increase, biomedical engineers are required both to understand the mechanistic causes of injury and disease and to design and implement interventions to prevent and mitigate the suffering of individuals and to reduce the cost of medical care to society.

Wayne State has a long history with respect to biomedical engineering research. In 1939, faculty from the College of Engineering and School of Medicine began collaborating to investigate the mechanisms of injuries to the human body, and educational programs in the area of biomedical engineering have existed at Wayne State since the 1950s. They have developed from a few courses taken within traditional engineering departments to the graduate degree program in biomedical engineering, introduced in 1998. The Department of Biomedical Engineering, interdisciplinary between the College of Engineering and the School of Medicine, was established in 2002. Drawing upon the strengths of the biomedical engineering graduate program, the Department has established a new undergraduate program that accepted its first students for the Fall 2010 semester.

• Biomedical Engineering (B.S.) (p. 147)

Biomedical Engineering (B.S.)

Wayne State's undergraduate program in biomedical engineering is built upon a strong foundation of engineering that integrates biomedical sciences early in the curriculum and continuously throughout subsequent coursework. In order to prepare students for careers and/or further education, traditional lectures are combined with problem-based and project-based learning to allow students to immediately apply their foundational knowledge to biomedical engineering challenges. From the first week of the program, through an ongoing partnership with the Medical School and affiliated hospitals, students are introduced to real world biomedical engineering problems and tools so as to develop a thorough understanding of the challenges faced in clinical medicine. All students are also encouraged to become actively involved in one of the research groups of the Department for which opportunities are available as early as freshman year. Before the junior year all biomedical engineering students must select one of three concentrations: biomaterials, biomechanics, or bio-medical instrumentation.

The program's objectives are to prepare graduates who, in two-three years after graduation, will be able to:

1. Work in multidisciplinary teams to translate biomedical science to application;
2. Utilize engineering, mathematical, and biomedical tools to solve biomedical engineering problems and design biomedical engineering systems;
3. Continue their education in engineering or biomedical fields based on a strong underlying foundation in both areas of study.

The B.S.B.M.E. program is coordinated by the Undergraduate Program Chairperson with the assistance of the Departmental academic advisor. These individuals are available to support students in selecting courses, identifying research and internship opportunities, and discussing plans for after graduation. Students are encouraged to join and actively participate in the campus chapter of the Biomedical Engineering Society (BMES) for networking and professional development opportunities.

Admission Requirements

Students qualifying for admission to the College of Engineering must select the B.S.B.M.E. program in the online application. The applicant must provide supporting documentation as instructed. Due to the challenging nature of biomedical engineering, the undergraduate program is highly selective and admits students who have a demonstrated ability in math and science. In addition, the program is structured as a cohort-based program. Therefore, admission by transfer students requires completion of a minimum set of prerequisite courses. First year students are accepted for the fall semester only. Students wishing to join the program in the second year are accepted for the spring/summer semester in order to complete some required coursework before joining their cohort in the fall.

Freshman Admission: Students wishing to enter the program immediately following high school must have a minimum math/science g.p.a. of 3.5 and a minimum Math ACT score of 29. Students who have completed college-level coursework through dual enrollment programs will still be considered as freshmen. For full consideration for fall admission, including all scholarship opportunities, students should apply to the University and the biomedical engineering program by December 1. Following admission, students must confirm placement into at least Calculus I (MAT 2010) and General Chemistry (CHM 1225) through either testing (ACT, AP, or placement tests) or transfer credit. Admitted students who do not meet these criteria will have their admission deferred.

Transfer Admission: Students may apply to transfer into the program after completing college-level coursework at Wayne State or at another post-secondary institution. Transfer students may apply to join the program as part of a first year or second year cohort depending on the coursework that they have previously completed. The following are the
minimum classes that must be completed for transfer students to join each cohort:

**First Year Cohort**
Placement into Calculus I, General Chemistry (with lab), and Basic Composition

**Second Year Cohort**
Mathematics: Calculus I and Calculus II  
Science: General Chemistry (w/lab), Engineering Physics I, and Biology (w/lab - equivalent to BIO 1510)  
English: Basic Composition

Transfer students are accepted on a space-available basis. Prospective students are expected to have earned a minimum math/science g.p.a. of 3.5 in their college coursework. Transfer plans have been developed for community colleges in the Southeastern Michigan area and are available on the program website.

Candidates for the Bachelor of Science degree must complete 130 credits of coursework, including the University General Education requirements. Forty-eight credits of coursework must be in engineering sciences or engineering design. Most courses offered by other engineering departments count toward this forty-eight engineering credit requirement. Note: BME 2010, BME 2070, BME 4010, and BME 5070 count as life science courses and not engineering courses. All course work must be completed in accordance with the academic procedures of the University (p. 8) and the College of Engineering (p. 137) governing undergraduate scholarship and degrees. All prerequisite coursework must be completed; any waivers to listed prerequisite courses must be approved by the Undergraduate Program Chairperson. In compliance with the academic requirements of the College of Engineering, students must earn a grade of C- or higher in all courses applied to the B.S.B.M.E. degree requirements. The 8-semester curriculum for the program is provided below. Students interested in attending medical or dental school after graduation may add any remaining pre-professional requirements into their curriculum with minimal difficulty.

Chemical Engineering

Chemical engineering applies the sciences of chemistry, biology, physics and mathematics in a synergistic way to develop new or improved technologies, products and processes for the benefit of mankind. The chemical engineering B.S. degree provides a strong technical background, from which graduates may enter into professional careers in fields such as petrochemical processing, energy, pharmaceuticals, medical devices, advanced materials, semiconductor processing, biotechnology, environmental control, natural and synthetic rubbers and plastics, surface coatings, food processing, cosmetics, and consumer products. Many chemical engineering undergraduates continue their studies in graduate programs (M.S. or Ph.D.) in chemical engineering, or in related disciplines such as materials science and biomedical engineering, in preparation for careers in research and development. Chemical engineering also provides excellent undergraduate preparation for professional programs in medicine (M.D.), law (J.D.), and business (M.B.A.).

The undergraduate program in chemical engineering includes studies in chemistry, mathematics, and physics, as well as an understanding of physical, biological and chemical systems and processes. Engineering science courses cover material and energy balances, transport phenomena, thermodynamics, reaction kinetics, separation processes, and dynamics, simulation, and control of systems and processes.

To address the diverse career interests of chemical engineering students, our program offers a choice of three integrated study plans for the B.S. degree: product and process engineering, biological engineering, and molecular engineering and nanotechnology.

The Product and Process Engineering option offers advanced courses and electives in design, control, chemical process safety, and other topics relating to chemical process engineering. The Biological Engineering program offers advanced courses in biology, biochemistry, and physiology, coupled with a senior research project and focused electives for chemical engineers interested in biotechnology and related fields. The Molecular Engineering and Nanotechnology option includes research and coursework in advanced science and engineering topics related to these new fields, which form the knowledge base for development of novel sensors, smart materials, molecular interfaces, medical applications, and drug delivery technologies.

In addition to the Undergraduate Program Goals, the specific objectives of the chemical engineering B.S. program are:

1. **Engineering Practice.** Graduates of the B.S. in Chemical Engineering program will have the ability to successfully pursue professional employment in an entry-level position in chemical engineering or related disciplines.

2. **Graduate Education.** Graduates of the B.S. in Chemical Engineering program will be academically well-prepared to pursue graduate study in chemical engineering and related disciplines.

3. **Science and Mathematics.** Graduates of the B.S. in Chemical Engineering program will be able to apply fundamental knowledge in chemistry, physics, biology, mathematics, and engineering to practical problems in chemical engineering, and related disciplines.

4. **Engineering Analysis.** Graduates of the B.S. in Chemical Engineering program will be able to apply theoretical, computational, and experimental methods to solve engineering problems.

5. **Design.** Graduates of the B.S. in Chemical Engineering program will be able to apply principles and methods of chemical engineering to the design of chemical processes and products.

---

Honors and Accelerated Master's AGRADE Program

All students in the B.S.B.M.E. program are encouraged to pursue their degree with Engineering and/or University Honors. Students can complete their requirements for Honors within the 131 credits required for the program. The required Honors thesis will satisfy the requirement for one of the technical electives.

Students who have earned at least a 3.5 g.p.a. through their junior year may apply to the AGRADE Program. Through this program, students may earn their M.S. in biomedical engineering with one additional year of coursework (18 credits).

---

### Chemical Engineering and Materials Science

**Office:** 1100 W. Engineering Building; 313-577-3800  
**Chairperson:** Guangzhao Mao  
http://engineering.wayne.edu/che/
6. **Communications.** Graduates of the B.S. in Chemical Engineering program will be able to communicate effectively in oral and written technical presentations and reports.

7. **Professionalism.** Graduates of the B.S. in Chemical Engineering program will be aware of the social responsibility of engineers and the importance of ethics in the engineering profession.

8. **Self-learning.** Graduates of the B.S. in Chemical Engineering program will be able to acquire new knowledge through self-learning and continuing education, as needed in their professional careers.

9. **Co-op and Undergraduate Research Experience.** Graduates of the B.S. in Chemical Engineering program will have received opportunities to enrich their preparation for professional practice and/or graduate studies through co-op experience and internships, and through undergraduate research experiences.

10. **Advanced Technical Knowledge.** Through the program’s curriculum options, graduates of the B.S. in Chemical Engineering program will have acquired in-depth knowledge in one of the following areas: Product and Process Engineering; Biological Engineering; Molecular Engineering and Nanotechnology.

   - Chemical Engineering (B.S.) (p. 150)

---

**Chemical Engineering (B.S.)**

Chemical engineering applies the sciences of chemistry, biology, physics and mathematics in a synergistic way to develop new or improved technologies, products and processes for the benefit of mankind. The chemical engineering B.S. degree provides a strong technical background, from which graduates may enter into professional careers in fields such as petrochemical processing, energy, pharmaceuticals, medical devices, advanced materials, semiconductor processing, biotechnology, environmental control, natural and synthetic rubbers and plastics, surface coatings, food processing, cosmetics, and consumer products. Many chemical engineering undergraduates continue their studies in graduate programs (M.S. or Ph.D.) in chemical engineering, or in related disciplines such as materials science and biomedical engineering, in preparation for careers in research and development. Chemical engineering also provides excellent undergraduate preparation for professional programs in medicine (M.D.), law (J.D.), and business (M.B.A.).

The undergraduate program in chemical engineering includes studies in chemistry, mathematics, and physics, as well as an understanding of physical, biological and chemical systems and processes. Engineering science courses cover material and energy balances, transport phenomena, thermodynamics, reaction kinetics, separation processes, and dynamics, simulation, and control of systems and processes.

To address the diverse career interests of chemical engineering students, our program offers a choice of three integrated study plans for the B.S. degree: product and process engineering, biological engineering, and molecular engineering and nanotechnology.

**Admission Requirements:** Admission is contingent upon satisfaction of the general undergraduate admission requirements of the University (p. 19) and the bachelor of science programs in the College of Engineering (p. 140).

Candidates for the Bachelor of Science degree must complete 130 credits of coursework, including the University General Education (p. 31) requirements. Forty-eight credits of coursework must be in engineering sciences or engineering design. All course work must be completed in accordance with the academic procedures of the University (p. 8) and the College of Engineering (p. 137) governing undergraduate scholarship and degrees. Non-engineering entries, cited below by subject rather than individual course number, indicate courses to be selected in fulfillment of the University General Education Requirements. Degree requirements shown in the curricula below are in effect as of the publication date of this Bulletin. Students should consult their advisors for verification of current requirements.

Civil and Environmental Engineering

Office: 2100 E. Engineering Building; 313-577-3789
Chairperson: Mumtaz Usmen
http://www.engineering.wayne.edu/cee

Civil engineers apply the principles and techniques of engineering to the design and integration of complex systems. They have traditionally been leaders in many aspects of urban development and the urban crisis in America has brought into focus the profession of civil engineering and the responsibilities of its practitioners. The civil engineer is a leader in such diverse areas of concern as:

- the design and control of structural systems, including tall buildings, bridges and transportation systems necessary for urban development, commerce and industry;
- water resources planning and management;
- containment and treatment of hazardous wastes;
- design of collection and treatment systems for sanitary and storm sewage;
- water treatment and distribution systems;
• construction management; and
• the integration and management of public works projects designed to improve the urban infrastructure.

Obviously, the responsibilities of the civil engineer directly involve the health, safety and welfare of the public.

The Civil and Environmental Engineering Department maintains laboratories for teaching and research in the areas of: structures/materials, transportation, hydraulics, geotechnical, geoenvironmental, infrastructure systems, and environmental engineering.

Laboratories include facilities for testing structural components under static and dynamic loads; strain measurement; traffic simulation; and fluid flow. The Department and the University maintain excellent computer facilities for data acquisition and analysis, including several advanced software packages specific to civil engineering.

• Civil Engineering (B.S.) (p. 154)

Civil Engineering (B.S.)

Mission Statement
The mission of the Civil and Environmental Engineering Department is to provide high-quality, state-of-the-art educational and research programs. The Department strives for excellence in its academic programs, its research endeavors, and its university, community and professional service activities. The program is designed to prepare graduates for success in their immediate, as well as long-term, professional careers as practitioners, for obtaining a professional license, and for pursuing advanced studies and lifelong learning.

Program Educational Objectives
The graduates of the Civil and Environmental Engineering Program, in their early careers, will be expected to:

1. apply their knowledge and skills as effective, productive civil engineers within private corporations, consulting engineering firms, and municipalities, as well as state and federal agencies dealing with analysis and design of modern civil engineering systems and processes;
2. work and communicate effectively with others on multidisciplinary teams to develop practical, technically-sound, cost-effective solutions to complex and diverse civil engineering problems;
3. maintain an active program of lifelong learning and continuing education while practicing civil engineering in an ethical and professionally responsible manner;
4. seek leadership roles as practitioners and become active members within professional and technical societies.

Program Outcomes
Graduates of the Civil and Environmental Engineering Department will demonstrate the following skills and attributes when they receive their B.S. degrees:

1. the ability to apply knowledge of mathematics, science and engineering within the framework of solving civil engineering problems, including the analysis and design of structures, transportation systems, water treatment and supply systems, wastewater collection and treatment systems, as well as the geotechnical aspects of each.
2. the ability to design and conduct experiments, as well as collect and interpret experimental data, pertaining to civil engineering systems.
3. the ability to design a civil engineering system, system component or process which meets specific needs.
4. the ability to collaborate, communicate and work effectively with others on multidisciplinary terms.
5. the ability to identify, formulate and solve a range of civil engineering problems.
6. an understanding and appreciation of professional and ethical responsibility in the practice of civil engineering.
7. the ability to communicate effectively in both written and oral form.
8. a broad educational background which addresses the importance of global and societal factors as they affect and are affected by civil engineering systems.
9. an understanding of the importance of lifelong learning and continuing education.
10. knowledge of important contemporary issues within and outside the context of civil engineering.
11. the ability to use techniques, skills and modern engineering tools required for the practice of civil engineering.
12. an understanding of civil engineering professional practice issues such as: procurement of work, bidding versus quality-based selection processes, addressing public safety concerns in project design, how design professionals interact with the construction profession to construct a project, the importance of professional licensing and continuing education, and/or other professional practice issues.

The civil engineering curriculum has been designed to provide a broad education in the basic sciences, mathematics, and engineering sciences, civil engineering analysis and design, and their application to civil engineering practice. The courses in civil engineering may be considered as an array of groups, each representing an area of concern to contemporary society and industry. Technical electives may be selected from one of these major areas according to the student’s particular interest or may be chosen from several areas in order to broaden one’s knowledge. A student who contemplates continuing study at the graduate level should seek the advice of his/her faculty counselor in the selection of elective courses. Realizing the social implications of the practice of civil engineering, the program provides for the development of a background in economics, the social sciences, humanities, communication skills, ethics, and related non-technical areas.

Admission Requirements: Admission is contingent upon satisfaction of the general undergraduate admission requirements of the University (p. 19) and the bachelor of science programs in the College of Engineering (p. 140).

Candidates for the Bachelor of Science degree must complete 130 credits of coursework (or 127 credits of coursework for students passing the Critical Thinking Competency Examination), including the General Education (p. 31) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 8) and the College of Engineering (p. 137) governing undergraduate scholarship and degrees. Non-engineering entries, cited below by subject rather than individual course number, indicate courses to be selected in fulfillment of the University General Education Requirements. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. Students should consult their advisors for verification of current requirements.

1 Many students satisfy the CT requirement by passing the Critical Thinking Competency Examination instead of taking PHI 1050.

Total Program Credits for a student who passed the Critical Thinking Competency Examination: 127

Technical Electives: Civil Engineering students are required to complete at least six credits in technical electives. Applicable courses include...
Computer Science (B.S.)

The mission of the Computer Science B.S. program is to provide undergraduate students with a strong foundation in both Computer Science theory and programming practice that is necessary to solve real-world engineering problems. Through the use of state-of-the-art software and hardware, students will learn to develop their theoretical and programming skills in order to allow them to apply these learned techniques to analyze a problem, evaluate possible solutions, and create a solution as part of a program development team. The program prepares students for engineering careers in software design, intelligent systems, big data systems and analytics, computer systems and network design, software system security, and bioinformatics. Graduates will be prepared to take positions in these areas in academia, industry and government, the local community, and will be prepared for graduate studies in Computer Science as well. In addition the program provides students with opportunities to interact with other professional institutions and exhibit the highest ethical standards in the practice of their profession.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 140). Students planning to major in computer science should consult with a departmental advisor as soon as possible and no later than the beginning of their sophomore year. In general, the requirements in effect when a student declares a major in computer science will be those that the student must satisfy. Students should check with the department for the latest information concerning the program and requirements.

Admission following an interruption in enrollment: A student attempting to complete a computer science major after a prolonged interruption of his/her education may find that some of his/her course work in computer science is out of date. In this case, the student's record will be reviewed and the Department may require the student to fulfill additional computer science course requirements existing at the time of his/her return, and/or to retake some courses previously taken.

Transfer students should consult with the undergraduate Departmental advisor prior to their transfer. Determination of course equivalency will be made by the Transfer Credit Evaluation Unit in conjunction with the undergraduate faculty advisor. The Department reserves the right of final determination of course equivalency.

Introductory Course Work: The Department of Computer Science offers a number of courses introducing students to basic computer and computing concepts. Some of these courses also serve as prerequisites for more advanced study in computer science. Some introductory courses require mathematics preparation equivalent to MAT 1800. (See course descriptions regarding the required prerequisite math courses.) CSC 1000, offered as computer-based instruction, is for non-majors who desire to learn basic computing concepts. Students who intend to major or minor in computer science will not normally take this course.

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 31) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 8) and the College of Engineering (p. 137) governing undergraduate scholarship and degrees.

Computer Science (B.S.) (p. 156)

Computer Science Minor (p. 158)
other benefits are paid for by the employer based upon the time spent on each work assignment. The student must be a computer science major. For details and enrollment procedures, contact the College Co-op Coordinator at the Career Services office.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: This program enables qualified seniors to enroll simultaneously in the undergraduate and graduate programs and apply a maximum of 16 credits towards both the bachelor’s and master’s degrees. Students electing the ‘AGRADE’ Program may expect to complete the bachelor’s and master’s degrees in five years of full-time study.

Admission Requirements: An ‘AGRADE’ applicant may petition the Graduate Committee of the Computer Science Department for acceptance into the program no earlier than the first semester in which ninety credits will be completed. Following Departmental Graduate Committee approval, students must seek the approval of the Graduate Officer of the College. Applicants must have an overall grade point average (g.p.a.) at the Cum Laude level and a 3.6 g.p.a. or better in the major courses already completed. If the student’s petition is accepted, the student’s faculty advisor shall develop a graduate Plan of Work, specifying ‘AGRADE’ courses to be included in subsequent semesters.

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 31) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 8) and the College of Engineering (p. 137) governing undergraduate scholarship and degrees.

(Please note that the core courses include mandatory instructional labs. These laboratories should be taken concurrently with their co-requisite lecture.)

Four additional Computer Science courses numbered 3000 or above, of at least three credits each 1 excluding CSC 4990 and CSC 4995

Students declaring their major must consult an advisor for a written assessment of current requirements.

Cooperative Work-Study Program

Students who wish to enrich their education with practical computer science experience may enroll in the Cooperative Work-Study Program. In this program, full-time study terms alternate with full-time work assignments in cooperating industries. The Co-op experience provides two benefits: industrial work experience which can be included in a resume, and the possibility of being offered a full-time position with the co-op employer, upon graduation. The program takes place over a two-year period where students usually enter the program in their junior year, and most of the work assignments are in the metropolitan Detroit area.

A student may enroll for no more than one course with the approval of the College Co-op Coordinator during those terms in which he/she is on a work assignment. Each term that a student is on a work assignment he/she must enroll the following term in CSC 4995. An oral and written report covering each work assignment is required of the student and performance on the job is rated by the industrial supervisor. Salaries and other benefits are paid for by the employer based upon the time spent

Wayne State University Undergraduate Bulletin 2017-2018 157
The Minor Program provides a background in computer science for Computer Science Minor departmental advisors, (classschedule.wayne.edu) each semester, see the University Schedule of Classes including A minimum of twelve credits in honors-designated course work, least 3.3.

The student will be assigned a faculty advisor to guide and direct the research, based upon the student's area of interest. A grade is awarded after approval of the thesis by two faculty advisors. The Honors Thesis is a paper presenting the results of the student’s independent research. The length of the thesis may vary according to the nature of the topic and method of approach. Registration for the Honors Thesis must be made at least two semesters prior to the student’s expected graduation date. It is expected that the Honors Thesis will conform to the University master’s thesis format requirements (copies available from the Graduate School).

An overall Wayne State University cumulative grade point average of at least 3.3.

A minimum of twelve credits in honors-designated course work, including CSC 4999, and the Honors Seminar listed above. For information about additional honors-designated course work available each semester, see the University Schedule of Classes (http://classschedule.wayne.edu) under ‘Honors Courses,’ or contact their departmental advisors.

## Computer Science Minor

Two additional Computer Science courses numbered 3000 or above to complete the required eighteen CSC credits.  

A minimum grade of 'C' is required in these courses. For all other MAT, BE and CSC courses, a minimum grade of 'C-' is required.

Total Credits 22

Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their co-requisite lecture.

A minimum of twelve credits in computer science must be earned at Wayne State University.

Students may wish to modify the minor program to fit their special needs. For any changes or adjustments to the above course requirements, students should contact their Departmental undergraduate advisors for approval. Students declaring their minor should consult an advisor for a written assessment of current requirements.

## Electrical and Computer Engineering

### Office: 3100 W. Engineering Building; 313-577-3920

Chairperson: Mohammed Ismail Elmagarr
http://engineering.wayne.edu/ece/

In the field of electrical and computer engineering, basic physical and mathematical principles are utilized to develop new devices, technologies, and techniques of constantly broadening application. Examples are the development of smaller, cheaper, and more powerful computers, microprocessors, and other data processors, stemming from advances in solid-state and integrated circuit technology, and their utilization in a growing range of system applications; the growing use of data communications and sophisticated communication networks; the use of lasers, and the development of fiber optic and integrated optical devices for various applications ranging from optical data processing to communication; development of sophisticated control techniques, smart sensors, and transducers for advanced automation and electric power systems; the application of electronics to health care and diagnostics (such as noninvasive measurements and ultrasound imaging); and energy conversion devices.

The areas of study available in the Department include: solid-state devices, lasers, smart sensors, information sciences, digital circuits, computer engineering, integrated and active circuits, nanotechnology, biomedical electronics and systems, image processing, neural networks, and modern control theory.

Programs of both experimental and theoretical study are available in all these areas, as well as other interdisciplinary programs through the Electrical and Computer Engineering Department.

Senior students are encouraged to participate in research activities by means of independent study projects and student assistantships. Graduate students normally participate in the research program as graduate teaching assistants and research assistants.

The College of Engineering laboratory building contains seven instructional laboratories for experimental work in control systems, analog circuits, digital systems, microcomputers, instrumentation, optics, and communication systems; these laboratories are an integral part of the instructional program. In addition, the Departmental faculty have eight research laboratories dealing with computer systems, multi-media systems, semiconductor device materials including a clean-room facility, opto-electronics, computation and neural networks, image processing, nanotechnology, telematics, and embedded systems. Computer facilities
Electrical Engineering (B.S.)

In addition to the Undergraduate Program Goals for the College of Engineering, the specific objectives of the Bachelor of Science program in Electrical Engineering include the following:

1. Graduates will understand relevant engineering and scientific principles underlying electrical and computer technologies, and have the capability to apply theoretical, computational, and experimental methods to solve real engineering problems.
2. Graduates will have strong oral and written communication skills to interact with fellow engineers and non-technical personnel in a team environment.
3. Graduates will have computer skills for effective use in engineering. They will possess a working knowledge of modern programming languages, as well as operating systems and software packages for design, analysis, and simulation.
4. Graduates will be able to work hands-on in laboratories with state-of-the-art facilities and equipment to accomplish assigned tasks and projects.
5. Graduates will be aware of the societal responsibility of engineers and the essential nature of high ethical standards of professional behavior.
6. Graduates will possess effective engineering design capability and an awareness of cost, safety, sustainability, accessibility, and other associated constraints in engineering design.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 140).

Candidates for the Bachelor of Science degree must complete 130 credits of coursework, including the University General Education (p. 31) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 8) and the College of Engineering (p. 137) governing undergraduate scholarship and degrees. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. However, students should consult an academic advisor for verification of current requirements.

In the freshman and sophomore years, the student acquires a foundation in the principles of science and mathematics required for the study of engineering. In addition, general education studies are provided to ensure a well-rounded education. Basic concepts of electrical circuits, electronics, computers and electromagnetic fields are studied after prerequisite mathematics and science backgrounds are mastered. In the senior year, a choice of electrical and computer engineering electives permits the student to specialize in one or more areas.

Program Standards: All students must earn at least a ‘C-minus’ in each of the courses to be applied towards the Undergraduate Certificate and complete the coursework (16 credits) with an overall g.p.a. of at least 2.0. Students concurrently enrolled in an engineering undergraduate program will be governed by overall policy on substandard grades for students pursuing a B.S. degree (one substandard grade allowed for every twenty-four credits completed at WSU). Students who have completed a B.S. degree and pursue only the Undergraduate Certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of this academic program.

**TOTAL PROGRAM CREDITS: 130**
Substitution of a course not on this list requires approval of the department chairperson or delegated faculty advisor.

**Course Material Fee**
A course material fee is charged for laboratory courses using expendable materials.

**Industrial and Systems Engineering**

*Office*: 2143 Manufacturing Engineering Building, 4815 Fourth St.; 313-577-3821
*Chairperson*: Leslie Monplaisir
http://www.ise.wayne.edu

The industrial engineer is a broadly-trained integration engineer, concerned with enabling complex systems to function effectively. Managing the inventory of a production facility, for example, involves issues of production and stocking policy, manufacturing equipment, human resources, customer demand, and supplier relationships. The industrial engineer must understand the interaction of the components of a system, and coordinate the flow of materials and information to effectively manage the operation. The industrial engineer plays an important role in defining information needs and developing strategies for decision-making based on incomplete knowledge. However, the skills of the industrial engineer have much greater application than to traditional production environments. In a growing service sector of the economy including health care delivery, public safety, air transportation, and banking, for example, issues of resource management, scheduling, quality of service, and systems design are important.

Traditionally, the manufacturing engineer was responsible for developing the process capability to realize the output of design engineering. Today the boundary between design and manufacturing engineering is becoming blurred; both groups work together in teams to assure the soundness of design and production capability. The manufacturing engineer must have an understanding of the design process, but the manufacturing engineer’s special expertise is the knowledge of the production process.

Today’s production is computer-based and provides flexibility through computer control. The manufacturing engineer is responsible for designing and implementing the cells and production lines which become the basic units of manufacturing. Increasingly, such production units are becoming parts of an integrated factory system, not simply islands of automation. The manufacturing engineer must understand the multi-layered control architecture of the integrated factory, and the computer-based technologies which enable it.

The Department maintains laboratories in systems simulation, computer-aided manufacturing, human systems, and concurrent engineering design.

- Industrial Engineering (B.S.) (p. 161)

**Industrial Engineering (B.S.)**

*Program Mission*: The mission of the undergraduate program in Industrial Engineering is to educate our students for leadership positions in a broad spectrum of employment including: manufacturing, supply chain management and logistics, health care, banking, information management, and related disciplines.

*Program Vision*: The Department of Industrial and Systems Engineering offers the B.S. in Industrial Engineering to prepare students for a broad range of employment opportunities that include operations management, manufacturing, and healthcare. Our vision is to produce graduates who will lead their organizations to competitive advantage by applying the tools and techniques of industrial engineering. We believe that exposing students to diverse industries in our educational program will enhance their professional skills.

*Program Educational Objectives*: To support the vision of the program we have defined three high-level objectives we expect students to achieve three to five years following graduation:

1. Apply the tools and techniques of industrial engineering to make decisions which add value to their organization,
2. Identify opportunities and formulate solutions which integrate technological and human systems,
3. Provide leadership as a member of high performance teams.

**Admission Requirements**
For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 140).

Candidates for the Bachelor of Science degree must complete 124 credits of coursework, including the University General Education (p. 31) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 8) and the College of Engineering (p. 137) governing undergraduate scholarship and degrees. Non-engineering courses, cited below by subject rather than by individual course numbers, indicate courses to be selected in fulfillment of University General Education Requirements. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. However, students should consult an academic advisor for verification of current requirements.

The Bachelor of Science degree programs are built on a strong core of common courses. In the junior and senior years, students must choose a concentration leading to the industrial engineering degree. These options are described below.

The directed elective must be approved by the program director or undergraduate advisor. A list of courses appropriate for the directed elective is available from the Department.

**Engineering Breadth Options**: In the following curricula engineering Breadth Options are courses selected from an approved list of those deemed most suitable as contributing to the industrial engineering degree program. In the sophomore year these options are limited to courses numbered below 3000 for all students who have NOT completed their preprofessional coursework.

**The Engineering Design Project** course sequence (IE 4800 and IE 4880) is a capstone endeavor and is intended to build on and integrate the knowledge that the student has accumulated throughout the undergraduate program. It is intended to be taken in the student’s last academic year, within forty credits of graduation. This sequence is a year-long undertaking. Students enroll in IE 4800 (two credits) in their last Fall semester, and spend the term building their teamwork skills and selecting and planning their project. Practical, professionally-relevant projects are usually selected in concert with the Department’s industrial partners. In the Winter semester, students enroll in IE 4880 (2 credits) and engage in an intensive effort to bring their industrial engineering skills and knowledge to bear on the problem. Students who intend to take the capstone sequence should first consult their academic advisor.

**Project Requirements**: In order to qualify to take IE 4800, students must be in the last year of his/her program (within forty credits of
graduating). To enroll in IE 4800, the student must have taken and passed IE 3120, IE 4250, IE 4850, and should have taken and passed or be taking at least two of the IE 4420, IE 4330, IE 4560 in the same semester of IE 4800.

In order to register for IE 4880, students must have taken IE 4800 in the immediately previous term they must be finished with all eight IE core courses by the end of the semester in which they take IE 4880. Students are encouraged to meet with the industrial engineering program academic advisor for a plan of work to ensure they meet these requirements.

Mechanical Engineering

Office: 2100 W. Engineering Building; 313-577-3843; Fax: 313-577-8789
Chairperson: Nabil G. Chalhoub; ab9714@wayne.edu
Director of Undergraduate Studies: Jerry C. Ku; aa1898@wayne.edu
Academic Undergraduate Advisor: Keith L. Wadley; ab8541@wayne.edu
http://www.eng.wayne.edu/ME/

The opportunities and challenges in the field of mechanical engineering are many and diverse. The broad variety of career possibilities includes research and development, design analysis and synthesis, manufacturing and production engineering, testing, sales engineering, maintenance and administration. The challenge of a mechanical engineer may lie in the perfection of a device that will be duplicated a million-fold or in the control optimization of a single complex system of unique design. To prepare undergraduate students for these opportunities, the Wayne State University Mechanical Engineering curriculum is designed to give a basic core education in the humanities, mathematics, natural sciences, basic applied sciences, engineering fundamentals, and to provide advanced electives in many applied fields.

Fields of departmental expertise include such important areas as biomechanics, energy conversion, combustion engines, emissions controls, structural analysis, automatic controls, robotics, thermodynamics, continuum mechanics, fluid dynamics, vibrations, heat transfer, mechanisms, acoustics and noise control, design, machine tool design, manufacturing, laser diagnostics, and mechanics of composite materials. Research and teaching is carried out in all of these areas.

Mechanical Engineering (B.S.) (p. 163)

Mechanical Engineering (B.S.)

The Bachelor of Science in Mechanical Engineering is accredited by the Accreditation Board for Engineering and Technology.

Program Goals

Mechanical engineering B.S. graduates will be able to apply basic engineering principles to identify and solve problems, and to design, specify the manufacturing of, and evaluate the performance of mechanical systems and processes.

Program Educational Objectives

Program Educational Objectives are broad in scope and describe the expected accomplishments of our graduates during the first few years after graduation, while Student Outcomes are narrower and describe what our students are expected to know and be able to do by the time of graduation. The objectives of the undergraduate program in Mechanical Engineering at Wayne State University are to provide the education and training that will enable its graduates to:

1. successfully pursue intermediate level engineering positions or additional degrees;
2. demonstrate technical competency in applying broad, fundamental-based knowledge and up-to-date skills to perform professional work in mechanical engineering related disciplines;
3. demonstrate competency in applying comprehensive design methodology pertaining to mechanical engineering, incorporating the use of the economic, environmental, and social impact of design;
4. engage in professional societies, and to always apply best practices in professional ethics; and
5. be committed to life-long learning activities through self-reliance, creativity and leadership.

ABET Student Outcomes (as revised on September 18, 2009)

It is expected that by the time of graduation, our B.S.M.E. students will have:

1. an ability to apply knowledge of mathematics, science, and engineering
2. an ability to design and conduct experiments, as well as to analyze and interpret data
3. an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
4. an ability to function on multidisciplinary teams
5. an ability to identify, formulate, and solve engineering problems
6. an understanding of professional and ethical responsibility
7. an ability to communicate effectively
8. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
9. a recognition of the need for, and an ability to engage in life-long learning
10. a knowledge of contemporary issues
11. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

In support of these educational objectives, faculty members will seek outstanding levels of achievement in their research and engineering practices. To further foster professionalism, the Department encourages students to be active participants in ASME, Pi Tau Sigma, Tau Beta Pi, SAE and other student professional organizations.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 140). The Department has an Academic Advisor and a Director of Undergraduate Studies. The former is responsible for assisting students with course selections and maintaining academic progress, and the latter is responsible for enforcing Departmental academic policy. Students are encouraged to meet with the Academic Advisor once every semester, for up-to-date feedback on their academic progress and a review of course plans for the next semester or two. The student and advisor together plan a complete program of study, including electives, which meet Departmental requirements and the interests of the individual student.

Candidates for the Bachelor of Science degree must complete 131 credits of coursework, including the University General Education (p. 31) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 8) and the College of Engineering (p. 137) governing undergraduate scholarship and degrees.

Evening courses and cooperative programs allow professionals working in local industry to pursue an undergraduate degree while continuing employment. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin; however, students should consult an academic advisor for verification of current requirements.

**Baccalaureate engineering technology graduates are often called technologists to distinguish them from baccalaureate graduates of engineering programs. However, the National Bureau of Labor Statistics does not have a
category called ‘technologist,’ and consequently, many industrial job titles show little distinction between technologists and engineers. Graduates of Engineering Technology and Engineering programs complement each other in their skills and interests, and together with technicians and scientists, they form a technological team which has been able to produce an ever-increasing rate of technological advancement.

Academic Regulations: Division of Engineering Technology

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 10) section of this bulletin. The following additions and amendments pertain to the Division of Engineering Technology.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

The College of Engineering allows academically superior undergraduate seniors to enroll simultaneously in undergraduate and graduate programs and apply a maximum of sixteen credits toward both an undergraduate and graduate degree in the student’s major field. Students who elect the ‘AGRADE’ Program may expect to complete the bachelor’s and master’s degrees in one additional year of full-time study.

To be eligible, applicants must have completed a minimum of ninety credits of course work applied towards the engineering technology degree and be accepted in the professional program of their major. The minimum grade point averages for acceptance into the program are a 3.4 g.p.a. in engineering and not less than a 3.6 g.p.a. in their department of specialization, as computed by the rules of the Division of Engineering Technology. See the departmental advisor for further details.

Student Conduct

Each student is subject to official regulations governing student activities and student behavior. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Academic integrity means that a student is honest with him/herself, fellow students, instructors, and the University in matters concerning his or her educational endeavors. Thus, a student should not falsely claim the work of another as his/her own, or misrepresented him/herself so that the measures of his/her academic performance do not reflect his/her own work or personal knowledge.

If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he or she may be disciplined. Such discipline may include failure in the course, suspension or dismissal, but no dismissal will be directed without reasonable opportunity for an appropriate hearing.

Probation Policy

A student is considered to be on probation whenever his/her cumulative grade point average (g.p.a.) falls below 2.0. A student may also be placed on probation whenever his/her academic performance is deemed unsatisfactory. When placed on probation, the student is required to meet with the Division Head or the Academic Standards Committee of the Division of Engineering Technology, to remove an academic hold on his/her registration. While on probation, a student may not represent the Division of Engineering Technology in student activities. The Academic Standards Committee of the Division formulates the regulations for probationary students and hears requests for exceptions.

A student on probation is expected to bring up his/her grade point average promptly. If, at the end of the first semester on probation, the student’s cumulative grade point average has not increased to at least 2.0, he/she will be excluded from the Division of Engineering Technology for at least one calendar year. Course work taken at any institution during the period of exclusion may not be considered for transfer toward an engineering technology degree.

For part-time students, a semester will be considered to consist of twelve consecutive credits. If a student’s cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, he/she will be returned to regular status. Multiple occurrences of probation will result in the student’s exclusion from the Division of Engineering Technology.

A student may be refused the privilege of registering in the Division if, at any time, his/her grade point average falls below 2.0. A student may also be refused the privilege of registering in the Division for irresponsible attendance and performance in class, regardless of any probationary status.

A student who has been refused registration may request that the Division Head or Academic Standards Committee reconsider his/her status. Such request should only be made when evidence of extenuating circumstances can be provided.

Division of Engineering Technology Rules for Calculating Grade Point Average

The Division of Engineering Technology computes Division and College grade point averages using rules that differ from those used to compute the cumulative grade point average on the official University transcript: the College g.p.a. is calculated based on all engineering and technical courses, as well as required English courses. The Division g.p.a. includes all courses taken within the Division including courses bearing the subject codes of: CMT, ET, EET, MCT, MIT, ET.

For students admitted to the College of Engineering for the Winter 2004 semester or later, repeated courses will not be included in the grade point average calculations (following standard University regulations). The new grade will replace the old grade in the g.p.a. calculation, but only a maximum of five repeated courses will be allowed.

For students admitted to the College of Engineering prior to Winter 2004, the inclusion of repeated courses in the grade point calculation follows different rules. When a course is repeated, the new grade will replace the previous grade unless the student exceeds the maximum number of repeats: one repeat for each thirty-four credits completed at Wayne State University. After the maximum number of repeats is exceeded, both grades are used in computing the student’s grade point average.

Dean’s List of Honor Students

A student who achieves a semester grade point average of 3.5 or more, based on a program of at least twelve credits, is notified by the Dean of citation for distinguished scholarship and his/her name is included on the Dean’s List of Honor Students.

Substandard Performance

The grade D is considered by the Division of Engineering Technology to represent substandard performance. The implications of this are particularly significant in science, mathematics, and technical sequences where a D grade from another institution will not be accepted as transfer credits toward the degree.

If a grade of D is received in any course which is prerequisite to another course in the student’s program, or in a course in his/her area of specialization, or in a required course in mathematics, physics, or chemistry, the student may be required, by his/her advisor, to repeat that course.

A student who is not required to repeat a course in which a D grade has been received may elect to audit such a course to better his/her
knowledge. However, he/she then may not later enroll in the course for credit or obtain credit for the course by special examination.

A course in which a grade below C has been earned may not be subsequently passed by special examination.

When repeating a course, failure for the third time to pass it with a grade satisfactory to the Division constitutes grounds for denying a student further registration in the Division of Engineering Technology.

**Technology Transfer Credit**

University policy allows a maximum of sixty-four semester credits to be transferred from community colleges to Wayne State. In some cases, students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; however, a minimum of thirty semester credits must be earned from Wayne State, and at least twenty-four of those credits must be earned in Division of Engineering Technology courses. Each Engineering Technology degree program specifies lower division technical courses that may be part of the sixty-four credits transferred to Wayne State. These are listed in Requirements tab of each degree program under the heading, Lower Division Technical Transfer Credits. For evaluation of courses submitted to satisfy this requirement, students should consult an Engineering Technology advisor.

**Changes of Election and Withdrawal**

In addition to the University policies regarding changes of program and withdrawal from courses (p. 47), the following additions and amendments apply to the Division of Engineering Technology:

**Registration and Adding Courses**

A student may register for courses through the last day of the second week of classes for fifteen-week courses. A registered student may add a course through the last day of the second week of classes by submitting a completed Drop/Add form. A student may not change from one section of a course to another section of the same course after the fourth week of classes. Drop/Add forms will be valid for ten calendar days from the date of the earliest signature of approval. Once a student is admitted to Wayne State University, he/she does not have to go through the admissions procedure again. If a student does not register for two or more terms, he/she must first have his/her status upgraded at the University Records Office.

**Withdrawals**

Courses from which a student withdraws, such that a mark of WP, WF, or WN appears on the transcript, are counted as an attempt at the course and are taken into account when assessing the allowed number of repeats. If a student feels that circumstances beyond their control (e.g., family emergency, change of work schedule) justify the withdrawal, a written petition may be submitted to the Associate Dean for Academic Affairs before the end of the semester in which the course was taken. If the petition is approved, it will be noted in the student’s advising record that the course will not be counted towards Engineering repeat allowances.

Failure to follow the above policies may result in a grade of F.

**Graduation**

Students must apply for graduation at the beginning of the semester in which they plan on completing their degree requirements. At graduation, the University requires a minimum 2.0 grade point average in the total residence credit. Additionally, Engineering Technology programs require a minimum 2.0 grade point average in the Division. The student's total g.p.a., as well as division grade point average, is calculated using the Division of Engineering Technology rules as described above.

Graduates with a minimum of thirty credits in residence at Wayne State University and a grade point average of at least 3.0 may qualify for a special diploma under the following conditions:

**Summa Cum Laude:** Student must have a grade point average in the 95th percentile of the College of Engineering graduating class.

**Magna Cum Laude:** Student must have a grade point average in the 90th percentile of the graduating class.

**Cum Laude:** Student must have a grade point average in the 80th percentile of the graduating class.

**Commencement**

Each year, commencement exercises are held in May. College Order of the Engineer and Professional Order of Engineering Technology ceremonies will be held in both December and May to induct graduates into these organizations.

• Computer Technology (B.S.C.T.) (p. 168)
• Construction Management (B.S.C.M.) (p. 169)
• Electrical/Electronic Engineering Technology (B.S.E.E.T.) (p. 171)
• Electromechanical Engineering Technology (B.S.E.M.T.) (p. 172)
• Electric Transportation Technology (B.S.E.T.T.) (p. 170)
• Mechanical Engineering Technology (B.S.M.C.T.) (p. 174)
• Manufacturing Engineering Technology (B.S.M.F.T.) (p. 173)
• Energy Storage Systems, Advanced (Certificate) (p. 167)

**Advanced Energy Storage Systems (Certificate)**

The alternative energy economy relies heavily on advanced energy storage systems to prolong the life of energy generated by solar and wind systems. The changing nature of energy resources will increase the need for energy storage in both supply and demand. Energy storage facilities hold a key position in energy supply systems; the benefits of electric energy storage include increasing grid reliability, reducing system transmission congestion, helping manage load, and making renewable electricity sources more suitable as base load providers. Energy storage technologies are also critical to the future of the automotive industry, which is innovating rapidly around vehicle electrification.

The Undergraduate Certificate Program in Advanced Energy Storage Systems provides technically-oriented education that emphasizes the application of advanced technology to solve problems, design and develop products, and improve processes, procedures, equipment, and facilities. This program aims to prepare students for application-oriented careers in Advanced Energy Storage System industry, including storage in automotive, consumer, nuclear and green industries; advanced battery systems and hydrogen electro-chemical cells; mechanical energy storage; thermal and chemical storage; inductive storage based on superconducting magnetic field; and, social and economical aspects of storage technology.

**Admission Requirements**

Beginning Fall 2017, an admissions moratorium is in effect for this program.

Students must be concurrently enrolled in or have completed an undergraduate degree (B.S.) in Engineering, Engineering Technology, Chemistry, or Physics. Students who are currently pursuing a B.S. must have completed at least sixty credits of undergraduate engineering, engineering technology, chemistry, or physics coursework with a minimum of a 2.0 cumulative major g.p.a. Students must document
satisfactory completion of all prerequisite courses (or their equivalent) with a grade of C- or higher.

Students interested in earning an Undergraduate Certificate in Advanced Energy Storage Systems must complete five courses (fifteen credits) selected from the following six courses:

Select fifteen credits from the following: 15

Total Credits 15

**Program Standards**

All students must earn at least a C grade in each of the courses to be applied towards the Certificate and complete the coursework with an overall g.p.a. of at least 2.0. Students concurrently enrolled in an engineering or engineering technology undergraduate program will be governed by overall policy on substandard grades for students pursuing a B.S. degree (one substandard grade allowed for every twenty-four credits completed at WSU). Students who have completed a B.S. degree and are pursuing only the Certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of this academic program.

**Computer Technology (B.S.C.T.)**

The Bachelor of Science in Computer Technology (B.S.C.T.) prepares students for professional work relating advancements in basic science to practical computer applications. This degree is an interdisciplinary program of study which provides a combination of professional courses in computer science, information systems, electronics, and information technology. The particular strengths of the program include:

- applied hands-on curriculum;
- hardware oriented laboratory experiences;
- scientific advancement merged with applications; and
- the various skills and knowledge required for the enhanced job market in this field.

The computer technology program offers excellent prospects for professional positions in both business and industry where the sophistication and implementation of computers dominate a broad spectrum of employment opportunities. This region of the state has a large concentration of technology firms that employ information system designers and application integrators. Classes are usually offered both during the day and in the evening.

**Admission Requirements**

The B.S.C.T. degree program is designed to admit students who satisfy the general undergraduate admission (p. 19) requirements of the University and have an associate degree or equivalent coursework in preparatory programs such as computer information systems, computer technology, data processing or closely related disciplines. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.C.T. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.C.T. degree must earn a minimum of 125 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 31). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 10) and the College (p. 137) and must conform to Division (p. 166) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements including satisfactory achievement of the Critical Thinking Requirement either by completion of a (CT) course or by passing the Critical Thinking Competency Examination (administered by Testing, Evaluation, and Student Life Research Services).

**Plan of Study:** Due to wide variation in backgrounds of associate degree holders, as well as differing rates of progress of full- or part-time students, an individually-tailored plan of study will be developed for each student, in conjunction with a faculty advisor. Courses will be selected based on the student’s academic preparation, course prerequisites, and proposed scheduling of courses.

**Required Background:** Any student deficient in any courses listed under Lower Division (Community College) Technical Transfer Credit will be required to remove the deficiency before completion of fifteen credits in basic science/mathematics and technical core courses.

**Program Requirements:** The Bachelor of Science in Computer Technology requires 125 credits as outlined below:

put forth by governmental agencies. Responsibilities of a construction manager are project planning, cost, time, safety, quality, and contracts.

Working professionals seeking to advance their education, students interested in construction management, or seasoned employees looking to start their own companies often choose construction management to help achieve career goals. People with construction management degrees often work as project managers, superintendents, estimators, schedulers, or green construction/LEED specialists. Many people in the construction industry own and operate their own businesses.

The program offered in construction management specialization includes course work on construction project management, estimating, scheduling, safety, legal and professional aspects, specifications, computer applications and a capstone project. Additional courses from the Business School on accounting, marketing, and management complement the program. Co-op and internship opportunities are available to the students in summers as well as the academic year.

Admission Requirements
This program is designed to admit students who satisfy the general undergraduate admission (p. 19) requirements of the University and have an associate degree or equivalent course work in architectural technology, construction technology, and civil technology. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the B.S.C.M. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.C.T. degree must earn a minimum of 127 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 31). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 10) and the College (p. 137) and must conform to Division (p. 166) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements including satisfactory achievement of the Critical Thinking Requirement either by completion of a (CT) course or by passing the Critical Thinking Competency Examination (administered by Testing, Evaluation, and Student Life Research Services).

Program Requirements: The Bachelor of Science in Construction Management degree requires 127 credits as outlined in the following curriculum.

Engineering Technology Honors
Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program.

Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)
- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200-level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Construction Management (B.S.C.M.)
A professional construction manager is someone who coordinates all that goes into a construction project. The overall goal of a construction manager is to produce a financially sound project that is completed on time and meets the specific needs of the client as well as the codes...
The Bachelor of Science in Electric Transportation Technology (B.S.E.T.T.) Program prepares students for dynamic careers in a growing area of the automotive industry. Electric Transportation Technologists use the principals of science and math to solve problems in industry and business. The B.S.E.T.T. curriculum is a broad based, technically-oriented education that emphasizes the application of advanced technology to solve problems, design and develop products, and improve processes, procedures, equipment, and facilities. Possible uses for a B.S.E.T.T. degree include working with electric vehicles, hybrid electric vehicles, plug-in electric vehicles, and fuel-cell vehicles. As demand for efficiency and sustainability grow in the transportation sector, B.S.E.T.T. graduates will be able to meet the needs of industry.

### Electric Transportation Technology (B.S.E.T.T.)

The Bachelor of Science in Electric Transportation Technology (B.S.E.T.T.) Program prepares students for dynamic careers in a growing area of the automotive industry. Electric Transportation Technologists use the principals of science and math to solve problems in industry and business. The B.S.E.T.T. curriculum is a broad based, technically-oriented education that emphasizes the application of advanced technology to solve problems, design and develop products, and improve processes, procedures, equipment, and facilities. Possible uses for a B.S.E.T.T. degree include working with electric vehicles, hybrid electric vehicles, plug-in electric vehicles, and fuel-cell vehicles. As demand for efficiency and sustainability grow in the transportation sector, B.S.E.T.T. graduates will be able to meet the needs of industry.
Electrical/Electronic Engineering Technology (B.S.E.T.E.E.)

The Bachelor of Science in Electrical/Electronic Engineering Technology (B.S.E.T.E.E.) Program prepares students for diverse and dynamic careers in industry. Electrical/Electronic Engineering Technologists use the principals of science and math to solve problems in industry and business. The B.S.E.T.E.E. program emphasizes hands-on laboratory experiences, and courses stress the practical application of mathematics, science, and engineering to solve real world problems. Possible applications for this degree include: the automotive industry, business machines/professional and scientific equipment, computers and electronics, defense, and electronic utilities. Electrical/Electronic Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org.

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 19) requirements of the University and have an associate degree and a minimum grade point average (g.p.a.) of 2.50. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove the deficiencies before electing any EET courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

This program extends the practical and applied base of the associate degree program with theoretical courses in electrical engineering and engineering technology, and additional courses in mathematics, science, and socio-humanities. Candidates for the B.S.E.T.E.E. degree must earn a minimum of 130 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 31). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 10) and the College (p. 137) and must conform to Division (p. 166) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements including satisfactory achievement of the Critical Thinking Requirement either by completion of a (CT) course or by passing the Critical Thinking Competency Examination (administered by Testing, Evaluation, and Student Life Research Services).

Plan of Study: Due to the various educational backgrounds of associate degree graduates and the different rates of progress of full-time and part-time students, individual plans of study are developed for students in conjunction with faculty advisors.

NOTE: A student who, after receiving one undergraduate degree at Wayne State University, wishes to obtain a second bachelor’s degree must complete at least thirty credits beyond those applied toward the first degree.

Programming Requirements: The Bachelor of Science in Electrical/Electronic Engineering Technology requires 130 credits as outlined in the following curriculum.

Wayne State University Undergraduate Bulletin 2017-2018
Electrical, manufacturing, and mechanical areas, with appropriate integration of electronics and computers in engineering systems. This Bachelor of Science in Electromechanical Engineering Technology (B.S.E.T.E.M.) offers an interdisciplinary education, resulting from the curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science with Honors. A cumulative grade point average of at least 3.3 is required in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science with Honors. A cumulative grade point average of at least 3.3 is required for admission to and continuance in the program. The program is designed to extend the practical and applied base of the associate degree program with more theoretical and comprehensive engineering technology courses, and additional courses in mathematics, science, and socio-humanities.

### Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 19) requirements of the University and have an associate degree in electrical, electronics, industrial, manufacturing, mechanical, or related technology from a community college or equivalent college-level course-work. A minimum grade point average (g.p.a.) of 2.50 is required for admission to the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove deficiencies before completing fifteen credits in basic science/mathematics and technical core courses.

Candidates for the B.S.E.T.E.M. degree must earn a minimum of 130 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 31). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 10) and the College (p. 137) and must conform to Division (p. 166) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements including satisfactory achievement of the Critical Thinking Requirement either by completion of a (CT) course or by passing the Critical Thinking Competency Examination (administered by Testing, Evaluation, and Student Life Research Services).

The Bachelor of Science in Electromechanical Engineering Technology requires 130 credits as outlined in the following curriculum.

## Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor to get the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

### Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200-level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

## Electromechanical Engineering Technology (B.S.E.T.E.M.)

The Bachelor of Science in Electromechanical Engineering Technology (B.S.E.T.E.M.) offers an interdisciplinary education, resulting from the integration of electronics and computers in engineering systems. This major offers an individual plan of study with coursework in electronics, electrical, manufacturing, and mechanical areas, with appropriate prerequisite courses. The program is designed to extend the practical and applied base of the associate degree program with more theoretical and comprehensive engineering technology courses, and additional courses in mathematics, science, and socio-humanities.

Manufacturing Engineering Technology (B.S.M.A.E.T.)

The Bachelor of Science in Manufacturing Engineering Technology (B.S.M.A.E.T.) degree prepares students for professional work in manufacturing industry and advanced production systems. This is a program of study which provides a combination of professional courses in manufacturing, processes and systems, robotics, mechatronics and industrial automation, and welding and assembly processes. The particular strengths of the program include: applied hands-on curriculum; hardware-oriented laboratory experiences; scientific advancement merged with applications; and the various skills and knowledge required for the enhanced job market in this field. This region of Michigan has a large concentration of high technology firms which employ manufacturing professionals, designers, and application integrators. The program offers excellent prospects for professional positions in both business and industry, where manufacturing dominates a broad spectrum of employment opportunities. Classes in the B.S.M.A.E.T. program are usually offered both during the day and in the evening.

Admission Requirements

The B.S.M.A.E.T. degree program is designed to admit students who satisfy the general undergraduate admission (p. 19) requirements of the University and have an associate degree or equivalent course work in manufacturing. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.M.A.E.T. program upon successful completion of pre-calculus (MAT 1800) and physics courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus. Candidates for the B.S.M.A.E.T. degree must earn a minimum of 128 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 31). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 10) and the College (p. 137) and must conform to Division (p. 166) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements including satisfactory achievement of the Critical Thinking Requirement either by completion of a (CT) course or by passing the Critical Thinking Competency Examination (administered by Testing, Evaluation, and Student Life Research Services).

Program Requirements: The Bachelor of Science in Manufacturing Engineering Technology requires 128 credits as outlined in the following curriculum.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200-level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)
# Mechanical Engineering Technology (B.S.E.T.M.E.)

The Mechanical Engineering Technology (B.S.E.T.M.E.) Program prepares students for diverse and dynamic careers in industry. B.S.E.T.M.E. graduates work in fields that require understanding of the relationships and dependencies among materials, product development, manufacturing systems and processes, or energy production, transformation and transmission (including alternative energy). The program emphasizes hands-on laboratory experiences, and courses stress the practical application of mathematics, science, and engineering to solve real world problems. The B.S.E.T.M.E. program provides students with a well-rounded education focused on the knowledge of existing and new developments in their technical specialty. The program offers students the opportunity to specialize in one of three tracks: design, energy, or manufacturing. B.S.E.T.M.E. graduates work with their minds as well as their hands to solve problems related to their chosen area of specialization.

The Bachelor of Science in Mechanical Engineering Technology (B.S.E.T.M.E.) program is accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org.

## Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 19) requirements of the University and have an associate degree or equivalent college-level course work in one of the following or related technical areas:

- Aerospace Technology
- Automotive Technology
- Climate Control
- Computer-Aided Design
- Drafting
- Energy Technology
- Fluid Power
- Manufacturing
- Mechanical Design
- Mechanical Technology
- Powerplant

A minimum grade point average (g.p.a.) of 2.50 is required for admission to the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any course listed under Lower Division Technical Transfer Credit will be required to remove the deficiency before completing fifteen credits in basic science/mathematics and technical core courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.E.T.M.E. degree must earn a minimum of 130 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 31). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 10) and the College (p. 137) and must conform to Division (p. 166) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements including satisfactory achievement of the Critical Thinking Requirement either by completion of a (CT) course or by passing the Critical Thinking Competency Examination (administered by Testing, Evaluation, and Student Life Research Services).

## Program Requirements:
The Bachelor of Science in Mechanical Engineering Technology requires 130 credits as outlined in the following curriculum.
Basic Science and Mathematics
CHM 1020 Survey of General Chemistry 4
MAT 1800 Elementary Functions 4
MAT 3430 Applied Differential and Integral Calculus 4
MAT 3450 Applied Calculus and Differential Equations 4
PHY 2130 Physics for the Life Sciences I 4
PHY 2131 Physics for the Life Sciences Laboratory 1
PHY 2140 (PS) Physics for the Life Sciences II 4
PHY 2141 Physics for the Life Sciences Laboratory 1
Life Sciences (LS) elective 3

MCT Upper Division Core
ET 3630 Statics 3
ET 3650 Dynamics 3
ET 3850 Reliability and Engineering Statistics 3
ET 3870 Engineering Economic Analysis 3
ET 5870 Engineering Project Management 3
ET 4999 Senior Project 3
MCT 3010 Instrumentation 3
MCT 4150 Applied Thermodynamics 3
MIT 3500 Machine Tool Laboratory 3

MCT Technical Tracks
Select one of the following tracks: 9
Design Track:
  MCT 3100 Mechanics of Materials
  MCT 3410 Kinematics and Dynamics of Machines
  MCT 4400 Design of Machine Elements
Energy Track:
  MCT 4180 Fluid Mechanics
  MCT 4210 Heat Transfer
  MCT 5210 Energy Sources and Conversion
Manufacturing Track:
  ET 5995 Special Topics in Engineering Technology I
  MIT 3520 Manufacturing Processes Theory
  MIT 3600 Process Engineering
  MIT 4700 Computer-Aided Design and Manufacturing

Upper Division Technical Electives
Electives 8

Lower Division Technical Transfer Credit
ET 2140 Computer Graphics 3
ET 2160 Computer Applications for Engineering Technology 2
ET 2200 Engineering Materials 3
EET 2000 Electrical Principles 3

Other technology courses 21

Communication Requirements
(BC) Basic Composition course 3
(IC) Intermediate Composition course 3
(OC) Oral Communication course 3

Other General Education Requirements
American Society and Institutions (AI) 3
Critical and Analytic Thinking (CT) Competency Examination 0
Foreign Culture (FC) 3
Historical Studies (HS) 3
Philosophy and Letters (PL) 3
Social Sciences (SS) 3

Visual and Performing Arts (VP) 3
Total Credits 130

Engineering Technology Honors
Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)
- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200-level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Engineering Entrepreneurship (Undergraduate Certificate Program)
Engineers today must be trained not only to solve problems, but also to participate in bringing new ideas and products to market. Knowledge and skills in entrepreneurial marketing, finance, business law, product liability, intellectual property and management have increasingly become valuable assets for engineering students interested in starting or working as part of a new business venture. This certificate program will train engineering students in the entrepreneurial skills required to commercialize new ideas, technologies and products. The Engineering Entrepreneurship Certificate Program allows students to take courses in entrepreneurial marketing, finance, law and management in combination with the traditional engineering courses in their major. Students also have the opportunity to put their learning into action by way of an entrepreneurial Capstone project in their field of study.

Admission Requirements: Students must be concurrently enrolled in or have completed an undergraduate degree (B.S.) in engineering with a minimum of a 2.0 cumulative major g.p.a. Students currently pursuing a B.S. in engineering must have completed at least sixty credits of undergraduate coursework and be enrolled in the professional engineering program of their discipline.

Certificate Requirements: To earn a Certificate in Engineering Entrepreneurship, students must complete 15-16 credits including the following courses:

CE 5810 Legal Aspects of Engineering and Construction 3
FIN 3290 Business Finance 3
MKT 2300 Marketing Management 3
MGT 5650 The Entrepreneur and Venture Creation 3

Wayne State University Undergraduate Bulletin 2017-2018 175
Capstone project or applied learning project completed in one of the following courses:

Total Credits: 15-16

All students must earn at least a grade of ‘C’ in each of the courses to be applied towards the Certificate and complete the coursework with an overall g.p.a. of at least 2.0. Students concurrently enrolled in an engineering undergraduate program will be governed by overall policy on substandard grades (p. 137) for students pursuing a B.S. degree. Students who have completed a B.S. degree and are pursuing only the Certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of this program.

**Nanoengineering (Undergraduate Certificate Program)**

Nanoengineering is the study and implementation of techniques to work with small collections atoms and molecules at the "nano"-scale (i.e., 1-100 nanometers), at which new physical properties and phenomena emerge. The undergraduate nanoengineering certificate program of the College of Engineering is distinct from existing undergraduate programs in that students take courses toward this certificate program while pursuing their B.S. degree. Four courses plus a seminar course are required for completion of the certificate. This program offers nanoengineering courses that provide students with knowledge and hands-on experience in this newly developing field.

The Certificate Program's learning objectives include:

- To provide students in-depth training in nanotechnology and nanomedicine in one unified certificate program that crosses traditional departmental and disciplinary boundaries
- To increase students' knowledge in engineered materials, processes, and devices by linking less familiar nanoscale phenomena with more familiar bulk materials and phenomena
- To offer students hands-on laboratory training in nanotechnology
- To offer students research experience either in faculty labs or industrial labs
- To prepare students for a career in nanotechnology, high tech, and advanced manufacturing industries or research institutions
- To enable students to develop a strong multidisciplinary educational background to be competitive in a global economic environment
- To enable students to develop professional, communication, and teamwork skills that will widen their career options

**Admission Requirements** include current enrollment in a related bachelor's degree program or previous award of a related bachelor's degree. The program will be open only to:

1. current WSU undergraduate students who have completed at least sixty credits and have a g.p.a. of 3.0 or above; and
2. students who have previously earned a bachelor's degree at WSU or another accredited institution with a final cumulative g.p.a. of 3.0 or above.

Eligible students not currently enrolled at WSU may apply for direct admission to the program.

**Certificate Requirements:** Fifteen credits including all of the following courses:

<table>

Total Credits: 15

All students must earn at least a grade of B in each of the courses to be applied toward the certificate and complete all the coursework with an overall g.p.a. of at least 3.0. Students concurrently enrolled in an engineering undergraduate program will be governed by the College's overall policy on substandard grades for students pursuing a B.S. degree. Students who have completed a B.S. degree and are pursuing only the certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of the program.
Mission Statement

The College of Fine, Performing and Communication Arts at Wayne State University provides the highest quality education for practitioners, scholars, and consumers in art, art history, communication, dance, music and theatre. This education leads to careers, uses for the arts in other disciplines, enhanced critical abilities, the enrichment of everyday life and the building of new generations of artists, professionals and scholars. Programs of study focus on the integration of theory and practice through the creation, discovery, preservation and transmission of knowledge in fine, performing and communication arts.

The College serves the University and the larger community by creating partnerships that emphasize its own rich, diverse curriculum, interdisciplinary studies, reciprocal professional interaction and outreach activities appropriate to each area of work. Special emphasis is placed on forging alliances with local, state and national constituencies such that the College is both a leader and a resource providing expertise, information and guidance.

Within an appropriate and attractive academic environment the College promotes an atmosphere conducive to intellectual and artistic growth, risk-taking and personal and professional development at all levels in both individual and collaborative endeavors. This environment also assists the College in its role as a national center for creative, research and teaching excellence.

As the cultural gateway of the University, the College provides public events and curricular offerings that nurture creative development, enrich aesthetic values and sensitivity, heighten awareness of the arts experience and reflect the disciplinary diversity of its areas of study. Cultural, racial, ethnic and gender diversity is an important commitment in public events and educational efforts.

Ultimately, the mission of the College is the integration of theory and practice through the creation, discovery, preservation and transmission of knowledge in the fine, performing and communication arts.

Campus Resources: Traditional courses of study are augmented by a variety of performance and presentation resources considered integral to many of the creative programs. Included in these are the Bonstelle Theatre, the Wayne State University Dance Company, the Wind Symphony and University Symphony Orchestra, the Intercollegiate Debate Team, plus exhibitions in the Elaine L. Jacob Gallery and the Art Department Gallery that feature work created by students and studio faculty. These are only a few of the campus resources that are especially important for majors in the College. A more comprehensive listing can be found under each of the specific Departments.

Detroit Resources: The proximity of the Wayne State campus to institutions of the Detroit Cultural Center (which includes the Detroit Institute of Arts, Museum of Contemporary Art Detroit, the Charles H. Wright Museum of African American History, Michigan Opera Theatre and Orchestra Hall, among other institutions) provides further unique and enriching benefits for students. Professional staff members of these institutions often serve as adjunct faculty in College programs. Nearby, too, are major print and electronic communications resources that similarly provide both adjunct faculty and professional assistance to other programs in the College.

Accrediting Agencies: Programs offered by the Maggie Allesee Department of Theatre and Dance are accredited by the National Association of Schools of Theatre and by the National Association of Schools of Dance. Programs in the Department of Music are accredited by the National Association of Schools of Music. The Public Relations program in the Department of Communication is accredited by the Public Relations Society of America.

Academic Regulations: Fine, Performing and Communication Arts

For complete information regarding academic rules and regulations of the University, students should consult Academic Regulations (p. 10) section of this bulletin. The following additions and amendments apply to the College of Fine, Performing and Communication Arts.

Academic Advising

The College provides comprehensive academic advising for each major in the department in which the major resides. In consultation with their academic advisor, students are expected to create an academic Plan of Work and review their progress with the advisor on a regular basis. Freshmen and sophomores should meet with their academic advisor at least once each semester. Juniors and seniors should meet with their advisor at least once per year and should also be consulting with their faculty mentors. Students should always seek advising immediately if they are having difficulties in their academic work.

Attendance

Regular attendance and performance is necessary for success in college work. Each instructor, at the beginning of the course, will announce attendance requirements.

Normal Program Load

The requirements for graduation are based upon an average program of fifteen credits per semester for eight semesters. The normal load shall not exceed eighteen credits.

Because two hours of outside preparation are normally expected for each class hour in each course, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy. A few hours of employment a week may be safely added to this program by a capable student.

Retention of Student Records

Term papers and examinations shall either be returned to the student or retained by the instructor for a minimum of six months. Thereafter they may be destroyed. Instructors shall retain grade books for at least five years following the end of a term, and instructors who leave the institution shall give grade books for courses conducted during the past five years to their department chairperson. Five years after the end of a course, grade books may be returned to the instructor or destroyed by the department.

Dean’s List

The Dean’s List of academically exemplary students is compiled each fall and winter term based on the following criteria: a 3.75 grade point average for students registered for full-time programs of twelve credits or more that contribute to the grade point base; and a 4.0 grade point average for students registered for between six and eleven credits.
Students who receive marks of I, WN, or WF, or grades of N or U (p. 47) are not eligible.

**Academic Probation**

**Low Grade Point Average**

If a student's work averages below 2.0, the student will be placed on academic probation (p. 10). The student will be required to obtain permission from an advisor before registering, as outlined in an email to the student, notifying instructions for addressing the Probation status. Such permission to register will be granted only after the student meets with his/her departmental advisor and/or the college’s Success Coach, depending on the student’s level of Probation and the instructions provided in the Probation notification email. The student and advisor/Success Coach will identify previous causes of academic difficulty and will formulate a plan for future academic success.

**Registration and Holds on Records**

A student on academic probation has an academic probationary ‘hold’ placed on his/her record, and must obtain a release of this hold each term before being permitted to register. To obtain this release, the student must meet with his/her departmental advisor and/or the college’s Success Coach, as indicated above under ‘Low Grade Point Average.’ The hold will not be released after the last day of the final registration period for the term in which the student intends to register.

**Restriction**

While on academic probation, a student may not represent the College in student activities.

**Removal of Probation**

Academic probation will be removed at the end of any term in which the student achieves a cumulative grade point average of 2.0 (C) or higher for all degree work taken at the University.

**Exclusion**

**Low Grade Point Average**

A student on academic probation shall be allowed three subsequent terms for enrollment in probationary status. At the conclusion of the three terms, a student who has not achieved a cumulative grade point average of at least 2.0 shall be dismissed from the College. This dismissal may be reviewed by the Reinstatement & Appeals Committee of the College if the student submits appropriate paperwork evidencing his/her eligibility to return and remain successful. A student dismissed from the College may not be reinstated until one calendar year has passed; however, reinstatement paperwork may be submitted as early as one semester prior to the student’s eligible reinstatement date. A student may appeal dismissal during the semester following the dismissal notification.

**Reinstatement**

After one year of exclusion, the student may apply for reinstatement to the College. The reinstatement application must be returned to the CFPCA Dean’s Office on or before whichever following deadline precedes the student’s eligible reinstatement semester: November 15th, March 15th, or July 15th. The decision to reinstate the student will be based upon evidence presented by the student that circumstances have changed and that the probability for success has increased.

**Cheating and Plagiarism**

The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. Serious acts of dishonesty may lead to suspension or exclusion.

The instructor has the responsibility to notify the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Information on procedures is available through the Dean of Students Office.

**Grade Appeal Procedure**

It is the instructor’s prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment. Grounds to appeal a final grade include the following:

1. The application of nonacademic criteria in the grading process: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status
2. Sexual harassment or discrimination
3. Evaluation of student work by criteria not directly related to course requirements
4. A miscalculation of the grade according to information contained on the course syllabus or other posted or distributed information

**Note:** These policy guidelines do not apply to allegations of academic dishonesty. Academic dishonesty matters should be addressed under the Student Code of Conduct.

**Coursework Grades**

Disputes over grades should first be addressed informally between the student and the course instructor. If the student and instructor cannot reach a mutually agreeable resolution, the student can formally appeal the final course grade.

If a student seeks to formally appeal a final course grade, the following steps need to be taken.

**Final Grade Appeal - for Undergraduate and Graduate Students**

The student must initiate any final grade appeal in writing, including any supporting documentation, within thirty (30) days following official notification of grades for the term. The appeal is to be addressed to the course instructor. The instructor is to respond within ten (10) days of receiving the appeal.

If the student is not satisfied with the response or receives no response from the instructor, the student has ten (10) days to submit a written appeal directed to the Department Chair.

The student will be notified of the Department’s decision within thirty (30) days of receiving the appeal. Appropriate departmental committees may be consulted for advice in grade appeals and the instructor will be invited to reply to the issues raised by the student. In all cases, appeals at the Department level will result in a written response that is sent to the student and to the instructor.

If the student is not satisfied with the response from the Department level, the student may, within ten (10) days of receiving the Department decision, submit a written appeal directed to the Dean of the College and copy it to the Department Chair. This written appeal is to contain a copy of the written appeal that was directed to the Department Chair and a statement explaining the student’s dissatisfaction with the Department level response. The College will provide a decision within thirty (30) days of receipt of the student’s appeal.
If the student wishes to continue the final grade appeal, the student may request a formal review by the Provost's office within thirty (30) days of the date of the College's response. Such requests are subject to the university's Academic Appeal Procedure (see University (p. 10) Appeal Procedures (p. 10)). The appeal to the Provost's office must be submitted in writing, with a copy sent to the Dean of the College.

Any meetings held in relation to the appeal shall provide parties the opportunity to present additional information orally or in writing. No additional persons should be permitted at such meetings without advance approval by the Chair or Dean, as appropriate.

Students/faculty may contact the Ombudsperson at any time for assistance with any problem associated with a grade decision or grade appeal.

Graduation With Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude. Graduation with Distinction will be indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each commencement the top twenty percent of students in the College of Fine, Performing and Communication Arts who have earned the highest grade point average in the College with the following approximate distribution:

- Top 5%: Summa Cum Laude
- Next 5%: Magna Cum Laude
- Next 10%: Cum Laude

The specific minimum grade point average for these distinctions will be determined each year in the following manner (except that it shall not be less than 3.0).

Based on the grade point average distributions of the previous year's senior class, the grade point average cut-offs for the College will be established for the current academic year.

The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University;
2. A minimum grade point average, as established above, on all work at Wayne State University completed by the end of the term of graduation. (For notation in the Commencement Program, the grade point average on all work completed prior to the term of graduation will be used.)

Commencement

All students must formally apply for degree certification by the deadline established by the Office of the Registrar for the term of intended graduation.

Information concerning commencement announcements, caps and gowns, invitations, tickets, time and place, assembling and other relevant items will be provided to graduates by the Commencement Office prior to the event.

Bachelor’s Degree Requirements: Fine, Performing and Communication Arts

Credits

A candidate for a Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, or Bachelor of Science degree must complete at least 120 credits. Certain curricula may require additional credits. Also see Restrictions on Credit below. Degree components comprising these credits are: 1) General Education Requirements; 2) College Requirements; 3) Department Requirements; and, 4) Major Requirements.

General Education Requirements

University-wide General Education Requirements are designed to enhance students' basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth.

Entering undergraduate students in the College of Fine, Performing and Communication Arts are required to satisfy the University General Education requirements (p. 31).

College Requirements

Bachelor of Arts Degrees

Foreign Language Requirement

For students choosing Bachelor of Arts degree programs, the College foreign language requirement also fulfills the University General Education Foreign Culture (FC) requirement.

All students pursuing the Bachelor of Arts degree in the College of Fine, Performing and Communication Arts must successfully demonstrate proficiency equivalent to the three-course basic sequence in a single foreign language (course numbers 1010, 1020 and 2010) or a two-course sequence of foreign language plus one semester of foreign culture taught in English. For students choosing the three-course language sequence, the requirement is satisfied by completing the 2010 course in one of the following languages: Arabic, Armenian, Chinese, French, German, Greek, Hebrew, Italian, Japanese, Latin, Polish, Russian, Spanish, Swahili, or Ukrainian.

Those students continuing in the study of a foreign language begun in high school or at another college may wish to take the qualifying examinations or interviews administered by the Department of Classical and Modern Languages, Literatures, and Cultures, to place into an appropriate level in the three-course or two-course sequence and must complete the sequence based on placement to demonstrate proficiency. The College Foreign Language Requirement will be considered satisfied by those students whose test scores place them beyond the intermediate (2010 course) level.

Bilingual Students

The College Foreign Language Requirement will be considered satisfied for students who were born in and completed their secondary education in a country whose language is not English. In addition, the requirement will be considered satisfied for a student who, through qualifying examinations, is deemed fluent in another language (read, write and speak). However, no credit (through course work or by examination) will be granted for elementary- or intermediate-level courses in that language.
Bilingual students who satisfy the Foreign Language Requirement in this manner will simultaneously fulfill the University General Education Requirement in Foreign Culture.

Bachelor of Fine Arts, Bachelor of Music and Bachelor of Science Degrees

Students pursuing degree programs other than the Bachelor of Arts also have the option to choose one course taught in English about a foreign culture from the University General Education list of Foreign Culture courses (p. 31) to satisfy the requirement. Students pursuing degree programs other than the Bachelor of Arts may also choose to satisfy the University General Education Requirement in Foreign Language (FC) by showing competency in the College Foreign Language Requirement as described above.

Department Requirements

Some of the courses listed in the University General Education program are also courses required by for specific majors within this College. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). The following list itemizes these courses. Only those General Education categories are cited in which such overlapping occurs. For more information, please consult an academic advisor in the major Department.

Critical and Analytic Thinking (CT)

COMMUNICATION
Communication Studies Major:
COM 2110 Argumentation and Debate 3

Oral Communication (OC)

COMMUNICATION
Communication Studies Major OR Public Relations Major:
COM 1010 Oral Communication: Basic Speech 3

Life Science (LS)

Major Requirements

A major is a program of intensive study in a Department within the College. The specific course requirements for all such majors are listed in this bulletin under each of the Departmental sections. Some degree programs offer students a choice of concentrations within the major. Students who plan to elect a major should consult with a departmental academic advisor prior to initial course registration. Courses in the major (and concentration, as applicable) must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the major. In addition, the student is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

Students who have not decided on a particular major area of study may initially select an exploratory option thereby indicating only the intention to take a degree in one of the Departments of the College. These options are Exploratory Communication Arts, Exploratory Fine Arts, Exploratory Music, and Exploratory Performing Arts. In partnership with academic advisors, students are encouraged to choose a specific degree program in one of the Departments within thirty credit hours. The exploratory option is not available for transfer students.

Course requirements vary with each curriculum. Exceptions are permitted to the College rules governing the minimum and maximum credits in the major subject and the maximum credits allowed in restricted courses if provision for such exceptions are stated or implied in the curriculum requirements outlined in this bulletin. Descriptions of courses and the various curricula may be found in this Bulletin, under each of the Departmental sections of the College of Fine, Performing and Communication Arts.

Capstone Course: All undergraduate students must successfully complete a capstone course within their major. This course will be taken during the senior year (last thirty credits in course work) and provides a systematic
focus on and assessment of the knowledge and skills obtained in the major.

Credits: The major must include at least twenty credits in one subject, exclusive of the introductory courses and inclusive of some advanced work. No more than forty-six credits in the major subject (including introductory courses) may be counted toward a degree, except in specific curricula in which additional courses are specified in the curriculum outline.

For majors that require intensive study in a particular subject, more than forty-six credits are allowed.

Within the above limits and the University’s Bulletin-in-Effect (p. 31) Graduation Policy (p. 21), each major program has specific requirements, and these requirements may be modified from time to time; therefore, it is the student's responsibility to stay informed of current requirements from the major Department.

The major completed is part of the degree designation on the diploma.

Double Major

If a student wishes to declare a double major, the approval of the chairperson or designated representatives of each of the departments of the intended majors must be obtained. In order for a student to graduate with a double major, the major requirements in both majors (and areas of concentration, as applicable) must be fulfilled. All courses in the major must meet the minimum grade requirement designated by the department and an overall GPA in the major of C (2.0) or higher. In addition, the student is required to maintain a cumulative g.p.a. of C (2.0) or higher for all University coursework.

PLEASE NOTE:

1. If the majors are in two different colleges, the student must complete the General Education curriculum of the college that has the most comprehensive requirements;
2. only the name of the first of the two majors will appear on the diploma; and
3. the names of both majors will appear on the transcript. Students who wish to pursue dual concentrations within a single department must secure the permission of the chairperson or designated representative of the department. However, only one concentration will appear on the transcript.

Academic Procedures (Majors and Minors)

For procedures on declaring a major, adding a second major or second degree, or adding a minor, students should consult the sponsoring departmental academic advisor. Students should consult with their academic advisor as soon as possible to establish a comprehensive Plan of Work in order to pursue their academic goals as efficiently and effectively as possible.

Second Degree

A student who has received a Fine, Performing and Communication Arts degree from Wayne State University or any other accredited institution may obtain a second bachelor's degree in another academic area by registering in the College/School sponsoring the degree program. A graduate of Wayne State University who has earned a degree from the College of Fine, Performing and Communication Arts may be ranked as an undergraduate by declaring a new major (in a departmentally approved area of concentration, as applicable) and indicating a desire to earn a second undergraduate degree. Other Wayne State University graduates must transfer to the College of Fine, Performing and Communication Arts. A student from another institution must be admitted to the College by the University Admissions Office. Courses in the major (and concentration, as applicable) must be completed with the grade of C (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of C (2.0) or higher in order to complete the major. In addition, the student is required to maintain a cumulative g.p.a. of C (2.0) or higher for all University coursework.

It is assumed that the second degree major will be different than that of the first degree and the student is not earning redundant credit; generally, no second degree will be granted in the academic area in which the first degree was earned. The University also requires that the student complete at least thirty credits in coursework at Wayne State University beyond the first degree, in order to be granted a second bachelor’s degree from Wayne State University. If a student is pursuing a Bachelor of Arts as a second degree, the Foreign Language Requirement does not apply.

Concurrent Degrees

A student who has completed all the University, School/College, and Department requirements for two different degree programs and who has accumulated 150 or more degree credits may apply for both degrees simultaneously. A separate diploma will be issued for each degree and both degrees will be listed on the transcript. However, students intending to earn concurrent degrees are required to obtain permission from the Office of the Dean of each college sponsoring one of the intended degree programs prior to the accumulation of 120 degree credits. Another, and more usual, procedure for students satisfying the requirements of two different major programs is to declare a double major and graduate with one degree, in which case as little as 120 degree credits may be required (see Double Major). All courses in the major must meet the minimum grade requirement designated by the department and an overall GPA in the major of C (2.0) or higher. In addition, the student is required to maintain a cumulative g.p.a. of C (2.0) or higher for all University coursework.

Fine, Performing and Communication Arts: Minor Options

The College of Fine, Performing and Communication Arts offers the option of minor concentrations in various subjects both to students in this college and other schools and colleges of the University. Minors are optional and students may choose not to fulfill the typical 18-21 credits of course work that make up a minor. Students are strongly encouraged to consult with departmental academic advisors for course selections. Courses in the minor must be completed with the grade of C (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of C (2.0) or higher in order to complete the minor.

The notation of the minor will appear on the transcript but not on the diploma. Early declaration of the minor is encouraged so that coursework can be incorporated into the student’s ongoing Plan of Work, see above under Academic Procedures (Majors and Minors).

Senior Rule

In addition to the University policy, the College requires that all competency requirements must be met before Senior Rule (p. 19) registrations can be considered. No student who has competency requirements to fulfill in the final semester of his or her undergraduate program will be eligible to apply for Senior Rule.
Teacher Preparation Curricula

Health Examinations, Background Check and CPR Certification

At the beginning of the freshman year, all students entering the University who are considering teacher education work should take the health examination. A health re-check is required as part of the Level 2 application for admission to the College of Education. A background check and CPR certification are also required as part of the admission process for the College of Education.

Teaching: Combined Curriculum for Music, Dance and Communication Majors

This curriculum leads to a bachelor's degree and a Michigan Secondary Provisional Certificate.

The Combined Curriculum for Secondary Teaching is offered in cooperation with the College of Education and prepares the student for a teaching major in grades K-12 (music, dance) and 7-12 (speech) and a teaching minor in grades 7-12. In this curriculum the student takes the first two years of course work in the College of Fine, Performing and Communication Arts. Courses in the third and fourth years are taken concurrently in Education and Fine, Performing and Communication Arts. Students interested in this program should consult a departmental academic advisor who will provide a curriculum outline.

Degree in the College of Fine, Performing and Communication Arts:

Students interested in secondary teaching begin their academic studies in the College of Fine, Performing and Communication Arts in their departmental major (and concentration, if available). At the end of the sophomore year, students consult with their academic advisor in their major Department concerning the Level 2 application to the College of Education. Prior to the beginning of the junior year, the student then applies to the College of Education for official admission to the combined curriculum for secondary teaching and must be approved by the College of Education as a candidate for teacher certification. During junior and senior years the program requests will be signed by both a College of Fine, Performing and Communication Arts major academic advisor and by the appropriate advisor in the College of Education.

Study Abroad

Various opportunities for study abroad are available through the University. Students should contact their major Department and the Study Abroad Office for further information regarding these programs.

Honors Courses

All departments in the College of Fine, Performing and Communication Arts offer Departmental Honors. Students enrolled in the College of Fine, Performing and Communication Arts who are interested in pursuing University or Departmental Honors curricula should refer to Undergraduate Honors Curricula (p. 41), or contact the departmental honors advisor.

Restrictions on Credit

The College imposes the following restrictions on credit:

Maximum Credits in One Subject: A student may not count as credit toward a degree more than forty-six credits in courses in any one subject except in specific curricula in which additional courses are specified in the curriculum outline.

Over-Age Credits: A student attempting to complete a major after a protracted interruption in education, or on a part-time basis over an extended period of time, may find that some of the early course work is out of date. In such cases, a Department may require refresher work or demonstration of preparation for advanced courses in the Department.

Restrictions on Transfer Credit — Two-year Schools: No more than sixty-four semester credits may be transferred from two-year colleges.

Life Fitness Activity: No more than eight credits may be earned.

Credit by Examination: No more than thirty-two credits earned by examination will apply towards graduation.

Advanced Courses: At least fifteen credits in courses numbered 3000 or above must be earned.

Repeated Subjects: It is understood that degree credit will not be granted for coursework for which credit has already been granted. Since similar courses may have different names at different times and at different colleges, students are advised to make sure they do not offer repeated coursework as credit toward a degree.

Extra Credits: Extra credits are any credits taken in excess of the normal load of eighteen credits per term. A student with a 3.0 grade point average may take more than eighteen credits, but not to exceed twenty-one credits, only when the proposed program carries the written approval of the academic advisor.

Grade Point Average

All students are required to maintain a cumulative grade point average of 'C' (2.0) for all University coursework. In addition, courses in the major (and concentration, as applicable) must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the major.

Residence Requirement

To qualify for a baccalaureate degree in the College of Fine, Performing and Communication Arts a minimum of thirty credits must be earned in the College. The last thirty credits applicable to the degree, not including credit by special examination, must be completed in an undergraduate College or School of Wayne State University. Credit by special examination may not be counted as resident credit but such credit, if earned during a semester in which the student is registered, will not be considered an interruption of residence.

In special circumstances, senior residence policy regarding the last thirty credits may be interrupted with the approval of the student's major Department and the College of Fine, Performing and Communication Arts Dean's Office; however, the candidates with less than the minimum thirty credits of residency in the College of Fine, Performing and Communication Arts are not eligible.

Requests for exceptions to the College Residency requirement must be submitted on a "Request for Final Thirty-Credit-Hour Residency Waiver". The form requires the support and signature of an academic advisor; completed waiver requests must be submitted to the Associate Dean of the College for consideration.

Art and Art History

Office: 150 Art Building, 450 Reuther Mall; 313-577-2980
Chairperson: John Richardson
Undergraduate Advisor: Avanti Herczeg
Academic Services Officer: Michele Porter
Visual Resource Curator: Terry Kerby
Art Exhibitions Director: Tom Pyrzewski
The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity. By receiving a comprehensive training in the visual arts within the context of a liberal arts education, students are encouraged to master the various avenues of creative investigation and learning within the Department as well as in other departments of the College and the University at large. Each student is thereby able to progress from fundamentals to creative and intellectual maturity and given the tools of professionalization in a variety of different areas while immersed in the rich diversity of cultural and research opportunities offered by the University as a whole.

**Academic Work Retention Policy:** The Department reserves the right to retain, for its permanent collection, the work submitted by students for credit in any course, and to exhibit or reproduce such work in University publications. Students are encouraged to retain work as they proceed through their program, so as to have at least twenty works for a final portfolio review and demonstration of progress.

**Advising:** All students in the Department of Art and Art History are encouraged to meet regularly with their advisors and major advisors on a seminar basis. Students are advised to register as early as allowable to ensure that classes are available to them. Students are encouraged to take courses pertaining to their major as soon as the first semester of study in the Department of Art and Art History. They are also encouraged to consult the Department advisors for information regarding the declaration of major.

**Transfer Students**

Transfer students must complete a minimum of twenty-seven resident credits in art courses for the B.F.A. degree with a studio major; a minimum of twelve resident credits with B.A. degree with a studio major; a minimum of twelve resident credits with an art history major; or a minimum of twelve resident credits for either the B.A. or B.S. degree with a major in design and merchandising. The minimum grade for each course required in the major, which must be taken in the Department of Art and Art History, must be no less than a C- in order for the course credit to count toward completion of the degree. A minimum of fifty-six credits must be completed in a Bachelor’s Degree granting institution.

**Articulation Agreements (Transfer of Credit)**

Articulation agreements are formal arrangements by which Wayne State University enters into agreement with other institutions for the transfer of college credits in certain designated degree programs. Students who have come to the Department of Art and Art History to pursue a degree in Art, Art History or Fashion Design and Merchandising under an articulation agreement with another school or college program are required to meet with the Department academic advisor on a regular basis to ensure compliance with the terms of the agreement.

- Art (B.A.) (p. 183)
- Art History (B.A.) (p. 184)
- Design and Merchandising (B.A.) (p. 186)
- Design and Merchandising (B.S.) (p. 187)
- Fine Arts (B.F.A. with a major in Art) (p. 187)
- Fine Arts (B.F.A. with a major in Design) (p. 189)
- Art Minors (p. 185)
- Art History Minors (p. 184)

**Art (B.A.)**

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

**Admission Requirements**

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates for the Bachelor of Arts in Art must complete 120 credits including satisfaction of the University General Education requirements (p. 31), and a minimum of forty-eight credits in art courses, including the Core Requirements and Departmental Requirements cited below. No grade lower than a ‘C’ in a major course may be applied toward the completion of the degree. Students pursuing a Bachelor of Arts degree must fulfill the foreign language requirement (p. 21). All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 177) governing undergraduate scholarship and degrees.

Select four studio electives

Total Credits: 21

All courses in the minor must be completed with the grade of C- or higher.

Design Minor

This minor offers students the opportunity to learn fundamental visual concepts in design and apply these in a studio setting. The minor also broadens understanding of creative expression from the past to the present.

Students must complete 21 credits as specified below:

**Textile Design**

This minor offers students the opportunity to learn textile design skills and apply these in a studio/industry setting. The minor provides course options in both print and woven textile design. The minor combines elements of the fibers and fashion programs.

Students must complete 21 credits as specified below:

**Drawing**
- ADR 1050 Drawing I 3

**Core**
- ACO 1200 Surface Studio 3

**Graphic Design**
- AFA 2410 Introduction to Fabric Printing and Dyeing 6
- AFA 3640 Digital Textile Design 3

**Design History**
- Select one of the following:
  - AFA 5430 History of Costume
  - ADN 6320 History of Modern Design I
  - ADN 6330 History of Modern Design II

**Textile Design Studio Electives**
- In discussion with your art advisor, select two studio electives from fibers
  - AFI 2650 Beginning Weaving
  - AFI 3650 Intermediate Weaving and Fiber Arts
  - AFI 3660 Intermediate Fibers: Printing and Dyeing
  - AFI 5650 Weaving: Senior Project
  - AFI 5660 Fabric Printing and Dyeing: Senior Project

Total Credits 21

---

**Digital Art and Photography**

This minor offers students the opportunity to supplement their major field of study with a rigorous investigation of digital art and photography. The program will provide a rich academic environment that will foster creativity and spur innovative thinking. The three required courses provide students with a deep understanding of the production of visual language in video, photography, and other time-based methods. From this dynamic foundation, they will choose a line of study to more thoroughly investigate advanced photography techniques, interactive art, or 2D/3D animation in a fine arts context.

Students must complete 18 credits as specified below:

**Required courses**
- ACO 1270 Time Studio 9
- ADA 2220 Time-Based Media I: Video Art
- AFA 2400 Introduction to Photography

**Art History - choose one**
- AH 1000 Introduction to Art
- AH 1110 Survey of Art History: Ancient through Medieval
- AH 1120 Survey of Art History: Renaissance through Modern Art
- AH 1130 Encounters with the Arts of Global Africa

**Studio Electives - choose two**
- ADA 2210 Introduction to Digital Practices
- ADA 3220 Introduction to Interactivity in Graphic Arts
- ADA 4220 Time-Based Media II: Experimental Animation
- ADA 4230 Time-Based Media III: Experimental 3D Animation
- ADA 4240 Advanced Interactivity: Experimental Video Games
- ADA 6250 Advanced Time-Based Media
- AFA 2410 Black and White Darkroom Photography I
- AFA 2420 Digital Photography I
- AFA 3410 Black and White Darkroom Photography II
- AFA 3420 Digital Photography II
- AFA 4410 Advanced Photography

APH 4420 View Camera

Total Credits 18

**Design and Merchandising (B.A.)**

Curricula in this area provide a liberal education as well as the opportunity for a professional concentration in the fields of apparel design and fashion merchandising.

**Admission Requirements**

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits including satisfaction of the University General Education requirements (p. 31), College degree requirements (p. 179), and all departmental and area requirements as indicated below. A minimum grade of C- must be earned in each required course in the major in order for the course credit to count toward completion of the degree. Students pursuing a Bachelor of Arts degree must fulfill the foreign language requirement (p. 21). All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 177) governing undergraduate scholarship and degrees.

**Core Requirements**
- AFA 2410 Textiles 3
- AFA 2420 Fashion Design: Basic Construction 3
AFA 3400 Clothing and Culture 3
AFA 3460 Introduction to Merchandising 3
AFA 5430 History of Costume 3
AFA 5997 Seminar 3

Total Credits 18

Apparel Design Concentration
Successful completion of this concentration enables students interested in creative aspects of clothing to develop competencies needed for careers in apparel design and related fields. Possible careers include designing, product development, and other related fields of the apparel industry.

Students are responsible for meeting program requirements as outlined in curriculum guides; these include a minimum of fifteen art credits. Curriculum guides are available from the Department of Art and Art History (http://www.art.wayne.edu).

Fashion Merchandising Concentration
This concentration develops understanding and practical skills related to the planning, buying and selling of fashion merchandise. Students gain insights into the various aspects of the apparel industries including marketing, sales, styling, publicity, advertising, visual presentation, fashion coordination, and merchandising. Possible careers include positions in management, buying, and fashion promotion and sales.

Students are responsible for meeting program requirements as outlined in curriculum guides; these include a minimum of fifteen business credits. Curriculum guides are available from the Department of Art and Art History (http://www.art.wayne.edu).

Design and Merchandising (B.S.)
Curricula in this area provide a liberal education as well as the opportunity for a professional concentration in the fields of apparel design and fashion merchandising.

Admission Requirements
Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits including satisfaction of the University General Education requirements (p. 31), College degree requirements (p. 179), and all departmental and area requirements as indicated below. A minimum grade of C- must be earned in each required course in the major in order for the course credit to count toward completion of the degree. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 177) governing undergraduate scholarship and degrees.

Students pursuing the Bachelor of Science Degree with a Major in Design and Merchandising must complete a minimum of fifteen credits in Natural Science courses in lieu of the language requirement. Science courses taken in the following subjects areas: Astronomy, Biology, Chemistry, Geology, Nutrition and Food Science, or Psychology.

Core Requirements
AFA 2410 Textiles 3
AFA 2420 Fashion Design: Basic Construction 3
AFA 3400 Clothing and Culture 3
AFA 3460 Introduction to Merchandising 3
AFA 5430 History of Costume 3

Fine Arts (B.F.A. with a major in Art)
The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admission Requirements
Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates for the Bachelor of Fine Arts degree must complete 120 credits including satisfaction of the University General Education requirements (p. 31), College degree requirements (p. 179).

Core and departmental requirements as cited under the Bachelor of Arts with a Major in Art (p. 183) must be met, as well as the concentration requirements below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 177) governing undergraduate scholarship and degrees.

Core Requirements
ACO 1200 Surface Studio 3
ACO 1230 Space Studio 3
ACO 1270 Time Studio 3
ADR 1050 Drawing I 3
Select two of the following: 6

- AH 1110 Survey of Art History: Ancient through Medieval
- AH 1120 Survey of Art History: Renaissance through Modern
- AH 1130 Encounters with the Arts of Global Africa

Departmental Requirements
ADR 2070 Beginning Life Drawing 3
APA 2000 Oil Painting I 3
ASL 2150 Beginning Sculpture 3
One three-credit course in printmaking (APR) or photography (APH) 3
Two Art History electives (AH 3000 level or above) 6

PHI 3700 Philosophy of Art 3
Select one of the following: 3

- ACR 2550 Ceramics and Pottery Design I
- AFI 2650 Beginning Weaving or AFI 2660 Introduction to Fabric Printing and Dyeing
- AME 2600 Introduction to Jewelry and Metalsmithing

Total Credits 42

Departmental Requirements will vary by concentration. Students should be sure to consult the Department advisor for accurate course listings based on a chosen concentration.

Concentration Requirements
Students must complete twenty-four to fifty-one credits (depending on areas of specialization) in art courses, eighteen of which must be at the advanced level (from courses numbered 3000 and above) plus the appropriate senior seminar for the selected concentration. The minimum grade for each course required in the concentration, which must be taken...
in the Department of Art and Art History, must be no less than a C- in order for the course credit to count toward completion of the degree. Curriculum outlines with suggested scheduling patterns for the below concentrations are available from the Department of Art and Art History (http://www.art.wayne.edu). Required courses in each concentration for the B.F.A. with a major in Art are given below; exceptions may be made with consent of advisor.

**Required Courses**
- Honors option of an advanced studio elective: 3 credits
- Honors project in Studio Art, Directed Project course (e.g. ADR 5800): 3 credits
- One honors seminar from among HON 4200 through HON 4280: 3 credits

**Total Credits**: 15

Fine Arts (B.F.A.) with a major in Design

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

**Admission Requirements**
Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates for the Bachelor of Fine Arts degree with a major in Design must complete 120 credits including satisfaction of the University General Education requirements (p. 31), College degree requirements (p. 179), the core and the concentration requirements below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 177) governing undergraduate scholarship and degrees.

**CORE REQUIREMENTS**: 24 credits total – courses in sections A, B, and C

**SECTION A**
- ADR 1050 Drawing I: 3 credits
- ADR 1060 Drawing II: 3 credits
- ACO 1200 Surface Studio: 3 credits
- ACO 1230 Space Studio: 3 credits

**SECTION B**
Select two of the following:
- AH 1110 Survey of Art History: Ancient through Medieval
- AH 1120 Survey of Art History: Renaissance through Modern
- AH 1130 Encounters with the Arts of Global Africa

**SECTION C**
- ADN 3100 Design Process: 3 credits
- AGD 2240 Introduction to Graphic Design: Skills and Concepts: 3 credits

**Total Credits**: 24

**Concentration Requirements**: Students must complete forty-two to fifty-four credits (depending on areas of specialization) in design courses, eighteen of which must be at the advanced level (from courses numbered 3000 and above) plus the appropriate senior seminar for the selected concentration. Each concentration may require additional elective coursework to meet the minimum of 120 credits necessary for completion of a bachelor’s degree program. The minimum grade for each course required in the concentration, which must be taken in the Department of Art and Art History, must be no less than a ‘C’ in order for the course credit to count toward completion of the degree. Curriculum outlines with suggested scheduling patterns for the below concentrations are available from the Department of Art and Art History (http://www.art.wayne.edu). Required courses in each B.F.A. concentration are given below; exceptions may be made with consent of academic advisor.

**Fashion Design**
- AFI 2650 Beginning Weaving: 3 credits
- AFI 2660 Introduction to Fabric Printing and Dyeing: 3 credits
- AFA 2410 Textiles: 3 credits
- AFA 2420 Fashion Design: Basic Construction: 3 credits
- AFA 3420 Fashion Design: Advanced Construction: 3 credits
- AFA 3400 Clothing and Culture: 3 credits
- AFA 3410 Textile Performance Analysis: 3 credits
- AFA 3460 Introduction to Merchandising: 3 credits
- AFA 5422 Fashion Design: Flat Pattern: 3 credits
- AFA 5430 History of Costume: 3 credits
- AFA 5442 Fashion Design: Draping: 3 credits
- AFA 5452 Fashion Design: Tailoring: 3 credits
- AFA 5997 Seminar: 3 credits
- AFA 6440 Computer-Aided Design for Apparel Design: 3 credits
- Two Art or Design History electives 3000 level or above: 6 credits
- Two Art or Design studio electives: 6 credits

**Total Credits**: 54

1 May be chosen from the following subject areas: ACR, ADR, AFI, AGD, AIA, AID, AIN, AME, APA, APH, APR or ASL

**Graphic Design**
- AGD 2230 Introduction to Typography: Skills and Concepts: 3 credits
- AGD 2250 Typography: 3 credits
- AGD 6260 Advanced Typography: 3 credits
- AGD 3250 Graphic Design I: Principles and Problem Solving: 3 credits

• Media Arts and Studies
• Public Relations

The following requirements apply to all of these degrees; specific requirements are listed within each major program.

Admission Requirements
Admission requirements are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Degree Requirements
Candidates for the Bachelor’s degree must complete 120 credits of course work including satisfaction of the University General Education requirements, College degree requirements (p. 179) including completion of a foreign language through the third semester or two semesters of foreign language and one semester of foreign culture, as well as the major requirements of one of the programs. All courses in the major or the minor must be completed with a grade of C or better and be completed in accordance with the regulations of the University (p. 21) and the College (p. 177) governing undergraduate scholarship and degrees.

A major will complete at least thirty but not more than forty-six credits in the Department. Any course work elected over the forty-six credit maximum must have prior approval of both advisor and chairperson if the additional credits are to count toward the degree (120 credits). This required approval includes students who plan to double major in the Department. Double majors are not allowed in some combined concentrations: Public Relations and Communication Studies, or Public Relations and Journalism. At least twelve credits are required in residence within the major. Students should consult their advisor in selecting a proper distr

General Education Requirements
University-wide General Education Requirements are designed to enhance students’ basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth. The College adheres to specified timelines for completion of General Education requirements (p. 31).

Some of the courses listed in the University General Education program are also courses required in some majors. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). Students should consult the table in the College introductory section in order to take advantage of these occasions of overlapping requirements.

Writing Intensive (WI) Requirement: The University General Education Program requirement of a writing intensive course in the major may be fulfilled by taking one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 2230</td>
<td>Broadcast News Writing and Digital Editing (broadcast journalism)</td>
<td>3</td>
</tr>
<tr>
<td>COM 3400</td>
<td>Theories of Communication (communication studies)</td>
<td>3</td>
</tr>
<tr>
<td>COM 5270 &amp; COM 5993</td>
<td>Screenwriting and Writing Intensive Course (film)</td>
<td>4</td>
</tr>
<tr>
<td>COM 4170</td>
<td>Public Relations Writing (public relations)</td>
<td>3</td>
</tr>
<tr>
<td>COM 4100</td>
<td>Feature Writing (journalism)</td>
<td>3</td>
</tr>
</tbody>
</table>

The writing intensive course should be taken during the junior year after satisfactory completion of the Intermediate Composition (IC) requirement.

Communication Studies (B.A.)
A major in Communication Studies offers students an opportunity to develop excellent communication skills and a thorough knowledge of the process of human communication. Communication studies majors take a variety of courses in public speaking, interpersonal communication, group communication and communication theory.

Employers in business, government, and education identify excellent communication skills as the most important quality they desire in hiring employees. Communication studies majors find careers in many different fields including business, government, education, law and religion.

The degree of Bachelor of Arts with a major in communication studies is offered in two concentrations - Communication Studies, and Communication Studies Education. In addition to the course work below, students must complete all of the department’s general degree requirements (p. 190).

Communication Studies
All majors in this concentration must elect the following core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 1010</td>
<td>Oral Communication: Basic Speech</td>
<td>3</td>
</tr>
<tr>
<td>COM 2000</td>
<td>Introduction to Communication Studies</td>
<td>3</td>
</tr>
<tr>
<td>COM 2110</td>
<td>Argumentation and Debate</td>
<td>3</td>
</tr>
<tr>
<td>COM 3400</td>
<td>Theories of Communication</td>
<td>3</td>
</tr>
<tr>
<td>COM 4190</td>
<td>Rhetorical Criticism</td>
<td>3</td>
</tr>
<tr>
<td>COM 5900</td>
<td>Senior Project in Communication Studies</td>
<td>3</td>
</tr>
<tr>
<td>or COM 4210</td>
<td>Research Methods in Communication</td>
<td></td>
</tr>
</tbody>
</table>

Select at least six credits from the following 2000/3000-level courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 2160</td>
<td>Campaigns and Social Movements</td>
<td></td>
</tr>
<tr>
<td>COM 2170</td>
<td>Persuasive Speaking</td>
<td></td>
</tr>
<tr>
<td>COM 2200</td>
<td>Interpersonal Communication</td>
<td></td>
</tr>
<tr>
<td>COM 3170</td>
<td>Fundamentals of Public Relations</td>
<td></td>
</tr>
<tr>
<td>COM 3250</td>
<td>Introduction to Organizational Communication</td>
<td></td>
</tr>
<tr>
<td>COM 3300</td>
<td>Business and Professional Presentations</td>
<td></td>
</tr>
</tbody>
</table>

Select at least six elective credits from the following 4000-level courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 4041</td>
<td>Rhetoric and the Body</td>
<td>3</td>
</tr>
<tr>
<td>COM 4110</td>
<td>Studies of Legal Argument</td>
<td>3</td>
</tr>
<tr>
<td>COM 4130</td>
<td>Communication Ethics</td>
<td>3</td>
</tr>
<tr>
<td>COM 4140</td>
<td>Popular and Celebrity Culture</td>
<td>3</td>
</tr>
<tr>
<td>COM 4150</td>
<td>Communication and Conflict</td>
<td>3</td>
</tr>
<tr>
<td>COM 4200</td>
<td>Nonverbal Communication</td>
<td>3</td>
</tr>
<tr>
<td>COM 4270</td>
<td>Group Communication</td>
<td>3</td>

</tr>
<tr>
<td></td>
<td>COM 5360 Gender and Communication</td>
</tr>
</tbody>
</table>

Total Credits 36

COM 5900 is the senior assessment capstone course and should be taken in the last twenty-one credits of the student's program.

A strong minor (18-24 credits) in the Department of English is recommended. Consult an advisor in the College of Education regarding requirements for the Michigan Teaching Certificate.

**Departmental Honors Program**

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

**Departmental Honors Requirements**

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

**Communication Studies Minor**

</tr>
</tbody>
</table>

Total Credits 3
Note: Students interested in Sound Design may fulfill some elective requirements through the Music Technology program in consultation with their advisor.

Film majors are encouraged to take additional film-related courses, offered throughout the university, toward fulfillment of their undergraduate degree requirements. These include, but are not limited to:

- ADA 4220 Time-Based Media II: Experimental Animation 3
- AID 3300 Introduction to Industrial Design 3
- APH 2400 Introduction to Photography 3
- COM 4310 Audio Production 3
- COM 5610 Advanced TV Production 3
- ENG 5060 Styles and Genres in Film 4
- GER 5350 German Film 3
- ITA 5150 Italian Cinema 3
- SLA 3710 Russian and East European Film 3-4
- SLA 3750 Polish and Yugoslavian Cinema 3
- THR 4271 Acting for the Camera 3

### Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

#### Departmental Honors Requirements

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

### Film Minor

A minor in film requires:

- COM 2101 Introduction to Film 3
- Select an additional fifteen credits from the following: 15
  - COM 1600 Introduction to Audio-Television-Film Production
  - COM 1610 Fundamentals of New Media Production
  - COM 2020 History of Film
  - COM 2210 Media Writing and Storytelling
  - COM 3380 Editing and Field Production
  - COM 5020 Studies in Film History
  - COM 5060 Documentary and Non-Fiction Film and Television
  - COM 5270 Screenwriting
  - COM 5384 Topics in Production Design and Theory
  - COM 5390 Digital Animation
  - COM 5400 Techniques of Film and Video Production
  - COM 5410 Producer's Workshop
  - COM 5420 Director's Workshop
  - COM 5440 Film, Cinematography and Lighting
  - COM 5540 Film Criticism and Theory
  - COM 6190 Internship

#### Journalism (B.A.)

Journalism majors plan careers in news editorial, broadcast, media relations or marketing and advertising. Students have a choice between a concentration in Print and Online journalism or one in Broadcast and Digital Media.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 190).

#### Major Requirements:

- Journalism majors plan careers in news editorial, broadcast, media relations or marketing and advertising. Students have a choice between a concentration in Print and Online journalism or one in Broadcast and Digital Media. A journalism advisor must be consulted for verification of requirements, which go beyond the College's requirements, such as additional course work in history (HIS 2050 is required) and at least one required three-credit internship.

Journalism Institute for Media Diversity: The Journalism Institute for Media Diversity is a four-year program designed to recruit and train talented students interested in diversity in the media. Members of all racial and ethnic groups as well as anyone interested in studying the importance of diversity in the nation’s media are particularly urged to apply. The Institute pools the resources of the University, the business community and Detroit area media professionals to provide scholarships and internships for some of its students. For additional information contact:

Media Arts and Studies (B.A.)
The major in Media Arts and Studies prepares students for careers in a wide range of media industries (such as radio, television, film and interactive media), for graduate programs in production and media studies, and to compete in a rapidly changing technological world. By integrating the history, theory and analysis of media culture, practices, and technology with production experience and internship opportunities, the program prepares students to think critically and creatively about media and become skilled communicators who are socially, ethically and aesthetically astute.

In addition to the course work below, students must complete all of the department’s general degree requirements (p. 190).
Major Requirements: The major in Media Arts and Studies requires completion of a minimum of forty to forty-two credits in coursework as outlined below.

Required Courses
COM 1500 Survey of Mass Communication [3]
COM 1600 Introduction to Audio-Television-Film Production [3]
COM 1610 Fundamentals of New Media Production [3]
COM 2010 Introduction to Film [4]
COM 2210 Media Writing and Storytelling [3]

History and Analysis Courses
Select two of the following: [6]
COM 3010 Media Analysis and Criticism
COM 4560 Telecommunications Policy: A Political Economy Approach
COM 5010 History of Communication Technologies

Production Courses
Select two of the following: [6-7]
COM 3380 Editing and Field Production
COM 4310 Audio Production
COM 4410 Television Production

Capstone Course
COM 5400 Techniques of Film and Video Production [3-4]
or COM 5510 Societal Effects of New Technologies

Electives
Select nine credits of the following (at least three credits must be at the 5000 or 6000 level): [9]
COM 2020 History of Film
COM 2230 Broadcast News Writing and Digital Editing
COM 2290 Fundamentals of New Media Communication
COM 3010 Media Analysis and Criticism
COM 3230 The African-American Film Experience
COM 3380 Editing and Field Production
COM 3390 Producing and Directing Webisodes
COM 4240 African Americans in Television
COM 4310 Audio Production
COM 4410 Television Production
COM 4560 Telecommunications Policy: A Political Economy Approach
COM 4680 WAYN Radio
COM 5010 History of Communication Technologies
COM 5020 Studies in Film History
COM 5060 Documentary and Non-Fiction Film and Television
COM 5270 Screenwriting
COM 5280 New Media Practices (Online)
COM 5380 Video Field Production and Editing
COM 5381 TV News Reporting and Digital Editing
COM 5384 Topics in Production Design and Theory
COM 5390 Digital Animation
COM 5400 Techniques of Film and Video Production
COM 5410 Producer’s Workshop
COM 5420 Director’s Workshop
COM 5440 Film, Cinematography and Lighting
COM 5480 Special Topics in Media Studies
COM 5510 Societal Effects of New Technologies
COM 5540 Film Criticism and Theory

Electives
COM 5610 Advanced TV Production
COM 6190 Internship (Max. 6)
COM 6270 New Media Theory
COM 6310 Allesee Lectures in Media
COM 6410 Allesee Master Class
COM 6680 Directed Projects in Film and Media

Total Credits 40-42

Departmental Honors Program
The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements
In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Media Arts and Studies Minor
A minor in this area requires:

COM 1500 Survey of Mass Communication [3]
COM 1600 Introduction to Audio-Television-Film Production [3]
COM 2010 Introduction to Film [4]
COM 2210 Media Writing and Storytelling [3]

Select six credits of the following: [6]
COM 2020 History of Film
COM 2230 Broadcast News Writing and Digital Editing
COM 3010 Media Analysis and Criticism
COM 4310 Audio Production
COM 4410 Television Production
COM 5010 History of Communication Technologies
COM 5060 Documentary and Non-Fiction Film and Television
COM 5380 Video Field Production and Editing
COM 5510 Societal Effects of New Technologies

Total Credits 19

New Media Minor
A minor in this area requires:

COM 1500 Survey of Mass Communication [3]
or COM 3400 Theories of Communication
COM 2260 Digital Writing and Research Methods [3]
COM 2290 Fundamentals of New Media Communication [3]
COM 2310 Introduction to Web Design [3]
or COM 5500 Journalism and New Media

Two additional new media electives selected in consultation with a departmental advisor

Total Credits 18
Public Relations (B.A.)

Students electing this major typically seek employment in one of the many career opportunities in public relations: business and industry; non-profit organizations; trade associations; government service; education; or account executive positions in an agency. Some students later pursue graduate-level study in fields such as organizational communication.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 190).

**Major Requirements** The major in Public Relations requires completion of a minimum of forty-two credits in coursework as outlined below.

The Department of Music cultivates music as a modern and global art, grounded in a long historical tradition, by combining higher education with professional training and experience for its undergraduate and graduate/professional students.

The Department offers serious students of music opportunities to learn, grow, and develop their skills and disciplines in an urban cultural setting. With close proximity to Detroit’s cultural center, students have access to the resources of such premiere institutions as the Chamber Music Society, the Detroit Institute of Arts, the Detroit Jazz Festival, the Detroit Public Library, the Detroit Opera House, and Orchestra Hall. The long historical relationship between the Detroit Symphony Orchestra and the Department offers students to study and coach with exceptional guest artists and resident artist-faculty who are specialists in all musical styles and media.

Building on the strengths of its geographic and cultural setting, the Department maintains public access to its performances and degree programs, offers high-level professional and academic standards and unique creative and scholarly opportunities appropriate to a large research university, and cultivates a deep aesthetic understanding of music in our students and the larger urban arts community.

- Music (B.A.) (p. 198)  
- Music (B.Mus.) (p. 199)  
- Music Minor (p. 203)  
- Jazz Studies Minor for Instrumental Music Education Majors (p. 203)  
- Music Technology Minor for Instrumental or Vocal Music Education Majors (p. 204)
Bachelor Degree Requirements
Department of Music

Registration: All students must meet with a Department of Music advisor prior to initial course registration and at least once per term for early registration advising. Enrollment in all MUP courses requires departmental permission.

Scholarship: All course credit applicable to the degree programs described in the following pages must be completed in accordance with the academic procedures of the University. The College (p. 177) governing undergraduate scholarship and degrees.

Music majors pursuing undergraduate degrees must earn the grade of C or better in all music courses required in the music curriculum they are pursuing. The grade of C-minus or below is not an acceptable grade for degree credit. If the grade of C-minus or below (or a mark of WF) is received by a music major in any required course in a music curriculum, the student must repeat the course and earn a grade of C or better. Students who fail to achieve a grade of C or better in required music courses following two attempts may not be allowed to continue to register as Music Majors.

DOUBLE MAJORS: Music majors in any concentration may seek a second major outside Music with the approval of the Department of Music and the Department offering the second major. Double concentrations within a single major, however, are not granted by the University.

Ensemble Participation

The Music Department encourages all musically inclined students to join its ensembles. Participation gives music majors and non-majors the opportunity to improve their musical skills and perform in internationally recognized groups. Conductors audition new students during the week before classes begin; the level of skill necessary varies by ensemble, however, most require music literacy. Music majors must elect designated Major Ensembles (MUA 2800, MUA 2810, MUA 2820, MUA 2822, MUA 2840, or MUA 2850) for degree credit.

BANDS: Woodwind, brass and percussion players are welcome to join the Concert Band. Wind Symphony members are chosen through competitive auditions.

CHORUSES: Non-music majors are encouraged to register for Choral Union (the large mixed-voice choir), Men’s Chorus or Women’s Chorale. Concert Chorale is the Department’s most select vocal ensemble, and auditions are especially competitive. Music majors who are required to participate in a choral ensemble must elect Choral Union (MUA 2840) or Concert Chorale (MUA 2850) for degree credit.

JAZZ: Jazz studies and other music majors are given highest priority for jazz big band positions (MUA 2820) and jazz guitar ensembles (MUA 2822). Non-music majors are welcome to audition for all jazz ensembles and combos.

ORCHESTRA: Positions in the Orchestra are assigned through auditions with the conductor of the Orchestra.

General Education Requirements

University-wide General Education Requirements are designed to enhance students’ basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth. The College adheres to specified timelines for completion of General Education requirements (p. 31).

Some of the courses listed in the University General Education program are also courses required in some majors. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). Students should consult the table in the College introductory section and the department academic advisors in order to take advantage of these occasions of overlapping requirements.

Music: Private Instruction

Private instruction in instruments and voice are required in all B.A. and B.Mus. concentrations. The courses listed in the following table under Principal and Secondary Private Instruction, MUP 1xxx and 3xxx, are available for one credit each and are intended for students studying instruments as required in the concentrations:

- B.A. in Music
- Composition/Theory
- Instrumental Music Education
- Vocal Music Education
- Music Business
- Music Technology
- Jazz Studies
- secondary instrument study in the Performance concentration

All students must successfully pass a junior-standing jury for permission to continue elections at the 3xxx level.

The courses listed in the following table under Major Private Instruction, MUP 2xxx and 4xxx, are available for three credits each and are intended for students studying major instruments as required in the senior year of the jazz studies concentration and all performance concentrations. All students must successfully pass a junior-standing jury for permission to continue elections at the 4xxx level.

Corequisite: Students enrolled in MUP Private Instruction must concurrently register in an appropriate major ensemble selected from the following:

- MUA 2800 University Bands
- MUA 2810 University Symphony Orchestra
- MUA 2820 Jazz Big Band
- MUA 2822 Jazz Guitar Ensemble
- MUA 2840 Choral Union
- MUA 2850 Concert Chorale

Fees: MUP courses have applied music fees as stated in the schedule of classes.

Music (B.A.)

The Bachelor of Arts curriculum is designed for students who want to develop their musical knowledge and ability while obtaining a broad liberal arts education. It provides students with the academic and musical prerequisites necessary for continuing graduate study in such fields as music theory, musicology and ethnomusicology.

Admission Requirements

Admission Requirements for the Bachelor of Arts program are satisfied by
1. general requirements for admission (p. 19) to the University;
2. a successful audition on a principal instrument or voice.

Candidates for this degree must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 31), College degree requirements (p. 179), and Bachelor of Arts curriculum requirements listed below. Students pursuing a Bachelor of Arts degree must also fulfill the foreign language requirement (p. 21).

ONLY SIXTY CREDITS IN MUSIC ARE APPLICABLE TO THIS DEGREE.

General Education Requirements: All students in the B.A. program must elect MUH 1345 to satisfy the Visual and Performing Arts requirement.

Music Requirements (47 - 48 Total Credits)

Piano Competency, Applied Music, and Ensembles

MUA 1795 Piano Skills I 2
MUA 2795 Piano Skills II 2

Four terms of appropriate MUP private instruction in principal instrument or voice. See Principal and Secondary Private Instruction Courses for courses.

Select four terms of ensemble (must be elected concurrently with MUP private instruction) from the following:

MUA 1795 University Bands
MUA 2810 University Symphony Orchestra
MUA 2820 Jazz Big Band
MUA 2822 Jazz Guitar Ensemble
MUA 2840 Choral Union
MUA 2850 Concert Chorale

General Lectures and Concerts

MUA 0900 General Lectures and Concerts (four terms) 0

Music History, Theory and Technology

MUH 3310 Music History and Literature I 3
MUH 3320 Music History and Literature II 3
MUH 3330 Music History and Literature III 3

MUT 1160 Theory II 3
MUT 1170 Ear Training II 1
MUT 2140 Theory III 3
MUT 2150 Ear Training III 1
MUT 2160 Theory IV 3
MUT 2170 Ear Training IV 1
MUT 5997 Analytical Techniques 3
MUA 5610 3

Music Elective

Select one of the following: 2-3
MUA 3670 Conducting Techniques I
MUH 3360 Jazz History
MUH 5300 Music Research
MUT 2100 Counterpoint
MUT 5085 History of Theory
MUT 5220 Introduction to Schenkerian Analysis
The Bachelor of Music degree provides a program for talented students with prior musical experience and skills who seek professional training in music. A wide range of concentrations is available under the program to meet the specialized interests and career plans of serious music students. Depending on the student's qualifications, he or she may choose from seven professional areas of concentration: composition; instrumental music education; vocal music education; music business; music technology; jazz studies; or performance.

Admission Requirements
Admission to this program is contingent upon
1. satisfaction of the general requirements for undergraduate admission (p. 19) to the University;
2. a successful audition on a principal instrument or voice.

Audition dates are scheduled throughout the year and prospective students should contact the Music Office at 313-577-1795 for scheduling information. Entering students must consult a departmental advisor prior to their first registration.

Candidates for the Bachelor of Music must complete 120 to 127 credits including satisfaction of the University General Education requirements (p. 31), College degree requirements (p. 179), as well as the specific course requirements for each concentration listed below. In addition, all Bachelor of Music students are required to successfully complete a junior-standing performance jury and, depending upon concentration, other junior-standing assessments during the fourth semester of enrollment.

Concentrations (B.Mus. Program)
- Composition (120 Credits) (p. 199)
- Instrumental Music Education (127 Credits) (p. 200)
- Jazz Studies (121 Credits) (p. 202)
- Music Business (123 - 124 Credits) (p. 201)
- Music Technology (126 Credits) (p. 202)
- Performance (120 credits) (p. 203)
- Vocal Music Education (127 Credits) (p. 200)

Composition (120 Credits)

General Education Requirements
MUH 1345 Music Cultures (to satisfy the Visual and Performing Arts distribution requirement) 3

Other requirements 32

Piano Competency, Applied Music, and Ensembles
MUA 1795 Piano Skills I 2
MUA 2795 Piano Skills II 2

Six terms of appropriate MUP courses (private instruction in principal instrument or voice, one credit per term - total six credits). See Principal and Secondary Private Instruction Courses for courses
If Piano is not the principal instrument, two terms of MUP 1215, Secondary Piano and two terms of MUP 3215, Secondary Piano
Select six terms of major ensemble (must be elected concurrently with MUP private instruction) of the following:
MUA 2800 University Bands
MUA 2810 University Symphony Orchestra
MUA 2820 Jazz Big Band
MUA 2822 Jazz Guitar Ensemble
MUA 2840 Choral Union
MUA 2850 Concert Chorale

Select one term of chamber music of the following:
MUA 2826 Jazz Combos
MUA 2880 Chamber Music and Special Ensembles
MUA 5641

General Lectures and Concerts
MUA 0900 General Lectures and Concerts (four terms) 0

### Total Credits

- **Instrumental Music Education (127 Credits)**
- **Vocal Music Education (127 Credits)**
Music Business (123 - 124 Credits)

General Education Requirement
MUH 1345  Music Cultures (to satisfy the Visual and Performing Arts distribution requirement) 3

Music History, Theory, and Technology
MUH 3310  Music History and Literature I 3
MUH 3320  Music History and Literature II 3
MUH 3330  Music History and Literature III 3
MUT 1140  Theory I 3
MUT 1150  Ear Training I 1
MUT 1160  Theory II 3
MUT 1170  Ear Training II 1
MUT 2140  Theory III 3
MUT 2150  Ear Training III 1
MUT 2160  Theory IV 3
MUT 2170  Ear Training IV 1
MUT 5997  Analytical Techniques 3
MED 5590  Applications of Technology in Music Teaching 2

Instrumental Techniques and Conducting
MUA 1700  Guitar Class 2
or MUA 1730  String Techniques and Pedagogy
Select two of the following: 4
- MUA 1740  Woodwind Techniques and Pedagogy
- MUA 1750  Brasswind Techniques and Pedagogy
- MUA 1760  Percussion Techniques and Pedagogy
MUA 3670  Conducting Techniques I 2
MED 5550  Choral Conducting and Rehearsal Techniques 3

Music Education
MUA 1720  Voice Techniques and Pedagogy 2
MED 2500  Piano Skills for the Music Classroom 2
MED 3500  Introduction to Music Education 2
MED 3510  Teaching General Music 2
MED 4510  Vocal Music in Schools I 3
MED 4530  Vocal Music in Schools II 3
MED 4560  Practicum in Music Education 2
MED 4570  Student Teaching and Seminar 8

College of Education Required Courses
EDP 3310  Educational Psychology 3
RLL 6121  Teaching Reading in the Content Areas: Grades 6-12 3

Total Credits 127

Note: Vocal Music Education students intending to teach general music in elementary schools may substitute RLL 6120 for RLL 6121.

NOTE: Music Education and the College of Education Joint Enrollment:
All music education students must apply for admission to the College of Education (COE) at the end of their sophomore year. Students are then jointly enrolled in the College of Fine, Performing and Communication Arts and the College of Education. Students should contact their music education advisor for information on applying to the COE. Students will not be allowed to register for the professional courses taught through the College of Education (EDP 3310 and RLL 6120 or RLL 6121) until they have been officially admitted to the COE.

Music Business (123 - 124 Credits)

General Education Requirement
MUH 1345  Music Cultures (to satisfy the Visual and Performing Arts distribution requirement) 3

Other requirements 29

NOTE: Music Business Majors (Minor Business Option)
Music business majors may obtain a Minor in Business Administration by electing FIN 3290 and one additional elective course in the Mike Ilitch School of Business. See Business Administration Minor (p. 73) for further information.

## Music Technology (126 Credits)

#### Specific concentration requirements

Select from the following majors: 6-8

**Piano Majors**

- MUT 2030 Keyboard Harmony I
- MUT 2040 Keyboard Harmony II
- MUT 3000 Orchestration
- MUA 2880 Chamber Music and Special Ensembles (4 req.)

**Organ Majors**

- MUT 2030 Keyboard Harmony I
- MUT 2040 Keyboard Harmony II
- MUA 5730 Harpsichord Class
- MUA 2880 Chamber Music and Special Ensembles

### Electives

Select 3-7 credits of music and non-music electives in consultation with the program advisor

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUA 5610</td>
<td></td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 118-124

1. Note: MUP 4470 and MUP 4480 must be elected concurrently with MUP Major Private Instruction.

### Electives: Music and non-music electives selected in consultation with the program advisor (3-7 Credits)

### Music Minor

The Music Department offers a minor in music for undergraduate students majoring in other disciplines. Requirements for the music minor consist of a minimum of twenty-two credits in the following courses:

#### Music Theory and Ear Training

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUT 1140</td>
<td>Theory I</td>
<td>3</td>
</tr>
<tr>

</tr>
<tr>
<td>MUT 2140</td>
<td>Theory III</td>
<td>3</td>
</tr>
<tr>
<td>MUT 2150</td>
<td>Ear Training III</td>
<td>1</td>
</tr>
</tbody>
</table>

#### Music History

Select two of the following:

- MUH 1345 Music Cultures
- MUH 3310 Music History and Literature I
- MUH 3320 Music History and Literature II
- MUH 3330 Music History and Literature III

#### Performance Ensemble

Select four of the following:

- MUA 2800 University Bands
- MUA 2810 University Symphony Orchestra
- MUA 2820 Jazz Big Band
- MUA 2822 Jazz Guitar Ensemble
- MUA 2840 Choral Union
- MUA 2850 Concert Chorale

Total Credits: 22

### Jazz Studies Minor for Instrumental Music Education Majors

The minor in jazz studies is designed for instrumental music education majors who wish to gain experience in jazz. Requirements for the jazz studies minor consist of nineteen credits in the following courses:

#### Music History and Theory

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

Total Credits: 22

1 NOTE: MAT 1800 is a prerequisite for EET 2000

Theatre and Dance

Office: 3226 Old Main; 313-577-3508
Chairperson: John Wolf
http://www.theatreanddance.wayne.edu

The Theatre and Dance Programs prepares students for professional careers as performers, choreographers, dance teachers, and informed dance audience members within the urban, metropolitan context of Wayne State University. The department sponsors a large number of production activities and practicum experiences including the Bonstelle Theatre, Studio Theatre, Director’s Series, and Student Stage. Participation in these activities is available to all University students.

**Dance**: The Dance Program prepares students for professional careers as performing artists, choreographers, dance teachers, and informed dance audience members within the urban, metropolitan context of Wayne State University. The dance program offers curricular choices at the undergraduate and post-degree levels, integrating a thorough understanding of applied and theoretical principles of movement with the newest forms and ideas in contemporary dance performance, choreography, and dance education. Undergraduate studies in dance are reflected in the following major and minor designations: Major in Dance leading to the Bachelor of Science degree; Major in Dance leading to the Bachelor of Fine Arts degree; optional K-12 State of Michigan teaching certification for either the B.S. or B.F.A. Dance performance opportunities include The Wayne State University Dance Company, Dance Workshop, and To Sangana African Dance company. These are performing groups composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students.

**Other Dance Study**

The Dance Department also provides dance instruction for non-majors and develops general appreciation for dance as an art form.

Theatre

The Theatre program is designed to provide students with a solid foundation in all aspects of theatre and theatre production. Having completed a rigorous fundamental sequence of courses, students are prepared to choose their path of study (acting, design and technology, stage management, theatre management, history and dramaturgy, etc.). The extensive production program, including the Bonstelle Theatre, the Studio Theatre, Student Stage, and Summer Children’s Theatre, present opportunity for students to practice and enhance their craft. Participation in these activities is available to all University students.

- Dance (B.F.A.) (p. 205)
- Dance (B.S.) (p. 206)
- Dance Minor (p. 211)
- Theatre (B.A.) (p. 210)
- Theatre (B.F.A.) (p. 208)
- General Theatre Minor (p. 211)
- Africana Theatre and Dance Minor (p. 211)
- Theatre Design and Technology Minor (p. 212)
- Musical Theatre Minor (p. 211)
- Theatre Management Minor (p. 212)

Music Technology Minor for Instrumental or Vocal Music Education Majors
Dance (B.F.A.)

The Bachelor of Fine Arts with a major in dance provides a professional degree program for talented students with prior dance experience and skills who seek professional careers as performing artists, choreographers, or dance scholars. Dance technique and the history, philosophies, and aesthetics of dance are all central to this program.

Admission Requirements

Admission to this program is contingent upon satisfaction of the general requirements for undergraduate admission (p. 19) to the University and a successful audition conducted by the Department faculty. Audition dates are scheduled each December and February in the year prior to admission. Prospective students should contact the Theatre and Dance Office for audition schedule information. Entering students are required to consult the Departmental advising staff prior to their first registration for classes.

All B.F.A. dance majors must be enrolled in appropriate level modern and ballet technique classes each semester and evidence successful progress in their respective degree programs in order to maintain dance major status. Any dance major who does not comply with department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the eighty-eight credits earned, and the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time forty-five credits have been earned, and Critical Thinking (CT) by the time seventy-five credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Total Credits 88-89

Performance Opportunities

There are three performance ensembles: the W.S.U. Dance Company One, Dance Workshop, and To Sangana African Dance Company composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students. Students must have a minimum 2.5 overall g.p.a. to participate in a performance ensemble.
Dance Honors Program (B.S. and B.F.A. degrees)

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (DNC 5997) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Post-Degree Studies in Dance

Students who have completed a dance major at another University program may be able to add Teacher Certification by completing the

Dance Education Major requirements. Students must apply to the College of Education and to the Dance Department.

All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Fine, Performing and Communication Arts (p. 179) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

Dance (B.S.)

This degree program is for students with prior dance experience who wish to combine university-level dance studies with a broad program of general study in the arts and sciences. The Bachelor of Science in Dance offers an integrative program in the study of dance, culture and community and provides students multiple opportunities to enhance technical skill, to investigate shifting social and global concerns, and to cultivate innovative approaches for dance career preparation in diverse contexts and related professions.

Admission Requirements

Admission to this program is contingent upon satisfaction of the general requirements for undergraduate admission (p. 19) to the University and a successful audition conducted by the Department faculty. Audition dates are scheduled each November, December and February in the year prior to admission; prospective students should contact the Theatre and Dance Office (http://theatreanddance.wayne.edu/dance) for audition schedule information. Entering students are required to consult the Departmental advising staff prior to their first registration for classes.

All B.S. dance majors must be enrolled in required curriculum each semester and evidence successful progress in the B.S. degree program in order to maintain dance major status. Any dance major who does not comply and/or does not register and complete appropriate dance coursework for one semester MUST AUDITION FOR THE DANCE PROGRAM for re-admission. Students out of the dance program for two semesters or more are rarely re-admitted to the program.

Candidates for the Bachelor of Science degree with a major in dance must complete a minimum of 120 credits in course work, as well as satisfaction of the University General Education requirements (p. 31) and College degree requirements (p. 179). This program requires fifty-nine credits in dance courses (specified below), as well as approximately thirty-two credits in University General Education courses and twenty-nine credits in electives. B.S. students must comply with the following department policies — any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the fifty-nine credits in specified Dance courses must be completed with grades of C minus or better and 2.5 cumulative g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course.

All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Fine, Performing and Communication Arts (p. 179) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned; and Critical Thinking (CT) by the time 75 credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or
participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Post-Degree Studies in Dance

Students who have completed a dance major at another University program may be able to add Teacher Certification by completing the Dance Education Major requirements. Students must apply to the College of Education and to the Dance Department.

All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Fine, Performing and Communication Arts (p. 179) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

Theatre (B.F.A.)

The Bachelor of Fine Arts with a Major in Theatre is an intensive pre-professional curriculum designed to provide a strong foundation followed by rigorous professional training augmented with practical experience provided by the extensive production schedule. The B.F.A. program is divided into two areas: performance and design and technical theatre including stage management.

Admission Requirements

Admission requirements for the program are satisfied by the general requirements for undergraduate admission (p. 19) to the University, a minimum of forty-five credits, as well as through auditions and/or interviews after the completion of prerequisite courses and usually at the end of the Fall of the sophomore year.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 31), College degree requirements (p. 179), and seventy-seven credits in theatre courses including the major requirements listed below. The minimum grade for each course required in the major, which must be in the Department of Theatre, must be no less than a C-minus in order for the course credit to count toward completion of the degree. B.F.A. students must comply with the following department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the seventy-seven credits in specified Theatre courses must be completed with grades of C minus or better and 3.0 cumulative g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course. Departmental information published in this Bulletin is intended for use in conjunction with advising, but in all cases, regardless of advice given, students are responsible for meeting and satisfying requirements as set forth in this Bulletin.

All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Fine, Performing and Communication Arts (p. 179) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: Majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned; and Critical Thinking (CT) by the time 75 credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Major Fundamental Requirements: All students pursuing a Bachelor of Fine Arts (B.F.A.) degree in theatre must complete the following courses:

Theatre Honors Programs (B.A. degrees)

In order to enter the Departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including: the three of the following honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (THR 4990) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Bachelor of Arts (B.A.) Departmental Honors in Theatre (fifteen credits)

or DNC 5610 Dance Company I

Total Credits 18

Dance Minor

Completion of a minor in dance requires nineteen credits in dance classes including ten credits in technique classes and nine credits in academic dance classes. Students should consult with the Department Academic Advisor for approval of courses satisfying this requirement. The department will accept up to ten transfer credits towards the Dance minor. A minimum of four technique credits and three academic dance credits must be taken at WSU. All courses older than ten years are subject to department review.

General Theatre Minor

The minor is designed to be an overview of the theatre arts for those who wish to enhance their interests in theatre. It offers a variety of studies and practice courses across the discipline of theatre. The variety of offerings provide the opportunity to focus studies in the areas of acting, dramaturgy, or directing if so desired.

A minor in this area requires:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>THR 1010</td>
<td>Introduction to the Theatre</td>
</tr>
<tr>
<td>or THR 1111</td>
<td>Fundamentals of Theatre</td>
</tr>
<tr>

Total Credits 18

Musical Theatre Minor

This minor offers an opportunity for students to further develop their performance skills in musical theatre through course work and practical application. Students electing to declare the Minor in Musical Theatre may NOT count classes or credits required in their major toward the minor. Specifically:

- Theatre students may not apply to the minor credits earned in: Acting I and Acting II or Acting: Scene Study.
Music students may not apply to the minor credits earned in: Private Voice, Elementary Music Theory, Ear Training 1, or Ear Training 2; Dance majors may not apply to the minor credits earned in: Modern Dance 1, Ballet 1, Tap Dance, Jazz Dance 1 or Jazz Dance II.

To receive the minor in Musical Theatre students must complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>THR 1041</td>
<td>Musical Theatre Appreciation</td>
<td>3</td>
</tr>
<tr>

<td>Theatre Management: Patron Services and Development</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits | 16 |
IRVIN D. REID HONORS COLLEGE

Dean: Jerry Herron

The Irvin D. Reid Honors College offers students a comprehensive curriculum that promotes achievement, academic excellence, graduation and orientation to a successful career.

The Honors College is city-based and service-oriented. The college challenges students to engage the world around them as problem-solvers and leaders. Our program requires that students inform themselves about what it means to be citizens, of this city, this country, and the world. Honors gives students tools to be catalysts for innovation and improvement, and the skills necessary to create effective solutions.

Benefits include Honors advising, guest lectures, local and national research/presentation opportunities, access to Honors living and learning communities, designated Honors floors in the residence halls, an Honors Student Association, peer advisors, Honors pre-priority registration, and more.

Mission of the Honors College

The Irvin D. Reid Honors College provides Wayne State University’s highest achieving undergraduate students the opportunity to become members of an engaged and dynamic academic community through a curriculum that is challenging, innovative, and interdisciplinary. Honors courses enrich undergraduate education, providing a unique set of experiences that integrate our four defining pillars:

- community engagement,
- service-learning,
- undergraduate research, and
- career exploration.

Students who are admitted to the Honors College as current WSU students or as transfer students are encouraged to pursue Honors in their major, to participate in the Honors community and to take part in service opportunities, to join the Honors Student Association (HSA) and to elect Honors sections of General Education courses. Interested students must submit an application to the Honors College (http://honors.wayne.edu/future/apply.php).

Community (Year One)

The first of the four pillars that define the Honors College experience is community engagement, which is the focus of year one. Honors freshmen admitted to the college through Scholars Day are expected to take a two-semester sequence, HON 1000 and PS 1010. HON 1000 is historical in orientation and will examine cities and the kinds of urban communities people have made, concentrating on city-making in North America. In the winter semester, PS 1010 deals with the city and citizenship in a political context.

The aims of the Honors first-year curriculum are to understand urban communities in general and Detroit in particular, and to integrate Honors freshmen within the Honors community. Honors freshmen receive a Cultural Passport to acquaint them with some of the fine experiences Detroit has to offer.

Service (Year Two)

Year two involves service-learning, which takes the skills students have cultivated in the classroom and puts them to use in real-world situations. Service-learning courses provide valuable experience and help the communities WSU serves. These courses combine academic skills and hands-on practice. Students work with course instructors and classmates to perform research and reflect on elements of service-learning projects. Honors collaborates with community partners, organizations that know how to target needs and monitor students’ work, to achieve maximum benefit for all participants.

To document completion of the service-learning requirement, students will register for HON 3000, a zero credit, pass-fail course, in the semester in which an approved service-learning course is elected for a minimum of three credits.

Research (Year Three)

In year three, students are encouraged to develop individual research projects. Hands-on research experience provides important preparation for graduate school as well as creating pre-professional opportunities. Students have the chance to work with faculty mentors and participate in research projects within their fields of interest.

The Honors’ objective is to locate research as the dynamic element that brings together the whole of a student’s academic experience at the university, from freshman year through graduation. By means of research projects, students become vital contributors to the research mission of the university; through undergraduate research, students take full advantage of the distinctive character of WSU as a Carnegie Foundation designated institution with “very high research activity.”

Career (Year Four)

Students begin working on a career plan the day they enter the Honors College, which culminates in year four when they do a senior thesis project, HON 4998. This represents the culmination of their undergraduate work and is the first step toward a postgraduate career. The thesis is a creative project or a substantial research-based project written in collaboration with a faculty mentor. Completion of the thesis is required to graduate with Honors.

Honors offers students a career-building program beginning with the Honors first-year experience and including undergraduate research projects, faculty mentoring and scholarship opportunities. Honors distinction benefits students when applying for jobs, or for admission to graduate or professional study.

Bachelor’s Degrees with University/Departmental Honors options:

Mike Ilitch School of Business

- Accounting: B.S., B.A.
- Finance: B.S., B.A.
- Global Supply Chain Management: B.S., B.A.
- Information Systems Management: B.S., B.A.
- Management: B.S., B.A.
- Marketing: B.S., B.A.

College of Education

- Art Education: B.A., B.S.
- Career and Technical Education: B.A., B.S.
- Elementary Education: B.A., B.S.
- English Education: B.A., B.S.
- Exercise and Sport Science: B.A., B.S.
- Foreign Language Education: B.A.
- Health Education: B.S.
- Kinesiology Pedagogy: Physical Education: B.S.
- Mathematics Education: B.A., B.S.
- Science Education: B.A., B.S.
- Social Studies Education: B.A., B.S.
Academic Regulations

For complete information regarding academic rules and regulations of the university, students should consult the general information section of this bulletin. The following additions and amendments apply to the Irvin D. Reid Honors College.

Academic Advising

Advising for Honors requirements is available on a walk-in basis on select days and via e-mail. All students are encouraged to consult their undergraduate advisor in their prospective major department.

Accelerated Graduate Enrollment Program (‘AGRADE’)

Accelerated Graduate Enrollment: Some departments of the university permit academically superior majors to petition for admission into the college’s ‘AGRADE’ program. ‘AGRADE’ procedures enable qualified seniors to enroll simultaneously in the undergraduate and graduate programs and apply a maximum of fifteen credits towards both a bachelor’s and master’s degree in the major field. Students electing ‘AGRADE’ programs may expect to complete the bachelor’s and master’s degrees in five years of full-time study.

An ‘AGRADE’ applicant may petition the Graduate Committee of the major department for acceptance into the program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average at the cum laude level and not less than a 3.6 grade point average in the major courses already completed. If the student’s petition is accepted, the student’s faculty advisor shall develop a graduate Plan of Work, specifying the ‘AGRADE’ courses to be included in subsequent semesters.

Credits earned through ‘AGRADE’ are considered Honors credits towards graduation with University and/or Departmental Honors. Students are asked to submit a copy of the approved ‘AGRADE’ plan of work to the Honors Advisor. Each ‘AGRADE’ class will be processed as an Honors Option and the notation added to the student’s transcript.

Courses completed as part of an approved AGRADE plan of work may be applied as Honors credits towards Departmental and/or University Honors. To receive Honors credit via Honors Option, students must submit a copy of the approved plan of work with the Honors academic advisor.

For more details about the ‘AGRADE’ program, contact the chairperson of the major department.

Attendance

Regularity in attendance and performance is necessary for success in college work. Attendance requirements will be announced by instructors at the beginning of each course.

Cheating and Plagiarism

The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. The instructor has the responsibility of notifying the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Acts of dishonesty may lead to suspension or exclusion. Information on procedures is available in the Office of the Dean.
Extra Credits
Extra credits are credits taken in excess of the normal program load of eighteen credits. Students with 3.0 (or above) grade point averages may take more than eighteen credits when their proposed programs carry the approval of the Honors advisor.

Graduation with Academic Distinction
Graduation with distinction (Summa Cum Laude, Magna Cum Laude, and Cum Laude) is determined by the college granting the student’s degree.

Normal Program Load
The requirements for graduation are based upon an average program of fifteen credits per semester for eight semesters. A normal program load should not exceed eighteen credits.

Because two hours of outside preparation are normally expected for each class hour, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy. A few hours of employment a week may be safely added by capable students.

Probation
Low Grade Point Average: Honors students need a cumulative 3.30 or higher grade point average to maintain good standing in the Honors College. Honors academic status is assessed prior to fall pre-priority registration. A student may reapply to the Honors College once his/her cumulative grade point average is at 3.30 or above.

Grade Appeals Policy and Procedure
This policy applies to courses offered directly by the Honors College (e.g. HON 1000, the Honors sections of PS 1010, HON 4200-level seminars, etc.). Grade appeals for Honors sections of other courses should be resolved through the home department where those courses are offered. If in doubt, students should consult the Honors Advisor when initiating an appeal.

It is the instructor’s prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment.

Grounds for appeals are:

1. the application of non-academic criteria in the grading process, as listed in the university’s non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

Coursework Grades
Disputes over coursework grades should be addressed informally between the student and the course instructor. If the student and instructor cannot reach a mutually agreeable resolution, the matter should be referred to the Dean of the College, who will initiate appropriate procedures for resolution.

Final Grades
In those instances where a student disputes the final grade assigned, the following steps should be taken to appeal the grade in question.

Informal Review
The student should discuss the disputed grade with the instructor of the course. If the dispute is not resolved informally, the student may initiate a formal appeal.

Formal Appeal Procedure
Within 30 calendar days following official notification of final grades for the term in which the disputed grade was awarded, and when the informal review fails to resolve the dispute, the student shall submit a written appeal detailing his/her objection, along with supporting documentation in writing, to the instructor. The instructor should respond in writing within 10 work days.

Matters not resolved at the instructor level may be appealed to the Dean’s Office. A written appeal should be filed by the student within 10 work days following receipt of the instructor’s written response. A file folder containing the course syllabus from the semester in which the student took the course, plus the student’s letter, the instructor’s letter, and the student’s written rationale explaining why the Dean’s Office should reconsider this appeal, should be sent to the Dean’s Office. The student should forward to the instructor of the course a copy of the written appeal. Where appropriate, the Dean’s Office may consult with a Grade Appeals Committee for advice in grade disputes. Students shall be notified in writing of the Dean’s Office decision within 30 work days of receiving the request. The Dean’s Office decision shall be the final decision at the college level.

University Level Academic Appeals Procedure
Following the Dean’s final response, a student may request a formal review by the Provost.

Such requests are subject to the University Academic Appeal Procedure (p. 10) and must be submitted in writing, with a copy sent to the Dean of the College, within thirty (30) calendar days of the postmark on the Dean’s final determination.

Irvin D. Reid Honors College Grade Appeal Procedure, revised March 31, 2015

Special Programs
Detroit Urban Scholars Program
The Irvin D. Reid Honors College of Wayne State University is home to the Detroit Urban Scholars Program. This program is for incoming freshmen who graduated from a Detroit high school, are Detroit residents, and have shown not only an ability to excel in the academic arena but are also engaged in their communities through service and leadership.

B Start Program (Business Administration)
B Start (http://honors.wayne.edu/start-programs/b-start.php) is an innovative, five-year Honors College program that conditionally guarantees admission to the Master of Business Administration (M.B.A.) program in the Mike Ilitch School of Business. B Start trains future business leaders by emphasizing mentoring and research opportunities with business school faculty. As part of an introductory B Start course, students attend monthly seminars in the Mike Ilitch School of Business and are responsible for logging their activities in monthly journals.

Other Curricular Opportunities
CommunityEngagement@Wayne
To obtain the greatest benefit from their education, students need both academic courses and real-world experiences. CommunityEngagement@Wayne (http://communityengagement.wayne.edu) provides the mechanism to strengthen courses and implement service-learning opportunities in the vibrant metropolitan Detroit community. Building on the Honors College mission of promoting informed, engaged citizenship,
CommunityEngagement@Wayne provides faculty with the tools necessary to strengthen course content, with students the opportunity to apply classroom theories in hands-on experiences, and community organizations with the chance to receive assistance from some of Wayne State's most dedicated citizens.

**Detroit Fellows Tutoring Project**

Detroit Fellows earn two to four Honors credits while teaching reading skills to Detroit Public School students in kindergarten through fourth grade. This is a special opportunity for Honors College students and is open to all majors. On an hours-per-week basis Detroit Fellows work three hours (earning two credits), five hours (earning three credits) or seven hours (earning four credits) at a designated school. Tutors work during regularly scheduled school hours: 7:30 a.m. to 3:30 p.m.

Detroit Fellows receive training and participate in a weekly seminar to discuss various tutoring techniques. Writing assignments reflective of this experience and an end-of-semester evaluation are also required.

**Emerging Scholars Program (ESP)**

Wayne State University's Emerging Scholars Program (http://www.clas.wayne.edu/ceem/emerging-scholars) is a special Honors-level calculus and pre-calculus program designed to support students who want and/or need to excel in mathematics and who are willing to do the work required for such success. It is available to students in MAT 1800 (pre-calculus), MAT 2010 and MAT 2020. Honors credits are awarded for MAT 2010 and/or MAT 2020.

Any student who hopes to pursue a degree in science, engineering, medicine, mathematics or math education is strongly urged to take his or her math courses within ESP. Students enroll in designated sections of MAT 1800, MAT 2010 and MAT 2020, taught by specially trained faculty members. They also attend a two-hour workshop, twice a week, where they work together in groups on challenging problems, gaining a deeper understanding of the mathematics involved.

**Honors Student Association (HSA)**

The Honors Student Association (HSA) provides networking experiences for students from various academic disciplines throughout WSU. The organization also serves to provide Honors students with the opportunity to become involved in diverse social, academic, and service activities. The Honors Student Association has eight executive board members; the positions include: president, vice president, secretary, treasurer, two public relations officers, and two webmasters. Elections for executive board positions are held annually at the end of winter semester.

The faculty advisor for HSA is Rachel Pawlowski, the special initiatives coordinator for the Honors College.

**Model United Nations (MUN)**

The Honors College sponsors a Model United Nations (MUN) conference every October for high school students from Metropolitan Detroit. MUN helps students learn the art of diplomacy and compromise while better understanding how the United Nations operates. High school students are recruited to serve as MUN ambassadors, while Honors students provide leadership and recruit fellow students to serve as facilitators.

**Study Abroad**

The Honors College, in partnership with the Office for Study Abroad (p. 43), provides a number of opportunities for study and travel. The college encourages these learning experiences as ways for students to acquire broader perspectives and more deeply feel education than is often possible in the classroom. Study/travel options may be linked to the Junior/Senior seminar (HON 4260) and may meet the Foreign Competency (FC) University requirement. Some programs include service assignments and fulfill the Honors College service-learning (HON 3000) requirement. Past study trip destinations have included Belize, France, South Africa, Ghana and China.

**Honors College Programs**

**University-wide Honors Curricula**

Honors curricula are designed to meet the needs of highly motivated students with superior abilities. Honors courses are of four kinds: regular courses with Honors designated sections; Honors courses offered under various departmental subject areas (for a list of these see below); Honors College courses offered under the HON subject area code; and, regular courses taken as Honors caliber course work by individual students (see below under Honors-Option Course Work).

Many Honors courses fulfill University General Education requirements (p. 31) and there are no maximum credit restrictions on the number of Honors credits applicable towards graduation. Completion of any Honors course leads to Honors-designated transcript notation for the course.

Students whose cumulative grade point average (g.p.a.) is at least 3.3, but who are not formally admitted to the Honors College, are eligible to elect Honors courses to enrich their educational experiences. Such requests should be directed via e-mail to honors@wayne.edu

Students who are invited into the Honors College as incoming freshmen are eligible to pursue University Honors as well as Departmental Honors in their major. Students who are accepted to the Honors College as current Wayne State University students or as transfer students are invited to graduate with Departmental Honors.

**Admission**

Honors students are admitted to Wayne State University through the regular admission process; they are officially enrolled in the school/college sponsoring the major of their intended degree program, and obtain admission to the Honors College by one of the following methods:

**Application to the Honors College**

Currently matriculated Wayne State University students who have a cumulative postsecondary g.p.a. of 3.3 or above may apply for admission to the Honors College. Applications are available online (http://www.honors.wayne.edu). Applications are accepted on a continual basis and are processed in October, February, and June of each year.

Incoming transfer students who have a minimum of 12 credit hours and a cumulative g.p.a. of 3.3 or above will receive an invitation to the Honors College as part of the admission process, and do not need to apply separately.

**Scholars Day**

Incoming freshmen (high school seniors) must meet the published minimum criteria for consideration and have been admitted to the university by December 1. These students are eligible to be invited to Scholars Day and to be considered for scholarships and acceptance to the Honors College.

**College Requirements**

To remain in the Honors College, a student normally will be expected to:

1. pursue University and/or Departmental Honors;
2. maintain a cumulative g.p.a. of 3.3 or higher; however, colleges/departments may establish a higher g.p.a. for retention in a college/department program; and

---

216 Honors College Programs
3. satisfy the University General Education requirements (p. 31).

A student whose cumulative g.p.a. falls below 3.3 and is, for that reason, dropped from the Honors College, may reapply when his/her cumulative g.p.a. is 3.3 or higher.

For Honors students entering as freshmen, HON 1000 and the Honors section of PS 1010 are required to be taken in Fall and Winter semesters, respectively.

Departmental Honors Requirements

Students seeking a degree with Departmental Honors must contact their major department or the Honors College for specific requirements (see the appropriate departmental section of this bulletin). However, all Departmental Honors programs require:

1. at least twelve credits in Honors-designated coursework, including a senior essay or thesis or project done in the student’s major department, and
2. at least one 4200-level seminar offered through the Honors College (HON 4200-4280). A g.p.a. of 3.3 (higher in some departments) is required for graduation.

Honors Degrees

Most departments offer Departmental Honors. Please visit the Honors website (http://www.honors.wayne.edu) or the Honors college for a current list of available programs. Graduation with University Honors is reserved for students who enter the Honors College as incoming freshmen who complete 36 Honors credits as outlined under University Honors Requirements.

A student who satisfactorily completes a Departmental Honors curriculum or a University Honors curriculum will receive the appropriate Honors designation on both the diploma and the academic transcript. Approval of the Honors College is necessary for graduation with University Honors. Students who complete the requirements of both the university-wide Honors College and a college/department/school Honors Program shall have both designations on the transcript and the diploma. Only a single senior essay, thesis, or project shall be required unless a student is pursuing Departmental Honors in multiple majors.

University Honors Requirements

Students who have been invited to the Honors College as freshmen are expected to complete:

1. at least thirty-six credits in Honors-designated course work, including HON 1000, and the Honors section of PS 1010;
2. the HON 3000.
3. a 42XX-level seminar offered by the Honors College HON 4200-HON 4280;
4. a minimum three-credit Honors Thesis or creative project (HON 4998 or Departmental Honors thesis).

Honors-Option Course Work

The Honors Option allows a student in any course which is 2000 level or above and taught by a regular faculty member to elect Honors caliber coursework, provided the instructor agrees to furnish commensurate extra instruction. If a grade of ‘B’ (3.00) or above is earned in the course and in the additional work, the student will receive Honors credit for the course on his/her transcript. Application forms for the Honors Option are available in the Honors College office and online (http://www.honors.wayne.edu). The application form must be signed by the instructor and should be returned to the Honors College Office by the assigned due date on the form. At the end of the semester the instructor will be asked to submit a final grade for the Honors Option project and the final grade for the class via e-mail to honors@wayne.edu. The number of Honors credits assigned shall be equivalent to the number of credits allotted to the general section.

Service-Learning Requirement (HON 3000)

Effective Fall 2008, service-learning is required for graduation with University Honors. The purpose of the requirement is to better prepare students for productive lives in a diverse urban and global setting through community-based education and civic engagement. A student will pair HON 3000 (0 credits) with a service-learning course that is a minimum of 3 credits.

Objectives of the Honors Service-Learning Requirement are: to enhance academic learning opportunities by integrating theory with service to the community; to learn how to work effectively with diverse populations; to develop communication, negotiation, and problem solving abilities; and, to increase research skills.

Examples of service-learning opportunities include the Detroit Fellows Tutoring Project, specially-designated sections of General Education and department courses, and some study abroad experiences.

Honors Thesis

To graduate with University and/or Departmental Honors, students must complete an Honors thesis or creative project during junior/senior year. The thesis or project must be supervised by a full-time member of a department and the paper must be a minimum of twenty pages in length. University Honors students should plan to take at least two semesters to complete the HON 4998 course. Departmental Honors students who complete a thesis course specific to their major department must complete an Honors thesis or creative project during junior/senior year.

To graduate with University and/or Departmental Honors, students must complete a thesis course specific to their major department and the paper must be a minimum of twenty pages in length. University Honors students should plan to take at least two semesters to complete the HON 4998 course. Departmental Honors students who complete a thesis course specific to their major department must follow departmental guidelines. Students pursuing both Department and University Honors may use the department thesis to fulfill the University Honors thesis requirement.

employment law, and taxation which requires the J.D. or its equivalent as a prerequisite. The LL.M. is a graduate degree offered by the

compliance, property management and office management. Wayne Law students, faculty and alumni are deeply engaged in the community and profession.

University Law School is accredited by the American Bar Association and is a member of the Association of American Law Schools. The Law School has a chapter of the Order of the Coif, the national honorary society dedicated to the highest standards of legal scholarship.

Wayne State University Law School is located in the heart of Detroit, a major metropolitan research university located in the heart of Midtown, about four miles from downtown Detroit. Wayne Law students, faculty and alumni are deeply engaged in the community and profession.

Damon J. Keith Center for Civil Rights

the center, stakeholders gather to analyze policy, law students teach a civil rights curriculum to high school students and leaders dive into the issues of the day, such as tax foreclosures, water shutoffs and police-community relations. The center welcomes the public for lectures by civil rights icons, supports community-based organizations and publishes scholarship about how the law and social justice impact one another. The center offers the nation's first and only repository dedicated to African-American legal history, along with a traveling exhibit about the 14th Amendment's guarantee of equal protection under the law.

In summer 2014, WSU was awarded a three-year, $1.3 million grant from the W.K. Kellogg Foundation to launch the Detroit Equity Action Lab at the Keith Center. Through this initiative, 60 leaders working in the many dimensions of racial equity, including arts and media, community development, education, environment, food security, health care and housing, will address issues of structural racism in Detroit.

Arthur Neef Law Library

Wayne State University Law School, founded in 1927, is located in the heart of Detroit's historic cultural center, offering a unique urban experience. Detroit's vibrant legal market - including government offices, state and federal courts, multinational corporations, unions and major law firms - provides students with a wide range of opportunities for employment and externships. Our students are bright, mature, conscientious and altruistic. They come from unique backgrounds and professions, some having previously served as doctors, musicians, actors, engineers and law enforcement officers before pursuing the law. Wayne Law also offers a network of more than 11,000 living alumni, including established leaders of the legal community, practicing throughout the nation and in more than a dozen foreign countries. Our expert faculty's nationally and internationally recognized scholarship adds depth to our students' understanding of legal theory, doctrine and practice. Wayne Law students, faculty and alumni are deeply engaged in the community and profession.

Wayne State University Law School offers two degrees, the Juris Doctor (J.D.) and the Master of Laws (LL.M.). The J.D. is a graduate degree requiring a baccalaureate degree as a prerequisite. The LL.M. is a graduate degree offered by the Law School in the fields of corporate and finance law, labor and employment law, and taxation which requires the J.D. or its equivalent as a prerequisite. The Law School also participates in joint degree programs with other Schools and Colleges at the University.

The Law School offers academic programs leading to the degrees of Juris Doctor (J.D.) and Master of Laws (LL.M.). The J.D. is a graduate degree requiring a baccalaureate degree as a prerequisite. The LL.M. is a graduate degree offered by the Law School in the fields of corporate and finance law, labor and employment law, and taxation which requires the J.D. or its equivalent as a prerequisite. The Law School also participates in joint degree programs with other Schools and Colleges at the University.

Wayne State University Law School is a regional hub for civil rights teaching, research and advocacy, training and inspiring the next generation of civil rights leaders in honor of the legacy of Judge Damon J. Keith. At the center, stakeholders gather to analyze policy, law students teach a civil rights curriculum to high school students and leaders dive into the issues of the day, such as tax foreclosures, water shutoffs and police-community relations. The center welcomes
COLLEGE OF LIBERAL ARTS AND SCIENCES

Dean: Wayne Raskind

The College of Liberal Arts and Sciences is home to more than forty undergraduate degree programs in a wide variety of disciplines, from the humanities and social sciences to the physical and life sciences. We serve a diverse student population with a wide range of programs and courses. Our dedicated advisors provide individual advising to all our major students, and we strive to provide student engagement and undergraduate research opportunities for all students in the College.

Our bachelor degree programs provide a balance of broad studies and specialization, taking advantage of both the intellectual breadth of the College and the availability of course offerings taught by scholars and researchers who are leaders in their fields. All programs emphasize communication, both written and spoken, and the use of precise and thoughtful language. Students are stimulated to think and read critically and to become familiar with the tools of research so that learning may be a lifelong process. Intellectual growth is encouraged by developing in students the necessary independence, resourcefulness and judgment in early studies so that advanced courses may be selected with confidence.

Most fields of study in the College offer students both theoretical and practical training. Our programs are designed such that a solid knowledge of underlying principles is strengthened by practical training and experience.

The College of Liberal Arts and Sciences also serves students whose academic interests extend over several Departments. Such students have the opportunity to declare minors, pursue a co-major or take elective courses in a wide variety of fields. In addition, interdisciplinary programs such as Environmental Science, Linguistics, Religious Studies, International Studies, and Gender, Sexuality and Women's Studies offer varied individualized curricula.

The undergraduate programs of the College of Liberal Arts and Sciences are strengthened by graduate programs that lead to the master's and doctoral degrees in various disciplines. Professors in the College teach both graduates and undergraduates; research projects may involve both graduates and undergraduates; some specialized classes are available to both graduate students and those undergraduates enrolled in the upper division. This opportunity for association with graduate students and research personnel enriches the experience of many undergraduate students.

In the College of Liberal Arts and Sciences, students are provided with the skills, knowledge, and understanding on which to build professional and personal development in today's rapidly changing world.

Academic Regulations: Liberal Arts and Sciences

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 10) section of this bulletin. The following additions and amendments apply to the College of Liberal Arts and Sciences.

Attendance

Regularity in attendance and performance is necessary for success in college work. Attendance requirements will be announced by instructors at the beginning of each course.

Normal Program Load

To graduate in four years, students should take at least fifteen credits per semester for eight consecutive semesters. A normal load should not exceed eighteen credits.

Because at least two hours of outside preparation are normally expected for each class hour, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy.

Extra Credits

Extra credits are credits taken in excess of the normal load of eighteen credits. Students with 3.0 (or above) grade point averages may take more than eighteen credits when their proposed programs carry the written approval of the advisor and the Dean.

Retention of Student Records

Term papers and examinations shall either be returned to students or retained by the instructor for a minimum of six months. Thereafter they may be destroyed. Instructors shall retain grade books for at least five years following the end of a term, and instructors who leave the institution shall give grade books for courses conducted during the past five years to their department chairperson. Five years after the end of a course, grade books may be returned to the instructor or destroyed by the department.

Honors College

College of Liberal Arts and Sciences students may request permission to take honors courses (p. 213) if they have a cumulative grade point average of 3.3 or above.

‘AGRADE’ (Accelerated Graduate Enrollment Program)

Accelerated Graduate Enrollment: Some Departments of the College permit academically superior majors to apply for admission into the College’s ‘AGRADE’ program. ‘AGRADE’ procedures enable qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College and apply a maximum of sixteen credits towards both a bachelor’s and master’s degree in the major field.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the ‘AGRADE’ program, contact the Graduate Director of the major department or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Graduation with Academic Distinction

Candidates eligible for the bachelor's degree may receive a special citation on their diplomas under the following circumstances: The designations of ‘Summa Cum Laude,’ ‘Magna Cum Laude,’ and ‘Cum Laude’ will be conferred upon graduating students whose cumulative grade point averages at Wayne State University fall within approximately the upper five percent, the next five percent, and the next ten percent of the senior class, respectively. The grade points used to identify the lower limits for each designation will be based upon the grade points attained by seniors at these percentile levels during the preceding academic year. Only students who have earned 56 or more credits at Wayne State University during the year in which they graduate may request a special citation. Students who have earned 56 or more credits at Wayne State University by seniors at these percentile levels during the preceding academic year. Only students who have earned 56 or more credits at Wayne State University during the year in which they graduate may request a special citation. Students who have earned 56 or more credits at Wayne State University during the year in which they graduate may request a special citation.
University are eligible to graduate with one of the above distinction citations.

Dean's List
The Dean's List of academically superior students is compiled each fall and winter term based on the following criteria: A 3.6 grade point average for students registered for full-time programs of twelve credits or more which contribute to the grade point base; and a 4.0 grade point average for students registered for between six and eleven credits. Students who receive marks of 'T' or 'W' or 'Y' and grades of 'N' or 'U' are not eligible. (For explanation of these marks and grades, see Marks (p. 47).)

Academic Probation
Low Grade Point Average: If a student's cumulative grade point average falls below 2.0, the student will be placed on academic probation. The student will be required to obtain permission from the University Advising Center before registering. Such permission will be granted only after an interview during which the student and advisor identify previous causes of failure and formulate a plan for future success.

Registration: A student on academic probation must have a 'hold' released each term before he or she registers. To obtain this release, the student must see an academic advisor in the University Advising Center. This hold will not be released after the last day of the final registration for the term for which the student plans to register.

Restriction: While on academic probation, a student may not represent the College in student activities.

Removal of Academic Probation: Academic probation will be removed at the end of any term in which the student achieves a cumulative average of C (2.0) or better for all degree work taken at the University.

Exclusion
Low Grade Point Average: Students on academic probation shall be given two subsequent terms for enrollment on probationary status. At the conclusion of the two terms, a student who has not achieved a cumulative g.p.a. of at least 2.0 shall be excluded from the University. A student excluded from the University may not apply for reinstatement for one calendar year. Such an exclusion will be reviewed by the Probation Committee and the Dean upon the request of the student.

Reinstatement: After one year of exclusion, the student may apply for reinstatement in the College. The decision to reinstate will be based upon evidence presented by the student that circumstances have changed during the year and that the probability of success has increased. The reinstatement application must be returned to the University Advising Center at least six weeks prior to the first day of any registration period.

Cheating and Plagiarism
The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. The instructor has the responsibility of notifying the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Acts of dishonesty may lead to suspension or exclusion.

Academic Advising
Academic advisors are available in all departments. Students who have chosen a major should meet with their departmental advisor. Students should confer with advisors on all questions concerning degree requirements, academic regulations, course elections, and programs of study. It is of primary importance that students talk with an advisor when they are having difficulties in their academic work.

Bachelor's Degree Requirements: Liberal Arts and Sciences

College Requirements
All undergraduate students must satisfy both University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements.

Group Requirements:
1. The College requires three courses in the natural sciences - one more than is required by the University.
2. The College requires two courses in the social sciences - one more than is required by the University.
3. The College requires an additional course in the humanities to fulfill Civilizations and Societies (see below).
4. The College requires third-semester proficiency in a foreign language. Foreign language proficiency is not a part of the University General Education Requirements, but it does satisfy the university Foreign Culture (FC) requirement.

Foreign Language
All students in the College of Liberal Arts and Sciences (except those pursuing a Bachelor of Public Affairs degree) must successfully demonstrate language proficiency equivalent to the three-course basic sequence in a single foreign language. Proficiency is demonstrated by completing courses numbered 1010, 1020, and 2010 in one of the following subject area codes: ARB, ARM, CHI, FRE, GER, GKA, GKM, HEB, ITA, JPN, LAT, POL, RUS, SPA, SWA, and UKR. Those continuing the study of a foreign language begun in high school or at another college will be placed at the appropriate level in the sequence as determined by means of qualifying examinations or interviews administered by the Department of Classical and Modern Languages, Literatures, and Cultures. The College Foreign Language Group Requirement will be considered satisfied by those students whose test scores place them beyond the intermediate (third course) level.

Bilingual Students: The College Foreign Language Group Requirement will be considered satisfied for students who were born in and completed their secondary education in a country whose language is not English. However, no credit (through course work or by examination) will be granted to such students for elementary- or intermediate- level courses in that language. Bilingual students who satisfy the Foreign Language Group Requirement in this manner will simultaneously fulfill the University General Education Requirement in Foreign Culture (FC).

Third Natural Science (LS, PS)
A third course in the Natural Science area is required. All courses on the University list for Life Science or Physical Science are acceptable. Also, students may elect NFS 3230 as the third course in Natural Science (a course which is not on the University General Education list).

Second Social Science (SS)
A second course in the Social Science area is required.

Civilizations and Societies
This College Group Requirement is not part of the University General Education Requirements. Students must complete one course from the following:
AFS 2010 African American Culture: Historical and Aesthetic Roots 4

ARM/SLA/GER/ POL/RUS/UKR 310 New Soil, Old Roots: The Immigrant Experience 3

CLA 2000 Greek Mythology 3-4
FRE 2710 Introduction to French Civilization I 3
FRE 2720 Introduction to French Civilization II 3
GER 2710 Survey of Germanic Culture I 3
GER 2720 Survey of Germanic Culture II 3
GER/SLA/ARM/ POL/RUS/UKR 3410 New Soil, Old Roots: The Immigrant Experience 3

GKM 3710 Modern Greek Literature and Culture in English 3-4
ITA 2710 Italy and Italians I 3
ITA 2720 Italy and Italians II 3
LAS 2100 Chicano/a Literature and Culture 3
LAS 2110 Puerto Rican Literature and Culture 3
NE 2000 Introduction to Islamic Civilization of the Near East 3
NE 2010 The Bible and Ancient Mythology 3
POL 2710 Survey of Polish Culture 3
POL/SLA/ARM/ GER/RUS/UKR 3410 New Soil, Old Roots: The Immigrant Experience 3
RUS 2710 Introduction to Russian Culture 3
RUS/SLA/ARM/ GER/POL/UKR 3410 New Soil, Old Roots: The Immigrant Experience 3

SLA/ARM/GER/ POL/RUS/UKR 3410 New Soil, Old Roots: The Immigrant Experience 3
SLA 3710 Russian and East European Film 3-4
SPA 2400 Chicano/a Literature and Culture 3
SPA 2500/ LAS 2110 Puerto Rican Literature and Culture 3

UKR/SLA/ARM/ GER/POL/RUS 3410 3

Note: The Junior Year in Munich experience also meets the Civilizations and Societies requirement.

Science Requirement for B.S. Degrees

Bachelor of Science Degrees

Students who are candidates for Bachelor of Science degrees must successfully complete sixty credits in the natural sciences, computer science, advanced logic, statistics, and mathematics. Credits completed to satisfy the College Group Requirements in Natural Science may be applied to the sixty credits.

Special Degrees

Students who are candidates for the Special Degrees Bachelor of Science in Biological Sciences, Bachelor of Science in Chemistry, or Bachelor of Science in Physics must fulfill the sixty-credit requirement in the natural sciences, computer science, advanced logic, statistics, and mathematics. Candidates for other Special Bachelor of Science degrees must complete the College Group Requirement in Natural Science and any additional science and mathematics courses required by the curriculum which they are following.

Second Degrees

Students who have received a degree from Wayne State University or any other accredited institution may obtain a second bachelor’s degree in another academic area by registering in the appropriate undergraduate College. Graduates of Wayne State University who have earned degrees from the College of Liberal Arts and Sciences may be ranked as undergraduates by declaring new majors and indicating a desire to earn a second undergraduate degree. Graduates of other Wayne

Major Requirements

Specific course requirements for majors are listed in this bulletin under each of the Departments or areas of the College. Students may declare majors at any time but must declare a major by thirty credits of study, regardless if these credits are completed at Wayne State University or transferred from another institution. Students must complete all courses in their majors with an overall average of ‘C’ (2.0).

Declaration of Major

Students can easily declare or change their major online through Academica. Failure to declare by thirty credits may result in a registration hold.

Double Major

For students to graduate with double majors, the major requirements in both areas of concentration must be fulfilled. Both majors are designated on the diploma.

Students wishing to double major in a CLAS degree program and that of another school or college must satisfy the College of Liberal Arts and Sciences Group Requirements.

Minor Fields

Students enrolled in colleges and schools other than the College of Liberal Arts and Sciences and who wish to declare a minor in a Liberal Arts and Sciences curriculum, may do so by satisfying the minor requirements of the curriculum involved. They need not satisfy the Group Requirements of the College of Liberal Arts and Sciences.

The notation of the minor will appear on the transcript but not on the diploma.

Co-Majors

The following subjects may be taken in conjunction with another major leading to a Bachelor’s Degree: Latino/a and Latin American Studies and Peace and Conflict Studies

Combined Degrees

A Combined Degree (B.A. or B.S.) is granted by the College of Liberal Arts and Sciences in cooperation with approved schools of Dentistry, Medicine, and Law, which do not require a bachelor’s degree for admission. Candidates for Combined Degrees must complete ninety credits in the College of Liberal Arts and Sciences, all University requirements, all College requirements, make reasonable progress (as determined by the major Department) toward completing a major, and complete satisfactorily the first year’s work in an approved professional school. Courses taken in the first year of professional school may be applied toward the required fifteen credits in advanced courses. Students who fail to pass any course ordinarily required during the first year of professional work forfeit the right to a Combined Degree. Such cases may be reopened only after the student completes the second year of professional work.
State University Schools or Colleges must transfer to the College of Liberal Arts and Sciences.

In order to be granted second degrees, students must complete a minimum of thirty credits beyond the first degree in the College and satisfy all University, College and major requirements. This includes all College Group Requirements not overlapping with University General Education Requirements. Generally no second degree will be granted in the academic area in which the first degree was earned.

Dual Degrees
Students who have satisfied all requirements for two different major programs leading to degrees offered by the College and who have accumulated 150 or more degree credits may apply for both degrees simultaneously.

Concurrent Degrees
Students who have satisfied all requirements for two major programs – one offered by CLAS and one by another school or college – and who have accumulated 150 or more credits may apply for concurrent degrees.

Credit Restrictions

Repeated Subject
If courses are repeated, the last grade on file will count towards the overall g.p.a. of the course, but the course credit will only be counted once towards graduation. Students who wish to repeat a course in which they did not receive credit originally must file a repeat form at the time of registration. Since similar courses may have different names dependent upon the college and the semester in which a course is offered, students are advised to make certain that they do not offer repeated course work as credit toward a degree.

Over-Age Credits

Students attempting to complete majors after a protracted interruption in their education, or those attending the University on a part-time basis over an extended period of time may find that some early course work is outdated. In such cases, a department may require refresher work or a demonstration that the student is prepared for advanced courses in the department.

Restrictions on Transfer Credit

No more than sixty-four semester credits may be applied toward graduation from two-year colleges.

Residence

To qualify for a baccalaureate degree in the College of Liberal Arts and Sciences, a minimum of thirty credits must be earned in the College. The last thirty credits applicable to the degree, not including credit by special examination, must be completed in an undergraduate college or school of Wayne State University. Credit by special examination may not be counted as residence credit, but such credit, if earned during a semester in which the student is registered, will not be considered an interruption of residence.

Pre-professional Curricula
Students are encouraged to consult an academic advisor before choosing any curriculum.

Exploratory Curricula for Undecided Students
In general, students should declare their major as they enter the University. All students are required to declare their major when they reach thirty credits. Failure to do so may result in a registration hold. Declaring or changing a major is easily done through Academica (https://academica.aws.wayne.edu). When students declare or change their major they should see the appropriate departmental advisor as soon as possible and compose a plan of work.

First-time students who are unsure about their major can enroll in a thirty credit exploratory curriculum. There are four exploratory curricula to choose from - one each for the four general subject areas represented in the College of Liberal Arts and Sciences: humanities, social sciences, life sciences and physical sciences/mathematics. These curricula are designed to give students who are still exploring major options the opportunity to take some common required courses that will help them graduate within four years once they choose their major. For general information on the exploratory curricula, please see an advisor in the University Advising Center.

Combined Curriculum for Secondary Teaching
This curriculum leads to a bachelor’s degree and a Michigan Secondary Provisional Certificate.

The Combined Curriculum for Secondary Teaching is offered in selected majors in cooperation with the College of Education and prepares students for teaching major and minor subjects in the secondary school. In this curriculum, students take the first two years of work in the College of Liberal Arts and Sciences. Courses in the third and fourth years are taken concurrently in both Colleges. In electing courses during the first two years, students should acquire a broad general education while simultaneously electing courses that may be required by their future major department.

Students interested in this program should consult an academic advisor who will supply a curriculum outline, provide guidance, and direct them to the advisor in the major at the beginning of the junior year. Students may also see the Division of Academic Services, Room 489, College of Education, at any time during the first two years for consultation on professional programs they may be planning to pursue.

Students remain registered in the College of Liberal Arts and Sciences and elect Departmental majors at the beginning of the junior year. Students then apply to the College of Education for official admission to the combined curriculum for secondary teaching and must be approved by the College of Education as candidates for teacher certification. During junior and senior years, student program requests will be signed by both a College of Liberal Arts and Sciences major advisor and by the appropriate advisor in the College of Education.

Admission to pre-professional curricula implies only that students have selected professional goals. It does not necessarily mean that students will be accepted by the corresponding professional school or college. A pre-professional curriculum is not a major. Students are encouraged to declare a major together with pursuing a pre-professional curriculum. Some professional programs require a bachelor’s degree. Even if a bachelor’s degree is not required, admission to a professional program is often very competitive, and pursuing a major provides students with an alternative career path.
Pre-Health Programs

Advising for pre-health programs, including pre-medicine and pre-dental, pre-law and pre-social work is available through the University Advising Center.

Pre-Clinical Laboratory Science

Students should reference the B.S. in Clinical Laboratory Science (p. 322) for pre-professional requirements.

Pre-Dentistry

Satisfactory completion of University General Education Requirements, College Group Requirements, a major field, and the basic sciences listed below lead to the bachelor’s degree and qualify students for consideration by most schools of dentistry.

Biology or Zoology with laboratory 12-16
Chemistry: Inorganic, including qualitative analysis, and lab 9-11
Chemistry: Organic with laboratory 8-10
English 8-12
Physics with laboratory 8-10

Recommended electives include psychology, sociology, biochemistry, embryology, and statistics. Because different schools of dentistry may require credits in some or all of these subjects, students are advised to become familiar with Admission Requirements of U.S. and Canadian Dental Schools, a brochure which may be ordered from:

American Association of Dental Schools
1625 Massachusetts Avenue N.W.
Washington, D.C., 20036

Pre-Law

Since the requirements for admission to law schools vary from school to school, students should become familiar with the requirements of the school they plan to enter.

For admission to Wayne State University’s Law School, applicants should have a bachelor’s degree from an accredited college with a strong grade point average. Although no specific courses are required, the faculty of the Law School recommends a strong background in English, with emphasis on grammar and composition, and in the social sciences. Within these fields, the choice of courses may be made in consultation with an academic advisor in the University Advising Center. The following is a suggested list of courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 2100</td>
<td>Principles of Microeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 2200</td>
<td>Principles of Macroeconomics</td>
<td>4</td>
</tr>
<tr>
<td>Four courses in English</td>
<td></td>
<td></td>
</tr>
<tr>
<td>HIS 1050</td>
<td>American Civilization Since World War II</td>
<td>4</td>
</tr>
<tr>
<td>HIS 2040</td>
<td>United States to 1877</td>
<td>3-4</td>
</tr>
<tr>
<td>HIS 2050</td>
<td>United States Since 1877</td>
<td>3-4</td>
</tr>
<tr>
<td>HIS 5160</td>
<td>American Legal Culture to 1857</td>
<td>4</td>
</tr>
<tr>
<td>HIS 5170</td>
<td>American Legal Culture after 1857</td>
<td>4</td>
</tr>
<tr>
<td>PHI 1010</td>
<td>Introduction to Philosophy</td>
<td>4</td>
</tr>
<tr>
<td>PS 1010</td>
<td>American Government</td>
<td>4</td>
</tr>
<tr>

<td>The Legislative Process</td>
<td>4</td>
</tr>
<tr>
<td>PS 5110</td>
<td>Constitutional Law</td>
<td>4</td>
</tr>
<tr>
<td>PSY 1010</td>
<td>Introductory Psychology</td>
<td>4</td>
</tr>
<tr>
<td>SOC 2000</td>
<td>Understanding Human Society</td>
<td>3</td>
</tr>
</tbody>
</table>

An introductory course in accounting is also recommended. For students interested in the practice of law in commercial, corporate, and tax fields, the business administration curriculum may provide a good background.

Law School Admission Test: Each applicant for admission is required to take the Law School Admission Test given by the Educational Testing Service, Princeton, New Jersey. This test is given five times a year in Detroit and at one hundred or more other examination centers located throughout the country. Application blanks and additional information may be obtained from the Testing and Evaluation Office, 698 Student Center.

Pre-Medicine and Pre-Osteopathic Medicine

Satisfactory completion of University General Education Requirements, College Group Requirements, a major field, and the basic sciences listed below lead to the bachelor’s degree and qualify a student for consideration by most schools of medicine and osteopathic medicine.

Biology or Zoology with laboratory 12-16
English 8-12
Inorganic Chemistry (including qualitative analysis) and lab 9-11
Organic Chemistry with laboratory 8-10
Physics with laboratory 8-10

Recommended electives include psychology, sociology, biochemistry, physiology, and statistics. Because different schools of medicine may require credits in some or all of these subjects, students are advised to become familiar with the AAMC’s Medical School Admission Requirements (http://www.aamc.org) for U.S. and Canadian Medical Schools.

Medical schools encourage students to fulfill degree requirements by selecting courses which will contribute significantly to a broad cultural background and by choosing a major in which one is interested. Admission committees are influenced by the scholarly approach to education, not by the area in which one concentrates. Students should seek pre-medical advising from the WSU Pre-Med and Health Science Center (http://wayne.edu/advising/pre-health), located in 1600 Undergraduate Library.

Pre-Mortuary Science

Students should reference the B.S. in Mortuary Science (p. 325) for pre-professional requirements.

Pre-Nursing

Students should reference the B.S.N program (p. 308) for pre-professional requirements.

Pre-Occupational Therapy

Students should reference the Bachelor of Heath Science with a concentration in occupational therapy (p. 328) for pre-professional requirements.

Pre-Pharmacy

Students should reference the Bachelor of Heath Science with a concentration in pharmaceutical science (p. 330) for pre-professional requirements.
Pre-Physical Therapy

Students should reference the Bachelor of Heath Science with a concentration in physical therapy (p. 334) for pre-professional requirements.

Pre-Physician Assistant Studies

Satisfactory completion of University General Education Requirements, College Group Requirements, a major field, and the coursework listed below lead to the bachelor's degree and qualify a student for consideration for many Physician Assistant Studies programs.

<table>
<thead>
<tr>
<th>Course</th>

<td>3</td>
</tr>
</tbody>
</table>

Students are advised that minimum grades for prerequisites may apply and different schools may require additional prerequisite courses. Students should consult the Physician Assistant Education Association (http://www.paeaonline.org) and seek advising from a pre-health advisor in the WSU Pre-Med and Health Science Center (http://wayne.edu/advising/pre-health), located in 1600 Undergraduate Library.

Pre-Radiation Therapy Technology

Students should reference the Bachelor of Science Radiation Therapy Technology (p. 335) for pre-professional requirements.

Pre-Radiologic Technology

Students should reference the Bachelor of Science in Radiologic Technology (p. 337) for pre-professional requirements.

Pre-Social Work

Students should reference the B.S.W. program (p. 342) for pre-professional requirements.

Study Abroad

African Travel-Study Programs

Ghana

Program Office: Department of African American Studies; 313-577-2321
Coordinator: Eboe Hutchful

The Department of African American Studies sponsors a summer term (four weeks on site) travel-study experience in the African country of Ghana. This program involves formal registration for graduate or undergraduate credit in Directed Study (AFS 6990). This course is taught by a W.S.U. faculty member as well as faculty members of the The Institute of African Studies at the University of Ghana, at Legon, Ghana.

The Institute of African Studies was established in 1961 as an interdisciplinary center for scholarship, teaching and research in African history, culture and religion. It offers both undergraduate and graduate instruction by its own faculty and collaborates with the social science departments of the University of Ghana. Located eight miles from Accra and in the shadow of the Aburi Hills, the University of Ghana is a large tranquil campus of original and striking architectural design and is justly considered one of the most beautiful university campuses in Africa. It is a residential university, organized around a hall system, and combines an active academic and social life.

The objectives of this travel-study program are to introduce students to broad questions of historical continuity and discontinuity, adaptation and readaptation, and syntheses that have characterized African cultures. Particular attention is given to normative values and religious views, economic and political systems, educational and health care systems, and family and community solidarities in the past and present. The program seeks to illuminate the fundamental and broad diversity in African lives as they are structured through traditional cultures, colonial impacts, nationality, gender, and socio-economic differentiation. It is designed to give students a sense of the successes and setbacks and ongoing challenges of African nationhood, and of Africa's relations with the United States and the rest of the world. On a personal basis the goals of the program are:

1. To provide intimate first-hand experience of African life styles and values systems.
2. To encourage among students an appreciation for cultural diversity through exposure to major foreign cultures.
4. To equip students with conceptual and intellectual tools to analyze the complexity of cultural and political institutions in Africa.
5. To engage students in critical thinking and field observation in the social sciences.

Benin

Program Office: Department of Anthropology; 313-577-2953
Coordinator: Guerin C. Montilus

The Department of Anthropology sponsors a biennial interdisciplinary summer study program in collaboration with the National University of Benin in Cotonou, Republic of Benin, West Africa. Founded in 1984, this program provides first-hand experience of African life styles and value systems through lectures by African instructors and interviews with Benin residents. Depending on student interest, attention is paid to African realities such as geography, history, religion, economy, politics, migration, family and kinship, education and health care systems. This broad range of topics is reflected in the kinds of formal registration available for the program, that is, students may use this travel-study experience as the basis of instruction for a number of different W.S.U. courses offered by other departments and colleges within the University. Both graduate and undergraduate credits are optional and non-credit participants are welcome.

Caribbean Travel-Study Program: Cuba and Haiti

Program Office: Department of Anthropology; 313-577-2953
Coordinator: Guerin C. Montilus

The Caribbean study trip is an interdisciplinary study program sponsored by the Anthropology Department and hosted by the School of Preventive Medicine of the University of Santiago of Cuba and/or the Historical Ethnological Museum of the State University of Haiti, Port-au-Prince, Haiti. Both of these programs offer travel-study experiences which focus on Caribbean realities such as health care, educational systems, geography, history, religion, economy, politics, art, population, migration, family and kinship. The study trip provides first-hand experience of Caribbean life styles and value systems through lectures by Caribbean scholars and field trips guided by Caribbean instructors as well as
personal interviews with Caribbean residents. Both graduate and undergraduate credits are optional and non-credit participants are welcome.

Junior Year in Munich (Germany)

Office: 401 Manoogian Hall; 313-577-4605  
Program Director: Mark Ferguson  
http://www.jym.wayne.edu/

Not just for German majors, the Junior Year in Munich (JYM) program is a unique study abroad experience open to students of any major at Wayne State University. JYM offers one-semester or academic year program options. Students earn WSU credit towards their degree while participating in the JYM program where they are enrolled at Ludwig Maximilians Universität (LMU Munich) - the number one ranked research university in Germany. Sponsored by Wayne State University since 1953, JYM is the oldest study abroad program in Germany. It has a national reputation for excellence and enrolls students from a wide variety of colleges and universities across the country.

ADMISSION REQUIREMENTS: The basic requirements for admission to the program are:

1. Junior (completion of fifty-five credits), senior, or graduate standing at Wayne State. Students from other universities are eligible with analogus standing at their institution.
2. Two years of college German with a 'B' average;
3. An overall 3.0 g.p.a., or better.

ORIENTATION: The program begins with an orientation period that prepares students for their studies at the university and also includes a variety of activities designed to introduce students to various facets of everyday life in their new surroundings.

COURSES: Students who study in Munich may take the following types of courses (all instruction is in German):

1. JYM Language Courses: All students are required to take JYM's Advanced German Language course each semester.
2. JYM Courses: JYM Area Studies courses take advantage of the many academic, cultural and social resources available in Munich. Field trips and excursions to cultural events and sites of historical interest in and around Munich are built into every course. These courses are offered by the program exclusively for JYM students, and are described on the JYM website.
3. University Courses: All JYM students are directly enrolled at LMU Munich and have access to the full university curriculum, except medicine and law. LMU Munich is divided into eighteen Faculties which are home to 203 institutes that focus on research and teaching within 129 disciplines and 150 degree-granting subject areas. Students may take bachelor level courses in almost any discipline if they meet course prerequisites and have the necessary language skills.

ABOUT MUNICH: Munich offers the best of all worlds: old world culture and the excitement of a big modern city, and all less than an hour from the Alps on public transportation. Because of its safe, small town feel, Munich is often referred to as a Millionendorf (a village with a million inhabitants). Munich is known for its world famous museums, symphony orchestras, theaters, film studios and opera house, as well as for its annual Oktoberfest and favorite soccer club, FC Bayern München. In addition, Munich boasts fourteen universities (two are the top-ranked in all of Germany) and twelve Max-Planck institutes, is home to the most modern engineering research center in the world, the largest medical research facility and one of the largest solar parks in Europe, and is headquarters to globally-known firms such as Allianz, BMW and Siemens. It is no wonder that the 2014 QS Best Student Cities Ranking placed Munich among the top ten best university cities worldwide.

SUPPORT IN MUNICH: The JYM institute is centrally situated in the city center, adjacent to many university buildings and student cafeteria, and just a few minutes walk from six of Munich's world-renowned museums. The institute includes an extensive library collection, study area and lounge, classrooms, computers and wireless networking capability, and is used for JYM instruction, guest speaker and special events, personal and educational support. A full-time Resident Director and support staff are available on-site to assist and guide students throughout the year.

LIVING ARRANGEMENTS: Students are housed in the popular StudentenStadt (Student-City) dormitories for university students in Munich. Located next to the English Garden, all rooms are single efficiency apartments and each floor has a common-room.

INTERNSHIPS: Internship opportunities are possible for students on the JYM program. Internships have been arranged in a wide variety of interest areas such as marketing, publishing, education, engineering, ecology and the environment, e-commerce, health care, government, foreign service, international trade, and economic development consultancy.

UNDERGRADUATE RESEARCH: JYM can help students customize a research project that matches their interests and needs. Many students take advantage of this opportunity to work on a capstone project or senior thesis. Examples of research projects undertaken in recent years can be found on the JYM website.

SCHOLARSHIPS: Multiple scholarships are available through the JYM program. Wayne State University students holding Presidential Scholarships or Michigan Competitive Scholarships may use these for Program tuition as well as any Federal grants and loans.

African American Studies

Office: 11th Floor, 5057 Woodward, Rm. 11002.2; 313-577-2321  
Chairperson: Ollie A. Johnson III  
Academic Advisor: Cynthia Merritt  
Accounts Assistant: Douglass Davis  
http://www.clas.wayne.edu/africanastudies

African American Studies is the systematic study of the historical, cultural, intellectual and social development of people of African descent, the societies of which they are a part, and their contribution to world civilization. Its principal geographic domains are the United States, the Caribbean, Latin America, the African continent, and increasingly Western Europe where large Africana communities reside. The field features a diversity of intellectual approaches and practical interests. Based on an interdisciplinary framework, it draws upon the humanities, and the social and behavioral sciences.

The major in African American Studies prepares students for a wide range of professional and career opportunities. Majors can continue to graduate (including doctoral level) studies in the humanities, social and behavioral sciences, or pursue professional programs in law, medicine, business, and journalism. Graduates who enter the job market are prepared for careers in human services and public health, education, public relations, community development, urban planning; and more generally for jobs in the public sector, in central cities and urban institutions, or jobs that involve cultural or intergroup relations as well as international affairs. In the context of metropolitan Detroit, African American Studies graduates will be better prepared to deal with the complexity and diversity of the city’s political and demographic realities as they assume important roles of leadership.
African American Studies (B.A.)

The major in African American Studies prepares students for a wide range of professional and career opportunities. Majors can continue to graduate (including doctoral level) studies in the humanities, social and behavioral sciences, or pursue professional programs in law, medicine, business, and journalism. Graduates who enter the job market are prepared for careers in human services and public health, education, public relations, community development, urban planning; and more generally for jobs in the public sector, in central cities and urban institutions, or jobs that involve cultural or intergroup relations as well as international affairs. In the context of metropolitan Detroit, African American Studies graduates will be better prepared to deal with the complexity and diversity of the city’s political and demographic realities as they assume important roles of leadership.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University. (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. A grade point average of 2.0 is required both in the African American Studies major and in General Education requirements for graduation.

Students with an interest in African American studies and majoring in anthropology, English, history, sociology, urban studies, and political science are encouraged to consider a second major in African American studies. Many African American Studies courses are cross listed, and African American Studies majors may receive credit for courses taken for another major.

Major Requirements

Majors must complete at least thirty-six credits in a prescribed course of study, including:

<table>

Internships

Internships are available in which students gain experience through placements in settings similar to those in which they will later be seeking professional roles. These include: community service agencies, community-based self-development organizations, public and private institutions, Black alternative organizations and other appropriate settings. Some students may also do a practicum directly with the Department of African American Studies, assisting in research, community relations, and in the organization, coordination and conduct of community extension and education service programs. The objective of this mode of study is to offer students the opportunity to synthesize diverse ideas, theories and methodologies with important and practical real world imperatives. Interested students should contact the department’s undergraduate advisor.

Summer Study Abroad

This travel program periodically visits Africa and/or Brazil. Through an integrated field/classroom/seminar experience, students are challenged to grow intellectually, as well as to increase their self-awareness and sensitivity to other cultures. For more information, consult the department advisor.

African American Studies Minor

Students majoring in other fields can minor in African American studies. The minor consists of six AFS courses which must include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFS 3420</td>
<td>Pan Africanism: Politics of the Black Diaspora</td>
<td>4</td>
</tr>
</tbody>
</table>

Select two or more of the following: 6-8

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFS 2010</td>
<td>African American Culture: Historical and Aesthetic Roots</td>
<td>6-8</td>
</tr>
<tr>
<td>AFS 2210</td>
<td>Black Social and Political Thought</td>
<td></td>
</tr>
<tr>
<td>AFS 2600</td>
<td>Race and Racism in America</td>
<td></td>
</tr>
<tr>
<td>AFS 3250</td>
<td>Politics and Culture in Anglophone Caribbean</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 10-12

Students wishing to minor in African American Studies are encouraged to visit the departmental office for information and counseling. A minor may be declared when filing for graduation.

Anthropology

Office: 3054 Faculty Administration Building; 313-577-2935
Chairperson: Andrea Sankar
Academic Services Officer: Susan Villerot
Undergraduate advisor: Andrew Newman
http://www.clas.wayne.edu/Anthropology/

Anthropology is a comparative social science that seeks to understand human behavior within the context of different cultural systems, past and present. Anthropology also seeks to understand human biological evolution and adaptation and their interaction with social and cultural behavior. Anthropology brings a cross-cultural knowledge base and unique methodological and conceptual tools to bear on understanding the transformations, problems and interconnections of contemporary societies. The discipline is divided into the fields of cultural, biological,
linguistic anthropology, archaeology, and applied anthropology. Wayne State's department offers a broad-based Bachelor of Arts in anthropology.

Undergraduate training in anthropology is designed for various groups of students:

1. those desiring scientific knowledge of the social and cultural determinants of behavior;
2. those preparing to enter law, medicine, public health, social work, information sciences, or public administration;
3. those preparing for employment in historical or natural science museums;
4. those preparing to serve the business and/or industrial community as specialists in cross-cultural analysis or management consulting;
5. those seeking to enter the field of cultural resource management;
6. those expecting to work with the general public and, therefore, requiring a broad grasp of the nature of society, group behavior and social change;
7. those looking forward to teaching anthropology or another of the social or behavioral sciences;
8. those preparing for a career in another country, in international studies, or in foreign affairs;
9. those planning to pursue careers in law enforcement, police science, or criminal justice; and
10. those who desire to pursue graduate studies in anthropology.

- Anthropology (B.A.) (p. 227)
- Anthropology Minor (p. 227)

**Anthropology (B.A.)**

Anthropology is a comparative social science that seeks to understand human behavior within the context of different cultural systems, past and present. Anthropology also seeks to understand human biological evolution and adaptation and their interaction with social and cultural behavior. Anthropology brings a cross-cultural knowledge base and unique methodological and conceptual tools to bear on understanding the transformations, problems and interconnections of contemporary societies. The discipline is divided into the fields of cultural, biological, linguistic anthropology, archaeology, and applied anthropology. Wayne State's department offers a broad-based Bachelor of Arts in anthropology, for which the following admission and degree requirements apply.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Major Requirements**

Students majoring in anthropology are required to elect a minimum of thirty-four credits in anthropology, including

<table>

The election of a minor in anthropology is appropriate for students in a variety of disciplines who wish to add a comparative, cross-cultural,
Students with grades below a 'C-minus' in prerequisite coursework with a 'C-minus' or better to satisfy the prerequisite requirements. Grade accurate listings of prerequisite requirements. To the Biological Sciences Department Advisor and the Class Schedule for prerequisites and corequisites listed for each Biology course. Please refer to the Biological Sciences Department Advisor and the Class Schedule for prerequisite requirements. Students who do not formally declare their major are susceptible to program requirements are established by the declaration of major date. Students completing Declaration of Major: Students should declare their major after regularly in order to verify that their Biology requirements are being met. Students should consult a Biological Sciences Department Advisor in accordance with the regulations of the University. All course work must be completed major requirements, policies, and procedures governing the program they are following and to act accordingly. Over-Age Credits: A student attempting to complete a biological sciences major after a prolonged interruption of his/her education may find that some of the previous course work in biological sciences is out of date. In such cases, the record will be reviewed and the Department may require the student to fulfill biological sciences course requirements existing at the time of his/her return. Transfer Students should consult with the Departmental undergraduate advisor during the semester prior to their transfer (after a transfer evaluation has been completed by the Transfer Credit Office). Determination of course equivalency will be made by the Departmental undergraduate advisor in conjunction with the Transfer Credit Evaluation Unit in the Office of Undergraduate Admissions. The Department reserves the right for the final determination of course equivalency. Transfer students contemplating a combined degree with dentistry or medicine must complete the same requirements listed above for biological science majors except that a minimum of twelve credits are required in residence in biological sciences beyond BIO 1500 and BIO 1510. Advanced Placement in Biological Sciences may be obtained by earning the following scores in the AP Qualifying Examination: Score of 5: Credit is awarded for BIO 1500 and BIO 1510 (eight credits). Students are eligible to enroll in subsequent courses providing the prerequisites for them have been met. Score of 3 or 4: Credit is awarded for BIO 1510 (four credits). Students with a score of 3 or 4 are eligible to register in BIO 1500. Accelerated Graduate Enrollment: The ‘AGRADE’ Program is designed for outstanding seniors who wish to complete bachelor’s and master’s degrees. For further details and eligibility requirements regarding the ‘AGRADE’ Program and Biological Sciences, contact the Department Advising Office, 1360 Biological Sciences Building.

- Biological Sciences (B.A.) (p. 228)
- Biological Sciences (B.S.) (p. 229)
- Biological Sciences Minor (p. 230)

Biological Sciences (B.A.)

The Bachelor of Arts degree is for students who desire a broad liberal arts education with specialization in biology. It is not recommended for students anticipating admission into graduate science programs or medical school. Students contemplating a major program in biological sciences should consult with the departmental undergraduate advisor no later than the beginning of the sophomore year.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and
the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. A grade point average of 2.0 (C) in both biology and general required courses is required for graduation.

**Major Requirements**

A minimum of thirty-two credits beyond BIO 1500 and BIO 1510 are required of the major. Students must declare their major after completing BIO 2600, and before electing higher-level courses. Courses through the 6000 level may be elected in the final year, providing the proper prerequisites have been taken. At least twelve of the thirty-two credits must be taken in residence.

1. BIO electives must include a minimum of two lecture based 3000-6000 level BIO courses.
2. Additional courses from these sequences may be used as BIO electives as long as prerequisite requirements are met.

NOTE: In addition to the courses outlined above, students must satisfy all General Education Requirements and elect sufficient additional credits to achieve the minimum 120 credits required for graduation.

**Biological Sciences Honors (B.A. and B.S. Programs)**

The Department participates in the honors program and works with individual students to develop a curriculum that satisfies honors degree requirements. Students interested in an honors degree should contact the departmental honors advisor and/or the Chairperson of the Undergraduate Curriculum Committee.

**Program Requirements:** To achieve honors designation with the Bachelor of Arts or Bachelor of Science in Biological Sciences, students are required to complete all University and major requirements (see above) including fourteen honors credits in Biology and at least ten additional honors credits, which includes an Honors Seminar (HON 4200-HON 4280).

The fourteen credits in Biological Sciences are comprised of:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

If a student does not take the honors section in BIO 1500 and BIO 1510 then he/she must take eight credits of Biology courses with an honors option.

To be awarded an honors degree, Students must maintain a g.p.a. of at least a 3.3 in the major, and accumulate twenty-four honors credits.

**Biological Sciences (B.S.)**

The Bachelor of Science degree is for those students who wish to follow a career in the sciences and/or those planning to enter post-graduate professional schools. Students contemplating a major program in biological sciences should consult with the Departmental undergraduate advisor no later than the beginning of the sophomore year. Students must declare their major after completing BIO 2600, and before electing higher-level courses. The major program incorporates all of the regular College Group Requirements.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. A grade point average of 2.0 (C) in both biology and general required courses is required for graduation.

**Major Requirements**

A minimum of thirty-two credits beyond BIO 1500 and BIO 1510 are required of the major. Courses through the 6000 level may be elected during the final year, providing the proper prerequisites have been taken. At least twelve of the thirty-two credits must be taken in residence.

1. BIO electives must include a minimum of two lecture based 3000-6000 level BIO courses.

Wayne State University Undergraduate Bulletin 2017-2018 229
The fourteen credits in Biological Sciences are comprised of:

- ten additional honors credits, which includes an Honors Seminar above
- at least four additional credits

The Department participates in the honors program and works with Biological Sciences Honors (B.A. and B.S. Programs) in Mathematics as soon as possible upon entry into the freshman year. Majors should take the Placement Examination of the Department of Mathematics as soon as possible upon entry into the freshman year.

### Biological Sciences Minor

Completion of the minor in biological sciences requires twenty-one to twenty-three biology credits including the following:

**Total Credits:** 14

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

If a student does not take the honors section in BIO 1500 and BIO 1510 then he/she must take eight credits of Biology courses with an honors option.

To be awarded an honors degree, Students must maintain a g.p.a. of at least a 3.3 in the major, and accumulate twenty-four honors credits.

### Chemistry

**Office:** 169 Chemistry Building; 313-577-7784  
**Chairperson:** Matthew J. Allen  
**Associate Chairperson:** Jeremy Kodanko  
**Academic Services Officers:** Erin Bachert, Melissa Barton  
http://www.chem.wayne.edu

The courses offered by this Department are designed to serve the needs of three distinct groups of students:

1. those majoring in chemistry with the intention of entering the chemical profession,
2. those majoring in chemistry with the intention of entering other professional fields, and
3. those majoring in other subjects who desire to elect chemistry courses as part of their programs. Students intending to major in chemistry should refer to the program tabs for more information.

Students with no prior experience in chemistry may elect CHM 1000 (for non-science majors); CHM 1020 (for non-science majors and certain preprofessional students); or CHM 1040, which is intended for students who need higher-level chemistry work but who fail to qualify for CHM 1220 or CHM 1225 or whose math/science skills are weak. Students who have had a year or more of high school chemistry or the equivalent may register for CHM 1220 or CHM 1225 (for science and preprofessional majors) provided that they meet the other eligibility requirements outlined below. Election of CHM 1000, CHM 1020, CHM 1220, or CHM 1225 will satisfy the University General Education Requirement for a physical science.

#### Terminal Chemistry Courses

CHM 1000 is a terminal survey course designed primarily to acquaint non-science students with the principles of chemistry in a format requiring minimal mathematical skills. When
elected for four credits, this course includes a laboratory which satisfies the University General Education Requirement for a laboratory course.

CHM 1020 and CHM 1030 represent a terminal sequence designed to introduce the basic principles of chemistry and survey the various fields of chemistry for non-science majors and certain pre-professional students such as pre-nursing, occupational health, engineering technicians and others.

Foundational Chemistry: CHM 1040 is designed as the beginning chemistry course for science majors, pre-professional students, and other students who have had little prior experience in chemistry and/or mathematics. CHM 1220 (or CHM 1225) and CHM 1230 are complementary and corequisite courses which should be taken during the same term. CHM 1220 is a classroom-focused course. CHM 1230 is a laboratory-focused course. This also describes the succeeding corequisite sets CHM 1240 and CHM 1250, CHM 2220 and CHM 2230, and CHM 2280 and CHM 2290.

General Chemistry: CHM 1220/CHM 1230 are designed as the beginning courses for science majors and preprofessional students who have a good background in high school chemistry. (CHM 1225/CHM 1230 is the sequence for students in the College of Engineering.) Eligibility for CHM 1220/CHM 1230 must be established by passing a placement examination, covering basic high school material, which is administered by Testing, Evaluation, and Student Life Research, 698 Student Center Building. The qualifying examination is administered several times prior to and during registration. The sequence of CHM 1220/CHM 1230 and CHM 1240/CHM 1250 are prerequisite to all higher numbered courses in chemistry.

Advanced Placement Credit
Advanced placement college credit in chemistry shall be awarded for scores earned in the chemistry placement examination as follows:

Score of 4 or 5: Credit awarded for CHM 1220/CHM 1230 and CHM 2280 (eight credits); student is eligible to enroll in CHM 1240/CHM 1250.

Score of 3: Credit awarded for CHM 1220/CHM 1230 (five credits); student is eligible to enroll in CHM 1240/CHM 1250.

• Biochemistry and Chemical Biology (B.S.) (p. 231)
• Chemistry (B.A.) (p. 232)
• Chemistry (B.S.) (p. 233)
• Chemistry Minor (p. 235)

Biochemistry and Chemical Biology (B.S.)

This degree offers students the opportunity to develop in-depth knowledge in five areas of biological chemistry (bioorganic, bioinorganic, bioanalytical, biophysical, and health sciences). The program teaches key chemical concepts and develops student ability to apply them to a wide variety of biological problems. The program serves to develop and train graduates who will be well prepared to enter graduate or professional schools as well as careers in the chemical, pharmaceutical, biomedical, agricultural and bioinformatic industries.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Students planning to major in biochemistry and chemical biology should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Major Requirements
Those who wish to follow the curriculum in the College for the B.S. with a major in Biochemistry and Chemical Biology degree must complete the following courses:

<table>
<thead>
<tr>

1. By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998) or two credits of CHM 5900. The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Biochemistry and Chemical Biology Honors (B.S. Program)

1. All regular requirements for the Bachelor of Science with a major in Biochemistry and Chemical Biology degree must be fulfilled (no substitutions).
2. Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
3. Minimum of four credits must be earned in independent research (CHM 5998); this should commence in the junior year (or earlier).

4. Completion of one semester of an HON 4200-level honors seminar. (For information about honors-designated coursework available each semester, including the required 4000-level Honors seminar, visit the Honors College website (http://www.honors.wayne.edu/classes.php).) This course may be used to partially fulfill college Group Requirements and can be elected in either the junior or senior year.

5. Submission of a B.S. thesis (covering the undergraduate independent research project), or of a manuscript suitable for publication in a refereed chemical journal, to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).

6. An oral examination covering the B.S. Honors Research Project, by the Honors Subcommittee in Chemistry.

Chemistry (B.A.)

This curriculum allows students to major with a maximum of forty-six credits in chemistry while providing flexibility for exposure in other cognate fields. This degree is appropriate for students in science-oriented pre-professional programs such as medicine and dentistry, as well as for students entering secondary science teaching. For individuals interested in entering a graduate program in chemistry or pursuing a position in the chemical industry upon graduation, it is recommended that the additional requirements for professional certification by the American Chemical Society (see Requirements tab) be completed.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Students planning to major in chemistry should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 310) and the College (p. 319) governing undergraduate scholarship and degrees.

Major Requirements

Those who wish to follow the general curriculum in the College of Liberal Arts and Sciences for the B.A. degree in chemistry must complete the following courses:

<table>

<td></td>
</tr>
</tbody>
</table>

A minimum grade of ‘C’ is required in prerequisite chemistry courses.

At least fifteen credits in chemistry must be earned at Wayne State University.

ACS Certification

B.A. candidates may receive certification by the American Chemical Society upon graduation by completing the following in addition to the Chemistry courses required for the B.A. degree:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 2150</td>
<td>Differential Equations and Matrix Algebra</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2250</td>
<td>Elementary Linear Algebra</td>
<td>3</td>
</tr>
<tr>
<td>or MAT 2350</td>
<td>Elementary Differential Equations</td>
<td></td>
</tr>
<tr>
<td>CHM 5420</td>
<td>Physical Chemistry I</td>
<td>3</td>
</tr>
<tr>
<td>CHM 5440</td>
<td>Physical Chemistry II (rather than CHM 5400)</td>
<td>4</td>
</tr>
<tr>
<td>CHM 5160</td>
<td>Instrumental Analytical Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>Select two of the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CHM 5510</td>
<td>Chemical Synthesis Laboratory</td>

</tr>
<tr>
<td>CHM 5570</td>
<td>Instrumental Analytical Chemistry Laboratory</td>
<td></td>
</tr>
<tr>
<td>CHM 5999</td>
<td>Research in Chemistry</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 23

To receive certification, students must submit an application along with a transcript to the Chemistry Department Curriculum Committee prior to the end of the final term.

Chemistry Honors (B.A. Program)

1. All B.A. requirements in chemistry must be fulfilled.
2. Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
3. Minimum of four credits in independent research (CHM 5998). Research should commence in the junior year (or earlier).
4. Completion of one semester of an Honors Program 4200-level seminar (consult the Schedule of Classes under ‘Honors Program’). This course may be used in partial fulfillment of College Group Requirements and can be elected in either the junior or senior year.
5. At least twelve credits in honors-designated course work.
6. Submission of a B.A. thesis or a manuscript suitable for publication in a refereed chemical journal (covering the undergraduate research project) to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
7. An oral examination covering the B.A. Honors Research Project, by the Honors Subcommittee in Chemistry.
Chemistry (B.S.)

This degree offers a strong background for students interested in a career in chemistry or in a professional field with a strong reliance on chemistry. It is particularly recommended for students planning to do graduate work in chemistry and chemically-related fields. The degree is offered with three options:

1. Bachelor of Science in Chemistry.
2. Bachelor of Science in Chemistry with a concentration in biochemistry, and
3. Bachelor of Science in Chemistry with a concentration in materials.

The first option is designed primarily for those planning to enter the chemical profession and other professional fields. The second option is designed primarily for students planning careers in biochemical and biomedical areas. The third option is designed primarily for students interested in materials science. (Note: Those interested in Phi Beta Kappa should consult with the secretary of the Wayne State University Chapter in order to determine the maximum number of chemistry credits allowed.)

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Students planning to major in chemistry should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Chemistry B.S. - Option One

Major Requirements

Those who wish to follow the curriculum in the College for the B.S. in Chemistry degree must complete the following courses:

Three semesters of any language 12

Total Credits 82-86

1 By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998). The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Substitutions in B.S. Curriculum (Option ONE ONLY): In recognition of the diverse backgrounds required for various careers in chemistry, students may petition the Chemistry Curriculum Committee for approval to substitute advanced courses numbered 5000 or above from another discipline (such as physics, mathematics, biology, engineering) for the following B.S. requirements:

Select one of the following: 3-4

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Chemistry elective

Such petitions for substitutions must be submitted in writing accompanied by a detailed statement of justification and a current transcript, and must be approved prior to registration in the alternative courses. Decisions regarding approval of such requests will be based on their legitimacy in terms of the student's professional goals. It is suggested that students consult the Chairperson of the Chemistry Curriculum Committee before filing such a petition.
Chemistry B.S. - Option Two (Biochemistry)

Major Requirements

Those who wish to follow the curriculum for the B.S. in Chemistry with a concentration in biochemistry must complete the following courses (NO substitutions are allowed in the Option Two program: B.S. in Chemistry with a concentration in biochemistry):

- CHM 1220/1230 General Chemistry I 4
- CHM 1240/1250 Organic Chemistry I 4
- CHM 2220/2230 Organic Chemistry II 4
- CHM 2280/2290 General Chemistry II: Analytical Chemistry 3
- CHM 3020 Intermediate Inorganic Chemistry I 3
- CHM 5020 Intermediate Inorganic Chemistry II 3
- CHM 5160 Instrumental Analytical Chemistry 3
- CHM 5400 Biological Physical Chemistry 4
- CHM 5540 Physical Chemistry I 3
- CHM 5550 Physical Chemistry Laboratory 2
- CHM 5570 Instrumental Analytical Chemistry Laboratory 3
- CHM 6610 Biological Chemistry Laboratory 3
- CHM 6620 Metabolism: Pathways and Regulation 3
- CHM 6640 Molecular Biology 3

Select one of the following: 3-4

- CHM 5510 Chemical Synthesis Laboratory
- MAT 2150 Differential Equations and Matrix Algebra
- MAT 2250 Elementary Linear Algebra
- MAT 2350 Elementary Differential Equations
- CHM 5999 Research in Chemistry ¹ 2-4
- CHM 6991 Research in Chemistry (Biochemistry) 4
- PHY 2170/2171 University Physics for Scientists I 4
- PHY 2180/2181 University Physics for Scientists II 4
- BIO 1510 Basic Life Mechanisms 4
- BIO 2200 Introductory Microbiology 5
- BIO 3070 Genetics 5
- MAT 2010 Calculus I 4
- MAT 2020 Calculus II 4
- MAT 2030 Calculus III 4

Three semesters of any language 12

Total Credits 93-96

¹ By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998). The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Chemistry B.S. - Option Three (Materials)

Major Requirements

Those who wish to follow the curriculum for the B.S. in Chemistry with a concentration in materials must complete the following courses (NO substitutions are allowed in the Option Three program: B.S. in Chemistry with a concentration in materials):

- CHM 1220/1230 General Chemistry I 4
- CHM 1240/1250 Organic Chemistry I 4
- CHM 2220/2230 Organic Chemistry II 4
- CHM 2280/2290 General Chemistry II: Analytical Chemistry 3
- CHM 3020 Intermediate Inorganic Chemistry I 3
- CHM 5020 Intermediate Inorganic Chemistry II 3
- CHM 5160 Instrumental Analytical Chemistry 3
- CHM 5420 Physical Chemistry I 3
- CHM 5440 Physical Chemistry II 4
- CHM 5550 Physical Chemistry Laboratory 2
- CHM 5570 Instrumental Analytical Chemistry Laboratory 3
- CHM 5600 Survey of Biochemistry 3
- CHM 6060 Materials Chemistry and Engineering 3
- MSE 5350 Polymer Science 3
- CHM 5999 Research in Chemistry ¹ 2-4
- CHM 5998 Honors Thesis Research in Chemistry 4
- PHY 2170/2171 University Physics for Scientists I 4
- PHY 2180/2181 University Physics for Scientists II 4
- BE 1300 Basic Engineering II: Materials Science for Engineering Applications 3
- BE 1310 Materials Science for Engineering: Laboratory 1
- MAT 2010 Calculus I 4
- MAT 2020 Calculus II 4
- MAT 2030 Calculus III 4

Select one of the following: 3-4

- MAT 2150 Differential Equations and Matrix Algebra
- MAT 2250 Elementary Linear Algebra
- MAT 2350 Elementary Differential Equations
- MSE 5650 Surface Science 3

Three semesters of any language 12

Total Credits 86-89

¹ In addition, students must enroll for at least two credits in independent research (CHM 5999 or CHM 5998) by the first semester of their senior year. Research must be conducted under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999 or CHM 5998) must be earned at Wayne State University.
Chemistry Honors (B.S. Program)

1. All regular requirements for the Bachelor of Science in Chemistry degree must be fulfilled (no substitutions).
2. Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
3. Minimum of four credits must be earned in independent research (CHM 5998); this should commence in the junior year (or earlier).
4. Completion of one semester of an HON 4200-level honors seminar. This course may be used to partially fulfill college Group Requirements and can be elected in either the junior or senior year.
5. Submission of a B.S. thesis (covering the undergraduate independent research project), or of a manuscript suitable for publication in a refereed chemical journal, to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
6. An oral examination covering the B.S. Honors Research Project, by the Honors Subcommittee in Chemistry.

Chemistry Minor

Students majoring in other fields who desire to obtain a minor in chemistry must complete the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 1220</td>
<td>General Chemistry I</td>
<td>5</td>
</tr>
<tr>

Total Credits: 29

1. Excluding seminar and research courses (CHM 2999, CHM 4850, CHM 5999, etc.).

Classical and Modern Languages, Literatures, and Cultures

Office: 485 Manoogian Hall; 313-577-3002
Chairperson: Anne E. Duggan
Academic Services Officers: Terrie Pickering

Academic Advisor: Chris Clark
http://www.clas.wayne.edu/languages

This Department offers courses and programs of instruction in fourteen different languages. In addition to language learning and Global Studies, the Department focuses on the cultures and literatures of ancient Greece and Rome, as well as the modern world, in courses taught both in languages indigenous to these regions as well as in English translation. The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice. Languages, literatures, and cultures are also excellent foundations for students interested in pursuing careers that do not require post-graduate education, for example, in government, publishing, tourism, and business, any field in which intelligence, communication skills, and a broad liberal education are valued.

The Department offers programs in both major and minor concentration as well as cognate course work that can provide perspectives for majors in other departments. A student who wishes to major or minor in one of our degree programs should meet with a Departmental advisor as soon as possible after entering the University.

Majors

• Asian Studies (B.A.) (p. 236)
• Classics (B.A.) (p. 237)
• German (B.A.) (p. 238)
• Global Studies (B.A.) (p. 238)
• Near Eastern Studies (B.A.) (p. 241)
• Romance Languages (B.A.) (p. 241)
• Slavic Studies (B.A.) (p. 242)

Minors

• Ancient Greek Minor (p. 244)
• Ancient Greek and Latin Minor (p. 244)
• Arabic Minor (p. 244)
• Asian Studies Minor (p. 244)
• Classical Civilization Minor (p. 244)
• French Minor (p. 244)
• German Minor (p. 244)
• Global Studies Minor (p. 244)
• Hebrew Minor (p. 245)
• Italian Minor (p. 245)
• Latin Minor (p. 245)
• Modern Greek Studies Minor (p. 245)
• Near Eastern Studies Minor (p. 245)
• Polish Minor (p. 245)
• Russian Minor (p. 245)
• Spanish Minor (p. 246)

CMLLC Program Requirements

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.
A student who wishes to major or minor in the Department should plan his/her program with the Departmental undergraduate advisor as soon as possible after entering the University. Each major’s program is arranged to satisfy the individual student’s interests and purposes, whether they be to combine majors and minors for teacher certification, to acquire language skills needed for technical work in other areas of study, to enrich professional background, or to broaden general cultural development.

**Degree Requirements**

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**General Education Program - Foreign Language Group Requirements**

**Foreign Language**

Students may satisfy the Foreign Language Group Requirement (see Foreign Language (p. 220)) by completing the third course of an elementary language sequence, or by a special examination through which one might place out of the requirement. Students electing language study should do so as early as possible and continue it without interruption. The courses numbered 1010, 1020, (1060) and 2010 are essentially a continuum designed to give students command of the basic elements of the language. The ‘target’ language is the primary language of the classroom. There are several in-class examinations in each course; group finals are given. The learning of a foreign language requires:

1. regular class attendance;
2. class participation; and
3. two hours of concentrated study for each hour in class.

**Placement:** Students continuing the study of any of the languages cited at Foreign Language (p. 220) and begun in high school or in another college should consult with the Department undergraduate advisor to determine the level at which to continue coursework (phone: 313-577-3002). The main criteria for placement of these students is the Departmental placement exam. The number of years of high school language study does not effectively correspond to language course sequences at the university level. Students with sufficiently high placement exam scores will be deemed to have satisfied the Foreign Language Group Requirement. For information on the Placement Examination, contact the Department at 313-577-3002. Examinations are scheduled by appointment at the Department Office, 487 Manoogian Hall. (A fee is charged.)

The satisfaction of the College of Liberal Arts and Sciences Foreign Language Group Requirement also satisfies the University General Education Foreign Culture (FC) Requirement.

**Foreign Culture**

As noted above, satisfaction of the College of Liberal Arts and Sciences Foreign Language Group Requirement also satisfies the Foreign Culture Requirement of the University General Education Program (see General Education Program) (p. 31). Modern Greek (KGM 3710) also satisfies the Foreign Culture Requirement. CLA 1010, CLA 2200 and CLA 2300 satisfy the Philosophy and Letters (PL) requirement.

**Departmental Honors Program**

Qualified majors may apply for participation in the Departmental Honors Program. Only a student who has demonstrated superior ability in one of the Departmental majors and who shows promise of acquiring greater breadth and depth of knowledge through tutorial study will be admitted to the program. As preparation for admission, the student is required, during the freshman and sophomore years, to acquire basic knowledge of their major language. To be recommended for an honors degree a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least fifteen credits in honors-designated course work, including at least one 4000-level seminar offered through the Honors College (see the schedule of classes (http://classschedule.wayne.edu) under ‘Honors Courses’ for seminar topics), and the Departmental credits associated with completion of a Senior Thesis.

**‘AGRADE’ Program (Accelerated Graduate Enrollment)**

The Department encourages academically-superior majors to petition for admission into the College’s ‘AGRADE’ program. Qualified seniors may apply a maximum of fifteen credits toward both a bachelor’s and a master’s degree. For more details, contact the graduate director (Classics, French, German, Italian, or Spanish): 313-577-3002. Students should consult with the director in their junior year regarding this opportunity.

**Study Abroad**

Students should consult the department and the Study Abroad and Global Programs Office (p. 43) for more details on the following programs:

- **Arabic Language and Culture at the American University of Cairo or Lebanese American University**
  - **Junior Year in Munich Program**
    - Juniors, seniors, or graduate students who would like to spend a year studying at the University of Munich are encouraged to contact the Junior Year in Germany Office, 401 Manoogian Hall; 313-577-4605.
  - **Study Abroad in Poland**
    - A two-week study-abroad program is offered in May. Contact department for details.
  - **Study Abroad in Russia**
    - A four-week program offered in June. Students study and live in St. Petersburg, and make a side-trip to Moscow.
  - **Summer Homestay and Study Tour Program in Japan**
    - A two-week study tour trip (trip after spring semester) is offered in spring and summer. Contact department for details.

**Asian Studies (B.A.)**

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 235) for admission, degree, and general education requirements.
Asian Studies: Chinese and/or Japanese Concentrations

A major concentration in Asian studies consists of a concentration in either Chinese or Japanese; or joint study of both languages.

Chinese OR Japanese Concentration

The major with a concentration in Chinese or Japanese requires thirty-three credits consisting of:

Select seventeen credits in language courses beyond first year proficiency including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHI 1010</td>
<td>Intermediate Chinese</td>
<td>4</td>
</tr>
<tr>
<td>or JPN 1010</td>
<td>Intermediate Japanese I</td>
<td>4</td>
</tr>
<tr>
<td>CHI 2020</td>
<td>Intermediate Chinese II</td>
<td>4</td>
</tr>
<tr>
<td>or JPN 2020</td>
<td>Intermediate Japanese II</td>
<td>4</td>
</tr>
</tbody>
</table>

Nine additional credits

Select sixteen credits in elective courses (with a maximum of four of those credits earned in additional language courses)

Total Credits

36

Electives include but are not limited to the disciplines of anthropology, business management, history, economics, linguistics, philosophy, cinema, culture, literature, and political science. Further restrictions may apply and students should consult the undergraduate advisor of the language area for details.

Chinese AND Japanese Concentration

The major with a joint study in both Chinese and Japanese requires thirty-six credits,

<table>
<thead>
<tr>

Classics (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 235) for admission, degree, and general education requirements. A major in Classics consists of satisfying one of the following sets of concentration requirements:

**Ancient Greek Major Concentration**

Twenty-four credits in Ancient Greek (exclusive of GKA 1010 and GKA 1020)

<table>

1. Please note that enrollment in Art History courses requires special permission; contact the Classics undergraduate advisor.

2. In addition to these Art History courses, any Art History course from the above list under “Greek Art and Archaeology” and “Roman Art and Archaeology” not used to fulfill the Art History requirement may be used to fulfill the elective requirement. Note: enrollment in Art History courses requires special permission; contact the Classics undergraduate advisor.

Recommended Cognate Courses: All majors in the Department are strongly urged to take as many courses as possible from the list above and in the literatures of other languages, including English.

**Latin: Combined Curriculum for Secondary Teaching**

Students who are preparing to teach Latin in the secondary schools and who wish to obtain a B.A. degree with a concentration in Latin must complete the concentration in Latin as outlined above and the requirements for this curriculum set by the College of Education. For further information, see Combined Curriculum for Secondary Teaching. (p. 222)

**Classics Honors (B.A. Program)**

In order to graduate with Honors in Classics, a student must complete all requirements for a major in Classics (see above); must maintain an overall g.p.a. of 3.3, and a g.p.a. of 3.5 in courses in the major; must complete a minimum of fifteen Honors option and/or Honors designated credits, including one three-credit Honors seminar (HON 4200-HON 4280), and three credits of CLA 4998 (Honors Thesis) involving a senior essay, thesis or project under the supervision of a full-time faculty member of the Classics area.

Eligible students who are interested in the program should consult the department undergraduate advisor. For information about honors-designated coursework available each semester, including the required 4000-level Honors seminar, visit the Honors College website (http://www.honors.wayne.edu/classes.php).

**German (B.A.)**

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 235) for admission, degree, and general education requirements. A major in German must satisfactorily complete thirty-one credits in German courses, including:

| GER 2020  Intermediate German II | 4 |
| GER 2310  Short Fiction from Central Europe and Russia | 3 |
| GER 2710  Survey of Germanic Culture I | 3 |
| GER 2720  Survey of Germanic Culture II | 3 |
| GER 3100  Intermediate Composition and Conversation I | 3 |
| GER 3200  Intermediate Composition and Conversation II | 3 |
| GER 4600  Proseminar in German Studies | 3 |
| GER 5100  Advanced Composition and Conversation | 3 |
| GER 5993  Writing Intensive Course in German | 0 |

Total Credits: 31

Majors are strongly encouraged to pursue a co-major, double major or minor, and/or to take general education and elective courses in related fields, such as: anthropology, art history, economics, engineering, English or another language area, film studies, gender, sexuality and women’s studies, geography, global supply chain management, history, international studies, linguistics, political science, social work, sociology, and theater.

For the interdisciplinary focus, students must complete two courses from the following options:

| HIS 3010  Jewish History from the Bible to 1492 | 4 |
| HIS 5440  Twentieth Century Europe | 4 |
| HIS 5500  The Soviet Union | 4 |
| PS 2710  Introduction to Comparative Politics | 4 |
| PS 3715  Politics of Central and Eastern Europe | 4 |
| ECO 1000  Survey of Economics | 4 |
| ECO 2010  Principles of Microeconomics | 4 |
| ECO 2020  Principles of Macroeconomics | 4 |
| GPH 3200  Europe | 3 |
| MKT 5750  International Marketing Management | 3 |

**Global Studies (B.A.)**

The Global Studies program is designed for students passionate about understanding and being active participants in a globalized world.
Students learn about global institutions, issues, and movements from an interdisciplinary perspective by:

1. developing language skills, which are essential to global communication and cultural understanding;
2. taking core courses in humanities and social sciences that provide students with an interdisciplinary and theoretical introduction to global studies; and,
3. specializing in global politics and economies, health and environment, and cultures and identities.

Throughout the curriculum students will think critically about questions related to global justice, inequality, how globalization impacts different cultures and regions around the world, and the responsibilities of global citizenship. A Global Studies major can prepare students for careers in government, diplomacy, law, health professions, teaching, research, non-governmental organizations, development, and business.

Through the program students will:
1. demonstrate intermediate-level skills in reading, writing, speaking, and listening in one language other than English, or elementary-level skills in reading, writing, speaking, and listening in two languages other than English.
2. analyze ways in which global issues intersect with the individual and the social with respect to gender, sexuality, class, race, and ethnicity.
3. describe the processes of globalization from economic, political, environmental, historical, and cultural perspectives and how these processes impact social structures and people's everyday lives.
4. connect globalization and global issues to the local, the regional (as it relates to regional issues within nation states), and the national.

Students wishing to pursue the major in global studies should meet with the program director and the undergraduate advisor in Classical and Modern Languages, Literatures, and Cultures for advising.

Students should refer to the CMLLC program requirements (p. 235) for admission, degree, and general education requirements.

Major requirements consist of a minimum of 33 credits distributed as follows:

Language Courses
Select a minimum of three courses or 9 credits beyond 2010 in the same language sequence or complete the three-semester basic language sequence in a second language. 

Core Courses
GLS 2700 Introduction to Global Stories 3
GLS 2800 Introduction to Global Issues and Institutions 3
GLS 3700 Globalization: Theories, Practices, Implications 3

Writing Intensive
GLS 5993 Writing Intensive Course in Global Studies 0

Electives from Three Areas of Focus
Students must take a minimum of fifteen credits from the following areas of focus: Global Politics and Economics, Global Health and Environment, Global Culture and Identities (see Areas of Focus tab). 

Total Credits 33-36

1 For language courses, please see languages offered in Classical and Modern Languages, Literatures, and Cultures. Students must receive a passing grade (C) in their language courses for them to count towards the GLS major.
2 Students must receive permission from the instructor and sign the WI contract, to be turned in to the GLS director. Students must receive a passing grade (S) on their WI project, the equivalent of a C.
3 Areas of focus allow students to specialize within the program in ways that enhance their academic and professional goals. A minimum of 6 credits must be at the 4000-level or above.

Areas of Focus
Students must take a minimum of fifteen credits from the following areas of focus:

Global Cultures and Identities
Ethnicity/Race/Migration/Immigration/Urbanization

Near Eastern Studies (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 235) for admission, degree, and general education requirements.

Near Eastern Studies Major

A major in Near Eastern studies consists of thirty-eight credits.

Select eleven credits in language, linguistics, or literature beyond ARB 1020 or HEB 1020

Select twenty-seven credits in elective courses with no less than six credits in three of the following four subject areas:

- Ancient Near East
- Israeli culture/civilization
- Arab culture/Islamic civilization
- Islamic and modern Middle East history

Total Credits 38

Near Eastern Languages Majors

A major in Near Eastern languages consists of a concentration in either Arabic or Hebrew; or joint study of both languages.

The Near Eastern Languages major with a concentration in Arabic or Hebrew consists of thirty-six credits. This includes:

Select twenty-four credits in language, linguistics, or literature beyond ARB 1020 or HEB 1020

Select twelve credits in electives courses in ancient Near East, Israeli culture/civilization, Arab culture/Islamic civilization, or Islamic and modern Middle East history

Total Credits 36

The Near Eastern Languages major with a joint study in both Arabic and Hebrew consists of twenty-nine credits beyond first-year proficiency in both Arabic and Hebrew. This includes:

Select twelve credits in either Arabic or Hebrew language, linguistics, or literature courses

Select eight credits in such courses in the other language

Select nine credits in electives courses in ancient Near East, Israeli culture/civilization, Arab culture/Islamic civilization, or Islamic and modern Middle East history

Total Credits 29

Romance Languages (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.
Students should refer to the CMLLC program requirements (p. 235) for admission, degree, and general education requirements.

All majors with concentrations in Italian and Spanish are required to take a minimum of two cognate courses approved by the advisor. They are encouraged to take as much work as possible in the literatures of other languages, both ancient and modern, as well as in history, philosophy, linguistics, art, and music.

**French Major Concentration Requirements**

There is one French concentration offered by the Department, with an optional course selection at the 6000 level, for either French literature or French culture.

A concentration in French consists of:

- **FRE 2100** French through Film I 4
- **FRE 2110** French through Film II 4
- **FRE 2710** Introduction to French Civilization I or **FRE 2720** Introduction to French Civilization II 3
- **FRE 3200** French Cafe 3
- **FRE 3300** Prose, Poetry, and Performance 3
- **FRE 4610** Introduction to Literary Textual Analysis 3
- **FRE 4620** Topics in Sociocultural Analysis 3
- **FRE 5100** Advanced Composition 3
- **FRE 5305** Advanced Grammar and Stylistics 3

Select two courses in Option A or Option B: 3

**Option A (Culture Studies)**

</table>

**Total Credits** 32

Majors with a concentration in French are required to take at least three cognate courses to be selected in consultation with the undergraduate major advisor.

**Italian Major Concentration Requirements**

The major concentration in Italian at Wayne State University (effective Fall 2014) is designed for maximum flexibility, offering students educational choices which can help prepare them for a wide variety of careers, including teaching, diplomacy, tourism, design, fine and performing arts, music, law, medicine, and international business, among others. A student with a particular historical or thematic interest can focus on history, art, music, literature, international studies, and other studies while completing a major concentration or a minor in Italian.

The major concentration in Italian requires a total of thirty-six credits beyond the basic language sequence (ITA 1010, ITA 1020, and ITA 2010). Majors are required to take ITA 2020 and an additional thirty-three credits, with at least two courses in each of three groupings: Language and Culture, Literature and Culture before 1700, and Literature and Culture after 1700. (For a list of courses within these classifications, consult the departmental advisor.) A total of nine credits can be elected from courses offered in a number of related disciplines.

During the last semester, students must complete the Writing Intensive, ITA 5993, a corequisite, non-credit course that satisfies the University General Education Writing Intensive Course in the Major requirement.

**Italian Summer Program in Gagliano**

Students may also take courses in Italian language, literature, and culture in the Wayne summer program in Gagliano Aterno, Italy. The Gagliano program offers students the opportunity to complete up to eight hours of course work in six weeks.

**Spanish Major Concentration Requirements**

A student concentrating in Spanish is required to take:

</table>

One elective at the 3000 level or above 3

One literature course at the 6000 level or above 3

Two electives at the 5000 or 6000 level 6

**Total Credits** 36

**Foreign Languages: Teacher Preparation**

Students who are preparing to teach French, Italian, or Spanish in the secondary schools and who wish to obtain a B.A. degree with a concentration in one of these languages must complete the appropriate concentration as defined above. Students interested in pursuing teacher preparation course work should also refer to the Teacher Education Division (p. 93) of the College of Education.

**Business Careers Language Preparation**

Foreign language majors who do not plan to teach may wish to consider a series of courses in the Mike Ilitch School of Business which will provide some background for potential employment with multinational corporations. These courses will also prepare them for entrance into the Master of Business Administration degree program after completion of the B.A. For information, contact the Associate Dean of the Mike Ilitch School of Business, 226 Prentis Building, telephone: 313-577-4503.

**Slavic Studies (B.A.).**

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the
quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 235) for admission, degree, and general education requirements.

**Slavic Studies Major Requirements**

Students majoring in Slavic Studies select: 1) a concentration in Polish or Russian. If a student’s concentration is Polish, the student must also choose an interdisciplinary focus or a language focus.

**Polish Concentration in Slavic Studies**

Students must complete:

<table>

Ancient Greek Minor
A minor in Ancient Greek consists of twenty credits in GKA exclusive of GKA 1010 and GKA 1020, and CLA 1010 (Classical Civilization) and CLA 2000 (Greek Mythology), preferably taken during their freshman or sophomore year.

Ancient Greek and Latin Minor
A minor in both Ancient Greek and Latin consists of:

Select twelve credits in either ancient Greek or Latin ¹ 12
Select twelve credits in the other language 12
CLA 1010 Classical Civilization 3-4
CLA 2000 Greek Mythology 3-4

Total Credits 30-32

¹ Exclusive of GKA 1010 and GKA 1020 or LAT 1010 and LAT 1020

Arabic Minor
A minor in Arabic consists of eighteen credits.

Select twelve credits in Arabic language, linguistics or literature beyond ARB 1020 12
Select six credits in cognate courses in related areas such as :
NE 2000 Introduction to Islamic Civilization of the Near East 6
NE 2030 The Age of Islamic Empires: 600-1600 6
NE 2040 The Modern Middle East 6
NE 3550 Arab Society in Transition 6

Total Credits 18

Asian Studies Minor
A minor in Asian Studies consists of a minimum of twenty-two credits.

Select sixteen credits in the first four semesters of the language sequences in Chinese or Japanese 16
Select six credits in elective courses related to the language 6

Total Credits 22

Classical Civilization Minor
A minor in Classical Civilization consists of twenty-six credits distributed as follows:

Select one of the following: 8
GKA 1010 & GKA 1020 Elementary Ancient Greek I and Elementary Ancient Greek II
LAT 1010 & LAT 1020 Elementary Latin I and Elementary Latin II
CLA 1010 Classical Civilization
CLA 2000 Greek Mythology
CLA 3700 The Golden Age of Rome
or CLA 3150 Athens and the Ancient Greek World

Total Credits 26-27

¹ Please note that enrollment in Art History courses requires special permission; contact the Classics undergraduate advisor.

French Minor
Requirements:
FRE 2010 Intermediate French 4
FRE 2710 or FRE 2720 Introduction to French Civilization I or II 3
FRE 2100 French through Film I 4
FRE 2110 French through Film II 4
FRE 3300 Prose, Poetry, and Performance 3
FRE 4610 or FRE 4620 Introduction to Literary Textual Analysis or Topics in Sociocultural Analysis 3
One 5000- or 6000-level course 3

Total Credits 24

German Minor
Students wishing to obtain a minor in German shall complete:
GER 2020 Intermediate German II 4
GER 2710 Survey of Germanic Culture I 3
GER 2720 Survey of Germanic Culture II 3
GER 3100 Intermediate Composition and Conversation I 3
GER 3200 Intermediate Composition and Conversation II 3
GER 2310 or GER 2991 Short Fiction from Central Europe and Russia or Understanding the Fairy Tale 3

Total Credits 19

Global Studies Minor
MINOR REQUIREMENTS consist of a minimum of twenty-two credits distributed as follows:

Language Requirement
1010 or equivalent 4
1020 or equivalent 4

Required Course
GLS 3700 Globalization: Theories, Practices, Implications 3

Other Courses
GLS 2700 Introduction to Global Stories 3
or GLS 2800 Introduction to Global Issues and Institutions

Electives
Select a minimum of eight credits from among the focus areas of: Global Politics and Economies, Global Health and Environment, and Global Cultures and Identities.  

Total Credits 22

1 Focus areas allow students to specialize within the program in ways that enhance their academic and professional goals. Students are expected to consult with the Global Studies advisor when choosing their electives. See list of focus area courses under the Global Studies major. (p. 239)

Modern Greek Studies Minor
A Minor in Modern Greek Studies consists of twenty-two credits distributed as follows:

Select four courses in Modern Greek language including the sequence GKM 1010, GKM 1020, GKM 2010, GKM 2020 16
Select one course in Modern Greek language or culture at the 3000-level or above 3-4
Select one of the following in Classics: 3-4
CLA 1010 Classical Civilization
CLA 2000 Greek Mythology
CLA 2200 Introduction to Greek Tragedy
CLA 3150 Athens and the Ancient Greek World
CLA 3190 Topics on Women in Antiquity
CLA 3300 Coins and Coinage of the Greeks and Romans
CLA 3600 Religious Experience Among the Ancient Greeks and Romans
CLA 3700 The Golden Age of Rome
CLA 3999 Further Studies in Mythology
CLA 5200 Special Studies
HIS 5330 History of Ancient Greece
HIS 5340 History of Ancient Rome
PHI 2100 Ancient Greek Philosophy
PHI 5400 The Presocratics and Sophists
PHI 5410 Plato
PHI 5420 Aristotle

Total Credits 22-24

Students who place out of any of the GKM language sequence courses by exam must fulfill the corresponding credits at the 3000 level.

Recommended Cognate Courses: All minors in the Department are strongly urged to take as many courses as possible from the list under Major Requirements (p. 237), as well as in the literatures of other languages, including English.

Hebrew Minor
A minor in Hebrew consists of seventeen credits.

HEB 2010 Intermediate Hebrew I 4
HEB 2020 Intermediate Hebrew II 4
Select nine credits in cognate courses in related areas 1 9

Total Credits 17

1 such as NE 2010 NE 2060, NE 3225

Italian Minor
A minor in Italian can be completed with eighteen credits of course work beyond the basic language sequence (ITA 1010, ITA 1020, and ITA 2010).

ITA 2020 Italian Through Film 3
Select fifteen additional credits in Italian 1 15
Total Credits 18

1 At least one 5000 or 6000 level course in Italian is required.

Latin Minor
A minor in Latin, consists of twenty credits exclusive of LAT 1010 and LAT 1020, and CLA 1010 (Classical Civilization) and CLA 2000 (Greek Mythology), preferably taken during their freshman or sophomore year.

Near Eastern Studies Minor
A minor in Near Eastern Studies consists of seventeen credits.

Select nine credits in NE courses beyond NE 1900 9
Select eight credits in Arabic or Hebrew courses beyond ARB 1020 or HEB 1020 8
Total Credits 17

Polish Minor
Students wishing to obtain a minor in Polish shall complete:

POL 2060 Composition and Conversation 4
POL 3000 Polish Grammar and Usage 4
POL 3030 Language Skills: Advanced Speaking and Writing 2-4
POL 2710 Survey of Polish Culture 3
Select one of the following: 3-4
SLA 2310 Short Fiction from Central Europe and Russia
SLA 3710 Russian and East European Film
POL 3750 Russian and Yugoslavian Cinema
or POL 3800 Topics in Slavic Studies

Total Credits 16-19

Russian Minor
Students wishing to obtain a minor in Russian shall complete:

RUS 2020 Intermediate Russian II 4
RUS 3010 Intermediate-Advanced Russian I 4
RUS 3020 Intermediate-Advanced Russian II 4
RUS 2710 Introduction to Russian Culture 3
Select 3-4 credits of the following: 3-4
RUS 2030 Russian Conversation
RUS 2070 Russian Listening Comprehension I
RUS 3600 Nineteenth Century Russian Literature
RUS 2991 Understanding the Fairy Tale
RUS 3010 Intermediate-Advanced Russian I
RUS 3020 Intermediate-Advanced Russian II
RUS 3050 Russian Practicum
RUS 3070 Russian Listening Comprehension II
RUS 3250 Reading Russian

Communication Sciences and Disorders (B.A.)

This department offers courses related to the study of communication and communication disorders and sciences. Specialized coursework prepares students to work with speech-language and hearing disabled children and adults in a variety of settings, including public schools, hospitals, clinics, rehabilitation centers and private practice. College teaching and research are also career possibilities.

Initial questions about the major should be directed to the Undergraduate Advisor, 207 Rackham Memorial Building (313-577-3339).

Office: 207 Rackham Memorial Building; 313-577-3339
Chairperson: Margaret Greenwald
Graduate Officer: Derek Daniels
Undergraduate Advisor: Faith Williams
Clinical Program Coordinators: Karen S. O’Leary, Frances E. Eldis
http://www.clas.wayne.edu/csd

This department offers courses related to the study of communication and communication disorders and sciences. Specialized coursework prepares students to work with speech-language and hearing disabled children and adults in a variety of settings, including public schools, hospitals, clinics, rehabilitation centers and private practice. College teaching and research are also career possibilities.

Undergraduate students in this specialization should note that graduate study is required for clinical certification by the American Speech-Language-Hearing Association (ASHA). A master’s degree is required for speech-language pathologists and a doctoral degree is required for audiologists. Study in this major at the undergraduate level provides a scientific foundation for graduate study in both audiology and speech-language pathology as well as other science and health professions.

Students interested in pursuing doctoral study should contact the graduate officer.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses.

It is expected that a major will complete at least thirty-three but not more than forty-six credits in SLP and AUD course work. Any credits elected over the maximum forty-six must have prior approval of both advisor and Chairperson if the additional credits are to count toward the degree (120 credits). At least twelve credits are required in residence within the major for transfer students. A proper distribution of courses approved by the student’s advisor is important. It is desirable that students intending to major in communication sciences and disorders begin their work in the Department in their sophomore year. Courses in the major should be selected in consultation with a Departmental undergraduate advisor. Students are encouraged to begin consulting with the undergraduate advisor during their freshman year. The declaration of major form should be completed as soon as possible in their undergraduate program. In addition, students should see the department advisor to discuss g.p.a. policies and the course sequence. The Department allows one repeat of undergraduate courses. The specific courses that can be repeated depend on whether the student has met the g.p.a. requirements.

Major Requirements for a Bachelor of Arts degree in this discipline consist of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLP 5080</td>
<td>Phonetics</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5090</td>
<td>Anatomy and Physiology of the Speech Mechanism</td>
<td>3</td>
</tr>
</tbody>
</table>
The Bachelor of Arts curriculum is designed to provide a strong academic foundation in both the principles and methodologies of computer systems, software development, and programming that are necessary to solve real-world problems. Students planning to earn a graduate degree in computer science are strongly advised to seek the Bachelor of Science degree in computer science (p. 156) offered by the College of Engineering.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Course Requirements

(Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their corequisite lecture.)

**Computer Science**

The Bachelor of Arts curriculum is designed to provide a strong academic foundation in both the principles and methodologies of computer science. It is departmental policy that a student who earns a grade of C or below in two or more of the CSD foundation courses (SLP 5300, SLP 5320, SLP 5080, SLP 5090, and AUD 5400) will not be allowed to register for advanced coursework. Departmental permission is required to register for the six advanced courses in the major which are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLP 5120</td>
<td>Speech Science</td>
<td>3</td>
</tr>
<tr>

<tr>
<td>SLP 6460</td>
<td>Language and Phonological Disorders</td>
<td>3</td>
</tr>
<tr>
<td>SLP 6480</td>
<td>Organic and Fluency Disorders</td>
<td>3</td>
</tr>
</tbody>
</table>

Students will not be granted permission to register for the advanced coursework unless they have and maintain an overall 2.75 grade point average, and maintain a 3.0 grade point average within the major coursework. Students who do not meet these requirements will not be able to complete the major courses required to earn the Bachelor of Arts in Communication Sciences and Disorders. In addition, it is strongly recommended that all majors complete the following courses to meet certification requirements of the American Speech-Language-Hearing Association after graduate school:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

</table>
A minimum grade of C- is required for all other CSC and MAT courses.

Students declaring their major should consult an advisor for a written assessment of current requirements.

Criminal Justice

Office: 3054 Faculty/Administration Building; 313-577-2705
Chairperson: Shanhe Jiang
Academic Services Officer/Advisor: Marianka Holloway
Academic Advisor: Alicia Ortez
http://www.clas.wayne.edu/CRJ

Criminal Justice is society’s primary formal means of social control. Generally, it is the practice of public and private agencies and groups that deter crime and delinquency, and that prosecute, defend, adjudicate, punish, and correct suspects and convicted offenders. The core of the criminal justice system is comprised of law enforcement agencies, prosecutors, defense attorneys, courts, and correctional agencies. This system enforces federal and state laws and is part of a larger administration of justice complex, involving court administration, juvenile justice, and private security.

The study of criminal justice begins with an analysis of the entire justice system as a force for social order. Advanced study inquires into the political, organizational, social and behavioral aspects of its components. Students develop analytical and research skills that enable them to identify and assess the often conflicting objectives of criminal justice and investigate basic issues and practical problems in criminology and criminal justice. Legal courses foster an awareness of the values of due process and the limits of governmental power in a democratic society.

The Department advances a multidisciplinary understanding of the sources of criminal behaviors, including perspectives from criminology, psychology, and sociology. The curriculum exposes students to knowledge of the major types of crime, including crimes of violence, property crimes, public order crimes, sexual crimes, organized crimes, delinquent offenses, and other types of crimes. Innovative and theoretically based programs in the criminal justice system to reduce the incidence of crime are also examined.

Career opportunities in criminal justice professions include roles as police officers, supervisors, and executives; criminal justice investigators, working for public defenders, prosecutors, fire departments, and insurance companies, correctional officers, probation officers, parole officers, and community corrections specialists, for whom a college degree is often mandatory. Other specialized roles in criminal justice include juvenile intake officers, juvenile probation officers, volunteer administrators, criminologists, forensic psychologists, medical examiners, and policy analysts.

• Criminal Justice (B.S.) (p. 248)
• Minor in Criminal Justice (p. 249)

Criminal Justice (B.S.)

The Bachelor of Science program is structured to provide students with a multidisciplinary understanding of crime and justice within the framework of broader social processes. Required courses expose a criminal justice major to all aspects of the justice system and foster a systemic view rather than a specialization in a single component of this field. Within this broad framework, courses deal with specific substantive topics. Practical field experience can be arranged under the guidance of the internship coordinator.

The curriculum is designed to offer students a comprehensive education by providing a fundamental understanding of crime causation and the criminal justice system, together with the skills and knowledge useful in pursuing professional careers. Analytical and writing skills are developed so as to prepare students for roles in today’s criminal justice agencies. Police departments, correctional facilities, and court administrators’ offices require an increasing number of personnel with quantitative analytical abilities, computer skills, personal interaction skills, excellent command of English, knowledge of foreign languages, and the ability to understand legal materials.

Core Criminal Justice Courses include classes on theories of criminal behavior, criminal procedure, criminal justice institutions, criminal justice research methods, and the criminal justice process. These core courses are designed to acquaint students with problems of crime and deviance in American society, the major public institutions which deal with these problems, the legal foundation of criminal justice, and analytic research methods used to better understand the social and behavioral realities of criminal justice. Criminal justice majors must maintain a minimum 2.0 grade point average overall and in the major.

Criminal Justice Electives: A minimum of twelve credits must be selected for concentrated elective course work in the criminal justice field. The approved criminal justice electives provide a structured set of rigorous upper-division courses which are relevant to: 1) a deeper understanding of the justice process and 2) knowledge and skills in specific career areas in the field.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. It is recommended that students complete much of the General Education Requirements before they initiate Criminal Justice major course work.

Major Requirements

It is the student's responsibility to meet with a Criminal Justice Academic Advisor to officially declare their Major and to identify all major and degree requirements.

Required Core Courses

<table>
<thead>
<tr>
<th>Course</th>

<td>Special Topics in Law and the Legal System</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 26

Graduate Study

Graduating seniors who are planning graduate study in criminal justice may qualify to complete approved course work toward the Master of Science in Criminal Justice degree under the AGRADE or the Senior Rule provision.

Senior Rule Study

Minimum requirements for Senior Rule study include: a 3.0 grade point average for the junior and senior years of study, and at least one (but not more than ten) credits remaining to be completed for the undergraduate degree. Additional limitations and requirements apply for this status and for continuing graduate study in criminal justice. Interested seniors should consult with their Academic Advisor for further information.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

The College of Liberal Arts and Sciences Accelerated Graduate Enrollment (AGRADE) Program allows qualified seniors to apply a maximum of fifteen credits toward both the Bachelor of Science and Master of Science in Criminal Justice degrees. Qualifications for AGRADE include Senior status and a minimum major g.p.a. of 3.6. For additional eligibility information, interested students should contact the Criminal Justice Academic Services Officer (313-577-0772).

Minor in Criminal Justice

The Department offers a minor in Criminal Justice for which the notation of a minor appears on the student’s transcript. The required Criminal Justice courses are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRJ 1010</td>
<td>Introduction to Criminal Justice</td>
<td>4</td>
</tr>
<tr>
<td>CRJ 3200</td>
<td>Police and Society</td>
<td>4</td>
</tr>
<tr>
<td>CRJ 3350</td>
<td>Corrections</td>
<td>4</td>
</tr>
<tr>
<td>CRJ 3700</td>
<td>The Judicial Process</td>
<td>4</td>
</tr>
<tr>
<td>CRJ 4740</td>
<td>Constitutional Criminal Procedure</td>
<td>4</td>
</tr>
</tbody>
</table>

Total Credits: 23-24

Students wishing to minor in criminal justice are encouraged to visit the Departmental Offices for information and advising. A minor must be declared prior to filing for graduation.

Economics

Office: 2074 Faculty/Administration Building; 313-577-3345
Chairperson: Stephen Spurr
Administrative Assistant: Delores G. Tennille
Academic Advisor: Ranae Hamama  
http://www.clas.wayne.edu/Economics/

Economics is the study of how individuals and societies allocate limited resources to try to satisfy unlimited wants; it is therefore a study of choices. Households and business firms must decide what and how much to consume or produce and how much labor, land and capital to supply. Governments make decisions affecting inflation and unemployment, taxation and expenditures, the monetary system and international trade. Together these public and private choices determine the nation's prosperity and shape the distribution of its wealth. Since every social relationship has economic aspects, an understanding of economic principles and systems is an integral part of a liberal education.

Economics majors have a wide choice of careers. Many supplement their major with cognate courses to prepare for careers in business, journalism, health care administration or public service. Others find it excellent preparation for law school. Ph.D. graduates in economics are in demand at universities, corporations, financial institutions and government agencies. M.A. graduates may teach at junior colleges but more typically go into business or public service.

- Economics (B.A.) (p. 250)
- Mathematical Economics (B.A.) (p. 251)
- Economics Minor (p. 252)

Economics (B.A.)

Economics is the study of how individuals and societies allocate limited resources to try to satisfy unlimited wants; it is therefore a study of choices. Households and business firms must decide what and how much to consume or produce and how much labor, land and capital to supply. Governments make decisions affecting inflation and unemployment, taxation and expenditures, the monetary system and international trade. Together these public and private choices determine the nation's prosperity and shape the distribution of its wealth. Since every social relationship has economic aspects, an understanding of economic principles and systems is an integral part of a liberal education.

Economics majors have a wide choice of careers. Many supplement their major with cognate courses to prepare for careers in business, journalism, health care administration or public service. Others find it excellent preparation for law school.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. The Economics Department assumes that students taking economics courses have had at least two years of high school-level algebra and one year of geometry.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Major Requirements

Students considering an economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) as soon as possible. They should also pass MAT 1500 or MAT 1800 prior to the junior year or demonstrate eligibility for MAT 2010 in the Mathematics Placement Examination.

A major consists of at least thirty-two credits in economics courses including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 2010</td>
<td>Principles of Microeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 2020</td>
<td>Principles of Macroeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5000</td>
<td>Intermediate Microeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5050</td>
<td>Intermediate Macroeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5100</td>
<td>Introductory Statistics and Econometrics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5993</td>
<td>Writing Intensive Course in Economics</td>
<td>0</td>
</tr>
</tbody>
</table>

Select at least three courses in two or more economics field C to H. Total Credits: 32

The Department recommends that majors complete all of these courses by the end of their junior year. At least sixteen credits in economics must be earned at Wayne State University.

Each student should choose the economics electives best suited to his/her intellectual and professional aims.

To satisfy the General Education Major Competency Requirement, Economics majors must have a cumulative grade point average of 2.0 in their economics courses.

Minimal Grade Requirements

The following courses must be passed with a grade of C or better in order to be applicable as economics major credit:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1500</td>
<td>College Algebra for the Social and Management Sciences</td>
<td>3</td>
</tr>
<tr>
<td>MAT 1800</td>
<td>Elementary Functions</td>
<td>4</td>
</tr>
<tr>
<td>ECO 2010</td>
<td>Principles of Microeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 2020</td>
<td>Principles of Macroeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5000</td>
<td>Intermediate Microeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5050</td>
<td>Intermediate Macroeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5100</td>
<td>Introductory Statistics and Econometrics</td>
<td>4</td>
</tr>
</tbody>
</table>

A grade of C-minus or better must be achieved for the three field course electives.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, economics majors must register for ECO 5993, the zero-credit WI course. All economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Combined Curriculum for Teaching Certificate

Economics majors wishing to enter secondary teaching should see the Secondary Education Curriculum guide for the procedures for combining a degree in Liberal Arts with a teaching certificate. Students must complete the Economics major requirements as part of their program of study.

Economics Honors (B.A. Program)

Economics majors with strong academic records and an interest in research are urged to apply to the Departmental undergraduate advisor for admission to the Honors Program. Applicants should have overall grade point averages of 3.3 or above.
In addition to the Bachelor of Arts requirements cited above, honors majors must take ECO 4997 (Senior Honors Research) during each of their last two semesters before graduation and therefore completing forty credits in economics courses. In this seminar they will conduct research under the close supervision of an Economics faculty member. The results of this research are written as an honors thesis, the length of which depends on the nature of the research project.

Honors majors also must elect at least one 4200-level seminar offered by the Honors College. Finally, the student must accumulate at least fifteen credits in honors-designated course work, including ECO 4997 and the Honors College Seminar. These honors credits need not all be in the Economics Department. Those who successfully complete these requirements and finish their undergraduate course work with an overall grade point average of 3.3 or above will graduate with the degree designation ‘With Honors in Economics’.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

The Economics Department actively participates in the ‘AGRADE’ Program, which enables qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College, and to apply a maximum of fifteen credits toward both an undergraduate and graduate degree in economics. Students interested in ‘AGRADE’ should contact the Director of Undergraduate Studies: 313-577-3345.

Mathematical Economics (B.A.)

The purpose of the program is to provide rigorous training in mathematics and economics for students whose career goals require a high level of technical proficiency in these subjects. The program will be valuable for students who intend to pursue graduate work in economics, finance, applied statistics, or operations research.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Students must receive a grade of ‘C-’ or better in all Mathematics and Economics courses. An overall grade point average of 2.0 (‘C’) is required for graduation.

Major Requirements

Students considering a mathematical economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) as soon as possible.

To satisfy the General Education Major Competency Requirement, Mathematical Economics majors must have a cumulative grade point average of 2.0 in their major courses.

A major consists of at least forty-six credits total - at least twenty-two credits in mathematics courses and twenty-four credits in economics courses.

Economics Requirements

- ECO 2010: Principles of Microeconomics 4
- ECO 2020: Principles of Macroeconomics 4
- ECO 5000: Intermediate Microeconomics 4
- ECO 5050: Intermediate Macroeconomics 4
- ECO 6000: Price and Allocation Theory 4

Select one of the following in conjunction with ECO 5993: 4
- ECO 5020: Fundamentals of Economic Analysis I
- ECO 5030: Microeconomic Theory
- ECO 5100: Introductory Statistics and Econometrics
- ECO 5250: Economic Analysis of Law
- ECO 5300: International Trade
- ECO 5500: Public Finance
- ECO 5700: Money and Banking
- ECO 6100: Introduction to Econometrics

1. This is a paper completed in conjunction with a 5000-level economics course elective. You must register for this during the same semester that the 5000-level economics elective course is taken. This requirement may also be satisfied by completion of ECO 5993.

2. Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200 and MAT 6210.

3. This is a paper completed in conjunction with a 5000-level mathematics course elective. You must register for this during the same semester that the 5000-level mathematics elective course is taken. This requirement may also be satisfied by completion of ECO 5993.

Minimal Grade Requirements

Students must receive a grade of ‘C-’ or better in all Mathematics and Economics courses. An overall grade point average of 2.0 (‘C’) is required for graduation.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, mathematical economics majors must register for either ECO 5993 or MAT 5993, the zero-credit WI course. All mathematical economics
majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Student’s Responsibility
It is each student’s responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult both Mathematical Economics Program Advisors regularly in order to verify that Mathematical Economics requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Economics Minor
A minor in economics requires the completion of the following course work. Students must maintain a cumulative g.p.a. of 2.0 or better in the twenty credits of Economics courses.

Select one of the following: 3-4

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1500</td>

</tr>
</tbody>
</table>

Total Credits 23-24

¹ Must be passed with a grade of C or better.
² ECO 5000, 5050, and 5100 must be passed with a grade of C or better (if included in the minor).

Employment and Labor Relations
Office: 255 Walter P. Reuther Library; 313-577-5382 or 313-577-0175
Director: Marick Masters
Academic Services Officer: Linda Johnson
http://clas.wayne.edu/labor/Bachelor-of-Employment-and-Labor-Relations

The Employment and Labor Relations major provides students with the opportunity to develop the critical skills necessary to analyze employment and workplace issues. An interdepartmental program, employment and labor relations examines the social, political and economic dimensions of these issues in the context of a broad liberal arts education. Students become familiar with employment and labor law, human resource management, compensation and benefits, and techniques associated with the resolution of conflict in the workplace. Students prepare for careers in business, government, nonprofits (including the healthcare sector), and labor unions. The program is also good preparation for pursuing a professional degree in business or law.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Building upon the cultural diversity and urban experience that distinguishes Wayne State University, the English Department’s mission is to provide its students with the intellectual knowledge and practical tools to thrive in an increasingly diverse and interconnected world, by teaching them to understand the power and influence of literature and other forms of textual and media production, circulation, and interpretation; and by imparting skill and fluency in close reading, critical thinking, rhetorical analysis, and writing in multiple genres. The English major curriculum is designed to introduce students to these skills and to provide a challenging and flexible liberal arts education as well as a pre-professional program for students interested in careers in education, law, business, and other professions.

- English (B.A.) (p. 253)
- English Minor (p. 254)
- Film Studies (B.A.) (p. 254)
- Film Studies Minor (p. 255)

**English (B.A.)**

Building upon the cultural diversity and urban experience that distinguishes Wayne State University, the English Department’s mission is to provide its students with the intellectual knowledge and practical tools to thrive in an increasingly diverse and interconnected world, by teaching them to understand the power and influence of literature and other forms of textual and media production, circulation, and interpretation; and by imparting skill and fluency in close reading, critical thinking, rhetorical analysis, and writing in multiple genres. The English major curriculum is designed to introduce students to these skills and to provide a challenging and flexible liberal arts education as well as a pre-professional program for students interested in careers in education, law, business, and other professions.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Major Requirements**

Students must complete twelve English courses beyond the University General Education Competency Requirement and Liberal Arts and Sciences Group Requirements. Ten of these courses must be beyond the 2000-level. Specific requirements are as follows:

<table>
<thead>
<tr>
<th>Theories and Methods</th>
<th></th>
</tr>

- ENG 5795 Topics in Rhetoric and Writing  
- ENG 5860 Topics in Creative Writing  

**Senior Seminar**

ENG 5992 Senior Seminar  

**Additional Requirements**

Select six additional courses in English  

<table>
<thead>
<tr>
<th>Total Credits</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>36</td>
</tr>
</tbody>
</table>

1. This course with co-registration in ENG 5993 fulfills the General Education Writing Intensive requirement. With the consent of the Departmental Undergraduate Advisor and the appropriate instructor, students are occasionally permitted to substitute a 5000-level course, with ENG 5993 co-registration, for the Senior Seminar and the Writing Intensive requirement.

2. Minimum of thirty-six credits (forty-six credits maximum). Twelve of these credits must be at the 4000 or 5000 level. No English course below the 2000-level may count toward the English B.A. program.

**Credit Limitations:** No more than forty-six credits in the major field may count toward degree requirements. With the departmental Undergraduate advisor’s approval, appropriate ENG 5990 (Directed Study) credit may count toward a major.

**English Honors (B.A. Program)**

To graduate with honors in English an undergraduate student must have a minimum 3.5 g.p.a. in English courses and a minimum cumulative g.p.a. of 3.3. Additional requirements include a minimum of thirty-six credits in English courses beyond the Liberal Arts and Sciences Group requirements and General Education requirements, nine credits of which must be in honors courses. Students must also complete at least one 4200-level interdepartmental Honors Seminar, HON 4200-HON 4280, to total twelve credits in Honors courses.
English Minor

The minor in English permits study in literature, film and media, creative writing, and writing studies. It requires six courses beyond freshman composition and intermediate composition for a minimum of at least eighteen credits:

Select one of the following: 3

- ENG 3085 Introduction to Rhetoric and Writing
- ENG 3090 Introduction to Cultural Studies
- ENG 3100 Introduction to Literary Studies
- ENG 3800 Introduction to Creative Writing

Select two of the following: 6

- ENG 3120 English Literature after 1700
- ENG 3130 American Literature to 1865
- ENG 3140 American Literature after 1865
- ENG 3470 Survey of African-American Literature

Select one of the following: 3-4

- ENG 5030 Topics in Women's Studies
- ENG 5035 Topics in Gender and Sexuality Studies
- ENG 5070 Topics in Film and Media
- ENG 5075 Topics in New Media
- ENG 5080 Topics in Global and Transnational Studies
- ENG 5480 Topics in African American Literature
- ENG 5500 Topics in English and American Literature
- ENG 5795 Topics in Rhetoric and Writing
- ENG 5860 Topics in Creative Writing

Select one English elective at the 2000-5000 level 3-4

Select one English elective at the 5000 level 3-4

Total Credits 18-21

Film Studies (B.A.)

An admissions moratorium is in effect for this program, effective Fall 2016.

The University offers two undergraduate degree programs related to film: the Bachelor of Arts with a Major in Film offered by the College of Fine, Performing, and Communications Arts, and the Bachelor of Arts with a Major in Film Studies as described below.

The English Department offers a program in film and media studies for students interested in the history and criticism of film and media. Courses are designed to give students knowledge and critical skills in film analysis, key concepts in film theory, the major directors, emerging trends in new media scholarship, and an understanding of cultural and historical factors in film and media production and reception.
Please contact the Undergraduate Advisor in the Department of English for further information.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Major Requirements**

Students majoring in film studies must complete a minimum of thirty-four credits, distributed as follows:

**Core Courses (Fourteen Credits)**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

Total Credits: **34**

1 Electives should be selected in conjunction with the Departmental Undergraduate Advisor. Three elective classes must be taken at the 5000-level or above, and two out of these three must come from ENG 5020, ENG 5050, ENG 5060 or ENG 5070.

**Film Studies Minor**

Completion of a minor in film studies requires a minimum of eighteen credits including ENG 2450/COM 2010 and any other selections from either the core or elective courses cited under the Bachelor of Arts major program (p. 254).

**Environmental Science**

Office: 0224 Old Main  
Director: Daniel Kashian  
Academic Advisor: Cody Bailey  
http://clas.wayne.edu/esp/

Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and, ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and biological perspectives, and a broad choice of electives. This program focuses on the urban environment and urban impacts on the natural environment. It will prepare students for graduate study, or for careers in various areas of environmental science including environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

- Environmental Science (B.S.) (p. 255)

**Environmental Science (B.S.)**

Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and, ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and biological perspectives, and a broad choice of electives. This program focuses on the urban environment and urban impacts on the natural environment. It will prepare students for graduate study, or for careers in various areas of environmental science including environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Students must receive a grade of ‘C-minus’ or better in all Major and Cognate required courses. An overall grade point average of 2.0 (C) in all coursework is required for graduation.

**Major Requirements:** B.S. candidates in Environmental Science must complete thirty-six credits including:

Majors should take the Placement Examination of the Department of Mathematics as soon as possible upon entry into the freshman year, although freshmen students may be placed by ACT/SAT scores (valid for 2 years).

Student's Responsibility: It is each student's responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult the Environmental Science Program Advisor regularly in order to verify that Environmental Science requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

**Environmental Science Honors**
To be recommended for an honors degree from this program, a student must maintain a cumulative grade point average of at least 3.30 and complete a minimum of twelve honors course credits including two Geology or Biological Science Honors or Honors Option courses (6 credits) and:

<table>

**Gender, Sexuality and Women’s Studies**

*Office: 3063 Faculty Administration Building; 313-577-6331*

*Undergraduate Advisor: Gayle McCready*

http://www.clas.wayne.edu/GSW/

The Gender, Sexuality, and Women's Studies interdisciplinary undergraduate curriculum is designed to give students the theoretical bases and methodological skills for analyzing gender, sexuality, and women from the perspective of the humanities, historical studies, and the social sciences. Students will gain an understanding of the various contexts and constructs including literary, social, cultural, economic,
psychological, philosophical, and political that shape our perceptions of these issues in different geographical locations and across time.

• Gender, Sexuality and Women’s Studies (B.A.) (p. 257)
• Gender, Sexuality and Women’s Studies Minor or Cognate Study (p. 258)

Gender, Sexuality and Women’s Studies (B.A.)

The Gender, Sexuality, and Women’s Studies Program offers a Bachelor of Arts degree and a minor concentration in this discipline. The program’s interdisciplinary undergraduate curriculum is designed to give students the theoretical bases and methodological skills for analyzing gender, sexuality, and women from the perspective of the humanities, historical studies, and the social sciences. Students will gain an understanding of the various contexts and constructs including literary, social, cultural, economic, psychological, philosophical, and political that shape our perceptions of these issues in different geographical locations and across time. Through the program, students will:

1. gain an interdisciplinary understanding of current scholarship in this discipline;
2. explore the multicultural and international histories and contexts of questions related to gender, sexuality, and women;
3. grasp the intersections between race, class, gender, and sexuality from different disciplinary perspectives;
4. challenge commonly held notions about gender, sexuality, and women in ways that promote social change;
5. explore individual and professional interests in this field in ways that enhance their personal lives as well as their professional goals;

Students wishing to pursue the major or minor in gender, sexuality, and women’s studies should meet with the undergraduate advisor.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

MAJOR REQUIREMENTS consist of thirty-two credits distributed as follows:

**Core Courses**

<table>

</tbody>
</table>

**Electives**

Select 16 credits of one of the Areas of Focus (see lists below)

**Total Credits** 32

**Electives from Areas of Focus**

Students are encouraged to take sixteen credits from within one of the following areas of focus:

• Literature, Film, and Media Studies
• LGBTQ Studies
• Social Sciences
• Historical Studies

Areas of focus allow students to specialize within the program in ways that enhance their academic and professional goals. However, students are not required to take all of their credits within one focus area; they can take sixteen credits from among all of the listed courses. Because new courses are created by faculty on a rolling basis, students are encouraged to consult with the director or the undergraduate advisor about any courses not on the following list which may be included in their major.

NOTE: some of the courses in the following curricula are offered for variable topics and only suitable as electives in this program for particular content. All such courses are cited below as “when approved” options.

**Literature, Film, and Media Studies**

MINOR REQUIREMENTS consist of eighteen credits distributed as follows:

### Required Course
- **GSW 5200** Feminist, Gender, and Queer Theory 3

### Other Courses
Select two of the following: 6
- **GSW 2500** Humanities Perspectives on Gender, Sexuality, and Women
- **GSW 2600** History of Women, Gender and Sexuality in the Modern World
- **GSW 2700** Social Science Perspectives on Gender, Sexuality, and Women

### Electives
Select nine credits from the following focus areas: 9
- Literature, Film, and Media Studies
- LGBTQ Studies
- Social Sciences
- Historical Studies

Total Credits 18

---

1. Similar to the B.A. program, the focus areas (p. 257) allow students to specialize within the program in ways that enhance their academic and professional goals. Students are encouraged to take the nine credits from within one focus area, however they are not required to do so and may take the nine credits from among all of the options listed.

---

**Geology (B.A.)**

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

The courses offered by this department are designed to serve the needs of five groups of students:

1. Those who desire a general knowledge of geology as part of a liberal education;
2. Those who need geological information as a cognate subject in other professions;
3. Those who wish to major in geology as part of a broad liberal arts education;
4. Those who wish to major in environmental science;
5. Those who plan to become professional geologists.

Introductory courses are primarily general, but they also provide a foundation in geology for the student who desires to continue an intensive program of study. Students with an interest in environmental problems will find a number of relevant courses among those offered by the Department of Geology. In addition, a variety of courses in various phases of geology is available to the general student. Intermediate and advanced courses are designed to develop the principles of geology beyond the elementary level and to give a firm technical foundation for advanced study.

- Geology (B.A.) (p. 258)
- Geology (B.S.) (p. 259)
- Geology Minor (p. 259)

---

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.
Major Requirements
Students must complete twenty-six credits in geology beyond GEL 1020. These must include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEL 2130</td>

<td>Writing Intensive Course in Geology</td>
<td>0</td>
</tr>
</tbody>
</table>

At least two credits in a geology field course

Cognate Requirements
At least one college course in each of two of the following fields is required: biology, chemistry, or physics. MAT 1800 and satisfaction of the Foreign Language Group Requirement are also required.

Geology majors should consult their advisor regarding additional recommended cognate courses. Depending on interest and future goals, supplementary courses in mathematics, physics and chemistry, as well as courses in biology, computer science, engineering, and urban studies might be of particular value.

Geology Honors
The Honors Program in Geology is open to students of superior academic ability who are majoring in geology. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated courses including: two Geology Honors or Honors Option courses (min. 6 credits), GEL 4998: Honors Thesis (3 credits), and one 4200-level Honors Seminar (3 credits).

Geology (B.S.)
Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Major Requirements
Students must complete at least thirty-four credits in geology exclusive of the introductory courses (1000-level) and must include the following:

<table>
<thead>
<tr>

Credits in field mapping and field techniques, to be fulfilled by completed six credits in a summer field course

1 If the Geology Department at Wayne State University does not offer a summer field course in any given year, students should complete the field course requirement by attending an approved field course at another university. In certain unusual circumstances the required six credits in field mapping and field techniques may be earned through an extended field-oriented research project when this project involves extensive field mapping and is under the direct supervision of a faculty member or other qualified field geologist throughout the duration of the field work. Questions about appropriate Field Camp opportunities outside of Wayne State University should be directed to the program advisor and/or faculty members.

Total Credits 29

Although there are no required cognate courses beyond those listed above, geology majors should consult their advisor regarding cognate courses which might be of value to their particular program. Depending on interest and future goals, additional courses in mathematics, physics, and chemistry, as well as courses in biology, computer science, civil engineering, and urban studies might be of particular value.

Geology Honors
The Honors Program in Geology is open to students of superior academic ability who are majoring in geology. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated courses including: two Geology Honors or Honors Option courses (min. 6 credits), GEL 4998: Honors Thesis (3 credits), and one 4200-level Honors Seminar (3 credits).

Geology Minor
The Department offers a minor in geology for undergraduate students. The minor consists of twenty credits in geology (usually consisting of five courses). Although desirable courses for a student’s minor program should be determined in consultation with Geology Department staff members, the following restrictions and recommendations should be
noted: The minor must include GEL 1010 and GEL 1020. GEL 1000 and GEL 1050 may only be applied for credit to a minor with the permission of the student’s advisor in consultation with the Chairperson of the Department. At least four credits in the minor must be completed in courses at the 3000-level or higher. All minor programs must be approved by the Department Chairperson.

Anyone wishing to complete a minor in geology should contact the Department advisor as soon as possible, so that an appropriate program can be formulated.

History

Office: 3094 Faculty/Administration Building; 313-577-2525
Chairperson: Elizabeth V. Faue
Undergraduate Advisor: Gayle McCreedy
http://www.clas.wayne.edu/history

History is central to our understanding of the human experience. The study of the past allows us to place our world in context, whether we want to understand international crises, the significance of a national election, or social relations within our own community. The skills of the historian - the ability to do research in original sources, to think critically, and to write clearly and persuasively - are highly valued in our changing world. The Wayne State Department of History maintains an international reputation for excellence in history, most notably in labor and urban history and in the history of governance and citizenship. Our faculty has received numerous awards for cutting-edge research and excellence in teaching. We teach undergraduate students fundamental research, analytical, and writing skills and train graduate students as professional historians, equipped with the skills to produce original, publishable research in their field of specialization.

- History (B.A.) (p. 260)
- History Minor (p. 261)

History (B.A.)

<td>3</td>
</tr>
</tbody>
</table>

Additional History courses as needed to meet the 36 credit requirement

¹ At least eighteen (18) hours must be in courses taken at Wayne State University. A minimum GPA of 2.00 in History is required for graduation.

² At least two courses must be numbered 3000-3999, at least three courses numbered 4000-5999 (excludes HIS 3000, HIS 4990, HIS 4997, HIS 5993 and HIS 5996). Diversity in regional content with at least one course in each region: Europe, United States, and World. Distribution of chronological content with at least one course in the pre-1800 period and at least one course in the post-1800 period.

³ Should be taken in the sophomore year (or in the first semester for transfer students). This course can fulfill geographic and chronological distributions based on topic.

⁴ The Writing Intensive Course in History, which is the final English Composition requirement, should be taken together with HIS 5996. The capstone paper, which serves to complete this requirement, must earn the grade of ‘C’ or better to earn the grade of “S” for the course.

⁵ Should be taken at the end of the program

Recommended Cognate Courses: Among recommended cognates for history majors are courses in anthropology, economics, English, political science, and sociology. The history of philosophy, the history of art, and the history of music are also appropriate electives, as are foreign language and culture courses.

Business Administration Cognate Study

Many history majors pursue careers in business and industry. It is possible to arrange a coherent cognate of several courses in the Mike Ilitch School of Business that enhances the preparation of history majors for potential employment in business and industry, and also may
serve as background for an M.B.A. program. Interested students should consult advisors in the Mike Ilitch School of Business for assistance in constructing the cognate.

Pre-Law Program

The pre-law program is one of a number of pre-professional programs (p. 222) available in the College of Liberal Arts and Sciences. The following courses are strongly recommended for pre-law students: HIS 5160 and HIS 5170.

History Honors

The History Department offers a Bachelor of Arts degree 'With Honors in History.' Qualified students planning post-baccalaureate work in history or in a professional school are especially encouraged to obtain an honors degree. Honors majors must have a 3.5 g.p.a. in history courses and a 3.3 cumulative g.p.a. in all courses. Honors majors must complete at least fifteen credits in honors-designated coursework, including at least one 4000-level seminar offered through the Honors College; six additional credits in History honors courses, of which at least three credits must be in an upper-division (numbered 3000 or above) honors-option course; and HIS 5995 (Honors Seminar) after the completion of HIS 5996 (Capstone Course). To be admitted to the Honors Seminar, the student must have completed twenty-four credits in history, nine of which must be at or above the 3000 level. Students in the Honors Seminar will ordinarily complete a senior thesis begun in HIS 5996. This thesis will be directed by two regular faculty members; the student will also defend the thesis before them.

History Minor

The minimum requirement for a minor in history is eighteen credits of history coursework, of which a maximum of nine credits can be transferred from other institutions. Minors also must have a 2.00 g.p.a. in history courses and complete:

Information Systems Technology

This program prepares the student for a challenging workplace with an enhanced knowledge of business applications. The curriculum for the degree is designed to provide students with a solid foundation in computer and information systems and business administration.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Course Requirements

(Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their corequisite lecture.)

</table>

A minimum grade of C is required for all other CSC and MAT courses.
Prior to declaring their major, students should consult an advisor for a written assessment of the current requirements.

**Jewish Studies**

Office: 3094 Faculty/Administration Building; 313-577-2525
Coordinator: Howard Lupovitch

The Jewish Studies minor engages students who are interested in learning about the history, culture, and languages of Jewish communities. In a variety of courses in history, literature, philosophy, political science, and the Hebrew language, students learn how Jewish thought has influenced the modern world and how it has been influenced in turn by the societies and cultures in which Jews have lived over the past four thousand years.

To earn a minor in Jewish Studies, a student must take a minimum of nineteen credits, including:

- HEB 1010 Elementary Hebrew I 4
- HIS/NE 3010 Jewish History from the Bible to 1492 4
- HIS/NE 3011 Jewish History since 1492 3

Select a minimum of eight credits of the following:

**Mission**

The Center for Latino/a and Latin American Studies strives to promote equitable access to a quality university education to students interested in Latino/a and Latin American cultural studies, and to enhance diversity and the sense of community, which is designed to prepare graduating students for post-baccalaureate/professional degrees and future careers.

To earn a minor in Jewish Studies, a student must take a minimum of nineteenth credits, including:

- HEB 1010 Elementary Hebrew I 4
- HIS/NE 3010 Jewish History from the Bible to 1492 4
- HIS/NE 3011 Jewish History since 1492 3

**Student Success Programs**

Latino/a Studies’ comprehensive student services are based on a leadership development and an academic self-empowerment model. The Center hosts three distinct comprehensive student success programs:

- the Summer Enrichment Program (SEP), currently funded by DTE Energy;
- the Chicano-Boricua Studies (CBS) Scholars Program (a WSU learning community, which continues to bear the previous name of the Center in honor of its alumni as well as the many contributions of its former faculty and staff) and,
- the College to Career (C2C) Program, a second WSU learning community, which is designed to prepare graduating students for post-baccalaureate/professional degrees and future careers.

Students in good standing who are enrolled in these programs also benefit from supplemental financial support through the WSU Office of Financial Aid, the John Helfman Latino en Marcha (LEM) Grant, the Latinos de Livonia Scholarship, and the Cynthia Estrada Labor and Social Justice Award.

- Latino/a and Latin American Studies (Co-Major) (p. 262)
- Latino/a and Latin American Studies Minor (p. 263)

**Latino/a and Latin American Studies (Co-Major)**

Completion of the Center’s Co-Major Program leads to a co-major degree in the field of Latino/a and Latin American Studies. This multidisciplinary program of study is designed to strengthen the career preparation of students in all majors who plan to work in national and international multicultural environments where knowledge about Latin America, the Caribbean, Latino/a Studies, and multicultural diversity would be a valuable asset. Completion of the co-major is noted on the student’s transcript.

**Admission Requirements**

Students submit a Declaration of Major Form at the beginning of their junior year.

**Co-Major Requirements**

Students must complete fifteen credits in the following core courses and a minimum of eighteen credits from the list of elective courses. Appropriate courses may be substituted with the prior approval of the Center’s Director.

**Core Courses**

**Total Credits: 18-19**

**Linguistics**

*Office: Room 10303, 5057 Woodward; 313-577-8642*
*e-mail: linguistics@wayne.edu*
*Director: Ljiljana Progovac*
*Undergraduate Advisor: Corinne Forys*
*http://www.clas.wayne.edu/linguistics*

Linguistics is devoted to the scientific study of language structure and use. The Linguistics Program at Wayne State offers an interdisciplinary approach to this field, permitting students to explore a wide range of topics and issues in language research. The core courses are offered on a regular basis. The program offers electives in the following areas:

1. linguistics and a language,
2. language structure,
3. language variation and change,
4. language acquisition and processing, and
5. sociolinguistics and discourse/pragmatics.

Training in linguistics prepares students for advanced work in linguistic research, as well as for employment in teaching English and foreign languages; computer systems (especially natural language processing); broadcasting, mass media and journalism; publishing and editing; translation; international business; intercultural communication and negotiation; law; and generally any profession requiring the precise use or analysis of speech or writing.

The Linguistics Program is administered by a director and an advisory committee of participating faculty who regularly teach courses for the program.

- Linguistics (B.A.) (p. 263)
- Linguistics Minor (p. 265)

**Linguistics (B.A.)**

Linguistics is devoted to the scientific study of language structure and use. The Linguistics Program at Wayne State offers an interdisciplinary approach to this field, permitting students to explore a wide range of topics and issues in language research. Training in linguistics prepares students for advanced work in linguistic research, as well as for employment in teaching English and foreign languages; computer systems (especially natural language processing); broadcasting, mass media and journalism; publishing and editing; translation; international
business; intercultural communication and negotiation; law; and generally any profession requiring the precise use or analysis of speech or writing.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Course selections are to be planned in consultation with the linguistics program advisor. Students must complete a minimum of thirty credits in course work to satisfy the major requirements as outlined below.

**Required Courses**

The linguistics major requirements consist of:

1. three required general courses;
2. one required language use course involving either the analysis of speech data acquired in fieldwork or theories that address language use; and
3. a set of electives.

Also, in the senior year, majors must register for and complete LIN 5993, Writing Intensive Requirement (0 credits). This course is to be taken in conjunction with another course, as explained under Linguistics Courses. In the final semester of study, assessment of knowledge in the major is determined by review of a student portfolio and by an exit interview conducted by members of the faculty. Both the portfolio and the interview must be deemed acceptable before the Program will certify completion of all major requirements.

**Required General Linguistics Courses**

- LIN 2720 Basic Concepts in Linguistics 3
- or LIN 5700 Introduction to Linguistic Theory 3
- LIN 5290 Phonology 3
- LIN 5300 Syntax 3

**Required Language Use Course**

Select one of the following: 3

- LIN 3310 Language and Culture
- LIN 5210 Arabic Sociolinguistics
- LIN 5320 Language and Societies
- LIN 5760 American Dialects
- LIN 5770 Sociolinguistics
- LIN 5900 Culture, Language and Cognition
- LIN 6710 Psycholinguistics
- LIN 6720 Topics in Language (Field Methods) 1
- LIN 6720 Topics in Language (Pidgins and Creoles) 1
- LIN 6720 Topics in Language (Pragmatics) 1
- LIN 6720 Topics in Language (Language Variation) 1

**Elective Courses**

Select 18 credits from the categories listed below, in consultation with advisor 18

- LIN 1850 Introductory Symbolic Logic 3
- or LIN 1860 Honors Symbolic Logic 3
- LIN 2730 Languages of the World 3
- LIN 3080 Cognitive Psychology: Fundamental Processes 3
- LIN 5050 Advanced Symbolic Logic 4
- LIN 5200 Modal Logic 4
- LIN 5220 Introduction to Chinese Linguistics 3
- LIN 5230 Structure of Arabic 3
- LIN 5240 Grammar of Chinese 3
- LIN 5570 Philosophy of Language 4
- LIN 5715 Morphology 3
- LIN 5730 English Grammar 3
- LIN 5745 Semantics 3
- LIN 6710 Psycholinguistics 3
- LIN 6720 Topics in Language (Field Methods) 1 3
- LIN 6720 Topics in Language (Typology) 1 3
- FRE 6400 Introduction to French Linguistics 3
- SPA 6400 Introduction to Hispanic Linguistics 3

**Elective Option Areas**

**A. Linguistics and a Language**

The student may complete up to nine credits in advanced language skills or in the linguistics of a chosen language, as part of their electives. Courses must be selected in consultation with the advisor.

**B. Language Structure**

Total Credits 30
Linguistics Honors Program

Students with an overall grade point average of 3.5 are eligible for admission to the Linguistics Honors Program. Satisfactory completion of the Honors Program will lead to a degree 'With Linguistics Honors' on the diploma. Students interested in the program should obtain detailed information from the Linguistics Program Undergraduate Advising Office.

Program Requirements: Students must complete one 5000-level or above Honors Option course as part of the major requirements, the Linguistics Honors Thesis (LIN 5993-H with approved LIN Writing Intensive course), one Honors Seminar from the HON 42XX series, and three additional Honors credits through any department to thereby complete the minimum twelve required Honors credits.

'AGRADE' Program (Accelerated Graduate Enrollment)

The Linguistics Program invites academically superior majors to apply for admission to the 'AGRADE' Program. 'AGRADE' procedures enable qualified seniors to enroll simultaneously in the undergraduate and graduate programs in Linguistics and to apply a maximum of sixteen credits toward both a bachelor's and a master's degree.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the AGRADE Program, contact the Linguistics Program office: 313-577-8642; or by e-mail at: linguistics@wayne.edu

Mathematics Placement Information

All students, including transfer and guest students, who plan to take MAT 0995, MAT 1000, MAT 1050, MAT 1110, MAT 1120, MAT 1500, MAT 1800, MAT 2010, or STA 1020 as their first mathematics course at Wayne State must:

1. have a satisfactory ACT or SAT Math score (see below) that has been validated by the Testing Office OR
2. take the Mathematics Placement Exam.

Results of the Mathematics Placement Exam and/or the ACT or SAT Math score to determine the course into which the student is placed consistent with the following:

MAT 0995 and 1050: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam,
2. a grade of CNC or above in MAT 0993 taken at WSU
3. a validated ACT Math score of 21 or higher
4. a validated SAT score of 500 (old version) or 530 (new version) or higher

For placement at this level, students should have a command of numerical and beginning algebra concepts and techniques corresponding approximately to one year of high school algebra.

**MAT 1000 or STA 1020:** Students qualify by receiving a C- or better in MAT 1050 or above, taken at Wayne State, or transferring a course that is equivalent to MAT 1050 or above. A student can also qualify by having achieved one of the following within the previous two years:

1. a satisfactory score on the Mathematics Placement Exam
2. a grade of CNC or above in MAT 0900 or MAT 0993 taken at WSU
3. a validated ACT Math score of 18 or higher
4. a validated SAT score of 450 (old version) or 490 (new version) or higher

For placement at this level, students should have a command of numerical and beginning algebra concepts and techniques corresponding approximately to one year of high school algebra.

**MAT 1110 and 1500:** Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam
2. a grade of at least C-in MAT 1050 taken at WSU
3. a grade of CNC or above in MAT 0995 taken at WSU
4. a validated ACT Math score of 26 or higher
5. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

For placement at this level, students should have a command of algebra and basic geometry, corresponding approximately to three years of college-preparatory mathematics.

**MAT 1120:** Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Examination
2. a grade of at least C-in MAT 1110 taken at W.S.U.
3. a validated ACT Math score of 26 or higher
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

**MAT 1800:** Students qualify by having achieved one of the following within the previous year:

1. satisfactory score on the Mathematics Placement Examination
2. a grade of at least C-in MAT 1050 taken at W.S.U.
3. a validated ACT Math score of 26 or higher
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

For placement at this level, students should have a command of algebra and basic geometry, corresponding approximately to three years of college-preparatory mathematics.

**MAT 2010:** Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam
2. a grade of at least C-in MAT 1800
3. a validated ACT Math score of 29 or higher

For placement at this level, students should have a command of algebra, geometry, trigonometry, and elementary functions corresponding approximately to four years of college-preparatory mathematics.

**Math Placement Exam:** The MPE must be taken before classes begin for the semester in which you plan to take the course. Any student who does not place into a MAT course using an ACT or SAT Math score as described above must take the MPE to determine MAT course placement. Students are also welcome to take the exam if they have taken the ACT and/or SAT, if they would like to attempt to place into a higher course. The MPE may only be taken twice. Students should enroll in the course they are placed into the first time they take the test. However, all students may take the test one additional time within six months of the first attempt. After two attempts at the examination, students must enroll in the course into which they are placed within three semesters. Visit the Testing website (http://testing.wayne.edu) for further information on the testing procedures.

---

**Advanced Courses for Non-Majors**

Because of the fundamental role that mathematics plays in all types of scientific and technical endeavor, the advanced course offerings of the Mathematics Department must serve a group considerably larger than those preparing for a career in mathematics exclusively.

**Economics, Business Administration and Computer Science**

The following basic subjects are recommended to master's degree candidates as preparation for work in their profession; they also provide a solid background for students who intend to pursue doctoral studies after completion of the master's program:

**Numerical Methods**

<table>
<thead>
<tr>

</tbody>
</table>

**Engineering and Physical Applications**

The Mathematics Department has several sequences in applied mathematics that provide experienced engineers and scientists from industry and government the means to acquire and maintain the technical competence needed to work at the frontiers of their fields (for additional courses to those listed below, see the Graduate Bulletin):

**Numerical Methods**

<table>

</tbody>
</table>
Probability Theory and Random Processes
MAT 5700 Introduction to Probability Theory 4

Differential Geometry
MAT 5530 Elementary Differential Geometry and its Applications 3

Students who feel that they eventually would like to pursue mathematical studies beyond the level of the above sequences should make every effort to take the mathematics sequences that begin with MAT 5600, and MAT 5420, respectively, and MAT 6600. These courses will help them to understand and work with abstract concepts in advanced courses.

Statistics
Students requiring only an introduction to basic statistics are referred to STA 1020 or MAT 2210. Those whose work demands a good foundation in mathematical statistics are referred to MAT 5700 and MAT 5800. MAT 5830 is useful for students interested in applied statistics.

In addition to the interdepartmental course listed below, specialized courses in statistics are offered by individual departments:

ECO 5100 Introductory Statistics and Econometrics 4
ECO 6100 Introduction to Econometrics 4
MAT 2210 Probability and Statistics 4
MAT 5700 Introduction to Probability Theory 4
MAT 6830 Design of Experiments 3
PSY 3010 Statistical Methods in Psychology 4

Mathematics (B.A.)
The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's acceptance as a major, a student should consult a Departmental advisor at least once a year to verify progress.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. The cumulative grade point average in mathematics (MAT) courses required for completion of a major option must be at least 2.0.

Major Requirements
In addition to the general bachelor's degree requirements, the candidate must complete one of the following concentrations: A, B, C, D, or E, as described below.

Option A: Prospective Graduate Study
This option is recommended for students who plan to pursue graduate study in mathematics.

</tbody>
</table>

Total Credits: 42-43

**Option D: Computer Science**

Mathematics and computer science are so closely related that a great many students who major in mathematics pursue careers or graduate study in computer science. A mathematics degree, being more than just welcome in the field, is highly regarded. For students who would like to complete a double major in mathematics and computer science or a major in mathematics with a minor in computer science, the Department offers a specially designed program. Under this option, students can take certain courses that satisfy both mathematics and computer science requirements simultaneously. Specifically, MAT 5100 can be used as a computer science elective and one of CSC 5860, CSC 5870, CSC 6500, CSC 6620, or CSC 6991 (depending on the topic) can be used as a mathematics elective.

Total Credits: 42-43

**This option is available only to students who complete a second major or a minor in computer science.** Students should consult the Computer Science Department for their major and minor requirements.

<table>
<thead>

One additional Mathematics course numbered above 5030

Total Credits: 37

**Option E: Actuarial Science**

Students embarking on a career as an actuary will be expected to pass certain exams administered by that profession. Option E provides the course work covered by the first few of these exams: Calculus, Linear Algebra, Probability and Statistics, Numerical Analysis, and Operations Research.

The cumulative grade point average in the University as well as the departmental major requirements cited below. All the College of Liberal Arts and Sciences Group Requirements satisfaction of the University General Education Requirements acceptance as a major, a student should consult a Departmental advisor. Undergraduates declaring a mathematics major are strongly encouraged Admission requirements for this program are satisfied by the general Admission Requirements

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's acceptance as a major, a student should consult a Departmental advisor at least once a year to verify progress. Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. The cumulative grade point average in

Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 5100, or MAT 6210. Only one (at most) of the courses may be selected from MAT 5890 or MAT 5990. These electives are subject to advisor approval on the Student's Plan of Work.

Combined Curriculum for Secondary Teaching (CCST)

Under the Combined Curriculum, it is possible to earn a bachelor's degree in mathematics concurrent with a secondary teaching certificate. Students in CCST may satisfy the mathematics part of their degree requirements by any of the degree options specified below, though Option C is specifically designed and recommended for future teachers. It is recommended but not required that CCST students who do not choose Option C take MAT 2860, MAT 5000, and MAT 6140.

Emerging Scholars Program

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1050 PREP as preparation for the Program. Contact the Department for further information.

'AGRADE' Program (Accelerated Graduate Enrollment)

The Department of Mathematics participates in the College 'AGRADE' (Accelerated Graduate Enrollment) Program, in which qualified students can earn a master's degree and bachelor's degree. For more details about the 'AGRADE' Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College (313-577-2960).

Mathematics (B.S.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. ### Option D: Computer Science

Mathematics and computer science are so closely related that a great many students who major in mathematics pursue careers or graduate study in computer science. A mathematics degree, being more than just welcome in the field, is highly regarded. For students who would like to complete a double major in mathematics and computer science or a major in mathematics with a minor in computer science, the Department offers a specially designed program. Under this option, students can take certain courses that satisfy both mathematics and computer science requirements simultaneously. Specifically, MAT 5100 can be used as a computer science elective and one of CSC 5860, CSC 5870, CSC 6500, CSC 6620, or CSC 6991 (depending on the topic) can be used as a mathematics elective.

This option is available only to students who complete a second major or a minor in computer science. Students should consult the Computer Science Department for their major and minor requirements.

<td>4</td>
</tr>
</tbody>
</table>

Total Credits: 46-49

*Required for the B.S. degree for students completing a minor in computer science. It is not required for students completing a double degree in mathematics and computer science.*
Students in CCST may satisfy the mathematics part of their degree in mathematics concurrent with a secondary teaching certificate. Under the Combined Curriculum, it is possible to earn a bachelor's degree in mathematics. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1050 PREP as preparation for the Program. Contact the Department for further information.

**Emerging Scholars Program**

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1050 PREP as preparation for the Program. Contact the Department for further information.

### Mathematics Minor

The requirements for a minor consist of:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 2010</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2020</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2210</td>
<td>3</td>
</tr>
<tr>
<td>MAT 2250</td>
<td>4</td>
</tr>
<tr>
<td>MAT 5000</td>
<td>4</td>
</tr>
<tr>
<td>MAT 5001</td>
<td>3</td>
</tr>
</tbody>
</table>

(a) Three mathematics courses numbered 5030 or above
(b) Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 2150</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2350</td>
<td>3</td>
</tr>
<tr>
<td>MAT 2460</td>
<td>4</td>
</tr>
</tbody>
</table>

Plus two mathematics courses numbered 5030 or above

Total Credits: 24-27

If MAT 2210 is elected, MAT 5700 may not be used to meet the requirement. In both (a) and (b), the courses MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180 or MAT 6210 do not satisfy mathematics minor requirements. A cumulative grade point average of 2.0 or higher must be maintained in these courses. A student who is considering a minor should consult a Departmental advisor. Transfer courses totaling no more than 7 credit hours may be counted toward a minor and must carry a grade of C or better.

### Nutrition and Food Science

**Office**: 3009 Science Hall; 313-577-2500

**Chairperson**: Ahmad R. Heydari

**Undergraduate Advisor**: Deanna L. Cavanaugh

http://www.clas.wayne.edu/NFS/
The courses offered by this department are designed for students in three distinct groups:

1. those majoring in nutrition and food science who are interested in entering either the nutrition, the food science and health care professions;
2. those interested in entering the dietetics field; and
3. those majoring in nutrition and food science with the intention of entering non-technical positions in a variety of food businesses.

- Dietetics (B.S.) (p. 272)
- Dietetics (Post-Bachelor Certificate) (p. 273)
- Nutrition and Food Science (B.A.) (p. 273)
- Nutrition and Food Science (B.S.) (p. 274)
- Nutrition and Food Science Minor (p. 275)

**Dietetics (B.S.)**

The coordinated program in dietetics is designed to prepare registration-eligible practitioners. The special body of knowledge for the profession is the science of nutrition; skills for delivery of nutritional care encompass a number of closely-allied fields, such as food science, business, management, psychology, social sciences, economics, and communication. The strong base in science and other areas is developed through selection of relevant prerequisite and supporting cognate courses, and in the professional courses. Graduates of the program receive a Bachelor of Science in Dietetics degree and are eligible to write the national registration examination for professional certification without the need for a separate internship. The dietetics program is currently granted accreditation status by the Academy of Nutrition and Dietetics Accreditation Council for Education in Nutrition and Dietetics (ACEND), a specialized accreditating body recognized by The Council on Post-secondary Accreditation and the United States Department of Education. Students may contact ACEND via their webpage or by calling 312-899-0040 to find out the accreditation status of any dietetic program.

**Admission Requirements**

Admission to this program is competitive and open only to students with at least junior standing in the College after completion of the prerequisite courses cited below. Program application should be made by April 1 of the winter semester preceding the fall semester of anticipated entry into the program. Transfer and post-baccalaureate students must meet the pre-professional science requirements (see courses, below) before acceptance into the program. Transferability of credit must be verified by the College advisors and Dietetics faculty. Course material fees cover all the additional costs relating to the professional component of the program. However, students are responsible for the costs associated with physical examination, lab coat, texts and transportation.

Total Credits: 54-57

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Nutrition and Food Science Honors Program**

**Admission:** A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

**Honors Requirements**

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one 4000-level Honors Program seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.
**Dietetics (Post-Bachelor Certificate)**

This program is available to students admitted to the Coordinated Program in Dietetics (CPD) who already have an undergraduate degree. Completion of the CPD makes graduates of the program eligible to take the National Registration Examination for Dietitians, which, when successfully completed, confers the legal designation of Registered Dietitian.

**Admission Requirements**

Students who have received an undergraduate degree from Wayne State University should contact the department for application procedures. Students who have received an undergraduate degree from another institution must complete the Application for Undergraduate Admission and have transcripts of previous work sent directly to the Office of Admissions. Application to the CPD is separate from that to the University (CPD applications (http://www.clas.wayne.edu/NFS) should be obtained from the department, and applications are accepted only once yearly. The deadline is April 1 for program entry the following fall semester.

Students with a dietetics degree generally will have fulfilled all prerequisite course requirements; see Core Courses for the Bachelor of Science in Dietetics (p. 274) degree. Any courses in which the student had received a grade of D or below must be repeated; any dietetics courses in which the student has received a grade of C-plus or below must be repeated. Dietetics courses include food service management, medical nutrition therapy (also called clinical nutrition or diet therapy), and community nutrition. Following successful completion of all Core Courses in the undergraduate degree program, the student will elect the Core Courses for the Post-Bachelor Certificate in Dietetics.

Students who possess an undergraduate degree that is not in dietetics do not need to obtain a second undergraduate degree in dietetics, but they must complete all Core Courses for the Bachelor of Science in Dietetics, or their equivalents at other universities. Students in this category should consult with a dietetics advisor at their earliest opportunity. Following successful completion of all Core Courses in the undergraduate degree program, the student will elect the Core Courses for the Post-Bachelor Certificate in Dietetics.

**Nutrition and Food Science (B.A.)**

This curriculum allows students to major in nutrition and food science while following a broader program in liberal arts, science, and business. The degree requires a less rigorous background in chemistry and other natural science courses than is required for the B.S. degree in this discipline. Employment opportunities include sales, customer relations, university or school food services, industrial and commercial food service systems, hospitals, nursing homes or extended care food service operations.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Students contemplating a major program in Nutrition and Food Science should consult with the undergraduate Departmental advisor as soon as possible, and no later than the beginning of the sophomore year. Transfer students should consult with the undergraduate departmental advisor during the semester prior to their transfer.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Major Requirements**

Course requirements for this bachelor’s degree consist of courses offered by Wayne State University and courses available from local community colleges on a dual enrollment basis with the University. Requirements are as follows:

**Community College Courses**

Candidates for the degree may complete a course in one of the following areas: sanitation, food management, quantity food purchasing, and quantity food production. As many as four credits from these courses can be applied to the degree either by transfer from previous community college work or by concurrent enrollment with a local community college. For an approved list of courses from area institutions, consult the Department.
Nutrition and Food Science Honors Program

Admission: A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

Honors Requirements

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one 4000-level Honors Program seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

'AGRADE' Program (Accelerated Graduate Enrollment)

Qualified seniors in Nutrition and Food Science having not less than a 3.5 g.p.a. may enroll simultaneously in the undergraduate and graduate program and apply a maximum of sixteen credits towards both the bachelor's and master's degrees in nutrition and food science. Students may apply for the program as soon as they complete ninety credits towards the undergraduate degree. Graduate courses taken as part of the 'AGRADE' Program are assessed undergraduate rate tuition. Contact the Department for further information.

Nutrition and Food Science (B.S.)

This program is designed for science-oriented students who are interested in the various food and nutrition or other healthcare related professions. Students are prepared for these professions by the integration of chemistry and the biological sciences with courses in food science and nutrition. Employment opportunities may be found in various phases of food processing, research and development, public health, and community education, as well as in positions in state and federal regulatory agencies dealing with food products. The program provides good preparation for medical, dental or allied health school application. Students should consult an advisor for program planning.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Students contemplating a major program in Nutrition and Food Science should consult with the undergraduate Departmental advisor as soon as possible, and no later than the beginning of the sophomore year. Transfer students should consult with the undergraduate departmental advisor during the semester prior to their transfer.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete seventy-six credits in science courses of which at least thirty-five must be in nutrition and food science. Core Courses are as follows:

Peace and Conflict Studies

Office: 2320 Faculty/Administration Building; 313-577-3453
Director: Frederic S. Pearson
Undergraduate Advisor: Gayle McCreedy
http://clas.wayne.edu/CPCS

The Peace and Conflict Studies (PACS) Co-Major Program integrates a variety of practical courses and interdisciplinary research to allow students to combine their own majors with training, study, and experience in peace studies and the emerging field of conflict resolution, at the interpersonal, national and international levels. The curriculum deals with the most fundamental of human concerns: how to manage or resolve conflict constructively. Students are introduced to the causes of human conflict and violence, as well as approaches to conflict management ranging from diplomacy, law and negotiation, to mediation and arbitration. Questions are raised concerning the issues of globalization, social justice, non-violence, ethnicity, race, and culture.

- Peace and Conflict Studies (Co-Major) (p. 275)
- Peace and Conflict Studies Minor (p. 277)

Peace and Conflict Studies (Co-Major)

The Peace and Conflict Studies (PACS) Co-Major Program integrates a variety of practical courses and interdisciplinary research to allow students to combine their own majors with training, study, and experience in peace studies and the emerging field of conflict resolution, at the interpersonal, national and international levels. The curriculum deals with the most fundamental of human concerns: how to manage or resolve conflict constructively. Students are introduced to the causes of human conflict and violence, as well as approaches to conflict management ranging from diplomacy, law and negotiation, to mediation and arbitration. Questions are raised concerning the issues of globalization, social justice, non-violence, ethnicity, race, and culture.

The PACS curriculum provides a framework useful for careers in legal, educational, governmental, business, labor, social service, scientific and health professions, as well as in graduate and professional education. Students are offered opportunity for hands-on experience, and are encouraged to build adaptive skills useful for the future. Courses in this curriculum may also count toward satisfaction of University General Education Requirements (p. 31), as well as College Group and Major Requirements.

The program is designed around a set of core courses, which introduce the student to the field, including various approaches to peace studies and the application of conflict management methods, and finally which assess the student’s overall progress in a senior research seminar project. Seventeen elective credits are required, of which at least six must be upper-divisional (courses numbered 3000 or above); no more than two courses may be degree applicable as both major credit in one program and elective credit in Peace and Conflict Studies. Courses may be chosen generally from the list of elective courses, or may be focused in one of seven specialty areas:

- race, gender and religion
- peace and conflict theory
- human rights
- international issues of peace and conflict studies
- peace and conflict studies in the United States
- peace studies in human development
- dispute resolution

Some electives may also count toward satisfaction of major requirements or of College Group Requirements.

Students are encouraged to participate in the development of their curriculum; in addition to selecting from a wide variety of suggested PACS electives, co-majors are able to choose other elective courses with prior consent of the Director. Students are also encouraged to participate in the Peace and Justice Student Learning Community, which organizes speakers and other special educational programs and events on various subjects, and to explore credit for internships and study abroad.

Select one of the following: 1

- PCS 5000 Dispute Resolution
- PCS 5010 Community or International Internship
- PCS 5100 Advanced Special Topics

Select 17 credits of Electives (see choices below)

Total Credits: 30-35

1 May be taken only once for core requirement, and repeated for electives.

**Electives (Seventeen Credits)**

The University offers a large number of conflict- and peace-related courses in its various Schools and Colleges that are suitable electives for this program. The student is encouraged to select courses that introduce them to a variety of cultural practices regarding the management of conflict. The following are appropriate for the co-major or minor; because new courses are created by faculty on a rolling basis, students are encouraged to consult with the director or the undergraduate advisor about any courses not on the following list which may be included in their major.

**Race, Gender and Religion**

- PS 6070 : Labor and American Politics 3
- PSY 2100 : Psychology and the Workplace 3
- SW 1010 : Introduction to Social Work and Social Welfare 3

**Peace and Conflict Studies Minor**

To receive a Minor in Peace and Conflict Studies, a student must complete:

- PCS 2000 : Introduction to Peace and Conflict Studies 3
- PCS 6000 : Senior Seminar in Peace and Conflict Studies 3

Select one course from each of the other core groups listed on the co-major page

Select six credits in conflict-related elective courses (must be upper division and not from student’s major) 6

Total Credits 18

Electives may be selected from the courses listed above, or from other curricula, with approval of the Peace and Conflict Studies Director.

**Philosophy**

_Office:_ 5057 Woodward, 12th floor; 313-577-2474  
_Chairperson:_ John Corvino  
_Undergraduate Advisor:_ Roylee Smith  
_Director of Undergraduate Studies:_ Joshua Wilburn  
_http://clasweb.clas.wayne.edu/Philosophy_

Courses in this department are designed with four aims:

1. They contribute to the liberal education of any student, whatever his/her predominant interest, by their emphasis on clear and cogent thought, by consideration of the interrelations of fact and value, by
training in logic and the methodology of inquiry, and by a study and analysis of major philosophical outlooks.

2. They supply a minor and cognate courses to students majoring in other Departments who wish to study their major subject in its wider philosophical implications.

3. They give Departmental majors a wide and intensive training in philosophy. The major appeals to those who wish to take graduate work in philosophy and to those who wish a broad background from which to study and understand the emergence and conflict of ideas in relation to contemporary problems.

4. They supply a relevant major and minor for students who plan a career in such fields as the law or the ministry.

- Philosophy (B.A.) (p. 278)
- Philosophy Minors (p. 279)

**Philosophy (B.A.)**

Philosophy contributes to the liberal education of any student, whatever his/her predominant interest, by its emphasis on clear and cogent thought, by consideration of the interrelations of fact and value, by training in logic and the methodology of inquiry, and by a study and analysis of major philosophical outlooks.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Students who are planning to major in philosophy or who simply wish advice or consultation concerning course offerings and programs should see the Director of Undergraduate Studies in Philosophy.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Major Requirements**

Students planning to major in Philosophy should consult the department’s undergraduate advisor as early as possible. Students may satisfy the major in either of two ways: with a traditional concentration or with a concentration in law, ethics and justice.

**CORE COURSE (3-4 credits). All students (of either concentration) must take one of the following logic courses:**

Select one of the following: 3-4

| PHI 2850 | Introductory Symbolic Logic |
| PHI 2860 | Honors Introductory Symbolic Logic |
| PHI 5050 | Advanced Symbolic Logic |

**Traditional Concentration**

This option is primarily intended for those students whose interests in Philosophy are broad and general, and for those who are considering doing graduate-level work in Philosophy. A candidate pursuing this concentration must complete a minimum of ten courses in Philosophy, including the Logic Core Course (see above) as well as the following courses and selections from course groups (found in Philosophy Courses (PHI):

1. **Two courses in the History of Philosophy group (one in ancient philosophy, and one in modern philosophy):**

   Ancient Philosophy (select one of the following):
   - PHI 2100 Ancient Greek Philosophy
   - PHI 5400 The Presocratics and Sophists
   - PHI 5410 Plato
   - PHI 5420 Aristotle

   Modern Philosophy (select one of the following):
   - PHI 2110 Seventeenth and Eighteenth Century Philosophy
   - PHI 5440 Continental Rationalism
   - PHI 5450 British Empiricism
   - PHI 5460 Kant

2. **Select one course in the Value Theory Group**

3. **Select one course in the Philosophical Problems Group**

4. **Select four 5000-level courses (other than 5990 or 5993), which must total at least 14 credits**

   In addition, a major in philosophy must register for PHI 5993 (Writing Intensive Course in Philosophy) in association with some 3000-or 5000-level Philosophy class; this course is not counted toward the ten-course minimum.

   NOTE: Courses taken at the 5000-level which are used to satisfy any of requirements 1-3 may also be counted toward requirement 4, though the ten-course minimum for the major must still be met. PHI 5990 (Directed Reading) will not count toward the 14 credits at the 5000-level, except under special circumstances, and with the permission of the supervising instructor and the Director of Undergraduate Studies.

**Law, Ethics and Justice Concentration**

This option is intended for students who have a special interest in ethical issues, social justice, philosophy of law, or pre-law. A candidate pursuing this concentration must complete a minimum of ten courses in Philosophy, including the Core Courses (see above) as well as the following courses and selections from course groups:

1. **One course in the History of Philosophy group**

   | PHI 2100 | Ancient Greek Philosophy |
   | PHI 2110 | Seventeenth and Eighteenth Century Philosophy |
   | PHI 5400 | The Presocratics and Sophists |
   | PHI 5410 | Plato |
   | PHI 5420 | Aristotle |
   | PHI 5440 | Continental Rationalism |
   | PHI 5450 | British Empiricism |
   | PHI 5460 | Kant |

2. **Select one course from the Philosophical Problems Group**

3. **PHI 2320 - (PL) Introduction to Ethics**

4. **Select one of the following:**

   | PHI 2330 | Introduction to Social and Political Philosophy |
   | PHI 2390 | Philosophy of Human Rights |
   | PHI 3270 | Foundations of Law |
   | PHI 5270 | Philosophy of Law |
   | PHI 5240 | Special Topics in Social and Political Philosophy |
   | PHI 5240 | Or other approved course in social and political philosophy, philosophy of law, or human rights. |

5. **Select one of the following:**

   | PHI 1100 | Contemporary Moral Issues |
   | PHI 1110 | Ethical Issues in Health Care |
   | PHI 1120 | Professional Ethics |
6. Select four 5000-level courses (other than 5990 or 5993), which must total at least 14 credits.¹

¹ Students should consult the Director of Undergraduate Studies for approval of courses not listed.

² Students must take either PHI 5280 or PHI 5300 and one additional course at the 5000-level from the Value Theory Group.

In addition, a major in philosophy must register for PHI 5993 (Writing Intensive Course in Philosophy), in association with some 3000-or 5000-level Philosophy class; this course is not counted toward the ten-course minimum.

NOTE: Courses taken at the 5000-level which are used to satisfy any of requirements 1, 4, or 5 may also be counted toward the "four 5000-level courses" requirement (requirement 6), though the ten-course minimum must still be met. PHI 5990 (Directed Reading) will not count toward the 14 credits at the 5000-level, except under special circumstances, and with the permission of the supervising instructor and the Director of Undergraduate Studies.

**Philosophy Honors**

Admission to the honors program in philosophy is determined on the basis of the student's overall record. The student will normally be required to have:

1. a minimum grade point average of 3.3,
2. credit in at least three philosophy courses, and
3. a 'B' or better average in philosophy courses.

To remain in the philosophy honors program, the student must maintain a 'B' or better average in philosophy courses.

Honors Requirements: To receive an Honors Degree, the candidate must complete the course requirements for the regular major. In addition the candidate must complete a total of at least fifteen credits of Honors-designated coursework, including:

1. PHI 4890 during the candidate's senior year;
2. one 4000-level seminar offered through the Honors College;
3. at least six additional credits of Honors-designated coursework in Philosophy (other than PHI 4890); and
4. additional credits of Honors-designated coursework as needed to reach the fifteen-credit minimum.

At graduation, the overall grade point average must be at least 3.3. If at any point the student fails to maintain Honors standards, his or her credits will automatically be counted toward the regular degree major. Students interested in becoming candidates for the Honors Degree in philosophy should consult the Department's undergraduate advisor as soon as possible.

**Philosophy Minors**

Students planning to minor in philosophy should consult the department's undergraduate advisor as early as possible. The department offers three minors:

**Traditional Philosophy Minor**

This option is primarily intended for those students whose interests in philosophy are broad and general. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (p. 279), including:

1. One course in critical thinking or symbolic logic:
   - PHI 1050 Critical Thinking
   - PHI 2850 Introductory Symbolic Logic
   - PHI 2860 Honors Introductory Symbolic Logic
   - PHI 5050 Advanced Symbolic Logic

2. One course at the 2000- or 3000-level (other than PHI 2850 or 2860)

3. One course at the 5000-level or above (other than PHI 5993, 5990)

4. Two additional courses of the candidate's choice (other than 5993 or 5990)

   * PHI 5050 taken in compliance with requirement 1 may be used to satisfy requirement 4, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

**Pre-Law Minor**

This option is primarily intended for students intending on going to Law School, or for students especially interested in issues related to philosophy of law. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (p. 279), including:

1. One course in critical thinking or symbolic logic:
   - PHI 1050 Critical Thinking
   - PHI 2850 Introductory Symbolic Logic
   - PHI 2860 Honors Introductory Symbolic Logic
   - PHI 5050 Advanced Symbolic Logic

2. Two of the following courses:
   - PHI 2320 Introduction to Ethics
   - PHI 2330 Introduction to Social and Political Philosophy
   - PHI 2390 Philosophy of Human Rights
   - PHI 3270 Foundations of Law
   - PHI 5240 Special Topics in Social and Political Philosophy
   - PHI 5270 Philosophy of Law

3. One of the following courses:
   - PHI 1100 Contemporary Moral Issues
   - PHI 1110 Ethical Issues in Health Care
   - PHI 1120 Professional Ethics
   - PHI 1130 Environmental Ethics
   - PHI 5260 Philosophy of Sex and Gender

4. One additional course at the 5000-level or above (other than 5993 or 5990) **

   ** 5000-level courses taken to satisfy any of requirements 1, 2, or 3 may be used to satisfy requirement 4, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

**Health Care Ethics Minor**

This option is primarily intended for students interested in ethics and moral issues related to medicine, health care, and science, or for students intending to pursue a career in a health care field. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (p. 279), including:

1. One course in critical thinking or symbolic logic:
   - PHI 1050 Critical Thinking
PHI 2850  Introductory Symbolic Logic
PHI 2860  Honors Introductory Symbolic Logic
PHI 5050  Advanced Symbolic Logic

2. The following three courses:
   
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHI 1110</td>
<td>Ethical Issues in Health Care</td>

<td></td>
</tr>
</tbody>
</table>

One additional course from the Theory of Value course group (or PHI 1200: Life and Death)

3. At least one Philosophy course at the 5000-level (other than 5993)***

*** This requirement may be satisfied by electing a 5000-level course to satisfy one of the other minor requirements, though the five course minimum must still be met.

### Physics and Astronomy

**Office:** 135 Physics Research Building; 313-577-2721  
**Chairperson:** David Cinabro  
**Associate Chairperson:** Jogindra M. Wadhera  
**Academic Services Officer:** J. Scott Payson  
**Undergraduate Academic Advisor:** Dawn Niedermiller  
http://www.physics.clas.wayne.edu/

Physics is the science that describes the behavior of the physical world. It is the most basic of all sciences and as such is responsible for the interpretation of fundamental physical processes which support many other scientific disciplines. The study of physics involves many of the significant ideas that have shaped Western civilization, and the excitement of ongoing scientific challenges. Currently, physicists conduct research into the basic laws of nature and also make use of these ideas to design and develop new technologies. Thus, training in physics offers a variety of opportunities. Careers are possible in research laboratories, in academic teaching capacities, in hospitals, the military, power plants, museums, patent law firms, computer companies, and in a host of other areas.

Faculty members in this Department are devoted to teaching and research and hold national and international reputations in their areas of specialization, which include: high energy physics, nuclear physics, atomic physics, the physics of condensed matter, material science, mathematical physics, applied physics, and quantum field theory. They organize and participate in conferences, publish extensively, and receive numerous outside grants, contracts and fellowships. In addition, they engage in many collaborations with scientists in both foreign and American universities and national laboratories.

**Physics Colloquium:** The department colloquium is normally held Thursday afternoons. Advanced undergraduates are invited to attend.

- Astronomy (B.A.) (p. 280)
- Astronomy Minor (p. 281)
- Biomedical Physics (B.S.) (p. 281)
- Biomedical Physics Minor (p. 282)
- Physics (B.A.) (p. 282)
- Physics (B.S.) (p. 283)
- Physics Minor (p. 284)

### Courses for Non-Science Majors

The Department of Physics and Astronomy offers several courses designed primarily for non-science majors for which only minimal high school mathematics preparation is needed. The courses are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>AST 2010</td>
<td>Descriptive Astronomy</td>
<td>4</td>
</tr>
<tr>
<td>AST 2011</td>
<td>Descriptive Astronomy Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>PHY 1020</td>
<td>Conceptual Physics: The Basic Science</td>
<td>4</td>
</tr>
<tr>
<td>PHY 3100</td>
<td>The Sounds of Music</td>
<td>4</td>
</tr>
</tbody>
</table>

The laboratories connected with AST 2010, PHY 1020, and PHY 3100 satisfy the natural science laboratory group requirements.

### Astronomy (B.A.)

This program is intended to provide students with foundational knowledge in astronomy and space science. Students will graduate with strong scientific preparation and communication skills and will have a wide range of career options including entry-level jobs as well as graduate education in law, business, education, social and physical sciences. In short, these students will have all the traditional options of liberal arts majors with the added advantage of a unique science background.

### Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Note:** In some cases the requirements of a specific program will increase the number of credits above 120.

The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Additionally, student must complete:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>AST 2010</td>
<td>Descriptive Astronomy</td>
<td>4</td>
</tr>
<tr>
<td>AST 2011</td>
<td>Descriptive Astronomy Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>PHY 2170</td>
<td>University Physics for Scientists I</td>
<td>4</td>
</tr>
<tr>
<td>PHY 2171</td>
<td>University Physics Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>PHY 2180</td>
<td>University Physics for Scientists II</td>
<td>4</td>
</tr>
<tr>
<td>PHY 2181</td>
<td>University Physics Laboratory II</td>
<td>1</td>
</tr>
<tr>
<td>PHY 3300</td>
<td>Introductory Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHY 3310</td>
<td>Introductory Modern Physics Laboratory</td>
<td>2</td>
</tr>
<tr>
<td>PHY 5340</td>
<td>Optics</td>
<td>5</td>
</tr>
<tr>
<td>&amp; PHY 5341</td>
<td>and Optics Laboratory</td>
<td></td>
</tr>
<tr>
<td>AST 4100</td>
<td>Astronomical Techniques</td>
<td>3</td>
</tr>
</tbody>
</table>
A student may present credits in PHY 2130, PHY 2140 or equivalent, in lieu of PHY 2170 and PHY 2180, with the consent of the Departmental Undergraduate advisor.

Electives to complete credits required for the degree may include any courses from the College of Liberal Arts and Sciences.

### Astronomy Minor

The Department of Physics and Astronomy offers a minor in astronomy to qualified students. The requirement for a minor consists of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2170</td>
<td>University Physics for Scientists I</td>
<td>4</td>
</tr>
<tr>
<td>or PHY 2130</td>
<td>Physics for the Life Sciences I</td>
<td></td>
</tr>
<tr>
<td>PHY 2171</td>
<td>University Physics Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>or PHY 2131</td>
<td>Physics for the Life Sciences Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 2180</td>
<td>University Physics for Scientists II</td>
<td>4</td>
</tr>
<tr>
<td>or PHY 2140</td>
<td>(PS) Physics for the Life Sciences II</td>
<td></td>
</tr>
<tr>
<td>PHY 2181</td>
<td>University Physics Laboratory II</td>
<td>1</td>
</tr>
<tr>
<td>or PHY 2141</td>
<td>Physics for the Life Sciences Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 3300</td>
<td>Introductory Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHY 3310</td>
<td>Introductory Modern Physics Laboratory</td>
<td>2</td>
</tr>
</tbody>
</table>

Select three courses from the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AST 4000</td>
<td>Astronomical Techniques</td>
<td>2</td>
</tr>
<tr>
<td>AST 4300</td>
<td>Planetary Astronomy and Space Science</td>
<td></td>
</tr>
<tr>
<td>AST 5010</td>
<td>Astrophysics and Stellar Astronomy</td>
<td></td>
</tr>
<tr>
<td>AST 5100</td>
<td>Galaxies and the Universe</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 24

1. If students take PHY 2130 and PHY 2140 then they must earn a cumulative 3.0 g.p.a. in those courses to be able to take PHY 3300.
2. If students choose to take AST 4100 as one of the elective upper-level astronomy classes, then, AST 4200 is a co-requisite.
3. MAT 2010 and MAT 2020 are prerequisites for this course.

Many science and/or engineering majors already take the required calculus and basic physics sequence as part of their studies, however, non-science majors are unlikely to be able to complete the minor in under 24 credits. Students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

### Biomedical Physics (B.S.)

Biomedical Physics deals with applications of physics to questions of biology and medicine. It is an interdisciplinary program, combining courses from physics, biology and medicine designed to train students to use quantitative, physical science inspired approaches to problems of the life sciences. Graduates of this program will be prepared for careers in biophysics, medicine, biomedical engineering, medical physics or any other field requiring physical and technological approaches to medical or biological questions.

### Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. In addition, a student must possess an overall g.p.a. of at least 3.0 for the following four courses to become a B.S. candidate in Biomedical Physics:

<table>
<thead>
<tr>
<th>Option 1</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2130</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2131</td>
<td></td>
</tr>
<tr>
<td>PHYS 2140</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2141</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Option 2</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2170</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2171</td>
<td></td>
</tr>
<tr>
<td>PHY 2180</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2181</td>
<td></td>
</tr>
</tbody>
</table>

Candidates must complete at least 123 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 19) and the College (p. 219) governing undergraduate scholarship and degrees. All students will be required to maintain an overall grade point average of 3.0 for all degree work elected, as well as a grade point average of at least 2.5 in all major and cognate requirements.

### Major Requirements

B.S. candidates must take a minimum of 41 credits including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2130</td>
<td>Physics for the Life Sciences I</td>
<td>4</td>
</tr>
<tr>
<td>or PHY 2170</td>
<td>University Physics for Scientists I</td>
<td></td>
</tr>
<tr>
<td>PHY 2131</td>
<td>Physics for the Life Sciences Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>or PHY 2171</td>
<td>University Physics Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 2140</td>
<td>(PS) Physics for the Life Sciences II</td>
<td>4</td>
</tr>
<tr>
<td>or PHY 2180</td>
<td>University Physics for Scientists II</td>
<td></td>
</tr>
<tr>
<td>PHY 2141</td>
<td>Physics for the Life Sciences Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>or PHY 2181</td>
<td>University Physics Laboratory II</td>
<td></td>
</tr>
<tr>
<td>PHY 3700</td>
<td>Mathematics for Biomedical Physics</td>
<td>4</td>
</tr>
<tr>
<td>PHY 3750</td>
<td>Introduction to Computational Methods</td>
<td>1</td>
</tr>
<tr>
<td>PHY 4700</td>
<td>Introduction to Biomedical Physics</td>
<td>4</td>
</tr>
<tr>
<td>PHY 5340</td>
<td>Optics</td>
<td>5</td>
</tr>
<tr>
<td>&amp; PHY 5341</td>
<td>and Optics Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 5620</td>
<td>Electronics and Electrical Measurements</td>
<td>5</td>
</tr>
<tr>
<td>&amp; PHY 5621</td>
<td>and Electronics and Electrical Measurements Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 5750</td>
<td>Biological Physics</td>
<td>4</td>
</tr>
<tr>
<td>PHY/ROC 6710</td>
<td>Physics in Medicine</td>
<td>3</td>
</tr>
<tr>
<td>PHY 6750</td>
<td>Applied Computational Methods</td>
<td>2</td>
</tr>
<tr>
<td>PHY 6780</td>
<td>Research Methods in Biomedical Physics</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 41
Cognate Requirements

B.S. candidates in Biomedical Physics must take:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 2100</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2200</td>
<td>Calculus II</td>
<td>4</td>
</tr>
<tr>
<td>CHM 1220</td>
<td>General Chemistry I</td>
<td>5</td>
</tr>
<tr>
<td>&amp; CHM 1230</td>
<td>and General Chemistry Laboratory</td>
<td></td>
</tr>
<tr>
<td>CHM 1240</td>
<td>Organic Chemistry I</td>
<td>5</td>
</tr>
<tr>
<td>&amp; CHM 1250</td>
<td>and Organic Chemistry Laboratory</td>
<td></td>
</tr>
<tr>
<td>CHM 2220</td>
<td>Organic Chemistry II</td>
<td>4</td>
</tr>
<tr>

<td>4</td>
</tr>
<tr>
<td>BIO 1510</td>
<td>Basic Life Mechanisms</td>
<td>4</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>31</td>
</tr>
</tbody>
</table>

Some of these courses can be waived with the approval of the Biomedical Physics Advisor if a proof of proficiency is provided or a higher level course is substituted.

Science Electives

B.S. candidates in Biomedical Physics must take a total of four additional science, mathematics, engineering, or computer science elective classes beyond the requirements listed above. At least one of these classes must come from the field of biology. These four classes can be chosen from the following list:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 2200</td>
<td>Introductory Microbiology</td>
<td>5</td>

<tr>
<td>Total Credits</td>
<td></td>
<td>31</td>
</tr>
</tbody>
</table>

Classes not on this list can be taken if prior approval from the undergraduate Physics student advisor has been obtained.

Biomedical Physics Minor

The Department also offers a minor in Biomedical Physics. The requirements for a minor consist of:

- PHY 2130  Physics for the Life Sciences I 4
- or PHY 2170 University Physics for Scientists I 4
- PHY 2131  Physics for the Life Sciences Laboratory 1
- or PHY 2171 University Physics Laboratory 1
- PHY 2140  (PS) Physics for the Life Sciences II 4
- or PHY 2180 University Physics for Scientists II 4
- PHY 2141  Physics for the Life Sciences Laboratory 1
- or PHY 2181 University Physics Laboratory II 1
- PHY 3700  Mathematics for Biomedical Physics (approval required to substitute MAT 2030) 4
- or MAT 2030 Calculus III 4
- PHY 4700  Introduction to Biomedical Physics 4

Select a minimum of six credits from the following:

- PHY 4750 Introduction to Computational Methods 6
- PHY 5340 Optics 5
- & PHY 5341 and Optics Laboratory 1
- PHY 5750 Biological Physics 3
- or PHY 6710 Physics in Medicine 4
- PHY 6710 Physics in Medicine 4
- PHY 6780 Research Methods in Biomedical Physics 4

Total Credits 24

1 Or PHY 5620 and PHY 5621.

The students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

Physics (B.A.)

This program is intended to meet the needs of several kinds of students:

1. students wishing to major in physics who have transferred to Wayne State University after one or two years at a community college, but whose background in physics and mathematics does not complement the content, level, or scheduling of remaining course requirements well enough to permit completion of the Bachelor of Science degree curriculum in a reasonable time;

2. students who wish to pursue a general course of education in the sciences with physics as an area of concentration. Those who undertake such a program are sometimes interested in the study of physics as an integrated part of a broad educational background;
3. students who decide relatively late in their college careers (for example, during the sophomore year) that they wish to major in physics.

It should be emphasized that completion of the Bachelor of Arts program instead of the Bachelor of Science program does not preclude later graduate work in physics. In most cases, it will mean that the student will spend part or all of his/her first year in graduate school making up deficiencies in his or her physics and mathematics background. Generally speaking, such deficiencies may be determined by consulting the Suggested Course Sequence of the Bachelor of Science degree in physics.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.

The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Additionally, student must complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2170</td>
<td>University Physics for Scientists I ¹</td>
<td>4</td>
</tr>
<tr>
<td>PHY 2171</td>
<td>University Physics Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>PHY 2180</td>
<td>University Physics for Scientists II ¹</td>
<td>4</td>
</tr>
<tr>
<td>PHY 2181</td>
<td>University Physics Laboratory II</td>
<td>1</td>
</tr>
<tr>
<td>PHY 3300</td>

<td>2</td>
</tr>
<tr>
<td>Select one of the following:</td>
<td>3-4</td>
<td></td>
</tr>
<tr>
<td>PHY 6400</td>
<td>Quantum Physics I</td>
<td></td>
</tr>
</tbody>
</table>

¹ A student may present credits in PHY 2130, PHY 2140 or equivalent, in lieu of PHY 2170 and PHY 2180, with the consent of the Departmental Undergraduate advisor.

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Physics (B.S.)

The Bachelor of Science program offers several options. Each option is designed to meet the needs of a particular group of students although each is flexible enough to avoid limiting the student to a particular future program. Students take a logically-developed sequence of physics courses on a broad range of topics. The introductory sequence uses calculus, and later courses investigate single areas in greater depth, using more advanced mathematics. In advanced laboratory courses the physics student uses sophisticated equipment and sometimes has an opportunity to join a research team.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.

The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.
Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Total Credits 36

Engineering and Applied Physics Option

The B.S. degree in the Engineering and Applied Physics option is intended to provide the interdisciplinary training that is required for a variety of applied fields, while still providing an understanding of the physical foundations of those fields. Programs are designed to combine fundamental physics courses with engineering and other science courses, in order to prepare students for careers in industry (particularly engineering fields) as well as graduate programs in these areas. There is sufficient flexibility in this program that a set of courses can be designed to match a student's interest in such areas as semiconductor physics, material physics, computational physics, biophysics, optics and laser physics, and other areas. Students interested in enriching their education with on-the-job experience may apply for internships with cooperating research laboratories by contacting the departmental undergraduate advisor.

Additional requirements beyond the Basic Requirements listed above:

Total Credits 34

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Physics Minor
The Department of Physics and Astronomy offers a minor in physics to qualified students from other Departments. The requirement for a minor consists of:

Select one of the following groups:

AGRADE Programs (Accelerated Graduate Enrollment)

Physical AGRADE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Biomedical Physics-BME AGRADE Program

Outstanding seniors in Biomedical Physics, who have completed at least 90 credits and have an overall GPA of at least 3.5, and major biomedical physics classes GPA at least 3.6, can apply to enter the cross-college AGRADE program between the Biomedical Physics undergraduate program (College of Liberals Arts and Sciences) and Biomedical Engineering (BME) Master’s programs (College of Engineering). The AGRADE program allows students to apply up to 15 credits of selected graduate courses, taken as an undergraduate, towards a Master’s degree in Biomedical Engineering. The Physics courses that can be counted towards MS-BME degree include PHY 5340/PHY 5341 or PHY 5620/PHY 5621, PHY 5750, PHY 6710, and PHY 6780. This enables students to complete an undergraduate degree in Biomedical Physics and a graduate degree in Biomedical Engineering in just 5 years of full-time study. For more details, please contact the undergraduate Physics advisor in the Department of Physics and Astronomy, or the graduate advisor in the Department of Biomedical Engineering.

Interdisciplinary Physics-ECE AGRADE Program

Outstanding seniors in Physics (both Engineering and Applied Physics option and Advanced Physics option), who have completed at least 90 credits and have an overall GPA of at least 3.5, and major physics classes GPA at least 3.6, can apply to enter the cross-college AGRADE program between the Physics undergraduate program (College of Liberals Arts and Sciences) and Electrical Engineering (EE) Master’s programs (College of Engineering). The AGRADE program allows students to apply up to 12 credits of selected graduate courses, taken as an undergraduate, towards a Master’s degree in Electrical Engineering. The Physics courses that can be counted towards MS-EE degree include PHY 5340/PHY 5341, PHY 5620/PHY 5621, and PHY 5100.

AGRADE Programs (Accelerated Graduate Enrollment)

Physical AGRADE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Biomedical Physics-BME AGRADE Program

Outstanding seniors in Biomedical Physics, who have completed at least 90 credits and have an overall GPA of at least 3.5, and major biomedical physics classes GPA at least 3.6, can apply to enter the cross-college AGRADE program between the Biomedical Physics undergraduate program (College of Liberals Arts and Sciences) and Biomedical Engineering (BME) Master’s programs (College of Engineering). The AGRADE program allows students to apply up to 15 credits of selected graduate courses, taken as an undergraduate, towards a Master’s degree in Biomedical Engineering. The Physics courses that can be counted towards MS-BME degree include PHY 5340/PHY 5341 or PHY 5620/PHY 5621, PHY 5750, PHY 6710, and PHY 6780. This enables students to complete an undergraduate degree in Biomedical Physics and a graduate degree in Biomedical Engineering in just 5 years of full-time study. For more details, please contact the undergraduate Physics advisor in the Department of Physics and Astronomy, or the graduate advisor in the Department of Biomedical Engineering.

Interdisciplinary Physics-ECE AGRADE Program

Outstanding seniors in Physics (both Engineering and Applied Physics option and Advanced Physics option), who have completed at least 90 credits and have an overall GPA of at least 3.5, and major physics classes GPA at least 3.6, can apply to enter the cross-college AGRADE program between the Physics undergraduate program (College of Liberals Arts and Sciences) and Electrical Engineering (EE) Master’s programs (College of Engineering). The AGRADE program allows students to apply up to 12 credits of selected graduate courses, taken as an undergraduate, towards a Master’s degree in Electrical Engineering. The Physics courses that can be counted towards MS-EE degree include PHY 5340/PHY 5341,
enter the Bachelor of Arts degree program in political science, students must declare their major in accordance with the rules of the College.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Students wishing to apply transfer credits toward the major should consult the political science undergraduate advisor regarding departmental policies and restrictions on the use of these credits.

**Major Requirements**

A political science major must satisfactorily complete at least thirty-six credits of course work in the Department. This course work must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 1010</td>
<td>American Government</td>
<td>4</td>
</tr>
<tr>
<td>or PS 1030</td>
<td>The American Governmental System</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 2510</td>
<td>Introduction to Political Ideologies</td>
<td>3-4</td>
</tr>
<tr>
<td>PS 2710</td>
<td>Introduction to Comparative Politics</td>
<td></td>
</tr>
<tr>
<td>PS 2810</td>
<td>World Politics</td>
<td></td>
</tr>
<tr>
<td>PS 2820</td>
<td>Introduction to Peace and Conflict Studies</td>
<td></td>
</tr>
</tbody>
</table>

Select at least four courses at the 3000 level or higher

- 12-16

A Writing Intensive (WI) course in political science

- 3-4

Total Credits

- 22-28

1. PS 5993 does not count toward fulfillment of this requirement.
2. with co-registration in PS 5993. Any political science course at the 3000-level or higher, except PS 5630 and PS 6640, may, with the permission of the instructor, be used to fulfill this requirement.

To satisfy the Writing Intensive requirement, the student must demonstrate proficiency in writing on disciplinary subject matter in a form and style that conform to disciplinary standards. To use a course for this purpose, the student must obtain approval from the instructor and follow the guidelines established by the instructor to demonstrate the required proficiency. The student must also co-register in PS 5993, a zero-credit course for which the student will receive a grade of Satisfactory (S) upon certification by the instructor that the writing requirement has been fulfilled. Note that completion of the Intermediate Composition (IC) is prerequisite to the WI course.

**Recommended Course:** It is recommended that majors include PS 3600, Methods of Political Inquiry, in their programs of study.

**Political Science Fields of Study**

In developing their specific programs of study, students should consult with the political science undergraduate advisor. They may pursue a general program or choose to concentrate in a particular field or subfield. The following are fields in which a student may choose to concentrate. Other areas of concentration and more specialized programs may be developed in consultation with the undergraduate advisor. It is not mandatory that a student have an area of concentration; the listings are only suggestive.

**American Government and Politics**

Public opinion, electoral politics, and participation in the political process; the role of political parties and interest groups and of the mass media; the workings of Congress, the Presidency, and other governmental institutions. Courses relevant to this area of concentration include (but are not limited to):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 3010</td>
<td>Public Opinion and Political Behavior</td>
<td>4</td>

<tr>
<td>PS 6020</td>
<td>Intergovernmental Relations and American Federalism</td>
<td>3</td>
</tr>
<tr>
<td>PS 6455</td>
<td>Discrimination and Fair Housing</td>
<td>3</td>
</tr>
</tbody>
</table>

**Public Administration**

The nature and functions of public agencies; techniques of public management; public bureaucracy in its social setting. Relevant courses include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 2310</td>
<td>Introduction to Public Administration</td>
<td>4</td>
</tr>
<tr>
<td>PS 2992</td>
<td>Political Science Internship</td>
<td>1-4</td>
</tr>
<tr>
<td>PS 3430</td>
<td>Bureaucracy and Public Policy</td>
<td>4</td>
</tr>
<tr>
<td>PS 6120</td>
<td>Administrative Law and Regulatory Politics</td>
<td>3</td>
</tr>
<tr>
<td>PS 6700</td>
<td>Financial Management for Nonprofit Organizations</td>
<td>3</td>
</tr>
</tbody>
</table>
Public Policy
How policy is formulated, decided, implemented, and evaluated; moral and political standards for making policy. Relevant courses include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 2410</td>
<td>Introduction to Public Policy</td>
<td>4</td>
</tr>
<tr>

<tr>
<td>PS 4460</td>
<td>Techniques of Policy Analysis</td>
<td>4</td>
</tr>
<tr>
<td>PS 5850</td>
<td>Human Rights</td>
<td>4</td>
</tr>
<tr>
<td>PS 6455</td>
<td>Discrimination and Fair Housing</td>
<td>3</td>
</tr>
</tbody>
</table>

Political Philosophy and Ethics
The justification and application of ethical standards to politics; history and analysis of authority and rebellion, individualism and community, justice and equality; modern ideologies such as communism, socialism, liberalism, and conservatism. Relevant courses include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 2420</td>
<td>Ethics and Politics of Public Policy</td>
<td>4</td>
</tr>
<tr>
<td>PS 2510</td>
<td>Introduction to Political Ideologies</td>
<td>4</td>
</tr>
<tr>
<td>PS 3510</td>
<td>Law, Authority and Rebellion</td>
<td>4</td>
</tr>
<tr>
<td>PS 3515</td>
<td>American Political Thought</td>
<td>3-4</td>
</tr>
<tr>
<td>PS 3520</td>
<td>Justice</td>
<td>4</td>
</tr>
<tr>
<td>PS 3530</td>
<td>Great Political Thinkers I</td>
<td>3</td>

<tr>
<td>PS 5560</td>
<td>Biopolitics</td>
<td>4</td>
</tr>
<tr>
<td>PS 5850</td>
<td>Human Rights</td>
<td>4</td>
</tr>
</tbody>
</table>

Quantitative Political Analysis
Methods of analysis used to assess alternatives and evaluate the impact of government policy; methods of empirical political research including data collection, statistical description and inference, and the use of computers to organize and interpret data. Relevant courses include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 2460</td>
<td>Policy and Rationality: Dilemmas of Choice</td>
<td>4</td>
</tr>
<tr>
<td>PS 3600</td>
<td>Methods of Political Inquiry</td>
<td>4</td>
</tr>
<tr>
<td>PS 4460</td>
<td>Techniques of Policy Analysis</td>
<td>4</td>
</tr>
<tr>
<td>PS 5630</td>
<td>Statistics and Data Analysis in Political Science I</td>
<td>4</td>
</tr>
<tr>
<td>PS 6640</td>
<td>Statistics and Data Analysis in Political Science II</td>
<td>3</td>
</tr>
</tbody>
</table>

Comparative Politics
The study of government and politics of western, non-western, and third world countries in their historical, cultural, and economic settings; problems of comparison across cultural and national boundaries. Relevant courses include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 2710</td>
<td>Introduction to Comparative Politics</td>
<td>4</td>
</tr>

Pre-Law Curriculum
Political science provides a useful major for students who anticipate applying to law school. For students choosing the Bachelor of Arts program, a Public Law/Legal Studies concentration drawing upon courses such as those listed below is recommended along with courses in American Government and public policy (numbered with second digits of 0 and 4, respectively). Specific programs of study under either degree option should be developed in consultation with the department's academic advisor.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

Political Science Honors Programs
Bachelor of Arts and Bachelor of Public Affairs majors with strong academic records are encouraged to pursue departmental honors. To be eligible to enter the honors program, a major must have a cumulative grade point average of 3.3. To graduate with honors, students must:

1. Maintain a 3.3 grade point average.
2. Under the direction of one or more members of the department, complete a senior honors paper (PS 4995).
3. Complete all requirements for the Bachelor of Arts or Bachelor of Public Affairs degree.
4. Complete one 4200-level Honors seminar offered through the Honors College, see Honors Courses (HON).
5. Accumulate an additional eight credits in honors-designated course work beyond PS 4995, and the Honors Program seminar. These honors credits can be obtained from any department,
including Political Science. For information about honors-designated coursework available each semester.

Students interested in participating in the program should contact the department's undergraduate advisor to determine their eligibility.

**‘AGRADE’ Program (Accelerated Graduate Enrollment)**

Accelerated Graduate Enrollment: Bachelor of Arts and Bachelor of Public Affairs majors with superior academic records (top twentieth percentile overall, with at least a 3.6 g.p.a. in the major) are eligible in their senior year (a minimum of 90 credits earned) to participate in accelerated graduate enrollment (‘AGRADE’) programs leading to either a Master of Arts degree with a major in political science or a Master of Public Administration degree. The ‘AGRADE’ programs enable students to pursue graduate and undergraduate degrees simultaneously and to apply twelve to fifteen credits of approved course work to both degrees. To participate, students must apply and be accepted into the ‘AGRADE’ program by the Departmental Graduate Committee and secure the approval of the Graduate Officer of the College of Liberal Arts and Sciences in accordance with rules and procedures established by the College. Students should contact the Department’s undergraduate advisor for further details.

**Internships**

Internships in government, political campaigns, political advocacy groups, civic organizations, or public agencies provide valuable work-educational experience that enables students to relate knowledge acquired in the classroom to the world-at-large. They also provide practical training that enhances future job prospects. Academic credit may be earned for an internship through enrollment in PS 2992, Political Science Internship, a course that helps to assure the educational relevance of the internship by requiring interns to prepare papers and reports based on their experiences. Interested students should consult the department’s undergraduate advisor.

**Study Abroad Exchange Program with the University of Salford**

Students may study for one or two semesters at the University of Salford in Salford, England, and earn Wayne State credits through an exchange agreement between the two universities. Applications may be obtained from the Office of Study Abroad and Global Programs (http://www.studyabroad.wayne.edu). Interested majors or prospective majors should also consult with the Department’s undergraduate advisor.

**Public Affairs (B.P.A.)**

The Bachelor of Public Affairs (B.P.A.) prepares qualified students for professional and technical careers in the public service or for advanced study in public affairs and administration, the social sciences and related disciplines. The program is a structured professional curriculum that builds on the foundation of a general liberal arts education. The curriculum incorporates fundamentals of social science theory and applications of that theory to public management and policy analysis. The B.P.A. provides students with skills needed for working in city, county, state and national government, in other public and non-profit agencies, and in positions in private enterprise that deal with governmental relations. Internships afford students an opportunity to apply what they have learned in public service settings. Students interested in this program should consult the political science undergraduate advisor as early as possible in their college careers.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University. To declare the B.P.A. as a major, a student must follow the procedures set forth by the College of Liberal Arts and Sciences for declaring a major.

Candidates for the B.P.A. degree must:

1. Complete a total of 120 credits in course work.
2. Satisfy all of the Liberal Arts Group Requirements (p. 220), excepting that the College’s foreign language requirement need not be satisfied.
3. Satisfy the University General Education Requirements (p. 31).
4. Satisfy the major requirements listed below.

All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. Students wishing to apply transfer credits toward the B.P.A. major should consult the political science undergraduate advisor regarding departmental policies and restrictions on the use of these credits.

**Major Requirements**

A Bachelor of Public Affairs major must complete a minimum of ten courses, including seven prescribed core courses and three courses within the B.P.A. elective curriculum (see concentration areas below).

A Writing Intensive course in political science with a co-registration in PS 5993 is also required. Any political science elective or concentration course at the 3000-level or higher, except PS 5630 and PS 6640, may be used to fulfill this requirement. Students must demonstrate proficiency in writing on public affairs subject matter in a form and style consistent with B.P.A. standards. Selection of a corequisite to PS 5993 must have approval from the instructor and students must follow the instructor’s guidelines to demonstrate required proficiency. Upon certification by the instructor that the writing requirement has been fulfilled, a grade of Satisfactory (‘S’) will be awarded for PS 5993, a ‘zero’ credit course.

**Core Curriculum**

Candidates for the B.P.A. degree must satisfy the following core course requirements:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 2010</td>
<td>Principles of Microeconomics</td>
<td>3-4</td>
</tr>
<tr>
<td>ECO 2020</td>
<td>Principles of Macroeconomics</td>
<td>3-4</td>
</tr>
<tr>
<td>PS 1010</td>
<td>American Government</td>
<td>3-4</td>
</tr>
<tr>
<td>or PS 1030</td>
<td>The American Governmental System</td>
<td></td>
</tr>
<tr>
<td>PS 2410</td>

<tr>
<td>Total Credits</td>
<td></td>
<td>25-28</td>
</tr>
</tbody>
</table>

1. Taken in conjunction with either a 3000-level or higher concentration course or with PS 4460.

**Required Concentrations**

In addition to completion of required core work, students must select a minimum of three additional courses within the B.P.A. elective curriculum, which is comprised of the totality of the courses set forth below. Ideally,
these courses should fall within a coherent area of concentration, such as those areas suggested below.

### Governance: National, State, and Local
Select at least three of the following:

- PS 2240 Introduction to Urban Politics and Policy
- PS 2310 Introduction to Public Administration
- PS 3040 The Legislative Process
- PS 3050 Politics of the American Presidency
- PS 3060 State Government and Politics
- PS 3070 Michigan Politics
- PS 3100 American Legal Systems and Processes
- PS 4710 Democracy
- PS 5110 Constitutional Law
- PS 6020 Intergovernmental Relations and American Federalism

### Govermental Relations, Lobbying, and Electoral Politics
Select at least three of the following:

- PS 3010 Public Opinion and Political Behavior
- PS 3020 Political Parties and Elections
- PS 3025 Political Campaigns in America
- PS 3030 Political Interest Groups
- PS 3040 The Legislative Process
- PS 3050 Politics of the American Presidency
- PS 3060 State Government and Politics
- PS 3070 Michigan Politics
- PS 3080 Gender and Politics
- PS 3090 African American Politics
- PS 3091 Religion and Politics
- PS 3095 Mass Media and Politics
- PS 6101 Political Psychology
- PS 6050 Class, Race, and Politics in America
- PS 6070 Labor and American Politics

### Public Management
Select at least three of the following:

- PS 2310 Introduction to Public Administration
- PS 3430 Bureaucracy and Public Policy
- PS 5830 International Conflict and Management
- PS 5890 Dispute Resolution
- PS 6020 Intergovernmental Relations and American Federalism
- PS 6120 Administrative Law and Regulatory Politics
- PS 6700 Financial Management for Nonprofit Organizations

### Public Policy and Analysis
Select at least three of the following:

- PS 2310 Introduction to Public Administration
- PS 3060 State Government and Politics
- PS 3070 Michigan Politics
- PS 3430 Bureaucracy and Public Policy
- PS 3450 Environmental Policy and Politics
- PS 3840 American Foreign Policy and Administration
- PS 4810 Foreign Policies of Major Powers
- PS 6020 Intergovernmental Relations and American Federalism
- PS 6455 Discrimination and Fair Housing
- PS 6640 Statistics and Data Analysis in Political Science II

### Urban Policy and Management
Select at least three of the following:

- PS 2000 Introduction to Urban Studies
- or PS 2240 Introduction to Urban Politics and Policy
- PS 2310 Introduction to Public Administration
- PS 3060 State Government and Politics
- PS 3070 Michigan Politics
- PS 3250 Detroit Politics: Continuity and Change in City and Suburbs
- PS 3430 Bureaucracy and Public Policy
- PS 5030 African American Politics
- PS 6020 Intergovernmental Relations and American Federalism
- PS 6455 Discrimination and Fair Housing
- PS 6710 Introduction to Nonprofit Organizations

### Other Concentrations
With the assistance of the undergraduate advisor, an area of concentration may be specifically designed consisting of political science courses related to a student’s particular career objectives. Such a concentration must consist of a minimum of three separate courses. Any proposal for substitutions of other political science courses for those within the above-designated B.P.A. elective curriculum must be submitted in writing to, and be approved by, the undergraduate advisor of the Department.

### Political Science Honors Programs
Bachelor of Arts and Bachelor of Public Affairs majors with strong academic records are encouraged to pursue departmental honors. To be eligible to enter the honors program, a major must have a cumulative grade point average of 3.3. To graduate with honors, students must:

1. Maintain a 3.3 grade point average.
2. Under the direction of one or more members of the department, complete a senior honors paper (PS 4995).
3. Complete all requirements for the Bachelor of Arts or Bachelor of Public Affairs degree.
4. Complete one 4200-level Honors seminar offered through the Honors College, see Honors Courses (HON).
5. Accumulate an additional eight credits in honors-designated course work beyond PS 4995, and the Honors Program seminar. These honors credits can be obtained from any department, including Political Science. For information about honors-designated coursework available each semester.

Students interested in participating in the program should contact the department’s undergraduate advisor to determine their eligibility.

### ‘AGRADE’ Program (Accelerated Graduate Enrollment)

**Accelerated Graduate Enrollment:** Bachelor of Arts and Bachelor of Public Affairs majors with superior academic records (top twentieth percentile overall, with at least a 3.6 g.p.a. in the major) are eligible in their senior year (a minimum of 90 credit hours earned) to participate in accelerated graduate enrollment (‘AGRADE’) programs leading to either a Master of Arts degree with a major in political science or a Master of Public Administration degree. The ‘AGRADE’ programs enable students to pursue graduate and undergraduate degrees simultaneously and to apply twelve to fifteen credits of approved course work to both degrees. To participate, students must apply and be accepted into the ‘AGRADE’ program by the Departmental Graduate Committee and secure
Students planning to enter a Ph.D. program in psychology after graduation should have a solid background in the core areas of the field. These areas include learning, perception, abnormal, social, developmental, physiological, and cognitive psychology. In addition, all graduate programs require a background in statistics, experimental design and research experience.

- Psychology (B.A.) (p. 290)
- Psychology (B.S.) (p. 291)
- Psychology Minor (p. 293)
- Health Psychology Minor (p. 290)

**Health Psychology Minor**

For this minor, a student must complete a minimum of eighteen credits in psychology. Courses must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 2400</td>
<td>Developmental Psychology</td>
<td>4</td>
</tr>
<tr>
<td>PSY 2410</td>
<td>Health Psychology</td>
<td>4</td>
</tr>
<tr>
<td>PSY 3310</td>
<td>Abnormal Psychology</td>
<td>4</td>
</tr>
<tr>
<td>PSY 3120</td>
<td>Brain and Behavior</td>
<td>3</td>
</tr>
<tr>
<td>or PSY 5050</td>
<td>Physiological Psychology</td>
<td></td>
</tr>
<tr>
<td>Select one of the following electives:</td>
<td>2-4</td>
<td></td>
</tr>
<tr>
<td>PSY 2080</td>
<td>Introduction to Drugs, Behavior, and Society</td>
<td></td>
</tr>
<tr>
<td>PSY 3380</td>
<td>Human Sexuality</td>
<td></td>
</tr>
<tr>
<td>PSY 4990</td>
<td>Directed Study and Research</td>
<td></td>
</tr>
<tr>
<td>PSY 4993</td>
<td>Field Study</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 17-19

1 Requires prior approval from health psychology faculty.

**Non-majors** are encouraged to consult with departmental advisors regarding optimum course selections for various purposes.

**Psychology (B.A.)**

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation. Psychology-related employment for graduates with a bachelor’s degree has increased in recent years. Such employment, of course, has depended on the personal characteristics of the individual, on the special qualifications and training of the individual, and particularly on job opportunity.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.
Declarations of Major

To declare a major in psychology, students must earn a minimum of a grade of C in the Introductory Psychology Requirement (either)

1. PSY 1010, Introductory Psychology, or
2. PSY 1020, Elements of Psychology PLUS PSY 1030, Introductory Psychology Laboratory.

For psychology majors, a minimum grade of C in the Introductory Psychology Requirement is a prerequisite for all other PSY courses. Students must have at least a 2.0 overall grade point average in their psychology coursework to graduate. PSY 1010 is recommended over PSY 1020 for students who intend to major in psychology.

Major Requirements

To graduate with a major in psychology, a student must complete satisfactorily at least thirty-four credits in PSY courses BEYOND the Introductory Psychology Requirement to graduate. Students must have at least a 2.0 overall grade point average in their psychology coursework to graduate. PSY 1010 is recommended over PSY 1020 for students who intend to major in psychology.

Degree requirements include:

**Introductory Requirement**

Select one of the following:  

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 1010</td>
<td>Introductory Psychology (preferred option)</td>
</tr>
<tr>
<td>PSY 1020 &amp; PSY 1030</td>
<td>Elements of Psychology and Introductory Psychology Laboratory (or earned by AP PSY credit)</td>
</tr>
</tbody>
</table>

**Mathematics**

Complete one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 0993</td>
<td>Beginning Algebra (or higher)</td>
</tr>
<tr>
<td>STA 1020</td>
<td>Elementary Statistics</td>
</tr>
<tr>
<td>BA 2300</td>
<td>Quantitative Methods I: Probability and Statistical Inference</td>
</tr>
</tbody>
</table>

A minimum math ACT score of 21

Placement into or above MAT 1050 through the WSU Math Placement Exam

Transfer any 1000-level or higher math/statistics course from another institution with a grade of C or better

**Research Methods in Psychology**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 3040</td>
<td>Psychology of Perception: Fundamental Processes</td>
</tr>
<tr>
<td>PSY 3060</td>
<td>Psychology of Learning and Memory: Fundamental Processes</td>
</tr>
<tr>
<td>PSY 3080</td>
<td>Cognitive Psychology: Fundamental Processes</td>
</tr>
</tbody>
</table>

**Additional Core Courses**

Select two of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 2100</td>
<td>Psychology and the Workplace</td>
</tr>
<tr>
<td>PSY 2400</td>
<td>Developmental Psychology</td>
</tr>
<tr>
<td>PSY 2600</td>
<td>Psychology of Social Behavior</td>
</tr>
<tr>
<td>PSY 3120</td>
<td>Brain and Behavior</td>
</tr>
<tr>
<td>PSY 3310</td>
<td>Abnormal Psychology</td>
</tr>
<tr>
<td>PSY 5020</td>
<td>Honors Research in Psychology</td>
</tr>
</tbody>
</table>

**Elective Courses**

As needed to satisfy the minimum credit requirement (thirty-four PSY9-11 credits BEYOND the Introductory Psychology Requirement). Students usually need three to five elective PSY courses.

1. Must earn a grade of C or better.
2. PSY 3020 is a mandatory prerequisite for other courses, such as PSY 3010, PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 3020 within one year after completion of the Introductory Psychology requirement.
3. PSY 3010 is a mandatory prerequisite for other courses, such as PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 3010 within one year after completion of the Introductory Psychology requirement.
4. PSY 3993 is the experimental lab course which must be taken concurrently with one of the following lecture courses or AFTER the lecture course. (Please note that an Intermediate Composition (IC) course must be completed prior to PSY 3993 which must be completed with a grade of C or better.)

No more than forty-six credits in psychology can be counted toward the total required for a degree. Transfer students must complete at least twenty credits in the Psychology Department at Wayne State University.

**Preparation for Psychology Graduate Work**

While individual graduate programs in psychology have different requirements for admission, students who intend to do graduate work are advised to earn the B.A. or B.S. degree and select courses that are consistent with their intended area of study. Students are also encouraged to obtain research experience. A psychology advisor will help tailor a plan-of-work that is based on academic and career goals. Additional courses in mathematics, computer science, biology, and sociology are strongly recommended for students pursuing graduate work in psychology and for students who plan to apply for professional programs.

**Psychology Honors Program**

Students with an overall grade point average of 3.3 and a Psychology grade point average of 3.5 are eligible for admission to the Department’s Honors Program. Satisfactory completion of the Honors Program will lead to a degree ‘With Psychology Honors’ on the diploma. Students interested in the program should obtain detailed information from the Psychology Department Undergraduate Advising Office.

**Honor Sections** provide smaller classes, somewhat more advanced readings, and opportunities for independent work by students. Students must complete a minimum of eighteen credits in honors coursework, including: PSY 5020 (Honors Research in Psychology), PSY 4991 (three-credit Honors Directed Study), PSY 4998 (Senior Thesis), and one additional PSY course designated as honors through an honors section or honors option contract. Students must also complete an Honors Seminar from the HON 42xx series.

**Psychology (B.S.)**

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue
graduate study in psychology, the undergraduate program establishes a sound foundation. Psychology-related employment for graduates with a bachelor's degree has increased in recent years. Such employment, of course, has depended on the personal characteristics of the individual, on the special qualifications and training of the individual, and particularly on job opportunity.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Declaring a Major**

To major in psychology, students must earn a minimum of a grade of C in the Introductory Psychology Requirement (either)

1. PSY 1010, Introductory Psychology, or
2. PSY 1020, Elements of Psychology PLUS PSY 1030, Introductory Psychology Laboratory.

For psychology majors, a minimum grade of C in the Introductory Psychology Requirement is a prerequisite for all other PSY courses. Students must have at least a 2.0 overall grade point average in their psychology coursework to graduate. PSY 1010 is recommended over PSY 1020 for students who intend to major in psychology.

**Major Requirements**

To graduate with a major in psychology, a student must complete satisfactorily at least thirty-four credits in PSY courses BEYOND the Specialty Requirement. Students usually need three to five elective PSY courses.

Additionally, students must complete the following: 27

- **Introductory Requirement**
  - Select one of the following: 1
    - PSY 1010, Introductory Psychology (preferred option)
    - PSY 1020, Elements of Psychology PLUS PSY 1030, Introductory Psychology Laboratory
  - PSY 3993, Laboratory in Experimental Psychology 4

- **Mathematics**
  - Complete one of the following:
    - MAT 0993, Beginning Algebra (or higher)
    - STA 1020, Elementary Statistics
    - BA 2300, Quantitative Methods I: Probability and Statistical Inference
  - A minimum math ACT score of 21
  - Placement into or above MAT 1050 through WSU Math Placement Exam
  - Transfer any 1000-level or higher math/statistics course from another institution with C or better

- **Research Methods in Psychology**
  - PSY 3020, Research Methods in Psychology 2
  - PSY 3030, Statistical Methods in Psychology 3

- **Experimental Lecture/Laboratory**
  - PSY 3993, Laboratory in Experimental Psychology 4

**Preparation for Psychology Graduate Work**

While individual graduate programs in psychology have different requirements for admission, students who intend to do graduate work are advised to earn the B.A. or B.S. degree and select courses that are consistent with their intended area of study. Students are also encouraged to obtain research experience. A psychology advisor will help tailor a plan-of-work that is based on academic and career goals. Additional courses in mathematics, computer science, biology, and sociology are strongly recommended for students pursuing graduate work in psychology and for students who plan to apply for professional programs.

**Psychology Honors Program**

Students with an overall grade point average of 3.3 and a Psychology grade point average of 3.5 are eligible for admission to the Department's Honors Program. Satisfactory completion of the Honors Program will lead to a degree ‘With Psychology Honors’ on the diploma. Students
interested in the program should obtain detailed information from the Psychology Department Undergraduate Advising Office.

**Honors Sections** provide smaller classes, somewhat more advanced readings, and opportunities for independent work by students. Students must complete a minimum of eighteen credits in honors coursework, including: PSY 5020 (Honors Research in Psychology), PSY 4991 (three-credit Honors Directed Study), PSY 4998 (Senior Thesis), and one additional PSY course designated as honors through an honors section or honors option contract. Students must also complete an Honors Seminar from the HON 42xx series.

**Psychology Minor**

All students considering psychology as a minor field of concentration may obtain an information sheet from the psychology undergraduate office.

**Minor Requirements:** For a minor in psychology, a student must complete a minimum of eighteen credits in psychology, one course of which must be Introductory Psychology (PSY 1010 or PSY 1020). At least three of the courses must be taken at Wayne State. PSY 4993 or PSY 4994 (offered for S and U grades only) may not be counted in the eighteen required credits.

**Public Health**

**Program Director:** Kimberly Campbell-Voytal  
**Undergraduate Academic Advisor:** Ranae Hamama  
http://clas.wayne.edu/public-health

The College of Liberal Arts and Sciences and the School of Medicine offers training in public health issues and policies to students interested in a broad range of health careers. Students will learn to ask questions, challenge assumptions, and explore answers to promote the health and well-being of communities locally, nationally and globally. In particular, students will learn about:

- How to protect and improve community and population health through the promotion of healthy lifestyles
- Research for disease and injury prevention
- Research on health disparities and healthcare equity
- Public health practice
- Community and organizational dynamics
- Cultural contexts within which public health professionals work
- Ethical decision-making as related to community health
- Epidemiology
- Biostatistics
- Research methods

Students wishing to pursue the major or minor in Public Health should meet with the Program Director or Undergraduate Academic Advisor in Public Health.

- Public Health (B.S.) (p. 293)
- Public Health Minor (p. 294)

**Public Health (B.S.)**

The College of Liberal Arts and Sciences and the School of Medicine offers training in public health issues and policies to students interested in a broad range of health careers. Students will learn to ask questions, challenge assumptions, and explore answers to promote the health and well-being of communities locally, nationally and globally.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

**Major Requirements**

Students must complete 35-38 credits distributed as follows:

**Core**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PH 2100</td>

</tr>
</tbody>
</table>

1 Consult an advisor or the University Schedule of Classes (http://classschedule.wayne.edu) for available Honors Sections.

2 A list of seminars is available in the list of Honors (HON) (p. 570) courses.

Public Health Minor

Minor Requirements consist of 20-22 credits distributed as follows:

- **Core**
  - PH 2100 Introduction to Public Health 3
  - PH 3100 Social and Behavioral Aspects of Public Health 3
  - PH 3200 Introduction to Biostatistics 4
  - PH 3300 Epidemiology 4

- **Electives**
  - Select two courses from the list for the Bachelor of Science program 6-8

Total Credits 20-22

Students in the Public Health minor must complete required courses with a C grade or better.

Students must complete elective courses for the minor with a C- grade or better.

Religious Studies

Office: Room 12201, 5057 Woodward
Director: John Corvino; 313-577-2475
Email: j.corvino@wayne.edu

Religious Studies aims at an academic investigation of the world's religions, of religious history, and of the place of religion in world cultures and societies from the ancient to the present. It draws on faculty resources from a wide range of traditional academic disciplines: anthropology, history, philosophy, classics, Near Eastern studies, Asian studies, literature, art history, political science, and sociology. Religious Studies respects the beliefs and backgrounds of the students who pursue courses in this area, but it also approaches its objects of study in a thoroughly scholarly manner, maintaining both intellectual openness and critical rigor.

The Wayne State Religious Studies Program, housed in the College of Liberal Arts and Sciences, at present offers an undergraduate Religious Studies Minor and serves as an intercollegiate, interdepartmental, and interdisciplinary faculty body to sponsor visiting lectures and academic conferences on religious studies. Its Director works with a Faculty Steering Committee and group of faculty affiliated with the Program to develop curricular offerings and plan other Program activities.

This minor is designed for undergraduates majoring in other areas or disciplines and requires a minimum of eighteen credits including the following:

One course in Comparative Religion:
- NE 1900 Comparative Religion 3

A course in one of the following topics: 3

- Philosophy of Religion
- Anthropology of Religion
- Sociology of Religion

The Wayne State Religious Studies Program, housed in the College of Liberal Arts and Sciences, at present offers an undergraduate Religious Studies Minor and serves as an intercollegiate, interdepartmental, and interdisciplinary faculty body to sponsor visiting lectures and academic conferences on religious studies. Its Director works with a Faculty Steering Committee and group of faculty affiliated with the Program to develop curricular offerings and plan other Program activities.

1 Consult an advisor or the University Schedule of Classes (http://classschedule.wayne.edu) for available Honors Sections.
Suggested examples.

At least four additional religious-studies courses (12 credits minimum), either from the posted list or approved by consent of the Director of Religious Studies. Among these must be courses on at least two different religious traditions, including at least one of the following:

- Judaism
- Christianity
- Islam
- Buddhism
- Hinduism

Sociology

Office: 2228 Faculty/Administration Building; 313-577-2930
Chairperson: Jeffrey Kentor
http://www.clas.wayne.edu/Sociology/

The courses in sociology are designed for various groups of students:

1. those desiring scientific knowledge of social relationships as a part of their general education;
2. those planning to enter a public service profession such as social and urban planning, public administration, nursing, medicine, dentistry, or law;
3. those expecting to engage in work that will require a broad grasp of the nature of society, of public opinion, and of social change such as public affairs, journalism, public relations, communications, marketing, etc.;
4. those anticipating a career in social and statistical research or evaluation and planning;
5. those looking forward to the teaching of social studies and sociology;
6. those preparing for a career in international studies or for service in foreign affairs;
7. those majoring in sociology as a preparation for graduate professional training in social work, public health, or urban planning;
8. those planning to pursue graduate studies in sociology.

A good background in Sociology can be a valuable component of preparation for a variety of careers, professions, and occupations. The following information summarizes some of these opportunities. Faculty advisors in Sociology can provide additional information on these and other areas as well.

Human Services Work

Students whose occupational aspirations include working with families, or with men and women in various types of human services or therapeutic settings (Social Work, Nursing, Education, Psychology, Law, Medicine) might consider electing one or more of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 2600</td>
<td>Race and Racism in America</td>
<td>3</td>
</tr>
<tr>
<td>SOC 3400</td>
<td>Exploring Marriage and Other Intimate</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Relationships</td>
<td></td>
</tr>
<tr>
<td>SOC 4460</td>
<td>Women in Society</td>
<td>3</td>
</tr>
<tr>
<td>SOC 5400</td>
<td>The Family</td>
<td>3</td>
</tr>
<tr>
<td>SOC 5410</td>
<td>Marriage and Family Problems</td>
<td>3</td>
</tr>
<tr>
<td>SOC 5700</td>
<td>Seminar in Social Inequality</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5870</td>
<td>Violence in the Family</td>
<td>3</td>
</tr>
</tbody>
</table>

Business

Students who are preparing for a career in business might consider taking:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 2000</td>
<td>Understanding Human Society</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2020</td>
<td>Social Problems</td>
<td>3</td>
</tr>
<tr>
<td>SOC 3300</td>
<td>Social Inequality</td>
<td>4</td>
</tr>
<tr>
<td>SOC 4100</td>
<td>Social Psychology</td>
<td>4</td>
</tr>
<tr>
<td>SOC 4200</td>
<td>Methods of Social Research</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5700</td>
<td>Seminar in Social Inequality</td>
<td>4</td>
</tr>
</tbody>
</table>

Inter-Group Relations

Any student whose future occupation will entail working with peoples of diverse ethnic and racial groups might consider taking the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 2600</td>
<td>Race and Racism in America</td>
<td>3</td>
</tr>
<tr>
<td>SOC 3300</td>
<td>Social Inequality</td>
<td>4</td>
</tr>
<tr>
<td>SOC 4360</td>
<td>Women and Health</td>
<td>4</td>
</tr>
<tr>
<td>SOC 4460</td>
<td>Women in Society</td>
<td>3</td>
</tr>
<tr>
<td>SOC 4800</td>
<td>Outsiders and Deviants</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5570</td>
<td>Race Relations in Urban Society</td>
<td>3</td>
</tr>
<tr>
<td>SOC 5580</td>
<td>Law and the African American Experience</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5700</td>
<td>Seminar in Social Inequality</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5760</td>
<td>Society and Aging</td>
<td>3</td>
</tr>
</tbody>
</table>

Crime and Criminal Justice

Students whose career goals are in the areas of criminal justice, police work, corrections, probation, law, or related fields might be advised to select their elective courses from among the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 2020</td>
<td>Social Problems</td>
<td>3</td>
</tr>
<tr>
<td>SOC 3840</td>
<td>Corrections</td>
<td>4</td>
</tr>
<tr>
<td>SOC 4100</td>
<td>Social Psychology</td>
<td>4</td>
</tr>
<tr>
<td>SOC 4800</td>
<td>Outsiders and Deviants</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5410</td>
<td>Marriage and Family Problems</td>
<td>3</td>
</tr>
<tr>
<td>SOC 5580</td>
<td>Law and the African American Experience</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5810</td>
<td>Law in Human Society</td>
<td>3</td>
</tr>
<tr>
<td>SOC 5870</td>
<td>Violence in the Family</td>
<td>3</td>
</tr>
</tbody>
</table>

Work with Health-Care Agencies or the Aged

Students who plan to work with the aged or in health care fields (social gerontology, public health, biomedicine, nursing) might consider taking one of more of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 3440</td>
<td>American Medicine in the Twentieth Century</td>
<td>3</td>

<td>Social Psychology</td>
<td>4</td>
</tr>
<tr>
<td>SOC 4360</td>
<td>Women and Health</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5360</td>
<td>Introduction to Medical Sociology</td>
<td>4</td>
</tr>
<tr>
<td>SOC 5760</td>
<td>Society and Aging</td>
<td>3</td>
</tr>
<tr>
<td>SOC 6750</td>
<td>Sociology of Urban Health</td>
<td>4</td>
</tr>
</tbody>
</table>

- Sociology (B.A.) (p. 295)
- Sociology Minor (p. 296)

Sociology (B.A.)

Sociology is a social science discipline that enables us to understand how society is organized, how society is ever changing, and how groups experience the social world. It is a discipline that can also let us start...
to understand group attitudes and behaviors as well as individual lives. It examines the ways in which social categories (such as class, race, sex, age, nationality, or sexuality), and various social institutions (such as kinship, economic, political, or religious) affect human attitudes, actions, and opportunities. It also lets us begin to understand more broadly how our society is organized. One of the most important things that sociology does is to link individuals’ private troubles to large public societal problems; this is called the “sociological imagination.” For instance, if person in Detroit is laid off from his or her job, what are the larger societal trends that might be the reason for that layoff? Or, think about all of the people without health insurance around you — what are the real reasons for this lack of insurance and how can we understand this disparity?

In the Department of Sociology at Wayne State, we specialize in the study of health and illness, race and gender inequality, labor studies, and urban studies. Faculty members study a variety of things themselves, for instance, gender and race inequalities in paid work, policy changes in workplaces, fetal alcohol syndrome, elder abuse, menopause and midlife, religion and racial politics in Detroit, the Detroit gardening movement, motherhood, why different racial groups stay in Detroit, public health, and race disparities in education. We also have faculty studying paid work patterns, work-family policy, social movements, and the effects of natural disasters in countries such as Mexico, China, Germany and Japan. A good background in Sociology can be a valuable component of preparation for a variety of careers, professions, and occupations.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees. It is expected that Group Requirements will be fulfilled during the freshman and sophomore years. Language Group Requirements should normally be fulfilled before election of the major.

Major Requirements
Effective September 1, 2010, students majoring in sociology are required to elect a minimum of thirty-four credits in the field of sociology, including six required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 2000</td>
<td>Understanding Human Society</td>
<td>3</td>
</tr>
<tr>
<td>SOC 3300</td>
<td>Social Inequality</td>
<td>4</td>

<tr>
<td>SOC 4996</td>
<td>Sociology: Capstone Course</td>
<td>4</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>23</strong></td>
</tr>
</tbody>
</table>

For SOC 4996, students are required to complete the first five required sociology courses (SOC 2000, SOC 3300, SOC 4050, SOC 4200, and SOC 4220) with a grade of C or better prior to enrollment. SOC 4996 also must also be completed with a grade of C or better. In addition to required courses, all sociology majors are required to take at least eleven credits in sociology elective courses. All elective credits in sociology must be completed with a C-Minus grade or better. Students may not elect more than forty-five credits in course work within the Department.

1 Students are urged to take SOC 4050, 4200, and 4220 in particular, in the junior year. It is recommended that students take SOC 4050, 4200, and 4220 in separate semesters since all three of these required courses are quite demanding.

Sociology Honors Program

The honors designation is available to sociology students who fulfill all requirements for the major and who maintain a cumulative grade point average of at least 3.3 and at least 3.3 in sociology courses. Honors students must demonstrate the ability to do original work by writing an Honors Thesis during their senior year. The Sociology Honors Program is at least fourteen credits and leads to a degree designation ‘With Honors in Sociology.’

Requirements for the Honors Degree are:

1. satisfaction of all requirements for a major in sociology;
2. completion of Honors section of SOC 4220 with grade of C or better;
3. completion of Honors Section SOC 4996 with a grade of C or better;
4. At least one additional sociology course with the Honors designation (3 credits min.)
5. an approved Honors Thesis; and
6. at least one 4200-level seminar (HON 4200-HON 4280) offered through the Honors Program of the College of Liberal Arts and Sciences.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

The Department of Sociology permits academically superior majors to petition for admission into the College’s ‘AGRADE’ Program. ‘AGRADE’ procedures enable qualified seniors in the Department to enroll simultaneously in the undergraduate and graduate programs of the College and apply a maximum of fifteen credits towards both a bachelor’s degree and a master’s degree in the major field. Students who have a 3.6 GPA and who have completed 90 credits of their Bachelors degree can apply for AGRADE.

For more details about the ‘AGRADE’ Program, contact the Undergraduate advisor in Sociology (313-577-2930), or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2690).

Sociology Minor
The field of urban studies explores contemporary cities and urban trends and addressed some of today's most pressing problems. Globally, complex systems of urban settlement house the overwhelming majority of the population and dominate their residents' social, economic, cultural, and intellectual lives. In the U.S., in particular, exploring the development and transformation of metropolitan regions is essential to understanding some of the most significant dynamics affecting the nation. Especially pertinent are the powerful forces of suburbanization, political fragmentation, and residential segregation along lines of race and class that reshaped our society in the latter half of the 20th century. These forces structure the resources, activities, and opportunities that unite and divide Americans. Wayne State's Detroit location offers a powerful vantage point from which students may gain valuable insight these complex dynamics.

Urban Studies and Planning

Office: 3198 Faculty Administration Building; 313-577-2701; Fax: 313-577-0022
Chairperson: Kameshwari (Kami) Pothukuchi
http://www.CLAS.wayne.edu/DUSP/

The profession of urban planning takes major responsibility for the development of comprehensive plans and programs for local communities as well as larger regional units. These plans visualize future conditions of social, economic, physical and environmental change, and provide an estimate of the community's long-range needs for various facilities and services. Professional urban planners perform a variety of tasks such as developing plans for housing, transportation, rehabilitation of blighted metropolitan areas, and improving the appearance and efficiency of communities. The program seeks to prepare individuals for working with local and state public agencies, nonprofit organizations and for consultants and others in the private sector.

• Urban Studies (B.A.) (p. 297)
• Urban Studies Minor (p. 298)

Urban Studies (B.A.)

The field of urban studies explores contemporary cities and urban trends and addressed some of today's most pressing problems. Globally, complex systems of urban settlement house the overwhelming majority of the population and dominate their residents' social, economic, cultural, and intellectual lives. In the U.S., in particular, exploring the development and transformation of metropolitan regions is essential to understanding some of the most significant dynamics affecting the nation. Especially pertinent are the powerful forces of suburbanization, political fragmentation, and residential segregation along lines of race and class that reshaped our society in the latter half of the 20th century. These forces structure the resources, activities, and opportunities that unite and divide Americans. Wayne State's Detroit location offers a powerful vantage point from which students may gain valuable insight these complex dynamics.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 19) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 31) and the College of Liberal Arts and Sciences Group Requirements (p. 220), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 10) and the College (p. 219) governing undergraduate scholarship and degrees.

Major Requirements

(Effective for Urban Studies majors declared in the Fall 2016 semester and after): A major in urban studies requires completion of twenty-six credits in seven core courses, one four-credit research methods course, and eight credits of additional urban-related electives, as outlined in the following curriculum.

Core Courses

<table>

Research Methods Courses

Select one of the following: 4

- CRJ 3550 Research Methods in Criminal Justice
- GPH 6420 Quantitative Techniques I
- PS 3600 Methods of Political Inquiry
- SOC 4200 Methods of Social Research
- US 4420 Methods for Urban Studies
- US 4420 Methods for Urban Studies

Elective Courses in Urban Studies

Select 8 credits of the following: 8

- AFS 3160 Black Urban History
- AFS 3180 Black Social Movements
- ANT 3020 Introduction to Archaeology
- ANT 3020 Introduction to Archaeology
- ANT 3200 Lost Cities and Ancient Civilizations
- ANT 5060 Urban Anthropology
- ANT 5280 Field Work in Archaeology of the Americas
- ANT 5500 Historical Archaeology
- CRJ 3120 Politics of the Criminal Justice Process
- CRJ 3750 Diversity in Criminal Justice
- CRJ 5995 Special Topics in Criminal Justice
- ECO 5600 Introduction to Development Economics
- ELR 2500 Introduction to Labor Studies
- GPH 4600 Advanced Geographic Information Systems
- HIS 2050 United States Since 1877
- HIS 5665 Global Cities
- HIS 5670 Modern American Cities
- PS 3250/ HIS 3240 Detroit Politics: Continuity and Change in City and Suburbs
Urban Studies Honors Program

Students with a grade point average of 3.3 or higher may be admitted to the Honors Program in Urban Studies. The honors major must elect one semester of a 4000-level Honors College seminar and accumulate at least fifteen credits in honors-designated course work. Honors courses from any Department in the College, including this one, all contribute to the fifteen-credit requirement. The honors major student is permitted to follow a course of study somewhat independent of standard requirements, through the election of Honors Directed Study.

Urban Studies Minor

The requirements for a minor concentration in Urban Studies include at least three courses from the core requirements for the Urban Studies Major (p. 297), which must include US 2000 - Introduction to Urban Studies. Other than US 2000, none of these core requirement courses can be listed or cross-listed as part of a student’s declared major program.

The remainder of a student’s 20 credits must be completed by selecting courses from the list of Urban Studies Electives, or from additional courses not included in the list but approved by the student’s faculty advisor within the Department of Urban Studies and Planning.
SCHOOL OF LIBRARY AND INFORMATION SCIENCE

Dean: Jon Cawthorne

The School of Library and Information Science prepares information professionals to assume leadership roles in libraries and other information organizations. By emphasizing the practical application of knowledge and skills, students are trained in the core principles of information management - information access, organization, services, and management - as well as emerging competencies such as digitization, competitive intelligence, information architecture, and web site development. SLIS faculty research issues that improve library and information services as an essential component to cultural enrichment, knowledge dissemination, economic development, and the overall quality of life.

Qualified information professionals work in varied settings all over the globe. The majority of SLIS graduates currently work in libraries, but a variety of diverse career opportunities exist across the public, private, and nonprofit sectors. As organizations continue to view their information as a critical resource and place greater importance on its cultivation, SLIS graduates can be found enjoying engaging and exciting careers throughout business, law, health sciences, publishing, government, archives and museums, communications and media, engineering, academia, and pre-K-12 education. The Master of Library and Information Science (M.L.I.S.) degree is recognized by the American Library Association (ALA) as the first professional degree in this field and serves as the credential for entry-level professional employment.

Accreditation
The School of Library and Information Science has been accredited continuously for its master’s degree by the American Library Association since 1967. The School’s most recent continuing accreditation was granted by the ALA Committee on Accreditation in 2010. The School’s next comprehensive accreditation review will occur in the Fall of 2016.

Mission and Goals
Vision Statement:
We foster learning and research about information policies, information fluency, and information accessibility within the global library and information environment.

Mission Statement:
We combine theories with practices to educate leaders who advance the importance of information in society. We deliver accessible, high quality education incorporating professional scholarship and best practices. We focus on three pillars:

- Library Users and Services
- Information Management
- Archives and Digital Content Management

Goals and Objectives
Research
The SLIS will foster, facilitate, and support research by faculty and students.

The SLIS will assist students in appreciating the importance of research within practice, and for developing theoretical approaches to library and information science.

The SLIS will foster student engagement in research, through courses and directed studies, and other independent learning opportunities.

The SLIS will support students in presenting their research in courses, at conferences, and through publication.

The SLIS will support faculty research and scholarly communication.

The SLIS will cultivate faculty engagement with student research experiences and skill development.

Teaching
The SLIS will encourage and teach professional approaches and a service philosophy.

The SLIS will provide the skills and dispositions for excellence in information service delivery.

The SLIS will offer opportunities to sustain professional growth and achievement, including career mentoring.

The SLIS will expose students to the historical, social, cultural, educational, political, and economic dimensions of information and information agencies.

The SLIS will educate students in the history, philosophies, theories, principles, policies, and ethics of library and information science.

The SLIS will inculcate the importance of career-long professional learning.

Service
The SLIS will be engaged within the diverse communities and world.

The SLIS will seek and facilitate diversity among the faculty and the student body.

The SLIS will address the roles of library and information services in a diverse global society, paying particular attention to the underserved.

The SLIS will facilitate student experience in multicultural and multiethnic information environments.

The SLIS will integrate urban issues across its curriculum, activities, and provide opportunities for community engagement and professional growth.

Leadership
The SLIS will foster leadership in traditional as well as interdisciplinary research, scholarship, and practices that address important information and library issues.

The SLIS will engage with the library community, alumni, and employers.

The SLIS will promote commitment and involvement in professional associations and organizations.

The SLIS will encourage involvement in the community and community organizations.

The SLIS will support service activities and participation in leadership roles at the School, University, local, state, national, and international levels.

Technology
The SLIS will educate within and for an evolving technological world.

The SLIS will continuously evaluate and apply technologies to its teaching, learning, research, and service programs.

Wayne State University Undergraduate Bulletin 2017-2018 299
The SLIS will enable all students to assess critically the effective uses of technologies in information practice.

The SLIS will assist students in understanding the roles of information technologies.

**Learning Outcomes**

Students who successfully complete the Master of Library and Information Science degree at the Wayne State University School of Library and Information Science will be able to:

- Critically evaluate, synthesize, and disseminate information.
- Understand how complex interactions between diverse users, societal factors, and information environments affect professional situations.
- Facilitate access to, and use of, information resources between users and communities.
- Apply multiple and emerging approaches to the organization of knowledge for varied literatures, records, and historical documents.
- Articulate and advocate for the foundations of the profession and its basic values and ethics such as intellectual freedom, information access and dissemination, and apply these principles to the advancement of the profession.
- Determine the significance of intellectual property, security, and privacy issues.
- Assess, adopt, and utilize the most relevant information technologies.
- Utilize current management and leadership theories and practices in the workplace.
- Evaluate and apply library and information science research to problems of professional practice by employing theories, best practices, and assessment strategies to the range of information functions.
- Practice professional engagement through leadership, service work, lifelong learning and community involvement.

**Technology Support**

The School of Library and Information Science provides SLIS students, faculty, and staff with a variety of computing resources that support the School’s on-campus and online programs. The School offers students a variety of software products at no cost, including major productivity suites, powerful database software, diagramming tools, and current operating systems. The School provides free technical support to all of its students through several mediums, including email and over the phone. The School maintains a web server for student use, as well as provides access to synchronous online meeting tools for classes and student groups. SLIS students have full access to the resources provided by University Computing and the University Library System, including public access computing labs, email and calendaring services, learning management systems, library databases, and full-text e-journals and other resources.

**Library and Information Science Undergraduate Program**

Undergraduates interested in enrolling in library and information science courses should contact the School of Library and Information Science regarding admission requirements, sequence of courses, the curriculum, career planning, professional development, job opportunities, and Senior Rule requirements.
SCHOOL OF MEDICINE

Dean: Jack Sobel

The Wayne State University School of Medicine has been operating and granting degrees as a college of medicine since 1868. Originally called the Detroit Medical College, it was founded by Detroit native Theodore A. McGraw, M.D.

In 1879, a second medical college, the Michigan College of Medicine, opened in Detroit. The two colleges soon united to become the Detroit College of Medicine. In 1919, the Detroit College of Medicine and Surgery, as it was then known, became an official part of the Detroit Board of Education and thus an important unit in the rapidly developing Colleges of the City of Detroit. In 1933, the name of the Colleges of the City of Detroit changed to Wayne University in honor of the American Revolutionary War hero, Gen. Anthony Wayne. Wayne University became a state institution in 1956.

The School of Medicine entered its second century with a period of substantial growth and the creation of a new campus in midtown Detroit. With the opening of the Gordon H. Scott Hall of Basic Medical Sciences in 1971, the size of the entering class was increased to 256 students. With a recent increase to 290 medical students in entering classes, the Wayne State University School of Medicine is the largest single-campus medical school in the country, and the fourth largest overall.

Mission of the School
The primary mission of the Wayne State University School of Medicine is to educate a diverse student body in an urban setting and within a culture of inclusion, through high quality education, clinical excellence, pioneering research, local investment in our community and innovative technology, to prepare physician and biomedical scientific leaders to achieve health and wellness for our society.

The School of Medicine offers educational programs leading to the following degrees:

- Doctor of Medicine
- Doctor of Philosophy
- Master of Science

Graduate education in clinical fields, continuing medical education and post-doctoral training programs are offered. Two hundred and ninety students are admitted annually to the M.D. program and approximately 380 students are enrolled in doctoral or Master's degree study in more than twenty program and concentration areas, predominantly in the basic medical sciences. More than 2,000 learners are post-graduate trainees as medical residents, post-doctoral fellows or fellows in twenty-nine clinical research programs. The combined M.D./Ph.D. program admits highly qualified candidates each fall to participate in a rigorous seven- to eight-year program of study supported by scholarships from the University. Continuing education programs, seminars and colloquia serve the faculty and students, as well as professionals throughout the community, as a resource for ongoing developments in the health sciences. In addition to degree programs, the School of Medicine offers courses in many basic medical science disciplines appropriate for students in other colleges and schools within the University. Non-degree enrollment in basic science courses at the graduate level is permitted on a limited basis for qualified students.

Research focusing on human health is the foundation of activities in the School of Medicine. Fundamental and applied research in biomedical sciences, clinical specialties and health care systems is directed by faculty. Research programs are supported by more than ninety million dollars annually through research grants, contracts and gifts. Members of the faculty serve on scientific boards, panels, study groups and in professional leadership roles in health care regionally, nationally and internationally. The research facilities of the School of Medicine are modern, well-equipped and growing with the pace of technological advances.

Clinical services provided by the faculty, post-graduates and students are rendered predominantly through the Detroit Medical Center and Henry Ford Health System institutions. Through affiliations between the Detroit Medical Center and Wayne State University and the Henry Ford Health System and Wayne State University, DMC and Henry Ford serve as the primary teaching hospitals for the School of Medicine. The School is also closely affiliated with the John D. Dingell Veterans Administration Medical Center for education, research and clinical programs. The School of Medicine perceives a responsibility to the population of the Detroit metropolitan region as a whole, both as an educational institution and as a supplier of physicians who are highly-skilled providers of medical care.

Facilities: Wayne State University Medical School
Gordon H. Scott Hall provides facilities for pre-clinical and basic science education, basic science departments and research laboratories for basic and clinical programs. The dean's offices and the dean's administrators offices are located here.

The Helen Vera Prentis Lande Medical Research Building houses research laboratories for clinical and basic science faculty.

The Vera P. Shiffman Medical Library houses a full medical reference library, as well as computer instruction facilities.

The Louis M. Elliman Clinical Research Building provides research laboratories, experimental surgical suites and specialized research facilities for the Departments of Internal Medicine, Surgery, Pediatrics and Neurology.

The C.S. Mott Center for Human Growth and Development provides research space for programs in human reproduction, growth and development.

The Hudson-Webber Cancer Research Center is the translational research flagship facility for Wayne State University cancer research in partnership with the Barbara Ann Karmanos Cancer Institute.

The Richard J. Mazurek, M.D., Medical Education Commons plays a key role in enriching medical education by providing access to spaces and services that enhance campus life, including a convenient location for students, faculty, health professionals and guests; state-of-the-art classrooms and laboratories; and educational opportunities such as a modern patient simulation technology, the Kado Clinical Skills Center.

In addition to training at the Detroit Medical Center (DMC), medical students may train at eighteen other medical facilities, as well as hundreds of local physician offices.

The Wayne State University Physician Group (WSAPG) affiliated with the Wayne State University School of Medicine. Many WSUPG physicians serve as faculty and teach medical students and hospital residents.

The School of Medicine is an active partner in nationally- and regionally-recognized research programs, and has defined several areas of noted excellence, including cancer, women's and children's medicine, cardiology and cardiovascular health, the neurosciences and ophthalmology.

Facilities: Detroit Medical Center and Other Clinical Education Partners
The Detroit Medical Center includes:

Children's Hospital of Michigan, which specializes in medical research and treatment of infants and children - in particular, pediatric hematology,
oncology, cardiac surgery and the treatment of renal disease - and houses the state’s poison control center.

**Detroit Receiving Hospital and University Health Center**, which specializes in the treatment of adult emergency and trauma cases, and includes special facilities for the care of emergency psychiatry, burn and spinal injuries. The University Health Center, connected to the hospital, is one of the country’s largest multidisciplinary outpatient facilities, with twelve primary care service groups and more than twenty-five medical specialty services for ambulatory care.

**Sinai-Grace Hospital**, a full-service hospital offering a wide range of outpatient services.

**Harper Hospital**, which specializes in oncology, cardiology general surgery and a number of additional surgical specialties and sub-specialties.

**Huron Valley-Sinai Hospital**, located in a northern suburb, provides community hospital inpatient and outpatient services.

**Hutzel Hospital**, which includes among its areas of excellence obstetrics, gynecology, gynecologic oncology, ophthalmology, neonatology, perinatology and orthopedic surgery.

**Rehabilitation Institute of Michigan**, which uses an interdisciplinary approach to help physically disabled people reach their maximum level of independence.

**Kresge Eye Institute**, which is a major center for research and treatment of eye diseases.

**Barbara Ann Karmanos Cancer Institute**, which provides comprehensive cancer prevention, screening, diagnostics, treatment and supportive care to more than 10,000 new patients annually, and is a National Institutes of Health National Cancer Institute Comprehensive Cancer Center.

**Gershenson Radiation Oncology Center**, which provides technologically advanced radiation oncology services for all DMC facilities. Unique services include neutron therapy, Gamma Knife procedures and total body irradiation.

**Henry Ford Hospital** is a 802-bed tertiary care hospital, education and research complex located in Detroit’s New Center area. The hospital is a multi-organ transplantation center and Level 1 trauma center. Henry Ford Hospital is listed in “Best Hospitals in America” Its doctors are routinely named among America’s best. Henry Ford Hospital received the 2011 Malcolm Baldrige award, the nation’s highest honor for innovation and performance excellence in health care.

**Oakwood Hospital & Medical Center** has 632 beds, and is a full-service teaching hospital in partnership Wayne State University that has served southeast Michigan for more than fifty years. OHMC is the tertiary hub for the three community hospitals of the Oakwood Healthcare System, providing high-level clinical care in a setting designed around the individuality of each patient. OHMC offers state-of-the-art emergency medicine, general medicine and outpatient surgery, diagnostic imaging, labor and delivery/neonatal intensive care, pediatrics, intensive care and coronary units. Also opened in 2005, is the Fitzgerald Pavilion, the latest in fully integrated surgical suites. This $110 million expansion brings the next generation of surgery to southeast Michigan and offers the best surgical care.

The **John D. Dingell VA Medical Center** is a 108-bed full service medical center that provides primary, secondary and tertiary care. The medical center provides acute medical, surgical, psychiatric, neurological, and dermatological inpatient care. Primary care, medical and surgical specialties are also provided, as are mental health clinics that include substance abuse treatment, a day treatment center and a community-based psychiatric program with the goal of maintaining patients in their home community. The medical center also operates a 109-bed nursing home care unit and a Health Care for Homeless Veterans program.

**St. John Health** is comprised of seven hospitals plus more than 125 medical facilities in southeast Michigan offering heart, cancer, obstetrics, neurosciences, orthopedics, physical rehabilitation, behavioral medicine, surgery, emergency and urgent care.

**Crittenton Hospital Medical Center** provides a full continuum of clinical programs nationally ranked for quality excellence and a medical staff of nearly 500 physicians, representing a wide range of medical specialties providing primary, secondary and tertiary-level care. Crittenton has newly-renovated facilities and cutting-edge technology for providing patients with the most advanced medical care on both an inpatient and outpatient basis. Crittenton provides a campus for residents from Wayne State University’s School of Medicine who are specializing in Family Medicine and Otolaryngology.

**Shiffman Medical Library and Medical Learning Resource Centers**

Director: Sandra Martin
http://www.lib.wayne.edu/shiffman/

The Shiffman Medical Library serves as the health sciences library for Wayne State University, including the School of Medicine, and the Eugene Applebaum College of Pharmacy and Health Sciences. The library encourages all Wayne State University students to take advantage of the wide range of health information resources and reference assistance available. In addition, the library provides open and restricted access computing areas for WSU students, faculty and staff. In keeping with its ongoing outreach mission, the library welcomes community residents conducting research, seeking health information and for other educational purposes. Online and remote access to digital information resources of the Shiffman Medical Library and all university libraries require a WSU AccessID. Contact the library at askmed@wayne.edu or 313-577-1088, or consult the School of Medicine website for instructions on accessing electronic biomedical information.

Shiffman Medical Library provides eleven furnished study rooms equipped with whiteboards, dry erase markers and erasers that may be reserved in person or online via uReserve (https://apps.med.wayne.edu/ssonew/?actionUrl=http://apps.med.wayne.edu/ureserve).

When not in use, a twenty-seat computer training lab is set aside for study. The library makes available course materials that are placed on reserve at its service desk, which also provides copies of textbooks, media and a variety of other resources.

**Student Affairs**

Assistant Dean of Student Affairs and Career Development: Lisa MacLean, M.D.
http://studentaffairs.med.wayne.edu/index.php
Phone: 313-577-1463

Services include: career and supportive counseling; crisis intervention; liaison for referrals; guidance for residency application; support for student government and organization activities as well as oversight of Special Events, the Health and Wellness Program and the Medical Student Faculty Mentoring Program. The staff is committed to assisting students in every way possible as the students work toward M.D. degrees. These programs are part of the School's commitment to provide each matriculant with support services so that the rigorous educational program can be presented within as comfortable an environment as possible.
Services for Students

Health Services: Students are required to have personal comprehensive health insurance coverage through the School of Medicine health insurance plan. Students may qualify for the waiver program.

Counseling: Appointments for academic, personal and career counseling can be arranged through the Office of Student Affairs.

Mentoring: Faculty mentors are provided through the Office of Student Affairs for the purpose of giving guidance and support to the medical students throughout their medical school careers.

Health and Wellness: Health and Wellness Program was developed so that each student optimizes healthy coping strategies, finds good balance and achieves academic success throughout medical school.

Academic Resources Counseling: Referrals for academic support can be made by the student’s assigned counselor to the Office of Learning and Teaching where an academic specialist is available to all students seeking to improve and/or enhance academic performance. Individual tutoring services and group review sessions are available. The mission of the School of Medicine’s Office of Learning and Teaching is to provide educational services and programs for medical students who need academic support to improve their academic progress and for students to enhance their academic achievements. This Office also provides programming for Step 1 and Step 2 CK and CS support.

Medicine Degrees and Certificates (Graduate Programs)

There are two major types of academic programs in the School of Medicine - those leading to the M.D. degree and postgraduate medical education, and those programs in the basic medical sciences that offer Master of Science or Doctor of Philosophy degrees. For descriptions of these degree programs, see the Wayne State University Graduate Bulletin.

Doctor of Medicine (M.D. Program)

Educational Goals

The Wayne State University School of Medicine has adopted a comprehensive set of learning domains and competencies for the Doctor of Medicine program (https://www.med.wayne.edu/ome). This list formalizes the goals of a Wayne State University, medical education, and defines what a graduating physician should know to practice medicine in the 21st century. There are eight general learning domains: 1. Knowledge for Practice, 2. Patient Care, 3. Practice-Based Learning and Improvements, 4. Interpersonal and Communication Skills, 5. Professionalism, 6. Systems-Based Practice, 7. Interprofessional Collaboration, and 8. Personal and Professional Development.

Each of these domains is further refined in to measurable competencies that are measured through the medical school curriculum.

Admission to M.D. Program

Associate Dean of Admissions:
Kevin Sprague, M.D.

The School of Medicine accepts 290 students for its entering class. The students are selected from a large number of applicants who apply through the American Medical College Application Service (AMCAS).

Selection Factors

The Committee on Admissions will select applicants who, in its judgment, will make the best students and physicians. Consideration is given to the entire record, including grade point average, Medical College Admission Test scores, recommendations and interview results (one-on-one interview and multiple mini-interviews), as these reflect an applicant’s personality, maturity, character and suitability for medicine. Additionally, the committee regards as desirable certain health care experiences, such as volunteering or working in hospitals, hospices, nursing homes or doctor’s offices. The committee also values experience in biomedical laboratory research. Following an initial screening process, students with competitive applications are selected to complete a secondary application. Special encouragement is given to candidates from medically underserved areas in Michigan.

As a state-supported school, the institution must give preference to Michigan residents; however, out-of-state applicants are encouraged to apply. An applicant’s residency is determined by university regulations. Applicants must be a U.S. or Canadian citizen or U.S. permanent resident to be eligible for admission. Students whose educational backgrounds include work outside the United States must have completed two years of course work, including the prerequisite courses at a U.S. or Canadian college or university. Canadian citizens are considered non-resident for both admission and tuition purposes. Interviews are required but are scheduled only with those applicants who are given serious consideration. The committee meets weekly to evaluate candidates. Offers of acceptance will be made monthly during the application cycle. Students are urged to apply by November 1.

Entrance Requirements

The Medical College Admission Test (MCAT) is required, in addition to a baccalaureate degree or its equivalent. The MCAT should be taken during the year of application, preferably in the spring but no later than September of the year prior to the desired start year. Required courses for medical school admission are:

- General biology or zoology (with lab): 1 year
- Inorganic chemistry (with lab): 1 year
- Organic chemistry (with lab): 1 year
- General physics (with lab): 1 year
- English: 1 year

The admissions committee strongly recommends and will give consideration for the following courses:

- Biochemistry
- Statistics
- Medical ethics
- Mathematics
- Social sciences
- Upper level biology

Besides a strong preparation in the basic sciences, a broad educational background in a liberal-arts oriented program is desirable. Applicants are encouraged to select subjects that will contribute substantially to a broad cultural background.

The School of Medicine curriculum employs a combination of traditional and newer approaches to the teaching of medical students. It uses traditional lectures, small group and panel discussions, computer-assisted instruction, and multimedia in its teaching program.

YEAR 1 begins with an introductory Population, Patient, Physician (P3) course that includes introduction to the patient, human sexuality, medical interviewing, physical diagnosis, public health and prevention, population health, evidence-based medicine, as well as other relevant and current medical education curricular topics. Year 1 is organized around the disciplines of structure (anatomy, histology, and embryology), and function (biochemistry, physiology, genetics, and nutrition), and ends with an integrated neuro-science course.
YEAR 2 is a completely integrated year focusing on pathophysiology, including immunology/microbiology, and pharmacology.

YEAR 3 is a series of clinical clerkships including medicine, surgery, pediatrics, family medicine, psychiatry, neurology, and obstetrics and gynecology. During year 3 all students have a six-month continuity clerkship.

YEAR 4 has two required courses, including, emergency medicine and a sub-internship in family medicine, medicine, pediatrics or surgery. Additionally, students must take a minimum of six elective months.

Application and Acceptance Policies

The School of Medicine adheres to the acceptance procedures of the Association of American Medical Colleges, including the 'Early Decision Plan.' Admission procedures of this School are:

1. An American Medical College Application Services application must be filed between June 1 and December 15 of the year preceding anticipated matriculation.
2. Applicants must respond to acceptance offer within three weeks of the offer.
3. Payment of a $50.00 deposit is required upon acceptance by the student of a place in the first-year class. The deposit will be credited toward the initial tuition payment.

Admission with Advanced Standing

Students from Liaison Committee on Medical Education (LCME) approved medical schools may be admitted with advanced standing to Year 3 only, subject to the number of vacancies that exist in the third year. Application for advanced standing should be made not later than June 15. The following requirements must be met:

1. An applicant must be matriculated as a student in an LCME-accredited United States or Canadian medical school for a period of time equal to that spent by the class in which he/she seeks entrance and must have completed courses equivalent to those required of that class.
2. The applicant must file a completed application form available on the School's website and must present official transcripts from each school attended showing that he/she meets, in full, the entrance requirements for admission to this School.
3. The applicant must be a student in good standing at the medical school from which he/she is transferring. A letter of support from the dean of that school is required.
4. The applicant must take and pass the United States Medical Licensing Examination, Step I on the first attempt for consideration to transfer with advanced standing into Year 3.
For complete information regarding academic rules and regulations by the Commission for Collegiate Nursing Education (CCNE). and doctorate in nursing practice programs of the College are accredited professional nurses in the State of Michigan. The baccalaureate, master’s Nursing, and graduates are admitted to the licensing examination for enhancing the image of the College of Nursing and the University making. research, scholarship, practice, consultation, and participatory decision locally, nationally, and internationally through various avenues including contributions to formal teaching. Research, practice, and community service are important expectations of the faculty. The faculty views as essential, academic freedom, shared governance, opportunity to develop knowledge, and responsibility to incorporate new knowledge into teaching and nursing practice. The faculty assumes responsibility for enhancing the image of the College of Nursing and the University locally, nationally, and internationally through various avenues including research, scholarship, practice, consultation, and participatory decision making.

Accreditation
The baccalaureate program is approved by the Michigan State Board of Nursing and graduates are admitted to the licensing examination for professional nurses in the State of Michigan. The baccalaureate, master’s and doctorate in nursing practice programs of the College are accredited by the Commission for Collegiate Nursing Education (CCNE).

Academic Regulations
For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 10) section of this bulletin. The following additions and amendments pertain to College of Nursing students.

Academic Regulations Terminology
1. Professional course is any course required in the professional nursing curriculum.
2. Satisfactory grade is a grade of C (2.0) or better.
3. Unsatisfactory grade is a grade below 2.0, or a mark of X or an unauthorized mark of WP or WF.
4. Probation is a restricted status in the nursing program.
5. Exclusion from the program means that the student may not register in the program. (Continued registration in the University will necessitate that the student processes a Change of College to another academic program.)

Attendance
Regular punctual attendance in classes and clinical practice is expected. It is imperative that students maintain a perfect or near-perfect attendance record. Tardiness and/or failure to report to class can result in a lowering of the final course grade or exclusion from the course.

First Day of Class: Due to the nature of clinical courses and time requirements, first day class attendance is MANDATORY. Unexcused absences from the first day of any course may result in an administrative withdrawal for the student for that class and could delay progression in the program. If a student is removed from a class for non-attendance, clinical space in the subsequent class offering is not guaranteed.

Travel Requirements: It is the responsibility of the student to make all travel arrangements necessary to complete degree requirements. This includes travel arrangements required to reach all clinical agencies.

Examinations
Final Examinations for courses are offered on two occasions only; the day the University sets as the final examination date, and usually the Wednesday immediately following this date. The College will make no other arrangements for final examinations. If students miss both examination opportunities due to circumstances covered by one of the Special Circumstances (see below), they will receive an incomplete (I) grade for the course. They will have twelve months to convert the I grade into a passing grade (A to C). If the course is a clinical, the College will make every effort to enable the student to take the next offering of the course, subject to availability. However, the College makes no guarantees when a place will become available.

Other Examinations or Assessments (e.g., Midterms): The regulations for other examinations will be specified in the course syllabus. However, the regulations for notifying the College of missing an examination and the need to fulfill the Special Circumstances Rule (see below) to take a make-up examination will still apply.

Online Learning Assessments: The College of Nursing uses an educational software package that is integrated into the Nursing curriculum. It consists of tutorials, reviews, and assessments that will be included in certain courses. In the event that required assessments are not completed as required in the syllabi, students will receive an incomplete I grade for that assignment/course unless stated otherwise in the course syllabus. Students will have twelve months to convert the I grade into a passing grade (A to C). While carrying an I grade students will not be permitted to progress in their studies.

Missing an Examination: It is the students’ responsibility to call 313-577-0130 if he/she is unable to be present for an examination. Calls must be made before the beginning of the examination if the student
intends to claim eligibility to sit for the make-up examination. While the student may also notify his/her professor directly, the date and time stamp on the examination hotline is the only acceptable record that he/she has called in time to miss an examination.

**Special Circumstance Rules:** The following are examples of events that qualify as a Special Circumstance for the purposes of missing examinations as well as the documentation (when appropriate) expected of students claiming these circumstances:

- Illness on the day of the examination or receiving health treatment: Provider note
- Death in the immediate family: Death Certificate
- Jury Duty or Court Summons: Jury duty notification or Court notice of summons
- Incarceration: Court notice
- Military Service: Service notice
- Natural Disasters

In the event that a student finds him/herself in any of these circumstances he/she must call 313-577-0130 and inform the College. Such students must supply the appropriate documentation as evidence of their need to sit for the make-up examination. Documents must be presented to faculty within forty-eight hours of missing the examination.

### Time Limitation

**The Traditional Program** is ideally completed within four calendar years of admission to professional course work, unless an extension is granted by the Scholastic Policy and Admissions (SPA) Committee.

**The Second Career/Second Degree Program** is ideally completed within five consecutive semesters following admission to the program unless an extension is granted by the Scholastic Policy and Admissions (SPA) Committee.

All students whose progress is delayed by reason of academic failure and/or leaves of absence beyond the time limitation for the program may be required to repeat and/or take additional course work in order to assure graduation with appropriate preparation for current professional nursing practice. Such determination will be made by the Scholastic Policy and Admissions (SPA) Committee.

### Authorized Leave of Absence

A leave of absence may be requested by a student when personal circumstances interfere with the student’s ability to devote sufficient time to academic pursuits to assure reasonable expectation of success. Leaves of absence are requested from and granted by the Associate Dean for Academic and Clinical Affairs, in consultation with the Scholastic Policy and Admissions Committee. The student should contact the Office of Student Affairs for the necessary materials and deadline dates regarding leaves of absence. A leave of absence is granted to students in good academic standing only. A student who is granted an approved leave of absence may return only if there is available space in the program. A student who takes an unauthorized leave of absence will be considered to have voluntarily withdrawn from the program and must apply for readmission to the College.

### Licensure Preparation

All students graduating from the Freshman, Traditional and Second Career/Second Degree Programs must earn a satisfactory score on a comprehensive exam (i.e. HESI by Elsevier) in the last semester of the program. A satisfactory score is dictated by the comprehensive exam used and will be identified prior to the beginning of the examination.

Students are allowed three attempts at successfully achieving a passing score on the HESI Exit Exam. The costs associated with the first two attempts are included in the students’ fees and there is no additional charge. However, if a third exam is required, any and all costs associated with the third exam are the student’s responsibility.

Students who are unsuccessful after the third exam in achieving a minimum course grade of 900 on the HESI Exit exam will receive an "Incomplete" in NUR 4060 and must complete, at their own cost, an approved review course. Once this additional review course is completed, the student will be scheduled for their fourth attempt at the exit exam. If the student still fails to achieve a score of 900 on the HESI Exit exam, the student will receive a grade of "C" in NUR 4060 and counseled as to the possible implications of the score on successful completion of the NCLEX exam.

Each graduating student (who is not already a licensed RN) must attend a NCLEX Review course in preparation for the NCLEX licensure examination during the final semester as part of the program requirements. All program requirements must be met before a student can be certified as completing their degree requirements with the State of Michigan Licensing Board.

### Scholarship

1. All students must maintain a satisfactory (2.0) grade point average (g.p.a.) in both:
   a. cumulative grades (general education and nursing); and
   b. professional nursing courses.
2. Students must achieve a 2.0 g.p.a. in each nursing course. A student may not continue in subsequent courses for which the failed course is a prerequisite until a minimum of 2.0 has been achieved.
3. A grade below C (2.0) in a nursing course is unsatisfactory for progression.
4. Students may apply to repeat a nursing course, as space is available. The course may only be repeated one time to raise the grade to the 2.0 g.p.a. level or above.
5. A maximum of one nursing course within the program may be repeated.
6. No nursing course for which a student has received a passing grade may be repeated without written approval of the Associate Dean for Academic and Clinical Affairs.
7. A student receiving a C-minus (1.67 g.p.a.) grade or less in either the theory or the clinical portion of any nursing course will have recorded no higher than a C-minus for the total course and will be required to successfully complete the re-entry process to repeat it before progressing to the next clinical course.
8. The mark of I is appropriate if the student encounters a catastrophic situation which prevents completion of the final requirements of a course. The mark of I is not appropriate for unsatisfactory scholastic performance. In the event a mark of ‘I’ is given, the time limit for completion will be determined by the instructor, but may not exceed one year. In the event the mark of ‘I’ is received for a prerequisite course, the ‘I’ must be removed prior to enrollment in the subsequent course. After one year, if the incomplete is not completed the grade will automatically change to an F (failure) and will be treated as a failing grade.

### Probation

Probationary status is a warning to a student to improve his/her academic performance in order to remain in the program.

1. A student is placed on probation if he/she does not maintain a minimum cumulative grade point average of 2.0.
2. A student is placed on probation if he/she does not maintain a minimum grade point average of 2.0 in professional nursing courses.

3. A grade point average must be returned to a minimum of 2.0 to remove probationary status. Probationary status must be removed within one calendar year.

4. Students on probation are not eligible to represent the College in any student activity.

**Exclusion**

A student will be excluded from the College if any of the following conditions occur:

1. Failure to satisfactorily complete a nursing course after two attempts;
2. Failure of more than one professional nursing course;
3. Failure to remove probationary status within one calendar year;
4. Irresponsible attendance or irresponsible performance/behavior at any time while enrolled in the program;
5. Failure to meet any special conditions required by the College Scholastic Policy and Admissions Committee for the student’s continuation in the program;
6. Failure to complete the program within the time limitations outlined above, unless granted an extension by the Scholastic Policy and Admissions Committee.
7. Unsafe practice and/or unethical conduct as defined in the BSN student handbook.

**Grade Appeals Policy**

**Basic Principles**

**Assistance.** Student/faculty may contact the College of Nursing, Assistant Dean, Enrollment and Student Services and/or the Wayne State University Ombudsperson at any time for assistance with any problem associated with a grade decision or grade appeal.

**Timeliness of appeals process.** Failure of the instructor or any appeal officer to respond within the designated time frame of the formal appeal entitles the student to proceed to the next level of appeal. In no case should there be any assumption that a failure to respond at any level signifies a granting of the appeal. Failure of the student to adhere to the time-frames specified in the policy will result in the appeal process being nullified (the appeal will not be heard).

**Process.** All steps of the formal grade appeal must be done in written format; no email correspondence is acceptable. Information submitted should be time stamped and dated as it is received.

**Academic dishonesty.** These policy guidelines do not apply to allegations of academic dishonesty. Academic dishonesty matters are addressed under the Student Code of Conduct.

**Patient safety.** Students may be removed from a clinical course at any time in which the faculty or clinical agency staff identifies an issue that would constitute unsafe practice in the clinical setting that may jeopardize patient safety.

*Note that “days” are counted as Monday through Friday, excluding University holidays.*

**Appeal of Grade**

**What can be appealed:**

*Only the manner in which the grade was assigned can be appealed.* Instructors are expected to evaluate student work according to sound academic standards. It is the instructor’s prerogative to assign grades in accordance with his/her academic/professional judgment. If the student believes the manner in which the grade was assigned was done in an unfair manner and the student is able to demonstrate that the unfair manner is based on one of the three criteria stated below, then the student may file an appeal pursuant to the process set forth below. The student assumes the burden of proof in the appeals process.

**Grounds for appeals are:**

1. the application of non-academic criteria in the grading process, as listed in the university’s non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

**Grade Appeal Process**

Prior to implementing the formal appeal process, the student must discuss in person the disputed grade with the instructor of the course within ten days of notification of the grade. The faculty member will respond in writing with a copy to the student and the Assistant Dean, Enrollment and Student Services. If the dispute remains unresolved, the student may then initiate a formal appeal.

All steps of the appeal process must be followed within the stated time frame or the appeal process is nullified (will not be heard).

**Steps to Initiate a Formal Appeal**

1. The student must submit a written statement detailing his or her objections to the faculty response, along with supporting documentation, to the Assistant Dean of Faculty Affairs with copy to the Assistant Dean for Enrollment and Student Services. This statement must be submitted within 14 days following the response of the faculty member who assigned the grade.

2. The Assistant Dean of Faculty Affairs must meet with the student and faculty member, either jointly or individually, within 14 days of receiving the appeal to attempt to resolve the issue.

3. The student must be notified in writing of the Assistant Dean of Faculty Affairs’ decision within 21 days of receiving the student’s written appeal. As the Dean’s designee, the decision of the Assistant Dean of Faculty Affairs shall be the final decision at the College level.

4. Provost Review. The student may request the Provost to review the final decision on the record. A written Request for a Provost Review must be made by the student himself/herself, with a copy to the Dean of the College of Nursing, postmarked within thirty (30) calendar days of the postmark of the College’s final decision. The Provost’s review of the College’s decision will proceed as soon as practicable after notification by the student of his/her wish to seek review.

The student may also file with the Provost a Request for a Postponement of the effect of the College’s final decision. Such a Request must be postmarked within seven (7) calendar days of the postmark of the College’s final decision, and a copy must be sent to the Dean of the College. Upon receiving a Request for Postponement, the Provost will immediately contact the Dean. Unless the College demonstrates clearly and convincingly that the injury to the College or to third persons that would result from such a postponement would outweigh the injury to the student from denying the postponement, the effect of the decision rendered by the College must be postponed until the date that the Provost issues a decision regarding the underlying Request for Provost Review. The Provost will inform the student and the Dean of her/his decision regarding the Request for Postponement within three (3) school
days after receiving the request. Exceptions to this procedure may be granted by the Provost upon a showing of good and sufficient cause.

Pursuant to University policy, the Provost’s decision in an academic appeal is final.

Graduation Residency Requirement
The last thirty semester credits of the degree must be taken in residence at Wayne State University.

Graduation with Distinction
A candidate eligible for the bachelor’s degree may receive a special diploma with Cum Laude, Magna Cum Laude, or Summa Cum Laude indicated. For the University guidelines regarding these distinctions, see Graduation with Distinction.

Dean’s List and Honors List
Students completing twelve semester credits in study at Wayne State University are eligible for appointment to academic recognition lists each semester. The semester grade point average at Wayne State must be 3.75 or above in order to qualify for the Dean’s List, or a 4.0 g.p.a. for students registered for six to eleven credits. The Honors List requires a minimum grade point average of 3.50. Lists of students on the Dean’s List and Honors List will be posted in the College of Nursing. Students who receive marks of I or W or X and grades of N or U are not eligible. (For explanation of grades and marks, see Grading System, University (p. 47).)

Student Rights and Responsibilities
Continuance in the College is contingent upon compliance with official rules, regulations, requirements, and procedures of the University and the College of Nursing. The student is responsible for reading the contents of this bulletin pertinent to the College of Nursing and otherwise becoming informed and fulfilling all course and degree requirements in proper sequence with satisfactory scholarship. In case of doubt regarding any matter affecting his or her standing as a student, the student should consult with a College of Nursing advisor. The faculty reserves the right to amend or revise the policies and requirements set forth in the College of Nursing section of this bulletin.

A student may be required to withdraw from the College when, in the judgment of the faculty, behavior demonstrates that the student is unsuited for nursing, for unsafe practice, and/or for unethical conduct in the program without having been previously warned. (See also Exclusion, above.)

Nursing (B.S.N.)
The undergraduate nursing program is designed to prepare students who, upon graduation, will begin the practice of professional nursing. The program leads to the degree of Bachelor of Science in Nursing (B.S.N.) and provides a basis for graduate study in this discipline. The curriculum consists of courses in both general and professional education and is offered with different options oriented to the varying admissions qualifications of the applicants:

• Freshman (small cohort)
• Traditional, Second Career/Second Degree
• RN-B.S.N. and RN-M.S.N. options (currently in moratorium)

Admission: B.S.N. Programs
All applications are reviewed to determine the capability of applicants to complete a Bachelor of Science in Nursing. Admission is highly competitive and is based primarily on academic performance, especially grades earned in the prerequisite courses with an emphasis on the science prerequisites. Transcripts are reviewed for patterns of withdrawals and repeated courses. Prerequisite repeats are taken into account and can make an applicant less competitive. Transcripts are also reviewed for full-time scholarly achievement and promise of success in a rigorous science-based curriculum. An interview may also be possible.

Nursing: B.S.N. Freshman
Freshman Admission
A small cohort of high school graduates is admitted as a Freshman student. Students in this category are presumed to be entering professional nursing for the first time. They are admitted through the Office of Undergraduate Admissions (p. 19) and complete general education/pre-professional courses offered through the College of Liberal Arts and Sciences. The students also complete a holistic admission process through the College of Nursing. The holistic admission process includes not only a critical evaluation of these same metrics, but also includes a requirement for community service, and an essay submitted by the applicant detailing any personal attributes and experiences that the applicant feels would support their admission to the CON. The entire application packet is evaluated by an admission committee composed of faculty from the Undergraduate program.

Nursing: B.S.N. Traditional Admission
Pre-Nursing Admission
Students in this category are presumed to be entering professional nursing for the first time. They are admitted through the Office of Undergraduate Admissions (p. 19) and complete a pre-professional nursing program offered through the College of Liberal Arts and Sciences. Effective Fall 2019, the students also complete a holistic admission process through the College of Nursing. (Note: course prerequisites must be completed by January 31, 2019). The holistic admission process includes a critical evaluation of these same metrics as well as a requirement for community service and the submission of an essay detailing any personal attributes and experiences that the applicant feels would support their admission to the College of Nursing. The entire application packet is evaluated by an admission committee composed of faculty from the Undergraduate program.

Subsequent admission to the Traditional Bachelor of Science in Nursing Program requires completion of a minimum of thirty credits and all prerequisites (see below). All courses must be completed with a grade of “C” or better and candidates must have a minimum 3.0 grade point average in prerequisite courses to be eligible for consideration. A minimum grade point average of 2.0 in science prerequisites is also required. Admission to the program is highly competitive; completion of prerequisites with minimum requirements does not guarantee admission.

Prerequisites (Traditional Professional Nursing Program)
The following are prerequisite requirements for admission consideration to the Traditional Professional Program in the College of Nursing.

1 Must have a lab component
Nursing: B.S.N. Second Career/Second Degree Program

Admission

Applicants in this category are eligible to apply for entry into Second Career/Second Degree Bachelor of Science in Nursing Program if they have completed a bachelor's degree in an area other than nursing and have completed the prerequisites (see below). Applicants must have completed all prerequisite courses with a grade of 'C' or better and candidates must have a minimum 3.0 grade point average in prerequisite courses to be eligible for consideration. A grade of 2.0 in the science prerequisites is also required. Effective Fall 2019, the students also complete a holistic admission process through the College of Nursing. (Note: course prerequisites must be completed by January 31, 2019). The holistic admission process includes a critical evaluation of these same metrics as well as a requirement for community service and the submission of an essay detailing any personal attributes and experiences that the applicant feels would support their admission to the College of Nursing. The entire application packet is evaluated by an admission committee composed of faculty from the Undergraduate program. Admission to the program is highly competitive; completion of prerequisites with minimum requirements does not guarantee admission.

Prerequisites (Second Career/Second Degree Program)

The following are prerequisite requirements for admission consideration to the Second Career/Second Degree Program in the College of Nursing. This set of prerequisite courses also applies to students with a bachelor's degree who are interested in pursuing the Traditional (three-year) program rather than the Second Degree Program.

Sociology Course

Cultural Anthropogy or any (FC) Foreign Culture Course

Humanities: any (PL) Philosophy and Letters course or any (VP) Visual and Performing Arts course

1. Must have a lab component
2. NUR 4800 is highly recommended

RN-B.S.N. Program

The RN-B.S.N. program is geared toward Michigan-licensed registered nurses (RNs) who have completed an associate degree program or a diploma program and wish to continue their professional education. Progression into senior year clinical nursing courses is granted after completion of all prerequisite requirements. For requirements for this curriculum, see Nursing: RN to B.S.N. Completion Program.

Application to B.S.N. Programs

Application to the Bachelor of Science in Nursing programs is a dual application process.

Step I - Application to Wayne State University: If the applicant is not already a Wayne State University student, he/she should submit an application by January 31 to the Office of Undergraduate Admissions and submit all required documentation and materials (including transcripts from all post-secondary institutions attended). All final transcripts for prerequisites completed during the winter semester must be submitted by June 1. Applicants must meet all the general requirements for undergraduate admission (p. 19) to the University.

Step II - Application to the College of Nursing: Applicants must submit to the College of Nursing Office of Student Affairs the on-line Application for Admission to the Bachelor of Science in Nursing Program. Applications must be submitted by January 31. Freshman applicants will need to review the College of Nursing website for instructions. Official copies of all transcripts from all high school and post-secondary institutions attended, and any other required documentation (test scores, etc.) must be received in the Office of Student Affairs by June 1, not postmarked by that date.

Application Fees: All Freshman Bachelor of Science in Nursing, Traditional Bachelor of Science in Nursing and Second Career/Second Degree Bachelor of Science in Nursing applicants must submit a $50.00 non-refundable application fee. Checks or money orders may be made out to WSU College of Nursing-Application Fee. The application fee is due at the time of application.

Application Deadlines: All admission materials listed above must be received in the appropriate offices by the program application deadline date of January 31 for Fall Admission.

For students enrolled in prerequisite coursework during the admission process, evidence of completion of all prerequisites must be received by the College of Nursing Office of Student Affairs no later than June 1.

Non-native English-speaking candidates must submit Internet-Based Test of English as a Foreign Language (TOEFL) scores to the College of Nursing; a minimum total score of 101 is required, with minimum scores of 25 in listening, 25 in reading, 25 in writing and 26 in speaking.

Readmission

Nursing students whose attendance in the nursing clinical sequence of the undergraduate curriculum has been interrupted for more than one academic year must request reinstatement to the College of Nursing. Contact the College of Nursing Office of Student Affairs for application materials and deadline dates. There is no assurance that a student can be reinstated once the student withdraws from the program or does not progress in the program within the specified time limitations.

Enrollment in Professional Nursing Courses

1. Admission to the College of Nursing and successful completion of all prerequisites/corequisites identified for nursing courses.

2. Health Clearance

Students admitted to the College are required to submit a Health Clearance Form to the Office of Student Affairs. The health
clearance must indicate that the student is in good health, free from communicable disease, and able to engage in a rigorous professional program with extensive clinical experiences. Health requirements are specified on the clearance form; some must be repeated yearly. Verification of compliance must be supplied annually to the Office of Student Affairs prior to August 15.

Throughout the program students must maintain a level of health consistent with meeting the objectives of the curriculum and practicing nursing safely. If a health problem occurs during a student’s educational program, the faculty member responsible for clinical practice will assess the student’s ability to continue in the program and make recommendations for action to the Associate Dean for Academic and Clinical Affairs. The University and the College reserve the right to refuse or cancel a student’s admission or to restrict his/her activities in the College if the health status indicates such action is warranted for safeguarding the patient, the student, other students, or the University.

3. Liability Insurance

The minimum amount of malpractice liability insurance acceptable is $1,000,000/$6,000,000 to cover each year of the student’s nursing studies. Students must present a copy of their insurance policy from an approved insurer to the Office of Student Affairs no later than August 15 of each year. This copy must show the amount of coverage, the expiration date, and the student’s name. Students may not participate in clinical courses without a copy of this policy being on file.

4. BLS (Basic Life Support) for Health Care Providers Certification

All students must have BLS for Health Care Providers (BLS-HCP) Certification or the equivalent for entry to clinical courses. It must be updated each year and students must have current, updated certification on file in the Office of Student Affairs by August 15 of each year.

5. Criminal Background and Drug Testing History

Students admitted to the College of Nursing are required to have a Criminal Background Investigation and a ten panel drug test completed prior to beginning nursing courses. The Criminal Background Investigation is intended to discover if the applicant has had a felony conviction in the fifteen years prior to application, or a conviction of a misdemeanor involving abuse, neglect, assault, battery, or criminal sexual conduct in the ten years prior to application. Conviction of either the felony or certain types of misdemeanor violations, as outlined, prohibits the student from participation in clinical courses.

6. Alliance for Clinical Education (ACE)

All undergraduate students are required to participate in the Michigan Health Alliance ACE program for clinical education and placement. Health status reports, liability insurance, BLS (Basic Life Support), criminal background checks and drug screens are tracked though the ACE and provided to participating clinical institutions. As part of the ACE program, students complete mandatory HIPPA, OSHA and blood-borne pathogen training.

Faculty are directed to deny students access to clinical experiences if the student has not met clinical clearance requirements.

### Re-Entry into the Clinical Sequence of the Nursing Curriculum

Students whose progression in the clinical sequence of the program is interrupted due to unsatisfactory completion of prerequisite coursework or to interruption in attendance in the program, must apply for re-entry into the clinical sequence. Contact the College of Nursing Office of Student Affairs for re-entry application materials. Students must file this application prior to August 31 for Fall Term re-entry, or December 31 for Winter Term re-entry. Re-entry decisions are based on the student’s academic record in the program. Consideration is given to grades in prerequisite and nursing courses, length of time absent from the program, and potential for successful completion of the program. Re-entry into the clinical sequence and into the program option (traditional or second career/second degree) in which the student was previously enrolled is not guaranteed.

### Registration for Classes

All students are required to register for required classes prior to attending classes. Registration procedures and schedules published in the official University Schedule of Classes (http://www.classschedule.wayne.edu). The usual full-time undergraduate program is 12-17 credits per term.

Clinical location assignments are created through the Office of Student Affairs and the Alliance of Clinical Education. Students are notified of assignments prior to registration.

Candidates for the Bachelor of Science in Nursing degree must complete the minimum 121 semester credits in course work including satisfaction of the University General Education Requirements (p. 31) and in accordance with the academic procedures of the University (p. 10) and the College (p. 305).

**Residency:** The last thirty credits of the degree must be taken at Wayne State University.

**Grade Point Average:** Students must maintain a grade point average (g.p.a.) of at least 2.0 in total residence credit and in all nursing courses.

**Curriculum and Program Requirements:** A student must complete all curriculum and program requirements, remove any marks of ‘I’ or ‘Y’, and be recommended by the faculty for the B.S.N. degree. Student must complete the required minimum number of credits, elect courses in the proper sequence in the appropriate curriculum (as shown below), and satisfy all course prerequisites or corequisites.

### Professional and General Education Requirements for the Traditional B.S.N. Program

The following curriculum outlines the minimum of 121 semester credits required for the Bachelor of Science in Nursing, including sixty-one credits in nursing major courses. The following curriculum is for informational purposes and is subject to change by the College of Nursing.

The Writing Intensive course requirement is fulfilled by taking NUR 5993 (WI). The course is zero credits and is assigned once students are admitted to the College.

### Professional Requirements for the Second Career/Second Degree B.S.N. Program

In addition to the pre-nursing requirements for the Second Career/Second Degree Program (see Nursing: B.S.N. Second Career/Second Degree Program Admission) the following professional educational courses are required, in addition to a minimum of sixty-five credits in prior baccalaureate and pre-nursing requirements:

| First Semester (Spring/Summer) | 6 |

Wayne State University Undergraduate Bulletin 2017-2018 311
In addition to the prerequisites for admission to Senior Standing listed above, the following upper-level professional nursing courses are required. The remaining General Education Requirements and liberal arts credits comprise the balance of the minimum 121 credits required for the Bachelor of Science in Nursing; these courses may be taken prior to the upper-level professional work. The balance of general education courses (taken at Wayne State University or a community college) equals 58 credits of course work. At least thirty-four credits in course work, which includes the 30 credits listed below, must be taken at Wayne State University.

**Course** | **Title** | **Credits**
---|---|---
NUR 2070 | Professional Nursing in the Future: Strategies for Health Promotion | 3
NUR 3405 | Introduction to Nursing Research and Evidence-Based Practice: RN-BSN | 3
NUR 4040 | Leadership and Management in Nursing Practice | 4
NUR 4505 | Professional Nursing in the Future: Current Issues for Professional Practice RN-BSN | 3
NUR 4600 | Gerontological Nursing Perspectives in Health and Illness | 3
NUR 4800 | Transcultural Health Through the Life Cycle | 3
NUR 4040 | Leadership and Management in Nursing Practice | 4
NUR 4505 | Professional Nursing in the Future: Current Issues for Professional Practice RN-BSN | 3

**Total Credits**: 61

The Writing Intensive course requirement is fulfilled by taking NUR 5993 (WI). The course is zero credits and is assigned once students are admitted to the College.

**Nursing: RN to B.S.N. Completion Program**

**Requirements**: All students must achieve a grade of C or better in all courses cited below. A cumulative grade point average of 2.00 or above must be maintained. These courses may not be taken for Passed-Not Passed grades.

**Admission to Senior Standing**: All RN students must file an Application for Admission to Senior Standing by the appropriate deadline. Upon admission to Senior Standing, RN students will receive thirty three credits for having successfully passed NCLEX examination validated by a current license to practice in the State of Michigan.

Completion of the following courses (or equivalents) is required for admission to Senior Standing.

- **BIO 1510**: Basic Life Mechanisms (Laboratory) | 4
- **BIO 2200**: Introductory Microbiology (Laboratory) | 5
- **BIO 2870**: Anatomy and Physiology (Laboratory) | 5
- **CHM 1020**: Survey of General Chemistry (Laboratory) | 4
- **ENG 1020**: Introductory College Writing | 3
- **PSY 1010**: Introductory Psychology | 4
- **PSY 2400**: Developmental Psychology | 4
- **SOC 2000**: Understanding Human Society or **ANT 2100**: Introduction to Anthropology | 3

RN to B.S.N. Program: Senior Level Professional and General Education Requirements
Nursing: B.S.N. Honors Program

The College of Nursing Honors program offers a challenging and rewarding opportunity for students to further pursue their interests in the field of nursing. The Honors program is open to all students seeking their Bachelors of Science in Nursing and requires that students graduate with a GPA of 3.5. Completion of the honors program requirements results in an honors degree designation on the diploma. Interested students should contact their advisor in the Office of Student Affairs.

Departmental Honors Requirements

In addition to the stated requirements for a Bachelor’s of Science in Nursing, to earn Departmental Honors, students must complete the Honors Assignments associated with the Honors 1, 2, and 3 courses as outlined in the NURH Guidelines. In fulfilling these requirements, they must also complete an HON 42XX course that will count towards their accumulation of 12 Honors hours. While honors students must accumulate a minimum of at least 12 credits of Honors courses, nursing students typically accumulate 12-19 honors credits.

College of Nursing Faculty

ARTINIAN, NANCY: Ph.D., M.S.N., Wayne State University; B.S.N., Mercy College of Detroit; Professor Emerita

PARKER, JESSICA: M.S.N., Wayne State University; B.S.N., University of Michigan; Clinical Instructor

PASTOR, JESSICA: M.S.N., B.S., Wayne State University; B.S.N., University of Detroit Mercy; Clinical Instructor

PETERS, ROSALIND: Ph.D., M.S.N., Wayne State University; B.S.N., Madonna College; Associate Professor

PIEPER, BARBARA: Ph.D., M.S.N., Wayne State University; B.S.N., Michigan State University; Professor

RICE, VIRGINIA: Ph.D., M.A., University of Michigan; M.S.N., Wayne State University; B.S., Boston University; Professor Emeritus

SCHUTTE, DEBRA: Ph.D., M.S.N., B.S.N., The University of Iowa; Associate Professor

STANLEY, CHANTA: D.N.P., B.S.N, Wayne State University; Clinical Instructor

TEMPLIN, THOMAS: Ph.D., M.A., B.A., Wayne State University; Professor (Research)

VILLASENOR, SALLY: D.N.P., M.S.N., B.S.N, Wayne State University; B.A., Albion College; Clinical Assistant Professor

VISGER, JOAN: M.S.N., University of Phoenix; B.S., Wayne State University; Clinical Assistant Professor

WALKER, DEBORAH: Ph.D., University of California, Los Angeles; M.S.N., University of Minnesota; B.S.N., Sonoma State University; Associate Professor

WALKER, TARA: D.N.P., Wayne State University; B.S.N., University of Rochester; Clinical Instructor

WASHINGTON, OLIVIA: Ph.D., Wayne State University; M.S.N., B.S.N., State University of New York at Buffalo; Associate Professor Emeritus

WIERS, SUSAN: D.N.P., M.S.N., B.S.N, Michigan State University; Clinical Assistant Professor

WILLIAMS, BARBARA: M.A., Central Michigan University; B.S.N., Mercy College of Detroit; Clinical Instructor

WILSON, FELETA: Ph.D., Wayne State University; M.P.H., University of Michigan; B.S.N., North Carolina Agricultural and Technical State University; Associate Professor

YARANDI, HOSSEIN: Ph.D., M.A., Indiana University; B.S., Tehran University; Professor

ZIMNICKI, KATHERINE: D.N.P., M.S.N., Wayne State University; B.S.N., Mercy College of Detroit; Clinical Assistant Professor

ZUGCIC, MARY: M.S., B.S.N., University of Michigan; Clinical Instructor
EUGENE APPLEBAUM
COLLEGE OF PHARMACY AND
HEALTH SCIENCES

Interim Dean: Deepak Bhalla

In 1890, the Detroit College of Pharmacy was founded as a program in the Detroit Medical College, the forerunner of the Wayne State University School of Medicine. The Detroit College of Pharmacy later separated from its parent institution, operated independently for two years, and in 1907, affiliated with the Detroit Institute of Technology. In response to the urging of Detroit area pharmacists another program was developed from the six-year course in pharmacy established at Cass Technical High School into a new College of Pharmacy organized by the Detroit Board of Education in 1924. This College of Pharmacy and the Detroit Board of Education’s Colleges of Medicine, Education, Liberal Arts, Engineering and Graduate School were united in 1933 into a university called the College of the City of Detroit and named Wayne University in 1934. In 1957, one year after Wayne University became Wayne State University, the College of Pharmacy at the Detroit Institute of Technology joined the College of Pharmacy at Wayne by merging into Wayne State University’s system of schools and colleges.

In 1974, Pharmacy merged with the Division of Allied Health to form a college devoted to educating the modern health care team. Mortuary Science, which was started as a unit of the School of Business Administration in 1943, evolved into a separate department and eventually became part of the College of Pharmacy and Allied Health Professions in 1985. In 2002 the College changed its name to the Eugene Applebaum College of Pharmacy and Health Sciences to recognize the contributions of Eugene Applebaum, a 1960 alumnus of the college’s pharmacy program, and occupied the new facility which opened in 2002. In 2003 the College reorganized from nine departments to the four departments that exist today.

The College occupies a state-of-the-art facility, located on the campus of the Detroit Medical Center, one of the Midwest’s leading centers for healthcare, research, and education. The Center boasts a high concentration of health professionals including the faculty and students of the Wayne State University School of Medicine, one of the nation’s largest medical schools. The Eugene Applebaum College of Pharmacy and Health Sciences is designed to provide students with the latest tools to prepare them for health careers in the new economy.

Mission and Vision

The College mission is to advance the health and well-being of society through the preparation of highly-skilled health care practitioners, and through research to discover, evaluate, and implement new knowledge to improve models of practice and methods of treatment in pharmacy and health sciences in ways of both local and global relevance.

Our vision is to serve as a preeminent model for learning, scholarship, and engagement impacting health, safety, and well-being worldwide through leadership, innovation, and the interconnectedness of our disciplines.

The College offers a variety of undergraduate, graduate-professional, and graduate programs designed to provide advanced-level professional training, basic research, and scholarly activities in the various health science fields. Detailed information on each program may be found in the Departmental sections.

College Organization

The Eugene Applebaum College of Pharmacy and Health Sciences is organized into four academic departments: Fundamental and Applied Sciences; Health Care Sciences; Pharmacy Practice; and, Pharmaceutical Sciences. Academic programs exist within each department as follows:

Department of Fundamental and Applied Sciences

Clinical Laboratory Science

Students in clinical laboratory science learn the scientific principles and theories behind many laboratory tests performed to aid in the diagnosis of disease. During the latter part of the curriculum students become proficient in the performance of these tests and familiar with practical aspects of the clinical laboratory. This work is indispensable to effective patient care because results of laboratory analysis often establish a basis for diagnosis which must be made before treatment can be instituted.

Forensic Investigation

This is a post-bachelor’s certificate program designed for students who have obtained a degree in another discipline from an accredited college or university who wish to acquire competence in the area of forensic investigation. The program is not designed to train forensic investigators; rather, its aim is to educate personnel whose professional scope and practice interface with the criminal justice system.

Mortuary Science

The program in mortuary science prepares students for a career in funeral service. The curriculum provides the study of the fundamentals of applied biological and physical sciences as background for understanding techniques and procedures applicable to the preparation and disposition of human bodies and to public health and safety measures. Other areas of study include a thorough understanding of the theory and a proficiency in the practice of the technical skills pertinent to funeral service and the instillation of high standards of ethical conduct required to foster and uphold the dignity of funeral service.

Pathologists’ Assistant

The pathologists’ assistant program trains personnel to assist the pathologist in the performance of postmortem examinations and in the preparation of surgical specimens for study. Additional training prepares the student to take responsibility for tasks designated by a supervising pathologist such as budgetary, superintendence, and teaching duties.

Department of Health Care Sciences

Nurse Anesthesia

The nurse anesthetist is a specialist with extensive education and training in Nurse Anesthesia leading to a Master of Science degree in Anesthesia. Graduates must take and pass a national certification examination to be granted a specialty license and title of Certified Registered Nurse Anesthetist (CRNA) and are re-certified every two years. CRNAs are qualified to provide all types of anesthesia services to adults, children, and infants for any type of surgical interventions. They are employed in major teaching, and tertiary care institutions, trauma, community, and rural hospitals. CRNAs also function as a key member on the cardiopulmonary resuscitation team and are responsible for care of patients in respiratory distress to establish and secure a patent airway. This program is offered only at the graduate level and students should consult the Graduate Bulletin.

Occupational Therapy

The occupational therapy program prepares the student to assume clinician, researcher, educator, and consultative roles that assist individuals who are limited in the ability to perform tasks required in normal routines of daily living: self-care, work, and play/leisure. The entry level Master’s Degree in Occupational Therapy incorporates undergraduate and graduate education. Students learn theoretical
concepts and their application related to the restoration, development, and maintenance of physical, psychological, social, emotional, and cognitive functions. The theory-based curriculum includes instruction in the use of specific evaluative procedures; the application of a wide variety of activities related to daily living tasks, including creative and manual skills; and the procedures for functioning as a member of a health care team. The occupational therapist's goal is to promote meaningful occupations and maximize functional independence in collaboration with the client. This program is offered only at the graduate level and students should consult the Graduate Bulletin for details.

Physical Therapy
Physical Therapy is a dynamic health profession that develops, coordinates and utilizes selected knowledge, skills and techniques in planning, organizing and directing programs for the care of individuals whose ability to function is impaired or threatened by disease or injury. The practice of physical therapy includes: examination, evaluation, diagnosis, prognosis, intervention, and analysis of outcomes.

Physical Therapists provide services to patients/clients who have impairments of body function and structure, activity limitations or participation restrictions or changes in physical function and health status resulting from injury, disease or other causes. Physical therapists must be able to collaborate with a variety of professionals, address risk factors to health, be leaders and providers in the areas of prevention and promoting health, wellness and fitness, serve as educators, consultants, administrators and advocates, utilize critical inquiry skills and direct and supervise the provision of physical therapy services (Guide to Physical Therapist Practice, APTA, 2003).

Some examples of diagnoses of individuals who might be seen by a physical therapist include stroke, low back pain, ACL knee injury, Parkinson's Disease, spinal cord injury, amputation, heart attack, athletic injury, arthritis, cerebral palsy, rotator cuff (shoulder) injury, total joint replacement, spina bifida, general health and personal training, congestive heart failure, emphysema, cancer, head injury, multiple sclerosis, learning disabilities, speed and agility training, and many more. This program is offered only at the graduate level and students should consult the Graduate Bulletin for details. Wayne State students may apply to the program with 90 undergraduate credit hours if all other prerequisites courses are completed.

Physician Assistant Studies
The mission of the physician assistant studies program is to train highly-qualified physician assistants for primary care in inner-city and other under-served areas of the State of Michigan. This is a graduate-level program designed to meet the need for qualified medical professionals; it is two years in length, and classes begin in May of each year. Interested students should consult the Graduate Bulletin for details.

Radiation Therapy Technology
This health care discipline utilizes ionizing radiation for the treatment of malignant disease. This field requires a basic understanding of and interest in science, especially mathematics and physics, as well as emotional maturity and a desire to assist in the management of patient care. The program is a four-year curriculum consisting of two years of pre-professional and two years of professional course work.

Radiologic Technology
Radiologic Technology is a health care discipline that utilizes ionizing radiation for the diagnosis of disease processes in the human body. This field requires a basic understanding of mathematics and science and a desire to serve patients. As a radiographer, one has the opportunity to combine interpersonal and patient assessment skills while employing highly technical equipment. A diagnostic radiologic technologist is able to formulate exposure factors dependent on procedure, pathology and individual patient dynamics; assist radiologists in more invasive procedures such as fluoroscopic studies; evaluate images for quality and accuracy; and provide support to patients anxious about their health. These technologists are typically employed in hospitals, clinics, educational institutions, and commercial equipment corporations as staff radiographers, clinical supervisors, administrators, educators, marketing personnel and applications specialists.

Department of Pharmacy Practice
The Department of Pharmacy Practice prepares students for entry into the pharmacy profession through coursework in the applied use of drug therapy in the treatment and prevention of human disease, provision of patient-centered care in clinical practice environments, and conducts research related to the rational use, delivery, and access to drugs and other therapeutic modalities. Pharmacy Practice also includes service and leadership to the University and profession of pharmacy and the public related to education and the optimal use of medications.

Department of Pharmaceutical Sciences
The Department of Pharmaceutical Sciences shares responsibility for the Doctor of Pharmacy program with the Department of Pharmacy Practice. Teaching and learning in the Pharm.D. program are designed for the graduate to improve human health, wellness and safety. The Pharmaceutical Sciences span from basic to multidisciplinary and translational aspects of human health, including the conception, discovery, formulation, delivery, action and safety of therapeutic medicines and other agents. Ph.D. and M.S. programs specializing in medicinal chemistry, pharmaceutics and pharmacology / toxicology provide a stimulating and supportive environment for advanced education and for the successful completion of original research projects. Ph.D. candidates receive Graduate Research Assistantships consisting of competitive stipends, remission of tuition and full health insurance. The department is home to research-intensive programs of study covering a wide range of specialized areas for outstanding postdoctoral fellows and undergraduates. Department members provide much-needed expertise to organizations that are committed to the treatment and prevention of human disease, and to advancing the health and safety of animals and the environment. They are leaders in their service to the University and the professions of pharmacy and pharmaceutical sciences through research, education and outreach. Graduates of these programs are changing the world, one step at a time, through a rich academic tradition founded upon prizing excellence, extending collegiality and making a difference locally and globally.

Accreditation
The Higher Learning Commission accredits Wayne State University and professional programs in this College are accredited by their respective agencies. Please visit program tabs to see individual accreditation information or visit Accreditation (p. 13).

Academic Regulations: College of Pharmacy and Health Sciences
For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 10) section of this bulletin. The following additions and amendments pertain to health sciences students.

Academic Regulations Terminology
1. Professional course means any course required in the Pharm.D., D.P.T. or M.O.T curriculum and any course approved for professional elective credit and elected by the student for that purpose.
2. Satisfactory grade means a grade of C or above, or a grade of S.
3. **Unsatisfactory grade** means a grade of C-minus or below 2.0 grade points, or a mark of X or unauthorized W Marks of X or marks of W which have not been authorized will be treated as an E.

4. **Probation** means a restricted status in the program (see below).

5. **Dismissal** from the program means that the student may no longer register in the program or elect professional course work. Continued registration in the University requires that a Change of Status to another program be initiated by the student.

### Academic and Professional Progress

The College expects its students to develop professional competence and to satisfy the same high standards of exemplary character, appearance, and ethical conduct expected of health care professionals. To merit confidence and esteem, both personally and in the health care professions, appropriate dress and demeanor are expected of each student in their respective academic and professional program.

Each program has a process or committee in place to review student performance regularly and makes decisions concerning probationary status. A student may be dismissed from the College at any time for an unsatisfactory academic or professional record, for irresponsible attendance, or other failures to diligently pursue the academic and professional program.

### Outside Employment

The curriculum has been arranged with the presumption that the student will devote full time and energy to their academic program. Internships, fieldwork and other pharmaceutical employment are recognized as an integral part of the academic and professional growth of a pharmacy or health science student. The student, however, is responsible for maintaining the appropriate balance between such activity and satisfactory achievement in the classroom.

### Attendance

Regularity in attendance and performance is necessary for success in college work. At the beginning of each course the instructor will announce and/or include in the syllabus the specific attendance required of students as part of the successful completion of the course. Effective Fall semester 2016, a new policy requires students to respond to a request for course participation (http://reg.wayne.edu/gotoclass.php) confirmation.

### Admission to Pre-professional Programs

Pre-professional programs in clinical laboratory science, mortuary science, occupational therapy, pharmacy, physical therapy, radiation therapy technology and radiologic technology are taken in the College of Liberal Arts and Sciences and students apply for admission to that College, and fulfill requirements for general undergraduate admission (p. 19) to the University. The Office of Admissions is located in the University Welcome Center, Wayne State University, Detroit, Michigan 48202; telephone: 313-577-3577. Admissions counselors are available for personal conferences to aid the prospective student.

### Admission to Professional Programs

All professional programs in the College are limited in the number of applicants that can be accepted. This limitation is created not only by the number of faculty members available but also by the number of positions available in health care facilities where much of the field work experience is conducted at a 1:1 or 1:2 faculty-to-student ratio.

Students are admitted to the professional program annually. Since each program has special requirements for admission, students are urged to attend one of the monthly Information Meetings (http://www.cphs.wayne.edu/meetings.php) (mandatory for some programs) for advising and application deadline dates a year before they plan to enter. Individuals can register for the free monthly Information Meetings online. Students are to check with each program to verify the deadline date for admission to that program.

For admission to the professional programs in the College, applicants must have completed all equivalent pre-professional courses and other requirements. Students admitted to the professional program usually have a grade point average of 2.5 (‘A’ = 4.0) or better.

Although academic achievement is important, personal qualities and professional behaviors are considered of equal importance since the students selected will eventually be working as members of a team in the delivery of health care. Therefore, criteria for selection are also based on such qualities as maturity, motivation, knowledge of the profession, ability to communicate, personal integrity and empathy for others. Consequently, evaluations from faculty and academic advisors, as well as a personal interview, are given great weight in the selection of candidates by admissions committees.

### Academic Advising

A staff of academic advisors is available in the University Advising Center, 1600 Adaman Library, for students interested in health sciences professions.

Students, during their sophomore year, should confer with the professional program advisor of the health sciences profession of their choice, during attendance at one of the Monthly Information Meetings, whenever they have questions about degree requirements, academic regulations, course elections, programs of study, or difficulties in their academic work. Course elections are arranged in consultation with the professional program advisors.

### Normal Program Load

The requirements for graduation are based upon a normal program of fifteen credits per semester for eight to ten semesters. Because courses are of varying length, students cannot always arrange programs of exactly fifteen credits; hence the normal load is fourteen to eighteen credits.

### Academic Misbehavior

#### Academic Honesty:

Students are expected to abide by the principle of honesty which is fundamental to the life of a scholarly community. If any act of academic misbehavior, which includes cheating, plagiarism, or other acts are discovered, the instructor is expected to take appropriate action, which can include one or more of the following: reprimand, repeat assignment, a failing grade for the assignment, a failing grade for the course. Serious acts of dishonesty can lead to suspension or dismissal.

In any instance of academic misbehavior occurring in any course offered by the Eugene Applebaum College of Pharmacy and Health Sciences, as defined in section 2 of the WSU Student Code of Conduct (http://www.doso.wayne.edu/assets/codeofconduct.pdf), the provisions of Section 10.1 of the Student Code of Conduct will be implemented as follows:

The faculty member may, without filing a charge, adjust the grade downward (including downgrading to a failing grade) for the test, paper, or other course-related activity in question, or for the entire course. In any case, the faculty member shall provide the student with a copy of section 10.1 of the Student Code of Conduct and a copy of the member prepared
by the Ombudsperson, explaining the Ombudsperson's role, referred to in section 1.5 of the Student Code of Conduct.

Academic misbehavior policies of individual programs may vary from the above. Please see individual program for more information.

**Probation**

If a student's work falls below the required cumulative g.p.a. for professional studies, he/she will be placed on probation. If a student incurs a serious grade point deficiency in a semester, or remains on probation for more than one semester, he/she will not be allowed to re-register in the College unless he/she obtains permission from his/ her respective program or department. Such permission will be granted only after an appraisal of the student's situation and some assurance from the student that the previous causes of failure will not prevail in the proposed program.

**Program Probation:** A student whose semester g.p.a. falls below the required average will be placed on program probation. Each student must meet the academic and probationary requirements of his or her program.

**Removal of Probation:** The student will be removed from probation at the end of any semester in which he/she achieves a satisfactory overall g.p.a. as determined by the program.

Please see individual programs for more detailed information on program probation and dismissal policies.

**Student Rights and Responsibilities**

The College and its faculty reserve the right to dismiss a student at any time who does not appear to be suited for the work or whose conduct or academic standing is regarded as unsatisfactory. Students are urged to review the specific policies of their respective program or department.

**Grade Appeals**

Official Policies and Procedures

College Policy No. 89.01 FINAL COURSE GRADE APPEALS

Modifications April 26, 2016, Approved September 28, 2016

**THIS VERSION REPLACES AND SUPERSEDES ALL PRIOR VERSIONS OF FINAL COURSE GRADE APPEALS POLICY.** This policy is effective immediately for final course grades received for Fall 2016 and all terms going forward.

The following is the policy implemented for Final Course Grade Appeals in the Eugene Applebaum College of Pharmacy and Health Sciences. At the beginning of each term, the instructor is to inform students in writing of the criteria used in arriving at grades for the class including the relative importance of prepared papers, quizzes and examinations, class participation and attendance. Where student performance in other practical and structured activities is relevant in evaluating professional competency, criteria used in such evaluations should be stated. Written materials should be graded in a timely manner and such materials, together with comments and an explanation of grading criteria, are to be made available to students. Students should be encouraged to discuss any class related problems with the instructor.

Instructors are expected to evaluate student work according to sound academic standards.

Equal expectations should be required of all students in a class (although more work is expected from graduate students than from undergraduates) and grades should be assigned without departing from announced procedures.

It is the instructor's prerogative to assign grades in accordance with his or her academic and professional judgment and the student assumes the burden of proof in the appeals process. Grounds for appeals are:

1. the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

**This final course grade change policy does not apply to allegations of academic misbehavior.** Academic misbehavior matters are addressed by Section 10.1 of the WSU Student Code of Conduct (http://dos.o.wayne.edu/assets/scoc_section_10.1_a-b.pdf).

**Definition: Instructor** - Instructor applies to full-time, fractional-time, part-time faculty as well as Graduate Teaching Assistants, Adjuncts, and Academic Staff with teaching duties.

**Final Course Grade Appeals Policy and Procedure**

**Informal Final Course Grade Review**

1. Prior to an appeal of a course final grade all issues must first be directed to the instructor of the course for consideration of resolution.
2. The initial request of a grade review should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.
3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal grade appeal within thirty calendar days following posting of the final course grade. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

**Formal Final Course Grade Appeal Policy and Procedure**

If the final grade in question remains unchanged after the informal final course grade review, any formal Course Grade Appeal to change the grade in question must be initiated in writing by the student within thirty calendar days following the posting of the final course grade. The Student must submit a formal written appeal to the appropriate Department Chair. This formal appeal must include a copy of the current course syllabus and a student appeal letter including detailed justification for the appeal. This documentation must explicitly state which of the three criteria of allowable rationales is applicable and how the alleged violation occurred.

**Formal Final Course Grade Appeal**

1. The Department Chair shall provide a time-stamped and dated copy of the formal student course grade appeal to the instructor, program director or program/department grade appeal committee. The Department Chair will then request input and/or response from the instructor, program director or the program/department grade appeal committee.
2. Student or Faculty involved in a grade appeal process may contact the University Ombudsperson at any time for assistance with any questions associated with a grade decision or the grade appeal process.
3. The Department Chair may convene an ad hoc special review committee (or charge an existing committee) to advise on any dispute.

4. The Department Chair shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal course grade appeal. The Department Chair will place, in writing, the final decision to the student, instructor, program director, program/department grade appeal committee or the reason for any delay in decision. The decision of the Department Chair can be appealed to the Office of the Dean.

5. Appeals to the Office of the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair. The Dean or her/his designee must respond to the student appeal within thirty calendar days. The decision of the Dean or her/his designee is the final decision at the College level.

6. If the appeal is denied at the Dean (designee) of the College level, the student may appeal to the Provost within thirty calendar days of the College’s decision. The student’s formal appeal to the Office of the Provost must include a copy of the current course syllabus, the initial student appeal letter including detailed justification for the appeal, the Department Chair’s response letter, and the Dean’s (or designee’s) written response. The decision of the Provost or his/her designee is final. No further appeal is possible.

**Combined Grade Appeal/Dismissal Policy**

**College Policy No. 89.06**

Established and Approved September 28, 2016

The following is the policy implemented when a student has been dismissed from a program or department in the Eugene Applebaum College of Pharmacy and Health Sciences. Specific guidelines for dismissal are available (by programs and departments) in student handbooks and in other electronic formats on program, department, and College web pages.

**Combined Grade Appeal/Dismissal Policy**

If the final course grade leads to dismissal, the dismissal will be considered simultaneously in the final course grade appeal process. There is no separate or additional appeal process for a dismissal based on a final course grade. This would be referred to as a “combined” appeal. In the event the combined final grade/dismissal appeal is denied by the Dean (or designee) a final appeal can be made by the student to the Provost as part of the combined grade appeal/dismissal process.

If dismissal results from an unprofessional behavior violation or other non-academic reason not addressed within the program or department student handbook, the WSU Student Code of Conduct (http://doso.wayne.edu/assets/student-code-of-conduct-brochure.pdf) will be applied. Academic misbehavior matters are addressed by Section 10.1 of the WSU Student Code of Conduct.

**Definition: Instructor** - Instructor applies to full-time, fractional-time, part-time faculty as well as Graduate Teaching Assistants, Adjuncts, and Academic Staff with teaching duties.

**Combined Grade Appeal/Dismissal Policy and Procedure**

**Informal Grade Appeal/Dismissal Review**

1. Prior to a combined appeal of a grade/dismissal all issues must first be directed to the instructor of the course for consideration of resolution.

2. The initial request should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.

3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal combined grade appeal/dismissal process. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

**Formal Combined Grade Appeal/Dismissal Policy and Procedure**

If the dismissal status remains unchanged after the informal meeting with the instructor, the formal Grade Appeal/Dismissal process must be initiated in writing by the student within thirty calendar days following the notification of the final course grade that precipitated the dismissal. The student must submit a formal written appeal to the appropriate Department Chair (or designee). This formal appeal must include a copy of the current course syllabus and a student appeal letter including detailed justification for the appeal of the dismissal.

**Formal Combined Grade Appeal/Dismissal Process**

1. The Department Chair (or designee) shall provide a time-stamped and dated copy of the formal student dismissal appeal to the instructor, program director or program/department appeal committee. The Department Chair (or designee) will then request input and/or response from the instructor, program director or the program/department appeal committee.

2. Student or Faculty involved in a dismissal appeal process may contact the University Ombudsperson at any time for assistance with any questions associated with a grade decision or the grade appeal/dismissal process.

3. The Department Chair (or designee) may convene an ad hoc special review committee (or charge an existing committee) to advise on any dismissal.

4. The Department Chair (or designee) shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal dismissal appeal. The Department Chair (or designee) will place, in writing, the final decision to the student, instructor, program director, program/department appeal committee or the reason for any delay in decision. The decision of the Department Chair (or designee) can be appealed to the Dean.

5. Appeals to the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair (or designee). The Dean or his/her designee must respond to the student appeal within thirty calendar days. The decision of the Dean or his/her designee is the final decision at the College level.

6. If the appeal is denied at the Dean (or designee) of the College level, the student may appeal to the Office of the Provost within thirty calendar days of the College’s decision. The student’s formal appeal to the Office of the Provost must include a copy of the current course syllabus and a student appeal letter including detailed justification for the appeal, the Department Chair’s response letter, and the Dean’s (or designee’s) written response. The decision of the Provost or his/her designee is final. No further appeal is possible.

The student may also file with the Provost’s Office a Request for a Postponement of the effect of the College’s final decision. Such a request must be postmarked within seven calendar days of the postmark of the College’s final decision, and a copy must be sent to the Dean of the College. Upon receiving a Request for Postponement, the Provost will immediately contact the Dean. Unless the College demonstrates clearly and convincingly that the injury to the College or to third persons that would result from such a postponement would outweigh the injury to the student from denying the postponement, the effect of the decision rendered by the College must be postponed until the date that the Provost issues a decision regarding the underlying Request for Provost
Review. The Provost will inform the student and the Dean of her/his decision regarding the Request for Postponement within three school days after receiving the request. Exceptions to this procedure may be granted by the Provost upon a showing of good and sufficient cause.

**Dismissal Policy and Procedure**

This applies to appeals of any and all dismissals that occurred because of academic, non-academic, or professional behavior violations.

**Informal Dismissal Review**

1. Prior to a dismissal all issues must first be directed to the instructor of the course for consideration of resolution.
2. The initial request should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.
3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal dismissal appeal process. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

**Formal Dismissal Appeal Policy and Procedure**

If the dismissal status remains unchanged after the informal meeting with the instructor, the formal dismissal process must be initiated in writing by the student within thirty calendar days following the notification of the action that precipitated the dismissal. The student must submit a formal written appeal to the appropriate Department Chair (or designee). This formal appeal must include a letter including detailed justification for the appeal of the dismissal.

**Formal Dismissal Process**

1. The Department Chair (or designee) shall provide a time-stamped and dated copy of the formal student dismissal appeal to the instructor, program director or program/department appeal committee. The Department Chair (or designee) will then request input and/or response from the instructor, program director or the program/department appeal committee.
2. Student or Faculty involved in a dismissal appeal process may contact the University Ombudsperson at any time for assistance with any questions associated with the dismissal process.
3. The Department Chair (or designee) may convene an ad hoc special review committee (or charge an existing committee) to advise on any dismissal.
4. The Department Chair (or designee) shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal dismissal appeal. The Department Chair (or designee) will place, in writing, the final decision to the instructor, program director, program/department appeal committee or the reason for any delay in decision. The decision of the Department Chair (or designee) can be appealed to the Dean.
5. Appeals to the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair (or designee). The Dean or his/her designee must respond to the student dismissal appeal within thirty calendar days. The decision of the Dean or his/her designee is the final decision at the College level.
6. If the dismissal appeal is denied at the Dean (or designee) of the College level, the student may appeal to the Office of the Provost within thirty calendar days of the College’s decision. The student’s formal dismissal appeal to the Office of the Provost must include a copy of the current course syllabus, the initial student appeal letter including detailed justification for the appeal, the Department Chair’s (or designee’s) response letter, and the Dean’s (or designee’s) written response. The decision of the Provost or his/her designee is final. No further appeal is possible.

**Suspension**

In extenuating circumstances, a suspension may be recommended during the appeal process. Suspension is a temporary removal of a student from participation in educational activities. While suspended, the student is placed on an administrative leave of absence.

Suspension may occur for failure to meet program/department, College or University requirements, because of a serious allegation of unprofessional behavior, or when a student is deemed to be a danger to others or him/herself. A recommendation for suspension can be made in writing to the student by the Assistant Dean for Student Affairs, the Associate Deans for Pharmacy or Health Sciences in consultation with the Dean of Students or the Office of the Provost.

**Dismissal Policies Listed by Program/Department**

Students should refer to their program or department for the applicable dismissal policy.

**College Bachelor’s Degree Requirements**

Specific requirements for the several bachelor’s degrees offered by the College are enumerated in the departmental and program sections of this bulletin. Following are general College and University policies governing baccalaureate programs.

**High School Preparation (Recommended)**

Students who plan to enter the University as freshmen should have included in their high school programs at least three years of English, one year of algebra, one year of plane geometry, at least one course in a laboratory science, and at least two years of a foreign language. Some programs require additional work in mathematics and science. High school students and their parents are encouraged to attend the Eugene Applebaum College of Pharmacy and Health Sciences High School Information Meetings (http://www.cphs.wayne.edu/highschool.php) held on the first Tuesday of October, November, December, February, March and April at 6 p.m. at the College.

**Residence**

The last thirty credits of work applicable to the degree, exclusive of credit by special examination, must be completed in an undergraduate college or school of Wayne State University.

**Time Limitations**

It is the policy of the College that preprofessional science courses must be completed within six years just prior to admission to a professional program. Exceptions to this policy may be made on a case-by-case basis at the sole discretion of the program faculty. Documentation of competency during post-graduation/pre-admission employment must be provided by the applicant requesting the exception. There is no appeal for this exception request of this policy.

**Student Support Services and Organizations**

**Office of Student Affairs**

The Office of Student Affairs (OSA) provides program information, monthly information meetings and advising support to prospective and current students for the degree and certificate programs offered by the College. From this office prospective students can obtain advice about admission requirements and program prerequisites and have their transcripts evaluated for transfer equivalencies. Additionally, information
on registration and financial aid; enrollment verification required for financial aid, internship licensing, or other purposes is processed through this office. The Office also audits student records for completion of General Education Requirements and program requirements prior to graduation. The OSA staff participates in the various activities with the main campus, including recruitment fairs, graduation, new student convocations, FestiFall, prospective student open house, and Scholars Day. The OSA staff supports EACPHS student organizations, facilitate Community Apple Days, participate in numerous recruitment activities such as career and educational fairs at local middle schools, high schools, colleges, and universities.

**Student Organizations**

There are many student organizations within the College that allow a student to be active in professional and extracurricular activities. Please contact individual program offices for more information regarding student organizations.

### Clinical Laboratory Science

**Office:** 401 Mortuary Science Building; 313-577-2050  
**Program Director:** Karen K. Apolloni  
http://cphs.wayne.edu/cls

The Clinical Laboratory Science programs encompass health professions dedicated to providing accurate diagnostic information to medical practitioners. The field offers challenging opportunities for people with aptitudes in the basic sciences and interest in a health care career. The programs at Wayne State University provide students with the technical knowledge and specialized skills necessary for laboratory professionals. Success in each program requires manual dexterity and visual acuity.

All programs consist of a pre-professional and a professional curriculum. The freshman and sophomore years constitute the pre-professional program comprising courses taught by the faculty of the College of Liberal Arts and Sciences. The professional program begins with the junior year and is taught by the faculty of the Department of Fundamental and Applied Sciences. The senior year consists of didactic course work and may include clinical experience in the laboratories of one of the affiliated hospitals.

Students are initially admitted to the Bachelor of Health Science concentration in laboratory science. Students desiring certification as a clinical laboratory scientist/medical technologist must apply for clinical rotation placement in the summer before the beginning of their senior year. Those accepted for clinical rotation placement will be transferred to the B.S. in Clinical Laboratory Science degree track for their senior/final year. Students who do not receive clinical placement remain in the B.H.S. program and graduate with the Bachelor of Health Science with a concentration in laboratory science degree.

These degrees require completion of 120-134 credits in course work that includes sufficient credits and courses to fulfill the University General Education Requirements (p. 31) and the required courses and credits in the professional program curriculum to meet graduation requirements. The distribution of the total credits for the degree is between the pre-professional program and the professional program curriculum.

**Accreditation:** The Clinical Laboratory Science Program is accredited by the:

National Accrediting Agency for Clinical Laboratory Science (NAACLS)  
5600 N. River Road, Suite 720  
Rosemont, IL 60018 (773-714-8880).

---

### Academic Regulations

#### Academic Standing

Students must demonstrate sufficient skills, knowledge, and professional behavior to be placed in a clinical experiential sequence. No student will be admitted to the clinical experiential courses with an overall g.p.a. of less than 2.75 in the professional courses. Students must achieve a 'C' (73%) or better in all professional courses before advancing to clinical courses. No senior student with a grade of less than 'C' in any clinical course will graduate with a B.S. in CLS, however, they may still graduate with the B.H.S. laboratory science concentration if those degree requirements are met, see below.

**Academic Dismissal:** Any student who receives an 'F' as a final grade will be subject to automatic dismissal. Students receiving less than 'C' (73%) in any course will not be considered for transfer to the CLS track. Only students who have a g.p.a. above 2.75 in professional courses will be considered for transfer to the B.S. in CLS for their senior year. Due to limited laboratory space, repeating a course will generally not be permitted.

**Academic Probation:** A student in the B.H.S. program who receives a second D-plus or lower in a professional course will be placed on probation. The third D-plus or lower grade will result in dismissal from the B.H.S. program. A student in the B.H.S. program whose g.p.a. falls below 2.0 in professional course work will be placed on academic probation and will be granted only one term to bring the g.p.a. to 2.0 or above. An overall g.p.a. of 2.0 or greater in professional program courses is required to graduate with a Bachelor of Health Science with a concentration in Laboratory Science degree.

**Readmission:** Students who have been dismissed for academic reasons and wish to be readmitted to the B.H.S. Laboratory Science concentration program will have the opportunity to do so only once. Students must receive a 'C' or above in all repeated courses in order to continue in the program. The decision to readmit a student will be on a competitive basis and readmission is not guaranteed. If, upon readmission, the student fails to meet the academic standards of the Program he/she will be dismissed and not readmitted at any time thereafter.

Any student who has been dismissed for academic reasons during the first admission to the program but has successfully completed clinical laboratory science course work with a grade of 'C' or better need not repeat these courses upon final readmission. All courses receiving a final grade less than C (C-minus, D, or F) must be repeated. It may be necessary for the student to change status from full-time to part-time in order to repeat the academically substandard work. If more than one year elapses from the time these courses were successfully completed, and the student is readmitted, it may be necessary to repeat the entire course of study. The faculty reserves the right to recommend repetition of courses for any student who is readmitted to the professional program and, in specific cases, may alter this policy and assign a directed study.

**Change of Status:** Any student wanting to have their status changed from full-time to part-time must comply with the following guidelines:

1. Request the status change no later than the ninth week of classes from the Clinical Laboratory Science Program Director.
2. Present a reason or reasons acceptable to the Clinical Laboratory Science Program as determined by the faculty, realizing that this decision will be final.
3. Continue as a part-time student under the predetermined curriculum as set forth by this Program.
4. Understand that this option may be limited by current and future enrollment; again, the decision of the faculty on this basis is final.
Health and Liability Insurance
Clinical instruction may be provided throughout the professional program along with didactic course work. A portion of the Senior Year may be spent in one or more assignments in selected clinical facilities throughout the metropolitan Detroit area and Michigan. Patient care involves inherent risk of exposure to potential diseases, particularly blood-borne pathogens, and the risk of possible mishaps in patient care. Therefore, all students are required to maintain health insurance coverage and liability insurance, both of which must be in effect prior to and during all periods in which the student is involved in clinical education. The student is responsible for the cost of the insurance and all other costs (such as travel, meals, and living expenses) associated with the clinical education portion of the program.

Student Professional Activities: All CLS students may participate in the local, state and national organizations of the American Society for Clinical Laboratory Science.

• Clinical Laboratory Science (B.S.) (p. 322)
• Laboratory Science Concentration (B.H.S.) (p. 323)

Clinical Laboratory Science (B.S.)
The program leading to the Bachelor of Science in Clinical Laboratory Science prepares graduates to take a national certification examination in this discipline. The program consists of a preprofessional and a professional curriculum. The freshman and sophomore years constitute the preprofessional program comprising courses taught by the faculty of the College of Liberal Arts and Sciences. The professional program begins with the junior year and is taught by the faculty of the Department of Fundamental and Applied Sciences. The senior year consists of didactic course work and clinical experience in the laboratories of one of the affiliated hospitals.

The work of the clinical laboratory scientist involves:
1. Provision of accurate diagnostic information to the physician through performance of a vast array of laboratory tests.
2. Comparative evaluation and utilization of the best possible methods of performance of these tests.
3. Operation of sophisticated laboratory equipment.
4. Effective teaching and supervision of students and auxiliary laboratory personnel.

While the majority of clinical laboratory scientists work in hospitals or other clinical laboratories, graduates are also prepared for positions in federal, state and local public health departments, in industrial or research laboratories and in clinical laboratory science education.

The programs offered in Clinical Laboratory Science utilize the facilities of the Eugene Applebaum College of Pharmacy and Health Sciences, the faculty of the Department of Fundamental and Applied Sciences and the clinical laboratories and pathology departments of hospitals affiliated with the clinical laboratory science (medical technology) program.

Pre-professional Program
Pre-professional Admission: Students seeking admission to the preprofessional program in the College of Liberal Arts and Sciences should refer to the admission requirements (p. 19) of the University. High school prerequisites for applicants pursuing the Bachelor of Science in Clinical Laboratory Science are:

High school units
- Algebra: 1.5
- Biology: 1
- Chemistry: 1
- Geometry: 1
- Trigonometry: 0.5

Recommended: One to two units of a foreign language, one to two units in advanced English, and computer use skills.

Although the College of Liberal Arts and Sciences does not offer course work in the first unit of algebra, some mathematics deficiencies can be remediated by taking MAT 0993 or MAT 0995. Students with no preparedness in mathematics will have to correct this deficiency at a high school. Before the first course in college chemistry or college mathematics can be taken, the student must pass a placement test in these subjects.

A deficiency of any of the above high school units may extend the time required for completion of the courses prerequisite to beginning the professional curriculum in the junior year, or it may restrict the electives that may be taken. Any entrance deficiencies should be made up as early as possible, preferably in the first year.

Professional Program
Admission
Students are initially admitted to the Bachelor of Health Science with a concentration in laboratory science degree program. Students desiring certification as a clinical laboratory scientist/medical technologist must apply for clinical rotation placement in the summer before the beginning of their senior year. Those accepted for clinical rotation placement will be transferred to the B.S. in Clinical Laboratory Science degree track for their senior/final year. Students who do not receive clinical placement remain in the B.H.S. program and graduate with the Bachelor of Health Science with a concentration in laboratory science degree.

The junior class is admitted to the professional curriculum in the Fall Semester only. All applicants will be admitted to the Bachelor of Health Science laboratory science concentration. After the first year in the professional program, interested students will apply for a clinical position. An application for admission to the program must be submitted to the Clinical Laboratory Science Program by April 1 of the year one wishes to enter the professional curriculum.

The Admissions Committee is composed of clinical laboratory scientists on the faculty and adjunct faculty from clinical affiliates. The Admissions Committee will interview and consider for admission students who have:

1. The following cumulative grade point averages by the end of the second semester of the year preceding admission to the professional program:
   a. 2.7 or greater overall average; and
   b. 2.7 or greater combined science average (biology, chemistry, computer science, mathematics).
2. A grade of ‘C’ or better in ALL preprofessional courses.
3. No more than two repeats or withdrawals (marks of ‘W’ or ‘WF’) in science courses preferred. (If all courses are withdrawn in a single semester, it counts as one ‘W’)
4. Completed all preprofessional courses (see above) by the end of the summer semester prior to admission to the professional program.
5. Submitted, in addition to the application, the following:
   a. Two references (reference forms available in the CLS application packet) from: one employer and one science faculty member (If there is no employer, two science faculty references may be submitted).
   b. If the student has transferred to Wayne State University, submitted official transcripts from all former undergraduate schools.
c. If a Wayne State student, student copy of Wayne State transcripts.

Since clinical positions are limited, the Admissions Committee must consider each applicant individually. A sound academic background, and a familiarity with the profession and its demands, together with a desire to advance the field of clinical laboratory science through research, teaching or service are important factors for consideration. Emotional stability, maturity and the ability to communicate are among the criteria used in considering students.

All requests for additional information should be addressed to the Department of Fundamental and Applied Sciences, Clinical Laboratory Science Program, Eugene Applebaum College of Pharmacy and Health Sciences.

Professional courses and/or professional program admission requirements are subject to change without notification. The curriculum is subject to change due to adjustments in requirements for entry into professional practice, which may be separate from academic requirements. It is the student’s responsibility to obtain current information regarding the Clinical Laboratory Science Program.

**Pre-professional Curriculum**

Preprofessional science courses must be completed within the six years just prior to admission to a professional program. Exceptions to this policy may be made on a case-by-case basis at the discretion of the program faculty. Documentation of competency must be provided by the applicant requesting the exception. There is no appeal for an exception request of this policy.

These courses are taken under direction of the College of Liberal Arts and Sciences.

Candidates for the Bachelor of Science in Clinical Laboratory Science degree must complete 120-134 credits in course work, including sufficient credits to fulfill the University General Education Requirements (p. 31) not satisfied by either required courses or the student’s choice of electives in the pre-professional program. The distribution of the total credits for the degree will be between the pre-professional program and the following professional program.

**CLS Professional Curriculum**

Science courses in this program are taken under the direction of the faculty of Clinical Laboratory Science in cooperation with the faculty of the Department of Fundamental and Applied Sciences and the staff of affiliated clinical institutions.

Courses are completed at a clinical laboratory affiliated with the Eugene Applebaum College of Pharmacy and Health Sciences.

**Laboratory Science Concentration (B.H.S.)**

Students interested in the B.S. in Clinical Laboratory Science (CLS) are initially admitted into this degree track. If a student is not accepted into the CLS track in the Fall of the second professional program year, he/
she may complete sufficient credits to graduate with the Bachelor of Health Science with a concentration in laboratory science degree. This degree is also for students interested in entering a subsequent graduate program. The curriculum allows flexibility in course selection to meet the prerequisites for the Pathologists’ Assistant Program, Physician Assistant Studies Program, medical school, or graduate school in a basic medical science. This degree does not include any clinical experiential courses. Admission to the CLS major program is required to register for clinical experiential courses.

Admission decisions for the B.H.S. with a concentration in laboratory science degree may include: Accepted, Denied, or Conditional Acceptance. If applicants are taking prerequisite courses during the application process, acceptance will not be final until satisfactory completion of the requirements.

The B.H.S. with a concentration in laboratory science degree requires a total of 120 credits.

**Mortuary Science**

*Office:* 5439 Woodward Ave.; 313-577-2050  
*Chair, Department of Fundamental & Applied Sciences:* Peter D. Frade

The Mortuary Science program at Wayne State University is accredited by the American Board of Funeral Service Education (ABFSE), 992 Mantua Pike, Suite 108 Woodbury Heights, NJ 08097 816-233-3747; web: http://www.abfse.org. National Board Examination pass rates, graduation rates, and employment rates for this and other ABFSE-accredited programs are available on the website. To request a printed copy of this program’s rates, go to Room 114 of the Mortuary Science Building, 5439 Woodward Ave. Detroit, MI 48202 or by e-mail at fundappsciences@wayne.edu or telephone 313-577-2050.

The Pathologists’ Assistant program trains highly qualified professionals in all aspects defined by the American Association of Pathologists’ Assistants (AAPA) in clinical and surgical pathology and as required by the Board of Registry Examination of the American Society for Clinical Pathology (ASCP). The Bachelor of Science in Pathologists’ Assistant degree program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 N. River Rd., Suite 720, Rosemont, IL 60018-5119; 773-714-8880, FAX 773-714-8886, http://www.naacls.org.

The Post-Bachelor Certificate in Forensic Investigation program offers individuals career enhancement or educational development formats. The program is designed for students with a bachelor’s degree from a four-year regionally accredited institution who wish to gain competence in the area of forensic investigation.

The services and facilities characteristic of a major university are available to students in these programs. In addition to its own full-time faculty, the instructional staff is selected from the various departments of the University as well as from the core of experienced practitioners in the community. The professional programs offer extensive opportunity to participate in clinical/practicum training.

Prospective students should direct inquiries to: Department of Fundamental and Applied Sciences, 5439 Woodward Ave., Detroit, Michigan 48202; telephone: 313-577-2050; Fax: 313-577-4456; http://www.mortsci.wayne.edu

**Academic Regulations**

For complete information regarding academic rules and regulations the University (p. 10) and of the College (p. 316), students should consult the appropriate sections of this bulletin. The following additions and amendments pertain to Departmental programs.

**Attendance**

Students are expected to adhere to departmental and program attendance requirements. Anticipated absence from lecture or laboratory classes should be reported to the appropriate faculty member.

**Leaves of Absence**

Leaves of absence may be granted to students with documented health problems or extenuating circumstances as well as to those pursuing appropriate educational opportunities outside the college.

**Promotion/Dismissal**

Evaluation of students is primarily the responsibility of teaching faculty who make recommendations to the Promotion and Advancement Committee. These recommendations may include: promotion, reexamination, repetition of all or part of the curricula, interruption or suspension or probation of a student’s program, or dismissal.

The Promotion and Advancement Committee is chaired by the Chairperson of the Department and consists of six members selected from appropriate programs. The Promotion and Advancement Committee is available to meet at the close of each semester, as required.
A student may be dismissed from a program for irresponsible attendance and/or irresponsible performance in clinical/practicum assignments. Students must demonstrate traits of character, stamina, and emotional stability appropriate to the professions. Students may be dismissed from the program if, in the judgment of the Promotion and Advancement Committee, they fail to maintain appropriate standards of conduct and academic progress.

**Course Grade Appeal**

Following the Departmental submission of grades in a professional course area and in the event of a student’s objection to the submitted grade, the student must utilize the published grade appeal process (p. 316) of the Eugene Applebaum College of Pharmacy and Health Sciences.

**Vocational Guidance and Placement**

Students contemplating careers in mortuary science or as pathologists’ assistants may take advantage of the Department and University counseling services. Every effort is made by the Departmental staff to acquaint the applicant with the vocational aspects of the professions.

**Applying for Graduation**

Students must formally apply for graduation (https://wayne.edu/students/ready-graduate) through Academica no later than the end of the fifth week of classes during the intended semester of graduation.

- Mortuary Science (B.S.) (p. 325)
- Pathologists’ Assistant (B.S.) (p. 328)
- Forensic Investigation (Post-Bachelor's Certificate) (p. 325)

**Forensic Investigation (Post-Bachelor's Certificate)**

The Certificate Program in Forensic Investigation is designed for students who have earned a four-year bachelor's degree in another discipline from an accredited college or university who wish to acquire competence in the area of forensic investigation. This program is not designed to train forensic investigators; rather, its aim is to educate personnel whose professional scope and practice interfaces with the criminal justice system. This program can assist students as a foundation in their pursuit of advanced degrees in forensic specialties including physical / forensic anthropology and forensic psychology among others. The Program is offered by the Department in cooperation with the Department of Criminal Justice (W.S.U.), the Department of Biomedical Engineering (W.S.U.), the offices of the Wayne County Medical Examiner, the Oakland County Medical Examiner, and the Bureau of Alcohol, Tobacco and Firearms (ATF), among others.

**Admission Requirements**

The program is open to graduates of four-year baccalaureate programs in any accredited college or university who have a grade point average of 2.50 or better. Students whose degree is from Wayne State should apply directly to the program through the Office of Student Affairs (http://www.cphs.wayne.edu/program/forensic-post-apply.php), 259 Mack Avenue, Suite 1600, Detroit MI 48201; those from other institutions must submit the University application for undergraduate admission (p. 19). All application materials must be received by June 1 for fall admission only. Student informational interviews are conducted by members of the admissions committee prior to placement in the fall semester. All students admitted to the post-bachelor certificate program are expected to complete a Plan of Work during their first semester in the program. For information and application forms, contact the:

Department of Fundamental and Applied Sciences
Forensic Investigation Program

Detroit MI 48202
313-577-2050; Fax: 313-577-4456
http://www.mortsci.wayne.edu/forensics.php

The candidate for the post-baccalaureate Certificate in Forensic Investigation must complete the following program with a grade point average of 2.50 or above and completed all coursework at Wayne State University with a minimum of a C. Total credits for completion is a minimum of twenty-four credits.

**Mortuary Science (B.S.)**

Mark T. Evely, Program Director
313-577-1202; evely@wayne.edu

The Mortuary Science degree Program at Wayne State University is accredited by:

The American Board of Funeral Service Education (ABFSE)
992 Mantua Pike, Suite 108
Woodbury Heights, NJ 08097
(816) 233-3747
www.abfse.org (http://www.abfse.org)

National Board Examination pass rates, graduation rates, and employment rates for this and other ABFSE-accredited programs are available at www.abfse.org (http://www.abfse.org). To request a printed copy of this program's rates, go to Room 114 of the Mortuary Science Building, 5439 Woodward Ave., Detroit, MI 48202 or by e-mail at fundappsciences@wayne.edu or telephone 313-577-2050.

Wayne State University is accredited by the Higher Learning Commission and complies with its provisions on ethical and responsible conduct as per the Higher Learning Commission's standards and policies.
Program Objectives
1. To enlarge the background and knowledge of students about the funeral service profession;
2. To educate students in every phase of funeral service and to help enable them to develop proficiency and skills necessary for the profession;
3. To educate students concerning the responsibilities of the funeral service profession to the community at large;
4. To emphasize high standards of ethical conduct;
5. To provide a curriculum at the post-secondary level of instruction and,
6. To encourage student and faculty research in the field of funeral service.

Program Aims
The Wayne State University Mortuary Science Program recognizes the importance of funeral service personnel as:

- Members of the human services profession
- Members of the community in which they serve
- Participants in the relationship between bereaved families and those engaged in the funeral service profession
- Professionals knowledgeable of and compliant with federal, state/provincial/territorial, and local regulatory guidelines in the geographic area where they practice
- Professionals sensitive to the responsibility for public health, safety, and welfare in caring for human remains

Academic Advising and Transcript Evaluations
Academic advising, transcript evaluations, and questions regarding transfer credits are available through email to cphsinfo@wayne.edu or by calling 313-577-1716.

Grading Policy
Minimum Grade
Students in the Mortuary Science Program are required to maintain a program curriculum minimum GPA of 2.50 for continued enrollment and satisfactory completion. Your GPA will be calculated at the end of each semester to determine whether continued enrollment is possible. Each class must be passed with a grade of "C" or better. A grade of less than "C" will require that the course be retaken.

Grade of 'F'
A grade of 'F' indicates that required class was failed. No credit will be given for the course. Receiving a grade of F will result in dismissal from the program.

Grade of 'I'
A grade of 'I' indicates that required class and/or laboratory assignments were not completed or submitted as required. The grade is given at the discretion of the instructor in lieu of grading on the assignments submitted during the course. The student is required to meet with the instructor and submit a written Plan of Work confirming the agreement regarding the method, manner and timing of completing the assignments. The incomplete assignments must be completed by the end of the succeeding semester for a grade change to be given for the class. Failure to complete within the succeeding semester will result in a grade change appropriate for the assignments submitted during the class.

The following scale will be used in course grading:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Grade</th>

</tbody>
</table>

Grades may be viewed in Academica (http://academica.aws.wayne.edu). Grades are usually posted within 24 hours of an instructor submitting them. You will receive an e-mail informing you when grades are posted.

Time Limitations
While students are strongly encouraged to enroll full-time for three consecutive semesters, part-time enrollment will be limited to six consecutive semesters and is permitted only at the discretion of the Mortuary Science Program Admission Committee.

Degree Requirements
The candidate for the Bachelor of Science in Mortuary Science must satisfactorily complete:

1. Sixty-five credits of Professional Prerequisites and General Education requirements listed below;
2. Fifty-five credits in the Mortuary Science professional program curriculum;
3. Take both the Arts and Sciences parts of the National Board Examination within sixty days of completion of coursework.

All prerequisite, general education, and professional courses must be passed with a grade of C or higher. The overall GPA for the professional courses must be 2.5 or higher.

Pre-professional Program
There are two components of coursework that must be completed prior to beginning the Mortuary Science program: 1) program specific prerequisites; and 2) University General Education requirements. The professional curriculum in Mortuary Science consists of fifty-five credits, so an applicant must earn sixty-five credits, including the program prerequisites and general education requirements before entering the program. If the General Education and program prerequisites do not add up to sixty-five credits, elective courses must be taken to complete the sixty-five total credits needed prior to entering the program. This sixty-five plus fifty-five formula equals the 120 total credits required for the Bachelor of Science degree. The courses below are listed by their title and course number at Wayne State University. For comparable courses at other colleges, students should consult the Office of Transfer Credit (http://transfercredit.wayne.edu).

Specific mortuary science professional curriculum prerequisites must be completed with a grade of 'C' or better.

University General Education Requirements
General Education courses are required for every graduate of Wayne State University. Applicants may satisfy the general education requirements in one of the following ways:

1. earning a bachelor's degree from a regionally accredited institution,
2. earning an Associate of Arts (AA), Associate of Liberal Arts (ALA), Associate of Science (AS) or Associate of Baccalaureate Studies (ABS) degree from a Michigan community college,
3. obtaining a Michigan Transfer Agreement (MTA) stamp, or
4. obtaining a MACRAO stamp.

The following General Education courses must be satisfied:

- Historical Studies (HS) \(^1\)
- American Society and Institutions (AI) \(^1\)
- Social Science (SS)
- Foreign Culture (FC) \(^1\)
- Visual and Performing Arts (VP)
- Philosophy and Letters (PL)
- Critical and Analytic Thinking (CT) \(^1\)

\(^1\) Indicates courses or requirements that may be satisfied by examination or CLEP. Contact the WSU Office of Testing, Evaluation and Research (http://www.testing.wayne.edu) for further information.

Professional Program
Admission Requirements

1. Minimum of 2.50 GPA
2. All pre-professional coursework must be completed with a grade of "C" or better
3. All science and math coursework must be completed within six years of the time of application to the professional program.
4. Test of English as a Foreign Language (TOEFL) required only if English is not your first language
5. Minimum of 65 credits, including all program specific pre-requisites and University General Education requirements. A maximum of 64 credits can be transferred from a community college.
6. Pre-professional coursework taken at an accredited college or university is acceptable
7. Completion of all pre-professional courses by the end of the spring/summer semester before admission to the program (unless an exception is granted by the program)
8. All applicants must attend one monthly Information Meeting at the Eugene Applebaum College of Pharmacy and Health Sciences.

How to Apply
Students must submit the Mortuary Science Program Application (http://www.cphs.wayne.edu/mortuary-science/apply.php). The application deadline is May 15th of the year an applicant wants to enter the program.

Health and Immunization Record
All applicants, including transfer students from Colleges within Wayne State University, are required to submit to the Mortuary Science Program the results of a TB test administered within six months preceding their entrance into the program and a copy of their immunization history. Immunization against Hepatitis B Virus (HBV) is strongly advised; enrollees declining immunization are required to do so in writing.

**Occupational Therapy**

*Office: Room 2226 APHS: 313-577-5884  
Program Director: Doreen Head  
Admissions Coordinator: Regina Parnell  
Fieldwork Education Level I: Kim Banfill  
Department Secretary: Brandi Gonzales  
http://cphs.wayne.edu/ot/*

Occupational therapy helps people enhance wellness at any stage of life and their ability to perform in activities important to them. With the assistance of a qualified therapist, patients learn how to prevent, overcome, or manage physical and/or psychological impairments and to maintain health. Using exercise, activity and daily tasks, occupational therapists show patients how to live life to its fullest potential. The vision of the Occupational Therapy program encompasses education, research, and service excellence, in the promotion of occupations of meaning within a multicultural urban community.

- Occupational Therapy Concentration (B.H.S.) (p. 328)

**Occupational Therapy Concentration (B.H.S.)**

**Occupational Therapy**

The program offers coursework leading to the Bachelor of Health Science degree with a concentration in occupational therapy. This degree is awarded upon completion of approximately 71-73 pre-professional semester credits and 56 professional program credits, and it is a prerequisite for entry into the graduate component of the professional program, the Master of Occupational Therapy. The Eugene Applebaum College of Pharmacy and Health Sciences must formally accept students before admission to the professional courses. Students who successfully complete the B.H.S. occupational therapy concentration and meet the requirements for admission to the Graduate School at Wayne State University, are eligible to continue into the graduate component of the program. Students who already hold an undergraduate degree are eligible to receive a second bachelor’s degree.

The professional program is designed primarily for full-time enrollment; although part-time enrollment may be considered and must be approved by the program director on a case-by-case basis.

**Accreditation**

Wayne State University offers courses of study which are accredited by the Accreditation Council for Occupational Therapy Education (ACOTE (http://www.acoteonline.org)), located at 4720 Montgomery Lane, Suite 200 Bethesda, MD 20814-3449; 301-652-2682, and the accrediting body of the American Occupational Therapy Association (AOTA (http://www.aota.org)), which prepare the student to take the national certification examination through the National Board for Certification in Occupational Therapy, Inc. (NBCOT (http://www.nbcot.org)) 301-990-7979. (The Bachelor of Health Science degree does not qualify the holder for certification.)

**Pre-professional Program**

Applicants must complete two years of pre-professional study including the General Education Requirements (p. 31) of the university, and prerequisite courses for the occupational therapy professional program.

---

**Licensure in Michigan State**

To become eligible for a mortuary science license in the State of Michigan, the following requirements must be met:

1. Complete at least three years of prescribed undergraduate coursework, including an accredited Mortuary Science Program;
2. Pass national and state examinations;
3. Fulfill the requirements for resident training;

Further information regarding licensure may be found at online (http://www.michigan.gov/mortuaryscience).

**Pathologists’ Assistant (B.S.)**

VeraLucia Mendes-Kramer, Program Director  
313-577-2050

Effective Fall 2017, the B.S. in Pathologists’ Assistant program has been transitioned to a master of science program. Current and former students should refer to the 2015-17 Undergraduate Bulletin for the most recent B.S. degree requirements. Students interested in pathologists’ assistant studies should refer to the M.S. in Pathologist Assistant (http://bulletins.wayne.edu/graduate/college-pharmacy-health-sciences/pathologists-assistant) program in the current Graduate Bulletin.

The Pathologists’ Assistant program educates students to attain predescribed competencies as outlined by the American Association of Pathologists’ Assistants (AAPA). Program Goal: The Wayne State University Pathologists’ Assistant program trains individuals who will assist the pathologist in the performance of postmortem examination and in the dissection, dictation, and evaluation of surgical specimens for microscopic diagnosis. The program also trains individuals budgetary, supervisory, and teaching best practices. Lastly, the program trains individuals to function as competent entry level Pathologists’ Assistants capable of performing, under the supervision of a pathologist those professional responsibilities as defined by the American Association of Pathologists’ Assistants (AAPA). The Bachelor of Science in Pathologists’ Assistant degree is accredited by.

**Professional Program**

**Admission Requirements**

The professional program in occupational therapy is eight semesters in length and consists of an undergraduate component and a graduate component. Progression to the graduate component is achieved only through successful completion of the undergraduate component.

Applications to the professional program (http://cphs.wayne.edu/occupational-therapy/admissions.php) are submitted through the Occupational Therapist Centralized Application Service (OTCAS) and may be obtained each November through February online from the College of Pharmacy and Health Sciences Office of Student Affairs. Applicants should also be familiar with general University (p. 19) and College (http://www.cphs.wayne.edu) admission requirements. Students are admitted once per year during the spring/summer semester prior to Fall enrollment. In addition to the application, the student must:

1. Hold a minimum cumulative grade point average of 3.0 (on a 4.00 scale) for the pre-professional courses listed above. All prerequisite courses must be completed with a 'C' or better. A maximum of two core prerequisite courses may be repeated to improve grades.
2. Complete a minimum of twenty hours contact with a registered occupational therapist. These contact hours may be in one facility with one therapist, or within a variety of facilities and with more than one therapist. The therapist(s) with whom the student had the contact experience(s) must complete documentation, which is provided in the application.
3. Complete a Personal/Professional Statement through OTCAS.
4. Submit a letter of recommendation from a current or former supervisor through OTCAS.

Students transferring from another institution should contact a representative at the Office of Student Affairs to ensure their credits are equivalent to Wayne State University courses. Equivalency guides are available from the University's Office of Transfer Credit (http://transfercredit.wayne.edu) or by contacting the College's Office of Student Affairs (http://cphs.wayne.edu/students/ofa.php).

Total Credits: 56

Upon completion of this part of the program students may apply for the Bachelor of Health Science degree. For Master of Occupational Therapy (http://bulletins.wayne.edu/graduate/college-pharmacy-health-sciences/occupational-therapy) program requirements, students should consult the Graduate Bulletin.

**Academic Regulations**

Once a student is enrolled in the professional program, a minimum cumulative grade point average (g.p.a.) of 3.0 or above must be maintained. A student must achieve an undergraduate g.p.a. of 3.00 to be eligible for regular graduate admission to the graduate component of the degree. Students apply for graduation and Graduate status during the fourth semester of the undergraduate component of the curriculum. Once admitted to Graduate School, students must maintain a g.p.a. of 3.0 in all graduate level courses. The student will apply for graduation and Graduate status during semester four. The student must maintain a g.p.a. of 3.0 in all graduate level courses.

**Undergraduate Probation:** A student whose g.p.a. falls below 3.0 in an academic semester is placed on curriculum probation for the following semester. The student must raise his/her g.p.a. in that semester, and must reach at least a 3.0 cumulative average at the end of the following semester; failure to accomplish this will result in dismissal from the...
A student is allowed a maximum of two semesters of probation during his/her entire enrollment in the occupational therapy program.

Repeating Courses: A grade of ‘C-minus’ or below in a prerequisite to a professional course, or in a professional course, indicates unsatisfactory performance, and the course must be repeated. No more than two professional courses may be repeated.

A course from which a student withdraws prior to the end of the semester, and in which he/she has maintained a ‘C-minus’ average, is counted as one of the two courses which the student is allowed to repeat. A failing grade (‘F’) in a professional course is unacceptable, and the student is automatically dismissed from the occupational therapy program. Failure in a Level I or Level II field experience will also result in dismissal from the program. If a student fails, he/she may, with the help of an occupational therapy faculty advisor, petition for readmission to the program.

**Pharmaceutical Sciences**

*Office: 3610 EACPHS; 313-577-1747
Chairperson: George B. Corcoran
http://cphs.wayne.edu/sciences/index.php*

The Eugene Applebaum College of Pharmacy and Health Sciences has established a combined undergraduate and graduate program. Qualified senior students may enroll simultaneously in the undergraduate Bachelor of Health Science with a concentration in pharmaceutical sciences degree program and the graduate Doctor of Pharmacy (Pharm.D.) degree program and apply a maximum of thirty credits toward both the undergraduate and graduate degree.

Those who are enrolled in this program may expect to complete the B.H.S. pharmaceutical sciences concentration and the Pharm.D. degrees in seven years of full-time study.

NOTE: The B.H.S. pharmaceutical sciences concentration does not qualify the holder for licensure as a pharmacist. The Pharm.D. degree is required to qualify the holder for licensure as a pharmacist.

• Pharmaceutical Sciences Concentration (B.H.S.) (p. 330)
• Pharmacy (Pharm.D.) (p. 331)

**Pharmaceutical Sciences Concentration (B.H.S.)**

PLEASE NOTE: Application to or awarding of the Bachelor of Health Science with a concentration in pharmaceutical sciences degree retroactively or after a subsequent higher level degree in this discipline has been conferred is not permitted.

The Eugene Applebaum College of Pharmacy and Health Sciences has established a combined undergraduate and graduate program. Qualified senior students may enroll simultaneously in the undergraduate Bachelor of Health Science with a concentration in pharmaceutical sciences degree program and the graduate Doctor of Pharmacy (Pharm.D.) degree program and apply a maximum of thirty credits toward both the undergraduate and graduate degree.

Those who are enrolled in this program may expect to complete the B.H.S. pharmaceutical sciences concentration and the Pharm.D. degrees in seven years of full-time study.

NOTE: The B.H.S. pharmaceutical sciences concentration does not qualify the holder for licensure as a pharmacist. The Pharm.D. degree is required to qualify the holder for licensure as a pharmacist.

**Admission Requirements**

All applicants must satisfy the undergraduate admission (p. 19) requirements to the University. Admission to the Doctor of Pharmacy degree program (see below) prior to the beginning of the senior year is required for completion of the B.H.S. pharmaceutical sciences concentration program. Admission to the Pharm.D. program is highly competitive. Students should refer to the Graduate Bulletin for admission and course requirements for the Pharm.D. degree.

**Program Administration**

The Office of Student Affairs in the Eugene Applebaum College of Pharmacy and Health Sciences will certify completion of the B.H.S. pharmaceutical sciences concentration/Pharm.D. program. When students complete requirements for the B.H.S. pharmaceutical sciences concentration, they will complete an application for graduation with accompanying fee in order for the graduation audit to be completed prior to degree certification. Information about applying for degree can be found at online (http://reg.wayne.edu/students/graduation.php).

The B.H.S. pharmaceutical sciences concentration degree requires completion of a minimum of 120 credits consisting of courses prerequisite to admission to the Pharm.D. program and courses that comprise the first year of that program. This curriculum is outlined below as science prerequisites, non-science prerequisites, General Education Requirements, and First Professional Year requirements.

All course work for the B.H.S. pharmaceutical sciences concentration must be completed in accordance with the academic procedures of the University (p. 10) and the College (p. 316) governing undergraduate scholarship and degrees. Students will need to complete 120 credits with a g.p.a. of 2.0 or better, including courses taken that apply to the pharmaceutical concentration. Students who have successfully completed at least the first professional year in the Pharm.D. program at Wayne State University are eligible for the B.H.S. pharmaceutical sciences concentration degree.

**Total Credits:** 34

Requirements that may be satisfied by exam.

Additional undergraduate or professional courses may be needed to achieve the minimum 120 credits required to earn the B.H.S. degree.

**Clinical Education Requirements**

Clinical Education is provided throughout the Pharm.D. program including during the required B.H.S. pharmaceutical sciences concentration courses. Patient care involves inherent risk of exposure to potential diseases, particularly blood-borne pathogens, and the risk of possible mishaps in patient care. Therefore, all students are required to maintain health insurance coverage and liability insurance, both of which must be in effect prior to and during all periods in which the student is involved in clinical education. The student is responsible for the cost of these insurances and all other costs (such as travel, parking) associated with the clinical experiences throughout the program.

**Pharmacy (Pharm.D.)**

The Pharm.D. is a graduate degree program which requires specific preparation at the undergraduate level herein cited as pre-professional course work. Thus the admission process may be construed as two-tiered in that students must complete specific pre-professional course work and may apply to the Pharm.D. program prior to their senior year. One such route into the Pharm.D. program is by way of the B.H.S. pharmaceutical sciences concentration.

**Pre-professional Admission (Pharm. D.)**

**Admission requirements:** The pre-professional program is taken in the College of Liberal Arts and Sciences for which admission requirements are satisfied by the general requirements for undergraduate admission (p. 19) to the University. Counselors are available in the Office of Admissions for personal conferences to aid the prospective student.

**Recommended High School Preparation:** Fifteen units of high school work are required for admission. The following units are recommended:

- English: 4 units
- Foreign Language: 1-2 units
- Mathematics: 4 units
- Laboratory Science: 3 units
- Social Studies and History: 2 units

Students will find it advantageous to have had at least one year each of algebra, biology, chemistry, and physics. English, mathematics, and science are strongly recommended.

Applicants whose first language is not English must satisfy the University's English proficiency requirements (p. 15). If coursework was completed at a non-US institution, transcripts must be evaluated by a WSU approved evaluation service (WES, ECE, etc.). The official course-
by-course evaluation must be sent to PharmCAS and to Wayne State University.

**Pre-professional Course Requirements**

The undergraduate pre-professional preparation for admission to the Pharm.D. degree program is cited in the B.H.S. with a concentration in pharmaceutical sciences (p. 330) section of this bulletin. These courses (or their equivalents) may be taken at Wayne State University, another university, or a community college. All prerequisite courses and General Education Requirements should be completed prior to admission to the pharmacy curriculum. All such courses (or their equivalents) must be completed with the grade of C (2.0 g.p.a.) or better. Grades of C-minus or below, or numerical grades below 2.0 g.p.a., are not acceptable.

Because of rapid changes in technology, pre-professional science credits must be completed within six years prior to admission to the professional program.

**The Pharmacy College Admission Test (PCAT)**

The PCAT (http://www.pcatweb.info) is required for admission. This standardized examination is offered in major cities multiple times per year and must be completed no later than the year prior to admission. PCAT exam scores within 5 years of the application deadline are accepted.

**Professional Program Admission**

Admission to the Doctor of Pharmacy Curriculum is granted only for the Fall semester. Enrollment in this curriculum is limited to applicants who have met the general University admissions requirements by the stipulated deadline, who satisfy the admission criteria stated below, and who present evidence of professional admissibility and promise of academic and professional competence in pharmacy.

**Application:** Admission applications to the Doctor of Pharmacy curriculum are available through the Pharmacy College Application Service (PharmCAS) (http://www.PharmCAS.org).

**Application Deadline:** Deadline for submission of complete application materials to PharmCAS is November 1.

**Admission Criteria:** Admission to the Doctor of Pharmacy curriculum is competitive and the following criteria are used to evaluate applications from prospective students. Admission decisions are made by the Admissions Committee of the College.

1. Minimum cumulative undergraduate grade point average (g.p.a.) of 2.75 as calculated by PharmCAS. Completion of prerequisites with minimum grades does not guarantee admission.
2. Minimum prerequisite grade point average (g.p.a.) of 3.0 (4-point system) calculated on the final grades earned in the required pre-professional courses as calculated by the Wayne State University pharmacy admissions committee. No less than a ‘C’ grade (2.00 on a 4.00 scale) in any prerequisite course. Completion of prerequisites with minimum grades does not guarantee admission.
3. Promise of success in a professional curriculum. Transcripts are evaluated for continued success in a full-time, science-based curriculum. Patterns of course repetition and excessive withdrawals are considered. It is recommended that applicants have repeated not more than two mathematics and science courses in order to improve grades.
4. Two completed professional recommendations must accompany the completed application form. The applicant is encouraged to solicit the recommendations from two faculty members or one faculty member and one employer.
5. Applicants must include a personal resume, outlining community or vocational activities, honors, employment, extracurricular and volunteer activities, if invited to interview for the program.
6. All applicants must take the Pharmacy College Admissions Test (PCAT). A minimum composite score of 50th percentile or higher is required. Additionally, 50th percentile or higher in each of the following sections: chemical processes, biological processes and quantitative reasoning, and 25th percentile or higher in and the critical reading section is preferred.
7. Applicants whose first language is not English must satisfy the University’s English proficiency requirements.
8. A personal interview with a member of the Pharmacy Admissions Committee is required.
9. Students who are offered admission to the Pharm.D. program will have a Criminal Background Check. This will be performed by Certiphi, Inc through PharmCAS. Matriculation into the program will depend on the results of that check.

Further information concerning the Doctor of Pharmacy Program can be found in the Wayne State University Graduate Bulletin.

**Pharmacy Practice**

*Office:* 2190 EACHPS; 313-577-0826
*Chairperson:* Brian L. Crabtree
http://cphs.wayne.edu/practice

The WSU Doctor of Pharmacy program educates students to become valued providers of health care services. Our graduates use evidenced-based practice to ensure optimal health of the patient and of the public and will provide leadership in advancing pharmacy practice and health policy.

The practice of pharmacy has experienced profound changes during the past three decades as its traditional role in drug distribution has increasingly expanded to incorporate the concept of comprehensive medication management. This philosophy charges pharmacists with the responsibility for providing drug therapy that achieves defined results and improves a patient’s quality of life. Pharmacists are expected to interact with patients and other health care providers to assure that the drug therapy prescribed is appropriate, administered, and monitored in a way that assures achieving the desired outcomes.

The ability of pharmacists to play an increasingly active role in drug therapy is being recognized at state and national levels. At the state level pharmacists have been recognized as having the ability to initiate or modify drug therapy, either through collaboration with a physician or by independent authority. In Michigan pharmacists are allowed to prescribe under delegated authority of a licensed practitioner. Examples of services provided by pharmacists include:

- disease state screening (examples are: blood pressure monitoring for hypertension, glucose monitoring for diabetes, cholesterol monitoring, bone densitometry for osteoporosis)
- monitoring and adjusting anticoagulation therapy
- monitoring and adjusting antibiotic therapy.

A major impetus for these changes is a result of the realization of the added value of pharmacists input into therapeutic decision making in a manner that can result in cost reduction through prevention of problems arising from adverse drug experiences, drug-drug and drug-food interactions, errors in prescribing or administering medications, and poor adherence.

The Doctor of Pharmacy (p. 331) program at Wayne State University is offered through the Departments of Pharmacy Practice and
Physical Therapy

Office: 2248 EACPFS; 313-577-1432
Chairperson: Malcolm Cutchin
Director: Sarah F. Maher, Physical Therapy Program
http://www.pt.cphs.wayne.edu/

Physical Therapists provide services to patients/clients who have impairments of body function and structure, activity limitations and participation restrictions or changes in physical function and health status resulting from injury, disease, or other causes. Physical therapists collaborate with a variety of professionals, address risk factors to health, are leaders and providers in the areas of prevention and promoting health, wellness and fitness, serve as educators, consultants, administrators and advocates, utilize critical inquiry skills and direct and supervise the provision of physical therapy services. Physical Therapy services include examination, evaluation, diagnosis, prognosis and intervention primarily for individuals with musculoskeletal, neuromuscular, cardiopulmonary and/or integumentary conditions. Physical therapists practice in a wide variety of settings including hospitals, outpatient clinics, private practice, schools, academia, home care, industrial clinics, sports clinics, rehabilitation centers and health and wellness programs. Students interested in the physical therapy profession should also visit the American Physical Therapy Association (http://www.apta.org) website.

The physical therapy curriculum at Wayne State University is a professional degree program leading to the Doctor of Physical Therapy (http://bulletins.wayne.edu/graduate/college-pharmacy-health-sciences/physical-therapy/physical-therapy-dpt) degree. The entire program involves a pre-professional component (p. 333): ninety credits of undergraduate course work; a first year of physical therapy courses taken under qualified graduate status; and the final two and one half years of Physical Therapy courses taken under regular graduate status. Only those portions of the program that may be completed during the first four years of what is usually construed as an undergraduate matriculation are presented in this Bulletin. The balance of the program is presented in the Graduate Bulletin.

The program of study in physical therapy is accredited by the:

Commission on Accreditation in Physical Therapy Education for the Doctor of Physical Therapy program
Attn: Accreditation Dept.
1111 N. Fairfax St.
Alexandria VA 22314-1488
(http://www.apta.org)

Graduates who receive a Doctor of Physical Therapy degree are eligible to take the national physical therapy licensure examination and for active membership in the American Physical Therapy Association.

- Pre-professional Program (p. 333)
- Physical Therapy Concentration (B.H.S.) (p. 334)

Pre-professional Program (Physical Therapy)

Pre-Professional Program Admission Requirements
The applicant must satisfy the undergraduate admission (p. 19) requirements to the University.

Professional Program Admission Requirements
Admission to the professional program requires admission to the Doctor of Physical Therapy (http://bulletins.wayne.edu/graduate/college-pharmacy-health-sciences/physical-therapy/physical-therapy-dpt) program. Students should consult the Graduate Bulletin for details.

Course Requirements

Fall 2017 Application Cycle

Prior to admission to the professional program, the following prerequisites, or their equivalent, must be completed with a grade of a "C" or higher.

Program-Specific Prerequisites
BIO 1510 Basic Life Mechanisms 4
BIO 2870 Anatomy and Physiology 5
BIO 3200 Human Physiology 1 3-4
or BIO 4120 Comparative Physiology
CHM 1220 General Chemistry I 4
CHM 1230 General Chemistry I Laboratory 1
CHM 1240 Organic Chemistry I 4
CHM 1250 Organic Chemistry I Laboratory 1
KIN 3570 3
MAT 1800 Elementary Functions 4
PHY 2130 Physics for the Life Sciences I 4
PHY 2131 Physics for the Life Sciences Laboratory 1
PHY 2140 (PS) Physics for the Life Sciences II 4
PHY 2141 Physics for the Life Sciences Laboratory 1

Non-Science Prerequisite Courses
ENG 1020 Introductory College Writing 3
ENG 3010 Statistical Methods in Psychology 4
ENG 3010 Statistical Methods in Psychology 4
ENG 3020 Writing in Science and Technology 3
PSY 1010 Introductory Psychology 3-4
or PSY 1020 Elements of Psychology
PSY 2400 Developmental Psychology 4
PSY 3010 Statistical Methods in Psychology 4

Upper-Level Concentration
If the applicant does not have a bachelor's degree the student must also take at least six additional credits in upper division undergraduate courses (3000 and above) concentrated in one of the following areas: Biology, Biomedical Sciences, Chemistry, Exercise Science, Kinesiology, Health Science, Physics, or Psychology.

Electives (to reach 90 credits total) 0-12

Courses to satisfy General Education Requirements
American Society and Institutions (AI) 3
Critical Thinking (CT) 3
Foreign Culture (FC) 3
Historical Studies (HS) 3
Oral Communication (OC) 3
Philosophy and Letters (PL) 3

Wayne State University Undergraduate Bulletin 2017-2018 333
Admission to the Doctor of Physical Therapy (D.P.T.)

Admission Requirements

Admission to the professional program requires completion of the pre-professional program. Students should refer to the Graduate Bulletin for admission and course requirements for the D.P.T. degree.

Please note: Student may NOT apply to or earn the Bachelor of Health Science with a concentration in physical therapy degree retroactively or after a subsequent higher degree has been conferred.

The Eugene Applebaum College of Pharmacy and Health Sciences has established a combined undergraduate and graduate program in Physical Therapy. Qualified senior students may enroll simultaneously in the undergraduate Bachelor of Health Science with concentration in physical therapy degree program and the graduate Doctor of Physical Therapy (D.P.T.) degree program and apply a maximum of thirty credits toward both the undergraduate and graduate degree. Those who elect the combined program may expect to complete the B.H.S. physical therapy concentration and the D.P.T. degrees in 6.5 years of full-time study.

Degree Requirements

All course work for the B.H.S. physical therapy concentration must be completed in accordance with the academic procedures of the University (p. 10) and the College (p. 316) governing undergraduate scholarship and degrees. Students will need to complete one hundred and twenty credits with a g.p.a. of 2.0 or better, including courses taken that apply to the concentration. Students who have successfully completed at least 30 credits at Wayne State University are eligible.

Course Requirements

Science Prerequisite Courses

BIO 1510 Basic Life Mechanisms 4
BIO 2870 Anatomy and Physiology 5
BIO 3200 Human Physiology 3

Select two of the following with at least one lab: 8-9

CHM 1020 Survey of General Chemistry
CHM 1030 Survey of Organic/Biochemistry
CHM 1220 General Chemistry I
& CHM 1230 and General Chemistry I Laboratory
CHM 1240 Organic Chemistry I
& CHM 1250 and Organic Chemistry I Laboratory

PHY 2130 Physics for the Life Sciences I 4
PHY 2131 Physics for the Life Sciences Laboratory 1
PHY 2140 (PS) Physics for the Life Sciences II 4
PHY 2141 Physics for the Life Sciences Laboratory 1

Non-Science Prerequisite Courses

ENG 1020 Introductory College Writing 3
LFA 2330 First Aid and CPR (or equiv.) 3

or PSY 1020 Elements of Psychology 3-4

STA 1020 Elementary Statistics 3

Upper-Level Concentration

If the applicant does not have a bachelor's degree the student must also take at least six additional credits in upper division undergraduate courses (3000 and above) concentrated in one of the following areas: Biology, Biomedical Sciences, Chemistry, Exercise Science, Kinesiology, Health Science, Physics, or Psychology.

Electives (to reach 90 credits total) 0-12

Courses to satisfy General Education Requirements

Visual and Performing Arts (VP) 3
Radiation therapists are typically employed in hospitals, clinics, educational institutions, and commercial equipment corporations as staff therapists, clinical supervisors, administrators, educators and technical marketing personnel. A radiation therapist is able to:

- operate sophisticated radiation equipment to deliver a planned course of radiation therapy;
- assist the physicist in quality assurance and in treatment planning procedures, and in the calibration of equipment;
- observe the clinical progress of the patient undergoing radiation therapy, and recognize when a patient's condition requires the attention of a physician; and
- assist in providing psychosocial support for patients who are dealing with the stress of their illness.

Radiation Therapy Technology (B.S.) (p. 335)

The Bachelor of Science in Radiation Therapy Technology is a four-year degree program consisting of two years of pre-professional courses and two years of professional courses. The program is accredited by the:

Joint Review Committee on Education in Radiologic Technology (http://www.jrcert.org)
20 N. Wacker Drive, Suite 2850
Chicago IL 60606-3182
312-704-5300.

The program complies with the professional curriculum of the American Society of Radiologic Technologists. Fax: 312-704-5304. Upon completion of the program, the student receives a Bachelor of Science Degree in Radiation Therapy Technology and is eligible to take the national certification examination administered by the American Registry of Radiologic Technologists.

Admission to Pre-professional Program

The first two years (pre-professional program) are taken in the College of Liberal Arts and Sciences, the admission requirements of which are satisfied by general admission (p. 19) to the University. Application forms are available from the Office of Admissions, University Welcome Center. Students should consult with the University Advising Center, 1600 Adamany Library, regarding course selection. Students are urged to seek additional pre-professional advisement by contacting the office of Student Affairs in the Eugene Applebaum College of Pharmacy and Health Sciences, for registration in a Monthly College Information Night.

Recommended High School Preparation: Students interested in a career in radiation therapy technology should take as many of the following high school courses as possible: biology, chemistry, mathematics, physics, computer science, keyboarding, speech, and composition.

Admission to Professional Program

Admission to the professional program requires completion of the above pre-professional course requirements and satisfaction of specific admission requirements listed below. The application deadline is on or about April 1 for matriculation into the professional program for the subsequent fall term.

Students should contact the University Advising Center (313-577-2680) prior to each fall term to obtain an updated list of pre-professional course and program admission requirements. The program faculty provides career advisement at the Eugene Applebaum College of Pharmacy and Health Sciences ‘Monthly College Information Meeting held on the first Tuesday of each month. Attendance to at least one monthly meeting is a mandatory admission requirement prior to the beginning of the application process. Out-of-state applicants should contact a member of
the Radiation Therapy Technology faculty for options to accommodate individual circumstances.

Since applicants who are admitted will eventually be working as a member of a health care team, the admissions committee evaluates candidates based on their personal qualities as well as their academic achievement. Therefore, throughout the interview and the completion of other application requirements, such criteria as a student’s maturity, motivation, knowledge of the profession, interpersonal skills, personal integrity, and empathy for others is evaluated.

**Professional Program Admission Requirements**

The student applying to the professional program must meet the following admission requirements:

1. Completion of all pre-professional courses (or their equivalents) by the fall term in which admittance is desired.
2. Hold a combined cumulative grade point average of 2.50 or above (A = 4.00) for all college-level work at all institutions attended.
3. Completion of a professional program application (http://www.cphs.wayne.edu) and two reference forms.
4. Submission of official transcripts from all college institutions attended (other than Wayne State).
5. Attendance at a Monthly College Information Night (http://cphs.wayne.edu/admissions/before-you-apply.php) at the Eugene Applebaum College of Pharmacy and Health Sciences, held the first Tuesday of each month at 6:00pm. Out-of-state applicants should contact a Radiation Therapy Technology faculty member for options to accommodate individual circumstances.
6. Completion of two clinical visits to affiliate institutions for the program. Call 313-577-5711 to make an appointment. Out-of-state applicants should contact a Radiation Therapy Technology faculty member for options to accommodate individual circumstances.
7. Submission of two reference forms (available on the online application site): one from an employer/supervisor and one from a college professor/advisor.
8. Satisfaction of the University Mathematics proficiency and competency in English requirements (documentation is required).

The information requested in requirements 3, 4, 7, and 8, above, should be submitted to the Eugene Applebaum College of Pharmacy and Health Sciences, Office of Student Affairs, 259 Mack, Suite 1600, Detroit, Michigan.

**Application Deadline:** The deadline for applications is on or about April 1. Applications which are incomplete by the deadline or are submitted after that date will be considered only with the approval of the Program Director. Prospective students are urged to submit applications as early as possible after the fall term.

**Application Review:** All applications will be reviewed for completeness. The Admissions Committee will review all qualified applicants with completed applications submitted by the deadline date. The Admissions Committee will notify applicants of their interview status. Admission interviews are typically conducted in May of each year. A number of criteria will be evaluated, including academic achievement and personal qualities. The Radiation Therapy Technology Program typically notifies each applicant of the final admission decision in June.

**Pre-professional Program**

Each of the following required pre-professional courses (or its equivalent) must be completed with a minimum grade of C (2.00 g.p.a., where A = 4.0)

### Professional Program

**Degree Requirements**

Candidates for the degree Bachelor of Science in Radiation Therapy Technology must complete a minimum of 125 credits, plus sufficient credits to fulfill the University General Education Requirements (p. 31) not satisfied by either required courses or the student’s choice of electives. The total course work will be distributed between two years of pre-professional courses and the two-year professional program as outlined below. Courses in the professional program are taken in the Eugene Applebaum College of Pharmacy and Health Sciences. Enrollment requires full-time student status for six consecutive terms (twenty-four months), during which time students take didactic and clinical courses. The clinical program includes approximately twenty hours per week of clinical education at multiple affiliate institutions in the greater metropolitan Detroit area. Such institutions include urban and suburban hospitals.

While most required courses are scheduled during usual daytime hours, students are required to attend some courses or individual class sessions in early evening.

Scholarship
Students in the professional program are subject to high academic and professional standards. A grade of 'C' (2.00) or above is required in each professional course, and the student must maintain a term grade point average of 2.50 throughout the program. A grade of 'C-minus' (1.67) in a professional course indicates unsatisfactory performance; repetition of the course is required, and review by the Academic Committee will occur. A second grade of 'C-minus' or below, or a single grade of 'D' or less (1.00 or less) will result in immediate dismissal from the professional program. Academic standards and program probation policies are subject to change. Academic standards and policies are published annually; copies are available upon request from the Radiation Therapy Technology Program.

Liability Insurance
Each student is required to have professional liability insurance during the entire length of the professional program. Neither the clinical affiliates, nor Wayne State University, assume liability for student actions during clinical education.

Radiologic Technology
Office: 5142 EACPHS; 313-916-1348
Program Director: Sarah Borland
Chairperson: Malcolm Cutchin

The Bachelor of Science in diagnostic radiologic technology is a four-year degree program consisting of two years of preprofessional courses and two years of professional courses. The program complies with the professional curriculum of the American Society of Radiologic Technologists. Upon completion of the program, a student receives a Bachelor of Science Degree in Radiologic Technology and is eligible to take the national certifying examination administered by The American Registry of Radiologic Technologists.

- Radiologic Technology (B.S.) (p. 337)

Radiologic Technology (B.S.)

telephone: 312-704-5300; Fax: 312-704-5304

Admission to Pre-professional Program
The first two years (pre-professional program) are taken in the College of Liberal Arts and Sciences, the admission requirements of which are satisfied by general admission (p. 19) to the University. Students should consult with an Academic Services Officer in the Office of Student Affairs at the Eugene Applebaum College of Pharmacy and Health Sciences regarding course selection. Students are urged to seek additional career advisement from the Diagnostic Radiologic Technology program faculty early in their pre-professional program.

Recommended High School Preparation: Students interested in a career in diagnostic radiologic technology should take as many of the following courses as possible: biology, chemistry, mathematics, physics, computer science, keyboarding, speech, and composition.
Admission to Professional Program

Admission to the professional program requires completion of the above pre-professional course requirements and satisfaction of specific admission requirements listed below. The application deadline is November 30 for matriculation into the professional program for the subsequent Spring/Summer term. Prospective students are urged to contact the program as early as possible in their University studies (313-916-1348).

Since each program has special requirements for admission, students are urged to attend one of the Monthly Information Meeting (http://www.cphs.wayne.edu/meetings.php), held on the first Tuesday of each month, for advising and application deadline dates a year before they plan to enter.

Since applicants who are admitted will eventually be working as a member of a health care team, the admissions committee evaluates candidates based on their personal qualities as well as their academic achievement. Therefore, throughout the interview and the completion of other application requirements, such criteria as a student’s maturity, motivation, knowledge of the profession, interpersonal skills, personal integrity, and empathy for others is evaluated.

Admission Requirements: The student wishing to apply to the professional program must meet the following admission requirements:

1. Completion (minimum grade of "C" 2.0 where A = 4.0) of all pre-professional courses (or their equivalents) by the end of the Winter semester, prior to beginning the professional program. BIO 3200 (or equivalent) must be completed by December of the year of application.
2. Hold a grade point average of 2.80 or above in pre-professional courses and 2.80 (A' = 4.00) for all college level work at all institutions attended.
3. Completion of the professional program application (http://www.cphs.wayne.edu) form and associated requirements and submission of official transcripts to:

Eugene Applebaum College of Pharmacy and Health Sciences
Office of Student Affairs
259 Mack Avenue, Suite 1600
Detroit, MI 48201

APPLICATION DEADLINE: The deadline for applications is November 30. Prospective students are urged to submit applications as early as possible. Specific directions for submitting various application materials are indicated on the website.

APPLICATION REVIEW: All applications will be reviewed for completeness. The Admissions Committee will interview qualified applicants with completed applications submitted by the deadline date. A number of criteria will be evaluated, including academic achievement and personal qualities. Upon completion of all admission interviews, applicants will be notified of the final admission decision. This typically occurs in February.

Degree Completion Program for Radiologic Technologists

The Radiologic Technology Program offers a degree completion program for individuals employed as a Radiologic Technologist who have an interest in seeking a bachelor’s degree in radiologic technology. Please contact the Program Office (313-916-1348) for information concerning this program.

Pre-professional Curriculum

Each of the following required pre-professional courses (or its equivalent) must be completed with a minimum grade of C (2.0 on a 4.0 scale).

Additional undergraduate or professional courses may be needed to achieve the minimum 120 credits required to earn the degree.
SCHOOL OF SOCIAL WORK

Interim Dean: Jerrold Brandell

The School of Social Work is an integral part of Wayne State University, an urban university in a culturally diverse, industrialized, metropolitan area. The School is committed in its teaching, research, and service activities to address the problems of people living in this environment. Through applied research, work in the classroom and placements in human service organizations that are the sites for field education, students learn how to provide effective social services and to influence social policies.

The specific mission of the School lies in teaching the knowledge, values, and skills of the social work profession. Graduates of the School are expected to understand the needs of vulnerable populations and those for whom the quality of life is threatened. Through research on practice, faculty and doctoral students contribute to the knowledge base of the social work profession. Both faculty and students serve the community by participating in professional societies, civic and community groups, and human service organizations.

Social Work study prepares professionals to help alleviate the challenges in living for individuals affected by poverty, racism, sexism, ageism, homophobia, unemployment, and well as those experiencing emotional issues and/or physical and developmental impairments. Social work students learn theoretical perspectives and evidence-based methods of practice to guide competent intervention with individuals, families, groups, communities, and organizations. Doctoral students master advanced research competencies required to engage in applied research for social work practice and social welfare policy. Consistent with its emphasis on serving individuals in the Detroit metropolitan area, the School shares a commitment with the University for recruiting students of minority ethnic backgrounds.

The School of Social Work offers opportunity for study at the undergraduate and graduate levels to prepare students for practice in the profession of social work. Its principal programs lead to the Bachelor of Social Work and the Master of Social Work degree.

Curriculum: The Bachelor of Social Work degree program prepares students for entry-level generalist practice. Course work in this program includes University-wide General Education Requirements as well as the core competencies for social work practice. An introductory elective course, SW 1010, is offered that is open to freshman and sophomore students interested in exploring the profession of social work but not yet matriculated in the B.S.W. program. Non-degree elective courses are also available for those who have previously earned bachelor’s and/or master’s degrees in social work or other disciplines and wish to further their education by acquaintance with social work issues. At the graduate level the Master of Social Work degree program includes concentrations in Interpersonal Practice and Innovation in Community, Policy, and Leadership. The School also provides continuing education institutes and workshops for persons employed in the fields of social work and social welfare.

Informational Meetings: The school holds bi-weekly informational meetings (http://www.socialwork.wayne.edu) to acquaint prospective students with its Bachelor of Social Work and Master of Social Work programs. Ph.D. Program informational meetings are held monthly during the fall semester of each academic year. Potential program applicants are encouraged to attend a meeting focused on the program of his/her interest prior to applying for admission.

Accreditation

The Bachelor of Social Work and the Master of Social work degree programs are accredited by the Council on Social Work Education, the national accrediting body for professional social work education. There is no accreditation process for doctoral programs in social work, however, the School is a member of the Group for the Advancement of Doctoral Education in Social Work, the professional organization that provides guidelines and oversight for doctoral degree programs in social work.

Academic Regulations

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 10) section of this bulletin. The following additions and amendments pertain to the School of Social Work.

Students in the School of Social Work are responsible for informing themselves of all rules, regulations and requirements, complying with all official procedures, and fulfilling all course and degree requirements in proper sequence with satisfactory scholarship. In case of doubt regarding any matter, the student should consult the School's Academic Services Officer. The primary responsibility rests with the student. All students are urged to file a Plan of Work with the School's Academic Services Officer, and to update the plan periodically. Electives should be selected in consultation with the School's Academic Services Officer.

The faculty of the School of Social Work has the responsibility to require a student to withdraw at any time prior to receipt of the degree when, in its judgment, the student fails to do satisfactory work. Such decisions may be based on deficiencies in performance in class or field or in personal fitness for the profession. The faculty has adopted a set of criteria and procedures for academic termination, copies of which may be obtained in the Dean's office.

Every effort is made to assist students whose academic work suffers as a result of conditions beyond their control such as personal illness, serious illness in the immediate family, or similar extenuating circumstances.

Attendance and Residency

Students are expected to attend all sessions of courses for which they are registered and to notify the instructors or their secretaries prior to the class session, if possible, when absence is necessary due to illness or similar emergency. Absence from the field practicum must be reported prior to the scheduled time, both to the agency and the faculty advisor. Consistent absence or tardiness in classes or the field practicum may have an adverse effect on the student’s grade and may result in termination from the B.S.W. program.

A student must complete thirty semester credits in the School of Social Work and must be in residence during the final semester prior to graduation.

Maximum Hours

A student engaged in full-time or part-time study in the School of Social Work should plan a program in consultation with the Academic Services Officer, limiting the Plan of Work to required courses and electives in order to maintain a standard of scholarly attainment and academic excellence.

Application for Degree

Application for the degree must be filed in the University Records Office no later than the Friday of the 4th week of classes for the semester in which the student expects to complete the requirements for the degree. The applicant must be recommended for the degree by the faculty. The
Admission to the B.S.W. program each fall term. Students are required to be present in the agency. The School offers the W.O.W! Program. The exception is the required field practicum in which instruction is classroom based (traditional), hybrid a combination of courses and about one-third corequisite and elective courses. The Field Practicum is an integral part of the B.S.W. curriculum.

The B.S.W. program features full-time or extended part-time study. Social Work (B.S.W. Program)

The Bachelor of Social Work (B.S.W.) degree program prepares students for entry-level generalist social work practice during the junior and senior years of undergraduate matriculation. The B.S.W. curriculum is comprised of approximately two-thirds professional social work undergraduate core courses and about one-third corequisite and elective courses. The Field Practicum is an integral part of the B.S.W. curriculum.

The B.S.W. program features full-time or extended part-time study. Instruction is classroom based (traditional), hybrid a combination of classroom and online instruction, and a fully online cohort instruction (W.O.W! Program). The exception is the required field practicum in which students are required to be present in the agency. The School offers admission to the B.S.W. program each fall term.

Academic Credit and Work/Life Experience

No academic credit for life experience or previous work experience will be awarded in the Bachelor of Social Work or Master of Social Work degree programs, in whole or in part, in lieu of the field practicum or of courses in professional foundation areas.

Student Leave of Absence

A student who is in good standing in the Bachelor of Social Work degree program may request a leave of absence from course and field work in the School for up to one year. In order to be considered in good standing, a B.S.W. student must maintain grades of ‘C’ or better in classroom courses in the B.S.W. (professional) component of undergraduate study, and must not earn marks below Satisfactory in field work. Upon return from an approved leave of absence, a student’s revised plan of work is based on the time in the academic year when the leave of absence was granted. If a student leaves at or before mid-semester, then she or he will have to repeat course or field work. Specific information on the procedure for requesting a leave of absence is available in the Office of Admissions and Student Services.

Withdrawal from Degree Programs

A student who has been admitted to the Bachelor of Social Work degree program or the Master of Social Work degree program shall be considered to have withdrawn if he/she is not enrolled in a course or field work during any semester of an approved planned program of study. In order to withdraw in good standing from any degree program, a student must formalize the withdrawal from the program with the Director of Admissions and Student Affairs. A copy of the procedure for withdrawal may be obtained from the School of Social Work’s Office of Admissions and Student Services.

Nondiscrimination Policies

The School is bound by and actively endorses the university policy (p. 67) of nondiscrimination respecting all persons regardless of race, color, sex, national origin, religion, age, sexual orientation, marital status or physical or mental disability, and which expressly forbid sexual harassment or discrimination in hiring. The School prohibits discrimination against individuals because of political orientation. Copies of School and University nondiscrimination policies may be obtained in the Office of the Dean.

Social Work (B.S.W. Program)

The Bachelor of Social Work (B.S.W.) degree program prepares students for entry-level generalist social work practice during the junior and senior years of undergraduate matriculation. The B.S.W. curriculum is comprised of approximately two-thirds professional social work undergraduate core courses and about one-third corequisite and elective courses. The Field Practicum is an integral part of the B.S.W. curriculum.

The B.S.W. program features full-time or extended part-time study. Instruction is classroom based (traditional), hybrid a combination of classroom and online instruction, and a fully online cohort instruction (W.O.W! Program). The exception is the required field practicum in which students are required to be present in the agency. The School offers admission to the B.S.W. program each fall term.

Admissions Process

Applications for admission to the B.S.W. program may be submitted after the student has completed sixty semester credits in undergraduate course work or its equivalent at the freshman and sophomore levels. Applicants must have earned a minimum overall grade point average of 2.5 and completed social work pre-professional courses. Completed applications are given careful review in order to admit students who show evidence of suitability and fitness for the profession of social work and the ability to pursue successfully undergraduate professional education in social work.

First time Wayne State University students must complete an online application, and submit all required supporting documentation and applied fees. All B.S.W. applicants, regardless of prior WSU admission status, must complete the supplemental School of Social Work admissions application online and submit the following supporting documentation required for consideration of admission to the B.S.W. Program:

1. Upload transcripts from all institution(s) attended.
2. Submit two references (academic and professional) using the School of Social Work Reference form and following the process indicated in the application guidelines.
4. Submit an educational resume following the template guidelines as provided.

All BSW programs start in the fall semester.

Main campus, Full-time
Main campus, Part-time
University Center Macomb
Where Online Works! (WOW)
Schoolcraft Center Hybrid Program

Deadline: April 1

All applicants are encouraged to submit applications as soon as possible as admissions will close once program capacity has been reached. Applications may be submitted up to one year prior to the start of the beginning term of the program. All students admitted to a B.S.W. program for the fall semester must attend a mandatory orientation.

Although students may be admitted to the B.S.W. program prior to completion of all admission requirements, admission is conditional until all requirements are completed. The student must present a transcript verifying completion of sixty semester credits, grade point average, and completed pre-professional coursework. The letter of admission does not constitute a contract; admission may be withdrawn if a student fails to meet program requirements.

Transfer of Undergraduate Credit: No more than sixty-four semester credits from two-year colleges may be applied toward the B.S.W. degree. A maximum of twelve Technical, Vocational, or Applied Practice credits (designated ‘TVA’) in the human service areas (for example, mental health, child care, gerontology, empathy training, human services and substance abuse) will count toward the degree. Any such transfer credits will be counted as general elective credit. Social work courses from programs not accredited by the Council on Social Work Education (CSWE) also will be transferred as ‘TVA’ general elective credit.

Wayne State University Undergraduate Bulletin 2017-2018
Readmission

Students who have been enrolled in a planned program leading to the Bachelor of Social Work degree, who have withdrawn from the program, and who wish to be considered for readmission to complete degree requirements, must follow regular procedures for admission to the School. Generally, the B.S.W. curriculum requires that students complete two continuous terms of field practicum when actively enrolled in the program. Readmitted students who previously completed only one term of field work in the senior year will be required to repeat this term, and may be required to enroll concurrently in a course or courses in social work practice methods or a Directed Study in social work. Students who have withdrawn from the program and wish to be considered for readmission, may be required to obtain a physical and/or mental health assessment from a health professional approved or selected by the School.

Pre-professional Requirements

To qualify for admission to the Bachelor of Social Work program in the School of Social Work, sixty semester credits (or its equivalent) must have been completed at the freshman and sophomore levels of undergraduate study. The required credits must be distributed according to one of the curricular patterns cited below. Many pre-social work courses also help satisfy the University General Education Requirements. These courses are indicated by parenthetical two-letter prefixes to their titles. Students may also select elective curriculum credits at the freshman and sophomore levels of undergraduate study from professional schools such as the Mike Ilitch School of Business, the College of Education, the College of Nursing, and the School of Social Work.

Social Sciences: The following distribution of courses is required.

1. (SS) Cultural Anthropology: 3-4 credits (Note: Physical Anthropology does not meet this requirement.)
2. (HS) History: 3-4 credits
3. (AI) Political Science: 3-4 credits
4. (SS) Introductory Sociology: 6-8 credits

Natural Sciences: The following distribution of courses is required, including a laboratory course in one of the LS or PS areas designated below.

1. (LS) Biology: 3-4 credits
2. Introductory Psychology: 6-8 credits
3. (PS) One course (3-4 credits) to be selected from the following:
   - Physics, Chemistry, Geology, Astronomy.

Humanities: The following distribution of courses is required.

1. (PL) Philosophy/Letters: 3 credits
2. (VP) Humanities: 3 credits

English: The following distribution of courses is required.

1. (BC) Freshman Composition: 4 credits
2. (IC) English Elective (2000 level or above): 3 credits

(OC) Communications: 2-3 credits

Electives: Recommended: Select electives from General Education Requirements in Foreign Culture (FC), and Critical and Analytic Thinking (CT). Electives should be selected in conjunction with the School's Academic Services Officer.

B.S.W. Degree Requirements

The Bachelor of Social Work degree requires satisfactory completion of a minimum of one hundred twenty credits. The sixty credits in the freshman and sophomore years include prerequisite courses for admission to the professional component of the program, sixty credits in the junior and senior years, and forty-nine credits in field work and field-related courses. Electives are available to complete the required one hundred and twenty credits for graduation.

Grade Point Average: To be awarded a Bachelor of Social Work degree, the student must achieve a cumulative grade point average of 2.0, and a grade point average of 2.0 during the junior and senior years. A minimum of thirty credits must be earned in residence in the School of Social Work, and the student must be in residence during the final semester prior to graduation.

Student Professional Conduct Requirements: Any breach of the values and ethics of the social work profession articulated in the Professional Code of Ethics as established by the National Association of Social Workers (1994; 2006) may result in termination from the B.S.W. program. Student violations of the Wayne State University Student Code of Conduct will be forwarded to the University Student Conduct Officer for review and disposition. Students who apply with past, current and/or pending legal charges of record may be eligible and admitted to the B.S.W. program, however, an interview with Director of the Office of Admissions and Student Services and the Director of Field Education is required during the admissions process to review the circumstances and disposition of such legal charges. Legal charges of record may have implications for Field Agency Placement and Social Work Licensure. An agency placement is a non-negotiable requirement for Field Education to complete the B.S.W. Program. Social Work Licensure is required for B.S.W. graduates to identify and practice as Social Workers.

Curricula

The undergraduate social work curriculum is structured to provide the knowledge, values and skills essential for entry-level generalist social work practice. It is comprised of five curricular areas: human behavior and the social environment, research, social work, practice, social welfare policy and services, and field education. The professional component of the curriculum is built upon a liberal arts foundation in the social and behavioral sciences, the humanities, English, mathematics, and the natural sciences. Students are required to enroll in selected courses in anthropology, economics, English, foreign culture, history, human biology, philosophy, political science, humanities, psychology, sociology and speech/communications.

Students enrolled in field education are placed in a wide variety of social service agencies and work with individuals, families, groups, organizations and communities. Emphasis is placed in providing social work services in urban areas with the poor and oppressed, persons of color, and other at-risk populations that represent many ethnic, racial and cultural groups. Field work stresses both amelioration and prevention of personal, interpersonal and social problems, as well as improvement of the human condition.

All students are required to file an educational Plan of Work with the School of Social Work Academic Services Officer and to update this plan on a regular basis.

Online Program: The B.S.W. degree is also offered as a fully online program of study during the junior and senior year. Online curriculum requirements are identical to the traditional B.S.W. classroom "on campus" program option. Students interested in matriculating in the online program must have access to an updated computer system and
related software necessary for successful completion of all courses. Curriculum requirements are listed below.

The admissions process is the same as the traditional program with the exception of the following: Admission to the online program is in the winter term only, and the program utilizes the cohort model structure. Once enrolled, students may NOT register for any B.S.W. courses offered in a campus classroom setting. Interested students should visit the School website (http://www.socialwork.wayne.edu) for additional information.

### Electives

Electives must be selected in consultation with the School of Social Work Academic Services Officer.

### Honors Option

Social Work students of high achievement are eligible to participate in the University’s Honor Option, available in connection with specified social work courses during the junior and senior years. All Honors Option course work is to be completed with a previously-approved social work professor, and will include work beyond normal course requirements. Students interested in the Honors Option must present a cumulative grade point average of 3.30 or better and develop an academic plan of work with the School of Social Work Academic Services Officer. Application forms for the Honors Option are available in the Office of Admissions and Student Services. The application form must be signed by the instructor and the Academic Services Officer and must be returned to the Office of Admissions and Student Services by the end of the second week of classes. It is the student’s responsibility to make sure that the instructor receives and turns in near the end of the semester an additional form that includes the grade for the student, in both the course and on the specific Honors-level work agreed upon. Students are required to complete a minimum of twelve credits under the Honors Option and maintain a cumulative grade point average of at least 3.30. Additional information is available from the Academic Services Officer.

### Field Education

All students enrolled in SW 4998, Field Practice in Social Work I and II, are required to carry professional liability insurance as a condition of field placement.

The Field Education Manual contains a description of the field education program and the policies and procedures related to the program. Students are responsible for observing the procedures governing field work practice which are detailed in the manual. The manual is distributed to each student enrolled in SW 4998.
Field Education

Health Clearances Policy

The School may require students in field placement to obtain assessments of their physical or mental health from health or mental health professionals approved by the School. The School of Social Work reserves the right to refuse to place or direct a student in field education if the physical or mental health status of the student indicates such action is warranted in order to safeguard clients, agencies, the student, other students, or the School.

The following agencies are representative of those who have worked with members of the Faculty in field instruction during recent academic years:

ACCESS
ADULT WELL-BEING SERVICES
AFFIRMATIONS
ALGONAC COMMUNITY SCHOOLS
ALTERNATIVES FOR GIRLS

ADDITIONAL ACADEMIC PROGRAMS

Air Force (ROTC)

The Air Force Officer Education Program at the University of Michigan provides Wayne State University students the opportunity to earn a commission as a second lieutenant in the U.S. Air Force through the Air Force Reserve Officer Training Corps (AFROTC). Three- and four-year programs are offered. All AFROTC classes are conducted on the University of Michigan campus, Ann Arbor, MI; registration is managed by AFROTC. Interested students should contact AFROTC at 734-764-2403 or visit Room 154 at North Hall on the Ann Arbor campus. Students who enroll as cadets in the Air Force Officer Education Program, successfully complete the program, and receive a university degree are commissioned as second lieutenants in the United States Air Force.

Admission to introductory-level courses in this program is open to anyone, but admission to junior-level standing is open only to students having matriculate status in a four-year degree program at one of the resident sponsoring institutions.

Career Opportunities: Men and women can serve in a wide range of flying duties as aircrew members or in many technical fields as well as in numerous other non-technical specialties. Advanced education or technical training for these career areas may be obtained on active duty at Air Force expense.

Three- and Four-Year Program: The four-year program consists of eight terms (sixteen credits) of course work. The first four terms (freshman and sophomore years) comprise the General Military Course (GMC). During the summer following this sequence each student is required to attend a four-week summer field training session. After completing field training, students enroll in the last four terms (junior and senior years) of AFROTC called the Professional Officer Course (POC). Questions about the three-year program should be directed to the AFROTC at 734-764-2403.

Financial Benefits and Scholarships: All students enrolled in the POC, whether or not on scholarship, receive a monthly stipend during the academic school years. Uniforms, AFROTC books, and equipment are furnished free of charge. Pay and travel allowance are provided to attend field training. AFROTC provides scholarships on a competitive basis for periods of two and three and one-half years. These scholarships provide tuition, laboratory fees, a book allowance, and the monthly stipend. Room and board are not furnished.

Obligation to the Air Force: After graduation and commissioning, graduates are called to active duty in the Air Force. The standard period of service is four years for non-aircrew members, six years for navigators, and ten years for pilots. Obligations for aircrew members begin following graduation from aircrew training. A contractual obligation is incurred for non-scholarship students when they enter the POC. Scholarship students incur an obligation in their sophomore year.

Course of Study: Students enroll in one AFROTC course (AERO) during each term of participation in the program. In addition to the lecture, there is a mandatory two-hour Leadership Laboratory during each of the eight terms, for those students who are eligible for the commissioning program.

Military Science (ROTC)

The College of Engineering currently sponsors the Army Reserve Officers Training Corps (AROTC) and provides Wayne State University students with an Officer Education Program through a partnership agreement with the University of Michigan. The Officer Education Program allows qualified applicants to receive commissions as Second Lieutenants in the United States Army. Other interested students throughout the University may select military science courses, offered as Basic Engineering credits, for elective credit without participating in leadership training or incurring any military obligation. Army ROTC offers both a four-year and a two-year program. The four-year program consists of a two-year basic course, a two-year advanced course, and a four-week summer camp known as the Leadership Development and Assessment Course (LDAC), normally attended between the junior and senior years at Joint Base Lewis-McChord, Washington. Students having prior ROTC, including Junior ROTC (JROTC), or prior military service may be given placement credit for part or all of the basic course at the Professor of Military Science’s approval. The two-year program is by application only and consists of a four-week Leadership Training Course (LTC) in Fort Knox, Kentucky, a two-year advanced course, and LDAC. All students with a minimum of two years of school remaining (graduate or undergraduate) are eligible. Students must notify the department prior to February 15 of their sophomore year if they are interested in this program. ROTC cadets are eligible for four-, three-, and two-year scholarships which can be used to pay either tuition and fees, or room and board, as well as money for books. In addition, the advanced course students and all scholarship students receive a tax-free subsistence allowance during the school year. ROTC books and uniforms are furnished at no cost to students. Cadets who maintain high academic, fitness, and leadership standards are eligible to apply for Regular Army Commissions. Interested students should visit the Wayne State University Army ROTC program (http://omvae.wayne.edu/rotc) website.

Basic Engineering ROTC Courses

BE 1101 Introduction to Officership Cr. 1
Classroom introduction to leadership, and the experiential examination of leadership, followership, decision-making, and group accomplishment of tasks. Offered Biannually.

BE 1102 Introduction to Leadership Cr. 1
Continuation of B E 1101; focus on communications, leadership, and problem-solving. The light infantry platoon and the troop leading process. Offered Biannually.

Prerequisite: BE 1101 with a minimum grade of C-

BE 2201 Innovative Tactical Leadership Cr. 1
Military organizational leadership with focus on leadership development and interpersonal group dynamics. Offered Biannually.

Prerequisite: BE 1102 with a minimum grade of C-

BE 2202 Leadership in Changing Environments Cr. 2
Challenges of leading in complex contemporary operational environments. Cross-cultural challenges of leadership applied to practical Army leadership tasks and situations. Offered Biannually.

Prerequisite: BE 1102 with a minimum grade of C-

BE 3301 Leading Small Organizations I Cr. 2
Leadership development and interpersonal and group dynamics. Methods of visualizing, planning and leading organizations to achieve set goals. Offered Biannually.

Prerequisite: BE 3301 with a minimum grade of C-

BE 3302 Leading Small Organizations II Cr. 2
Offered Biannually.

Prerequisite: BE 3301 with a minimum grade of C-

BE 4401 Leadership and Management Cr. 3
Multiple styles and theories of leadership, ethical decision making, especially as relating to changing organizational and individual behavior; accomplishing goals in resource-constrained environments. Offered Biannually.

Prerequisite: BE 3302 with a minimum grade of D-
BE 4402 Military Professionalism and Professional Ethics Cr. 3
Evaluation and assessment of needs of subordinate units and individuals; near-term and short-term plans to address these needs. Analysis of a historical battle as well as analysis of moral and leadership dilemmas in history. Offered Biannually.

Prerequisite: BE 4401 with a minimum grade of C-
