UNIVERSITY

Undergraduate
Bulletin
2020-2021

TABLE OF CONTENTS

Undergraduate Bulletin	9	Management (B.A.)	107
General Information	10	Management (B.S.)	108
Administration of the University	11	Marketing and Supply Chain Management	108
Accreditation	12	Global Supply Chain Management (B.A.)	109
University Policies	13	Global Supply Chain Management (B.S.)	109
Academic Calendar 2020-2021	16	Marketing (B.A.)	110
Academic Regulations	17	Marketing (B.S.)	110
Admission: Undergraduate	23	College of Education	112
Admission: Graduate School	25	Academic Regulations: College of Education	112
Bachelor's Degree Requirements	28	Academic Services: College of Education	115
General Education Program	29	Administrative and Organizational Studies	115
Competency Requirements	30	Learning Design and Technology (B.S.)	116
Group Requirements (Inquiry Courses)	32	Learning Design and Technology Minor	116
Wayne Experience	36	Kinesiology, Health, and Sport Studies	116
General Education Courses by Subject	37	Community Health Minor	117
Honors Curricula	63	Community Health (B.S.)	118
Records and Registration	64	Exercise and Sport Science (B.S.)	119
Computing and Information Technology Division (C&IT)	66	Health and Physical Education Teaching (B.S.)	120
Financial Aid	67	Sport Management (B.S.)	121
Tuition and Fees	69	Sport Management Minor	122
Student Academic Success Services	74	Yoga and Mindfulness Minor	122
Office of International Programs	79	Athletic Training AGRADE Program	123
Educational Outreach	84	Teacher Education	124
Campus Life	86	Art Education, Visual (Post-Baccalaureate Certificate)	125
University Libraries and Archives	89	Bachelor of Arts in Education - Elementary Education	126
University and College Centers (Undergraduate Programs)	91	Bachelor of Arts in Education - Secondary Education	132
Mike Ilitch School of Business	95	Bachelor of Arts in Education - Special Education	140
Academic Regulations: Mike Ilitch School of Business	95	Bachelor of Science in Education - Elementary Education	142
Accounting	99	Bachelor of Science in Education - Secondary Education	148
Accounting B.A.	99	Bachelor of Science in Education - Special Education	155
Accounting B.S.	100	Urban Education and Equity Studies Minor	157
Accounting Post-Bachelor's Certificate	100	Theoretical and Behavioral Foundations	158
Business Administration (B.A. and B.S.)	100	Applied Behavior Analysis (Undergraduate Certificate)	158
Business Administration Minor	102	College of Engineering	159
Entrepreneurship and Innovation (Undergraduate Certificate)	102	Academic Regulations: Engineering Division	160
Finance	103	Bachelor of Science: Engineering Division	162
Finance B.A.	103	Basic Engineering Courses	166
Finance B.S.	104	Engineering Special Topics Courses	168
Law Minor	105	Biomedical Engineering	168
Management and Information Systems	106	Biomedical Engineering (B.S.)	168
Information Systems Management (B.A.)	106	Chemical Engineering and Materials Science	170
Information Systems Management (B.S.)	107	Chemical Engineering (B.S.)	171
		Civil and Environmental Engineering	173
		Civil Engineering (B.S.)	173

Computer Science	175	Jewelry Minor	213
Computer Science (B.S.)	176	Painting and Drawing Minor	213
Computer Science Minor	178	Printmaking Minor	213
Information Technology (B.S.)	178	Sculpture Minor	213
Electrical and Computer Engineering	179	Textile Design Minor	214
Electrical Engineering (B.S.)	180	Communication	214
Industrial and Systems Engineering	181	Bachelor of Arts Program Requirements	215
Industrial Engineering (B.S.)	182	Communication Studies (B.A.)	215
Mechanical Engineering	183	Communication Studies Minor	216
Mechanical Engineering (B.S.)	184	Communication Studies AGRADE Program	216
Engineering Technology Division	186	Film (B.A.)	217
Advanced Energy Storage Systems (Certificate)	188	Film Minor	218
Computer Technology (B.S.C.T.)	188	Health Communication Minor	218
Construction Management (B.S.C.M.)	190	Journalism (B.A.)	218
Electric Transportation Technology (B.S.E.T.T.)	190	Journalism Minor	219
Electrical/Electronic Engineering Technology (B.S.E.T.E.E.)	191	Law Minor	220
Electromechanical Engineering Technology (B.S.E.T.E.M.)	192	Media Arts and Studies (B.A.)	220

UNDERGRADUATE BULLETIN

University Mission

Wayne State's mission is to create and advance knowledge, prepare a diverse student body to thrive, and positively impact local and global communities.

Our vision

Wayne State will be a pre-eminent, public, urban research university known for academic and research excellence, success across a diverse student body, and meaningful engagement in its urban community.

Our values

While our vision and mission show where we want to go, our values guide us on the way. They cut across organizational boundaries, bind us culturally, and permeate our strategic and tactical initiatives. They are the defining traits of the Wayne State community.

Collaboration: When we work together, drawing upon various talents and perspectives, we achieve better results.

Integrity: We keep our word, live up to our commitments and are accountable to ourselves and each other.

Innovation: We are unafraid to try new things and learn by both failure and success.

Excellence: We strive for the highest quality outcomes in everything we do.

Diversity and Inclusion: We value all people and understand that their unique experiences, talents and perspectives make us a stronger organization and better people.

Wayne State intends to remain one of the nation's most respected public research universities, and feels that these goals provide a way to make that happen. National recognition is not an end in itself; what matters most is how Wayne State's progress as shaped by these goals will position the university to benefit its students and, ultimately, its city, state, nation and the world.

GENERAL INFORMATION

History of the University

Wayne State University's story begins in 1868 with the founding of the Detroit Medical College, now the School of Medicine. In 1881, the Detroit Normal Training School was established, which is now the College of Education. The now-iconic Old Main Hall was built in 1896 as Central High School, which began adding college classes in 1913. Those classes evolved into the Detroit Junior College (offering a two-year general education program) in 1917, which became the College of the City of Detroit (with four-year degree programs) in 1923, and now is the College of Liberal Arts and Sciences.

In 1924, the College of Pharmacy was organized, and six years later the first regular graduate courses were offered in liberal arts and education. Frank Cody became the first president in 1933, with the existing colleges united into a university organization, eventually named Wayne University, taken from Wayne County in honor of General Anthony Wayne.

Wayne University continued to grow, adding the School of Social Work, the Law School, and the School of Business Administration. In 1956, it was renamed Wayne State University. In 1963, Wayne State was designated one of Michigan's three constitutionally established universities.

1868 — The Detroit Medical College, forerunner of the School of Medicine, was established.

1881 — The Detroit Normal Training School, forerunner of the College of Education, was established.

1917 — The Detroit Junior College, offering a two-year program in general education, was established in 'Old Main' and later developed into the College of Liberal Arts.

1923 — The Detroit Normal Training School became a four-year degree-granting institution under the name of the Detroit Teachers College. The first degrees were granted in 1924. The Detroit Junior College became the College of the City of Detroit with four-year degree programs. The first degrees were conferred in 1925.

1924 — The College of Pharmacy was organized.

1930 — The first regular graduate courses were offered in Liberal Arts and Education. The first Master's degrees were conferred in 1932.

1933 — The College of Engineering and the Graduate School were established.

1933 — The Colleges of Liberal Arts, Education, Engineering, Medicine and Pharmacy and the Graduate School were united by action of the Detroit Board of Education into a university organization, temporarily called the Colleges of the City of Detroit.

1934 — The name Wayne University was adopted, taken from Wayne County and, ultimately, from General Anthony Wayne.

1935 — The School of Public Affairs and Social Work was organized. In 1950 it became the present School of Social Work.

1937 — The Law School, established in 1927 as Detroit City Law School, came into the University.

1945 — The first doctoral programs were authorized in the fields of Chemistry, Physiological Chemistry and Education.

1945 — The College of Nursing, which began as a program in the College of the City of Detroit, became a separate college.

1946 — The School of Business Administration, originating in the College of Liberal Arts, became the tenth academic unit in the University.

1956 — Wayne University became Wayne State University by Act 183 of Michigan Public Acts of 1956.

1959 — Monteith College was established.

1959 — Wayne State University became a constitutionally established University by popularly adopted amendment to the Michigan Constitution.

1964 — The Division of Urban Extension was established.

1973 — The College of Lifelong Learning was established as successor to the Division of Urban Extension.

1973 — The College of Pharmacy and Allied Health Professions was established.

1985 — The School of Fine and Performing Arts and the College of Urban, Labor and Metropolitan Affairs were established.

1989 — The name of the School of Fine and Performing Arts was changed to the College of Fine, Performing and Communication Arts.

1993 — The College of Science was established.

2001 — The name of the College of Pharmacy and Allied Health Professions was changed to the Eugene Applebaum College of Pharmacy and Health Sciences.

2002 — The College of Lifelong Learning was discontinued and its programs transferred to other units.

2004 — The College of Liberal Arts and the College of Science were merged into the College of Liberal Arts and Sciences.

2005 — The College of Urban, Labor and Metropolitan Affairs was discontinued and its programs transferred to other units.

2008 — The Irvin D. Reid Honors College was established.

2009 — The Library and Information Science Program was established as the School of Library and Information Science.

2011 — The Warrior football team made its first appearance in the NCAA Division II championship game.

2015 — The name of the School of Business Administration was changed to the Mike Ilitch School of Business.

2017 — The name of the School of Library and Information Science was changed to the School of Information Sciences.

Location of the University

More than 100 buildings provide housing for the services, instructional and research needs of the University and its students and staff. Most academic and service units of the University are located on the main campus in Midtown Detroit, largely bounded by York Street on the north, Woodward Avenue on the east, Forest Avenue on the south and Trumbull Street on the west. The major classroom, laboratory, library and other academic buildings are located east of the John C. Lodge Freeway; most of the athletics and recreational facilities are on the west side of the freeway.

The School of Medicine and its affiliated teaching hospitals and clinics are located a short distance south and east of the main campus in the Detroit Medical Center. The Eugene Applebaum College of Pharmacy and Health Sciences is also located on the medical campus. Certain smaller instructional and service units are located in other parts of the metropolitan area

Administration of the University

The general governance of Wayne State University is constitutionally vested in the Board of Governors, consisting of eight popularly elected members and the President of the University, who is named by the elected members. The President is the chief executive officer of the University and is charged by the Board of Governors with responsibility for its administration. For educational and administrative purposes, the University is organized into major academic units – schools, colleges, divisions, centers and institutes. The following schools, colleges and divisions constitute the heart of the University:

- Mike Ilitch School of Business
- College of Education
- College of Engineering
- College of Fine, Performing and Communication Arts
- Irvin D. Reid Honors College
- Graduate School
- Law School
- College of Liberal Arts and Sciences
- School of Information Sciences
- School of Medicine
- College of Nursing
- Eugene Applebaum College of Pharmacy and Health Sciences
- School of Social Work

The Dean of the College or School is its chief executive officer. More than half the Colleges and Schools are organized into departments or divisions, each administered by a chairperson (or head). Academic standards, curricular development, course revision and similar academic matters are the primary responsibility of the faculty and dean of the College or School, although these matters are subject to review and approval by the Provost and Senior Vice President for Academic Affairs and by the President and, whenever they involve major educational policy decisions, by the Academic Senate.

The Graduate School is the central unit for the supervision and encouragement of graduate work in the University and has basic responsibility for the improvement and review of existing programs and the approval of new graduate programs. Except for applicants and candidates for the Doctor of Philosophy degree, the detailed supervision of graduate students' work is conducted by the College and School and, where appropriate, by the departments.

All degrees are granted by the University through the Colleges and Schools, except that the Dean of the Graduate School, with the approval of the Graduate Council, recommends candidates for the Doctor of Philosophy degree, selected master's degrees and interdisciplinary graduate certificate programs.

Board of Governors

- BRYAN C. BARNHILL, II
- MICHAEL BUSUITO MARK GAFFNEY
- MARILYN KELLY, Chair
- ANIL KUMAR
- SANDRA HUGHES O'BRIEN
- SHIRLEY STANCATO
- DANA THOMPSON

M. ROY WILSON, *ex officio*

President and Cabinet

- M. ROY WILSON, M.D., President of the University
- LAURIE LAUZON CLABO, Ph.D., Interim Provost and Senior Vice President for Academic Affairs
- SUSAN BURNS, B.Mus., Vice President for Development and Alumni Affairs and President of the Wayne State University Foundation
- MARQUITA T. CHAMBLEE, Ph.D., Associate Provost for Diversity and Inclusion and Chief Diversity Officer
- WILLIAM DECATUR, J.D., Vice President, Finance and Business Operations and Treasurer and Chief Financial Officer
- AHMAD EZZEDDINE, Ph.D., Associate Vice President for Educational Outreach and International Programs and Senior Associate to the President for Special Initiatives
- STEPHEN M. LANIER, Ph.D., Vice President for Research
- LOUIS LESSEM, J.D., Vice President and General Counsel
- PATRICK O. LINDSEY, M.A., Vice President for Government and Community Affairs
- JULIE MILLER, M.A., Vice President and Secretary to the Board of Governors
- EDWARD (NED) STAEBLER, M.S., Vice President for Economic Development.
- MICHAEL WRIGHT, M.B.A., Vice President of Marketing and Communications and Chief of Staff

Academic Administrators

- BORIS BALTES, Ph.D., Associate Provost Faculty Affairs and Associate Vice President of Academic Personnel
- RAMONA BENKERT, Ph.D., Interim Dean of the College of Nursing
- RICHARD BIERSCHBACH, J.D., Dean of the Law School
- MONICA BROCKMEYER, Ph.D., Senior Associate Provost for Student Success
- AMANDA BRYANT-FRIEDRICH, Ph.D., Dean of the Graduate School
- JON CAWTHORNE, Ph.D., Dean of the University Libraries and the School of Information Sciences
- JOHN CORVINO, Ph.D., Dean of the Irvin D. Reid Honors College
- R. DARIN ELLIS, Ph.D., Associate Provost for Academic Programs and Associate Vice President for Institutional Effectiveness
- ROBERT FORSYTHE, Ph.D., Dean of the Mike Ilitch School of Business
- FARSHAD FOTOUHI, Ph.D., Dean of the College of Engineering
- STEPHANIE HARTWELL, Ph.D., Dean of the College of Liberal Arts and Sciences
- SARA KACIN, Ph.D., Assistant Provost for Faculty Development and Faculty Success and Director of Office for Teaching and Learning
- SHERYL KUBIAK, Ph.D., Dean of the School of Social Work
- CELESTE LEZUCH, M.S.A., Assistant Vice President for Academic Administration
- CATHERINE LYSACK, Ph.D., Interim Dean of the Eugene Applebaum College of Pharmacy and Health Sciences
- TONYA MATTHEWS, Ph.D., Associate Provost for Inclusive Workforce Development and Director of STEM Learning Innovation
- DAWN MEDLEY, Ed.S., Associate Vice President of Enrollment Management
- TIMOTHY MICHAEL, M.Ed., Associate Vice President for Student Auxiliary Services
- MARK SCHWEITZER, M.D., Dean of the School of Medicine and Vice President of Health Affairs
- MATTHEW SEEGER, Ph.D., Dean of the College of Fine, Performing and Communication Arts
- DAVID STRAUSS, Ph.D., Dean of Students
- ANITA G. WELCH, Ph.D., Dean of the College of Education

Accreditation

Wayne State University as a whole is accredited as a doctoral degree-granting institution by the regional accrediting agency:

The Higher Learning Commission
230 South LaSalle St., Suite 7-500
Chicago, Illinois 60604-1411
telephone: 800-621-7440

In addition, many specific programs and curricula are accredited individually by specialized or professional accrediting agencies. A report is produced annually for the Board of Governors which designates the accrediting agencies of the University's programs; the report is available from the Office of the Provost (<https://provost.wayne.edu/apr/accreditations/>). The principal accreditation agencies are as follows:

Mike Ilitch School of Business

BS and BA, MBA, MS in Accounting, Finance, or Global Supply Chain, and PhD: *Accreditation Council of AACSB International – The Association to Advance Collegiate Schools of Business (AACSB)*

Education

Art Therapy Program: *American Art Therapy Association*

Counseling (graduate only): *Council for Accreditation of Counseling and Related Educational Programs (CACREP)*

School Psychology, MA and Graduate Certificate: *National Association of School Psychologists*

Applied Behavior Analysis: *Association of Behavior Analysis International*

Teacher Education Programs: *Council for the Accreditation of Educator Preparation (CAEP)*

BS in Exercise and Sport Science: *Commission on Accreditation of Allied Health Education Programs*

Engineering

Division of Engineering (undergraduate): B.S. degrees in Biomedical Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Engineering, and Mechanical Engineering: *Accreditation Board of Engineering and Technology, Inc. (ABET, Inc.) Engineering Accreditation Commission*

Division of Engineering Technology (undergraduate): B.S. degrees in Electrical/Electronic Engineering Technology and Mechanical Engineering Technology: *Accreditation Board of Engineering and Technology, Inc. (ABET, Inc.) Technology Accreditation Commission*

Computer Science (undergraduate): B.S. degree in Computer Science: *Accreditation Board of Engineering and Technology, Inc. (ABET, Inc.) Computing Accreditation Commission*

Fine, Performing And Communication Arts

Communication (B.A. in Public Relations): *The Public Relations Society of America, Inc. (PRSA)*

Dance: *National Association of Schools of Dance (NASD)*

Music: *National Association of Schools of Music (NASM)*

Theatre: *National Association of Schools of Theatre (NAST)*

Information Sciences

MLIS: *American Library Association (ALA)*

Law

American Bar Association (ABA) and Association of American Law Schools (AALS) (Joint Committee)

Liberal Arts and Sciences

B.S. in Chemistry: *American Chemical Society (ACS)*

B.S. in Biochemistry and Chemical Biology: *American Society for Biochemistry and Molecular Biology*

Communication Sciences and Disorders (Doctor of Audiology and M.A. in Speech Language Pathology): *American Speech-Language-Hearing Association, Council on Academic Accreditation (CAA) in Audiology and Speech-Language Pathology*

Nutrition and Food Science (Coordinated Program in Dietetics): *Accreditation Council for Education in Nutrition and Dietetics*

Political Science (Master of Public Administration): *Network of Schools of Public Policy, Affairs and Administration (NASPAA)*

Psychology (Clinical Training Program): *American Psychological Association (APA)*

Urban Planning (Master of Urban Planning): *Planning Accreditation Board (PAB)*

Medicine

Continuing Medical Education: *Accreditation Council for Continuing Medical Education (ACCME)*

Doctor of Medicine Degree Program (M.D.): *Liaison Committee on Medical Education (LCME), representing the American Medical Association and the Association of American Medical Colleges*

Genetic Counseling (Master of Science in Genetic Counseling): *Accreditation Council of Genetic Counseling*

Graduate Medical Education Programs, Affiliated Hospitals' Resident Physician Programs: *Accreditation Council on Graduate Medical Education (ACGME)*

Master of Public Health: *Council on Education for Public Health*

Medical Physics/Radiation Oncology: *Commission on Accreditation of Medical Physics Educational Programs, Inc.*

Nursing

Nursing (Baccalaureate programs, M.S.N., and D.N.P.): *Commission on Collegiate Nursing Education (CCNE)*

Nurse-Midwifery Program: *Accreditation Commission for Midwifery Education (ACME) and Commission on Collegiate Nursing Education (CCNE)*

Eugene Applebaum College of Pharmacy and Health Sciences

Clinical Laboratory Science: *National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)*

Mortuary Science: *American Board of Funeral Service Education, Inc. (ABFSE)*

Nurse Anesthesia: *Council on Accreditation of Nurse Anesthesia Educational Programs (COA)*

Occupational Therapy: *American Council on Occupational Therapy Education (ACOTE)*

Pathologists' Assistant Program: *National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)*

Pharmacy (Doctor of Pharmacy): *American Council on Pharmaceutical Education (ACPE)*

Physical Therapy: *Commission on Accreditation in Physical Therapy Education (CAPTE), American Physical Therapy Association*

Physician Assistant Program: *Accreditation Review Committee on Education for the Physician Assistant, Inc. (ARC-PA)*

Radiation Therapy Technology (undergraduate): *Joint Review Committee on Education in Radiologic Technology (JRCERT)*

Radiologic Technology (undergraduate): *Joint Review Committee on Education in Radiologic Technology (JRCERT)*

Social Work

Bachelor of Social Work and Master of Social Work: *Council on Social Work Education (CSWE)*

University Policies

University Equality of Opportunity Policy

Wayne State University is committed to a policy of non-discrimination and equal opportunity in all of its operations, employment opportunities, educational programs and related activities.

This policy embraces all persons regardless of race, gender, color, sex (including gender identity), national origin, religion, age, sexual orientation, marital status, familial status, disability, arrest record, weight, qualified Vietnam era veterans, qualified special disabled veterans, recently separated veterans and other protected veterans, or any other characteristic protected by applicable federal or state law. It expressly forbids discrimination, sexual harassment or any form of harassment in hiring, terms of employment, tenure, promotion, placement and discharge of employees, admission, training and treatment of students, extra-curricular activities, the use of University services, facilities and in the awarding of contracts.

This policy also forbids retaliation and/or any form of harassment against an individual as a result of filing a complaint of discrimination or harassment, or participating in an investigation of a complaint of discrimination or harassment.

Wayne State University, as an equal opportunity/affirmative action institution, complies with all applicable federal and state laws regarding non-discrimination and affirmative action. In furtherance of this policy, the University is also committed to promoting institutional diversity to achieve full equity in all areas of University life and service and in those private clubs and accommodations that are used by University personnel. No off-campus activities sponsored by or on behalf of Wayne State University shall be held in private club facilities or accommodations which operate from an established policy barring membership or participation on the basis of race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability or veteran status. Affirmative action procedures, measures and program may be used to the extent permitted

by law to establish, monitor and implement affirmative action plans for all budgetary units and the University as a whole.

Inquiries regarding equal opportunity Academic/Administrative policies or complaints may be made to:

Office of Equal Opportunity
4324 Faculty/Administration Building
Wayne State University
Detroit, Michigan 48202
Telephone: 313-577-2280
or <http://www.oeo.wayne.edu>

Disability Non-Discrimination Policy

In accordance with federal requirements of the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973, there shall be no discrimination on the basis of disability in Wayne State University's programs, operations and activities, in the hiring, terms and conditions or privileges of employment or any matter directly or indirectly related to such employment, or in the admission, education and treatment of students. The Student Disability Services Office (<http://studentdisability.wayne.edu/>) has complete information on services available to students.

Drug and Alcohol Free Workplace Policy

Wayne State University is committed to providing a drug-free environment for its faculty, staff, and students. The Board of Governors has made this commitment a formal policy of the University. All faculty, staff and students must abide by the terms of the Board policy as a condition of employment or enrollment at the University. The unlawful possession, use, distribution, sale or manufacture of drugs or alcohol is prohibited on University premises, at University activities, and at University work sites.

Pursuant to that policy, the unlawful possession, use, distribution, dispensation, sale or manufacture of any illicit drugs, and the unlawful possession, use or distribution of alcohol on University property, or at any University work site, or as part of any University activity, is prohibited.

Any employee or student employee who is convicted of a criminal drug offense occurring at the workplace is subject to appropriate employee discipline in accordance with established University policies and collective bargaining agreements, and may be required to participate satisfactorily in a drug abuse or rehabilitation program as a condition of further employment or enrollment.

Any student or employee who, while on University premises or at any University activity, engages in the unlawful possession, sale, manufacture, distribution, or use of drugs or alcohol shall be subject to appropriate sanctions, in accordance with established University policies, the Student Code of Conduct, and collective bargaining agreements, and in conformity with local, state and federal law, up to and including expulsion or termination.

The University encourages employees who may have a problem with the use of illicit drugs or with the abuse of alcohol to seek professional advice and treatment. Individuals who seek assistance with such problems may obtain additional information on a confidential basis by telephoning the Employee Assistance Program (EAP) at 1-800-448-8326. Students may also seek referral assistance by contacting University Counseling and Psychological Services (CAPS), at 313-577-3398.

Policy Governing the Use of Alcoholic Beverages on Campus

The use or possession of alcoholic beverages is expressly prohibited in classrooms, lecture halls, laboratories, the libraries, the chapel and within buildings or arenas where athletic events, lectures, and concerts are held. The use of alcoholic beverages is expressly prohibited in all public areas of campus buildings except as follows: the use of alcoholic beverages, subject to State law, is permitted in areas designated by, and with the approval of, the Office of the President, and the use of alcoholic beverages at student social events, subject to State law, is permitted in areas designated by, and with the approval of, the Office of the President.

Sexual Discrimination, Harassment, and Assault Policy

Title IX of the Education Amendments of 1972 is a federal civil rights law that prohibits discrimination on the basis of sex in education programs and activities. Under Title IX, discrimination on the basis of sex can include sexual harassment or forms of sexual assault, such as rape, sexual assault or sexual battery.

Sexual discrimination is prohibited by Title IX and by University Policy. (WSU Statute 2.28.01).

Sexual harassment is a form of sex discrimination that is prohibited by Title IX and by University policy. It is the policy of Wayne State University that no member of the University community may sexually harass another. (WSU Statute 2.28.06).

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communication of a sexual nature when:

1. Submission to such conduct or communication is made a term or condition either explicitly or implicitly to obtain employment, public accommodations or public services, education, or housing.
2. Submission to or rejection of such conduct or communication by an individual is used as a factor in decisions affecting such individual's employment, public accommodations or public services, education, or housing.
3. Such conduct or communication has the purpose or effect of substantially interfering with an individual's employment, public accommodations or public services, educational, or housing environment, or creates an intimidating, hostile or offensive employment, public accommodations, public services, educational or housing environment.

In the area of speech, what the law and this policy prohibit is speech as action: that is, sexual communication which is either directly coercive as demanding favors, or indirectly coercive, as rising to that level of offensiveness which interferes substantially with the victim's education or employment. The determination of what level of offensiveness is actually coercive, and therefore unlawful and prohibited by this policy, will in some cases be difficult. A significant element in the determination is provided by the fact that an unequal power relationship underlies sexual harassment. The more unequal the relationship, the greater the risk is of substantial interference with the victim's education or employment.

In the area of physical contact, physical contact which is unwelcome is so gravely offensive that it always has the effect of substantially interfering with the victim's employment or educational environment. Employees and students should not take for granted that they are welcome to touch other employees or students, since if their contact is

in fact unwelcome, they will be in violation of the law and of this policy. (WSU Statutes 2.28.06.010-2.28.06.080).

Sexual harassment is also unwelcome behavior of a sexual nature that creates a hostile or abusive work or educational environment. Sexual harassment is also unwelcome behavior of a sexual nature that is severe or pervasive and interferes with an individual's work or performance in a course or program

Sexual assault is also prohibited by Title IX and by University policy (01-5 University Policy). Sexual assault includes, but is not limited to any of the following:

1. Any intentional, unconsented, unwelcome physical contact or threat of unwelcome physical contact or attempt thereof, of:
 - a. an intimate body part of another person, such as a sexual organ,
 - b. any body part of another person with one's sexual organs, or
 - c. any part of another person's body with the intent of accomplishing a sexual act; or
2. Unwanted, inappropriate disrobing of another person, or purposeful exposure of one's genitals to another without the other's consent; or
3. Forcing, or attempting to force, any other person to engage in sexual activity of any kind without her or his consent; or
4. Any behavior that is proscribed as "criminal sexual conduct" under the Michigan Penal Code, notwithstanding whether criminal charges have been brought against the individual alleged to have engaged in such behavior. This may include rape, attempted rape, sexual assault or sexual battery.

Date rape and acquaintance rape are forms of sexual assault.

For purposes of the University's statutes/policies on sexual discrimination, sexual harassment and sexual assault, consent shall not be deemed to have occurred if given by a person who is unable to make a reasoned judgment concerning the nature or harmfulness of the activity because of his or her intoxication, unconsciousness, mental deficiency or incapacity, or if the product of threat or coercion. (WSU Statute 2.28.06.060).

Any employee or student will be subject to disciplinary action for violation of any of these policies. If any staff, faculty or student of the University community learns of a sexual discrimination, harassment or assault incident, they should immediately report that incident to either the Title IX Coordinator or the Deputy Coordinator, who are:

Linda Galante, Esq. - Interim Title IX Coordinator
Associate General Counsel
4259 Faculty Administration Building
656 W. Kirby Avenue
Detroit, Michigan 48202
Telephone: 313-577-2280
Fax: 313-577-7738
Email: lgalante@wayne.edu

Dean David Strauss - Deputy Title IX Coordinator
Dean of Students
351 Student Center
Detroit, Michigan 48202
Telephone: 313-577-1010
Email: ak3096@wayne.edu

The Title IX Coordinator's responsibilities include overseeing all Title IX complaints, identifying and addressing any patterns or systemic problems that arise during the review of such complaints, and coordinating the training, education, communication and administration

of grievance procedures for faculty, staff, students and other members of the University community.

The Deputy Coordinator is responsible for Title IX compliance for matters involving students, including training, education, communication and administration of grievance procedures for all complaints against WSU students.

Students or employees having a complaint against a WSU student for sexual harassment, sex discrimination or sexual assault, should contact the Deputy Coordinator by phone or email or file a Student Care Report available on Dean of Students' website (<http://www.doso.wayne.edu/>). Any such complaint can also be filed with the Title IX Coordinator.

The University statutes/policies prohibiting discrimination and sexual harassment/sexual violence can be found on the Board of Governors' website (<http://www.bog.wayne.edu/code/>) and among the general university policies (<http://policies.wayne.edu/>). These are also posted by the Office of Equal Opportunity (<http://www.deo.wayne.edu/>) and the Dean of Students Office (<http://www.doso.wayne.edu/>). The purpose of these policies is to assure the fullest possible awareness of WSU's stand on sexual discrimination/harassment/assault and to confirm and regularize WSU's procedures regarding the handling of complaints.

Additional Resources

In addition to filing a complaint with the Title IX Coordinator or Deputy Coordinator, in instances involving rape, sexual assault or sexual battery, students and/or employees should also contact the WSU Police Department at:

6050 Cass Avenue
Detroit, Michigan 48202
Emergency telephone: 313-577-2222
Non-emergency telephone: 313-577-2224
<http://www.police.wayne.edu>

Violence in the Workplace Policy

Wayne State University is committed to providing a work and educational environment that is free from threats, assaults, or acts of violence. Threats of violence or of physical harm, and any form of physical or sexual assault or threats of physical assault are prohibited. This includes conduct that harasses, disrupts, or interferes with another person's work performance or creates an intimidating, offensive or hostile work or educational environment.

The University has also adopted a Campus Safety Ordinance (WSU Statute 2.87.03) which applies to all property owned, leased or otherwise controlled by Wayne State University and applies to all individuals when present on such property, regardless of whether the individual has a concealed weapons permit or is otherwise authorized by law to possess, discharge or use any device referenced in therein. The ordinance states that no person shall, while on any property owned, leased, or otherwise controlled by WSU:

1. possess or carry on his or her person any firearm, explosive or chemical weapon;
2. carry on his or her person any sword, switchblade knife, or other knife with a blade longer than three inches; and
3. carry on his or her person any other object or device with the intent of intimidating or injuring another person.

Upon conviction of any violation of this ordinance, the violator shall be sentenced to a fine not to exceed \$500.00. In addition, violations of this policy may result in disciplinary action under existing University administrative policies. Limited exceptions to this policy exist for

University employees expressly authorized to possess or use such weapons, devices or substances, law enforcement officials so authorized, and any individual whose possession or use is in connection with a research or regularly scheduled educational program authorized by the University, for which the Chief of the Wayne State University Police Department has been given at least one week's advance notice.

University personnel are expected to notify appropriate management personnel of any violent or threatening behavior, when that behavior is work-related, carried out on University property, or is connected to University employment. Any individual who has obtained a personal protection order that identifies the workplace as a protected area should provide that information to the Wayne State University Police Department.

Academic Calendar 2020-2021

Fall Term: 2020

University Year	August 18, 2020
Appointments Begin ¹	
Priority Registration	March 30 - August 23, 2020
Open Registration	August 24 - August 31, 2020

Term Ends

¹ University Year Appointments are a full nine months in length. Individual service assignments are the responsibility of the appropriate Dean, or, by delegation, the Department Chairperson

² An equal number of class days is needed for courses.

Academic Regulations

Academic Calendar

Each student, except those in the annual Doctor of Medicine program, is required to register at the beginning of each term of attendance according to the procedure and schedule published in the official University Schedule of Classes (<https://wayne.edu/registrar/>). Registration must be completed before the student may attend classes. For registration dates, the student should consult the Academic Calendar (p. 16).

Class Ranking

Ranks are determined according to the number of degree credits which the student has satisfactorily completed. The classifications are:

FRESHMAN	0 to 28.99 credits, inclusive
SOPHOMORE	29 to 55.99 credits, inclusive
JUNIOR	56 to 87.99 credits, inclusive
SENIOR	88 credits or above

Definition of Credits

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that reasonably approximates not less than:

1. one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester hour of credit, or the equivalent amount of work over a different amount of time; or
2. at least an equivalent amount of work for other activities, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

Normal Program Load

A full-time undergraduate student is one who is enrolled for twelve or more credits during a semester. The definition of a normal course load will vary depending upon the requirements of each program. In general, for completion of undergraduate degree requirements in four years, full-time students should average fifteen to eighteen credits each semester during the academic year. Undergraduate students may not elect more than eighteen credits per semester except by written consent of the Dean or advisor. Individual Schools and Colleges may set credit restrictions below those specified here; for details see their respective sections of this bulletin.

Auditing Courses

To audit a course, a student must indicate that he/she wishes to audit the course rather than receive academic credit, at the time of registration. Registration to audit a course is subject to the following regulations:

1. Students must pay the tuition assessment for the course, which is the same as if it were taken for academic credit;
2. A student is not permitted to take quizzes and examinations in audited courses;
3. A student may not normally change from audit status after registering for the course. In some cases, exceptions may be permitted during the term with the written recommendation of the instructor and the written approval of the Dean of the college/school in which the student is enrolled. The instructor's recommendation and Dean's approval must be included with the student's Drop/Add Form indicating the desired change.

The Graduate School does not encourage students to audit graduate-level courses.

Dual Enrollment

Undergraduate Election of a Graduate Course: Highly qualified undergraduate students may, under special circumstances, take a 7000-level course for undergraduate credit only. A written petition initiated by the student's advisor must be approved by the graduate officer of the School or College, the professor teaching the course, and the Dean of the Graduate School. The petition, with all required signatures, must be turned in at the time of registration.

Senior Rule Graduate School Admission: In their last semester, undergraduate students with a 3.0 (or above) upper division grade point average who have completed all general education competencies (mathematics, basic composition, intermediate composition, oral communication, critical thinking, and computer literacy), have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. A Senior Rule student must register for at least one credit which is required for the undergraduate degree in order to be eligible for this status. Students who have completed all required courses for the baccalaureate degree may not obtain Senior Rule status. Completion of the Application for Graduate Admission form is required, and students are advised to consult their advisors and the Office of Graduate Enrollment Services. Application deadlines for Senior Rule admission are the same as for regular graduate admission. Students who qualify and are recommended by the Department or College will be admitted for one semester. Graduate admission will be regularized upon evidence that the student has completed all requirements for the bachelor's degree.

The University permits a student to pay undergraduate fees for the graduate courses elected in a Senior Rule status. It is recommended that students elect only courses numbered 5000-6999 in their Senior Rule semester. Senior Rule may not be used in conjunction with AGRADE.

Dual Enrollment: Graduate students may register for undergraduate courses, however these courses will be recorded on the undergraduate transcript. All courses elected under this status will be assessed at the graduate rate. These courses cannot be used as graduate credit nor to meet requirements for any graduate degree.

Dual Registration at the University of Michigan: A student enrolled at either Wayne State University or the University of Michigan may elect a course or courses in the other institution if the course fits his/her program but is not available in his/her home institution. The student must have written approval of the department chairperson in his/her major area at the home college and the approval of his/her Dean. The election must also be approved by the department which offers the course. Students desiring to participate in Wayne State University - University of Michigan dual registration should obtain the necessary forms from the Office of the Registrar and pay the appropriate tuition at their home institution.

Undergraduate Course Numbering Systems

For the College of Education

0000-4999 — Undergraduate credit only.

5000-6999 — Undergraduate or graduate credit.

For Pharmacy Departments

0000-2999 — Preprofessional Courses.

3000-3999 — First Professional Year Courses.

4000-4999 — Second Professional Year Courses.

5000-5999 — Third Professional Year Courses.

6000-6999 — Undergraduate/Graduate Courses.

For All Other Schools and Colleges

0000-0999 — No degree credit; graded S and U.

— *Mike Ilitch School of Business:* Elementary courses auxiliary to the usual academic program.

— *College of Engineering:* Orientation courses.

1000-1999 — Primarily freshman courses; open to all undergraduates.

2000-2999 — Primarily freshman and sophomore courses; open to all undergraduates who have completed course prerequisites.

— *Mike Ilitch School of Business:* Primarily junior college courses.

— *College of Engineering:* Lower division courses; open to all undergraduates.

3000-4999 — Junior and senior courses; undergraduate credit. (Ordinarily freshmen and sophomores will not be permitted to register for these courses.)

— *College of Engineering:* Upper division courses.

5000-6999 — Junior and senior courses; undergraduate and graduate credit.

Undergraduate Grading System

Final grades are available on Academics (<http://academics.wayne.edu/>). Grades are not mailed to students. Final grades are recorded under the following system.

Undergraduate Grades

A	Excellent	4.00 grade points per credit
A-minus	Excellent	3.67 grade points per credit
ANC	Excellent	no credit
B-plus	Good	3.33 grade points per credit
B	Good	3.00 grade points per credit
B-minus	Good	2.67 grade points per credit
BNC	Good	no credit
C-plus	Fair	2.33 grade points per credit
C	Fair	2.00 grade points per credit
C-minus	Fair	1.67 grade points per credit
CNC	Fair	no credit
D-plus	Poor	1.33 grade points per credit
D	Poor	1.00 grade points per credit
D-minus	Poor	0.67 grade points per credit
F	Failure	0.00 grade points per credit
P	Passed	
PNC	Pass	no credit
N	Not passed	

NNC	Not passed	no credit
S	Satisfactory	
SNC	Satisfactory	no credit
U	Unsatisfactory	
UNC	Unsatisfactory	no credit
M	Marginal pass	

* P, N, S, U, M, ANC, BNC, CNC, UNC, SNC, PNC, MNC, and NNC grades are not reflected in the grade point average. NR – No grade reported by the instructor

Passed – Not Passed Program

The University has a program whereby undergraduate students may elect to take courses in which they will be marked as *Passed* (P) or *Not Passed* (N) in place of a letter grade. The following regulations apply:

1. The student may elect one P-N course per semester with the consent of an advisor, but he/she may not elect more than six courses in all.
2. After classes have begun, a student may not change from Passed/Not Passed to a letter grade election or vice versa.
3. Courses taken for P-N may be used to satisfy competency requirements; however, no course taken on this basis may be used to fulfill specific group or major requirements.
4. Credits for a P-N course may be used to fulfill graduation requirements but will not count in the grade point average. In the event the student enrolls in more than six P-N courses, those beyond the permissible maximum will be designated on the permanent record as not applicable toward graduation.

Mike Ilitch School of Business: Students in the School of Business may *not* take courses offered by the School of Business on a passed / not passed basis.

Incomplete – The mark of I

The mark of I is given to a student when he/she has not completed all of the course work as planned for the term and when there is, in the judgment of the instructor, a reasonable probability that the student will complete the course successfully without again attending regular class sessions. The student should be passing at the time the grade of I is given. A written contract specifying the work to be completed should be signed by the student and instructor. Responsibility for completing all course work rests with the student.

The mark of I will be changed to a letter grade when the student completes the course work as arranged with the instructor or, if the instructor has left the University, with the Chairperson of the department or other instructional unit. Work must be completed within one calendar year. There are NO extensions.

The mark of I will not be awarded if, in the instructor's judgment, it is necessary for the student to attend subsequent sessions of the class. If regular attendance is necessary to complete coursework, the student must register for the class for the semester in which attendance is planned. The student will be assessed tuition and applicable fees for the second registration. If the student decides to register for the course, subsequent to the assignment of an I, then the mark of I for the original election will be changed to a Withdrawal/Passing (WP), and the student will be responsible for tuition and applicable fees for the second registration. Students are responsible for notifying their department and the department offering the course that they have re-registered for the course so that the I is not changed to an F.

Any unchanged mark of I will, within one calendar year from the time it was received, be changed to a grade of F or failure. This will not be changed after the I is replaced.

Official Withdrawal Failing – The mark of WF

The mark of WF is given when the student withdraws from the course in accordance with University policy and the student had earned a failing grade as of the date the withdrawal is approved.

Official Withdrawal No Basis for Letter Grade – The mark of WN

The mark of WN is given to students when there is no basis for a letter grade.

Official Withdrawal Passing – The mark of WP

The mark of WP is given when the student drops the course in accordance with University policy and the student had earned a passing grade as of the date the withdrawal is approved.

Deferred – The mark of Y

The mark of Y is given when the student is up-to-date in the work of a course planned to continue beyond the semester (i.e., essay, thesis, dissertation and certain courses taken in sequence).

Auditor – The mark of Z

The mark of Z is given when the student has formally registered for the course for audit. The student's Academic Dean or his/ her designee must provide written audit authorization to the student at the time of registration.

Repeating Courses – The mark of R

COURSES REPEATED PRIOR TO WINTER TERM 1998:

If an undergraduate student repeats a course and completes it with a grade of A, B, C, D, or E, the following rules will apply in posting the students cumulative record:

1. The grade, grade points and credits for an earlier attempt will be eliminated from the student's grade point average computation.
2. The grade, grade points and credits of only the latest repetition will be included in the student's grade point average computation.
3. An R on the student's academic record will replace the original grade in the course repeated under this rule. Thus, the indicator R will appear for all attempts in a course except the last.

COURSES REPEATED WINTER TERM 1998 TO SPRING/SUMMER TERM 2006:

If an undergraduate student repeats a course and completes it with a grade of A, A-minus, ANC, B-plus, B, B-minus, BNC, C-plus, C, C- minus, CNC, D-plus, D, D-minus, or E, the following rules will apply in posting the student's cumulative record:

1. The grade, grade points and credits for an earlier attempt will be eliminated from the student's grade point average computation.
2. The grade, grade points and credits of only the latest retake will be included in the student's grade point average computation.
3. The original grade in the course repeated under this rule will remain on the student's academic record. Earlier attempts will be flagged for exclusion in the g.p.a. calculation and the latest attempt will be flagged for inclusion in the g.p.a. calculation.

COURSES REPEATED FROM FALL TERM 2006 TO THE PRESENT:

If an undergraduate student repeats a course and completes it with a grade of A, A-minus, ANC, B-plus, B, B-minus, BNC, C-plus, C, C-minus, CNC, D-plus, D, D-minus, or F, the following rules will apply in posting the student's cumulative record:

1. No student shall attempt to take a class more than four (4) times (for a definition of "attempt," see 5, below).
2. If a student anticipates an attempt to take a class for the third (3rd) time, he/she must meet with an academic advisor to receive permission for this attempt.
3. If a student anticipates an attempt to take a class for the fourth (4th) time, he/she must obtain written permission from the chair (or his/her designee) of the department offering the course and the chair (or his/her designee) of the student's home department.
4. When a course is repeated, credit is only granted once. The last grade and credit hours for a repeated course are used in computing a student's grade point average and for awarding credit hours applicable for a degree even if lower than the previous grade. However, a grade of WP (Withdrawal/Passing, no credit) or WF (Withdrawal/Failure, no credit) or I (Incomplete, no credit) will not replace a previous grade or credit hours for a course. All attempts to take a course will be recorded on a student's transcript, whatever the last grade and credit hours awarded may be.
5. Withdrawals, incompletes, as well as courses repeated in an effort to earn higher grades will count as attempts. If a student drops the class before a W would appear on the transcript, this is not counted as an attempt, i.e. the student does a drop or a drop/add to another course. If tuition has been assessed and the time for refunding tuition has passed but the time for having a W appear on the transcript has not, the tuition will not be refunded, but the registration will not count towards the allowed attempts.
6. Any student who has repeated three different courses must meet with an academic advisor for permission to repeat another course.
7. There shall be an appeals process to the dean's office of the colleges offering the course and the student's home department.

After a degree has been granted, no grade computed in that degree may be changed.

If a post-bachelor status student repeats a course originally taken under regular undergraduate status, the repeat will in no way modify the earlier attempt. The second election, however, will be averaged in the grade point base.

Mike Ilitch School of Business: No course in which a student has received a passing grade or mark may be retaken without the prior written approval of the Director of Student Services of the Mike Ilitch School of Business.

College of Engineering: No course may be retaken without the prior written approval of the respective department's Graduate Program Chairperson and the Associate Dean of Engineering for Graduate Studies. Students may not retake any course in which a grade of 'A' or 'B' was received.

Eugene Applebaum College of Pharmacy and Health Sciences: No course may be retaken without the consent of the advisor(s) delegated for each professional curriculum.

Transfer of Undergraduate Credits

Wayne State University policy accepts transfer credit from all accredited institutions of higher education, both community colleges and baccalaureate-granting colleges and universities.

No transfer grades apply in computing Wayne State grade point averages.

Transfer Credit from Regionally Accredited Institutions: Wayne State University will accept equivalent academic credit from regionally accredited baccalaureate-granting institutions, and up to sixty-four semester credits from community colleges and other regionally accredited institutions which offer Associate Degrees. (All credits will be evaluated in the latter case; the most relevant sixty-four credits will apply to the degree.) Courses must be completed with a grade of C or higher to transfer in to Wayne State.

Credit from Institutions NOT Regionally Accredited: Wayne State University will accept transfer credit from other accredited institutions, provided that the institution:

1. grants a baccalaureate or associate degree;
2. is fully accredited by an agency recognized by the Council on Postsecondary Education (COPA); and
3. the courses presented for transfer are shown to have equivalency or are determined to be of a traditional academic nature.

Transfer Credit from Institutions in Candidacy Status: Wayne State University will accept for transfer those credits for which a grade of B or higher was earned from institutions with candidacy status from a regional accrediting agency.

Technical, Vocational and Applied Credit: To facilitate transfer of students, Wayne State University will accept for transfer up to twelve semester credits earned in technical, vocational and applied (TVA) courses at two- and four-year colleges if such courses are determined to be related to a student's intended program. For students transferring from associate degree granting institutions, the twelve TVA credits will be included in the sixty-four credit limitation.

Transfer of Remedial or Developmental Course Work: Credit earned in courses designated remedial or developmental will not transfer.

Transfer of Redundant or Duplicative Course Work: Transfer credit will not be awarded for redundant course work (i.e., courses with substantially duplicative content). Credit will be awarded for only one course in any set of redundant courses.

Residency and Upper Division Requirements: Transfer students will be required to meet the University and College residency requirements and to obtain the same number of upper division credits in fulfillment of the baccalaureate degree as are required of native students in specific major programs.

Junior Standing: Wayne State University will award junior standing to all transfer students for whom fifty-six or more transferable semester credits have been accumulated, whether they are transferred credits or credit earned at Wayne State University. Junior standing will not guarantee automatic entry to major and professional programs in the Schools and Colleges. Transcripts will be individually evaluated to determine whether all prerequisites for major and professional standing have been met by native and transfer students.

Advanced Placement Tests

Superior performance in the College Board Advanced Placement Tests will entitle an entering freshman to consideration for advanced placement and/or advanced standing credit in the areas covered by the examination. These areas include American history, European history, art history, studio art, biology, chemistry, computer science, English, French, German, Latin, Spanish, mathematics, music literature, music theory, and physics. Advanced placement and/or advanced standing credit will be awarded and such credit may satisfy General Education Requirements (see General Education Program (p. 29)) in accordance with policies adopted by the appropriate Department. Interested students

should contact the Office of Undergraduate Admissions (<https://admissions.wayne.edu>).

College-Level Examination Program

The College Board sponsors the College-Level Examination Program (CLEP). This program gives students and prospective students the opportunity to demonstrate their academic proficiency at the freshman-sophomore college level in various areas and in specific subjects whether or not they have had previous formal college instruction in materials covered by the tests. As described by the College Board, the examinations are intended to provide a comprehensive measure of undergraduate achievement in the five basic areas of the liberal arts:

- English composition
- humanities
- mathematics
- natural sciences
- social sciences

They are not intended to measure advanced training in any specific discipline, but rather to assess a student's knowledge of fundamental facts and concepts, his/her ability to perceive relationships and his/her understanding of the basic principles of a subject. The content of the Examinations is similar to the content of those subjects ordinarily included in the program of study required of most general education students in the first two years of college.

The Subject Examinations are essentially end-of-course tests developed for widely taught undergraduate courses. They measure understanding of basic facts and concepts, as well as the ability to apply such understanding to the solution of problems and the interpretation of materials. Questions that require of a student only rote recall are avoided.

Superior performance in these examinations will be considered as a basis for granting advanced placement and/or advanced standing credit as well as for waiving parts of the General Education Requirements of the University (see General Education Program (p. 29)). For further information, please consult advisors, school or college offices, or University Advising Center at 313-577-8889.

Credit by Special Examination

Upon the recommendation of the Department Chairperson and with the written approval of the appropriate College or School office, a student may earn credit in a course in which he/she has not been regularly enrolled in this University, but which is offered by a Department, by passing a special examination. Credit by a special examination is restricted as follows:

1. Not more than sixteen credits may be earned in any one subject.
2. Credit will be recorded with grade to indicate the level of performance in the examination but will not be considered in computing grade point average.
3. Credit will not be considered residence credit.
4. To be eligible to earn Credit by Special Examination, a student must have been regularly admitted or have attended with guest status, have enrolled for one semester and have completed at least one course.

Students who intend to transfer to other schools are cautioned that Credit by Special Examination at one institution is infrequently accepted for transfer credit by another institution.

Grade Point Average

The grade point average (g.p.a.) is the numerical index of the student's scholastic average across all transcript credit earned at a given student level (i.e. undergraduate or graduate). Points are assigned to each letter grade (see University Grading System, above) for each hour of credit. To compute your grade point average, multiply the grade points assigned to each course grade by the number of credits for each course; add the results and divide by the total number of credits.

For example, a grade of A in a class carrying 3 credits would be assigned 12 grade points (3 x 4), and a grade of C in a class carrying 4 credits would be assigned 8 grade points (4 x 2). In this example, the grade point average is: 20 (total grade points) divided by 7 (total credits attempted) = 2.85 g.p.a.

Credit for special examinations, transfer credit, and courses in which a mark of I W, WF, WN, or WP or a grade of S, U, M, P, and N, has been earned are excluded from grade point average computation.

Law School: This grade point system does not apply to Law School students.

Obligations to the Instructional Process

Since education is a cooperative effort between teacher and student, both parties must fulfill obligations if the integrity and efficacy of the instructional process are to be preserved.

Responsibilities of Faculty Members

1. To contribute to and remain abreast of the latest developments in their fields;
2. To continually pursue teaching excellence;
3. To treat all students with respect and fairness without regard to ancestry, race, color, religion, political belief, national origin, gender, sexual orientation, age, marital status, disability, or veteran status;
4. To encourage differing viewpoints and demonstrate integrity in evaluating their merit;
5. To attend regularly and punctually, adhere to the scheduled class and final examination times, and arrange for notification of absence and coverage of classes;
6. To establish and maintain appropriate office hours;
7. To present, early in the semester, the following course information:
 - a. course objectives and general outline;
 - b. classroom procedures to be followed, expectations concerning class attendance, and proposed dates of major evaluations (including examinations, papers, and other projects);
 - c. grading policy;
 - d. where appropriate, a schedule of class-related activities, including class meetings and laboratory sessions;
 - e. lists of texts and/or other materials needed for the course;
 - f. late enrollment, withdrawal, and other special policies.
8. To provide and adhere, within reasonable limits, to the written syllabus of the course;
9. To know course matter thoroughly and prepare and present the material conscientiously;
10. To be informed of University services and recommend their use to students when advisable;
11. To follow these policies concerning written work and grades:
 - a. grade and return written work promptly;
 - b. submit final grades by the scheduled time;
 - c. retain written materials not returned within the semester (e.g., final examinations, major term papers) for one academic

semester in accordance with unit policy and allow students to examine such materials;

12. To implement unit procedures for student evaluation of faculty teaching, with attention to preserving student anonymity;
13. To behave appropriately in dealing with students so as to maintain a scholarly atmosphere

Responsibilities of Students

1. To inform themselves of and to fulfill all requirements of the University and those of the College and Department from which they expect to receive their degree;
2. To fulfill conscientiously all assignments and requirements of their courses;
3. To attend classes regularly and punctually;
4. To maintain a scholarly, courteous demeanor in class;
5. To uphold academic honesty in all activities;
6. To notify the instructor as early as possible if prevented from keeping an appointment or carrying out an assignment;
7. To discuss with the instructor any class-related problem and follow established procedures in the resolution of these problems;
8. To adhere to the instructor's and general University policies on attendance, withdrawal, or other special procedures.

It is expected that faculty and students will fulfill their obligations to the instructional process. If, however, a complaint does arise, the parties should meet in an effort to resolve the matter. When such a discussion fails to resolve the problem or is inappropriate given the circumstances, the head of the academic unit should be contacted. If this contact fails to satisfy the complaint, the College's published procedures should be followed. Although the University Ombudsperson is not a direct part of the appeal process, students and faculty may consult the Ombudsperson at any point during such proceedings.

Classroom Attendance Policy for Undergraduate Students

Whenever attendance forms a basis for a portion or all of a course grade, students must be provided with explicit written information concerning that fact during the first week of classes. Such information shall be specific with regard to the penalty incurred for each absence and the means, if any, to compensate for the absence. It should be recognized that there may be certain situations where the student may not be permitted to make up the absence(s).

It is recognized that students may be required to miss classes on occasion as a result of their participation in approved University activities. Examples of such activities include formal participation on University sports teams, debate teams, and performing arts groups. These activities are generally directed by a University official, such as a coach, and usually have a set schedule of events.

Students participating in approved University activities should consult with instructors prior to registration, but no later than the end of the second week after the start of classes, to determine the class attendance policy. At this time, the student should provide the instructor with a schedule of planned absences, preferably signed by the University official directing the activity (e.g., Athletic or Program Director or his/her designee), in order to allow the instructor to evaluate and advise the student on the possible impact of the planned absences. In this case, the instructor will consider absences due to participation in approved University activities, as outlined above, to be excused absences, on par with those due to other unavoidable circumstances such as illness. For classes requiring mandatory attendance incompatible with the number of planned absences, students will be advised to register, if possible,

during a semester in which they will not be participating in the University activity (for example, during the off-season for a sports team or during the summer).

It is the student's responsibility to learn the course material. When classes are missed, for whatever reason, it is the student's obligation to obtain copies of the class materials and students are responsible for all materials covered in the lectures. An excused absence does not excuse the student from completing assigned work, including exams.

This policy shall be applicable to all courses within the University.

Responsible Attendance and Performance

Students must show diligence and are normally expected to complete the courses they elect. Irresponsible attendance is wasteful of both student and University resources. Those students who consistently receive excessive marks of I (incomplete), WF (Withdrawal Failing), WN (Withdrawal No Basis for Letter Grade), or WP (Withdrawal Passing) may be refused the privilege of further registration by the dean or the dean's designee of their school or college.

Student Code of Conduct

High standards of student conduct play a major role in creating an environment of excellence and the Student Code of Conduct is used to maintain these standards. The code:

1. establishes the expectations that students are accountable for their behavior;
2. describes acceptable student conduct, both academic and non-academic;
3. describes disciplinary policies and procedures;
4. specifies the rights of students and other parties; and
5. specifies prohibited conduct and sanctions to be imposed if such conduct occurs.

Examples of prohibited conduct subject to the Student Code of Conduct include, but are not limited to, academic misbehavior, knowingly furnishing false information to the University, disorderly behavior, theft, damage of property, illegal drugs, weapons on campus, physical assault, unauthorized entry, violation of criminal law, etc.

The University Student Conduct Officer, housed in the Dean of Students Office, monitors the student disciplinary process and is responsible for coordinating matters involving student discipline; describing the disciplinary procedures; and informing students and other parties of their rights. Copies of the Student Code of Conduct can be found online (<http://www.doso.wayne.edu/>) or in the Dean of Students Office, 351 Student Center.

Student Academic Ethics

Academic Records: The submission of fraudulent academic records for admission or transfer of credit by a student may be cause for the student's dismissal.

Academic Work: Academic work submitted by a student for credit is assumed to be of his/her own creation, and if found not to be, will constitute cause for the student's dismissal.

Student Rights and Responsibilities

Upon the recommendation of the Student-Faculty Council, the University (Faculty) Council, the President-Deans Conference and the President, the Board of Governors, in January, 1967, approved a comprehensive statement of Student Rights and Responsibilities for the University.

Copies of this document are available to students and faculty in the offices of the deans of each College and the Dean of Students Office.

Law School: The faculty of the Law School has approved a set of academic regulations specifically applicable to Law School students, copies of which are available to all students enrolled in the Law School.

Undergraduate Academic Probation

An undergraduate student whose cumulative grade point average (g.p.a.) falls below 2.00 will be placed on Academic Probation. An 'Academic Probation' status is placed on the student's record and the student shall be permitted to register only after consultation with, and approval has been granted by, a designated University advisor.

A student shall be given two subsequent terms for enrollment on probationary status. At the conclusion of the two terms, a student who has not achieved a cumulative g.p.a. of at least 2.00 shall be excluded from his/her program. A student excluded from the University may not apply for readmission or reinstatement for one calendar year.

Each School and College may establish more stringent Probation, Exclusion, and Appeal policies, and students should consult the appropriate Dean's Office. Students must consult with an academic advisor regarding appropriate deadlines for academic hold releases and/or reinstatement procedures.

Grade Appeal Procedure

Students should first seek to settle grade disputes informally with the instructor. Each College and School has established formal grade appeal procedures. These procedures are available from the Dean's Office of the College or School. In most instances, formal grade appeals must be filed within thirty days of the time the student has or should have received his/her final grade.

Academic Appeal Procedure

In matters where a College's signed final decision is based upon the evaluation of a student's academic performance, and when review procedures available to him/her within the College have been exhausted, the student may request the Associate Provost for Academic Programs to review that decision on the record. The academic appeal form (<https://provost.wayne.edu/academic-policy/>) must be submitted by the student himself/herself, **within thirty calendar days** of the postmark of the College's final decision, which is to be sent to the address provided by the student in the College's review procedures. The Associate Provost's review of the College's decision will proceed as soon as practicable after submission by the student of his/her wish to seek review.

Academic Nepotism Policy

Faculty members are not to place themselves, or allow themselves to be placed, in situations amounting to 'academic nepotism,' i.e., teaching or otherwise directing the credit study or research of a student who is also a close relative. Concomitantly, students are not to take courses from close relatives or engage in research for academic credit under the direction of close relatives. All such credit will be disallowed.

Fraud and Misuse of Documents

Intentionally furnishing false information to the University is explicitly prohibited, as is forgery, alteration, unauthorized possession, or misuse of University documents, records and identification cards. The University reserves the right to rescind degrees if the award of the degree was based in whole or in part on deception, fraud, other unacceptable academic conduct, or misuse of University documents.

Admission: Undergraduate

Office of Undergraduate Admissions and Orientation

Welcome Center
42 W. Warren Avenue
PO Box 02759
Detroit, MI 48202
Telephone: 313-577-2100, Fax: 313-577-7536
<http://wayne.edu/admissions> (<https://wayne.edu/admissions/>)

Service Hours: The Office of Undergraduate Admissions assists students by telephone and on a walk-in basis during posted service hours.

The Office of Undergraduate Admissions has the primary function of recruiting, admitting, and enrolling new undergraduate students to the University. This office also helps to coordinate the recruitment activities of individual departments, alumni groups, and students. The office organizes visits and programs at local high schools and community colleges in the State of Michigan and selected regions outside of the state.

Also included in functions of the Office of Undergraduate Admissions are administration of the Presidential and Wayne State merit-based scholarships.

Application for Undergraduate Admission

An official application for Undergraduate Admission (<http://www.apply.wayne.edu>) should be completed online. There is a \$25.00 application fee.

Freshmen Admission Guidelines

Admission to Wayne State is selective. In order to qualify for admission an applicant must submit an official high school transcript indicating college preparation, standardized test scores (ACT or SAT), and ability to undertake a college degree program. Admission decisions will be based on a full evaluation of each student's academic record. Students still in high school may apply after completion of their junior year.

Special Undergraduate Programs for Admission

The Center for Latino and Latin American Studies (CLLAS) and Academic Pathways for Excellence (APEX) both offer special undergraduate programs with additional admission standards. See the following sections for more information: Center for Latino/a and Latin American Studies (p. 302) and Academic Pathways for Excellence (APEX) (p. 74).

Recommended High School Preparation

- English (four years recommended):** Effective use of the English language is central to one's ability to succeed at the University and in the professions and occupations for which our students are preparing. Students entering the University should be able to:
 - comprehend the main and subordinate ideas in written works, lectures, and discussions; and
 - conceive ideas about a topic and be able to organize them for presentation in both verbal and written forms.
- Mathematics (four years recommended):** While most careers for which University students are preparing require mathematical competency, an increasing number of careers in science and technical curricula require advanced preparation in mathematics. Entering students should be able to:

- a. understand ratios, proportions, percentages, roots and powers; and
 - b. perform the mathematical operations of algebra and geometry.
3. **Biological and Physical Sciences (three years recommended):** A basic understanding of the physical and biological sciences is essential for many fields of college-level study and is necessary if one is to comprehend our world and the impact of science and technology on it. Students should be acquainted with:
- a. concepts of matter, energy, motion and force and the natural laws and processes of the physical sciences in general;
 - b. the science of life and living matter with special reference to growth, reproduction and structure; and
 - c. laboratory methods.
4. **Social Sciences/History (three years recommended):** Students should study different cultures and societies — their social systems, customs, communities, values, economies, governments, and politics. A knowledge of the main events and ideas that have shaped our nation and its place in the world should also be possessed by entering students. They should understand how the past bears upon the present condition and future course of mankind. As the social sciences improve one's appreciation of the scientific method and other approaches to critical analysis, an understanding of history is required for an informed exercise of citizenship in a free society.
5. **Foreign Languages (two years recommended):** Proficiency in a foreign language not only introduces students to non-English speaking cultures but also heightens awareness and comprehension of one's native tongue. Language is the basic instrument of thought, and the ability to read, speak and write in a foreign language permits one to understand another culture in a more fundamental way. Foreign language competency will open up career opportunities denied to those without it.
6. **Fine Arts (two years recommended):** Students entering the University should be acquainted with the visual and performing arts, through study and/or participation. Several academic disciplines at the University require high levels of skill in the arts. Study in this area enriches life and heightens one's sense of beauty and aesthetic perception.
7. **Computer Literacy:** Some formal instruction in the logic and use of computers in problem solving and data retrieval is increasingly important in all fields of study.

Transfer Admission

Transfer students are considered for admission if they meet the following minimum requirements:

A transfer applicant may be admitted, without consideration of high school work, upon completion of at least twenty-four semester credits of transferable college-level coursework from an accredited college or university with an overall grade point average of 2.5 and with no courses below a C grade for transferable credit. If the applicant has fewer than twenty-four semester credits of transferable college-level coursework, the applicant may be admitted provided freshmen admissions guidelines are met, subject to a holistic evaluation of each student's record. Students who have attended unaccredited institutions should consult with an admission counselor to determine admissibility.

The Office of the Registrar governs the policies for the transfer of credit (p. 64) from other accredited institutions of higher education, both community colleges and baccalaureate-granting colleges and universities.

MACRAO Agreement

Wayne State University has signed an agreement making it easier for Michigan community college students to transfer to our institution. By becoming a signatory institution to the MACRAO (Michigan Association of Collegiate Registrars and Admissions Officers) agreement, WSU formally acknowledges that community college transfers who have select associate degrees or MACRAO-stamped transcripts from a community college will have met University General Education Requirements, thereby expediting these students' path to graduation. This recognition will commence for students transferring to Wayne State beginning in Fall 2013. The conditions governing this agreement stipulate that Michigan community college students covered by the MACRAO agreement will still need to the senior-level writing intensive requirement and any requirements specific to a particular school/college or department within the student's major field of study.

Michigan Transfer Agreement (MTA)

The MTA is a more recent agreement than MACRAO. The MTA will take effect for students who begin their studies in the Fall 2014 semester, and it will eventually replace the MACRAO Agreement. Students who started prior to Fall 2014 will be able to complete the existing MACRAO Agreement until the end of the summer 2019. The thirty credits of lower-level General Education from the sending Michigan community college will be accepted as a block of thirty credits by Wayne State University as long as students earn at least a 2.0 in each course. Students may complete the MTA as part of an associate degree or as a stand-alone package. These thirty credits of lower-level General Education should be met according to the following distribution:

- One course in English Composition
- A second course in English Composition or 1 course in Communication
- One course in Mathematics
- Two courses in Social Sciences (from two disciplines)
- Two courses in Humanities and Fine Arts (from two disciplines and excluding studio and performance classes)
- Two courses in Natural Sciences including one with laboratory experience (from two disciplines)

If these courses do not add up to thirty credits then the student must take an additional course from one of these groups. The MTA's block of thirty transfer credits will fulfill the majority of Wayne State's General Education curriculum, and all courses will count toward students' overall degree requirements. All Wayne State lower-level General Education requirements will be fulfilled by the MTA with the exception of either oral communication or intermediate composition. Because the MTA applies only to lower-level General Education, students will still need to satisfy our upper-level requirement for the Writing Intensive (WI), which is fulfilled in the student's major field of study. Additionally, students must fulfill all requirements specific to school/ college and academic programs.

Special Requirements and Professional Admission

The following Schools, Colleges and programs have requirements beyond those of regular undergraduate admission:

- Business (p. 95)
- Engineering (p. 159)
- Engineering Technology (p. 186)
- Fine, Performing and Communication Arts (p. 198)
- Nursing (p. 357)

- Pharmacy and Health Sciences (p. 363)
- Social Work (p. 385)

International Undergraduate Students

A student from another country desiring admission who is not a permanent resident or citizen of the U.S. should complete the International Admissions Application (<https://wayne.edu/admissions/international/>). There is a \$25.00 non-refundable application fee. A student from a country in which English is not the native language must take an English Language Proficiency Examination prior to admission or have a minimum Test of English as a Foreign Language (TOEFL) score of 550 (213 on computerized version).

Canadian Applicants

Applicants who are a citizen or permanent resident of Canada should complete the Canadian Admissions Application (<https://wayne.edu/admissions/canadian/>). There is a \$25 non-refundable application fee.

Non-Matriculated Status

Non-matriculated status enables students to take undergraduate courses for which the prerequisites are met. Courses, credits and grades will be posted to the University's transcript. However, these will be used toward fulfillment of a degree only after formal admissions is granted through the Office of Undergraduate Admissions. Students are encouraged to meet with an academic advisor prior to registering for courses. The non-matriculated application (<https://wayne.edu/admissions/non-matriculate/>) should be completed online. There is a \$25.00 non-refundable application fee. The holder of non-matriculated status is ineligible for any type of loan, grant or scholarship that is administered by Wayne State University.

Post-Bachelor

Post-bachelor admission is an optimal choice for students who have already completed a bachelor's degree and are interested in either earning college credit without intending to use it toward another degree, and those students needing to complete prerequisite course work to gain admission to a graduate program.

Undergraduate Guest Admission

Students currently attending an accredited institution of higher education who are interested in taking undergraduate courses at Wayne State for one semester, or who wish to register for courses concurrently, are eligible to apply for Guest Admission (<https://wayne.edu/admissions/guest/>). Requirements include the completion of twelve semester credits at the home institution and a minimum cumulative 'C' grade point average (equivalent to a 2.0 grade point average at Wayne State).

Re-Entry Following an Interruption in Attendance

Undergraduate students who were previously admitted and registered at Wayne State University and whose attendance has been interrupted need not reapply at the Office of Undergraduate Admissions. It is expected that students who left in good standing report to the College of their choice for any special instructions regarding their return to classes.

University of Windsor Exchange Agreement with Wayne State University

Wayne State University and the University of Windsor have entered into an exchange agreement whereby students from each institution may enroll in selected courses at the other institution. Courses available are

limited to those not offered at the student's home institution. Limitations also apply to the number of courses and credits a student may take under this agreement. Wayne State University and the University of Windsor students who wish to participate in the program must be in good standing at their home institution and must have prior approval of the appropriate academic unit that the course(s) will be accepted as part of the student's course of study. Students who participate in the Wayne State University/University of Windsor program pay tuition and fees at the home institution and receive credit for the course(s) only at the home institution. Students should consult the Director of the Office for Study Abroad for further information.

Phoenix Program (Second Start)

The Phoenix Program has been revised effective Winter 2021. Details are available via the Office of the Provost (<https://provost.wayne.edu/pdf/phoenix-reentry-program.pdf>).

Admission: Graduate School

OFFICE OF GRADUATE ADMISSIONS
5057 Woodward, Suite 6305
Detroit MI 48202
Telephone: 313-577-4723; Fax: 313-577-0131
<http://wayne.edu/admissions/graduate> (<http://wayne.edu/admissions/graduate/>)

Admission: Graduate

To be considered for graduate admission, an applicant must hold or be completing an earned baccalaureate degree or its equivalent from a college or university of recognized standing and have adequate preparation with discernible ability to pursue graduate studies in the major field elected. These criteria are subject to standards set by the individual Colleges and Schools, which reserve the right to revise or amend their entrance requirements beyond the minimal requirements of the University. Note: Proof of the earned bachelor's degree must be submitted before regular admission will be granted.

Before any student can be considered for admission to graduate study, the following must be submitted to the Office of Graduate Admissions: A completed online Application for Graduate Admission and an official transcript from any college or university at which a bachelor's degree was earned. A transcript is considered official only if it is sent directly from the institution where the course work was completed and bears an official seal. International applicants are expected to submit additional documentation for regular admission. Note: The applicant is also responsible for arranging to take any examinations that may be specified by the Office of Graduate Admissions, the College, or the Department in which the student intends matriculation.

Some academic programs may require an additional departmental application for admission. Students are advised to contact the department to which they are applying and request full particulars on admission procedures.

In most departments (see the departmental sections of this bulletin for variants), a regular admission may be authorized for the domestic master's degree applicant upon the department's recommendation, if the applicant's grade point average is 2.75 (C'=2.00) or above for the upper division (approximately the last sixty semester credits) of his/ her undergraduate course work and if he/she holds a bachelor's degree from a regionally accredited institution.

All baccalaureate graduates of unaccredited institutions must present a 3.00 (B') or better upper-division grade point average to be considered for graduate admission. Course work completed after the baccalaureate

which is presented as the qualifying basis for graduate admission cannot be applied toward a graduate degree at Wayne State University.

Doctoral applicants must present higher entrance qualifications than those required of master's degree applicants. A doctoral applicant is required to have an undergraduate grade point average of 3.0 (B⁻=3) or above for the upper division of the undergraduate, bachelor's degree course work and must have completed an undergraduate major or substantial specialized work in his/her proposed doctoral major field. Certain departments require the completion of a master's degree with superior scholarship before considering acceptance of a student as a doctoral applicant. Applicants with less than a 3.0 grade point average in undergraduate course work may be eligible for admission to doctoral study if they have subsequently achieved a grade point average of 3.0 or better in substantial graduate course work in the proposed doctoral field.

The individual colleges reserve the right to refuse a non-resident admission if such admission prevents registration of a qualified Michigan resident. This ruling may not be invoked to secure admission to a Michigan resident if his/her grade point average entitles him/her to qualified status only.

Admission: Qualified Graduate

In most Departments, qualified admission to a master's or certificate program may be authorized if an applicant's grade point average is between 2.50 and 2.74 or if his/her degree is from a non-accredited institution, provided the major Department and the Graduate Officer of the appropriate School or College have reviewed the applicant's academic experience, extra-scholastic qualifications and reasons for pursuing graduate study and have recommended his/her admission to the Graduate School.

Upon recommendation of the Department and the Graduate Officer of the appropriate College or School, qualified status may be granted to an applicant whose grade point average is below 2.5, if, since the time his/her baccalaureate degree was conferred, he/she has shown substantial evidence of academic or extra-scholastic qualifications of such merit as to warrant special consideration.

Applications from students who have completed substantial course work at, and/or graduated from, institutions which were not accredited by one of the six regional U. S. accrediting institutions (MSCHE, NEASC, HLC, NWCCU, SACS, or WSCUC) at the time studies were undertaken, will have a special review. If requested, the applicant will be required to furnish documentation of the nature and level of the credit obtained, the bases on which the credit was awarded, institutional operating practices, library holdings, physical facilities, faculty qualifications, and any other matters that may be relevant to an evaluation of credit. The director of admissions is authorized to deny admission to any applicant whose previous education does not conform to Graduate School standards. The Office of Graduate Admission may also make recommendations concerning the appropriateness for transfer of previously completed graduate course work.

All graduate admission procedures and regulations are subject to revision by the University Graduate Council at any time.

Graduate Application Dates

The Office of Graduate Admission will make every effort to process applications in time for the semester of the student's choice. However, only complete applications received by the last recommended dates shown below are ensured academic review before the semester starts. Unless an application and all supporting materials are received by the date indicated, there may not be adequate time for the desired program to review the application and make the admission decision.

Fall Term — Classes begin Late August: **apply by June 1**

Winter Term — Classes begin Early January: **apply by October 1**

Spring Term — Classes begin Early May: **apply by February 1**

For international students, the application form and all transcripts and documents must be on file in the Office of Graduate Admission at least four months prior to the start of the term in which the applicant plans to begin graduate studies.

Several Colleges and Departments have earlier deadlines. Doctoral programs also have earlier application deadlines. Students should consult the School/College and Department sections of this bulletin, the program's website, or the Office of Graduate Admissions for complete information.

Change of Graduate Status

A Change of Graduate Status is a type of admission only for those students who have previously been admitted to and registered as regular graduate students at WSU. For such students, a Change of Graduate Status is used to request:

1. to change from one graduate program or level to another graduate program or level; or
2. to add a second graduate program to the one in which the student is already enrolled.

A department's normal admission criteria apply to Change of Graduate Status applicants. The application form (<http://gradschool.wayne.edu/current/forms.php>) is downloadable from the Graduate School.

Students should submit the form and transcripts, if needed, to the Graduate Office of the School/College of the new program. Other admission documents required by the department should be submitted directly to the department. The School/College Graduate Office prepares and sends the application and documents to the department for decision. The Graduate Office notifies the student of the admission decision, and, if admission was approved, notifies the Records Office of the change to be made to the student's record. The department's regular admission deadlines apply. No fees are charged for a Change of Status application.

The Change of Graduate Status application should NOT be used by the following students: those who have never been admitted through the Office of Graduate Admissions, those who were admitted but did not register, those who were admitted on a Permit to Register or as Guest students, and those who have been registered in graduate classes only as Non-Matriculated students through the College of Liberal Arts and Sciences.

Graduate Non-Degree Admission

An applicant who wishes to take graduate courses but does not wish to be in a degree program may request admission on a non-degree basis. The eligible applicant will be admitted to a particular College but not to an individual major program. In most instances, a non-degree student may, with the Department's approval, register for any courses for which he/she has the necessary preparation.

The applicant for a non-degree graduate classification is cautioned that *only one semester of full-time graduate study, or part-time registrations not to exceed nine credits, is normally permitted in this classification.* Beyond these limits, registration as a non-degree student requires the approval of the Graduate Officer of the student's College. Not more than nine credits, subject to the approval of the Graduate Officer, may be applied at a later date toward the residency and credit requirements for either the master's or Ph.D. degree. For the Ed.D. degree, credit earned beyond the nine-credit

limitation will be reviewed by the appropriate Division and the Education Graduate Officer for possible application toward the degree.

If a student in non-degree status decides to seek admission to a graduate degree program, he/she should apply to the appropriate College Graduate Office for a Change of Status *before* completing nine credits. There is no assurance that credits earned while holding a non-degree classification will be acceptable in a degree program, or that prerequisites may not have to be specified if the student later becomes a degree applicant. Also, financial aid is not available to students in Non-Degree status.

Graduate Guest Admission

Graduate students actively pursuing degrees and who are in good standing at other accredited colleges and universities may be admitted to elect a limited number of credits at Wayne State University. Interested students may obtain a Graduate Guest Application (<http://wayne.edu/admissions/graduate/applying/app-instructions/>) from the Office of Graduate Admissions. This must be signed by their home institution before it can be accepted for consideration. **A guest admission is valid for only one semester and must be renewed with each subsequent registration.** A maximum of twelve semester credits may be earned as a Graduate Guest Student. Admission as a Graduate Guest student does not constitute permission to register as a degree applicant.

Senior Rule

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. A Senior Rule student must register for at least one credit which is required for the undergraduate degree in order to be eligible for this status. Students who have completed all required registrations for the baccalaureate may not obtain Senior Rule status. Completion of the *Application for Graduate Admission* is required, and students are advised to consult their advisors and the Office of Graduate Admissions. Application deadlines for Senior Rule admission are the same as for regular graduate admission. Students who qualify and are recommended by the Department or College will be admitted for one semester. Graduate admission will be regularized upon evidence that the student has completed all requirements for the bachelor's degree; it is the student's responsibility to provide this transcript.

As a courtesy, the University permits a student to pay undergraduate fees for the graduate courses elected in a Senior Rule status. It is recommended that students elect only courses numbered 5000-6999 in their Senior Rule semester. Senior Rule may not be used in conjunction with AGRADE.

AGRADE: Accelerated Graduate Enrollment

Several Colleges have established an accelerated combined undergraduate and graduate program (AGRADE) in which highly qualified seniors in the college may enroll simultaneously in some undergraduate and graduate programs of the College. A maximum of sixteen credits may be applied towards both undergraduate and graduate degrees in a student's major field if that program is an AGRADE participant. Those who elect the AGRADE program may expect to complete the Bachelor's and Master's degrees in five years of full-time study. AGRADE may not be used in conjunction with Senior Rule.

AGRADE Credits: Students may elect a minimum of three and a maximum of sixteen AGRADE credits. These will be used to complete the

baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program.

Eligibility: AGRADE applicants must have an outstanding overall g.p.a. and have performed at a superior level in their major, as determined by the major department. The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes ninety credits toward the undergraduate degree.

Application: A student seeking AGRADE status should present to the Graduate Admissions Committee of his/her major department all of the materials which that department requires for normal admission (except the GRE; where required, the GRE scores should be forwarded at the normal point in the formal graduate admission process).

Admission and program requirements are described in the respective School and College sections of this bulletin, the Undergraduate Bulletin, and department advising offices.

Permit to Register Status

This is a one-term-only admission status which may be granted to applicants with incomplete applications for graduate admission, at the discretion of the academic department, and upon presentation of evidence of an earned baccalaureate degree with an acceptable grade point average and the application fee. Registration beyond the initial semester requires the submission of a regular graduate admission application, official transcripts and other required documentation as determined by the university and department. Admission as a graduate Permit-to-Register student does not obligate Wayne State University to accept the applicant in the future for a graduate degree, nor is there any assurance that credit earned in this status will be accepted toward a graduate degree.

This option is not available in all University Schools and Colleges. Applicants are encouraged to discuss admission options with the staff of the Office of Graduate Admissions. In addition, financial aid is not available to students in Permit to Register status.

Michigan Intercollegiate Graduate Studies (MIGS) Program

The Michigan Intercollegiate Graduate Studies (MIGS) Program enables graduate students of Michigan public institutions to take advantage of educational opportunities at other Michigan public institutions offering graduate degrees. Any graduate student in good standing in a master's, specialist, or doctoral program at a member institution is eligible to participate with approval of the appropriate academic unit. Students on a MIGS enrollment pay tuition and other fees at the host institution. All credits earned under a MIGS enrollment are accepted by a student's home institution as if offered by that institution. *This type of enrollment is limited to one term for master's or specialist degree students, or two terms for doctoral degree students.* Students interested in this program should contact the Office of Graduate Admissions (<https://wayne.edu/admissions/graduate/application-types/>) for further information.

University of Windsor – WSU Exchange Program Agreement

Wayne State University and the University of Windsor have entered into an exchange agreement whereby students from each institution may enroll in selected courses at the other institution. Courses available are limited to those not offered at the student's home institution. Limitations

also apply to the number of courses and credits a student may take under this agreement. Wayne State University and the University of Windsor students who wish to participate in the program must be in good standing at their home institution and must have prior approval of the appropriate academic unit that the course(s) will be accepted as part of the student's course of study. Students who participate in the Wayne State University/University of Windsor program pay tuition and fees at the home institution and receive credit for the course(s) only at the home institution. Students should consult the Director of the Office of Study Abroad for further information.

Post-Bachelor Admission

The Post-Bachelor status is granted to college/university graduates who wish to take Wayne State University courses through the 6000 level *for undergraduate credit only*. The status serves two groups of students:

1. Those who wish to pursue vocational or avocational interests without intending to use Wayne State University credit to earn another degree at Wayne State University;
2. Those who seek admission to a graduate program but need to raise their undergraduate grade point average and/or fulfill specific undergraduate course requirements for graduate admission consideration.

The following special rules apply to Post-Bachelor Admission:

1. **Under no circumstances will credit earned in this status apply toward a graduate degree program.**
2. The applicant must present evidence of a degree earned from an accredited institution (official transcript or diploma).
3. Post-Bachelor status students are not eligible for financial aid from Wayne State University, except in certain circumstances depending on the program; students should consult the Office of Student Financial Aid (<http://www.finaid.wayne.edu>) for a list of eligible programs.
4. Applications for Post-Bachelor status from students new to Wayne State University should be made to the Office of Undergraduate Admissions, Welcome Center, 42 W. Warren, Wayne State University.
5. An applicant who earned an undergraduate degree from Wayne State University, or who was previously admitted and registered in a Wayne State graduate program, should contact the Records Office to be re-admitted to the University as a Post-Bachelor student. Post-Bachelor applicants in the Colleges of Education and Nursing must obtain authorization directly from the College.

International Graduate Students

To be considered for graduate admission, international applicants must have completed an appropriate university-level program comparable in subject matter and credits to a program for which a bachelor's degree is awarded at Wayne State University.

The fact that a degree in another country may have a similar name to a degree offered in the United States does not mean the two degrees require similar lengths and content of study or that they should be accepted as equivalents. *All graduate applicants must:*

1. present an excellent scholastic record;
2. have sufficient financial resources for minimum tuition, supplies and living expenses; and
3. have a sufficient proficiency in English (see the section on English Proficiency Requirement – International Students, below).

FINANCIAL AID: University-sponsored financial assistance for international students is extremely limited and unconfirmed awards should not be included in financial projections.

English Proficiency Requirements

Graduate applicants who graduated from colleges/universities in other countries must demonstrate proficiency in English. To fulfill this requirement an applicant must satisfy one of the following criteria:

1. Complete baccalaureate degree requirements at an accredited U.S. institution or in a country where English is the native language.
2. Present an acceptable score on the Michigan English Language Assessment Battery (MELAB).
3. Present an acceptable score on the Test of English as a Foreign Language (TOEFL) or equivalent tests such as the IELTS or PTE.

Some units may elect to grant qualified graduate admission to academically-talented International Students whose TOEFL scores fall slightly below the University minimum score. Interested students should contact the chairperson or director of their prospective program, to determine whether the program offers such qualified admission. For further information on the English Proficiency policy, please consult the Office of Graduate Admissions.

Faculty Admission

Tenured Wayne State University faculty members holding the rank of Assistant Professor or above may be admitted to Wayne State graduate degree programs outside the faculty member's school/college, under certain specified conditions. Untenured tenure-track faculty members are not eligible to pursue a graduate or professional degree at Wayne State while in University employment. Faculty members who are not tenured and not on the tenure track may enroll in degree programs outside their own unit with the approval of the dean of their college. For further information, contact the Dean of the Graduate School.

Special Status Students

Visiting Doctoral Guest

The Graduate School may issue a Visiting Doctoral Guest certificate to persons with an earned doctorate who come to Wayne State for scholarly study under the sponsorship of a department. Such Guests may obtain University library privileges and attend classes upon invitation of the department. No official record of attendance is kept on such Guests. For further information, contact the Graduate School.

Visiting Scholar

The Graduate School may issue a Visiting Scholar certificate to persons who have an advanced degree, such as an M.D., or are earning a doctoral degree, and who have come to Wayne State for scholarly study under the sponsorship of a department. Scholars may obtain University library privileges and attend classes upon invitation of the department. No official record of attendance is kept on such Scholars. For further information, contact the Graduate School.

Bachelor's Degree Requirements

Bachelor's Degree

To earn a bachelor's degree at Wayne State University, a student must satisfy the following *minimum* requirements, as well as any other requirements for specific degrees stipulated by the Schools/ Colleges, Departments, and Programs of the University:

1. Complete a minimum of 120 credits with a cumulative grade point average of 2.00 or higher for all Wayne State University course work.

2. Complete the University General Education Requirements (p. 29).
3. Complete all School/College, Departmental and Program requirements.
4. Complete a minimum of thirty credits at Wayne State University.
5. Observe the following credit limitations:
 - a. Credit by special examination may not be counted as resident credit, but such credit, if earned during a semester in which the student is registered for a regular course(s), will not be considered an interruption of residence.
 - b. There shall be no limit to the number of credit hours earned through one or more of the following programs: credit earned by the College-Level Examination Program, Advanced Placement, International Baccalaureate, Credit by Special Examination, or other credit earned for a course in which the student has not been regularly enrolled in a University course.
 - c. Not more than sixteen credits by Special Examination may be earned in any one subject.
 - d. A maximum of sixty-four credits transferred from a two-year institution may normally be applied toward graduation. Articulation agreements for specific programs may occasionally include more than sixty-four transfer credits, subject to board-approved academic policy.

Second Bachelor's Degree

A student who holds a bachelor's degree from any accredited institution may receive a second bachelor's degree from Wayne State University by satisfying the following minimum requirements:

1. Complete at least thirty credits at Wayne State University beyond the first bachelor's degree.
2. Meet all School/College, Department, and Program requirements for the degree.

Concurrent Degrees

A student who wishes to simultaneously receive two different bachelor's degrees from Wayne State University must satisfy the following minimum requirements:

1. Complete a minimum of 150 credits.
2. Complete all University, School/College, Department, and Program requirements for each degree.

Application for Graduation

Degrees are NOT awarded automatically upon completion of scholastic requirements. To be considered as a candidate for a degree, students must file an Application for Degree form with Student Records by the degree application deadline published in each term's Academic Calendar, for the term in which the student expects to graduate.

Bulletin-in-Effect Graduation Policy

All undergraduate students at Wayne State University may choose to graduate under the academic regulations and degree requirements as stated in the Bulletin in effect at the time of their graduation or any of the bulletins in the previous seven academic years, provided one of the Bulletins covers a period of the student's registration. All requirements of the chosen Bulletin must be met. However, if necessary, the university-wide Bulletin-in-Effect Committee, Colleges, and Schools can make appropriate adjustments in order to accommodate students as best they can to adapt their previous coursework to a new Bulletin.

School/College Requirements

Schools/Colleges, Departments, and Programs may establish degree requirements above and beyond those stated here. For statements of any such specific degree requirements, students should consult the School/College and Departmental sections of this bulletin.

Application for Degree or Certificate

Each candidate for a degree or certificate must file an Application for Degree (<https://wayne.edu/commencement/apply-for-graduation/>), no later than the Friday of the fourth week of classes for the semester in which the student expects to complete the requirements for the degree or certificate. If an application for a degree was filed for a previous graduation term in which the student did not graduate, a new application and fee is required. Applications for graduation require that a \$40.00 fee be paid in the online application process.

Commencement

Information concerning commencement announcements, caps and gowns, invitations, tickets, time and place, assembling and other relevant items will be mailed to the graduates by the Commencement Office (<http://commencement.wayne.edu>) prior to the event. Candidates for advanced degrees are requested and expected to attend the commencement at which the University confers upon them the honor of the degree earned.

General Education Program

Wayne State has had a University-wide Program in General Education since 1987 for all undergraduate students pursuing bachelor's degrees regardless of their academic specialties. These requirements contribute to the goal of ensuring that all students have the basic skills fundamental to success in college while simultaneously achieving the intellectual breadth necessary to place specialized and professional curricula in proper perspective. By means of the General Education Program, undergraduate students improve their skills and are introduced to methods of inquiry, modes of thought, bodies of knowledge, and representative ideas drawn from a wide range of academic disciplines.

Effective Fall 2018, the university has adopted major revisions to the general education curriculum. While aspects of the new curriculum are shared with the old curriculum, existing topics were revised and new topics created to specifically align with university's mission and strategic plan. This includes commitments to global learning, diversity, equity and inclusion, and support for students' transition into the Wayne State University academic community. A maximum of 35 credits of Competencies, Group Requirements, and Wayne Experience Requirements shall comprise the General Education Program.

The General Education Requirements for students matriculating or graduating under the 2018-19 University Bulletin are organized into the categories below. Please contact your advisor if you have questions about General Education Requirements specific to your academic plan of work.

Competency Requirements

Learning Objectives: Competency Requirements ensure that students develop and demonstrate early in their academic careers fundamental skills in the following areas that underlie and make possible the acquisition of knowledge.

- Quantitative Experience (QE), satisfied through an appropriate course in mathematics, statistics, or quantitative reasoning.
- Oral Communication (OC)

- Written Communication (Basic Composition - BC, and Intermediate Composition - IC)

General Education Group Requirements

Learning Objectives: Group Requirements have a two-fold purpose:

1. to enable students to acquire knowledge and demonstrate understanding in a broad range of representative branches of knowledge; and
2. to enable students to develop and demonstrate the ability to apply methodological skills which encourage continued exploration on an independent level throughout their lives.

Group Requirements are organized in the following categories of inquiry:

- Cultural Inquiry (CI)
- Natural Scientific Inquiry (NSI)
- Social Inquiry (SI)
- Diversity, Equity and Inclusion Inquiry (DEI)
- Global Learning Inquiry (GL)
- Civic Literacy (CIV)

Wayne Experience Requirements

The Wayne Experience (WE), a one-credit course a required group of various one credit courses required of all first-year students, will play an instrumental role in socializing students into the university community by providing activities that will increase their connections with fellow students, academic advising staff, and their instructors. The essential goals for this requirement are to enhance student engagement, success, and retention by implementing high-impact practices (HIPS) within a student's first year in college. Wayne Experience will also help students build key skills and habits that will allow them to successfully navigate the university and manage their busy lives. These range from time management to, study and test-taking skills to and engaging in community activities both on and off campus. Student motivation, engagement, learning, achievement, persistence and degree attainment all can be fostered by these transformative educational experiences.

Exemptions for Second Degree and Transfer Students (General Education Program)

Students who hold a bachelor's degree from an accredited institution and who seek a second bachelor's degree are exempt from the University-wide General Education Requirements, but must satisfy all School/College, department and program requirements.

Equivalent courses taken at another institution may satisfy General Education Requirements. In cases where this would exceed the limitation of sixty-four credits from a community college accepted on a transfer basis, such courses shall satisfy the requirements, but the credits will not count towards the degree. Transfer students who have satisfied all requirements of the Michigan Transfer Agreement (MTA) are exempted from University General Education Requirements, but must satisfy all School/College, department and program requirements.

Competency Requirements

Success in college and the ability to function as an educated citizen require not only the ability to master areas of foundational knowledge, but also a series of fundamental skills that underlie and make possible the acquisition of knowledge. Since competencies or skills are preconditions for higher education, basic competencies should be demonstrated early in one's academic career. Multiple methods of demonstrating

competency are available, including satisfactory completion of designated courses or earning appropriate scores on designated examinations.

Competency Requirements should be met early in a baccalaureate degree program. Students who fail to meet the specified deadline will be allowed two additional semesters (or equivalent) in which to satisfy the competency requirement. During this time, they must be actively involved in taking the appropriate course or otherwise preparing themselves to demonstrate competence. After the two-semester limit, students who have not satisfied the requirement may be barred from enrolling in courses other than those which satisfy the competency requirement until the requirement has been completed.

The following general principles apply to all competency requirements:

1. Students who satisfy any Competency Requirement by passing a prescribed Wayne State University placement, qualifying, screening, competency or proficiency examination shall be excused from equivalent course work but shall receive NO course credit.
2. Course credit granted for satisfactory completion of an Advanced Placement, CLEP, International Baccalaureate, or Departmental Examination will satisfy the appropriate Competency or Group Requirement; credit so earned will be applicable to a baccalaureate degree.
3. Courses used to satisfy Competency Requirements shall not generally be used to satisfy Group Requirements.

Written Communication (BC, IC)

Writing ability is a cornerstone of academic studies and is often considered the touchstone of a university education. Skill and effectiveness in writing serve the individual throughout life — in career, in community, and in social and leisure activities. The ability to write well must be developed so that specialized audiences within professional fields as well as general audiences can be addressed effectively. While writing proficiency may be honed and refined in composition courses, writing is a skill that serves many purposes; one that requires constant renewal. The requirement in Written Communication is structured not only to provide training in how to write well, but also to insure that writing skills continue to be exercised and enhanced throughout the undergraduate years. The progression of the Written Communication requirements reflects the important notion of 'writing across the curriculum.' This requirement contains the following three components:

Basic Composition (BC) Requirement

All students must demonstrate competence in basic English composition prior to completing thirty credits. Basic composition competence shall be determined by satisfactory completion of a designated course, or its course equivalent or earning credit for basic composition through a national standardized test.

All students must demonstrate competence in basic composition by:

1. Completing successfully an approved course in basic composition with a grade of C or better: ENG 1020 (Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements); OR
2. Earning credit for basic composition through Advanced Placement CLEP or International Baccalaureate; OR
3. Transferring credit received for successful completion of a comparable course completed with a grade of C or better at another college or university.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Use reading strategies in order to identify, analyze, evaluate, and respond to arguments, rhetorical elements, and genre conventions in college-level texts and other media.
2. Learn flexible research methods in order to effectively identify, select, evaluate, and apply secondary research that is appropriate to the scope and topic of a persuasive argument.
3. Develop critical literacy strategies to effectively and responsibly quote, paraphrase, summarize, and synthesize secondary research sources in order to compose persuasive arguments.
4. Learn theories and practices of written composition and rhetoric related to the writing process, including genre conventions of public and/or academic discourse communities and strategies for reading, drafting, writing, rewriting, and editing
5. Apply rhetorical knowledge to develop persuasive research-based written arguments intended for public and/or academic audiences, including techniques of rhetorical analysis of written texts and rhetorical strategies for composing arguments.
6. Compose persuasive arguments using a flexible writing process that includes instructor and peer feedback through multiple drafts of writing projects that incorporate varied writing media.
7. Use reflection and reflective writing to develop metacognition on the writing and research processes to plan, monitor, and evaluate one's own learning and writing.

Intermediate Composition (IC) Requirement

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Learn how to develop appropriate, relevant, and compelling primary research that responds to a text's audience, context, and purpose within a professional discourse community.
2. Synthesize primary and secondary research in order to develop ideas and compose written arguments and/or analyses that respond to issues in a professional discourse community.
3. Investigate, analyze, and compose texts for professional discourse communities as related to a concentration of study (i.e., a student's major).
4. Develop and adjust reading strategies to analyze and evaluate genres within and beyond the student's discipline and profession, including their associated professional discourse community, audience(s), rhetorical situations, purposes, and strategies.
5. Compose written texts that respond to the expectations of audiences inside and outside of students' professional discourse community in terms of content, claims, evidence, organization, format, style, rhetorical situation, persuasive strategies, and language effects.
6. Develop an awareness of how written genre conventions are social, and how genre and professional discourse communities change and shape each other over time.
7. Use reflective writing and meta-cognition as part of the planning, monitoring, and evaluation of one's research and writing processes.

All students must complete satisfactorily a designated intermediate, or more advanced, course in which the teaching of English composition and rhetoric is a major component prior to completing seventy-five credits. Satisfactory completion requires a grade of C or better. Courses currently approved for intermediate composition are:

Code	Title	Credits
AFS/ENG 2390	Introduction to African-American Literature: Literature and Writing	3
ENG 3010	Intermediate Writing	3
ENG 3020	Writing and Community	3
ENG 3050	Technical Communication I: Reports	3

Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.

Oral Communication (OC) Requirement

Educated persons should be comfortable in situations which require them to make oral presentations, be able to convince others of a point of view, or make appropriate remarks in an informal setting. Along with an ability to write cogently, communicating orally is mentioned most frequently by employers and others who evaluate the preparedness of college students as a fundamental skill to be able to compete in contemporary society. Consequently, oral communication is a crucial skill needed for success in virtually every field of endeavor.

All students must demonstrate competency in the fundamentals of oral communication prior to completing sixty credits. Oral communication competency shall be demonstrated by:

1. Completing successfully an approved course in oral communication: COM 1010; ENG 3060 (Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.); OR
2. Passing the Oral Communication Competency Examination; OR
3. Transferring credit received for successful completion of a comparable course taken at another college or university.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Apply public speaking skills and concepts to speech presentations.
2. Prepare and deliver four different types of well-organized, context-specific speeches.
3. Create and present a well-designed presentational aid complementing a message in an informative speech.
4. Employ persuasive strategies in a persuasive speech.
5. Collaborate in a group in order to complete tasks for a group presentation.
6. Incorporate credible research into an informative and persuasive speech.
7. Critically reflect on the organization, content, and delivery of public speaking performances.
8. Perform an audience analysis to create a speech that is appropriate for and respectful of a diverse audience.

Quantitative Experience (QE) Requirement

Individuals with competency in quantitative skills possess the ability to reason and solve problems from a wide range of authentic contexts and everyday life situations. They can interpret quantitative data and use that analysis to provide support for sophisticated arguments. They can clearly communicate those arguments in a variety of formats as appropriate. This requirement is aimed at developing those skills in all of our students.

Competency in quantitative skills must be demonstrated by all students prior to completion of the first thirty credits taken at Wayne State

University. Quantitative skills competency shall be demonstrated by:
 a) Satisfactory completion of any QE designated course with a grade of C or better if taken at Wayne State University; OR b) Placing into a mathematics course above the level of MAT 1000 or MAT 1070 on the Mathematics Placement Examination; OR c) Achieving appropriate scores on national standardized tests; OR d) Transferring credit received for successful completion of a course equivalent to or higher than MAT 1000 completed with a grade of C or better at another college or university.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Apply mathematical models to real-world problems.
2. Carry out and justify calculations.
3. Draw conclusions based on quantitative evidence.
4. Communicate arguments supported by quantitative evidence.

Group Requirements (Inquiry Courses)

Inquiry courses are designed to help introduce students to the different perspectives, methodologies, and questions that shape the production of knowledge. As suggested by the title, in these courses students will learn how scholars think in different disciplines, and they will also begin to engage in inquiry themselves, using diverse disciplinary methodologies to ask questions, analyze data, and make their own evidence-based arguments.

Through courses that fulfill Inquiry requirements, students will:

1. Gain exposure to different disciplinary ways of understanding the world.
2. Develop basic competencies in these disciplinary methodologies.
3. Apply disciplinary methodologies to analyze relevant data or examples.

There are four primary categories of Inquiry. They include Social Inquiry, Cultural Inquiry, Natural Scientific Inquiry, and Civic Literacy Inquiry. In addition to these categories, there are three additional cross-inquiry categories: First Year Inquiry, Global Learning and Diversity, Equity

and Inclusion. *Cross-Inquiry* courses are specially-designated courses that provide focus on themes that may cut across the primary Inquiry categories, therefore all cross-inquiry courses could be conceivably be found in a primary inquiry category. For example, one could imagine a course focused on Global Learning outcomes from the perspective of the social sciences and/or the arts and humanities.

Each student must complete a minimum of seven courses of at least 3 credits each from the following Inquiry groups, with at least two courses from the Natural Science Inquiry (NSI), one with a lab section, and one course from the remaining Inquiry groups, all of which are listed below.

NOTE: Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.

Social Inquiry (SI)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Describe the behaviors, practices, institutions, and/or systems that define a society or social group.
- Identify and define basic concepts in social analysis.
- Analyze social institutions and social interactions.

Cultural Inquiry (CI)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Describe artistic or cultural form(s) or philosophical ideas.
- Identify and define basic concepts in artistic or humanistic analysis.
- Analyze artistic practices, cultural forms, artifacts, or philosophical ideas.

Natural Scientific Inquiry (NSI)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Explain natural phenomena using scientific concepts, theories and/or principles.
- Describe the process of scientific inquiry.
- Analyze historical or contemporary societal subjects using scientific concepts and principles.
- Apply the scientific method to evaluate data (For lab courses only).

Global Learning Inquiry (GL)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Compare one's own position, core values, and biases to those in other national and global communities.
- Identify and examine historical legacies that have created the dynamics and tensions of the world.
- Analyze how perceptions and beliefs are created by differing historical, scientific and cultural contexts.
- Exhibit the intercultural competencies necessary to move across boundaries and unfamiliar territory, see the world from multiple perspectives, and/or sustain difficult conversations in the face of highly emotional and perhaps uncongenial differences.
- Use analytical reasoning skills to articulate informed and humane solutions to complex global concerns.

Diversity, Equity and Inclusion Inquiry (DEI)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Compare complex categories of social group memberships as they relate to our local and national contexts, democratic traditions, and contemporary struggles.
- Recognize the relationship between contemporary diversity-related issues and U.S. history, institutions, practices, and policies.
- Examine the roots of individual cultural values and prejudices and how they influence behavior.
- Identify the ethical and moral issues present in complex domestic situations and articulate informed responses to ambiguity and disagreement.
- Demonstrate understanding of the key issues of the course by analyzing, proposing, or engaging in strategies that promote equity at the local or national level.

Civic Literacy Inquiry (CIV)

Civic literacy is a critical component of preparing students to contribute to local, national, and international communities. Inquiry into civic literacy entails asking questions about the relationship of the individual with the public sphere. This inquiry will provide students with foundational knowledge about the diversity of interests in American society over time, both domestic and abroad, especially those pertaining to race, ethnicity,

and gender; the mechanisms by which individuals and groups have pursued their interests; and the role of institutions in addressing conflict. Students completing the course will apply the knowledge, concepts, and critical thinking skills from the course to make well-reasoned, informed, and ethical political decisions. After successful completion of this requirement, students will be able to demonstrate their ability to:

- Exhibit knowledge of U.S. history, political institutions, and democratic principles.
- Explain the meaning and significance of citizenship and national identity, past and present.
- Explain forms of participation by individuals and groups.
- Explain the economic, historic, political, and social bases for conflict and cooperation between groups.
- Explain the economic, historic, political, and social marginalization of groups in civic life.

Wayne Experience

The Wayne Experience (WE), a one-credit course required of all first-year students, will play an instrumental role in socializing students into the university community by providing activities that will increase their connections with fellow students, academic advising staff, and their instructors. The essential goals for this requirement are to enhance student engagement, success, and retention by implementing high-impact practices (HIPS) within a student's first year in college. Wayne Experience will also help students build key skills and habits that will allow them to successfully navigate the university and manage their busy lives. These would range from time management, studying, and test-taking skills to engaging in community activities both on and off-campus. Student motivation, engagement, learning, achievement, persistence and degree attainment all can be fostered by these transformative educational experiences.

Transfer students: Wayne Experience (WE) will be automatically waived if a student transfers a minimum of 24 credits to WSU. Advanced Placement (AP) tests, International Baccalaureate (IB) tests, CLEP exams, High School Dual Enrollment, and Early/Middle College DO NOT count towards waiving WE.

Goals

1. **Belonging:** will foster a sense of belonging and connection; cultivate the development and expanding of relationships; meet students where they are; and promote their sense of personal purpose at Wayne State University.
2. **Acculturation to the academic community:** will promote an understanding of what it means to be a Wayne State Student,

including grasping the value of a liberal education and general education along with linking theory to practice by participating as a member of a diverse and inclusive academic community.

3. WSU in Detroit: will cultivate an understanding of WSU's role in local cultures and history as well as develop an appreciation of how public service can transform individuals and diverse communities.
4. Academic Support and Study Skills: will promote the understanding of and use of the full spectrum of academic support services to collectively empower students to transform themselves into self-directed learners and powerful problem-solving.

Learning Outcomes

In this broad category, specific learning outcomes may vary from offering to offering but draw from the LEAP Essential Learning Outcomes, as adapted through our general education reform process.

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Describe meaningful connections with Wayne State peers, faculty, staff, and campus resources..
- Demonstrate foundational skills necessary for undergraduate-level academic and personal achievement at Wayne State University.
- Relate the value of attending WSU to the student's own academic and personal pursuits.
- Develop self-advocacy to optimize the use of campus resources and academic opportunities.

Courses

Courses currently approved for Wayne Experience include:

General Education Courses by Subject

The courses listed below are included in the General Education curriculum as revised, effective Fall 2018.

Academic Pathways for Excellence (APX)

APX 1000 Learning Strategies for College Success Cr. 1

Satisfies General Education Requirement: Wayne Experience

Learning Strategies for College Success (LSCS) is a first-year course that builds upon critical thinking skills to (1) integrate study skills into academic courses; (2) use a strategic note taking and study process to learn content and prepare for examinations; (3) develop effective strategies to collaborate with peers in group assignments and presentations; (4) foster help-seeking skills by exposing students to campus resources; (5) support student well-being and sense of belonging at Wayne State University. Offered Every Term.

Corequisite: APX 1010

Restriction(s): Enrollment limited to students with a class of Freshman.

African American Studies (AFS)

AFS 1010 Introduction to African American Studies Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry

An interdisciplinary approach to exploring several broad issues, topics, theories, concepts and perspectives which describe and explain the experiences of persons of African descent in America, the Continent, and the diaspora. Offered Every Term.

AFS 2010 African American Culture: Historical and Aesthetic Roots Cr. 4

Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Diversity Equity Incl Inquiry

Examination of the historical, traditional and aesthetic bases of a variety of cultural forms -- language, literature, music -- of the Black experience. Offered Every Term.

AFS 2210 Black Social and Political Thought Cr. 4

Satisfies General Education Requirement: Civic Literacy, Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences

Survey of the Black intellectual and political tradition from the United States, the Caribbean and Africa. Offered Every Term.

AFS 2250 AfroLatino/a History and Culture Cr. 3

Satisfies General Education Requirement: Cultural Inquiry

Interdisciplinary introduction to the history and culture of AfroLatinos/as in the U.S. from the perspective of the African Diaspora in the Americas. Offered Winter.

Equivalent: LAS 2250

AFS 2350 Black Detroit Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry

Explores the historical, cultural and structural aspects of the Black urban experience in Detroit from the late 19th Century to the present, including the role that racism, urbanization and suburbanization have played in shaping racial, spatial and economic inequality in the Detroit Metropolitan area. Utilizes an interdisciplinary approach: to interrogate the social and cultural history of Black Detroit, to examine the various forms of Black social movement activism used by Black Detroiters in the 20th Century, and to analyze ways the shifting economic and political currents shaped, and reshaped racism, class, space, and resistance in the Detroit metropolitan area. Offered Fall, Winter.

Equivalent: HIS 2350, US 2350

AFS 2390 Introduction to African-American Literature: Literature and Writing Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Intermediate Comp Pre-2018, Intermediate Comp Post-2018
Introduction to major themes and some major writers of African-American literature, emphasizing modern works. Reading and writing about representative poetry, fiction, essays, and plays. Offered Every Term.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Equivalent: ENG 2390

AFS 2600 Race and Racism in America Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examination of the nature and practice of racism in American society from its historical foundations to its contemporary institutional forms. Offered Every Other Year.

Equivalent: SOC 2600

AFS 3140 African American History I: 1400-1865 Cr. 3-4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
African origins of African Americans; transition from freedom to slavery; status of African Americans under slavery. Offered Yearly.

Equivalent: HIS 3140

AFS 3150 African American History II: 1865-1968 Cr. 3-4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
African American history from Reconstruction through the Civil Rights Movement. Offered Yearly.

Equivalent: HIS 3150

AFS 3155 African American History III: 1968 - Present Cr. 3-4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
History of African Americans' struggle against persistent and stubborn racism, efforts to achieve full citizenship, and legal and economic justice after 1968. Offered Intermittently.

Restriction(s): Enrollment is limited to Undergraduate level students.

Equivalent: HIS 3155

AFS 3160 Black Urban History Cr. 4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Historical experience of African Americans in urban areas; impact of their communities on urban development from 1860 to contemporary times. Offered Fall, Winter.

Equivalent: HIS 3160

AFS 3170 Ethnicity and Race in American Life Cr. 3-4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Exploration of complicated relationship between ethnic and racial diversity and the making of America. Using historical, literary, and cultural readings and sources to examine key themes: Who was the "Other"? What is an "American"? Offered Yearly.

Equivalent: HIS 3170

AFS 3180 Black Social Movements Cr. 4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Survey of mass or popular Black movements with emphasis on their political and cultural impact, historical continuity and organization. Offered Yearly.

Equivalent: HIS 3180

AFS 3250 Politics and Culture in Anglophone Caribbean Cr. 3

Satisfies General Education Requirement: Civic Literacy, Foreign Culture, Global Learning Inquiry

Survey of political, economic and cultural life of the Caribbean. Relationship of the Caribbean to U.S. and world political and cultural developments. Interdisciplinary approach: historical, comparative, thematic issues. Offered Yearly.

AFS 3360 Black Workers in American History Cr. 4

Satisfies General Education Requirement: Social Inquiry
Survey course. Slave and free workers during antebellum period; skill trades, sharecropping, menial labor, and coal mining during Reconstruction; labor struggles and job discrimination in the twentieth century. Offered Fall, Winter.

Equivalent: HIS 3360

AFS 3420 Pan Africanism: Politics of the Black Diaspora Cr. 4

Satisfies General Education Requirement: Global Learning Inquiry
Interplay of Pan Africanism as a cultural and socio-political movement in world politics from its origins as a concept to organizing practice worldwide. Offered Yearly.

Equivalent: PS 3820

AFS 3610 Interdisciplinary Perspectives on Foreign Culture: The Africans Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Humanistic aspects, history, socio-cultural institutions of African cultures; theory and methods, comparativist perspectives. Offered Yearly.

AFS 5220 Black Dramatic Literature and Performance Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Critical study of significant Black dramatists of the American stage: Willis Richardson, Marita Bonner, Randolph Edmonds, Langston Hughes, Alice Childress, Lorraine Hansberry, Ed Bullins, Amiri Baraka, Ntozake Shange, and August Wilson. Offered Yearly.

Course Material Fees: \$10

Equivalent: THR 5821

Anthropology (ANT)

ANT 1100 Introduction to Anthropology Cr. 3

Satisfies General Education Requirement: Social Inquiry, Social Sciences
Study of humanity, past and present: cultural diversity and change, human evolution, biological variability, archaeology, ethnography, language, and contemporary uses of anthropology. Offered Every Term.

ANT 2020 Global Detroit Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Detroit has been a meeting place for people from around the world for centuries. This course explores the global movements of peoples, ideas, and money that made the city what it is today. It will draw upon the tools and methods of anthropology to examine periods when the city's multicultural character has been viewed as a source of strength, and at other times when diversity has been perceived as source of discord and social problems. Students will be expected to participate in fieldtrips and other off campus activities. Offered Yearly.

ANT 2110 Introduction to Physical Anthropology Cr. 3

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Role of hereditary and environmental factors, human genetics, meaning of "race" and racial classifications, fossil records, non-human primate behavior and evolution. Offered Every Term.

ANT 2200 Lost Cities and Ancient Civilizations Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry

Introductory archaeology course that uses comparative perspective to study how and why early civilizations and cities developed, functioned, and collapsed in different parts of the world. Focus on the role archaeology plays in understanding the past and present. Geared toward the non-major. Offered Every Term.

Equivalent: ANT 3200

ANT 2400 Food and Culture Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry

Uses food and foodways as a lens to understand social, cultural, political, and economic issues around the world. Lectures draw from the interdisciplinary field of food studies that includes anthropological and historical texts and films. Topics include commensality, globalization, nationalism, food taboos, power, memory, etiquettes, food justice, and food and health. Includes field trips to local food places in Metro Detroit. Offered Intermittently.

ANT 3100 World Cultures Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry

Human societies exhibit tremendous diversity. How and why do we differ? What do these differences mean in today's world? Explore, contrast, compare, and understand the differences between and within societies such as those of Amazon rain forest, China, Japan, Alaska, India, the United States, and France. Special attention will be focused on how anthropologists think about and represent cultural differences through ethnographic writing, film, and other media. Offered Fall.

ANT 3111 Digital Storytelling and Ethnic Detroit Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry

Students will learn about the ethnic, racial, and cultural history of Detroit and how to document elements of that history. This course introduces students to both theoretical and practical concepts around digital storytelling, drawing on extensive theoretical scholarship about placemaking, experiencing place, and the social production of heritage that spans the disciplines of anthropology, historical archaeology, heritage studies, historic preservation, media studies, and mobilities. Students will learn the practical steps involved in creating digital stories and will be introduced to best practices in multimedia development as discussed in the literature in the field of instructional technology. They will also explore the cultural, ethical and technological considerations involved in creating and disseminating digital stories. They will then create their own short digital story, which they will be able to share with the website Ethnic Layers of Detroit. Offered Yearly.

Equivalent: GLS 3111, POL 3111, RUS 3111

ANT 3150 Anthropology of Business Cr. 3-4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Differences between American culture/business practice and the culture/business practice of other countries: assumptions, world view and family structure, organization and language. Offered Every Term.

ANT 3200 Lost Cities and Ancient Civilizations Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Historical Studies, Social Inquiry

Early civilizations that developed in different parts of the world in comparative perspective. Hypotheses to explain rise and fall of civilizations, in context of ancient cultures. Basics of archaeology: how facts are formed; meaning of "civilization." How understanding of the past shapes understanding of the present. Geared toward the non-major. Offered Every Term.

ANT 3220 The Inca and their Ancestors Cr. 3

Satisfies General Education Requirement: Cultural Inquiry

Focuses on the archaeology, landscapes, and art of ancient South America as an introduction to the diversity and achievements of pre-Columbian civilizations. Beginning with the Inca and working backwards, we explore the richness of ancient Andean and Amazonian cultures as revealed through the archaeological record, ethnohistoric sources, and the use of ethnographic analogy. Topics include: ecological diversity and human adaptation; migration; the domestication of plants and animals; monumental architecture; great art styles; the rise of social hierarchies; and ancient cosmological understandings. Using the methods of archaeology, visual analysis, analogical reasoning, and anthropological insights, we look at what the long temporal perspective on ancient South American cultures can tell us about modern political issues and ecological sustainability. Offered Intermittently.

ANT 3400 Introduction to Medical Anthropology Cr. 3

Satisfies General Education Requirement: Social Inquiry

Introduction to Medical Anthropology uses a biosocial, cross-cultural approach to explore the complexities of health and medicine today – in the United States and elsewhere. It pays special attention to health disparities and how they are experienced by various social groups. This course will expose students to a number of cultural systems of health and illness from around the world and, describe the behaviors, practices, institutions, and/or systems that define them. In keeping with an anthropological approach, it will treat western biomedicine as one of many cultural systems of explaining and addressing illness. Offered Intermittently.

ANT 3410 Global Health Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences

Introduces students to problems of disease and disorder worldwide and looks at various efforts to define and address these problems through a social science perspective. Offered Winter.

Equivalent: GLS 3410, PH 3410

ANT 3520 Understanding Africa: Past, Present and Future Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry

In-depth knowledge of Africa through the study of its physiography, prehistory and history, social institutions, and social changes within a global context. Offered Intermittently.

ANT 3530 Native Americans Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry

Examines the way that academic disciplines and individual scholars have examined American Indian and Native cultures, traditions and histories. The course focuses on migration, colonization, warfare, Native sovereignty and the contemporary experience to learn about the distinctive perspectives of the indigenous peoples of North America. Examines (scientific and indigenous) accounts of the origin of Native American cultures, their interaction in pre-Contact times, survival and persistence during European conquest and colonization and the continuing struggle within dominant North American society for equity, justice and inclusion. Offered Intermittently.

ANT 3540 Cultures and Societies of Latin America Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry

Latin American social structures and cultural variation, history, and relationship to the United States. Themes include class, race, ethnicity, gender, religion, globalization, and immigration to the United States. Offered Intermittently.

Equivalent: LAS 3540

ANT 3550 Arab Society in Transition Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry

Distinctive social and cultural institutions and processes of change in the Arab Middle East. Regional variations: background and discussion of current political and economic systems and their relationship to international systems. Offered Intermittently.

Equivalent: NE 3550

ANT 3560 World's Religions Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Global Learning Inquiry

Explores the nature, dynamism, similarities and differences of religions in an anthropological and cross-cultural perspective. Offered Intermittently.

Prerequisite: ANT 2100 with a minimum grade of D- or ANT 1100 with a minimum grade of D-

ANT 3700 Globalization: Theories, Practices, Implications Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences

Students develop analytical tools for appraising processes of globalization; acquire a familiarity with the current topical concerns of global studies; and examine economic, political, and cultural approaches to globalization. Offered Winter.

Equivalent: GLS 3700

Arabic (ARB)

ARB 2010 Intermediate Arabic I Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Continuation of grammar, readings in classical and modern prose. Offered Every Term.

Prerequisites: ARB 1020 with a minimum grade of D-

Course Material Fees: \$5

Armenian (ARM)

ARM 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3

Satisfies General Education Requirement: Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American life. Offered Fall.

Equivalent: GER 3410, POL 3410, RUS 3410, SLA 3410

Art Education (AED)

AED 5050 Integrating the Arts into the Elementary Classroom Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Introductory course: integration of visual arts, music, dance, and theatre into the teaching, learning and curriculum of the elementary classroom. Offered Fall, Winter.

Prerequisites: (2 of (ELE 3300, ELE 6290, ELE 6390, ELE 6500, ELE 6600, ELE 3400, ELE 3500, or ELE 3600) and 1 of (ELE 3320 or ELE 6310)) or TED 5150

Course Material Fees: \$30

Art History (AH)

AH 1000 Introduction to Art Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

An introductory survey of art and culture designed to equip students to look purposefully, critically, and contextually at images and events, mindful of the ways that meaning is produced and perceived. Offered Every Term.

AH 1110 Survey of Art History: Ancient through Medieval Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Survey of traditions and major developments in visual expression in the West, prehistory through Medieval period. Art studied in context of its cultures; techniques of visual analysis. Offered for four credits only to Honors students. Offered Every Term.

AH 1120 Survey of Art History: Renaissance through Modern Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Traditions and developments in visual expression in the West, Renaissance through twentieth century. Art in context of its cultures; techniques of visual analysis. Offered for four credits only to Honors students. Offered Every Term.

AH 1130 Encounters with the Arts of Global Africa Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts

Introductory survey of the arts of Africa and the African Diaspora, focusing on the visual culture of cross-cultural contact within Africa and beyond. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Undergraduate level students.

AH 3470 Islamic Art and Architecture Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry
Survey of art and architecture of Islam from its origins in the seventh century to the Ottoman Empire. Offered Intermittently.

AH 3750 African American Art Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Historical inquiry of African American art from the eighteenth century to today. Offered Yearly.

Equivalent: AFS 3750

Art: Photography (APH)

APH 5860 Social Documentary: Community, Compassion, and Activism Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Photographic documentation applied to social cause, community representation, and visual/multicultural critical theory. Offered Intermittently.

Prerequisites: APH 2400

Course Material Fees: \$180

Asian Studies (ASN)

ASN 1700 East Asia to the 1700s Cr. 3

Satisfies General Education Requirement: Social Inquiry

From antiquity to the 1700s; emphasis on political, economic, social, and cultural developments in China, Japan, and Korea, and the nature and impact of their interactions. Offered Intermittently.

Equivalent: HIS 1700

ASN 1710 History of Modern East Asia Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Historical Studies, Social Inquiry

From beginning of nineteenth century to the present; emphasis on political, social and economic developments in China, Japan and Korea. Offered Yearly.

Equivalent: HIS 1710

ASN 2800 Culture Studies in Japan (Homestay and Study Abroad Tour) Cr. 3

Satisfies General Education Requirement: Cultural Inquiry

Survey of Japanese culture taught in English. Introduction of family and group organization, customs, pop culture (fashion/music/films), aspects of daily lives (thought/religion/arts/society), and a brief modern history. Also, survival language practice. Offered Spring/Summer.

Prerequisites: JPN 1010 with a minimum grade of D-

Equivalent: JPN 2800

Astronomy (AST)

AST 2010 Descriptive Astronomy Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

Lecture course that introduces the concepts and methods of modern astronomy, the solar system, stars, galaxies, and cosmology; recent discoveries about planets, moons, the sun, pulsars, quasars, and black holes. Meets General Education Laboratory requirement only when taken with Coreq: AST 2011. Offered Every Term.

Basic Engineering (BE)

BE 1060 Building a Foundation for College Success Cr. 1

Satisfies General Education Requirement: Wayne Experience

This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Winter.

Restriction(s): Enrollment limited to students with a class of Freshman.

Biological Sciences (BIO)

BIO 1030 Biology Today Cr. 3

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Challenges to modern society from population growth, new diseases, environmental degradation, urban pollution; medical advances and ethical dilemmas in decoding human genome; impact of biological findings on political and personal decisions; issues considered in context of principles and strategies of modern biological research. Not for biology major credit. Offered Fall, Winter.

BIO 1050 An Introduction to Life Cr. 4

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

A factual and conceptual treatment of modern biology at the cell, organismal, and population levels of organization. Meets General Education Laboratory Requirement when elected for 4 credits. No credit after BIO 1500 or BIO 1510. Offered Every Term.

Course Material Fees: \$20

BIO 1500 Basic Life Diversity Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry Physiology, ecology, evolution, and systematics, their principles, strategies and outcomes in both structure and function. No credit after former BIO 1520. Offered Every Term.

Prerequisites: BIO 1050 with a minimum grade of C-, BIO Permit to Reg ACT/SAT with a test score minimum of 2, BIO Permit to Reg-(L1-L2) BPE with a test score minimum of 2, or BIO 1510 with a minimum grade of C-
Course Material Fees: \$25

BIO 1510 Basic Life Mechanisms Cr. 4

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Factual and conceptual treatment of cell molecules, cell structure, metabolism, genetics, and development. For the science major and certain pre-professional programs. Meets General Education laboratory requirement. BIO 1500 and BIO 1510 required of all biological sciences majors. Only Engineering students may elect for three credits. Offered Every Term.

Prerequisites: BIO 1050 with a minimum grade of C-, BIO Permit to Reg ACT/SAT with a test score minimum of 2, BIO Permit to Reg-(L1-L2) BPE with a test score minimum of 2, or BIO 1500 with a minimum grade of C-
Course Material Fees: \$25

BIO 2200 Introductory Microbiology Cr. 5

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Bacteria and their basic biology; the relationship of microorganisms to man and other living forms, including their ecological importance and their role in the causation of disease; laboratory exercises paralleling the above principles. Offered Every Term.

Prerequisites: BIO 1510 with a minimum grade of C-
Course Material Fees: \$60

Business Administration (BA)

BA 1040 Managing Diversity in the Workplace Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry

This course prepares students to become effective coworkers and managers in today's diverse workplace. Traditional management theories are analyzed within a multicultural framework and students will be exposed to current diversity management practices in the field. Practical and experiential activities designed to help students understand the concepts are provided. Offered Yearly.

BA 1100 Warrior Success Cr. 1

Satisfies General Education Requirement: Wayne Experience

Designed to assist newly admitted students in becoming socialized and acclimated to Wayne State University. Offered Fall, Winter.

Restriction(s): Enrollment limited to students with a class of Freshman.

BA 1200 Personal Finance Planning Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
Introductory course designed to help students become financially literate and make proper financial decisions encountered in everyday life. Topics covered will include income, money management, spending and credit, as well as saving and investing. No credit after former FIN 3050. Offered Fall, Winter.

BA 2300 Quantitative Methods I: Probability and Statistical Inference Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
Measures of central tendency and dispersion. Introduction to probability; normal, binomial, uniform, and Poisson distributions. Statistical inference and sampling methods. Computer techniques. Offered Every Term.

Corequisite: BA 1500

Restriction(s): Enrollment limited to students in the School of Business.

Chemistry (CHM)

CHM 1000 Chemistry and Your World Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

Facts and theories from analytical, inorganic, organic, and physical chemistry, and from biochemistry; their consequences in life processes and the environment. Meets General Education Laboratory Requirement when elected for 4 credits. Offered Fall, Winter.

Course Material Fees: \$110

CHM 1020 Survey of General Chemistry Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

High school chemistry not required. First course in the terminal sequence consisting of CHM 1020 and CHM 1030. Matter and energy in chemistry, chemical symbols and equations, structure and properties of atoms, introduction to chemical bonding; periodicity in chemistry, solids, liquids, gases, solutions, acids and bases, and equilibrium. Meets General Education Laboratory Requirement. Offered Fall, Winter.

Prerequisites: Math Permit to Reg - (L1-L4) with a test score minimum of 2-4, MAT 0993-6XXX with a minimum grade of C, MAT Permit to Reg ACT/SAT with a test score minimum of 2-4, ACT Math with a test score minimum of 18-36, SAT Mathematics with a test score minimum of 490-800, or SAT MATH (POST-2016) with a test score minimum of 490-800

Course Material Fees: \$110

CHM 1060 General, Organic and Biochemistry Cr. 5

Satisfies General Education Requirement: Natural Scientific Inquiry
Chemistry 1060 is an integrated approach to the study of General Chemistry, Organic Chemistry, and Biochemistry for students pursuing careers in health-related fields. In each area, Health Links and Biochemistry Links will be used to demonstrate key chemistry principles. The laboratory experiments focus on general, organic, and biochemistry. Offered Fall, Winter.

CHM 1220 General Chemistry I Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

Introduction to the principles of chemistry for students with high school background in chemistry. Chemical structure, bonding, and reactivity. Satisfies General Education laboratory requirement upon completion of both CHM 1220 and 1230. Only two credits if taken after CHM 1020. No credit after if taken after CHM 1225. Offered Every Term.

Prerequisites: (CHM 1040 with a minimum grade of C-, CHM Permit to Reg (L1-L3) CPE with a test score minimum of 2-3, or CHM 1020 with a minimum grade of C-) and (Math Permit to Reg - (L1-L4) with a test score minimum of 3-4, MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, MAT 1050 with a minimum grade of C-, MAT 1070 with a minimum grade of C-, or MAT 1800-6ZZZ)

Equivalent: CHM 1225

CHM 1225 General Chemistry I for Engineers Cr. 3

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

Introduction to principles of chemistry for students with high school background in chemistry. Chemical structure, bonding, and reactivity. Satisfies General Education laboratory requirement upon completion of both CHM 1225 and 1230. Only one credit after CHM 1020. No credit after CHM 1220. Offered Every Term.

Prerequisites: (CHM 1040 with a minimum grade of C-, CHM Permit to Reg (L1-L3) CPE with a test score minimum of 2-4, or CHM 1020 with a minimum grade of C-) and (Math Permit to Reg - (L1-L4) with a test score minimum of 3-4, MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, or MAT 1800-6ZZZ with a minimum grade of C- (may be taken concurrently))

Restriction(s): Enrollment limited to students in the College of Engineering.

Equivalent: CHM 1220

Chinese (CHI)

CHI 2010 Intermediate Chinese Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Completion of Chinese language sequence. Offered Yearly.

Prerequisite: CHI 1020 with a minimum grade of D-

Course Material Fees: \$5

CHI 2050 Gateway to Chinese Civilizations Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry

Introduction to Chinese culture, society, and politics. Offered Every Term.

CHI 3000 Chinese Mythology and the Supernatural Cr. 3

Satisfies General Education Requirement: Cultural Inquiry

The study of Chinese mythical and supernatural literature from the late Zhou through the Qing dynasties (from around 10th century BCE to 18th century CE); the cultural functions of myth and the supernatural as they relate to nation, ethnic identities, social and political structures, as well as religious and philosophical ideals. CHI 3022 Introduction to Chinese Literature Cr. 3

Satisfies General Education Requirement: Cultural Inquiry

Genres and traditions of Chinese literature; influence on China of today. Offered Every Term.

Civil Engineering(CE)

CE 2000 How Cities Work: An Introduction to Civil and Environmental Infrastructure Cr. 3

Satisfies General Education Requirement: Social Inquiry

Cities are built on the backbone of infrastructure, particularly civil and environmental infrastructure. These infrastructures provide essential services to residents. This course will make students aware of the tensions that arise out of the social, economic, and environmental demands on sustaining engineered infrastructure in a diverse and pluralistic society. Students will learn how our engineered urban centers operate so they are better prepared for careers in governance and management; understand actuarial and accounting matters in the context of tax revenue and insurance; can perform social work with citizens who are disconnected from vital services, plan for sustainable urban futures; serve as an informed public health or medical professional, and under the role of infrastructure in a dynamic urban geography; and work as an engineer to develop infrastructure that provides equitable returns, among other interests that pertain to the urban experience. Offered Yearly.

Classics (CLA)

CLA 1010 Classical Civilization Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Survey of the culture and civilization of Ancient Greece and Rome, in particular those aspects that laid the political, social, and cultural framework of the modern world. Offered Every Term.

CLA 2000 Greek Mythology Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only)

Typical myths related to religion, custom, ethics, philosophy, art, literature. Offered Every Term.

CLA 2200 Introduction to Greek Tragedy Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Dramatic and literary qualities of representative plays of Aeschylus, Sophocles and Euripides. The origin and development of Greek tragedy related to the enduring quality and contemporary relevance of these dramas. Offered Every Term.

CLA 2300 Ancient Comedy Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Dramatic and literary qualities of representative plays of Aristophanes, Menander, Plautus and Terence. Origins and development of Greek Comedy related to the enduring quality and contemporary relevance of these dramas and their influence on later literature. Offered Intermittently.

CLA 3590 Byzantine Civilization Cr. 3

Satisfies General Education Requirement: Historical Studies, Social Inquiry

Survey of Byzantine culture, religion, society, and literature from late Antiquity to 1453, through secondary and primary sources in translation. Offered Yearly.

Equivalent: GKM 3590

CLA 3720 Greek Identity from Antiquity to Modernity Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Historical Studies

Explores what it meant to be Greek from Archaic Greece to the modern era. Offered Yearly.

Equivalent: GKM 3720

Communication (COM)

COM 1010 Oral Communication: Basic Speech Cr. 3

Satisfies General Education Requirement: Oral Communication Competency

Beginning course emphasizing fundamentals of speech preparation. Development of poise and confidence in speaking. Offered Every Term.

COM 1700 Media Literacy Cr. 3

Satisfies General Education Requirement: Social Inquiry

Explores the goals and methods of various media industries, identify the influence media has on us, understand benefits and potential negative consequences of media, while identifying specific techniques for becoming media literate. Offered Every Term.

COM 2010 Introduction to Film Cr. 4

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Examination of film techniques and basic methods of film analysis. Offered Every Term.

Course Material Fees: \$15

Equivalent: ENG 2450

COM 2020 History of Film Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Critical study of the motion picture as a modern visual art; screening and analysis of representative fiction films to illustrate historical periods and genres. Offered Every Term.

Course Material Fees: \$15

COM 2160 Campaigns and Social Movements Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Critical discussion of the social foundations and values underlying human persuasion. Analysis of persuasive strategies and techniques used in contemporary society: political campaigns, social movements, advertising and consumerism in the U.S. Offered Every Term.

COM 2300 Intercultural Communication Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry

The purpose of this course is to engage students in an in-depth exploration of culture within and among different social groups, from a communicative perspective. Discussions and readings will include communication as an element of culture, key concepts and terms that ground our understandings of cross-cultural interactions, a history of the discipline and relevant theories and research in this area. Offered Yearly.

COM 3150 Science Communication Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
Students will have an opportunity to become familiar with the theory, research, and practice of science communication. They will develop an understanding of quantitative research methods in science and engage with the meaning of both science and scientific practice, so that they may critique and help shape broader public interpretation of socially relevant scientific topics (e.g., vaccines, evolution, climate change). Various channels to communicate science with diverse audiences will be examined and students are encouraged to examine how multiple media shape scientific understanding in different ways. Offered Every Other Winter.

Criminal Justice (CRJ)

CRJ 1010 Introduction to Criminal Justice Cr. 3

Satisfies General Education Requirement: Social Inquiry

Scientific method and multidisciplinary approach to administration, procedures, and policies of agencies of government charged with enforcing the law, adjudicating crime, and correcting criminal and deviant conduct. Response of justice system to social norms and trends; reciprocal relationship to social behaviors and values. No credit after former CRJ 2000. Offered Every Term.

CRJ 2550 Race, Crime and Justice Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Introduces students to sociological and legal analysis of the American justice system as a form of race based social control. The class will discuss data, theoretical approaches, and current research about the ways in which race and ethnicity are connected with criminal involvement and criminal justice processing. In doing so, we will learn about the complex ways in which the race-crime-criminal justice connection is both a product of societal forces and affects broader social relations. Offered Yearly.

CRJ 2650 Gender and Crime Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Critical examination of gender-related issues in criminal justice; impact on defendants, inmates, victims, and criminal justice personnel; relation to policy issues. Offered Yearly.

Equivalent: GSW 2650

CRJ 2750 Diversity Issues in Criminal Justice Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Critical examination of gender, race, class, and ethnicity issues in criminal justice; impact on defendants, inmates, victims, and criminal justice personnel; relation to policy issues. No credit after CRJ/GSW 3750. Offered Yearly.

Equivalent: GSW 2750

CRJ 3120 Politics of the Criminal Justice Process Cr. 3

Satisfies General Education Requirement: Civic Literacy
Political aspects of criminal justice; politics of crime legislation, police function, prosecution, adjudication, and corrections; Federal role in criminal justice. Offered Intermittently.

Equivalent: PS 3120

CRJ 3900 Comparative Criminal Justice Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry
Topics include: the foundation of criminal justice system, crime on the world scene, legal traditions, law enforcement, courts and criminal procedure, corrections, and juvenile justice around the world. Offered Yearly.

Dance (DNC)

DNC 2310 History of Dance from 1800 to the Present Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Introduction to critical dance studies and dance history from 1800-present. Impact of vernacular dance and historical ballet and modern concert dance on contemporary dance, examined formally and socio-culturally. How dance circulates globally as mediated and embodied history. Offered Fall, Winter.

Course Material Fees: \$30

DNC 2400 Introduction to African Dance Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Exploration of African and African derived dance forms, together with their integrated philosophy, music, art and theatre forms. Lectures, videos, concert attendance and reading assignments to learn and perform dances from selected African societies. Offered Every Term.

Course Material Fees: \$60

Economics (ECO)

ECO 1000 Survey of Economics Cr. 4

Satisfies General Education Requirement: Social Inquiry, Social Sciences
Scope of economics and the task of the economist in modern society; the market economy, its evolution and development; non-market economies; economic problems and prospects in the contemporary world. Not for ECO major or minor credit. Offered Every Term.

ECO 2010 Principles of Microeconomics Cr. 4

Satisfies General Education Requirement: Social Inquiry, Social Sciences
Supply, demand, price at the level of the firm and industry; business institutions and their operation; determinants of wage and salary levels, interest rates, rent, profits, income distribution; public policy in relation to business and labor. Offered Every Term.

ECO 2020 Principles of Macroeconomics Cr. 4

Satisfies General Education Requirement: Social Inquiry, Social Sciences
Determination of national income, consumption and saving, and investment; money, banking and the Federal Reserve; inflation and unemployment; monetary and fiscal policy; economic growth and productivity; the international sector. Offered Every Term.

ECO 2550 U.S. Health Care: Policy and Economics Cr. 4

Satisfies General Education Requirement: Social Inquiry
Provide students with a basic understanding of economics as applied to health, health care, and health policy. Covers economic factors relating to consumer, producer, and government behavior. Emphasis will be placed on analyzing issues currently affecting the U.S. health care system, using an international perspective to inform policy recommendations. Offered Fall, Winter.

English (ENG)

ENG 1020 Introductory College Writing Cr. 3

Satisfies General Education Requirement: Basic Composition Competency

A course in reading, research, and writing skills that prepares students to write successfully in college classes. Offered Every Term.

Prerequisites: ENG 1010 with a minimum grade of SNC, ENG Permit to Reg ACT/SAT with a test score minimum of 2, or ENG Permit to Reg-(L1-L2) EQE with a test score minimum of 2

ENG 2100 Writing about Literature: Poetry Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Intermediate Comp Pre-2018

Introduction to techniques and forms of poetry through critical reading of, and writing about, poems of various types and from many periods. Offered Yearly.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2110 Writing about Literature: Drama Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Intermediate Comp Pre-2018

Introduction to techniques and forms of drama through critical reading of, and writing about, representative plays from various traditions and periods. Offered Intermittently.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2120 Writing about Literature: Fiction Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Intermediate Comp Pre-2018

Introduction to techniques and forms of fiction through critical reading of, and writing about, short stories and novels. Offered Intermittently.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2200 Shakespeare Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Emphasis on the dramatic and literary qualities of the plays: representative comedies, tragedies and histories. Offered Every Term.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2210 Writing about Literature: Novels Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Intermediate Comp Pre-2018

Critical reading of, and writing about, a representative sample of novels from the eighteenth century through the modern period. Offered Intermittently.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2390 Introduction to African-American Literature: Literature and Writing Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Intermediate Comp Pre-2018, Intermediate Comp Post-2018

Introduction to major themes and some major writers of African-American literature, emphasizing modern works. Reading and writing about representative poetry, fiction, essays, and plays. Offered Every Term.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Equivalent: AFS 2390

ENG 2420 Literature and Science Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Intermediate Comp Pre-2018

Studies of science writing from a literary, rhetorical, or cultural studies perspectives. Readings might include science fiction; creative non-fiction; historical texts; personal essays from practitioners; nature and environmental writing; and works on technology, medicine, or cognitive approaches to literature. Offered Yearly.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Restriction(s): Enrollment is limited to Undergraduate level students.

ENG 2430 Digital Narrative Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Introductory study of digital narrative and electronic textuality, including a variety of digital-born media such as online literature, gaming and interactive fiction. Offered Yearly.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Restriction(s): Enrollment is limited to Undergraduate level students.

ENG 2440 Introduction to Visual Culture Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Introductory course in the reading of images from the perspective of literary and cultural studies. Attention to basic concepts, terms, and theories in the study of visual culture. Offered Yearly.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Restriction(s): Enrollment is limited to Undergraduate level students.

ENG 2445 Comics and Graphic Novels Cr. 3

Satisfies General Education Requirement: Cultural Inquiry
Introduction to the history, forms, and reading practices of graphic storytelling through critical reading of, and writing about, comics and graphic novels. Offered Yearly.

Prerequisite: ENG 1020 with a minimum grade of C

ENG 2450 Introduction to Film Cr. 4

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Examination of film techniques and basic methods of film analysis. Offered Every Term.

Course Material Fees: \$15

Equivalent: COM 2010

ENG 2470 Television Culture Cr. 4

Satisfies General Education Requirement: Cultural Inquiry

A survey of American television history with an introduction to some of the aesthetic and theoretical concerns of television studies. Offered Yearly.

Prerequisite: ENG 1020 with a minimum grade of C

ENG 2500 The English Bible as Literature Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

The King James text as a literary masterpiece. Offered Intermittently.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2510 Popular Literature Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Introductory study of popular literature. Content may include recent best-sellers, horror, science fiction and prize-winning novels. Offered Yearly.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Restriction(s): Enrollment is limited to Undergraduate level students.

ENG 2530 Literature and Identity Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
The study of literary texts with an emphasis on how identity is shaped by race, ethnicity, religion, gender, sexual orientation, and other factors. Offered Intermittently.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2540 Literatures of the World Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry
Provides a forum for the study of literature outside the United States and beyond the boundaries imposed by particular national or linguistic tradition. Offered Intermittently.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2560 Children's Literature: Literature and Writing Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Intermediate Comp Pre-2018

Introductory course in writing about the Anglo-American tradition of classic and contemporary children's literature. Offered Every Term.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Restriction(s): Enrollment is limited to Undergraduate level students.

ENG 2565 Young Adult Literature and Culture Cr. 3

Satisfies General Education Requirement: Cultural Inquiry
Analysis of Young Adult (YA) literature from a literary and cultural studies perspective. Offered Yearly.

Prerequisite: ENG 1020 with a minimum grade of C

ENG 2570 Writing about Literature: Women Writers Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Intermediate Comp Pre-2018

Introduction to the major themes and issues of writing by and about women. Reading and writing about representative fictional and non-fictional works. Offered Every Term.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2585 Literature and War Cr. 3

Satisfies General Education Requirement: Cultural Inquiry
Examines the experiences and effects of war through close reading of literary texts and works providing historical context. Offered Yearly.

Prerequisite: ENG 1020 with a minimum grade of C

ENG 2670 Introduction to Canadian Studies Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Survey of Canada in its cultural, literary, historical, geographical and political aspects; key concepts and social patterns that define the Canadian experience. Offered Yearly.

Equivalent: GPH 2700, HIS 2700, PS 2700

ENG 2720 Basic Concepts in Linguistics Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Analysis of the structure and use of language, focusing on English, from the standpoint of current linguistic practice. Topics include: phonetics and sound structure, word structure, syntax, semantics, language origin and history, dialects, language learning, animal communication, and language in social interaction. Offered Yearly.

Equivalent: LIN 2720

ENG 2730 Languages of the World Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Survey of structure of major language families of the world, western and non-western; interrelationships of language and culture; universals and variations of universals in language and culture. Offered Yearly.

Equivalent: LIN 2730

ENG 2800 Techniques of Imaginative Writing Cr. 3

Satisfies General Education Requirement: Cultural Inquiry
Writing in various creative forms. Frequent individual conferences and student readings for class criticism. Offered Fall, Winter.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 3010 Intermediate Writing Cr. 3

Satisfies General Education Requirement: Intermediate Comp Pre-2018, Intermediate Comp Post-2018

Course in reading, research and writing for upper-level students. Emphasis on conducting research by drawing from the sciences, social sciences, humanities, and professions in preparation for Writing Intensive courses in the majors. Offered Every Term.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 3020 Writing and Community Cr. 3

Satisfies General Education Requirement: Intermediate Comp Pre-2018, Intermediate Comp Post-2018

Students develop and write about community-based service-learning projects. Requires community-based work outside of normal class time across the semester. Satisfies the Honors College service-learning requirement. Offered Fall, Winter.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Restriction(s): Enrollment is limited to Undergraduate level students.

ENG 3050 Technical Communication I: Reports Cr. 3

Satisfies General Education Requirement: Intermediate Comp Pre-2018, Intermediate Comp Post-2018

Instruction in basic technical writing skills. Requirements include writing summaries, letters, memos, instructions, and technical reports. Topics include audience and purpose analysis, textual and visual aspects of document design, and formatting. Offered Every Term.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 3060 Technical Communication II: Presentations Cr. 3

Satisfies General Education Requirement: Oral Communication Competency

Instruction in basic technical presentation skills. Requirements include informative presentations, oral briefings, needs assessments, progress reports, and formal proposals. Topics include collaborative teamwork, audience and purpose analysis, textual and visual aspects of presentation design, and formatting. Offered Every Term.

Prerequisites: AFS 2390 with a minimum grade of C, ENG 2390 with a minimum grade of C, ENG 3010 with a minimum grade of C, ENG 3020 with a minimum grade of C, or ENG 3050 with a minimum grade of C

Fine Arts: Interdisciplinary (FPC)

FPC 1010 Math for the Arts Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
An introduction to quantitative reasoning, with the aim of developing the capacity to comprehend and analyze the quantitative information that is prevalent in daily life, with a particular focus on the arts. Topics include problem solving with shape and form and mathematical modeling of consumer finance. Offered Every Term.

FPC 1020 Wayne Experience: Building a Foundation for College Success Cr. 1

Satisfies General Education Requirement: Wayne Experience

This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Fall, Winter.

Restriction(s): Enrollment limited to students with a class of Freshman.

French (FRE)

FRE 2010 Intermediate French Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Continuing development of French language and Francophone cultural proficiency through interactive and communicative reading, writing, listening and speaking activities. Completion of this course fulfills the General education requirement for foreign language and culture. Offered Every Term.

Prerequisites: FRE 1020 with a minimum grade of D-

Course Material Fees: \$5

FRE 2700 Anguish and Commitment: European Existentialist Literature Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

A team-taught interdisciplinary study in English of representative works by European existentialist writers: Dostoevsky, Hesse, Kafka, Pirandello, Sartre, Camus and Unamuno. Offered Every Other Year.

Equivalent: GER 2700, ITA 2700, SPA 2700

FRE 2710 Introduction to French Civilization I Cr. 3

LAS 2420 History of Puerto Rico and Cuba Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Historical development of Puerto Rico and Cuba from the pre-Columbian period to the present. Interaction of political, social, economic and cultural influences. Offered Intermittently.
Equivalent: HIS 2420

LAS 3540 Cultures and Societies of Latin America Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Global Learning Inquiry
Latin American social structures and cultural variation, history, and relationship to the United States. Themes include class, race, ethnicity, gender, religion, globalization, and immigration to the United States. Offered Intermittently.
Equivalent: ANT 3540

LAS 3610 Seminar in Latino/a Urban Problems Cr. 3

Satisfies General Education Requirement: Social Inquiry, Social Sciences
Historical and current issues in economics, politics, and culture involving the multi-racial and multi-ethnic Latino/a population of the United States. Offered Intermittently.

Linguistics (LIN)

LIN 2720 Basic Concepts in Linguistics Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Analysis of the structure and use of language, focusing on English, from the standpoint of current linguistic practice. Topics include: phonetics and sound structure, word structure, syntax, semantics, language origin and history, dialects, language learning, animal communication, and language in social interaction. Offered Yearly.
Equivalent: ENG 2720

LIN 2730 Languages of the World Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Survey of structure of major language families of the world, western and non-western; interrelationships of language and culture; universals and variations of universals in language and culture. Offered Yearly.
Equivalent: ENG 2730

Mathematics (MAT)

MAT 1000 Mathematics in Today's World Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
An exploration of current applications of mathematics, such as gerrymandering, consumer mathematics, cryptography, identification numbers, art, music, statistical design, optimal decision making, and risk assessment. Offered Every Term.
Restriction(s): Enrollment is limited to Undergraduate level students.

MAT 1070 College Algebra Cr. 5

Satisfies General Education Requirement: Quantitative Experience Comp
A college algebra course with emphasis on functions. Topics include: properties of the real number system, equations and inequalities, lines, graphs, algebra of functions, modeling, exponents, logarithms, systems of equations and conic sections, and introduction to trigonometry if time allows. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Some sections are offered by the Rising Scholars Program (RSP). These sections require departmental approval and must be taken with MAT 1075, a two-hour workshop. Email emergingscholars@wayne.edu for more information regarding the RSP sections. Offered Every Term.

Prerequisites: MAT 0993 with a minimum grade of CNC (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 2-4, or Math Permit to Reg - (L1-L4) with a test score minimum of 2-4

MAT 1110 Mathematics for Elementary School Teachers I Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
Problem solving, sets, functions, reasoning, number theory, whole numbers, integers, fractions, decimals. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Fall, Winter.

Prerequisites: MAT 1050-6999 with a minimum grade of C- (must be taken at WSU), MAT 0995 with a minimum grade of CNC (must be taken at WSU), Math Permit to Reg - (L1-L4) with a test score minimum of 3-4, or MAT Permit to Reg ACT/SAT with a test score minimum of 3-4

MAT 1120 Mathematics for Elementary School Teachers II Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
Statistics, probability, geometry, and measurement. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Fall, Winter.

Prerequisites: MAT 1110 with a minimum grade of C- (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, or Math Permit to Reg - (L1-L4) with a test score minimum of 3-4

MAT 1800 Elementary Functions Cr. 4

Satisfies General Education Requirement: Quantitative Experience Comp
Basic definition and concept of function. Definitions, properties and graphs of polynomial, rational, exponential, logarithmic, trigonometric, and inverse trigonometric functions. Only two degree credits after MAT 1500. Students in the Emerging Scholars Program must also enroll in the accompanying problem-solving workshop: MAT 1990, for a total of six credits. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Every Term.

Prerequisites: MAT 1050 with a minimum grade of C- (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, or Math Permit to Reg - (L1-L4) with a test score minimum of 3-4

MAT 2010 Calculus I Cr. 4

Satisfies General Education Requirement: Quantitative Experience Comp Calculus as the study of change. Definitions, concepts, and interpretations of the derivative and the definite and indefinite integrals; differentiation, integration, applications. No credit after former MAT 1510. Students in the Emerging Scholars Program must also enroll in the accompanying problem-solving workshop: MAT 2110, for a total of six credits. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Every Term.

Prerequisites: MAT 1800 with a minimum grade of C- (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 4, or Math Permit to Reg - (L1-L4) with a test score minimum of 4

MAT 2020 Calculus II Cr. 4

Satisfies General Education Requirement: Quantitative Experience Comp Review definition of definite integral and fundamental theorem of calculus. Techniques of integration; approximate integration; improper integrals; applications of integration. Sequences and series. Approximating functions by polynomials and Taylor series. Students in the Emerging Scholars Program must also enroll in the accompanying problem-solving workshop: MAT 2120, for a total of six credits. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Every Term.

Prerequisites: MAT 2010 with a minimum grade of C-

Mathematics (MAE)

MAE 1000 Detroit by the Numbers Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp Designed for students to experience mathematics as doable, meaningful, and relevant to their lives. Students will study the city of Detroit by analyzing data and reasoning through quantitative tools presented by local agencies, such as health, environment, education, arts, and sports. Offered Every Term.

Music History (MUH)

MUH 1340 Music Appreciation: World Music Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts Introduction to the musical styles of Africa, Asia, South America, and the Middle East. Offered Every Term.

MUH 1345 Music Cultures Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts Indigenous musics and cultures of Asia, Africa and the Americas; emphasis on features of the musics that have influenced Western art musics. Offered Winter.

Restriction(s): Enrollment is limited to students with a major in Music or Music Honors; enrollment limited to students in the BA in Fine Arts or Bachelor of Music programs.

MUH 1350 History of American Popular Music Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Visual Performing Arts History of American popular music from the early nineteenth century to the present. Political, economic, social, and cultural influences on music. Offered Winter.

MUH 1351 History and Styles of Rock and Roll Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Visual Performing Arts Exploration of American ""mainstream"" and ""subcultural"" popular music; focus on art, technology, business, cultural contexts. Offered Yearly.

MUH 1370 Music Appreciation: Beginnings to the Present Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts Survey of Western music from its beginnings to the present. Developing musical understanding and critical listening skills by focusing on major composers and styles, and by concentrating on social, political and cultural influences. Offered Every Term.

MUH 3360 Jazz History Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Survey of major developments in jazz from its beginnings to the present. Offered Fall.

Restriction(s): Enrollment is limited to Undergraduate level students.

MUH 3380 American Music Cr. 3

Satisfies General Education Requirement: Cultural Inquiry A survey of American music in its many forms. Social, cultural, and philosophical issues are considered alongside the music and its relationship to other arts. Offered Intermittently.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

MUH 5340 Survey of World Music Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry Musical expressions of five or six non-European cultures en route to a better understanding of the peoples themselves. Attention given to biases, culturally-determined learning patterns, and aesthetics. No credit for graduate degrees in music. Offered Fall, Winter.

Near Eastern Studies (NE)

NE 2000 Introduction to Islamic Civilization of the Near East Cr. 3

Satisfies General Education Requirement: Civ and Societies (CLAS only), Foreign Culture, Global Learning Inquiry The origin of Islam; growth of Islamic thought and institutions; Islamic revival and reform in modern times. Offered Yearly.

NE 2010 The Bible and Ancient Mythology Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only) The Bible and Biblical religion in the context of its antecedents in the ancient world. Offered Yearly.

NE 2030 The Age of Islamic Empires: 600-1600 Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Historical Studies Historical evolution of the Islamic world from birth of Islam to height of Ottoman Empire. Islamic history and civilization in a world-historical context; developments indigenous to specific regions, such as Islamic Spain. Offered Every Term.
Equivalent: HIS 1800

NE 2040 The Modern Middle East Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Historical Studies

Survey of Middle East history in modern era, focusing on the nineteenth and twentieth centuries. Ottoman history from 1600: impact of European imperialism and nationalist movements, resulting in development of modern state systems, regional/national conflicts, and Islamic response to modernization. Offered Every Term.

Equivalent: HIS 1810

NE 2060 Hebrew/Israeli Film: Trends and Themes in Israeli Cinema Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Evolution of Hebrew/Israeli cinema from the beginning of the twentieth century to the present. Collectivism to individual concerns. From Yaakov Ben-Dov to Joseph Cedar. Course taught in English; films have English subtitles. Offered Every Term.

NE 2170 Islamic and Near Eastern Philosophy Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry

An examination of major figures and movements in Islamic and Near Eastern philosophy. Offered Fall.

Equivalent: PHI 2170

NE 3225 Modern Israeli Culture: A Pluralistic Perspective Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Minorities in Israel; the Kibbutz; women in public life; the Arab in Israeli literature; the press; education; technology; archaeology; music and dance. Taught in English. Offered Every Term.

NE 3550 Arab Society in Transition Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry

Distinctive social and cultural institutions and processes of change in the Arab Middle East. Regional variations: background and discussion of current political and economic systems and their relations to international systems. Offered Intermittently.

Equivalent: ANT 3550

Nursing (NUR)

NUR 3200 Global Healthcare Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry

Explores health care challenges worldwide while examining intercultural beliefs systems. Examines issues related to health disparities among vulnerable populations in urban environments nationally and globally. Students will travel abroad during spring break to experience first-hand the healthcare issues and disparities internationally. Students must have valid passports and pay the Office of Study Abroad required travel fees prior to course start date. Offered Winter.

NUR 4800 Transcultural Health Through the Life Cycle Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Transcultural health differences and similarities in selected Western and non-Western cultures, from birth through old age. Use of theories and research methods from the health and social sciences and humanities in study and analysis of different cultures. Offered Fall, Spring/Summer.

Restriction(s): Enrollment limited to students with a class of Junior or Senior.

Nutrition and Food Science (NFS)

NFS 2030 Nutrition and Health Cr. 3

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Food as a carrier of nutrients; food availability; nutrient utilization including digestion, metabolism and excretion. Patterns of food consumption based on biological, psychological and social needs; and anthropological findings. Offered Every Term.

Repeatable for 6 Credits

NFS 3300 Science, History, and Culture of Italian Cuisine Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry

Explores the science, history, and culture of Italian food and the Mediterranean Diet, and how Italian food culture has evolved throughout the centuries. Taught in English. Offered Yearly.

Equivalent: ITA 3300

Peace and Conflict Studies (PCS)

PCS 2050 The Study of Non-Violence Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry

Intellectual and social roots of non-violence and the practice of non-violence in various societies and people's life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.

Equivalent: HIS 2530, PS 2550, SOC 2050

Philosophy (PHI)

PHI 1010 Introduction to Philosophy Cr. 4

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Survey of some major questions that have occupied philosophers throughout history, such as Does God exist? What is a good person? Do we have free will? Is the mind the same as the brain? What can we really know? Course will acquaint students with major figures both historical and contemporary. Offered Every Term.

PHI 1020 Honors Introduction to Philosophy Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Honors Section, Philosophy Letters

Survey of some major questions that have occupied philosophers throughout history, such as Does God exist? What is a good person? Do we have free will? What can we really know? Course will acquaint students with major figures both historical and contemporary. Offered Intermittently.

PHI 1070 Reasoning and Decision Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
Students develop quantitative reasoning skills such as statistical analysis and probabilistic reasoning. Offered Every Term.

PHI 1100 Contemporary Moral Issues Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Philosophy Letters

Critical discussion of contemporary moral issues including pornography, adultery, same-sex marriage, abortion, preferential treatment, obligations to the poor, capital punishment, terrorism, and others. Offered Yearly.

Repeatable for 9 Credits

PHI 1110 Ethical Issues in Health Care Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Philosophy Letters

Survey of moral issues that arise in the practice of medicine and in pursuit of medical knowledge: abortion, euthanasia, experimentation on human subjects, informed consent, rights to health care, genetic engineering, the concepts of death, health and disease. Offered Yearly.

PHI 1120 Professional Ethics Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Critical examination of moral issues in the workplace, including: discrimination and preferential treatment, sexual harassment, whistleblowing, privacy and disclosure, corporate social responsibility. No credit after PHI 1110. Offered Yearly.

PHI 1130 Environmental Ethics Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Is the natural world something to be valued in itself, or is its value exhausted by the uses human beings derive from it? This course introduces students to some of the major views on the subject, anthropocentric (human-centered) and non-anthropocentric. Offered Yearly.

Restriction(s): Enrollment is limited to Undergraduate level students.

PHI 1200 Life and Death Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Central philosophical and religious questions about life and death, and the enterprise of answering these questions through reasoning and argument. What is it to be alive, and to die? Do we cease to exist when we die, or might we continue to exist in an afterlife following our deaths? Should we fear or regret the fact that we will die someday, or should we be indifferent to it? Why is killing wrong? Is it always wrong to prevent a life from beginning, or to help someone bring his or her own life to an end? What, if anything, makes a life meaningful? We will study the ways in which these questions are raised and answered in a selection of classic and contemporary works of philosophy and literature. Offered Yearly.

PHI 1500 Race, Sex, and Religion Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry

An examination of contemporary ethical issues and controversies involving race, sex, religion, and related topics such as gender identity, class, economic injustice, immigration, and sexual orientation. Offered Fall, Winter.

PHI 2100 Ancient Greek Philosophy Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Introduction to the Western philosophical tradition from its origins in Ancient Greece. Readings from the pre-Socratics, Plato, and Aristotle. Offered Every Other Year.

PHI 2110 Philosophy of the Scientific Revolution and Enlightenment Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

A survey of philosophical views concerning knowledge, reality, scientific evidence, naturalism, and morality from some of the major European philosophers of the period of the Scientific Revolution and Enlightenment, such as Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. Offered Every Other Year.

PHI 2140 Ancient Greek Medicine and Psychology Cr. 3

Satisfies General Education Requirement: Cultural Inquiry

An examination of early Greek psychology and medical practice and theory. Figures and schools of thought covered include Homer, Empedocles, Hippocrates and the Hippocratic school, Plato, Aristotle, and Epicurus. Offered Fall.

PHI 2150 Chinese Philosophy Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Main philosophical traditions from ancient to pre-Communist China. Readings from Confucianism, Taoism, Mohism, Legalism, Buddhism, Neo-Confucianism, and the Chinese Enlightenment. Offered Winter.

Restriction(s): Enrollment is limited to Undergraduate level students.

PHI 2170 Islamic and Near Eastern Philosophy Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry

An examination of major figures and movements in Islamic and Near Eastern philosophy. Offered Fall.

Equivalent: NE 2170

PHI 2320 Introduction to Ethics Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

An introduction to some classical and modern views concerning such questions as: What determines the rightness and wrongness of actions? What is the nature of moral reasoning? What constitutes a moral life? Offered Every Term.

PHI 2360 Feminist Philosophy Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry

An examination of work by feminist philosophers. Offered Winter.

PHI 2400 Introduction to the Philosophy of Religion Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Religious beliefs provide subject matter for philosophical study; for example, Are the traditional arguments for the existence of God credible? Does the existence of evil conflict with a belief in God's omnipotence and omnibenevolence? What is the value of religious experience? Offered Intermittently.

PHI 2550 Introduction to Philosophy of Science Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Distinguishing science from non-science; how scientific knowledge is established; what constitutes scientific progress; whether science is cumulative; the place of science in the enterprise of knowledge and rational belief. Offered Every Other Year.

PHI 2650 Philosophy of Psychology Cr. 3

Satisfies General Education Requirement: Cultural Inquiry

Central examples of these questions and proposed answers: Could we build an intelligent computer? Is our mind just a piece of software that our brain is running? Is there a "language of thought"? Are we much less rational than we think? How can we understand each other's minds? Can there be laws in psychology? What is consciousness, and can it be studied scientifically? We will address these and other questions via the work of philosophers, psychologists and cognitive scientists. Offered Winter.

Equivalent: PSY 2650

PHI 3500 Theory of Knowledge Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

The distinction between knowledge and belief is germane to every field of inquiry. What is the difference between knowledge and belief? Do we know anything at all? If so, how? Are we ever in a position of being certain about beliefs pertaining to an objective world? Is our belief in an objective world based on our subjective experiences? Offered Every Term.

PHI 3550 Metaphysics Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Survey and examination of some of the enduring questions of metaphysics concerning the nature of reality. Topics include: the nature of physical objects, abstract entities, the concepts of time and change, the relation between mind and body, causation, the nature of metaphysics. Offered Yearly.

PHI 3700 Philosophy of Art Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

What are art works? Why are they so moving? What is the nature of the experience they offer? This course introduces the student to some of the schools of thought on these issues. It also attempts to deal with the specific natures of the various artistic media, such as: drama, literature, film, painting, photography, music and opera. Offered Every Term.

Physics (PHY)

PHY 1020 Conceptual Physics: The Basic Science Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

Physical concepts and practical applications to everyday life of the basic principles of motion, forces, energy, matter, heat, sound, electricity, magnetism, and light. Lectures, demonstrations and optional laboratory; laboratory is strongly recommended. Meets General Education Laboratory Requirement when elected for 4 credits. Offered Every Term.

Course Material Fees: \$25

PHY 2130 Physics for the Life Sciences I Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

Introduction to physics for students in the life sciences, preparing for medicine, dentistry, pharmacy and health sciences and for general Liberal Arts and Sciences students. Covers motion, forces, energy, diffusion, fluids, thermal physics with many biological examples. Satisfies General Education laboratory requirement only when taken concurrently with PHY 2131. No credit after PHY 2170. Offered Every Term.

Corequisite: PHY 2131

PHY 2170 University Physics for Scientists I Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

For students specializing in physics, biology, chemistry, mathematics or engineering. Statics, kinematics, dynamics, energy and linear momentum, rotational kinematics and dynamics, angular momentum, solids and fluids, vibrations and wave motion, thermodynamics. Satisfies General Education Laboratory Requirement only when taken concurrently with PHY 2171. No credit after PHY 2175. Offered Every Term.

Prerequisites: MAT 1800 with a minimum grade of C- and MAT 2010 with a minimum grade of C- (may be taken concurrently)

Corequisite: PHY 2171

PHY 2175 University Physics for Engineers I Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

For students specializing in engineering. Statics, kinematics, dynamics, energy and linear momentum, rotational kinematics and dynamics, angular momentum, solids and fluids, vibrations and wave motion, thermodynamics. No credit after PHY 2170. Offered Every Term.

Prerequisites: MAT 1800 with a minimum grade of D- and MAT 2010 with a minimum grade of C (may be taken concurrently)

Restriction(s): Enrollment limited to students in the College of Engineering.

PHY 3100 The Sounds of Music Cr. 4

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

For music majors and other students interested in the physical foundations of the production, perception, and reproduction of musical sounds. Makes only limited use of simple mathematics. Includes topics such as wave properties, loudness levels and the human ear, hearing loss, tone quality, frequency and pitch, musical intervals and tuning, room acoustics, the production of sound by various musical instruments, and electronic reproduction of music. Meets General Education Laboratory Requirement. Offered Fall.

Course Material Fees: \$25

Polish (POL)

POL 2010 Intermediate Polish Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Further development of Polish language and cultural proficiency through listening, reading, speaking and writing activities, and examination of Polish culture. Completion of this course fulfills the General Education requirement for foreign language and culture. Offered Fall.

Prerequisites: POL 1020 with a minimum grade of D-

Course Material Fees: \$5

POL 2710 Survey of Polish Culture Cr. 3

Satisfies General Education Requirement: Civ and Societies (CLAS only), Foreign Culture, Global Learning Inquiry

Introductory cultural survey from beginnings of Polish state to present. Polish society and cultural developments analyzed in comparative contexts. Offered Fall, Winter.

POL 3111 Digital Storytelling and Ethnic Detroit Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry

Students will learn about the ethnic, racial, and cultural history of Detroit and how to document elements of that history. This course introduces students to both theoretical and practical concepts around digital storytelling, drawing on extensive theoretical scholarship about placemaking, experiencing place, and the social production of heritage that spans the disciplines of anthropology, historical archaeology, heritage studies, historic preservation, media studies, and mobilities. Students will learn the practical steps involved in creating digital stories and will be introduced to best practices in multimedia development as discussed in the literature in the field of instructional technology. They will also explore the cultural, ethical and technological considerations involved in creating and disseminating digital stories. They will then create their own short digital story, which they will be able to share with the website Ethnic Layers of Detroit. Offered Yearly.

Equivalent: ANT 3111, GLS 3111, RUS 3111

POL 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3

Satisfies General Education Requirement: Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry

Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.

Equivalent: ARM 3410, GER 3410, RUS 3410, SLA 3410

POL 3750 Polish and Yugoslavian Cinema Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Two national cinemas introduced through milestone films and lesser-known cinematic gems produced before and after the fall of communism. Offered Every Other Winter.

Equivalent: SLA 3750

Political Science (PS)

PS 1000 Introduction to Political Science Cr. 3

Satisfies General Education Requirement: Civic Literacy, Social Inquiry, Social Sciences

Introduction to the scope and method of political science. Overview of politics, political systems, nature and role of political institutions. Empirical political theory; practice in conducting political research. Offered Yearly.

PS 1010 American Government Cr. 4

Satisfies General Education Requirement: American Society Institution, Civic Literacy, Social Inquiry

Politics and functions of American governmental institutions. Policy processes and the role of citizens in the political process. No credit after PS 1030. Offered Every Term.

PS 1030 The American Governmental System Cr. 3

Satisfies General Education Requirement: American Society Institution, Civic Literacy, Social Inquiry

Structure and functions of the American political system. Governmental institutions and processes. No credit after PS 1010. Offered Every Term.

PS 1050 Understanding Political Science Statistics Cr. 4

Satisfies General Education Requirement: Quantitative Experience Comp Applications of elementary statistical methods to the study of American government, comparative politics, and international relations. Offered Fall, Winter.

Equivalent: STA 1020

PS 2000 Introduction to Urban Studies Cr. 4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences

In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.

Equivalent: GPH 2000, HIS 2000, SOC 2500, US 2000

PS 2240 Introduction to Urban Politics and Policy Cr. 4

Satisfies General Education Requirement: Social Inquiry, Social Sciences Influences on politics and problems of cities, forms of local political involvement, role of local public officials, impact of state and federal policies. Overview of current issues and problems in specific policy areas. Offered Yearly.

PS 2550 The Study of Non-Violence Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Intellectual and social roots of non-violence and the practice of non-violence in different people's life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.

Equivalent: HIS 2530, PCS 2050, SOC 2050

PS 2700 Introduction to Canadian Studies Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Survey of Canada in its cultural, literary, historical, geographical and political aspects; key concepts and social patterns that define the Canadian experience. Offered Yearly.

Equivalent: ENG 2670, GPH 2700, HIS 2700

PS 3080 Gender and Politics Cr. 4

Satisfies General Education Requirement: Civic Literacy Genesis and perpetuation of gender roles; feminist movements to modify these roles; impact of gender on public policy; gender-differentiated impact of public policy. Offered Intermittently.

PS 3120 Politics of the Criminal Justice Process Cr. 3

Satisfies General Education Requirement: Civic Literacy Political aspects of criminal justice; politics of crime legislation, police function, prosecution, adjudication, and corrections; Federal role in criminal justice. Offered Intermittently.

Equivalent: CRJ 3120

PS 3250 Detroit Politics: Continuity and Change in City and Suburbs Cr. 4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Detroit area political systems and processes; historical, economic, and social influences on local politics. Traditions, changes, and future challenges in Detroit and metropolitan area. Offered Every Other Year.

Equivalent: HIS 3240

PS 3510 Law, Authority and Rebellion Cr. 4

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Analysis of major theories of law, authority, freedom, and political obligation; justifications of disobedience, resistance and revolution. Offered Every Other Year.

PS 3520 Justice Cr. 4

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Analysis of major theories of justice; social, economic and political justice. Offered Every Other Year.

PS 3820 Pan Africanism: Politics of the Black Diaspora Cr. 4

Satisfies General Education Requirement: Global Learning Inquiry Interplay of Pan Africanism as a cultural and socio-political movement in world politics from its origins as a concept to organizing practice worldwide. Offered Yearly.

Equivalent: AFS 3420

Psychology (PSY)

PSY 1010 Introductory Psychology Cr. 4

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Grade of C or better required for psychology majors. Introduction to the science of behavior. Principles, concepts, and theories of human thought and action. Selected concepts illustrated through laboratory experiments. Recommended for students intended to major in psychology. Meets General Education Laboratory Requirement. No credit after PSY 1020. Offered Every Term.

PSY 1020 Elements of Psychology Cr. 3

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Principles, theories and applications of psychological knowledge. Intended for non-psychology majors. No credit after PSY 1010. Offered Every Term.

PSY 2650 Philosophy of Psychology Cr. 3

Satisfies General Education Requirement: Cultural Inquiry
Central examples of these questions and proposed answers: Could we build an intelligent computer? Is our mind just a piece of software that our brain is running? Is there a "language of thought"? Are we much less rational than we think? How can we understand each other's minds? Can there be laws in psychology? What is consciousness, and can it be studied scientifically? We will address these and other questions via the work of philosophers, psychologists and cognitive scientists. Offered Winter.

Equivalent: PHI 2650

Public Health (PH)

PH 2100 Introduction to Public Health Cr. 3

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Provides both an overview of the principles and practice of public health and basic information needed to understand and analyze a variety of individual-level and population-level health problems. This course is intended for students with no previous course work in public health. Offered Every Term.

PH 3100 Social and Behavioral Aspects of Public Health Cr. 3

Satisfies General Education Requirement: Social Inquiry, Social Sciences
Examines the social and behavioral aspects of health, illness, and health care, and help students develop a basic understanding of the societal factors that influence health status and public health interventions. Offered Every Term.

PH 3410 Global Health Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences

Introduces students to problems of disease and disorder worldwide and looks at various efforts to define and address these problems through a social science perspective. Offered Winter.

Equivalent: ANT 3410, GLS 3410

Research, Service and Engagement (RSE)

RSE 1010 Building a Foundation for College Success Cr. 1

Satisfies General Education Requirement: Wayne Experience

This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Fall, Winter.

Restriction(s): Enrollment limited to students with a class of Freshman.

Russian (RUS)

RUS 2010 Intermediate Russian I Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Continuation of RUS 1020 with emphasis on developing speaking and reading skills. Offered Fall.

Prerequisites: RUS 1020 with a minimum grade of D-

Course Material Fees: \$5

RUS 2710 Introduction to Russian Culture Cr. 3

Satisfies General Education Requirement: Civ and Societies (CLAS only), Foreign Culture, Global Learning Inquiry

Survey of Russian culture from the tenth century to the present day. Introduction to Russian history, art, architecture, literature, music, religious practices, intellectual thought, and cuisine, as well as various aspects of daily life from the Tsarist period to the present day. Offered Every Term.

RUS 2991 Understanding the Fairy Tale Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Introduction to the interdisciplinary context of major Russian fairy tales, exploring the different types of traditional Russian fairy tales, as outlined by Vladimir Propp, as well as the evolution of these fairy tales, emphasizing their transformation from oral and literary form into film, animation, opera, ballet, art, sculpture, and music. The course will also examine contemporary literary texts based on fairy tale motifs. All lectures and reading in English. Offered Fall, Winter.

RUS 3111 Digital Storytelling and Ethnic Detroit Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Students will learn about the ethnic, racial, and cultural history of Detroit and how to document elements of that history. This course introduces students to both theoretical and practical concepts around digital storytelling, drawing on extensive theoretical scholarship about placemaking, experiencing place, and the social production of heritage that spans the disciplines of anthropology, historical archaeology, heritage studies, historic preservation, media studies, and mobilities. Students will learn the practical steps involved in creating digital stories and will be introduced to best practices in multimedia development as discussed in the literature in the field of instructional technology. They will also explore the cultural, ethical and technological considerations involved in creating and disseminating digital stories. They will then create their own short digital story, which they will be able to share with the website Ethnic Layers of Detroit. Offered Yearly.

Equivalent: ANT 3111, GLS 3111, POL 3111

RUS 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3

Satisfies General Education Requirement: Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.

Equivalent: ARM 3410, GER 3410, POL 3410, SLA 3410

RUS 3600 Nineteenth Century Russian Literature Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Major Russian writers, including Pushkin, Dostoevsky, Tolstoy, Chekhov, and others. How literature reflects and grows out of history; how culture is affected by writers and poets. Taught in English; readings in English. Offered Fall.

RUS 3650 Russian Literature Since 1900 Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Twentieth century Russian literature as it explores the universal questions of love, death, rebirth, spirituality, and despair against a background of war, revolution, political oppression and economic collapse. Close analysis of major works of prose and poetry as well as literary currents such as Russian modernism, Socialist Realism, and post-modernism. Taught in English; readings in English. Offered Every Other Year.

Slavic (SLA)

SLA 2310 Short Fiction from Central Europe and Russia Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Explores how writers use short fictional forms, such as parable, short story, fairy tale, and satire, to express important themes in the Central European experience, including violence and cruelty, freedom and imprisonment, utopian visions, and urban life. Offered Fall.

Equivalent: GER 2310

SLA 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3

Satisfies General Education Requirement: Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.

Equivalent: ARM 3410, GER 3410, POL 3410, RUS 3410

SLA 3710 Russian and East European Film Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Visual Performing Arts Major Russian, Polish, Czech, Ukrainian and Armenian films viewed and discussed from political, historical, cultural and aesthetic points of view. Offered Yearly.

SLA 3750 Polish and Yugoslavian Cinema Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Two national cinemas introduced through milestone films and lesser-known cinematic gems produced before and after the fall of communism. Offered Every Other Winter.

Equivalent: POL 3750

Social Work (SW)

SW 1010 Introduction to Social Work and Social Welfare Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Survey of selected social welfare programs in the United States; history and development; focus on issues related to poverty and dependence. This course explores issues of fairness and equality in economic, political and social systems, and identifies the values, ethics, and practice principles of the social work profession. Students attend out-of-the-classroom events on campus and in the community to learn from social workers and social justice leaders who are engaging in work with vulnerable and at-risk populations in Detroit. Offered Every Term.

Sociology (SOC)

SOC 1010 Understanding Human Society Cr. 3

Satisfies General Education Requirement: Social Inquiry, Social Sciences Analysis of basic sociological concepts and principles to give the student an understanding of the perspective that sociology brings to the study of human society. Offered Every Term.

SOC 1020 Social Problems Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences

Consideration of major contemporary social problems which reveal structural strains, value conflicts, deviations and changes in society. Analysis of socio-cultural factors creating problems and of possible solutions. Offered Every Term.

SOC 2050 The Study of Non-Violence Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Intellectual and social roots of non-violence and the practice of non-violence in different people's life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.

Equivalent: HIS 2530, PCS 2050, PS 2550

SOC 2203 Social Psychology Cr. 3

Satisfies General Education Requirement: Social Inquiry, Social Sciences Introduction to the sociological study of social psychology. This course describes the sociological aspect of the self and explores how individuals experience the self in relation to society. Offered Yearly.

SOC 2208 Sociology of Sport Cr. 3

Satisfies General Education Requirement: Social Inquiry Examines the relationship between sport and society, with an emphasis on the relationship of sport to social variables, social institutions, and social problems. Offered Yearly.

SOC 2209 Sociology of Religion Cr. 3

Satisfies General Education Requirement: Social Inquiry Explores current sociological debates as they pertain to the complex and multi-faceted relationship between religion and other social institutions. Offered Yearly.

SOC 2210 Sociology of Health and Medicine Cr. 3

Satisfies General Education Requirement: Social Inquiry Designed to introduce the field of medical sociology. The course investigates the impacts of social and institutional variables on health behaviors and outcomes. It also considers the cultural, organizational, and economic functioning of various healthcare institutions. Offered Yearly.

SOC 2300 Social Inequality Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences Structure and process in society, institutions, communities, and organizations. Scientific analysis of organization, conflict, and change in the economy, government, religion, education, and family. Offered Yearly.

SOC 2500 Introduction to Urban Studies Cr. 4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.

Equivalent: GPH 2000, HIS 2000, PS 2000, US 2000

SOC 2510 People on the Move Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences Birth, death and migration investigated with respect to their social causes and consequences for society and human behavior. International migration will be a major focus of this course, since populations are always shifting in global society. Population growth and development will also be covered. Offered Every Other Year.

SOC 2600 Race and Racism in America Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examination of the nature and practice of racism in American society from its historical foundations to its contemporary institutional forms. Offered Every Other Year.
Equivalent: AFS 2600

Spanish (SPA)

SPA 2010 Intermediate Spanish Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Continuing study of the Spanish language and Hispanic culture through interactive and communicative reading, writing, listening and speaking activities to develop language and cultural proficiency. Completion of this course fulfills the General Education requirement for foreign language and culture. Offered Every Term.

Prerequisites: SPA 1020 with a minimum grade of C- or SPA 1060 with a minimum grade of C-
Course Material Fees: \$5

SPA 2400 Chicano/a Literature and Culture Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Global Learning Inquiry
Examination of Chicano/a literature. Themes and figures in a social and historical context. Offered Every Other Year.

Equivalent: LAS 2100

SPA 2500 Puerto Rican Literature and Culture Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Diversity Equity Incl Inquiry
Examination of Puerto Rican literature. Themes and figures in a social and historical context. Offered Every Other Year.

Equivalent: LAS 2110

SPA 2700 Anguish and Commitment: European Existentialist Literature Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
A team-taught interdisciplinary study in English of representative works by European existentialist writers: Dostoevsky, Hesse, Kafka, Pirandello, Sartre, Camus and Unamuno. Offered Every Other Year.

Equivalent: FRE 2700, GER 2700, ITA 2700

Sport Administration and Management (SAM)

SAM 2020 History of Sport Cr. 3

Satisfies General Education Requirement: Social Inquiry
Examines the historical evolution of sport, from ancient to modern times in the United States and throughout the world. Offered Winter.

SAM 3020 Sociology of Sport Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examines the ways in which sports are entangled in social, cultural, political, and economic forces. Students will systematically investigate the complex connections among sports, society, and cultures. Offered Fall, Winter.

Statistics (STA)

STA 1020 Elementary Statistics Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
Descriptive statistics, correlation and regression, notions in probability, binomial and normal distributions, testing hypothesis. Offered Every Term.

STA 2210 Probability and Statistics Cr. 4

Satisfies General Education Requirement: Quantitative Experience Comp
Basic probability theory (definition of probability, conditional probability, independence, random variables, expectation and variance, normal distribution, law of large numbers, central limit theorem), descriptive statistics (histograms, scatter plots, box plots, mean, variance, quantiles, empirical rule, z-scores), statistical inference (confidence intervals for mean, t-tests, chi-square tests, linear regression, analysis of variance) and data analysis. Offered Every Term.

Prerequisites: MAT 1800 with a minimum grade of C-, MAT 2010-2350 with a minimum grade of C-, MAT Permit to Reg ACT/SAT with a test score minimum of 4, or Math Permit to Reg - (L1-L4) with a test score minimum of 4

Swahili (SWA)

SWA 2010 Intermediate Swahili Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Conversational Swahili and grammar review; reading of Swahili literature. Continuation of SWA 1020. Offered Spring/Summer.

Prerequisites: SWA 1020 with a minimum grade of D-
Course Material Fees: \$5

Theatre (THR)

THR 1010 Introduction to the Theatre Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Historical, critical and cultural aspects of theatre and drama discussed relative to play attendance. No credit after THR 1111. Offered Every Term.
Course Material Fees: \$60

THR 1030 Introduction to Black Theatre and Performance Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Visual Performing Arts
Origins, development, and current trends with production techniques and problems related to the special area of the drama. Offered Every Term.
Course Material Fees: \$10

THR 1041 Musical Theatre Appreciation Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Survey of American musical theatre from its multiple historical origins to the present. Development of musical theatre understanding and critical observational skills through focus on the ways in which the genre has emerged through interactions between musical theatre artists and their audiences. Offered Fall, Winter.
Course Material Fees: \$10

THR 2651 Introduction to Life Skills for the Creative Entrepreneur Cr. 3

Satisfies General Education Requirement: Quantitative Experience Comp
An introduction to the quantitative and analytical skills utilized by successful entrepreneurs. Topics include: fund management, financial management, contracts, development, and marketing. This course is intended for all students preparing for a career as an independent entrepreneur, business person, artist, creator, musician, writer, and any others seeking self-determined professional opportunities. Offered Every Term.

THR 5751 Study Abroad: Moscow Art Theatre School Cr. 1-3

Satisfies General Education Requirement: Global Learning Inquiry
Intensive training in acting or another branch of theatre. Study is conducted on-site at the Moscow Art Theatre School, Moscow, Russia. Offered Spring/Summer.
Repeatable for 3 Credits

THR 5821 Black Dramatic Literature and Performance Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Critical study of significant Black dramatists of the American stage: Willis Richardson, Marita Bonner, Randolph Edmonds, Langston Hughes, Alice Childress, Lorraine Hansberry, Ed Bullins, Amiri Baraka, Ntozake Shange, and August Wilson. Offered Yearly.

Course Material Fees: \$10

Equivalent: AFS 5220

University Counseling Services (UCS)

UCS 1000 First Year Experience Cr. 1

Satisfies General Education Requirement: Wayne Experience
During this course, you'll learn empowering strategies that have worked for others. Through collaborative learning, discussion, class presentations, co-curricular involvement, journal writing, and self-exploration exercises, you will practice these strategies that will improve your ability to stay on course with the collegiate goal of successful degree completion. Offered Intermittently.

Restriction(s): Enrollment limited to students with a class of Freshman.

Undergraduate Research (UGR)

UGR 1050 Research Methods - BUILD Scholars Cr. 1

Satisfies General Education Requirement: Wayne Experience
A one-semester course that is part of the BUILD program and is designed to help students prepare for the Research-based laboratory courses BUILD Scholars will take in the Winter Term. Offered Fall.

Urban Studies (US)

US 2000 Introduction to Urban Studies Cr. 4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences

In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.

Equivalent: GPH 2000, HIS 2000, PS 2000, SOC 2500

US 2350 Black Detroit Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Explores the historical, cultural and structural aspects of the Black urban experience in Detroit from the late 19th Century to the present, including the role that racism, urbanization and suburbanization have played in shaping racial, spatial and economic inequality in the Detroit Metropolitan area. Utilizes an interdisciplinary approach: to interrogate the social and cultural history of Black Detroit, to examine the various forms of Black social movement activism used by Black Detroiters in the 20th Century, and to analyze ways the shifting economic and political currents shaped, and reshaped racism, class, space, and resistance in the Detroit metropolitan area. Offered Fall, Winter.

Equivalent: AFS 2350, HIS 2350

US 3650 History of Detroit Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
History of Detroit from European contact to the present, with emphasis on the late-19th and 20th centuries. Offered Fall, Winter.

Equivalent: HIS 3650

Honors Curricula

The University's honors curricula serve to challenge highly motivated students through courses of advanced study; to provide academic programs of unusual breadth and depth; to provide recognition of outstanding scholastic achievement; to foster interest in research and scholarly activity; and to provide students an opportunity to work with outstanding faculty.

Dual Recognition: Students who complete the requirements for University Honors and, in addition, the requirements of a College/Department Honors Program, shall have both designations on the transcript and the diploma. Only a single senior essay, thesis, or project shall be required.

More information about both University Honors and departmental Honors is available online (<http://www.honors.wayne.edu>) and at the Honors College as well as through the respective departments/colleges.

University Honors Curriculum

The University-wide Honors curriculum, managed by the Irvin D. Reid Honors College, allows undergraduate students in any College or School to pursue individually-designed Honors Programs which complement their majors.

Benefits of membership in the Honors College include Honors advising, Honors pre-priority registration, Honors sections of general education and major courses, and designation of completion of the Honors curriculum on the diploma and transcript.

Admission: Students with excellent academic records are eligible to apply to the University's Irvin D. Reid Honors College. Normally, the following are required:

Entering Freshmen: Entering freshmen admitted to the University by December 1 are considered for acceptance to the University Honors curriculum. Consideration is based on regular University admission; no further application is required. Invited freshmen are invited to participate in the Honors College scholarship event, Scholars Day.

Matriculated Students and Transfer Students: Students who have a minimum cumulative grade point average of 3.3 or above at Wayne State University may apply for acceptance to the Honors College. Applications are available at the College.

Eligibility to register for Honors courses: Students whose cumulative grade point average is at least 3.3, but who are not formally in the Honors College, are eligible to elect honors courses to enrich their educational experiences.

Retention: The academic record of each student shall be reviewed at regular intervals. To remain in the University Honors College, a student normally shall be expected:

1. to pursue a course of study consistent with the objectives of the Honors College, as recommended by the University Honors Council and approved by the President or his/her designee; and
2. to maintain a cumulative grade point average greater than or equal to 3.3; however, Colleges/Departments may establish a higher g.p.a. requirements for retention in a College/Department program.

A student whose cumulative grade point average is below 3.3 and is, for that reason, dropped from the Honors College, may reapply when his/her cumulative g.p.a. is 3.3 or higher.

University Honors Requirements

The College shall require Honors-designated course work totaling a minimum of twenty-eight credits for the baccalaureate program the student is pursuing. Students in this College MUST SATISFY THE GENERAL EDUCATION REQUIREMENTS, but the approved General Education courses may differ for the Honors College after review by the Honors Council and the General Education Implementation Committee and approval by the President or his/her designee. The Honors College General Education core curriculum will define a common body of knowledge beginning with the freshman Honors first-year sequence, and including a specified complement of Honors courses chosen from existing General Education options as determined by individual departments in consultation with the College.

Graduation: For graduation with University Honors, students must have a minimum cumulative grade point average of 3.3, and must complete a minimum of twenty-eight credits in honors-designated course work (including HON 1000, an Honors Foundational Seminar course, a service learning course with HON 3000, at least one HON 4200-level Honors seminar and a minimum of three credits in an independent research project, essay, or thesis). Graduates of the University Honors College will be so recognized on the transcript and diploma.

College or Department Honors Requirements

Undergraduate departments in Colleges and Schools have developed programs leading to honors degrees. Details of these programs are included in the College and Department sections of this Bulletin.

College or Department Honors Curricula require a minimum of twelve credits in honors-designated course work of which at least three credits may be in an independent research project, essay, or thesis in the student's College/Department and at least one HON 4200-level Honors seminar. Students also must meet the requirements of their major fields. The honors requirements for the major may include approved modifications of normal major requirements.

Graduation: For graduation with department honors, students must meet the requirements approved by their department/college/school, including a minimum 3.30 grade point average, an Honors thesis and at least one Honors seminar.

Graduation with Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude.

Graduation with distinction will be indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty per cent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

- *Summa Cum Laude:* Top five percent
- *Magna Cum Laude:* Next five percent
- *Cum Laude:* Next ten percent

The specific minimum grade point averages will be determined each year in the following manner, but graduation with distinction will not be awarded in cases of any g.p.a. less than 3.0.

Based on the grade point average distributions of the previous year's senior class, the grade point average cut-offs for each College will be established to provide for recognition of the top eighteen to twenty per cent of the graduating students.

The criteria for Graduation with Distinction include:

1. A minimum of sixty credits in residence at Wayne State University.
2. A qualifying minimum grade point average (calculated as explained above) on all course work at Wayne State University must be completed by the end of the semester of graduation. (For notation in the commencement program, the grade point average on all course work completed prior to the semester of graduation will be used.)

Records and Registration

Office of the Registrar

In Person Services: Student Service Center, Welcome Center, 42 West Warren

Mailing Address: 5057 Woodward; Suite 5101, Detroit, MI 48202

Telephone: 313-577-3550, Fax: 313-577-7870

h (<http://www.reg.wayne.edu/>)t (<http://wayne.edu/registrar/>)

The Office of the Registrar supports the instructional, research and service missions of the University by providing a wide variety of academic services to students, faculty and staff. The office consists of several units: The Office of the Registrar prepares academic calendars, assesses tuition and fees, determines residency, and reviews all appeals for exceptions to University enrollment policies. Records and Registration oversees registration, adds, drops, course withdrawals, grading, student personal and academic data, and transcripts/academic records. Curricular Services oversees the preparation of each term's Schedule of Classes, degree audit tools, graduation applications and diplomas. Transfer Credit evaluates coursework from other universities for undergraduate credit at Wayne State University.

Registration

Registration (<http://wayne.edu/register/>) is the process of officially enrolling in classes for a particular term. Students can view the Class Schedule (<http://classschedule.wayne.edu>) online, add courses to their cart, and complete registration within Academica. A student may not attend any class for which he/she is not officially registered.

POST-BACHELOR STATUS: Students wanting graduate credit should NOT register 'post-bachelor.' This status allows students holding bachelor's degrees from accredited institutions to elect only courses open to undergraduate students (numbered below 7000), which may be used to fulfill prerequisite requirements for graduate admission. Credits for courses elected as a post-bachelor student do *not* count toward graduate credit.

Academica

Academica (<http://academica.wayne.edu>) is a secure gateway that provides unified access to Wayne State information, services, and computing systems. This comprehensive environment is a one-stop location where WSU students, faculty, and staff can conveniently use online self-service functions and easily access many computing systems, such as the Wayne Connect Email system and the Blackboard Learning System. Using Academica, students also have continual access to specific information and helpful tools needed for communication, collaboration, teaching and learning, and University administration. Current students can use secure self-services to check financial aid, register for and drop/add classes, pay tuition and fees, check holds and

final grades, obtain enrollment verifications and transcripts, self-register for training programs/workshops, and more.

Accessing Academica requires a valid WSU Access ID (<http://computing.wayne.edu/accessid/>) (e.g., xy6789) and password. As soon as a student applies for admission or an employee is hired, a unique Access ID is automatically created. The university's Help Desk (<https://tech.wayne.edu/helpdesk/>) services can provide technical assistance if necessary.

Degree Works

Degree Works (<http://wayne.edu/degreeworks/>) is a degree tracking tool that allows you to see your progress toward graduation and help you and your advisor determine which courses you still need to take. Along with your advisor, you can also map out which courses you will take in future semesters, putting you on the right path for graduation.

Drop/Add – Adjusting Your Schedule

Registered students may drop and/or add classes on the date(s) indicated on the Registration Calendar. Note the following requirements:

1. The regulations pertaining to dropping and adding courses are stated as they pertain to regular courses fifteen weeks or more in duration. These regulations are applied proportionately to courses that are offered for less than fifteen weeks. Students can click on the Course Reference Number (CRN) on the class schedule website to view specific deadline dates for each course(s). Students can also contact the Registration Office (registration@wayne.edu) for any questions regarding these regulations.
2. Students who do not officially drop their courses within the first two weeks of classes are financially obligated to pay for the courses even if they have not attended any class sessions.
3. Students who officially drop full term courses before the conclusion of the first two weeks of classes (for the Fall and Winter terms) are entitled to 100% tuition cancellation, and the courses do not appear on the students' academic records.
4. Students are not permitted to add courses after the first week of the term without instructor and departmental permission. Departments are required to enter a late add permit/override for students if exceptions are made to permit adding of classes during the second week.
5. Effective Fall 2018, the withdrawal period starts after the second week of classes, and lasts through the tenth week. The withdrawal will include a notation on the academic record of 'WP' - Passing, 'WF' - Failing, or 'WN' - No Basis for Letter Grade. Students are required to submit their withdrawal through Academica for their instructors' approval. Once logged into Academica, click the Student tab, under Registration from the Student Services menu, choose Withdraw from a Class, follow the prompts on each page. Before a withdrawal request is sent to the instructor, undergraduate and Masters level students will be required to complete a SMART Check. See the Financial Aid website (<http://wayne.edu/financial-aid/receiving/withdrawal/>) for more information.
6. Students are not permitted to withdraw from courses after the end of the tenth week of class for full term classes. The withdrawal deadlines are published in each term's academic and registration calendar. Withdrawal dates for less than full term courses are adjusted proportionally. Late withdrawal requests will not be approved. Medical withdrawal requests have separate deadlines.

Classes for which a grade has been earned cannot be withdrawn.

College of Engineering: Students are not permitted to withdraw from courses after the fifth week of classes without written approval of

their advisor. Some departments have more stringent restrictions on withdrawing from courses.

Transcript Request Policy

Official transcripts bear the seal of the University and the signature of the Registrar. They are sent directly to the receiving party. Transcripts are issued free of charge, up to ten copies per year. A fee of \$5.00 per transcript is charged for copies in excess of ten. A fee of \$20.00 is assessed for each emergency transcript. An emergency transcript is one which is mailed for overnight delivery. The next day service only applies to street addresses (No Post Office Boxes) within North America. Next day service requests must be received by 1:00 p.m.

Students may request transcripts via Academica (<http://academica.wayne.edu>). There are no on demand transcript requests. Due to the signature requirement for releasing educational records, the University cannot accept telephone requests for transcripts.

Transcripts are not issued to anyone outside the University without the written permission of the student. Requests for official transcripts will not be honored if the student or former student has an outstanding financial obligation to the University.

For students who have been in attendance since the year 2000, transcripts can be sent electronically. A valid email address must be provided.

Release of Student Records

The University recognizes the educational records of students as being privileged and has a policy designed to ensure that this information is not improperly divulged without the consent of the student. The University is subject to the Family Education Rights and Privacy Act (<http://reg.wayne.edu/students/privacy.php>) (FERPA) and has promulgated regulations pursuant thereto. Copies of the regulations and a list of student records maintained by the University are available for inspection in the Office of the Registrar. The University reserves the right to provide anonymous academic information to other schools and colleges when it is to be used for curriculum evaluation purposes.

Michigan's Freedom of Information Act

The Freedom of Information Act (PA 242) provides that a member of the public, in accordance with certain guidelines, has a right to inspect and receive copies of public records maintained by the University. A public record is broadly defined and includes written documents, pictures, recordings, punch cards, magnetic cards, etc., which are maintained by the University in the course of official responsibilities. However, certain records are exempt from disclosure.

The Media Relations Office, located in 3100 Academic/Administrative Building, is responsible for accepting requests for public records, and the Director of that office is the University officer in charge of providing this service. Under statute, a fee can be charged for records released and is based on the cost of labor involved in the search, examination and duplication of records, as well as the mailing costs. Only the Office of General Counsel may authorize the denial of a FOIA request.

Student Directory Information

Effective Winter Term 2000, and updated Spring/Summer 2017, Wayne State University policy permits the release of certain Student Directory information. The specific items are: name, university-provided email address, major, classification (freshman, sophomore, etc.), participation in official recognized activities, including sports, height and weight

of member of athletic teams, degree(s) received from Wayne State University, and honors and or/academic awards received.

Unless a student informs the Office of the Registrar that he or she does not want this information released, it will be available to third parties on request. In addition, the student's name, WSU e-mail address, College/School, and major will be visible in the University's Electronic Directory on the Internet. Students who do not want this information released must formally request withholding by completing the Release of Directory Information form, available from the Office of the Registrar (<http://reg.wayne.edu/>).

WSU OneCard

The WSU OneCard is a multi-purpose identification and debit card all in one. It is a convenient, easy-to-use card designed to provide students with access to a wide variety of campus services including parking, door access, copying and printing services food and book-store purchases, and more, all without having to use cash. The OneCard is needed to access the fitness center, the complimentary campus shuttle and serves as the Library Card for the WSU Libraries. Students should contact the OneCard Office (<http://www.onecard.wayne.edu/>) for complete details.

Retention and Graduation Data

The following information provided by the National Student Clearinghouse reflects 4-year and 6-year graduation and retention rates of the Fall 2010 cohort. Decisions by students to complete degree programs in more than four years varies from personal to programmatic to economic reasons. Additionally, some students in the 2010 cohort have graduated or will eventually graduate at other institutions through transfer or pre-baccalaureate entry into professional programs.

The Fall 2010 cohort consisting of 2400 students tracked by the Clearinghouse for periods of four years and six years shows:

Description	At the End of 4-years	At the End of 6-years
4-year degree from WSU	13%	39%
4-year degree from other institution	1%	6%
2-year degree from other institution	2%	5%
Certificate from other institution	1%	1%
Retained at Wayne State University	41%	11%
Retained at other 4-year institution	8%	6%
Retained at other 2-year institution	13%	8%
Not retained, not completed	22%	24%

Computing and Information Technology Division (C&IT)

Office: 5925 Woodward Ave.

Tel.: 313-577-4722; Fax: 313-577-5500

Associate Vice President and Chief Information Officer: Daren Hubbard
<https://tech.wayne.edu/>

Computing and Information Technology (C&IT) provides IT services and resources that support and enhance Wayne State University's teaching,

learning, research, and administrative activities. C&IT's primary goal is to provide technology services that enable our students, faculty, and staff to be successful at WSU. C&IT employees strive to provide excellent customer service, respond to the changing needs of the University community, and make it easy and convenient for everyone to use technology at Wayne State. Functional C&IT organization charts are available on our website (<https://computing.wayne.edu/about/org-charts.php>).

AccessID

Everyone at Wayne State receives a unique identification code (AccessID) consisting of two letters and four numbers, for example: xy1234. The AccessID and password are key to accessing many University online systems; the Access ID can be found on the One-Card; passwords are assigned with initial email communications in the admissions application process.

Email and Communication Tools

Wayne Connect: The University's Wayne Connect system is a campus-wide method of communication. It is powered by Microsoft and features email, calendars, online storage, mobile apps, and more.

Broadcast Messaging (Emergency Alerts) (<https://broadcast.wayne.edu/>): This University-wide service delivers emergency alerts and other significant messages to faculty, students, and staff. Recipients can register their cell phones to get emergency alerts, grades, and other important information via text messages.

Mobile Apps

Wayne State Mobile App offers students, faculty, staff, and alumni an easy way to access University information like email, calendar, parking availability, class schedules, campus maps, OneCard balances, and more. Apps are available for free download on Android and iOS devices.

Academic IT Services

Canvas (<https://tech.wayne.edu/kb/academic-services/>) is Wayne State's online learning management system. Students can take quizzes, upload assignments, participate in message boards and more. Free mobile apps for teachers and students are available.

Computer Labs (<http://www.computing.wayne.edu/computer-labs/>): The University libraries have both open and restricted-access computing areas, with more than 600 computers and a variety of applications. Additionally, many Schools, Colleges, and academic departments provide special-purpose computers and software for their students and faculty.

Grid Computing (<http://www.grid.wayne.edu/>): WSU researchers with projects requiring high performance computing can use Wayne State University's scalable, Grid-enabled computing system.

Administrative IT Services

Academica is the primary online means to securely register for classes, apply for financial aid, pay tuition, and more.

Internet Access (<http://computing.wayne.edu/wireless/>): WSU's wireless networks offer high-speed Internet access within campus buildings including the residence halls. We recommend connecting to WSU-SECURE whenever possible.

Research Networks: Internet2 and MiLR (<http://computing.wayne.edu/research-networks/>): Wayne State's membership in the Internet2 advanced networking consortium offers researchers countless opportunities for participation and collaboration. The Internet2 Network

addresses researchers' bandwidth-intensive requirements, such as: collaborative applications, distributed research experiments, and grid-based data analysis.

Software Purchases and Discounts (<https://computing.wayne.edu/helpdesk/freesoftware.php>): The C&IT Help Desk provides free and discounted software to current students, faculty and staff for academic, departmental and personal use.

Computer Security (<http://security.wayne.edu>): Students can rely on C&IT to protect the confidentiality, integrity, and availability of information on WSU computer systems, but security is everyone's responsibility.

Help Desk (<https://computing.wayne.edu/helpdesk/>): The C&IT Help Desk is Wayne State's campus technology headquarters - a one-stop shop for all your tech support needs. Call, email, or live chat for one-on-one help with any of Wayne State's IT systems, like email, Canvas, or Academica.

Qualtrics Online Survey Software (<http://computing.wayne.edu/qualtrics/>): The Qualtrics Research Suite is a user-friendly, feature rich, web-based survey tool that allows users to build, distribute, and analyze online surveys, collaborate in real-time, and export data in multiple formats. All Wayne State students have access to a free account for this service.

Financial Aid

Office of Student Financial Aid (OSFA)

Welcome Center, 42 W. Warren Avenue
P.O. Box 2340, Detroit, MI 48202

Telephone: 313-577-2100, Fax: 313-577-6648

<https://wayne.edu/financial-aid> (<https://wayne.edu/financial-aid/>)

The Office of Student Financial Aid (OSFA) provides need-based and non-need-based financial aid to help eligible students meet the expenses of their education. Financial aid is intended to supplement, not to replace, students' financial resources. Financial need is determined from the information that students submit on the Free Application for Federal Student Aid (FAFSA (<https://fafsa.gov/>)).

Information concerning scholarships (<https://wayne.edu/scholarships/>) is available online. Wayne State University offers a variety of University-wide scholarships that are awarded based on financial need, scholastic achievement, and/or leadership qualities. To apply for University-wide scholarships, students must complete the online application (<https://wayne.edu/scholarships/privateapp/>). Note: Scholarships that have need as a criterion require submission of the FAFSA.

Service Hours: Walk-in financial aid assistance is provided in the lobby of the Welcome Center Monday through Thursday, 8:30 a.m. to 6:00 p.m., and Friday 8:30 a.m. to 5:00 p.m. June through August, walk-in services end at 5:00 p.m. Monday through Friday. You also may email studentservice@wayne.edu or call 313-577-2100.

The Office of Student Financial Aid will send email and notices to your WSU email account (<https://tech.wayne.edu/kb/communication-collaboration/wayne-connect/>). Information about your award and award requirements is available in Academica. More information about using Academica is available on our website (<https://wayne.edu/financial-aid/receiving/pipeline/>).

Financial Aid Types

Financial aid at Wayne State University is awarded in the form of a 'package,' or combination of aid sources, and generally consists of four types: grants, scholarships, loans, and employment. The amount of aid a

student can receive cannot exceed the estimated cost of attendance. The amount of need-based financial aid that a student may receive cannot exceed their financial need, which is based on the information provided on the FAFSA. Students may be eligible for non-need-based aid in the form of scholarships or unsubsidized federal loans.

Grants

Grants are gift assistance awarded on the basis of financial need and do not require repayment. The Free Application for Federal Student Aid (FAFSA) is required. Federal grants include the Federal Pell Grant, the Supplemental Educational Opportunity Grant (SEOG) and the Federal TEACH Grant.

Scholarships

Scholarships are gift assistance awarded based on academic achievement or other special ability and do not require repayment. For some awards, financial need is a factor and a FAFSA is required.

Loans

Loans are money that must be repaid at a future date, usually following graduation or when the student ceases to be enrolled on at least a half-time basis. Federal loans require submission of the FAFSA. Need- and non-need-based loans are available. Need-based loans for undergraduates include the Federal Direct Subsidized loan. Non-need based loans include the Federal Direct Unsubsidized loan. Parents of dependent undergraduates may apply for a Federal PLUS loan to assist with educational expenses.

Federal Work-Study

Federal work-study is on- or off-campus part-time employment with eligible employers. Work-study is awarded based on financial need. Students interested in work-study should complete the annual FAFSA. The Work-Study Request Form available on our website. The Student Guide to On-Campus Employment, which explains the hiring process and the terms and conditions of employment is available from the Office of Career Services (<http://careerservices.wayne.edu/student-employment.php>).

Free Application for Federal Student Aid (FAFSA)

How and When to Apply for Financial Aid: Each academic year, submit the Free Application for Federal Student Aid (FAFSA) (<http://www.fafsa.ed.gov/>) and include the WSU federal code, 002329. The federal processor, the U.S. Department of Education, will electronically transmit the FAFSA data to the Office of Student Financial Aid.

Help Completing the FAFSA: Help completing the FAFSA is provided online throughout the application process. Help also is available by telephone from the Federal Student Aid Information Center: 1-800-4-FED-AID (1-800-433-3243) during regular business hours (Eastern Time), Monday through Friday.

Application Deadlines

Fall/Winter Application Priority Date: The application priority date for financial aid consideration at WSU for fall and winter semesters is the date by which the FAFSA should be submitted to facilitate determination of student eligibility for financial aid before the beginning of the fall semester. The priority date is not a deadline. See our website (<https://wayne.edu/financial-aid/resources/dates/>) for current information.

Students may submit the FAFSA time during the following periods:

The 2019-20 FAFSA can be submitted October 1, 2018 through June 30, 2020.

The 2020-21 FAFSA can be submitted October 1, 2019 through June 30, 2021.

The 2019-20 FAFSA requires 2017 federal tax information. The 2020-21 FAFSA requires 2018 federal tax information. Applicants may be able to use the IRS Data Retrieval Tool when completing the FAFSA. The IRS Data Retrieval Tool will immediately upload tax data to the FAFSA.

Spring/Summer Financial Aid: The Office of Student Financial aid will use your 2019-20 FAFSA information to determine your aid eligibility for spring/summer 2020 and your 2020-21 FAFSA information to determine your eligibility for spring/summer 2021. Note: If the FAFSA has been submitted for the academic year, it is not necessary to submit it again for the spring/summer semester.

Academic Calendar: At WSU, the spring/summer semester is the third term of the school year. For example: The spring/summer semester 2020 is part of the 2019-20 school year; the spring/summer semester 2021 is part of the 2020-21 school year.

Financial Need Determination

The Student Aid Report (SAR) lists the financial aid applicant's answers to the questions on the FAFSA. Based on those answers, the SAR either states the student's Expected Family Contribution (EFC) or instructs the student to take additional action which will allow an EFC to be determined. The EFC is a measure of the student's financial strength and is used in determining financial need. The SAR also indicates whether the financial aid application has been selected for the verification process.

How Financial Need Is Determined: To determine financial need, OSFA subtracts the student's expected family contribution (EFC) from the average cost of attendance (COA) for their program at Wayne State University. COA minus EFC equals financial need.

Verification: The process by which an educational institution confirms the accuracy of the data reported on an individual student's FAFSA is called verification. The federal processor selects the FAFSA applications for which the data submitted must be verified. If a student is selected for verification, they must provide documentation to confirm the information on the FAFSA.

Note: If an application is selected for verification, the student must complete the verification process before eligibility for financial aid can be confirmed, and before financial aid can be paid.

The Cost of Attendance (COA): The cost of attendance (COA), which is also called a budget, components include: tuition, fees, books and supplies, housing allowance (based on the living arrangements reported on the FAFSA) and miscellaneous expenses. If a loan is awarded, loan fees will be an included component. All students are initially assigned estimated tuition costs and estimated costs for books and supplies based on full-time enrollment status for their academic programs. Financial aid awards are offered based on the estimated budgets. At the time of disbursement, each student's financial aid award is adjusted based on current enrollment status (full-time, three-quarter time, or half-time).

The COA may be adjusted to include dependent care directly related to attendance at WSU; costs related to a disability; computer purchase for educational purposes; costs to obtain a first professional license; and an allowance for reasonable costs directly related to one's program of study.

Michigan Resident and Out-of-State Resident Cost of Attendance (<http://wayne.edu/financial-aid/resources/cost-of-attendance/>): Please access

our website for detailed information concerning how student budgets are assigned and cost of attendance component amounts.

Current Tuition and Fees (<http://reg.wayne.edu/students/tuition.php>): Tuition and fees are subject to change by the WSU Board of Governors without notice.

Special Circumstances (<https://wayne.edu/financial-aid/forms/appeal/>): The Office of Student Financial Aid recognizes that students may have extenuating financial circumstances that the standard need analysis form (FAFSA) does not consider. Applicants may request a review of extenuating circumstances that they believe affect their financial aid eligibility by submitting a Special Circumstances Appeal Form.

Eligibility and Conditions of Financial Aid

Students must be enrolled in an eligible degree- or certificate-granting program to receive financial aid funds. Enrollment must be at least half-time to be considered eligible for most types of aid. At the undergraduate level, enrollment for six credits is considered half-time and enrollment for twelve or more credits is considered full-time. Some scholarships may require enrollment in fifteen credit hours each fall and winter semester.

Non-degree programs have aid limitations and not all programs are eligible for financial aid. OSFA can provide more information about non-degree programs, including a list of specific certificate programs that are ineligible for financial aid.

Prerequisite coursework aid eligibility is limited. Determination of aid eligibility requires submission of the Prerequisite Coursework Aid Request Form, which is available on our website.

Repeat Coursework

Federal financial aid will pay for only one repeat registration in a course for which the student has previously earned a passing grade. That is, students are only eligible to receive financial aid the first time the course is repeated.

Financial Aid Enrollment Policy and the Census Date

Financial aid recipients are expected to attend all courses throughout the semester. If your participation in class is not confirmed by your instructor, your aid may be reduced or cancelled. The census date is the date on which WSU counts the number of students enrolled at the institution, which is the tenth day of each semester. It is the policy of the Office of Student Financial aid to lock or "freeze" the number of enrollment credits after the census date each semester. After the credits are locked or "frozen," grants and scholarships will not be adjusted (increased or decreased) unless a student withdraws from all classes. Therefore, the number of credits for which a student is enrolled on the census date determines the amount of grant funds that they will receive for the semester.

If, after the census date, a student increases enrollment credits, the grant amount(s) will not be increased. If, after the census date, a student decreases their credits of enrollment, the grant amount(s) will not be decreased. However, if a student withdraws from all classes, federal financial aid regulations require OSFA to determine the amount of financial aid the student has "earned" based on the portion of the semester that has been completed. The "unearned" part of the student's award must be returned to the financial aid program(s) from which the award(s) was/were made. As a result, withdrawing from all classes may cause cancellation of a portion or of all financial aid.

Calculating "Earned" versus "Unearned" Financial Aid

OSFA must follow federal regulations in determining the amount of "earned" versus "unearned" federal financial aid disbursed to a student

who then leaves school without completing the semester. The refund percentage is determined by the student's effective date of withdrawal from all classes, which is the last recorded date of attendance.

A student who completes 60% or less of a semester will be considered to have "earned" the same percentage of financial aid as the percentage of the semester completed. The percentage will be calculated by dividing the completed number of days by the total number of days in the semester. The percentage of "unearned" aid will correspond to the percentage of the semester not completed. A student who completes more than 60% of a semester will be considered to have earned 100% of the financial aid disbursed for that semester and no return of federal financial aid will be calculated.

A student has not "earned" all of the financial aid received may be required to repay those funds. Detailed information is provided in the WSU Withdrawals and Return of Title IV Policy (<https://wayne.edu/financial-aid/receiving/cancellation/>).

Enrollment Requirements for Federal Direct Loans

A student must be enrolled at least half-time to receive a federal loan disbursement. At the undergraduate level, enrollment for six credits is considered half-time.

Satisfactory Academic Progress (SAP)

Federal financial aid regulations require OSFA to apply reasonable standards for measuring whether a student is making progress toward a degree or certificate. The standards, which are called satisfactory academic progress (SAP), must be met for a student to remain eligible to receive financial aid. Academic progress is measured each semester.

WSU Satisfactory Academic Progress Standards are comprised of three components:

1. The cumulative grade point average of at least 2.0 is required at the undergraduate level.
2. The pace of progress toward the degree or certificate must be at least 67%, which is determined by dividing the cumulative number of credits completed by the cumulative number of credits attempted.
3. The maximum time frame for completing the degree or certificate, is 150% of the average published length in credits of the program.

Note: Full-time or part-time enrollment is not a factor in determining the pace of progress or the time frame since only credits are the units of measurement.

The WSU Satisfactory Academic Progress Policy is available online (<https://wayne.edu/financial-aid/receiving/sap/>). Check your SAP status in Academics (<https://academics.aws.wayne.edu>).

Consequences of Withdrawing from Courses

A student's satisfactory academic progress (<https://wayne.edu/financial-aid/receiving/sap/>) may be affected if the student withdraws from courses during a semester. A student who does not comply with SAP standards may be denied financial aid for subsequent semesters. The university has specific instructions for SAP appeals (<https://wayne.edu/financial-aid/receiving/sap/sapappeal/>).

A student who withdraws from all courses may be required to repay a portion of the financial aid received. Please see the section above titled Calculating "Earned" versus "Unearned" Financial Aid. If a student's withdrawal from one or more courses results in less-than-half-time enrollment status, the student will not be eligible for new federal loan funds. At the end of the grace period on the loans received, repayment will begin.

The U.S. Department of Education's Office of Federal Student Aid (<https://studentaid.ed.gov/sa/>) governs the policies and procedures for loan repayments, deferment, forbearance, and limits. Detailed information about grace periods and loan repayment is available on the Federal Student Aid website. Students should contact their loan servicer to make repayment arrangements or request a loan deferment or forbearance.

The amount in federal student loans that a student can receive has annual and aggregate limits. Students are strongly encouraged to consider these limits in developing their education plan.

Financial Aid Disbursement

Financial Aid Disbursement: Financial aid (except work-study) is paid in two disbursements if the award is for the academic year (fall and winter semesters). Half of the award is paid in the fall semester and half is paid in the winter semester.

Financial aid recipients are expected to attend courses throughout the semester. Aid will not disburse after courses begin unless the instructor confirms participation in courses. If participation in class is not confirmed, the amount of financial aid may be affected.

Financial aid funds are applied directly to institutional charges (tuition, fees, room and board). Any excess funds will be available within 14 days of the date the credit balance occurs or within 14 days of the first day of classes – whichever is later.

Federal Work-Study Payments: Work-study earnings are paid biweekly in the form of a paycheck. The department in which the student is employed submits a record of the hours worked to the Payroll Office, and the Payroll Office authorizes payments.

Note: Students cannot earn more than the amount of their work-study award. Spring/summer semester is separate from the fall and winter semesters. Unused funds from a fall and/or winter work-study award cannot be earned in the spring/summer semester.

Enrollment Requirements for Federal Direct Loans: A student must be enrolled at least half-time to receive a federal loan disbursement. At the undergraduate level, enrollment for six credits is considered half-time.

Tuition and Fees

Listed below are the Tuition and Fees, as adopted by the Board of Governors, at the time of preparation of this Bulletin. Please see the Graduate Bulletin (<http://bulletins.wayne.edu/graduate/>) for rates in Graduate and Professional programs. Current tuition and fee information is also available on the Office of the Registrar's website (<https://wayne.edu/registrar/tuition/>). **Tuition and Fees are subject to change without notice by action of the Board of Governors.**

Undergraduate Tuition and Fees Education (except for Division of Kinesiology), Liberal Arts and Sciences (non-science), Pharmacy, and Social Work

Resident Lower Division	\$397.05 per credit
Resident Upper Division	\$471.19 per credit
Non-Resident Lower Division	\$909.40 per credit
Non-Resident Upper Division	\$1,083.52 per credit

Business, Fine, Performing and Communication Arts, Education (Division of Kinesiology), Liberal Arts and Sciences (Public Health majors)

Resident Lower Division	\$424.44 per credit
Resident Upper Division	\$513.68 per credit
Non-Resident Lower Division	\$936.79 per credit
Non-Resident Upper Division	\$1,126.00 per credit

Engineering and Liberal Arts and Sciences (science majors)

Resident Lower Division	\$403.97 per credit
Resident Upper Division	\$478.16 per credit
Non-Resident Lower Division	\$916.31 per credit
Non-Resident Upper Division	\$1,090.48 per credit

Nursing

Resident Lower Division	\$424.44 per credit
Resident Upper Division	\$617.81 per credit
Non-Resident Lower Division	\$936.79 per credit
Non-Resident Upper Division	\$1,230.13 per credit

Junior Year in Munich - Per Semester Rate

WSU Students	\$6,500.00
Non-WSU Students	\$14,000.00

Student Fees

Registration Fee

There is a \$235.16 registration fee for undergraduates. The registration fee is refundable according to the same principles as tuition and other fees.

Late Registration Fee

Any student registering after the Priority registration date (as indicated in the Schedule of Classes website: <http://www.classschedule.wayne.edu> for the applicable term) must pay either a non-refundable \$35.00 Late Registration Fee if registration is completed before the start of classes, or \$70.00 if completed after the start of classes. Late Registration Fees will be waived for new students in their first term of WSU enrollment.

Student Services Fee

Undergraduate students are assessed a \$37.82 fee per credit. The Student Services Fee is used primarily to maintain, upgrade and replace student computing and technology resources on campus. A small portion is also used to fund student activities on campus, and to enhance programs directed toward improving on-campus activities, including athletics.

Student Support Fees

Engineering Support Fee - Lower Div. Full-Time	\$100.00
Engineering Support Fee - Lower Div. Part-Time	\$50.00
Engineering Support Fee - Upper Div. Full-Time	\$350.00
Engineering Support Fee - Upper Div. Part-Time	\$175.00
Sciences Support Fee - Lower Div. Full-Time*	\$50.00

Sciences Support Fee - Lower Div. Part-Time*	\$25.00
Sciences Support Fee - Upper Div. Full-Time*	\$100.00
Sciences Support Fee - Upper Div. Part-Time*	\$50.00
Honors Support Fee - Full-Time	\$50.00
Honors Support Fee - Part-Time	\$25.00

* The Sciences Support Fee is charged to these majors in the College of Liberal Arts and Sciences: Actuarial Mathematics, Astronomy, Biochemistry & Chemical Biology, Biological Sciences, Biomedical Physics, Chemistry, Computer Science, Communication Sciences & Disorders, Dietetics, Environmental Science, Geology, Information System Technology, Mathematics, Neurosciences, Nutrition & Food Science, Physics, Psychology, Public Health, and Statistics (including those with departmental honors).

Matriculation Fee

New undergraduate freshmen and transfers will pay a \$250.00 Matriculation Fee.

Student Exchange and Visitors Information Service (SEVIS) Fee

International students and scholars/visitors who must be reported through the federal SEVIS system shall be charged a \$50.00 non-refundable fee for each term of enrollment.

Course Material Fees

These fees are required of some classes in which a relatively large portion of instructional costs is due to the necessary use of consumable resources. The fee is automatically assessed; a fee card is not required. The fee may be canceled when a course is officially dropped within the tuition and fee cancellation period specified in each semester's term calendar. For additional information, contact the Department offering the course. Courses listed as having special fees require payment of the fee in addition to the tuition.

Music Fees

Students registering for music courses taken as private lessons pay an additional fee. In the event of withdrawal, the student will receive a refund of the difference between the fee assessed and the cost to the University of any lessons that were provided.

Examination Fee for Credit by Examination

The fee for an examination taken to establish credit by examination is \$10.00 per credit. Such examinations will be approved under provisions established by the Schools and Colleges. Credit allowed on the basis of transcript entries from another institution is not applicable to this provision.

Graduation/Certificate Fee

There shall be a \$40.00 fee for students who apply for a degree or certificate/diploma. Graduate applicants for graduate degrees will not be charged the Graduation Fee as they pay a higher Registration Fee. Undergraduates who are new to the university in fall 2014 or after will pay a Matriculation Fee in lieu of a Graduation Fee and in lieu of an Orientation Fee.

Payment of Tuition and Fees

Student Financial Obligation for Payment of Tuition and Fees

When registering for courses each semester students are required to electronically sign a "Financial Responsibility Agreement." This agreement represents a binding contract obligating the student to pay all tuition and fees assessed including any collection, attorney, and/or litigation costs associated with collecting those fees, in the event of non-payment.

Payment Due Dates

- FALL TERM: Payment is due August 15.
- WINTER TERM: Payment is due December 15.
- SPRING/SUMMER TERM: Payment is due April 15.

Students registering on or after these payment dates are expected to pay the balance in full at the time of registration.

Payments not received by the due date(s) are subject to late payment fees. Failure to make payment because a statement of account or invoice is not received does not exempt students from late payment fees. Please refer to the published tuition due dates and the complete eBill Posting Schedule and Payment Due Dates on the Office of University Bursar's website (<http://fisops.wayne.edu/bursar/e-bills/eBill-Schedule.php>).

Payment Options

Wayne State University provides various options for paying tuition and fees:

1. in person at the Cashier Office, Room 217; Welcome Center, 42 W. Warren; or
2. by mail to Wayne State University, P.O. Box 02788, Detroit, MI 48202; or
3. online through Academica (<https://academica.aws.wayne.edu>).

Checks, Money Orders, and Cash

Wayne State University accepts personal and certified checks, money orders, and cash as payment for tuition and fees. Payments can be mailed. However, please do not mail cash. Checks or money orders should be made payable to Wayne State University. The student's name and University AccessID number should be written on the check or money order.

Fee-free ACH Checks

Wayne State University also accepts fee-free automated clearing house (ACH) check payments using WSU Academica. Checks (paper or ACH) returned by the bank are subject to returned check fees.

Credit Card Payments

Wayne State University does not accept credit card payments directly. Credit card payments can be applied to a student's University account by a third party processor, CASHNet SmartPay. CASHNet SmartPay will assess a convenience fee (2.9%) on all credit card payments. To make a credit card payment log into Academica and select the "Online Payments" option under "Student Resources" link. American Express, Discover, MasterCard and Visa cards are accepted.

Installment Payment Plans (IPP)

Wayne State University is able to offer interest free installment payment plans for students on a semester-by-semester basis via Nelnet at:

<https://wayne.afford.com/> or 1-800-722-4867

There is a nominal fee for enrolling. Contact the company for terms and conditions.

Sponsored Tuition Program

Certain employers participate in direct tuition billing arrangements as part of their employee benefits programs. Students with questions about the University's procedures or required documentation for a specific plan should contact the Student Accounts Receivable Office at 313-577-6623.

Holds on Records

Initial eligibility to register for classes each semester is based on a student's admission status with the University. All students must be authorized by the University in order to enroll in classes. 'Holds' may be placed on student records, and registration denied to a student, for academic reasons (e.g., probation or dismissal), a disciplinary problem, money owed to the University, failure to return library books and/or other supplies and equipment, and/or non-compliance with program, Departmental, School/College, or University regulations.

A 'Hold' will be placed on the records of any student who has past due indebtedness to the University. While the hold is in effect, registration for a subsequent term will not be permitted, official transcripts of academic work taken at the University will not be furnished, degree or enrollment certification will not be provided, nor will a diploma be issued.

Transcript Request Policy

Transcripts are not issued to anyone outside the University without the written permission of the student. Request for official transcripts will not be honored if the student or former student has an outstanding financial obligation to the University. Exceptions are permitted for employment purposes only with an agreed upon payment plan and acceptable down payment.

Delinquent Prior Term Balances

Personal checks are not accepted as payment for delinquent balances. Payment must be made by cash, certified check, money order or credit card.

IMPORTANT: Students who do not drop their courses during the tuition cancellation period for the term are financially obligated to pay for the courses even if they have not attended any class sessions. Specific dates are available in the Academic Calendar (p. 16).

Students with questions regarding any information presented in Payment of Tuition and Fees section above should contact the Office of the University Bursar at 313-577-3653.

Disclosure Statement

The University reserves the right to update and/or change this information at anytime.

Late Registration

Registration is not permitted beyond the prescribed registration date unless extenuating circumstances beyond the control of the student warrant an exception to University Policy as determined by the University Registrar. In such cases, full tuition, Registration Fee and Late Registration Fee is due on the day of registration.

Short Term Courses

Payment of the full tuition and the non-refundable Registration Fee is required on the date of registration or no later than the first class meeting date. Late Payment Fees are assessed to any student who has not paid his/her tuition and fee assessment by the eBill due date.

Special Adjustments

The University Registrar is authorized to make adjustments in the application of the policies stated in this section when unusual circumstances warrant. Examples of circumstances which may

warrant special consideration include: serious illness or death of the student or someone closely related, or mis-advisement by a University representative. Tuition cannot be canceled for reasons such as changes in work schedule or other employment demands, claims of lack of information, insufficient funds, unawareness of the difference between tuition and student financial aid, undocumented reasons, or for reasons that are within the control of the student. Non-attendance, except for situations falling under the University non-attendance policy (below), is not in and of itself a reason for tuition and fee cancellation. Students (or an authorized representative in the case of death or serious illness) must submit their applications and supporting documentation to the Office of the Registrar. A medical withdrawal is a complete withdrawal from all courses, supported by medical reports from the attending physician. Requests for exceptions to tuition and fee policies must be submitted within approximately two months of the end of the term, as follows:

- Fall Term - March 1
- Winter Term - July 1
- Spring/Summer Term - November 1

Deadlines falling on weekends will be extended to the next business day.

University Non-Attendance Policy

The University Non-Attendance Policy will allow 100% tuition cancellation only for students in their first term of attendance at Wayne State University. Instructors for all courses must verify the student did not attend classes after the tuition cancellation deadline. This policy is designed to provide relief to those students who in their first semester at Wayne State may not be familiar with the University's Tuition Cancellation Policy.

Where the student has otherwise proceeded properly, (s)he may be granted full cancellation of tuition and fees assessed for the class(es) involved:

- If the University cancels the class(es), or
- If the University re-schedules the class(es) after the student has registered and (s)he is now unable to attend, or
- If an authorized University representative has taken action which causes financial loss related to tuition, e.g., authorizing a student's schedule when the student does not have the necessary prerequisite(s).

Appeal Procedures: If a student (or an authorized representative in the case of death or serious illness) is dissatisfied with the Registrar's decision with reference to this policy, the student (or an authorized representative) may appeal to the Tuition and Fee Appeals Board through the University Ombudsperson.

University policy allows for a Request for Medical Withdrawal. A medical withdrawal is a complete withdrawal from all courses. For approved requests, the University Medical Withdrawal Policy will grant 100% tuition and fee cancellation if a student stops attending ALL classes before the end of the 10th week of the scheduled class meeting period in a full fall/winter term. Medical documentation will need to confirm that medical attention was provided during this time period. For medical withdrawals occurring during the 11th or 12th week, tuition cancellation will be granted at the rate of 60%. There is no tuition cancellation after the twelfth week of the term. These periods are adjusted proportionally for courses that do not run the full term. While a request is under review tuition payments should be made as scheduled.

Tuition Cancellation

Tuition may be canceled in accordance with the following schedule when students officially drop classes using the Academics on-line portal, by

submitting a properly completed Register/Drop/Add form, or by sending a certified letter to the Office of the Registrar. A certified letter requesting to drop classes sent through the U.S. Postal Service shall be considered effective on the date it is received in the Office of the Registrar.

Students who officially drop classes before the conclusion of the first two weeks of classes (for the Fall and Winter full-term courses) are entitled to 100% tuition cancellation, and the dropped classes do not appear on the academic record.

Students are contractually liable for tuition unless they take official action during the tuition cancellation period to drop classes.

Students who officially withdraw from fifteen-week classes after the second week of classes (for the Fall and Winter terms) are not entitled to any tuition cancellation.

The tuition cancellation schedule shown below applies to courses that start in accordance with the Official University Academic Calendar. The tuition cancellation schedule for courses with specially approved starting dates is dependent upon the starting date of the course. Questions about the tuition cancellation schedule should be referred to the University Registrar.

Classes meeting fewer than four weeks: Students who officially drop scheduled classes before the first day of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting four to eight weeks: Students who officially drop scheduled classes before the second week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting nine to fifteen weeks: Students who officially drop scheduled classes before the third week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting sixteen to twenty-seven weeks: Students who officially drop scheduled classes before the fourth week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting twenty-eight or more weeks: Students who officially drop scheduled classes before the seventh week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Residency Regulations and Review Procedures: In-State Tuition

The following regulations and review procedures are established by Wayne State University for tuition and fee purposes. Wayne State University recognizes three means by which an individual may establish eligibility for in-state tuition and fees:

- By establishing residence by presence in the State of Michigan;
- By establishing attendance at Michigan high schools; or
- By establishing military service status.

Establishing Residence by Presence in Michigan

Generally, in order to establish residence by presence in the State of Michigan, an individual must document at least six months of continuous physical presence in the State. The six months continuous residence must be completed before the first day of classes for the semester in which in-state tuition is sought. Even if someone is present in Michigan for six months, the person may not qualify for in-state tuition; it depends on whether the person is in Michigan for educational purposes or some other reason. Under limited circumstances which clearly demonstrate that a student's presence in the State of Michigan is not primarily for

educational purposes, the student may be eligible for in-state tuition prior to the passage of the six-month presence requirement.

Temporary Absences

In general, a person's residence is the place where he or she actually lives with the intention of making it the person's permanent home and to which he or she intends to return from temporary absences. A person may be temporarily absent from Michigan without affecting his or her previously established residence. Full-time attendance at a school outside Michigan or enlistment in a military service are examples of temporary absences. Other types of absences for more than six months will be presumed not to be temporary.

Presence for Educational Purposes

Coming to Michigan from another state or country in order to attend Wayne State University or another school does not establish residence. A non-resident at the time of his or her enrollment remains a non-resident throughout his or her presence as a student, except where it can be established that presence in the State of Michigan is primarily for purposes that are not educational, with enrollment only incidental to the primary purpose of being in Michigan. If a student enrolls in undergraduate school for more than eight credits, or in graduate school for more than six credits, or in Law School for more than ten credits in any one full length semester, within six months after arrival in Michigan, Wayne State University normally presumes that the student is in Michigan for the purpose of attending school. Applicants must demonstrate that their presence in Michigan is primarily for purposes that are not related to enrollment.

Factors Considered in a Residence Classification

The following circumstances, although not conclusive, support a claim for in-state tuition on the basis of residence.

The student is employed in Michigan on a permanent, full-time basis or has accepted an offer of permanent employment in Michigan.

The student's parents (or in the case of divorce, one parent) are legal residents of Michigan as shown by their permanent employment in Michigan and/or their establishment of a primary household in Michigan, and the applicant previously was a resident of Michigan and has maintained significant connections to Michigan.

The student's spouse or partner is employed in Michigan on a permanent, full-time basis and the applicant moved to Michigan as a consequence of that employment; and

The student has severed ties to his or her previous state of residence so that he or she no longer can reasonably be considered to be a resident of another state.

Factors Typically Not Supporting Residence Classification

The following circumstances, standing alone, do not typically support residence, inasmuch as they may be common to a temporary or short-term presence in Michigan:

1. Employment by the University as a fellow, scholar, assistant, or in any position normally filled by students;
2. A statement of intention to establish residence in this state;
3. Payment of local and state taxes; or
4. Automobile registration, driver's license, continued presence in Michigan during vacation periods.

Although insufficient to establish residence, certain of these factors may be taken into consideration in determining whether a student has severed ties to the student's previous state of residence.

For purposes of these regulations, the age of majority is eighteen years. Except as provided in paragraph "g" of this section, a minor does not have the capacity to establish his or her own legal residence. Normally, the legal residence of a minor follows:

1. That of the parents or surviving parent; or
2. That of the parent to whom custody of the minor has been awarded by a divorce or other judicial decree; or
3. That of the parent with whom the minor in fact makes his or her home, if there has been a separation without a judicial award of custody; or
4. That of an adoptive parent, where there has been a legal adoption, even though the natural parents or parent may be living; or
5. That of a "natural" guardian, such as grandparent with whom the minor in fact makes his or her home, where the minor has permanently left his or her parental home and reasonable expectation of substantial financial support from the parents has been dissolved. A natural guardian is someone who, although not legally the minor's parent or guardian, performs the same sort of parental duties.
6. If a Michigan resident parent or guardian of a minor moves his or her residence to another state, the minor shall remain eligible for resident tuition status as long as he or she continues to attend school regularly in this state.
7. A minor who has permanently left his or her parental home, and who has no reasonable expectation of significant financial support from his or her parents or legal guardian, etc., may qualify for resident status even if under eighteen years of age.

Non-U.S. Citizen

A non-U.S. citizen may apply for resident status in the same manner as a citizen, if he or she is in the United States for other than a temporary educational purpose. In order to demonstrate this, applicants must provide evidence from the U.S. Department of Citizenship and Immigration Services of one of the following:

1. A U.S. permanent resident alien with a green card.
2. An applicant for U.S. permanent residence whose Petition for Alien Relative, or Employment-based Immigration Petition for Alien Worker has been approved, or who has been issued an Employment Authorization document pending adjustment of status. These individuals will have documentation of this status such as an I-130 (Petition for Alien Relative) or I-140 (Immigration Petition for Alien Working) Approval Notice, or an I-151 or I-551 Notice of Action indicating approval of petition to become an immigrant.
3. An alien with a current valid visa type issued for purposes of working in the United States, and currently working in the State of Michigan. These currently include visa types of A, E, G, H, I, L, R, and TN.
4. An Alien granted asylum or refugee status.

Attendance of Michigan High Schools

An individual may be eligible for in-state tuition on the basis of high school attendance if he or she demonstrates that he or she:

1. Attended an accredited Michigan high school for at least three years and thereafter graduated from an accredited Michigan high school or obtained his or her GED in Michigan; and
2. Enrolls at Wayne State University within twenty-eight months of graduating from high school or obtaining a GED.

An individual does not need to be a legal resident of Michigan or a citizen of the United States to qualify for in-state tuition on the basis of attendance at Michigan schools.

Military Service

Individuals on active duty in the U.S. Military who are stationed in Michigan and their dependents are eligible for Michigan in-state tuition. Stationing orders and proof of relationship (for dependents) must be provided with the application.

Veterans and their dependents are eligible for Michigan in-state tuition. The term "veteran" means a citizen of the United States or a resident alien whose most recent separation from any branch of the armed forces of the United States was under conditions other than dishonorable after having served on active duty for 90 consecutive days or more or by reason of disability incurred while serving on active duty.

Individuals who are members of the National Guard of any state, or who were separated from the National Guard of any state under conditions other than dishonorable, and their dependents are eligible for Michigan in-state tuition.

Without regard to the foregoing, any individual using educational assistance under either Chapter 30 (Montgomery GI Bill® – Active Duty Program), Chapter 33 (Post-9/11 GI Bill®), of title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the State of Michigan while attending Wayne State University (regardless of his/her formal state of residence) is eligible for Michigan in-state tuition.

Good Neighbor Policy (Graduate Students Only)

Residents of Fulton, Lucas, Ottawa, and Williams counties in Ohio, or residents of Ontario, Canada, who are enrolled in eligible graduate programs will pay in-state tuition. This tuition benefit does not apply to certain academic programs, including School of Medicine MD program and the Doctor of Pharmacy program. Please refer to the Tuition and Fee Regulations (http://reg.wayne.edu/students/tuition_and_fee_regulations.php) for additional details.

Great Lakes Policy (Undergraduate Students Only)

Residents of the states of Indiana, Illinois, Wisconsin, Minnesota, New York, Ohio, or Pennsylvania, or the province of Ontario, Canada, who are enrolled in eligible undergraduate programs and who are not eligible for the Good Neighbor Policy may pay Michigan resident tuition rate plus 10 percent.

Online Programs

Students enrolled in programs which are offered online in their entirety will have the out-state portion of their tuition waived. WSU Tuition and Fee Regulations published each academic year will identify the specific academic programs eligible for this provision.

Review Procedures

Initial Classification and Appeal

1. The student is responsible for registering under proper residence or tuition status and advising the University of changes in circumstances, which might affect tuition status. Questions concerning a student's residence or tuition status prior to enrollment should be raised with the Office of Admissions. Questions arising after enrollment should be raised with the Registrar's Office.
2. After enrolling, a student may challenge the initial classification made by the Office of Admissions by filing an Application for Residence Classification or Change in Tuition Status with the Registrar's Office.

3. Except for documented delays caused by University personnel, such applications must be filed by:

- September 30 for the Fall semester and the Medical Year semester
- January 31 for the Winter semester
- July 31 for the Spring/Summer semester

Deadlines falling on weekends or on days when the University is closed will be extended to the next business day. Applications received after these dates will be processed for the following semester.

Further Appeal

A student may appeal the initial tuition decision as follows:

1. By filing a written notice of appeal with the Registrar within thirty (30) days after the student is notified of the classification decision. The notice of appeal shall include reasons for the appeal, the period for which resident status is claimed, and a complete statement of the facts on which the appeal is based, together with supporting affidavits or other documentary evidence. Failure to file notice within thirty (30) days shall constitute a waiver of any right to further appeal. The student has the right to consult the University Ombuds Office at any time, and the student may particularly want to utilize the Ombuds' services at this point in the review procedures.
2. A student may appeal the Registrar's decision by filing a written notice of appeal with the Office of the General Counsel within fifteen (15) days from the date of the Registrar's decision. Failure to file written notice of appeal of the Registrar's decision with the Office of the General Counsel within fifteen (15) days shall constitute a waiver of any right to further appeal.
3. A student may appeal the decision of the Office of the General Counsel within fifteen (15) days with the Office of the President. Failure to file written notice of appeal of the General Counsel's decision with the Office of the President within fifteen (15) days shall constitute a waiver of any right to further appeal. After the notice of appeal, the President or his designee shall review the student's appeal and render a final decision.

Erroneous Classification

1. If an erroneous classification of non-residence occurs, an adjustment for the appropriate period and amount will be made.
2. If an erroneous classification of residence occurs, the student shall be reclassified as a non-resident student. If the cause of his or her incorrect classification shall be found to be due to any material concealment of facts or false statement made by the student before the time of the original classification, the student will be required to pay all tuition and fees which would have been charged to him or her and also will be subject also to appropriate discipline in accordance with University Student Code of Conduct. If it is determined that there is no such concealment of facts by the student, fees shall be adjusted only for current and future semesters.

Effective Dates of Residence Regulations

Amended statute as adopted on September 20, 2013, will be effective for the Winter Semester 2014.

Student Academic Success Services Ombuds Office

790 Student Center Building; 313-577-3487

<http://ombudsman.wayne.edu> (<http://ombudsman.wayne.edu/>)

The Ombuds Office exists to support students in achieving their academic goals by providing them with the tools to access services and

resolve issues that are hampering their academic progress. The Office advises students about University policies and procedures, helps them identify possible avenues and solutions, and directs them to relevant University services.

The Ombuds Office is objective, impartial, and does not advocate a particular point of view. It listens to student-related concerns and exercises independent judgment regarding any action it may take. The Office has no authority to change academic or administrative decisions, but it facilitates communication when suitable. Confidentiality is maintained as appropriate and feasible based on individual student needs and desires.

The Ombudsperson is the Chair of the Tuition and Fees Appeals Board (TFAB). The TFAB is charged by the President to be the final arbiter of appeals for tuition and related fees. Students who have exhausted the appeals process in the Office of the Registrar related to tuition and fees may appeal to the TFAB. Each appeal is reviewed as an individual case, and cancellation of tuition and/or fees is granted only when circumstances warrant. The TFAB cannot grant tuition adjustments for courses with earned grades, nor can it grant course withdrawals without tuition cancellation. The TFAB will consider only those appeals that are filed within one calendar year following the last day of the academic term in which the challenged fees were assessed.

University Advising Center

1600 David Adamany Undergraduate Library; 313-577-2680
<http://www.advising.wayne.edu>

The mission of the University Advising Center is to help all undergraduate students reach their educational goals, with high academic achievement, and to graduate.

The University Advising Center provides academic advising to all undergraduate students with undeclared majors and to preprofessional students in the College of Liberal Arts and Sciences, and the College of Fine, Performing and Communication Arts. The Center is staffed by professional advisors whose major responsibilities include the following.

New Student Orientation

The University Advising Center holds new student orientation sessions prior to the start of each semester for incoming students. All incoming freshman and transfer students are required to attend a new student orientation session.

Exploratory Student Advising

Advisors provide specialized advising support to students entering WSU still deciding on a major/program of study. With their advisor, students will have an opportunity to explore majors and careers through exploratory activities.

Pre-Medicine/Pre-Dental/Pre-Veterinary Advising

Students in pre-medical, pre-dental, pre-osteopathic and pre-veterinary medicine are advised on specific curricula, co-curricular activities, preparation for admission exams and procedures for applying to the professional school. Credential file services are available to students and letters of recommendation are sent to professional schools as requested by the student.

Pre-professional Advising

Advisors assist students in planning programs which will fulfill requirements for admission to the various professional programs offered by Wayne State University, including those of the School of Social Work,

the College of Nursing, and the Eugene Applebaum College of Pharmacy and Health Sciences.

Academic Deficiency Advising

Students whose grade point averages fall below 2.0 are placed on academic probation and are required to discuss their progress with an academic advisor. Advisors help probationary students consider ways to overcome academic deficiencies. Referrals may be made to other University services where students can find assistance for specific problems or difficulties.

Early Academic Assessment

Academic progress for students enrolled in 0000-3999-level courses is assessed by faculty from the beginning of the third week to the end of the sixth week of classes. If a student's performance is assessed below the C level, the student receives an alert notification referring them to appropriate campus resources.

Academic Success Center

1600 David Adamany Undergraduate Library; 313-577-3165
<http://www.success.wayne.edu>

The mission of the Academic Success Center (ASC) is to ensure that all Wayne State University undergraduate students become self-disciplined, motivated and independent learners. The ASC accomplishes this through instruction and services that support students in the development of skills to promote academic excellence and enhance success.

Study Skills Counseling: Professional learning specialists are available to support students' academic success. Any undergraduate Wayne State student may work with a learning specialist to identify specific study skill difficulties and formulate personalized strategies for success. Each plan identifies the student's strengths, opportunities for development and action steps necessary to help the student become a more effective learner. Programs are designed to improve students' study skills including reading comprehension, memory improvement and test preparation.

Study Skills Workshops: The Academic Success Center offers a series of study skills workshops for all students each semester. Sessions provide strategies and techniques to help students effectively manage their time, prepare for exams, reduce test anxiety, improve memory and concentration, understand the relationships between wellness and academic performance and strengthen other skills. Additionally, workshops may be scheduled for groups, student organizations and academic departments to address specific needs.

Tutoring: The Academic Success Center offers tutoring by appointment for a variety of undergraduate courses. In addition to subject material, tutoring sessions address study skill areas such as note-taking and reading comprehension when necessary. All tutors have received faculty recommendation and maintain at least a 3.2 g.p.a.

Supplemental Instruction (SI) supports many 1000- and 2000-level courses by offering collaborative learning sessions facilitated by an SI leader. Sessions are designed to help students understand the course's key concepts, organize the material and develop strategies to effectively prepare for exams. Research suggests that students who consistently participate in SI typically earn a half to a full letter grade better than students who do not take part in SI. All SI leaders have received faculty recommendation, maintain at least a 3.3 g.p.a. and are required to attend the lecture.

First-Year Success Seminar (FYS 1010): This one-credit course supports first-year students' academic and personal development to promote success at Wayne State University and establish learning as a lifelong experience. Coursework and discussions assist students in

understanding themselves as learners, setting goals and strengthening time management and study skills while developing a greater awareness of the factors that influence success and the habits that can support success.

Counseling and Psychological Services (CAPS)

552 Student Center Building; 313-577-3398
<http://caps.wayne.edu> (<http://caps.wayne.edu/>)

Counseling and Psychological Services (CAPS) enhances students' development and academic success by promoting an open, problem-solving approach to personal challenges and working collaboratively on building appropriate skills, attitudes, and actions.

Service hours: Monday - Friday 8:30 am to 5:00 pm. Registered WSU students may drop-in or call for an evaluation with a CAPS counselor Monday through Friday from 9:00 am to 4:00 pm.

Eligibility: All currently enrolled students are eligible for counseling evaluation to assess whether their needs can be addressed effectively via short-term counseling at CAPS or require more specialized or longer-term counseling at another facility. Faculty, staff, alumni, children, or spouses are not eligible.

Crisis Services: In the case of a non-life-threatening crisis, students, faculty, or staff can contact CAPS and indicate that a student needs immediate assistance. If assistance is needed during evening or weekend hours, contact the Wayne State University Police Department at 313-577-2222 or call the Wayne County crisis hotline at 313-224-7000. In the event of a life-threatening emergency at any time, contact the Wayne State Police Department.

Career Services

1001 Faculty/Administration Building; 313-577-3390
<http://www.careerservices.wayne.edu> (<http://www.careerservices.wayne.edu/>)

Career Services provides support to students and alumni in defining career and employment goals and assists them in their search for employment opportunities. In addition to the following services, Career Services offers topical workshops, career events, and group and individual career/employment counseling. Career Services welcomes the opportunity to discuss customized services to meet individual needs.

Career Development: The main focus of this service is to help students explore career options, clarify their career goals, and link those goals to appropriate academic paths. Individual and group services are available.

Cooperative Education, Internships, and Summer

Employment: Comprehensive paid professional, career- and non-career related work experiences are available, including a wide variety of part- and full-time experiential learning situations. Orientation workshops are offered on an ongoing basis.

On-campus Student Employment: Students may work on-campus up to twenty hours per week as a Student Assistant or College Work-Study employee. Job openings may be viewed in-house or online via our open posting system.

Professional Employment: Graduating students and alumni may increase professional full-time employment opportunities through on-campus interviews, resume referral, career fairs, in-house and on-line job postings, along with a myriad of career-related support services.

Testing, Evaluation, and Research Services

686 Student Center; 313-577-3400; Fax: 313-577-0617
<http://www.testing.wayne.edu/>

Testing

We provide:

- A secure, standardized, testing environment where students can demonstrate their academic skills for placement, course credit, or high stakes decisions.
- The opportunity for students to earn course credit in courses accepted by the transfer credit office through the College Level Examination Program (CLEP).
- Placement testing for students interested in meeting general education and other requirements targeted toward their personal skill level in Biology, Chemistry, English Composition and Mathematics.
- Outside exams: Graduate Record Exam (GRE), Testing for the Law School Admission Council (LSAC), Medical College Admission Test (MCAT), Miller Analogies Test (MAT), Test of English as a Foreign Language (TOEFL), Written and Oral exams for the American Council on the Teaching of Foreign Languages (ACTFL), and written exams for doctoral students in the College of Education.

Evaluation

We collect student opinions about faculty teaching through Student Evaluation of Teaching (SET). We share SET reports with students, administrators and faculty members toward the goal of improving quality of teaching at the University.

We survey students and faculty regarding the quality of their education through

1. the Cooperative Institutional Research Program (CIRP) Freshman Survey,
2. National Survey of Student Engagement (NSSE) and
3. Faculty Survey of Student Engagement (FSSE).

Research Services

We offer consulting on best practice in testing for faculty and academic staff. We offer machine scoring of exams, including tabulation of test scores and statistical output to help faculty improve their tests.

Student Disability Services (SDS)

1600 David Adamany Undergraduate Library; 313-577-1851;
313-202-4216 (Videophone)
<http://studentdisability.wayne.edu>

Student Disability Services is the office at Wayne State University that determines eligibility and implements academic accommodations, services and support for students with disabilities pursuant to the Americans with Disabilities Act (ADA), the ADA Amendments Act of 2008, and Section 504 of the Vocational Rehabilitation Act of 1973. SDS is committed to teaching students to advocate for themselves in order to fulfill their academic goals. SDS also provides training and outreach throughout the university to ensure equal access to all university programs.

Disability Determination: In order to register for SDS services, students must self-identify by providing documentation of their disability. Students will meet with disability specialists to discuss appropriate and reasonable accommodations. Once accommodations are determined, students are guided through the process of providing faculty with their

accommodation letters and securing appropriate services. Students receiving accommodations are held to the same academic standards as all other WSU students and are responsible for requesting services and following procedures in a timely manner.

Academic Accommodations: Accommodations and services are individualized and based upon the student's documentation. It is for this reason that students should ensure that they have sufficient documentation that supports the need for appropriate and reasonable accommodations. Some of the accommodations and services provided by SDS might include alternative testing, interpreter and CART reporting services, alternative text format, note-taking assistance, furniture requests, use of assistive technology, and use of SDS exam/study rooms. Students registered with SDS are also eligible for pre-priority registration for classes. Through the SDS liaison program with University departments and programs, SDS ensures that members of the University community understand the types of support offered to enhance collaboration in providing accommodations.

Assistive Technology: The SDS staff includes an assistive technician who secures alternative text formats for students and teaches students how to use the various assistive technologies. SDS exam/study rooms house CCTV magnification equipment, computers with software such as Zoomtext, JAWS, Kurzweil Educational Systems, Dragon Naturally Speaking and Inspiration. Students are also informed about free downloadable software programs for reading and recording.

Community Resources: SDS collaborates with various community agencies that assist students with disabilities at the university. Students are connected to agencies such as Michigan Rehabilitation Services, the Bureau of Services for Blind Persons, Learning and Disability Network/ Michigan.

Academic Pathways for Excellence (APEX)

5700 Cass Ave., Suite 2800; 313-577-4695
<http://www.apex.wayne.edu> (<http://www.apex.wayne.edu/>)

APEX Scholars is an alternative admission program designed to assist students with admission to success at, and graduation from, Wayne State University. The program is based on the philosophy that students who are interested, committed, and willing to invest the time can succeed academically when provided with appropriate support services.

The mission of APEX Scholars is to provide an academic bridge to the successful completion of undergraduate studies at Wayne State University. In this quest, the program will strengthen the cognitive abilities of students, encourage a thirst for knowledge, model and demand a disciplined approach to learning, and enhance student achievement by assuring access to a committed staff that provides effective supportive services and leads to a structured path of academic success.

Admission Requirements

Evaluation of applicants: The admissions policy is based on holistic considerations of each student's potential to succeed at a research university. Holistic evaluation means that each applicant will be evaluated on the basis of full academic records, types of classes taken, grade trends, and personal history. Depending on the individual situation, applicants will also have an opportunity to submit optional essays and engage in personal interviews. The program is committed to the high academic standards that best prepare students for success following graduation.

Application: All students must apply through the regular application process for Wayne State University by submitting an online application (<http://www.wayne.edu/admissions/>). Applicants who might benefit

from the APEX Scholars program will be invited for campus interview to determine whether the APEX Scholars program is a good fit for them.

In consideration for admission into APEX Scholars and in order to remain in good academic standing, students admitted into one of the bridge programs (see below) will need to successfully complete all of the bridge program requirements before matriculation into APEX Scholars.

Summer Bridge is an eight-week academic program designed to prepare students for Wayne State University and to support the transition into college. Students must successfully complete the academic requirements of the APEX Summer Bridge in order to be admitted to APEX.

Fall Bridge is a sixteen-week rigorous program with the same support as the summer bridge program.

APEX Scholars: After successful completion of one of the Bridge programs, students can matriculate to APEX Scholars. Students will experience continued academic strengthening through enhanced counseling, targeted academic support services, and assistance with course selection. Students must also maintain a C average through three semesters of the program (thirty-six credits). After completion of the thirty-six credits, students will transition into general status.

Academic Pathway Excellence Courses

Code	Title	Credits
APX 0500	Foundations in Writing	3
APX 0510	Practical Mathematics	3
APX 0600	Learning Community Seminar	0
APX 1000	Learning Strategies for College Success	1
APX 1010	Seminar in Reading College Texts	1

Federal TRIO Office

5700 Cass Ave, Suite 1330; 313-577-5050
<http://www.federaltrio.wayne.edu> (<http://www.federaltrio.wayne.edu/>)

The Office of Federal TRIO provides academic assistance and support services to promising youth and adults who have been historically under-represented in higher education due to their economic condition, first generation status, or educational preparation. This office provides academic support services, instruction, and college preparation workshops for pre-college students in the metropolitan Detroit area and students enrolled at WSU. Federal TRIO serves an extremely diverse student population that ranges from twelve to nineteen years of age, veterans of the armed services, and other adult learners. Federal TRIO Programs serve over 6,000 students residing in Wayne, Oakland, and Macomb Counties or enrolled at Wayne State University.

Federal TRIO is comprised of six state and federally funded programs designed to increase the post-secondary admission rates of the diverse populations it serves, and to increase the graduation rates of these students in the University. Through continuous improvement of services, the department aims to maximize the academic achievement of its participants and to promote equity and excellence at Wayne State University.

The Educational Opportunity Center (EOC)

5700 Cass Avenue, Suite 2701, Academic/Administrative Bldg., 313-577-5050, provides a comprehensive career counseling program that offers free academic, vocational career and financial aid information to eligible applicants nineteen years of age and older, who wish to pursue a postsecondary education.

Michigan Gaining Early Awareness and Readiness for Undergraduate Programs (MI-GEARUP)

5700 Cass Ave., Suite 1330, Academic/Administrative Bldg., 313-577-5050, offers life skills programs, career counseling services and college visitations designed to educate parents and encourage seventh-through twelfth-grade students in targeted schools to complete high school and enroll in higher education.

Upward Bound Program

5425 Woodward, 313-577-1943, provides services for low income and first generation college students in grades nine to twelve with the potential and motivation to be successful in higher education. The students must attend target area high schools. Upward Bound provides students with a head start on improving the skills required to succeed in college, through academic instruction, tutoring, academic and career guidance, personal counseling, and a six week summer residential program.

Veterans' Educational Opportunity Program (VEOP)

5425 Woodward, 313-577-9710, provides a program of instruction, academic and career guidance, personal counseling, tutoring, and post-secondary placement to veterans who have served in the U.S. Armed Forces from December 31, 1955 to present.

McNair Scholars Post-baccalaureate Achievement Program

5700 Cass Avenue, Suite 1330, 313-577-5050, provides faculty mentors, student-faculty research projects, GRE preparation services, stipend support and travel funds to present research for WSU junior and senior students. The goal of the McNair Scholars Program is to prepare low-income, first generation and underrepresented students to successfully complete doctoral studies. in the areas of science, technology, engineering and mathematics.

Office of Military and Veterans Academic Excellence (OMVAE)

Suite 687 Student Center Building;
313-577-9180; Fax: 313-577-5020
<http://www.omvae.wayne.edu> (<http://www.omveb.wayne.edu/>)

This office assists veterans, active-duty service members, reservists, National Guard and eligible dependents/survivors in utilizing educational benefits. Specifically, students are aided in applying for Federal benefits outlined under Title 38, and Title 10, U.S.C., including: the Montgomery G.I. Bill (chapter 30), Vocational Rehabilitation (chapter 31), Post 9/11 G.I. Bill (Chapter 33), Reserve Educational Assistance Program, the Reserve G.I. Bill (chapter 1606), REAP (chapter 1607), and the Survivors'/ Dependents' Educational Assistance (chapter 35). All eligible students must officially request (<http://omvae.wayne.edu/va-certification.php>) to use their educational benefits each semester.

Non-Degree Status: Students must be in a degree program to receive benefits. Those not currently admitted to a degree program and enrolled in classes must verify to the OMVAE via an academic advisor (<http://advising.wayne.edu/makeappt.php>) the reason for enrollment (i.e., completing foundation courses for a master's-level program).

Transfer Credits: Wayne State University will give four transfer credits for veterans, reservists, National Guard, and active-duty service members for service in the U.S. military. The University will require military discharge document DD-Form 214 (<http://www.dd214.us/>).

Wayne State University will accept up to twelve transfer credits from veterans upon receiving their Joint Service Transcript of military training. These credits are to be evaluated according to the 'Guide to the

Evaluation of Educational Experiences in the Armed Services,' published by the American Council on Education.

This policy shall be in effect for all veterans, reservists, National Guard, and active-duty service members currently enrolled Fall 2005 and thereafter.

Late Tuition and Late Registration Fee Waiver: Late fees, Partial Payment fees and Late Registration fees can be waived for all students currently receiving VA Educational Benefits. Contact OMVAE for assistance.

Licensing/Certification Reimbursement: In most instances, students receiving VA educational benefits (<http://www.gibill.va.gov>) are eligible for reimbursement (https://www.benefits.va.gov/gibill/licensing_certification.asp) for licensing test fees.

Tutorial Assistance is also available (https://www.benefits.va.gov/gibill/tutorial_assistance.asp) as part of all benefit packages as noted above. Eligible recipients may receive \$100.00 per month, up to twelve months to help defray tutoring costs. Contact the OMVAE for further details. No charge to benefit entitlement is incurred for the first six months received of Tutorial Assistance.

In-State Tuition Waiver: Individuals on active duty in the U.S. Military who are stationed in Michigan and their dependents are eligible for Michigan in-state tuition. Stationing orders and proof of relationship (for dependents) must be provided with the application.

Students utilizing Chapter 31 or Chapter 33 G.I. Bill™ benefits will be granted a deferment of tuition and fees for the current enrollment period upon submission of a corresponding Certificate of Eligibility (or suitable documentation which demonstrates benefit eligibility). The deferment will be placed proportionally based on the student's percentage of eligibility.

Veterans and their dependents are eligible for Michigan in-state tuition. The term "veteran" means a citizen of the United States or a resident alien whose most recent separation from any branch of the armed forces of the United States was under conditions other than dishonorable after having served on active duty for 90 consecutive days or more by reason of disability incurred while serving on active duty.

Individuals who are members of the National Guard of any state, or who were separated from the National Guard of any state under conditions other than dishonorable, and their dependents are eligible for Michigan in-state tuition.

Without regard to the foregoing, any individual using educational assistance under either Chapter 30 (Montgomery GI Bill® – Active Duty Program), Chapter 33 (Post-9/11 GI Bill®), of title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311 (b)(9) who lives in the State of Michigan while attending Wayne State University (regardless of his/her formal state of residence) is eligible for Michigan in-state tuition.

VA Work-study Program: The VA work-study (<https://www.benefits.va.gov/gibill/workstudy.asp>) allowance is available to all students eligible for VA Educational Benefits. Those eligible who are at least a three-quarter-time student in a college degree program, or a vocational or professional program, can 'earn while they learn.' Pay for VA Work-study is the equal to the Federal minimum wage or your state minimum wage, whichever is greater.

Services performed under a VA work-study program must be related to VA work. Examples of acceptable work are:

- Processing VA paperwork at any university or college having a VA Office (e.g., you may be enrolled at WSU but work at Oakland or Macomb Community College VA Offices)
- Outreach services under VA supervision
- Work at VA medical facilities or National Cemetery System offices
- Work with the Veterans counselor at any of the MESC offices
- Work in the Education or Transition offices at local base
- Work at Department of Defense facilities related to education benefits under the GI Bill.

National Guard Students: Please note that Wayne State does not currently participate in the Guard's Tuition Grant Program. However, if your branch provides Tuition Assistance and/or Tuition Reimbursement the OMVAE will provide assistance as necessary with regard to grade and tuition certifications to your unit.

Reserve Officer Training Corps (ROTC): Wayne State University offers an Army ROTC (<http://omvae.wayne.edu/rotc/>) program. Students interested in joining the Army ROTC program at Wayne State University should contact M.S.G. Nicholas Lachance 734-647-3034.

Recalled To Active Duty (Reservists / National Guard): Students serving in the Selected Reserves or National Guard who are called up to Active Duty during a semester may request full reimbursement of tuition and fees. Students must file an *Exception to Enrollment Policy* form and submit a copy of their orders to OMVAE. Students called up active near the end of a semester are encouraged to consider requesting Incomplete grades for coursework.

Early-Out Requests: Potential Students on Active Duty requesting a verification of enrollment to be sent to their Commands must be admitted to Wayne State University and have registered for classes. Please contact the Graduate Admissions Office and the Registration Office for assistance. Once these conditions are met, the VA Certifying Official can complete an enrollment verification for active duty members seeking an 'early out' from military service. Hard copy proof of student's admittance and registration for classes is NOT required for the VA Certifying Official to complete the enrollment verification.

Office of International Programs

4228 Faculty/Administration Building; Phone: 313-577-8968; Fax: 313-577-5666

Email: oiip@wayne.edu

Associate Vice President for Educational Outreach and International Programs: Ahmad Ezzeddine

Director of Operations: Rebecca Journigan

Associate Director: Jaclyn Assarian

Associate Director, Student Programs: Fareed Shalhout

Project Coordinator:

<http://www.oiip.wayne.edu> (<http://www.oiip.wayne.edu/>)

The Office of International Programs (OIP) is responsible for coordinating the University's resources and expertise to support international education on and off campus, to expand the university's global presence, and to facilitate the engagement of students, faculty, and staff with its global agenda. It also connects the metropolitan Detroit community with other university constituencies, locally and abroad. OIP encompasses the followings programs and activities:

- the Office of International Students and Scholars
- Study Abroad and Global Programs
- the English Language Institute

Office of International Students and Scholars (OISS)

416 Welcome Center; 313-577-3422; Fax: 313-577-2962

Director: Kelli Dixon

<http://www.oiss.wayne.edu> (<http://www.oiss.wayne.edu/>)

The mission of OISS is to support and enhance the educational, cultural, and social experiences of the more than 2000 international students and scholars at Wayne State University. OISS is the University's main point of contact for issues related to international students and scholars' immigration regulation compliance.

OISS staff advise students and scholars on immigration regulations and issues of cross-cultural adjustment; provide educational, cultural and social programs and activities, including a comprehensive orientation program and written materials designed to help arriving students and scholars achieve their educational and personal goals; assist University departments in the hiring of foreign national employees, consult and interact with University units, governmental organizations and other agencies.

Academic Progress for International Students

Department of Homeland Security regulations require:

1. That F-1 and J-1 students maintain a full course of study and make normal academic progress toward program completion at the institution they have been authorized to attend.
2. Graduate students must successfully complete at least eight credits each semester (excluding continuing students who qualify for an annual vacation semester during Spring/Summer or have been granted an exception to full-time enrollment). Undergraduate students must successfully complete at least twelve credits each semester (excluding continuing students who qualify for an annual vacation semester during Spring/Summer or have been granted an exception for full-time enrollment).
3. Graduate Teaching Assistants and Graduate Research Assistants must successfully complete at least eight credits each semester (excluding students who qualify for a vacation semester during Spring/Summer or an approved annual vacation). If GTAs/GRAs need to take less than eight credits, they must complete the OISS Request for Exception to Full Time Enrollment form and obtain approval from OISS. Students should consult an OISS advisor for details on compliance with this and other requirements.

New International Students and Scholars

New International Students and Scholars receive the OISS welcome booklet with their visa document (Form I-20 or DS 2019) before they leave their home country. The booklet provides information on a wide variety of important topics such as housing, health insurance, expenses, immigration status, local climate, and air transportation. New students and scholars from abroad must report to OISS as soon as they arrive and must participate in a comprehensive orientation program. This program is designed to meet immediate needs in terms of housing information and University registration procedures; introduce them to U.S. culture and the University's educational system; and provide information on banking, health insurance, safety, and immigration regulations. In addition, a number of social and recreational programs and activities are planned to assist students and scholars in making a smooth transition to their new environment

Non-Immigrant International Students

Before registering for classes, all non-immigrant international students must report to OISS to complete check-in procedures and have immigration documents reviewed, purchase mandatory health insurance (see below), and obtain an orientation schedule. Transferring F-1 students from other U.S. institutions must have their previous school release their Student and Exchange Visitor Information System (SEVIS) record to Wayne State University and must complete transfer procedures as provided in the federal regulations within fifteen days of the first day of class. F-1 students must notify the OISS of any change in name, address, program (including changes in level and field of study), and full-time enrollment. OISS must provide this information to Immigration and Customs Enforcement (ICE) through the Student and Exchange Visitor Information System (SEVIS). J-1 exchange visitors, including students, may not make a change in level, field, or category without the advance approval of the Department of State, and may be precluded from change of visa status until a two-year home country residency requirement is met.

Commuting Canadian Students

Canadian students (commuters) enrolled less than full time must obtain a part-time I-20 from OISS each semester they are enrolled and should consult with an OISS advisor to determine the impact of their status on future immigration benefits including the availability of practical training.

International Faculty and Research Scholars

The University provides foreign professors and research scholars with opportunities to engage in research, teaching, consulting, and lecturing with colleagues at Wayne State; to participate actively in cross-cultural activities; and to share their experience as well as increase their knowledge about the United States, Wayne State University, and the metropolitan Detroit community. OISS provides centralized support services necessary to enable and assure the employability of such non-U.S. citizens within government regulations. Offers of employment to foreign nationals must be authorized by OISS, and only this Office may sign immigration forms and petitions related to employment on behalf of the University. All foreign national employees must complete USCIS Form I-9, 'Employment Eligibility Verification' and present evidence of their identity and employment eligibility at OISS before commencing employment at Wayne State University.

Health Insurance (International Students and Scholars)

416 Welcome Center; 313-577-3422; Fax: 577-2962
Health Insurance Advocate: 313-577-0724

International students and scholars, and their dependents holding F1/F-2 status and J-1 exchange visitors and their dependents holding J-1/J-2 status are required to comply with the health insurance requirements of the University. Commuting Canadian students may waive the health insurance requirement by providing proof of OHIP coverage prior to each semester of enrollment. The mandatory international insurance program is designed to provide international students, exchange visitors, and their eligible dependents with continuous insurance protection and access to quality affordable health care services. The University is mandated by federal law to terminate from its program all exchange visitors and their dependents who do not meet minimum insurance requirements. For additional information or to purchase health insurance please access the OISS website (<http://www.oiss.wayne.edu>) or contact

the Health Insurance Advocate in OISS; telephone: 577-0724 or e-mail oissmail@wayne.edu

Cross-Cultural Activities

The OISS provides cross-cultural activities in order to provide exposure to American society, culture, and institutions. Activities include: International Education Week, new international student learning community, a free international coffee hour held every two weeks on Wednesdays from 11:30 a.m. to 1:30 p.m. Coffee hour provides opportunity for dialogue with and among international students and scholars, American students, and the WSU community. Other activities include monthly sessions on employment options, internships, cross cultural adjustment and more.

Study Abroad and Global Programs Office

906 W. Warren Avenue; 131 Manoogian Hall; 313-577-3207
Director: Kelli Dixon
<http://www.Studyabroad.wayne.edu> (<http://www.studyabroad.wayne.edu/>)

Study Abroad and Global Programs coordinates international educational activities at Wayne State University. Key activities include:

1. the management of WSU faculty-led study abroad programs and exchange agreements;
2. the administration of the Hostelling International Travel Award for students to encourage international study, research and internship abroad initiatives;
3. the administration for the NSEP - David Boren Scholarship;
4. the administration of the U.S. Student Fulbright Program;
5. the coordination and support of internationally-themed events; and
6. the development and management of international outreach activities and off-campus programs including agreements between Wayne State University and universities outside the United States.

Study Abroad programs are offered in collaboration between academic departments and faculty of both U.S. and foreign institutions, in order to combine academic study with a cross-cultural learning experience in a foreign environment. A variety of program options have been developed to address the diverse needs of students. Programs vary in length, level, academic focus, teaching format, language requirements, cost, and degree of independence demanded of the participant.

The office provides a full range of support services to students on such issues as program selection, academic planning, registration, credit, financial aid, and cultural adjustment. In addition, program materials have been designed specifically to assist students in preparing for their study abroad experience. Books, brochures, catalogs on academic and travel/study programs in foreign countries are available at the Study Abroad Resource Center, including information on Wayne State's thirty-three study abroad programs and other programs sponsored by American and foreign institutions.

For a complete and current list of WSU Study Abroad programs, learning experiences, and services, please contact the Study Abroad and Global Programs Office (<http://studyabroad.wayne.edu>).

Arabic Language and Culture at the Lebanese American University, Beirut

This program provides opportunities for WSU students to study Arabic language and culture abroad. During the summer, WSU students may take a variety of language and culture classes while living abroad in Lebanon.

Japan Center for Michigan Universities

The Japan Center for Michigan Universities (JCMU) is a consortium consisting of the fifteen State-supported Michigan public universities, the Michigan Japan Foundation, and Shiga Prefecture. JCMU offers semester- and year-long study opportunities in Hikone, Japan.

The Center's academic program is designed for students interested in acquiring knowledge about Japanese language and culture, including those not majoring in Japanese studies. It provides semi-intensive Japanese language courses and several core courses on Japanese culture to Michigan and other American university students. Academic credit may be granted by a student's home institution upon successful completion of JCMU courses; independent study is also available. The program also features home-stays in a Japanese community, field trips, and participation in cultural events.

Other International Opportunities: Numerous short-term special international study trips for credit are available to Wayne State students.

International Students requiring information on study at Wayne State University should contact the Office of International Students and Scholars (<http://www.oiss.wayne.edu>).

Resource Center

Books, brochures, catalogs and advising on travel/study programs in foreign countries are available at the Resource Center, including information on Wayne State sponsored study abroad programs and programs sponsored by U.S. and foreign institutions. Course credit is available on approval for many study abroad programs; credit approval usually must be obtained prior to entering a study abroad program.

Honors College

The Irvin D. Reid Honors College has study abroad experiences; for information, see the Honors College section in the WSU Undergraduate Bulletin.

Fulbright Grants and other grants for graduate study abroad

The U.S. Fulbright student program (<http://us.fulbrightonline.org/>) is designed to give recent B.S and B.A. graduates, masters and doctoral candidates, and young professionals and artists opportunities for personal growth and international experience. Each year the Fulbright Program allows Americans to study or conduct research in over 100 nations. Application deadline depends on the specific program but generally it must be submitted to the campus Fulbright advisor by September of the year prior to the foreign study experience.

Fulbright-Hays Doctoral Dissertation Research Abroad Program (<http://eca.state.gov/fulbright/fulbright-programs/program-summaries/fulbright-hays-program/>): Provides grants to colleges and universities to fund individual doctoral students to conduct research in other countries in modern foreign languages and area studies for periods of 6 to 12 months. Proposals focusing on Western Europe are not eligible.

English Language Institute (ELI)

351 Manoogian Hall, 313-577-2729

Director: Bruce Morgan

<http://www.Eli.wayne.edu> (<http://www.eli.wayne.edu/>)

As the only intensive English language program in the metropolitan Detroit area, the English Language Institute (ELI) has specialized in teaching academic preparation skills, English communication, and cultural orientation to non-native speakers of English from all over the world for more than forty years. The ELI is committed to assisting individuals at all levels to develop their communication skills in the shortest possible time by using the newest language-teaching

methodology and the most up-to-date audio, video, and computer technology available. Small classes and highly trained instructors make it possible for students to improve their English rapidly and effectively.

Programs

Intensive Program: For students interested in improving their academic skills in a relatively short period of time, the ELI offers up to twenty hours per week of instruction at varying levels from beginning to advanced. While beginning levels focus on basic communicative skills, advanced classes emphasize mastery of the academic skills needed to succeed in the university such as essay writing, note-taking, and presenting information to an audience.

In addition to attending class, ELI students are encouraged to participate in weekly extracurricular activities in order to become integrated into the English-speaking community. Each semester the ELI offers field trips around the metro-Detroit area, conversation partner practice with native speakers, and socio-cultural activities while at the same time encouraging students to take advantage of all university facilities and services.

Test of English as a Foreign Language (TOEFL) Testing and Reporting: To ensure international students will be successful in the University, all must meet Wayne State's English proficiency requirements or complete the highest level of ELI. The ELI administers the TOEFL ITP® monthly on the main campus. Scores are then reported to the applicants as well as Undergraduate and Graduate Admissions.

Graduate Teaching Assistant (GTA) Training and Testing: All prospective GTAs whose native language is not English must pass the SPEAK® test, rated by ELI faculty, with a score of at least fifty (out of sixty) to be cleared for teaching. A score of forty-five allows a person to teach while enrolling in ELI 0520, a course taught by two ELI faculty members. The final exam, also rated by ELI faculty as well as a faculty member from the academic department, is a teaching demonstration in the GTA's field of study. The SPEAK® test is offered at various times throughout the academic year. ELI 0520 is offered fall and winter semesters.

Scholarly Writing for Graduate Students: Non-native English speaking Ph.D. candidates who need to publish in scholarly journals and meet other professional obligations can take a course designed specifically to meet their needs. ENG 5850 is a course supported by the Graduate School and taught by ELI faculty each semester.

English Language Institute Courses (ELI)

The following courses, numbered 0100-0999, are not offered for degree credit. For registration in any of these courses students should contact the English Language Institute.

ELI 0100 Level 1: Oral Integrated Cr. 2,4

The focus of this course is to develop students' basic listening and speaking skills necessary for everyday life. They will learn basic listening strategies, interact with others about simple topics, and produce simple sentences and questions with target vocabulary. Students will practice articulating consonant and vowel sounds correctly and produce accurate stress and intonation patterns. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0110 Level 1: Written Integrated Cr. 2,4

The focus of this course is to introduce basic writing and grammar skills. Students will produce simple sentences on topics related to their personal needs. Timed and multi-draft writings will include simple sentences, correct use of capital and lower case letters, legible handwritten letters, and appropriate vocabulary. Basic grammatical structures will be introduced. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0120 Level 1: Reading and Vocabulary Cr. 2,4

The focus of this course is to increase students' ability to read and comprehend simple material and to increase their ability to recognize familiar words in everyday contexts. Students will use a picture dictionary and develop vocabulary associated with simple topics. Students will read short texts from basic readers and ELI library books. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0200 Level 2: Oral Integrated Cr. 2,4

The focus of this course is to develop students' abilities to carry on short, sustained conversation. They will apply listening strategies to discuss simple passages. They will interact with classmates. Students will use high-frequency vocabulary to produce simple and compound sentences with correct verb tenses. Students will use connected and reduced speech. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0210 Level 2: Written Integrated Cr. 2,4

The focus of this course is to introduce paragraph writing and to develop basic grammatical understanding. Students will produce paragraphs in a variety of rhetorical modes. Timed and multi-draft paragraphs will include a topic sentence, simple transitions, three main points with some supporting details, and a concluding sentence. Basic grammatical structures will be introduced. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0215 Level 2: Intensive Reading and Vocabulary Cr. 1,2

The focus of this course is to increase students' comprehension of printed material and acquire high-frequency vocabulary. Students will read simplified texts and apply reading skills, such as identifying main ideas and details, inferencing, and understanding sequence. Students will acquire vocabulary by using definitions from the text, interpreting from the context, and using dictionary skills. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0220 Level 2: Communicative Grammar Cr. 1,2

The focus of this course is to build students' communicative competence, or their ability to communicate effectively and appropriately. To that end, basic grammar points will be studied and practiced in ways that simulate everyday conversations and scenarios. Students will engage in a variety of communicative activities that focus on speaking and writing. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0300 Level 3: Oral Integrated Cr. 2,4

The focus of this course is to develop students' emerging academic listening and speaking skills. Students will apply listening and speaking strategies. They will also give short presentations. Emphasis will be on generating compound and complex sentences using simple academic vocabulary. Students will pronounce English sounds accurately and follow intonation and stress patterns appropriately. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0310 Level 3: Written Integrated Cr. 2,4

The focus of this course is to produce well-developed paragraphs in a variety of rhetorical modes on academic topics. This course will culminate in an introduction to essay writing. Intermediate grammatical structures, such as complex sentences, adjective clauses, and the present perfect, will be introduced. Error-correction tasks, peer evaluations, and self-evaluations will develop self-editing skills. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0315 Level 3: Intensive Reading and Vocabulary Cr. 1,2

The focus of this course is to increase students' vocabulary and comprehension of longer and varied reading passages. Students will also be able to understand the structure of a text with transition words and the relationship between the main point(s) and supporting examples. Strategies to discern meaning of words from context will also be practiced. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0320 Level 3: Extensive Reading Cr. 1,2

The focus of this course is to increase students' reading fluency by reading large quantities of texts. Class Readers will give the teacher the opportunity to help the students acquire the art of extensive reading, to improve their skills, and to monitor their progress closely. Students will choose their own texts for independent reading. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0400 Level 4: Oral Integrated Cr. 2,4

The focus of this course is to develop students' academic listening and speaking skills needed for successful extended academic discourse. Students will demonstrate detailed understanding of academic listening passages. Students will use speaking strategies for academic discussions and to summarize information. They will give speeches using visuals, transitions, and grammatically-correct sentences with academic vocabulary. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0410 Level 4: Written Integrated Cr. 2,4

The focus of this course is to develop students' essay writing skills and improve accuracy in grammar, mechanics, and spelling. Essays will be produced in a variety of rhetorical modes on academic topics that include some authentic sources. Students will also be introduced to summarizing and citing authentic sources. Complex grammatical structures will be introduced. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0415 Level 4: Intensive Reading and Vocabulary Cr. 1,2

The focus of this course is to increase students' academic vocabulary and comprehension of academic reading passages. Students will identify the structure, purpose, and connection between ideas in texts. Students will use strategies to discern meaning of words from context. They will acquire knowledge of word forms and will use dictionary skills to build vocabulary. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0420 Level 4: Extensive Reading Cr. 1,2

The focus of this course is to increase students' reading fluency by reading large quantities of texts. Class Readers will give the teacher the opportunity to help the students acquire the art of extensive reading, to improve their skills, and to monitor their progress closely. Students will choose their own texts for independent reading. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0500 Level 5: Oral Integrated Cr. 2,4

The focus of this course is to develop students' academic listening and speaking skills needed for successful extended academic discourse. Students will use listening strategies to show detailed understanding of lengthy academic listening passages. They will apply speaking strategies to share information and communicate with automaticity. Concentration will be on consistently speaking intelligibly and fluently. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0510 Level 5: Written Integrated Cr. 2,4

Students will develop critical thinking skills through reading, writing, and classroom discussion. Students will write well-developed five- to eight-paragraph essays and relate assigned readings to their own experience. Students will learn how to incorporate outside sources into their essays and use appropriate citations. Advanced grammatical structures will be reviewed and expanded as necessary Offered Every Term.

Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

Repeatable for 4 Credits

ELI 0515 Level 5: Research Skills Cr. 1,2

The focus of this course is to introduce skills essential to conduct academic research at the university level. Students will learn how to search for and evaluate academic sources in the library and online databases as well as how to read, analyze, and use the information gathered. The course also focuses on paraphrasing and summarizing. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0520 English for Teaching Assistants Cr. 1

American English language skills to improve teaching effectiveness of non-native speakers of English. Pronunciation, stress, intonation, speaking rate; oral presentation practice; cultural factors in U.S. university classroom. Not offered for degree credit. Offered Every Term.

Repeatable for 4 Credits

ELI 0530 TOEFL/Timed Essay Writing Preparation Cr. 1-2

Class designed to enhance student's ability to understand and perform on the Test of English as a Foreign Language (TOEFL) for the paper-based and iBT(Internet)-based formats. Offered Yearly.

Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0540 Level 5: Media & Culture Cr. 1,2

The focus of this course is to gain a greater understanding of American culture and current events via extensive reading from print and digital media, leading to written assignments, oral presentations, and discussions. In addition, TV and radio programs, as well as podcasts and documentaries, will provide input for written and oral assignments. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 6 Credits

ELI 0699 Directed Study Cr. 1-4

Meets the needs of English as a Second Language (ESL) students in their last stages of preparation for matriculation. Based on students' particular needs, instruction will be provided to strengthen various academic preparation skills, including listening and note-taking practice in an academic context, extensive and intensive reading, and expository and research paper writing. Offered Every Term.

Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

Repeatable for 8 Credits

ELI 0700 Written Communication Cr. 1,2

Through reading and writing of complex texts, students improve their understanding and use of American English grammar and mechanics (punctuation and capitalization) for academic and professional settings. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0705 American Pronunciation and Clear Communication Cr. 1,2

Course addresses the communication needs of advanced-level, non-native English speakers who want to reduce the amount of pronunciation errors produced in their speech. Offered Winter.

Restriction(s): Enrollment is limited to English Language Institute level students.

Repeatable for 2 Credits

ELI 0800 Writing Skills I Cr. 2

This course integrates reading, writing, and grammar and focuses on comprehending main ideas and details, inferencing in simplified reading texts, and understanding This course integrates reading, writing, and grammar and focuses on comprehending main ideas and details, inferencing in simplified texts, and understanding vocabulary in context. Students will learn to organize and write paragraphs with simple grammatically correct sentences. Offered Spring/Summer.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0810 Oral Skills I Cr. 2

This course integrates listening and speaking in English and introduces culturally appropriate interaction in speech. Students listen to dialogues, newscasts, and short lectures; give presentations on a variety of topics; and receive individualized feedback on pronunciation. Offered Spring/Summer.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0820 Writing Skills II Cr. 2

This course integrates reading, writing, and grammar and will emphasize how reading and writing are related. Rhetorical modes of essay writing will be introduced, authentic texts will be read, and more advanced grammar points will be covered. Offered Spring/Summer.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0830 Oral Skills II Cr. 2

This course integrates listening and speaking in English and focuses on refining students' abilities to understand academic and informal spoken language by listening to academically-themed lectures and extended dialogues. They will develop critical thinking skills for responding to questions and giving presentations. Offered Spring/Summer.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0840 Writing Skills III Cr. 4

Course integrates reading, writing, and grammar; focuses on reading authentic materials and writing essays. Students work to improve their understanding and use of American English, grammar, and mechanisms for academic settings. Offered Spring/Summer.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0850 Oral Skills III Cr. 4

Course integrates listening and speaking in English and will help students increase their aural/oral fluency through participation in academic/content-based discussions and various other forms of speech in formal, informal, and academic settings. Offered Spring/Summer.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0860 Communication and Culture Cr. 4

This course will involve writing and oral presentations based on academic readings and cultural experiences. Additional instruction in grammar and sentence structure will be provided based on students' needs. Offered Spring/Summer.

Restriction(s): Enrollment is limited to English Language Institute level students.

Educational Outreach

5057 Woodward Avenue, Suite 3101, Detroit MI 48202; Telephone: (313) 577-4682

Email: educationaloutreach@wayne.edu

<http://www.educationaloutreach.wayne.edu> (<http://www.educationaloutreach.wayne.edu/>)

Associate Vice President for Educational Outreach and International

Programs: Ahmad Ezzeddine

Sr. Director, Business Affairs: Arthurine Turner

Director of Operations: Rebecca Journigan

Manager, Administrative Services: Heather Howell

Program Coordinators: Gail Stanford, Nevein Michail, Jessica Bielawski

Director, Educational Outreach and Transfer Initiatives: Michael Quattro

Associate Director, Educational Outreach: Stacy Jackson

Program Manager, Schoolcraft Center: Gail Stanford

Associate Director, Executive and Professional Development: Michael Kelly

Instructional Services Supervisor: Margaret Matyniak

Project Coordinator, Marketing: Carol Baldwin

Educational Outreach is principally responsible for Wayne State University's off-campus offerings including online programs and courses. This division administers academic off-campus course offerings and programs for most Schools and Colleges of the University; the University Summer Session; and the partnership degree programs at University centers located on community college campuses. Educational Outreach

staff coordinate relationships with community colleges partners and oversee transfer student recruitment and retention via the Transfer Student Success Center. Additionally, the division oversees credit and non-credit executive education, certificate, professional development and continuing education programs for the University.

The Division operates several instructional centers in the Detroit metropolitan area as well as in other selected locations in Michigan, and delivers distance learning and online instructional programs. Through these outreach efforts, WSU is able to serve and meet the educational needs of a diverse student audience: working adults who are unable to pursue traditional on-campus programs of study; persons who desire courses of instruction at or near their place of employment; and others who are simply taking courses to enrich their educational background or improve their technical skills.

Dual Enrollment Cohort Programs

Educational Outreach coordinates dual enrollment cohort programs for eligible high school students in interested school districts. Dual enrollment cohort programs may be offered on site within the school district or at any of the Wayne State University campuses. For information regarding Dual Enrollment Cohort Programs, telephone: 313-577-1430.

Visitor Program (Non-Credit)

Educational Outreach also administers the University's Visitor Program. Under this program, adults can attend a wide range of selected University courses, both on and off campus, provided classroom space is available. No grade or academic credit may be earned, and students may not be registered for courses taken for credit simultaneously with courses taken under the Visitor Program.

The Visitor Program allows any adult who is not currently enrolled in credit courses at Wayne State University to attend a wide range of University courses in a noncredit status. Visitor status students do not receive academic credit and do not receive acknowledgement on transcripts. Provided space is available and permission has been granted, adults may enroll as visitors in most of the courses listed in the Schedule of Classes.

It is not necessary to be formally admitted to the University to take advantage of the Visitor Program. Visitor status students do not submit written work or take examinations. Registration for both on-campus and off-campus classes takes place the first two weeks of classes and is processed by the Division of Educational Outreach, located on the main campus.

Students enrolled in the Visitor Program are assessed one-half of the undergraduate resident lower division credit hour rate for each credit hour plus a non-refundable Registration Fee equal to one-half of the regular Registration fee and the full per credit hour undergraduate Student Service Credit Hour Fee. Payment of tuition and fees are due at the time of registration. Tuition must be paid in full at the time of registration. Payment is accepted by money order, check, Discover, Master or Visa Card. Money orders or checks must be drawn from a United States bank and cannot be starter checks. Students may register in person or by calling: 313-577-4682.

Travel Study

Sponsoring schools and colleges in the University offer travel study programs through the Division of Educational Outreach. Most programs occur in the spring/summer sessions; times and locales vary each year. Travel study refers to programs in the United States. Please refer

to the Office of International Programs (p. 79) for study abroad programs. Recent travel study programs include:

College of Liberal Arts and Sciences: Biological Sciences: marine lab at the Florida Keys; field studies at Fish Lake, Michigan

College of Education: Science Education: ecology courses at Higgins Lake, Michigan

College of Fine, Performing and Communication Arts: Fashion Merchandising: design in New York City

Extension Centers

Director, Educational Outreach and Transfer Initiatives: Michael Quattro

Associate Director, Educational Outreach: Stacy Jackson

Program Manager, Schoolcraft Center: Gail Stanford

The Division of Educational Outreach operates several instructional centers in the Detroit metropolitan area as well as in other selected locations in Michigan. Through these outreach locations, the University is able to serve and meet the educational needs of a diverse student audience. The locations of the centers are listed below.

OAKLAND COMMUNITY COLLEGE, ORCHARD RIDGE CAMPUS

Building D, 27055 Orchard Lake Road

Farmington Hills, MI 48334

Telephone: 248-522-3905

SCHOOLCRAFT COLLEGE

39201 W. Seven Mile Road

Jeffress Center, Suite 320

Livonia, MI 48152

Telephone: 734-853-3450

Fax: 734-853-3446

Email: schoolcraft@wayne.edu

MACOMB EDUCATION CENTER

16480 Hall Road

Clinton Township, MI 48038

Telephone: 586-226-4291; 313-577-9632

Fax: 586-226-8570

Warren, MI 48088

Telephone: 586-447-3905; Fax: 586-447-3907

Email: atec@wayne.edu

Registration for Off-Campus Courses

Registration for off-campus academic courses is held during the regular registration periods for each semester. For specific registration information, telephone: 313-577-3541 or 313-577-4682.

Fees for credit classes are the regularly established fees of Wayne State University, which are published each semester in the University Schedule of Classes (<http://classschedule.wayne.edu/>). All fees are subject to change at any time without notice by action of the Board of Governors of the University.

Non-Matriculant Advising

Persons who wish to enroll in credit courses offered through this division and who have NOT been formally admitted to the University are registered as non-matriculated students in the College of Liberal Arts and Sciences. Students are advised to consult the non-matriculant advisor as well as the specific degree program requirements cited in this bulletin, and are urged to process formal application and admission documents as soon as possible. Upon admission to a Wayne State school or college, credits earned in non-matriculant status may be applied toward degrees subject to the approval of the admitting school or college.

Admission Requirements

Most credit courses offered through Educational Outreach are open to all students who are qualified by virtue of meeting the prerequisites for individual courses or, in cases where there are no prerequisites, on the basis of their own assessment of their aptitudes. Those individuals who have been formally admitted to Wayne State University for a degree or certificate program, or post-baccalaureate study, and who are in good academic standing, will have course credits and grades earned through extension recorded on their transcripts in the same manner as credits earned on campus. Guest students should consult with their home institution when formulating their registration plans and submit an application for guest admission (<http://admissions.wayne.edu/guest/requirements.php>).

Programs Offered Through Educational Outreach

Educational Outreach offers entire curricula or selected courses applicable to many Wayne State University degrees and certificates at convenient times and places. The following complete degree programs are offered at various extension centers. Students should visit the Educational Outreach (<https://wayne.edu/educationaloutreach/programs/>) website for more details.

Undergraduate Degree and Certificate Programs

Bachelor of Arts with a major in Anthropology

Bachelor of Arts in Business Administration with a major in Global Supply Chain Management

Bachelor of Arts in Business Administration with a concentration in Accounting or Management

Bachelor of Arts in Information Systems Technology

Bachelor of Arts with a major in Communication Sciences and Disorders

Post-bachelor's program in Communication Sciences and Disorders

Bachelor of Arts with a major in History with optional minor in Political Science or Criminal Justice

Bachelor of Arts with a major in Public Relations

Bachelor of Arts/Science in Elementary Education with a major in Special Education with a concentration in Cognitive Impairment

Bachelor of Science with a major in Computer Science

Bachelor of Science in Construction Management

Bachelor of Science in Criminal Justice

Bachelor of Science with a major in Elementary Education (Integrated Science or Mathematics)

Bachelor of Science in: (Engineering Technology degrees)

Electrical/Electronic Engineering Technology

Electromechanical Engineering Technology

Manufacturing/Industrial Engineering Technology

Mechanical Engineering Technology

Product Design Engineering Technology

Bachelor of Science in Mechanical Engineering

Bachelor of Social Work

Bachelor of Science in Nutrition and Food Science

Bachelor of Science in Nursing

Graduate Degree and Certificate Programs

Master of Business Administration

Education Specialist Certificate in Special Education with a concentration in Learning Disabilities or Autism Spectrum Disorder

Endorsement in Bilingual/Bicultural Education with a concentration in English as a Second Language

Master of Arts in Employment and Labor Relations

Master of Education with a major in Special Education and concentrations in:

- Cognitive Impairment
- Learning Disabilities
- Autism Spectrum Disorders

Master of Social Work

Transfer Student Success Center

Director, Educational Outreach and Transfer Initiatives: Michael Quattro

Manager: Ranae Hamama

Telephone: 313-577-2487

Email: transfer@wayne.edu

The Transfer Student Success Center (TSSC) is a hub for transfer students to obtain the help they need to successfully complete their degree at Wayne State University. The TSSC is designed to help those transferring from a community college or other four-year institution navigate the administrative and academic units of the university and ensure a timely and successful completion of their degree.

The TSSC provides direct service to students, community college staff, and WSU departments.

Direct service to students includes support with:

- Transfer credit evaluation
- Academic advising
- Student organizations
- Engaging students with the larger Wayne State community
- Providing opportunities for prospective students to visit campus

Direct service to community college staff includes:

- Information about Transfer Plans and transferring of credit
- Development of articulation agreements
- Hosting/coordinating staff and faculty visits to WSU
- Providing counselors/advisors and other staff with current/updated WSU information

Direct service to WSU departments includes:

- Facilitating and coordinating the development of articulation agreements
- Acting as a resource and clearinghouse for information on transfer students
- Participating in and leading development of events and activities for transfer students

Executive and Professional Development Programs (Non-Credit)

Associate Director: Michael Kelly

Project Manager: Abby Cheatham

Telephone: 313-577-4665

<http://www.ExecEd.wayne.edu> (<http://www.ExecEd.wayne.edu/>)

Executive and Professional Development (EPD) provides proven practical solutions to business challenges through executive education, business training and consulting. Offering a unique blend of expertise and flexible design, EPD moves beyond off-the-shelf, pre-packaged education, training and consulting 'services' by applying problem-solving strategies to assess and meet the needs of its clients. EPD is committed to providing customized, fully integrated, in-depth programs to address specific organizational needs and improve individual and organizational capabilities and performance. The EPD portfolio includes:

Business Training and Executive Education

EPD offers programs that respond to problems currently facing business, government and industry. Programs are offered in a variety of formats and deliver the strategies, tools, and knowledge needed to succeed in today's changing business environment. EPD mobilizes the resources of WSU to serve the specific and unique needs of the community by offering customized degree and non-degree programs, be they an onsite MBA program offered for a specific company, an Engineering Management Master program offered for a group of engineering executives, or a master of social work offered at one of the university's extension sites.

EPD provides a blended training approach by using a variety of alternative delivery methods including on-site facilitated sessions, video-conferencing, online training and computer-based programs.

Certificate Programs

EPD responds to industry's demand for a more comprehensive approach to continuing education by offering certificate programs that encompass several current management and business issues. These multiple-session programs offer participants the opportunity for higher mastery and competency in a particular subject area and can be customized to meet each organization's specific needs.

On-Site Consulting Services

In conjunction with training, EPD's expert staff provides consulting services in a variety of areas including training and design development, leadership and organizational development, succession planning, business process improvement, strategic planning, and executive coaching.

Procurement Technical Assistance Center

The Procurement Technical Assistance Center (PTAC) works with qualified businesses in the Detroit area to prepare them to bid for government contracts. PTAC's goal is to provide small business owners with a competitive edge in selling to the public sector by educating them about opportunities, and offering marketing and technical assistance. Recently, PTAC services resulted in awarded contracts totaling more than \$5 million.

For further information on any Executive and Professional Development services or activities, call: 313-577-4665.

Campus Life

Dean of Students Office

301 Student Center; 313-577-1010

The Dean of Students Office provides services and affords opportunities to enhance student life and campus activities. The Office coordinates major campus student activities and events, including Orientation Part 2 (O2), New Student Convocation and Festifall, Student Organizations Day, Homecoming, and the Finals Week Late Night Breakfast.

The office coordinates the campus calendar of student activities, community service programs; advises fraternities and sororities; and

promotes student involvement in co-curricular life at Wayne State and Detroit, including the Campus Activities Team program board. The office also coordinates the Warrior Pride program focused on school spirit, and the Warrior Zone athletic events student section. The University Student Conduct Officer is housed in the Dean of Students Office and the office also coordinates the Student Care Report process

The Dean of Students serves as the Deputy Coordinator for Title IX and the Student Life Wellness Coordinator resides in the Dean of Students Office and focuses on sexual violence prevention education, substance abuse prevention education, and digital citizenship education.

Student Organizations

There are over 400 recognized student organizations including such diverse categories as academic/professional, social action, political, sororities/fraternities, honoraries, ethnic and religious groups, as well as student governments. Student organizations use the Dean of Students Office to process their event planning and all students use the Dean of Students Office to learn about getting involved in campus life. The Office staff also assists students who want to organize new student groups. The staff also coordinates various campus publications including the on-line newsletter Get Involved at Wayne. Student organizations can apply to the Student Activities Funding Board for funds to present events, programs, and activities on-campus.

The official student newspaper is the South End (<http://www.thesouthend.wayne.edu>).

Parent and Family Services

The Dean of Students Office coordinates Wayne State's Parent and Family Services. Through this office, parents and family members receive the twice monthly parent and family newsletter and have services available to them to help them help their students be successful, including the parents helpline: 1-877-WSU-PARENT. The office may be e-mailed at: parents@wayne.edu.

Student Senate

395 Student Center
<http://www.studentsenate.wayne.edu> (<http://www.studentcouncil.wayne.edu/>)

The Student Senate is the recognized student government of Wayne State University. It consists of twenty-eight members, fourteen members at large elected in a University-wide election, and fourteen appointed members, one student representative appointed by the Office of Housing and Residential Life, and one representative appointed by the Associate Vice President for Educational Outreach to represent the extension centers. The Student Senate has an official advisory responsibility in policy formation for the governing of student activities at Wayne State. The Student Senate is advised by the Dean of Students Office

Office of Housing and Residential Life

582 Student Center; 313-577-2116
<http://www.housing.wayne.edu>

Housing and Residential Life at Wayne State fosters student learning and success through engaging residents in an intentional living-learning community. Supported by safe, comfortable and convenient residence hall, apartment and dining environments, residents grow in self-awareness and cross-cultural understanding as they practice social and group development as members of a diverse group of Wayne State learners.

Facilities and programs administered by this Office are located just steps away from classrooms, libraries, the Student Center, and the Recreation and Fitness Center and combine the convenience and activity of the campus with the energy and pace of downtown urban living.

Parking: Faculty, Staff, and Visitor

42 W. Warren, Suite 257, Welcome Center (8:30 a.m. - 5:00 p.m., Mon. - Fri.); 313-577-2273
<http://www.parking.wayne.edu>

The University maintains numerous parking facilities available to faculty, staff and visitors on a fee basis. The easiest way to approach parking, for faculty, staff and students, is to purchase a semester-long assigned parking pass. This allows unlimited entry and access to a designated structure or lot, which you'll choose based on availability and where you spend most of your time on-campus.

All new parking pass customers will pay a one-time fee for an RFID tag (\$25 at the time of issuance), which hangs from their rear-view mirror to allow for quick, hands-free entry and exit. The hang-tag is linked to a student, faculty or staff person's OneCard and all current/future parking assignments. If the hang-tag is lost, parking patrons can simply swipe their OneCard to enter their assigned structure or lot. Lost hang-tags should be immediately reported to the parking office to be deactivated. A replacement tag must be purchased at \$25.00 and is required to avoid ticketing or towing.

General parking is also available for visitors and those without a parking assignment. This allows patrons to pay as they go, with access to any of the general parking areas. Students, faculty and staff can deposit funds onto their OneCard for easy in-and-out access. Students only can take advantage of the discounted student OneCard parking rate (\$3.75 at time of publication and \$4.75 for premium parking areas). The general public may park in designated WSU lots and structures at the public rate, typically between \$7.50 and \$10.00, using a credit/debit card for entrance and exit and cash at limited locations.

Campus Health Center

Helen DeRoy Apartment Building, Suite 115
5200 Anthony Wayne Drive; 313-577-5041

The Campus Health Center provides comprehensive health care services for students, including physical examinations, family planning, illness visits, and immunizations (including flu, meningitis, hepatitis B, etc.). Visits are by appointment, but walk-ins are accepted for students experiencing an illness. Counseling referral services are also available. All currently enrolled students receive one free office visit per semester. Additional visits are billed to student's health insurance with most health care plans accepted. Students without insurance have reduced fees based on a sliding scale and ability to pay for additional office visits per semester. Payment is accepted at the time of service by cash, OneCard, Visa, MasterCard, Discover, or American Express credit cards. To make an appointment, call 313-577-5041.

Police and Public Safety Services

6050 Cass; 313-577-2222
<http://www.police.wayne.edu>

The Wayne State University Police Department patrols and services the University including the city streets, businesses, and private residences within and between the various campus areas. The Department, to the extent that resources allow, also patrols and provides other police services to the neighborhoods and businesses in the area surrounding the University.

Police service is provided twenty-four hours a day, seven days a week. All officers have, at minimum, a bachelor's degree. They are commissioned as Detroit Police Officers, with full police authority on and off campus, after training at a State-certified Police Academy. Any matter requiring the services of a police officer can be reported at any hour of the day or night.

Blue Light System – Emergency Telephones (7-2222): The University has installed outdoor emergency telephones throughout the campus. These emergency telephones are identified by bright blue lights.

Emergencies (313-577-2222): All emergencies should be reported immediately, i.e.: all crimes, missing/stolen property, automobile accidents, suspicious persons, injured persons, vandalism, break-ins or burglaries.

Accidents (313-577-2222): Ambulatory patients will be transported, by officers, to either Detroit Receiving Hospital or the University Health Center. The Police Department does not provide ambulance service but utilizes the Detroit Fire Department Emergency Medical Service to handle other than minor injuries.

Fire or Other Extreme Hazards (313-577-2222): Emergencies such as fire, smoke, explosions, broken gas or water mains, severe electrical hazards, etc., should be reported.

Crime Prevention Section (313-577-6064): The Police Department's Crime Prevention Section provides a number of crime prevention services, including personal safety seminars, crime prevention programs, and services. All programs and services are free of charge (except the Rape Aggression Defense Training for which there is a fee of \$25.00) to any Wayne State department, student, staff, or faculty member. Examples of services provided include:

- Security Services
- Street Smarts seminars
- Operation Identification
- Alcohol Awareness
- Rape Aggression Defense Training

The Crime Prevention Section also publishes monthly 'CampusWatch' articles. Email inquiries may be made to: campuswatch@wayne.edu.

Athletics, Intramurals and Recreation

Matthaei Facility: 126 Matthaei Building; 313-577-4295

Intramural Sports: Mort Harris Recreation and Fitness Center; 313-577-6712

Intercollegiate Athletics: 101 Matthaei Building; 313-577-4280
<http://wsuathletics.com>. (<http://wsuathletics.com/>)

Wayne State University has a rich athletic tradition dating back to the fall of 1917 and recently celebrated 100 years of singular outreach and academic success. The first Detroit Junior College athletic event (precursor of Wayne State University) was a basketball game against the Detroit College of Law on January 19, 1918. Since then WSU student-athletes have captured numerous honors, including national championships awarded by the NCAA and conference championships. In the past ten years, 264 WSU student-athletes have been recognized as All-American. In the 102 year history, 676 students have been so recognized. Over seventy-two percent (72.26%) of the nearly 400-plus student-athletes currently involved in competitive athletics have a 3.00 or better cumulative grade point average with every team having a GPA of at least 3.0 or better. According to the latest federally mandated report, WSU student-athletes Academic Success Rate is seventy-six percent (76%). The athletic department provides competitive opportunities in the following sports: baseball, men's and women's basketball, men's and women's cross country, men's and women's fencing, football, men's

and women's golf, softball, men's and women's swimming/diving, men's and women's tennis, volleyball, and women's indoor/outdoor track. Last season, ten out of eighteen programs competed in NCAA championships. In 2012, women's swimming and diving won the NCAA National Championship joining ten other programs to be so honored. The past eighteen years WSU Athletics has had its eighteen highest ratings in the annual NACDA Cup and in thirteen of the past sixteen years finished in the top 12% of the 319 institutions in Division II. The NACDA ranks the top overall competitive intercollegiate athletic programs in the country.

The University competes at the NCAA Division II level, while the men's and women's fencing programs participate in the NCAA Collegiate National Championship. WSU student-athletes have served over 81,000 community service hours over the last eight years.

Many new facilities adorn the WSU athletic campus, including the Harwell Museum which contains numerous exhibits which pay tribute to Ernie's marriage to Lulu, audio and video of Harwell's signature calls and moments and the controversial Jose Feliciano national anthem during the 1968 World Series. There are interactive areas where you can listen to other announcer's great calls, watch Ernie's farewell speech and read letters written to Ernie. In addition, Harwell Field has a replica Fenway Park outfield fence, Major League size dugouts and through an arrangement with the Detroit Historical Society, the left field scoreboard from the former Tiger Stadium is attached to the base of the left field wall.

The Doris J. & Donald L. Duchene, Sr. Athletic Facility was the first new athletic building in over fifty (50) years on the athletic campus. Completed in the Fall of 2011, the building has 35,000 square feet of space with a maximum ceiling height of thirty-five (35) feet. Enclosed are four tennis courts, a sprint track (60 yards), locker rooms for the men's and women's tennis, and baseball squads along with six offices for coaches and staff.

The nearly 12,000 square foot, state-of-the-art Athletic Performance Center was completed and opened in May of 2018 and gives student-athletes access to 24 work stations.

The softball facility was completed in three phases with the complex paid entirely by private revenue sources. Phase I was completed in 2005 and established the first grandstands and press box. Phase II added a locker room, offices, foyer, training room, restrooms and a new dugout. The final phase (completed in Spring 2013) added batting and pitching cages, and outdoor bullpens. On Nov. 12, 2016, the field was named Gary L. Bryce Field in honor of the long-time head coach with the installation of a new scoreboard. In the weeks preceding the naming of the field, the home run fences were pushed back to accommodate new NCAA guidelines.

The University offers a wide and varied program of recreational and intramural activities. The Matthaei Complex, and the surrounding athletic campus on forty-three acres of land, located on the west end of campus, offers a myriad of drop-in activity areas that include courts and fields for basketball, football, jogging, racquetball, soccer, squash, tennis, and volleyball, a weight training/exercise room, and swimming facilities. Use of these facilities is free with a current University ID or with a membership through the Mort Harris Recreation and Fitness Center. The recently built Doris J. & Donald L. Duchene, Sr. Athletic Facility features 35,000 square feet of usable space, four tennis courts and a sprint track. Open recreation hours and rental information for this facility are available at: <http://rfc.wayne.edu/multipurpose/>

Ticket and schedule Information is available at the Athletic Office (<http://WSUathletics.com>), 101 Matthaei Building, 313-577-4280. All men's basketball and football games are broadcast on the Warrior Radio Network at WDTK-AM 1400 and FM 101.5 and are also available for free

on the internet. Students are admitted free to all University-controlled WSU athletic events with a One Card.

Sports Facilities

Matthaei Building

Matthaei is normally open from 7:00 a.m. to 8:30 p.m., Monday through Friday; and is closed to recreation on Saturday and Sunday, during the fall and winter semesters. During the spring/summer semester the Building is open from 7:00 a.m. to 7:30 p.m., Monday through Friday. Outdoor tennis courts and track are available during posted hours. A facility schedule is published monthly. Operational hours are subject to change, and not all areas of the complex will be available at all times, due to scheduled classes, intramural activities and varsity athletics. Lap swim is available at the Matthaei for all affiliates and the lap hours are on the monthly recreation schedule, available online or hard copy at Matthaei. Locker and towel services are available for all affiliates daily with current OneCard at no charge. Locker rental plans both semester and yearly are also available. For charges and additional facility information, visit the Matthaei Shop in the Matthaei Building; or call 313-577-4295.

Mort Harris Recreation and Fitness Center

The Mort Harris Recreation and Fitness Center is open from 5:30 a.m. to 11:00 p.m., Monday through Friday; and 10:00 a.m. to 7:00 p.m. on Saturday and Sunday, during the fall, winter and spring/summer semesters. Operational hours are subject to change, and not all areas of the complex will be available for open recreation at all times, due to scheduled group fitness classes, intramural activities, club sport activities, and varsity athletics. Locker and towel services are available for all students and members with a current OneCard. Locker rentals are available for semester and yearly rentals. For charges and additional facility information, please visit the Mort Harris Recreation and Fitness Center (<http://rfc.wayne.edu>) website or call 313-577-2348.

Group Fitness Classes (non-credit)

These classes include a variety of programming, conducted by trained, certified and experienced instructors. Class options include yoga, cycling, Zumba, and a variety of strength and conditioning classes.

Open Recreation: The fitness areas, multi-purpose courts, walking track and climbing wall offer opportunities for unstructured play and participation. Basketball, volleyball, and a variety of equipment and areas for working out, stretching, and socializing are also available.

Intramural Sports Programs: Men's, Women's, Co-ed, and Open intramural sports leagues are available for all currently enrolled WSU students as well as WSU faculty/staff members of the facility. Leagues and tournaments are available in a variety of sports, including basketball, volleyball, dodgeball, flag football, soccer, Esports and more.

Club Sports: The Mort Harris RFC is also the home for all Club Sports. Students interested in starting a particular club sport, are invited to consult our website to view the registration process and to become familiar with g.p.a., credit load, and insurance guidelines. All WSU Club Sports are fully funded by the participating students themselves. Current clubs include men's and women's soccer, men's lacrosse, men's and women's volleyball, track, equestrian, rowing and baseball.

Fitness and Wellness Programs: Fitness assessments, personal training, and group fitness programs for every level of fitness are available to all students and members. All students and members have a free consultation included with their membership every year.

Climbing Wall: The facility offers ten top rope anchors with dozens of routes which change weekly. All necessary equipment may be rented; day and yearly passes are available.

Adventure Trips: The Mort Harris Recreation and Fitness Center offers a variety of outdoor excursions for novices to seasoned adventures. Trips include but are not limited to whitewater rafting, kayaking, skydiving, skiing and snowboarding, fishing, camping, and mountain biking.

Team Building: The high ropes course is designed to foster interpersonal and intra-personal growth in a fun and challenging environment. Your Student Organization, Department, Corporation or group will climb up thirty feet and traverse through fifteen different elements that focus on teamwork and interdependency. Groups will learn to communicate effectively, listen to each member, recognize individual strengths and utilize collaborative efforts.

Student Center Administration

Student Center Administration (313-577-4585) is located in the lower level of the Student Center. This office schedules rooms and audio-visual equipment available for meetings, seminars, conferences and special programs. Bake sale, literature and vendor tables as well as Community Arts and St. Andrews reservations are also provided.

Student Center Administration provides the following services for a fee: duplicating service, SMART and DDOT bus passes, fax service, and State Hall locker rentals. In addition, Student Center Graphics, University Lost and Found, and the campus bulletin board posting service are located here.

Student Center Graphics (313-577-3730): Student Center Graphics is a student operated design and print shop. They provide design services and large format printing for the campus community and outside clients. SCG also provides items such as banners, posters, logo designs and consultations for a fee.

Religious Organizations

Various religious denominations have offices on the sixth and seventh floors of the Student Center. Programs and personal and spiritual counseling are available from various denominations. A reflection room is available on the 3rd floor of the Student Center.

University Libraries and Archives

Office: 3100 David Adamany Undergraduate Library
Tel.: 313-577-4023; Fax: 313-577-5525
Dean of University Libraries: Jon E. Cawthorne
library.wayne.edu (<https://library.wayne.edu/>)

The University Libraries support the education, research and service missions of the University and its communities through comprehensive, high-quality resources, services and programs. The libraries are leaders in providing accurate and timely information to Wayne State University as well as the metropolitan Detroit area and Michigan. Scholarly materials in the University Libraries offer total more than three million volumes, over 56,000 journal titles and a broad range of electronic resources, including electronic journals and over 800,000 e-books, all available through the Libraries' website.

The Library System includes the David Adamany Undergraduate Library, the Arthur Neef Law Library, the Purdy/Kresge Library, the Vera P. Shiffman Medical Library and its Learning Resource Center at the Eugene Applebaum College of Pharmacy and Health Sciences, and the Walter P. Reuther Library of Labor and Urban Affairs and University Archives. The School of Information Sciences and the Detroit Area Library Network (DALNET) are also under the Library System's charge.

The University Libraries offer in-person and online reference and research support, interlibrary loan, circulation and course reserve services, document delivery and library and information literacy programs.

The latest information technologies provide state-of-the-art access to instructional and research materials. The libraries provide silent and collaborative study spaces, including a 24-hour facility, as well as classroom support to over 300 general purpose classrooms throughout campus.

David Adamany Undergraduate Library (<https://library.wayne.edu/>)

The David Adamany Undergraduate Library (UGL) is designed to enhance the learning experience of undergraduate students by offering open spaces for collaboration and silent study as well as hundreds of computers for student use. The library features instructional labs, the Collaborative Commons, an open space with flexible furniture and technology, collaborative study rooms that can be reserved online, and course reserves. The Warrior Writing, Research and Technology Zone (The WRT Zone) is a one-stop shop for Wayne State students to get research, writing and technology assistance. The UGL also houses Student Academic Success Services, which includes the Academic Success Center, Student Disability Services, the Office of Military and Veterans Excellence, Pre-Med Advising and the University Advising Center, P.A.L. Peer Assisted Learning and the Irvin D. Reid Honors College. The UGL is also home to The Tech Bunker and Vault, two new technologically-rich immersive learning spaces at the that invite users to develop, design, dream and discover.

Purdy/Kresge Library (<https://library.wayne.edu/>)

The Purdy/Kresge Library supports the research and instructional needs of faculty, graduate students and upper-level undergraduates, as well as the information needs of the greater Detroit community. The library provides access to over sixty 60 computers as well as ample study space in a traditional library atmosphere.

The Purdy/Kresge Library houses a book collection of over 1.5 million volumes, an extensive microform collection, a large document collection and a number of special collections including the Leonard Simons Collection of rare Michigan history texts, the Arthur L. Johnson Endowment collection, and the Ramsey Collection of Children's Literature. This library is also the home of the Teaching Commons, a collaborative effort of the Libraries, the Office for Teaching and Learning, and Computing & Information Technology, that assists faculty and instructors in designing and developing instructional experiences for the classroom and online teaching environments.

Arthur Neef Law Library (<https://library.wayne.edu/neef/>)

Located at the north end of the University's main campus, Wayne State University's Arthur Neef Law Library offers researchers a comprehensive legal research center. Its collection of more than 620,000 print and microform equivalent volumes, plus an expansive collection of e-books, databases and other digital resources makes it a leading legal research facility in the State of Michigan. The Law Library is also a depository for U.S. government publications and for the records and briefs filed with the Michigan Supreme Court.

Shiffman Medical Library and Learning Resources Centers (<https://library.wayne.edu/shiffman/>)

The Shiffman Medical Library supports the research, education and clinical and public health care information needs for the University, major hospitals within the Detroit Medical Center, and unaffiliated

health care providers and trainees throughout Michigan. In addition to assisting WSU undergraduate students with research, learning and internship information needs in the health sciences, all WSU students are encouraged to use the library's consumer health information services. The library maintains access to all the major health sciences, bio-scientific and consumer health databases; a core collection of journals dating to the mid-19th century; and books in print and electronically reproduced. Health information learning programs and informatics workshops, listed on our Website, are open to all members of the University community. A Learning Resources Center focused on the daily information and computing needs of students of the Applebaum College is available Monday through Friday.

Walter P. Reuther Library of Labor and Urban Affairs and University Archives (<https://www.reuther.wayne.edu>)

The archival collections held in the Walter P. Reuther Library cover a variety of topics, organizations, and individuals. In all, the Reuther Library has more than 95 million documents, 20,000 books, monographs, union publications and proceedings, 2 million photographic images; and 20,000 audio and moving image recordings. Due to issues of format, size, and security, the collection stacks are not open to the public and researchers work with these materials in the Reuther reading room during established hours of business.

The Reuther Library has an international reputation as the largest labor archives in the world and additionally holds significant collections relating to social and urban affairs in the metro Detroit area. It collects and preserves records of the American labor movement, related social, economic, and political reform groups, and twentieth century urban America. The Reuther Library has since become the official depository for the inactive files of several labor unions and organizations, including the United Auto Workers, the American Federation of Teachers, the National Association of Letter Carriers, The Newspaper Guild, the United Farm Workers, the Service Employees International Union, the American Federation of State, County and Municipal Employees, the Air Line Pilots Association, the Association of Flight Attendants, the Industrial Workers of the World, the Society of Women Engineers, and many state and local organizations. Records have also been received from urban and civil rights groups as the Citizens Crusade Against Poverty, the Michigan Chapter of the American Civil Liberties Union, the Detroit Branch of the National Association for the Advancement of Colored People, the United Community Services of Detroit, United Way for Southeastern Michigan, and New Detroit, Inc. A unique portion of the holdings is a labor journal and newspaper collection, which has nearly 1,600 current and non-current titles dating from the late 1800s to the present. Many individuals who played leading roles in labor and urban affairs have also placed their papers in the Reuther Library.

The Reuther Library also houses the Wayne State University Archives which provides historical information about WSU and its predecessor institutions that date to 1868. In addition to collecting the University's historical records, the WSU Archives holds the papers of presidents and administrative leaders, the papers of selected faculty members, and the papers of student and professional organizations that document the development of the University and higher education in Michigan. The WSU Archives also collects all publications created by and pertaining to the University, including the student newspaper from 1917 to present, as well as departmental newsletters. Subjects in the collection range from student activities such as athletics and student organizations, to local subjects such as Central High School, the Detroit Medical Center, and the Detroit Board of Education.

University and College Centers (Undergraduate Programs)

The centers described below have programs pertaining to undergraduate study. A list of additional centers follows this list.

Michigan Developmental Disabilities Institute

Leonard Simons Building, Suite 268, 4809 Woodward Avenue
Telephone: 313-577-2654 or 1-888-978-4334; *Fax:* 313-577-3770
Director: Sharon Milberger, Sc.D; *Email:* smilberger@wayne.edu
Website: <http://www.middi.wayne.edu/> (<http://www.ddi.wayne.edu/>)

The Michigan Developmental Disabilities Institute (MI-DDI) is one of a national network of 67 University Centers of Excellence on Developmental Disabilities (UCEDD), nationally and in U.S. territories. The Institute's mission is to contribute to the development of inclusive communities and quality of life for people with disabilities and their families through a culturally-sensitive statewide program of interdisciplinary education, community support and services, and research and dissemination of information.

Staff and faculty engage in technical assistance, training, and research programs throughout Michigan via collaborative efforts with schools, community agencies, community colleges, and other universities. Over 10,000 individuals with disabilities benefit from these activities annually. The Graduate Certificate Program in Disabilities teaches evidence based practices to provide services that enhance the quality of life for people living with disabilities. MI-DDI also collaborates with the Wayne State University School of Medicine on the ARIE Co-Curricular clinical initiative, that assists first and second year medical students in obtaining volunteer hours while providing home visits to families that have children with disabilities. MI-DDI is the lead institution for the Michigan Leadership Education in Neurodevelopmental Disabilities program (MI-LEND) Interdisciplinary training program. MI-LEND is a consortium of six Michigan universities including Wayne State University, Michigan State University, Central Michigan University, the University of Michigan/Ann Arbor, the University of Michigan/Dearborn, and Western Michigan University. The goal of the MI-LEND program is to improve the health and well-being of children with neurodevelopmental disabilities. This goal is accomplished by preparing graduate and post-graduate level trainees from diverse professional disciplines to assume leadership roles in their respective fields, and by ensuring high levels of interdisciplinary clinical competence.

The Institute develops activities and projects based on the needs of persons with disabilities and the communities in which they live and work. A 25-member Community Advisory Council, composed of representatives from key statewide organizations, caregivers, family members and individuals with intellectual and developmental disabilities, meets quarterly to provide information and assistance to Institute staff and faculty in establishing priorities and evaluating activities.

Humanities Center

2226 Faculty/Administration Building
Telephone: 313-577-5471; *Fax:* 313-577-2843
Director: Walter F. Edwards, Ph.D.
Email: walter.edwards@wayne.edu
Website: <http://www.research2.wayne.edu/hum/>

The mission of the Humanities Center is to nurture interdisciplinary, transdisciplinary and intradisciplinary work in the humanities and the arts through competitions, conferences, discussion groups and other programs for Wayne State's humanities and arts faculty and students,

and for visiting scholars and artists. The Center promotes excellence in research and creative endeavors through rigorous peer review of proposals submitted to it for funding. By sponsoring programs that involve community participants, the Center supports the University's urban mission. Through its various programs, the Center brings humanists of diverse talents and interests together for conversation and collaboration, and fosters innovation and creativity across the humanistic disciplines.

The Humanities Center provides funding support to both faculty members and students. Two of the Center's most prominent faculty programs are the Marilyn Williamson Endowed Distinguished Faculty Fellowship (MWEDF) and an annual themed Faculty Fellowship Competition. The Center awards either one or two Williamson fellowships a year, each worth \$20,000, depending on the funds available in the budget. Other faculty award programs include an annual themed the Faculty Fellowship Competition with between eight and ten recipients awarded up to \$6,000 each. Prominent student programs are the Doctoral Dissertation Fellowship and the Graduate Travel program. The Doctoral Dissertation Fellow will receive \$15,000 plus health care coverage if it is requested. Up to three smaller awards of \$500 may be made at the discretion of the Center to applicants for the award. The Graduate Travel program encourages graduate students in the humanities and the arts to present their research or artistic work at national conferences and exhibitions by offering up to \$300 in travel assistance to applicants. Please check the Humanities Center website for additional programs that provide funding opportunities for faculty.

Labor Studies Center

3178 Faculty/Administration Building
Telephone: 313-577-2191; *Fax:* 313-577-7726
Director: Gayle Hamilton

The Labor Studies Center is a comprehensive labor education center committed to strengthening the capacity of organized labor to represent the needs and interests of workers, while at the same time strengthening the University's interdisciplinary research and teaching on labor and labor relations issues. The Center's primary areas of research and practice include: training and technical assistance to unions on labor relations and workplace issues; an undergraduate labor studies major and internship program; interventions to increase the organizational effectiveness of unions; the development and diffusion of constructive labor-management relations practices, particularly in the public sector; the formation and institutionalization of labor-community coalitions; and the impact of lean production systems on workers and labor relations practice in the North American auto industry.

Center for Latino/a and Latin American Studies

3324 Faculty/Administration Building
Telephone: 313-577-4378; *Fax:* 313-993-4073;
Director: Jorge L. Chinea, Ph.D.
Email: aa1941@wayne.edu
Website: <http://www.clas.wayne.edu/cclas/> (<http://clas.wayne.edu/cclas/>)

The Center for Latino/a and Latin American Studies is a multi-service unit engaged in teaching, research, and service. The Center plays an important role in the urban mission of Wayne State University and involves four components:

1. The Center hosts two learning communities: the CBS Scholars Program and the College-to-Career Program. The first one recruits students into the University, facilitates their transition between high school and college, and promotes increased retention. The second program supports students through completion of their degrees and

beyond, especially in the areas of career development and graduate school preparedness. It also offers courses and related educational activities for students interested in Latino and Latin American Studies.

2. It promotes research on issues relevant to the Latino/a community, especially in the urban and workplace environment; and Latin American cultural studies and current issues.
3. It creates and fosters the interaction and exchange of personnel and resources between the University and the Latino/a community; and it serves as a source of expertise on Latino issues to the larger metropolitan community.
4. As an advocate for the awareness and advancement of Latino/a issues within the University, the Center contributes to the University's continuing efforts to create a richer multicultural campus environment.

Center for Excellence and Equity in Mathematics

1309 Faculty/Administration Building
Telephone: 313-577-8839
Director: Steven Kahn, Ph.D.
Email: skahn@math.wayne.edu
Website: <http://clas.wayne.edu/ceem/>

The Center for Excellence and Equity in Mathematics, in the College of Liberal Arts and Sciences, is a research and educational center with a two-fold mission: to find ways to significantly improve the quality of K-12 and introductory college-level mathematics instruction across the United States; and, by using mathematics as a tool, to provide students from inner cities and underrepresented minority groups with the kinds of educational and lifetime opportunities that should be available to all students.

The Center currently operates five core programs: the WSU Math Corps, an outreach program serving Detroit middle and high school students; the WSU Middle and High School Math Network, which provides day to day instructional and/or operational resources to Detroit area middle and high school math departments; the Math Corps Learning Community at WSU, a University support and retention program for Math Corps "kids" now attending WSU; and the Emerging Scholars Program (ESP), a WSU honors-level calculus and pre-calculus program; and the Rising Scholars Program (RSP), serving WSU students at the developmental level.

All Center programs are based on a shared commitment to excellence and to fostering a sense of community.

Merrill Palmer Skillman Institute

71 East Ferry Ave.
Telephone: 313-664-2500; *Fax:* 313-664-2555
Director: Peter Lichtenberg, Ph.D.
Email: mpsi@wayne.edu
Website: <http://www.mpsi.wayne.edu/>

The Merrill-Palmer Skillman Institute is an interdisciplinary research institute focusing on urban children and families. It has a long and distinguished history as a research and educational institution, serving as a pioneer in the field of child development and early education. Since it became a part of Wayne State University in 1982, the Institute has encouraged collaborations among faculty from many departments within the University.

The Institute emphasizes research, research training and community engagement and service in the areas of children's health and development. Current research strengths range from prenatal exposures

and child development, infant mental health, cognitive development of high risk infants as well as adolescent health and development. The service programs of the Institute are an outgrowth of its research mission. MPSI operates one of the nation's oldest preschools. Community outreach and engagement through MPSI's Healthier Urban Families Program includes training of mental health workers who serve very young children in the care of public and non-profit agencies; consultation to education and child care organizations; workshops for teachers, parents and the public; and the annual Metropolitan Detroit Teen Conference.

Center for Molecular Medicine and Genetics

3127 Scott Hall; 540 E. Canfield
Telephone: 313-577-5323; *Fax:* 313-577-5218
Director: Lawrence I. Grossman, Ph.D.
Email: l.grossman@wayne.edu
Website: <http://genetics.wayne.edu> (<http://genetics.wayne.edu/>)

The Center for Molecular Medicine and Genetics is interdisciplinary by design, built around modern molecular genetics, and comprising basic researchers, physician-scientists, computational scientists, and genetic counselors. The diversity of the Center's members and their backgrounds enables activities that range from basic research to clinical genetics to translation to the bedside and, in some cases, to a biotech company. The underlying goal is excellence in molecular biology, molecular medicine, and genetics to increase the understanding, diagnosis, treatment and prevention of human disease. The Center occupies over 28,000 sq. ft. of state-of-the-art space, including both open and closed laboratories, faculty offices, equipment and special procedure rooms, conference and interaction areas, and a server room to support the Center's faculty, staff and students.

Students in the Center participate in research on gene expression and regulation, including the role of DNA-protein interactions and DNA methylation; the structure, function, and evolution of genes; molecular cytogenetics, genome organization, and mammalian gene mapping; long non-coding RNA discovery and characterization; human reproductive biology; protein-protein interactions; cellular stress responses; mitochondrial biology and genetics; neuroscience and the genetic basis for neurological disease; computational biology and bioinformatics. Considerable emphasis is placed on human and mammalian model systems and on understanding human molecular genetic diseases.

Faculty members of the Center often invite undergraduate students to volunteer in their laboratories, which is an outstanding opportunity for undergraduates to gain experience. The Center encourages students to view the profiles of the faculty and directly contact a professor to inquire about volunteering. In addition, each summer the Center hosts an exclusive Summer Undergraduate Research Program (SURP), from which many undergraduate students have moved on to prestigious universities and programs to pursue graduate degrees.

Summer Undergraduate Research Program (SURP)

Opportunities for research in Molecular Medicine and Genetics are available each summer as part of the Center for Molecular Medicine and Genetics SURP. The program provides sophomore and junior undergraduate students with experience in the research laboratories of the Center, located at the Wayne State University School of Medicine. Over the course of the summer students work in the laboratories of Center faculty members and attended weekly research seminars. When the program ends in August the students present their work to their mentors, peers, and the WSU research community at a symposium.

Center to Advance Palliative-Care Excellence (CAPEWAYNE)

4201 St. Antoine, Suite 5C-UHC
Telephone: 313-577-5751; Fax: 313-745-4710
Website: <http://www.capewayne.med.wayne.edu> (<http://www.capewayne.med.wayne.edu/>)

CAPEWAYNE is an interdisciplinary academic center bringing together scholars, educators, researchers and clinicians dedicated to improving the quality of end-of-life care. The main focus areas of this center are education, research and clinical practice, all of which permeated by the field of humanities.

Education: The Center offers an end-of-life curriculum for students, trainees and clinicians across disciplines and levels of training.

Research: The Center gathers researchers who have a shared interest in the conduct of collaborative, interdisciplinary interdepartmental research. Current research projects include evaluating the impact of a palliative care curriculum, called the Compassionate Allies, sponsored by Seasons Hospice Foundation, on the skills and attitudes of pre-medical students.

Clinical Practice: The Center provides resources to clinicians across disciplines and settings that practice palliative care, through a paradigm of sharing and ensuring optimization of clinical care in our community.

Center for Peace and Conflict Studies

2320 Faculty/Administration Building
Telephone: 313-577-3453; Fax: 313-577-8269
Director: Frederic S. Pearson
Website: <http://www.clas.wayne.edu/pcs/>

On November 20, 1965, the Center for Teaching about War and Peace opened its doors under the leadership of Director Russell Broadhead and a committee of distinguished faculty members. The mission then was to provide interdisciplinary, University-wide, academic programs in the field of domestic and international conflict and peace issues. In 1987, the WSU Board of Governors, building upon this rich heritage, created the Center for Peace and Conflict Studies.

The mission of the Center for Peace and Conflict Studies is to develop and implement projects, programs, curricula, research, and publications in areas of scholarship related to international and domestic peace, war, social justice, arms control, globalization, multi-cultural awareness and constructive conflict resolution. The Center addresses this mission in three ways. CPCS supports undergraduate and graduate student excellence through its academic programs. CPCS staff and students engage in scholarly research initiatives on aspects of domestic and international conflict management. CPCS provides community outreach programs that emphasize: conflict resolution, development of intercultural understanding, and enhance local knowledge of global affairs.

In 2010, the Center added a Graduate Certificate in Peace and Security Studies to its curricular offerings, a program adding an important credential to master's programs for careers ranging from diplomacy and military affairs to negotiations, violence prevention, education, social service, border security and administration of justice.

Center for Urban Studies

5700 Cass Avenue, Room 2207 Academic/Administration Building
Telephone: 313-577-2208; Fax: 313-577-1274
Director: Lyke Thompson, Ph.D.; Email: ad5122@wayne.edu
Managing Director: Charo Hulleza, M.P.A.; Email: c.hulleza@wayne.edu
Email: CUSinfo@wayne.edu

The mission of Wayne State University's (WSU) Center for Urban Studies (Center) is to improve the understanding of and provide innovative responses to urban challenges and opportunities. Since 1967, the Center has been committed to serving Detroit and its metropolitan area by conducting and disseminating research, developing policies and programs, and providing training, capacity-building, and technical assistance. The Center is deeply engaged in program evaluation and policy analysis in a range of areas. Through these approaches, the Center participates in defining and influencing local, regional, state and national urban policy. We work with communities, government, institutions and policymakers to transform knowledge into action. The vast majority of the Center's funding comes from grants and contracts with our customers and partners.

The Center facilitates a wide array of demonstration and research projects through a staff of Ph.D. and master's level professionals skilled in social and behavioral science techniques ranging from surveys and focus groups to GIS mapping and information systems development and implementation. The Center employs and engages many students with backgrounds in sociology, psychology, economics, political science, and business administration. The Center collaborates with University faculty who consult on methodological and substantive questions.

Most of the Center's work is focused within six substantive research areas:

- Healthy Homes
- Early Childhood and Disabilities
- Urban Safety
- AmeriCorps
- Urban Health
- Survey Research

The Healthy Homes Unit supports eliminating housing-based health hazards for at-risk populations through research, performance management systems and facilitation. This unit is deeply involved in local and national efforts to eliminate environmental hazards from homes.

The Early Childhood and Disabilities Unit evaluates programs and conducts performance measurements geared to improve the lives of people, including children and students, with developmental delay or disabilities. Evaluation results are used to improve service delivery in programs across the state of Michigan.

The Urban Safety Unit focuses on identifying and implementing collaborative solutions to reduce crime in select Detroit neighborhoods and other Michigan communities. While these urban safety efforts primarily target the Detroit area, many of the research efforts can be expanded at a national level as effective practices for reducing crime and increasing resident guardianship.

The Center's AmeriCorps Urban Safety Project is working with Detroit residents to organize and harden their homes to prevent crime in their neighborhoods. Through these efforts and those of the Midtown CompStat Initiative (collaboration between WSU Police, the Center, and other organizations), crime in Midtown Detroit is down over 50% since 2009.

The Urban Health Unit partners with local agencies to conduct community-based participatory program evaluation research on specific urban health issues such as HIV/AIDS and obesity. Research and evaluation results have improved program delivery and have been published in peer-reviewed journals.

The Survey Research Unit uses the latest computer-aided telephone interview and field data collection methodologies on a variety of research

projects for Wayne State faculty and departments and for government departments and community initiatives.

Through these endeavors the Center has major financial and health impacts on the Detroit community while furthering the deeper understanding of our urban challenges.

Other WSU Centers and Institutes

Other Wayne State University Centers and Institutes that may provide opportunities for undergraduates:

Barbara Ann Karmanos Cancer Institute

4100 John R., 2nd Floor; 313-576-8670; Fax: 313-576-8668

MIKE ILITCH SCHOOL OF BUSINESS

Dean: Robert Forsythe

The Mike Ilitch School of Business is a professional school concerned with the theory and practice of business. The primary objectives of the School are to provide relevant education of high quality for business students, and to develop new knowledge through research and encourage application of its findings. To this end, in addition to their instructional services, the faculty has been a continuing source of notable scholarly publications and it is a special strength of the School that it brings a fine research faculty to the teaching of undergraduate as well as graduate courses.

The School has a tradition of instructional programs exemplifying high standards for both faculty and students as is acknowledged by the accreditation of the AACSB International – The Association to Advance Collegiate Schools of Business, the international association for management education, for all degree programs. The School provides relevant, comprehensive business education through programs that serve recent high school graduates as well as older student populations. The student body is racially and ethnically diverse, residential and commuting, and often working and raising families. To meet the needs of these students, the School schedules classes throughout the metropolitan area, during both day and evening hours. Extension Centers are located in Livonia and Warren.

The undergraduate program begins during the freshman year. Freshmen are admitted directly to the Mike Ilitch School of Business. The first two years of undergraduate work are focused on developing an educational foundation in the basic sciences and arts. During the third and fourth years, the student follows a program of professional education. Students may select majors in accounting, finance, global supply chain management, information systems management, management, and marketing. The degrees of Bachelor of Arts and Bachelor of Science in Business Administration are awarded.

The Undergraduate Certificate in Entrepreneurship and Innovation was designed by the Mike Ilitch School of Business to provide students with the specialized knowledge and skills to develop and launch startup ventures. The 15-credit certificate is open to students of all majors. The Post-bachelor Certificate in Accounting enables students who already hold a bachelor's degree in business or accounting to obtain the required educational background to be licensed as a Certified Public Accountant (CPA) in Michigan. The Post-bachelor Certificate in Information Systems Management is designed for individuals who want to update their skill set and desire advanced training in systems analysis and design, databases, web development tools, and other emerging technologies.

The graduate program leading to the Master of Business Administration (M.B.A.) degree is dedicated to educating graduate students for professional careers in business. The Master of Science in Accounting (M.S.A.) program prepares individuals for professional careers in public accounting. The Master of Science in Data Science and Business Analytics (MSDSBA) is a novel interdisciplinary degree program that leverages the strengths of Wayne State in statistics, operations research, computing and business by combining the world-class expertise of the College of Engineering and the Mike Ilitch School of Business. The Master of Science in Finance (M.S.F.) is designed for both recent graduates and working professionals with a bachelor's degree in finance, accounting or another quantitative field who want to advance or shift their careers. The Executive Master of Science in Automotive Supply Chain Management is designed for working professionals

with a bachelor's degree who want to progress in the dynamic field of supply chain management in the automotive industry, as well as new graduates who want to immediately pursue advanced studies. The Graduate Certificate in Business is designed to provide non-business undergraduates fundamental knowledge in the basic functional areas of business administration: Accounting, Finance, Management and Marketing. For additional graduate program information, consult the Wayne State University Graduate Bulletin.

The Doctor of Philosophy Program in the Mike Ilitch School of Business prepares students for teaching and research at major universities. The program focuses on quantitative skills, enabling students to engage in research projects with faculty, and places a heavy emphasis on a global perspective.

The Mike Ilitch School of Business also recognizes its obligation to community service. As a central part of an urban university, the School makes a special commitment to foster training, and basic and applied research that will benefit business enterprises. Of primary importance is the dedication to excellence in the instructional programs that prepare the business leadership that is critical to the continuing revitalization of southeastern Michigan.

Mission Statement

Our mission is to prepare our students for challenging and rewarding careers, advance the boundaries of scholarly and practitioner knowledge, and enhance the economic vitality of the city of Detroit, the state of Michigan and beyond through our programs, research and community engagement.

Aspiration and Vision

The Wayne State University Mike Ilitch School of Business aspires to establish itself as one of the leading business schools in the nation as noted in published national rankings (e.g., Business Week, U.S. News and World Report, etc.), that reflect favorable student evaluations and recruiter perceptions of both the undergraduate and M.B.A. programs, and the scholarly achievements of the faculty. The School strives to achieve a positive reputation for contributions to knowledge development, for the role it plays in the economic prosperity of the region, and for becoming a school of choice - one which prospective students see as providing a pathway to academic and professional achievement.

Academic Regulations: Mike Ilitch School of Business

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 17) section of this bulletin. The following additions and amendments pertain to the Mike Ilitch School of Business.

All students must fulfill the upper-division requirements of the Mike Ilitch School of Business in effect at the time of admission to the Mike Ilitch School of Business.

Admission to the School

Students seeking a business degree must be granted regular admission (p. 23) to the University to be eligible for admission to the Mike Ilitch School of Business.

Admission to Class

Please consult each term's Schedule of Classes for appropriate dates and deadlines for registration, late registration, and add/drop period. *Students*

may not attend a class for which they are not officially registered and will not be added retroactively.

Application for Degree

Each candidate must file an Application for Degree (<https://wayne.edu/commencement/apply-for-graduation/>), NO LATER THAN THE TENTH DAY OF CLASSES, for the semester in which he or she expects to complete the requirements for the degree. If an Application for Degree was filed for a previous semester in which the student did not graduate, a new application and fee is required.

Attendance Policy

Regular attendance is a necessary condition for success in college study. This policy recognizes that the course content includes classroom lecture and discussion, certain aspects of which may be covered on examinations, quizzes, term papers, or homework assignments. Each instructor will announce his or her attendance standards at the beginning of the term.

Change of Major

Students wishing to change majors or their *Academic Plan* within the Mike Ilitch School of Business must submit a request in writing to the Undergraduate Advisor in the Office of Undergraduate Student Services, 200 Prentis Building. An *Academic Plan* for the requested major will then be mailed. Students are advised that such changes occurring late in their program may result in additional coursework beyond the minimum requirement of 122 credits.

Student Conduct

Each student is subject to official regulations governing student activities and student behavior. Students should familiarize themselves with the obligations of students in the instructional process; see *Obligations of Faculty and Students to the Instructional Process*. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Academic integrity means that a student is honest with him/herself, fellow students, instructors, and the University in matters concerning his or her educational endeavors. Thus, a student should not falsely claim the work of another as one's own, or misrepresent him/herself so that the measures of one's academic performance do not reflect his/her own work or personal knowledge. Assignments submitted for any class are expected to be original, i.e., not resubmissions of work submitted in a previous or concurrent class.

If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he or she may be disciplined. Such discipline may include suspension or dismissal, but no dismissal will be directed without reasonable opportunity for an appropriate hearing, as provided in the Student Due Process statute. For the copies of Student Code of Conduct, please refer to the Dean of Students Office (<http://www.doso.wayne.edu/assets/codeofconduct.pdf>) where the entire document is available for review.

Degrees

Degrees are granted upon the recommendation of the faculty of the Mike Ilitch School of Business. Consideration is given to both scholastic attainment and to compliance with the standards and rules of the School.

Directed Study

A directed study is intended to give students the opportunity to conduct research in an area of interest to them under the supervision of a faculty member; credits vary between one and three. A cumulative grade point average of 3.00 is required to be eligible for consideration for directed

study work. Students must complete the *Undergraduate Directed Study* form and obtain the required signatures prior to registration. No more than three credits of directed study in one Department are permitted in any semester. A total of no more than six credits of directed study may be used to fulfill graduation requirements. Contact the Office of Undergraduate Student Services, 313-577-4505, for further information.

Double Major

Students may pursue a double major within the Business School. For more information, contact an advisor in the Office of Undergraduate Student Services 313-577-4505.

Graduation with Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: *Cum Laude*, *Magna Cum Laude*, and *Summa Cum Laude*. Graduation with distinction is indicated on the student's diploma and on the transcript.

Honors Program

Current WSU business students with a cumulative grade point average of 3.5 or higher may enroll in courses with an honors component assignment option, and complete the fifteen credit required program (contact the Office of Undergraduate Student Services for details) to qualify for an honors distinction on their transcript and diploma at graduation.

Incomplete Marks

The mark of 'I' is appropriate only when a student has completed all of the requirements for a course except for a specific assignment, such as a project or final examination, and only when the instructor agrees that a student has a valid reason for not completing the assignment.

The mark of 'I' which is not converted to a letter grade within one year from the time it was received will be automatically changed to an 'F'.

Grade Appeals Procedure

It is the instructor's prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment. Grounds for appeal of grades include:

1. the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

In those instances where a student disputes the final grade awarded, for one of more of the above reasons, the following steps should be taken to appeal the grade in question.

Informal review

The student should discuss the disputed grade with the instructor of the course. If the dispute is not resolved informally, the student may initiate a formal appeal.

Formal appeal procedure

1. Within 30 calendar days following official notification of final grades for the term in which the disputed grade was awarded, and when the informal review fails to resolve the dispute, the student shall submit

a written appeal detailing his/her objection, along with supporting documentation in writing, to the instructor. The instructor should respond in writing within 10 work days.

2. If the dispute remains unresolved, the student shall submit a written statement detailing his or her objections, including a rationale why the department chair should consider this appeal (along with supporting documentation), to the department chair within 10 work days following receipt of the instructor's written response.

The chairperson shall review the complaint and provide a copy of the written complaint to the instructor. The instructor of the course shall be invited to reply in writing to the objections of the student. Where appropriate, the chairperson may consult with a Grade Appeals Committee for advice in grade disputes. Students will be notified of the chairperson's decision within 20 business days of receiving the request.

3. Matters not resolved at the program level may be appealed to the dean's office. The department chair file folder containing the course syllabus from the semester in which the student took the course, plus the student's letter, the instructor's letter, and the department chair's letter, and the student's written rationale why the dean's office should reconsider this appeal, should be sent to the dean's office. Where appropriate, the dean's office may consult with a Grade Appeals Committee for advice in grade disputes.

Students shall be notified in writing of the dean's office decision within 30 business days of receiving the request. The dean's office decision shall be the final decision at the college level.

University-level academic appeals procedure

When the procedures within the School have been exhausted, the decision on the record may be appealed with the student's written rationale why the provost's office should reconsider this appeal. Procedures for requesting a provost review are published in the University Bulletin see Appeal Procedures, University.

Normal Program Load

The normal academic load for an undergraduate student in the Mike Ilitch School of Business is from nine to sixteen credits each semester, depending upon the particular courses elected. No student should expect to carry a full load and at the same time be employed full-time. Students desiring to carry more than eighteen credits must obtain written permission from the Office of Undergraduate Student Services prior to registration. Excess credits will not be honored when taken without prior written approval.

Passed/Not Passed Registration

Undergraduate students in the Mike Ilitch School of Business may *not* take courses offered by the Mike Ilitch School of Business on a *passed/not passed* basis.

Probation and Exclusion

A student who registers for, but repeatedly fails to complete his/her program and thus does not make normal progress toward graduation, may be placed on probation.

If a student's academic work is unsatisfactory (less than 2.0 cumulative grade point average or less than 2.0 grade point average in his or her major), the student will be placed on probation with the understanding that he or she will be expected to achieve a cumulative 2.0 grade point average within the next twelve credits completed, or a 2.0 major grade point average within the next six credits completed in the major. If probationary status is not removed within the prescribed number of credits, the student is subject to either temporary suspension or

permanent dismissal from either the major or from the Mike Ilitch School of Business.

The second (or subsequent) time(s) a student is placed on probation, he or she is subject to immediate dismissal from the Mike Ilitch School of Business.

In the event of a temporary suspension, readmission to the Mike Ilitch School of Business will be considered only with the recommendation of the Undergraduate Committee. (The Undergraduate Committee is composed of the departmental chairpersons and is chaired by the Assistant Dean of Student Services.) If, after readmission to the Mike Ilitch School of Business, the academic deficiency is not removed within the first nine credits attempted, the student will be permanently dismissed from the School. Coursework completed at another institution during a period of temporary suspension will not be considered for transfer credit.

The exclusion of any student will be reviewed by the Undergraduate Committee of the Mike Ilitch School of Business. A student on probation who fails to complete the courses for which he or she registers, without good reason as determined by the Dean or designee, shall not be permitted to re-register in the Mike Ilitch School of Business.

The Undergraduate Committee, upon the recommendation of the student's Department Chairperson, may permanently exclude a student from a major, if the student fails to remove himself or herself from probationary status within the prescribed number of credits.

In matters where the School's final decision is based upon the evaluation of a student's academic performance and when review procedures available to him or her within the School have been exhausted, the student may request the Provost to review that decision on the record.

While on probation, a student may not represent the School in student activities.

Retaking Courses

The University policy on retaking courses is stated at: Repeating Courses – The mark of R. No course in which a student has received a passing grade or mark may be repeated without the prior written approval of the Assistant Dean of Student Services of the Mike Ilitch School of Business.

Residence Requirement

To qualify for a Baccalaureate Degree from the Mike Ilitch School of Business, the final year and the last thirty-two credits must be taken at Wayne State University. In exceptional cases, a limited number of the last thirty-two credits toward a degree may be taken at another accredited college or university. All such cases must receive the approval of the Assistant Dean of Student Services before the work is undertaken.

Students returning to the School after a five-year absence are required to conform to the program requirements in effect at the time of their return.

Records Retention by Instructors

Term papers and examinations shall either be returned to the student or retained by the instructor for a period of ninety days. Thereafter, they may be destroyed.

Transfer of Courses in Major

No more than six semester transfer credits may be applied toward a student's major requirements. These courses must have received a grade of 'C' or better. Transfer of major credit beyond six semester hours may be applied toward free elective requirements. Only transfer courses taken

at an AACSB accredited college or university or via community college Articulation Agreements will be considered.

Waiver of Degree Requirements

Students must comply with degree requirements as listed in this bulletin and on their Academic Plan. Students may petition for a modification in degree requirements by completing a waiver form and submitting it to the Office of Undergraduate Student Services of the Mike Ilitch School of Business. Waiver of a *School requirement* requires the approval of the Dean or his/her designee. Waiver of a *departmental requirement* requires the recommendation of the departmental chairperson. Undergraduate students are advised that no faculty member is authorized to approve a change in degree requirements.

Withdrawals from Class

Students must follow the university procedures for dropping and adding courses (p. 64).

AGRADE – Accelerated Graduate Enrollment

The Mike Ilitch School of Business has established an accelerated combined undergraduate and graduate program ('AGRADE') whereby qualified students in the Mike Ilitch School of Business may enroll simultaneously in undergraduate and graduate courses of the School. A maximum of twelve credits may be applied towards both undergraduate and graduate degrees in a student's major field if the major department is an AGRADE participant. Those who elect the 'AGRADE' program may expect to complete the Bachelor's and Master's degrees in five years of full-time study.

AGRADE accelerated graduate program option

Save money and time toward your graduate business degree with the Accelerated Graduate Enrollment (AGRADE) program.

Highly qualified Wayne State University Mike Ilitch School of Business students are eligible to participate in the AGRADE program. AGRADE students can cut substantial time and as much as one-third off the total cost of a WSU graduate business degree program by applying up to 12 credits toward both their undergraduate and select graduate degrees.

AGRADE benefits

- Start earning your master of business administration (M.B.A.) (<https://ilitchbusiness.wayne.edu/mba/>), master of science in accounting (M.S.A.) (<https://ilitchbusiness.wayne.edu/accounting/ms.php>), master of science in finance (<https://ilitchbusiness.wayne.edu/finance/masters.php>) or executive master of science in automotive supply chain management (<https://ilitchbusiness.wayne.edu/supply-chain/masters.php>) while completing your bachelor's degree
- Earn graduate credits at undergraduate tuition rates
- Apply up to 12 credits of selected graduate courses (<https://ilitchbusiness.wayne.edu/students/agrade.php#agradecourses>) as dual credit for undergraduate and eligible graduate programs
- Option to move immediately to the graduate program or rejoin the program later
- Earn both your bachelor's and master's degrees in as little as five years

AGRADE requirements

- Undergraduate major in accounting, finance, global supply chain management, information systems management, management or marketing
- Junior or senior standing (~90 credits earned)
- Overall GPA of 3.5 or higher at WSU
- Major GPA of 3.6 or higher at WSU
- Meet with undergraduate and graduate advisors to discuss program requirements
- Complete the Dual Credit Enrollment Form
- Courses apply to M.B.A., M.S.A., master of science in finance or executive master of science in automotive supply chain management degrees only

Transfer of courses

Only those AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade. AGRADE courses will not be transferred to the student's graduate transcript until one semester of graduate course work has been successfully completed.

Approved AGRADE courses

For students approved to participate in the AGRADE program, four of the following courses from any one of the program areas listed below may be counted toward both their bachelor's degree and M.B.A. All courses are three credits.

Courses Approved for AGRADE

Take no more than four courses or 12 credits from any one of the following program areas.

Code	Title	Credits
Accounting		
ACC 7120	Introduction to Taxation: Individuals	3
ACC 7122	Advanced Accounting I	3
ACC 7130	Intermediate Managerial Accounting	3

Management

EI 7000	Introduction to Entrepreneurship and Innovation	3
MGT 7640	Management of Human Resources	3
MGT 7650	Strategic Human Resource Management	3
MGT 7660	Entrepreneurial Management	3
MGT 7750	Labor Relations and Collective Bargaining	3
MGT 7900	Project Management	3
MGT 8000	Seminar in Management	3

Marketing

MKT 7150	Global Automotive Marketing Strategy	3
MKT 7430	Advertising Management	3
MKT 7450	Business Research and Methodology	3
MKT 7470	Consumer and Industrial Buying Behavior	3
MKT 7500	International Marketing Strategy	3
MKT 7700	Management of Retail Enterprises	3

Eligibility: 'AGRADE' applicants must have an overall g.p.a. of 3.5 through their junior year. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a g.p.a. in the major of at least 3.6 at the time of application. Students approved for AGRADE cannot complete Senior Rule.

Application: A student seeking 'AGRADE' status should present to the Mike Ilitch School of Business Graduate Programs Office all of the materials which that department requires for normal graduate admission, EXCEPT for the GMAT or Graduate Record Examination (GRE). Specific graduate admission requirements can be found in this bulletin or obtained from the Graduate Programs Office of the Mike Ilitch School of Business at 313-577-4511.

The earliest date by which a student may apply for the 'AGRADE' program is during the semester in which he/she completes ninety credits toward the undergraduate degree. AGRADE application deadlines are the same as graduate admissions deadlines as posted on the Mike Ilitch School of Business Admissions Web Page.

AGRADE Credits: Students may elect a minimum of three and a maximum of twelve 'AGRADE' credits. These will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, 'AGRADE' credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program.

For more details about the 'AGRADE' program, contact the Frederick Hessler Student Success Center by calling 313-577-4505, or contact the Graduate Programs Office at 313-577-4511 or email gradbusiness@wayne.edu.

Accounting

Office: 385 Mike Ilitch School of Business

Chairperson: Matthew Roling

Accounting Major

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations.

- Accounting (B.A.) (p. 99)
- Accounting (B.S.) (p. 100)
- Accounting Post-Bachelor's Certificate (p. 100)

Accounting B.A.

Admission Requirements: Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Accounting Major

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations. A student who is interested in sitting for the Certified Public Accountant (CPA) Exam or other professional certification should seek advice from the Chair of the Accounting Department or the Chair's designee.

Accounting Major

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations. A student who is interested in sitting for the Certified Public Accountant (CPA) Exam or other professional certification should seek advice from the Chair of the Accounting Department or the Chair's designee.

Degree Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 28). All course work must be completed in accordance with the academic rules of the University (p. 10) and those of the Mike Ilitch School of Business (p. 95).

The requirements for the Bachelor of Arts are the same as for the Bachelor of Science with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University's Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 120 credit minimum.

The major program in accounting employs a capstone course, ACC 5115, to assess students' knowledge of the discipline. Students who concentrate in accounting must complete the following courses.

Core

Code	Title	Credits
ACC 5100	Intermediate Financial Accounting I	3
ACC 5110	Intermediate Financial Accounting II	3
ACC 5115	Intermediate Financial Accounting III	3
ACC 5130	Accounting Systems Design and Control	3
ACC 5160	Managerial Accounting	3

ACC 5170	Introduction to Taxation: Individuals	3
Total Credits		18

Accounting B.S.

Accounting (Post-Bachelor Certificate)

The post-baccalaureate certificate program in accounting is designed to enable students who already hold a bachelor's degree in business administration or accounting to obtain the required educational background to be licensed as a Certified Public Accountant in Michigan.

Admission: Students must have a bachelor's degree from an accredited institution, with a grade point average of at least 2.0.

Students who have received their undergraduate degree from Wayne State University should process a change in their status at the Registrar's Office to 'Post-Baccalaureate.' Students who have received an undergraduate degree in these areas from another institution must

complete the Application for Undergraduate Admission form and request that official transcripts be sent directly to the Office of Admissions.

Certificate Requirements

Candidates for this certificate must successfully complete a minimum of twenty-four credits in course work at Wayne State University following completion of the bachelor's degree, with a cumulative grade point average of not less than 2.0. Of these twenty-four credits, students must complete a minimum of six credits from courses offered by the Department of Accounting. Additionally, a minimum of twelve credits must be from courses offered within the School (Accounting, Finance, Information Systems, Marketing, and Management). Students, who have not completed ACC 3010 and ACC 3020 (or equivalent courses), must complete ACC 3010 and ACC 3020 in addition to the minimum twenty-four credits required for the Certificate.

Each student's *Academic Plan* will be individually designed. Students intending to use this certificate to meet the requirements for licensure as a Certified Public Accountant in Michigan will work with their advisor to ensure that the courses chosen meet the requirements of the licensing body.

Business Administration (B.A. and B.S.)

Admission Requirements

Effective for students admitted Fall 2009 and thereafter admission to the Mike Ilitch School of Business Undergraduate Program is based upon two criteria: Preprofessional Program Standing and Professional Program Standing, as defined below.

Preprofessional Program Standing is the classification for entering high school students or transfer students admitted directly to the Mike Ilitch School of Business through the WSU Undergraduate Admissions Office. Typically, students are admitted at the freshmen or sophomore levels and pursue Business Foundation requirements, entry level Business Core classes and General Education Requirements. The purpose of the preprofessional coursework is to provide students with business instruction that prepares them for advanced level Business Core courses and business major courses.

Professional Program Standing is the classification for students entering or continuing in the Mike Ilitch School of Business with the completion of fifty-four semester credits at Wayne State University or fifty-four transferable semester credits, and requires a minimum 2.50 grade point average as described in the Mike Ilitch School of Business requirements (consult Frederick Hessler Student Success Center, Room 101 Mike Ilitch School of Business). Entry into Professional Program Standing grants students approval to enroll in advanced Business Core courses and degree-applicable major courses. Students not meeting the grade point average requirement will NOT be allowed to enroll in either of these course groups until the required grade point average is achieved.

High School Students: Students who meet the University requirements for regular admission (p. 23) are eligible for admission to the Mike Ilitch School of Business.

Transfer Students: Students must meet University requirements for regular admission (p. 23). Students currently in another program at WSU must have a minimum 2.00 g.p.a. to be admitted to the Business School. WSU students with less than a 2.00 g.p.a. will not be considered for admission. Transfer students from outside WSU are required to have a minimum 2.00 g.p.a. from their transfer institution. Transfer students with a 2.0-2.49 g.p.a. will not be allowed to take any Business School

Core Courses beyond MGT 2530 and MKT 2300, at the 3000 level or higher or major courses until a minimum 2.5 WSU g.p.a. is achieved. The maximum number of transfer credits that will be accepted from a junior or community college is ninety-six quarter credits or sixty-four semester credits. Equivalency tables have been developed with area community colleges which identify lower division community college courses that are equivalent to the lower-division business foundation courses at Wayne State University. Articulation Agreements have been signed with Henry Ford CC, Jackson CC, Macomb CC, Oakland CC, Schoolcraft CC and Washtenaw CC to transfer 82 hours for certain Associate Degrees. Contact an Ilitch Business Advisor for more details.

Application for admission and all official collegiate transcripts must be submitted by transfer students to the Undergraduate Admissions Office of Wayne State University. Qualified applicants will then be referred to the Mike Ilitch School of Business' Frederick Hessler Student Success Center.

Admission Appeals: There is no guarantee of admission to the Mike Ilitch School of Business. Formal written appeals of admission denial may be made to the Assistant Dean of Undergraduate Student Services of the Mike Ilitch School of Business.

General Education Requirements

Students must also satisfy University General Education Competency and Group Requirements (p. 29) as part of the Business Administration curriculum.

Foundation Requirements

In the following curricula all courses satisfying General Education Requirements are cited with their appropriate title-prefix codes. Students should consult the Schedule of Classes for all prerequisites.

Code	Title	Credits
ACC 3010	Introduction to Financial Accounting ¹	3
ACC 3020	Introduction to Managerial Accounting ¹	3

MKT 2300	Marketing Management	3
Total Credits		21

¹ To be taken as one of the last five courses toward bachelor's degree and after completion of all other core courses.

Major Requirements

Majors and specializations are offered through four academic departments:

- Accounting
- Finance
- Management and Information Systems
- Marketing and Supply Chain Management

Majors in Accounting, Finance, Global Supply Chain Management, Information Systems Management, Management, and Marketing require six courses (eighteen credits). Students also have the option to double major. Each of the undergraduate majors employs a capstone course as a vehicle to assess a student's knowledge of the discipline. Students in all of the majors also complete the capstone course for the undergraduate program: MGT 6890.

Students should refer to the respective departmental section of this bulletin for specific majors and specializations. After selecting a major, students must consult the Frederick Hessler Student Success Center of the Mike Ilitch School of Business to obtain an official Academic Plan. All courses must be taken in accordance with an approved Academic Plan and all course prerequisites and limitations must be observed.

Electives

Electives form an integral part of an education in business. A student's selection of elective courses should be guided, in part, by his or her career objectives. Elective courses constitute study in addition to the business foundation, core, and major requirements listed on the student's Academic Plan.

Each student is encouraged to use elective courses to pursue a double major within the Ilitch School of Business or within another discipline at the University. Elective courses also allow a student to pursue Ilitch Business School Study Abroad opportunities, a Certificate in Entrepreneurship and Innovation and minors in other disciplines at the University.

Language Electives

Students who are preparing for careers in the global economy or employment opportunities overseas or with multinational corporations should consider electing foreign language courses. In addition, students who wish to earn the Bachelor of Arts degree may utilize their electives toward the satisfying of the Bachelor of Arts foreign language requirements (see next tab).

Cooperative Education Program

The Mike Ilitch School of Business actively participates in the University Cooperative Education (Co-op) Program in which students alternate semesters of work and academic study. Eligibility begins in the junior year or upon having earned more than the minimum fifty-four semester credits. Students interested in this program should contact the Mike Ilitch School of Business Career Planning and Placement Office, Suite 299, Mike Ilitch School of Business, 2771 Woodward, 313-577-4871.

Students admitted to the program with minimum junior standing should recognize that an additional calendar year may be needed to fulfill the requirements for the bachelor's degree. No academic credit is granted for participation in the Co-op Program; Satisfactory/Unsatisfactory ('S/U') grades are given, however, and are entered on the official University transcript.

Business Administration (B.S. Program) Degree Requirements

Candidates for the Bachelor of Science in Business Administration must satisfactorily complete 122 credits including: General Education Requirements, School Requirements, Business Foundation Curriculum, Business Core, Major, and Elective Requirements as outlined below. Within the student's degree program, no more than sixty-four credits in business subjects and upper division economics may be applied toward the degree. All course work must be completed in accordance with the academic rules of the University (p. 10) and those of the Mike Ilitch School of Business (p. 95).

To be eligible for the degree, students must have earned a minimum 2.0 grade point average in the major requirements and a minimum overall grade point average of 2.0 in all undergraduate course work completed at Wayne State University.

Specific Course Requirements: The courses listed below are required of all business students. No substitute courses are permitted except as noted.

School Requirements

Including General Education

Total Credits		40

¹ A minimum grade of 'C' (2.0 g.p.a.) must be earned

Business Administration (B.A. Program)

DEGREE REQUIREMENTS are the same as for the Bachelor of Science, cited above, with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University's Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 122 credit minimum.

Business Administration Minor

The Mike Ilitch School of Business offers a minor in business for undergraduate students majoring in disciplines other than Business. The Business Minor consists of six courses, totaling eighteen credits. Students must also complete prerequisite courses with a minimum grade of C (2.0 g.p.a.) for each course. The minor provides an excellent opportunity for non-business majors to broaden their knowledge of the business disciplines. In addition, the program enhances career prospects and establishes a solid business base for pursuing a Master of Business Administration degree. To be eligible to apply for the Business Minor, students must have a minimum overall grade point average of 2.5.

Entrepreneurship and Innovation (Undergraduate Certificate)

Entrepreneurs and innovators are critical to the long-term health and prosperity of our economy and society. The certificate is designed for students from any background or area of study passionate about understanding and being active participants in the process of starting or nurturing startup ventures, including founders, co-founders, team members and those providing support services. The certificate will benefit current and future for-profit and nonprofit professionals in business, arts and entertainment, communication and information technology, manufacturing, engineering, science and technology, health care, community and economic development, and other fields. This multidisciplinary program, offered through a collaboration of several schools and colleges, provides an opportunity for students from diverse academic disciplines and areas of interest to learn from each other and exposes students to entrepreneurial action in a variety of settings. The use of an integrative curriculum framework and tool kit across all core and elective courses, experiential learning opportunities built into each of these courses, and consistent interactions with and among students, instructors, coaches, mentors, entrepreneurs, innovators and others engaged in the entrepreneurial environment, provides each student a unique pathway to deeper learning, mastery and higher levels of confidence in applying the specialized knowledge and skills required to develop and launch new venture.

Through this certificate program, students will:

- Demonstrate knowledge of the stages of the new venture creation process, from discovering, creating and refining ideas, to building, testing and evaluating a value proposition and viable business model, to launching, sustaining and growing this new venture by acquiring and managing financial and human resources.
- Learn how lead, manage, and work effectively within teams to achieve success, and to create a positive and ethical work culture.
- Develop a personal network within the entrepreneurial ecosystem with a special emphasis on Detroit and the state of Michigan.
- Tailor their program of study to their unique talents and interests as they explore what it takes to translate ideas into reality, and plan the next steps on their journey of discovery, experimentation and action.

Students who participate in the Entrepreneurship and Innovation Certificate program are eligible to apply for support from the Belinsky Entrepreneurial Learning Laboratory (BELL). The BELL assists sustainable, investment-ready student startups and supports the development of commercialization pathways for WSU intellectual property by providing mentors and subject matter experts, direct support and limited funding to assist in the process of attracting additional funding in the form of revenue growth, grants, loans or direct investment.

Direct support will be provided by BELL Fellows, and certificate program students are eligible to apply for these fellowships. Contact the program director for further information.

Admission requirements: Students wishing to pursue the Undergraduate Certificate in Entrepreneurship and Innovation should meet with the program director and the undergraduate advisor for the school or college providing oversight of their undergraduate degree program and major.

CERTIFICATE REQUIREMENTS: Candidates must complete 15 credits in course work satisfying the requirements cited below. All course work must be completed in accordance with the academic procedures of the University governing undergraduate scholarship and degrees; see Academic Regulations stipulated by the school of college which provides oversight of your undergraduate degree program and major.

Finance

Office: 392 Mike Ilitch School of Business; 313-577-0408
Interim Chairperson: Marick Masters

Finance Major

Finance is primarily concerned with the determination of value and making decisions about allocation of funds in corporate and individual settings.

Students who major in Finance can apply their knowledge working in corporations and public finance in determining optimum investment strategies, raising funds to finance these investments, and managing daily operations. Students employed in investment banking and other financial institutions trade in varying types of financial assets such as stocks, bonds, and derivatives, allocate wealth across these assets, and manage and hedge risk.

With increasing globalization of the economy, many corporations employ people who are experts at analyzing potential future investments in foreign markets. Finance specialists become involved with currency exchange rates, foreign economic conditions and forecasts, and techniques for reducing the risk of investments.

Degree Programs

FIN 5340	Valuation	
FIN 5890	Internship in Finance	

Students earning a Bachelor's Degree with a major in Finance may find employment in several different areas, including corporate finance, financial institutions, and investments.

Corporate Finance

This area is for the student who wants to concentrate on those aspects of finance that will relate directly to financial decision-making in a business or non-profit organization. The corporate finance area offers careers as financial managers in non-financial corporations. Entry level positions are generally as financial analysts or staff accountants, while potential future responsibilities include management of working capital, operating budgets, financial statement preparation, bank relationships, long term financial planning, capital budgeting, treasury operations and stockholder relations.

Suggested courses to include in final choice of electives for students seeking a career in Corporate Finance:

Code	Title	Credits
FIN 5320	Principles of International Finance	3
FIN 5890	Internship in Finance	3

Financial Markets and Investments

This area is for the student who is interested in working for organizations which offer financial and investment services such as banks, insurance companies and mutual and pension funds. Investment careers can also be found in other financial intermediaries such as investment banking firms, security and investment brokerage houses, and security and commodity exchanges. Responsibilities within such firms are highly varied and include commercial and personal lending, branch management, security analysis, portfolio and trust management, real estate management, and insurance, commodity and security brokerage.

Recommended electives for students seeking a career in Financial Markets and Investments:

Management and Information Systems

Office: 393 Mike Ilitch School of Business; 313-577-4525
 Chairperson: Christine Jackson

Information Systems Management Major

Information Systems Management (ISM) refers to the use of computer-based systems to gather and analyze complex information about all aspects of a business. This information is used by managers to make business decisions. Students specializing in ISM frequently pursue career positions as business analysts, data base analysts, ERP specialists, social media specialist, web content manager, and information systems managers. The courses offered in the ISM program emphasize hands-on technical application of relevant software and coverage of content for course-related certification exams.

Management Major

The Management major prepares individuals to compete in a technology-intensive manufacturing or service economy. The required courses have students analyze contemporary management problems, participate in team projects and develop skills in managing people to drive organizational effectiveness.

Degree Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 28). All course work must be completed in accordance with the academic rules of the University (p. 10) and those of the Mike Ilitch School of Business (p. 95).

The management major prepares individuals to compete in a technology-intensive manufacturing or service economy. The required courses have students analyze contemporary management problems, participate in team projects and develop skills in managing people to drive organizational effectiveness.

Students majoring in management will complete the following three core courses, and then select from the designated elective courses listed below.

Management Major

The Management major prepares individuals to compete in a technology-intensive manufacturing or service economy. The required courses have students analyze contemporary management problems, participate

in team projects and develop skills in managing people to drive organizational effectiveness.

Code	Title	Credits
Major Courses		
MGT 5530	Advanced Organizational Behavior	3
MGT 5700	Human Resource Management	3
MGT 6995	Topics in Management	3
Elective Courses		
Select three of the following:		9
EI 5000	Introduction to Entrepreneurship and Innovation	
MGT 5510	Managing Organizational Structure and Processes	
MGT 5650	The Entrepreneur and Venture Creation	
MGT 5740	Collective Bargaining	
MGT 5770	Advanced Human Resource Management	
MGT 5790	Internship in Management	
MGT 5900	Project Management	
Total Credits		18

Students have the opportunity to specialize by selecting their electives so that they have three courses in a specific area such as Human Resource Management and Labor Relations (MGT 5700 [core] plus MGT 5740 and MGT 5770).

Marketing and Supply Chain Management

Office: 389 Mike Ilitch School of Business; 313-577-4525

Chairperson: John C. Taylor

Global Supply Chain Management

The Global Supply Chain Management major focuses on management of the flow of goods and information from the source of components and materials through the channels of distribution to the final customer, and beyond, to recycling and disposal. In today's highly competitive environment, the management of purchasing, operations, quality, transportation, inventory, scheduling, and information flows are ever more critical to an organization's ability to satisfy customers and create a competitive advantage. Whether sourcing from non-domestic suppliers, outsourcing business functions, or attempting to market goods and services to consumers in other areas of the world, today's business leaders need a detailed understanding of all the challenges and opportunities arising from a supply chain that is fundamentally global.

Marketing

The Marketing major is designed to prepare students for a variety of careers in marketing. Marketing is the activity and institution involved in creating, communicating, delivering and exchanging offerings that have value for customers and society. Marketing management involves situation analysis, selection of marketing strategies and target markets, and coordination of product development, pricing, promotion and distribution elements.

Marketing (B.A.)

Admission Requirements: Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Marketing Major

The Marketing major is designed to prepare students for a variety of careers in marketing. Marketing is the activity and institution involved in creating, communicating, delivering and exchanging offerings that have value for customers and society. Marketing management involves situation analysis, selection of marketing strategies and target markets, and coordination of product development, pricing, promotion and distribution elements.

Degree Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 28). All course work must be completed in accordance with the academic rules of the University (p. 10) and those of the Mike Ilitch School of Business (p. 95).

Marketing Major

The marketing major is designed to prepare students for a variety of careers in marketing. Marketing is the activity and institution involved in creating, communicating, delivering and exchanging offerings that have value for customers and society. Marketing management involves situation analysis, selection of marketing strategies and target markets, and coordination of product development, pricing, promotion and distribution elements.

As a complement to the basic major, students must select to pursue specializations in advertising or marketing management.

All students majoring in marketing must complete the requirements of their specializations and subsequently take MKT 6996.

Advertising/Marketing Communications Specialization

This specialization prepares students for work in a wide variety of businesses, advertising agencies, public institutions, and other organizations. It may serve as a background for people who plan to work in the advertising/marketing communications industry, or for general marketing jobs where promotional issues play a particularly prominent role.

COLLEGE OF EDUCATION

Dean: Anita G. Welch

The College of Education at Wayne State University is located in, and serves the needs of, one of the nation's largest metropolitan areas. Thus, the College reflects the dynamic character of urban life, and, in its concern with urban problems, places great faith in education as the means by which human circumstances can be improved. To this end, the College prepares educators who have the knowledge, commitment and competence to help young people achieve academic success, preserve individuality, develop democratic values, and realize self-fulfillment.

Professional field experiences are an important aspect of the preparation program; they bring the prospective teacher face-to-face with the realities of the classroom, the school and the community, as well as provide opportunities for participation in the study, research and analysis of contemporary educational issues. These field experiences are scheduled in numerous school districts, community and cultural institutions throughout the metropolitan Detroit area.

As society has been altered by such factors as the development of knowledge, technological advances and population growth, the purposes and processes of education have changed. New technologies of instruction are evolving rapidly and offer the prospective teacher many opportunities for developing a high level of teaching competence. Problems generated in our urban society are complex, and those related to education are no exception. Yet, the opportunities for curriculum innovation, experimentation and leadership have never been greater.

Accreditation

Wayne State University is accredited by the Higher Learning Commission.

The College of Education's teacher certification programs are accredited by the Council for the Accreditation of Educator Preparation (CAEP).

Art Therapy is approved by the American Art Therapy Association (AATA).

Counselor Education is accredited through the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and now includes Rehabilitation Counseling and Community Inclusion, which was formerly accredited through the Council on Rehabilitation Education (CORE). CORE and CACREP have merged.

School and Community Psychology is accredited through the National Association of School Psychologists.

Academic Regulations: College of Education

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 17) section of this bulletin. The following additions and amendments pertain to the College of Education.

Normal Program Load

The normal undergraduate student load is fifteen to sixteen credits per semester. Only in exceptional cases is a student allowed to elect a heavier load. Approval of the advisor and authorization by the Assistant Dean of the Division of Academic Services must be secured in those cases where the student petitions to carry more than eighteen credits within a full semester.

If a significant portion of a student's time is spent in outside work, corresponding adjustments must be made in his/her college schedule.

Admission to Teacher Preparation Programs

College of Education Level 1

Admission to the College of Education is based on two levels. Students are admitted directly into the College of Education Level 1 from high school or other universities or colleges by completing an undergraduate admission application to the University, selection of a College of Education program on the admission application, and acceptance to Wayne State University. Level 1 admission is processed by the:

University Office of Undergraduate Admission, Welcome Center
42 W. Warren Ave., P.O. Box 02759
Detroit, Michigan 48202
telephone 313-577-2100

Level 1 is for newly admitted freshmen, transfer students, and existing Wayne State University students that change their major to Elementary Education or Secondary Education or Special Education or Health and Physical Education. Students already attending Wayne State University from another college who wish to join a teacher preparation program, may complete an online Level 1 Application. (https://waynestate.az1.qualtrics.com/jfe/form/SV_5t2MppxZKaWgm5T/)

This level is the beginning of the journey to becoming a certified teacher. In this level students focus on coursework to meet the university's General Education Requirements and courses to build content knowledge of subjects that one may teach. During this time, students explore the decision to become a teacher by completing 40 hours of group work with children and by completing some coursework in teacher education. This is also a time to meet the requirements for the next level of admission by completing Level 2 admission requirements. For transfer students, careful course selection from Transfer Plans (<http://transfercredit.wayne.edu>) is recommended.

College of Education Level 2

Admission to the College of Education Level 2 program requires a separate online Level 2 Application (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Students complete the Level 2 application when all Level 2 admission requirements have been fulfilled. These requirements vary by program and students are encouraged to meet with their assigned advisor in Academic Services (Room 489, Education Building) to review requirements specific to their program. Admission to Level 2 is not competitive and students meeting all requirements will be admitted.

Level 2 is the time of transition from student to professional as the journey to becoming a teacher nears completion. In Level 2 students complete coursework in the Professional Education Sequence to learn how to teach, to differentiate instruction, to assess student learning and to deepen one's knowledge of the profession. At the heart of Level 2 are clinical experiences: Experiences in real classroom contexts that allow the pre-service teacher to see, hear, and reflect on the dynamic character of urban classrooms. By the end of Level 2 students should have completed all coursework requirements, passed the Michigan Test for Teacher Certification exams and completed student teaching. Students should be ready for recommendation to the State of Michigan for teacher certification to begin a career in the teaching profession.

Admission to Other Education Programs

Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the bachelor's degree program for Community Health, Exercise and Sport Science, Learning Design and Technology and Sport Management.

Transfer of College within the University

A student in good standing from another college of Wayne State University who wishes to transfer to the College of Education submits an online application (https://waynestate.az1.qualtrics.com/jfe/form/SV_5t2MppxZKaWgm5T/) directly to the Division of Academic Services.

Accelerated Graduate Enrollment (AGRADE) Program

Some programs in the College of Education permit academically strong majors to apply for admission into the college's Accelerated Graduate Enrollment (AGRADE) program. AGRADE procedures enable qualified juniors in the College of Education to apply for an AGRADE master's program and upon admission, begin the program in the senior year by enrolling simultaneously in the undergraduate and graduate programs of the college and apply up to a maximum of sixteen credits towards both a bachelor's and master's degree. Some programs permit less than the maximum number of credits to be applied.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, continuation in the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in AGRADE coursework, which is consistent for satisfactory academic progress for graduate coursework. Some programs may require a grade point average higher than a 3.30.

For more details about the AGRADE program, contact the Division of Academic Services.

Alternative Admission and Reinstatement from Academic Exclusion

Alternative admission or reinstatement from academic exclusion is a process for students meeting any of the three categories listed below:

1. Students currently excluded may appeal for reinstatement to the College of Education after not attending classes at Wayne State University for more than one year.
2. Students that have 30 days to immediately appeal an exclusion notification.
3. Students from another college of Wayne State University that currently have less than a 2.5 GPA and are seeking Alternative Admission into the College of Education.

The application for alternative admission or reinstatement is online (http://coe.wayne.edu/admissions/alternative_admission_and_reinstatement_policy.php).

Not all applicants will be admitted or reinstated. Applications for alternative admission or reinstatement are considered on an individual basis and reviewed by a committee based on academic criteria and merit with the final decision resting with the Assistant Dean of Academic Services.

Readmission Following an Interruption in Residence

Undergraduate students whose attendance at Wayne State has been interrupted for three or more years will be required to apply at the College of Education Division of Academic Services for readmission to the College. Deadline dates for such applications are the same as those for regular admission to the College. In instances of prolonged absences of five years or more, it may be necessary to revalidate credits, either through examinations or refresher courses, within the student's major and the professional education sequences.

Attendance

Regularity in attendance and performance is necessary for success in college work. Although there are no officially excused absences as far as College policy is concerned, the conscientious student is expected to explain absences to the instructor. Such absences may be due to illness; to participation in inter-college activities certified by the sponsoring faculty member; or other similar types of absence for which the student can present to the instructor evidence that he/she was engaged in authorized University activities. Each instructor, at the beginning of the course, will announce his/her attendance requirements.

Criminal History Check

Michigan Public Act 68 of 1993 Sec. 1230 requires public and nonpublic schools to conduct a criminal history check of new teachers, school administrators, school psychologists and other personnel required to hold State Board of Education approvals. Students interested in becoming certified teachers must supply a statewide criminal history check prior to admission or transfer to the College of Education and again prior to applying for certification. Additional criminal history checks may be required at the discretion of the College. A criminal history check is completed through Castle Branch (http://coe.wayne.edu/pdfs/criminal_history_new.pdf) for a fee.

Any person seeking admission to a teacher certification program who has been convicted of any offense must provide certified copies of all documents relative to his/her conviction, including the Register of Actions from the court(s) in which the matter was adjudicated and a narrative describing each incident from his/her perspective for review by a committee in the College of Education. Persons determined by the criminal history check to have been convicted of any offense and who do not provide required information at the time of application or transfer will have their admission/certification delayed or denied. After review by the College of Education Committee, the applicant will be notified in writing of the Committee's decision.

Note the State Board of Education Teacher Certificate Code: R 390.1201 Certificates; denial, suspension, or revocation.

1. The superintendent of public instruction may refuse to grant or renew, or may suspend for a fixed term, or revoke, or may impose reasonable conditions on, a teaching certificate or state board approval granted pursuant to these rules for the following reasons:
 - a. Fraud, or material misrepresentation, concealment or omission of fact in the application for, or the use of, a teaching certificate or state board approval.
 - b. Conviction of an offense listed in MCL 380.1535a or MCL 380.1539b.
2. The superintendent of public instruction may refuse to grant or renew a teaching certificate or a state board approval for failure or ineligibility of the applicant to meet the criteria for the applicable certification or state board approval.

Dean's List

The College of Education Dean's List is a means of recognizing undergraduate students who have excelled academically in a given semester. The Dean's List will be compiled for each semester in the academic year. Inclusion requires a 3.75 g.p.a. for students enrolled for twelve or more semester credits (full-time). Students registered for six to eleven-semester credits (half-time) must earn a 4.00 g.p.a. Students registered for fewer than six-semester credits are not eligible and students who receive marks of 'I', 'WN', 'WP', 'WF', 'N', or 'U' are not eligible.

Students will be notified of inclusion in the Dean's List by electronic communication. The Dean's List will be displayed in the College of Education for each semester and posted on its website (<http://coe.wayne.edu/student/deans-list.php>).

Graduating with Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude. Graduation with distinction will be indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty percent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

- Summa Cum Laude: Top five percent
- Magna Cum Laude: Next five percent
- Cum Laude: Next ten percent

Specific minimum grade point averages will be determined each year in the following manner: based on the grade point average distributions of the previous year's senior class, the grade point average cutoffs for each College will be established to provide for recognition of the top eighteen to twenty percent of the graduating students. Graduation with distinction will not be awarded in cases of any g.p.a. less than 3.0.

The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University.
2. A qualifying minimum grade point average (calculated as explained above) on all course work at Wayne State University must be completed by the end of the semester of graduation. (For notation in the commencement program, the grade point average on coursework completed prior to the semester of graduation will be used.)

Probation Policy and Withdrawal

University Policy

Effective Fall Term 1988, an undergraduate student whose cumulative g.p.a. falls below 2.00 will be placed on Academic Probation. An Academic Probation status is placed on the student's record and the student shall be permitted to register only after consultation with, and approval has been granted by, a designated University advisor.

The probation status, which blocks registration, may be changed up to the day before classes begin for any given term. Registration for students with a probation status will not be permitted by the advising staff once classes have begun. Because such registration is permitted for one term only, if the student continues on academic probation, they must meet with an advisor each term to permit registration for a future term.

A student shall be given two subsequent terms for enrollment on probationary status. At the conclusion of the two terms, a student who has not achieved a cumulative g.p.a. of at least 2.00 shall be excluded from his/her program. A student excluded from the University may not apply for readmission or reinstatement for one calendar year. Reinstatement is not guaranteed and the application may be denied.

Academic Probation indicates that a student needs to reassess his/ her educational priorities, investigate support services, and/or adjust study habits and techniques. It is important to recognize the warning signs of academic difficulty early in the term so one can seek the appropriate help or make adjustments to their course load or study habits. There are many resources on campus to assist students with academic probation.

College of Education Policy

If, at any time, an undergraduate's overall g.p.a. falls below 2.50, the student is automatically placed on College academic probation. Before registering for the next semester, a student on probation must secure approval from the College Success Coach. The College reserves the right to require a student to withdraw at any time from specific courses or from the College entirely if progress does not warrant a continuance.

Residency Requirement

Applicants for a degree from the College of Education must complete at least thirty credits as a registered student in the College. The student must be in residence (enrolled in courses at Wayne State University) during the semester in which he/she completes requirements for the degree.

Transferred Credits

College credits earned at accredited institutions other than Wayne State University may be transferred by an undergraduate student to meet requirements for the bachelor's degrees in the College, provided:

1. the student has been accepted as a matriculated student in the College;
2. the grades received in courses where transfer is desired have been satisfactory; and,
3. credits so earned are applicable to the student's curriculum.

Students should contact their assigned advisor to discuss transfer of credit.

Students currently enrolled or returning students who have taken courses at another institution, should forward official transcripts to the address below or submitted electronically to admissions@wayne.edu.

Wayne State University
Transfer Credit Evaluation
PO Box 02759
Detroit, MI 48202-0759

Students must consult their advisor prior to registering for any course outside of Wayne State University to discuss the limitations of transferring credits. During the senior year, no more than 10 transfer credits will be accepted.

When the student has a degree from an accredited institution and is meeting the requirements for a Michigan Standard Teaching Certificate, some credits may be applied toward the certificate by transfer but at least fifteen credits must be completed at Wayne State.

Academic Services: College of Education

Office: 489 Education; 313-577-1601

Assistant Dean: Paul W. Johnson

Undergraduate Advising: Fawne Allossery, Shawntae Harris Mintline, Cassandra Tackett, Kurt Troutman, Tanesha Watkins

Undergraduate Success Coach: Daniel Lewis III

Undergraduate Recruitment Coordinator: Jeffrey Lisiecki

Pre-Admission Graduate Advising: LaSondra Dawn, Deborah Gibson, KaRie Jorah-Rood, Mary Waker

Graduate Programs Outreach Specialist: Gloria McDonald

<http://coe.wayne.edu/as/>

Purposes of the Division

The Division of Academic Services in the College of Education is responsible for Undergraduate Advising, Graduate Admissions, Graduation & Certification, Marketing & Communications, Curriculum: Course & Program Proposals, Course Scheduling & the Bulletin, the Education Scholars Alliance Program, and Graduate Faculty Appointments.

Advising Services

Advising in the College of Education is centralized for undergraduate students in the Division of Academic Services and decentralized for graduate students in the four academic divisions of the college: 1) Administrative and Organization Studies, 2) Kinesiology, Health and Sport Studies, 3) Theoretical and Behavioral Foundations, and 4) Teacher Education. Undergraduate students have professional advisors and graduate students are advised by faculty in the student's program. Every student admitted to the College of Education is assigned an advisor.

Undergraduate Advising

Advising at the undergraduate level is from "start to finish" meaning students have the same advisor from the time of admission through graduation. Having the same advisor allows for deeper relationships and connections to form between student and advisor. Start to finish advising results in consistent advising and messaging with students and creates a culture of expectations and accountability, for both the advisor and student. This level of support fosters the student's connection to the university, resourcefulness, and leads to maintaining or improving student persistence towards academic goals.

Undergraduate advisors also engage in group advising efforts by visiting courses taken by students early in their major and making presentations related to program requirements. Advisors utilize and encourage students to take advantage of university tools such as Advising Works, Degree Works, and STARS to maintain satisfactory academic progress.

Undergraduate students are encouraged to meet with the advisor at least once per semester. Students schedule appointments online with their advisor through the university's Advising Works system. In addition, Academic Services provides "Open Advising" each Tuesday from 9:00 am to 4:00 pm. Open Advising is on a first-come, first-serve basis and is an ideal time for students to resolve registration problems, completion of verification forms and appeals, submission of applications and general advising questions. Scheduled appointments are for at least 30 minutes for completion of plans of work, establishing multi-year plans, reviewing student progress toward degree completion, discussion of challenges to matriculation, referral to other university offices and support centers and to keep students focused and on track for completion of degree and certification requirements.

Students seeking admission information should contact Academic Services by calling 313-577-1601, via e-mail at askcoe@wayne.edu, or by attending Open Advising every Tuesday from 9:00 a.m. to 4:00 p.m. in room 489 Education. The Academic Services Office also advises in-service teachers working for professional certification and those seeking additional certificate endorsements.

College Success Coach

The College Success Coach helps students succeed by developing intervention strategies, determining areas of difficulty, and identifying support resources. Students new to the university, on or near probation, struggling with transitioning to college, or experiencing poor academic performance are encouraged to meet with the Success Coach.

The Success Coach will help students succeed in and out of the classroom by establishing a shared vision of student success, identifying the areas in which the student is struggling, and identifying resources to aid with the areas of need:

- Study Strategies
- Career Exploration
- Time Management Strategies
- Stress and Anxiety Relief Techniques
- Goal Setting
- Scholarship Assistance

In addition, the Success Coach provides assistance and resources for students preparing for the Michigan Test for Teacher Certification.

Undergraduate Student Services

In addition to advising, the Division of Academic Services provides the following services to students:

- Degree and certificate audits for graduation.
- Recommendations to the Michigan Department of Education for certification and licensure (see the Certification section below).
- Monitoring of the university's academic probation system.
- Annual Educator Job Placement Fair for PK-12 careers.

Certification

As a liaison to the Michigan Department of Education, the Division of Academic Services recommends candidates for initial certification as teachers, administrators, and school psychologists; approvals for supervisors and directors of Special Education; and licensure for school counselors. Additionally, the division helps candidates secure endorsements to existing teacher and administrator certificates.

Administrative and Organizational Studies

Office: 341 Education Building; 313-577-1728

Interim Assistant Dean: William E. Hill

<http://coe.wayne.edu/aos/index.php> (<http://coe.wayne.edu/aos/>)

The Division of Administrative and Organizational Studies has as its primary goal the development and enhancement of leadership and organizational learning. It is within the scope of this division to study emergent trends, technologies and educational innovations; to develop rationales for supporting educational change; to present viable programs of study for advanced students in education which will enable them to function skillfully as educational leaders in facilitating change, and in developing and conducting on-going programs; and to design and implement learning innovations, and the impact of instructional

methodologies on the improvement of human and organizational performance. The program areas – Educational Leadership and Policy Studies and Learning Design and Technology – are under the guidance of this Division.

- Learning Design and Technology (B.S.) (p. 116)
- Learning Design and Technology Minor (p. 116)

Learning Design and Technology (B.S.)

The Bachelor of Science in Learning Design and Technology prepares students for work in instructional design, development, and implementation. Graduates of the program will be qualified for careers in business, public or private agencies, health care institutions, military or governmental entities, and a variety of community and professional firms. They will be prepared to become instructional developers, corporate training developers, project managers, media specialists, etc. Graduates of this program may also wish to pursue graduate studies in Learning Design and Technology, Administration, or related fields.

Admission Requirements

1. The admission requirements for the undergraduate program in Learning Design and Technology are the same as for admission to the University. Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the College of Education degree program in Learning Design and Technology.
2. Attend a mandatory orientation to the Learning Design and Technology Program (by invitation only).

Candidates for the Bachelor of Science in Education with a major in Learning Design and Technology must complete a minimum of 120 credits. All course work must be completed in accordance with the academic procedures of the College of Education (p. 112) and the University (p. 10) governing undergraduate scholarship and degrees. At graduation, the College of Education requires a minimum 2.5 grade point average.

1. Completion of all General Education Requirements (p. 29). General Education Requirements may be met by transfer of community college courses, the WSU General Education Transfer Policy/MACRAO, MTA, and/or by completing WSU courses.
2. Up to 50 credits of lower-division coursework in any discipline. LDT major coursework builds on previous work in psychology, information management, business, communications, graphic design and many other areas of study.
3. Completion of the College of Education mathematics requirement.
4. Completion of the required Major Courses.
5. A minimum cumulative g.p.a. of 2.5 with no grade below a 'C' in any program course.

Required Major Courses

The following courses are completed at Wayne State University:

Code	Title	Credits
LDT 2015	Introduction to Learning Design and Technology	3
LDT 3115	Instructional Design	3
LDT 3125	Evaluation Techniques and Tools	3
LDT 3135	Practical Project Management	3
LDT 3145	Interactive Course Design	3
LDT 4135	Engaging Presentation and Facilitation Strategies	3
LDT 4145	Digital Games for Learning	3

LDT 4155	Simulations for Learning	3
LDT 4165	Digital Video for Learning	3
LDT 4235	Directed Study in Learning Design and Technology	1-4
LDT 4905	Advanced Seminar in Learning Design and Technology	3
LDT 4920	Internship in Learning Design and Technology	4
LDT 4995	Capstone Seminar in Learning Design and Technology	3
Select two of the following courses for a minimum of 6 credit hours:		
LDT 4195	Emerging Technologies	3
LDT 4310	Next Generation Learning Management Systems	3
LDT 4410	Multi-dimensional Learning Environments	3
LDT 5275	Learning in Organizations	4

College Education Mathematics Requirement

Code	Title	Credits
STA 1020	Elementary Statistics	3

Learning Design and Technology Minor

The Learning Design and Technology Minor is available to undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for non-education majors to broaden their knowledge of the learning and performance improvement disciplines. In addition, the program enhances career prospects and establishes a solid base for pursuing a Master of Education in Learning Design and Technology degree.

The Learning Design and Technology Minor consists of six courses, totaling eighteen credits. To be eligible to apply for the minor, students must have a minimum cumulative g.p.a. of 2.5.

Code	Title	Credits
Required Courses		6
LDT 3115	Instructional Design	
LDT 3125	Evaluation Techniques and Tools	
Select 4 of the 5 following courses:		12
LDT 3145	Interactive Course Design	
LDT 4145	Digital Games for Learning	
LDT 4155	Simulations for Learning	
LDT 4165	Digital Video for Learning	
LDT 4195	Emerging Technologies	
Total Credits		18

Students must achieve a cumulative g.p.a. of 2.5 or better with no grade below 'C' in the 18 minor credits.

Kinesiology, Health and Sport Studies

Office: 2152 Faculty Administration Building; 313-577-4249

Assistant Dean: Nate McCaughtry

<http://www.kinesiology.wayne.edu> (<http://www.kinesiology.wayne.edu/>)

The Division of Kinesiology, Health and Sport Studies offers courses at the undergraduate level leading to Bachelor of Science degrees in Community Health, Exercise and Sport Science, Health and Physical Education Teaching, and Sport Management. The Division also offers minors in Community Health and Sport Management. Additionally, the Division offers courses in Lifestyle Fitness Activities available to all

Wayne State University students. The Lifestyle Fitness Activities (LFA) program is an integral part of the Division; it provides students with the opportunity to enhance physical well-being and to acquire developmental skills, knowledge, and attitudes which can be utilized throughout life. LFA courses are offered to both undergraduate and graduate students; however, these courses are not offered for graduate credit.

- Community Health (B.S.) (p. 118)
- Exercise and Sport Science (B.S.) (p. 119)
- Health and Physical Education Teaching (B.S.) (p. 120)
- Sport Management (B.S.) (p. 121)
- Community Health Minor (p. 117)
- Sport Management Minor (p. 122)
- Yoga and Mindfulness Minor (p. 122)
- Athletic Training AGRADUATE Program (p. 123)

Community Health Minor

The College of Education offers a minor in Community Health (CH) Education for undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for students to broaden their knowledge of the social and behavioral aspects of health promotion and policy. In addition, the program enhances career prospects and establishes a solid base for pursuing a Master of Education in Health Education. To be eligible to apply for the CH Minor, students must have a minimum cumulative grade point average of 2.75.

The Community Health Minor consists of six courses, totaling eighteen credit hours. All coursework must be completed in accordance with the academic procedures of the College of Education (p. 112) and the University (p. 10) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of 'C' or better and an overall 2.5 grade point average, to meet College graduation requirements.

Community Health (B.S.)

The Bachelor of Science in Community Health prepares students for careers in the broad field of community health. Coursework includes training in health topics, intervention development and evaluation, health behavior theory, policy and teaching methods. The program also prepares students to take the Certified Health Education Specialist (CHES) exam, which is given by the National Commission for Health Education Credentialing, Inc. (NCHEC). This credential ensures that students are trained and qualified to plan and coordinate community health education programs. The B.S. in Community Health provides practical field experiences and experiential coursework to prepare students for employment in public or private agencies; local health departments; volunteer organizations; hospitals; health insurance companies; worksite/employee health promotion and wellness programs; and a variety of community-based organizations.

Mission Statement: Our mission is to advance health equity through the preparation of Community Health Education Specialists who explore the multiple levels (individual, family, community, policy, systems) and social determinants that influence behavior and health. Community health professionals focus on the community as the setting for analysis, assessment, advocacy, program planning, intervention, evaluation, and research, and are committed to developing, enhancing and using evidence-informed strategies to improve population health.

Admission Requirements: Admission requirements for this program are satisfied by the general requirements for undergraduate admission to the University.

Advising questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

A minimum of 120 credits are required for completion of this degree: satisfaction of the University General Education Program (p. 29). All coursework must be completed in accordance with the academic procedures of the College of Education (p. 112) and the University (p. 10) governing undergraduate scholarship and degrees. All courses must be completed with grades of 'C' or better and an overall 2.5 grade point average, to meet College graduation requirements. Course changes may occur through periodic curriculum revision and students are urged to consult assigned advisors prior to each registration period to ensure that all requirements are met.

Community Health AGRADE Overview

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Athletic Training (AT), Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Community Health AGRADE program is available to academically strong students completing B.S. degrees in Community Health; Exercise and Sport Science; Health and Physical Education Teaching; and Sport Management so they can begin a master's degree while simultaneously completing their bachelor's degree. Coursework taken during a student's senior year (up to 16 credits) can simultaneously qualify toward the bachelor's and master's degrees. In this case, after completing any bachelor's degree in this division, students would have also completed a substantial portion of the coursework required for the Master of Science in Community Health. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor's programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Community Health to fulfill these elective requirements. Students, in consultation with their advisor, can select Community Health graduate courses that count toward the student's bachelor's and master's degrees. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Community Health AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Community Health master's coursework.

Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Eligible AGRADE Courses

The following table outlines the Community Health master's courses that could be included in an undergraduate plan of work. Students may take up to a maximum of 16 credits from the following list. In addition, other master's courses may qualify as exceptions.

Code	Title	Credits
HE 6350	Health Education and the Nation's Health	3
HE 6530	Principles and Practice of Health Education and Health Promotion	3
HE 6550	Teaching Methods and Techniques in Health Education	3

HE 6420	Introduction to Health Education Program Design	3
KHS 8540	Theories of Health Behavior	3

Exercise and Sport Science (B.S.)

The Exercise and Sport Science degree provides students with a scientific-based curriculum for improving human performance and wellness, and is an ideal preparation for successful entry into a variety of graduate professional programs such as nursing, occupational therapy, physician assistant, physical therapy, athletic training, or medical school.

Students develop application skills for sport and fitness activities, assessment and evaluation of various populations and fitness levels, and human movement systems from all of the subdisciplines of kinesiology (e.g., exercise physiology, exercise and physical activity psychology, motor learning and development, biomechanics, and others). Career options include corporate wellness, exercise physiologist, cardiac rehabilitation, strength and condition coach, and a wide variety of therapeutic exercise and recreation positions.

Admission Requirements: Undergraduate students entering Wayne State University, either from high school or transferring from other accredited universities or colleges, are admitted directly into the bachelor's degree program.

Admission questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

A student must complete all University General Education (p. 29) requirements, all College (p. 112) and program requirements, and a minimum of 120 credits with a cumulative grade point average of 2.50 or higher to earn a bachelor's degree in the College of Education.

No grade below a "C" may be used to meet College requirements, electives, courses in the major or courses in a College of Education minor. Note: All students must receive a "C" or higher in Basic and Intermediate Composition if these requirements are completed or transferred in Fall 2008 or thereafter.

Program Requirements

Elective Requirements (21 credits)

Complete a minimum of 21 semester credits of electives related to the field of Exercise and Sport Science.

- All courses in this list, except for BIO 2870, also satisfy the Natural Scientific Inquiry (NSI) requirement of the University's General Education Program.
- Students are responsible for satisfying the prerequisite and placement requirements prior to enrolling in the listed courses. See the individual courses or contact an advisor for more information.

Honors Program

Students may pursue Departmental Honors in the Exercise and Sport Science major. A minimum 3.30 cumulative GPA and additional coursework are required. For more information, please discuss with your academic advisor.

Exercise and Sport Science AGRADE Overview

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Athletic Training (AT), Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Exercise and Sport Science AGRADE program is available to academically strong students completing B.S. degrees in Community Health; Exercise and Sport Science; Health and Physical Education Teaching; and Sport Management so they can begin a master's degree while simultaneously completing their bachelor's degree. Coursework taken during a student's senior year (up to 16 credits) can simultaneously qualify toward the bachelor's and master's degrees. In this case, after completing any bachelor's degree in this division, students would have also completed a substantial portion of the coursework required for the Master of Science in Exercise and Sport Science. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor's programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Exercise and Sport Science to fulfill these elective requirements. Students, in consultation with their advisor, can select Exercise and Sport Science graduate courses that count toward the student's bachelor's and master's degrees. The graduate coursework

completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Exercise and Sport Science AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Exercise and Sport Science master's coursework.

For more details about the Exercise and Sport Science AGRADE program, contact the Division of Academic Services.

Exercise and Sport Science AGRADE Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Eligible AGRADE Courses and Sequence

The following table outlines the Exercise and Sport Science master's courses that could be included in the undergraduate plan of work. Students may take up to a maximum of 16 credits from the following list. In addition, other courses may qualify as exceptions.

Health and Physical Education Teaching (B.S.)

Degree: Bachelor of Sciences with a major in Health and Physical Education Teaching

Overview: *The B.S. in Health and Physical Education Teaching emphasizes obtaining knowledge in content areas and subdisciplines of Health and Physical Education. Candidates who successfully complete coursework and pass the Michigan Test for Teacher Certification in both content areas receive an initial teaching certificate in Health and Physical Education (grades K - 12) by the Michigan Department of Education.*

The curriculum includes: curriculum development for school Health and Physical Education teaching, implementing developmentally appropriate instructional for diverse learners, assessing Health and Physical Education content knowledge and skill proficiency, using instructional technology effectively, and demonstrating the qualities of a professional educator.

The program prepares candidates to meet proficiencies defined in several accreditation standards:

- The Michigan Interstate Teacher Assessment and Support Consortium (MI InTASC) Model Core Teaching Standards, adopted by the State Board of Education (SBE) in 2013, define the theoretical and practical knowledge, skills, and dispositions that all entry-level

teachers should possess upon completion of an approved teacher preparation program.

- Michigan-specific content standards define the central concepts, tools of inquiry, and structures of the specific discipline(s) in which teacher candidates seek endorsement, as well as pedagogical applications of that disciplinary knowledge." *"Standards for the preparation of Health and Physical Education Teachers in Michigan."*

Admission Requirements: Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the Bachelors program. Admission questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

A minimum of 120 credits are required for completion of this degree: satisfaction of the University General Education Program (p. 29); All course work must be completed in accordance with the academic procedures of the College of Education (p. 112) and University (p. 10) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of 'C' or better and an overall 2.5 grade point average, to meet College graduation requirements. Course changes may occur through periodic curriculum revision and students are urged to consult assigned advisors prior to each registration period to insure that all requirements are met.

Sport Management (B.S.)

The major in sport management leads to a bachelor of science degree and prepares students for entry-level professional positions in the sport industry. Coursework includes industry-specific training in management, marketing, finance, law, governance and ethics. Students will additionally have the opportunity to select from a host of advanced courses that focus on specialized issues related to different segments of the sports industry, including collegiate, interscholastic, professional, and recreation. As a capstone experience, students will apply the knowledge they gained in the classroom to field experiences and internships to maximize their professional preparation. (For additional information, please see the KHS website (<http://coe.wayne.edu/kinesiology/>).

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29), as well as the major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 112) governing undergraduate scholarship and degrees.

Major Requirements

Code	Title	Credits
Required Courses		
SAM 2020	History of Sport	3
SAM 2100	Foundations of Sport Management	3
SAM 3010	Ethics in Sport	3
SAM 3020	Sociology of Sport	3
SAM 4030	Sport Finance	3
SAM 4020	Sport Governance	3

SAM 6530	Professional Sport Administration	

Elective Courses ¹	25
Total Credits	62-67

¹ Elective credits (a minimum of twenty-five credits) will be selected by the student in consultation with the advisor. No more than four credits from Lifestyle Fitness Activity (LFA) courses can be used towards elective credits. Students should consult their advisor for further information and prior to registering for any elective courses not listed on the curriculum guide or Plan of Work.

Sports Administration AGRADE Overview

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Athletic Training (AT), Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Sports Administration AGRADE program is available to academically strong students completing B.S. degrees in Community Health; Exercise and Sport Science; Health and Physical Education Teaching; and Sport Management so they can begin a master's degree while simultaneously completing their bachelor's degree. Coursework taken during a student's senior year (up to 16 credits) can simultaneously qualify toward the bachelor's and master's degrees. In this case, after completing any bachelor's degree in this division, students would have also completed a substantial portion of the coursework required for the Masters of Arts (M.A.) in Sports Administration. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor's programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Sports Administration to fulfill these elective requirements. Students, in consultation with their advisor, can select Sports Administration graduate courses that count toward the student's bachelor's and master's degrees. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Sports Administration AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Sports Administration Masters coursework.

Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Eligible AGRADE Courses

The following table outlines the Sports Administration master's courses that could be included in an undergraduate plan of work. Students may take up to a maximum of 16 credits from the following list. In addition, other master's courses may qualify as exceptions.

Code	Title	Credits
SAM 6410	Introduction to Sports Administration	3
SAM 6570	Sports Marketing	3

SAM 6660	Risk Management in Physical Education and Sports	3
SAM 6661	Equity and Access in Sport	3
SAM 7540	Concepts of Management in Health, Physical Education and Recreation	3
SAM 7581	Sport Finance	3

Sport Management Minor

The College of Education offers a minor in Sport Management for undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for students to broaden their knowledge of the sport industry and the managerial practices unique to sports. In addition, the program enhances career prospects and establishes foundational knowledge for pursuing a Master of Arts in Sports Administration. To be eligible to apply for the minor, students must have a minimum cumulative grade point average of 2.5.

The Sport Management Minor consists of six courses, totaling eighteen credit hours. All course work must be completed in accordance with the academic procedures of the College of Education (p. 112) and University (p. 10) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of 'C' or better and an overall 2.5 grade point average, to meet College graduation requirements.

Yoga and Mindfulness Minor

The Division of Kinesiology, Health and Sport Studies in the College of Education offers a minor in Yoga and Mindfulness for undergraduate and graduate students majoring in any discipline. The minor provides an excellent opportunity for students to broaden their knowledge of yoga and mindfulness philosophy, practice and teaching skills. In addition, the

program enhances career prospects across all professions as students learn how to integrate and design yoga and mindfulness activities and programs within their area of study. As restorative practices, yoga and mindfulness enables anyone working in health care, social work, education, exercise, etc. professions to practice self care and better serve the individuals they service in their respective careers. To be eligible to apply for the Yoga and Mindfulness minor, students must have a minimum overall grade point average of 2.75.

For advising regarding the yoga and mindfulness minor, students with last names A-K should contact Fawne Allossery (ac9010@wayne.edu). Students with last names L-Z should contact Kurt Troutman (fz4394@wayne.edu).

The Yoga and Mindfulness minor allows students in any department across all schools and colleges at WSU to add yoga and mindfulness skills and knowledge as an added credential to their degree programs. The addition of a Yoga and Mindfulness minor will expand employment opportunities and add expertise in yoga and mindfulness philosophy and theory, holistic health promotion, knowledge of body movement and mechanics, and leading others in yoga and mindfulness programs in many different career settings.

The minor is a minimum of 15 credit hours consisting of the courses listed below (9 credit hours of required cores and 6 credit hours of elective courses). The electives allow the student to further develop yoga and mindfulness skills by applying them to specific content areas. Additional courses can qualify as electives in consultation with an advisor in the Division of Academic Services in the College of Education.

Athletic Training AGRADE Program

Athletic Training AGRADE Overview

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Athletic Training (AT), Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Athletic Training AGRADE program is available to academically strong students completing B.S. degrees in Community Health; Exercise and Sport Science; Health and Physical Education Teaching; and Sport Management so they can begin a master's degree while simultaneously completing their bachelor's degree. Coursework taken during a student's senior year (up to 16 credits) can simultaneously qualify toward the bachelor's and master's degrees. In this case, after completing any bachelor's degree in this division, students would have also completed a substantial portion of the coursework required for the Master of Science (M.S.) in Athletic Training. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor's programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Athletic Training to fulfill these elective requirements. Students, in consultation with their advisor, can select Athletic Training graduate courses that count toward the student's bachelor's and master's degrees. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Athletic Training AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Athletic Training Masters coursework.

Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Athletic Training AGRADE Courses

The following M.S. in Athletic Training courses can be included in a bachelor's plan of work in any KHS degree. It is important to note that the M.S. in Athletic Training degree is offered in a sequential progression with new cohorts starting each spring/summer term. Therefore, undergraduate students seeking admission to the Athletic Training AGRADE program must plan their coursework accordingly. Students may

choose up to a maximum of 16 credits including the following (contact an advisor for additional course options):

Code	Title	Credits
ATR 5110	Pathophysiology of Sports Injuries	3
ATR 5115	Acute Care of Athletic Injuries	3
ATR 5125	Orthopedic Assessment	3
ATR 5130	Therapeutic Interventions I	3
ATR 5149	Pre-Season Integrative Experience I	1

Teacher Education

Office: 241 Education Building; 313-577-0902
<http://coe.wayne.edu/ted> (<http://coe.wayne.edu/ted/>)

Michigan Standard Teaching Certificate (Education) - Bachelor's Degree Requirements

Candidates for the Bachelor of Arts or Bachelor of Science degree in Education must complete at least 120 credits in coursework with a minimum grade point average of 2.5. No grade below a 'C' may be used to meet requirements specific to elementary or secondary education, the major, the minor (including the planned program/comprehensive major), or professional education courses; a grade of 'C-minus' is not acceptable.

The following outline presents the general distribution of credits to be fulfilled by the student's choice of curricula from the subsequent program descriptions, below. NOTE: Some programs require more than 120 credits; note also the addendum cited below for the Bachelor of Arts degree.

- Forty credits in pre-professional coursework including 6-8 credits in English to fulfill Basic and Intermediate Composition requirements and courses specified by individual program areas.
- Completion of the appropriate professional education sequence.
- Completion of teaching majors and teaching minors appropriate to the student's intended level of certification.
- Three credits in personal health, first aid, health of the school child, or comprehensive school health education.
- Completion of University General Education Requirements (see General Education Program).
- Michigan Test for Teacher Certification (required for state certification):
 - Elementary Education:* Elementary Education Test. Examination in additional major/minor subject area(s) is also highly recommended.
 - Secondary Education:* Tests in major (required) and minor (recommended) subject areas.
 - Special Education (Cognitive Impairment):* Elementary Education and Cognitive Impairment Tests.
- Current certification in First Aid and Adult and Child CPR as verified by the Certification Office from a provider approved by the Michigan Department of Education (required for state certification).

BACHELOR OF ARTS in EDUCATION Language Requirement: In addition to the above requirements, the Bachelor of Arts degree requires completion of a foreign language through the intermediate level.

Teaching Certificates (Michigan)

The Michigan Department of Education issues two basic teaching certificates: elementary and secondary. The elementary certificate authorizes an individual to teach all subjects in grades kindergarten through five, major and minor subject areas in grades six through

eight, and all subjects in grades K-8 in a self-contained classroom. The secondary certificate authorizes an individual to teach his/her major and minor subject areas in grades six through twelve. Some majors, such as art, music, health and physical education, and foreign language education (Arabic, French, and Spanish), cover all grades, kindergarten through twelve.

Teaching Certification Requirements

All secondary certificates require an academic major in a subject areas such as English, mathematics, science, or social studies, approved for teaching in grades six through twelve by the State Board of Education. A minor is recommended. An elementary certificate requires a minimum of one academic major or a student-centered minor or major and the Planned Program/Comprehensive Major.

Students are recommended for certification after earning a bachelor's degree from a regionally-accredited institution and completing a specified sequence of professional courses in the College of Education. Holders of a bachelor's degree may also earn a teaching certificate in a post-bachelor certification program or Master of Arts in Teaching program. Additional information about these programs can be obtained from the Office of Academic Services in room 489 Education.

Certification for Post-Baccalaureate Students

A college graduate holding the bachelor's or master's degree may qualify for a teaching certificate by completing a Master of Arts in Teaching degree program, or by completing a recognized post-degree program. See the Wayne State University Graduate Bulletin for general requirements for the Master of Arts in Teaching degree. The student may need to supplement previous degree work in order to satisfy major and minor provisions of the Michigan certification code.

Teaching Certificate Endorsements

Teaching endorsements may be added to any certificate. An individual may add endorsements by completing requirements for academic majors and/or minors in accordance with State regulations. An individual holding an elementary certificate may also earn an endorsement to teach at the secondary level, and vice versa. When adding an additional endorsement, the individual must also pass the Michigan Test for Teacher Certification in that subject area.

Holders of certificates may add an additional endorsement in a content area or in a specialty area. Content areas include English, Language Arts, Mathematics, Science, Social Studies, etcetera. Content endorsements are generally completed with undergraduate coursework in a post-bachelor status. Specialty areas are endorsements seen as more pedagogical or based upon a specific setting in which a subject is taught. A few examples of specialty endorsements are Special Education, Early Childhood Education, English as a Second Language, and Bilingual Education. Many of the specialty endorsements are completed as part of a graduate program and may include only graduate coursework.

For more information regarding adding an endorsement, consult an advisor in the Division of Academic Services, 489 Education Building.

Application for an endorsement must be made within five years after endorsement requirements have been met. State examinations must be passed for all new endorsements.

Office of Educational Partnerships and Experiences

Director: Ahlam Moughania, Ed.D.

Office: 221 Education Building; 313-577-1644

Prerequisite requirements for student teaching eligibility are:

1. Admission to the College of Education.
2. Completion of course work in teaching major and minor(s) with grades of 'C' or better.
3. Passing of appropriate tests on the Michigan Test for Teacher Certification (MTTC).
4. Satisfactory completion of required courses in the professional education sequence with grades of 'C' or better.
5. Current negative tuberculosis test result.

NOTE: In addition to the above prerequisites, students completing certification requirements directly through the Michigan Department of Education or another university must complete a minimum of six semester credits in the Wayne State University College of Education prior to placement in a student teaching assignment.

Application Procedures

Submit completed application forms to the Office of Educational Partnerships and Experiences prior to the deadline of the appropriate application period (see below).

Application Deadlines

If you want to intern during FALL TERM, materials must be filed online by March 15.

If you want to intern during WINTER TERM, materials must be filed online by September 15.

Advising Offices

Information, written descriptions of programs, and referrals to advisors may be obtained from the following advising offices:

- Health and Physical Education, Room 260, Matthaei Building
- Music Education, 1321 Old Main
- All other programs, Room 489, Education Building

Technology Expectations

The College of Education expects that each initial teacher certification candidate will own or have ready access to a computer (desktop, laptop, and/or mobile device). Throughout their academic program, teacher certification candidates will use a variety of technologies to develop their portfolios, to create multi-media projects to demonstrate knowledge, to create audio and video files, to communicate globally, and to participate in group projects using collaborative tools. Most importantly, however, by using a variety of technologies to progress successfully through their own academic programs, prospective teachers learn how to appropriately use technology as a tool to support teaching and learning, skills that are critical to effective teaching in 21st-century classrooms. At graduation, teacher candidates are expected to have technology skills that will facilitate and inspire student learning and creativity, enable development of digital age learning experiences and assessments, promote digital citizenship and responsibility, and use digital tools and resources to engage in professional growth and leadership. A teacher who possesses such innovative technology knowledge and skills for classroom application is an attractive employment candidate to any school district.

Bachelor of Arts in Education - Elementary Education Education (Elementary) Leading to K-8 Certification (Bachelor's Degree Programs)

The elementary certificate qualifies the holder to teach all subjects in kindergarten through grade five and all K-8 subjects in a self-contained classroom. Additionally, the major and minor subjects may be taught if the teacher has passed the MTTC subject test.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.
2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 30) requirement prior to admission.
3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).
6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110
7. Special Education: Students seeking admission to Special Education must have completed the following courses:

Code	Title	Credits
MAT 1110	Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)	3
PSY 1010	Introductory Psychology	4
PSY 2400	Developmental Psychology	4
Select one of the following:		3-4
BIO 1030	Biology Today	
BIO 1050	An Introduction to Life	
BIO 1500	Basic Life Diversity	
BIO 1510	Basic Life Mechanisms	
SCE 5010	Biological Sciences for Elementary and Middle School Teachers	

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major
9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

DEGREE REQUIREMENTS (K-5 all subjects, K-8 self-contained certification)

All students must complete the College Requirements and the Planned Program/Comprehensive Major as outlined below. Students have a choice of selecting a core major or a student-centered minor (i.e. Bilingual-Bicultural Education, Early Childhood, English as a Second Language). Some of the courses cited in the following curricula may satisfy the University General Education Requirements (p. 29) AND requirements in the major and minor. No grade below 'C' may be used to meet requirements specific to elementary education, the major, the minor (including the planned minor), or professional education courses; a grade of 'C-minus' is not acceptable.

² All students enrolling in the Early Childhood program must have a Major or Minor in Early Childhood and must complete two semesters of student teaching; for requirements see EARLY CHILDHOOD SPECIALIZATION (Minimum Twenty-four Credits)

Early Childhood General and Special Education Concentration (non-certification option)

This concentration enables students to qualify for positions in Early Childhood Education (ECE) as lead teachers in infant/toddler and

preschool educational settings. Students will earn a Bachelor of Arts in Elementary Education with a concentration in Early Childhood General and Special Education. The program is designed for persons interested in working with young children birth-to-five years old and their families. The program is a minimum of 120 credit hours and the focus of the curriculum is on the growth and development of the young child including children who have developmental delays or disabilities, and the influence of family and society dynamics on the child's development and learning. The ECE curriculum includes the theories, principles, development, and evaluation of relationship-based learning and teaching in early childhood intervention and education settings; as well as assessment and teaching strategies, materials and equipment for physical, social, language/communication, emotional, and intellectual development for all young children. Support systems for children and their families are examined to promote healthy development and learning. A field experience is required.

Bachelor of Arts in Education - Secondary Education

Education (Secondary) Leading to Grades 6 - 12 Certification (Bachelor's Degree Programs)

The secondary education curriculum leads to a bachelor's degree in education and secondary school teaching certification in the major and minor areas listed below. Whereas this degree is granted by the College of Education, students also have the option of earning secondary school certification in conjunction with a bachelor's degree from the College of Fine, Performing and Communication Arts or the College of Liberal Arts and Sciences. For information regarding these combined degree programs, see an advisor. No grade below 'C' may be used to meet requirements specific to secondary education, the major, the minor (including the planned minor), or professional education courses; a grade of 'C-minus' is not acceptable.

All students must complete the College Requirements, Level 2 Education Requirements and a major area of study, as outlined below. Students may also complete the requirements for a minor area of study.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.
2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 30) requirement prior to admission.
3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).
6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110
7. Special Education: Students seeking admission to Special Education must have completed the following courses:

Code	Title	Credits
MAT 1110	Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)	3
PSY 1010	Introductory Psychology	4
PSY 2400	Developmental Psychology	4
Select one of the following:		3-4
BIO 1030	Biology Today	
BIO 1050	An Introduction to Life	
BIO 1500	Basic Life Diversity	
BIO 1510	Basic Life Mechanisms	
SCE 5010	Biological Sciences for Elementary and Middle School Teachers	

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major
9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

Level 1 Requirements

The following courses and course options are required of all students seeking secondary (grades 6-12) certification regardless of selection of major or minor studies. Some of these courses may also satisfy the University General Education Requirements (p. 29).

College Requirements

Code	Title	Credits
Choose One of the Following		
PS 1010	American Government ¹	
or PS 1030	The American Governmental System	
Choose One of the Following		
PSY 1010	Introductory Psychology

HE 6500	Secondary Health Methods	
LFA 2330	First Aid and CPR	

Required Introductory Course	
TED 2250	Becoming an Urban Educator

Level 2 Education Requirements (Grades 6-12 Certification)

Code Title Credits

The following courses are required of all students seeking secondary (grades 6-12) certification. The selection of courses to fulfill the methods requirements is predicated on the student's choice of major/minor.

The following courses may be taken in Level 1 or 2:

BBE 5000	Multicultural Education in Urban America	
SED 5010	Inclusive Teaching	
TED 6020	Computer Applications in Teaching I	

The following courses may be elected at any time after admission to Level 2 and must be completed prior to TED 5780:

EHP 3600	Introduction to the Philosophy of Education	
EDP 5480	Adolescent Psychology	
RLL 6121	Teaching Reading in the Content Areas: Grades 6-12	
TED 5650	Pre-Student Teaching Field Experience for Secondary Majors	

Teaching methods in the major (two courses) 6

Teaching methods in the minor (one course) 3

Final clinical experience

TED 5780	Directed Teaching and Conference

Methodology Requirements		
SCE 5060	Methods and Materials of Instruction in Secondary School Science I	3
SCE 5070	Methods and Materials of Instruction in Secondary School Science II	3

Total Credits **66**

Economics: Teaching Major

(Minimum 36 credit hours)

Courses include:

Code	Title	Credits
Content Area Requirements		
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
ECO 5100	Introductory Statistics and Econometrics	4
ECO 5300	International Trade	4
or ECO 5310	International Finance	
ECO 5400	Labor Economics	4
Economics Elective at or above the 5000 level		4
Economics Elective at or above the 5000 level		4
Methodology Requirements		
SSE 6710	Methods and Materials of Instruction in Secondary Social Studies	3
SSE 6730	New Perspectives in Social Studies Education	3

English: Teaching Major

(Minimum 36 credit hours)

Code	Title	Credits
Content Area Requirements		
ENG 2200	Shakespeare	3
ENG/AFS 2390	Introduction to African-American Literature: Literature and Writing	3
ENG 3110	English Literature to 1700	3
ENG 3120	English Literature after 1700	3
ENG 3130	American Literature to 1865	3
ENG 3140	American Literature after 1865	3
ENG 5420	American Literature: 1865-1914	3
or ENG 5450	Modern American Literature	
ENG 5720	Linguistics and Education	3
ENG 5730	English Grammar	3
ENG 6010	Tutoring Practicum	3
Methodology Requirements		
EED 5200	Methods of Teaching English: Grades 7-12	3
EED 6120	English Composition in Secondary Schools	3
or EED 6330	Teaching Literature in Secondary Schools	
Total Credits		36

French K-12: Teaching Major

(Minimum 45 credit hours)

Students must score at the Advanced Low Level in French, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL)

French: Teaching Major

(Minimum 36 credit hours)

Students must score at the Advanced Low Level in French, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL)

History: Teaching Major

(Minimum 36 credit hours)

Code	Title	Credits
Content Area Requirements		
HIS 1000	World Civilization to 1500	3-4
HIS 1300	Europe and the World: 1500-1945	3-4
HIS 1400	The World Since 1945	3-4
HIS 2040	American Foundations to 1877	3-4
HIS 2050	Modern America: Since 1877	3-4
HIS 2240	History of Michigan	3-4
HIS 3140	African American History I: 1400-1865	3-4
HIS 3150	African American History II: 1865-1968	3-4
History Elective at or above the 3000 level		3
History Elective at or above the 3000 level		3
Methodology Requirements

SSE 6730	New Perspectives in Social Studies Education	3
Total Credits		36-44

Integrated Science: Teaching Major

Integrated Science is defined by the Michigan Department of Education as a comprehensive major. A teaching minor is not required.

Code	Title	Credits
Content Area Requirements		
Biology (five courses for twenty credits)		
BIO 1500	Basic Life Diversity	4
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
BIO 3070	Genetics	4
BIO 4120	Comparative Physiology	4
Chemistry (four courses, plus labs for seventeen credits)		
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	5
SCE 6010	Safety in the Science Classroom	2
Physics (three courses, plus corequisite labs for twelve credits)		
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory	5

PHY 2140 & PHY 2141	Physics for the Life Sciences II and Physics for the Life Sciences Laboratory	5
PHY 5015 & PHY 3310	Non-classical Physics for Educators and Introductory Modern Physics Laboratory	5
Earth/Space Science (three courses, plus lab for twelve credits)		
AST 2010 & AST 2011	Descriptive Astronomy and Descriptive Astronomy Laboratory	5
GEL 1010	Geology: The Science of the Earth	3
GEL 1011	Geology: The Science of the Earth Laboratory	1
GEL 1370	Meteorology: The Study of Weather	3
Additional Requirements		
MAT 1800	Elementary Functions	4
Elective in: Mathematics or Computer Science		2
Methodology Requirements		
SCE 5060	Methods and Materials of Instruction in Secondary School Science I	3
SCE 6030	Advanced Studies in Teaching Science in the Junior High and Middle School	3
Total Credits		77

Mathematics: Teaching Major

(Minimum 47 credit hours)

Code	Title	Credits
Content Area Requirements		
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
MAT 2860	Discrete Mathematics	3
MAT 5000	Fundamental Concepts of Mathematics and Proof Writing	3
Select one of the following:		3-4
MAT 5070	Elementary Analysis	
MAT 5400	Elementary Theory of Numbers	
MAT 5520	Introduction to Topology	
Select One of the Following		4
MAT 5420	Algebra I	
MAT 6170	Algebra: Ring Theory Through Exploration, Conjecture, and Proof	
MAT 6140	Geometry: An Axiomatic Approach	3
MAE/MAT 6200	Teaching Arithmetic, Algebra and Functions from an Advanced Perspective	3
MAE/MAT 6210	Teaching Geometry, Probability and Statistics, and Discrete Mathematics from an Advanced Perspective	3
STA 2210	Probability and Statistics	4
Methodology Requirements		
MAE 5150	Methods and Materials of Instruction: Secondary School Mathematics	3
MAE 6050	Teaching Mathematics in the Middle Grades	3
Total Credits		47-48

Physics: Teaching Major

Code	Title	Credits
Content Area Requirements		
PHY 2170	University Physics for Scientists I	4

PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
PHY 3300	Introductory Modern Physics	3
PHY 3310	Introductory Modern Physics Laboratory	2
PHY 5200	Classical Mechanics I	3
PHY 5340	Optics	3
PHY 5341	Optics Laboratory	2
PHY 5620	Electronics and Electrical Measurements	3
PHY 6600	Electromagnetic Fields I	3

Additional Science Requirements

BIO 1050	An Introduction to Life	4
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
SCE 6010	Safety in the Science Classroom	2

SSE 6730	New Perspectives in Social Studies Education	3
Total Credits		36

Social Studies (Comprehensive): Teaching Major

(Minimum 60 credit hours)

A comprehensive major, as defined by the Michigan Department of Education, does not require a teaching minor. Courses include:

Code	Title	Credits
Content Area Requirements		
ECO 2010	Principles of Microeconomics	3
ECO 2020	Principles of Macroeconomics	3
GPH 1100	World Regional Patterns	4
GPH 2000	Introduction to Urban Studies	4
GPH 2200	Geography of Michigan	3
HIS 1000	World Civilization to 1500	3
HIS 1300	Europe and the World: 1500-1945	3
HIS 1400	The World Since 1945	3
HIS 2040	American Foundations to 1877	3
HIS 2050	Modern America: Since 1877	3
HIS 2240	History of Michigan	3
PS 1010	American Government	4
PS 2420	Ethics and Politics of Public Policy	4
PS 2820	Introduction to Peace and Conflict Studies	3
PS 3070	Michigan Politics	4
Methodology Requirements		
SSE 6710	Methods and Materials of Instruction in Secondary Social Studies	3
SSE 6730	New Perspectives in Social Studies Education	3

Social Studies (Group): Teaching Major

(Minimum 42 credit hours)

Code	Title	Credits
Content Area Requirements		
ECO 2010	Principles of Microeconomics	3-4
ECO 2020	Principles of Macroeconomics	3-4
GPH 1100	World Regional Patterns	4
GPH 2200	Geography of Michigan	3
HIS 1000	World Civilization to 1500	3-4
HIS 1300	Europe and the World: 1500-1945	3-4
HIS 2040	American Foundations to 1877	3-4
HIS 2050	Modern America: Since 1877	3-4
HIS 2240	History of Michigan	3-4
PS 1010	American Government	4
PS 3070	Michigan Politics	4
Methodology Requirements		
SSE 6710	Methods and Materials of Instruction in Secondary Social Studies	3
SSE 6730	New Perspectives in Social Studies Education	3
Total Credits		42-49

Spanish K-12: Teaching Major

(Minimum 45 credit hours)

Students must score at the Advanced Low Level in Spanish, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL)

Code	Title	Credits
Content Area Requirements		
SPA 3025	Cultural Connections, Grammar and Composition II	3
SPA 3200	Conversation	3
SPA 3300	Introduction to Cultural and Literary Analysis	3
SPA 4610	Introduction to Early Modern Spanish Literature	3

or SPA 4620	Introduction to Modern and Contemporary Spanish Literature	
SPA 4630	Introduction to Colonial Latin American Literature	3
or SPA 4640	Introduction to Modern and Contemporary Latin American Literature	
SPA 5100	Advanced Composition	3
SPA 5200	Spanish Phonetics	3
Select one of the following:		3
SPA 5550	Spanish Culture and Its Tradition	
SPA 5560	Spanish American Cultures and their Traditions	
SPA 5570	Topics in Hispanic Culture or Language	
SPA 6400	Introduction to Hispanic Linguistics	3
SPA 6560	Cervantes	3
or SPA 6620	Latin American Novel in the 20th and 21st Centuries	
Methodology Requirements		
LED 6520	Teaching English as a Second Language/Foreign Language: Methods I	3
LED 6530	Teaching English as a Second Language/Foreign Language: Methods II	3
Additional Requirements		
EDP 5480	Adolescent Psychology	3
RLL 6700	Second Language Literacy Development: K-12	3
Total Credits		42

Spanish: Teaching Major

(Minimum 36 credit hours)

Students must score at the Advanced Low Level in Spanish, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL)

Code	Title	Credits
Content Area Requirements		
SPA 3025	Cultural Connections, Grammar and Composition II	3
SPA 3200	Conversation	3
SPA 3300	Introduction to Cultural and Literary Analysis	3
SPA 4610	Introduction to Early Modern Spanish Literature	3
or SPA 4620	Introduction to Modern and Contemporary Spanish Literature	
SPA 4630	Introduction to Colonial Latin American Literature	3
or SPA 4640	Introduction to Modern and Contemporary Latin American Literature	
SPA 5100	Advanced Composition	3
SPA 5200	Spanish Phonetics	3
Select one of the following:		3
SPA 5550	Spanish Culture and Its Tradition	
SPA 5560	Spanish American Cultures and their Traditions	
SPA 5570	Topics in Hispanic Culture or Language	
SPA 6400	Introduction to Hispanic Linguistics	3
SPA 6560	Cervantes	3
or SPA 6620	Latin American Novel in the 20th and 21st Centuries	
Methodology Requirements		
LED 6500	Teaching World Languages in Elementary and Middle Schools: Methods III	3
LED 6520	Teaching English as a Second Language/Foreign Language: Methods I	3
Total Credits		36

Trade and Industry: Teaching Major

(Minimum 36 credit hours)

Requires a second academic teaching major; a teaching minor is not required.

Code	Title	Credits
Content Area Requirements		
The required coursework varies by the specific occupational area. Examples of occupational areas include: Drafting & Design Technology, Construction Trades, Automobile Technician, Machine Tool Operations/Machine Shop, Welding, Woodworking General, etc... See an advisor for more information.		
Methodology Requirements		
CTE 5501	Instructional Practices for the Teacher Cadet Classroom - Module 1	1
CTE 5502	Instructional Practices for the Teacher Cadet Classroom - Module 2	1
CTE 5503	Instructional Practices for the Teacher Cadet Classroom - Module 3	1
CTE 5504	Instructional Practices for the Teacher Cadet Classroom - Module 4	1
CTE 5505	Instructional Practices for the Teacher Cadet Classroom - Module 5	1
CTE 5506	Instructional Practices for the Teacher Cadet Classroom - Module 6	1

Visual Arts Education: Teaching Major

(Minimum of 57 credit hours in Foundation, Intermediate, Advanced Studio/Methodology courses; Minimum of 23 credit hours in Professional Education and Student Teaching courses)

A comprehensive major, as defined by the Michigan Department of Education, does not require a teaching minor.

This program is designed to provide professional preparation for individuals who seek K-12 certification in visual arts education. Students in this program receive the Michigan Secondary Provisional Teaching Certificate. It is recommended that students plan their coursework in advance with an advisor as accurately as possible to avoid extra courses or conflicts.

The program for visual arts education consists of University General Education Requirements (Competency Requirements and Group Requirements) for which see General Education Program: College Requirements; a teaching major of visual arts education with foundational, intermediate, and advanced studio coursework; and a sequence of professional education courses including one semester of half-day student teaching and one semester of full-day student teaching. The policy of the College of Education is to provide teaching experiences in both an urban and a suburban setting.

For specific course selections students should consult the College of Education advisor in room 469, Education Building.

Arabic: Teaching Minor

(Minimum 27 credit hours)

Students must score the Intermediate High Level in Arabic, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL).

Code	Title	Credits
Content Area Requirements		
ARB 3110	Advanced Arabic I	3
ARB 3120	Advanced Arabic II	3
ARB 3210	Spoken Arabic	3
ARB/NE 5230	Structure of Arabic	3
ARB 5140	Modern Arabic Literature in Arabic and English	3
NE 3040/ HIS 3320	Twentieth Century Middle East	3
NE/ANT 3550	Arab Society in Transition	3
Methodology Requirements		
LED 6520	Teaching English as a Second Language/Foreign Language: Methods I	3
Total Credits		24

Bilingual-Bicultural Education: Teaching Minor

(Minimum 23 credit hours)

Students must demonstrate superior proficiency (speaking, reading, and writing) in a non-English language as measured by the Oral Proficiency Interview (OPI) and Writing Proficiency Test (WPT) from the American Council on the Teaching of Foreign Languages. (ACTFL).

Code	Title	Credits
BBE 5500	Introduction to Bilingual/Bicultural Education	3
BBE 6560	Teaching Methods in Bilingual/Bicultural Education	3
BBE 6850	Applied Linguistics: Issues in Bilingual Education	3
BBE 6590	Culture and Language in Bilingual/Bicultural Education	3
LED 6520	Teaching English as a Second Language/Foreign Language: Methods I	3
LED 6555	Integration of Language and Content in Language Teaching	3
RLL 6700	Second Language Literacy Development: K-12	3
Total Credits		21

Note: An internship in Bilingual/Bicultural Teaching (BBE 6600) may be required. Students should consult their advisor for more information.

Biology Teaching Minor

Code	Title	Credits
Content Area Requirements		
BIO 1500	Basic Life Diversity	4
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
BIO 2870	Anatomy and Physiology	5
BIO 3070	Genetics	4

Bachelor of Arts in Education - Special Education

The special education curriculum leads to a bachelor's degree in education and certification in the area of cognitive impairment.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.
2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 30) requirement prior to admission.
3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).
6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110
7. Special Education: Students seeking admission to Special Education must have completed the following courses:

Code	Title	Credits
MAT 1110	Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)	3

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major
9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education

must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

All students must complete University General Education Requirements (p. 29), the Special Education Comprehensive Major (some of these courses may also satisfy the University General Education Requirements), Professional Education Requirements and the major area of study (Special Education Cognitive Impairment) as outlined below. The total number of credit hours for the degree varies from 153 to 156 depending on how General Education Requirements are met and the number of courses needed to complete a foreign language to the intermediate level.

No grade below 'C' may be used to meet any requirement specific to the Comprehensive Major, Professional Education Sequence and the Special Education major.

TED 5790	Directed Teaching and Conference for Special Groups	6
Total Credits		30

Bachelor of Science in Education - Elementary Education

Education (Elementary) Leading to K-8 Certification (Bachelor's Degree Programs)

The elementary certificate qualifies the holder to teach all subjects in kindergarten through grade five and all K-8 subjects in a self-contained classroom. Additionally, the major and minor subjects may be taught if the teacher has passed the MTTC subject test.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or

above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 30) requirement prior to admission.
3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).
6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110
7. Special Education: Students seeking admission to Special Education must have completed the following courses:

Code	Title	Credits
MAT 1110	Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)	3
PSY 1010	Introductory Psychology	4
PSY 2400	Developmental Psychology	4
Select one of the following:		3-4
BIO 1030	Biology Today	
BIO 1050	An Introduction to Life	
BIO 1500	Basic Life Diversity	
BIO 1510	Basic Life Mechanisms	
SCE 5010	Biological Sciences for Elementary and Middle School Teachers	

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major
9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

DEGREE REQUIREMENTS (K-5 all subjects, K-8 self-contained certification): The following requirements in various curricular areas supplement the degree requirements outlined above.

All students must complete the College Requirements and the Planned Program/Comprehensive Major as outlined below. Students have a choice of selecting a core major or a student-centered minor (i.e. Bilingual-Bicultural Education, Early Childhood, English as a Second

Language). Some of the courses cited in the following curricula may satisfy the University General Education Requirements (p. 29) AND requirements in the major and minor. No grade below 'C' may be used to meet requirements specific to elementary education, the major, the minor (including the planned minor), or professional education courses; a grade of 'C-minus' is not acceptable.

TED 5790	Directed Teaching and Conference for Special Groups ⁷

¹ Courses are taken in public schools in the Detroit metropolitan area. All of the courses in the professional sequence must be completed before entering TED 5780.

Early Childhood General and Special Education (non-certification option)

This concentration enables students to qualify for positions in Early Childhood Education (ECE) as lead teachers in infant/toddler and preschool educational settings. Students will earn a Bachelor of Science in Elementary Education with a concentration in Early Childhood General and Special Education. The program is designed for persons interested in working with young children birth-to-five years old and their families. The program is 120 credit hours and the focus of the curriculum is on the growth and development of the young child including children who have developmental delays or disabilities, and the influence of family and society dynamics on the child's development and learning. The ECE curriculum includes the theories, principles, development, and evaluation of relationship-based learning and teaching in early childhood intervention and education settings; as well as assessment and teaching strategies, materials and equipment for physical, social, language/communication, emotional, and intellectual development for all young children. Support systems for children and their families are examined to promote healthy development and learning. A field experience is required.

Bachelor of Science in Education - Secondary Education

Education (Secondary) Leading to Grades 6 - 12 Certification (Bachelor's Degree Programs)

The secondary education curriculum leads to a bachelor's degree in education and secondary school teaching certification in the major and minor areas listed below. Whereas this degree is granted by the College of Education, students also have the option of earning secondary school certification in conjunction with a bachelor's degree from the College of Fine, Performing and Communication Arts or the College of Liberal Arts and Sciences. For information regarding these combined degree programs, see an advisor. No grade below 'C' may be used to meet requirements specific to secondary education, the major, the minor (including the planned minor), or professional education courses; a grade of 'C-minus' is not acceptable.

All students must complete the College Requirements, Level 2 Education Requirements, and a major area of study.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.
2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 30) requirement prior to admission.
3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).
6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110
7. Special Education: Students seeking admission to Special Education must have completed the following courses:

Code	Title	Credits
MAT 1110	Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)	3
PSY 1010	Introductory Psychology	4
PSY 2400	Developmental Psychology	4
Select one of the following:		3-4
BIO 1030	Biology Today	
BIO 1050	An Introduction to Life	
BIO 1500	Basic Life Diversity	
BIO 1510	Basic Life Mechanisms	
SCE 5010	Biological Sciences for Elementary and Middle School Teachers	

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major
9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

Level 1 Requirements

The following courses and course options are required of all students seeking secondary (grades 6-12) certification regardless of selection of major or minor studies. Some of these courses may also satisfy the University General Education Requirements (p. 29).

College Requirements

Code	Title	Credits
Choose One of the Following		
PS 1010	American Government	
PS 1030	The American Governmental System	
Choose One of the Following		
PSY 1010	Introductory Psychology

Level 2 Education Requirements (Grades 6-12 Certification)

Code	Title	Credits
The following courses are required of all students seeking secondary (grades 6-12) certification. The selection of courses to fulfill the methods requirements is predicated on the student's choice of major/minor.		
The following courses may be taken in Level 1 or 2:		
BBE 5000	Multicultural Education in Urban America	
SED 5010	Inclusive Teaching	
TED 6020	Computer Applications in Teaching I	
The following courses may be elected at any time after admission to Level 2 and must be completed prior to TED 5780:		
EHP 3600	Introduction to the Philosophy of Education	
EDP 5480	Adolescent Psychology	
RLL 6121	Teaching Reading in the Content Areas: Grades 6-12	

TED 5650	Pre-Student Teaching Field Experience for Secondary Majors ³	
Teaching methods in the major (two courses)		6
Teaching methods in the minor (one course)		3
The Teaching Major and Teaching Minor and the Michigan Test for Teacher Certification (MTTC) subject area tests must be completed prior to student teaching.		
Final clinical experience		
TED 5780	Directed Teaching and Conference

Total Credits		42-49

Trade and Industry: Teaching Major

(Minimum 36 credit hours)

Requires a second academic teaching major; a teaching minor is not required.

Code	Title	Credits
Content Area Requirements		
The required coursework varies by the specific occupational area. Examples of occupational areas include: Drafting & Design Technology, Construction Trades, Automobile Technician, Machine Tool Operations/Machine Shop, Welding, Woodworking General, etc... See an advisor for more information.		
Methodology Requirements		
CTE 5501	Instructional Practices for the Teacher Cadet Classroom - Module 1	1
CTE 5502	Instructional Practices for the Teacher Cadet Classroom - Module 2	1
CTE 5503	Instructional Practices for the Teacher Cadet Classroom - Module 3	1
CTE 5504	Instructional Practices for the Teacher Cadet Classroom - Module 4	1
CTE 5505	Instructional Practices for the Teacher Cadet Classroom - Module 5	1
CTE 5506	Instructional Practices for the Teacher Cadet Classroom - Module 6	1

Visual Arts Education: Teaching Major

(Minimum of 57 credit hours in Foundation, Intermediate, Advanced Studio/Methodology courses; Minimum of 23 credit hours in Professional Education and Student Teaching courses)

A comprehensive major, as defined by the Michigan Department of Education, does not require a teaching minor.

This program is designed to provide professional preparation for individuals who seek K-12 certification in visual arts education. Students in this program receive the Michigan Secondary Provisional Teaching Certificate. It is recommended that students plan their coursework in advance with an advisor as accurately as possible to avoid extra courses or conflicts.

The program for visual arts education consists of University General Education Requirements (Competency Requirements and Group Requirements) for which see General Education Program: College Requirements; a teaching major of visual arts education with foundational, intermediate, and advanced studio coursework; and a sequence of professional education courses including one semester of

half-day student teaching and one semester of full-day student teaching. The policy of the College of Education is to provide teaching experiences in both an urban and a suburban setting.

For specific course selections students should consult the College of Education advisor in room 469, Education Building.

Arabic: Teaching Minor

(Minimum 27 credit hours)

Students must score the Intermediate High Level in Arabic, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL).

Code	Title	Credits
Content Area Requirements		
ARB 3110	Advanced Arabic I	3
ARB 3120	Advanced Arabic II	3
ARB 3210	Spoken Arabic	3
ARB/NE 5230	Structure of Arabic	3

Bachelor of Science in Education - Special Education

The special education curriculum leads to a bachelor's degree in education and certification in the area of cognitive impairment.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.
2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 30) requirement prior to admission.
3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).
6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110
7. Special Education: Students seeking admission to Special Education must have completed the following courses:

Code	Title	Credits
MAT 1110	Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)	3
PSY 1010	Introductory Psychology	4
PSY 2400	Developmental Psychology	4
Select one of the following:		3-4
BIO 1030	Biology Today	
BIO 1050	An Introduction to Life	
BIO 1500	Basic Life Diversity	
BIO 1510	Basic Life Mechanisms	

SCE 5010 Biological Sciences for Elementary and Middle School Teachers

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major
9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

All students must complete University General Education Requirements (p. 29), the Special Education Comprehensive Major (some of these courses may also satisfy the University General Education Requirements), Professional Education Requirements and the major area of study (Special Education Cognitive Impairment) as outlined below. The total number of credit hours for the degree varies from 141 to 144 depending on how General Education Requirements are met.

No grade below 'C' may be used to meet any requirement specific to the Comprehensive Major, Professional Education Sequence and the Special Education major.

Total Credits **45**

¹ Prereq: ELE 6220 and two additional Elementary Methods courses

Major Areas of Study (Special Education)

Students pursuing a bachelor's degree in education leading to an endorsement in Cognitive Impairment must complete the following major requirements. The courses cited in the major, with the exception of SED 5000 and SED 5010, may be completed only after admission to the Special Education Level 2 Program.

Cognitive Impairment (a minimum of thirty credit hours)

Code	Title	Credits
SED 5000	History, Philosophy, and Ethics of Teaching Students with Disabilities	2
SED 5010	Inclusive Teaching	2
SED 5075	Consultation and Collaboration for Inclusive Teaching	2
SED 5080	Supportive Environments, Engaged Learning	2
SED 5090	Transitions for Students with Disabilities	2
SED 5110	Introduction to Teaching Students with Moderate/Significant Support Needs	3
SED 5115	Observation and Assessment of Students with Moderate/Significant Support Needs	3
SED 5121	Language Development and Instruction for Students with Moderate/Significant Support Needs	2
SED 5125	Teaching Students with Significant/Multiple Support Needs	3
SED 5130	Teaching Students with Moderate Support Needs	3
TED 5790	Directed Teaching and Conference for Special Groups	6
Total Credits		30

Urban Education and Equity Studies Minor

The College of Education offers a Minor in Urban Education and Equity Studies for undergraduate students majoring in other disciplines. This minor provides an excellent opportunity for students interested in pursuing a career in education, social service and community organizations, in planning, policy, and program development roles, as well as graduate and professional studies centered in urban ecologies.

The Minor in Urban Education and Equity Studies is a minimum of 18 credit hours consisting of at least 8 credits of required courses and 10 credits of elective courses. The 18 credit hours must have a minimum cumulative grade point average of 2.5, with no course grade below 'C'. A grade of 'C-minus' or lower is not acceptable.

Code	Title	Credits
Required Courses		8
BBE 5000	Multicultural Education in Urban America	
ELE 6070	Family, Community and School Partnerships: Supporting Children's Learning	
TED 2250	Becoming an Urban Educator	

Elective Courses **10**

A minimum of 10 credits from the College of Education and/or the College of Liberal Arts and Sciences. Students may select from any of the courses below. Other relevant electives can be approved by advisors in consultation with the Division of Teacher Education.

College of Education

EDP 3310	Educational Psychology
MAE 1000	Detroit by the Numbers
SED 5010	Inclusive Teaching

College of Liberal Arts and Sciences

African American Studies

AFS/HIS/US 2350	Black Detroit
AFS/ENG 2390	Introduction to African-American Literature: Literature and Writing
AFS/HIS 3140	African American History I: 1400-1865
AFS/HIS 3150	African American History II: 1865-1968
AFS/HIS 3155	African American History III: 1968 - Present
AFS/HIS 5261	African Americans, History and Memory

English

ENG 2530	Literature and Identity
ENG 2540	Literatures of the World
ENG 2570	Writing about Literature: Women Writers

Geography

GPH/HIS/PS/US 2000/SOC 2500	Introduction to Urban Studies
GPH 3130	Introductory Urban Geography
GPH 3600	Introduction to Geographic Information Systems

Gender, Sexuality and Women's Studies

GSW 2500	Humanities Perspectives on Gender, Sexuality, and Women
GSW 2600/HIS 2605	History of Women, Gender and Sexuality in the Modern World
GSW 2700	Social Science Perspectives on Gender, Sexuality, and Women

History

HIS/AFS 3170	Ethnicity and Race in American Life
HIS/US 3650	History of Detroit

Latino/a and Latin American Studies

LAS 2100/SPA 2400	Chicano/a Literature and Culture
LAS 2110/SPA 2500	Puerto Rican Literature and Culture
LAS/AFS 2250	AfroLatino/a History and Culture
LAS/HIS 2430	History of Latino/as in the United States

LAS 3610 Seminar in Latino/a Urban Problems

Political Science

PS 2240 Introduction to Urban Politics and Policy

Sociology

SOC 2201 Race Relations in Metro Detroit

SOC 2202 Gendered Worlds

SOC 2300 Social Inequality

SOC/AFS 2600 Race and Racism in America

Total Credits

18

Theoretical and Behavioral Foundations

Interim Assistant Dean: William Hill

Office: 341 Education Building; (313) 577-1670

<http://coe.wayne.edu/tbf/>

The Division of Theoretical and Behavioral Foundations includes degree programs in educational evaluation and research, counseling, educational psychology, school and community psychology, counseling psychology, and rehabilitation counseling and community inclusion. There are also certificate programs in applied behavior analysis. The Division is designed to facilitate a realization of the following aims:

1. to integrate the educational experiences and course offerings;
2. to perform a service function in meeting the needs of those enrolled in other divisions within the College;
3. to provide degree and specialist programs for those who are majoring in a particular field of the division;
4. to provide students with an opportunity to study those aspects of educational thought and practice that are interdisciplinary as well as foundational;
5. to formulate programs looking toward the development of new combinations of specialties, as in
 - a. counseling-psychology,
 - b. pupil personnel managers in school systems,
 - c. utilization of theoretical and behavioral foundations in teacher education,
 - d. underlying philosophical premises of educational programs and practices;
6. to design interdisciplinary, cross disciplinary, and multidisciplinary experiences for and with students.

- Applied Behavior Analysis (Undergraduate Certificate) (p. 158)

Applied Behavior Analysis (Undergraduate Certificate)

The undergraduate option in Educational Psychology is an Undergraduate Certificate in Applied Behavior Analysis (ABA). The training emphasizes working in clinical settings with people with Autism. This is a three course and three practicum sequence that is completed in addition to an existing major. It can be done simultaneous with or after completion of the bachelor's degree. This training provides students with the eligibility to sit for the Board Certified assistant Behavior Analyst (BCaBA) exam, which is part of earning the BCaBA credential. The successful demonstration of both academic and clinical skills will be achieved through coursework and intensive field experience working with children.

Admission Requirements

Admission to this program is determined by the program review committee. Requirements include: a minimum grade point average of 2.75, a program area application, any applicable university-level application, and an interview with program faculty. The following must be mailed to the program: program area application, transcripts, and three letters of recommendation. Post-bachelor's students apply directly to Wayne State University. Existing students may add Applied Behavior Analysis as a second program to an existing major. Contact the program secretary to obtain the current application and program information.

This course sequence is calendar controlled in that all students begin and end together, taking the same courses as a cohort. Required courses are:

Code	Title	Credits
EDP 3101	Introduction to Applied Behavior Analysis	4
EDP 3102	Techniques of Applied Behavior Analysis	4
EDP 3103	Applied Behavior Analysis Assessment and Treatment Planning	4
EDP 3104	Field Experience in Applied Behavior Analysis I	2
EDP 3105	Field Experience in Applied Behavior Analysis II	2
EDP 3106	Field Experience in Applied Behavior Analysis III	2
Total Credits		18

In each of three semesters students take one course and one practicum, which involves 20 hours/week in a clinical setting with children with Autism. Students must not receive grades lower than a C in these courses in order to successfully complete the program. All course work and practica must be completed in accordance with the academic procedures of the College of Education and the University.

COLLEGE OF ENGINEERING

Dean: Farshad Fotouhi

College Mission Statement

The College of Engineering has three important missions: teaching, research, and outreach — serving the region, State and nation as part of an urban comprehensive research university. Students are prepared for professional practice, graduate study, lifelong learning, and for leadership roles in society. Faculty members develop the scientific and technological base for the engineering profession, and disseminate advanced technical knowledge to engineers, other professionals, and the public. A balance among the three missions is sought through a partnership built among students, faculty, staff, alumni, government, and private industry. This is achieved by maintaining an academic environment that is both intellectually stimulating and supportive of all of its constituents, regardless of race, gender, or ethnic background.

College Organization

The academic programs of the College of Engineering are organized into two Divisions: Engineering and Engineering Technology.

The Division of Engineering includes seven academic departments:

- Biomedical Engineering
- Chemical Engineering and Materials Science
- Computer Science
- Civil and Environmental Engineering
- Electrical and Computer Engineering
- Industrial and Manufacturing Engineering
- Mechanical Engineering

Programs leading to the Bachelor of Science, Master of Science, and Doctor of Philosophy degrees in engineering are offered by these departments. Five programs leading to a Bachelor of Science in Engineering Technology and a Master of Science in Engineering Technology are offered in the Division of Engineering Technology.

Profession of Engineering

Engineering requires people of imagination who can plan and create. Engineers design, simplify, refine and economize. They are pragmatists serving the needs of society through the development and improvement of technology. The engineer's resources include an intimate knowledge of scientific laws and their applications to engineering problems as well as ability to use mathematics and computers and, above all, an imaginative and an inquiring mind.

Engineers can start their careers in many functional roles — designer, test engineer, manufacturing engineer, sales engineer, researcher, or a combination of these and other roles. Engineering has become a profession that often leads to executive management positions. As more and more of the decisions of management in government and business are based on technical considerations, engineers with the necessary background are called upon to make these choices. Engineers do not devote their attention solely to innovations in technology. In all of these roles they look beyond their inventions and conceptions to consider the societal effect of their work, including its economic, aesthetic, safety, and environmental aspects.

At present, the minimum education required for general competence in the practice of engineering is a bachelor's degree in one of the fields of engineering. However, many engineering positions require an additional year or two of education at the graduate level leading to the master's degree. Whenever possible, students are urged to continue

their education to this point. For engineering research or teaching, and in some areas of practice, the doctoral degree is recommended. For further information about graduate programs in engineering, consult the Wayne State University Graduate Bulletin.

For all engineers, continuing professional competence in the midst of our constantly changing technology requires educational renewal and a life-long dedication to continuing education. The College offers seminars, institutes and off-campus programs to meet this need. In addition, regular College courses are available on an elective, post-degree basis.

Engineering Technologist

The evolution of our civilization has always been closely associated with technology and science. Now, and in the future, this association will become even more important. New knowledge has inspired advances in technology, resulting in new career opportunities. Far-reaching developments in communications and instrumentation technology, highly sophisticated machine tools and manufacturing processes, new energy sources and new man-made materials, and computer applications have all revolutionized the techniques of industrial manufacturing and management.

This on-going expansion of scientific and engineering knowledge has changed the make-up of the engineering team through the inclusion of the engineering technologist. The engineering technologist, in cooperation with the engineer, organizes people, materials and equipment to design, construct, operate, maintain and manage technical engineering projects. He or she should have a commitment to that technological progress which will create a better life for everyone. Because of the increasing challenges in this information age, it is no longer possible for one person to master all of the knowledge and skills necessary to execute technical projects. Quite often, a team effort is required — with each member of the team highly trained in a specific area. Today's engineering teams involve engineers and engineering technologists and may also include technicians, scientists, physicians, craftsmen, and other specialists.

Engineering technology supports engineering activities through a combination of scientific and professional knowledge with technological skills and concentrates on the industrial applications of engineering. Because of the extensive variety of functional opportunities, and the wide variety of industrial enterprises available to the engineering technologist, there has been a great deal of specialization. An engineering technologist can specialize in three related ways: discipline, function and industry.

For example, the discipline could be mechanical, the function could be design, and the industry could be automotive; or the discipline could be electrical, the function field installation, and the industry electric power generation. Through its undergraduate and graduate programs, the Division of Engineering Technology allows students to gain the specialization that they desire to contribute to interdisciplinary teams as engineering technologists.

College Facilities

The College of Engineering's facilities include five separate buildings with almost 300,000 square feet of classroom, office, and laboratory space. The newest of these is the Marvin I. Danto Engineering Development Center, featuring research and educational space that is dedicated to interdisciplinary work in areas of nanotechnology, automotive engineering, urban infrastructure, and alternative energies. Among the college's facilities are multimedia classrooms, a comprehensive computer center, electronics and machine shops, student project space, dedicated teaching laboratories, and sophisticated research laboratories. The four multimedia classrooms support innovative course delivery techniques, including interactive distance learning with classrooms at a variety of sites within Wayne State, at other colleges and universities, and

at industrial sites. The PACE Teaming Center is designed to promote interdisciplinary project work with links to real-world engineering problems. The computer facilities include dedicated computer graphics, design, and personal computing hardware and software.

The Division of Engineering Technology is housed in a dedicated building of approximately 24,000 square feet, located at 4855 Fourth Street.

The undergraduate laboratories provide facilities in such areas as computer graphics, fluid mechanics, thermal sciences, system dynamics, statistical computation, materials science, and rapid prototyping. Some specific laboratories associated with departmental engineering specializations include: chemical measurements; chemical unit operations; materials testing and processing; nanomaterials synthesis, characterization, and device manufacturing; electron microscopy; optical metallography; soil mechanics; environmental and hydraulic engineering; roadway and building materials; structural modeling; analog and digital communications systems; computer systems; control systems; analog circuits; digital systems; microcomputers and microprocessor applications; power systems; electronics; optics; computer vision; artificial neural networks; integrated circuits fabrication; automotive engineering; human factors engineering; computer aided manufacturing; 3D printing, 3D CNC; robotics; sand casting and testing; and stress analysis.

These laboratories are used for instructional and research purposes along with such research facilities as a molecular beam laboratory; a clean room facility for device materials research; a biomechanics accelerator and impact laboratory; an acoustics and noise control laboratory; and a structural behavior laboratory. All of these are available for experimentation and research in connection with the undergraduate curricula on a college-wide basis.

The College provides support for the various instructional and research laboratories in the construction, modification, repair, calibration and installation of experimental equipment. In addition, the College offers sophisticated assistance in the design of electronic and instrumentation equipment and devices. Qualified students are encouraged to use these facilities under the supervision of trained professionals.

Many undergraduate and graduate students pursue their studies in the College while working in local industry, either full-time or part-time, where unique research facilities unavailable on campus may be found. In such situations, students are encouraged to pursue their college-credit research at the employment site, where they work under the joint supervision of their faculty advisor and a company representative. Such research can take the form of undergraduate directed study courses, Master of Science theses, or Ph.D. dissertations.

Accreditation

In addition to the accreditation of Wayne State University by the Higher Learning Commission of the North Central Association of Colleges and Secondary Schools, the undergraduate programs listed below are accredited by ABET Inc. In the Division of Engineering, the programs below that lead to a Bachelor of Science degree are accredited by the Engineering Accreditation Commission (EAC) of ABET Inc. The Electrical/Electronic Engineering Technology program and the Mechanical Engineering Technology program, offered by the Division of Engineering Technology, are accredited by the Technology Accreditation Commission (TAC) of ABET. Program accreditation is based upon careful, periodic appraisal of the faculty, curriculum, and facilities of the College. This approval provides assurance of an up-to-date, high quality education pertinent to the engineering profession. Such accreditation is recognized by other universities, prospective employers, and state professional licensing agencies.

DIVISION OF ENGINEERING (undergraduate)

Bachelor of Science Programs in:

- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Industrial Engineering
- Mechanical Engineering

are accredited by the:

Engineering Accreditation Commission of ABET
111 Market Place, Suite 1150
Baltimore MD 21202-4012
(Telephone 410-347-7700).

DIVISION OF ENGINEERING TECHNOLOGY (undergraduate)

Bachelor of Science Programs in:

- Electrical/Electronic Engineering Technology
- Mechanical Engineering Technology

are accredited by the:

Technology Accreditation Commission of ABET
111 Market Place, Suite 1150
Baltimore MD 21202-4012
(Telephone 410-347-7700)

Location of the College

The College is located in the heart of Detroit, Michigan, renowned as a center of automotive engineering and production. The Michigan economy is in transition, with new focus on the emerging fields of biomedical and alternative energy technologies. This industrial center provides a wealth of examples of modern engineering practice and opportunities to explore the latest in vehicle design and production, automation design, transportation planning, telemetry, hydraulic and pneumatic controls, electric power generation, and computer design and production. The research and educational strengths of Wayne State's College of Engineering mesh well with the traditional and new engineering industries within Michigan, preparing students for those fields. The many industries of southeastern Michigan provide engineering students with rich and varied work experiences through full or part-time employment or through the Cooperative Education Program (p. 162).

The College is affiliated with the eleven other schools and colleges of the University which, with its 29,000 students, provides a broad selection of educational opportunities on an interdisciplinary basis.

Academic Regulations: Engineering Division

Undergraduate Registration

All Division of Engineering undergraduate students are required to meet with their Engineering advisor a minimum of once per academic year in order to discuss their academic progress and curriculum. It is strongly recommended that these meetings take place before each semester's registration. Special attention should be paid to course pre- and co-requisites as well as College grade requirements in prerequisites. It is the student's responsibility to ensure that all pre-requisite and co-requisite requirements are satisfied. Students will be removed from courses entered without satisfying these requirements. Students wishing

to receive a waiver of pre- or co-requisite requirements must submit an Academic Petition *prior* to registering for the affected course.

Some courses may be offered only once a year; others may have multiple sections running every semester. The University Schedule of Classes (<http://www.classschedule.wayne.edu>), published prior to each semester, shows when and where the classes will meet and outlines registration procedures and times.

Attendance Policy

Regular attendance in classes is necessary for success in college work. Excessive unexcused absences may result in a student failing a course. The student should arrange with the course instructor in advance for all predictable absences. Absences due to illness or conditions beyond the student's control should be reported as soon as possible via phone or e-mail to the instructor, and substantiating documentation provided upon the student's return to class.

Dean's List of Honor Students

A student who achieves a term grade point average of 3.5 or more, based on a program of twelve credits or more, is cited by the Dean for distinguished scholarship and is included on the Dean's List of Honor Students.

'AGRADE' Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: The College of Engineering enables academically superior undergraduate seniors to enroll simultaneously in undergraduate and graduate programs and apply a maximum of sixteen credits toward both an undergraduate and graduate degree in the student's major field. Students who elect the 'AGRADE' Program may expect to complete the bachelor's and master's degrees in one additional year of full-time study.

To be eligible, applicants must have completed a minimum of ninety credits of course work applied towards the engineering degree and be accepted in the professional program of their major. The minimum grade point averages for acceptance into the program are a 3.3 g.p.a. overall and a 3.45 g.p.a. for courses in their department of specialization, as computed by the rules of the Division of Engineering. See the departmental academic advisor for further details.

Student Conduct

Each student is subject to official regulations governing student activities and student behavior. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Thus, a student should not falsely claim the work of another as his/her own, or misrepresent him/herself so that the measures of his/her academic performance do not reflect his/her own work or personal knowledge.

If there are reasonable grounds to believe that a student has violated the regulations or student responsibilities, he or she may be disciplined. Such discipline may include failure in the course, suspension or dismissal from the program. A description of the University's Student Due Process Policy and a discussion of academic integrity can be found at the Dean of Students Office (<http://www.doso.wayne.edu/assets/codeofconduct.pdf>).

Engineering Division Rules for Calculating Grade Point Average

The Division of Engineering computes Departmental and College grade point averages using rules that differ from those used to compute the

cumulative grade point average on the official University transcript: the College g.p.a. is calculated based on all engineering and technical courses, as well as required English courses (Students should consult their academic advisors for details). The Departmental g.p.a. includes all courses taken within the major department. The College g.p.a. includes all engineering courses and those courses that are prerequisite to an engineering course. The preprofessional g.p.a. is calculated to determine eligibility for admission to the professional program. Preprofessional requirements that have been satisfied through transfer credit will be included in the assessment of the pre-professional g.p.a.; however, they will not be included in the official University g.p.a. or final calculation of the College or Department g.p.a.

Substandard Academic Performance

If a grade below 'C-minus' is received in any course to be applied towards the degree, the student will be required to repeat that course in the next semester in which it is available. The course must be repeated and a satisfactory grade earned before the next course in the sequence is taken. Students will be administratively withdrawn from courses for which they have not satisfied course prerequisites. General education and technical elective courses, which are not specifically required for the degree, may be repeated or a different course may be chosen to satisfy that requirement. If a different course is selected, the first grade will not be replaced in the calculation of the g.p.a.

A course in which a grade below 'C-minus' has been earned may not be subsequently passed by special examination.

Auditing Courses: Undergraduate students may elect to formally audit a course that interests them. In order to audit a course, a student must register for the class and pay the appropriate tuition. However, this course will not apply towards any degree requirements. Any course that has been completed for audit may not be subsequently enrolled in for credit, nor may credit be obtained by special examination.

Courses used to satisfy engineering program requirements may not be taken on a Pass-Fail basis, except for industry sponsored project courses taken for elective credit (maximum of 3 credit hours). Capstone design courses, even if they include an industry sponsored project, may not be taken on a Pass-Fail basis.

Repeating Courses

Courses in which a grade lower than a 'C-minus' is earned must be repeated in the next regular (i.e., fall or winter) semester in which the course is offered. Exceptions to this rule must be approved by the Undergraduate Program Director, Department Chair, or the Associate Dean for Academic Affairs. If a student receives a substandard grade in a course at Wayne State University, they will be required to repeat that course at Wayne State University. Exceptions to this policy require prior written approval from the Associate Dean for Academic Affairs in order to take the course at another designated institution.

Students are directed to Repeating Courses — The mark of R (p. 64) for University policies related to repeating courses and credit by special examination. See also 'Division of Engineering Rules for Calculating Grade Point Average,' above.

Exclusion from the College of Engineering

Students will be allowed to repeat a maximum of five courses in which they have earned a grade less than C-, or grades of WF or WN. If a student must repeat a sixth course in order to complete their degree, they will be excluded from the College of Engineering. Additionally, failure to pass a course with at least a 'C-minus' grade after three attempts constitutes grounds for exclusion from the College of Engineering. Prerequisite math and science courses that do not count for degree

credit, but are required if students did not place into MAT 2010 and CHM 1225, are also counted towards exclusion from the College. Students who elect to repeat a course to improve their understanding of the material even though a satisfactory ('C-minus' or higher) grade was received will not have this counted towards the number of allowed repeats.

Following exclusion from the College of Engineering, the privilege of registering in the College will be withheld for at least one calendar year.

A student who has been refused the privilege of registering in the College of Engineering may request a re-consideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to meet with their academic advisor as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the College of Engineering guaranteed.

Academic Probation

A student is considered to be on academic probation from the University whenever his or her cumulative grade point average falls below 2.0. All students on academic probation are required to meet with their academic advisor to discuss what steps should be taken to remedy the academic deficiencies. While on probation, a student may not represent the College of Engineering in student activities.

A student on probation is expected to remove the grade point deficiency promptly. If, at the end of the first semester on probation, the student's cumulative grade point average has not increased to at least 2.0, they will be excluded from the College of Engineering. For part-time students, a semester will be considered to consist of twelve consecutive credits. If the student's cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, they will be returned to regular status. Multiple occurrences of probation in non-consecutive semesters may also result in the student's exclusion from the College. A student may also be refused the privilege of registering in the College of Engineering for irresponsible attendance and performance in class, regardless of any probationary status.

For complete information regarding academic rules and regulations of the University, students should see the Academic Regulations (p. 17) section of this bulletin.

Withdrawal From Courses

General rules governing withdrawal from courses and changes of program can be found on Drop/Add – Adjusting Your Schedule. (p. 64) Courses from which a student withdraws, such that a mark of WF, or WN appears on the transcript, are counted as an attempt at the course and are taken into account when assessing the allowed number of repeats. If a student feels that circumstances beyond their control (e.g. family emergency, change of work schedule) justify the withdrawal, a written petition may be submitted to the Associate Dean for Academic Affairs before the end of the semester in which the course was taken. If the petition is approved, it will be noted in the student's advising record that the course will not be counted towards Engineering repeat allowances.

Graduation

Students must apply for graduation at the beginning of the semester in which they plan on completing their degree requirements. At graduation,

the University requires a minimum 2.0 grade point average in the total residence credit.

Graduates with a minimum of sixty credits in residence at Wayne State University and a grade point average of at least 3.0 may qualify for a special diploma under the following conditions:

Summa Cum Laude: Student must have a grade point average in the 95th percentile of the College of Engineering graduating class.

Magna Cum Laude: Student must have a grade point average in the 90th percentile of the graduating class.

Cum Laude: Student must have a grade point average in the 80th percentile of the graduating class.

Commencement: Each year, commencement exercises are held May and December. College *Order of the Engineer* and *Professional Order of Engineering Technology* ceremonies will be held in May to induct graduates into these organizations.

Guest Students

A student attending another engineering college who wishes to take course work at Wayne State for the purpose of credit transfer to the home institution may be admitted as a guest student for one term. This is done by applying through the University Office of Admissions using either the Application for Undergraduate Admission or the Graduate Guest Application. These applications require certification by an official of the home institution. For information on graduate guest admission and visiting doctoral guests, see the Wayne State University Graduate Bulletin. Guest students are expected to have met the listed prerequisite requirements for courses in which they wish to enroll. Students wishing to register for 3000- or 4000-level engineering classes must first receive permission from the department that teaches the course.

Second and Concurrent Degree

In accordance with the University requirements, students may earn a Bachelor of Science in engineering concurrently with or subsequent to another bachelor's degree at Wayne State University. Such students must complete at least thirty credits beyond those applied toward the first degree and must also satisfy applicable departmental and College requirements; consult an Engineering academic advisor to review these requirements.

Engineering: Minor Options

A number of undergraduate programs within the University allow students to pursue a minor in the field. Engineering students may elect to complete a minor through another school or college in conjunction with their Bachelor of Science in Engineering. This minor will generally require course credit in addition to that required for the engineering degree.

Bachelor of Science: Engineering Division

Undergraduate Program Goals

The overall goal of the undergraduate engineering degree programs at Wayne State University is to prepare students for success in their immediate and long-term professional careers as engineering practitioners as well as for pursuing graduate and professional studies and lifelong learning.

Undergraduate programs in the College of Engineering are divided into three phases. All students must complete the professional program in order to earn their Bachelor of Science degree. The majority of

students begin their engineering curriculum through the pre-professional program, which allows them to complete a limited number of courses while demonstrating their academic preparedness for the professional program. Students who require additional background in math and science before entering the pre-professional program enter the College through the Eos Program and progress to the pre-professional program upon successful completion of a defined set of foundational courses.

Recommended High School Preparation

In order to place sufficient emphasis on the English, mathematics, physics, and chemistry required for normal progress in engineering, the recommended high school preparation for admission to the College of Engineering is:

Algebra	2 units
Chemistry	1 unit
English	4 units
Physics	1 unit
Plane and Solid Geometry	1.5 units
Social Science or Foreign Language	2 units
Trigonometry	0.5 unit
Electives	3 units

An incoming freshman with this background enters the pre-professional program if he or she earns satisfactory scores on the placement examinations in mathematics, chemistry and English (see below).

Students who are interested in pursuing a degree in engineering but who may not have the requisite background in science and mathematics, as demonstrated by their high school record, ACT or SAT scores, or placement exam results, will be admitted to the Eos Program (p. 166). This program is designed to provide students with the necessary background to proceed into and succeed in the pre-professional and professional programs in the engineering major of their choice.

Admission

Admission to the undergraduate programs in the College of Engineering is dependent upon high school grade point average (g.p.a.) and ACT or SAT scores for those students entering directly from high school, and upon grade point average and level of curriculum completion for transfer students from community colleges or other universities. The following admissions criteria cite minimum values used to place students in the professional, pre-professional, and Eos programs. Admission to all of these programs is contingent upon satisfaction of the general undergraduate admission requirements (p. 23) of the University. (p. 23)

Admission: Professional Engineering Program

Freshmen with a 3.5 or above high school g.p.a., both cumulative and in math and science, along with a Math ACT score of at least 26 or a Math SAT score of at least 620, are eligible for admission to the professional engineering program of their choice. The final requirement for direct admission to the professional program is placement into at least MAT 2010, CHM 1225, and ENG 1020 on the required placement examinations.

Students who have completed at least the equivalent of the following set of courses may apply to transfer into the professional program of their choice:

Code	Title	Credits
BE 1200	Basic Engineering I: Design in Engineering	3
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3

BE 1310	Materials Science for Engineering: Laboratory	1
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
CHM 1225/1230	General Chemistry I for Engineers	3
PHY 2175	University Physics for Engineers I	4
PHY 2185	University Physics for Engineers II	4
ENG 1020	Introductory College Writing	3

For direct admission to the professional program as a transfer student, a minimum 3.0 grade point average in college-level courses (overall as well as in math and science) is required, and the listed courses must each have been completed with grades no lower than a 'C'.

Students who do not meet the minimum requirements for admission to the professional program may be admitted to the pre-professional program as follows.

Admission: Pre-professional Engineering Program

Students entering the College directly from high school will be admitted to the pre-professional program if they have earned at least a 3.0 overall g.p.a. and a minimum score of 21 on the Math ACT or 530 on the Math SAT. In addition, placement into the pre-professional program requires placement into at least MAT 1800, CHM 1225, and ENG 1020 on the required placement exams (see below).

Students who have completed at least twelve credits of college-level coursework may be admitted to the pre-professional program if they have a minimum of a 3.0 overall g.p.a.. Students must also have placed into, or transferred the equivalent of, MAT 1800, CHM 1225, and ENG 1020 (see below for descriptions of placement exam requirements). If fewer than twelve credits of college-level work have been completed, students must also submit their high school transcripts and ACT or SAT results.

Matriculation

Entering Freshmen: Students should plan on attending an Engineering Orientation session, scheduled in concordance with University Orientation, as early as possible to allow maximum flexibility in course scheduling. Students must take their placement exams and receive their results before attending an orientation session - allow at least seven days for the test results to post following the exam.

Transfer Students: For the student who has attended another institution and been admitted to the College of Engineering, the amount of advanced standing will be determined by the College and will depend upon the quantity and quality of the degree work completed prior to enrollment in this institution. Whether all, or only in part, such transferred credit may be applied toward a degree at Wayne State depending on the requirements of the curriculum chosen. No grade below a 'C' may be transferred into the College to satisfy a degree requirement. The student should consult the department academic advisor if he or she has any questions on their transfer status.

Course equivalency tables (<http://www.transfercredit.wayne.edu>) are designed to provide initial guidance. The decision of the Department and the College regarding the acceptance of transfer credit to be applied to the undergraduate degree in engineering is final and supersedes the published transfer tables. Any request for reconsideration of the evaluation of transfer credits accepted by the College of Engineering should be made in writing within one year of the date of the student's first enrollment in the College of Engineering, or within one year of the date of the evaluation if the latter is made subsequent to the student's enrollment in the College of Engineering.

Pre-professional Engineering Programs

Students in the pre-professional programs complete thirty-five to forty-five credits of their engineering curriculum, depending on their intended major. This program consists of the following courses that are required of all Division of Engineering students:

Code	Title	Credits
BE 1200	Basic Engineering I: Design in Engineering	3
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
CHM 1225	General Chemistry I for Engineers	3
CHM 1230	General Chemistry I Laboratory	1
ENG 1020	Introductory College Writing	3
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Select one of the following: ¹		5-8
PHY 2175 & PHY 2185	University Physics for Engineers I and University Physics for Engineers II	
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	
Total Credits		31-34

¹ PHY 2170 & PHY 2171 for ECE majors

Most departments also require that students complete one or more 2000-level courses within their department (contact the academic advisor for more information).

In order to be admitted to the professional program of their choice, a student must complete the pre-professional courses with no grade lower than a 'C-minus' and a College grade point average for these courses of at least 2.5. Calculation of this pre-professional g.p.a. will include the grades earned in all courses listed above in addition to departmental pre-professional requirements. The required courses may have been completed at Wayne State or transferred from another institution. If a course was completed at Wayne State, the highest WSU grade will be included in this g.p.a. calculation. For courses taken only outside of WSU, the highest grade earned at another institution will be factored into the College's calculation of the pre-professional g.p.a. (transfer grades are not included in the calculation of the official University g.p.a.). Students in the pre-professional program may opt to complete MAT 2150 and BE 2100, or defer them until after acceptance into the professional program; however, they will not be included in the calculation of the pre-professional grade point average.

Students who do not satisfy these pre-professional requirements will become ineligible to enter the professional program and are prohibited from enrolling in professional level (3000- and 4000-level) engineering courses. Students enrolled in the pre-professional program who fail to meet the 2.5 g.p.a. requirement after completion of the pre-professional courses will be subject to exclusion from the College of Engineering.

Professional Engineering Programs

Students must qualify for the professional program in order to complete their advanced engineering courses and apply for their bachelor's degrees. Only students in the professional program in Engineering may register for 3000- and 4000-level engineering courses and, as an undergraduate, 5000-level technical electives. Exceptional students may be granted direct admission to the professional program – the majority of students will progress through the pre-professional program first.

Honors Options

Students who qualify, either as incoming freshmen or continuing students, may opt to pursue Engineering Honors and/or University Honors as they complete their Bachelor of Science degree. Students interested in pursuing University Honors will be enrolled in both the College of Engineering (primary College) and the Irvin D. Reid Honors College (secondary College). Students should work closely with both their Engineering and Honors advisor to select courses. In order to graduate with University Honors, students must maintain a cumulative g.p.a. of 3.3 or higher and must complete at least twenty-eight credits of honors designated courses (please refer to the University Honors College (p. 245) requirements). To qualify for Engineering Honors in addition to University Honors, twenty-four credits of this coursework must include the following:

Code	Title	Credits
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	3
BE 5998	Engineering Honors Thesis	4
HON 42XX	Honors Seminar that will satisfy General Education 3-4 Requirements	3-4

Eight credits of honors designated courses within the major department. Students should consult their department advisor for more information.

Total Credits **18-19**

The additional credits of honors courses can be taken in any department, either as honors designated or honors option sections. Students can obtain a list of courses that will also satisfy College requirements (such as MAT 2010 or ECO 2010) from their advisor. Students may elect to pursue only Engineering Honors through the listed twenty-four credits of requirements without completing the requirements for University Honors.

Cooperative Education Program

Students who wish to enrich their education with on-the-job engineering experience may enroll in the Cooperative Education Program. In this program, full-time study terms are alternated with full-time work assignments in cooperating industries. The program may be entered at the beginning of the junior year. Special cooperative programs are available on a limited basis and provide special arrangements in the definition of the work-study period. Most of the work assignments are in the Metropolitan Detroit area on a commuting basis; however, job opportunities are available in other cities and states. The Co-op program is available in all undergraduate engineering curricula.

Each Co-op student may enroll for one academic course while on work assignment. This must be done with the approval of the student's advisor and Co-op supervisor. Following each work assignment, the student may elect to enroll in BE 3510 or CHE 3510 for one credit. Election of the course requires the completion of a report on the work experience to the department advisor and to the Co-op Coordinator. This credit for work will not be counted toward graduation unless permission is specifically recommended by the department chairperson. Students are automatically enrolled for a zero credit course (BE 3500) each term that they are on a Co-op assignment to insure that the experience appears on their transcript. A brief evaluation report covering each work assignment is to be submitted to the Co-op Coordinator, whether there has been enrollment in the above one credit courses or not. The student's performance on the job is rated by his/her industrial supervisor. Salaries and other benefits are paid for the time spent on each work assignment. For details and enrollment procedures, contact the Co-op Coordinator in the Career Planning and Placement Office.

Degree Requirements

The normal program of study for each of the degrees awarded in the College of Engineering requires from 120 to 136 credits. Of the total credits for the degree, at least thirty-four credits must be completed as resident credits in the degree program of the College. Departments may impose additional requirements.

Although the curriculum plans of the departmental sections which follow indicate a four-year program, many students will require additional time to complete all degree requirements. The national average time required for students to complete an engineering degree is approximately 4.5 years after beginning the calculus sequence (MAT 2010). Completion of the degree requirements in four years requires the election of an average of seventeen credits each term during the academic year. A student who participates in the Cooperative Education Program will require longer. Students may attend the University on either a full-time or part-time basis (twelve credits are considered by the University as a minimum full-time load).

Students who pursue degrees on a part-time basis may require much more than 4.5 years to complete all degree requirements. The actual amount of time required will depend upon the student's academic preparedness and the amount of time available for academic activities. The maximum load that a student carries should be consistent with the student's ability and available time. However, since a credit is defined as one class hour requiring about two hours of preparation per week carried through a semester, the fifteen to twenty-one credit programs shown in the curricular plans represent a full forty-hour academic work week. A three-hour laboratory period is generally regarded as the equivalent of one credit. Students who wish to graduate in four calendar years but who wish to schedule sixteen or fewer credits per semester may accomplish this by deferring certain courses until the spring or summer term. Students should check with their advisors regarding the courses that can best be taken in Spring/Summer term. Students who do not follow the sequence as outlined by their department must make sure that all course prerequisites are satisfied.

Specific requirements for these bachelors degrees may be found in the departmental sections for this College. These requirements are in effect as of the publication date of this bulletin; however, students should consult an academic advisor for verification of current requirements. The following discussion concerns generic aspects common to all Bachelor of Science engineering programs with the exception of Computer Science.

Basic Science Requirement

In order to meet accreditation requirements, all undergraduate engineering students are required to complete at least fifteen credits of basic science courses, including CHM 1225 and CHM 1230, PHY 2170 or PHY 2175 and PHY 2185. These courses are required in all of the engineering curricula (with the exception of computer science), and it should be noted that certain curricula require the completion of prescribed science laboratories and/or additional chemistry and physics courses.

In addition, each student must elect a basic or advanced science course. Students should consult with their advisor for the current list of acceptable courses.

Mathematics Requirement

Engineering students use mathematics as a tool in all engineering and science courses in their college curricula, as well as later upon entry into the engineering profession. All prospective engineering students are encouraged to complete the number of units of mathematics stipulated in the section entitled Recommended High School Preparation, see

High School Preparation, Recommended. Ideally, engineering students elect the first course in calculus (MAT 2010) in their first freshman term; however, many incoming students are not prepared to begin the mathematics program with calculus, and additional foundational coursework is necessary to strengthen the student's background. This foundational coursework is not included in the total credits required for an engineering degree. All students entering the Division of Engineering with no transfer credit in calculus must take the Mathematics Placement Examination (see above).

General Education Requirements

All students must satisfy the General Education Requirements (p. 29) of the University. In some cases, the College prescribes a more limited set of alternatives than permitted by the University in order to meet accreditation requirements while optimizing a path towards the degree. Students are cautioned to observe the following College requirements when selecting courses to satisfy General Education Requirements.

Communication Skills

In addition to the basic composition course ENG 1020 (BC), six credits in communication skills (ENG 3050 and ENG 3060) are required of all Engineering students, and these satisfy the Intermediate Composition (IC) and Oral Communication (OC) requirements of the University.

Inquiries

Engineering today extends far beyond technical decisions. Far-reaching effects of man-made technology require the engineer to be aware of and sensitive to his or her social responsibilities. Courses involving the engineer in sociological, economic, and aesthetic study are incorporated into the engineering program in order to insure an understanding beyond technical problems, which will enable the complete engineer to make value judgments concerning the impact of this technology upon society.

The College has, therefore, included a program in the social sciences and the humanities as a part of all engineering curricula. This program is integrated with the non-science portion of the University's General Education Program, which requires a student to elect one course from each of six categories. The Engineering Division imposes requirements in addition to the University-wide restrictions on some of the courses that satisfy General Education Requirements. These restrictions are described above and are shown in the degree requirements for each engineering program.

Technical Electives

Technical electives may be chosen from a selection of course offerings of the College of Engineering and the advanced science and mathematics courses of the College of Liberal Arts and Sciences. Other courses, such as advanced courses in the Mike Ilitch School of Business, may be elected with the prior approval of the undergraduate program director. The purpose of the technical elective is to increase the depth or breadth of one's professional knowledge. Courses should be selected so as to meet this objective. Engineering courses elected as technical electives are normally selected at the 5000-level. These courses are open to both undergraduate and graduate students. Technical electives require the approval of a student's department and should be discussed with his or her academic advisor.

Placement and Qualifying Examinations

All entering freshmen must take the placement examinations in mathematics, chemistry and English. Transfer students who do not have transfer credit equivalent to MAT 2010, CHM 1225/CHM 1230, and ENG 1020 (with a grade of 'C' or higher) must take the appropriate placement examination. Consult the Office of Testing, Evaluation, and Student Life Research Services (<http://www.testing.wayne.edu>) for information regarding the schedule for the examinations.

Chemistry (Qualification Exam)

The sequence of chemistry courses for the engineering student normally begins with CHM 1225 and CHM 1230. Qualification for CHM 1225 and CHM 1230 requires a satisfactory score on the Chemistry Placement Examination. If a student is not properly prepared to consider placement in CHM 1225 and CHM 1230, direct entry into CHM 1040 is permissible.

English (Placement Exam)

All entering freshmen and transfer students shall determine their aptitude in English composition by taking the English Placement Examination unless they have earned credit equivalent to ENG 1020 through transferred courses, AP examinations, or the CLEP program. Students whose score on the English Placement Examination indicates a need for additional instruction and practice in writing must elect and pass ENG 1010 before they can enroll in ENG 1020.

Mathematics (Qualification Exam)

The sequence of mathematics courses for the engineering student normally begins with MAT 2010. For admission to MAT 2010, a qualifying examination must be passed. The placement examination must be taken by all students who have not transferred in the equivalent of MAT 2010, completed with at least a grade of 'C', or through AP credit. Students may apply to take the placement examination for either MAT 1800 or MAT 2010 depending upon their preparation in mathematics. The MAT 1800 Placement Examination is based upon one and one-half years of high school algebra and one year of high school geometry. The MAT 2010 Placement Examination is based upon a total of three and one-half to four years of college preparatory mathematics covering algebra, plane and solid geometry and trigonometry.

Failure to qualify for MAT 2010 may result in the student being placed in a lower level course such as MAT 0993, MAT 1070, or MAT 1800 depending upon the student's performance. Engineering students who do not take the Mathematics Placement Examination prior to registration for the first semester of the freshman year must enroll in MAT 0993.

Emerging Scholars and Rising Scholars Programs

All engineering students who place into MAT 1070, MAT 1800 or MAT 2010 are encouraged to apply to the Emerging Scholars Program. Students who place into MAT 0993 are required to apply to the Rising Scholars Program. These are enhanced mathematics programs that provide additional experience in mathematical applications and problem solving, better preparing students for engineering problem solving. Contact the Department of Mathematics for more information: 1150 Faculty/Administration Building; 313-577-2479.

Eos Program

Students who meet the requirements for University admission but do not meet the academic record or placement requirements of the pre-professional or professional programs will be admitted to the Eos Program.

The Eos Program is designed for those students who are interested in pursuing a degree in engineering but who may need some additional foundational work in mathematics and science in order to obtain the requisite background to succeed. Eos students participate in the following two-semester sequence of courses with a cohort of students:

Code	Title	Credits
Fall Semester		
FYS 1010	Learning with the Brain in Mind	1
MAT 1070	College Algebra	5
BE 1200	Basic Engineering I: Design in Engineering	3
ENG 1020	Introductory College Writing	3

ECO 2010	Principles of Microeconomics	4
Winter Semester		
CHM 1040	Chemistry Skills and Reasoning	4
MAT 1800	Elementary Functions	4
MAT 1990	Precalculus Workshop	2
General Education Course		3
Total Credits		29

In order to progress from the Eos Program to the pre-professional program, a student must complete each of the required courses with a grade of 'C-minus' or higher and an overall grade point average of at least 2.5. Only two substandard grades (p. 160) are permitted within the Eos requirements if a student wishes to remain in the College. Students receive close attention from the engineering advisors so that early intervention may be arranged for students who face academic difficulties. As part of this course work, each Eos student meets on a weekly basis with an engineering mentorship group to provide an opportunity for discussion and peer support.

Students who place into MAT 0993 must complete this course in addition to those listed above. This requirement will delay completion of the Eos Program until the end of the spring/summer semester. Students who place into MAT 0993 should work closely with their academic advisor to develop a three-semester plan of courses to satisfy the Eos requirements.

Basic Engineering Courses

The following courses in basic engineering are of a general nature and are used by students in all of the Division of Engineering disciplines.

BE 1001 Engineering Bridge Mentorship Program Participant I Cr. 1

Required peer mentorship program for Engineering Bridge students. Offered Every Term.

Corequisite: BE 1060

Restriction(s): Enrollment is limited to students with a major in Engineering.

BE 1002 Engineering Bridge Mentorship Program Participant II Cr. 0

Required peer mentorship program for Engineering Bridge students. Offered Winter.

Corequisite: BE 1060

BE 1060 Building a Foundation for College Success Cr. 1

Satisfies General Education Requirement: Wayne Experience

This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Winter.

Restriction(s): Enrollment limited to students with a class of Freshman.

BE 1101 Introduction to Officership Cr. 1

Classroom introduction to leadership, and the experiential examination of leadership, followership, decision-making, and group accomplishment of tasks. Offered Every Other Year.

BE 1102 Introduction to Leadership Cr. 1

Continuation of B E 1101; focus on communications, leadership, and problem-solving. The light infantry platoon and the troop leading process. Offered Every Other Year.

Prerequisite: BE 1101 with a minimum grade of C-

BE 1200 Basic Engineering I: Design in Engineering Cr. 3

Core principles of engineering practice: design, teamwork, professional ethics. Offered Fall, Winter.

Prerequisites: MAT 1050 with a minimum grade of C (may be taken concurrently), MAT 1070 with a minimum grade of C (may be taken concurrently), MAT 1800 with a minimum grade of C (may be taken concurrently), MAT 2010 with a minimum grade of C- (may be taken concurrently), MAT 2020 with a minimum grade of C- (may be taken concurrently), or MAT 2030 with a minimum grade of C- (may be taken concurrently)

Course Material Fees: \$50

BE 1300 Basic Engineering II: Materials Science for Engineering Applications Cr. 3

Fundamentals of materials science; emphasis on how material properties and behavior affect engineering applications. Offered Every Term.

Prerequisites: (CHM 1225 with a minimum grade of C- or CHM 1220 with a minimum grade of C-), CHM 1230 with a minimum grade of C-, BE 1200 with a minimum grade of C- (may be taken concurrently), (PHY 2170 with a minimum grade of C- (may be taken concurrently) or PHY 2175 with a minimum grade of C- (may be taken concurrently)), and MAT 2020 with a minimum grade of C- (may be taken concurrently)

Corequisite: BE 1310

BE 1310 Materials Science for Engineering: Laboratory Cr. 1

Laboratory component of B E 1300. Offered Every Term.

Corequisite: BE 1300

Course Material Fees: \$35

BE 1500 Introduction to Programming and Computation for Engineers Cr. 3

Use of computational tools, such as Excel and MATLAB, to solve engineering problems. Topics include general engineering problem solving, algorithm development, programming, and computational analysis. Offered Fall, Winter.

Prerequisites: MAT 2010 with a minimum grade of C-

Restriction(s): Enrollment is limited to Undergraduate level students.

BE 1600 Introduction to Programming and Computation: Python Cr. 3

An introduction to programming using Python for students with no programming experience. Basic control structures (sequence, selection, repetition) and all core data types using objects. Practice on core data structures (string, list, tuple, dictionary, and set). Design, implementation and testing of programs to solve problems with an emphasis on data manipulation using real world, practical examples. Offered Fall, Winter.

BE 2100 Basic Engineering III: Probability and Statistics in Engineering Cr. 3

An introduction to application of probability theory and statistical methods in engineering, including design and manufacturing. Offered Every Term.

Prerequisite: MAT 2020 (may be taken concurrently) with a minimum grade of C-

BE 2201 Innovative Tactical Leadership Cr. 1

Military organizational leadership with focus on leadership development and interpersonal group dynamics. Offered Every Other Year.

Prerequisite: BE 1102 with a minimum grade of C-

BE 2202 Leadership in Changing Environments Cr. 2

Challenges of leading in complex contemporary operational environments. Cross-cultural challenges of leadership applied to practical Army leadership tasks and situations. Offered Every Other Year.

Prerequisite: BE 1102 with a minimum grade of C-

BE 3000 Engineering Bridge Mentorship Program Leader Cr. 0

Documentation of mentor participation in Engineering Bridge Program. Offered Every Term.

Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.

BE 3301 Leading Small Organizations I Cr. 2

Leadership development and interpersonal and group dynamics. Methods of visualizing, planning and leading organizations to achieve set goals. Offered Every Other Year.

BE 3302 Leading Small Organizations II Cr. 2

Offered Every Other Year.

Prerequisite: BE 3301 with a minimum grade of C-

BE 3500 Co-Op Record Cr. 0

Engineering practice under supervision in cooperative education program. Offered Every Term.

Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Computer Science, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.

BE 3510 Co-Op Experience Cr. 1

Engineering practice under supervision in cooperative education program. Written report required. Offered Every Term.

Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.

Repeatable for 4 Credits

BE 3900 National Design Competition Participant Cr. 0

For engineering undergraduates who are active team members in national engineering design competition projects. Satisfactory completion of this course will document active participation throughout the semester. Offered Every Term.

BE 4401 Leadership and Management Cr. 3

Multiple styles and theories of leadership; ethical decision making, especially as relating to changing organizational and individual behavior; accomplishing goals in resource-constrained environments. Offered Every Other Year.

Prerequisite: BE 3302 with a minimum grade of D-

BE 4402 Military Professionalism and Professional Ethics Cr. 3

Evaluation and assessment of needs of subordinate units and individuals; near-term and short-term plans to address these needs. Analysis of a historical battle as well as analysis of moral and leadership dilemmas in history. Offered Every Other Year.

Prerequisite: BE 4401 with a minimum grade of C-

BE 5900 National Design Competition Projects Cr. 1-4

Primarily for engineering undergraduates who are dedicating a substantial amount of effort towards college-sponsored national design competition projects. Offered Every Term.

Repeatable for 99 Credits

BE 5995 Special Topics in Engineering Cr. 4

Special topics not covered in other courses; topics announced in Schedule of Classes. Offered Every Term.

Repeatable for 99 Credits

BE 5998 Engineering Honors Thesis Cr. 1-4

Completion of required Honors Thesis. Offered for undergraduate credit only. Offered Every Term.

Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

Repeatable for 99 Credits

Engineering Special Topics Courses

The following special topics courses are of a general nature and are used by students in all of the Division of Engineering disciplines.

EGR 5655 Innovation & Entrepreneurship I Cr. 3

Provides education and hands-on experience in innovation and entrepreneurship applied to enterprise, product and service design and delivery. The first of a 2-semester sequence, this course teaches methods and tools to find, formulate, and develop engineering innovation and entrepreneurship, leading to practical, relevant, and productive new commercial and social enterprises. Offered Fall.

Restriction(s): Enrollment limited to students in the College of Engineering.

EGR 5656 Innovation & Entrepreneurship II Cr. 3

Provides education and hands-on experience in innovation and entrepreneurship applied to enterprise, product and service design and delivery. This course is the second of a 2-semester sequence. This course teaches methods and tools to find, formulate and develop engineering innovation and entrepreneurship, leading to practical, relevant, and productive new commercial and social enterprises. Offered Winter.

Restriction(s): Enrollment limited to students in the College of Engineering.

EGR 5657 Innovation & Entrepreneurship Lab Cr. 1

Provides hands-on application of Lean LaunchPad principles in innovation and entrepreneurship applied to enterprise, product and service and delivery. Offered Every Term.

Restriction(s): Enrollment limited to students in the College of Engineering.

Repeatable for 2 Credits

EGR 5995 Special Topics in Engineering Cr. 1-4

State of the art research, development and practice topics from across the fields of engineering; emphasis on interdisciplinary topics. Offered Every Term.

Restriction(s): Enrollment limited to students in the College of Engineering.

Repeatable for 4 Credits

Biomedical Engineering

Office: 818 W. Hancock; 313-577-1344

Chairperson: Cynthia Bir

<http://engineering.wayne.edu/bme/>

Biomedical engineering (BME) is one of the fastest growing disciplines in engineering. This field has developed from the knowledge that engineering principles can be applied to better understand how the human body functions as well as the effect that outside forces have on it, whether they be diagnostic or traumatic. A biomedical engineer brings together traditional engineering principles with the life sciences in a completely integrated fashion. The result is an engineer who views the human body as a complex system, its diseases and injuries as breakdowns in that system, and medical interventions as design alternatives for the repair of the system. As the population ages and medical costs increase, biomedical engineers are required both to

understand the mechanistic causes of injury and disease and to design and implement interventions to prevent and mitigate the suffering of individuals and to reduce the cost of medical care to society.

Wayne State has a long history with respect to biomedical engineering research. In 1939, faculty from the College of Engineering and School of Medicine began collaborating to investigate the mechanisms of injuries to the human body, and educational programs in the area of biomedical engineering have existed at Wayne State since the 1950s. They have developed from a few courses taken within traditional engineering departments to the graduate degree program in biomedical engineering, introduced in 1998. The Department of Biomedical Engineering, interdisciplinary between the College of Engineering and the School of Medicine, was established in 2002. Drawing upon the strengths of the biomedical engineering graduate program, the Department has established a new undergraduate program that accepted its first students for the Fall 2010 semester.

- Biomedical Engineering (B.S.) (p. 168)

Biomedical Engineering (B.S.)

Wayne State's undergraduate program in biomedical engineering is built upon a strong foundation of engineering that integrates biomedical sciences early in the curriculum and continuously throughout subsequent coursework. In order to prepare students for careers and/or further education, traditional lectures are combined with problem-based and project-based learning to allow students to immediately apply their foundational knowledge to biomedical engineering challenges. From the first week of the program, through an ongoing partnership with the Medical School and affiliated hospitals, students are introduced to real world biomedical engineering problems and tools so as to develop a thorough understanding of the challenges faced in clinical medicine. All students are also encouraged to become actively involved in one of the research groups of the Department for which opportunities are available as early as freshman year. Before the junior year all biomedical engineering students must select one of three concentrations: biomaterials, biomechanics, or bio-medical instrumentation.

The program's objectives are to prepare graduates who, within a few years of graduation, will be able to:

1. Work with individuals of diverse backgrounds on multidisciplinary problems to translate biomedical science into applications across the health and life sciences.
2. Advance tools to solve biomedical engineering problems and design biomedical engineering systems.
3. Continue their education and self-directed learning in engineering and biomedicine.

The B.S.B.M.E. program is coordinated by the Undergraduate Program Chairperson with the assistance of the Departmental academic advisor. These individuals are available to support students in selecting courses, identifying research and internship opportunities, and discussing plans for after graduation. Students are encouraged to join and actively participate in the campus chapter of the Biomedical Engineering Society (BMES) for networking and professional development opportunities.

Admission Requirements

Students qualifying for admission to the College of Engineering must select the B.S.B.M.E. program in the online application. The applicant must provide supporting documentation as instructed. Due to the challenging nature of biomedical engineering, the undergraduate program is highly selective and admits students who have a demonstrated

ability in math and science. In addition, the program is structured as a cohort-based program. Therefore, admission for transfer students requires completion of a minimum set of prerequisite courses. They must complete all of the first year coursework to join the second year program.

Students are only able to join the second year program as transfer students regardless of transfer credits.

Freshman Admission: Students wishing to enter the program immediately following high school are expected to have a minimum math/science g.p.a. of 3.3 and a minimum Math ACT/SAT score of 26/610. Students who have completed college-level coursework through dual enrollment programs will still be considered as freshmen. For full consideration for fall admission, including all scholarship opportunities, students should apply to the University and the Biomedical Engineering Program by December 1. Following admission, students must confirm placement into at least Calculus I (MAT 2010) and General Chemistry + lab (CHM 1225+CHM 1230) through either testing (ACT/SAT, AP, Placement Exams) or transfer credit. Admitted students who do not meet these criteria will be admitted as Pre BME.

Transfer Admission: Students may apply to transfer into the program after completing college-level coursework at Wayne State or at another post-secondary institution. Transfer students may apply to join the program as part of a first year or second year cohort depending on the coursework that they have previously completed. Students wishing to join the program in the second year are required to complete the program's first-year coursework. The following classes should be completed, or in progress, for transfer students to be considered to join each cohort:

Code	Title	Credits
First Year Cohort		
Placement into Calculus I, General Chemistry (with lab), and Basic Composition		
Second Year Cohort		
Mathematics: Calculus I and Calculus II		
English: Basic Composition		
The following Basic Engineering coursework		
BE 1200	Basic Engineering I: Design in Engineering	3
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
BE 1500	Introduction to Programming and Computation for Engineers	3

Applicants without all of the expected placement or coursework will be required to complete missing items during spring/summer term. Transfer students are accepted on a space-available basis. Prospective students are expected to have earned a minimum math/science g.p.a. of 3.33 in their college coursework.

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 29) requirements. A maximum of 35 credits of Competencies, Group Requirements, and Wayne Experience Requirements (WE) shall comprise the General Education Program. Wayne Experience (WE), is a one credit course required of all first year students. Forty-eight credits of coursework must be in engineering sciences or engineering design. Most courses offered by other engineering departments count toward this forty-eight engineering credit requirement. Note: BME 2050, BME 4010, and BME 5070 count as life science courses and not engineering courses. All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees.

All prerequisite coursework must be completed; any waivers to listed prerequisite courses must be approved by the Undergraduate Program Chairperson. In compliance with the academic requirements of the College of Engineering, students must earn a grade of C- or higher in all courses applied to the B.S.B.M.E. degree requirements. The 8-semester curriculum for the program is provided below. Students interested in attending medical or dental school after graduation may add any remaining pre-professional requirements into their curriculum with minimal difficulty.

Biomedical Engineering Curriculum

First Year		Credits
First Semester		
BE 1200	Basic Engineering I: Design in Engineering (Biomedical and Chemical)	3
CHM 1225	General Chemistry I for Engineers	3
CHM 1230	General Chemistry I Laboratory	1
ENG 1020	Introductory College Writing	3
MAT 2010	Calculus I	4

Total Credits		120

Honors and Accelerated Master's AGRADE Program

All students in the B.S.B.M.E. program are encouraged to pursue their degree with Engineering and/or University Honors. Students can complete their requirements for Honors within the 125 credits required for the program. The required Honors thesis will satisfy the requirement for one of the concentration electives.

Students who have earned at least a 3.45 g.p.a. through their junior year may apply to the AGRADE Program. Through this program, students may earn their M.S. in biomedical engineering with one additional year of coursework (18 credits).

Chemical Engineering and Materials Science

Office: 1100 W. Engineering Building; 313-577-3800
 Interim Chairperson: Jeffrey Potoff
<http://engineering.wayne.edu/che/>

Chemical engineering applies the sciences of chemistry, biology, physics and mathematics in a synergistic way to develop new or improved technologies, products and processes for the benefit of mankind. The chemical engineering B.S. degree provides a strong technical background, from which graduates may enter into professional careers in fields such as petrochemical processing, energy, pharmaceuticals, medical devices, advanced materials, semiconductor processing, biotechnology, environmental control, natural and synthetic rubbers and plastics, surface coatings, food processing, cosmetics, and consumer products. Many chemical engineering undergraduates continue their studies in graduate programs (M.S. or Ph.D.) in chemical engineering, or in related disciplines such as materials science and biomedical engineering, in preparation for careers in research and development. Chemical engineering also provides excellent undergraduate preparation for professional programs in medicine (M.D.), law (J.D.), and business (M.B.A.).

The undergraduate program in chemical engineering includes studies in chemistry, mathematics, and physics, as well as an understanding of physical, biological and chemical systems and processes. Engineering science courses cover material and energy balances, transport phenomena, thermodynamics, reaction kinetics, separation processes, and dynamics, simulation, and control of systems and processes.

In addition to the Undergraduate Program Goals, the specific objectives of the chemical engineering B.S. program are:

1. *Engineering Practice.* Graduates of the B.S. in Chemical Engineering program will have the ability to successfully pursue professional employment in an entry-level position in chemical engineering or related disciplines.

2. *Graduate Education.* Graduates of the B.S. in Chemical Engineering program will be academically well-prepared to pursue graduate study in chemical engineering and related disciplines.
3. *Science and Mathematics.* Graduates of the B.S. in Chemical Engineering program will be able to apply fundamental knowledge in chemistry, physics, biology, mathematics, and engineering to practical problems in chemical engineering, and related disciplines.
4. *Engineering Analysis.* Graduates of the B.S. in Chemical Engineering program will be able to apply theoretical, computational, and experimental methods to solve engineering problems.
5. *Design.* Graduates of the B.S. in Chemical Engineering program will be able to apply principles and methods of chemical engineering to the design of chemical processes and products.
6. *Communications.* Graduates of the B.S. in Chemical Engineering program will be able to communicate effectively in oral and written technical presentations and reports.
7. *Professionalism.* Graduates of the B.S. in Chemical Engineering program will be aware of the social responsibility of engineers and the importance of ethics in the engineering profession.
8. *Self-learning.* Graduates of the B.S. in Chemical Engineering program will be able to acquire new knowledge through self-learning and continuing education, as needed in their professional careers.
9. *Co-op and Undergraduate Research Experience.* Graduates of the B.S. in Chemical Engineering program will have received opportunities to enrich their preparation for professional practice and/or graduate studies through co-op experience and internships, and through undergraduate research experiences.
10. *Advanced Technical Knowledge.* Through the program's curriculum options, graduates of the B.S. in Chemical Engineering program will have acquired in-depth knowledge in one of the following areas: Product and Process Engineering; Biological Engineering; Molecular Engineering and Nanotechnology.

- Chemical Engineering (B.S.) (p. 171)

Chemical Engineering (B.S.)

Chemical engineering applies the sciences of chemistry, biology, physics and mathematics in a synergistic way to develop new or improved technologies, products and processes for the benefit of mankind.

The chemical engineering B.S. degree provides a strong technical background, from which graduates may enter into professional careers in fields such as petrochemical processing, energy, pharmaceuticals, medical devices, advanced materials, semiconductor processing, biotechnology, environmental control, natural and synthetic rubbers and plastics, surface coatings, food processing, cosmetics, and consumer products. Many chemical engineering undergraduates continue their studies in graduate programs (M.S. or Ph.D.) in chemical engineering, or in related disciplines such as materials science and biomedical engineering, in preparation for careers in research and development. Chemical engineering also provides excellent undergraduate preparation for professional programs in medicine (M.D.), law (J.D.), and business (M.B.A.).

The undergraduate program in chemical engineering includes studies in chemistry, mathematics, and physics, as well as an understanding of physical, biological and chemical systems and processes. Engineering science courses cover material and energy balances, transport phenomena, thermodynamics, reaction kinetics, separation processes, and dynamics, simulation, and control of systems and processes.

Admission Requirements: Admission is contingent upon satisfaction of the general undergraduate admission requirements of the University

(p. 23) and the bachelor of science programs in the College of Engineering (p. 162).

Mission Statement

As an urban research university, our mission is to discover, examine, transmit, and apply knowledge that contributes to the positive development and well-being of individuals, organizations, and society.

Wayne State University is a national research institution dedicated to preparing students to excel in an increasingly advanced and interconnected, global society.

Program Educational Objectives

1. The overall objective of the BS CHE program at Wayne State University is to prepare students for a) success in their immediate and long-term careers as practicing chemical engineers; and b) success in continuing education in graduate and professional schools.

2. The program supports the university's urban mission by promoting diversity and encouraging disadvantaged and nontraditional students to enter the engineering profession.

3. We utilize our faculty's strengths in research to enrich undergraduate education through: a) individual undergraduate research experiences; and b) we engage in educational partnerships with our industrial constituents in southeastern Michigan through an active undergraduate coop program.

Student Outcomes

The Student Outcomes are described below, and the contribution of each Program Outcome to the ABET Criterion 3, components 1-7 is explained. ABET Criterion 3 1-7 can be found at: <https://www.abet.org/accreditation/accreditation-criteria/criteria-for-accrediting-engineering-programs-2020-2021/>

1. **Chemistry.** Graduates of the BS CHE program will possess a strong grounding in Chemistry, together with a working knowledge of organic chemistry and materials science. Graduates will possess a working knowledge of either physical chemistry or biochemistry, depending on their choice of Curriculum Options. Contributes to the Science portion of Criterion 3 component (1).

2. **Math and Science.** Graduates of the BS CHE program will possess a working knowledge of mathematics, including calculus through differential equations, and they will be able to apply modern mathematical and computational techniques to the solution of engineering problems. Graduates will be well grounded in physics. Contributes to the Math and Science parts of Criterion 3, component (1).

3. **Chemical Engineering Fundamentals.** Graduates of the BS CHE program will possess a working knowledge of material and energy balances applied to chemical processes; thermodynamics of physical and chemical equilibrium; fluid flow and heat transfer; chemical reaction kinetics and reaction engineering; mass transfer and separation processes, and they will be able to apply this knowledge to identify, formulate, and solve engineering problems. Contributes to Criterion 3, components (1) and (7).

4. **Chemical Process Engineering.** Graduates of the BS CHE program will possess a working knowledge of process dynamics and control and product and process design. Contributes to the Engineering part of Criterion 3, component (1). Contributes intensively to Criterion 3, components (2), (4), and (6) through the design project in CHE 4200 (Product and Process Design).

5. **Design Experience.** Graduates of the BS CHE program will develop skills in engineering design via content throughout the curriculum that

includes identification, formulation, and solution of open-ended problems, scale-up concepts, consideration of safety and environmental issues, and understanding of economic factors. Contributes to the engineering part of Criterion 3, component (1). Contributes intensively to Criterion 3, components (2), (3), (4), (5), and (7) through the capstone design projects in CHE 4200 (Product and Process Design) and CHE 4800 (Chemical Process Integration).

6. Laboratory Experience. Graduates of the BS CHE program will develop experimental skills via laboratory experiences relevant to chemical engineering principles, covering design of appropriate experiments for measurement of engineering properties and process variables, the analysis and interpretation of data, written and oral presentation of results, and teamwork skills including project management and multidisciplinary team functions. Contributes broadly to Criterion 3, component (1). Contributes intensively to Criterion 3, components (5), (6), and (7).

7. Advanced Technical Knowledge. Graduates of the BS CHE program will develop in-depth knowledge of an advanced area of chemical engineering through a variety of technical elective course options. Contributes to Criterion 3, component (1).

8. Communication Skills. Graduates of the BS CHE program will be able to communicate effectively in oral presentations, electronic communications, and written technical reports. Contributes to Criterion 3, component (3).

9. Professionalism. The BS CHE program will develop awareness in staying current with the changing chemical engineering profession through lifelong learning and continuing professional development. The BS CHE program will foster the development of professional conduct through awareness of the importance of ethics, safety, environmental issues, and sustainability to the practice of chemical engineering. Contributes to Criterion 3, components (4), and (7).

Candidates for the Bachelor of Science degree must complete 124-126 credits of coursework, including the University General Education (p. 29) requirements. Forty-eight credits of coursework must be in engineering sciences or engineering design. All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees. Non-engineering entries, cited below by subject rather than individual course number, indicate courses to be selected in fulfillment of the University General Education Requirements. Degree requirements shown in the curricula below are in effect as of the publication date of this Bulletin. Students should consult their advisors for verification of current requirements.

First Year		Credits
First Semester		
BE 1200	Basic Engineering I: Design in Engineering	3
MAT 2010	Calculus I	4
CHM 1225	General Chemistry I for Engineers	3
CHM 1230	General Chemistry I Laboratory	1
ENG 1020	Introductory College Writing	3
Wayne Experience		1
Credits		15

Second Semester		
BE 1500	Introduction to Programmin and Computaior for Engineers	3
MAT 2020	Calculus II	4
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
PHY 2175	University Physics for Engineers I	4
Credits		16

Second Year		
First Semester		
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
MAT 2030	Calculus III	4
CHE 2800	Material and Energy Balances	4
CHM 2225	Organic Chemistry II for Engineers	3
Credits		15

Second Semester		
MAT 2150	Differential Equations and Matrix Algebra	4
PHY 2185	University Physics for Engineers II	4
CHE 3100	Transport Phenomena I	3
ECO 2010 or ECO 2020	Principles of Microeconomics or Principles of Macroeconomics	4
Credits		15

Third Year		
First Semester		
CHE 3300	Thermodynamics: Chemical Equilibria	4
CHE 3600	Transport Phenomena II	3
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	3

ENG 3050	Technical Communicational I: Reports	3
PHI 1120	Professional Ethics	3
Credits		16
Second Semester		
CHE 3220	Measurements Laboratory	2
CHE 3400	Kinetics and Reactor Design	4
CHE 3800	Separation Processes	3
CHE 4260	Chemical Engineering Seminar I	0
CHM 5440 or CHM 5600	Physical Chemistry II ¹ or Survey of Biochemistry	3-4
ENG 3060	Technical Communicational II: Presentation	3
Credits		15-16
Fourth Year		
First Semester		
CHE 3820	Chemical Engineering Laboratory	2
CHE 4200	Product and Process Design	3
CHE 4260	Chemical Engineering Seminar I	0
CHE 4600	Process Dynamics and Simulation	3
CHE 4860	Chemical Engineering Seminar II	1
Chemical Engineering Technical Elective		6
Credits		15
Second Semester		
Chemical Engineering Technical Electives		2-3
CHE 4800	Chemical Process Integration	3
CHE 6570	Safety in the Chemical Process Industry	3

Civil and Environmental Engineering

Office: 2100 E. Engineering Building; 313-577-3789

Chairperson: William Shuster

<http://www.engineering.wayne.edu/cee> ([http://](http://www.engineering.wayne.edu/cee/)

www.engineering.wayne.edu/cee/)

Civil and environmental engineers apply the principles and techniques of engineering to the analysis, design, and integration of complex infrastructure and environmental systems. They have traditionally been leaders in many aspects of urban development, and aid in addressing uniquely urban issues associated with providing critical services to residents. We respond to crises like ageing infrastructure, and how to sustain critical services without undue pressure on the environment at large. The civil and environmental engineer is trained to be a leader in such diverse areas as:

- the design and control of structural systems, including tall buildings, bridges and transportation systems necessary for urban development and redevelopment, demolition, commerce and industry;
- water resources planning and management;
- fate, transport, and remediation of contaminants in water, soil resources;
- design of collection and treatment systems for sanitary sewage and stormwater management;
- integrated waste management;
- drinking water treatment and distribution systems;
- construction engineering and management; and
- the integration and management of public works projects designed to improve equity and availability in municipal services.

In these ways, the responsibilities of the civil and environmental engineer directly involve sustaining the health, safety and welfare of the public.

The Civil and Environmental Engineering Department maintains laboratories for teaching and research with facilities for testing structural components under static and dynamic loads; strain measurement; transportation network sensing and assessment, traffic simulation; environmental microbiological, biogeochemical characterization; air quality sampling and characterization; and hydraulic, hydrologic assessments. The Department and the University maintain excellent computer facilities for data acquisition and analysis.

- Civil Engineering (B.S.) (p. 173)

Civil Engineering (B.S.)

Mission Statement

The mission of the Civil and Environmental Engineering Department is to provide high-quality, state-of-the-art educational and research programs. The Department strives for excellence in its academic programs, its research endeavors, and its university, community and professional service activities. The program is designed to prepare graduates for success in their immediate, as well as long-term, professional careers as practitioners, for obtaining a professional license, and for pursuing advanced studies and lifelong learning.

Program Educational Objectives

The graduates of the Civil and Environmental Engineering Program, in their early careers, will be expected to:

1. apply their knowledge and skills as effective, productive civil engineers within private corporations, engineering consulting firms,

as well as local, state and federal government agencies in the design of contemporary civil engineering systems and processes

2. work and communicate effectively with others on multidisciplinary teams to develop practical, technically sound, cost-effective solutions to complex and diverse civil engineering problems
3. build upon the fundamental knowledge gained in the undergraduate program of study, allowing analysis and design in alternative and innovative conditions
4. engage in the profession in an ethical and responsible manner
5. exhibit leadership skills
6. become and remain active members within professional and technical societies

Student Outcomes

Graduates of the Civil and Environmental Engineering Department will demonstrate the following skills and attributes when they receive their B.S. degrees:

- a) apply knowledge of mathematics, science and engineering to solve civil engineering problems
- b) design and conduct experiments; collect and interpret data
- c) design a civil engineering system, component or process to meet specific needs
- d) collaborate and communicate on multi-disciplinary teams
- e) identify, formulate and solve civil engineering problems
- f) demonstrate understanding of ethical and professional responsibility of a civil engineer
- g) communicate effectively in oral and written form
- h) demonstrate understanding of global and societal issues as they pertain to civil engineering
- i) explain the importance of life-long learning and continuing education
- j) demonstrate knowledge of contemporary issues
- k) demonstrate proficiency in using modern engineering tools in the practice of civil engineering
- l) explain the aspects of professional practice issues relevant to the civil engineering profession (include principles of sustainability in design; explain basic concepts in project management, business, public policy, and leadership; analyze issues in professional ethics; and explain the importance of professional licensure)

The civil engineering curriculum has been designed to provide a broad education in the basic sciences, mathematics, and engineering sciences, civil engineering analysis and design, and their application to civil engineering practice. The courses in civil engineering may be considered as an array of groups, each representing an area of concern to contemporary society and industry. Technical electives may be selected from one of these major areas according to the student's particular interest or may be chosen from several areas in order to broaden one's knowledge. A student who contemplates continuing study at the graduate level should seek the advice of his/her faculty counselor in the selection of elective courses. Realizing the social implications of the practice of civil engineering, the program provides for the development of a background in economics, the social sciences, humanities, communication skills, ethics, and related non-technical areas.

Admission Requirements: Admission is contingent upon satisfaction of the general undergraduate admission requirements of the University (p. 23) and the bachelor of science programs in the College of Engineering (p. 162).

Candidates for the Bachelor of Science degree must complete 123-124 credits of coursework, including the General Education (p. 29) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees. Non-engineering entries, cited below by subject rather than individual course number, indicate courses to be selected in fulfillment of the University General Education Requirements. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. Students should consult their advisors for verification of current requirements.

Total Credits	123-124

¹ Students may select from BIO 1050, BIO 1510 or GEL 1010 to meet the Physical Science elective requirement.

Technical Electives: Civil Engineering students are required to complete at least six credits in technical electives. Applicable courses include CE 3010, CE 3070, any CE course at the 5000 or 6000 level, or other courses approved by the undergraduate program coordinator.

Design Electives: Students are required to complete two courses from:

Code	Title	Credits
CE 4610	Highway Design	3
CE 4640	Transportation Systems Design and Operation	3
CE 5230	Water Supply and Wastewater Engineering	3
CE 5390	Design of Prestressed Concrete Structures	3
CE 5410	Energy, Emissions, Environment (E3) Design	3
CE 5510	Geotechnical Engineering I	4
CE 5520	Geotechnical Engineering II	3
CE 5610	Advanced Highway Design	3
CE 6130	Open Channel Hydraulics	3
CE 6150	Hydrologic Analysis and Design	3
CE 6190	Groundwater	3
CE 6270	Sustainability Assessment and Management	3
CE 6340	Bridge Design and Evaluation	3
CE 6370	Advanced Reinforced Concrete Design	3
CE 6410	Advanced Steel Design	3
CE 6580	Geoenvironmental Engineering I	4
CE 6660	Pavement Asset Management	3

Other courses with approval of the undergraduate program coordinator.

Courses used to satisfy core requirements may not also be used to satisfy technical or design elective requirements.

Computer Science

Office: 5057 Woodward, Suite 3010; 313-577-2477

Chairperson: Loren Schwiebert

Academic Advisor: Stephanie Chastain, Colleen McKenney

h (<http://www.cs.wayne.edu/>)<http://engineering.wayne.edu/cs> (<http://engineering.wayne.edu/cs/>)

Mission Statement

The mission of the Department of Computer Science at Wayne State University is to provide excellence in teaching, research, public service, and leadership in the computer science profession and the community. The Department provides a high-quality, innovative, baccalaureate and graduate education that emphasizes the fundamentals of computer science as well as the most recent technological innovations, preparing students for employment and advanced studies. Students are encouraged to become involved in research programs to enhance their education and their employment opportunities. Through the use of our state-of-the-art laboratory facilities, students can conduct basic and applied research of high quality, influence, visibility, and potential community impact. The Department continues to develop cooperative research relationships within and outside the computer science discipline, as well as with industry, government and alumni, and local community organizations. This worldwide interaction with professional

organizations provides our students with the highest standards, goals, and professional practices.

Research and Instructional Laboratories

The Department of Computer Science operates a number of teaching and research laboratories. Research laboratories are organized around individual fields of research interest. The teaching laboratories are supported by the Department and are available to all students for class work and research.

- Computer Science (B.S.) (p. 176)
- Computer Science Minor (p. 178)
- Information Technology (B.S.) (p. 178)

Computer Science (B.S.)

The mission of the Computer Science B.S. program is to provide undergraduate students with a strong foundation in both Computer Science theory and programming practice that is necessary to solve real-world engineering problems. Through the use of state of the art software and hardware, students will learn to develop their theoretical and programming skills in order to allow them to apply these learned techniques to analyze a problem, evaluate possible solutions, and create a solution as part of a program development team. The program prepares students for engineering careers in software design, intelligent systems, big data systems and analytics, computer systems and network design, software system security, and bioinformatics. Graduates will be prepared to take positions in these areas in academia, industry and government, the local community, and will be prepared for graduate studies in Computer Science as well. In addition the program provides students with opportunities to interact with other professional institutions and exhibit the highest ethical standards in the practice of their profession.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 162). Students planning to major in computer science should consult with a departmental advisor as soon as possible prior to enrolling in courses. In general, the requirements in effect when a student declares a major in computer science will be those that the student must satisfy. Students should check with the department for the latest information concerning the program and requirements.

Admission following an interruption in enrollment: A student attempting to complete a computer science major after a prolonged interruption of his/her education may find that some of his/her course work in computer science is out of date. In this case, the student's record will be reviewed and the Department may require the student to fulfill additional computer science course requirements existing at the time of his/her return, and/or to retake some courses previously taken.

Transfer students should consult with an undergraduate departmental academic advisor prior to their transfer. Determination of course equivalency will be made by the Transfer Credit Evaluation Unit in conjunction with the Undergraduate Committee. The Department reserves the right of final determination of course equivalency.

Introductory Course Work: The Department of Computer Science offers a number of courses introducing students to basic computer and computing concepts. Some of these courses also serve as prerequisites for more advanced study in computer science. Some introductory courses require mathematics preparation equivalent to MAT 2010. (See course descriptions regarding the required prerequisite math courses.) CSC 1000, offered as computer-based instruction, is for non-majors who

desire to learn basic computing concepts. Students who intend to major or minor in computer science will not normally take this course.

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 29) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees.

(Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their co-requisite lecture.)

A minimum of twenty-eight credits in computer science must be earned at Wayne State University. A minimum grade of 'C' is required in CSC 1100, CSC 1101, CSC 1500, CSC 1501, CSC 2110, CSC 2111, CSC 2200 and CSC 2201. All other courses including CSC, MAT, BE, and courses within the General Education program must adhere to the requirements of the Engineering Division as stated above.

Students declaring their major must consult with a departmental academic advisor about their individual plan of work and degree requirements

Cooperative Work-Study Program

Students who wish to enrich their education with on-the-job engineering experience may enroll in a zero credit course (BE 3500) with approval from their academic advisor (<http://engineering.wayne.edu/cs/students/advising.php#undergraduate>) and the Engineering Career Resource Center (<http://engineering.wayne.edu/career/co-ops.php>). Registration in BE 3500 allows the university to provide additional support services and safe guards to students. BE 3500 registration also ensures that the co-op experience is well documented to employers when students apply for their first job after graduation. At the end of the semester, students will submit a final report or PowerPoint showcasing co-op activities to the Assistant Dean of Student Services. Student's performance on the job is rated by his/her industrial supervisor. Salaries and other benefits are paid for the time spent on each work assignment. For details and enrollment procedures, contact the Engineering Career Resource Center (<http://engineering.wayne.edu/career/contact.php>). Students interested in registering for Professional Practice in Computer Science (CSC 4995) for academic credits should consult with their departmental academic advisor.

'AGRADE' Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: This program enables qualified seniors to enroll simultaneously in the undergraduate and graduate programs and apply a maximum of 16 credits towards both the bachelor's and master's degrees. Students electing the 'AGRADE' Program may expect to complete the bachelor's and master's degrees in five years of full-time study.

Admission Requirements: An 'AGRADE' applicant may petition the Graduate Committee of the Computer Science Department for acceptance into the program no earlier than the first semester in which ninety credits will be completed. Following Departmental Graduate Committee approval, students must seek the approval of the Graduate Officer of the College. Applicants must have an overall grade point average (g.p.a.) of 3.3 or better and a 3.45 g.p.a. or better in the major courses already completed. If the student's petition is accepted, the student shall submit a graduate Plan of Work, specifying 'AGRADE' courses to be included in subsequent semesters.

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 29) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees.

Departmental Honors Requirements		
Department Honors Thesis		
CSC 4999	Honors Thesis	3-6
One semester of an Honors Program 4000 level seminar		
HON 4200	Seminar in Philosophy and Letters	3
or HON 4230	Seminar in Physical Science	
or HON 4250	Seminar: Global Perspectives on Historical Studies	

or HON 4260	Seminar in Foreign Culture	
or HON 4280	General Honors Seminar	
3-6 additional honors credits in Computer Science courses depending on thesis credits		
Total Honors Credits		12

Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their co-requisite lecture.

A minimum of twenty-eight credits in computer science must be earned at Wayne State University. A minimum grade of 'C' is required in CSC 1100, CSC 1101, CSC 1500, CSC 1501, CSC 2110, CSC 2111, CSC 2200 and CSC 2201. All other courses including CSC, MAT, BE, and courses within the General Education program must adhere to the requirements of the Engineering Division as stated above.

The Honors Thesis is a paper presenting the results of the student's independent research. The length of the thesis may vary according to the nature of the topic and method of approach, but is typically a minimum of 20 pages in length. A minimum of two semesters should be allowed for completion of all of the thesis requirements. It is expected that the Honors Thesis will conform to the University master's thesis format requirements (copies available from the Graduate School).

Students are responsible for identifying their own research project and full-time faculty member. Students must submit a completed and signed Honors Thesis Registration form (http://engineering.wayne.edu/cs/ug_forms/petition_and_authorization_to_register_for_csc_4999.pdf) to their departmental academic advisor before registration overrides will be provided. At the end of the first semester a deferred grade of Y will be assigned, with a grade change processed at the completion of the thesis in a subsequent semester. A grade is awarded for CSC 4999 after approval of the thesis by the faculty advisor and one other full-time faculty member.

An overall Wayne State University cumulative grade point average of at least 3.3.

Students should consult with the Honors College (<https://honors.wayne.edu/>) regarding additional honors-designated course work available each semester.

Computer Science Minor

The Minor Program provides a background in computer science for students who are majoring in other fields of study in the College.

Code	Title	Credits

CSC 2200	Computer Science II ¹	3
CSC 2201	Computer Science II: Lab ¹	1

Two additional Computer Science courses numbered 3000 or above to complete the required eighteen CSC credits. ²

Total Credits **26**

¹ A minimum grade of 'C' is required in these courses. For all other MAT, BE and CSC courses, a minimum grade of 'C-' is required.

² excluding CSC 4990 and CSC 4995

Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their corequisite lecture.

A minimum of twelve credits in computer science must be earned at Wayne State University.

Students may wish to modify the minor program to fit their special needs. For any changes or adjustments to the above course requirements, students should contact their Departmental undergraduate advisors for approval. Students declaring their minor should consult an advisor for a written assessment of current requirements.

Information Technology (B.S.)

This program prepares the student for a challenging workplace with an enhanced knowledge of business applications. The curriculum for the degree is designed to provide students with a solid foundation in computer and information systems and business administration.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Academic Regulations

Academic Probation: A student is considered to be on academic probation whenever his or her cumulative grade point average, or his or her grade point average in the computer science program, falls below 2.0. A student may also be placed on probation whenever his or her academic performance is deemed unsatisfactory. If, at the end of the first semester on probation, the student's cumulative grade point average has not increased to at least 2.0, he or she will be excluded from the Department of Computer Science. If the student's cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, he or she will be returned to regular status. Following exclusion from the Department of Computer Science, the privilege of registering in the Department will be withheld for at least one calendar year.

Exclusion: A student who has been refused the privilege of registering in the Department may request a reconsideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to request a meeting with the ASC as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the Department of Computer Science guaranteed.

Repeated Courses and Substandard Grades: Students will be allowed up to a maximum of five repeated courses, one repeated course for a substandard grade. If a student must repeat a subsequent course in order to complete their degree, he or she will be excluded from the Department of Computer Science (i.e., students must complete a course within three attempts). Prerequisite math and science courses that do not satisfy degree requirements, but are required if students did not place into

MAT 2010, are also counted towards exclusion from the Department. A substandard grade is defined as a grade lower than the minimum requirement (i.e., a grade of C-minus in CSC 1100/1101, or a WP/WF/WN).

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees.

Students are strongly encouraged to meet with their assigned academic advisor (<http://engineering.wayne.edu/cs/students/advising.php#undergraduate>) to discuss degree requirements as soon as possible after admittance into the program.

Business Administration Minor

The Mike Ilitch School of Business offers a minor in business for undergraduate students majoring in other disciplines. The Business Minor consists of six courses, totaling eighteen credits. Students must also complete prerequisite courses with a minimum grade of C (2.0 g.p.a.) for each course. The minor provides an excellent opportunity for non-business majors to broaden their knowledge of the business disciplines. In addition, the program enhances career prospects and establishes a solid business base for pursuing a Master of Business Administration degree. To be eligible to apply for the Business Minor, students must have a minimum overall grade point average of 2.5.

Information Technology students must meet with a business advisor to officially declare a minor.

Code	Title	Credits
Prerequisite Courses (11 credits)		
BA 2300	Quantitative Methods I: Probability and Statistical Inference	3
or ET 3850	Reliability and Engineering Statistics	
ECO 2010	Principles of Microeconomics ((Social Inquiry))	4
ECO 2020	Principles of Macroeconomics ((Social Inquiry))	4
Required Courses (18 credits)		
ACC 3010	Introduction to Financial Accounting	3
MGT 2530	Management of Organizational Behavior	3
MKT 2300	Marketing Management	3
ISM 3630	Business Information Systems ((Selected course))	3
Two electives from Mike Ilitch School of Business ISM courses		6
Total Credits		29

A minimum grade of C is required for the following respectively:

Code	Title	Credits
CSC 1100	Problem Solving and Programming	3
CSC 1101	Problem Solving and Programming Laboratory	1
CSC 2110	Computer Science I	3
CSC 2111	Computer Science I Lab	1

All other courses including CSC, MAT, BE, EET, ET, and courses within the General Education program must adhere to the requirements of the Engineering Division (grades of C-minus or better, unless otherwise specified).

Electrical and Computer Engineering

Office: 3100 W. Engineering Building; 313-577-3920
Chairperson: Mohammed Ismail Elnaggar
<http://engineering.wayne.edu/ece/>

In the field of electrical and computer engineering, basic physical and mathematical principles are utilized to develop new devices, technologies, and techniques of constantly broadening application. Examples are the development of smaller, cheaper, and more powerful computers, microprocessors, and other data processors, stemming from advances in solid-state and integrated circuit technology, and their utilization in a growing range of system applications; the growing use of data communications and sophisticated communication networks; the use of lasers, and the development of fiber optic and integrated optical devices for various applications ranging from optical data processing to communication; development of sophisticated control techniques, smart sensors, and transducers for advanced automation and electric power systems; the application of electronics to health care and diagnostics

(such as noninvasive measurements and ultrasound imaging); and energy conversion devices.

The areas of study available in the Department include: solid-state devices, lasers, smart sensors, information sciences, digital circuits, computer engineering, integrated and active circuits, nanotechnology, biomedical electronics and systems, image processing, neural networks, and modern control theory.

Programs of both experimental and theoretical study are available in all these areas, as well as other interdisciplinary programs through the Electrical and Computer Engineering Department.

A more detailed exposition of the Department's research activities is available on our website. Senior students are encouraged to participate in research activities by means of independent study projects and student assistantships. Graduate students normally participate in the research program as graduate teaching assistants and research assistants.

The College of Engineering laboratory building contains seven instructional laboratories for experimental work in control systems, analog circuits, digital systems, microcomputers, instrumentation, optics, and communication systems; these laboratories are an integral part of the instructional program. In addition, the Departmental faculty have eight research laboratories dealing with computer systems, multi-media systems, semiconductor device materials including a clean-room facility, opto-electronics, computation and neural networks, image processing, nanotechnology, telematics, and embedded systems. Computer facilities are available for student use; the College Computer Center as well as the University Computing Services Center are available to all students through individual student accounts.

- Electrical Engineering (B.S.) (p. 180)

Electrical Engineering (B.S.)

In addition to the Undergraduate Program Goals for the College of Engineering, the specific objectives of the Bachelor of Science program in Electrical Engineering include the following:

1. Graduates will understand relevant engineering and scientific principles underlying electrical and computer technologies, and have the capability to apply theoretical, computational, and experimental methods to solve real engineering problems.
2. Graduates will have strong oral and written communication skills to interact with fellow engineers and non-technical personnel in a team environment.
3. Graduates will have computer skills for effective use in engineering. They will possess a working knowledge of modern programming languages, as well as operating systems and software packages for design, analysis, and simulation.
4. Graduates will be able to work hands-on in laboratories with state-of-the-art facilities and equipment to accomplish assigned tasks and projects.
5. Graduates will be aware of the societal responsibility of engineers and the essential nature of high ethical standards of professional behavior.
6. Graduates will possess effective engineering design capability and an awareness of cost, safety, sustainability, accessibility, and other associated constraints in engineering design.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 162).

Candidates for the Bachelor of Science degree must complete **126 credits of coursework**, including the University General Education (p. 29) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. However, students should consult an academic advisor for verification of current requirements.

In the freshman and sophomore years, the student acquires a foundation in the principles of science and mathematics required for the study of engineering. In addition, general education studies are provided to ensure a well-rounded education. Basic concepts of electrical circuits, electronics, computers and electromagnetic fields are studied after prerequisite mathematics and science backgrounds are mastered. In the senior year, a choice of electrical and computer engineering electives permits the student to specialize in one or more areas.

Electrical Engineering Curriculum

First Year			
First Semester			Credits
BE 1200	Basic Engineering I: Design in Engineering		3
CHM 1225	General Chemistry I for Engineers		3
CHM 1230	General Chemistry I Laboratory		1
ENG 1020	Introductory College Writing		3
MAT 2010	Calculus I		4
Any (WE) Wayne Experience			1
		Credits	15
Second Semester			
BE 1500	Introduction to Programmin and Computator for Engineers		3
CSC 2000	Introduction to C++ Programming Language		3
MAT 2020	Calculus II		4
PHY 2175	University Physics for Engineers I		4
		Credits	14
Second Year			
First Semester			
ECE 2610	Digital Logic Design		4
MAT 2030	Calculus III		4
PHY 2185	University Physics for Engineers II		4
PHY 2181	University Physics Laboratory II * See Note at Bottom of Curriculum		1

Any (CIV) Civic Literacy		3
Credits		16
Second Semester		
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	3
ECE 3300	Introduction to Electrical Circuits	4
ECE 3620	Introduction to Microcomputers	4
MAT 2150	Differential Equations and Matrix Algebra	4
Credits		15
Third Year

ECE 3040	Numerical Methods for Engineers	3
ECE 3330	Electrical Circuits II	3
ECE 3570	Electronics	4
ECO 2010 or ECO 2020 or ECO 1000	Principles of Microeconomics or Principles of Macroeconomics or Survey of Economics	4
ENG 3050	Technical Communication I: Reports	3
Credits		17
Second Semester		
PHI 1120 or PHI 2320	Professional Ethics or Introduction to Ethics	3
ECE 4330	Linear Systems and Signals	4
ECE 4570	Fundamentals of Microelectronic Devices	3
Any (GL) Course - Global Learning		3
Electrical, Computer or Biomedical Electronics and Systems Option Course		4
Credits		17
Fourth Year		
First Semester		
Electrical, Computer or Biomedical Electronics and Systems Option Courses		8
ECE 4700	Introduction to Communication Theory	4

ECE 4340 or ECE 4331	Microcomputer Based Instrumentation Laboratory or Systems and Signals Laboratory	2
ENG 3060	Technical Communication II: Presentations	3
Credits		17
Second Semester		
Any (DEI) Course - Diversity, Equity & Inclusion		3
ECE 4600	Capstone Design I	4
Any ECE Electives		8
Credits		15
Total Credits		126

* Students are required to take either PHY 2171 along with PHY 2175 OR take PHY 2181 along with PHY 2185. The Electrical Engineering department recommends taking PHY 2181.

Biomedical Electronics and Systems Option

Code	Title	Credits
ECE 5100	Quantitative Physiology	4
ECE 6180	Biomedical Instrumentation	4
Select one of the following:		4
ECE 5690	Introduction to Digital Image Processing	
ECE 5575	Introduction to Micro and Nano Electro Mechanical Systems (MEMS/NEMS)	
ECE 5425	Robotic Systems I	
Total Credits		12

Computer Option

Code	Title	Credits
ECE 4050	Algorithms and Data Structures	4
ECE 4680	Computer Architecture	4
ECE 5650	Computer Networking and Network Programming	4
Total Credits		12

Electrical Option

Code	Title	Credits
ECE 4470	Control Systems I	4
ECE 4800	Electromagnetic Fields and Waves I	4
ECE Elective		4
Total Credits		12

Substitution of a course not on this list requires approval of the department chairperson or delegated faculty advisor.

Course Material Fee

A course material fee is charged for laboratory courses using expendable materials.

Industrial and Systems Engineering

Office: 2143 Manufacturing Engineering Building, 4815 Fourth St.;
313-577-3821

Interim Chairperson: Ratna Babu Chinnam
<http://www.ise.wayne.edu> (<http://www.ise.wayne.edu/>)

The industrial engineer is a broadly-trained integration engineer, concerned with enabling complex systems to function effectively. Managing the inventory of a production facility, for example, involves issues of production and stocking policy, manufacturing equipment, human resources, customer demand, and supplier relationships. The industrial engineer must understand the interaction of the components of a system, and coordinate the flow of materials and information to effectively manage the operation. The industrial engineer plays an important role in defining information needs and developing strategies for decision-making based on incomplete knowledge. However, the skills of the industrial engineer have much greater application than to traditional production environments. In a growing service sector of the economy including health care delivery, public safety, air transportation, and banking, for example, issues of resource management, scheduling, quality of service, and systems design are important.

Traditionally, the manufacturing engineer was responsible for developing the process capability to realize the output of design engineering. Today the boundary between design and manufacturing engineering is becoming blurred; both groups work together in teams to assure the soundness of design and production capability. The manufacturing engineer must have an understanding of the design process, but the manufacturing engineer's special expertise is the knowledge of the production process.

Today's production is computer-based and provides flexibility through computer control. The manufacturing engineer is responsible for designing and implementing the cells and production lines which become the basic units of manufacturing. Increasingly, such production units are becoming parts of an integrated factory system, not simply islands of automation. The manufacturing engineer must understand the multi-layered control architecture of the integrated factory, and the computer-based technologies which enable it.

The Department maintains laboratories in systems simulation, computer-aided manufacturing, human systems, and concurrent engineering design.

- Industrial Engineering (B.S.) (p. 182)

Industrial Engineering (B.S.)

Program Mission: The mission of the undergraduate program in Industrial Engineering is to educate our students for leadership positions in a broad spectrum of employment including: manufacturing, supply chain management and logistics, health care, banking, information management, and related disciplines.

Program Vision: The Department of Industrial and Systems Engineering offers the B.S. in Industrial Engineering to prepare students for a broad range of employment opportunities that include operations management, manufacturing, and healthcare. Our vision is to produce graduates who will lead their organizations to competitive advantage by applying the tools and techniques of industrial engineering. We believe that exposing students to diverse industries in our educational program will enhance their professional skills.

Program Educational Objectives: Building on skills developed in the academic program, and extended by experience and personal self-improvement, the graduates of our program have the ability to:

- Employ the tools and techniques of industrial engineering to make decisions which add value to their organization.

- Identify opportunities and formulate engineering solutions which integrate analytics, technology and human systems.
- Provide technical leadership as a member of high-performance teams impacting local or global communities, and broader society.
- Continue to enhance professional skills through post-undergraduate degrees, professional certificates, and other learning experiences.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 162).

Candidates for the Bachelor of Science degree must complete 122 credits of coursework, including the University General Education (p. 29) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees. Non-engineering courses, cited below by subject rather than by individual course numbers, indicate courses to be selected in fulfillment of University General Education Requirements. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. However, students should consult an academic advisor for verification of current requirements.

The Bachelor of Science degree programs are built on a strong core of common courses. In the junior and senior years, students must choose a concentration leading to the industrial engineering degree. These options are described below.

The directed elective must be approved by the program director or undergraduate advisor. A list of courses appropriate for the directed elective is available from the Department.

Engineering Breadth Options: In the following curricula engineering Breadth Options are courses selected from an approved list of those deemed most suitable as contributing to the industrial engineering degree program. In the sophomore year these options are limited to courses numbered below 3000 for all students who have NOT completed their preprofessional coursework.

The Engineering Design Project course sequence (IE 4800 and IE 4880) is a capstone endeavor and is intended to build on and integrate the knowledge that the student has accumulated throughout the undergraduate program. It is intended to be taken in the student's last academic year, within forty credits of graduation. This sequence is a year-long undertaking. Students enroll in IE 4800 (two credits) in their last Fall semester, and spend the term building their teamwork skills and selecting and planning their project. Practical, professionally-relevant projects are usually selected in concert with the Department's industrial partners. In the Winter semester, students enroll in IE 4880 (2 credits) and engage in an intensive effort to bring their industrial engineering skills and knowledge to bear on the problem. Students who intend to take the capstone sequence should first consult their academic advisor.

Project Requirements: In order to qualify to take IE 4800, students must be in the last year of his/her program (within forty credits of graduating). To enroll in IE 4800, the student must have taken and passed IE 3120, IE 4250, IE 4850, and should have taken and passed or be taking at least two of the IE 4420, IE 4330, IE 4560 in the same semester of IE 4800.

In order to register for IE 4880, students must have taken IE 4800 in the immediately previous term they must be finished with all eight IE core courses by the end of the semester in which they take IE 4880. Students are encouraged to meet with the industrial engineering

program academic advisor for a plan of work to ensure they meet these requirements.

Mechanical Engineering

Office: 2100 W. Engineering Building; 313-577-3843; Fax: 313-577-8789
 Chairperson: Nabil G. Chalhoub; ab9714@wayne.edu
 Director of Undergraduate Studies: Jerry C. Ku; aa1898@wayne.edu
 Academic Undergraduate Advisor: Keith L. Wadley; ab8541@wayne.edu
<http://www.eng.wayne.edu/ME/>

The opportunities and challenges in the field of mechanical engineering are many and diverse. The broad variety of career possibilities includes research and development, design analysis and synthesis, manufacturing and production engineering, testing, sales engineering, maintenance and administration. The challenge of a mechanical engineer may lie in the perfection of a device that will be duplicated a million-fold or in the

control optimization of a single complex system of unique design. To prepare undergraduate students for these opportunities, the Wayne State University Mechanical Engineering curriculum is designed to give a basic core education in the humanities, mathematics, natural sciences, basic applied sciences, engineering fundamentals, and to provide advanced electives in many applied fields.

Fields of departmental expertise include such important areas as biomechanics, energy conversion, combustion engines, emissions controls, structural analysis, automatic controls, robotics, thermodynamics, continuum mechanics, fluid dynamics, vibrations, heat transfer, mechanisms, acoustics and noise control, design, machine tool design, manufacturing, laser diagnostics, and mechanics of composite materials. Research and teaching is carried out in all of these areas.

- Mechanical Engineering (B.S.) (p. 184)

Mechanical Engineering (B.S.)

The Bachelor of Science in Mechanical Engineering is accredited by the Accreditation Board for Engineering and Technology.

Program Goals

Mechanical engineering B.S. graduates will be able to apply basic engineering principles to identify and solve problems, and to design, specify the manufacturing of, and evaluate the performance of mechanical systems and processes.

Program Educational Objectives

Program Educational Objectives are broad in scope and describe the expected accomplishments of our graduates during the first few years after graduation, while Student Outcomes are narrower and describe what our students are expected to know and be able to do by the time of graduation. The objectives of the undergraduate program in Mechanical Engineering at Wayne State University are to provide the education and training that will enable its graduates to:

1. successfully pursue intermediate level engineering positions or additional degrees;
2. demonstrate technical competency in applying broad, fundamental-based knowledge and up-to-date skills to perform professional work in mechanical engineering related disciplines;
3. demonstrate competency in applying comprehensive design methodology pertaining to mechanical engineering, incorporating the use of the economic, environmental, and social impact of design;
4. engage in professional societies, and to always apply best practices in professional ethics; and
5. be committed to life-long learning activities through self-reliance, creativity and leadership.

ABET Student Outcomes (as revised on September 18, 2009)

It is expected that by the time of graduation, our B.S.M.E. students will have:

1. an ability to apply knowledge of mathematics, science, and engineering
2. an ability to design and conduct experiments, as well as to analyze and interpret data
3. an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability

4. an ability to function on multidisciplinary teams
5. an ability to identify, formulate, and solve engineering problems
6. an understanding of professional and ethical responsibility
7. an ability to communicate effectively
8. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
9. a recognition of the need for, and an ability to engage in life-long learning
10. a knowledge of contemporary issues
11. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

In support of these educational objectives, faculty members will seek outstanding levels of achievement in their research and engineering practices. To further foster professionalism, the Department encourages students to be active participants in ASME, Pi Tau Sigma, Tau Beta Pi, SAE and other student professional organizations.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 162). The Department has an Academic Advisor and a Director of Undergraduate Studies. The former is responsible for assisting students with course selections and maintaining academic progress, and the latter is responsible for enforcing Departmental academic policy. Students are encouraged to meet with the Academic Advisor once every semester, for up-to-date feedback on their academic progress and a review of course plans for the next semester or two. The student and advisor together plan a complete program of study, including electives, which meet Departmental requirements and the interests of the individual student.

Candidates for the Bachelor of Science degree must complete 123 credits of coursework, including the University General Education (p. 29) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 10) and the College of Engineering (p. 160) governing undergraduate scholarship and degrees.

Evening courses and cooperative programs allow professionals working in local industry to pursue an undergraduate degree while continuing employment. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin; however, students should consult an academic advisor for verification of current requirements.

ME 5170	Design of Human Rehabilitation Systems	4
ME 5180/ BME 5370	Introduction to Biomaterials	4
ME 6180/ BME 6480/ ECE 6180	Biomedical Instrumentation	4
Solid Mechanics and Design		
ME 5040	Finite Element Methods I	4
ME 5620	Fracture Mechanics in Engineering Design	4
ME 5700	Fundamentals of Mechanics	4
ME 5720	Mechanics of Composite Materials	4
Design and Manufacturing		
ME 5453	Automotive Manufacturing Systems and Processes	4
ME 5580	Computer-Aided Mechanical Design	4
Thermal/Fluid Science		
ME 5110/ EVE 5130/ AET 5110/CHE 5110	Fundamental Fuel Cell Systems	4
ME 5115/ EVE 5110	Fundamentals of Electric-drive Vehicle Modeling	4
ME 5215/ EVE 5120/ AET 5310/ CHE 5120	Fundamentals of Battery Systems for Electric and Hybrid Vehicles	4
ME 5300	Intermediate Fluid Mechanics	4
ME 5800	Combustion Engines	4
ME 5810	Combustion and Emissions	4
ME 5820	Thermal Environmental Engineering	4

In addition, students may choose to do directed study and research in an area of mutual interest to the student and a faculty member.

Engineering Technology Division

Office: 4855 Fourth Street; 313-577-0800

Chairperson: Ece Yaprak

<http://www.engineering.wayne.edu/et/>

The Division of Engineering Technology was founded in 1973 and offers both undergraduate (upper-division: junior and senior level) and graduate programs. It stresses the application of current technology to typical industrial problems. Entering students in the upper division program are assumed to have a background equivalent to an associate degree in engineering technology or in a related discipline. The program complements a community college education by providing more application-oriented analytical techniques. In the curriculum a close relationship is maintained between the theoretical principles taught in the classroom and their applications in corresponding laboratories.

Engineering technology is a profession closely related to engineering and deals with the application of knowledge and skill to industrial processes, production, and management. Technologists are organizers of people, materials, and equipment for the effective planning, construction and maintenance of technical facilities and operations. They are responsible for work requiring technical and practical knowledge. They can apply their abilities in using technical equipment, selling technical products, serving as manufacturers' technical representatives, or supervising varied construction projects and manufacturing processes. They work with engineers in many aspects of project development, production planning, and final testing of industrial, military, or consumer products. Their talents are used in virtually every activity where technical expertise is required. They may be involved with electronic and mechanical instruments, experimental equipment, computing devices, tool design, manufacturing, or drafting.

Technical skills in the use of electronic equipment, machinery, tools, and drafting instruments are characteristic of this type of work. Thus, engineering technology students can find challenging employment in business and industry. Graduates of Wayne State's Engineering Technology program have been employed in areas such as manufacturing engineering, engineering production, marketing, maintenance, quality control, product testing, field engineering, consulting engineering, design, and technical supervision. Baccalaureate engineering technology graduates are often called technologists to distinguish them from baccalaureate graduates of engineering programs. However, the National Bureau of Labor Statistics does not have a category called 'technologist,' and consequently, many industrial job titles show little distinction between technologists and engineers. Graduates of Engineering Technology and Engineering programs complement each other in their skills and interests, and together with technicians and scientists, they form a technological team which has been able to produce an ever-increasing rate of technological advancement.

Academic Regulations: Division of Engineering Technology

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 17) section of this bulletin. The following additions and amendments pertain to the Division of Engineering Technology.

'AGRADE' Program (Accelerated Graduate Enrollment)

The College of Engineering allows academically superior undergraduate seniors to enroll simultaneously in undergraduate and graduate programs and apply a maximum of sixteen credits toward both an undergraduate and graduate degree in the student's major field. Students who elect the 'AGRADE' Program may expect to complete the bachelor's and master's degrees in one additional year of full-time study.

To be eligible, applicants must have completed a minimum of ninety credits of course work applied towards the engineering technology degree and be accepted in the professional program of their major. The minimum grade point averages for acceptance into the program are a 3.4 g.p.a. in engineering and not less than a 3.6 g.p.a. in their department of

specialization, as computed by the rules of the Division of Engineering Technology. See the departmental advisor for further details.

Student Conduct

Each student is subject to official regulations governing student activities and student behavior. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Academic integrity means that a student is honest with him/herself, fellow students, instructors, and the University in matters concerning his or her educational endeavors. Thus, a student should not falsely claim the work of another as his/her own, or misrepresent him/herself so that the measures of his/her academic performance do not reflect his/her own work or personal knowledge.

If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he or she may be disciplined. Such discipline may include failure in the course, suspension or dismissal, but no dismissal will be directed without reasonable opportunity for an appropriate hearing.

Probation Policy

A student is considered to be on probation whenever his/her cumulative grade point average (g.p.a.) falls below 2.0. A student may also be placed on probation whenever his/her academic performance is deemed unsatisfactory. When placed on probation, the student is required to meet with the Division Head or the Academic Standards Committee of the Division of Engineering Technology, to remove an academic hold on his/her registration. While on probation, a student may not represent the Division of Engineering Technology in student activities. The Academic Standards Committee of the Division formulates the regulations for probationary students and hears requests for exceptions.

A student on probation is expected to bring up his/her grade point average promptly. If, at the end of the first semester on probation, the student's cumulative grade point average has not increased to at least 2.0, he/she will be excluded from the Division of Engineering Technology for at least one calendar year. Course work taken at any institution during the period of exclusion may not be considered for transfer toward an engineering technology degree.

For part-time students, a semester will be considered to consist of twelve consecutive credits. If a student's cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, he/she will be returned to regular status. Multiple occurrence of probation will result in the student's exclusion from the Division of Engineering Technology.

A student may be refused the privilege of registering in the Division if, at any time, his/her grade point average falls below 2.0. A student may also be refused the privilege of registering in the Division for irresponsible attendance and performance in class, regardless of any probationary status.

A student who has been refused registration may request that the Division Head or Academic Standards Committee reconsider his/her status. Such request should only be made when evidence of extenuating circumstances can be provided.

Division of Engineering Technology Rules for Calculating Grade Point Average

The Division of Engineering Technology computes Division and College grade point averages using rules that differ from those used to compute the cumulative grade point average on the official University transcript: the College g.p.a. is calculated based on all engineering and technical courses, as well as required English courses. The Division g.p.a. includes

all courses taken within the Division including courses bearing the subject codes of: CMT, ET, EET, MCT, MIT, ETT.

For students admitted to the College of Engineering for the Winter 2004 semester or later, repeated courses will not be included in the grade point average calculations (following standard University regulations). The new grade will replace the old grade in the g.p.a. calculation, but only a maximum of five repeated courses will be allowed.

For students admitted to the College of Engineering prior to Winter 2004, the inclusion of repeated courses in the grade point calculation follows different rules. When a course is repeated, the new grade will replace the previous grade unless the student exceeds the maximum number of repeats: one repeat for each thirty-four credits completed at Wayne State University. After the maximum number of repeats is exceeded, both grades are used in computing the student's grade point average.

Dean's List of Honor Students

A student who achieves a semester grade point average of 3.5 or more, based on a program of at least twelve credits, is notified by the Dean of citation for distinguished scholarship and his/her name is included on the Dean's List of Honor Students.

Substandard Performance

A minimum grade of C- is required for all courses. A course in which a grade below C- has been earned can not be subsequently passed by special examination. When repeating a course, failure for the third time to pass it with a grade satisfactory to the Division constitutes grounds for denying a student further registration in the Division of Engineering Technology.

Technology Transfer Credit

University policy allows a maximum of sixty-four semester credits to be transferred from community colleges to Wayne State. In some cases, students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; however, a minimum of thirty semester credits must be earned from Wayne State, and at least twenty-four of those credits must be earned in Division of Engineering Technology courses. Each Engineering Technology degree program specifies lower division technical courses that may be part of the sixty-four credits transferred to Wayne State. These are listed in *Requirements* tab of each degree program under the heading, *Lower Division Technical Transfer Credits*. For evaluation of courses submitted to satisfy this requirement, students should consult an Engineering Technology advisor.

Changes of Election and Withdrawal

In addition to the University policies regarding changes of program and withdrawal from courses (p. 64), the following additions and amendments apply to the Division of Engineering Technology:

Registration and Adding Courses

A student may register for courses through the last day of the second week of classes for fifteen-week courses. A registered student may add a course through the last day of the second week of classes by submitting a completed Drop/Add form. Students are not permitted to add courses after the first week of the term without instructor and departmental permission.

A student may not change from one section of a course to another section of the same course after the fourth week of classes. Drop/Add forms will be valid for ten calendar days from the date of the earliest signature of approval. Once a student is admitted to Wayne State University, he/she does not have to go through the admissions procedure

again. If a student does not register for two or more terms, he/she must first have his/her status upgraded at the University Records Office.

Withdrawals

Courses from which a student withdraws, such that a mark of WP, WF, or WN appears on the transcript, are counted as an attempt at the course and are taken into account when assessing the allowed number of repeats. If a student feels that circumstances beyond their control (e.g., family emergency, change of work schedule) justify the withdrawal, a written petition may be submitted to the Associate Dean for Academic Affairs before the end of the semester in which the course was taken. If the petition is approved, it will be noted in the student's advising record that the course will not be counted towards Engineering repeat allowances.

Graduation

Students must apply for graduation at the beginning of the semester in which they plan on completing their degree requirements. At graduation, the University requires a minimum 2.0 grade point average in the total residence credit. Additionally, Engineering Technology programs require a minimum 2.0 grade point average in the Division. The student's total g.p.a., as well as division grade point average, is calculated using the Division of Engineering Technology rules as described above.

Graduates with a minimum of thirty credits in residence at Wayne State University and a grade point average of at least 3.0 may qualify for a special diploma under the following conditions:

Summa Cum Laude: Student must have a grade point average in the 95th percentile of the College of Engineering graduating class.

Magna Cum Laude: Student must have a grade point average in the 90th percentile of the graduating class.

Cum Laude: Student must have a grade point average in the 80th percentile of the graduating class.

Commencement

Each year, commencement exercises are held in both May and December. College Order of the Engineer and Professional Order of Engineering Technology ceremonies will be held in May to induct graduates into these organizations. Students who are graduating in December are eligible to participate in the induction ceremony for the following May.

- Computer Technology (B.S.C.T.) (p. 188)
- Construction Management (B.S.C.M.) (p. 190)
- Electrical/Electronic Engineering Technology (B.S.E.E.T.) (p. 191)
- Electromechanical Engineering Technology (B.S.E.M.T.) (p. 192)
- Electric Transportation Technology (B.S.E.T.T.) (p. 190)
- Mechanical Engineering Technology (B.S.M.C.T.) (p. 194)
- Manufacturing Engineering Technology (B.S.M.F.T.) (p. 193)
- Welding and Metallurgical Engineering Technology (B.S.W.M.E.T.) (p. 196)
- Energy Storage Systems, Advanced (Certificate) (p. 188)

Advanced Energy Storage Systems (Certificate)

The alternative energy economy relies heavily on advanced energy storage systems to prolong the life of energy generated by solar and wind systems. The changing nature of energy resources will increase the need for energy storage in both supply and demand. Energy storage facilities hold a key position in energy supply systems; the benefits of electric energy storage include increasing grid reliability, reducing system

transmission congestion, helping manage load, and making renewable electricity sources more suitable as base load providers. Energy storage technologies are also critical to the future of the automotive industry, which is innovating rapidly around vehicle electrification.

The Undergraduate Certificate Program in Advanced Energy Storage Systems provides technically-oriented education that emphasizes the application of advanced technology to solve problems, design and develop products, and improve processes, procedures, equipment, and facilities. This program aims to prepare students for application-oriented careers in Advanced Energy Storage System industry, including storage in automotive, consumer, nuclear and green industries; advanced battery systems and hydrogen electro-chemical cells; mechanical energy storage; thermal and chemical storage; inductive storage based on superconducting magnetic field; and, social and economical aspects of storage technology.

Admission Requirements

Beginning Fall 2017, an admissions moratorium is in effect for this program.

Students must be concurrently enrolled in or have completed an undergraduate degree (B.S.) in Engineering, Engineering Technology, Chemistry, or Physics. Students who are currently pursuing a B.S. must have completed at least sixty credits of undergraduate engineering, engineering technology, chemistry, or physics coursework with a minimum of a 2.0 cumulative major g.p.a. Students must document satisfactory completion of all prerequisite courses (or their equivalent) with a grade of C- or higher.

Students interested in earning an Undergraduate Certificate in Advanced Energy Storage Systems must complete five courses:

Code	Title	Credits
ETT 4150	Fundamentals of Hybrid and Electric Vehicles	3
ETT 4310	Energy Storage Systems for Hybrid and Electric Vehicles	3
ETT 4410	Introduction to Advanced Energy Storage	3
MCT 4150	Applied Thermodynamics	3
MCT 5210	Energy Sources and Conversion	3
Total Credits		15

Program Standards

All students must earn at least a C grade in each of the courses to be applied towards the Certificate and complete the coursework with an overall g.p.a. of at least 2.0. Students concurrently enrolled in an engineering or engineering technology undergraduate program will be governed by overall policy on substandard grades for students pursuing a B.S. degree (one substandard grade allowed for every twenty-four credits completed at WSU). Students who have completed a B.S. degree and are pursuing only the Certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of this academic program.

Computer Technology (B.S.C.T.)

The Bachelor of Science in Computer Technology (B.S.C.T.) prepares students for professional work relating advancements in basic science to practical computer applications. This degree is an interdisciplinary program of study which provides a combination of professional courses in computer science, information systems, electronics, and information technology. The particular strengths of the program include:

- applied hands-on curriculum;
- hardware oriented laboratory experiences;
- scientific advancement merged with applications; and
- the various skills and knowledge required for the enhanced job market in this field.

The computer technology program offers excellent prospects for professional positions in both business and industry where the sophistication and implementation of computers dominate a broad spectrum of employment opportunities. This region of the state has a large concentration of technology firms that employ information system designers and application integrators. Classes are usually offered both during the day and in the evening.

Admission Requirements

The B.S.C.T. degree program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent course work in preparatory programs such as computer information systems, computer technology, data processing or closely related disciplines. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.C.T. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.C.T. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 29). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 160) and must conform to Division (p. 186) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Plan of Study: Due to wide variation in backgrounds of associate degree holders, as well as differing rates of progress of full- or part-time students, an individually-tailored plan of study will be developed for each student, in conjunction with a faculty advisor. Courses will be selected based on the student's academic preparation, course prerequisites, and proposed scheduling of courses.

Required Background: Any student deficient in any courses listed under Lower Division (Community College) Technical Transfer Credit will be required to remove the deficiency before completion of fifteen credits in basic science/mathematics and technical core courses.

Program Requirements: The Bachelor of Science in Computer Technology requires at least 124 credits as outlined below:

Code	Title	Credits
Basic Science and Mathematics		
CSC 1100	Problem Solving and Programming	3

CSC 1101	Problem Solving and Programming Laboratory	1
MAT 1800	Elementary Functions (QE)	4
MAT 3430	Applied Differential and Integral Calculus	4
(NSI) Natural Science Inquiry Courses (minimum 2)		6
(NSI) Natural Science Inquiry Lab		1

B.S.C.T. Technical Core		
CSC 3750	Introduction to Web Technology	3
CSC 4110	Software Engineering	3
CSC 4111	Software Engineering: Lab	1
CSC 4420	Computer Operating Systems	3
CSC 4421	Computer Operating Systems: Lab	1
CSC 4710	Introduction to Database Management Systems	3
ET 3850	Reliability and Engineering Statistics	3
ET 3870	Engineering Economic Analysis	3
or ET 5870	Engineering Project Management	
ET 4999	Senior Project	3
EET 3100	Advanced Digital Design	3
EET 3720	Micro and Programmable Controllers	3
EET 4100	Computer Hardware Design	3
EET 5720	Computer Networking Applications	4
CSC/EET Upper Division Technical Electives		6

Lower Division Technical Transfer Credit		
CSC 2110	Computer Science I	3
CSC 2111	Computer Science I Lab	1
CSC 2200	Computer Science II	3
CSC 2201	Computer Science II: Lab	1
EET 2100	Principles of Digital Design	3
EET 2720	Microprocessor Fundamentals	3
Lower Division Tech Electives		25

Communication Requirements		
(BC) Basic Composition courses		3
(IC) Intermediate Composition course (ENG 3050 required)		3
(OC) Oral Communication course		3

Other General Education Requirements		
(CI) Cultural Inquiry		3
(SI) Social Inquiry		3
(DEI) Diversity, Equity and Inclusion		3
(GL) Global Learning		3
(CL) Civic Literacy		3

Total Credits **124**

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering

the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200- level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Construction Management (B.S.C.M.)

A professional construction manager is someone who coordinates all that goes into a construction project. The overall goal of a construction manager is to produce a financially sound project that is completed on time and meets the specific needs of the client as well as the codes put forth by governmental agencies. Responsibilities of a construction manager are project planning, cost, time, safety, quality, and contracts.

Working professionals seeking to advance their education, students interested in construction management, or seasoned employees looking to start their own companies often choose construction management to help achieve career goals. People with construction management degrees often work as project managers, superintendents, estimators, schedulers, or green construction/LEED specialists. Many people in the construction industry own and operate their own businesses.

The program offered in construction management specialization includes course work on construction project management, estimating, scheduling, safety, legal and professional aspects, specifications, computer applications and a capstone project. Additional courses from the Business School on accounting, marketing, and management complement the program. Co-op and internship opportunities are available to the students in summers as well as the academic year.

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent course work in architectural technology, construction technology, and civil technology. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the B.S.C.M. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.C.M. degree must earn a minimum of 120 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 29). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 160) and must conform to Division (p. 186) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework

in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Program Requirements: The Bachelor of Science in Construction Management degree requires a minimum of 120 credits as outlined in the following curriculum.

Code	Title	Credits
Basic Sciences and Mathematics		
MAT 1800	Elementary Functions (QE)	4
MAT 3430	Applied Differential and Integral Calculus	4
CHM 1020	Survey of General Chemistry (NSI)	4

Electric Transportation Technology (B.S.E.T.T.)

The Bachelor of Science in Electric Transportation Technology (B.S.E.T.T.) Program prepares students for dynamic careers in a growing area of

the automotive industry. Electric Transportation Technologists use the principals of science and math to solve problems in industry and business. The B.S.E.T.T. curriculum is a broad based, technically-oriented education that emphasizes the application of advanced technology to solve problems, design and develop products, and improve processes, procedures, equipment, and facilities. Possible uses for a B.S.E.T.T. degree include working with electric vehicles, hybrid electric vehicles, plug-in electric vehicles, and fuel-cell vehicles. As demand for efficiency and sustainability grow in the transportation sector, B.S.E.T.T. graduates will be able to meet the needs of industry.

Admission Requirements

Beginning Fall 2017, an admissions moratorium is in effect for this program.

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree with a minimum grade point average (g.p.a.) of 2.50. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove the deficiencies before electing any EET courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

A moratorium was approved starting Fall 2017. No new students will be admitted.

This program extends the practical and applied base of the associate degree program by means of more theoretical courses in electrical, advanced energy storage, and hybrid electric vehicle technology with additional background courses in mathematics, science, and socio-humanities. Candidates for the B.S.E.T.T. degree must earn a minimum of 128 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 29). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 160) and must conform to Division (p. 186) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Program Requirements: The Bachelor of Science in Electric Transportation Technology requires a minimum of 128 credits as outlined in the following curriculum.

Electrical/Electronic Engineering Technology (B.S.E.T.E.E.)

The Bachelor of Science in Electrical/Electronic Engineering Technology (B.S.E.T.E.E.) Program prepares students for diverse and dynamic careers in industry. Electrical/Electronic Engineering Technologists use the principals of science and math to solve problems in industry and business. The B.S.E.T.E.E. program emphasizes hands-on laboratory experiences, and courses stress the practical application of mathematics, science, and engineering to solve real world problems. Possible applications for this degree include: the automotive industry, business machines/professional and scientific equipment, computers and electronics, defense, and electronic utilities. Electrical/Electronic Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University

and have an associate degree and a minimum grade point average (g.p.a.) of 2.50. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove the deficiencies before electing any EET courses

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

This program extends the practical and applied base of the associate degree program with theoretical courses in electrical engineering and engineering technology, and additional courses in mathematics, science, and socio-humanities. Candidates for the B.S.E.T.E.E. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 29). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 160) and must conform to Division (p. 186) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Plan of Study: Due to the various educational backgrounds of associate degree graduates and the different rates of progress of full-time and part-time students, individual plans of study are developed for students in conjunction with faculty advisors.

NOTE: A student who, after receiving one undergraduate degree at Wayne State University, wishes to obtain a second bachelor's degree must complete at least thirty credits beyond those applied toward the first degree.

Program Requirements: The Bachelor of Science in Electrical/Electronic Engineering Technology requires a minimum of 124 credits as outlined in the following curriculum.

Code	Title	Credits
Basic Science and Mathematics		
MAT 1800	Elementary Functions (QE)	4
MAT 3430	Applied Differential and Integral Calculus	4
MAT 3450	Applied Calculus and Differential Equations	4
CHM 1020	Survey of General Chemistry (NSI)	4
PHY 2130	Physics for the Life Sciences I (NSI)	4
PHY 2131	Physics for the Life Sciences Laboratory (NSI)	1
PHY 2140	Physics for the Life Sciences II	4
PHY 2141	Physics for the Life Sciences Laboratory	1
EET Technical Core

Total Credits **124**

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200- level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Electromechanical Engineering Technology (B.S.E.T.E.M.)

The Bachelor of Science in Electromechanical Engineering Technology (B.S.E.T.E.M.) offers an interdisciplinary education, resulting from the integration of electronics and computers in engineering systems. This major offers an individual plan of study with coursework in electronics, electrical, manufacturing, and mechanical areas, with appropriate

prerequisite courses. The program is designed to extend the practical and applied base of the associate degree program with more theoretical and comprehensive engineering technology courses, and additional courses in mathematics, science, and socio-humanities.

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree in electrical, electronics, industrial, manufacturing, mechanical, or related technology from a community college or equivalent college-level course-work. A minimum grade point average (g.p.a.) of 2.50 is required for admission to the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove deficiencies before completing fifteen credits in basic science/mathematics and technical core courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.E.T.E.M. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 29). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 160) and must conform to Division (p. 186) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Program Requirements: The Bachelor of Science in Electromechanical Engineering Technology requires a minimum of 124 credits as outlined in the following curriculum.

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200-level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Manufacturing Engineering Technology (B.S.M.A.E.T.)

The Bachelor of Science In Manufacturing Engineering Technology (B.S.M.A.E.T.) degree prepares students for professional work in

manufacturing industry and advanced production systems. This is a program of study which provides a combination of professional courses in manufacturing, processes and systems, robotics, mechatronics and industrial automation, and welding and assembly processes. The particular strengths of the program include: applied hands-on curriculum; hardware-oriented laboratory experiences; scientific advancement merged with applications; and the various skills and knowledge required for the enhanced job market in this field. This region of Michigan has a large concentration of high technology firms which employ manufacturing professionals, designers, and application integrators. The program offers excellent prospects for professional positions in both business and industry, where manufacturing dominates a broad spectrum of employment opportunities. Classes in the B.S.M.A.E.T. program are usually offered both during the day and in the evening.

Admission Requirements

The B.S.M.A.E.T. degree program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent course work in manufacturing. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.M.A.E.T. program upon successful completion of pre-calculus (MAT 1800) and physics courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.M.A.E.T. degree must earn a minimum of 128 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 29). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 160) and must conform to Division (p. 186) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements including satisfactory achievement of the Critical Thinking Requirement either by completion of a (CT) course or by passing the Critical Thinking Competency Examination (administered by Testing, Evaluation, and Student Life Research Services).

Program Requirements: The Bachelor of Science in Manufacturing Engineering Technology requires 128 credits as outlined in the following curriculum.

Code	Title	Credits

Mechanical Engineering Technology (B.S.E.T.M.E.)

The Mechanical Engineering Technology (B.S.E.T.M.E.) Program prepares students for diverse and dynamic careers in industry. B.S.E.T.M.E. graduates work in fields that require understanding of the relationships and dependencies among materials, product development, manufacturing systems and processes, or energy production, transformation and transmission (including alternative energy). The program emphasizes hands-on laboratory experiences, and courses stress the practical application of mathematics, science, and engineering to solve real world problems. The B.S.E.T.M.E. program provides students with a well-rounded education focused on the knowledge of existing and new developments in their technical specialty. The program offers students the opportunity to specialize in one of three tracks: design, energy, or manufacturing. B.S.E.T.M.E. graduates work with their minds as well as their hands to solve problems related to their chosen area of specialization.

The Bachelor of Science in Mechanical Engineering Technology (B.S.E.T.M.E.) program is accredited by the Engineering Technology

Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent college-level course work in one of the following or related technical areas:

- Aerospace Technology
- Automotive Technology
- Climate Control
- Computer-Aided Design
- Drafting
- Energy Technology
- Fluid Power
- Manufacturing
- Mechanical Design
- Mechanical Technology
- Powerplant

A minimum grade point average (g.p.a.) of 2.50 is required for admission to the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may transfer into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any course listed under Lower Division Technical Transfer Credit will be required to remove the deficiency before completing fifteen credits in basic science/mathematics and technical core courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.E.T.M.E. degree must earn a minimum of 124 credits, which includes University General Education requirements (p. 29). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, and at least twenty-four must be in the Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 160) and must conform to Division (p. 186) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education requirements.

Program Requirements: The Bachelor of Science in Mechanical Engineering Technology requires a minimum of 124 credits as outlined in the following curriculum.

Code	Title	Credits

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200- level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Welding and Metallurgical Engineering Technology (B.S.W.M.E.T.)

Metallurgy and Welding are two technologies that both have their roots in the Industrial Revolution, where the joining of metals began with the forge welding of pig or wrought iron. Because of their fundamental nature, these technologies are intertwined. The ability to develop and join metals have made immeasurable contribution to the transportation, aerospace, agricultural and defense industries.

The Wayne State University's B.S. in Welding and Metallurgical Engineering Technology (B.S.W.M.E.T.) program will bring together the theoretical and practical aspects of welding and metallurgy to provide industry with engineers proficient in both areas.

Admissions Requirements

The B.S.W.M.E.T. is designed to admit students who satisfy the undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent course work in preparatory programs such as welding technology or closely related disciplines. A minimum g.p.a. of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.W.M.E.T. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above. A Mathematics Placement Examination is required of students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.W.M.E.T. degree must earn a minimum of 121 credits, which includes University General Education requirements (p. 29). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, and at least twenty-four must be in the Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 160) and must conform to Division (p. 186) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education requirements.

Program Requirements: The Bachelors of Science in Welding and Metallurgical Engineering Technology requires a minimum of 121 credits as outlined in the following curriculum.

Code	Title	Credits
Science Requirements		17
MAT 1800	Elementary Functions (QE)	
MAT 3430	Applied Differential and Integral Calculus	

CHM 1020	Survey of General Chemistry (NSI)	
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory (NSI)

Nanoengineering (Undergraduate Certificate Program)

Nanoengineering is the study and implementation of techniques to work with small collections atoms and molecules at the "nano"-scale (i.e., 1-100 nanometers), at which new physical properties and phenomena emerge. The undergraduate nanoengineering certificate program of the College of Engineering is distinct from existing undergraduate programs in that students take courses toward this certificate program while pursuing their B.S. degree. Four courses plus a seminar course are required for completion of the certificate. This program offers nanoengineering courses that provide students with knowledge and hands-on experience in this newly developing field.

The Certificate Program's learning objectives include:

- To provide students in-depth training in nanotechnology and nano-medicine in one unified certificate program that crosses traditional departmental and disciplinary boundaries

- To increase students' knowledge in engineered materials, processes, and devices by linking less familiar nanoscale phenomena with more familiar bulk materials and phenomena
- To offer students hands-on laboratory training in nanotechnology
- To offer students research experience either in faculty labs or industrial labs
- To prepare students for a career in nanotechnology, high tech, and advanced manufacturing industries or research institutions
- To enable students to develop a strong multidisciplinary educational background to be competitive in a global economic environment
- To enable students to develop professional, communication, and teamwork skills that will widen their career options

Admission Requirements include current enrollment in a related bachelor's degree program or previous award of a related bachelor's degree. The program will be open only to:

1. current WSU undergraduate students who have completed at least sixty credits and have a g.p.a. of 3.0 or above; and
2. students who have previously earned a bachelor's degree at WSU or another accredited institution with a final cumulative g.p.a. of 3.0 or above.

Eligible students not currently enrolled at WSU may apply for direct admission to the program.

Certificate Requirements: Fifteen credits including all of the following courses:

Code	Title	Credits
NEN 5000	Introduction to Nanotechnology and Nanomedicine	4
NEN 5100	Nanoengineering Lab	2
NEN 5200	Scale-down Engineering - from Engineered Systems to Nanotechnology	4
NEN 5300	Nanoengineering Research and Capstone Design	4
NEN 5400	Nanoengineering Seminar	1
Total Credits		15

All students must earn at least a grade of B in each of the courses to be applied toward the certificate and complete all the coursework with an overall g.p.a. of at least 3.0. Students concurrently enrolled in an engineering undergraduate program will be governed by the College's overall policy on substandard grades for students pursuing a B.S. degree. Students who have completed a B.S. degree and are pursuing only the certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of the program.

COLLEGE OF FINE, PERFORMING AND COMMUNICATION ARTS

Dean: Matthew Seeger

Mission Statement

The College of Fine, Performing and Communication Arts at Wayne State University provides the highest quality education for practitioners, scholars, and consumers in art, art history, communication, dance, music and theatre. This education leads to careers, uses for the arts in other disciplines, enhanced critical abilities, the enrichment of everyday life and the building of new generations of artists, professionals and scholars. Programs of study focus on the integration of theory and practice through the creation, discovery, preservation and transmission of knowledge in fine, performing and communication arts.

The College serves the University and the larger community by creating partnerships that emphasize its own rich, diverse curriculum, interdisciplinary studies, reciprocal professional interaction and outreach activities appropriate to each area of work. Special emphasis is placed on forging alliances with local, state and national constituencies such that the College is both a leader and a resource providing expertise, information and guidance.

Within an appropriate and attractive academic environment the College promotes an atmosphere conducive to intellectual and artistic growth, risk-taking and personal and professional development at all levels in both individual and collaborative endeavors. This environment also assists the College in its role as a national center for creative, research and teaching excellence.

As the cultural gateway of the University, the College provides public events and curricular offerings that nurture creative development, enrich aesthetic values and sensitivity, heighten awareness of the arts experience and reflect the disciplinary diversity of its areas of study. Cultural, racial, ethnic and gender diversity is an important commitment in public events and educational efforts.

Ultimately, the mission of the College is the integration of theory and practice through the creation, discovery, preservation and transmission of knowledge in the fine, performing and communication arts.

Campus Resources: Traditional courses of study are augmented by a variety of performance and presentation resources considered integral to many of the creative programs. Included in these are the Bonstelle Theatre, the Wayne State University Dance Company, the Wind Symphony and University Symphony Orchestra, the Intercollegiate Debate Team, plus exhibitions in the Elaine L. Jacob Gallery and the Art Department Gallery that feature work created by students and studio faculty. These are only a few of the campus resources that are especially important for majors in the College. A more comprehensive listing can be found under each of the specific Departments.

Detroit Resources: The proximity of the Wayne State campus to institutions of the Detroit Cultural Center (which includes the Detroit Institute of Arts, Museum of Contemporary Art Detroit, the Charles H. Wright Museum of African American History, Michigan Opera Theatre and Orchestra Hall, among other institutions) provides further unique and enriching benefits for students. Professional staff members of these institutions often serve as adjunct faculty in College programs. Nearby, too, are major print and electronic communications resources

that similarly provide both adjunct faculty and professional assistance to other programs in the College.

Accrediting Agencies: Programs in the Department of Music are accredited by the National Association of Schools of Music. The Public Relations program in the Department of Communication is accredited by the Public Relations Society of America. The Dance Program in the Maggie Allesee Department of Theatre and Dance is accredited by the National Association of Schools of Dance.

Academic Regulations: Fine, Performing and Communication Arts

For complete information regarding academic rules and regulations of the University, students should consult Academic Regulations (p. 17) section of this bulletin. The following additions and amendments apply to the College of Fine, Performing and Communication Arts.

Academic Advising

The College provides comprehensive academic advising for each major in the department in which the major resides. In consultation with their academic advisor, students are expected to create an academic Plan of Work and review their progress with the advisor on a regular basis. Freshmen and sophomores should meet with their academic advisor at least once each semester. Juniors and seniors should meet with their advisor at least once per year and should also be consulting with their faculty mentors. Students should always seek advising immediately if they are having difficulties in their academic work.

Attendance

Regular attendance and performance is necessary for success in college work. Each instructor, at the beginning of the course, will announce attendance requirements.

Normal Program Load

The requirements for graduation are based upon an average program of fifteen credits per semester for eight semesters. The normal load shall not exceed eighteen credits.

Because two hours of outside preparation are normally expected for each class hour in each course, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy. A few hours of employment a week may be safely added to this program by a capable student.

Extra Credits: Extra credits are any credits taken in excess of the normal load of eighteen credits per term. A student with a 3.0 grade point average may take more than eighteen credits, but not to exceed twenty-one credits, only when the proposed program carries the written approval of the academic advisor.

'AGRADE' (Accelerated Graduate Enrollment Program)

Accelerated Graduate Enrollment: Some departments of the College permit academically strong majors to apply for admission into the College's 'AGRADE' program. 'AGRADE' procedures enable qualified seniors in the College of Fine, Performing and Communication Arts to enroll simultaneously in the undergraduate and graduate programs of the College and apply up to a maximum of sixteen credits towards both a bachelor's and master's degree in the major field. Some programs permit

less than the maximum number of credits to be applied so check with the major department.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the 'AGRADE' program, contact the Graduate Director of the major department.

Retention of Student Records

Term papers and examinations shall either be returned to the student or retained by the instructor for a minimum of six months. Thereafter they may be destroyed. Instructors shall retain grade records for at least five years following the end of a term, and instructors who leave the institution shall give grade records for courses conducted during the past five years to their department chairperson. Five years after the end of a course, grade records may be returned to the instructor or destroyed by the department.

Dean's List

The Dean's List of academically exemplary students is compiled each fall and winter term based on the following criteria: a 3.75 grade point average for students registered for full-time programs of twelve credits or more that contribute to the grade point base; and a 4.0 grade point average for students registered for between six and eleven credits. Students who receive marks of I, WN, or WF, or grades of N or U (p. 64) are not eligible.

Academic Probation

Low Grade Point Average

If a student's work averages below 2.0, the student will be placed on academic probation (p. 17). The student will be required to obtain permission from an advisor before registering, as outlined in an email to the student, with instructions for addressing the Probation status. Such permission to register will be granted only after the student meets with his/her departmental advisor and/or the college's Success Coach, depending on the student's level of Probation and the instructions provided in the Probation notification email. The student and advisor/ Success Coach will identify previous causes of academic difficulty and will formulate a plan for future academic success.

Registration and Holds on Records

A student on academic probation has an academic probationary 'hold' placed on his/her record, and must obtain a release of this hold each term before being permitted to register. To obtain this release, the student must meet with his/her departmental advisor and/or the college's Success Coach, as indicated above under 'Low Grade Point Average.' The hold will not be released after the last day of the final registration period for the term in which the student intends to register.

Restriction

While on academic probation, a student may not represent the College in student activities.

Removal of Probation

Academic probation will be removed at the end of any term in which the student achieves a cumulative grade point average of 2.0 (C) or higher for all degree work taken at the University.

Exclusion

Low Grade Point Average

A student on academic probation shall be allowed three subsequent terms for enrollment in probationary status. At the conclusion of the three terms, a student who has not achieved a cumulative grade point average of at least 2.0 shall be dismissed from the College. This dismissal may be reviewed by the Reinstatement & Appeals Committee of the College if the student submits appropriate paperwork evidencing his/her eligibility to return and remain successful. A student dismissed from the College may not be reinstated until one calendar year has passed; however, reinstatement paperwork may be submitted as early as one semester prior to the student's eligible reinstatement date. A student may appeal dismissal during the semester following the dismissal notification.

Reinstatement

After one year of exclusion, the student may apply for reinstatement to the College. The reinstatement application must be returned to the CFPCA Dean's Office on or before whichever following deadline precedes the student's eligible reinstatement semester: October 15th, February 15th, or June 15th. The decision to reinstate the student will be based upon evidence presented by the student that circumstances have changed and that the probability for success has increased. For further information, visit the college's website at <http://cfpca.wayne.edu/reinstatement.php>.

Cheating and Plagiarism

The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. Serious acts of dishonesty may lead to suspension or exclusion.

The instructor has the responsibility to notify the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Information on procedures is available through the Dean of Students Office.

Grade Appeal Procedure

It is the instructor's prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment. Grounds to appeal a final grade include the following:

1. The application of nonacademic criteria in the grading process: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status
2. Evaluation of student work by criteria not directly related to course requirements
3. A miscalculation of the grade according to information contained on the course syllabus or other posted or distributed information

Note: These policy guidelines do not apply to:

1. allegations of academic dishonesty. Academic dishonesty matters should be addressed under Section 10.1 of the (<https://doso.wayne.edu/pdf/student-code-of-conduct.pdf>) WSU Student Code of Conduct (<https://doso.wayne.edu/pdf/student-code-of-conduct.pdf>).
2. allegations of harassment or discrimination in the learning environment. These matters should be

addressed to the Office of Equal Opportunity <http://oeo.wayne.edu>

Coursework Grades

Disputes over grades should first be addressed informally between the student and the course instructor. If the student and instructor cannot reach a mutually agreeable resolution, the student can formally appeal the final course grade.

If a student seeks to formally appeal a final course grade, the following steps need to be taken.

Final Grade Appeal - for Undergraduate and Graduate Students

1. The student must initiate any final grade appeal in writing, including any supporting documentation, within thirty (30) days following official notification of grades for the term. The appeal is to be addressed to the course instructor. The instructor is to respond within ten (10) days of receiving the appeal.

• If the instructor notifies the student of the grade to be assigned BEFORE a course is officially concluded, the student can initiate the grade appeal process as soon as they have received the written notification from the instructor of the grade. This written notification of the grade must be given by the student to the Department Chair as part of the appeal documentation.

2. If the student is not satisfied with the response or receives no response from the instructor, the student has ten (10) days to submit a written appeal directed to the Department Chair.

3. The student will be notified in writing of the Department's decision within thirty (30) days of receiving the appeal. Appropriate departmental committees may be consulted for advice in grade appeals and the instructor will be invited to reply to the issues raised by the student. In all cases, appeals at the Department level will result in a written response from the Department Chair that is sent to the student and to the instructor.

4. If the student is not satisfied with the response from the Department level, the student may, within ten (10) days of receiving the Department decision, submit a written appeal directed to the Dean of the College and copy it to the Department Chair. This written appeal is to contain a copy of the written appeal that was directed to the Department Chair and a statement explaining the student's dissatisfaction with the Department level response. The College will provide a written decision within thirty (30) days of receipt of the student's appeal.

5. If the student wishes to continue the final grade appeal, the student may request a formal review by the Provost's office within thirty (30) days of the date of the College's response. Such requests are subject to the university's Academic Appeal Procedure found under "Academic Regulations" in the respective Undergraduate or Graduate Bulletin <http://bulletins.wayne.edu>. The request should be submitted via the online form located at <https://provost.wayne.edu/academic-policy>.

6. Any meetings held in relation to the appeal shall provide parties the opportunity to present additional information orally or in writing. No additional persons should be permitted at such meetings without advance approval by the Chair or Dean, as appropriate.

7. Students/faculty may contact the Ombudsperson at any time for assistance with any problem associated with a grade decision or grade appeal: ombudsoffice@wayne.edu.

Graduation With Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: *Cum Laude*, *Magna Cum Laude*, and *Summa Cum Laude*. Graduation with Distinction will be indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each commencement the top twenty percent of students in the College of Fine, Performing and Communication Arts who have earned the highest grade point average in the College with the following approximate distribution:

Top 5%: Summa Cum Laude
Next 5%: Magna Cum Laude
Next 10%: Cum Laude

The specific minimum grade point average for these distinctions will be determined each year in the following manner (except that it shall not be less than 3.0).

Based on the grade point average distributions of the previous year's senior class, the grade point average cut-offs for the College will be established for the current academic year.

The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University;
2. A minimum grade point average, as established above, on all work at Wayne State University completed by the end of the term of graduation. (For notation in the Commencement Program, the grade point average on all work completed prior to the term of graduation will be used.)

Commencement

All students must formally apply for degree certification by the deadline established by the Office of the Registrar for the term of intended graduation.

Information concerning commencement announcements, caps and gowns, invitations, tickets, time and place, assembling and other relevant items will be provided to graduates by the Commencement Office prior to the event.

Bachelor's Degree Requirements: Fine, Performing and Communication Arts

Credits

A candidate for a Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, or Bachelor of Science degree must complete at least 120 credits. Certain curricula may require additional credits. Also see Restrictions on Credit below. Degree components comprising these credits are: 1) General Education Requirements; 2) Department Requirements; and 3) Major Requirements.

General Education Requirements

University-wide General Education Requirements are designed to enhance students' basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the

fundamental means and essential knowledge required for continuing self-education and intellectual growth.

Entering undergraduate students in the College of Fine, Performing and Communication Arts are required to satisfy the University General Education requirements (p. 29).

Department Requirements

Some of the courses listed in the University General Education program are also courses required by for specific majors within this College. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). For more information, please consult an academic advisor in the major Department.

Major Requirements

A major is a program of intensive study in a Department within the College. The specific course requirements for all such majors are listed in this bulletin under each of the Departmental sections. Some degree programs offer students a choice of concentrations within the major. Students who plan to elect a major should consult with a departmental academic advisor prior to initial course registration. Courses in the major (and concentration, as applicable) must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the major. In addition, the student is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

Students who have not decided on a particular major area of study may initially select an exploratory option thereby indicating only the intention to take a degree in one of the Departments of the College. These options are Exploratory Communication Arts, Exploratory Fine Arts, Exploratory Music, and Exploratory Performing Arts. In partnership with academic advisors, students are encouraged to choose a specific degree program in one of the Departments within thirty credit hours. The exploratory option is not available for transfer students.

Course requirements vary with each curriculum. Exceptions are permitted to the College rules governing the minimum and maximum credits in the major subject and the maximum credits allowed in restricted courses if provision for such exceptions are stated or implied in the curriculum requirements outlined in this bulletin. Descriptions of courses and the various curricula may be found in this Bulletin, under each of the Departmental sections of the College of Fine, Performing and Communication Arts.

Capstone Course: All undergraduate students must successfully complete a capstone course within their major. This course will be taken during the senior year (last thirty credits in course work) and provides a systematic focus on and assessment of the knowledge and skills obtained in the major.

Credits: The major must include at least twenty credits in one subject, exclusive of the introductory courses and inclusive of some advanced work. No more than forty-six credits in the major subject (including introductory courses) may be counted toward a degree, except in specific curricula in which additional courses are specified in the curriculum outline.

For majors that require intensive study in a particular subject, more than forty-six credits are allowed.

Within the above limits and the University's Bulletin-in-Effect (p. 29) Graduation Policy (p. 28), each major program has specific requirements, and these requirements may be modified from time to time;

therefore, it is the student's responsibility to stay informed of current requirements from the major Department.

The major completed is part of the degree designation on the diploma.

Double Major (one degree, 2 majors, minimum of 120 credit hours)

If a student wishes to declare a double major, the approval of the chairperson or designated representatives of each of the departments of the intended majors must be obtained. In order for a student to graduate with a double major, the major requirements in both majors (and areas of concentration, as applicable) must be fulfilled and at least 120 credit hours must be earned. All courses in the major must meet the minimum grade requirement designated by the department and an overall GPA in the major of C (2.0) or higher. In addition, the student is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

PLEASE NOTE:

1. If the majors are in two different colleges, the student must complete the General Education curriculum of the college that has the most comprehensive requirements;
2. only the name of the first of the two majors will appear on the diploma; and
3. the names of both majors will appear on the transcript. Students who wish to pursue dual concentrations within a single department must secure the permission of the chairperson or designated representative of the department. However, only one concentration will appear on the transcript.

Academic Procedures (Majors and Minors)

For procedures on declaring a major, adding a second major or second degree, or adding a minor, students should consult the sponsoring departmental academic advisor. Students should consult with their academic advisor as soon as possible to establish a comprehensive Plan of Work in order to pursue their academic goals as efficiently and effectively as possible.

Concurrent Degrees (2 degrees, minimum of 150 credit hours)

A student who has completed all the University, School/College, and Department requirements for two different degree programs and who has accumulated 150 or more degree credits may apply for both degrees simultaneously. A separate diploma will be issued for each degree and both degrees will be listed on the transcript. Students must inform the academic advisors in each degree program of their intention to pursue concurrent degrees. Another, and more usual, procedure for students satisfying the requirements of two different major programs is to declare a double major and graduate with one degree, in which case as little as 120 degree credits may be required (see Double Major). All courses in the major must meet the minimum grade requirement designated by the department and an overall GPA in the major of 'C' (2.0) or higher. In addition, the student is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

Second Degree

A student who has received a Fine, Performing and Communication Arts degree from Wayne State University or any other accredited institution may obtain a second bachelor's degree in another academic area by registering in the College/School sponsoring the degree program. A graduate of Wayne State University who has earned a degree from the

College of Fine, Performing and Communication Arts may be ranked as an undergraduate by declaring a new major (in a departmentally approved area of concentration, as applicable) and indicating a desire to earn a second undergraduate degree. Other Wayne State University graduates must transfer to the College of Fine, Performing and Communication Arts. A student from another institution must be admitted to the College by the University Admissions Office. Courses in the major (and concentration, as applicable) must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the major. In addition, the student is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

It is assumed that the second degree major will be different than that of the first degree and the student is not earning redundant credit; generally, no second degree will be granted in the academic area in which the first degree was earned. The University also requires that the student complete at least thirty credits in coursework at Wayne State University beyond the first degree, in order to be granted a second bachelor's degree from Wayne State University.

Fine, Performing and Communication Arts: Minor Options

The College of Fine, Performing and Communication Arts offers the option of minor concentrations in various subjects both to students in this college and other schools and colleges of the University. Students are strongly encouraged to consult with departmental academic advisors for course selections. Courses in the minor must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the minor. Minors are optional and students may choose not to fulfill the typical 18-21 credits of course work that make up a minor.

The notation of the minor will appear on the transcript but not on the diploma. Early declaration of the minor is encouraged so that coursework can be incorporated into the student's ongoing Plan of Work, see above under Academic Procedures (Majors and Minors).

Senior Rule

In addition to the University policy, the College requires that all competency requirements must be met before Senior Rule (p. 23) registrations can be considered. No student who has competency requirements to fulfill in the final semester of his or her undergraduate program will be eligible to apply for Senior Rule.

Teacher Preparation & Certification

CFPCA music and dance students interested in teaching may choose to complete coursework and clinical experiences leading to K-12 certification as part of a combined program with the College of Education (COE). Students follow the curriculum for their respective major (B.S. or B.F.A. in dance) or concentration (B. M. in music education).

Typically, CFPCA teacher candidates in music or dance begin their academic studies in the College of Fine, Performing and Communication Arts. During the sophomore year, students consult with their academic advisor in their major Department concerning the Level 2 application to the College of Education. This is a separate application leading to dual enrollment in both the CFPCA and the COE. See Level 2 application details below.

Once approved by the College of Education as a candidate for teacher certification, program requests will be signed by both a College of Fine, Performing and Communication Arts major academic advisor and by the

appropriate advisor in the College of Education. Required coursework for the COE including fieldwork is completed during the junior and senior years. Students will not be allowed to register for the professional courses taught through the College of Education until they have been officially admitted to the COE.

Admission to the College of Education

Students submit the Level 2 application when all Level 2 admission requirements have been fulfilled. These requirements vary by program and students are encouraged to meet with a departmental academic advisor to review requirements specific to their program. The admission requirements include but are not limited to the following:

1. Successful completion of the Michigan Basic Skills Requirement: SAT Evidence Based Reading & Writing with a score of 480 and Math with a score of 530, or Michigan Department of Education approved alternative pass measure (see a departmental academic advisor for more information).
2. A Negative TB Test within the past three years.
3. A criminal history background check completed through an approved College of Education vendor. There is a fee paid by the student for the check.

Level 2 applications are processed three times per year and must be submitted by the deadlines listed on the COE admissions website. Click here to view additional information including deadlines, and complete the Level 2 Application: <http://coe.wayne.edu/admissions/undergrad-requirements.php>.

Note: Near the end of the program and at the time of recommending the teacher candidate to the Michigan Department of Education (MDE), Adult and Child CPR and First Aid Certification is required from an approved MDE provider.

Study Abroad

Various opportunities for study abroad are available through the University. Students should contact their major Department and the Study Abroad Office for further information regarding these programs.

Honors Courses

All departments in the College of Fine, Performing and Communication Arts offer Departmental Honors. Students enrolled in the College of Fine, Performing and Communication Arts who are interested in pursuing University or Departmental Honors curricula should refer to Undergraduate Honors Curricula (p. 63), or contact the departmental honors advisor.

Restrictions on Credit

The College imposes the following restrictions on credit:

Maximum Credits in One Subject: A student may not count as credit toward a degree more than forty-six credits in courses in any one subject except in specific curricula in which additional courses are specified in the curriculum outline.

Over-Age Credits: A student attempting to complete a major after a protracted interruption in education, or on a part-time basis over an extended period of time, may find that some of the early course work is out of date. In such cases, a Department may require refresher work or demonstration of preparation for advanced courses in the Department.

Restrictions on Transfer Credit – Two-year Schools: No more than sixty-four semester credits may be transferred from two-year colleges unless

the student is following an articulation agreement that allows the transfer of additional two-year college credit.

Life Fitness Activity: No more than eight credits may be earned.

Advanced Courses: At least fifteen credits in courses numbered 3000 or above must be earned.

Repeated Subjects: It is understood that degree credit will not be granted for coursework for which credit has already been granted. Since similar courses may have different names at different times and at different colleges, students are advised to make sure they do not offer repeated coursework as credit toward a degree.

Grade Point Average

All students are required to maintain a cumulative grade point average of 'C' (2.0) for all University coursework. In addition, courses in the major (and concentration, as applicable) must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the major.

Residence Requirement

To qualify for a baccalaureate degree in the College of Fine, Performing and Communication Arts a minimum of thirty credits must be earned in the College.

Our Mission

The James Pearson Duffy Department of Art and Art History is a community of students, staff, and faculty that advances the study and practice of art history, design, and fine art.

Our Vision

We sustain and further these disciplines through rigorous research, creative production, instruction, and community engagement within the context of an urban research university.

To realize this vision the department will:

1. Offer relevant and innovative programs grounded in faculty expertise
2. Support the research and creative activity of students and faculty

3. Develop lectures, workshops, exhibitions, and events that engage diverse audiences
4. Cultivate a supportive and collaborative environment for critical thinking, visual literacy, and creative practice
5. Provide safe and professional facilities for our students, staff, and faculty
6. Promote the importance of an arts education within a university context

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity. By receiving a comprehensive training in the visual arts within the context of a liberal arts education, students are encouraged to master the various avenues of creative investigation and learning within the Department as well as in other departments of the College and the University at large. Each student is thereby able to progress from fundamentals to creative and intellectual maturity and given the tools of professionalization in a variety of different areas while immersed in the rich diversity of cultural and research opportunities offered by the University as a whole.

Academic Work Retention Policy: The Department reserves the right to retain, for its permanent collection, the work submitted by students for credit in any course, and to exhibit or reproduce such work in University publications. Students are encouraged to retain work as they proceed through their program, so as to have at least twenty works for a final portfolio review and demonstration of progress.

Advising: All students in the Department of Art and Art History are encouraged to meet regularly with their advisors regarding their selected program of study every semester. Students are advised to register as early as allowable to ensure that classes are available to them. Students are encouraged to take courses pertaining to their major as soon as the first semester of study in the Department of Art and Art History. They are also encouraged to consult a Department advisor for information regarding the declaration of major.

Transfer Students

Transfer students must complete a minimum of twenty-seven resident credits in art courses for the B.F.A. degree with a studio major; a minimum of twelve resident credits with B.A. degree with a studio major; a minimum of twelve resident credits with an art history major; or a minimum of twelve resident credits for either the B.A. or B.S. degree with a major in design and merchandising. The minimum grade for each course required in the major, which must be taken in the Department of Art and Art History, must be no less than a C- in order for the course credit to count toward completion of the degree. A minimum of fifty-six credits must be completed for the degree from a Bachelor Degree granting institution.

Articulation Agreements (Transfer of Credit)

Articulation agreements are formal arrangements by which Wayne State University enters into agreement with other institutions for the transfer of college credits in certain designated degree programs. Students who have come to the Department of Art and Art History to pursue a degree in Art, Design, Art History or Fashion Design and Merchandising under an articulation agreement with another school or college program are

required to meet with the Department academic advisor on a regular basis to ensure compliance with the terms of the agreement.

- Art (B.A.) (p. 204)
- Art History (B.A.) (p. 207)
- Design and Merchandising (B.A.) (p. 209)
- Design and Merchandising (B.S.) (p. 209)
- Art (B.F.A.) (p. 204)
- Design (B.F.A.) (p. 208)
- Animation and Interactivity Minor (p. 210)
- Art and Archaeology of the Ancient Mediterranean World Minor (p. 210)
- Art History Minor (p. 210)
- Art Minor (p. 211)
- Blacksmithing Minor (p. 211)
- Ceramics Minor (p. 211)
- Design Minor (p. 211)
- Digital Art and Photography Minor (p. 212)
- Illustration Minor (p. 212)
- Jewelry Minor (p. 213)
- Law Minor (p. 220)
- Painting and Drawing Minor (p. 213)
- Printmaking Minor (p. 213)
- Sculpture Minor (p. 213)
- Textile Design Minor (p. 214)

Art (B.A.)

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates for the Bachelor of Arts in Art must complete a minimum of 120 credits including satisfaction of the University (p. 29) General Education requirements and a minimum of forty-eight credits in art courses, including the Course Requirements Sections A, B, and C as cited below. No grade lower than a 'C-' in a major course may be applied toward the completion of the degree. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 198) governing undergraduate scholarship and degrees.

Major Requirements

48 credits total – courses in sections A, B, and C

Code	Title	Credits
Section A		
ACO 1200	Surface Studio	3
ACO 1230	Space Studio	3
ACO 1270	Time Studio	3
ADR 1050	Drawing I	3
Section B		

Select two of the following:		6
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Section C		
ACS 5997	Senior Seminar in the Visual Arts	3
ADR 2070	Beginning Life Drawing	3
APA 2000	Oil Painting I	3
ASL 2150	Beginning Sculpture	3
APH 2400 or APR 2300	Introduction to Photography Printmaking	3
Two Art History electives (AH 3000-level or above)		6
PHI 3700	Philosophy of Art	3
Select one of the following:		3
ACR 2550	Introduction to Ceramics	
AFI 2650 or AFI 2660	Beginning Weaving Introduction to Fabric Printing and Dyeing	
AME 2600	Introduction to Jewelry and Metalsmithing	
Art Elective (ACO, ACR, ADA, ADN, ADR, AFA, AFI, AGD, AH, AIA, AID, AME, APA, APR, ASL)		3
Total Credits		48

Art Honors Curriculum (B.F.A. and B.A. Programs)

(15 Credits required)

Code	Title	Credits
Honors Option		
Select two of the following:		6
ACR 3550	Intermediate Ceramics	
AFA 2410	Textiles	
AFA 2420	Fashion Design: Basic Construction	
AFA 3400	Clothing and Culture	
AFI 2650	Beginning Weaving	
AFI 2660	Introduction to Fabric Printing and Dyeing	
AME 2600	Introduction to Jewelry and Metalsmithing	
APA 2000	Oil Painting I	
APA 3000	Oil Painting II	
APA 4000	Oil Painting III	
APH 2400	Introduction to Photography	
APR 2300	Printmaking	
ASL 2150	Beginning Sculpture	
ASL 3150	Intermediate Sculpture	
Required Courses		
Honors option of an advanced studio elective		3
Honors project in Studio Art, Directed Project course (e.g. ADR 5800)		3

Total Credits		15

Art (B.F.A.)

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory,

practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates for the Bachelor of Fine Arts degree must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 29). Departmental requirements as cited under the Bachelor of Arts with a Major in Art (p. 204) must be met, as well as the concentration requirements below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 198) governing undergraduate scholarship and degrees.

Major Requirements

Students pursuing a B.F.A. in Art must complete courses listed in sections A, B, and C and all courses listed under a selected concentration.

Code	Title	Credits
Section A		
ACO 1200	Surface Studio	3
ACO 1230	Space Studio	3
ACO 1270	Time Studio	3
ADR 1050	Drawing I	3
Section B		
Select two of the following:		6
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Section C		
ACS 5997	Senior Seminar in the Visual Arts	3
ADR 2070	Beginning Life Drawing	3
APA 2000	Oil Painting I	3
ASL 2150	Beginning Sculpture	3
PHI 3700	Philosophy of Art	3
Two Art History electives (AH 3000 level or above)		6
Total Credits		39

Concentration Requirements

Students must complete thirty to thirty-three credits (depending on the concentration selected) in art courses, eighteen of which must be at the advanced level (from courses numbered 3000 and above) within the selected concentration *plus the appropriate senior seminar for the selected concentration*. The minimum grade for each course required in the concentration, which must be taken in the Department of Art and Art History, must be no less than a C- in order for the course credit to count toward completion of the degree. Curriculum outlines with suggested scheduling patterns for the below concentrations are available from the Department of Art and Art History (<http://www.art.wayne.edu/>). All work within the following Concentration Requirements (30-33 credit hours) must be completed in addition to the courses from the Major Requirements (39 credit hours). Required courses in each concentration for the B.F.A. with a major in Art are given below; exceptions may be made only with the consent of advisor.

Art History (B.A.)

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admissions Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete a minimum of 120 credit hours, including satisfaction of the University General Education Requirements (p. 29) and the major requirements listed below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 198) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete a minimum of thirty-three credit hours in art history and an additional eight credit hours in a language, which includes the courses below:

Code	Title	Credits
Select two of the following:		
AH 1110	Survey of Art History: Ancient through Medieval	6
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	

Language Requirement - two courses in the same language; any language other than English

Language 1010	4
Language 1020	4

Upper Level Art History Courses

Select twelve credits at the 3000-level or above		12
Select three credit hours at the 5000-level or above		3
AH 5993	Writing Intensive Course in Fine Arts (This course must be taken in conjunction with a 5000-level Art History course.)	0

Select one course from EACH of the following groups of upper-level categories:

Classical		3
AH 5210	Hellenistic Art	
AH 5250	Ancient Rome	
AH 5260	Classical Greek Art	
AH 5270	Roman Painting and Sculpture	
AH 5310	The Ancient City of Athens	
Renaissance/Baroque		3
AH 5500	Early Renaissance in Italy	
AH 5510	High Renaissance and Mannerism in Italy	
Modern		3
AH 5710	Trends in Nineteenth Century Art	
AH 5715	Modernism: Nineteenth and Twentieth Centuries	
AH 5720	Twentieth Century Art	
AH 5780	Topics in Twentieth-Century Art	
African Diaspora		3
AH 5560	Special Topics	
Total Credits		41

Each course in the major must be completed with a minimum grade of 'C-'. In addition to the credits in art history, students are required to complete three semesters of a single foreign language, with minimum grades of C. Please note that many graduate programs in Art History across the nation require a minimum of 4 semesters of either French or German Language, therefore French or German are the encouraged languages in this field.

ADA 4220	Time-Based Media II: Experimental Animation	3
ADA 4230	Time-Based Media III: Experimental 3D Animation	3
ADA 4240	Advanced Interactivity: Experimental Video Games	3
Total Credits		21

All courses in the minor must be completed with the grade of C- or higher.

Art and Archaeology of the Ancient Mediterranean World Minor

This minor offers students the opportunity to study the enormous impact of ancient Egypt, Greece and Rome have had on later Western Culture. Courses in art history and archaeology of antiquity provide a broad exposure to the formats of the material (sculpture, painting, architecture, etc.).

Students must complete 15 credits as specified below:

Code	Title	Credits
Required course		
AH 1110	Survey of Art History: Ancient through Medieval	3
Elective courses - choose four		
AH 3070	Art and Archeology of Ancient Egypt	
AH 3240	Mythology in Greek Art	
AH 5210	Hellenistic Art	
AH 5250	Ancient Rome	
AH 5260	Classical Greek Art	
AH 5270	Roman Painting and Sculpture	
AH 5310	The Ancient City of Athens	
Total Credits		15

All courses in the minor must be completed with the grade of C- or higher

Art History Minor

Study art as the human visual and physical record. Investigate the time and circumstances in which works of art were created as a way to understand their cultural meaning and significance.

Students must complete 15 credits in art history courses, including:

Code	Title	Credits
Select one of the following:		
AH 1110	Survey of Art History: Ancient through Medieval	3

AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Select twelve credits at the 2000 level or above		12
Total Credits		15

All courses in the minor must be completed with the grade of C- or higher.

Art Minor

This minor broadens understanding of artistic expression from the past to the present. Learn fundamental concepts and then apply them in a studio setting. Fine Art electives may be taken from any of the nine Fine Art areas: Ceramics, Digital Art, Drawing, Fibers, Metalsmithing, Painting, Photography, Printmaking or Sculpture.

Students must complete 21 credits as specified below:

Code	Title	Credits
ADR 1050	Drawing I	3
ACO 1200 or ACO 1230	Surface Studio Space Studio	3
Select one of the following:		3
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Select four studio electives		12
Total Credits		21

All courses in the minor must be completed with the grade of C- or higher.

Blacksmithing Minor

The Blacksmithing minor is intended for students who wish to hone their critical thinking and creative problem solving by using a variety of blacksmithing skills including handwork, machining and digital fabrication to refine their ability to produce artwork, commissions and utilitarian tools. With a minor offering such as Blacksmithing, students in art, design, physics, engineering, education and other interested majors will be able to have a "physical" material application to apply to their field and creative/research projects.

Students pursuing a Blacksmithing minor must complete the following courses from the list below totaling 21 credits.

Code	Title	Credits
Select one of the following:		3
ADR 1050	Drawing I	
ACO 1200	Surface Studio	
ACO 1230	Space Studio	
ACO 1270	Time Studio	
Select one of the following:		3
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
ADN 6320	History of Modern Design I	
Art: Metalsmithing (AME) Requirements:		12
AME 2600	Introduction to Jewelry and Metalsmithing	
AME 2650	Blacksmithing I	

AME 3650	Blacksmithing II	
AME 4650	Blacksmithing III	
Elective:		3
Complete a 2000 level Studio Art course from the Fine Art areas: ACR, ADA, AFI, ADR, APA, APR, APH or ASL. (p.)		
Total Credits		21

Ceramics Minor

The ceramics minor offers undergraduate students the opportunity to supplement their major field of study with a rigorous investigation of the ceramic material. Lower level coursework provides students with a foundation of art and an introduction to ceramics in effort to prepare them for more advanced courses. Students have the option of taking upper level coursework that explores sculptural and conceptual concerns and/or production skills and functional ceramics.

Students pursuing the ceramics minor must complete 18 credits as specified below.

Code	Title	Credits
Core		3
Select one of the following:		
ACO 1200	Surface Studio	
ACO 1230	Space Studio	
ACO 1270	Time Studio	
ADR 1050	Drawing I	
Art History		3
Select one of the following:		
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Ceramics		12
ACR 2550	Introduction to Ceramics	
Select three of the following (9 credits):		
ACR 3550	Intermediate Ceramics	
ACR 4000	Ceramic Multiples I	
ACR 4550	Advanced Ceramics I	
ACR 5000	Ceramic Multiples II	
ACR 5550	Advanced Ceramics II	
ACR 5880	Directed Projects in Ceramics	
Total Credits		18

Design Minor

This minor offers students the opportunity to learn fundamental visual concepts in design and apply these in a studio setting. The minor also broadens understanding of creative expression from the past to the present.

Students must complete 21 credits as specified below:

Code	Title	Credits
ADR 1050	Drawing I	3
ACO 1200	Surface Studio	3
Select one course from the following:		3
ACO 1230	Space Studio	
ACO 1270	Time Studio	
ADN 3100	Design Process	

Art and Design History - choose one		3
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
AFA 5430	History of Costume	
ADN 6320	History of Modern Design I	
ADN 6330	History of Modern Design II	
Design Studio Electives - select from the following courses: ¹		9
Fashion		
AFA 2410	Textiles	
AFA 2420	Fashion Design: Basic Construction	
AFA 3400	Clothing and Culture	
AFA 3420	Fashion Design: Advanced Construction	
AFA 3460	Introduction to Merchandising	
AFA 3470	Merchandise Information	
AFA 4430	Fashion Illustration	
Graphic Design		
AGD 2240	Introduction to Graphic Design: Skills and Concepts	
AGD 2250	Typography	
AGD 3250	Graphic Design I: Principles and Problem Solving	
AGD 3260	Introduction to Interactivity in Graphic Arts	
AGD 4250	Graphic Design II: Word, Image, and Visual Organization

AIA 4600	Environmental Design Theory	
AIA 4610	Interior Design Studio III	
AIA 4620	Interior Perspective and Illustration	
Total Credits		21

¹ Choose design studio electives in discussion with your art advisor.

Digital Art and Photography Minor

This minor offers students the opportunity to supplement their major field of study with a rigorous investigation of digital art and photography. The program will provide a rich academic environment that will foster creativity and spur innovative thinking. The three required courses provide students with a deep understanding of the production of visual language in video, photography, and other time-based methods. From this dynamic foundation, they will choose a line of study to more thoroughly investigate advanced photography techniques, interactive art, or 2D/3D animation in a fine arts context.

Students must complete 18 credits as specified below:

Code	Title	Credits
Required courses		9
ACO 1270	Time Studio	
ADA 2220	Time-Based Media I: Video Art	
APH 2400	Introduction to Photography	
Art History - choose one		3
AH 1000	Introduction to Art	
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Studio Electives - choose two		6
ADA 2210	Introduction to Digital Practices	
ADA 3220	Introduction to Interactivity in Graphic Arts	
ADA 4220	Time-Based Media II: Experimental Animation	
ADA 4230	Time-Based Media III: Experimental 3D Animation	
ADA 4240	Advanced Interactivity: Experimental Video Games	
ADA 6250	Advanced Time-Based Media	
APH 2410	Black and White Darkroom Photography I	
APH 2420	Digital Photography I	
APH 3410	Black and White Darkroom Photography II	
APH 3420	Digital Photography II	
APH 4410	Advanced Photography	
APH 4420	View Camera	
Total Credits		18

All courses in the minor must be completed with the grade of C- or higher.

Illustration Minor

The minor in Illustration offers students the opportunity to learn to effectively use both traditional and digital media to create illustrations and hand lettering to communicate messages intended for reproduction. Students will have the opportunity to learn through demonstrations, hands-on exercises and lectures. The minor broadens understanding of illustration and its role in everyday visual culture.

The minor in Illustration requires 21 credits as specified below.

Code	Title	Credits
Core courses		6
ADR 1050	Drawing I	
ADR 2070	Beginning Life Drawing	
Art/Design History (select one of the following)		3
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
AGD 4260	Professional Practice	
ADN 6320	History of Modern Design I	
ADN 6330	History of Modern Design II	
Illustration courses		12
AGD 2230	Introduction to Typography: Skills and Concepts	
AGD 2240	Introduction to Graphic Design: Skills and Concepts	
AGD 3270	Introduction to Illustration	

Total Credits 21

Jewelry Minor

The Jewelry minor offers undergraduate students a rich experience of materials, process and interpretation to complement their degree work. The minor is open to both Art and Non-Art majors and is designed to give students a range of experiences including use of hand processes, machines and digital fabrication through the scope of Jewelry. This minor will blend historic and contemporary theory and awareness of practitioners to help students contextualize their work within jewelry making.

Students pursuing a minor in jewelry must complete the following courses from the list below totaling 18 credits.

Code	Title	Credits
Select one of the following courses:		3
ADR 1050	Drawing I	
ACO 1230	Space Studio	
Select one of the following courses:		3
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
AME Requirements		12
AME 2600	Introduction to Jewelry and Metalsmithing	
AME 3600	Intermediate Jewelry I	
AME 3601	Intermediate Jewelry II	
AME 4600	Metalsmithing I	
Total Credits		18

Painting and Drawing Minor

This minor provides students the opportunity to supplement their major field of study with an exploration of the media, techniques, and concerns of contemporary painting and drawing. The wide array of courses allows students to follow individualized paths through the curriculum, whether their interests lay in working from live models, in the landscape, with non-objective imagery, or either alternative or traditional media in both painting and drawing. The breadth of the Painting and Drawing program comprises a rich and stimulating environment through which students are invited to express their ideas and stretch their creativity.

The Minor in Painting and Drawing requires 21 credits.

Code	Title	Credits
ACO 1200	Surface Studio	3
ADR 1050	Drawing I	3
AH 1120	Survey of Art History: Renaissance through Modern	3
Select two of the following courses:		6
ADR 2070	Beginning Life Drawing	
ADR 2130	Introduction to Alternative Drawing Methods and Materials	
APA 2000	Oil Painting I	
APA 2110	Watercolor Painting I	
APA 2130	Introduction to Alternative Painting Media	
Select two of the following intermediate and advanced courses:		6

ADR 3070	Intermediate Life Drawing
ADR 5070	Advanced Life Drawing
ADR 5080	Landscape Drawing
ADR 5100	Contexts of Studio Practice or APA 5100 Contexts of Studio Practice
ADR 5160	Advanced Alternative Drawing Methods and Materials
APA 3000	Oil Painting II
APA 3110	Watercolor Painting II
APA 4000	Oil Painting III
APA 5080	Landscape Painting
APA 5110	Watercolor Painting III
APA 5160	Advanced Alternative Painting Media
APA 5200	Advanced Mural Painting

Total Credits 21

Printmaking Minor

This minor offers students the opportunity to supplement their major field of study to focus on printmaking as a means of visual expression. Students pursuing a Minor in Printmaking must complete 18 credits distributed as follows:

Code	Title	Credits
Select one of the following:		3
ACO 1200	Surface Studio	
ADR 1050	Drawing I	
Select one of the following:		3
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
APR 2300	Printmaking	3
Select three of the following:		9
APR 3470	Photo-Processes for Printmaking I	
APR 3480	Intaglio I	
APR 3490	Lithography I	
APR 3500	Screen Printing I	
APR 3510	Relief and Experimental Printmaking I	
APR 5470	Photo-Processes for Printmaking II	
APR 5480	Intaglio II	
APR 5490	Lithography II	
APR 5500	Screen Printing II	
APR 5510	Relief and Experimental Printmaking II	
Total Credits		18

All courses in the minor must be completed with the grade of C- or higher.

Sculpture Minor

This minor provides students the opportunity to supplement their major field of study with an exploration of contemporary sculpture through hands on exposure to the variety of sculptural capacities available at Wayne State: foundry work for bronze and aluminum casting, mold-making and casting for contemporary applications, clay modeling from the figure, steel fabrication and welding, and woodworking.

The Minor in Sculpture requires 18 credits.

Code	Title	Credits

ASL 5180	Sculpture: Advanced Technology	
ASL 5190	Sculpture Foundry II	
ASL 5810	Special Topics in Sculpture	
Any Art Department Studio Course		
Total Credits		18

Textile Design Minor

This minor offers students the opportunity to learn textile design skills and apply these in a studio/industry setting. The minor provides course options in both print and woven textile design. The minor combines elements of the fibers and fashion programs.

Students must complete 24 credits as specified below:

Code	Title	Credits
Drawing		
ADR 1050	Drawing I	3
Core		
ACO 1200	Surface Studio	3
Graphic Design		
AGD 2240	Introduction to Graphic Design: Skills and Concepts	3
Textile Design		
AFI 2660	Introduction to Fabric Printing and Dyeing	6
AFI 3640	Digital Textile Design	
Design History (select one of the following):		3
AFA 5430	History of Costume	
ADN 6320	History of Modern Design I	
ADN 6330	History of Modern Design II	
Textile Design Studio Electives		
In discussion with your art advisor, select two studio electives from fibers.		6
AFI 2650	Beginning Weaving	
AFI 3650	Intermediate Weaving and Fiber Arts	
AFI 3660	Intermediate Fibers: Printing and Dyeing	

AFI 5650	Weaving: Senior Project
AFI 5660	Fabric Printing and Dyeing: Senior Project
Total Credits	24

All courses in the minor must be completed with the grade of C- or higher.

Communication

Office: 585 Manoogian Hall; 313-577-2943

Chairperson: *Katheryn Maguire*

Academic Services Officer: Victoria Dallas

Undergraduate Advisor: Jessica Greenwald

<http://www.comm.wayne.edu> (<http://www.comm.wayne.edu/>)

The primary aim of this department is to assist students in developing the ability to communicate effectively and to understand the principles of the communication process. The variety of degree programs provides broad liberal arts education as well as specific career training. Undergraduate and graduate majors may prepare for careers in several fields: industrial relations; sales; personnel; public relations; radio, television, film; journalism; teaching; law; and, the ministry.

The department sponsors several student activities that are available to all University students. These include intercollegiate debate and speech teams. Wayne State University has undergraduate chapters of Lambda Pi Eta, Forensic Union, Delta Sigma Rho-Tau Kappa Alpha, the Film Association, the Society of Professional Journalists and the Public Relations Student Society of America. Talent scholarships are also available to students interested in forensics or debate.

COM 1070 is designed for those who wish to improve their general communicative ability. This course can be taken to fulfill the University's General Education Competency Requirement in Oral Communication (OC). This requirement should be completed within the first 60 credit hours. Courses in persuasive speaking, discussion, debate, interpersonal communication and small group offer additional opportunities to study and practice general communication skills.

- Communication Studies (B.A.) (p. 215)
- Communication Studies AGRADE Program (p. 216)
- Film (B.A.) (p. 217)
- Journalism (B.A.) (p. 218)
- Media Arts and Studies (B.A.) (p. 220)
- Public Relations (B.A.) (p. 221)
- Public Relations AGRADE Program (p. 222)

Communication Department Minors and Cognate Study

The following minors are available in the department and should be pursued in consultation with an advisor in each of the specialized areas of concentration. Please note that some minors are not available to students who also major in the department. While a minor designation does not appear on the diploma, it will be noted on the student's transcript.

- Film Minor (p. 218)
- Communication Studies Minor (p. 216)
- Health Communication Minor (p. 218)
- Journalism Minor (p. 219)
- Law Minor (p. 220)
- Media Arts and Studies Minor (p. 221)

- New Media Minor (p. 221)
- Public Relations Minor (p. 222)

Bachelor of Arts Program Requirements

Department of Communication

At the undergraduate level the Department of Communication offers Bachelor of Arts degrees with majors in:

- Communication Studies
- Film
- Journalism
- Media Arts and Studies
- Public Relations

The following requirements apply to all of these degrees; specific requirements are listed within each major program.

Admission Requirements

Admission requirements are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Degree Requirements

Candidates for the Bachelor's degree must complete 120 credits of course work including satisfaction of the University General Education requirements, department degree requirements including completion of a foreign language through the third semester or two semesters of foreign language and one semester of foreign culture, as well as the major requirements of one of the programs. All courses in the major or the minor must be completed with a grade of C or better and be completed in accordance with the regulations of the University (p. 28) and the College (<http://bulletins.wayne.edu/undergraduate/college-fine-performing-communication-arts/bachelors-requirements-fine-performing-communication-arts/>) governing undergraduate scholarship and degrees.

A major will complete at least thirty but not more than forty-six credits in the Department. Any course work elected over the forty-six credit maximum must have prior approval of both advisor and chairperson if the additional credits are to count toward the degree (120 credits). This required approval includes students who plan to double major in the Department. Double majors are not allowed in some combined concentrations: Public Relations and Communication Studies, or Public Relations and Journalism. At least twelve credits are required in residence within the major. Students should consult their advisor in selecting a proper distribution of courses.

Foreign Language Requirement

Students will be required to complete two semesters of a single foreign language to fulfill the requirements for a bachelor of arts in communication. Two semesters of American Sign Language will count as fulfilling that requirement.

General Education Requirements

University-wide General Education Requirements are designed to enhance students' basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing

self-education and intellectual growth. The College adheres to specified timelines for completion of General Education requirements (p. 29).

Some of the courses listed in the University General Education program are also courses required in some majors. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). Students should consult the table in the College introductory section in order to take advantage of these occasions of overlapping requirements.

Writing Intensive (WI) Requirement: The University General Education Program requirement of a writing intensive course in the major may be fulfilled by taking one of the following:

Code	Title	Credits
COM 2230	Broadcast News Writing and Digital Editing (broadcast journalism)	3
COM 3400	Theories of Communication (communication studies)	3
COM 5270	Screenwriting (film)	4
COM 4170	Public Relations Writing (public relations)	3
COM 4100	Feature Writing (journalism)	3
COM 3010	Media Analysis and Criticism (media arts and studies)	3
or COM 4560	Telecommunications Policy: A Political Economy Approach	

The writing intensive course should be taken during the junior year after satisfactory completion of the Intermediate Composition (IC) requirement.

Communication Studies (B.A.)

A major in Communication Studies offers students an opportunity to develop excellent communication skills and a thorough knowledge of the process of human communication. Communication studies majors take a variety of courses in public speaking, interpersonal communication, group communication and communication theory.

Employers in business, government, and education identify excellent communication skills as the most important quality they desire in hiring employees. Communication studies majors find careers in many different fields including business, government, education, law and religion.

The degree of Bachelor of Arts with a major in communication studies is offered in two concentrations - Communication Studies, and Communication Studies Education. In addition to the course work below, students must complete all of the department's general degree requirements (p. 215).

Communication Studies

All majors in this concentration must elect the following core courses:

Code	Title	Credits
COM 1010	Oral Communication: Basic Speech	3
COM 2000	Introduction to Communication Studies	3
COM 2110	Argumentation and Debate	3
COM 3400	Theories of Communication	3
COM 4190	Rhetorical Criticism	3
or COM 4210	Research Methods in Communication	
COM 5900	Senior Project in Communication Studies	3
Select at least six credits from the following 2000/3000-level courses:		6

COM 2160	Campaigns and Social Movements
COM 2170	Persuasive Speaking
COM 2200	Interpersonal Communication
COM 2300	Intercultural Communication
COM 3150	Science Communication
COM 3170	Fundamentals of Public Relations
COM 3250	Introduction to Organizational Communication
COM 3300	Business and Professional Presentations

Select at least six elective credits from the following 4000-level courses: 6

COM 4041	Rhetoric and the Body
COM 4110	Studies of Legal Argument
COM 4130	Communication Ethics
COM 4140	Popular and Celebrity Culture
COM 4150	Communication and Conflict
COM 4200	Nonverbal Communication
COM 4270	Group Communication
COM 4500	Leadership Communication

Select at least six elective credits from the following 5000-level courses: 6

COM 5070	Culture, Communication, and Media
COM 5120	Public Address
COM 5130	Communication and Social Marketing
COM 5190	Special Topics in Communication Studies
COM 5320	Health Communication
COM 5330	Rhetoric of Visual Culture
COM 5360	Gender and Communication

Total Credits 36

COM 5900 is the senior assessment capstone course and should be taken in the last twenty-one credits of the student's program.

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Communication Studies Minor

A minor in this area requires:

Code	Title	Credits
COM 1010	Oral Communication: Basic Speech	3
COM 2000	Introduction to Communication Studies	3
COM 2110	Argumentation and Debate	3
COM 3400	Theories of Communication	3

Two additional communication studies courses selected in consultation with an advisor 6

Total Credits 18

Communication Studies AGRADE Program

The AGRADE program enables highly qualified Communication Studies seniors to enroll simultaneously in undergraduate and graduate programs and to apply a maximum of 12 credits toward both the undergraduate and graduate degrees. The program encourages such students to continue to graduate school at Wayne State by reducing the time to the master's degree. Only AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade.

Eligibility: AGRADE applicants must have an overall undergraduate GPA of 3.5. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a GPA in the major of at least 3.6 at the time of application.

Application: A student seeking AGRADE status should present to the Department of Communication Graduate Committee all of the materials which that department requires for normal admission to the M.A. program with a concentration in Communication Studies. Specific departmental admission requirements can be found in this bulletin or obtained from the Graduate Advisor in the Department of Communication (313-577-2959).

The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes 90 credits toward the undergraduate degree.

AGRADE Credits: Students may elect a minimum of three and a maximum of twelve AGRADE credits. These credits will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program. Formal admission to the graduate program occurs as AGRADE students complete their baccalaureate degree.

Students admitted into an AGRADE program will develop a Plan of Work for the master's program, specifying the courses that will be taken in the AGRADE status as well as the courses required for the balance of the undergraduate degree. **Note that COM 7000 must be taken in the first semester of AGRADE coursework.** The remaining AGRADE courses must be approved by both the student's undergraduate program advisor and the graduate director of the master's program. In courses permitting both undergraduate and graduate students to enroll, AGRADE students will be held to the graduate standard.

For more details about the AGRADE program, contact the Graduate Advisor in the Department of Communication (313-577-2959)

Major in Communication Studies

Students majoring in Communication Studies must complete 36 credit hours, distributed as follows:

Code	Title	Credits
Required courses 18		
COM 1010	Oral Communication: Basic Speech	

COM 2000	Introduction to Communication Studies	
COM 2110	Argumentation and Debate	
COM 3400	Theories of Communication	
COM 4190	Rhetorical Criticism	
	or COM 4210 (Research Methods in Communication)	
COM 5900	Senior Project in Communication Studies	
Select two of the following 2000/3000 level courses:		6
COM 2160	Campaigns and Social Movements	
COM 2170	Persuasive Speaking	
COM 2200	Interpersonal Communication	
COM 2300	Intercultural Communication	
COM 3170	Fundamentals of Public Relations	
COM 3250	Introduction to Organizational Communication	
COM 3300	Business and Professional Presentations	
Select two of the following 4000 level courses:		6
COM 4041	Rhetoric and the Body	
COM 4110	Studies of Legal Argument	
COM 4130	Communication Ethics	
COM 4140	Popular and Celebrity Culture	
COM 4150	Communication and Conflict	
COM 4190	Rhetorical Criticism	
COM 4200	Nonverbal Communication	
COM 4210	Research Methods in Communication	
COM 4270	Group Communication

COM 5330	Rhetoric of Visual Culture	
COM 5360	Gender and Communication	
Total Credits		36

The Master of Arts in Communication with a Concentration in Communication Studies

The M.A. in Communication with a concentration in Communication Studies requires a minimum of 30 credits, distributed as follows:

Code	Title	Credits
Required courses		6
COM 7000	Introduction to MA Studies in Communication	
COM 7410	Communication Theory	
Research methods courses		9
COM 7260	Quantitative Research Methods in Communication	
COM 7360	Qualitative Research Methods in Communication	
Select one additional methods course from the following:		
COM 6350	Communication, Culture, and Conflict	
COM 7250	Rhetorical Criticism	
COM 7340	Interviewing	
COM 7365	Ethnographic Methods for Communication Research	
COM 7580	Content Analysis	
Select one of the following capstone plan options:		15

Plan A: Thesis	
COM 8999	Master's Thesis Research and Direction (Thesis credits are distributed across two or three semesters. A total of 6 thesis credits is required.)
Any three courses from the department as electives. (9 credits)	
Plan B: Essay	
COM 7999	Master's Essay Direction (Thesis credits are distributed across two or three semesters. A total of 3 essay credits is required.)
Any four courses from the department as electives. (12 credits)	
Plan C: Coursework	
Any five courses from the department as electives. (15 credits)	
Total Credits	30

Film (B.A.)

The major in Film prepares students for careers as film/video makers, professionals and scholars who can create, interpret and critique film as a visual and narrative art form. Students acquire knowledge of film history and film/media theory as they gain training and experience in the art of storytelling through screenwriting, cinematography, sound recording, editing, producing and directing. Students develop skills in the planning, acquisition and management of resources and logistics as they engage in the conceptualization, realization and exhibition of engaging narratives.

Additional work at the graduate level is recommended for some of these careers.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 215).

Major Requirements: The major in Film requires completion of 45-46 credits in coursework as outlined below.

Code	Title	Credits
Required Courses		33
COM 1600	Introduction to Audio-Television-Film Production	
COM 1610	Fundamentals of New Media Production	
COM 2010	Introduction to Film	
COM 2020	History of Film	
COM 2210	Media Writing and Storytelling	
COM 3380	Editing and Field Production	
COM 5270	Screenwriting	
COM 5400	Techniques of Film and Video Production	
COM 5410	Producer's Workshop	
COM 5540	Film Criticism and Theory	
Portfolio Requirement (select one)		3-4
COM 5420	Director's Workshop	
COM 5440	Film, Cinematography and Lighting	
Electives		
Select nine credits of the following:		9
COM 3230	The African-American Film Experience	
COM 5020	Studies in Film History	
COM 5060	Documentary and Non-Fiction Film and Television	
COM 5270	Screenwriting (can be twice for an additional 4 credits)	
COM 5440	Film, Cinematography and Lighting (if not taken as portfolio req.)	
COM 5384	Topics in Production Design and Theory	
COM 5390	Digital Animation	

COM 5420	Director's Workshop
COM 6190	Internship
COM 6310	Allesee Lectures in Media (Max. 3)
COM 6410	Allesee Master Class (Max. 6)
COM 6680	Directed Projects in Film and Media

Total Credits **45-46**

Note: Students interested in Sound Design may fulfill some elective requirements through the Music Technology program in consultation with their advisor.

Film majors are encouraged to take additional film-related courses, offered throughout the university, toward fulfillment of their undergraduate degree requirements. These include, but are not limited to:

Code	Title	Credits
ADA 4220	Time-Based Media II: Experimental Animation	3
AID 3300	Introduction to Industrial Design	3
APH 2400	Introduction to Photography	3
COM 4310	Audio Production	3
COM 5610	Advanced TV Production	3
ENG 5060	Styles and Genres in Film	4
ITA 5150	Italian Cinema	3
SLA 3710	Russian and East European Film	3-4
SLA 3750	Polish and Yugoslavian Cinema	3
THR 4271	Acting for the Camera	3

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Film Minor

Students pursuing a minor in Film must complete **19 credits** including:

Code	Title	Credits
COM 1600	Introduction to Audio-Television-Film Production	3
COM 2010	Introduction to Film	4
COM 2210	Media Writing and Storytelling	3
Select an additional nine credits of film-related courses in consultation with advisor. See course list below:		9
COM 2020	History of Film	
COM 3230	The African-American Film Experience	
COM 4310	Audio Production	
COM 3380	Editing and Field Production	
COM 5020	Studies in Film History	

COM 5060	Documentary and Non-Fiction Film and Television
COM 5270	Screenwriting
COM 5384	Topics in Production Design and Theory
COM 5390	Digital Animation
COM 5400	Techniques of Film and Video Production
COM 5410	Producer's Workshop
COM 5420	Director's Workshop
COM 5440	Film, Cinematography and Lighting
COM 5540	Film Criticism and Theory
COM 6190	Internship
COM 6310	Allesee Lectures in Media
COM 6390	Documentary Storytelling I
COM 6410	Allesee Master Class

Total Credits **19**

Health Communication Minor

A minor in this area requires the following:

Code	Title	Credits
COM 2000	Introduction to Communication Studies	3
COM 3170	Fundamentals of Public Relations	3
COM 3250	Introduction to Organizational Communication	3
COM 4210	Research Methods in Communication	3
COM 5130	Communication and Social Marketing	3
COM 5320	Health Communication	3

Total Credits **18**

Journalism (B.A.)

Journalism majors plan careers in news editorial, broadcast, media relations or marketing and advertising. Students have a choice between a concentration in Print and Online journalism or one in Broadcast and Digital Media.

Journalism Institute for Media Diversity: The Journalism Institute for Media Diversity is designed to recruit and train talented undergraduate students interested in diversity in the media. Members of all racial and ethnic groups as well as anyone interested in studying the importance of diversity in the nation's media are particularly urged to apply. The Institute pools the resources of the University, the business community and Detroit area media professionals to provide scholarships and internships for some of its students. For additional information contact:

Director, Journalism Institute for Media Diversity
Wayne State University Journalism Program
559 Manoogian
Detroit, MI 48201
Telephone: 313-577-6304

In addition to the course work below, students must complete all of the department's general degree requirements (p. 215).

Major Requirements: Journalism majors plan careers in news editorial, broadcast, media relations or marketing and advertising. Students have a choice between a concentration in Print and Online journalism or one in Broadcast and Digital Media. A journalism advisor must be consulted for verification of requirements, which includes at least one required three-credit internship.

Total Credits 18

Media Arts and Studies (B.A.)

The major in Media Arts and Studies prepares students for careers in a wide range of media industries (such as radio, television, film and interactive media), for graduate programs in production and media studies, and to compete in a rapidly changing technological world. By

integrating the history, theory and analysis of media culture, practices, and technology with production experience and internship opportunities, the program prepares students to think critically and creatively about media and become skilled communicators who are socially, ethically and aesthetically astute.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 215).

Major Requirements: The major in Media Arts and Studies requires completion of a minimum of forty to forty-two credits in coursework as outlined below.

Code	Title	Credits
Required Courses		
COM 1500	Survey of Mass Communication	3
COM 1600	Introduction to Audio-Television-Film Production	3
COM 1610	Fundamentals of New Media Production	3
COM 2010	Introduction to Film	4
COM 2210	Media Writing and Storytelling	3
History and Analysis Courses		
Select two of the following:		6
COM 3010	Media Analysis and Criticism	
COM 4560	Telecommunications Policy: A Political Economy Approach	
COM 5010	History of Communication Technologies	
Production Courses		
Select two of the following:		6-7
COM 3380	Editing and Field Production	
COM 4310	Audio Production	
COM 4410	Television Production	
Capstone Course		
COM 5400	Techniques of Film and Video Production	3-4
or COM 5510	Societal Effects of New Technologies	
Electives		
Select nine credits of the following (at least three credits must be at the 5000 or 6000 level):		9
COM 2020	History of Film	
COM 2230	Broadcast News Writing and Digital Editing	
COM 2290	Fundamentals of New Media Communication	
COM 3010	Media Analysis and Criticism	
COM 3230	The African-American Film Experience

A minor in this area requires:

Code	Title	Credits
COM 1500	Survey of Mass Communication	3
or COM 3400	Theories of Communication	
COM 2260	Digital Writing and Research Methods	3
COM 2290	Fundamentals of New Media Communication	3
COM 2310	Introduction to Web Design	3
or COM 5500	Journalism and New Media	

Two additional new media electives selected in consultation with a departmental advisor

Total Credits **18**

Public Relations (B.A.)

Students electing this major typically seek employment in one of the many career opportunities in public relations: business and industry; non-profit organizations; trade associations; government service; education; or account executive positions in an agency. Some students later pursue graduate-level study in fields such as organizational communication. The Public Relations program at Wayne State is one of two programs in Michigan accredited by The Public Relations Society of America.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 215).

Major Requirements The major in Public Relations requires completion of a minimum of forty-two credits in coursework as outlined below.

Code	Title	Credits
Core Courses		
All of the following are required		
COM 1500	Survey of Mass Communication	3
COM 2030	Journalistic Grammar and Style	3
COM 2100	News Reporting	3
COM 2170	Persuasive Speaking	3
or COM 3300	Business and Professional Presentations	
COM 3170	Fundamentals of Public Relations	3
COM 3210	News Editing	3
COM 3250	Introduction to Organizational Communication	3
COM 3400	Theories of Communication	3
COM 4130	Communication Ethics	3
COM 4170	Public Relations Writing	3
COM 4210	Research Methods in Communication	3
COM 5160	Public Relations Campaigns and Issues Management ¹	3
COM 5130	Communication and Social Marketing	3
Select one of the following:		
COM 5140	Public Relations and Social Media	3

COM 5300	Layout and Design
COM 5500	Journalism and New Media

¹ COM 5160 is the senior level capstone course. To be taken in last twenty-one credits of study

Recommended electives include: COM 2200 Interpersonal Communication, COM 2260 Digital Writing and Research Methods, COM 2290 Fundamentals of New Media Communication, COM 6190 Internship, as well as courses in Journalism (COM 4100 Feature Writing). An advisor should be consulted early in the student's program. Direct inquiries to 585 Manoogian Hall (313-577-2946).

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Public Relations Minor

A minor in this area requires:

Code	Title	Credits
COM 1500	Survey of Mass Communication	3
COM 2030	Journalistic Grammar and Style	3
COM 2100	News Reporting	3
COM 3170	Fundamentals of Public Relations	3
COM 4170	Public Relations Writing	3
COM 3210	News Editing	3
COM 3250	Introduction to Organizational Communication	3
Total Credits		21

Public Relations AGRADE Program

The AGRADE program enables highly qualified Communication Studies seniors to enroll simultaneously in undergraduate and graduate programs and to apply a maximum of 12 credits toward both the undergraduate and graduate degrees. The program encourages such students to continue to graduate school at Wayne State by reducing the time to the master's degree. Only AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade.

Eligibility: AGRADE applicants must have an overall undergraduate GPA of 3.5. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a GPA in the major of at least 3.6 at the time of application.

Application: A student seeking AGRADE status should present to the Department of Communication Graduate Committee all of the materials which that department requires for normal admission to the M.A. program with a concentration in Communication Studies. Specific departmental admission requirements can be found in this bulletin or obtained from the Graduate Advisor in the Department of Communication (313-577-2959).

The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes 90 credits toward the undergraduate degree.

AGRADE Credits: Students may elect a minimum of three and a maximum of twelve AGRADE credits. These credits will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program. Formal admission to the graduate program occurs as AGRADE students complete their baccalaureate degree.

Students admitted into an AGRADE program will develop a Plan of Work for the master's program, specifying the courses that will be taken in the AGRADE status as well as the courses required for the balance of the undergraduate degree. **Note that COM 7000 must be taken in the first semester of AGRADE coursework.** The remaining AGRADE courses must be approved by both the student's undergraduate program advisor and the graduate director of the master's program. In courses permitting both undergraduate and graduate students to enroll, AGRADE students will be held to the graduate standard.

For more details about the AGRADE program, contact the Graduate Advisor in the Department of Communication (313-577-2959)

Bachelor of Arts with a Major in Public Relations

Students majoring in Public Relations must complete 42 credit hours, distributed as follows:

Code	Title	Credits
Core courses		12
COM 3170	Fundamentals of Public Relations

¹ **Option 1: Traditional Internship:** student works for a specified number of hours at an approved internship site where students can acquire and build upon skills that will serve their career goals. The student is required to have a site supervisor.

Option 2: Service Learning Internship Project: student completes a service-learning project in conjunction with the graduate internship coordinator. Each project requires a site supervisor at the hosting organization.

Option 3: Worksite Internship Project: student takes on a project at their current organization, provided that it significantly extends the scope of their current responsibilities or introduces them to a new domain of practice within the organization. The graduate internship coordinator must approve the project. Students must have a designated site supervisor other than their current supervisor.

Music

Chairperson: Norah Duncan IV

Interim Associate Chairperson: Russell Miller

B.A. Advisor and Graduate Officer: Joshua Duchan

Academic Advisor: Maurice Draughn

Academic Services Officers: Paul Bishop, Leah Celebi

Departmental Scholarships and Student Records: Kimberly Simmons

Supervisor, Academic and Student Personnel: Evelyn Williams

<http://www.music.wayne.edu> (<http://www.music.wayne.edu/>)

The Department of Music cultivates music as a modern and global art, grounded in a long historical tradition, by combining higher education with professional training and experience for its undergraduate and graduate/professional students.

The Department offers serious students of music opportunities to learn, grow, and develop their skills and disciplines in an urban cultural setting. With close proximity to Detroit's cultural center, students have access to the resources of such premiere institutions as the Chamber Music Society, the Detroit Institute of Arts, the Detroit Jazz Festival, the Detroit Public Library, the Detroit Opera House, and Orchestra Hall. The long historical relationship between the Detroit Symphony Orchestra and the Department allows students to study and coach with exceptional guest artists and resident artist-faculty who are specialists in all musical styles and media.

Building on the strengths of its geographic and cultural setting, the Department maintains public access to its performances and degree programs, offers high-level professional and academic standards and unique creative and scholarly opportunities appropriate to a large research university, and cultivates a deep aesthetic understanding of music in our students and the larger urban arts community.

- Music Technology Minor (p. 231)
- Law Minor (p. 220)

Bachelor Degree Requirements

Department of Music

Registration: All students must meet with a Department of Music advisor prior to initial course registration and at least once per term for early registration advising. Enrollment in all MUP courses requires departmental permission.

Scholarship: All course credit applicable to the degree programs described in the following pages must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 198) governing undergraduate scholarship and degrees.

Music majors pursuing undergraduate degrees must earn the grade of C or better in all music courses required in the music curriculum they are pursuing. The grade of C-minus or below is not an acceptable grade for degree credit. If the grade of C-minus or below (or a mark of WF) is received by a music major in any required course in a music curriculum, the student must repeat the course and earn a grade of C or better. Students who fail to achieve a grade of C or better in required music courses following two attempts may not be allowed to continue to register as Music Majors.

DOUBLE MAJORS: Music majors in any concentration may seek a second major outside Music with the approval of the Department of Music and the Department offering the second major. Double concentrations within a single major, however, are not granted by the University.

Ensemble Participation

The Music Department encourages all musically inclined students to join its ensembles. Participation gives music majors and non-majors the opportunity to improve their musical skills and perform in internationally recognized groups. Conductors audition new students during the week before classes begin; the level of skill necessary varies by ensemble, however, most require music literacy. Music majors must elect designated Major Ensembles (MUA 2800, MUA 2810, MUA 2820, MUA 2822, MUA 2840, or MUA 2850) for degree credit.

BANDS: Woodwind, brass and percussion players are welcome to join the Concert Band. Wind Symphony members are chosen through competitive auditions.

CHORUSES: Non-music majors are encouraged to register for Choral Union (the large mixed-voice choir), Men's Chorus or Women's Chorale. Concert Chorale is the Department's most select vocal ensemble, and auditions are especially competitive. Music majors who are required to participate in a choral ensemble must elect Choral Union (MUA 2840) or Concert Chorale (MUA 2850) for degree credit.

JAZZ: Jazz studies and other music majors are given highest priority for jazz big band positions (MUA 2820) and jazz guitar ensembles (MUA 2822). Non-music majors are welcome to audition for all jazz ensembles and combos.

ORCHESTRA: Positions in the Orchestra are assigned through auditions with the conductor of the Orchestra.

General Education Requirements

University-wide General Education Requirements are designed to enhance students' basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth. The College adheres to specified timelines for completion of General Education requirements (p. 29).

Some of the courses listed in the University General Education program are also courses required in some majors. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). Students should consult the department academic advisors in order to take advantage of these occasions of overlapping requirements.

Music: Private Instruction

Private instruction in instruments and voice are required in all B.A. and B.Mus. concentrations. The courses listed in the following table under *Principal and Secondary Private Instruction*, MUP 1xxx and 3xxx, are available for one credit each and are intended for students studying instruments as required in the concentrations:

- B.A. in Music
- Composition
- Instrumental Music Education
- Vocal Music Education
- Music Business
- Music Technology
- Jazz Studies
- secondary instrument study in the Performance concentration

All students must successfully pass a junior-standing jury for permission to continue elections at the 3xxx level.

The courses listed in the following table under *Major Private Instruction*, MUP 2xxx and 4xxx, are available for three credits each and are intended for students studying major instruments as required in all performance concentrations. All students must successfully pass a junior-standing jury for permission to continue elections at the 4xxx level.

Corequisite: Students enrolled in MUP Private Instruction must concurrently register in an appropriate major ensemble selected from the following:

Code	Title	Credits
MUA 2800	University Bands	1
MUA 2810	University Symphony Orchestra	1
MUA 2820	Jazz Big Band	1
MUA 2822	Jazz Guitar Ensemble	1

MUA 2840	Choral Union	1
MUA 2850	Concert Chorale	1

Fees: MUP courses have applied music fees as stated in course list in the bulletin as well as the schedule of classes.

Music (B.A.)

The Bachelor of Arts curriculum is designed for students who want to develop their musical knowledge and ability while obtaining a broad liberal arts education. It provides students with the academic and musical prerequisites necessary for continuing graduate study in such fields as music theory, musicology and ethnomusicology.

Admission Requirements

Admission Requirements for the Bachelor of Arts program are satisfied by

1. general requirements for admission (p. 23) to the University;
2. a successful audition on a principal instrument or voice.

Candidates for this degree must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 29), College degree requirements (p. 200), and Bachelor of Arts curriculum requirements listed below.

ONLY SIXTY CREDITS IN MUSIC ARE APPLICABLE TO THIS DEGREE.

General Education Requirements (35 Credits)

Code	Title	Credits
MUH 1345	Music Cultures (to satisfy the Global Learning distribution requirement)	3
Other requirements		32

Music Requirements (47 – 48 Total Credits)

Code	Title	Credits
Piano Competency, Applied Music, and Ensembles		
MUA 1795	Piano Skills I	2
MUA 2795	Piano Skills II	2
Four terms of appropriate MUP: private instruction in principal instrument or voice. See Principal and Secondary Private Instruction Courses for courses.		4
Select four terms of the same ensemble (must be elected concurrently with MUP private instruction) from the following:		4
MUA 2800	University Bands	
MUA 2810	University Symphony Orchestra	
MUA 2820	Jazz Big Band	
MUA 2822	Jazz Guitar Ensemble	
MUA 2840	Choral Union

MUT 5220	Introduction to Schenkerian Analysis	
MUT 5240	Analysis of Twentieth-Century Music	
MUT 5200	Special Topics in Theory	
B.A. Project		
Select one of the following:		2
MUA 4990	BA Project	
MUH 4990	BA Project	
MUT 4990	BA Project	
Total Credits		47-48

Music (B.Mus.)

The Bachelor of Music degree provides a program for talented students with prior musical experience and skills who seek professional training in music. A wide range of concentrations is available under the program to meet the specialized interests and career plans of serious music students. Depending on the student's qualifications, he or she may choose from seven professional areas of concentration: composition; instrumental music education; vocal

music education; music business; music technology; jazz studies; or performance.

Admission Requirements

Admission to this program is contingent upon

1. satisfaction of the general requirements for undergraduate admission (p. 23) to the University;
2. a successful audition on a principal instrument or voice.

Audition dates are scheduled throughout the year and prospective students should contact the Music Office at 313-577-1795 for scheduling information. Entering students must consult a departmental advisor prior to their first registration.

Candidates for the Bachelor of Music must complete 120 to 127 credits including satisfaction of the University General Education requirements (p. 29), College degree requirements (p. 200), as well as the specific course requirements for each concentration listed below. In addition, all Bachelor of Music students are required to successfully complete a junior-standing performance jury and, depending upon concentration, other junior-standing assessments during the fourth semester of enrollment.

Concentrations (B.Mus. Program)

Composition (120 Credits minimum)

Code	Title	Credits
General Education Requirements		
MUH 1345	Music Cultures (to satisfy the Global Learning distribution requirement)	3
PHI 3700	Philosophy of Art (to satisfy the Cultural inquiry, Philosophy and Letters General Education distribution requirement)	3
Other requirements		29

Piano Competency, Applied Music, and Ensembles

MUA 1795	Piano Skills I	2
MUA 2795	Piano Skills II	2

Six terms of appropriate MUP courses (private instruction in principal instrument or voice, one credit per term - total six credits). See Principal and Secondary Private Instruction Courses for courses

If Piano is not the principal instrument, two terms of MUP 1215, Secondary Piano and two terms of MUP 3215, Secondary Piano (Students whose principal instrument is not piano may apply these four credits to satisfy the elective requirement).

Select six terms of major ensemble (must be elected concurrently with MUP private instruction) of the following:

MUA 2800	University Bands	
MUA 2810	University Symphony Orchestra	
MUA 2820	Jazz Big Band	
MUA 2822	Jazz Guitar Ensemble	
MUA 2840	Choral Union	
MUA 2850	Concert Chorale	

Select one term of chamber music of the following:

MUA 2826	Jazz Combos	1
MUA 2880	Chamber Music and Special Ensembles	
MUA 2891	Electronic Music Ensemble	

General Lectures and Concerts

MUT 2150	Ear Training III	1
Music History		
Select two of the following:		6
MUH 1345	Music Cultures	
MUH 3310	Music History and Literature I	
MUH 3320	Music History and Literature II	
MUH 3330	Music History and Literature III	
Performance Ensemble		
Select four credits in one ensemble from the following:		4
MUA 2800	University Bands	
MUA 2810	University Symphony Orchestra	
MUA 2820	Jazz Big Band	
MUA 2822	Jazz Guitar Ensemble	

MUA 2840	Choral Union	
MUA 2850	Concert Chorale	
Total Credits		22

Jazz Studies Minor for Instrumental Music Education Majors

The minor in jazz studies is designed for instrumental music education majors who wish to gain experience in jazz. Requirements for the jazz studies minor consist of eighteen credits in the following courses:

Code	Title	Credits
Music History and Theory		
MUH 3360	Jazz History	3
MUT 2120	Jazz Theory and Harmony	3
MUT 2885	Jazz Improvisation I	1
MUT 2887	Jazz Improvisation II	1
MUT 5110	Jazz Arranging and Composition I	3
MUT 5120	Jazz Arranging and Composition II	3
Ensemble and Piano Competency		
MUA 2820	Jazz Big Band	1
MUA 2826	Jazz Combos	1
MUA 3795	Advanced Piano Skills	2
Total Credits		18

Music Technology Minor

The Music Department offers a minor in music technology for undergraduate students majoring in other disciplines. The program is designed for the students who wish to learn fundamental knowledge in sound engineering and electronic music production.

Students pursuing the minor in Music Technology must complete a minimum of 18 credits by taking the classes listed below.

Code	Title	Credits
MUA 2500	Music Technology	3
MUA 2510	Studio Recording Techniques	2
MUA 2530	Electronic Music Synthesis	3
MUA 3510	Mixing and Mastering	2
MUA 3530	Sound Design	3
Select two of the following:		5-7
MUA 3550	Advanced Studio Techniques	
MUA 4010	Audio Electronics	
MUA 4020	Theories of Electronic Music	
MUA 4030	Sound Design for Visual Media	
MUA 4040	Electroacoustic Music	
MUT 5280	Interactive Electronic Music Composition	
PHY 3100	The Sounds of Music	
Total Credits		18-20

Theatre and Dance

Office: 3226 Old Main; 313-577-3508

Chairperson: Mary Anderson

<http://www.theatreanddance.wayne.edu> (<http://www.theatreanddance.wayne.edu/>)

The Theatre and Dance Programs prepare students for professional careers as performing artists, choreographers, designer/technicians,

stage managers, and informed audience members within the urban, metropolitan context of Wayne State University. The Department of Theatre and Dance is committed to providing student the opportunity to develop within their disciplines through an extensive performance program that includes eighteen theatrical productions and dance concerts, four community outreach performance companies that target the city schools, Summer Children's Theatre designed to bring affordable quality summer entertainment to the youth of Detroit, Complexions Summer Ballet Intensive, and Baira WSU Professional Resident Dance Company.

Theatre and Dance Mission Statement: We engage, educate, and empower diverse/student/artists through the rigorous study, practice, and production of theatre and dance to enrich Detroit and the Global Community.

Theatre: The various theatre programs in the Department offer creative opportunities for preprofessional training at every academic level. Undergraduate majors may prepare for careers in teaching, acting, design/technology and related fields. The Department sponsors a large number of production activities and practicum experiences including the Bonstelle Theatre, Underground Theatre, Freedom Players, Motor City Cabaret, and Summer Children's Theatre. Participation in these activities is available to all University students.

Dance: The Dance Program prepares students for professional careers as performing artists, choreographers, dance teachers, and informed dance audience members. The dance program offers curricular choices at the undergraduate and post-degree levels, integrating a thorough understanding of applied and theoretical principles of movement with the newest forms and ideas in contemporary dance performance, choreography, and dance education. Undergraduate studies in dance are reflected in the following major and minor designations: Major in Dance leading to the Bachelor of Science degree; Major in Dance leading to the Bachelor of Fine Arts degree. Dance performance opportunities include The Wayne State University Dance Company, Dance Workshop, and To Sangana African Dance company. These are performing groups composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students.

Dance

Performance Opportunities in Dance

The Wayne State University Dance Company, Dance Workshop, and To Sangana African Dance Company are performing groups composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students. Students must have a minimum 2.5 overall GPA to participate in a performance ensemble.

Other Dance Study

The Dance Program also provides dance instruction for non-majors and develops general appreciation for dance as an art form.

Theatre

The Theatre program is designed to provide students with a solid foundation in all aspects of theatre and theatre production. Having completed a rigorous fundamental sequence of courses, students are prepared to choose their path of study (acting, design and technology, stage management, theatre management, history and dramaturgy, etc.). The extensive production program, including the Bonstelle Theatre, the Studio Theatre, Student Stage, and Summer Children's Theatre, present

opportunity for students to practice and enhance their craft. Participation in these activities is available to all University students.

- Dance Minor (p. 242)
- Theatre (B.A.) (p. 241)
- Theatre (B.F.A.) (p. 235)
- General Theatre Minor (p. 242)
- Africana Theatre and Dance Minor (p. 242)
- Theatre Design and Technology Minor (p. 243)
- Musical Theatre Minor (p. 242)
- Studio and Community Dance Minor (p. 243)
- Theatre Management Minor (p. 244)
- Law Minor (p. 220)

Dance (B.F.A.)

The Bachelor of Fine Arts with a major in dance provides a professional degree program for talented students with prior dance experience and skills who seek professional careers as performing artists and choreographers. Dance technique and the history, philosophies, and aesthetics of dance are all central to this program.

Admission Requirements

Admission to this program is contingent upon satisfaction of the general requirements for undergraduate admission (p. 23) to the University and a successful audition conducted by the Department faculty. Audition dates are scheduled throughout the year prior to admission. Prospective students should contact the Theatre and Dance Office for audition schedule information.

All B.F.A. dance majors must be enrolled in appropriate level technique classes each semester and evidence successful progress in their respective degree programs in order to maintain dance major status. Any dance major who does not comply and/or does not register and complete appropriate dance coursework for one semester MUST AUDITION FOR THE DANCE PROGRAM for re-admission. Students out of the dance program for two semesters or more are rarely re-admitted to the program.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 29), College degree requirements (p. 200) and a minimum of eighty-eight credits in dance courses (specified below). B.F.A students must comply with the following department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the credits in specified Dance courses must be completed with grades of C minus or better; dance technique and choreography classes must be completed with a B plus or better; and a 3.0 cumulative g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course.

All course work must be completed in accordance with the academic procedures of the University (p. 17) and the College of Fine, Performing and Communication Arts (p. 200) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: Majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, and the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed

on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

B.F.A. Major Requirements

Code	Title	Credits
Dance Studies		
DNC 0512	Pilates Equipment Lab (six semesters)	0
DNC 1300	Pilates Mat for Performing Artists	1
DNC 1305	Pilates Reformer for Dancers	1
DNC 1330	Production Practicum (two semesters)	2

AH 1110	Survey of Art History: Ancient through Medieval	
or AH 1120	Survey of Art History: Renaissance through Modern	
COM 1600	Introduction to Audio-Television-Film Production	
MUH 1340	Music Appreciation: World Music	
MUH 1370	Music Appreciation: Beginnings to the Present	

THR 1010	Introduction to the Theatre	
Total Credits		88-89

Performance Opportunities

There are three performance ensembles: the W.S.U. Dance Company One, Dance Workshop, and To Sangana African Dance Company composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students. Students must have a minimum 2.5 overall g.p.a. to participate in a performance ensemble.

Dance Teaching Majors (B.F.A. and B.S. Programs)

Professional Education Sequence: The additional following courses are required for a K-12 teaching major in dance, K-12 certification, and a major in dance, secondary certification for both the B.F.A. and the B.S. degrees:

Code	Title	Credits
DNC 3190	Movement Analysis	3
DNC 3810	Dance Pedagogy	3
DNC 4410	Student Teaching and Seminar I	5
DNC 4420	Student Teaching and Seminar II	5
DNC 4810	Dance Teaching Methods	3
DNC 4820	Assisting in Dance	1
DNC 4910	Dance in Community	3
DNC 5810	Teaching Creative Dance for Children	3
DNC 5830	Field Work in Creative Dance	2-8
EDP 5480	Adolescent Psychology	3
LFA 2330	First Aid and CPR	3
or HE 3300	Health of the School Child	
RLL 6121	Teaching Reading in the Content Areas: Grades 6-12	3
Total Credits		37-43

Post-Degree Studies in Dance

Students who have completed a dance major at another University program may be able to add Teacher Certification by completing the Dance Education Major requirements. Students must apply to the College of Education and to the Dance Department.

All course work must be completed in accordance with the academic procedures of the University (p. 17) and the College of Fine, Performing and Communication Arts (p. 200) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

Dance Honors Program (B.S. and B.F.A. degrees)

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (DNC 5997) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Dance Honors Curriculum (15 credits required)

Code	Title	Credits
Select the Honors Option in three of the following: 9-10		
DNC 2000	Introduction to World Dance	
DNC 2300	History of Dance to 1800	
DNC 2310	History of Dance from 1800 to the Present	
DNC 3180	Dance Kinesiology	
DNC 3310	Dance Production	
DNC 3810	Dance Pedagogy	
DNC 4810	Dance Teaching Methods	
DNC 5810	Teaching Creative Dance for Children	
DNC 5997	Departmental Honors Thesis	3
HON 42xx - 4200	Level Seminar	3
Total Credits		15-16

Student must maintain an overall 3.3 g.p.a.

For additional information, students should consult the Irvin D. Reid Honors College (<http://www.honors.wayne.edu>).

Dance (B.S.)

This degree program is for students with prior dance experience who wish to combine university-level dance studies with targeted general study in the arts and sciences. The Bachelor of Science in Dance offers an integrative program of dance professions, culture and community providing students multiple opportunities to enhance technical skill, investigate shifting social and global concerns, and cultivate innovative approaches for dance career preparation in diverse contexts and related professions.

Admission Requirements

Admission to this program is contingent upon satisfaction of the general requirements for undergraduate admission (p. 23) to the University and a successful audition conducted by the Department faculty. Audition dates are scheduled each November, December and February in the year prior to admission; prospective students should contact the Theatre and Dance Office (<http://theatreanddance.wayne.edu/dance/>) for audition schedule information. Entering students are required to consult the Departmental advising staff prior to their first registration for classes.

All B.S. dance majors must be enrolled in required curriculum each semester and evidence successful progress in the B.S. degree program in order to maintain dance major status. Any dance major who does not comply and/or does not register and complete appropriate dance coursework for one semester MUST AUDITION FOR THE DANCE PROGRAM for re-admission.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 29), College degree requirements (p. 200), minimum fifty-nine credits in dance courses (specified below) and minimum twenty-nine credits in electives. B.S students must comply with the following department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the credits in specified Dance courses must be completed with grades of C minus or better and 2.5 cumulative g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course.

All course work must be completed in accordance with the academic procedures of the University (p. 17) and the College of Fine, Performing and Communication Arts (p. 200) governing undergraduate scholarship

and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Select two of the following:		6-7
AH 1110	Survey of Art History: Ancient through Medieval	
or AH 1120	Survey of Art History: Renaissance through Modern	

COM 1600	Introduction to Audio-Television-Film Production
COM 3170	Fundamentals of Public Relations (Pre-req: COM 1010)
MUH 1340	Music Appreciation: World Music
MUH 1370	Music Appreciation: Beginnings to the Present
THR 1010	Introduction to the Theatre
Total Credits	59-60

Dance Teaching Majors (B.F.A. and B.S. Programs)

Professional Education Sequence: The additional following courses are required for a K-12 teaching major in dance, K-12 certification, and a major in dance, secondary certification for both the B.F.A. and the B.S. degrees:

Code	Title	Credits
DNC 3190	Movement Analysis	3
DNC 3810	Dance Pedagogy	3
DNC 4410	Student Teaching and Seminar I	5
DNC 4420	Student Teaching and Seminar II	5
DNC 4810	Dance Teaching Methods	3
DNC 4820	Assisting in Dance	1
DNC 4910	Dance in Community	3
DNC 5810	Teaching Creative Dance for Children	3
DNC 5830	Field Work in Creative Dance	2-8
EDP 5480	Adolescent Psychology	3
LFA 2330	First Aid and CPR	3
or HE 3300	Health of the School Child	
RLL 6121	Teaching Reading in the Content Areas: Grades 6-12	3
Total Credits		37-43

Post-Degree Studies in Dance

Students who have completed a dance major at another University program may be able to add Teacher Certification by completing the Dance Education Major requirements. Students must apply to the College of Education and to the Dance Department.

All course work must be completed in accordance with the academic procedures of the University (p. 17) and the College of Fine, Performing and Communication Arts (p. 200) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

Dance Honors Program (B.S. and B.F.A. degrees)

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (DNC 5997) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Dance Honors Curriculum (15 credits required)

Code	Title	Credits
Select the Honors Option in three of the following:		
DNC 2000	Introduction to World Dance	
DNC 2300	History of Dance to 1800	
DNC 2310	History of Dance from 1800 to the Present	
DNC 3180	Dance Kinesiology	
DNC 3310	Dance Production	
DNC 3810	Dance Pedagogy	
DNC 4810	Dance Teaching Methods	
DNC 5810	Teaching Creative Dance for Children	
DNC 5997	Departmental Honors Thesis	3
HON 42xx - 4200	Level Seminar	3
Total Credits		15-16

Student must maintain an overall 3.3 g.p.a.

For additional information, students should consult the Irvin D. Reid Honors College (<http://www.honors.wayne.edu>).

Theatre (B.F.A.)

The Bachelor of Fine Arts with a Major in Theatre is an intensive pre-professional curriculum that combines foundational studies, rigorous training and extensive production assignments. The B.F.A. program is divided into two areas: a) performance and b) design and technical theatre including stage management.

Admission Requirements

Students seeking admission to the performance program must: 1) satisfy the general requirements for undergraduate admission (p. 23) to the University; 2) complete a minimum of forty-five credits, including all program-specific prerequisite courses; 3) be selected for the program through an audition process. Admissions to the performance program typically take place at the end of the Fall semester of a student's sophomore year.

Students seeking admission to the design and technical theatre program must satisfy the general requirements for undergraduate admission (p. 23) to the University and be selected for the program through an interview with the faculty.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 29), College degree requirements (p. 200), and seventy-seven credits in theatre courses including the major requirements listed below. The minimum grade for each course required in the major, which must be taken in the Department of Theatre, must be no less than a C-minus in order for the course credit to count toward completion of the degree. B.F.A students must comply with the following department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the seventy-seven credits in specified Theatre courses must be completed with grades of C minus or better and a minimum of 3.0 Theatre major g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course. Departmental information published in this Bulletin is intended for use in conjunction with advising, but in all cases, regardless of advice given, students are responsible for meeting and satisfying requirements as set forth in this Bulletin.

All course work must be completed in accordance with the academic procedures of the University (p. 17) and the College of Fine, Performing and Communication Arts (p. 200) governing undergraduate scholarship

and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress

Majors must complete the Basic Composition (BC) and Quantitative Experience (QE) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

THR 4998	Capstone Honors Thesis	3
Honors Seminars ¹		3
Total Credits		15

¹ HON 4200-4280 Honors Seminars (select one)

Student must maintain an overall 3.3 g.p.a.

For additional information, students should consult the Irvin D. Reid Honors College (<http://www.honors.wayne.edu/>).

Theatre (B.A.)

The Bachelor of Arts with a Major in Theatre is designed to introduce students to the multiple facets of theatre scholarship and theatre practice. It provides a flexible and extensive education in dramatic literature, theatre history, performance practice and theatrical design for students interested in careers in theatre and related entertainment arts, education, communication and television, and other professions.

Admission Requirements

Admission requirements for the program include an audition or interview with the Theatre Faculty and satisfying the general requirements for undergraduate admission (p. 23) to the University.

Matriculation: All students in baccalaureate theatre degree programs begin as B.A. students and subsequently may change to the B.F.A. program depending on interest and ability. Classes for theatre students begin immediately in the freshman year. Students should consult with departmental advisors before beginning the program.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 29), College degree requirements (p. 200), and specific theatre courses required in the individual degree and/or concentrations. The minimum grade for each course required in the major, which must be taken in the Department of Theatre, must be no less than a C-minus in order for the course credit to count toward completion of the degree. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course. Departmental information published in this Bulletin is intended for use in conjunction with advising, but in all cases, regardless of advice given, students are responsible for meeting and satisfying requirements as set forth in this Bulletin.

All course work must be completed in accordance with the academic procedures of the University (p. 17) and the College of Fine, Performing and Communication Arts (p. 200) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: Majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Major Fundamental Requirements: All students pursuing a Bachelor of Arts degree in theatre must complete the following courses:

Code	Title	Credits
THR 1111	Fundamentals of Theatre	3
THR 1121	Play Analysis	3
THR 1211	Acting I	3
THR 1411	Fundamentals of Crafts: Scenery and Costumes	3

Africana Theatre and Dance Minor

This minor offers an examination of key concepts in Africana theatre and dance theory and practice through the analysis of performance and popular culture.

A minor in this area requires:

Code	Title	Credits
DNC 2400	Introduction to African Dance	3
DNC 2600	African Dance II	2
THR 1030	Introduction to Black Theatre and Performance	3
THR 3811	Africana Theatre and Dance: Concepts and Practices	3
THR 5821	Black Dramatic Literature and Performance	3
Select four credits of the following:		4
AFS 2010	African American Culture: Historical and Aesthetic Roots	
AFS 2390	Introduction to African-American Literature: Literature and Writing	
DNC 2000	Introduction to World Dance	
THR 3581	Advanced Theatre Studio - Performance (max. 4 Cr.)	
	or DNC 5610 Dance Company I	
THR 1010	Introduction to the Theatre	
Total Credits		18

Dance Minor

Completion of a minor in dance requires nineteen credits in dance classes including ten credits in technique classes and nine credits in academic dance classes. Students should consult with the Department Academic Advisor for approval of courses satisfying this requirement. The department will accept up to ten transfer credits towards the Dance minor. A minimum of four technique credits and three academic dance credits must be taken at WSU. All courses older than ten years are subject to department review.

General Theatre Minor

The minor is designed to be an overview of the theatre arts for those who wish to enhance their interests in theatre. It offers a variety of studies and practice courses across the discipline of theatre. The variety of offerings provide the opportunity to focus studies in the areas of acting, dramaturgy, or directing, if so desired.

A minor in this area requires:

Code	Title	Credits
THR 1010	Introduction to the Theatre	3
	or THR 1111 Fundamentals of Theatre	
THR 1121	Play Analysis	3
Select 12 additional credits of the following:		12
THR 1030	Introduction to Black Theatre and Performance	
THR 1211	Acting I	
THR 1411	Fundamentals of Crafts: Scenery and Costumes	
THR 1461	Fundamentals of Crafts: Lighting and Stage Management	
THR 2211	Acting: Scene Study	
THR 2301	Introduction to Design for the Theatre	
THR 2611	Stage Management	
THR 3651	Principles of Theatre Management	
THR 3731	Applied Theatre Studies: Community Possibilities	
THR 5711	Play Direction	
THR 5721	Playwriting	
THR 5811	Development of the Drama I: Greek to Eighteenth Century	
THR 5812	Development of the Drama II: Nineteenth Century to Modern	
THR 5821	Black Dramatic Literature and Performance	
THR 5831	Pioneers of the Modern Theatre	
THR 5841	Theatre History I	
THR 5842	Theatre History II	
Total Credits		18

Musical Theatre Minor

This minor offers an opportunity for students to further develop their performance skills in musical theatre through course work and practical application. Students electing to declare the Minor in Musical Theatre may NOT count classes or credits required in their major toward the minor. Specifically:

- Theatre students may not apply to the minor credits earned in: Acting I and Acting II or Acting: Scene Study;
- Music students may not apply to the minor credits earned in: Private Voice, Elementary Music Theory, Ear Training 1, or Ear Training 2;
- Dance majors may not apply to the minor credits earned in: Modern Dance 1, Ballet 1, Tap Dance, Jazz Dance 1 or Jazz Dance II.

To receive the minor in Musical Theatre students must complete:

Code	Title	Credits
THR 1041	Musical Theatre Appreciation	3
THR 2251	Musical Theatre Performance I	3
Select two credits of the following:		2
THR 3581	Advanced Theatre Studio - Performance	
THR 2251	Musical Theatre Performance I	
Select 10 or 11 credits of the following:		10-11
DNC 1010	Introduction to Contemporary Dance	
DNC 1210	Fundamentals of Classic Ballet I	
DNC 2610	Jazz I	
DNC 2620	Tap Dance	
DNC 3410	Jazz II	
MUP 1225	Voice: Secondary Instruction (max. 3 Cr.)	

MUT 1100	Elementary Music Theory
MUT 1150	Ear Training I
THR 1211	Acting I
THR 2211	Acting: Scene Study
THR 2255	Musical Theatre Performance II

Non-dance majors must select four to six credits of DNC courses 4-6

Total Credits 22-25

Studio and Community Dance Minor

The Studio and Community Dance Minor provides students the opportunity to supplement their major field program with the rigorous study of private sector dance in studios and community settings. The program offers an artistic and academic environment that will enrich methods and skills in dance teaching and pedagogy, dance kinesiology, outreach, and community engagement, while stimulating students' creativity and innovation.

In order for any minor in the Department of Theatre & Dance to be fulfilled, it must include at least nine credits that have not been used to fulfill requirements for any other major or minor.

A maximum of nine credits in a Theatre or Dance major may share with any other major or minor.

The Studio and Community Dance Minor requires the completion of 20 credits.

Code	Title	Credits
Core Courses		15
DNC 3180	Dance Kinesiology	
DNC 3810	Dance Pedagogy	
DNC 4810	Dance Teaching Methods	
DNC 4910	Dance in Community	
THR 3671	Theatre Management: Marketing and Public Relations	
Elective Courses		
Select 3 credits from the following courses:		3
DNC 1330	Production Practicum	
DNC 2500	Choreography I	
ACC 3010	Introduction to Financial Accounting	
Select 2 credits of dance technique and movement:		2
Modern Dance		
DNC 1010	Introduction to Contemporary Dance	
DNC 1020	Contemporary Dance I	
DNC 2010	Contemporary Dance II: Part I	
DNC 2020	Contemporary Dance II: Part II	
DNC 3010	Contemporary Dance III	
DNC 4010	Contemporary Dance IV	
Ballet		
DNC 1210	Fundamentals of Classic Ballet I	
DNC 1220	Fundamentals of Classic Ballet II	
DNC 2225	Contemporary Ballet	
DNC 3200	Ballet III	
DNC 4200	Ballet IV	
Jazz Dance		
DNC 2610	Jazz I	
DNC 3410	Jazz II	
African Dance		

DNC 2600	African Dance II
Pilates Mat for Performing Artists	
DNC 1300	Pilates Mat for Performing Artists

Theatre Design and Technology Minor

The design and technology minor provides students in related areas of study with the opportunity to enhance and apply their design and/or technical and craft skills in a theatrical context.

In order for any minor in the Department of Theatre & Dance to be fulfilled, it must include at least nine credits that have not been used to fulfill requirements for any other major or minor.

A maximum of nine credits in a Theatre or Dance major may share with any other major or minor.

A minor in this area requires:

Code	Title	Credits
THR 1010	Introduction to the Theatre	3
or THR 1111	Fundamentals of Theatre	
THR 1121	Play Analysis	3

Select twelve elective credits of the following in consultation with a departmental advisor: 12

THR 1411	Fundamentals of Crafts: Scenery and Costumes	
THR 3301	Design Skills - Drafting I	
THR 3303	Design Skills - Drafting II	
THR 1461	Fundamentals of Crafts: Lighting and Stage Management	
THR 3315	Entertainment Design - Scenery I	
THR 3325	Entertainment Design - Costume I	
THR 3331	Entertainment Design - Lighting I	
THR 3341	Design Skills - Digital I	
THR 3351	Visual Communication - Scenery and Lighting	
THR 3352	Visual Communication - Costumes	
THR 4311	Entertainment Design - Scenery II	
THR 4321	Entertainment Design - Costume II	
THR 4331	Entertainment Design - Lighting II	
THR 4342	Design Skills - Digital II	
THR 4371	Entertainment Design - Projection Design	
THR 3582	Advanced Theatre Studio - Scenery/Lighting ¹	
THR 3601	Stage Management Studio - Principles	
THR 3603	Stage Management Studio - AEA Contracts	
THR 3605	Stage Management Studio - Health and Safety	
THR 4601	Stage Management Studio: Event Management	
THR 4603	Stage Management Studio - Commerce of Theatre	
THR 4605	Stage Management Studio - Performance Management	
THR 3583	Advanced Theatre Studio - Costumes ¹	
THR 3584	Advanced Theatre Studio - Stage Management ¹	
THR 3586	Advanced Theatre Studio - Running Crew ¹	
THR 5311	Stage Design	
THR 5315	Entertainment Design - Scenery I	
THR 5322	Introduction to Costuming	
THR 5325	Entertainment Design - Costume I	
THR 5331	Entertainment Design - Lighting I	
THR 5335	Advanced Stage Lighting Design	

Total Credits **18**
¹ Max 3 cr. from THR 3582, THR 3583, THR 3584 and/or THR 3586

Theatre Management Minor

This minor provides students in related areas of study with the opportunity to expand management, marketing, and public relations skills with direct application and practice in theatre management.

A minor in this area requires:

Code	Title	Credits
THR 1010	Introduction to the Theatre	3
or THR 1111	Fundamentals of Theatre	
THR 3585	Advanced Theatre Studio - Theatre Management	1
THR 3651	Principles of Theatre Management	3
THR 3671	Theatre Management: Marketing and Public Relations	3
THR 3675	Theatre Management: Marketing Design and Layout	3
THR 3681	Theatre Management: Patron Services and Development	3
Total Credits		16

IRVIN D. REID HONORS COLLEGE

Dean: John Corvino

The Irvin D. Reid Honors College provides Wayne State's highest-achieving undergraduates with a program that is both academically rigorous and culturally engaged. Founded in 2008, it is home to roughly 2000 students, comprising both University Honors and Departmental Honors tracks.

The University Honors track is an interdisciplinary and multidisciplinary program that includes a distinctive first-year sequence, field learning experiences, and Honors courses across the curriculum. The Departmental Honors track is a discipline-specific program that varies by major; students apply after taking at least a semester of courses at Wayne State. Honors students may pursue either or both tracks.

The College offers many benefits, including:

- a small community of high-achieving students
- pre-priority class registration
- dedicated Honors academic advisors
- close mentoring by full-time faculty
- unique opportunities for undergraduate research
- field-learning experiences in the city of Detroit
- available private scholarships
- Honors floors in residence halls, for students who live on campus
- special recognition at graduation, with Honors designation on degree and transcript

Note that all Honors College students pursue a traditional major in conjunction with their Honors experience, with access to the full range of faculty, courses, and programs at Wayne State. The college thus combines the opportunities of a premier urban research university with the personal attention typical of a small liberal arts college—all in the heart of the City of Detroit.

Bachelor's Degrees with University/Departmental Honors options:

Mike Ilitch School of Business

Accounting: B.S., B.A.
Finance: B.S., B.A.
Global Supply Chain Management: B.S., B.A.

Nursing: B.S.N.

Eugene Applebaum College of Pharmacy and Health Sciences

Anatomic Pathologists' Assistant: B.S.

School of Social Work

Social Work: B.S.W.

Academic Regulations

For complete information regarding academic rules and regulations of the university, students should consult the general information (p. 17) section of this bulletin. The following additions and amendments apply to the Irvin D. Reid Honors College.

Academic Advising

Advising for Honors requirements is available on a walk-in basis on select days and via e-mail. All students are encouraged to consult their undergraduate advisor in their prospective major department. See the Honors College Advising webpage (<https://honors.wayne.edu/students/advising/>) for walk-in hours and other helpful information.

Accelerated Graduate Enrollment Program ('AGRADE')

Accelerated Graduate Enrollment: Some departments of the university permit academically superior majors to petition for admission into the college's 'AGRADE' program. 'AGRADE' procedures enable qualified seniors to enroll simultaneously in the undergraduate and graduate programs and apply a maximum of fifteen credits towards both a bachelor's and master's degree in the major field. Students electing 'AGRADE' programs may expect to complete the bachelor's and master's degrees in five years of full-time study.

An 'AGRADE' applicant may petition the Graduate Committee of the major department for acceptance into the program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average at the *cum laude* level and not less than a 3.6 grade point average in the major courses already completed. If the student's petition is accepted, the student's faculty advisor shall develop a graduate Plan of Work, specifying the 'AGRADE' courses to be included in subsequent semesters.

Credits earned through 'AGRADE' are considered Honors credits towards graduation with University and/or Departmental Honors. Students are asked to submit a copy of the approved 'AGRADE' plan of work to the Honors Advisor. Each 'AGRADE' class will be processed as an Honors Option and the notation added to the student's transcript.

Courses completed as part of an approved AGRADE plan of work may be applied as Honors credits towards Departmental and/or University Honors. To receive Honors credit via Honors Option, students must submit a copy of the approved plan of work with the Honors academic advisor.

For more details about the 'AGRADE' program, contact the chairperson of the major department.

Attendance

Regularity in attendance and performance is necessary for success in college work. Attendance requirements will be announced by instructors at the beginning of each course.

Cheating and Plagiarism

The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. The instructor has the responsibility of notifying the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Acts

of dishonesty may lead to suspension or exclusion. Information on procedures is available in the Office of the Dean.

Extra Credits

Extra credits are credits taken in excess of the normal program load of eighteen credits. Students with 3.0 (or above) grade point averages may take more than eighteen credits when their proposed programs carry the approval of the Honors advisor.

Graduation with Academic Distinction

Graduation with distinction (*Summa Cum Laude*, *Magna Cum Laude*, and *Cum Laude*) is determined by the college granting the student's degree.

Normal Program Load

The requirements for graduation are based upon an average program of fifteen credits per semester for eight semesters. A normal program load should not exceed eighteen credits.

Because two hours of outside preparation are normally expected for each class hour, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy. A few hours of employment a week may be safely added by capable students.

Probation

Low Grade Point Average: Honors students need a cumulative 3.30 or higher grade point average to maintain good standing in the Honors College. Honors academic status is assessed prior to fall pre-priority registration. A student may reapply to the Honors College once his/her cumulative grade point average is at 3.30 or above.

Grade Appeals Policy and Procedure

This policy applies to courses offered directly by the Honors College (e.g. HON 1000, HON 2000, HON 42XX-level seminars, etc.). Grade appeals for Honors sections of other courses should be resolved through the home department where those courses are offered. If in doubt, students should consult the Honors Advisor when initiating an appeal. Please consult the Honors Grade Appeal Policy and Procedure (https://honors.wayne.edu/pdf/grade_appeals_policy_and_procedure_070119.pdf).

It is the instructor's prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment.

Grounds for appeals are:

1. the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

Coursework Grades

Disputes over coursework grades should be addressed informally between the student and the course instructor. If the student and instructor cannot reach a mutually agreeable resolution, the matter should be referred to the Dean of the College, who will initiate appropriate procedures for resolution.

Final Grades

In those instances where a student disputes the final grade assigned, the following steps should be taken to appeal the grade in question.

Informal Review

The student should discuss the disputed grade with the instructor of the course. If the dispute is not resolved informally, the student may initiate a formal appeal.

Formal Appeal Procedure

Within 30 calendar days following official notification of final grades for the term in which the disputed grade was awarded, and when the informal review fails to resolve the dispute, the student shall submit a written appeal detailing his/her objection, along with supporting documentation in writing, to the instructor. The instructor should respond in writing within 10 work days.

Matters not resolved at the instructor level may be appealed to the Dean's Office. A written appeal should be filed by the student within 10 work days following receipt of the instructor's written response. A file folder containing the course syllabus from the semester in which the student took the course, plus the student's letter, the instructor's letter, and the student's written rationale explaining why the Dean's Office should reconsider this appeal, should be sent to the Dean's Office. The student should forward to the instructor of the course a copy of the written appeal. Where appropriate, the Dean's Office may consult with a Grade Appeals Committee for advice in grade disputes. Students shall be notified in writing of the Dean's Office decision within 30 work days of receiving the request. The Dean's Office decision shall be the final decision at the college level.

University Level Academic Appeals Procedure

Following the Dean's final response, a student may request a formal review by the Provost.

Such requests are subject to the University Academic Appeal Procedure (p. 17) and must be submitted in writing, with a copy sent to the Dean of the College, within thirty (30) calendar days of the postmark on the Dean's final determination.

Irvin D. Reid Honors College Grade Appeal Procedure, revised March 31, 2015

Special Programs

B Start Program (Business Administration)

B Start (<http://honors.wayne.edu/start-programs/b-start.php>) is an innovative, five-year Honors College program that conditionally guarantees admission to the Master of Business Administration (M.B.A.) program in the Mike Ilitch School of Business. B Start trains future business leaders by emphasizing mentoring and research opportunities with business school faculty. As part of an introductory B Start course, students attend monthly seminars in the Mike Ilitch School of Business and are responsible for logging their activities in monthly journals.

President's Scholars

The President's Scholarship was established to attract National Merit Scholarship Finalists to Wayne State University. These highly talented students join the Honors College as President's Scholars and take part in the President's Scholars Seminar. The President's Scholars receive our most prestigious merit scholarship at WSU; they also receive funding to study abroad at some point during their undergraduate studies. Our goal is for this group of students to establish a community on campus that excels academically, socially and civically. In order to be invited to join the President's Scholars, students must first become National Merit Scholarship Finalists and accept their invitation to join the Irvin D.

Reid Honors College. More information about the President's Award is available here (<https://wayne.edu/scholarships/president/>).

Other Curricular Opportunities

CommunityEngagement@Wayne

To obtain the greatest benefit from their education, students need both academic courses and real-world experiences. CommunityEngagement@Wayne (<http://communityengagement.wayne.edu/>) provides the mechanism to strengthen courses and implement service-learning opportunities in the vibrant metropolitan Detroit community. Building on the Honors College mission of promoting informed, engaged citizenship, CommunityEngagement@Wayne provides faculty with the tools necessary to strengthen course content, students with the opportunity to apply classroom theories in hands-on experiences, and community organizations with the chance to receive assistance from some of Wayne State's most dedicated citizens.

Detroit Fellows Tutoring Project

Detroit Fellows earn two to four Honors credits while teaching reading skills to Detroit Public School students in kindergarten through fourth grade. This is a special opportunity for Honors College students and is open to all majors. On an hours-per-week basis Detroit Fellows work three hours (earning two credits), five hours (earning three credits) or seven hours (earning four credits) at a designated school. Tutors work during regularly scheduled school hours: 7:30 a.m. to 3:30 p.m.

Detroit Fellows receive training and participate in a weekly seminar to discuss various tutoring techniques. Writing assignments reflective of this experience and an end-of-semester evaluation are also required.

Emerging Scholars Program (ESP)

Wayne State University's Emerging Scholars Program (<http://www.clas.wayne.edu/ceem/emerging-scholars/>) is a special Honors-level calculus and pre-calculus program designed to support students who want and/or need to excel in mathematics and who are willing to do the work required for such success. It is available to students in MAT 1800 (pre-calculus), MAT 2010 and MAT 2020. Honors credits are awarded for MAT 2010 and/or MAT 2020.

Any student who hopes to pursue a degree in science, engineering, medicine, mathematics or math education is strongly urged to take his or her math courses within ESP. Students enroll in designated sections of MAT 1800, MAT 2010 and MAT 2020, taught by specially trained faculty members. They also attend a two-hour workshop, twice a week, where they work together in groups on challenging problems, gaining a deeper understanding of the mathematics involved.

Honors Student Association (HSA)

The Honors Student Association (HSA) provides networking experiences for students from various academic disciplines throughout WSU. The organization also serves to provide Honors students with the opportunity to become involved in diverse social, academic, and service activities. The Honors Student Association has eight executive board members; the positions include: president, vice president, secretary, treasurer, two public relations officers, and two webmasters. Elections for executive board positions are held annually at the end of winter semester.

The faculty advisor for HSA is Dr. Beth Fowler, Senior Lecturer for the Honors College.

Study Abroad

The Honors College, in partnership with the Office for Study Abroad (p. 80), provides a number of opportunities for study and travel. The college encourages these learning experiences as ways for students

to acquire broader perspectives and more deeply felt education than is often possible in the classroom. Study/travel options may be linked to the Junior/Senior seminar (HON 4260) and may meet the Global Learning (GL) University requirement. Some programs include service assignments and fulfill the Honors College field learning (HON 3000) requirement. Past study trip destinations have included Belize, France, South Africa, Ghana and China.

Honors College Programs

University-wide Honors Curricula

Honors curricula are designed to meet the needs of highly motivated students who want to be challenged to reach their full potential. Honors courses are of four kinds: regular courses with Honors designated sections; Honors courses offered under various departmental subject areas (for a list of these see below); Honors College courses offered under the HON subject area code; and, regular courses taken as Honors-level course work by individual students (see below under Honors-Option Course Work).

Many Honors courses fulfill University General Education requirements (p. 29). There are no maximum credit restrictions on the number of Honors credits applicable towards graduation. Completion of any Honors course leads to Honors-designated transcript notation for the course.

Students whose cumulative grade point average (g.p.a.) is at least 3.3, but who are not formally admitted to the Honors College, are eligible to elect Honors courses to enrich their educational experiences. Such requests should be directed via e-mail to honors@wayne.edu.

Students who are invited into the Honors College as incoming first-year students are expected to pursue University Honors, with the option of Departmental Honors in their major as well. Students who are accepted to the Honors College as current Wayne State University students or as transfer students are invited to pursue Departmental Honors and/or University Honors.

Admission

There are three pathways into the Honors College:

- Incoming first-year students are considered for the Honors College during the regular Wayne State admission process based on their high school GPA and SAT/ACT score; there is no separate application. The selected students are invited to pursue University Honors; they may also later pursue Departmental Honors.
- Transfer students are invited to join Honors based on cumulative GPA and transferable credits from their previous institution. The selected students may pursue Departmental and/or University Honors.
- Current Wayne State students with a 3.3 GPA and at least 12 Wayne State credits may apply to the Honors College by filling out the Honors College application online. Applications are processed after Feb. 15, June 15 and Oct. 15. The selected students may pursue Departmental and/or University Honors.

College Requirements

To remain in the Honors College, a student normally will be expected to:

1. pursue University and/or Departmental Honors;
2. maintain a cumulative g.p.a. of 3.3 or higher; however, colleges/departments may establish a higher g.p.a. for retention in a college/department program; and
3. satisfy the University General Education requirements (p. 29).

A student whose cumulative g.p.a. falls below 3.3 and is, for that reason, dropped from the Honors College, may reapply when his/her cumulative g.p.a. is 3.3 or higher.

For first-year Honors students, HON 1000 and the Honors Foundational Seminar are required to be taken in Fall and Winter semesters, respectively.

Departmental Honors Requirements

Students seeking a degree with Departmental Honors must contact their major department or the Honors College for specific requirements (see the appropriate departmental section of this bulletin). However, all Departmental Honors programs require at least twelve credits in Honors-designated coursework, including:

1. a senior essay or thesis or project done in the student's major department, and
2. at least one 42xx-level seminar offered through the Honors College (HON 4200-4280), and
3. a minimum cumulative g.p.a. of 3.3 (higher in some departments) is required for graduation

Honors Degrees

Most departments offer Departmental Honors. Please visit the Honors website (<http://www.honors.wayne.edu>) or the Honors college for a current list of available programs. Graduation with University Honors is reserved for students who complete twenty-eight Honors credits as outlined under University Honors Requirements.

A student who satisfactorily completes a Departmental Honors curriculum or a University Honors curriculum will receive the appropriate Honors designation on both the diploma and the academic transcript. Approval of the Honors College is necessary for graduation with University Honors. Students who complete the requirements of both the university-wide Honors College and a college/department/school Honors Program shall have both designations on the transcript and the diploma. Only a single senior essay, thesis, or project shall be required unless a student is pursuing Departmental Honors in multiple majors.

University Honors Requirements

Students who have been invited to the Honors College as freshmen are expected to complete:

1. at least twenty-eight credits in Honors-designated course work, including HON 1000, and the Honors Foundational Seminar;
2. a field learning through HON 3000
3. a 42XX-level seminar offered by the Honors College (HON 4200-HON 4280);
4. a minimum three-credit Honors Thesis or creative project (HON 4998 or Departmental Honors thesis).

Honors-Option Course Work

The Honors Option allows a student in any course which is 2000 level or above and taught by a regular faculty member to elect Honors caliber coursework, provided the instructor agrees to furnish commensurate extra instruction. If a grade of 'B' (3.00) or above is earned in the course and in the additional work, the student will receive Honors credit for the course on his/her transcript. Application forms for the Honors Option are available in the Honors College office and online (<http://www.honors.wayne.edu>). The application form must be signed by the instructor and should be returned to the Honors College Office by the assigned due date on the form. At the end of the semester the instructor will be asked to submit a final grade for the Honors Option project and

the final grade for the class via e-mail to honors@wayne.edu. The number of Honors credits assigned shall be equivalent to the number of credits allotted to the general section.

Field Learning Requirement (HON 3000)

Effective Fall 2019, field learning is required for graduation with University Honors. The purpose of the requirement is to better prepare students for productive lives in a diverse urban and global setting through community-based education and civic engagement. A student will pair HON 3000 (0 credits) with a field learning experience approved by the Honors College (<https://honors.wayne.edu/students/universityhonorsrequirements/hon3000/>). Students can opt to complete HON 3000 via service-learning, undergraduate research, study abroad, or an internship/co-op/practicum.

Objectives of the Honors Field Learning Requirement are: to enhance academic learning opportunities by integrating theory with service to the community; to learn how to work effectively with diverse populations; to develop communication, negotiation, and problem solving abilities; and, to increase research skills.

Examples of field learning opportunities include the Detroit Fellows Tutoring Project, specially-designated sections of General Education and department courses, and some study abroad experiences.

Honors Thesis

To graduate with University and/or Departmental Honors, students must complete an Honors thesis or creative project during junior/ senior year. The thesis or project must be supervised by a full-time member of a department and the paper must be a minimum of twenty pages in length. University Honors students should plan to take at least two semesters to complete the HON 4998 course. Departmental Honors students who complete a thesis course specific to their major department must follow departmental guidelines. Students pursuing both Department and University Honors may use the department thesis to fulfill the University Honors thesis requirement.

Honors Courses

HON 1000 The City: Changing Detroit Cr. 4

Satisfies General Education Requirement: Civic Literacy, Diversity Equity Incl Inquiry, Social Sciences

Honors 1000 is the first half of the Honors Foundation Sequence. The course explores the history and development of the city of Detroit, including the challenges of de-industrialization and segregation, and guides students through the steps of civic engagement including how to identify and specify social problems, formulate workable solutions and advocate effectively for their implementation. Offered Fall.

HON 1110 Passport to Detroit Cr. 1

Satisfies General Education Requirement: Wayne Experience
Passport to Detroit is a participatory-learning course designed to prepare students for life in college and life in Detroit designed to use the personal exploration of Detroit's geography and history as a frame through which incoming students develop (or improve) essential college-level skills. Offered Fall.

Restriction(s): Enrollment limited to students with a class of Freshman.

HON 2000 Foundation Seminar Cr. 3

Satisfies General Education Requirement: American Society Institution, Cultural Inquiry, Social Inquiry

Honors foundation seminars are rigorous small, seminar-style classes of incoming Honors students designed to help them deepen their understanding of scholarly inquiry and important issues with relevance to the Detroit metropolitan area. The object of the course is to prepare students to function well in a college setting and in the broader world, using the tools of scholarship to explore important questions of everyday life. Offered Yearly.

HON 3000 Field Learning Cr. 0

Required for all students graduating with University Honors. Students are involved in community-based education and promotion of civic engagement. Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.

HON 4200 Seminar in Philosophy and Letters Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Analysis of meanings given to human experience through study of philosophy or letters. Offered Yearly.

Repeatable for 9 Credits

HON 4220 Seminar in Life Science Cr. 3

Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry

Analysis of aspects, methods, and important issues in various areas of the life sciences. Offered Yearly.

Repeatable for 9 Credits

HON 4230 Seminar in Physical Science Cr. 3

Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences

Analysis of modern theory and data, implications and possibilities in the physical sciences. Offered Yearly.

Repeatable for 9 Credits

HON 4250 Seminar: Global Perspectives on Historical Studies Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry, Historical Studies

Studies of periods of history in which there has been major transition or change. Offered Yearly.

Repeatable for 9 Credits

HON 4260 Seminar in Foreign Culture Cr. 3

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Humanistic or social science investigation of peoples and institutions in other cultures. Offered Yearly.

Repeatable for 9 Credits

HON 4280 General Honors Seminar Cr. 3

In-depth exploration of important concepts and approaches in liberal studies. Topics to be announced in Schedule of Classes. Offered Yearly.

Repeatable for 9 Credits

HON 4930 Detroit Fellows Tutoring Project Cr. 2-4

Community-based service-learning project designed to improve the reading skills of elementary school students through one-on-one mentoring. Monthly seminar sessions to discuss progress and techniques required. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Undergraduate level students.

Repeatable for 16 Credits

HON 4940 Service-Learning Internship Cr. 1-3

Service-learning project with a local community partner. Collateral reading, written work, arranged conferences with faculty supervisor.

Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.

Repeatable for 6 Credits

HON 4950 MedStart Seminar Cr. 2

Explorations of various dimensions of health care through shadowing, service, and attendance at the monthly seminars at the Wayne State University School of Medicine. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Undergraduate level students.

Repeatable for 16 Credits

HON 4970 BStart Seminar Cr. 1

Training of future leaders in business by emphasizing mentoring and research opportunities with business school faculty. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Undergraduate level students.

Repeatable for 8 Credits

HON 4980 University Scholars Seminar Cr. 1

International learning and experiences of designated scholarship students in the Honors College. Reflection and presentation on specific topics related to the local, regional, national and international landscapes.

Offered Fall, Winter.

Restriction(s): Enrollment is limited to Undergraduate level students.

Repeatable for 8 Credits

HON 4990 Honors Directed Study Cr. 1-4

Offered Yearly.

Repeatable for 8 Credits

HON 4998 University Honors Thesis Cr. 3-6

Independent research project, essay, or creative project. Students are responsible for identifying their own research project and full-time faculty member. At the end of the first semester a deferred grade of Y will be assigned, with a grade change processed at the completion of the thesis in a subsequent semester. Offered Every Term.

SCHOOL OF INFORMATION SCIENCES

Dean: Jon Cawthorne

The Information Profession

The School of Information Sciences (SIS) prepares information professionals to assume leadership roles in libraries and information organizations. By emphasizing the practical application of knowledge and skills, students are trained in the core principles of information management - information access, organization, services, and management - as well as emerging competencies such as digitization, competitive intelligence, information architecture, and website development. SIS faculty research issues that improve library and information services as an essential component to cultural enrichment, knowledge dissemination, economic development, and the overall quality of life.

Qualified information professionals work in varied settings all over the globe. SIS graduates work in libraries as well as diverse information careers in the public, private, and nonprofit sectors. As organizations continue to view their information as a critical resource and place greater importance on its cultivation, SIS graduates can be found enjoying engaging and exciting careers throughout business, law, health sciences, publishing, government, archives and museums, communications and media, engineering, academia, pre-K-12 education, information organizations and industries.

Graduate Degrees

The School of Information Sciences offers two master's level degree options. The Master of Library and Information Science (MLIS) degree is recognized by the American Library Association (ALA) as the first professional degree in this field and serves as the credential for entry-level professional employment. The Master of Science in Information Management (MSIM) expands the school's current Graduate Certificate in Information Management (GCIM) into a degree that complements the school's Master of Library and Information Science (MLIS) degree. The MSIM will appeal to prospective graduate students with an interest in working as information professionals in organizations and industries outside the typical venues for MLIS degree holders (e.g., libraries, archives, or school media centers) where a foundational core of library science coursework is not required.

Accreditation

The School of Information Sciences' MLIS degree has been accredited continuously by the American Library Association since 1967. The School's most recent continuing accreditation was granted by the ALA Committee on Accreditation in 2017. The School's next comprehensive accreditation review occurs in the Fall of 2023.

Mission and Goals of the School

Mission Statement

We combine theories with practices to educate leaders who advance the importance of information in society. We deliver accessible, high quality education incorporating professional scholarship and best practices. We focus on three pillars:

Library Users and Services
Information Management
Archives and Digital Content Management

Goals and Objectives

TEACHING EXCELLENCE: SIS will encourage and teach professional approaches and a service philosophy.

- SIS will educate students in the history, philosophies, theories, principles, policies, and ethics of library and information science.
- SIS will expose students to the historical, social, cultural, educational, political, and economic dimensions of information and information agencies.
- SIS will provide the skills and dispositions for excellence in information service delivery.
- SIS will continuously evaluate and apply evolving technologies to its teaching, learning, research, and service programs.

STUDENT SUCCESS: SIS will cultivate a culture of student success.

- SIS will incorporate career enhancement skills development into all courses.
- SIS will promote relationships between students and other members of the campus community who support student learning and success.
- SIS will deliver a "Distinctively Wayne State" experience that leverages our Detroit location, diversity, and academic and research excellence to better prepare students for success.
- SIS will stress the importance of lifelong learning and will promote opportunities to sustain professional growth and achievement, including career mentoring.

RESEARCH: SIS will foster, facilitate, and support research by faculty and students.

- SIS will support faculty research and scholarly communication.
- SIS will cultivate faculty engagement with student research experiences and skill development.
- SIS will encourage and support students in presenting their research in courses, at conferences, and through publication.

DIVERSITY AND INCLUSION: SIS will be engaged within the diverse communities and world of which we are a part.

- SIS will seek diversity among the faculty.
- SIS will seek diversity and facilitate inclusion among the student body.
- SIS will address the roles of library and information services in a diverse global society, paying particular attention to the underserved.
- SIS will facilitate student experience in multicultural and multiethnic information environments.

COMMUNITY ENGAGEMENT: SIS will practice and foster engagement in traditional as well as interdisciplinary research, scholarship, and practices that address important societal as well as information and library issues.

- SIS will engage the library community, alumni, and employers.
- SIS will promote commitment and involvement in professional associations and organizations.
- SIS will encourage involvement in the community and community organizations.
- SIS will support service activities and participation in leadership roles at the School, University, local, state, national, and international levels.

Technology Support

The School of Information Sciences provides SIS students, faculty, and staff with a variety of computing resources that support the School's

on-campus and online programs. The School offers students a variety of software products at no cost, including major productivity suites, powerful database software, diagramming tools, and current operating systems. The School provides free technical support to all of its students through several mediums, including email and over the phone. The School maintains a web server for student use, as well as provides access to synchronous online meeting tools for classes and student groups. SIS students have full access to the resources provided by University Computing and the University Library System, including public access computing labs, email and calendaring services, learning management systems, library databases, and full-text e-journals and other resources.

School of Information Sciences Undergraduate Program

Undergraduates interested in enrolling in information sciences courses should contact the School of Information Sciences regarding admission requirements, sequence of courses, the curriculum, career planning, professional development, job opportunities, and Senior Rule requirements. For more information about degree and certificates options offered by the School, please visit: <http://sis.wayne.edu>

LAW SCHOOL

Dean: Richard Bierschbach

Wayne State University Law School, founded in 1927, is located in the heart of Detroit's historic cultural center, offering a unique urban experience. Detroit's vibrant legal market - including government offices, state and federal courts, multinational corporations, unions and major law firms - provides students with a wide range of opportunities for employment and externships. Our students are bright, mature, conscientious and altruistic. They come from unique backgrounds and professions, some having previously served as doctors, musicians, actors, engineers and law enforcement officers before pursuing the law. Wayne Law also offers a network of more than 11,000 living alumni, including established leaders of the legal community, practicing throughout the nation and in more than a dozen foreign countries. Our expert faculty's nationally and internationally recognized scholarship adds depth to our students' understanding of legal theory, doctrine and practice. Wayne Law students, faculty and alumni are deeply engaged in the community and profession.

Accreditation

Wayne State University Law School is accredited by the American Bar Association and is a member of the Association of American Law Schools. The Law School has a chapter of the Order of the Coif, the national honorary society dedicated to the highest standards of legal scholarship.

Setting & Facilities

The Law School is a flagship unit of Wayne State University, a major metropolitan research university located in the heart of Midtown, about four miles from downtown Detroit. Within blocks of the Law School are the Detroit Public Library, Detroit Institute of Arts, Charles H. Wright Museum of African American History, Detroit Science Center and other cultural attractions. The city of Detroit shares an international border with Canada and offers access to Michigan's largest concentration of law firms and state and federal courts.

The Law School complex includes four buildings - Classroom Building, Damon J. Keith Center for Civil Rights, Law Building and Arthur Neef Law Library - with lounges, gathering areas and meeting rooms. The three-floor Arthur Neef Law Library offers print and digital resources, a computer lab, 14 study rooms and wireless access. Special collections cover antitrust law, international law, Jewish law and Michigan law.

Degrees

The Law School offers academic programs leading to the degrees of Juris Doctor (J.D.) (<http://bulletins.wayne.edu/graduate/law-school/law-jd/>) and Master of Laws (LL.M.) (<http://bulletins.wayne.edu/graduate/law-school/law-llm/>). The J.D. is a graduate degree requiring a baccalaureate degree as a prerequisite. The LL.M. is a graduate degree offered by the Law School in the fields of and corporate and finance law, labor and employment law, and taxation which requires the J.D. or its equivalent as a prerequisite. The Law School also participates in joint degree programs with other Schools and Colleges within the University.

Damon J. Keith Center for Civil Rights

The Damon J. Keith Center for Civil Rights at Wayne Law is a regional hub for civil rights teaching, research and advocacy, training and inspiring the next generation of civil rights leaders in honor of the legacy of Judge Damon J. Keith. At the center, stakeholders gather to analyze policy, law students teach a civil rights curriculum to high school students and leaders dive into the issues of the day, such as tax foreclosures,

water shutoffs and police-community relations. The center welcomes the public for lectures by civil rights icons, supports community-based organizations and publishes scholarship about how the law and social justice impact one another. The center offers the nation's first and only repository dedicated to African-American legal history, along with a traveling exhibit about the 14th Amendment's guarantee of equal protection under the law.

In summer 2014, WSU was awarded a three-year, \$1.3 million grant from the W.K. Kellogg Foundation to launch the Detroit Equity Action Lab at the Keith Center. Through this initiative, 60 leaders working in the many dimensions of racial equity, including arts and media, community development, education, environment, food security, health care and housing, will address issues of structural racism in Detroit.

Arthur Neef Law Library

The Arthur Neef Law Library provides a major legal research center for Wayne Law students and faculty. Its special collections include the Alwyn V. Freeman International Law Collection, Driker Antitrust Law Collection, Jewish Law Collection and a comprehensive collection of current and historical Michigan law materials that include the Michigan Supreme Court Records and Briefs, Michigan probate court opinions and Michigan Superfund site documents. The law library is a selective depository for U.S. government publications.

Databases and other e-resources are easily discoverable and remotely accessible.

The law library building was designed to make optimal use of natural light in reading and study areas. Tables, carrels and soft-seating areas are available throughout the law library and offer wired and wireless access to networked resources. Our students may reserve any of the 14 study rooms through an online reservation system. A computer lab featuring desktop computers, printers and scanners is reserved for the exclusive use of Wayne Law students.

Law Minor

A minor in law is available through the the Mike Ilitch School of Business, the College of Fine, Performing and Communication Arts, the College of Liberal Arts and Sciences, and the School of Social Work. The minor in law offers students the opportunity to study law as undergraduates. The minor gives special attention to developing skills in logical and critical thinking. The minors provide training and knowledge relevant for law-related fields, as well as a valuable credential for those seeking to enter those fields. The minor requires three core law classes taught by full-time Law School faculty. Additional requirements for the minor can be found in the school/college sections of the bulletin:

- Law Minor (Business) (p. 105)
- Law Minor (Fine, Performing and Communication Arts) (p. 220)
- Law Minor (Liberal Arts and Sciences) (p. 303)
- Law Minor (Social Work) (p. 389)

COLLEGE OF LIBERAL ARTS AND SCIENCES

Dean: Stephanie Hartwell

The College of Liberal Arts and Sciences is home to more than forty undergraduate degree programs in a wide variety of disciplines, from the humanities and social sciences to the physical and life sciences. We serve a diverse student population with a wide range of programs and courses. Our dedicated advisors provide individual advising to all our major students, and we strive to provide student engagement and undergraduate research opportunities for all students in the College.

Our bachelor degree programs provide a balance of broad studies and specialization, taking advantage of both the intellectual breadth of the College and the availability of course offerings taught by scholars and researchers who are leaders in their fields. All programs emphasize communication, both written and spoken, and the use of precise and thoughtful language. Students are stimulated to think and read critically and to become familiar with the tools of research so that learning may be a lifelong process. Intellectual growth is encouraged by developing in students the necessary independence, resourcefulness and judgment in early studies so that advanced courses may be selected with confidence.

Most fields of study in the College offer students both theoretical and practical training. Our programs are designed such that a solid knowledge of underlying principles is strengthened by practical training and experience.

The College of Liberal Arts and Sciences also serves students whose academic interests extend over several Departments. Such students have the opportunity to declare minors, pursue a co-major or take elective courses in a wide variety of fields. In addition, interdisciplinary programs such as Environmental Science, Linguistics, Global Studies, and Gender, Sexuality and Women's Studies offer varied individualized curricula.

The undergraduate programs of the College of Liberal Arts and Sciences are strengthened by graduate programs that lead to the master's and doctoral degrees in various disciplines. Professors in the College teach both graduates and undergraduates; research projects may involve both graduates and undergraduates; some specialized classes are available to both graduate students and those undergraduates enrolled in the upper division. This opportunity for association with graduate students and research personnel enriches the experience of many undergraduate students.

In the College of Liberal Arts and Sciences, students are provided with the skills, knowledge, and understanding on which to build professional and personal development in today's rapidly changing world.

Academic Regulations: Liberal Arts and Sciences

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 17) section of this bulletin. The following additions and amendments apply to the College of Liberal Arts and Sciences.

Attendance

Regularity in attendance and performance is necessary for success in college work. Attendance requirements will be announced by instructors at the beginning of each course.

Normal Program Load

To graduate in four years, students should take at least fifteen credits per semester for eight consecutive semesters. A normal load should not exceed eighteen credits.

Because at least two hours of outside preparation are normally expected for each class hour, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy.

Extra Credits

Extra credits are credits taken in excess of the normal maximum load of eighteen credits. Students with 3.0 (or above) grade point averages may take more than eighteen credits with approval of the advisor.

'AGRADE' (Accelerated Graduate Enrollment Program)

Accelerated Graduate Enrollment: Some departments of the College permit academically superior majors to apply for admission into the College's 'AGRADE' program. 'AGRADE' procedures enable qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College and apply a maximum of sixteen credits towards both a bachelor's and master's degree in the major field.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the 'AGRADE' program, contact the Graduate Director of the major department or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Graduation with Academic Distinction

Candidates eligible for the bachelor's degree may receive a special citation on their diplomas under the following circumstances: The designations of 'Summa Cum Laude', 'Magna Cum Laude', and 'Cum Laude' will be conferred upon graduating students whose cumulative grade point averages at Wayne State University fall within approximately the upper five percent, the next five percent, and the next ten percent of the senior class, respectively. The grade points used to identify the lower limits for each designation will be based upon the grade points attained by seniors at these percentile levels during the preceding academic year. Only students who have earned 56 or more credits at Wayne State University are eligible to graduate with one of the above distinction citations.

Dean's List

The Dean's List of academically superior students is compiled each fall and winter term based on the following criteria: A 3.6 grade point average for students registered for twelve credits or more and a 4.0 grade point average for students registered for between six and eleven credits.

Academic Probation

If a student's cumulative grade point average falls below 2.0, the student will be placed on academic probation. A probation hold will need to be released each term before he or she registers. To obtain this release, the student must see his or her academic advisor.

A student will be off of academic probation at the end of any term in which she or he achieves a cumulative G.P.A. of 2.0 or better.

Exclusion

Students on academic probation will be given two subsequent terms to enroll while on probationary status. At the conclusion of the third consecutive term below 2.0, a student will be excluded from the University. An excluded student may not apply for reinstatement for one calendar year.

The decision to reinstate will be made by the College Probation Committee and based upon evidence presented by the student that circumstances have changed during the year away and that the probability of success has increased. Students seeking reinstatement should consult: <http://www.clas.wayne.edu/reinstatement> (<http://www.clas.wayne.edu/reinstatement/>)

Cheating and Plagiarism

The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. The instructor has the responsibility of notifying the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Acts of dishonesty may lead to suspension or exclusion.

Academic Advising

Academic advisors are available in all departments. Students who have chosen a major should meet with their departmental advisor. Students should confer with advisors on all questions concerning degree requirements, academic regulations, course elections, and programs of study. It is of primary importance that students talk with an advisor when they are having difficulties in their academic work.

Bachelor's Degree Requirements: Liberal Arts and Sciences College Requirements

All undergraduate students must satisfy University General Education Requirements (p. 29), their specific major requirements, and the College of Liberal Arts and Sciences Group Requirements, which consist of a minor plus a two-course sequence in a single foreign language.

Minor Requirement

Students must complete a university-approved minor, which may be taken in the College of Liberal Arts and Sciences or any other WSU school or college. The minor requirement is waived for students who complete a second major, a double major, a concurrent degree, a dual degree, or a second degree. Students earning a co-major in Peace and Conflict Studies or Latino/a and Latin American Studies, or who are completing an undergraduate certificate, will be considered to have completed the minor requirement. The University Honors co-major does not fulfill the college requirement for a minor.

Students must complete all courses in their minors with a minimum overall average of 2.0. In order for a minor, second major or degree, or certificate program to fulfill the College of Liberal Arts and Sciences minor requirement, it must include at least three courses that have not been used to fulfill requirements for any other major or minor.

Foreign Language Requirement

All students in the College of Liberal Arts and Sciences must successfully demonstrate language proficiency equivalent to the two-course sequence in a single foreign language. Proficiency is demonstrated by completing courses numbered 1010 and 1020 in one of the following subject area codes: ARB, ARM, CHI, FRE, GER, GKA, GKM, HEB, ITA, JPN, LAT, POL, RUS, SPA, SWA, and UKR. Those continuing the study of a foreign language begun in high school or at another college will be placed at the appropriate level in the sequence as determined by means of qualifying examinations or interviews administered by the Department of Classical and Modern Languages, Literatures, and Cultures. The College Foreign Language Group Requirement will be considered satisfied by those students whose test scores place them beyond the second-course level.

Bilingual Students: Students who were born in and completed their secondary education in a country whose language is not English may demonstrate proficiency by means of qualifying examinations or interviews administered by the Department of Classical and Modern Languages, Literatures, and Cultures. However, no credit (through course work or by examination) will be granted to such students for 1000-level courses in that language.

Major Requirements

Specific course requirements for majors are listed in this bulletin under each of the Departments or areas of the College. Students must complete all courses in their majors with a minimum overall average of 2.0.

Declaration of Major

Students can easily declare or change their major online through *Academica*. Students must declare a major by thirty credits of study, regardless if these credits are completed at Wayne State University or transferred from another institution.

Double Major

For students to graduate with double majors, the major requirements in both areas of concentration must be fulfilled. Both majors are designated on the diploma.

Students wishing to double major in a CLAS degree program and that of another school or college must satisfy the College of Liberal Arts and Sciences Group Requirements.

Co-Majors

The following subjects may be taken in conjunction with another major leading to a Bachelor's Degree: Latino/a and Latin American Studies and Peace and Conflict Studies

Combined Degrees

A Combined Degree (B.A. or B.S.) is granted by the College of Liberal Arts and Sciences in cooperation with approved schools of Dentistry, Medicine, and Law, which do not require a bachelor's degree for admission. Candidates for Combined Degrees must complete ninety credits in the College of Liberal Arts and Sciences, all University requirements, all College requirements, make reasonable progress (as determined by the major Department) toward completing a major, and complete satisfactorily the first year's work in an approved professional school. Courses taken in the first year of professional school may be applied toward the required fifteen credits in advanced courses. Students who fail to pass any course ordinarily required during the first year of professional work forfeit the right to a Combined Degree. Such cases may be reopened only after the student completes the second year of professional work.

Second Degrees

Students who have received a degree from Wayne State University or any other accredited institution may obtain a second bachelor's degree in another academic area. In order to be granted second degrees, students must complete a minimum of thirty credits beyond the first degree in the College and satisfy all University and major requirements as well as the college requirement for a two-semester sequence in a foreign language.

Dual Degrees

Students who have satisfied all requirements for two different major programs leading to degrees offered by the College and who have accumulated 150 or more degree credits may apply for both degrees simultaneously.

Concurrent Degrees

Students who have satisfied all requirements for two major programs - one offered by CLAS and one by another school or college— and who have accumulated 150 or more credits may apply for concurrent degrees simultaneously.

Exploratory and Pre-Professional Curricula

Students are encouraged to consult an academic advisor before choosing any curriculum.

Exploratory Curricula for Undecided Students

First-time students who are unsure of their major may enroll in a thirty-credit exploratory curriculum. There are four exploratory curricula: humanities, social sciences, life sciences and physical sciences/mathematics. These curricula are designed to give students the opportunity to take some common required courses that will help them graduate within four years once they choose their major.

Admission to pre-professional curricula implies only that students have selected professional goals. It does not necessarily mean that students will be accepted by the corresponding professional school or college. A pre-professional curriculum is not a major. Students are encouraged to declare a major together with pursuing a pre-professional curriculum. Some professional programs require a bachelor's degree. Even if a bachelor's degree is not required, admission to a professional program is often very competitive, and pursuing a major provides students with an alternative career path.

Advising for pre-health programs, including pre-medicine and pre-dental, pre-law and pre-social work is available through the University Advising Center. The pre-professional curricula in the college are:

Pre-Clinical Laboratory Science

Pre-Dentistry

Pre-Law

Pre-Medicine and Pre-Osteopathic Medicine

Pre-Mortuary Science

Pre-Nursing

Pre-Occupational Therapy

Pre-Pharmacy

Pre-Physical Therapy

Pre-Physician Assistant Studies

Pre-Radiation Therapy Technology

Pre-Radiologic Technology

Pre-Social Work

Study Abroad

African Travel-Study Programs

Ghana

Program Office: Department of African American Studies; 313-577-2321
Coordinator: Eboe Hutchful

The Department of African American Studies sponsors a summer term (four weeks on site) travel-study experience in the African country of Ghana. This program involves formal registration for graduate or undergraduate credit in Directed Study (AFS 6990). This course is taught by a W.S.U. faculty member as well as faculty members of the The Institute of African Studies at the University of Ghana, at Legon, Ghana.

The Institute of African Studies was established in 1961 as an interdisciplinary center for scholarship, teaching and research in African history, culture and religion. It offers both undergraduate and graduate instruction by its own faculty and collaborates with the social science departments of the University of Ghana. Located eight miles from Accra and in the shadow of the Aburi Hills, the University of Ghana is a large tranquil campus of original and striking architectural design and is justly considered one of the most beautiful university campuses in Africa. It is a residential university, organized around a hall system, and combines an active academic and social life.

The objectives of this travel-study program are to introduce students to broad questions of historical continuity and discontinuity, adaptation and readaptation, and syntheses that have characterized African cultures. Particular attention is given to normative values and religious views, economic and political systems, educational and health care systems, and family and community solidarities in the past and present. The program seeks to illuminate the fundamental and broad diversity in African lives as they are structured through traditional cultures, colonial impacts, nationality, gender, and socio-economic differentiation. It is designed to give students a sense of the successes and setbacks and ongoing challenges of African nationhood, and of Africa's relations with the United States and the rest of the world. On a personal basis the goals of the program are:

1. To provide intimate first-hand experience of African life styles and values systems.
2. To encourage among students an appreciation for cultural diversity through exposure to major foreign cultures.
3. To expose African-American students to the African roots of African-American identity, culture and tradition.
4. To equip students with conceptual and intellectual tools to analyze the complexity of cultural and political institutions in Africa.

5. To engage students in critical thinking and field observation in the social sciences.

Benin

Program Office: Department of Anthropology; 313-577-2953

Coordinator: Guerin C. Montilus

The Department of Anthropology sponsors a biennial interdisciplinary summer study program in collaboration with the National University of Benin in Cotonou, Republic of Benin, West Africa. Founded in 1984, this program provides first-hand experience of African life styles and value systems through lectures by African instructors and interviews with Benin residents. Depending on student interest, attention is paid to African realities such as geography, history, religion, economy, politics, migration, family and kinship, education and health care systems. This broad range of topics is reflected in the kinds of formal registration available for the program, that is, students may use this travel-study experience as the basis of instruction for a number of different W.S.U. courses offered by other departments and colleges within the University. Both graduate and undergraduate credits are optional and non-credit participants are welcome.

Caribbean Travel-Study Program: Cuba and Haiti

Program Office: Department of Anthropology; 313-577-2953

Coordinator: Guerin C. Montilus

The Caribbean study trip is an interdisciplinary study program sponsored by the Anthropology Department and hosted by the School of Preventive Medicine of the University of Santiago of Cuba and/or the Historical Ethnological Museum of the State University of Haiti, Port-au-Prince, Haiti. Both of these programs offer travel-study experiences which focus on Caribbean realities such as health care, educational systems, geography, history, religion, economy, politics, art, population, migration, family and kinship. The study trip provides first-hand experience of Caribbean life styles and value systems through lectures by Caribbean scholars and field trips guided by Caribbean instructors as well as personal interviews with Caribbean residents. Both graduate and undergraduate credits are optional and non-credit participants are welcome.

Junior Year in Munich (Germany)

Office: 401 Manoogian Hall; 313-577-4605

Program Director: Mark Ferguson

<http://www.jym.wayne.edu/>

Not just for German majors, the Junior Year in Munich (JYM) program is a unique study abroad experience open to students of any major at Wayne State University. JYM offers one-semester or academic year program options. Students earn WSU credit towards their degree while participating in the JYM program where they are enrolled at Ludwig Maximilians Universität (LMU Munich) - the number one ranked research university in Germany. Sponsored by Wayne State University since 1953, JYM is the oldest study abroad program in Germany. It has a national reputation for excellence and enrolls students from a wide variety of colleges and universities across the country.

ADMISSION REQUIREMENTS: The basic requirements for admission to the program are:

1. Junior (completion of fifty-five credits), senior, or graduate standing at Wayne State. Students from other universities are eligible with analogous standing at their institution.

2. Two years of college German with a 'B' average;
3. An overall 3.0 g.p.a., or better.

ORIENTATION: The program begins with an orientation period that prepares students for their studies at the university and also includes a variety of activities designed to introduce students to various facets of everyday life in their new surroundings.

COURSES: Students who study in Munich may take the following types of courses (all instruction is in German):

1. JYM Language Courses: All students are required to take JYM's Advanced German Language course each semester.
2. JYM Courses: JYM Area Studies courses take advantage of the many academic, cultural and social resources available in Munich. Field trips and excursions to cultural events and sites of historical interest in and around Munich are built into every course. These courses are offered by the program exclusively for JYM students, and are described on the JYM website.
3. University Courses: All JYM students are directly enrolled at LMU Munich and have access to the full university curriculum, except medicine and law. LMU Munich is divided into eighteen Faculties which are home to 203 institutes that focus on research and teaching within 129 disciplines and 150 degree-granting subject areas. Students may take bachelor level courses in almost any discipline if they meet course prerequisites and have the necessary language skills.

ABOUT MUNICH: Munich offers the best of all worlds: old world culture and the excitement of a big modern city, and all less than an hour from the Alps on public transportation. Because of its safe, small town feel, Munich is often referred to as a Millionendorf (a village with a million inhabitants). Munich is known for its world famous museums, symphony orchestras, theaters, film studios and opera house, as well as for its annual Oktoberfest and favorite soccer club, FC Bayern München. In addition, Munich boasts fourteen universities (two are the top-ranked in all of Germany) and twelve Max-Planck institutes, is home to the most modern engineering research center in the world, the largest medical research facility and one of the largest solar parks in Europe, and is headquarters to globally-known firms such as Allianz, BMW and Siemens. It is no wonder that the 2014 QS Best Student Cities Ranking placed Munich among the top ten best university cities worldwide.

SUPPORT IN MUNICH: The JYM institute is centrally situated in the city center, adjacent to many university buildings and student cafeteria, and just a few minutes walk from six of Munich's world-renowned museums. The institute includes an extensive library collection, study area and lounge, classrooms, computers and wireless networking capability, and is used for JYM instruction, guest speaker and special events, personal and educational support. A full-time Resident Director and support staff are available on-site to assist and guide students throughout the year.

LIVING ARRANGEMENTS: Students are housed in the popular StudentenStadt (Student-City) dormitories for university students in Munich. Located next to the English Garden, all rooms are single efficiency apartments and each floor has a common-room.

INTERNSHIPS: Internship opportunities are possible for students on the JYM program. Internships have been arranged in a wide variety of interest areas such as marketing, publishing, education, engineering, ecology and the environment, e-commerce, health care, government, foreign service, international trade, and economic development consultancy.

UNDERGRADUATE RESEARCH: JYM can help students customize a research project that matches their interests and needs. Many students take advantage of this opportunity to work on a capstone project or

senior thesis. Examples of research projects undertaken in recent years can be found on the JYM website.

SCHOLARSHIPS: Multiple scholarships are available through the JYM program. Wayne State University students holding Presidential Scholarships or Michigan Competitive Scholarships may use these for Program tuition as well as any Federal grants and loans.

African American Studies

Office: 11th Floor, 5057 Woodward, Rm. 11002.2; 313-577-2321

Chairperson: Ollie A. Johnson III

Academic Advisor: Faith Williams

Accounts Assistant: Douglass Davis

<http://www.clas.wayne.edu/africanastudies> (<http://www.clas.wayne.edu/africanastudies/>)

African American Studies is the systematic study of the historical, cultural, intellectual and social development of people of African descent, the societies of which they are a part, and their contribution to world civilization. Its principal geographic domains are the United States, the Caribbean, Latin America, the African continent, and increasingly Western Europe where large Africana communities reside. The field features a diversity of intellectual approaches and practical interests. Based on an interdisciplinary framework, it draws upon the humanities, and the social and behavioral sciences.

The major in African American Studies prepares students for a wide range of professional and career opportunities. Majors can continue to graduate (including doctoral level) studies in the humanities, social and behavioral sciences, or pursue professional programs in law, medicine, business, and journalism. Graduates who enter the job market are prepared for careers in human services and public health, education, public relations, community development, urban planning; and more generally for jobs in the public sector, in central cities and urban institutions, or jobs that involve cultural or intergroup relations as well as international affairs. In the context of metropolitan Detroit, African American Studies graduates will be better prepared to deal with the complexity and diversity of the city's political and demographic realities as they assume important roles of leadership.

- African American Studies (B.A.) (p. 258)
- African American Studies Minor (p. 259)

African American Studies (B.A.)

The major in African American Studies prepares students for a wide range of professional and career opportunities. Majors can continue to graduate (including doctoral level) studies in the humanities, social and behavioral sciences, or pursue professional programs in law, medicine, business, and journalism. Graduates who enter the job market are prepared for careers in human services and public health, education, public relations, community development, urban planning; and more generally for jobs in the public sector, in central cities and urban institutions, or jobs that involve cultural or intergroup relations as well as international affairs. In the context of metropolitan Detroit, African American Studies graduates will be better prepared to deal with the complexity and diversity of the city's political and demographic realities as they assume important roles of leadership.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education requirements (p. 29) and

the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students must also have and maintain an overall GPA of 2.0 as well as a GPA of 2.0 in the African American Studies major for graduation.

Students with an interest in African American studies and majoring in anthropology, English, history, sociology, urban studies, and political science are encouraged to consider a second major in African American studies. Many African American Studies courses are cross listed, and African American Studies majors may receive credit for courses taken for another major.

Major Requirements

Majors must complete at least thirty-six credits (approx. 9-12 courses) in a prescribed course of study, including:

Code	Title	Credits
AFS 3420/ PS 3820	Pan Africanism: Politics of the Black Diaspora	4
AFS 2210	Black Social and Political Thought	4
AFS 3180	Black Social Movements	4
AFS 3200	The African-American Film Experience	4
AFS 5110	Black Women in America (Writing Intensive Requirement)	3
Select two of the following:		6-8
AFS 2010	African American Culture: Historical and Aesthetic Roots	
AFS 2250	AfroLatino/a History and Culture	
AFS 2390	Introduction to African-American Literature: Literature and Writing	
AFS 2600	Race and Racism in America	
AFS 3160	Black Urban History	
AFS 3360	Black Workers in American History	
AFS 3610	Interdisciplinary Perspectives on Foreign Culture: The Africans	
AFS 4240	African Americans in Television	
Select one of the following:		3-4
AFS 5310	Special Topics in African American Studies	
AFS/SOC 5580	Law and the African American Experience	
AFS/PSY 5700	The Psychology of African Americans	
AFS electives		4-8

Honors Requirements

The honors curriculum is designed to challenge highly motivated students to achieve excellence in the field of African American Studies.

Students are encouraged to develop active interests in probing the outstanding research and scholarship related to the global Black experience.

1. Maintain a 3.3 GPA overall and a 3.5 GPA within the AFS major.
2. Complete a minimum of 12-15 credits, including the following:
 - a. AFS 5991 or AFS 6990: (3-8 cr.): A senior thesis under the direction of a full-time faculty member in their major area.
 - b. HON 42xx (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/african-american-studies/african-american-studies-ba/undergraduate/honors-college/courses/>): Complete one 42xx level Honors seminar offered through the Honors

Program. The Honors seminars are interdisciplinary courses that focus on a special topic for the term.

- c. Accumulate at least six credits in honors-designated course work, not including thesis and the HON seminar. These honors credits can be obtained from any department, including AFS.

Internships

Internships are available in which students gain experience through placements in settings similar to those in which they will later be seeking professional roles. These include: community service agencies, community-based self-development organizations, public and private institutions, Black alternative organizations and other appropriate settings. Some students may also do a practicum directly with the Department of African American Studies, assisting in research, community relations, and in the organization, coordination and conduct of community extension and education service programs. The objective of this mode of study is to offer students the opportunity to synthesize diverse ideas, theories and methodologies with important and practical real world imperatives. Interested students should contact the department's undergraduate advisor,

Summer Study Abroad

This travel program periodically visits Africa and/or Brazil. Through an integrated field/classroom/seminar experience, students are challenged to grow intellectually, as well as to increase their self-awareness and sensitivity to other cultures. For more information, consult the department advisor.

African American Studies Minor

Students majoring in other fields can minor in African American studies. The minor consists of six AFS courses which must include:

Code	Title	Credits
AFS 3420	Pan Africanism: Politics of the Black Diaspora	4
Select two or more of the following:		6-8
AFS 2010	African American Culture: Historical and Aesthetic Roots	
AFS 2210	Black Social and Political Thought	
AFS 2600	Race and Racism in America	
AFS 3250	Politics and Culture in Anglophone Caribbean	

Students wishing to minor in African American Studies are encouraged to visit the departmental office for information and counseling. A minor may be declared when filing for graduation.

Anthropology

Office: 3054 Faculty Administration Building; 313-577-2935

Chairperson: Andrea Sankar

Academic Advisor II: Harman Singh

Undergraduate Director: Andrew Newman

<http://www.clas.wayne.edu/Anthropology/>

Anthropology is the science of humanity, examining human life and variation in the different forms in which they are found. Anthropology considers the variety of customs, languages, and civilizations that make up humanity, uniting diverse sciences such as biology and geology, with humanistic endeavors such as religious studies, philosophy, and history. Anthropology has often been called the most scientific of the humanities and the most humanistic of the scientific disciplines.

Undergraduate training in anthropology is designed for various groups of students:

1. those desiring scientific knowledge of the social and cultural determinants of behavior;
2. those preparing to enter law, medicine, public health, social work, information sciences, or public administration;
3. those preparing for employment in historical or natural science museums;
4. those preparing to serve the business and/or industrial community as specialists in cross-cultural analysis or management consulting;
5. those seeking to enter the field of cultural resource management;
6. those expecting to work with the general public and, therefore, requiring a broad grasp of the nature of society, group behavior and social change;
7. those looking forward to teaching anthropology or another of the social or behavioral sciences;
8. those preparing for a career in another country, in international studies, or in foreign affairs;
9. those planning to pursue careers in law enforcement, police science, or criminal justice; and
10. those who desire to pursue graduate studies in anthropology.

- Anthropology (B.A.) (p. 259)
- Anthropology Minor (p. 260)
- Archaeology Minor (p. 260)
- Global Health and Social Medicine Minor (p. 261)

Anthropology (B.A.)

Anthropology is a comparative social science that seeks to understand human behavior within the context of different cultural systems, past and present. Anthropology also seeks to understand human biological evolution and adaptation and their interaction with social and cultural behavior. Anthropology brings a cross-cultural knowledge base and unique methodological and conceptual tools to bear on understanding the transformations, problems and interconnections of contemporary societies. The discipline is divided into the fields of cultural, biological, linguistic anthropology, archaeology, and applied anthropology. Wayne State's department offers a broad-based Bachelor of Arts in anthropology, for which the following admission and degree requirements apply.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students majoring in anthropology are required to elect a minimum of thirty-four credits in anthropology, including:

Code	Title	Credits
ANT 1100	Introduction to Anthropology	3
ANT 2110	Introduction to Physical Anthropology	3
ANT 3020	Introduction to Archaeology	3
ANT 3100	World Cultures	3
ANT 3310	Language and Culture	3
ANT 5210	Anthropological Methods	4

ANT 5380	History of Anthropology	3
ANT 5993	Writing Intensive Course in Anthropology	0
ANT 5996	Capstone Seminar in Anthropology	3
Anthropology electives		9
Total Credits		34

A minimum of fifteen credits must be taken in residence. The capstone course (ANT 5996) must be taken in residence. All required courses must be completed with a grade of C or better.

Limitations: Students may not elect more than forty-five credits in course work within the Department.

Honors Program for Majors: see description of Honors Program, below.

Anthropology Honors (B.A. Program)

This program is open to students pursuing a bachelor's degree with a major in anthropology who maintain an overall cumulative grade point average of at least 3.3 and a similar g.p.a. in anthropology courses. Honors majors must demonstrate the ability to do original work by writing an honors thesis during their senior year. The anthropology honors program leads to a degree designation 'with Honors in Anthropology'. Students in the Honors Program must satisfy the following requirements:

1. All requirements for a major in anthropology;
2. Overall g.p.a. of 3.3 or above;
3. Anthropology g.p.a. of 3.3 or above;
4. A minimum of three and a maximum of six thesis credits in anthropology (ANT 4999);
5. An approved honors thesis;
6. One 4000-level honors seminar (HON 4200-HON 4280) offered by the Liberal Arts and Sciences Honors Program.
7. A total of twelve honors-designated credits including ANT 4999, the 4000-level Honors Program seminar, and other honors credits earned in Honors Program courses or in Honors sections of courses offered by other departments.

Combined Degree

Students pursuing a degree at an approved school of dentistry, medicine, or law may obtain a combined degree with anthropology in accordance with the requirements set forth by the College of Liberal Arts and Sciences (p. 255).

AGRADE Program (Accelerated Graduate Enrollment)

This program enables qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College. Students may apply for the AGRADE Program during the term in which they will complete ninety credits; to qualify, students must have a minimum 3.6 g.p.a. in anthropology and a 3.5 in their overall g.p.a. For more details about the AGRADE Program, contact the Academic Advisor in the Anthropology Department.

Anthropology Minor

The election of a minor in anthropology is appropriate for students in a variety of disciplines who wish to add a comparative, cross-cultural, or bio-cultural perspective on the study of human beings to their area of specialization. The minor requires a minimum of eighteen credits in anthropology courses including:

Code	Title	Credits
ANT 1100	Introduction to Anthropology	3
Select two of the following:		6-7

ANT 2110	Introduction to Physical Anthropology	
ANT 3100	World Cultures	
ANT 3020	Introduction to Archaeology	
ANT 3310	Language and Culture	
Select three anthropology elective courses with one course at the 5000-level		9

Total Credits **18-19**

Total credits, other than ANT 1100 must equal at least fifteen for all students (including transfer students).

In order for students to gain maximum benefit from their minor in conjunction with their major, it is strongly recommended that they consult with an advisor in the department before electing courses. A list of elective anthropology courses recommended for combination with a variety of majors is available from the Department.

Archaeology Minor

Archaeology is the study of past human cultures through material remains; it is one of the sub-fields of the discipline of Anthropology. The minor in archaeology will introduce particular skill sets, concepts, and competencies to students who wish to apply them to their expertise in other disciplines. The minor requires the completion of 18-19 credits.

Requirements

Code	Title	Credits
ANT 1100	Introduction to Anthropology	3
ANT 3020	Introduction to Archaeology	3

Select four elective courses from the following, one ANT course must be at the 5000-level:

ANT 2200	Lost Cities and Ancient Civilizations	
ANT 2500	Archaeology of the Great Lakes	
ANT 3220	The Inca and their Ancestors	
ANT 3530	Native Americans	
ANT 5270	Concepts and Techniques in Archaeology	
ANT 5280	Field Work in Archaeology of the Americas	
ANT 5500	Historical Archaeology	
ANT 5510	Pre-Columbian and Mesoamerican Civilization	
ANT 5565	Urban Archaeology	
ANT 5600	Museum Studies	

One of the following specialty classes may be applied to the 4-course elective requirement:

BIO 2870	Anatomy and Physiology	
BIO 3500	Ecology and the Environment	
BIO 3800	Botany	
CHM 1220	General Chemistry I	
CHM 1240	Organic Chemistry I	
GEL 3400	Principles of Sedimentology and Stratigraphy	
GEL 3650	Field Geology	
GEL 4200	Geomorphology	
GEL 5210	Environmental and Applied Geophysics	
GKM 3590	Byzantine Civilization	
GPH 3600	Introduction to Geographic Information Systems	
HIS 3650	History of Detroit	
HIS 3995	Special Topics in History	
PHY 2170	University Physics for Scientists I	

Total Credits **18-19**

Global Health and Social Medicine Minor

The Global Health and Social Medicine minor will explore the relationship between human rights and health and pays special attention to the factors contributing to health inequities locally and globally. The skills and training that students will receive in the Global Health and Social Medicine minor are transferable to careers in a variety of health-related fields including medicine, nursing, public health, and social work. The minor requires the completion of 18 credits.

Requirements

Code	Title	Credits
ANT 1100	Introduction to Anthropology	3
ANT 3400	Introduction to Medical Anthropology	3
ANT/GLS/PH 3410	Global Health	3
ANT 5400	Anthropology of Health and Illness	3
Select two of the following:		6
ANT/GLS 3700	Globalization: Theories, Practices, Implications	
ANT 5410	Anthropology of Age	
ANT 5700	Applied Anthropology	
ECO 5550	Economics of Health Care	
ECO 5600	Introduction to Development Economics	
HIS/SOC 3440	American Medicine in the Twentieth Century	
HIS 3585	Science, Technology, and Society	
PH 3300	Epidemiology	
PH 3100	Social and Behavioral Aspects of Public Health	
PH 4600	Special Topics in Health Disparities	
PHI 1110	Ethical Issues in Health Care	
PS 3450	Environmental Policy and Politics	
PS 5560	Biopolitics	
PS 5850	Human Rights	
PSY 2410	Health Psychology	
PSY 3380	Human Sexuality	
PSY 3490	Psychology of Adult Development and Aging	
SOC 5360	Introduction to Medical Sociology	
SOC 5760	Health and Life Course	
SOC 6750	Sociology of Urban Health	
Total Credits		18

Biological Sciences

Office: 1360 Biological Sciences; 313-577-2873; Fax: 313-577-6981

Chairperson: Victoria Meller

Associate Chairperson: Daniel Kashian

Academic Staff and Academic Advisors: Nora Alhussainy, Antoinette Cunningham, Kimberly Hunter, Krystyn Purvis, Rebecca Russell, Madelyn Tucker

<http://www.clasweb.clas.wayne.edu/biology> (<http://clasweb.clas.wayne.edu/biology/>)

Departmental Academic Policies

Student's Responsibility: It is each student's responsibility to learn the major requirements, policies, and procedures governing the program they are following and to act accordingly. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students should consult a Biological Sciences Department Advisor

regularly in order to verify that their Biology requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Declaration of Major: Students should declare their major after completing BIO 1500 and BIO 1510 with a 'C-minus' or better. Major requirements are established by the declaration of major date. Students who do not formally declare their major are susceptible to program changes made by the Department. Recent program changes may not be reflected in the University Bulletin if they are established after the printing of the Bulletin.

Prerequisites/Corequisites: Students are required to follow all prerequisites and corequisites listed for each Biology course. Please refer to the Biological Sciences Department Advisor and the Class Schedule for accurate listings of prerequisite requirements.

Grade Requirements: All students are required to complete BIO courses with a 'C-minus' or better to satisfy the prerequisite requirements. Students with grades below a 'C-minus' in prerequisite coursework are required to retake the course before proceeding to the subsequent courses in the program.

Residency Requirement: Students must complete a minimum of twenty-one credits *in residence* in biological sciences (BIO). Of the twenty-one in residence credits, fifteen of those credits must be at the 3000 level or higher.

Combined Degree with Dentistry and Medicine: Students who were majoring in biological sciences and are candidates for a combined degree must have made reasonable progress towards the requirements listed for biological sciences majors. A minimum of twenty-five credits in residence are required in biological sciences (BIO). See also the College of Liberal Arts and Sciences policy on combined degrees.

Over-Age Credits: A student attempting to complete a biological sciences major after a prolonged interruption of his/her education may find that some of the previous course work in biological sciences is out of date. In such cases, the record will be reviewed and the Department may require the student to fulfill biological sciences course requirements existing at the time of his/her return.

Transfer Students should consult with a Departmental undergraduate advisor during the semester prior to their transfer (after a transfer evaluation has been completed by the Transfer Credit Office).

Determination of course equivalency will be made by the Departmental undergraduate advisor in conjunction with the Transfer Credit Evaluation Unit in the Office of Undergraduate Admissions. The Department reserves the right for the final determination of course equivalency.

Advanced Placement in Biological Sciences may be obtained by earning the following scores in the AP Qualifying Examination:

Score of 5: Credit is awarded for BIO 1500 and BIO 1510 (eight credits). Students are eligible to enroll in subsequent courses providing the prerequisites for them have been met.

Score of 3 or 4: Credit is awarded for BIO 1510 (four credits). Students with a score of 3 or 4 are eligible to register in BIO 1500.

Accelerated Graduate Enrollment: The 'AGRADE' Program is designed for outstanding seniors who wish to complete bachelor's and master's degrees. For further details and eligibility requirements regarding the 'AGRADE' Program and Biological Sciences, contact the Department Advising Office, 1360 Biological Sciences Building.

- Biological Sciences (B.A.) (p. 262)
- Biological Sciences (B.S.) (p. 263)
- Biological Sciences Minor (p. 264)

Biological Sciences (B.A.)

The Bachelor of Arts degree is for students who desire a broad liberal arts education with specialization in biology. It is not recommended for students anticipating admission into graduate science programs or medical school. Students contemplating a major program in biological sciences should consult with a departmental undergraduate advisor no later than the beginning of the sophomore year.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. A grade point average of 2.0 (C) in both biology and general required courses is required for graduation.

Major Requirements

A minimum of 40 credits of BIO starting at BIO 1500 are required of the major as defined below. Courses through the 6000 level may be elected providing the proper prerequisites have been successfully completed.

Code	Title	Credits
BIO 1500	Basic Life Diversity	4
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
BIO 2600	Introduction to Cell Biology	3
BIO 3070	Genetics ²	4-5
BIO 4200	Evolution	3
Select one of the following Course sequences:		7
BIO 3100 & BIO 4110	Cellular Biochemistry and Biomedical Technology and Molecular Biology	
BIO 3200 & BIO 4120	Human Physiology and Comparative Physiology	
BIO 3500 & BIO 4130	Ecology and the Environment and General Ecology	

BIO electives (3000 level or higher) to reach 40 credits of BIO¹

¹ BIO electives must include a minimum of two lecture based 3000-6000 level BIO courses. Courses required to complete major requirements listed above cannot also be used as BIO elective credit.

² If elected for honors credit, BIO 3070 is 5 credits and includes a lab.

Cognate Requirements

Code	Title	Credits
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
MAT 1800	Elementary Functions ¹	4

STA 1020 or STA 2210	Elementary Statistics Probability and Statistics	3
-------------------------	---	---

¹ Students must start in the appropriate math course based upon placement exam or valid SAT/ACT scores. Students may attempt to place into a higher MAT course by taking the Placement Examination of the Department of Mathematics upon entry into the university.

Biological Sciences Honors (B.A. and B.S. Programs)

The Department participates in the honors program and works with individual students to develop a curriculum that satisfies honors degree requirements. Students interested in an honors degree should contact the departmental honors advisor.

Program Requirements: To achieve honors designation with the Bachelor of Arts or Bachelor of Science in Biological Sciences, students are required to complete all University and major requirements (see above) including fourteen honors credits in Biology and an honors seminar (HON 4200-HON 4280).

The fourteen credits in Biological Sciences are comprised of:

Code	Title	Credits
8 credits of BIO courses with honors¹		8
BIO 1500	Basic Life Diversity	
BIO 1510	Basic Life Mechanisms	
BIO 2200	Introductory Microbiology	
BIO 2600	Introduction to Cell Biology	
BIO 3070	Genetics	
BIO 3100	Cellular Biochemistry	
BIO 3200	Human Physiology	
BIO 3500	Ecology and the Environment	
BIO 4200	Evolution	
BIO 6890	Introduction to Research Practice - Honors	1
BIO 6893	Honors Undergraduate Research in Biological Sciences (Student needs 3 credits of honors research (BIO 6891, 6892, 6893, 6894). Credits can be spread across multiple terms but must total a minimum of 3 cr. Honors UG research.)	3
BIO 6999	Honors Undergraduate Research Thesis	2
Total Credits		14

Code	Title	Credits
Honors Seminar		3
HON 4200	Seminar in Philosophy and Letters	
HON 4230	Seminar in Physical Science	
HON 4250	Seminar: Global Perspectives on Historical Studies	
HON 4260	Seminar in Foreign Culture	
HON 4280	General Honors Seminar	
Total Credits		3

To be awarded a BIO honors degree, students must accumulate seventeen honors credits as defined above. Students must also maintain a cumulative g.p.a. of at least a 3.3. Students completing department honors must also maintain a 3.3 g.p.a. in BIO coursework.

¹ BIO courses without an honors section may be used if the professor is willing to do an honors option. Paperwork to do an honors option on a course is available from the Honors College.

Biological Sciences (B.S.)

The Bachelor of Science degree is for those students who wish to follow a career in the sciences and/or those planning to enter post-graduate professional schools. Students contemplating a major program in biological sciences should consult with a Departmental undergraduate advisor no later than the beginning of the sophomore year.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. A grade point average of 2.0 (C) in both biology and general required courses is required for graduation.

Major Requirements

A minimum of 40 credits of BIO starting at BIO 1500 are required of the major as defined below. Courses through the 6000 level may be elected providing the proper prerequisites have been successfully completed.

Code	Title	Credits
BIO 1500	Basic Life Diversity	4
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
BIO 2600	Introduction to Cell Biology	3
BIO 3070	Genetics ²	4-5
BIO 4200	Evolution	3
Select one of the following Course sequences:		7
BIO 3100 & BIO 4110	Cellular Biochemistry and Biomedical Technology and Molecular Biology	
BIO 3200 & BIO 4120	Human Physiology and Comparative Physiology	
BIO 3500 & BIO 4130	Ecology and the Environment and General Ecology	

BIO electives (3000 level or higher) to reach 40 credits of BIO¹

¹ BIO electives must include a minimum of two lecture based 3000-6000 level BIO courses. Courses required to complete major requirements listed above cannot also be used as BIO elective credit.

² If elected for honors credit, BIO 3070 is 5 credits and includes a lab.

Cognate Requirements

Code	Title	Credits
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	5
Select one of the following sequences:		10
Option 1		
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory	

PHY 2140 & PHY 2141	Physics for the Life Sciences II and Physics for the Life Sciences Laboratory	
Option 2		
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II	
MAT 2010	Calculus I ¹	4
MAT 2020 or STA 2210	Calculus II Probability and Statistics	4

¹ Students must start in the appropriate math course based upon placement exam or valid SAT/ACT scores. Students may attempt to place into a higher MAT course by taking the Placement Examination of the Department of Mathematics upon entry into the university.

Biological Sciences Honors (B.A. and B.S. Programs)

The Department participates in the honors program and works with individual students to develop a curriculum that satisfies honors degree requirements. Students interested in an honors degree should contact the departmental honors advisor.

Program Requirements: To achieve honors designation with the Bachelor of Arts or Bachelor of Science in Biological Sciences, students are required to complete all University and major requirements (see above) including fourteen honors credits in Biology and an honors seminar (HON 4200-HON 4280).

The fourteen credits in Biological Sciences are comprised of:

Code	Title	Credits
8 credits of BIO courses with honors¹		8
BIO 1500	Basic Life Diversity	
BIO 1510	Basic Life Mechanisms	
BIO 2200	Introductory Microbiology	
BIO 2600	Introduction to Cell Biology	
BIO 3070	Genetics	
BIO 3100	Cellular Biochemistry	
BIO 3200	Human Physiology	
BIO 3500	Ecology and the Environment	
BIO 4200	Evolution	
BIO 6890	Introduction to Research Practice - Honors	1
BIO 6893	Honors Undergraduate Research in Biological Sciences (Student needs 3 credits of honors research (BIO 6891, 6892, 6893, 6894). Credits can be spread across multiple terms but must total a minimum of 3 cr. Honors UG research.)	3
BIO 6999	Honors Undergraduate Research Thesis	2
Total Credits		14
Honors Seminar		
Code		Title
HON 4200		Seminar in Philosophy and Letters
HON 4230		Seminar in Physical Science
HON 4250		Seminar: Global Perspectives on Historical Studies
HON 4260		Seminar in Foreign Culture
HON 4280		General Honors Seminar
Total Credits		3

To be awarded a BIO honors degree, students must accumulate seventeen honors credits as defined above. Students must also maintain a cumulative g.p.a. of at least a 3.3. Students completing department honors must also maintain a 3.3 g.p.a in BIO coursework.

- ¹ BIO courses without an honors section may be used if the professor is willing to do an honors option. Paperwork to do an honors option on a course is available from the Honors College.

Biological Sciences Minor

Completion of the minor in biological sciences requires twenty credits of BIO coursework as indicated below. At least 12 credits in BIO must be completed in residence at WSU.

Code	Title	Credits
BIO 1500	Basic Life Diversity	4
BIO 1510	Basic Life Mechanisms	4
BIO 2600	Introduction to Cell Biology	3
Additional three (3) BIO course electives 3000 level or higher (9 credits minimum) must be lecture based		9
Total Credits		20

Chemistry

Office: 169 Chemistry Building; 313-577-7784

Chairperson: Matthew J. Allen

Associate Chairperson: Jeremy Kodanko

Academic Services Officers: Erin Bachert, Melissa Rochon

<http://www.chem.wayne.edu> (<http://www.chem.wayne.edu/>)

The courses offered by this Department are designed to serve the needs of three distinct groups of students:

1. those majoring in chemistry with the intention of entering the chemical profession,
2. those majoring in chemistry with the intention of entering other professional fields, and
3. those majoring in other subjects who desire to elect chemistry courses as part of their programs. Students intending to major in chemistry should refer to the program tabs for more information.

Students with no prior experience in chemistry may elect CHM 1000 (for non-science majors); CHM 1020 (for non-science majors and certain preprofessional students); or CHM 1040, which is intended for students who need higher-level chemistry work but who fail to qualify for CHM 1220 or CHM 1225 or whose math/science skills are weak. Students who have had a year or more of high school chemistry or the equivalent may register for CHM 1220 or CHM 1225 (for science and preprofessional majors) provided that they meet the other eligibility requirements outlined below. Election of CHM 1000, CHM 1020, CHM 1220, or CHM 1225 will satisfy the University General Education Requirement for a physical science.

Terminal Chemistry Courses: CHM 1000 is a terminal survey course designed primarily to acquaint non-science students with the principles of chemistry in a format requiring minimal mathematical skills. When elected for four credits, this course includes a laboratory which satisfies the University General Education Requirement for a laboratory course.

CHM 1020 and CHM 1030 represent a terminal sequence designed to introduce the basic principles of chemistry and survey the various fields of chemistry for non-science majors and certain pre-professional students such as pre-nursing, occupational health, engineering technicians and others.

Foundational Chemistry: CHM 1040 is designed as the beginning chemistry course for science majors, pre-professional students, and other students who have had little prior experience in chemistry and/or mathematics. CHM 1220 (or CHM 1225) and CHM 1230 are complementary and corequisite courses which should be taken during the same term. CHM 1220 is a classroom-focused course. CHM 1230 is a laboratory-focused course. This also describes the succeeding corequisite sets CHM 1240 and CHM 1250, CHM 2220 and CHM 2230, and CHM 2280 and CHM 2290.

General Chemistry: CHM 1220/CHM 1230 are designed as the beginning courses for science majors and preprofessional students who have a good background in high school chemistry. (CHM 1225/CHM 1230 is the sequence for students in the College of Engineering.) Eligibility for CHM 1220/CHM 1230 must be established by passing a placement examination, covering basic high school material, which is administered by Testing, Evaluation, and Student Life Research, 698 Student Center Building. The qualifying examination is administered several times prior to and during registration.

The sequence of CHM 1220/CHM 1230 and CHM 1240/CHM 1250 are prerequisite to all higher numbered courses in chemistry.

Advanced Placement Credit

Advanced placement college credit in chemistry shall be awarded for scores earned in the chemistry placement examination as follows:

Score of 4 or 5: Credit awarded for CHM 1220/CHM 1230 and CHM 2280 (eight credits); student is eligible to enroll in CHM 1240/CHM 1250.

Score of 3: Credit awarded for CHM 1220/CHM 1230 (five credits); student is eligible to enroll in CHM 1240/CHM 1250.

- Biochemistry and Chemical Biology (B.S.) (p. 264)
- Chemistry (B.A.) (p. 265)
- Chemistry (B.S.) (p. 266)
- Chemistry Minor (p. 269)
- Biochemistry and Chemical Biology Minor (p.)

Biochemistry and Chemical Biology (B.S.)

This degree offers students the opportunity to develop in-depth knowledge in five areas of biological chemistry (bioorganic, bioinorganic, bioanalytical, biophysical, and health sciences). The program teaches key chemical concepts and develops student ability to apply them to a wide variety of biological problems. The program serves to develop and train graduates who will be well prepared to enter graduate or professional schools as well as careers in the chemical, pharmaceutical, biomedical, agricultural and bioinformatic industries.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students planning to major in biochemistry and chemical biology should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of

the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Those who wish to follow the curriculum in the College for the B.S. with a major in Biochemistry and Chemical Biology degree must complete the following courses:

Code	Title	Credits
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 2280	General Chemistry II: Analytical Chemistry	3
CHM 2290	General Chemistry II: Analytical Chemistry Laboratory	2
CHM 3000	Metals in Biology	3
CHM 5400	Biological Physical Chemistry	4
CHM 6610	Biological Chemistry Laboratory	3
CHM 6620	Metabolism: Pathways and Regulation	3
CHM 6635	Tools of Molecular Biology	3
CHM 6640	Molecular Biology	3
CHM 5999	Research in Chemistry ¹	2-4
or CHM 5998	Honors Thesis Research in Chemistry	
or CHM 5900	Biomedical Research as Discovery	
Three courses in approved advanced chemistry topics. Please see a chemistry undergraduate advisor for a list of appropriate electives. 8-10		
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
STA 2210	Probability and Statistics	4
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
Total Credits		80-84

¹ By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998) or two credits of CHM 5900. The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Biochemistry and Chemical Biology Honors (B.S. Program)

1. All regular requirements for the Bachelor of Science with a major in Biochemistry and Chemical Biology degree must be fulfilled (no substitutions).
2. Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
3. Minimum of four credits must be earned in independent research (CHM 5998); this should commence in the junior year (or earlier).
4. Completion of one semester of an HON 4200-level honors seminar. (For information about honors-designated coursework available each semester, including the required 4000-level Honors seminar, visit the Honors College website (<http://www.honors.wayne.edu/classes.php>.) This course may be used to partially fulfill college Group Requirements and can be elected in either the junior or senior year.
5. Submission of a B.S. thesis (covering the undergraduate independent research project), or of a manuscript suitable for publication in a refereed chemical journal, to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
6. An oral examination covering the B.S. Honors Research Project, by the Honors Subcommittee in Chemistry.

Biochemistry and Chemical Biology Minor

Students majoring in other fields who desire to obtain a minor in biochemistry and chemical biology must complete the following:

Code	Title	Credits
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	5
CHM 2280	General Chemistry II: Analytical Chemistry	3
CHM 6620	Metabolism: Pathways and Regulation	3
Select three additional credits at Wayne State University from the following:		3
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	
CHM 6635	Tools of Molecular Biology	
CHM 6640	Molecular Biology	
Total Credits		24

Chemistry (B.A.)

This curriculum allows students to major with a maximum of forty-six credits in chemistry while providing flexibility for exposure in other cognate fields. This degree is appropriate for students in science-oriented pre-professional programs such as medicine and dentistry, as well as for students entering secondary science teaching. For individuals interested in entering a graduate program in chemistry or pursuing a position in the chemical industry upon graduation, it is recommended that the additional requirements for professional certification by the American Chemical Society (see *Requirements* tab) be completed.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students planning to major in chemistry should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Those who wish to follow the general curriculum in the College of Liberal Arts and Sciences for the B.A. degree with a major in chemistry must complete the following courses:

Code	Title	Credits
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 2280	General Chemistry II: Analytical Chemistry	3
CHM 2290	General Chemistry II: Analytical Chemistry Laboratory	2
CHM 3020 or CHM 3000	Intermediate Inorganic Chemistry I Metals in Biology	3
CHM 5400 or CHM 5420	Biological Physical Chemistry Physical Chemistry I	3-4
CHM 5550 or CHM 5510 or CHM 5020	Physical Chemistry Laboratory Chemical Synthesis Laboratory Intermediate Inorganic Chemistry II	2-3
CHM 5600 or CHM 6620	Survey of Biochemistry Metabolism: Pathways and Regulation	3
Select at least one of the following that is not being used in a different category:		3-4
CHM 5020	Intermediate Inorganic Chemistry II	
CHM 5160	Instrumental Analytical Chemistry	
CHM 5440	Physical Chemistry II	
CHM 5510	Chemical Synthesis Laboratory	
CHM 6060	Materials Chemistry and Engineering	
CHM 6070	Advanced Bioinorganic Chemistry	
CHM 6240	Organic Spectroscopy	
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	
CHM 6440	Computational Chemistry	
CHM 6620	Metabolism: Pathways and Regulation	
CHM 6635	Tools of Molecular Biology	
CHM 6640	Molecular Biology	
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Total Credits		56-59

A minimum grade of 'C' is required in prerequisite chemistry courses.

At least fifteen credits in chemistry must be earned at Wayne State University.

ACS Certification

B.A. candidates may receive certification by the American Chemical Society upon graduation by completing the following in addition to the Chemistry courses required for the B.A. degree:

Code	Title	Credits
MAT 2250 or MAT 2350 or MAT 2150	Elementary Linear Algebra Elementary Differential Equations Differential Equations and Matrix Algebra	3-4
CHM 5420	Physical Chemistry I	3
CHM 5440	Physical Chemistry II (rather than CHM 5400)	4
CHM 5160	Instrumental Analytical Chemistry	3
Select two of the following:		5-6
CHM 5510	Chemical Synthesis Laboratory	
CHM 5570	Instrumental Analytical Chemistry Laboratory	
CHM 5999	Research in Chemistry	
Total Credits		18-20

To receive certification, students must submit an application along with a transcript to the Chemistry Department Curriculum Committee prior to the end of the final term.

Chemistry Honors (B.A. Program)

- All B.A. requirements in chemistry must be fulfilled.
- Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
- Minimum of four credits in independent research (CHM 5998). Research should commence in the junior year (or earlier).
- Completion of one semester of an Honors Program 4200-level seminar (consult the Schedule of Classes under 'Honors Program'). This course may be used in partial fulfillment of College Group Requirements and can be elected in either the junior or senior year.
- At least twelve credits in honors-designated course work.
- Submission of a B.A. thesis or of a manuscript suitable for publication in a refereed chemical journal (covering the undergraduate research project) to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
- An oral examination covering the B.A. Honors Research Project, by the Honors Subcommittee in Chemistry.

Chemistry (B.S.)

This degree offers a strong background for students interested in a career in chemistry or in a professional field with a strong reliance on chemistry. It is particularly recommended for students planning to do graduate work in chemistry and chemically-related fields. The degree is offered with three options:

- Bachelor of Science in Chemistry,
- Bachelor of Science in Chemistry with a concentration in biochemistry, and
- Bachelor of Science in Chemistry with a concentration in materials.

The first option is designed primarily for those planning to enter the chemical profession and other professional fields. The second option is designed primarily for students planning careers in biochemical and biomedical areas. The third option is designed primarily for students interested in materials science. (Note: Those interested in Phi Beta Kappa

should consult with the secretary of the Wayne State University Chapter in order to determine the maximum number of chemistry credits allowed.)

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students planning to major in chemistry should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Chemistry B.S. - Option One

Major Requirements

Those who wish to follow the curriculum in the College for the B.S. in Chemistry degree must complete the following courses:

Code	Title	Credits
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 2280	General Chemistry II: Analytical Chemistry	3
CHM 2290	General Chemistry II: Analytical Chemistry Laboratory	2
CHM 3020	Intermediate Inorganic Chemistry I	3
CHM 5020	Intermediate Inorganic Chemistry II	3
CHM 5160	Instrumental Analytical Chemistry	3
CHM 5420	Physical Chemistry I	3
CHM 5440	Physical Chemistry II	4
CHM 5510	Chemical Synthesis Laboratory	3
CHM 5550	Physical Chemistry Laboratory	2
CHM 5600	Survey of Biochemistry	3
CHM 5570	Instrumental Analytical Chemistry Laboratory	3
Select one of the following:		3-4
CHM 6060	Materials Chemistry and Engineering	
CHM 6070	Advanced Bioinorganic Chemistry	
CHM 6170	Advances in Bioanalytical Chemistry	
CHM 6240	Organic Spectroscopy	
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	
CHM 6440	Computational Chemistry	
CHM 6620	Metabolism: Pathways and Regulation	
CHM 6635	Tools of Molecular Biology	
CHM 6640	Molecular Biology	
CHM 5999 or CHM 5998	Research in Chemistry ¹ Honors Thesis Research in Chemistry	2-4
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1

MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Select one of the following:		3-4
MAT 2150	Differential Equations and Matrix Algebra	
MAT 2250	Elementary Linear Algebra	
MAT 2350	Elementary Differential Equations	

Total Credits 77-81

¹ By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998). The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Substitutions in B.S. Curriculum (Option One ONLY): In recognition of the diverse backgrounds required for various careers in chemistry, students may petition the Chemistry Curriculum Committee for approval to substitute advanced courses numbered 5000 or above from another discipline (such as physics, mathematics, biology, engineering) for the following B.S. requirements:

Code	Title	Credits
Select one of the following:		3-4
MAT 2150	Differential Equations and Matrix Algebra	
MAT 2250	Elementary Linear Algebra	
MAT 2350	Elementary Differential Equations	
CHM 5510	Chemical Synthesis Laboratory	3
CHM 5570	Instrumental Analytical Chemistry Laboratory	3

Chemistry elective

Such petitions for substitutions must be submitted in writing accompanied by a detailed statement of justification and a current transcript, and must be approved prior to registration in the alternative courses. Decisions regarding approval of such requests will be based on their legitimacy in terms of the student's professional goals. It is suggested that students consult the Chairperson of the Chemistry Curriculum Committee before filing such a petition.

Chemistry B.S. - Option Two (Biochemistry)

Major Requirements

Those who wish to follow the curriculum for the B.S. in Chemistry with a concentration in biochemistry must complete the following courses (NO substitutions are allowed in the Option Two program: B.S. in Chemistry with a concentration in biochemistry):

Code	Title	Credits
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1

CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 2280	General Chemistry II: Analytical Chemistry	3
CHM 2290	General Chemistry II: Analytical Chemistry Laboratory	2
CHM 3020	Intermediate Inorganic Chemistry I	3
CHM 5020	Intermediate Inorganic Chemistry II	3
CHM 5160	Instrumental Analytical Chemistry	3
CHM 5400 or CHM 5420	Biological Physical Chemistry Physical Chemistry I	4
CHM 5550	Physical Chemistry Laboratory	2
CHM 5570	Instrumental Analytical Chemistry Laboratory	3
CHM 6610	Biological Chemistry Laboratory	3
CHM 6620	Metabolism: Pathways and Regulation	3
CHM 6640	Molecular Biology	3
Select one of the following:		3-4
CHM 5510	Chemical Synthesis Laboratory	
MAT 2150	Differential Equations and Matrix Algebra	
MAT 2250	Elementary Linear Algebra	
MAT 2350	Elementary Differential Equations	
CHM 5999 or CHM 5998	Research in Chemistry ¹ Honors Thesis Research in Chemistry	2-4
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
BIO 3070	Genetics	4
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Total Credits		87-90

¹ By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998). The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Chemistry B.S. - Option Three (Materials)

Major Requirements

Those who wish to follow the curriculum for the B.S. in Chemistry with a concentration in materials must complete the following courses (NO

substitutions are allowed in the Option Three program: B.S. in Chemistry with a concentration in materials):

Code	Title	Credits
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 2280	General Chemistry II: Analytical Chemistry	3
CHM 2290	General Chemistry II: Analytical Chemistry Laboratory	2
CHM 3020	Intermediate Inorganic Chemistry I	3
CHM 5020	Intermediate Inorganic Chemistry II	3
CHM 5160	Instrumental Analytical Chemistry	3
CHM 5420	Physical Chemistry I	3
CHM 5440	Physical Chemistry II	4
CHM 5550	Physical Chemistry Laboratory	2
CHM 5570	Instrumental Analytical Chemistry Laboratory	3
CHM 5600	Survey of Biochemistry	3
CHM 6060 or MSE 5350	Materials Chemistry and Engineering Polymer Science	3
CHM 5999 or CHM 5998	Research in Chemistry ¹ Honors Thesis Research in Chemistry	2-4
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Select one of the following:		3-4
MAT 2150	Differential Equations and Matrix Algebra	
MAT 2250	Elementary Linear Algebra	
MAT 2350	Elementary Differential Equations	
MSE 5650	Surface Science	3
Total Credits		81-84

¹ In addition, students must enroll for at least two credits in independent research (CHM 5999 or CHM 5998) by the first semester of their senior year. Research must be conducted under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999 or CHM 5998) must be earned at Wayne State University.

Chemistry Honors (B.S. Program)

1. All regular requirements for the Bachelor of Science in Chemistry degree must be fulfilled (no substitutions).
2. Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
3. Minimum of four credits must be earned in independent research (CHM 5998); this should commence in the junior year (or earlier).
4. Completion of one semester of an HON 4200-level honors seminar. This course may be used to partially fulfill college Group Requirements and can be elected in either the junior or senior year.
5. Submission of a B.S. thesis (covering the undergraduate independent research project), or of a manuscript suitable for publication in a refereed chemical journal, to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
6. An oral examination covering the B.S. Honors Research Project, by the Honors Subcommittee in Chemistry.

Chemistry Minor

Students majoring in other fields who desire to obtain a minor in chemistry must complete the following courses:

Code	Title	Credits
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	5
CHM 2280	General Chemistry II: Analytical Chemistry	3
Select six additional credits earned at Wayne State University in Chemistry courses numbered 3000 or above, typically satisfied from a combination of the following: ¹		6
CHM 3000	Metals in Biology	
CHM 3020	Intermediate Inorganic Chemistry I	
CHM 5020	Intermediate Inorganic Chemistry II	
CHM 5160	Instrumental Analytical Chemistry	
CHM 5400	Biological Physical Chemistry	
CHM 5420	Physical Chemistry I	
CHM 5440	Physical Chemistry II	
CHM 5600	Survey of Biochemistry	
CHM 6060	Materials Chemistry and Engineering	
CHM 6070	Advanced Bioinorganic Chemistry	
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	
CHM 6440	Computational Chemistry	
CHM 6620	Metabolism: Pathways and Regulation	
CHM 6635	Tools of Molecular Biology	
CHM 6640	Molecular Biology	
Total Credits		24

¹ Excluding seminar and research courses (CHM 2999, CHM 4850, CHM 5999, CHM 5998, etc.).

Classical and Modern Languages, Literatures, and Cultures

Office: 485 Manoogian Hall; 313-577-3002

Chairperson: Vanessa DeGifis

Academic Services Officers: Terrie Pickering

Academic Advisor: Chris Clark

<http://www.clas.wayne.edu/languages> (<http://www.clas.wayne.edu/languages/>)

This Department offers courses and programs of instruction in fourteen different languages. In addition to language learning and Global Studies, the Department focuses on the cultures and literatures of ancient Greece and Rome, as well as the modern world, in courses taught both in languages indigenous to these regions as well as in English translation. The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice. Languages, literatures, and cultures are also excellent foundations for students interested in pursuing careers that do not require post-graduate education, for example, in government, publishing, tourism, and business, any field in which intelligence, communication skills, and a broad liberal education are valued.

The Department offers programs in both major and minor concentration as well as cognate course work that can provide perspectives for majors in other departments. A student who wishes to major or minor in one of our degree programs should meet with a Departmental advisor as soon as possible after entering the University.

Majors

- Asian Studies (B.A.) (p. 270)
- Classics (B.A.) (p. 272)
- German (B.A.) (p. 273)
- Global Studies (B.A.) (p. 273)
- Near Eastern Studies (B.A.) (p. 276)
- Romance Languages (B.A.) (p. 277)
- Slavic Studies (B.A.) (p. 278)

Minors

- Arabic Minor (p. 279)
- Asian Studies Minor (p. 279)
- Classical Civilization Minor (p. 279)
- Folklore and Fairy-Tale Studies Minor (p. 279)
- French Minor (p. 279)
- German Minor (p. 280)
- Global Studies Minor (p. 280)
- Israeli Studies Minor (p. 280)
- Italian Minor (p. 281)
- Latin Minor (p. 281)
- Modern Greek Studies Minor (p. 280)
- Near Eastern Studies Minor (p. 281)
- Polish Minor (p. 281)
- Russian Minor (p. 281)
- Spanish Minor (p. 281)

CMLLC Program Requirements

Degree Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Placement: Students continuing the study of any of the languages cited at Foreign Language (p. 255) and begun in high school or in another college should consult with the Department undergraduate advisor to determine the level of at which to continue coursework (phone: 313-577-3002). The main criteria for placement of these students is the Departmental placement exam. The number of years of high school language study does not effectively correspond to language course sequences at the university level. Students with sufficiently high placement exam scores will be deemed to have satisfied the Foreign Language Group Requirement. For information on the Placement Examination, contact the Department at 313-577-3002. Examinations are scheduled by appointment at the Department Office, 487 Manoogian Hall. (A fee is charged.)

Departmental Honors Program

Qualified majors may apply for participation in the Departmental Honors Program. Only a student who has demonstrated superior ability in one of the Departmental majors and who shows promise of acquiring greater breadth and depth of knowledge through tutorial study will be admitted to the program. As preparation for admission, the student is required, during the freshman and sophomore years, to acquire basic knowledge of their major language. To be recommended for an honors degree a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least fifteen credits in honors-designated course work, including at least one 4000-level seminar offered through the Honors College (see the schedule of classes (<http://classschedule.wayne.edu/>) under 'Honors Courses' for seminar topics), and the Departmental credits associated with completion of a Senior Thesis.

'AGRADE' Program (Accelerated Graduate Enrollment)

The Department encourages academically-superior majors to petition for admission into the College's 'AGRADE' program. Qualified seniors may apply a maximum of fifteen credits toward both a bachelor's and a master's degree. For more details, contact the graduate director (Classics, French, German, Italian, or Spanish): 313-577-3002. Students should consult with the director in their junior year regarding this opportunity.

Study Abroad

Students should consult the department and the Study Abroad and Global Programs Office (p. 80) for more details on the following programs:

Arabic Language and Culture at the American University of Cairo or Lebanese American University

Junior Year in Munich Program

Juniors, seniors, or graduate students who would like to spend a year studying at the University of Munich are encouraged to contact the Junior Year in Germany Office, 401 Manoogian Hall; 313-577-4605.

Study Abroad in Poland

A two-week study-abroad program is offered in May. Contact department for details.

Study Abroad in Russia

A four-week program offered in June. Students study and live in St. Petersburg, and make a side-trip to Moscow.

Summer Homestay and Study Tour Program in Japan

A two-week study tour trip (trip after spring semester) is offered in spring and summer. Contact department for details.

Asian Studies (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 269) for admission, degree, and general education requirements.

Asian Studies

A major in Asian Studies consists of a concentration in either Chinese; Japanese; Chinese and Japanese (language focused); or Joint Culture (East Asian Studies focused).

Chinese OR Japanese Concentration

The major with a concentration in Chinese or Japanese requires thirty-five credits consisting of:

Code	Title	Credits
CHI 2010 or JPN 2010	Intermediate Chinese Intermediate Japanese I	4
CHI 2020 or JPN 2020	Intermediate Chinese II Intermediate Japanese II	4
Nine further credits in language (select from the following)		9
CHI 2000 or JPN 2110	Chinese Phonetics Listening Japanese with Media and Animation	
CHI 3100 or JPN 3010	Advanced Chinese I Advanced Japanese I	
CHI 3200 or JPN 3020	Advanced Chinese II Advanced Japanese II	
CHI 4010 or JPN 4010	Business Chinese Business Japanese I	
JPN 3030	Japanese Reading and Writing	
East Asian Studies (select from the following)		6
ASN/HIS 1700	East Asia to the 1700s	
CHI/JPN 5220/LIN 5100	Languages of Asia	
PS 3770	Politics of East Asia	
Region Specific (6 credits in either Chinese or Japanese Studies)		6
ASN/HIS 3870	History of Japanese Pop Culture	
ASN 3995	Special Topics in East Asian Studies	
ASN/HIS 5825	Readings in the History of Modern China	
ASN/HIS 5855	Pre-Modern Japan	
ASN/HIS 5865	Modern Japan	
ASN/HIS 5875	Gender in Modern East Asia	
CHI 2050	Gateway to Chinese Civilizations	

CHI 3000	Chinese Mythology and the Supernatural
CHI 3010	Contemporary Chinese Pop Culture
CHI 3022	Introduction to Chinese Literature
CHI 5210	Introduction to Chinese Linguistics
CHI 5230	Grammar of Chinese
CHI 5300	Teaching Chinese as a Second Language
JPN 2710	Japanese Culture
JPN 2720	Japanese Culture through Myth, Fairy Tales, and Media
JPN/ASN 2800	Culture Studies in Japan (Homestay and Study Abroad Tour)
JPN 4550	Japanese Culture and Society I
JPN 4560	Japanese Culture and Society II
JPN 4850	Studies in Japanese Culture
JPN 5999	Internship in Japanese Studies
PHI 2150	Chinese Philosophy
Electives	6
Total Credits	35

Electives include but are not limited to the disciplines of anthropology, business management, history, economics, linguistics, philosophy, cinema, culture, literature, and political science. Further restrictions may apply and students should consult the undergraduate advisor of the language area for details.

Chinese AND Japanese Concentration

The Chinese and Japanese Concentration focuses on the study of both languages. It requires thirty-six credits consisting of:

Code	Title	Credits
Language 1		
8		
CHI 2010	Intermediate Chinese or JPN 2010 Intermediate Japanese I	
CHI 2020	Intermediate Chinese II or JPN 2020 Intermediate Japanese II	
Language 2		
16		
CHI 1010	Elementary Chinese I or JPN 1010 Elementary Japanese I	
CHI 1020	Elementary Chinese or JPN 1020 Elementary Japanese II	
CHI 2010	Intermediate Chinese or JPN 2010 Intermediate Japanese I	
CHI 2020	Intermediate Chinese II or JPN 2020 Intermediate Japanese II	
Advanced Language or Linguistics		
3		
CHI 3100	Advanced Chinese I	
JPN 3010	Advanced Japanese I	
CHI/JPN 5220/LIN 5100	Languages of Asia	
East Asian Studies		
3		
ASN/HIS 1700	East Asia to the 1700s	
ASN/HIS 1710	History of Modern East Asia	
CHI/JPN 5220/LIN 5100	Languages of Asia	
PS 3770	Politics of East Asia (Region Specific)	
Region Specific (6 credits in either Chinese or Japanese Studies)		
6		
ASN/HIS 3870	History of Japanese Pop Culture	

ASN/HIS 5825	Readings in the History of Modern China
ASN/HIS 5855	Pre-Modern Japan
ASN/HIS 5865	Modern Japan
ASN/HIS 5875	Gender in Modern East Asia
CHI 2050	Gateway to Chinese Civilizations
CHI 3000	Chinese Mythology and the Supernatural
CHI 3022	Introduction to Chinese Literature
CHI 5210	Introduction to Chinese Linguistics
CHI 5230	Grammar of Chinese
CHI 5300	Teaching Chinese as a Second Language
PHI 2150	Chinese Philosophy
JPN 2710	Japanese Culture
JPN/ASN 2800	Culture Studies in Japan (Homestay and Study Abroad Tour)
JPN 4550	Japanese Culture and Society I
JPN 4560	Japanese Culture and Society II
JPN 4850	Studies in Japanese Culture
JPN 5999	Internship in Japanese Studies
Total Credits	36

Joint Culture Concentration

The Joint Culture Concentration provides some foundation in language but focuses on general East Asian Studies. It requires thirty-six credits consisting of:

Code	Title	Credits
Language		
8		
CHI 1010	Elementary Chinese I or JPN 1010 Elementary Japanese I	
CHI 1020	Elementary Chinese or JPN 1020 Elementary Japanese II	
East Asian Studies		
10		
ASN/HIS 1700	East Asia to the 1700s	
CHI/JPN 5220/LIN 5100	Languages of Asia	
PS 3770	Politics of East Asia	
Electives		
18		
Language Courses (no more than 8 credits)		
CHI 1010	Elementary Chinese I	
CHI 1020	Elementary Chinese	
CHI 2010	Intermediate Chinese	
JPN 1010	Elementary Japanese I	
JPN 1020	Elementary Japanese II	
JPN 2010	Intermediate Japanese I	
Culture Courses		
ASN/HIS 3870	History of Japanese Pop Culture	
ASN 3995	Special Topics in East Asian Studies	
ASN/HIS 5825	Readings in the History of Modern China	
ASN/HIS 5855	Pre-Modern Japan	
ASN/HIS 5865	Modern Japan	
ASN/HIS/GSW 5875	Gender in Modern East Asia	
CHI 2050	Gateway to Chinese Civilizations	
CHI 3000	Chinese Mythology and the Supernatural	
CHI 3010	Contemporary Chinese Pop Culture	
CHI 3022	Introduction to Chinese Literature	

CHI/JPN 5220/LIN 5100	Languages of Asia
PHI 2150	Chinese Philosophy

JPN 4560	Japanese Culture and Society II
JPN 4850	Studies in Japanese Culture
JPN 5999	Internship in Japanese Studies

Total Credits **36**

Classics (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 269) for admission, degree, and general education requirements. A major in Classics consists of satisfying one of the following sets of concentration requirements:

Latin Major Concentration

Code	Title	Credits
Twenty-four credits in Latin (exclusive of LAT 1010 and LAT 1020) with minimum of 8 credits at the 5000-level or above		24
CLA 1010 & CLA 2000	Classical Civilization and Greek Mythology (both preferably taken during the freshman or sophomore year)	6
CLA 3825	Survey of Latin Literature	3
One additional CLA course at the 2000-level or above		3-4
Total Credits		36-37

Classical Civilization Concentration

Code	Title	Credits
CLA 1010 & CLA 2000	Classical Civilization and Greek Mythology (both preferably taken during the freshman or sophomore year)	6
CLA 3150	Athens and the Ancient Greek World	3
CLA 3700	The Golden Age of Rome	3
GKA 2020 or LAT 2020	Intermediate Ancient Greek II Intermediate Latin II	4
PHI 2100	Ancient Greek Philosophy	3
CLA 3800	Survey of Greek Literature	3
CLA 3825	Survey of Latin Literature	3
Students must take at least 6 credits at the 5000-level or above in CLA, LAT, or GKA		
Electives (select two courses from the list below)		6
No course can be taken as a requirement and an elective.		
Total Credits		31

Classical Civilization Concentration Elective List

Code	Title	Credits
Art History		
AH 3070	Art and Archeology of Ancient Egypt	
AH 3240	Mythology in Greek Art	
AH 5210	Hellenistic Art	
AH 5250	Ancient Rome	
AH 5260	Classical Greek Art	
AH 5270	Roman Painting and Sculpture	
AH 5310	The Ancient City of Athens	
Anthropology		
ANT 2200	Lost Cities and Ancient Civilizations	
ANT 5270	Concepts and Techniques in Archaeology	
ANT 5600	Museum Studies	
Classics		
CLA 2200	Introduction to Greek Tragedy	
CLA 2300	Ancient Comedy	
CLA 3050/5050	Cleopatra	
CLA 3060	Medea in African American Literature	
CLA 3150/5150	Athens and the Ancient Greek World	
CLA 3190/5190	Topics on Women in Antiquity	
CLA 3350/5350	Plutarch's Lives of the Noble Greeks and Romans	
CLA 3530/5530	The World of Early Christianity	
CLA 3590/5590	Byzantine Civilization	
CLA 3700/5700	The Golden Age of Rome	
CLA 3720/5720	Greek Identity from Antiquity to Modernity	
CLA 3800/5800	Survey of Greek Literature	
CLA 3825/5825	Survey of Latin Literature	
CLA 3999/6260	Further Studies in Mythology	
CLA 5200	Special Studies	
Greek - Ancient (GKA)		
Any GKA course if Latin is the major language		
Greek - Modern (GKM)		
GKM 3710	Modern Greek Literature and Culture in English	
History		
HIS 5330	History of Ancient Greece	
HIS 5335	History of the Hellenistic Age	
HIS 5340	History of Ancient Rome	
HIS 5345	Rome and the Barbarians	
HIS 5360	The Early Middle Ages: 300-1000	
HIS 5395	Social History of the Roman Empire	
Latin		
Any course if Ancient Greek (GKA) is the major language		
Near Eastern Studies		
NE 2010	The Bible and Ancient Mythology	

Philosophy		
PHI 2100	Ancient Greek Philosophy	
PHI 2140	Ancient Greek Medicine and Psychology	
PHI 5400	The Presocratics and Sophists	4
PHI 5410	Plato	4
PHI 5420	Aristotle	
Political Science		
PS 3530	Great Political Thinkers I	

Recommended Cognate Courses: All majors in the Department are strongly urged to take as many courses as possible from the list above and in the literatures of other languages, including English.

Latin: Combined Curriculum for Secondary Teaching

Students who are preparing to teach Latin in the secondary schools and who wish to obtain a B.A. degree with a concentration in Latin must complete the concentration in Latin as outlined above and the requirements for this curriculum set by the College of Education. For further information, see Combined Curriculum for Secondary Teaching. (p. 256)

Classics Honors (B.A. Program)

In order to graduate with Honors in Classics, a student must complete all requirements for a major in Classics (see above); must maintain an overall g.p.a. of 3.3, and a g.p.a. of 3.5 in courses in the major; must complete a minimum of fifteen Honors option/and/or Honors designated credits, including one three-credit Honors seminar (HON 4200-HON 4280), and three credits of CLA 4998 (Honors Thesis) involving a senior essay, thesis or project under the supervision of a full-time faculty member of the Classics area.

Eligible students who are interested in the program should consult the department undergraduate advisor. For information about honors-designated coursework available each semester, including the required 4000-level Honors seminar, visit the Honors College website (<http://www.honors.wayne.edu/classes.php>).

German (B.A.)

Reflecting Wayne State University's overall mission of "preparing students to excel in an increasingly advanced and interconnected global society," the B.A. in German within the Department of Classical and Modern Languages, Literatures and Cultures focuses on the following four interrelated goals. They are intended to educate students as citizens in a global world and to prepare them for future careers in the private and public sector.

Goals:

- The achievement of German language proficiency at the Advanced Low to Advanced High level, according to the ACTFL (American Council on the Teaching of Foreign Languages) proficiency guidelines. This corresponds to the B2-C1 level of the CEFR (Common European Framework of Reference) guidelines.
- The acquisition of diverse knowledges in breadth and depth with regard to German language and literature, culture and society from the Germanic beginnings to the present with a concentration in the 20th and 21st centuries
- The attainment of intercultural competencies through study and research abroad as well as through internships, both abroad and in the Detroit metropolitan area

- The development of transferable critical-analytical, interpretive, and information-literacy skills

Students should refer to the CMLLC program requirements (p. 269) for admission, degree, and general education requirements. A major in German must satisfactorily complete a minimum of thirty-one credits in German courses, that include:

Code	Title	Credits
Intermediate German		10
GER 2020	Everyday Encounters in Language and Culture	
GER 3100	Engaging Historical Moments	
GER 3200	Exploring Modern Identities	
English Language Requirements		9
Required		
German Culture:		
GER 2710	Resistance, Rebellion, Revolution: Transitional Moments in German Culture and History	
Electives (select one course from two of the following categories)		
German History:		
HIS 5460	History of the Holocaust	
	or HIS 5480 Nazi Germany	
Intercultural Communication:		
GLS 2900		
Textual Analysis in the Context of Global Literature:		
GER 2991	Understanding the Fairy Tale	
	or GLS 2700 Introduction to Global Stories	
Advanced German Sequence (select two of the following)¹		6
GER 4600	Products, Perspectives, and Practices of Culture	
GER 5100	Advanced Rhetoric and Composition	
GER 5210	German Translation Studies	
Advanced Textual and Cultural Analysis (select two of the following)²		6
GER 5390	Holocaust Studies	
GER 5400	Cultural Studies and Criticism	
GER 5770	Modernism	
GER 5780	Texts and Contexts Since 1945	
GER 5790	Topics in German Studies	
GER 5800	Literature and Cultures of Minorities	
GER 5999	Internship in German Studies	
LGL 5850	Foreign Language Instruction	

Total Credits **31**

- ¹ One course in this sequence must be taken at the main Wayne State campus in Detroit, MI.
- ² One of the two courses selected to satisfy this requirement must be taught in German.

Majors are strongly encouraged to pursue a co-major, double major or minor, and/or to take general education and elective courses in related fields, such as: anthropology, art history, economics, engineering, English or another language area, film studies, gender, sexuality and women's studies, geography, global supply chain management, history, international studies, linguistics, political science, social work, sociology, and theater.

Global Studies (B.A.)

The Global Studies program is designed for students passionate about understanding and being active participants in a globalized world.

Students learn about global institutions, issues, and movements from an interdisciplinary perspective by:

1. developing language skills, which are essential to global communication and cultural understanding;
2. taking core courses in humanities and social sciences that provide students with an interdisciplinary and theoretical introduction to global studies; and,
3. specializing in global politics and economies, health and environment, and cultures and identities.

Throughout the curriculum students will think critically about questions related to global justice, inequality, how globalization impacts different cultures and regions around the world, and the responsibilities of global citizenship. A Global Studies major can prepare students for careers in government, diplomacy, law, health professions, teaching, research, non-governmental organizations, development, and business.

Through the program students will:

1. demonstrate intermediate-level skills in reading, writing, speaking, and listening in one language other than English, or elementary-level skills in reading, writing, speaking, and listening in two languages other than English.
2. analyze ways in which global issues intersect with the individual and the social with respect to gender, sexuality, class, race, and ethnicity.
3. describe the processes of globalization from economic, political, environmental, historical, and cultural perspectives and how these processes impact social structures and people's everyday lives.
4. connect globalization and global issues to the local, the regional (as it relates to regional issues within nation states), and the national.

Global Experience

Students must fulfill a "Global Experience" requirement. Options for fulfilling the Global Experience requirement include:

1. an internship at a local agency that deals with global issues or is a global organization or company (GLS 5500);
2. study abroad or internship abroad;
3. field work or study abroad that is part of a specific course

All majors are also required to present their work in the form of a paper of poster session in a WSU venue.

Students wishing to pursue the major in global studies should meet with the program director and the undergraduate advisor in Classical and Modern Languages, Literatures, and Cultures for advising.

Students should refer to the CMLLC program requirements (p. 269) for admission, degree, and general education requirements.

Major requirements consist of a minimum of 33 credits distributed as follows:

Code	Title	Credits
Language Courses		
Select a minimum of three courses or 9 credits beyond 2010 in the same language sequence or complete the three-semester basic language sequence in a second language. ¹		9-12
Core Courses		
Select 3 of the 4 core courses		9
GLS 2700	Introduction to Global Stories (Select 3 of the 4 core courses)	
GLS 2800	Introduction to Global Issues and Institutions	
GLS 2900	Intercultural Competence for a Global World	

GLS 3700 Globalization: Theories, Practices, Implications

Global Experience

Students must fulfill a Global Experience requirement. Options for fulfilling the requirement include: 1) an internship at a local agency that deals with global issues or is a global organization (GLS 5500); 2) study abroad or internship abroad; 3) field work or study abroad that is part of a specific course.

Electives from Three Focus Areas

15

Students must take a minimum of fifteen credits from the following areas of focus: Global Politics and Economics, Global Health and Environment, Global Culture and Identities.

Global Cultures and Identities

This focus area centers on questions related to global cultures, belief systems expressed through various types of cultural artifacts (including visual art, artisanry, literature, film and media), and peoples and identities, over time and geographical areas, in conjunction with questions of gender, sexuality, class, race, and ethnicity.

Total Credits **33-36**

- ¹ For language courses, please see languages offered in Classical and Modern Languages, Literatures, and Cultures. Students must receive a passing grade (C) in their language courses for them to count towards the GLS major.
- ³ Areas of focus allow students to specialize within the program in ways that enhance their academic and professional goals. A minimum of 6 credits must be at the 4000-level or above.

Near Eastern Studies (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 269) for admission, degree, and general education requirements.

Near Eastern Studies Major

A major in Near Eastern studies consists of thirty-eight credits.

Code	Title	Credits
Select eleven credits in language, linguistics, or literature beyond ARB 1020 or HEB 1020		11
Select twenty-seven credits in elective courses with no less than six credits in three of the following four subject areas:		27
	Ancient Near East	
	Israeli culture/civilization	
	Arab culture/Islamic civilization	
	Islamic and modern Middle East history	
Total Credits		38

Near Eastern Languages Majors

A major in Near Eastern languages consists of a concentration in either Arabic or Hebrew; or joint study of both languages.

The Near Eastern Languages major with a concentration in Arabic or Hebrew consists of thirty-six credits. This includes:

Code	Title	Credits
Select twenty-four credits in language, linguistics, or literature beyond ARB 1020 or HEB 1020		24
Select twelve credits in electives courses in ancient Near East, Israeli culture/civilization, Arab culture/Islamic civilization, or Islamic and modern Middle East history		12
Total Credits		36

The Near Eastern Languages major with a joint study in both Arabic and Hebrew consists of twenty-nine credits beyond first-year proficiency in both Arabic and Hebrew. This includes:

Code	Title	Credits
Select twelve credits in in either Arabic or Hebrew language, linguistics, or literature courses		12
Select eight credits in such courses in the other language		8
Select nine credits in electives courses in ancient Near East, Israeli culture/civilization, Arab culture/Islamic civilization, or Islamic and modern Middle East history		9
Total Credits		29

Romance Languages (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 269) for admission, degree, and general education requirements.

All majors with concentrations in Italian and Spanish are required to take a minimum of two cognate courses approved by the advisor. They are encouraged to take as much work as possible in the literatures of other languages, both ancient and modern, as well as in history, philosophy, linguistics, art, and music.

French Major Concentration Requirements

A concentration in French consists of:

Code	Title	Credits
FRE 2100	French through Film I	4
FRE 2110	French through Film II	4
Select two from the following list of four courses:		6
FRE 2700	Anguish and Commitment: European Existential Literature	
FRE 2710	Introduction to French Civilization I	
FRE 2720	Introduction to French Civilization II	
FRE 2991	Understanding the Fairy Tale	
FRE 3200	French Cafe	3
FRE 3300	Prose, Poetry, and Performance	3
FRE 4620	Topics in Sociocultural Analysis	3
FRE 5100	Advanced Composition	4
FRE 5600	Translation Studies	3
FRE 6200	Renaissance to Revolution	3
or FRE 6300	Modernity, Postmodernity, and Extreme Contemporain	
Electives - select one of the following courses:		3
FRE 5200	French Phonetics and Pronunciation (Electives)	

FRE 5410	Topics in French and Francophone Culture	
FRE 5415	Topics in French and Francophone Literature	
FRE 5999	Internship in French Studies	
FRE 6620	Topics in Sociocultural Analysis	
FRE 6400	Introduction to French Linguistics	
Total Credits		36

Italian Major Concentration Requirements

The major concentration in Italian at Wayne State University (effective Fall 2014) is designed for maximum flexibility, offering students educational choices which can help prepare them for a wide variety of careers, including teaching, diplomacy, tourism, design, fine and performing arts, music, law, medicine, and international business, among others. A student with a particular historical or thematic interest can focus on history, art, music, literature, international studies, and other studies while completing a major concentration or a minor in Italian.

The major concentration in Italian requires a total of thirty-six credits beyond the basic language sequence (ITA 1010, ITA 1020, and ITA 2010). Majors are required to take ITA 2020 and an additional thirty-three credits, with at least two courses in each of three groupings: Language and Culture, Literature and Culture before 1700, and Literature and Culture after 1700. (For a list of courses within these classifications, consult the departmental advisor.) A total of nine credits can be elected from courses offered in a number of related disciplines.

Italian Summer Program in Gagliano

Students may also take courses in Italian language, literature, and culture in the Wayne summer program in Gagliano Aterno, Italy. The Gagliano program offers students the opportunity to complete up to eight hours of course work in four weeks.

Spanish Major Concentration Requirements

A student concentrating in Spanish is required to take:

Code	Title	Credits
SPA 2025	Cultural Connections, Grammar and Composition I	3
SPA 3025	Cultural Connections, Grammar and Composition II	3
SPA 3300	Introduction to Cultural and Literary Analysis	3
SPA 4610	Introduction to Early Modern Spanish Literature	3
or SPA 4620	Introduction to Modern and Contemporary Spanish Literature	
SPA 4630	Introduction to Colonial Latin American Literature	3
or SPA 4640	Introduction to Modern and Contemporary Latin American Literature	
SPA 5100	Advanced Composition	3
SPA 5200	Spanish Phonetics	3
Select two of the following:		6
SPA 3200	Conversation	
SPA 5550	Spanish Culture and Its Tradition	
SPA 5560	Spanish American Cultures and their Traditions	
SPA 5570	Topics in Hispanic Culture or Language	
SPA 5600	Advanced Conversation	
One elective at the 3000 level or above		3
One literature course at the 6000 level or above		3
Two electives at the 5000 or 6000 level		6
Total Credits		39

Foreign Languages: Teacher Preparation

Students who are preparing to teach French, Italian, or Spanish in the secondary schools and who wish to obtain a B.A. degree with a concentration in one of these languages must complete the appropriate concentration as defined above. Students interested in pursuing teacher preparation course work should also refer to the Teacher Education Division (p. 124) of the College of Education.

Business Careers Language Preparation

Foreign language majors who do not plan to teach may wish to consider a series of courses in the Mike Ilitch School of Business which will provide some background for potential employment with multinational corporations. These courses will also prepare them for entrance into the Master of Business Administration degree program after completion of the B.A. For information, contact the Associate Dean of the Mike Ilitch School of Business, 226 Prentis Building, telephone: 313-577-4503.

Slavic Studies (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 269) for admission, degree, and general education requirements.

Slavic Studies Major Requirements

Students majoring in Slavic Studies select: 1) a concentration in Polish or Russian. If a student's concentration is Polish, the student must also choose an interdisciplinary focus or a language focus.

Polish Concentration in Slavic Studies

Students must complete:

Code	Title	Credits
POL 2060	Composition and Conversation	4
POL 3000	Polish Grammar and Usage	4
POL 3030	Language Skills: Advanced Speaking and Writing	2-4
POL 2710	Survey of Polish Culture	3
SLA 2310	Short Fiction from Central Europe and Russia	3
SLA 3710 or SLA 3750	Russian and East European Film Polish and Yugoslavian Cinema	3-4
Select two of the following:		6-8
POL/SLA 3800	Topics in Slavic Studies	
RUS 3050	Russian Practicum	
RUS 5600	Nineteenth Century Russian Literature	
POL 5993	Writing Intensive Course in Polish	0
Total Credits		25-30

Polish Language Focus

In addition to the course work listed above, students concentrating in Polish with the language focus must complete two Russian language courses (p.).

Polish Interdisciplinary Focus

Code	Title	Credits
For the interdisciplinary focus, select two of the following:		
ECO 1000	Survey of Economics	
ECO 2010	Principles of Microeconomics	
ECO 2020	Principles of Macroeconomics	
GPH 3200	Europe	
HIS 3010	Jewish History from the Bible to 1492	
HIS 3995	Special Topics in History (The Russian Revolution OR Marxism and Communism)	
HIS 5440	Twentieth Century Europe	
HIS 5490	His: Russia & Eurasia to 1917	
HIS 5500	The Soviet Union	
MKT 5750	International Marketing Management	
PS 2710	Introduction to Comparative Politics	
PS 3715	Politics of Central and Eastern Europe	
THR 5751	Study Abroad: Moscow Art Theatre School	
Total Credits		6-8

Russian Concentration in Slavic Studies

Students must complete:

Code	Title	Credits
RUS 2020	Intermediate Russian II	4
RUS 3010	Intermediate-Advanced Russian I	4
RUS 3020	Intermediate-Advanced Russian II	4
RUS 2710	Introduction to Russian Culture	3
RUS 5993	Writing Intensive Course in Russian	0
15 credits from among the following courses: ¹		15

Russian/Slavic Courses

RUS 2030	Russian Conversation	
RUS 2991	Understanding the Fairy Tale	
RUS 3010	Intermediate-Advanced Russian I ²	
RUS 3020	Intermediate-Advanced Russian II ²	
RUS 3050	Russian Practicum	
RUS 3070	Russian Listening Comprehension II	
RUS 3250	Reading Russian	
RUS/SLA/POL 3410	New Soil, Old Roots: The Immigrant Experience	
RUS 3600/5600	Nineteenth Century Russian Literature	
RUS 3650	Russian Literature Since 1900	
RUS/SLA/POL 3700	The Changing Face of Europe	
RUS 3810/ SLA 3800/POL 3800	Topics in Slavic Studies	
SLA 2310	Short Fiction from Central Europe and Russia	
SLA 3710	Russian and East European Film	
SLA 3750	Polish and Yugoslavian Cinema	

Interdisciplinary Courses

ECO 2010	Principles of Microeconomics	
ECO 2020	Principles of Macroeconomics	
GKM 3590	Byzantine Civilization	
GPH 3200	Europe	
HIS 3995	Special Topics in History	
HIS 5490	His: Russia & Eurasia to 1917	

HIS 5500	The Soviet Union
HIS 5440	Twentieth Century Europe
MKT 5750	International Marketing Management
PS 2510	Introduction to Political Ideologies
PS 2710	Introduction to Comparative Politics
PS 3710	Politics of Western Europe
PS 3715	Politics of Central and Eastern Europe
PS 4810	Foreign Policies of Major Powers

Polish Courses

POL 1010	Elementary Polish I
POL 1020	Elementary Polish II
POL 2010	Intermediate Polish
POL 2030	Polish Conversation
POL 2035	Polish Conversation II
POL 2060	Composition and Conversation
POL 2710	Survey of Polish Culture
POL 3000	Polish Grammar and Usage
POL 3030	Language Skills: Advanced Speaking and Writing
POL 3060	Medical Polish I
POL 3061	Medical Polish II

Total Credits **30**

¹ Can include up to 6 credits in interdisciplinary courses and up to 8 credits in Polish language courses.

² Can be taken a second time as a 4th year student.

Arabic Minor

A minor in Arabic consists of eighteen credits.

Code	Title	Credits
Select twelve credits in Arabic language, linguistics or literature beyond ARB 1020		12
Select six credits in cognate courses in related areas such as :		6
NE 2000	Introduction to Islamic Civilization of the Near East	
NE 2030	The Age of Islamic Empires: 600-1600	
NE 2040	The Modern Middle East	
NE 3550	Arab Society in Transition	

Total Credits **18**

Asian Studies Minor

A minor in Asian Studies consists of a minimum of twenty-two credits.

Code	Title	Credits
Select sixteen credits in the first four semesters of the language sequences in Chinese or Japanese		16
Select six credits in elective courses related to the language		6

Total Credits **22**

Classical Civilization Minor

A minor in Classical Civilization consists of twenty credits distributed as follows:

Code	Title	Credits
Select one of the following:		8
GKA 1010 & GKA 1020	Elementary Ancient Greek I and Elementary Ancient Greek II	

or		
LAT 1010 & LAT 1020	Elementary Latin I and Elementary Latin II	
CLA 1010	Classical Civilization	3
or CLA 2000 Greek Mythology		
CLA 3150	Athens and the Ancient Greek World	3
or CLA 3700 The Golden Age of Rome		
CLA 3800	Survey of Greek Literature	3
or CLA 3825 Survey of Latin Literature		
Elective course ¹		3
Total Credits		20

¹ The approved list of electives is available in the Classics major section (p. 272).

Folklore and Fairy-Tale Studies Minor

The minor in Folklore and Fairy-Tale Studies aims to provide students with an interdisciplinary foundation in the field of folklore and fairy-tale studies. The core courses include the study of 1) Greek mythology; 2) French, German, Italian, and Russian tales; and 3) Anthropology. Together they provide a solid background to understand the history of European, African, Native American, Asian and other world traditions of myth, ritual, folklore, and fairy tale. Students appreciate the different historical, social, political, and cultural contexts in which tale telling and other cultural narratives are produced, and it also introduces them to different genres and medias in which storytelling and cultural practices occur.

A minor in Folklore and Fairy-Tale Studies can be completed with eighteen credits of coursework.

Code	Title	Credits
Required courses:		12
ANT 3100	World Cultures	
CLA 2000	Greek Mythology	
Select two from the following three courses:		
FRE/GER 2991	Understanding the Fairy Tale	
ITA 2991	Italian Fairy Tales	
RUS 2991	Understanding the Fairy Tale	
Electives *		6
ANT 2200	Lost Cities and Ancient Civilizations	
ANT 3520	Understanding Africa: Past, Present and Future	
ANT 3530	Native Americans	
CLA 3060	Medea in African American Literature	
CLA 3999	Further Studies in Mythology	
ENG 2560	Children's Literature: Literature and Writing	
GER 5790	Topics in German Studies	

Total Credits **18**

* Courses that share the learning objectives of the minor and that are not listed here may count towards the minor. Please consult with the CMLLC undergraduate advisor about available courses each semester.

French Minor

Requirements:

Code	Title	Credits
FRE 2010	Intermediate French	4
FRE 2710	Introduction to French Civilization I	3
or FRE 2720	Introduction to French Civilization II	
FRE 2100	French through Film I	4
FRE 2110	French through Film II	4
FRE 3300	Prose, Poetry, and Performance	3
or FRE 3200	French Cafe	
FRE 4620	Topics in Sociocultural Analysis	3
One 5000- or 6000-level course		3
Total Credits		24

German Minor

A minor in German requires a minimum of 19 credits that include:

Code	Title	Credits
Intermediate German		10
GER 2020	Everyday Encounters in Language and Culture	
GER 3100	Engaging Historical Moments	
GER 3200	Exploring Modern Identities	
German Culture		3
GER 2710	Resistance, Rebellion, Revolution: Transitional Moments in German Culture and History	
Electives (select one course from two of the following categories)		6
German History:		
HIS 5460	History of the Holocaust	
or HIS 5480	Nazi Germany	
Intercultural Communication:		
GLS 2900	Intercultural Competence for a Global World	
Internship:		
GER 5999	Internship in German Studies	
Textual Analysis in the Context of Global Literature:		
GER 2991	Understanding the Fairy Tale	
or GLS 2700	Introduction to Global Stories	
Total Credits		19

Global Studies Minor

MINOR REQUIREMENTS consist of a minimum of twenty-two credits distributed as follows:

Code	Title	Credits
Language Requirement		
1010 or equivalent		4
1020 or equivalent		4
Required Course		
GLS 3700	Globalization: Theories, Practices, Implications	3
Other Courses		
GLS 2700	Introduction to Global Stories	3
or GLS 2800	Introduction to Global Issues and Institutions	
Electives		
Select a minimum of eight credits from among the focus areas of: Global Politics and Economies, Global Health and Environment, and Global Cultures and Identities. ¹		8
Total Credits		22

¹ Focus areas allow students to specialize within the program in ways that enhance their academic and professional goals. Students are expected to consult with the Global Studies advisor when choosing their electives. See list of focus area courses under the Global Studies major. (p.)

Modern Greek Studies Minor

A Minor in Modern Greek Studies consists of a minimum of twenty-two credits distributed as follows:

Code	Title	Credits
Select four courses in Modern Greek language including the sequence GKM 1010, GKM 1020, GKM 2010, GKM 2020		16
Select one course in Modern Greek language or culture at the 3000-level or above		3-4
Select one course from the following list:		3-4
CLASSICAL STUDIES:		
CLA 1010	Classical Civilization	
CLA 2000	Greek Mythology	
CLA 2200	Introduction to Greek Tragedy	
CLA 2300	Ancient Comedy	
CLA 3150	Athens and the Ancient Greek World	
CLA 3800	Survey of Greek Literature	
GKA 1010	Elementary Ancient Greek I

GLS 2800	Introduction to Global Issues and Institutions	
GLS 3410	Global Health	
GLS 3700	Globalization: Theories, Practices, Implications	
PS 2710	Introduction to Comparative Politics	
PS 3710	Politics of Western Europe	
PS 5710	Politics of Europe and the European Union	
Total Credits		22-24

Students who place out of any of the GKM language sequence courses by exam must fulfill the corresponding credits in GKM at the 3000 level or above.

Israeli Studies Minor

A minor in Hebrew consists of eighteen credits.

Code	Title	Credits
HEB 1010	Elementary Hebrew I	4
HEB 1020	Elementary Hebrew II	4
NE 2060	Hebrew/Israeli Film: Trends and Themes in Israeli Cinema	3
NE 3040	Twentieth Century Middle East	3
NE 3225	Modern Israeli Culture: A Pluralistic Perspective	3

NE 3990	Directed Study	1
or		
NE 5990	Directed Study	
Total Credits		18

Italian Minor

A minor in Italian can be completed with eighteen credits of course work beyond the basic language sequence (ITA 1010, ITA 1020, and ITA 2010).

Code	Title	Credits
ITA 2020	Italian through Film	3
Select fifteen additional credits in Italian ¹		15
Total Credits		18

¹ At least one 5000 or 6000 level course in Italian is required.

Latin Minor

A minor in Latin consists of twenty credits.

Code	Title	Credits
16 credits of LAT courses, excluding LAT 1010 and LAT 1020		16
Select one of the following:		3
CLA 3700	The Golden Age of Rome	
CLA 3825	Survey of Latin Literature	
Total Credits		19

Near Eastern Studies Minor

A minor in Near Eastern Studies consists of seventeen credits.

Code	Title	Credits
Select nine credits in NE courses beyond NE 1900		9
Select eight credits in Arabic or Hebrew courses beyond ARB 1020 or HEB 1020		8
Total Credits		17

Polish Minor

Students wishing to obtain a minor in Polish shall complete:

Code	Title	Credits
POL 2060	Composition and Conversation	4
POL 3000	Polish Grammar and Usage	4
POL 3030	Language Skills: Advanced Speaking and Writing	2-4
POL 2710	Survey of Polish Culture	3
Select one of the following:		3-4
SLA 2310	Short Fiction from Central Europe and Russia	
SLA 3710	Russian and East European Film	
POL 3750	Polish and Yugoslavian Cinema	
or POL 3800 Topics in Slavic Studies		
Total Credits		16-19

Russian Minor

Students wishing to obtain a minor in Russian shall complete:

Code	Title	Credits
RUS 2020	Intermediate Russian II	4
RUS 3010	Intermediate-Advanced Russian I	4
RUS 3020	Intermediate-Advanced Russian II	4
RUS 2710	Introduction to Russian Culture	3
Select 3-4 credits of the following:		3-4
RUS 2030	Russian Conversation	
RUS 3600	Nineteenth Century Russian Literature	
RUS 2991	Understanding the Fairy Tale	
RUS 3010	Intermediate-Advanced Russian I	
RUS 3020	Intermediate-Advanced Russian II	
RUS 3050	Russian Practicum	
RUS 3070	Russian Listening Comprehension II	
RUS 3250	Reading Russian	
RUS/SLA/ POL/ARM 3410	New Soil, Old Roots: The Immigrant Experience	
RUS 3650	Russian Literature Since 1900	
RUS/SLA/POL 3700	The Changing Face of Europe	
RUS 3810/ SLA 3800	Topics in Slavic Studies	
SLA 2310	Short Fiction from Central Europe and Russia	
SLA 3710	Russian and East European Film	
SLA 3750	Polish and Yugoslavian Cinema	
Total Credits		18-19

Spanish Minor

Requirements: A minor in Spanish requires the completion of 18 credits beyond SPA 2010:

Code	Title	Credits
SPA 3300	Introduction to Cultural and Literary Analysis	3
Select five other courses from the following (with guidance of undergraduate advisor):		15
SPA 2025	Cultural Connections, Grammar and Composition I	
SPA 3025	Cultural Connections, Grammar and Composition II	
SPA 3040	Commercial Spanish	
SPA 3050	Spanish for the Health Care Profession	
SPA 3200	Conversation	
SPA 5100	Advanced Composition	
SPA 5200	Spanish Phonetics	
SPA 5300	Advanced Grammar and Stylistics	
SPA 5400	Introduction to Professional and Literary Translation	
SPA 6400	Introduction to Hispanic Linguistics	
SPA 5550	Spanish Culture and Its Tradition	
SPA 5560	Spanish American Cultures and their Traditions	
SPA 5570	Topics in Hispanic Culture or Language	
SPA 4610	Introduction to Early Modern Spanish Literature	
SPA 4620	Introduction to Modern and Contemporary Spanish Literature	
SPA 4630	Introduction to Colonial Latin American Literature	
SPA 4640	Introduction to Modern and Contemporary Latin American Literature	

Communication Sciences and Disorders

Office: 103 Prentis Building; 313-577-3339

Chairperson: Margaret Greenwald

Graduate Officer: Derek Daniels

Undergraduate Advisor: Faith Williams

Clinical Program Coordinators: Karen S. O'Leary, Mary Kassa

<http://www.clas.wayne.edu/csd> (<http://www.clas.wayne.edu/CSD/>)

This department offers courses related to the study of communication and communication disorders and sciences. Specialized coursework prepares students to work with speech-language and hearing disabled children and adults in a variety of settings, including public schools, hospitals, clinics, rehabilitation centers and private practice. College teaching and research are also career possibilities.

Initial questions about the major should be directed to the Undergraduate Advisor, 103 Prentis Building (313-577-3339).

- Communication Sciences and Disorders (B.A.) (p. 282)
- Communication Sciences and Disorders Minor (p. 283)

Communication Sciences and Disorders (B.A.)

This department offers courses related to the study of communication and communication disorders and sciences. Specialized coursework prepares students to work with speech-language and hearing disabled children and adults in a variety of settings, including the public schools, hospitals, clinics, rehabilitation centers and private practice. College teaching and research are also career possibilities.

Undergraduate students in this specialization should note that graduate study is required for clinical certification by the American Speech-Language-Hearing Association (ASHA). A master's degree is required for speech-language pathologists and a doctoral degree is required for audiologists. Study in this major at the undergraduate level provides a scientific foundation for graduate study in both audiology and speech-language pathology as well as other science and health professions.

Students interested in pursuing doctoral study should contact the graduate officer.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses.

It is expected that a major will complete at least thirty-three credits in SLP and AUD course work. Any credits elected over the maximum forty-six must have prior approval of both advisor and Chairperson if the additional credits are to count toward the degree (120 credits). A proper distribution of courses approved by the student's advisor is important. It

is desirable that students intending to major in communication sciences and disorders begin their work in the Department in their sophomore year. Courses in the major should be selected in consultation with a Departmental undergraduate advisor. Students are encouraged to begin consulting with the undergraduate advisor during their freshman year. The declaration of major form should be completed as soon as possible in their undergraduate program. In addition, students should see the department advisor to discuss grade point average (GPA) policies and the course sequence. The Department allows one repeat of undergraduate courses. The specific courses that can be repeated depend on whether the student has met the GPA requirements.

Major Requirements for a Bachelor of Arts degree in this discipline consist of the following courses:

Code	Title	Credits
SLP 5080	Phonetics	3
SLP 5090	Anatomy and Physiology of the Speech Mechanism	3
SLP 5120	Speech Science	3
SLP 5300	Introduction to Speech-Language Pathology	3
SLP 5310	Clinical Methods in Communication Disorders	3
SLP 5320	Normal Language Acquisition and Usage	3
SLP 5360	Clinical Practice in Speech-Language Pathology	3
SLP 6460	Language and Phonological Disorders	3
SLP 6480	Organic and Fluency Disorders	3
AUD 5400	Introduction to Audiology	3
AUD 5420	Introduction to Aural Rehabilitation	3
Total Credits		33

It is departmental policy that a student who earns a grade of C or below in two or more of the CSD foundation courses (SLP 5300, SLP 5320, SLP 5080, SLP 5090, and AUD 5400) will not be allowed to register for advanced coursework. Departmental permission is required to register for the six advanced courses in the major which are:

Code	Title	Credits
SLP 5120	Speech Science	3
SLP 5310	Clinical Methods in Communication Disorders	3
SLP 5360	Clinical Practice in Speech-Language Pathology	3
AUD 5420	Introduction to Aural Rehabilitation	3
SLP 6460	Language and Phonological Disorders	3
SLP 6480	Organic and Fluency Disorders	3

Students will not be granted permission to register for the advanced coursework unless they have and maintain an overall 2.75 GPA, and maintain a 3.0 GPA within the major coursework. Students who do not meet these requirements will not be able to complete the major courses required to earn the Bachelor of Arts in Communication Sciences and Disorders. In addition, in order to meet certification requirements of the American Speech-Language-Hearing Association after graduate school, it is strongly recommended that all undergraduate majors complete the following courses:

Code	Title	Credits
STA 1020	Elementary Statistics	3
PHY 1020	Conceptual Physics: The Basic Science	4
or CHM 1000	Chemistry and Your World	
BIO 1050	An Introduction to Life (with laboratory)	4
or BIO 1030	Biology Today	
PSY 1010	Introductory Psychology (with laboratory)	4

or PSY 1020	Elements of Psychology	
SOC 1010	Understanding Human Society	3
or ANT 1100	Introduction to Anthropology	
Transfer equivalents		

It is Departmental policy that a student may earn no more than one grade of C or below in the CSD foundation courses (SLP 5300, SLP 5320, SLP 5080, SLP 5090, and AUD 5400). If two or more grades of C or below are earned, students will not be allowed to register for advanced coursework. Students must also have and maintain an overall GPA of 2.75 and major GPA of 3.0 to register for advanced coursework in any given semester.

ALSO NOTE: Department permission is required to register for advanced courses (SLP 5120, SLP 5310, SLP 6460, SLP 6480 and AUD 5420). Students will be granted permission to register only if they maintain a GPA of 3.0 for courses in the major and an overall GPA of 2.75.

Communication Sciences and Disorders Minor

The minor in Communication Sciences and Disorders will provide students with a foundation in the science of human communication and communication disorders across the life span. The minor requires a minimum of 18 credits.

Code	Title	Credits
Requirements		
SLP 5080	Phonetics	3
SLP 5090	Anatomy and Physiology of the Speech Mechanism	3
SLP 5300	Introduction to Speech-Language Pathology	3
SLP 5320	Normal Language Acquisition and Usage	3
AUD 5400	Introduction to Audiology	3
SLP 3990	Directed Study	3
Total Credits		18

Computer Science (B.A.)

The Bachelor of Arts curriculum is designed to provide a strong academic foundation in both the principles and methodologies of computer systems, software development, and programming that are necessary to solve real-world problems. Students planning to earn a graduate degree in computer science are strongly advised to seek the Bachelor of Science degree in computer science (p. 175) offered by the College of Engineering.

Admission Requirements

An admissions moratorium is in effect for this program. Interested students should contact an undergraduate advisor in the Department of Computer Science.

Academic Regulations

Academic Probation: A student is considered to be on academic probation whenever his or her cumulative grade point average, or his or her grade point average in the computer science program, falls below 2.0. A student may also be placed on probation whenever his or her academic performance is deemed unsatisfactory. If, at the end of the first semester on probation, the student's cumulative grade point average has not increased to at least 2.0, he or she will be excluded from the Department of Computer Science. If the student's cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, he or she will be returned to regular status. Following exclusion

from the Department of Computer Science, the privilege of registering in the Department will be withheld for at least one calendar year.

Exclusion: A student who has been refused the privilege of registering in the Department may request a reconsideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to request a meeting with the ASC as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the Department of Computer Science guaranteed.

Repeated Courses and Substandard Grades: Students will be allowed up to a maximum of five repeated courses, one repeated course for a substandard grade. If a student must repeat a subsequent course in order to complete their degree, he or she will be excluded from the Department of Computer Science (i.e., students must complete a course within three attempts). Prerequisite math and science courses that do not satisfy degree requirements, but are required if students did not place into MAT 2010, are also counted toward exclusion from the Department. A substandard grade is defined as a grade lower than the minimum requirement (i.e., a grade of C-minus in CSC 1100/1101, or a WP/WF/WN).

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Course Requirements

(Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their corequisite lecture.)

Code	Title	Credits
MAT 2010	Calculus I	4
STA 2210	Probability and Statistics	4
or BE 2100	Basic Engineering III: Probability and Statistics in Engineering	
CSC 1100	Problem Solving and Programming	3
CSC 1101	Problem Solving and Programming Laboratory	1
CSC 1500	Fundamental Structures in Computer Science	3
CSC 1501	Fundamental Structures in Computer Science Lab	1
CSC 2110	Computer Science I	3
CSC 2111	Computer Science I Lab	1
CSC 2200	Computer Science II	3
CSC 2201	Computer Science II: Lab	1
CSC 3010	Ethics in Computer Science	3
CSC 3100	Computer Architecture and Organization	3
CSC 3101	Computer Architecture and Organization: Lab	1
CSC 4110	Software Engineering	3
CSC 4111	Software Engineering: Lab	1
CSC 4420	Computer Operating Systems	3
CSC 4421	Computer Operating Systems: Lab	1
CSC 4996	Senior Capstone Project	3
CSC 4997	Senior Project Lab	1

Four additional Computer Science courses of at least three credits each, numbered 3000 or above¹

¹ excluding CSC 4990 and CSC 4995

A minimum of twenty-six credits in computer science must be earned at Wayne State University.

A minimum grade of C is required for the following respectively:

Code	Title	Credits
CSC 1100	Problem Solving and Programming	3
CSC 1101	Problem Solving and Programming Laboratory	1
CSC 1500	Fundamental Structures in Computer Science	3
CSC 1501	Fundamental Structures in Computer Science Lab	1
CSC 2110	Computer Science I	3
CSC 2111	Computer Science I Lab	1
CSC 2200	Computer Science II	3
CSC 2201	Computer Science II: Lab	1

A minimum grade of C- is required for all other CSC and MAT courses.

Students declaring their major should consult an advisor for a written assessment of current requirements.

Criminology and Criminal Justice

Office: 3054 Faculty/Administration Building; 313-577-2705

Chairperson: Shanhe Jiang

Undergraduate Director: Charles Klahm IV

Academic Services Officer/Advisor: Marianka Holloway

Academic Advisor III: Alicia Ortez

<http://www.clas.wayne.edu/CRJ> (<http://www.clas.wayne.edu/CRJ/>)

Criminal Justice is society's primary formal means of social control. Generally, it is the practice of public and private agencies and groups that deter crime and delinquency, and that prosecute, defend, adjudicate, punish, and correct suspects and convicted offenders. The core of the criminal justice system is comprised of law enforcement agencies, prosecutors, defense attorneys, courts, and correctional agencies. This system enforces federal and state laws and is part of a larger administration of justice complex, involving court administration, juvenile justice, and private security.

The study of criminal justice begins with analysis of the entire justice system as a force for social order. Advanced study inquires into the political, organizational, social and behavioral aspects of its components. Students develop analytical and research skills that enable them to identify and assess the often conflicting objectives of criminal justice and investigate basic issues and practical problems in criminology and criminal justice. Legal courses foster an awareness of the values of due process and the limits of governmental power in a democratic society.

The department advances a multidisciplinary understanding of the sources of criminal behaviors, including perspectives from criminology, psychology, and sociology. The curriculum exposes students to knowledge of the major types of crime, including crimes of violence, property crimes, public order crimes, sexual crimes, organized crimes, delinquent offenses, and other types of crimes. Innovative and theoretically based programs in the criminal justice system to reduce the incidence of crime are also examined.

Career opportunities in criminal justice professions include roles as police officers, supervisors, and executives; criminal justice investigators, working for public defenders, prosecutors, fire departments, and insurance companies, correctional officers, probation officers, parole

officers, and community corrections specialists, for whom a college degree is often mandatory. Other specialized roles in criminal justice include juvenile intake officers, juvenile probation officers, volunteer administrators, criminologists, forensic psychologists, medical examiners, and policy analysts.

- Criminal Justice (B.S.) (p. 284)
- Criminal Justice Minor (p. 285)
- Forensic Investigation and Policing Minor (p. 286)

Criminal Justice (B.S.)

The Bachelor of Science program is structured to provide students with a multidisciplinary understanding of crime and justice within the framework of broader social processes. Required courses expose a criminal justice major to all aspects of the justice system and foster a systemic view rather than a specialization in a single component of this field. Within this broad framework, courses deal with specific substantive topics. Practical field experience can be arranged under the guidance of the internship coordinator.

The curriculum is designed to offer students a comprehensive education by providing a fundamental understanding of crime causation and the criminal justice system, together with the skills and knowledge useful in pursuing professional careers. Analytical and writing skills are developed so as to prepare students for roles in today's criminal justice agencies. Police departments, correctional facilities, and court administrators' offices require an increasing number of personnel with quantitative analytical abilities, computer skills, personal interaction skills, excellent command of English, knowledge of foreign languages, and the ability to understand legal materials.

Core Criminal Justice Courses include classes on theories of criminal behavior, criminal procedure, criminal justice institutions, criminal justice research methods, and the criminal justice process. These core courses are designed to acquaint students with problems of crime and deviance in American society, the major public institutions which deal with these problems, the legal foundation of criminal justice, and analytic research methods used to better understand the social and behavioral realities of criminal justice. Criminal justice majors must maintain a minimum 2.0 grade point average overall and in the major.

Criminal Justice Electives: A minimum of twelve credits must be selected for concentrated elective course work in the criminal justice field. The approved criminal justice electives provide a structured set of rigorous upper-division courses which are relevant to: 1) a deeper understanding of the justice process and 2) knowledge and skills in specific career areas in the field.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. It is recommended that students complete much of the General Education Requirements *before* they initiate Criminal Justice major course work.

Major Requirements

It is the student's responsibility to meet with a Criminal Justice Academic Advisor to officially declare their Major and to identify all major and degree requirements.

Code	Title	Credits
Required Core Courses		
CRJ 1010	Introduction to Criminal Justice	3
CRJ 3200	Police and Society	4
CRJ 3350	Corrections	4
CRJ 3550	Research Methods in Criminal Justice	4
CRJ 3800	Criminological Theories	4
CRJ 4740	Constitutional Criminal Procedure	4
Select one of the following process courses:		
CRJ 3400	Juvenile Delinquency and Justice	4
or CRJ 3700	The Judicial Process	
Approved Electives		
Select a minimum of twelve credits of the following:		12
CRJ/SOC 2204	Outsiders and Deviants	
CRJ 2550	Race, Crime and Justice	
CRJ/GSW 2650	Gender and Crime	
CRJ/GSW 2750	Diversity Issues in Criminal Justice	
CRJ/PH 3050	Mental Health and Crime	
CRJ 3110	Domestic Violence and Criminal Justice	
CRJ/PS 3120	Politics of the Criminal Justice Process	
CRJ 3260	Investigation	
CRJ 3400	Juvenile Delinquency and Justice	
CRJ 3700	The Judicial Process	
CRJ 3710	Legal Writing for Criminal Justice	
CRJ 3900	Comparative Criminal Justice	
CRJ 4050	Crime and Public Health	
CRJ 4220	Criminalistics	
CRJ 4310	Correctional Counseling Methods	
CRJ 4970	Internship in Criminal Justice	
CRJ 4990	Directed Study	
CRJ 4998	Honors Thesis in Criminal Justice	
CRJ 5500	Child Abuse and Neglect	
CRJ/SOC 5810	Law in Human Society	
CRJ 5994/ PCS 5000/ PSY 5710/ PS 5890	Dispute Resolution	
CRJ 5995	Special Topics in Criminal Justice	
CRJ 5996	Special Topics in Criminology	
CRJ 5997	Special Topics in Law and the Legal System	
Total Credits		39

Residency Requirements

A minimum of sixteen of the twenty-seven credits in Criminal Justice Core courses and four of the twelve credits in Criminal Justice Elective courses must be earned at Wayne State University.

Transfer Credit

Students should visit the transfer credit website (<http://www.transfercredit.wayne.edu>) and consult with the Criminal Justice

Academic Advisor to determine the applicability of transfer credits toward the major.

Criminal Justice Honors (B.S. Program)

The Honors Program in Criminal Justice is open to students of superior academic ability who are majoring in criminal justice. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated course work from various departments in the College of Liberal Arts and Sciences, including honors requirements within Criminal Justice and at least one 4000-level Honors College seminar. The Honors student must complete an original Honors Thesis during the senior year. For information about the requirements of the department's honors curriculum, contact the Criminal Justice Honors Director or Academic Services Officer (313-577-0772).

Pre-Law Advising and Curriculum

Students considering legal careers and wishing to major or minor in criminal justice should notify their Criminal Justice Academic Advisor at the beginning of their junior year. For non-majors wishing to take a pre-law sequence of courses in criminal justice, the following are recommended:

Code	Title	Credits
CRJ 1010	Introduction to Criminal Justice	3
CRJ 3260	Investigation	3
CRJ 3700	The Judicial Process	4
CRJ 3710	Legal Writing for Criminal Justice	4
CRJ 4740	Constitutional Criminal Procedure	4
CRJ 5997	Special Topics in Law and the Legal System	3
Total Credits		21

Graduate Study

Graduating seniors who are planning graduate study in criminal justice may qualify to complete approved course work toward the Master of Science in Criminal Justice degree under the AGRADE or the Senior Rule provision.

Senior Rule Study

Minimum requirements for Senior Rule study include: a 3.0 grade point average for the junior and senior years of study, and at least one (but not more than ten) credits remaining to be completed for the undergraduate degree. Additional limitations and requirements apply for this status and for continuing graduate study in criminal justice. Interested seniors should consult with their Academic Advisor for further information.

'AGRADE' Program (Accelerated Graduate Enrollment)

The College of Liberal Arts and Sciences Accelerated Graduate Enrollment (AGRADE) Program allows qualified seniors to apply a maximum of fifteen credits toward both the Bachelor of Science and Master of Science in Criminal Justice degrees. Qualifications for AGRADE include Senior status and a minimum major g.p.a. of 3.6. For additional eligibility information, interested students should contact the Criminal Justice Academic Services Officer (313-577-0772).

Criminal Justice Minor

The Department offers a minor in Criminal Justice for which the notation of a minor appears on the student's transcript. The required Criminal Justice courses are:

Code	Title	Credits
CRJ 1010	Introduction to Criminal Justice	3
CRJ 3200	Police and Society	4
CRJ 3350	Corrections	4
CRJ 3700	The Judicial Process	4
CRJ 4740	Constitutional Criminal Procedure	4
Criminal Justice Elective		3-4
Total Credits		22-23

Students wishing to minor in criminal justice are encouraged to visit the Departmental Offices for information and advising. A minor must be declared prior to filing for graduation.

Forensic Investigation and Policing Minor

The Forensic Investigation and Policing minor is 23- 24 credits of coursework, of which a maximum of 6 credits can be transferred from other institutions for the CRJ courses only.

Code	Title	Credits
CRJ 1010	Introduction to Criminal Justice	3
CRJ 3200	Police and Society	4
CRJ 3260	Investigation	3
CRJ 4220	Criminalistics	4
MS 4011	Interview and Interrogation Techniques	3
MS 5011	Forensic Investigation of Firearms, Ballistics, and Explosives	4
Students must choose at least one of the following courses:		2-3
MS 4010	Forensic Laboratory Standards	
MS 5010	Forensic Analysis	
Total Credits		23-24

Digital Humanities Minor

The Digital Humanities minor is open to any student interested in the intersection of digital technology and humanities/social science research. The minor requires a minimum of fifteen credits, distributed as follows:

Code	Title	Credits
Required Course		3
ENG/HIS 2435	Introduction to Digital Humanities	
Skills Courses (select two of the following)		6
ISM 5570	Data Mining and Analytics	
ISM 5705	Inbound Information Technology	
ISM 5670	Special Topics in Information Systems *	
ISM 5994	Software Tools for Business Applications	
MKT 5800	Digital Marketing and Analytics	
CSC 1050	Introduction to C and Unix	
CSC 1100	Problem Solving and Programming	
CSC 2000	Introduction to C++ Programming Language	
CSC 3020	Java Programming	
ADA 2210	Introduction to Digital Practices	
ADA 3220	Introduction to Interactivity in Graphic Arts	
ADA 4240	Advanced Interactivity: Experimental Video Games	
AGD 2230	Introduction to Typography: Skills and Concepts	

AGD 2240	Introduction to Graphic Design: Skills and Concepts	
AGD 3260	Introduction to Interactivity in Graphic Arts	
COM 1610	Fundamentals of New Media Production	
COM 2260	Digital Writing and Research Methods	
COM 2290	Fundamentals of New Media Communication	
COM 2310	Introduction to Web Design	
COM 5390	Digital Animation	
GPH 3600	Introduction to Geographic Information Systems	
GPH 4600	Advanced Geographic Information Systems	
Elective courses (select two of the following)		6
ANT 5565	Urban Archaeology	
COM 5280	New Media Practices	
COM 5010	History of Communication Technologies	
COM 5500	Journalism and New Media	
COM 6270	New Media Theory	
ENG 2430	Digital Narrative	
ENG 5020	Topics in Media and Modern Culture	
ENG 5690	History and Future of the Book	
HIS 3995	Special Topics in History *	
HIS/ANT 4993	History Communication	
Total Credits		15

* Should be chosen in consultation with an advisor.

Economics

Office: 2074 Faculty/Administration Building; 313-577-3345

Chairperson: Kevin Cotter

Administrative Assistant II: Geraldine White

Academic Advisor: Alicia M. Ortez

<http://www.clas.wayne.edu/Economics/>

Economics is the study of how individuals and societies allocate limited resources to try to satisfy unlimited wants; it is therefore a study of choices. Households and business firms must decide what and how much to consume or produce and how much labor, land and capital to supply. Governments make decisions affecting inflation and unemployment, taxation and expenditures, the monetary system and international trade. Together these public and private choices determine the nation's prosperity and shape the distribution of its wealth. Since every social relationship has economic aspects, an understanding of economic principles and systems is an integral part of a liberal education.

Economics majors have a wide choice of careers. Many supplement their major with cognate courses to prepare for careers in business, journalism, health care administration or public service. Others find it excellent preparation for law school. Ph.D. graduates in economics are in demand at universities, corporations, financial institutions and government agencies. M.A. graduates may teach at junior colleges but more typically go into business or public service.

- Economics (B.A.) (p. 286)
- Mathematical Economics (B.A.) (p. 287)
- Economics Minor (p. 288)

Economics (B.A.)

Economics is the study of how individuals and societies allocate limited resources to try to satisfy unlimited wants; it is therefore a study of choices. Households and business firms must decide what and how much to consume or produce and how much labor, land and

capital to supply. Governments make decisions affecting inflation and unemployment, taxation and expenditures, the monetary system and international trade. Together these public and private choices determine the nation's prosperity and shape the distribution of its wealth. Since every social relationship has economic aspects, an understanding of economic principles and systems is an integral part of a liberal education. Economics majors have a wide choice of careers. Many supplement their major with cognate courses to prepare for careers in business, journalism, health care administration or public service. Others find it excellent preparation for law school.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. The Economics Department assumes that students taking economics courses have had at least two years of high school-level algebra and one year of geometry.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students considering an economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) as soon as possible. They should also pass MAT 1800 prior to the junior year or demonstrate eligibility for MAT 2010 in the Mathematics Placement Examination.

A major consists of at least thirty-two credits in economics courses including:

Code	Title	Credits
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
ECO 5000	Intermediate Microeconomics	4
ECO 5050	Intermediate Macroeconomics	4
ECO 5100	Introductory Statistics and Econometrics	4
ECO 5993	Writing Intensive Course in Economics	0
Select at least three courses in two or more economics field C to H ¹		12
Total Credits		32

¹ Economics courses are listed by field in the department's undergraduate course list (p.).

The Department recommends that majors complete all of these courses by the end of their junior year. At least sixteen credits in economics must be earned at Wayne State University.

Each student should choose the economics electives best suited to his/her intellectual and professional aims.

To satisfy the General Education Major Competency Requirement, Economics majors must have a cumulative grade point average of 2.0 in their economics courses.

Minimal Grade Requirements

The following courses must be passed with a grade of C or better in order to be applicable as economics major credit:

Code	Title	Credits
MAT 1800	Elementary Functions	4
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
ECO 5000	Intermediate Microeconomics	4
ECO 5050	Intermediate Macroeconomics	4
ECO 5100	Introductory Statistics and Econometrics	4

A grade of C-minus or better must be achieved for the three field course electives.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, economics majors must register for ECO 5993, the zero-credit WI course. All economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Combined Curriculum for Teaching Certificate

Economics majors wishing to enter secondary teaching should see the Secondary Education Curriculum guide for the procedures for combining a degree in Liberal Arts with a teaching certificate. Students must complete the Economics major requirements as part of their program of study.

Economics Honors (B.A. Program)

Economics majors with strong academic records and an interest in research are urged to apply to the Departmental undergraduate advisor for admission to the Honors Program. Applicants should have overall grade point averages of 3.3 or above.

In addition to the Bachelor of Arts requirements cited above, honors majors must take ECO 4997 (Senior Honors Research) during their last semester before graduation and therefore completing thirty-six credits in economics courses. In this seminar they will conduct research under the close supervision of an Economics faculty member. The results of this research are written as an honors thesis, the length of which depends on the nature of the research project.

Honors majors also must elect at least one 4200-level seminar offered by the Honors College. Finally, the student must accumulate at least fifteen credits in honors-designated course work, including ECO 4997 and the Honors College Seminar. These honors credits need not all be in the Economics Department. Those who successfully complete these requirements and finish their undergraduate course work with an overall grade point average of 3.3 or above will graduate with the degree designation 'With Honors in Economics'.

'AGRADE' Program (Accelerated Graduate Enrollment)

The Economics Department actively participates in the 'AGRADE' Program, which enables qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College, and to apply a maximum of sixteen credits toward both an undergraduate and graduate degree in economics. Students interested in 'AGRADE' should contact the Director of Undergraduate Studies: 313-577-3345.

Mathematical Economics (B.A.)

The purpose of the program is to provide rigorous training in mathematics and economics for students whose career goals require a

high level of technical proficiency in these subjects. The program will be valuable for students who intend to pursue graduate work in economics, finance or applied mathematics, or pursue a career in economic analysis, finance, underwriting, actuarial sciences, banking, international trade, applied statistics, or operations research.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students considering a mathematical economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) and MAT 2010 (Calculus 1) as soon as possible.

To satisfy the university bachelor's degree requirement, Mathematical Economics majors must have a cumulative grade point average of 2.0 in their major courses. Also, students must receive a grade of 'C-' or better in all mathematics, statistics and economics courses.

A major consists of at least forty-six credits total - at least twenty-two credits in mathematics courses and twenty-four credits in economics courses. At least fifteen credits (eight credits of economics and seven credits of math) must be earned at Wayne State University.

Code	Title	Credits
Economics Requirements		
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
ECO 5000	Intermediate Microeconomics	4
ECO 5050	Intermediate Macroeconomics	4
ECO 6000	Price and Allocation Theory	4
Select one of the following: ¹		4
ECO 5020	Fundamentals of Economic Analysis I	
ECO 5030	Microeconomic Theory	
ECO 5100	Introductory Statistics and Econometrics	
ECO 5230	Environmental Economics	
ECO 5250	Economic Analysis of Law	
ECO 5260	Economic Analysis of Law II: Applications of Statistics and Econometrics	
ECO 5270	Games of Strategy	
ECO 5300	International Trade	
ECO 5500	Public Finance	
ECO 5560	Pharmaceutical Economics	
ECO 5700	Money and Banking	
ECO 6050	Macroeconomics	
ECO 6100	Introduction to Econometrics	
ECO 5993	Writing Intensive Course in Economics (This course is taken in conjunction with an approved 5000-level economics, mathematics or statistics elective course.) ³	0
Mathematics Requirements		
MAT 2010	Calculus I	4

MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
MAT 5700	Introduction to Probability Theory	4
One MAT or STA course at or above 5030. Recommended courses are: ^{1,2}		3-4
STA 5030	Statistical Computing and Data Analysis	
MAT 5100	Numerical Methods I	
MAT 5210	Advanced Calculus	
MAT 5220	Partial Differential Equations	
MAT 5230	Complex Variables and Applications	
MAT 5280	Methods of Differential Equations	
MAT 5710	Introduction to Stochastic Processes	
MAT 5750	Mathematics of Finance	
MAT 5770	Mathematical Models in Operations Research	
MAT 5870	Methods of Optimization	
STA 5800	Introduction to Mathematical Statistics	
Total Credits		46-47

- ¹ This course could be done in conjunction with ECO 5993.
- ² Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200 and MAT 6210.
- ³ This is a paper completed in conjunction with an approved 5000-level economics, mathematics or statistics elective course. You must register for this course during the same semester that the 5000-level elective taken. Permission from the instructor is required.

Minimal Grade Requirements

Students must receive a grade of 'C-' or better in all economics, mathematics and statistics courses. An overall grade point average of 2.0 ('C') is required for graduation.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, mathematical economics majors must register for ECO 5993, the zero-credit WI course. This is a paper completed in conjunction with a 5000-level economics, mathematics or statistics elective course. They must register for this during the same semester that the 5000-level elective course is taken. All mathematical economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Student's Responsibility

It is each student's responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult both Mathematical Economics program advisors regularly in order to verify that Mathematical Economics requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Economics Minor

A minor in economics requires the completion of the following course work. Twelve credits must be taken at Wayne State University. Students must maintain a cumulative g.p.a. of 2.0 or better in the Economics courses.

Code	Title	Credits
MAT 1800	Elementary Functions ¹	4
ECO 2010	Principles of Microeconomics ¹	4
ECO 2020	Principles of Macroeconomics ¹	4
Three ECO courses at the 5000-level or above ²		12
Total Credits		24

¹ Must be passed with a grade of C or better.

² ECO 5000, 5050, and 5100 must be passed with a grade of C or better (if included in the minor).

Employment and Labor Relations

Office: 255 Walter P. Reuther Library

313-577-5382 or 313-577-0175

<http://clas.wayne.edu/labor/Bachelor-of-Employment-and-Labor-Relations> (<http://clas.wayne.edu/labor/Bachelor-of-Employment-and-Labor-Relations/>)

The Employment and Labor Relations major provides students with the opportunity to develop the critical skills necessary to analyze employment and workplace issues. An interdepartmental program, employment and labor relations examines the social, political and economic dimensions of these issues in the context of a broad liberal arts education. Students become familiar with employment and labor law, human resource management, compensation and benefits, and techniques associated with the resolution of conflict in the workplace. Students prepare for careers in business, government, nonprofits (including the healthcare sector), and labor unions. The program is also good preparation for pursuing a professional degree in business or law.

- Employment and Labor Relations (B.A.) (p. 289)

Employment and Labor Relations (B.A.)

The Employment and Labor Relations major provides students with the opportunity to develop the critical skills necessary to analyze employment and workplace issues. An interdepartmental program, employment and labor relations examines the social, political and economic dimensions of these issues in the context of a broad liberal arts education. Students become familiar with employment and labor law, human resource management, compensation and benefits, and techniques associated with the resolution of conflict in the workplace. Students prepare for careers in business, government, nonprofits (including the healthcare sector), and labor unions. The program is also good preparation for pursuing a professional degree in business or law.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Code	Title	Credits
Required Core Courses		
ECO 5480	Economics of Work	3

HIS 5290	American Labor History	4
ELR 2500	Introduction to Labor Studies	4
ELR 4700	Senior Seminar	3
PSY 2100	Psychology and the Workplace	3
PS 6070	Labor and American Politics	3

Applied and Specialized Curriculum

Select four of the following: 12

ANT 3150	Anthropology of Business
ECO 5400	Labor Economics
HIS 3360	Black Workers in American History
ELR 4500	Applied Labor Studies (twelve credits may be elected as: Labor Relations: 3 cr.; Collective Bargaining: 3 cr.; Labor Law: 3 cr.; and Labor, Politics and Public Policy: 3 cr.)
MGT 5700	Human Resource Management
MGT 5740	Collective Bargaining
PSY 5710	Dispute Resolution
PSY 6550	Training and Employee Development
PS 3020	Political Parties and Elections
PS 3030	Political Interest Groups
PS 3040	The Legislative Process
SOC 2203	Social Psychology
SOC 2300	Social Inequality
SOC 5700	Seminar in Social Inequality

Total Credits 32

Students are referred to the program director for information concerning courses, directed study, internships, career information, and graduate study.

<http://clas.wayne.edu/english/>

Building upon the cultural diversity and urban experience that distinguishes Wayne State University, the English Department's mission is to provide its students with the intellectual knowledge and practical tools to thrive in an increasingly diverse and interconnected world, by teaching them to understand the power and influence of literature and other forms of textual and media production, circulation, and interpretation; and by imparting skill and fluency in close reading, critical thinking, rhetorical analysis, and writing in multiple genres. The English major curriculum is designed to introduce students to these skills and to provide a challenging and flexible liberal arts education as well as a pre-professional program for students interested in careers in education, law, business, and other professions.

or details on Mathematics course placement, please see the English Placement Information (p. 290) section of this bulletin.

- English (B.A.) (p. 290)
- English Minor (p. 292)
- Film Studies (B.A.) (p. 291)
- Film and Media Studies Minor (p. 292)

- Creative Writing Minor (p. 292)
- Professional Writing Minor (p. 293)

English Placement Information

The American College Test (ACT) score in English or the Scholastic Aptitude Test (SAT) score in Writing is used to determine placement into the appropriate basic composition course, either ENG 1010 or ENG 1020.

ACT English Score

- 21 or higher = placement into ENG 1020
- 20 or below = placement into ENG 1010

SAT Evidence-Based Reading and Writing Score (new)

- 520 or higher = placement into ENG 1020
- 510 or below = placement into ENG 1010

SAT Writing Score (old)

- 480 or higher = placement into ENG 1020
- 470 or below = placement into ENG 1010

The ACT or SAT score may not be from an exam taken more than three years prior to enrollment in the course. If a student has more than one valid ACT and/or SAT test score, the score that produces the highest placement will be used. Any student placing into ENG 1010 via the ACT or SAT may take the English Qualifying Exam if he/she wishes to attempt placement into ENG 1020. Students who have not taken the ACT or SAT, or have ACT or SAT scores more than three years old, must take the English Qualifying Exam to determine course placement. Those students who have received transfer credit for WSU ENG 1020, or credit for WSU ENG 1020 through the Advanced Placement or College-Level Examination Programs, do not need to take the exam.

Prerequisite statements in the bulletin include WSU conversions for ACT and SAT scores. A score of 1 leads to placement in ENG 1010, and a score of 2 leads to placement in ENG 1020.

For more information, please refer to the Office of Testing, Evaluation and Research Services (<http://testing.wayne.edu/register/english-qualifying-exam.php>).

English (B.A.)

Building upon the cultural diversity and urban experience that distinguishes Wayne State University, the English Department's mission is to provide its students with the intellectual knowledge and practical tools to thrive in an increasingly diverse and interconnected world, by teaching them to understand the power and influence of literature and other forms of textual and media production, circulation, and interpretation; and by imparting skill and fluency in close reading, critical thinking, rhetorical analysis, and writing in multiple genres. The English major curriculum is designed to introduce students to these skills and to provide a challenging and flexible liberal arts education as well as a pre-professional program for students interested in careers in education, law, business, and other professions.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of

the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete twelve English courses beyond the University General Education Competency Requirement and Liberal Arts and Sciences Group Requirements. Ten of these courses must be beyond the 2000-level. Specific requirements are as follows:

Code	Title	Credits
Survey courses		
Select one from each category (early and late)		6
Early (choose one)		
ENG 3110	English Literature to 1700	
ENG 3120	English Literature after 1700	
ENG 3130	American Literature to 1865	
ENG 3180	Rhetoric to 1800	
Late (choose one)		
ENG 3140	American Literature after 1865	
ENG 3190	Rhetoric after 1800	
ENG 3470	Survey of African-American Literature	
Theories and Methods		
Select two of the following:		6
ENG 3085	Introduction to Rhetoric and Writing	
ENG 3090	Introduction to Cultural Studies	
ENG 3100	Introduction to Literary Studies	
ENG 3800	Introduction to Creative Writing	
Communities and Cultures		
Select one upper-division course with an emphasis on cultural diversity:		3
ENG 5030	Topics in Women's Studies	
ENG 5035	Topics in Gender and Sexuality Studies	
ENG 5065	Identity and Difference in Media	
ENG 5075	Topics in New Media	
ENG 5080	Topics in Global and Transnational Studies	
ENG 5480	Topics in African American Literature	
ENG 5500	Topics in English and American Literature	
ENG 5795	Topics in Rhetoric and Writing	
ENG 5860	Topics in Creative Writing	
Senior Seminar		3
ENG 5992	Senior Seminar	
Additional Requirements		18
Select six additional courses in English ¹		
Total Credits		36

¹ Four of these courses must be at the 4000 or 5000 level. No English course below the 2000-level may count toward the English B.A. program.

English Honors (B.A. Program)

To graduate with honors in English an undergraduate student must have a minimum 3.5 g.p.a. in English courses and a minimum cumulative g.p.a. of 3.3. Additional requirements include a minimum of thirty-six credits in English courses beyond the Liberal Arts and Sciences Group requirements and General Education requirements, three courses of which must be in Honors. Students must also complete at least one 4200-level interdepartmental Honors Seminar, HON 4200-HON 4280, to total four courses in Honors.

Required English Courses

Code	Title	Credits

Honors Seminar		
ENG 4991	Honors Seminar (Max. 6)	3
Honors-Option		
One 5000-level course in the English Honors curriculum must be taken with an Honors Option. This Honors Option will be applied to a 5000-level course either in the Communities and Cultures Requirement or in the Elective Requirements in the major. ²		1-3
Total Credits		37-40

¹ Four of these courses must be at the 4000 or 5000 level and include ENG 4992 (<https://bulletins.wayne.edu/search/?P=ENG%204992>) (Honors Project, Cr. 3 (Max. 6)). The Honors Project should be twenty to thirty pages long. Students pursuing both Department and University Honors may use the Departmental project (ENG 4992 (<https://bulletins.wayne.edu/search/?P=ENG%204992>)) to fulfill the University Honors thesis requirement. No English course below the 2000-level may count toward the English B.A. program.

² Candidates for Honors in English will arrange for an Honors-option by contracting with any professor teaching a 5000-level course to do honors-level work in that course, beyond the standard requirements set forth in the syllabus. Supplementary work required for the Honors-option might consist of an extra paper, a significantly longer term paper, evidence of additional readings (for example, through journal entries), an oral or written report, or a special examination.

Students who wish to become candidates for degrees with honors in English are encouraged to consult early with the Undergraduate Advisor of the English Department (313-577-7701).

Combined Curriculum Requirements

Combined Curriculum for Secondary Teaching: An English major who wishes to prepare for a career in secondary school teaching can earn a bachelor's degree in English with a secondary teaching certificate. In close consultation with Department of English and College of Education advisors, the student will develop a plan of work that satisfies the requirements of the English B.A. program and includes the subject area and professional courses required for teacher certification. For more information see Combined Curriculum for Secondary Teaching (p. 256).

Note: Students seeking Elementary Education Certification with a Language Arts Group Major should consult with an advisor in the School of Education.

'AGRADE' Program (Accelerated Graduate Enrollment)

The English Department invites academically superior majors to apply for admission to the 'AGRADE' Program, which allows qualified seniors to enroll simultaneously in the undergraduate and graduate programs of the Department. Applications will be accepted no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 g.p.a in the major courses already completed. A Plan of Work is required, and credit restrictions apply. Please see the departmental Undergraduate Advisor for more detail.

Film Studies (B.A.)

An admissions moratorium is in effect for this program, effective Fall 2016.

The University offers two undergraduate degree programs related to film: the Bachelor of Arts with a Major in Film offered by the College of Fine, Performing, and Communications Arts, and the Bachelor of Arts with a Major in Film Studies as described below.

The English Department offers a program in film and media studies for students interested in the history and criticism of film and media. Courses are designed to give students knowledge and critical skills in film analysis, key concepts in film theory, the major directors, emerging trends in new media scholarship, and an understanding of cultural and historical factors in film and media production and reception.

Please contact the Undergraduate Advisor in the Department of English for further information.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students majoring in film studies must complete a minimum of thirty-four credits, distributed as follows:

Code	Title	Credits
Core Courses (Fourteen Credits)		
ENG 2450/ COM 2010	Introduction to Film	4

ENG 5040	Film Criticism and Theory	4
ENG 5993	Writing Intensive Course in English	0
Additional ENG courses		6
Elective Courses (Twenty Credits)		
Select twenty elective credits of the following: ¹		20
ADA 2220	Time-Based Media I: Video Art	
ADA 4220	Time-Based Media II: Experimental Animation	
AFS 3200/ COM 3230	The African-American Film Experience	
AFS/COM 4240	African Americans in Television	
COM 1600	Introduction to Audio-Television-Film Production	
COM 5020	Studies in Film History (Max. 12)	
COM 5060	Documentary and Non-Fiction Film and Television	
COM 5270	Screenwriting (Max. 8)	
COM 5400	Techniques of Film and Video Production	
COM 5440	Film, Cinematography and Lighting	
ENG 5020	Topics in Media and Modern Culture (Max. 9)	
ENG 5050	Historical Topics in Film and Media (Max. 12)	
ENG 5060	Styles and Genres in Film (Max. 12)	
ENG 5070	Topics in Film and Media (Max. 12)	
ENG 5990	Directed Study in English (Max. 6 (with film studies focus))	
ITA 5150	Italian Cinema (Max. 9)	
NE 2060	Hebrew/Israeli Film: Trends and Themes in Israeli Cinema	
POL/SLA 3750	Polish and Yugoslavian Cinema	
SLA 3710	Russian and East European Film	
Total Credits		34

¹ Electives should be selected in conjunction with the Departmental Undergraduate Advisor. Three elective classes must be taken at the 5000-level or above, and two out of these three must come from ENG 5020, ENG 5050, ENG 5060 or ENG 5070.

Creative Writing Minor

The Creative Writing Minor is designed to allow focus and credentialing for the many students across the university who enjoy reading and writing poetry, fiction, and other creative forms. The minor requires a minimum of 18 credits. English majors can only apply two major courses to this minor.

Requirements

Code	Title	Credits
ENG 3800	Introduction to Creative Writing	3
Select three of the following at least two of which should be at the 5000-level or higher		9
ENG 2800	Techniques of Imaginative Writing	
ENG 3810	Poetry Writing	
ENG 3820	Fiction Writing	
ENG 5695	Topics in Writing and Publishing	
ENG 5860	Topics in Creative Writing	
ENG 5870	Poetry Writing Workshop	
ENG 5880	Fiction Writing Workshop	
ENG 5885	Topics in Creative Non-Fiction Writing	
ENG 6800	Advanced Creative Writing	

Select two elective courses from any English course at the 2000-level or higher¹

Total Credits **18**

¹ Students may substitute one of the following assuming they have satisfied any prerequisite coursework and/or have permission from the course's home department: COM 4100, COM 5270, or THR 5721.

English Minor

The minor in English permits study in literature, film and media, creative writing, and writing studies. It requires six English courses, excluding Basic Composition (BC) and Intermediate Composition (IC) requirements, for a minimum of at least eighteen credits:

Code	Title	Credits
Select any two of the following courses:		
ENG 3085	Introduction to Rhetoric and Writing	6
ENG 3090	Introduction to Cultural Studies	
ENG 3100	Introduction to Literary Studies	
ENG 3800	Introduction to Creative Writing	
ENG 3110	English Literature to 1700	
ENG 3120	English Literature after 1700	
ENG 3130	American Literature to 1865	
ENG 3140	American Literature after 1865	
ENG 3180	Rhetoric to 1800	
ENG 3190	Rhetoric after 1800	
ENG 3470	Survey of African-American Literature	

Choose four more courses from English, two of which must be at the 4000-level or above.

Total Credits **18**

Film and Media Studies Minor

The English department offers a minor in Film and Media Studies for students interested in the history and criticism of film and media. Courses are designed to give students knowledge and critical skills in film and media analysis, key concepts in film and media theory, emerging trends in new media scholarship, and an understanding of cultural and historical factors in film and media production and reception. The minor requires five courses. English majors can only apply two of their major courses to this minor.

Code	Title	Credits
ENG 2450/ COM 2010	Introduction to Film	4
Select four courses from the following, two of which must be at the 12-16 4000-level or above.		
ENG 2430	Digital Narrative	
ENG 2440	Introduction to Visual Culture	
ENG 2445	Comics and Graphic Novels	
ENG 2470	Television Culture	
ENG 3090	Introduction to Cultural Studies	
ENG 5020	Topics in Media and Modern Culture	
ENG 5040	Film Criticism and Theory	
ENG 5050	Historical Topics in Film and Media	
ENG 5060	Styles and Genres in Film	
ENG 5065	Identity and Difference in Media	
ENG 5070	Topics in Film and Media	

ENG 5075	Topics in New Media
ENG 5095	Topics in Visual Culture
Allowed from other disciplines:	
AFS 3200/ COM 3230	The African-American Film Experience
AFS/COM 4240	African Americans in Television
CHI 3010	Contemporary Chinese Pop Culture
COM 5270	Screenwriting
FRE 2100	French through Film I
FRE 2110	French through Film II
ITA 2020	Italian through Film
ITA 5150	Italian Cinema
NE 2060	Hebrew/Israeli Film: Trends and Themes in Israeli Cinema
SLA 3710	Russian and East European Film
SLA/POL 3750	Polish and Yugoslavian Cinema

Professional Writing Minor

The Professional Writing minor is intended to provide students with training in the essentials of professional writing practices and with experience in composing in common genres of professional and technical communication. The minor requires the completion of a minimum of 18 credits.

Requirements

Code	Title	Credits
Select one of the following introductory courses:		3
ENG 3050	Technical Communication I: Reports	
ENG 3060	Technical Communication II: Presentations	
Select four courses from the following, two of which must be at the 5000-level:		12
ENG 3200	Grant Writing	
ENG 3250	Technical and Professional Editing	
ENG 3050	Technical Communication I: Reports	
ENG 3060	Technical Communication II: Presentations	
ENG 5010	Advanced Expository Writing	
ENG 5695	Topics in Writing and Publishing	
ENG 5795	Topics in Rhetoric and Writing	
ENG 5830	Introduction to Technical and Professional Writing Practices	
ENG 5840	Theoretical Approaches to Technical and Professional Writing	
Required internship:		3
ENG 5820	Internship Practicum	
Total Credits		18

Environmental Science and Geology

Office: 0224 Old Main; (313) 577-2506

Chairperson: Mark Baskaran

Academic Advisor: Dawn Niedermiller

Academic Services Officer: John Niedermiller

<https://esg.wayne.edu/> (https://esg.wayne.edu)

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic

consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

The courses offered by this department are designed to serve the needs of five groups of students:

1. Those who desire a general knowledge of geology as part of a liberal education;
2. Those who need geological information as a cognate subject in other professions;
3. Those who wish to major in geology as part of a broad liberal arts education;
4. Those who wish to major in environmental science;
5. Those who plan to become professional geologists.

Introductory courses are primarily general, but they also provide a foundation in geology for the student who desires to continue an intensive program of study. Students with an interest in environmental problems will find a number of relevant courses among those offered by the Department of Geology. In addition, a variety of courses in various phases of geology is available to the general student. Intermediate and advanced courses are designed to develop the principles of geology beyond the elementary level and to give a firm technical foundation for advanced study.

Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and, ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and biological perspectives, and a broad choice of electives. This program focuses on the urban environment and urban impacts on the natural environment. It will prepare students for graduate study, or for careers in various areas of environmental science including environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

- Environmental Science (B.S.) (p. 293)
- Geology (B.A.) (p. 295)
- Geology (B.S.) (p. 296)
- Environmental Science Minor (p. 295)
- Geology Minor (p. 296)
- Geochemistry Minor (p. 295)
- Geophysics Minor (p. 297)

Environmental Science (B.S.)

Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and, ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and biological perspectives, and a broad choice of electives. This program focuses on the urban environment and urban impacts on the natural environment. It will prepare students for graduate study, or for careers in various areas of environmental science including environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students must receive a grade of 'C-minus' or better in all Major and Cognate required courses. An overall grade point average of 2.0 ('C') in all coursework is required for graduation.

Major Requirements

B.S. candidates in Environmental Science must complete the following:

Code	Title	Credits
GEL 1010	Geology: The Science of the Earth	3
GEL 1011	Geology: The Science of the Earth Laboratory	1
GEL 2130	Mineralogy	4
GEL 3100	Air and Water in Environmental Systems	3
GEL 5150	Soils and Soil Pollution	4
GEL 5510	Environmental Fate and Transport of Pollutants	4
BIO 1500	Basic Life Diversity	4
BIO 1510	Basic Life Mechanisms	4
BIO 4130	General Ecology	4
BIO 5100	Aquatic Ecology	4
or BIO 5440	Terrestrial Ecology	
Total Credits		35

Elective Courses

Students must complete a minimum of 9 approved elective credits for the major, usually 3 classes, one of which must be from the Department of Biology or the Department of Geology.

Code	Title	Credits
Biology Elective Options		
BIO 2200	Introductory Microbiology	5
BIO 3500	Ecology and the Environment	3
BIO 4420	Biogeography	3
BIO 5040	Biometry	4
BIO 5100	Aquatic Ecology	4
BIO 5180	Field Investigations in Biological Sciences	12
BIO 5440	Terrestrial Ecology	4
BIO 5490	Population and Community Ecology	3
BIO 5540	Landscape Ecology	3
BIO 6190	Advanced Special Topics	6
Geology Elective Options		
GEL 3160	Petrology	4
GEL 3300	Structural Geology	4
GEL 3400	Principles of Sedimentology and Stratigraphy	4
GEL 3450	Principles of Paleontology	4
GEL 3650	Field Geology	1-10
GEL 4200	Geomorphology	4

GEL 6400	Isotopes: Applications in Geological and Environmental Sciences	4
GEL 6500	Earth Resources and the Environment	3
Chemical Engineering Options		
CHE 6610	Risk Assessment	3
Honors Options		
HON 4220	Seminar in Life Science	3
Civil Engineering Options		
CE 3250	Applied Fluid Mechanics	4
CE 4210	Introduction to Environmental Engineering	3
CE 5230	Water Supply and Wastewater Engineering	3
CE 5995	Special Topics in Civil Engineering I	1-3
CE 6190	Groundwater	3
CE 6270	Sustainability Assessment and Management	3
Geography Options		
GPH 3600	Introduction to Geographic Information Systems	4
GPH 4600	Advanced Geographic Information Systems	4

Cognate Requirements

B.S. candidates in Environmental Science must take:

Code	Title	Credits
MAT 1800	Elementary Functions	4
MAT 2010	Calculus I	4
PHY 2130	Physics for the Life Sciences I ¹	4
or PHY 2170	University Physics for Scientists I	
PHY 2131	Physics for the Life Sciences Laboratory ¹	1
or PHY 2171	University Physics Laboratory	
PHY 2140	Physics for the Life Sciences II ¹	4
or PHY 2180	University Physics for Scientists II	
PHY 2141	Physics for the Life Sciences Laboratory ¹	1
or PHY 2181	University Physics Laboratory II	
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
Total Credits		28

¹ Students must take PHY 2130/PHY 2131 and PHY 2140/PHY 2141 OR PHY 2170/PHY 2171 and PHY 2180/PHY 2181

Majors should take the Placement Examination of the Department of Mathematics as soon as possible upon entry into the freshman year, although freshmen students may be placed by ACT/SAT scores (valid for 2 years).

Student's Responsibility: It is each student's responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult the Environmental Science Program Advisor regularly in order to verify that Environmental Science requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Environmental Science Honors

To be recommended for an honors degree from this program, a student must maintain a cumulative grade point average of at least 3.30 and

complete a minimum of twelve honors course credits including two Geology or Biological Science Honors or Honors Option courses (6 credits) and:

Code	Title	Credits
GEL 4998	Honors Thesis	1-3
or BIO 6990	Honors Directed Study in Biology	
BIO 6999	Honors Undergraduate Research Thesis	2
One 4200-level Honors Seminar		3
Total Credits		6-8

Environmental Science Minor

The Environmental Science minor requires a minimum of 24 credits for completion. All courses are currently utilized for the Environmental Science major. Environmental Science majors are not eligible for the Environmental Science minor.

Code	Title	Credits
Required Courses		18
EVS 1500	Introduction to Environmental Science	
GEL 1010	Geology: The Science of the Earth	
GEL 1011	Geology: The Science of the Earth Laboratory	
BIO 1500	Basic Life Diversity	
GEL 3100	Air and Water in Environmental Systems	
BIO 3500	Ecology and the Environment	
Elective courses (select two from the following)		6-8
Geology majors must select at least one BIO course; biological science majors must select at least one GEL course.		
BIO 4130	General Ecology	
BIO 4420	Biogeography	
BIO 5040	Biometry	
BIO 5100	Aquatic Ecology	
BIO 5180	Field Investigations in Biological Sciences	
BIO 5440	Terrestrial Ecology	
BIO 5490	Population and Community Ecology	
BIO 5540	Landscape Ecology	
BIO 6190	Advanced Special Topics	
GEL 4200	Geomorphology	
GEL 5000	Geological Site Assessment	
GEL 5120	Environmental Geochemistry	
GEL 5150	Soils and Soil Pollution	
GEL 5360	Hydrology of Natural and Urban Environments	
GEL 5510	Environmental Fate and Transport of Pollutants	
GEL 5650	Applied Geological Mapping	
GEL 6500	Earth Resources and the Environment	
Total Credits		24-26

Geochemistry Minor

Geochemistry is a state-of-the-art science that studies the abundance and mobility of elements and compounds and their movement through Earth's continental crust, atmosphere, oceans, lakes, rivers and streams. The skills acquired through this minor are relevant to students interested in environmental and natural-resource topics associated with archaeological, anthropological, biological, chemical and geological studies.

The Geochemistry Minor requires 23-25 credits, including:

Code	Title	Credits
Core Courses		16-17
CHM 1220	General Chemistry I	
or CHM 1225	General Chemistry I for Engineers	
CHM 1230	General Chemistry I Laboratory	
CHM 1240	Organic Chemistry I	
GEL 1010	Geology: The Science of the Earth	
GEL 1011	Geology: The Science of the Earth Laboratory	
GEL 5120	Environmental Geochemistry	
Chemistry Elective Course (select one of the following)		3-4
CHM 2220	Organic Chemistry II	
or CHM 2225	Organic Chemistry II for Engineers	
CHM 2280	General Chemistry II: Analytical Chemistry	
CHM 3020	Intermediate Inorganic Chemistry I	
Geology Elective Course (select one of the following)		4
GEL 5150	Soils and Soil Pollution	
GEL 5510	Environmental Fate and Transport of Pollutants	
GEL 6400	Isotopes: Applications in Geological and Environmental Sciences	
Total Credits		23-25

Geology (B.A.)

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete twenty-six credits in geology beyond GEL 1020. These must include:

Code	Title	Credits
GEL 2130	Mineralogy	4
GEL 3160	Petrology	4
GEL 3300	Structural Geology	4
GEL 3400	Principles of Sedimentology and Stratigraphy	4
GEL 5993	Writing Intensive Course in Geology	0
At least two credits in a geology field course		2

Cognate Requirements

At least one college course in each of two of the following fields is required: biology, chemistry, or physics. MAT 1800 and satisfaction of the Foreign Language Group Requirement are also required.

Geology majors should consult their advisor regarding additional recommended cognate courses. Depending on interest and future goals, supplementary courses in mathematics, physics and chemistry, as well as courses in biology, computer science, engineering, and urban studies might be of particular value.

Geology Honors

The Honors Program in Geology is open to students of superior academic ability who are majoring in geology. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated courses including: two Geology Honors or Honors Option courses (min. 6 credits), GEL 4998 (<https://bulletins.wayne.edu/search/?P=GEL%204998>): Honors Thesis (3 credits), and one 4200-level Honors Seminar (3 credits).

Geology (B.S.)

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete at least thirty-four credits in geology exclusive of the introductory courses (1000-level) and must include the following:

Code	Title	Credits
Twenty of the thirty-four credits from advanced courses (numbered 3000 and above)		
GEL 2130	Mineralogy	4
GEL 3160	Petrology	4
GEL 3300	Structural Geology	4
GEL 3400	Principles of Sedimentology and Stratigraphy	4
GEL 5993	Writing Intensive Course in Geology	0
Credits in field mapping and field techniques, to be fulfilled by completed six credits in a summer field course ¹		6

¹ If the Geology Department at Wayne State University does not offer a summer field course in any given year, students should complete the field course requirement by attending an approved field course at another university. In certain unusual circumstances the required six credits in field mapping and field techniques may be earned through an extended field-oriented research project when this project involves extensive field mapping and is under the direct supervision of a faculty member or other qualified field geologist throughout the duration of the field work. Questions about appropriate Field Camp opportunities outside of Wayne State University should be directed to the program advisor and/or faculty members.

Cognate Requirements

Code	Title	Credits
MAT 1800 & MAT 2010	Elementary Functions and Calculus I (or equivalent)	8
Select one of the following sequences or equivalent:		8
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory	
PHY 2140 & PHY 2141	Physics for the Life Sciences II and Physics for the Life Sciences Laboratory	
OR		
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II	
AND		
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory (or equivalent)	5
BIO 1500	Basic Life Diversity	4
A semester of biology (BIO 1500 or equivalent) is strongly recommended		4
Total Credits		29

Although there are no required cognate courses beyond those listed above, geology majors should consult their advisor regarding cognate courses which might be of value to their particular program. Depending on interest and future goals, additional courses in mathematics, physics, and chemistry, as well as courses in biology, computer science, civil engineering, and urban studies might be of particular value.

Geology Honors

The Honors Program in Geology is open to students of superior academic ability who are majoring in geology. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated courses including: two Geology Honors or Honors Option courses (min. 6 credits), GEL 4998 (<https://bulletins.wayne.edu/search/?P=GEL%204998>): Honors Thesis (3 credits), and one 4200-level Honors Seminar (3 credits).

Geology Minor

The Department offers a minor in geology for undergraduate students. The minor consists of twenty credits in geology (usually consisting of five courses). Although desirable courses for a student's minor program should be determined in consultation with Geology Department staff members. Anyone wishing to complete a minor in geology should contact the Department advisor as soon as possible, so that an appropriate program can be formulated.

Code	Title	Credits
Required courses:		8
GEL 1010	Geology: The Science of the Earth	
GEL 1020	Interpreting the Earth	
Elective coursework (at least four credits in the minor must be completed in courses at the 3000-level or above) ¹		12
Total Credits		20

¹ GEL 1050 may only be applied for credit to a minor with the permission of the student's advisor in consultation with the Chairperson of the Department

Geophysics Minor

Geophysics seeks to understand the inner workings of inner earth and its surroundings. A variety of physical measurements – involving seismic waves, magnetic fields, gravity, electric potential and satellite-based geodesy – are made to probe the interior and study the surface and internal process of our planet. The geophysics study encompasses field work as well as theoretical and experimental studies, through which students will learn about the mechanics of landslides, earthquakes and other natural hazards. Employment opportunities include oil, gas, petroleum and mineral exploration companies and environmental consulting companies. This minor could also serve as a pathway for entry to a graduate program in seismology.

The Geophysics minor requires a minimum of 23-25 credits.

Code	Title	Credits
Geology courses ¹		
GEL 1010	Geology: The Science of the Earth	3
GEL 1011	Geology: The Science of the Earth Laboratory	1
GEL 5210	Environmental and Applied Geophysics	4
Select one of the following:		4
GEL 3300	Structural Geology	
GEL 5420	Mathematical Methods in Earth Science	
GEL 5450	Hydrogeology	
GEL 6400	Isotopes: Applications in Geological and Environmental Sciences	
Physics courses		
PHY 2170 & PHY 2171 or PHY 2175	University Physics for Scientists I and University Physics Laboratory or University Physics for Engineers I	4-5
PHY 2180 & PHY 2181 or PHY 2185	University Physics for Scientists II and University Physics Laboratory II or University Physics for Engineers II	4-5
Select one of the following:		3
PHY 3300	Introductory Modern Physics	
PHY 5100	Methods of Theoretical Physics I	
PHY 5200	Classical Mechanics I	
PHY 5340	Optics	
PHY 3310 & PHY 3750	Introductory Modern Physics Laboratory and Introduction to Computational Methods	
Another PHY course above the 4000 level ²		
Total Credits		23-25

¹ Two courses must not have been applied toward major requirements or another minor

² The course should be chosen in consultation with an advisor.

Gender, Sexuality and Women's Studies

Office: 3063 Faculty Administration Building; 313-577-6331

Undergraduate Advisor: Gayle McCreedy

<http://www.clas.wayne.edu/GSW/>

The Gender, Sexuality, and Women's Studies interdisciplinary undergraduate curriculum is designed to give students the theoretical bases and methodological skills for analyzing gender, sexuality, and women from the perspective of the humanities, historical studies, and the social sciences. Students will gain an understanding of the various contexts and constructs including literary, social, cultural, economic, psychological, philosophical, and political that shape our perceptions of these issues in different geographical locations and across time.

- Gender, Sexuality and Women's Studies (B.A.) (p. 297)
- Gender, Sexuality and Women's Studies Minor or Cognate Study (p. 298)

Gender, Sexuality and Women's Studies (B.A.)

The Gender, Sexuality, and Women's Studies Program offers a Bachelor of Arts degree and a minor concentration in this discipline. The program's interdisciplinary undergraduate curriculum is designed to give students the theoretical bases and methodological skills for analyzing gender, sexuality, and women from the perspective of the humanities, historical studies, and the social sciences. Students will gain an understanding of the various contexts and constructs including literary, social, cultural, economic, psychological, philosophical, and political that shape our perceptions of these issues in different geographical locations and across time. Through the program, students will:

1. gain an interdisciplinary understanding of current scholarship in this discipline;
2. explore the multicultural and international histories and contexts of questions related to gender, sexuality, and women;
3. grasp the intersections between race, class, gender, and sexuality from different disciplinary perspectives;
4. challenge commonly held notions about gender, sexuality, and women in ways that promote social change;
5. explore individual and professional interests in this field in ways that enhance their personal lives as well as their professional goals;

Students wishing to pursue the major or minor in gender, sexuality, and women's studies should meet with the undergraduate advisor.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

MAJOR REQUIREMENTS consist of thirty-two credits distributed as follows:

Code	Title	Credits
Core Courses		
GSW 2500	Humanities Perspectives on Gender, Sexuality, and Women	3

GSW 2600	History of Women, Gender and Sexuality in the Modern World	3
GSW 2700	Social Science Perspectives on Gender, Sexuality, and Women	3
GSW 5200	Feminist, Gender, and Queer Theory	3
GSW 5990	Senior Project Seminar	4
Electives		
Select 16 credits of one of the Areas of Focus (see lists below)		16
Total Credits		32

Electives from Areas of Focus

Students are encouraged to take sixteen credits from within one of the following areas of focus:

- Literature, Film, and Media Studies
- LGBTQ Studies
- Social Sciences
- Historical Studies

Areas of focus allow students to specialize within the program in ways that enhance their academic and professional goals. However, students are not required to take all of their credits within one focus area; they can take sixteen credits from among all of the listed courses. Because new courses are created by faculty on a rolling basis, students are encouraged to consult with the director or the undergraduate advisor about any courses not on the following list which may be included in their major.

NOTE: some of the courses in the following curricula are offered for variable topics and only suitable as electives in this program for particular content. All such courses are cited below as “when approved” options.

Literature, Film, and Media Studies

Code	Title	Credits
AFS/GSW 5110	Black Women in America	3
ANT 5240	Cross Cultural Study of Gender	3
CLA 3050/5050	Cleopatra	3
CLA 3190	Topics on Women in Antiquity	3
COM 3010	Media Analysis and Criticism	3
COM 5020	Studies in Film History (when approved)	3
COM 5360	Gender and Communication	3
ENG 2570	Writing about Literature: Women Writers	3
ENG 5020	Topics in Media and Modern Culture (when approved)	3
ENG/GSW 5030	Topics in Women's Studies	3
ENG 5070	Topics in Film and Media (when approved)	4
ENG 5150	Shakespeare (when approved)	3
GER 5400	Cultural Studies and Criticism (when approved)	3
GSW 5300	Topics in LGBTQ Studies	3
GSW 5400	Topics in Gender and Women's Studies	3
NE/GSW 3520	Women and Gender in Middle East History	3

LGBTQ Studies

Code	Title	Credits
COM 1010	Oral Communication: Basic Speech (when approved)	3
ENG 5080	Topics in Global and Transnational Studies (when approved)	3
GSW 5300	Topics in LGBTQ Studies	3

PHI 5800	Special Topics in Philosophy (when approved)	2-4
PSY 3380	Human Sexuality	3

Social Sciences

Code	Title	Credits
AFS/GSW 5110	Black Women in America	3
ANT 5240	Cross Cultural Study of Gender	3
PSY 3250	Psychology of Gender	3
CRJ/GSW 2750	Diversity Issues in Criminal Justice	3
PSY 3380	Human Sexuality	3
SOC 3400	Exploring Marriage and Other Intimate Relationships	3
SOC 4460	Women in Society	3
SOC 5400	The Family	3
SOC 5410	Marriage and Family Problems	3
SOC 5870	Violence in the Family	3

Historical Studies

Code	Title	Credits
CLA 3050/5050	Cleopatra	3
CLA 3190	Topics on Women in Antiquity	3
HIS 3250	The Family in History	3-4
HIS 5200	Women, Gender, and Sexuality in US History	3
HIS 5251	History of Feminism	4
NE/GSW 3520	Women and Gender in Middle East History	3

Gender, Sexuality and Women's Studies Honors

Qualified students planning post-baccalaureate work in GSW or in a professional school are especially encouraged to obtain a Bachelor of Arts degree 'With Honors in Gender, Sexuality and Women's Studies.' Honors majors must have a 3.5 g.p.a. in GSW courses and a 3.3 cumulative g.p.a. in all courses. Honors majors must complete at least fifteen credits in honors-designated coursework, including at least one 4000-level seminar offered through the Honors College; six additional credits in GSW honors courses, of which at least three credits must be in an upper-division (numbered 3000 or above) honors-option course; and GSW 5990 (Honors-designated Senior Project Seminar). For information about honors-designated coursework available each semester, visit the Honors College website (<http://www.honors.wayne.edu/classes.php>).

Gender, Sexuality and Women's Studies Minor or Cognate Study

MINOR REQUIREMENTS consist of eighteen credits distributed as follows:

Code	Title	Credits
Required Course		
GSW 5200	Feminist, Gender, and Queer Theory	3

Other Courses

Select two of the following: 6		
GSW 2500	Humanities Perspectives on Gender, Sexuality, and Women	
GSW 2600	History of Women, Gender and Sexuality in the Modern World	
GSW 2700	Social Science Perspectives on Gender, Sexuality, and Women	

Electives

Select nine credits from the following focus areas: ¹ 9

Literature, Film, and Media Studies

LGBTQ Studies

Social Sciences

Historical Studies

Total Credits 18

¹ Similar to the B.A. program, the focus areas (p. 297) allow students to specialize within the program in ways that enhance their academic and professional goals. Students are encouraged to take the nine credits from within one focus area, however they are not required to do so and may take the nine credits from among all of the options listed.

General Studies (Bachelor's Degree)

The Bachelor's of General Studies degree is a graduation pathway without a traditional academic major. General Studies seeks to accommodate students whose academic careers spanned many years, even decades, and who may have begun their academic careers in colleges, departments, and degree programs that no longer exist. In such cases, General Studies enables the university to support and honor the work that students have done in the past, and may do upon their return, without certifying expertise in a specific field that may well have undergone considerable change since a student first started.

Candidates for the degree must be in good academic standing with a GPA of 2.0 or above, both overall and in their previous major; must be at (or very near) 120 credits; and must have made an attempt to complete either a discontinued major or a current CLAS-based major. Students must follow a secondary admissions process to be accepted to this program, and should contact their advisor for more information about how to apply.

The Bachelor of General Studies requires:

Code	Title	Credits
	Senior-level standing (88 credits or above)	
	At least 120 credits with a 2.0 GPA or higher, both overall and in the major	
	A cumulative GPA of 2.0 or higher	
	At least three college-level semesters and a minimum of 30 credits at Wayne State	
	A combination of both beginning level (1000- and 2000-level) and intermediate level (3000- or above) coursework at Wayne State	
	At least 15 credits in intermediate level (3000- or above) coursework, with a 2.0 cumulative GPA or higher	
	At least 20 credits within a CLAS-based major (in a current or discontinued major)	
	All General Education Requirements as defined by Wayne State	
	All College-level requirements as defined by the College of Liberal Arts and Sciences	

History

Office: 3094 Faculty/Administration Building; 313-577-2525

Chairperson: Elizabeth V. Faue

Undergraduate Advisor: Gayle McCreedy

<http://www.clas.wayne.edu/history> (<http://www.clas.wayne.edu/history/>)

History is central to our understanding of the human experience. The study of the past allows us to place our world in context, whether we

want to understand international crises, the significance of a national election, or social relations within our own community. The skills of the historian - the ability to do research in original sources, to think critically, and to write clearly and persuasively - are highly valued in our changing world. The Wayne State Department of History maintains an international reputation for excellence in history, most notably in labor and urban history and in the history of governance and citizenship. Our faculty has received numerous awards for cutting-edge research and excellence in teaching. We teach undergraduate students fundamental research, analytical, and writing skills and provide a broad-based foundation in historical knowledge to support a variety of career options.

- History (B.A.) (p. 299)
- History Minor (p. 300)
- History of Science, Technology, Environment, and Medicine Minor (p. 300)
- Public History Minor (p. 301)
- Society and the Environment Minor (p. 301)

History (B.A.)

History is central to our understanding of the human experience. The study of the past allows us to place our world in context, whether we want to understand international crises, the significance of a national election, or social relations within our own community. The skills of the historian - the ability to do research in original sources, to think critically, and to write clearly and persuasively - are highly valued in our changing world. The Wayne State Department of History maintains an international reputation for excellence in history, most notably in labor and urban history and in the history of governance and citizenship. Our faculty has received numerous awards for cutting-edge research and excellence in teaching. We teach undergraduate students fundamental research, analytical, and writing skills and provide a broad-based foundation in historical knowledge to support a variety of career options.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Career Considerations

Continuing on in History

Undergraduate majors in History are often looking forward to graduate studies and becoming a professional historian, doing research and teaching in a university setting. Student pursuing this option should be aware that and overall GPA of at least a 3.00 and a major GPA of at least 3.25 is required to be competitive for admission to graduate school. Students who intend to complete an M.A. at Wayne State before moving to another institution for the Ph.D. are encouraged to undertake the AGRADE program, which allows majors to double-count up to 16 hours of undergraduate coursework for their graduate degree.

Teaching History at the High School Level

Majors who are interested in teaching History to teens rather than adults often pursue a B.A. in history and an M.A.T. through the College of Education. Students may need a provisional certificate to teach while earning their graduate education degree, depending on the setting.

Archives and Libraries

Many of our alumni are employed as archivists or librarians in historical collections. Wayne State offers a nationally-recognized graduate certificate in Archival Administration, which can be

undertaken on its own or in conjunction with an M.A. in History or an Master's in Information Sciences.

Law and the LawStart program

History is a common major for students interested in pursuing a law degree. Students interested in Law are encouraged to consider the LawStart program, which allows students to combine work on the B.A. and J.D. in the fourth year, saving a year in earning both degrees.

Non-Profit Management of Historical Agencies

Many history majors pursue careers in public history or in business and industry. A minor in business administration can help prepare majors for managing non-profit historical agencies as well as serve as background for an M.B.A. program.

Pre-Med Curriculum

With the current shift toward STEM disciplines, students are finding that combining a major in History may give their med school applications a second look by providing a more well-rounded undergraduate experience. Students interested in attending medical school are encouraged to look into the MedStart Program.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete thirty-six credits in History (which may include a maximum of 18 transfer credits). Specific requirements are as follows:

Code	Title	Credits	
Survey Courses (select one from each of two different geographic regions)			
Europe			
HIS 1000	World Civilization to 1500	6-8	
HIS 1300	Europe and the World: 1500-1945		
HIS 1400	The World Since 1945		
HIS 1995	Nature and Societal Transitions		
HIS 2605	History of Women, Gender and Sexuality in the Modern World		
United States			
HIS 1050	History of the Headlines: United States Since World War II	3	
HIS 2040	American Foundations to 1877		
HIS 2050	Modern America: Since 1877		
World			
HIS 1600	African Civilizations to 1800		3
HIS 1610	African Civilizations Since 1800		
HIS 1700	East Asia to the 1700s		
HIS 1710	History of Modern East Asia		
HIS 1900	History of Colonial Latin America		
HIS 1910	Latin America from Independence to the Present	3	
HIS 3000	The Historian's Craft		
Advanced Courses		18	

Select five History courses numbered 3001 or above, with at least 3 courses numbered above 5000. Special courses do not count for this requirement (excludes HIS 4990, HIS 4997, and HIS 5996). Of these 5 courses, students must include diversity in geographic content by including one course in each geographic region (Europe, United States, World).

Chronological Distribution

Within the work done to fulfill the survey sequence and the advanced coursework, two courses must be in the pre-1800 time period and two courses must be in the post-1800 time period so that every major has research experience with pre- and post-industrial history.

HIS 5996 Junior or Senior Research Seminar 3

Additional History courses as needed to reach 36 total hours in the major.

History Honors (B.A. Program)

Students contemplating advanced degrees in History are encouraged to obtain the B.A. with Honors in History. Honors majors must complete the following in addition to the normal major requirements, above:

Code	Title	Credits
Cumulative GPA of a 3.30, and a major GPA of 3.50		
15 credits in honors-designated coursework, including:		
HON 4250	Seminar: Global Perspectives on Historical Studies	3
6 credits in honors-option courses in History which are numbered above 3000		
One additional honor course in any discipline		
HIS 5995, the History Honors Seminar, which is taken after the completion of HIS 5996. Typically, students will begin their senior thesis in HIS 5996 and complete it in HIS 5995. This thesis will be directed by two regular faculty members; the student will also defend the thesis before them.		

History Minor

The minimum requirement for a minor in history is eighteen credits of history coursework, of which a maximum of nine credits can be transferred from other institutions. Minors must also have a 2.00 g.p.a. in history courses and complete:

Code	Title	Credits
HIS 3000	The Historian's Craft	3
At least six credits in courses numbered 3000 or above		6
Additional History courses as needed		9
Total Credits		18

History of Science, Technology, Environment, and Medicine Minor

The minor in History of Science, Technology, Environment, and Medicine aims to provide science majors as well as social science and humanities students with an interdisciplinary foundation in the history of science, environment, and medicine. The minor requires the completion of 18 credits.

Requirements

Code	Title	Credits
Core Courses		
		6
HIS 1995	Nature and Societal Transitions	3
HIS 3585	Science, Technology, and Society	

Elective Courses		12
Historical Studies (minimum 6 credits; maximum 12 credits)		
HIS 2510	Science, Technology, and War	
HIS 3440	American Medicine in the Twentieth Century	
HIS 5407	The Scientific Revolution	
HIS 5425	American Environmental History	
HIS 5540	World Environmental History since 1900	
Cognate Courses (maximum 6 credits)		
ANT 3400	Introduction to Medical Anthropology	
ANT 3410	Global Health	
ANT 5140	Biology and Culture	
ECO 5230	Environmental Economics	
PH 3500	Environmental Health	
PHI 1130	Environmental Ethics	
PHI 2140	Ancient Greek Medicine and Psychology	
PHI 2550	Introduction to Philosophy of Science	
PHI 2650	Philosophy of Psychology	
PS 3450	Environmental Policy and Politics	
SOC 4205	Seminar in Medical Sociology	

Total Credits 18

Public History Minor

A student pursuing a Public History minor must complete a minimum of eighteen credits, including the following:

Code	Title	Credits
Core Courses		9
HIS 3000	The Historian's Craft	
HIS 4993	History Communication	
HIS 4997	Internship in Public History	
Elective courses ¹		9
Total Credits		18

¹ Students must take at least three additional History courses numbered 3000 or above for a minimum of nine credits; at least one of these courses must require students to produce an original research project (in a typical semester, several courses will fulfill this requirement, and students can determine which courses do so in consultation with the Academic Advisor and/or Director of Undergraduate Studies).

Society and the Environment Minor

The Society and the Environment minor provides students with a fundamental understanding of the impact of humans on the environment through exposure to principles of ecology and related sciences, as well as insights derived from a variety of social science and humanities disciplines.

The Society and Environment minor requires a minimum of 18 credits.

Code	Title	Credits
Required Courses		6-7
EVS 1500	Introduction to Environmental Science	
HIS 5425	American Environmental History	
	or HIS 5540 World Environmental History since 1900	
Elective courses (select four from the following list)		12-14
ANT 5140	Biology and Culture	

BIO 3500	Ecology and the Environment
ECO 5230	Environmental Economics
ENG 2420	Literature and Science
GEL 3100	Air and Water in Environmental Systems
HIS 5425	American Environmental History ¹
HIS 5540	World Environmental History since 1900 ²
PH 3500	Environmental Health
PHI 1130	Environmental Ethics
PS 3450	Environmental Policy and Politics
SOC 2205	Sociology of the Environment
UP 4460	Sustainable Cities
UP 5430	Cities and Food
US 2000	Introduction to Urban Studies

Total Credits 18-21

¹ Open to those who take HIS 5540 as a core course.

² Open to those who take HIS 5425 as a core course.

Jewish Studies

Office: 3094 Faculty/Administration Building; 313-577-2525
 Coordinator: Howard Lupovitch
<http://clas.wayne.edu/jewishstudies> (<http://clas.wayne.edu/jewishstudies/>)

The Jewish Studies minor engages students who are interested in learning about the history, culture, and languages of Jewish communities. In a variety of courses in history, literature, philosophy, political science, and the Hebrew language, students learn how Jewish thought has influenced the modern world and how it has been influenced in turn by the societies and cultures in which Jews have lived over the past four thousand years.

To earn a minor in Jewish Studies, a student must take a minimum of nineteen credits, including:

Code	Title	Credits
HEB 1010	Elementary Hebrew I	4
HIS/NE 3010	Jewish History from the Bible to 1492	4
HIS/NE 3011	Jewish History since 1492	3
Select a minimum of eight credits of the following:		8
ENG 5080	Topics in Global and Transnational Studies	
ENG 5490	Topics in American Literature	
ENG 5500	Topics in English and American Literature	
GER 5390	Holocaust Studies	
HIS 5460	History of the Holocaust	
NE 2010	The Bible and Ancient Mythology	
NE 2060	Hebrew/Israeli Film: Trends and Themes in Israeli Cinema	
NE 2700	Topics in Middle Eastern Studies	
NE 3225	Modern Israeli Culture: A Pluralistic Perspective	
PHI 2400	Introduction to the Philosophy of Religion	
PS 3835	Middle East Conflict	
PS 5999	Special Topics in Political Science	
Study Abroad Option		
ED 5998	Field Studies

Latino/a and Latin American Studies

Office: 3326 Faculty Administration Building; 313-577-4378; Fax: 313-993-4073

Director: Jorge L. Chinea

Assistant Director for Student Services and Program Development: Melissa Miranda Morse

CBS Scholars Program Coordinator: Erik (Zach) Morales

College to Career Program Coordinator: Tamara Serrano Chandler
<http://clas.wayne.edu/cclas/>

Mission

The Center for Latino/a and Latin American Studies strives to promote equitable access to a quality university education to students interested in Latino/a and Latin American cultural studies, and to enhance diversity on the campus. The Center accomplishes its mission through a four-part program in:

1. student services;
2. research in the field of Latino/a and Latin American Studies;
3. internal University advocacy on Latino/a perspectives; and,
4. outreach to the Latino/a and larger off-campus communities.

The research and teaching specializations of the faculty associated with the Center are Mexican history, Caribbean studies, Latin American literature, United States Latino/a studies and student learning strategies in higher education.

Student Success Programs

Latino/a Studies' comprehensive student services are based on a leadership development and an academic self-empowerment model. The Center hosts an annual Academia del Pueblo Research Conference and offers three distinct comprehensive student success programs:

- the Summer Enrichment Program (SEP), currently funded by DTE Energy;
- the Chicano-Boricua Studies (CBS) Scholars Program, a WSU learning community, which continues to bear the previous name of the Center in honor of its alumni as well as the many contribution of its former faculty and staff; and,
- the College to Career (C2C) Program, a second WSU learning community, which is designed to prepare graduating students for post-baccalaureate/professional degrees and future careers

Students in good standing who are enrolled in these programs may be eligible for supplemental financial support through the WSU Office of Financial Aid, the John Helfman Latino en Marcha (LEM) Grant, the Wiese-Rometsch Scholarship and the Cynthia Estrada Labor and Social Justice Award.

- Latino/a and Latin American Studies (Co-Major) (p. 302)
- Latino/a and Latin American Studies Minor (p. 302)

Latino/a and Latin American Studies (Co-Major)

Completion of the Center's Co-Major Program leads to a co-major degree in the field of Latino/a and Latin American Studies. This multidisciplinary program of study is designed to strengthen the career preparation of students in all majors who plan to work in national and international multicultural environments where knowledge about Latin America, the Caribbean, Latino/a Studies, and multicultural diversity would be a

valuable asset. Completion of the co-major is noted on the student's transcript.

Admission Requirements

Students submit a Declaration of Major Form at the beginning of their junior year.

Co-Major Requirements

Students must complete fifteen credits in the following core courses and a minimum of eighteen credits from the list of elective courses. Appropriate courses may be substituted with the prior approval of the Center's Director.

Code	Title	Credits
Core Courses		
Select five of the following:		15
LAS 2100	Chicano/a Literature and Culture	
LAS 2110	Puerto Rican Literature and Culture	
LAS 2410	History of Mexico	
LAS 2420	History of Puerto Rico and Cuba	
LAS 2430	History of Latino/as in the United States	
LAS 3610	Seminar in Latino/a Urban Problems	
Elective Courses

LawStart Program

Director: Eun-Jung Kim,

Academic Advisor: Ryan Ferrante

<http://clas.wayne.edu/lawstart> (<http://clas.wayne.edu/lawstart/>)

Housed within the College of Liberal Arts and Sciences, the Wayne State University LawStart Program helps highly-qualified undergraduates to complete their General Education, College, and Major requirements within approximately three years, or 90-100 undergraduate credits. Students will then apply to enter Wayne State Law School for their fourth year of undergraduate education. Credits earned during the first year of law school will double-count to fulfill students' remaining undergraduate elective credit requirements. Students in the LawStart Program who are admitted to Wayne Law will receive the Bachelor's degree upon successful completion of all first-year law courses, normally at the end of the fourth year. They will receive the JD degree upon completion of all Law School coursework and other requirements, normally at the end of the sixth full-time year.

Admission Requirements

Students are eligible to apply to LawStart if they have completed between 24 and 64 credit hours, with a minimum of 24 credits hours being completed at Wayne State University. To qualify for admission to the LawStart program, students must be majoring in a subject in the College of Liberal Arts and Sciences, and must have a cumulative

GPA requirement of 3.5 or better in college-level coursework. LawStart application materials also include a personal statement about future career goals, a resume, a graded writing sample from a college-level course, and 2-4 letters of recommendation. A LawStart selection committee may also require an interview for those students who make it to the final selection round.

Students will be accepted to the LawStart Program each fall semester, and application deadlines are in early Fall.

Once accepted into the LawStart program, students must:

- Maintain satisfactory progress toward completing their undergraduate coursework in three years, or by the time they reach 90-100 undergraduate credits.
- Maintain a cumulative GPA of at least 3.5 on a 4.0 scale. If students do not make satisfactory progress for two consecutive semesters, they may be removed from the LawStart program.
- Meet with a member of the Wayne Law admissions staff in November of the third year of undergraduate study, to receive information about the law school application process.
- Take the LSAT no later than midway through their third year of undergraduate study and apply for Wayne State Law School admission by no later than April 1st of the same year.
- Meet with the LawStart advisor at least once a semester, to ensure satisfactory progress toward LawStart program requirements.
- Meet with a departmental advisor at least once a semester, to ensure satisfactory progress toward completing their required undergraduate coursework.
- Participate in LawStart enrichment activities to ensure their preparedness for law school.

Any student failing to meet these program requirements may be removed from the LawStart program at the discretion of the LawStart selection committee. Any student removed or who withdraws from the program will need to complete their final year of undergraduate studies and any remaining requirements in order to attain the bachelor's degree.

In order to earn a bachelor's degree, LawStart students must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements. Acceptance to the LawStart program does not commit students to completing the JD degree. If a student is admitted to and enrolls in Wayne State Law School, he or she will receive a JD degree after completing all JD degree requirements equivalent to three years of full-time law school.

Linguistics

Office: Room 10303, 5057 Woodward; 313-577-8642

e-mail: linguistics@wayne.edu

Director: Haiyong Liu

Undergraduate Advisor: Corinne Forsy

<http://www.clas.wayne.edu/linguistics> (<http://www.clas.wayne.edu/linguistics/>)

Linguistics is devoted to the scientific study of language structure and use. The Linguistics Program at Wayne State offers an interdisciplinary approach to this field, permitting students to explore a wide range of topics and issues in language research. The core courses are offered on a regular basis. The program offers electives in the following areas:

1. linguistics and a language,
2. language structure,

3. language variation and change,
4. language acquisition and processing, and
5. sociolinguistics and discourse/pragmatics.

Training in linguistics prepares students for advanced work in linguistic research, as well as for employment in teaching English and foreign languages; computer systems (especially natural language processing); broadcasting, mass media and journalism; publishing and editing; translation; international business; intercultural communication and negotiation; law; and generally any profession requiring the precise use or analysis of speech or writing.

The Linguistics Program is administered by a director and an advisory committee of participating faculty who regularly teach courses for the program.

- Linguistics (B.A.) (p. 304)
- Linguistics Minor (p. 306)

Linguistics (B.A.)

Linguistics is devoted to the scientific study of language structure and use. The Linguistics Program at Wayne State offers an interdisciplinary approach to this field, permitting students to explore a wide range of topics and issues in language research. Training in linguistics prepares students for advanced work in linguistic research, as well as for employment in teaching English and foreign languages; computer systems (especially natural language processing); broadcasting, mass media and journalism; publishing and editing; translation; international business; intercultural communication and negotiation; law; and generally any profession requiring the precise use or analysis of speech or writing.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Course selections are to be planned in consultation with the linguistics program advisor. Students must complete a minimum of thirty credits in course work to satisfy the major requirements as outlined below.

Required Courses

The linguistics major requirements consist of:

1. three required general courses;
2. one required language use course involving either the analysis of speech data acquired in fieldwork or theories that address language use; and
3. a set of electives.

Also, in the senior year, majors must register for and complete LIN 5993, Writing Intensive Requirement (0 credits). This course is to be taken in conjunction with another course, as explained under Linguistics Courses. In the final semester of study, assessment of knowledge in the major is determined by review of a student portfolio and by an exit interview conducted by members of the faculty. Both the portfolio and the interview

must be deemed acceptable before the Program will certify completion of all major requirements.

Linguistics Honors Program

Students with an overall grade point average of 3.5 are eligible for admission to the Linguistics Honors Program. Satisfactory completion of the Honors Program will lead to a degree 'With Linguistics Honors' on the diploma. Students interested in the program should obtain detailed information from the Linguistics Program Undergraduate Advising Office.

Program Requirements: Students must complete one 5000-level or above Honors Option course as part of the major requirements, the Linguistics Honors Thesis (LIN 5993-H with approved LIN Writing Intensive course), one Honors Seminar from the HON 42XX series, and three additional Honors credits through any department to thereby complete the minimum twelve required Honors credits.

'AGRADE' Program (Accelerated Graduate Enrollment)

The Linguistics Program invites academically superior majors to apply for admission to the 'AGRADE' Program. 'AGRADE' procedures enable qualified seniors to enroll simultaneously in the undergraduate and graduate programs in Linguistics and to apply a maximum of sixteen credits toward both a bachelor's and a master's degree.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the 'AGRADE' Program, contact the Linguistics Program office: 313-577-8642; or by e-mail at: linguistics@wayne.edu

Linguistics Minor

A minor consists of four required courses and two additional courses in the Linguistics program. The required courses are:

Code	Title	Credits
LIN 5290	Phonology	3
LIN 5300	Syntax	3
LIN 2720	Basic Concepts in Linguistics	3
or LIN 5700	Introduction to Linguistic Theory	
One language use course ¹		3
Total Credits		12

¹ As specified under required courses for the Bachelor of Arts (p. 304).

Programs should be planned in consultation with an advisor.

Mathematics

Office: 1150 Faculty/Administration Building; 313-577-2479

Chairperson: Hengguang Li

Associate Chairperson: Daniel Drucker

Undergraduate Advisor: Kimberly Morgan

<http://clas.wayne.edu/math/>

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any

of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

For details on Mathematics course placement, please see the Mathematics Placement Information (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/mathematics/placement/>) section of this bulletin, or the Mathematics Placement Exam (<http://testing.wayne.edu/register/math-placement-exam.php>) information provided by the Office of Testing, Evaluation and Research Services.

- Actuarial Mathematics (B.A.) (p. 307)
- Mathematical Economics (B.A.) (p. 308)
- Mathematics (B.A.) (p. 309)
- Mathematics (B.S.) (p. 311)
- Statistics (B.S.) (p. 314)
- Mathematics Minor (p. 314)
- Statistics Minor (p. 316)
- Advanced Courses for Non-Majors (p. 316)

Mathematics Placement Information

All students, including transfer and guest students, who plan to take MAT 1070, MAT 1110, MAT 1120, MAT 1800, or MAT 2010 as their first mathematics course at Wayne State must:

1. have a satisfactory ACT or SAT Math score (see below) that has been validated by the Testing Office OR
2. take the Mathematics Placement Exam.

Results of the Mathematics Placement Exam and/or the ACT or SAT Math score to determine the course into which the student is placed consistent with the following:

MAT 1070: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam,
2. a grade of CNC or above in MAT 0993 taken at WSU
3. a validated ACT Math score of 21 or higher
4. a validated SAT score of 500 (old version) or 530 (new version) or higher

For placement at this level, students should have a command of numerical and beginning algebra concepts and techniques corresponding approximately to one year of high school algebra.

MAT 1110: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam
2. a grade of at least C- in MAT 1070 taken at WSU
3. a validated ACT Math score of 26 or higher
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

For placement at this level, students should have a command of algebra and basic geometry, corresponding approximately to three years of college-preparatory mathematics.

MAT 1120: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Examination
2. a grade of at least C- in MAT 1110 taken at W.S.U.
3. a validated ACT Math score of 26 or higher
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

MAT 1800: Students qualify by having achieved one of the following within the previous year:

1. satisfactory score on the Mathematics Placement Examination
2. a grade of at least C- in MAT 1070 taken at W.S.U.
3. a validated ACT Math score of 26 or higher
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

For placement at this level, students should have a command of algebra and basic geometry, corresponding approximately to three years of college-preparatory mathematics.

MAT 2010: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam
2. a grade of at least C- in MAT 1800 taken at W.S.U.
3. a validated ACT Math score of 29 or higher
4. a validated SAT Math score of 650 (old version) or 670 (new version) or higher

For placement at this level, students should have a command of algebra, geometry, trigonometry, and elementary functions corresponding approximately to four years of college-preparatory mathematics.

Math Placement Exam: The MPE must be taken before classes begin for the semester in which you plan to take the course. Any student who does not place into a MAT course using an ACT or SAT Math score as described above must take the MPE to determine MAT course placement. Students are also welcome to take the exam if they have taken the ACT and/or SAT, if they would like to attempt to place into a higher course. The MPE may only be taken twice. Students should enroll in the course they are placed into the first time they take the test. However, all students may take the test one additional time within six months of the first attempt. After two attempts at the examination, students must enroll in the course into which they are placed within three semesters. Visit the Testing website (<http://testing.wayne.edu>) for further information on the testing procedures.

Actuarial Mathematics (B.A.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (<http://bulletins.wayne.edu/undergraduate/general-information/admission/>) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's

acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Students must complete 120 credits in coursework including satisfaction of the University General Education Requirements (<http://bulletins.wayne.edu/undergraduate/general-information/general-education/>) and the College of Liberal Arts and Sciences Group Requirements (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements/>), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (<http://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/>) and the College (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/academic-regulations/>) governing undergraduate scholarship and degrees. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of a major option must be at least 2.0 and all coursework required must have a C- or better grade. A minimum of 15 credits of required coursework for the major at the 5030 level or above must be taken at Wayne State.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

SPECIAL PROGRAMS

Emerging Scholars Program

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1070 as preparation for the Program. Contact the Department for further information.

AGRADE Program (Accelerated Graduate Enrollment)

Our AGRADE Program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student's major field. Students electing AGRADE programs may expect to complete the bachelor's and master's degrees in five years of full-time study if they take full advantage of the program. For more details about the AGRADE Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Senior Rule

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. For more information look under graduate admissions in the graduate bulletin.

MULTIPLE MAJORS AND MULTIPLE DEGREES WITHIN THE MATH DEPARTMENT

If a student wishes to complete more than one major or degree within the Math Department (i.e. majors in math, actuarial mathematics, or statistics) then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for one major/degree cannot be used for the other major(s)/degree(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and which are approved by the Math Department to meet a major requirement. Note that university policy states that double majors must be either both Bachelor of Arts or both Bachelor of Science. They cannot be one of each.

The mathematical economics major is a major jointly administered by the Math Department and the Economics Department and therefore follows a different set of guidelines. If a student wishes to major in mathematical economics and another major or majors within the Math Department, the mathematical economics major must include one unique MAT or STA course that is not being used for the other major(s).

MAJORS AND MINORS WITHIN THE MATH DEPARTMENT

If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

Requirements

A minimum of 15 credits of major requirements at or above MAT or STA 5030 must be taken at Wayne State University. Note that STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

Minimum Grade Requirements

The following grade requirements must be satisfied to obtain the degree.

- C- or better in all required coursework.
- C or better average grade for all courses.

Code	Title	Credits
Cognate Courses:		
Select one of the following Computer Science courses:		3-4
CSC 1100 & CSC 1101	Problem Solving and Programming and Problem Solving and Programming Laboratory	
CSC 2000	Introduction to C++ Programming Language	
CSC 2110 & CSC 2111	Computer Science I and Computer Science I Lab	
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
FIN 3290	Business Finance	3
Cognate Courses - Credit Subtotal:		14-15
Mathematics and Statistics Courses:		

MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
Select one of the following two courses (MAT 2350 is preferred if available, and is 3 credits rather than 4)		3-4
MAT 2350	Elementary Differential Equations	
MAT 2150	Differential Equations and Matrix Algebra	
STA 5030	Statistical Computing and Data Analysis	3
MAT 5700	Introduction to Probability Theory	4
MAT 5740 & MAT 5993	The Theory of Interest and Writing Intensive Course in Mathematics ¹	3
STA 5800	Introduction to Mathematical Statistics	4
Select two of the following options:		6-7
MAT 5710	Introduction to Stochastic Processes	
MAT 5750	Mathematics of Finance	
MAT 5770	Mathematical Models in Operations Research	
STA 5830	Applied Time Series	
MAT 5890	Special Topics in Mathematics (The topic must be approved by the Department of Mathematics):)	
Math and Statistics Courses - Credit Subtotal:		38-40
Major Courses - Credit Total:		52-55

¹ MAT 5993 is linked to MAT 5740. These two courses must be taken simultaneously.

Mathematical Economics (B.A.)

The purpose of the program is to provide rigorous training in mathematics and economics for students whose career goals require a high level of technical proficiency in these subjects. The program will be valuable for students who intend to pursue graduate work in economics, finance or applied mathematics, or pursue a career in economic analysis, finance, underwriting, actuarial sciences, banking, international trade, applied statistics, or operations research.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students considering a mathematical economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) and MAT 2010 (Calculus 1) as soon as possible.

To satisfy the university bachelor's degree requirement, Mathematical Economics majors must have a cumulative grade point average of 2.0 in their major courses. Also, students must receive a grade of 'C-' or better in all mathematics, statistics and economics courses.

A major consists of at least forty-six credits total - at least twenty-two credits in mathematics courses and twenty-four credits in economics courses. At least fifteen credits (eight credits of economics and seven credits of math) must be earned at Wayne State University.

Code	Title	Credits
Economics Requirements		
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
ECO 5000	Intermediate Microeconomics	4
ECO 5050	Intermediate Macroeconomics	4
ECO 6000	Price and Allocation Theory	4
Select one of the following: ¹		
ECO 5020	Fundamentals of Economic Analysis I	4
ECO 5030	Microeconomic Theory	4
ECO 5100	Introductory Statistics and Econometrics	4
ECO 5230	Environmental Economics	4

MAT 5870	Methods of Optimization	4
STA 5800	Introduction to Mathematical Statistics	4
Total Credits		46-47

¹ This course could be done in conjunction with ECO 5993.

² Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200 and MAT 6210.

³ This is a paper completed in conjunction with an approved 5000-level economics, mathematics or statistics elective course. You must register for this course during the same semester that the 5000-level elective taken. Permission from the instructor is required.

Minimal Grade Requirements

Students must receive a grade of 'C-' or better in all economics, mathematics and statistics courses. An overall grade point average of 2.0 ('C') is required for graduation.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, mathematical economics majors must register for ECO 5993, the zero-credit WI course. This is a paper completed in conjunction with a 5000-level economics, mathematics or statistics elective course. They must register for this during the same semester that the 5000-level elective course is taken. All mathematical economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Student's Responsibility

It is each student's responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult both Mathematical Economics program advisors regularly in order to verify that Mathematical Economics requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Mathematics (B.A.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Candidates must complete 120 credits in coursework including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of a major option must be at least 2.0 and all coursework required must have a C- or better grade. A minimum of 15 credits of required coursework for the major at the 5030 level or above must be taken at Wayne State.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

SPECIAL PROGRAMS

Emerging Scholars Program

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1070 as preparation for the Program. Contact the Department for further information.

AGRADE Program (Accelerated Graduate Enrollment)

Our AGRADE Program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student's major field. Students electing AGRADE programs may expect to complete the bachelor's and master's degrees in five years of full-time study if they take full advantage of the program. For more details about the AGRADE Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Senior Rule

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. For more information look under graduate admissions in the graduate bulletin.

MULTIPLE MAJORS AND MULTIPLE DEGREES WITHIN THE MATH DEPARTMENT

If a student wishes to complete more than one major or degree within the Math Department (i.e. majors in math, actuarial mathematics, or statistics) then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for one major/degree cannot be used for the other major(s)/degree(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and which are approved by the Math Department to meet a major requirement. Note that university policy states that double majors must be either both Bachelor of Arts or both Bachelor of Science. They cannot be one of each.

The mathematical economics major is a major jointly administered by the Math Department and the Economics Department and therefore follows a different set of guidelines. If a student wishes to major in mathematical economics and another major or majors within the Math Department, the mathematical economics major must include one unique MAT or STA course that is not being used for the other major(s).

MAJORS AND MINORS WITHIN THE MATH DEPARTMENT

If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique

course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

SECONDARY MATHEMATICS TEACHING

An excellent option for students who would like to become secondary mathematics teachers is to complete any of the mathematics major concentrations or the B.S. in Statistics, along with teacher certification requirements. Please see a Math Department advisor for more details.

REQUIREMENTS

Minimum Grade Requirements

The following grade requirements must be satisfied to obtain the degree.

- C- or better in all required coursework.
- C or better average grade for all courses.

Concentrations

In addition to the general bachelor's degree requirements, the candidate must complete one of the following concentrations: A, B, C, or D, as described below. Note that STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

Prospective Graduate Study Concentration

This concentration is for students interested in advanced mathematics, including those who intend to pursue graduate study in mathematics or statistics and those who want to be exceptionally well qualified for high-level employment in government or industry.

Code	Title	Credits
MAT 2010	Calculus I	4

Total Credits **39-43**

¹ Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200, and MAT 6210. Only one MAT 5890 and only one MAT 5990 may be selected.

Computer Science Concentration

Mathematics and computer science are so closely related that a great many students who major in mathematics pursue careers or graduate study in computer science. A mathematics degree, being more than just welcome in the field, is highly regarded. For students who would like to complete a double degree in mathematics and computer science or a major in mathematics with a minor in computer science, the Department offers a specially designed program. Under this concentration, students can take certain courses that satisfy both mathematics and computer science requirements simultaneously. Specifically, any two of STA 5030, MAT 5100, MAT 5110 and MAT 5890 (The topic must be approved by the Department of Computer Science.) can be used as computer science electives, and one of CSC 5870, CSC 6500, CSC 6620, or CSC 6991 (The topic in CSC 6991 must be approved by the Math

Department Undergraduate Committee.) can be used as a mathematics elective.

This concentration is available only to students who complete a second degree or a minor in computer science prior to graduation. Students should consult the Computer Science Department concerning the requirements for the second degree or minor.

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
Select one of the following (STA 2210 should not be chosen if the student is doing a second degree in Computer Science, but may be chosen if the student is doing a minor in Computer Science):		3-4
MAT 5700	Introduction to Probability Theory	
STA 2210	Probability and Statistics	
BE 2100	Basic Engineering III: Probability and Statistics in Engineering

One MAT or STA course numbered 5030 or above. ¹		3-4
One additional MAT or STA course numbered 5030, or above one of the following five options: ¹		3-4
CSC 5870	Computer Graphics I	
CSC 6500	Theory of Languages and Automata	
CSC 6620	Matrix Computation I	
CSC 6991	Topics in Computer Science (Topic must be approved by the Math Department Undergraduate Committee.)	

Total Credits **38-41**

¹ Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200, and MAT 6210. Only one (at most) of the courses may be selected from MAT 5890 or MAT 5990. These electives are subject to advisor approval on the Student's Plan of Work.

² This course can also count as an elective for the minor or major in computer science.

Mathematics (B.S.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's

acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Candidates must complete 120 credits in coursework including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of a major option must be at least 2.0 and all coursework required must have a C- or better grade. A minimum of 15 credits of required coursework for the major at the 5030 level or above must be taken at Wayne State.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

SPECIAL PROGRAMS

Emerging Scholars Program

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1070 as preparation for the Program. Contact the Department for further information.

'AGRADE' Program (Accelerated Graduate Enrollment)

Our AGRADE Program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student's major field. Students electing AGRADE programs may expect to complete the bachelor's and master's degrees in five years of full-time study if they take full advantage of the program. For more details about the AGRADE 'AGRADE' Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Mathematics Departmental Honors Program

In order to graduate with honors in mathematics, students must satisfy the following criteria:

1. Completion of the requirements for a Bachelor of Science degree.
2. Have an overall grade point average of 3.3 or above at graduation.
3. At least 12 math honors credits at the level of MAT 2020 or above, including at least 4 credits of an approved 5000 level course. See a math advisor for approved courses. MAT 4990 is not included in these 12 credits. The student must complete the course with at least a B and the honors option work with at least a B in order to obtain honors credit.
4. Completion of an HON 42XX - Honors College Seminar. See the Honors College website (<http://www.honors.wayne.edu/classes.php>) for information.

5. Satisfactory completion of MAT 4990 - Directed Study: Honors Program (3-6 credits). MAT 4990 involves the completion of an honors thesis in mathematics. The thesis must extend, supplement or compliment the 5000 level coursework the student has taken. It must be written under the guidance of a full-time faculty member.
6. Obtain a 3.3 average for all math classes upon completion.

Senior Rule

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. For more information look under graduate admissions in the graduate bulletin.

MULTIPLE MAJORS AND MULTIPLE DEGREES WITHIN THE MATH DEPARTMENT

If a student wishes to complete more than one major or degree within the Math Department (i.e. majors in math, actuarial mathematics, or statistics) then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for one major/degree cannot be used for the other major(s)/degree(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and which are approved by the Math Department to meet a major requirement. Note that university policy states that double majors must be either both Bachelor of Arts or both Bachelor of Science. They cannot be one of each.

The mathematical economics major is a major jointly administered by the Math Department and the Economics Department and therefore follows a different set of guidelines. If a student wishes to major in mathematical economics and another major or majors within the Math Department, the mathematical economics major must include one unique MAT or STA course that is not being used for the other major(s).

MAJORS AND MINORS WITHIN THE MATH DEPARTMENT

If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

SECONDARY MATHEMATICS TEACHING

An excellent option for students who would like to become secondary mathematics teachers is to complete any of the mathematics major concentrations or the B.S. in Statistics, along with teacher certification requirements. Please see a Math Department advisor for more details.

MAJOR REQUIREMENTS

Minimum Grade Requirements

The following grade requirements must be satisfied to obtain the degree.

- C- or better in all required coursework.
- C or better average grade for all courses.

B. S. Additional Requirements

The candidate must complete the following courses in addition to choosing concentration A, B, C, or D as described below.

Code	Title	Credits
MAT 5600	Introduction to Analysis I ¹	4
Select one of the following two options:		5
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	
PHY 2175 & PHY 2171	University Physics for Engineers I and University Physics Laboratory	
Select one of the following two options:		5
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II	
PHY 2185 & PHY 2181	University Physics for Engineers II and University Physics Laboratory II	
Select one of the following two options:		3-4
CSC 1100 & CSC 1101	Problem Solving and Programming and Problem Solving and Programming Laboratory	
CSC 2000	Introduction to C++ Programming Language	
Select one of the following six options:		4-5
BIO 1510	Basic Life Mechanisms	
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	
NFS 2030 & NFS 2220	Nutrition and Health and Nutrition Laboratory	
GEL 1010 & GEL 1011	Geology: The Science of the Earth and Geology: The Science of the Earth Laboratory (If taken before Winter 2018, GEL 1010 alone will meet the requirement.)	
NFS 3230 & NFS 2220	Human Nutrition and Nutrition Laboratory	
PSY 1010	Introductory Psychology	
Total Credits		21-23

¹ A candidate for the B. S. degree in mathematics who is pursuing a second major does not have to complete MAT 5600 unless the concentration requires it. A candidate for the B. S. degree in mathematics who is pursuing a second degree must complete the course.

Concentrations

The candidate must complete one of the following concentrations in addition to requirements listed above. Note that STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

Prospective Graduate Study Concentration

This concentration is for students interested in advanced mathematics, including those who intend to pursue graduate study in mathematics or statistics and those who want to be exceptionally well qualified for high-level employment in government or industry.

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4

Select one of the following two options (MAT 2350 is preferred if available, and it is 3 credits rather than 4):		3-4
MAT 2350	Elementary Differential Equations	
MAT 2150	Differential Equations and Matrix Algebra	
MAT 2250	Elementary Linear Algebra	3
MAT 5070	Elementary Analysis	4
MAT 5420 & MAT 5993	Algebra I and Writing Intensive Course in Mathematics	4
MAT 5600	Introduction to Analysis I	4
MAT 5700	Introduction to Probability Theory	4
Select one of the following two options:		3-4
MAT 5430	Algebra II	
MAT 5610	Introduction to Analysis II	
Select one of the following six options:		3-4
MAT 5230	Complex Variables and Applications	
MAT 5430	Algebra II	
MAT 5520	Introduction to Topology	
MAT 5530	Elementary Differential Geometry and its Applications	
MAT 5610	Introduction to Analysis II	
STA 5800	Introduction to Mathematical Statistics	
Select one of the following four options:		3-4
An MAT or STA course numbered 5030 or above. ¹		
CSC 6500	Theory of Languages and Automata	
CSC 6620	Matrix Computation I	
CSC 6991	Topics in Computer Science (The topic must be approved by the Math Department Undergraduate Committee.)	
Total Credits		43-47

¹ Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6210. Only one (at most) of the courses may be selected from MAT 5890 or MAT 5990. These electives are subject to advisor approval on the Student's Plan of Work.

General Topics Concentration

This concentration is for students interested in a broad range of topics.

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Select one of the following two options (MAT 2350 is preferred if available, and it is 3 credits rather than 4):		3-4
MAT 2350	Elementary Differential Equations	
MAT 2150	Differential Equations and Matrix Algebra	
MAT 2250	Elementary Linear Algebra	3
MAT 5070	Elementary Analysis	4
MAT 5700	Introduction to Probability Theory	4
MAT 5420 & MAT 5993	Algebra I and Writing Intensive Course in Mathematics	4
Two MAT or STA courses numbered 5030 or above. ¹		6-8
One additional MAT or STA course numbered 5030 or above, or one of the following CSC courses listed below: ¹		3-4
CSC 6500	Theory of Languages and Automata	
CSC 6580	Design and Analysis of Algorithms	
CSC 6620	Matrix Computation I	

CSC 6991	Topics in Computer Science (depending on the topic)
----------	---

Total Credits **39-43**

¹ Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6210, the minor or major in computer science. ² Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6210. Only one (at most) of the courses may be selected from MAT 5890 or MAT 5990. These electives are subject to advisor approval on the Student's Plan of Work.

Computer Science Concentration

Mathematics and computer science are so closely related that a great many students who major in mathematics pursue careers or graduate study in computer science. A mathematics degree, being more than just welcome in the field, is highly regarded. For students who would like to complete a double degree in mathematics and computer science or a major in mathematics with a minor in computer science, the Department offers a specially designed program. Under this concentration, students can take certain courses that satisfy both mathematics and computer science requirements simultaneously. Specifically, any two of STA 5030, MAT 5100, MAT 5110 or MAT 5890 (The topic for MAT 5890 must be approved by the Department of Computer Science.) can be used as computer science electives, and one of CSC 5870, CSC 6500, CSC 6620 or CSC 6991 can be used as a mathematics elective (The topic for CSC 6991 must be approved by the Department of Mathematics).

This concentration is available only to students who complete a second degree or a minor in computer science prior to graduation. Students should consult the Computer Science Department concerning the requirements for the second degree or minor.

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
Select one of the following three options (STA 2210 should not be chosen if the student is doing a second degree in Computer Science, but may be chosen if the student is doing a minor in Computer Science):		3-4
MAT 5700	Introduction to Probability Theory	
STA 2210	Probability and Statistics	
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	
MAT 2860	Discrete Mathematics	3
MAT 5070	Elementary Analysis	4
MAT 5100	Numerical Methods I ²	3
MAT 5420 & MAT 5993	Algebra I and Writing Intensive Course in Mathematics	4
One MAT or STA course numbered 5030 or above. ¹		3-4
One additional MAT or STA course numbered 5030, or above one of the following five options: ¹		3-4
CSC 5870	Computer Graphics I	
CSC 6500	Theory of Languages and Automata	
CSC 6620	Matrix Computation I	
CSC 6991	Topics in Computer Science (Topic must be approved by the Math Department Undergraduate Committee.)	
Total Credits		38-41

¹ Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6210. Only one (at most) of the courses may be selected from MAT 5890 or MAT 5990. These electives are subject to advisor approval on the Student's Plan of Work.

Mathematics Minor

A student who is considering a minor should consult a Departmental advisor. At least 7 credit hours counted toward a minor must be taken at Wayne State, and transfer courses must carry a grade of C or better. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of the minor must be at least 2.0 and all coursework required must have a C- or better grade.

If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

The requirements for a minor consist of:

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
Two MAT or STA courses numbered 5030 or above. ¹		6-8
One additional MAT or STA course numbered 5030 or above, or one of the courses listed below: ¹		3-4
MAT 2150	Differential Equations and Matrix Algebra	
MAT 2350	Elementary Differential Equations	
MAT 2860	Discrete Mathematics	
MAT 5000	Fundamental Concepts of Mathematics and Proof Writing	
STA 2210	Probability and Statistics	
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	
Total Credits		24-27

¹ The courses MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180 and MAT 6210 do not satisfy the mathematics minor requirement for courses numbered 5030 or above. Only one MAT 5890 or 5990 may be used to meet the requirements.

Statistics (B.S.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and

government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (<http://bulletins.wayne.edu/undergraduate/general-information/admission/>) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Students must complete 120 credits in coursework including satisfaction of the University General Education Requirements (<http://bulletins.wayne.edu/undergraduate/general-information/general-education/>) and the College of Liberal Arts and Sciences Group Requirements (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements/>), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (<http://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/>) and the College (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/academic-regulations/>) governing undergraduate scholarship and degrees. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of a major option must be at least 2.0 and all coursework required must have a C- or better grade. A minimum of 15 credits of required coursework for the major at the 5030 level or above must be taken at Wayne State.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

SPECIAL PROGRAMS

Emerging Scholars Program

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1070 as preparation for the Program. Contact the Department for further information.

AGRADE Program (Accelerated Graduate Enrollment)

Our AGRADE Program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student's major field. Students electing AGRADE programs may expect to complete the bachelor's and master's degrees in five years of full-time study if they take full advantage of the program. For more details about the AGRADE Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Senior Rule

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for

those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. For more information look under graduate admissions in the graduate bulletin.

MULTIPLE MAJORS AND MULTIPLE DEGREES WITHIN THE MATH DEPARTMENT

If a student wishes to complete more than one major or degree within the Math Department (i.e. majors in math, actuarial mathematics, or statistics) then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for one major/degree cannot be used for the other major(s)/degree(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and which are approved by the Math Department to meet a major requirement. Note that university policy states that double majors must be either both Bachelor of Arts or both Bachelor of Science. They cannot be one of each.

The mathematical economics major is a major jointly administered by the Math Department and the Economics Department and therefore follows a different set of guidelines. If a student wishes to major in mathematical economics and another major or majors within the Math Department, the mathematical economics major must include one unique MAT or STA course that is not being used for the other major(s).

MAJORS AND MINORS WITHIN THE MATH DEPARTMENT

If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

Requirements

A minimum of 15 credits of major requirements at or above MAT or STA 5030 must be taken at Wayne State University. Note that STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

Minimum Grade Requirements

The following grade requirements must be satisfied to obtain the degree.

- C- or better in all required coursework.
- C or better average grade for all courses.

Code	Title	Credits
Prerequisites		
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
STA 2210	Probability and Statistics	4
Core Computing Course (select one of the following)		3-4

CSC 1100 & CSC 1101	Problem Solving and Programming and Problem Solving and Programming Laboratory	
CSC 2000	Introduction to C++ Programming Language	
Core Statistics Courses		11
MAT 5700	Introduction to Probability Theory	
STA 5800	Introduction to Mathematical Statistics	
STA 6840	Applied Regression Analysis ¹	
Core Statistical Computing Course		3
STA 5030	Statistical Computing and Data Analysis	
Additional Statistics Course (select one of the following)		3-4
MAT 5710	Introduction to Stochastic Processes	
MAT 5770	Mathematical Models in Operations Research	
STA 5830	Applied Time Series	
MAT 5890	Special Topics in Mathematics (Topic must be approved by the Math Department) ²	
STA 6830	Design of Experiments	
Elective Courses (Select two of the following, one of which must be chosen from the first 7 options, ending with MAT 5870.) ³		6-8
Any additional course listed in "Additional Statistical Courses". ²		
MAT 2350	Elementary Differential Equations (MAT 2350 is recommended, if available.)	
or MAT 2150 Differential Equations and Matrix Algebra		
MAT 5070	Elementary Analysis ³	
MAT 5100	Numerical Methods I	
MAT 5410	Applied Linear Algebra	
MAT 5600	Introduction to Analysis I	
MAT 5870	Methods of Optimization	
MAT 5740	The Theory of Interest	
ECO 6100	Introduction to Econometrics	
ISM 5570	Data Mining and Analytics	
CSC 5825	Introduction to Machine Learning and Applications	
DSA 6000	Data Science and Analytics	
EER 8800	Variance and Covariance Analysis	
EER 8820	Multivariate Analysis	
EER 8860	Nonparametric, Permutation, Exact, and Robust Methods	
EER 8992	Research and Experimental Design	
IE 6210	Applied Engineering Statistics	
IE 6611	Fundamentals of Six Sigma	
PS 5630	Statistics and Data Analysis in Political Science I	
PSY 6500	Advanced Psychological Statistics	
SOC 6280	Social Statistics	
SW 9100	Social Statistics and Data Analysis	
Capstone Course		
MAT 5993	Writing Intensive Course in Mathematics ¹	
Total Credits		45-49

¹ MAT 5993 is linked with STA 6840, and so they must be taken together.

² MAT 5890 must be a statistics course and must be approved by the Department of Mathematics. In case of two or more different MAT 5890 courses, one will be counted as the "Additional Statistics Course" and the other as an "Elective Course."

³ Strongly recommended for students interested in graduate study.

Statistics Minor

A student who is considering a minor should consult a Departmental advisor. At least 7 credit hours counted toward a minor must be taken at Wayne State. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of a minor option must be at least 2.0 and all coursework required must have a C- or better grade.

If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

Requirements

Code	Title	Credits
Foundational mathematics		11-12
MAT 2010	Calculus I	
MAT 2020	Calculus II	
Select one of the following:		
MAT 2250	Elementary Linear Algebra	
MAT 2150	Differential Equations and Matrix Algebra	
Statistics courses		10-12
Select one of the following:		
STA 2210	Probability and Statistics	
PH 3200	Introduction to Biostatistics	
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	
ECO 5100	Introductory Statistics and Econometrics	
Select at least two of the following:		
STA 5030	Statistical Computing and Data Analysis	
MAT 5700	Introduction to Probability Theory	
STA 5800	Introduction to Mathematical Statistics	
MAT 5890	Special Topics in Mathematics (Topic must be approved by the Department of Mathematics.)	
STA 5830	Applied Time Series	
STA 6830	Design of Experiments	
STA 6840	Applied Regression Analysis	
TOTAL		21-24

Students should be aware that MAT 2150, 5700, 5890 and STA 5800, and 6840 require MAT 2030 as a prerequisite.

Advanced Courses for Non-Majors

Because of the fundamental role that mathematics plays in all types of scientific and technical endeavor, the advanced course offerings of the Mathematics Department must serve a group considerably larger than those preparing for a career in mathematics exclusively.

Economics, Business Administration and Computer Science

The following basic subjects are recommended to master's degree candidates as preparation for work in their profession; they also provide a

solid background for students who intend to pursue doctoral studies after completion of the master's program:

Code	Title	Credits
Numerical Methods		
MAT 5100	Numerical Methods I	3
MAT 5110	Numerical Methods II	3
Algebra		
MAT 5420	Algebra I	4
Operations Research		
MAT 5770	Mathematical Models in Operations Research	3
Probability Theory		
MAT 5700	Introduction to Probability Theory	4
Statistical Methods, Applied Time Series and Design of Experiments		
STA 5800	Introduction to Mathematical Statistics	4
STA 5830	Applied Time Series	3

Engineering and Physical Applications

The Mathematics Department has several sequences in applied mathematics that provide experienced engineers and scientists from industry and government the means to acquire and maintain the technical competence needed to work at the frontiers of their fields (for additional courses to those listed below, see the Graduate Bulletin):

Code	Title	Credits
Numerical Methods		
MAT 5100	Numerical Methods I	3
MAT 5110	Numerical Methods II	3
Applied Analysis		
MAT 5220	Partial Differential Equations	4
MAT 5230	Complex Variables and Applications	4
Probability Theory and Random Processes		
MAT 5700	Introduction to Probability Theory	4
Differential Geometry		
MAT 5530	Elementary Differential Geometry and its Applications	3

Students who feel that they eventually would like to pursue mathematical studies beyond the level of the above sequences should make every effort to take the mathematics sequences that begin with MAT 5600, and MAT 5420, respectively, and MAT 6600. These courses will help them to understand and work with abstract concepts in advanced courses.

Statistics

Students requiring only an introduction to basic statistics are referred to STA 1020 or STA 2210. Those whose work demands a good foundation in mathematical statistics are referred to MAT 5700 and STA 5800. STA 5830 is useful for students interested in applied statistics.

In addition to the interdepartmental course listed below, specialized courses in statistics are offered by individual departments:

Code	Title	Credits
ECO 5100	Introductory Statistics and Econometrics	4
ECO 6100	Introduction to Econometrics	4
MAT 5700	Introduction to Probability Theory	4
PSY 2030	Statistical Methods in Psychology	4
STA 2210	Probability and Statistics	4
STA 6830	Design of Experiments	3

Neuroscience

Neuroscience is an interdisciplinary science dedicated to discovering how the brain produces thought, emotion, and behavior on the levels of systems, cells, and molecules. The neuroscience programs are offered jointly through the Departments of Biological Sciences and Psychology

- Neuroscience (B.S.) (p. 317)
- Neuroscience Minor (p. 318)

Neuroscience (B.S.)

The goal of the Neuroscience major is to provide students with a strong background in fundamental basic sciences and exposure to the integrative nature of neuroscience to allow students to understand nervous system function from a variety of perspectives. Students will emerge with a strong foundation in basic science and applied neuroscience that will make them competitive for post-graduate studies or employment in industry, government, health, and education.

The degree program is offered jointly through the Departments of Biological Sciences and Psychology. During the freshman year, or as early as possible, students interested in neuroscience should consult one of these departments to obtain information from an undergraduate advisor.

The Neuroscience major will lead to a Bachelor of Science (B.S.) degree. Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Major requirements are divided into three categories: (A) Basic science courses, (B) Neuroscience core courses, and (C) Electives. Elective courses are organized into two sub-categories and students must select from each; this is to ensure breadth of exposure.

Basic Science Courses

Students may double-count up to 11 - 12 credits with University General Education requirements.

Code	Title	Credits
Math		4
MAT 2010	Calculus I	
Statistics		3-4
PSY 2030	Statistical Methods in Psychology or STA 1020 Elementary Statistics or STA 2210 Probability and Statistics	
Biology		8
BIO 1510	Basic Life Mechanisms	
BIO 2550	Fundamentals of Cell Biology for Neuroscience

NEU 6994	Honors Undergraduate Research in Neuroscience	4
NEU 6998	Honors Thesis in Neuroscience	3

Honors Requirements

To be recommended for an honors degree from this program, a student must maintain a cumulative g.p.a. of at least 3.30 and complete a minimum of 14 honors course credits including:

Code	Title	Credits
One 42XX level Honors Seminar		3
NEU 6990	Honors Introduction to Research Practice	1
Complete at least two credits of Honors research with one of the following		2
NEU 6992	Honors Undergraduate Research in Neuroscience	
NEU 6993	Honors Undergraduate Research in Neuroscience	
NEU 6994	Honors Undergraduate Research in Neuroscience	
Complete an Honors thesis		3
NEU 6998	Honors Thesis in Neuroscience	
Remaining credits to be earned in honors sections or honors options within the Neuroscience major		5
Total Credits		14

Neuroscience Minor

Neuroscience is the interdisciplinary scientific study of the nervous system. It encompasses and combines a broad array of disciplines including biology, biochemistry, computer science, physiology, psychology, philosophy, and more. This diversity reflects the complexity of the nervous system and the challenges in understanding how nervous systems function on multiple levels underlying behavior: molecular, cellular, network, and systems. The overarching goal of the Neuroscience minor is to allow students who may be focusing their studies in a traditional discipline with certain levels of analysis to broaden their perspective and knowledge to areas outside of their primary field of study.

The minor requires the completion of a minimum of 18 credits.

Code	Title	Credits

Nutrition and Food Science

Office: 3009 Science Hall; 313-577-2500

Chairperson: Ahmad R. Heydari

Undergraduate Advisor: Deanna L. Cavanaugh

<http://www.clas.wayne.edu/NFS/>

The courses offered by this department are designed for students in three distinct groups:

1. those majoring in nutrition and food science who are interested in entering either the nutrition, the food science and health care professions;
2. those interested in entering the dietetics field; and
3. those majoring in nutrition and food science with the intention of entering non-technical positions in a variety of food businesses.

- Dietetics (B.S.) (p. 319)
- Dietetics (Post-Bachelor Certificate) (p. 320)
- Nutrition and Food Science (B.A.) (p. 320)
- Nutrition and Food Science (B.S.) (p. 321)
- Nutrition and Food Science Minor (p. 322)

Dietetics (B.S.)

The coordinated program in dietetics is designed to prepare registration-eligible practitioners. The special body of knowledge for the profession is the science of nutrition; skills for delivery of nutritional care encompass a number of closely-allied fields, such as food science, business, management, psychology, social sciences, economics, and communication. The strong base in science and other areas is developed through selection of relevant prerequisite and supporting cognate courses, and in the professional courses. Graduates of the program receive a Bachelor of Science in Dietetics degree and are eligible to write the national registration examination for professional certification without the need for a separate internship. The dietetics program is currently granted accreditation status by the Academy of Nutrition and Dietetics Accreditation Council for Education in Nutrition and Dietetics (ACEND), a specialized accrediting body recognized by The Council on Post-secondary Accreditation and the United States Department of Education. Students may contact ACEND via their webpage or by calling 312-899-0040 to find out the accreditation status of any dietetic program.

Admission Requirements

Admission to this program is competitive and open only to students with at least junior standing in the College after completion of the prerequisite courses cited below. Program application should be made by April 1 of the winter semester preceding the fall semester of anticipated entry into the program. Transfer and post-baccalaureate students must meet the pre-professional science requirements (see courses, below) before acceptance into the program. Transferability of credit must be verified by the College advisors and Dietetics faculty. Course material fees cover all the additional costs relating to the professional component of the program. However, students are responsible for the costs associated with physical examination, lab coat, texts and transportation.

Code	Title	Credits
Prerequisite Courses		
ANT 1100	Introduction to Anthropology	3
or SOC 1010	Understanding Human Society	
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
BIO 2870	Anatomy and Physiology	5

Nutrition and Food Science Honors Program

Admission: A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

Honors Requirements

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one 4000-level Honors Program seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

Dietetics (Post-Bachelor Certificate)

This program is available to students admitted to the Coordinated Program in Dietetics (CPD) who already have an undergraduate degree. Completion of the CPD makes graduates of the program eligible to take the National Registration Examination for Dietitians, which, when

successfully completed, confers the legal designation of Registered Dietitian.

Admission Requirements

Students who have received an undergraduate degree from Wayne State University should contact the department for application procedures. Students who have received an undergraduate degree from another institution must complete the Application for Undergraduate Admission and have transcripts of previous work sent directly to the Office of Admissions. Application to the CPD is separate from that to the University (CPD applications (<http://www.clas.wayne.edu/NFS/>) should be obtained from the department, and applications are accepted only once yearly). The deadline is April 1 for program entry the following fall semester.

Students with a dietetics degree generally will have fulfilled all prerequisite course requirements; see Core Courses for the Bachelor of Science in Dietetics (p. 321) degree. Any courses in which the student had received a grade of D or below must be repeated; any dietetics courses in which the student has received a grade of C-plus or below must be repeated. Dietetics courses include food service management, medical nutrition therapy (also called clinical nutrition or diet therapy), and community nutrition. Following successful completion of all Core Courses in the undergraduate degree program, the student will elect the Core Courses for the Post-Bachelor Certificate in Dietetics.

Students who possess an undergraduate degree that is not in dietetics do not need to obtain a second undergraduate degree in dietetics, but they must complete all Core Courses for the Bachelor of Science in Dietetics, or their equivalents at other universities. Students in this category should consult with a dietetics advisor at their earliest opportunity. Following successful completion of all Core Courses in the undergraduate degree program, the student will elect the Core Courses for the Post-Bachelor Certificate in Dietetics.

Code	Title	Credits
Core Courses		
NFS 4100	Nutrition Care Process I	2
NFS 4120	Nutrition Care Process II	2
NFS 4210	Dietetic Practice II	10
NFS 4220	Dietetic Practice III	10
NFS 5200	Advanced Dietetics	3
NFS 5360	Management of Nutritional Care and Services	3
NFS 6860	Controversial Issues in Clinical Nutrition and Dietetics	2
Total Credits		32

Nutrition and Food Science (B.A.)

This curriculum allows students to major in nutrition and food science while following a broader program in liberal arts, science, and business. The degree requires a less rigorous background in chemistry and other natural science courses than is required for the B.S. degree in this discipline. Employment opportunities include sales, customer relations, university or school food services, industrial and commercial food service systems, hospitals, nursing homes or extended care food service operations.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students contemplating a major program in Nutrition and Food Science should consult with the undergraduate Departmental advisor as soon as possible, and no later than the beginning of the sophomore year. Transfer

students should consult with the undergraduate departmental advisor during the semester prior to their transfer.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Course requirements for this bachelor's degree consist of courses offered by Wayne State University and courses available from local community colleges on a dual enrollment basis with the University. Requirements are as follows:

Code	Title	Credits
University Core Courses		
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220 or BIO 2870	Organic Chemistry II Anatomy and Physiology	4-5
ECO 2010	Principles of Microeconomics	3-4
MGT 2530	Management of Organizational Behavior	3
NFS 2030	Nutrition and Health	3
NFS 2130	Introductory Food Science	3
NFS 2140	Introductory Food Science Laboratory	1
NFS 2220	Nutrition Laboratory	1
NFS 3230	Human Nutrition	3-4
NFS 4150	Advanced Food Science	3
NFS 4160	Food Laws and Regulations	3
NFS 4230	Macronutrient Metabolism	3
NFS 4231	Human Nutrition: Micronutrients	3
NFS 5250	Nutrition and Disease	4
NFS 5350	Organization and Management of Food Service Systems	4
NFS 6850	Controversial Issues	2
PSY 1020	Elements of Psychology	3
STA 1020	Elementary Statistics	3
Total Credits		68-71

Community College Courses

Candidates for the degree may complete a course in one of the following areas: sanitation, food management, quantity food purchasing, and quantity food production. As many as four credits from these courses can be applied to the degree either by transfer from previous community college work or by concurrent enrollment with a local community college. For an approved list of courses from area institutions, consult the Department.

Nutrition and Food Science Honors Program

Admission: A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors

program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

Honors Requirements

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one 4000-level Honors Program seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

'AGRADE' Program (Accelerated Graduate Enrollment)

Qualified seniors in Nutrition and Food Science having not less than a 3.5 g.p.a. may enroll simultaneously in the undergraduate and graduate program and apply a maximum of sixteen credits towards both the bachelor's and master's degrees in nutrition and food science. Students may apply for the program as soon as they complete ninety credits towards the undergraduate degree. Graduate courses taken as part of the 'AGRADE' Program are assessed undergraduate rate tuition. Contact the Department for further information.

Nutrition and Food Science (B.S.)

This program is designed for science-oriented students who are interested in the various food and nutrition or other healthcare related professions. Students are prepared for these professions by the integration of chemistry and the biological sciences with courses in food science and nutrition. Employment opportunities may be found in various phases of food processing, research and development, public health, and community education, as well as in positions in state and federal regulatory agencies dealing with food products. The program provides good preparation for medical, dental or allied health school application. Students should consult an advisor for program planning.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students contemplating a major program in Nutrition and Food Science should consult with the undergraduate Departmental advisor as soon as possible, and no later than the beginning of the sophomore year. Transfer students should consult with the undergraduate departmental advisor during the semester prior to their transfer.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete seventy-six credits in science courses of which at least thirty-five must be in nutrition and food science. Core Courses are as follows:

Code	Title	Credits
University Core Courses		
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
BIO 2870	Anatomy and Physiology	5
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 2280	General Chemistry II: Analytical Chemistry (pre-med/dental students only)	3
CHM 2290	General Chemistry II: Analytical Chemistry Laboratory (pre-med/dental students only)	2
MAT 1800	Elementary Functions	4
NFS 2030	Nutrition and Health	3
NFS 2130	Introductory Food Science	3
NFS 2140	Introductory Food Science Laboratory	1
NFS 2220	Nutrition Laboratory	1
NFS 3230	Human Nutrition	3-4
NFS 4160	Food Laws and Regulations	3
NFS 4230	Macronutrient Metabolism	3
NFS 4231	Human Nutrition: Micronutrients	3
NFS 5130	Food Chemistry	3
NFS 5140	Laboratory Techniques in Nutrition and Food Science	3
NFS 5250	Nutrition and Disease	4
NFS 6850	Controversial Issues	2
Additional three credits in upper division NFS courses		
PHY 2130	Physics for the Life Sciences I	4
PHY 2131	Physics for the Life Sciences Laboratory	1
PHY 2140	Physics for the Life Sciences II	4
PHY 2141	Physics for the Life Sciences Laboratory	1
STA 1020	Elementary Statistics	3
Total Credits		86-87

Nutrition and Food Science Honors Program

Admission: A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

Honors Requirements

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one 4000-level Honors Program seminar.
3. Complete at least three credits in an independent research project (NFS 5990).

4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

'AGRADE' Program (Accelerated Graduate Enrollment)

Qualified seniors in Nutrition and Food Science having not less than a 3.5 g.p.a. may enroll simultaneously in the undergraduate and graduate program and apply a maximum of sixteen credits towards both the bachelor's and master's degrees in nutrition and food science. Students may apply for the program as soon as they complete ninety credits towards the undergraduate degree. Graduate courses taken as part of the 'AGRADE' Program are assessed undergraduate rate tuition. Contact the Department for further information.

Nutrition and Food Science Minor

Completion of the minor in Nutrition and Food Science requires a minimum of eighteen credits in Nutrition and Food Science courses as follows:

Code	Title	Credits
NFS 2030	Nutrition and Health	3
NFS 2130	Introductory Food Science	3
NFS 2140	Introductory Food Science Laboratory	1
NFS 2220	Nutrition Laboratory	1
NFS 3230	Human Nutrition	3-4
Additional seven credits in upper division NFS courses.		7
Total Credits		18-19

Peace and Conflict Studies

Office: 2320 Faculty/Administration Building; 313-577-3453

Director: Frederic S. Pearson

Undergraduate Advisor: Gayle McCreedy

<http://clas.wayne.edu/CPCS> (<http://clas.wayne.edu/CPCS/>)

The Peace and Conflict Studies (PACS) Co-Major Program integrates a variety of practical courses and interdisciplinary research to allow students to combine their own majors with training, study, and experience in peace studies and the emerging field of conflict resolution, at the inter-personal, national and international levels. The curriculum deals with the most fundamental of human concerns: how to manage or resolve conflict constructively. Students are introduced to the causes of human conflict and violence, as well as approaches to conflict management ranging from diplomacy, law and negotiation, to mediation and arbitration. Questions are raised concerning the issues of globalization, social justice, non-violence, ethnicity, race, and culture.

- Peace and Conflict Studies (Co-Major) (p. 322)
- Peace and Conflict Studies Minor (p. 325)

Peace and Conflict Studies (Co-Major)

The Peace and Conflict Studies (PCS) Co-Major Program integrates a variety of practical courses and interdisciplinary research to allow students to combine their own majors with training, study, and experience

in peace studies and the emerging field of conflict resolution, at the inter-personal, national and international levels. The curriculum deals with the most fundamental of human concerns: how to manage or resolve conflict constructively. Students are introduced to the causes of human conflict and violence, as well as approaches to conflict management ranging from diplomacy, law and negotiation, to mediation and arbitration. Questions are raised concerning the issues of globalization, social justice, non-violence, ethnicity, race, and culture.

The PCS curriculum provides a framework useful for careers in legal, educational, governmental, business, labor, social service, scientific and health professions, as well as in graduate and professional education. Students are offered opportunity for hands-on experience, and are encouraged to build adaptive skills useful for the future. Courses in this curriculum may also count toward the completion of University General Education Requirements (p. 29), as well as College and Major Requirements.

The program is designed around a set of core courses, which introduce the student to the field, including various approaches to peace studies and the application of conflict management methods, and finally which assess the student's overall progress in a senior research seminar project. Five courses in conflicted-related elective courses are required, but students must have a minimum of three courses that are counting towards the PCS co-major elective requirements and are not fulfilling any other major, minor, or co-major requirements. Courses may be chosen generally from the list of elective courses, or may be focused in one of seven specialty areas:

- race, gender and religion
- peace and conflict theory
- human rights
- international issues of peace and conflict studies
- peace and conflict studies in the United States
- peace studies in human development
- dispute resolution

Students are encouraged to participate in the development of their curriculum; in addition to selecting from a wide variety of suggested PCS electives, co-majors are able to choose other elective courses with prior consent of the Director. Students are also encouraged to participate in the Peace and Justice Student Learning Community, which organizes speakers and other special educational programs and events on various subjects, and to explore credit for internships and study abroad.

Core Requirements

Code	Title	Credits
PCS 2000	Introduction to Peace and Conflict Studies	3
PCS 6000	Senior Seminar in Peace and Conflict Studies	3
Select two of the following (additional courses can count as electives):		6-8
AFS 2210	Black Social and Political Thought	
ANT 3100	World Cultures	
ECO 5300	International Trade	
HIS 5130/7130	American Foreign Relations Since 1933	
PCS 2010/ PS 2830/ HIS 2520	Topics in Peace and Conflict Studies ¹	
PCS/PHY 2020/ HIS 2510/ PS 2440	Science, Technology, and War	

PCS 2050/ PS 2550/ SOC 2050/ HIS 2530	The Study of Non-Violence	
PCS 5999	Special Readings/Research	
PHI 2330	Introduction to Social and Political Philosophy	
PS 2510	Introduction to Political Ideologies	
PS 2810	World Politics	
PS/AFS 5740	Ethnicity: The Politics of Conflict and Cooperation	
PSY 2600	Psychology of Social Behavior	
SOC 2300	Social Inequality	
Select one of the following: ¹		3-4
PCS 5000	Dispute Resolution	
PCS 5010	Community or International Internship	
PCS 5100	Advanced Special Topics	
Five courses in conflicted-related elective courses ²		15-20
Total Credits		30-38

¹ May be taken only once for core requirement, and repeated for electives.

² Students must have a minimum of three courses that are counting towards the PCS co-major elective requirements and are not fulfilling any other major, minor, or co-major requirements. Permissible elective courses are listed in the WSU course bulletin, or can be approved in consultation with the program director.

Electives

The University offers a large number of conflict- and peace-related courses in its various Schools and Colleges that are suitable electives for this program. The student is encouraged to select courses that introduce them to a variety of cultural practices regarding the management of conflict. The following are appropriate for the co-major or minor; because new courses are created by faculty on a rolling basis, students are encouraged to consult with the director or the undergraduate advisor about any courses not on the following list which may be included in their major.

Race, Gender and Religion

Code	Title	Credits
AFS/SOC 2600	Race and Racism in America	3
AFS 3420/ PS 3820	Pan Africanism: Politics of the Black Diaspora	4
AFS/SOC 5570	Race Relations in Urban Society	3
ANT 3530	Native Americans	3
ANT 5240	Cross Cultural Study of Gender	3
COM 4250	Reporting Race, Gender, and Culture	3
CRJ/GSW 2750	Diversity Issues in Criminal Justice	3
HIS 2605/ GSW 2600	History of Women, Gender and Sexuality in the Modern World	3

Peace and Conflict Studies Minor

To receive a Minor in Peace and Conflict Studies (PACS), a student must complete:

Code	Title	Credits
PCS 2000	Introduction to Peace and Conflict Studies	3
PCS 6000	Senior Seminar in Peace and Conflict Studies	3
Select one course from each of the other core groups listed on the co-major page		6-7
Two conflict-related elective courses. Permissible elective courses are listed in the WSU course bulletin, or can be approved in consultation with the program director."		6-8
Total Credits		18-21

Among their elective requirements, students must have a minimum of one course that is counting towards the PCS minor requirements and not fulfilling any other major, minor, or co-major requirement. Electives may be selected from the approved elective course list, or from other curricula, with approval of the Peace and Conflict Studies Director.

Philosophy

Office: 5057 Woodward, 12th floor; 313-577-2474

Chairperson: Eric Hiddleston

Undergraduate Advisor: Royanne Smith

Director of Undergraduate Studies: Joshua Wilburn

<http://clasweb.clas.wayne.edu/Philosophy> (<http://clasweb.clas.wayne.edu/Philosophy/>)

Courses in this department are designed with four aims:

1. They contribute to the liberal education of any student, whatever their predominant interest, by emphasis on clear and cogent thought, by consideration of the interrelations of fact and value, by training in

logic and the methodology of inquiry, and by a study and analysis of major philosophical outlooks.

2. They supply a minor and cognate courses to students majoring in other Departments who wish to study their major subject in its wider philosophical implications.
3. They give Departmental majors a wide and intensive training in philosophy. The major appeals to those who wish to take graduate work in philosophy and to those who wish a broad background from which to study and understand the emergence and conflict of ideas in relation to contemporary problems.
4. They supply a relevant major and minor for students who plan a career in such fields as the law or the ministry.

- Philosophy (B.A.) (p. 325)
- Health Care Ethics Minor (p. 327)
- Humanities Minor (p. 327)
- Medical Humanities Minor (p. 327)
- Philosophy Minor (p. 328)
- Pre-Law Minor (p. 328)

Philosophy (B.A.)

Philosophy contributes to the liberal education of any student, whatever his/her predominant interest, by its emphasis on clear and cogent thought, by consideration of the interrelations of fact and value, by training in logic and the methodology of inquiry, and by a study and analysis of major philosophical outlooks.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students who are planning to major in philosophy or who simply wish advice or consultation concerning course offerings and programs should see the Director of Undergraduate Studies in Philosophy.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students planning to major in Philosophy should consult the department's undergraduate advisor as early as possible. Students may satisfy the major in either of two ways: with a traditional concentration or with a concentration in law, ethics and justice.

CORE COURSE (3-4 credits). All students (of either concentration) must take one of the following logic courses:

Code	Title	Credits
Select one of the following:		3-4
PHI 2850	Introductory Symbolic Logic	
PHI 2860	Honors Introductory Symbolic Logic	
PHI 5050	Advanced Symbolic Logic	

Traditional Concentration

This option is primarily intended for those students whose interests in Philosophy are broad and general, and for those who are considering doing graduate-level work in Philosophy. A candidate pursuing this

concentration must complete a minimum of ten courses in Philosophy, including the Logic Core Course (see above) as well as the following courses and selections from course groups (found in Philosophy Courses (PHI)):

Code	Title	Credits
------	-------	---------

1. Two courses in the History of Philosophy group (one in ancient philosophy, and one in modern philosophy):

Ancient Philosophy (select one of the following):		
PHI 2100	Ancient Greek Philosophy	
PHI 2140	Ancient Greek Medicine and Psychology	
PHI 5400	The Presocratics and Sophists	
PHI 5410	Plato	
PHI 5420	Aristotle	
Modern Philosophy (select one of the following):		
PHI 2110	Philosophy of the Scientific Revolution and Enlightenment	
PHI 5450	British Empiricism	

2. Select one course in the Value Theory Group

PHI 2320	Introduction to Ethics	
PHI 2330	Introduction to Social and Political Philosophy	
PHI 2360	Feminist Philosophy	
PHI 2390	Philosophy of Human Rights	
PHI 3270	Foundations of Law	
PHI 3700	Philosophy of Art	
PHI 5240	Social and Political Philosophy	
PHI 5250	Justice and Rights in Health Care	
PHI 5260	Philosophy of Sex and Gender	
PHI 5270	Philosophy of Law	
PHI 5280	History of Ethics	
PHI 5290	Free Will and Moral Responsibility	
PHI 5300	Foundations of Ethics	

3. Select one course in the Philosophical Problems Group

PHI 2400	Introduction to the Philosophy of Religion	
PHI 2550	Introduction to Philosophy of Science	
PHI 2650	Philosophy of Psychology	
PHI 3500	Theory of Knowledge	
PHI 3550	Metaphysics	
PHI 3600	Space, Time, and the Philosophy of Physics	
PHI 5210	Philosophy of Race and Racism	
PHI 5230	Philosophy of Science	
PHI 5500	Topics in Metaphysics	
PHI 5530	Topics in Epistemology	
PHI 5550	Philosophy of Mind	
PHI 5570	Philosophy of Language	
PHI 5630	Twentieth Century Analytic Philosophy I	

4. Select four 5000-level courses (other than 5990), which must total at least 14 credits

NOTE: Courses taken at the 5000-level which are used to satisfy any of requirements 1-3 may also be counted toward requirement 4, though the ten-course minimum for the major must still be met. PHI 5990 (Directed Reading) will not count toward the 14 credits at the 5000-level, except under special circumstances, and with the permission of the supervising instructor and the Director of Undergraduate Studies.

Law, Ethics and Justice Concentration

This option is intended for students who have a special interest in ethical issues, social justice, philosophy of law, or pre-law. A candidate pursuing this concentration must complete a minimum of ten courses in Philosophy, including the Core Courses (see above) as well as the following courses and selections from course groups:

Code	Title	Credits
------	-------	---------

1. One course in the History of Philosophy group

PHI 2100	Ancient Greek Philosophy	
PHI 2110	Philosophy of the Scientific Revolution and Enlightenment	
PHI 2140	Ancient Greek Medicine and Psychology	
PHI 5400	The Presocratics and Sophists	
PHI 5410	Plato	
PHI 5420	Aristotle	
PHI 5450	British Empiricism	

2. Select one course from the Philosophical Problems Group

PHI 2400	Introduction to the Philosophy of Religion	
PHI 2550	Introduction to Philosophy of Science	
PHI 2650	Philosophy of Psychology	
PHI 3500	Theory of Knowledge	
PHI 3550	Metaphysics	
PHI 3600	Space, Time, and the Philosophy of Physics	
PHI 5210	Philosophy of Race and Racism	
PHI 5230	Philosophy of Science	
PHI 5500	Topics in Metaphysics	
PHI 5530	Topics in Epistemology	
PHI 5550	Philosophy of Mind	
PHI 5570	Philosophy of Language	
PHI 5630	Twentieth Century Analytic Philosophy I	

3. PHI 2320 - (PL) Introduction to Ethics

4. One course in Philosophy of Law, Politics, or Human Rights

PHI 2330	Introduction to Social and Political Philosophy	
PHI 2390	Philosophy of Human Rights	
PHI 3270	Foundations of Law	
PHI 5240	Social and Political Philosophy	
PHI 5270	Philosophy of Law	

Or other approved course in social and political philosophy, philosophy of law, or human rights.¹

5. One course in Applied Ethics

PHI 1100	Contemporary Moral Issues	
PHI 1110	Ethical Issues in Health Care	
PHI 1120	Professional Ethics	
PHI 1130	Environmental Ethics	
PHI 1500	Race, Sex, and Religion	
PHI 2360	Feminist Philosophy	
PHI 5250	Justice and Rights in Health Care	
PHI 5260	Philosophy of Sex and Gender	

6. One advanced course in Ethics²

PHI 5280	History of Ethics	
PHI 5290	Free Will and Moral Responsibility	
PHI 5300	Foundations of Ethics	

7. Two total 5000-level courses in the Theory of Value, from the following: 5240, 5250, 5260, 5270, 5280, 5290, and 5300 (choice for requirement 6 and any other 5000-level choices from above requirements count here too)

8. Four total 5000-level courses (choices for requirements 6 and 7, and any other 5000-level choices from above requirements count here too)

NOTE: Courses taken at the 5000-level which are used to satisfy any of requirements 1, 2, 4, 5, and 6 may also be counted toward requirement 8), though the ten-course minimum must still be met. PHI 5990 (Directed Reading) will not count toward the 14 credits at the 5000-level, except under special circumstances, and with the permission of the supervising instructor and the Director of Undergraduate Studies.

Philosophy Honors

Admission to the honors program in philosophy is determined on the basis of the student's overall record. The student will normally be required to have

1. a minimum grade point average of 3.3,
2. credit in at least three philosophy courses, and
3. a 'B' or better average in philosophy courses.

To remain in the philosophy honors program, the student must maintain a 'B' or better average in philosophy courses.

Honors Requirements: To receive an Honors Degree, the candidate must complete the course requirements for the regular major. In addition the candidate must complete a total of at least fifteen credits of Honors-designated coursework, including:

1. PHI 4890 during the candidate's senior year;
2. one 4000-level seminar offered through the Honors College;
3. at least six additional credits of Honors-designated coursework in Philosophy (other than PHI 4890); and
4. additional credits of Honors-designated coursework as needed to reach the fifteen-credit minimum.

At graduation, the overall grade point average must be at least 3.3. If at any point the student fails to maintain Honors standards, his or her credits will automatically be counted towards the regular degree major. Students interested in becoming candidates for the Honors Degree in philosophy should consult the Department's undergraduate advisor as soon as possible.

Health Care Ethics Minor

This option is primarily intended for students interested in ethics and moral issues related to medicine, health care, and science, or for students intending to pursue a career in a health care field. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (<https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/philosophy/#coursestext>), including:

Code	Title	Credits
1. One course in critical thinking or symbolic logic:		
PHI 1050	Critical Thinking	
PHI 1070	Reasoning and Decision	
PHI 2850	Introductory Symbolic Logic	
PHI 2860	Honors Introductory Symbolic Logic	
PHI 5050	Advanced Symbolic Logic	
2. Introductory Ethics Requirement		

PHI 2320	Introduction to Ethics
3. Health Care Ethics Requirement	
PHI 1110	Ethical Issues in Health Care
4. One additional Core Course	
PHI 1200	Life and Death
PHI 2330	Introduction to Social and Political Philosophy
PHI 2390	Philosophy of Human Rights
PHI 3270	Foundations of Law
PHI 3700	Philosophy of Art
PHI 5210	Philosophy of Race and Racism
PHI 5240	Special Topics in Social and Political Philosophy
PHI 5250	Justice and Rights in Health Care
PHI 5260	Philosophy of Sex and Gender
PHI 5270	Philosophy of Law
PHI 5280	History of Ethics
PHI 5290	Free Will and Moral Responsibility
PHI 5300	Foundations of Ethics

5. At least one Philosophy course at the 5000-level *

* A 5000-level course taken to satisfy requirement 1 or 4 may also be used to satisfy requirement 5, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

Humanities Minor

A candidate pursuing a Humanities Minor must complete a minimum of six courses and 18 total credits in the departments of Philosophy, English, and Classical and Modern Languages, Literatures, and Cultures (CMLLC), including the following:

Code	Title	Credits
Two PHI courses (at least one of which must be at the 2000 level or above)		6
Two ENG courses (at least one of which must be at the 5000 level or above)		6
Two courses from CMLLC at the 2000 level or above *		6
Total Credits		18

* View a list of courses offered by the CMLLC department. (p.)

Note: No more than two courses for the Humanities Minor may be double-counted toward a Major in Philosophy, English, or a CMLLC program.

Medical Humanities Minor

A candidate pursuing a Medical Humanities Minor must complete a minimum of eighteen (18) total credits.

Note: No more than two courses for the Medical Humanities Minor may be double-counted toward a Major in Philosophy, English, or a CMLLC program.

Code	Title	Credits
Required Core Courses		
PHI 1110	Ethical Issues in Health Care	
ANT/GLS/PH 3410	Global Health	
	or HIS 3440 American Medicine in the Twentieth Century	
Humanistic Approaches to Science and Medicine Courses		6

PHI 2360	Feminist Philosophy
PHI 2390	Philosophy of Human Rights
PHI 5260	Philosophy of Sex and Gender
PHI 5230	Philosophy of Science
Elective course (maximum 3 credits)	3
Any course listed above	
Any course in PHI at the 2000 level or above	
Any course in ENG at the 3000 level or above	
Any course in CMLLC at the 2020 level or above *	
ANT 3400	Introduction to Medical Anthropology
ANT 5140	Biology and Culture
ANT 5180	Forensic Anthropology
HIS 5407	The Scientific Revolution
NFS 2030	Nutrition and Health
PH 2100	Introduction to Public Health
SOC 2210	Sociology of Health and Medicine
SOC 4205	Seminar in Medical Sociology
Total Credits	18

* View a list of courses offered by the CMLLC department. (p.)

Philosophy Minor

This option is primarily intended for those students whose interests in philosophy are broad and general. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (p.), including:

Code	Title	Credits
1. One course in critical thinking or symbolic logic:		
PHI 1050	Critical Thinking	
PHI 1070	Reasoning and Decision	
PHI 2850	Introductory Symbolic Logic	
PHI 2860	Honors Introductory Symbolic Logic	
PHI 5050	Advanced Symbolic Logic	
2. One course at the 2000- or 3000-level (other than PHI 2850 or 2860)		
3. One course at the 5000-level or above (other than PHI 5990)		
4. Two additional courses of the candidate's choice (other than 5990)		

* PHI 5050 taken in compliance with requirement 1 may be used to satisfy requirement 4, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

Pre-Law Minor

This option is primarily intended for students intending on going to Law School, or for students especially interested in issues related to philosophy of law. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (<https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/philosophy/#coursestext>), including:

Code	Title	Credits
1. One course in critical thinking or symbolic logic:		
PHI 1050	Critical Thinking	
PHI 1070	Reasoning and Decision	
PHI 2850	Introductory Symbolic Logic	
PHI 2860	Honors Introductory Symbolic Logic	
PHI 5050	Advanced Symbolic Logic	
2. Two of the following courses:		
PHI 2320	Introduction to Ethics	
PHI 2330	Introduction to Social and Political Philosophy	
PHI 2390	Philosophy of Human Rights	
PHI 3270	Foundations of Law	
PHI 5240	Special Topics in Social and Political Philosophy	
PHI 5270	Philosophy of Law	
3. One of the following courses:		
PHI 1100	Contemporary Moral Issues	
PHI 1110	Ethical Issues in Health Care	
PHI 1120	Professional Ethics	
PHI 1130	Environmental Ethics	
PHI 1500	Race, Sex, and Religion	
PHI 2360	Feminist Philosophy	
PHI 5210	Philosophy of Race and Racism	
PHI 5260	Philosophy of Sex and Gender	
4. One additional course at the 5000-level or above (other than 5990)		

Footnotes

- * 5000-level courses taken to satisfy any of requirements 1, 2, or 3 may be used to satisfy requirement 4, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

Physics and Astronomy

Office: 135 Physics Research Building; 313-577-2721

Chairperson: David Cinabro

Academic Services Officer: J. Scott Payson

Undergraduate Academic Advisor: Dawn Niedermiller

<http://www.physics.clas.wayne.edu/>

Physics is the science that describes the behavior of the physical world. It is the most basic of all sciences and as such is responsible for the interpretation of fundamental physical processes which support many other scientific disciplines. The study of physics involves many of the significant ideas that have shaped Western civilization, and the excitement of ongoing scientific challenges. Currently, physicists conduct research into the basic laws of nature and also make use of these ideas to design and develop new technologies. Thus, training in physics offers a variety of opportunities. Careers are possible in research laboratories, in academic teaching capacities, in hospitals, the military, power plants, museums, patent law firms, computer companies, and in a host of other areas.

Faculty members in this Department are devoted to teaching and research and hold national and international reputations in their areas of specialization, which include: high energy physics, nuclear physics, atomic physics, the physics of condensed matter, material science, mathematical physics, applied physics, and quantum field theory. They organize and participate in conferences, publish extensively, and receive numerous outside grants, contracts and fellowships. In addition, they engage in many collaborations with scientists in both foreign and American universities and national laboratories.

Physics Colloquium: The department colloquium is normally held Thursday afternoons. Advanced undergraduates are invited to attend.

- Astronomy (B.A.) (p. 329)
- Astronomy Minor (p. 330)
- Biomedical Physics (B.S.) (p. 330)
- Biomedical Physics Minor (p. 331)
- Physics (B.A.) (p. 331)
- Physics (B.S.) (p. 332)
- Physics Minor (p. 334)

Courses for Non-Science Majors

The Department of Physics and Astronomy offers several courses designed primarily for non-science majors for which only minimal high school mathematics preparation is needed. The courses are:

Code	Title	Credits
AST 2010	Descriptive Astronomy	4
PHY 1020	Conceptual Physics: The Basic Science	4
PHY 3100	The Sounds of Music	4

The laboratories connected with AST 2010, PHY 1020, and PHY 3100 satisfy the natural science laboratory group requirements.

Astronomy (B.A.)

This program is intended to provide students with foundational knowledge in astronomy and space science. Students will graduate with strong scientific preparation and communication skills and will have a wide range of career options including entry-level jobs as well as graduate education in law, business, education, social and physical sciences. In short, these students will have all the traditional options of liberal arts majors with the added advantage of a unique science background.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.

The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Additionally, student must complete:

Code	Title	Credits
AST 2010	Descriptive Astronomy	4
AST 2011	Descriptive Astronomy Laboratory	1
PHY 2170	University Physics for Scientists I ¹	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II ¹	4
PHY 2181	University Physics Laboratory II	1
PHY 3300	Introductory Modern Physics	3
PHY 3310	Introductory Modern Physics Laboratory	2
PHY 5340 & PHY 5341	Optics and Optics Laboratory	5
AST 4100	Astronomical Techniques	3
AST 4200	Astronomical Laboratory	2
AST 4300	Planetary Astronomy and Space Science	3
AST 5010	Astrophysics and Stellar Astronomy	3
AST 5100	Galaxies and the Universe	3
MAT 2010	Calculus I	4

MAT 2020	Calculus II	4
PHY 3700	Mathematics for Biomedical Physics	4

Total Credits 51

¹ A student may present credits in PHY 2130, PHY 2140 or equivalent, in lieu of PHY 2170 and PHY 2180, with the consent of the Departmental Undergraduate advisor.

Electives to complete credits required for the degree may include any courses from the College of Liberal Arts and Sciences.

Astronomy Minor

The Department of Physics and Astronomy offers a minor in astronomy to qualified students. The requirement for a minor consists of the following:

Code	Title	Credits
PHY 2170	University Physics for Scientists I ¹	4
or PHY 2130	Physics for the Life Sciences I	
PHY 2171	University Physics Laboratory ¹	1
or PHY 2131	Physics for the Life Sciences Laboratory	
PHY 2180	University Physics for Scientists II ¹	4
or PHY 2140	Physics for the Life Sciences II	
PHY 2181	University Physics Laboratory II ¹	1
or PHY 2141	Physics for the Life Sciences Laboratory	
PHY 3300	Introductory Modern Physics ³	3
PHY 3310	Introductory Modern Physics Laboratory	2
Select three courses from the following:		9
AST 4100	Astronomical Techniques ²	
AST 4300	Planetary Astronomy and Space Science	
AST 5010	Astrophysics and Stellar Astronomy	
AST 5100	Galaxies and the Universe	
Total Credits		24

¹ If students take PHY 2130 and PHY 2140 then they must earn a cumulative 3.0 g.p.a. in those courses to be able to take PHY 3300.

² If students choose to take AST 4100 as one of the elective upper-level astronomy classes, then, AST 4200 is a co-requisite.

³ MAT 2010 and MAT 2020 are prerequisites for this course.

Many science and/or engineering majors already take the required calculus and basic physics sequence as part of their studies, however, non-science majors are unlikely to be able to complete the minor in under 24 credits. Students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

Biomedical Physics (B.S.)

Biomedical Physics deals with applications of physics to questions of biology and medicine. It is an interdisciplinary program, combining courses from physics, biology and medicine designed to train students to use quantitative, physical science inspired approaches to problems of the life sciences. Graduates of this program will be prepared for careers or graduate studies in biophysics, medicine, biomedical engineering, medical physics or any other field requiring physical and technological approaches to medical or biological questions.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. In

addition, a student must possess an overall g.p.a of at least 3.0 for the following four courses to become a B.S. candidate in Biomedical Physics:

Code	Title	Credits
Select one of the following:		10
Option 1		
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory	
PHY 2140 & PHY 2141	Physics for the Life Sciences II and Physics for the Life Sciences Laboratory	
Option 2		
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II	
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
Candidates must complete at least 123 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. All students will be required to maintain an overall grade point average of 'C' (2.0) for all degree work elected, as well as a grade point average of at least 2.5 in all major and cognate requirements.		
Major Requirements		
B.S. candidates must take a minimum of 41 credits including:		
Code	Title	Credits
PHY 2130	Physics for the Life Sciences I	4
or PHY 2170	University Physics for Scientists I	
PHY 2131	Physics for the Life Sciences Laboratory	1
or PHY 2171	University Physics Laboratory	
PHY 2140	Physics for the Life Sciences II	4
or PHY 2180	University Physics for Scientists II	
PHY 2141	Physics for the Life Sciences Laboratory	1
or PHY 2181	University Physics Laboratory II	
PHY 3700	Mathematics for Biomedical Physics	4
PHY 3750	Introduction to Computational Methods	1
PHY 4700	Introduction to Biomedical Physics	4
PHY 5340 & PHY 5341	Optics and Optics Laboratory	5
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	5
PHY 5750	Biological Physics	4
PHY 6750	Applied Computational Methods	2
PHY 6780	Research Methods in Biomedical Physics	3
ROC 6710	Physics in Medicine	3
Total Credits		41

Cognate Requirements

B.S. candidates in Biomedical Physics must take:

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
Select one of the following:		5
CHM 2280 & CHM 2290	General Chemistry II: Analytical Chemistry and General Chemistry II: Analytical Chemistry Laboratory	
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	
BIO 1500	Basic Life Diversity (or approved BIO elective)	4
BIO 1510	Basic Life Mechanisms	4
Total Credits		31

Some of these courses can be waived with the approval of the Biomedical Physics Advisor if a proof of proficiency is provided or a higher level course is substituted.

Science Electives

B.S. candidates in Biomedical Physics must take a total of four additional science, mathematics, engineering, or computer science elective classes beyond the requirements listed above. At least one of these classes must come from the field of biology. These four classes can be chosen from the following list:

Code	Title	Credits
BIO 2200	Introductory Microbiology	5
BIO 2600	Introduction to Cell Biology	3
BIO 2870	Anatomy and Physiology	5
BIO 3070	Genetics	5
BIO 3100	Cellular Biochemistry	3
BIO 3200	Human Physiology	3
BIO 4120	Comparative Physiology	4
BME 5010	Quantitative Physiology	4
Select one of the following:		5
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	
CHM 2280 & CHM 2290	General Chemistry II: Analytical Chemistry and General Chemistry II: Analytical Chemistry Laboratory	
CHM 5400	Biological Physical Chemistry	4
CHM 5420	Physical Chemistry I	3
CHM 5600	Survey of Biochemistry	3
CHM 6620	Metabolism: Pathways and Regulation	3
CHM 6640	Molecular Biology	3
CSC 1100 & CSC 1101	Problem Solving and Programming and Problem Solving and Programming Laboratory	4
CSC 2000	Introduction to C++ Programming Language	3
CSC 2110 & CSC 2111	Computer Science I and Computer Science I Lab	4
MAT 2030	Calculus III	4
MAT 2150	Differential Equations and Matrix Algebra	4
STA 2210	Probability and Statistics	4
MAT 2350	Elementary Differential Equations	3
MAT 5100	Numerical Methods I	3
MAT 5700	Introduction to Probability Theory	4

NFS 2030	Nutrition and Health	3
PHY 3300 & PHY 3310	Introductory Modern Physics and Introductory Modern Physics Laboratory	5
PHY 5200	Classical Mechanics I	3
PHY 6400	Quantum Physics I	3
PHY 6500	Thermodynamics and Statistical Physics	4
PHY 6600	Electromagnetic Fields I	3
ROC 5010	Introduction to Radiological Physics	4

Classes not on this list can be taken if prior approval from the undergraduate Physics student advisor has been obtained.

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Biomedical Physics Minor

The Department also offers a minor in Biomedical Physics. The requirements for a minor consist of:

Code	Title	Credits
PHY 2130 or PHY 2170	Physics for the Life Sciences I University Physics for Scientists I	4
PHY 2131 or PHY 2171	Physics for the Life Sciences Laboratory University Physics Laboratory	1
PHY 2140 or PHY 2180	Physics for the Life Sciences II University Physics for Scientists II	4
PHY 2141 or PHY 2181	Physics for the Life Sciences Laboratory University Physics Laboratory II	1
PHY 3700 or MAT 2030	Mathematics for Biomedical Physics (approval required to substitute MAT 2030) Calculus III	4
PHY 4700	Introduction to Biomedical Physics	4
Select a minimum of six credits from the following:		6
PHY 3750/6750	Introduction to Computational Methods	
PHY 5340 & PHY 5341	Optics and Optics Laboratory ¹	
PHY 5750	Biological Physics	
PHY 6780	Research Methods in Biomedical Physics	
Total Credits		24

¹ Or PHY 5620 and PHY 5621.

The students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

Physics (B.A.)

This program is intended to meet the needs of several kinds of students:

1. students wishing to major in physics who have transferred to Wayne State University after one or two years at a community college, but whose background in physics and mathematics does not complement the content, level, or scheduling of remaining course

requirements well enough to permit completion of the Bachelor of Science degree curriculum in a reasonable time;

2. students who wish to pursue a general course of education in the sciences with physics as an area of concentration. Those who undertake such a program are sometimes interested in the study of physics as an integrated part of a broad educational background;
3. students who decide relatively late in their college careers (for example, during the sophomore year) that they wish to major in physics.

It should be emphasized that completion of the Bachelor of Arts program instead of the Bachelor of Science program does not preclude later graduate work in physics. In most cases, it will mean that the student will spend part or all of his/her first year in graduate school making up deficiencies in his or her physics and mathematics background. Generally speaking, such deficiencies may be determined by consulting the Suggested Course Sequence of the Bachelor of Science degree in physics.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.

The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Additionally, student must complete:

Code	Title	Credits
PHY 2170	University Physics for Scientists I ¹	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II ¹	4
PHY 2181	University Physics Laboratory II	1
PHY 3300	Introductory Modern Physics	3
PHY 3310	Introductory Modern Physics Laboratory	2
PHY 5100	Methods of Theoretical Physics I	3
PHY 5200	Classical Mechanics I	3

PHY 5340 & PHY 5341	Optics and Optics Laboratory	5
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	5
PHY 6850	Modern Physics Laboratory	2
Select one of the following:		3-4
PHY 6400	Quantum Physics I	
PHY 6500	Thermodynamics and Statistical Physics	
PHY 6600	Electromagnetic Fields I	
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2150	Differential Equations and Matrix Algebra	4
CSC 2000	Introduction to C++ Programming Language	3
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	5
Total Credits		60-61

¹ A student may present credits in PHY 2130, PHY 2140 or equivalent, in lieu of PHY 2170 and PHY 2180, with the consent of the Departmental Undergraduate advisor.

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Physics (B.S.)

The Bachelor of Science program offers several options. Each option is designed to meet the needs of a particular group of students although each is flexible enough to avoid limiting the student to a particular future program. Students take a logically-developed sequence of physics courses on a broad range of topics. The introductory sequence uses calculus, and later courses investigate single areas in greater depth, using more advanced mathematics. In advanced laboratory courses the physics student uses sophisticated equipment and sometimes has an opportunity to join a research team.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.

The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Basic Requirements for All Options

Code	Title	Credits
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
PHY 3300	Introductory Modern Physics	3
PHY 3310	Introductory Modern Physics Laboratory	2
PHY 5100	Methods of Theoretical Physics I	3
PHY 5200	Classical Mechanics I	3
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2150	Differential Equations and Matrix Algebra	4
CSC 2000	Introduction to C++ Programming Language	3
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
Satisfaction of all University and College group and competency requirements		
Total Credits		45

A minimum grade of C- is required in prerequisite courses.

Advanced Physics Option

This option is primarily for students who intend to go on to graduate study in physics. It also satisfies the requirements of industrial and governmental employers who demand a traditional education in physics.

Additional requirements beyond the Basic Requirements listed above:

Code	Title	Credits
PHY 5210	Classical Mechanics II	3
PHY 6400	Quantum Physics I	3
PHY 6410	Quantum Physics II	3
PHY 6500	Thermodynamics and Statistical Physics	4
PHY 6600	Electromagnetic Fields I	3
PHY 6610	Electromagnetic Fields II	3
PHY 6850	Modern Physics Laboratory	2
PHY 6860	Computational Physics	3
Select one of the following:		5
PHY 5340 & PHY 5341	Optics and Optics Laboratory	

PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory
---------------------	--

Total Credits **29**

Astrophysics Option

This option is primarily for students who intend to go on to graduate study in astronomy and astrophysics.

Additional requirements beyond the Basic Requirements listed above:

Code	Title	Credits
AST 2010 & AST 2011	Descriptive Astronomy and Descriptive Astronomy Laboratory	5
AST 4100	Astronomical Techniques	3
AST 4200	Astronomical Laboratory	2
AST 4300	Planetary Astronomy and Space Science	3
AST 5010	Astrophysics and Stellar Astronomy	3
AST 5100	Galaxies and the Universe	3
PHY 6400	Quantum Physics I	3
PHY 6500	Thermodynamics and Statistical Physics	4
PHY 6600	Electromagnetic Fields I	3
PHY 6850	Modern Physics Laboratory	2
Select one of the following:		5
PHY 5340 & PHY 5341	Optics and Optics Laboratory	
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	

Total Credits **36**

Engineering and Applied Physics Option

The B.S. degree in the Engineering and Applied Physics option is intended to provide the interdisciplinary training that is required for a variety of applied fields, while still providing an understanding of the physical foundations of those fields. Programs are designed to combine fundamental physics courses with engineering and other science courses, in order to prepare students for careers in industry (particularly engineering fields) as well as graduate programs in these areas. There is sufficient flexibility in this program that a set of courses can be designed to match a student's interest in such areas as semiconductor physics, material physics, computational physics, biophysics, optics and laser physics, and other areas. Students interested in enriching their education with on-the-job experience may apply for internships with cooperating research laboratories by contacting the departmental undergraduate advisor.

Additional requirements beyond the Basic Requirements listed above:

Code	Title	Credits
PHY 6400	Quantum Physics I	3
PHY 6500	Thermodynamics and Statistical Physics	4
PHY 6600	Electromagnetic Fields I	3
PHY 5340 & PHY 5341	Optics and Optics Laboratory	5
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	5
PHY 6850	Modern Physics Laboratory	2

Select at least twelve additional credits in engineering, physics, mathematics, or other science/technical courses

Total Credits **34**

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Physics Minor

The Department of Physics and Astronomy offers a minor in physics to qualified students from other Departments. The requirement for a minor consists of:

Code	Title	Credits
Select one of the following groups:		
Group 1		
PHY 2170	University Physics for Scientists I	10
PHY 2171	University Physics Laboratory	
PHY 2180	University Physics for Scientists II	
PHY 2181	University Physics Laboratory II	
Group 2		
PHY 2130	Physics for the Life Sciences I	5
PHY 2131	Physics for the Life Sciences Laboratory	
PHY 2140	Physics for the Life Sciences II	
PHY 2141	Physics for the Life Sciences Laboratory	
PHY 3300 & PHY 3310	Introductory Modern Physics and Introductory Modern Physics Laboratory	
Select at least three other physics courses at the 3000 level or above		
Total Credits		24-27

Students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

AGRADE Programs (Accelerated Graduate Enrollment)

Physics AGRADE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Biomedical Physics-BME AGRADE Program

Outstanding seniors in Biomedical Physics, who have completed at least 90 credits and have an overall GPA of at least 3.5, and major biomedical physics classes GPA at least 3.6, can apply to enter the cross-college AGRADE program between the Biomedical Physics undergraduate program (College of Liberals Arts and Sciences) and Biomedical Engineering (BME) Master's programs (College of Engineering). The AGRADE program allows students to apply up to 15 credits of selected graduate courses, taken as an undergraduate, towards a Master's degree in Biomedical Engineering. The Physics courses that can be counted towards MS-BME degree include PHY 5340/PHY 5341 or PHY 5620/PHY 5621, PHY 5750, and PHY 6780. This enables students to

complete an undergraduate degree in Biomedical Physics and a graduate degree in Biomedical Engineering in just 5 years of full-time study. For more details, please contact the undergraduate Physics advisor in the Department of Physics and Astronomy, or the graduate advisor in the Department of Biomedical Engineering.

Interdisciplinary Physics-ECE AGRADE Program

Outstanding seniors in Physics (both Engineering and Applied Physics option and Advanced Physics option), who have completed at least 90 credits and have an overall GPA of at least 3.5, and major physics classes GPA at least 3.6, can apply to enter the cross-college AGRADE program between the Physics undergraduate program (College of Liberals Arts and Sciences) and Electrical Engineering (EE) Master's programs (College of Engineering). The AGRADE program allows students to apply up to 12 credits of selected graduate courses, taken as an undergraduate, towards a Master's degree in Electrical Engineering. The Physics courses that can be counted towards MS-EE degree include PHY 5340/PHY 5341, PHY 5620/PHY 5621, and PHY 5100. This enables students to complete an undergraduate degree in Physics and a graduate degree in Electrical Engineering in just 5 years of full-time study. For more details, please contact the undergraduate Physics advisor in the Department of Physics and Astronomy, or the graduate advisor in the Department of Electrical and Computer Engineering.

Political Science

Office: 2040 Faculty/Administration Building; 313-577-2630

Chairperson: Daniel S. Geller

Undergraduate Academic advisor: Ryan Ferrante

<http://www.clas.wayne.edu/politicalscience/>

The study of political science is focused on understanding the nature and problems of government and the role of politics in contemporary society. This is accomplished through systematic exploration of the structure and processes of government at different levels and across nations, through study of individual and collective political behavior, and through analyses of policy problems and the processes through which public policies are formulated and administered. Political science contributes to the goals of general education by promoting civic literacy and cultivating an awareness of the opportunities and obligations of citizenship at local, state, and national levels.

The field of political science is of special importance to students whose career goals include:

1. Professions likely to involve participation in public affairs, including law, engineering, criminal justice, public health, social welfare and education.
2. Administrative or executive positions in government at the local, state or federal levels.
3. Teaching of political and social science at the secondary, junior college and university levels.
4. Positions in the diplomatic service and in foreign and overseas programs of the U.S. Government and of other organizations doing business abroad.
5. Leadership, research, and staff roles in citizen organizations, political parties, campaign organizations, economic and social interest groups, municipal research bureaus, and nonprofit organizations.
6. Positions associated with mass communications, such as radio, television and newspapers, where basic understanding of public affairs and governmental policies and organization is required for accurate reporting and analysis.

7. Positions in private enterprise where knowledge of governmental processes is essential, such as in industrial relations, legislative liaison and public relations.

- Political Science (B.A.) (p. 335)
- Public Affairs (B.P.A.) (p. 337)
- Political Science Minor (p. 339)

Political Science (B.A.)

Political science majors are offered the opportunity to develop programs of study that complement their particular interests and career goals. The major may be used to structure a broad general program or a highly concentrated and specialized one. The following requirements pertain to all B.A. majors.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. To enter the Bachelor of Arts degree program in political science, students must declare their major in accordance with the rules of the College.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students wishing to apply transfer credits toward the major should consult the political science undergraduate advisor regarding departmental policies and restrictions on the use of these credits.

Major Requirements

A political science major must satisfactorily complete at least thirty-two credits of course work in the Department beyond PS 1010 or 1030. This course work must include:

Code	Title	Credits
PS 1010	American Government	4
or PS 1030	The American Governmental System	
Select one of the following:		3-4
PS 2410	Introduction to Public Policy	
PS 2510	Introduction to Political Ideologies	
PS 2710	Introduction to Comparative Politics	
PS 2810	World Politics	
PS 2820	Introduction to Peace and Conflict Studies	
Select at least four courses at the 3000 level or higher, of which at least one must be at the 4000 level or higher ¹		12-16
A Writing Intensive (WI) course in political science that is taken after having previously completed at least two Political Science courses at the 3000 level or higher ²		3-4

¹ PS 5993 does not count toward fulfillment of this requirement.

² with co-registration in PS 5993. Any political science course at the 3000-level or higher, except PS 5630 and PS 6640, may, with the permission of the instructor, be used to fulfill this requirement.

To satisfy the Writing Intensive requirement, the student must demonstrate proficiency in writing on disciplinary subject matter in a form and style that conform to disciplinary standards. To use a course for this purpose, the student must obtain approval from the instructor and follow the guidelines established by the instructor to demonstrate the

required proficiency. The student must also co-register in PS 5993, a zero-credit course for which the student will receive a grade of Satisfactory (S) upon certification by the instructor that the writing requirement has been fulfilled. Note that completion of the WI course has the following prerequisites: a) completion of the Intermediate Composition (IC or ICN) requirement and b) the completion of at least two Political Science courses at the 3000 level or higher.

Recommended Course: It is recommended that majors include PS 3600, Methods of Political Inquiry, in their programs of study.

Political Science Fields of Study

In developing their specific programs of study, students should consult with the political science undergraduate advisor. They may pursue a general program or choose to concentrate in a particular field or subfield. The following are fields in which a student may choose to concentrate. Other areas of concentration and more specialized programs may be developed in consultation with the undergraduate advisor. It is not mandatory that a student have an area of concentration; the listings are only suggestive.

American Government and Politics

Public opinion, electoral politics, and participation in the political process; the role of political parties and interest groups and of the mass media; the workings of Congress, the Presidency, and other governmental institutions. Courses relevant to this area of concentration include (but are not limited to):

Code	Title	Credits
PS 3010	Public Opinion and Political Behavior	4
PS 3020	Political Parties and Elections	4
PS 3025	Political Campaigns in America	4
PS 3030	Political Interest Groups	4
PS 3040	The Legislative Process	4
PS 3050	Politics of the American Presidency	4
PS 3060	State Government and Politics	4
PS 3070	Michigan Politics	4
PS 3080	Gender and Politics	4
PS 3430	Bureaucracy and Public Policy	4
PS 5030	African American Politics	4
PS 5040	Religion and Politics	4
PS 5050	Mass Media and Politics	3
PS 6010	Political Psychology	3
PS 6020	Intergovernmental Relations and American Federalism	3
PS 6070	Labor and American Politics	3

Public Law/Legal Studies

Judicial interpretation of the Constitution; civil liberties and constitutional rights; the law as a profession; law enforcement and the operations of the judicial system; international dimensions of law. Relevant courses include:

Code	Title	Credits
PS 3100	American Legal Systems and Processes	4
PS 5110	Constitutional Law	4
PS 5120	Constitutional Rights and Liberties	4
PS 5820	International Law	4
PS 5850	Human Rights	4

PS 6120	Administrative Law and Regulatory Politics	3
PS 6870	United States Foreign Relations Law	4

PS 5560	Biopolitics	4
PS 5850	Human Rights	4

Urban Politics and Policy

Governing cities in a federal system; economic conditions and urban problems; local policy-making and the constraints under which policy is made. Relevant courses include:

Code	Title	Credits
PS 2000	Introduction to Urban Studies	4
PS 2240	Introduction to Urban Politics and Policy	4
PS 3250	Detroit Politics: Continuity and Change in City and Suburbs	4
PS 6020	Intergovernmental Relations and American Federalism	3
PS 6455	Discrimination and Fair Housing	3

Public Administration

The nature and functions of public agencies; techniques of public management; public bureaucracy in its social setting. Relevant courses include:

Code	Title	Credits
PS 2310	Introduction to Public Administration	4
PS 2992	Political Science Internship	1-4
PS 3430	Bureaucracy and Public Policy	4
PS 6120	Administrative Law and Regulatory Politics	3
PS 6700	Financial Management for Nonprofit Organizations	3

Public Policy

How policy is formulated, decided, implemented, and evaluated; moral and political standards for making policy. Relevant courses include:

Code	Title	Credits
PS 2410	Introduction to Public Policy	4
PS 2420	Ethics and Politics of Public Policy	4
PS 2460	Policy and Rationality: Dilemmas of Choice	4
PS 2992	Political Science Internship	1-4
PS 3430	Bureaucracy and Public Policy	4
PS 3450	Environmental Policy and Politics	4
PS 3840	American Foreign Policy and Administration	4
PS 4460	Techniques of Policy Analysis	4
PS 5850	Human Rights	4
PS 6455	Discrimination and Fair Housing	3

Political Philosophy and Ethics

The justification and application of ethical standards to politics; history and analysis of authority and rebellion, individualism and community, justice and equality; modern ideologies such as communism, socialism, liberalism, and conservatism. Relevant courses include:

Code	Title	Credits
PS 2420	Ethics and Politics of Public Policy	4
PS 2510	Introduction to Political Ideologies	4
PS 3510	Law, Authority and Rebellion	4
PS 3515	American Political Thought	3-4
PS 3520	Justice	4
PS 3530	Great Political Thinkers I	4

Quantitative Political Analysis

Methods of analysis used to assess alternatives and evaluate the impact of government policy; methods of empirical political research including data collection, statistical description and inference, and the use of computers to organize and interpret data. Relevant courses include:

Code	Title	Credits
PS 2460	Policy and Rationality: Dilemmas of Choice	4
PS 3600	Methods of Political Inquiry	4
PS 4460	Techniques of Policy Analysis	4
PS 5630	Statistics and Data Analysis in Political Science I	4
PS 6640	Statistics and Data Analysis in Political Science II	3

Comparative Politics

The study of government and politics of western, non-western, and third world countries in their historical, cultural, and economic settings; problems of comparison across cultural and national boundaries. Relevant courses include:

Code	Title	Credits
PS 2710	Introduction to Comparative Politics	4
PS 3710	Politics of Western Europe	4
PS 3715	Politics of Central and Eastern Europe	4
PS 3735	Politics of Latin America	4
PS 3770	Politics of East Asia	4
PS 4710	Democracy	4

World Politics

Conflict and cooperation among nations; causes of war and the pursuit of peace; international law; international organizations and multi-national corporations; North-South relations and issues of development, imperialism, and dependency; East-West relations and the changing world order; American foreign policy and issues of disarmament, intervention, and economic competition. Relevant courses include:

Code	Title	Credits
PS 2810	World Politics	4
PS 2820	Introduction to Peace and Conflict Studies	3
PS 3795	Latin America in World Affairs	4
PS 3811	Theory of World Politics	4
PS 3830	War	4
PS 3835	Middle East Conflict	4
PS 3840	American Foreign Policy and Administration	4
PS 4810	Foreign Policies of Major Powers	4
PS 5740	Ethnicity: The Politics of Conflict and Cooperation	4
PS 5820	International Law	4
PS 5850	Human Rights	4
PS 6100	Introduction to Graduate Peace and Security Studies	3
PS 6850	International Organizations	3
PS 6860	American Foreign Policy	3
PS 6870	United States Foreign Relations Law	4

Pre-Law Curriculum

Political science provides a useful major for students who anticipate applying to law school. For students choosing the Bachelor of Arts

program, a Public Law/Legal Studies concentration drawing upon courses such as those listed below is recommended along with courses in American Government and public policy (numbered with second digits of 0 and 4, respectively). Specific programs of study under either degree option should be developed in consultation with the department's academic advisor.

Code	Title	Credits
PS 3100	American Legal Systems and Processes	4
PS 5110	Constitutional Law	4
PS 5120	Constitutional Rights and Liberties	4
PS 5820	International Law	4
PS 5850	Human Rights	4
PS 5890	Dispute Resolution	3
PS 6120	Administrative Law and Regulatory Politics	3
PS 6870	United States Foreign Relations Law	4

Political Science Honors Programs

Bachelor of Arts and Bachelor of Public Affairs majors with strong academic records are encouraged to pursue departmental honors. To be eligible to enter the honors program, a major must have a cumulative grade point average of 3.3. To graduate with honors, students must:

1. Maintain a 3.3 grade point average.
2. Under the direction of one or more members of the department, complete a senior honors paper (PS 4995).
3. Complete all requirements for the Bachelor of Arts or Bachelor of Public Affairs degree.
4. Complete one 4200-level Honors seminar offered through the Honors College, see Honors Courses (HON).
5. Accumulate an additional eight credits in honors-designated course work beyond PS 4995, and the Honors Program seminar. These honors credits can be obtained from any department, including Political Science. For information about honors-designated coursework available each semester.

Students interested in participating in the program should contact the department's undergraduate advisor to determine their eligibility.

'AGRADE' Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: Bachelor of Arts and Bachelor of Public Affairs majors with superior academic records (top twentieth percentile overall, with at least a 3.6 g.p.a. in the major) are eligible in their senior year (a minimum of 90 credit hours earned) to participate in accelerated graduate enrollment ('AGRADE') programs leading to either a Master of Arts degree with a major in political science or a Master of Public Administration degree. The 'AGRADE' programs enable students to pursue graduate and undergraduate degrees simultaneously and to apply twelve to fifteen credits of approved course work to both degrees. To participate, students must apply and be accepted into the 'AGRADE' program by the Departmental Graduate Committee and secure the approval of the Graduate Officer of the College of Liberal Arts and Sciences in accordance with rules and procedures established by the College. Students should contact the Department's undergraduate advisor for further details.

Internships

Internships in government, political campaigns, political advocacy groups, civic organizations, or public agencies provide valuable work-educational experience that enables students to relate knowledge

acquired in the classroom to the world-at-large. They also provide practical training that enhances future job prospects. Academic credit may be earned for an internship through enrollment in PS 2992, Political Science Internship, a course that helps to assure the educational relevance of the internship by requiring interns to prepare papers and reports based on their experiences. Interested students should consult the department's undergraduate advisor.

Study Abroad Exchange Program with the University of Salford

Students may study for one or two semesters at the University of Salford in Salford, England, and earn Wayne State credits through an exchange agreement between the two universities. Applications may be obtained from the Office of Study Abroad and Global Programs (<http://www.studyabroad.wayne.edu>). Interested majors or prospective majors should also consult with the Department's undergraduate advisor.

Public Affairs (B.P.A.)

The Bachelor of Public Affairs (B.P.A.) prepares qualified students for professional and technical careers in the public service or for advanced study in public affairs and administration, the social sciences and related disciplines. The program is a structured professional curriculum that builds on the foundation of a general liberal arts education. The curriculum incorporates fundamentals of social science theory and applications of that theory to public management and policy analysis. The B.P.A. provides students with skills needed for working in city, county, state and national government, in other public and non-profit agencies, and in positions in private enterprise that deal with governmental relations. Internships afford students an opportunity to apply what they have learned in public service settings. Students interested in this program should consult the political science undergraduate advisor as early as possible in their college careers.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. To declare the B.P.A. as a major, a student must follow the procedures set forth by the College of Liberal Arts and Sciences for declaring a major.

Candidates for the B.P.A. degree must:

1. Complete a total of 120 credits in course work.
2. Satisfy all of the Liberal Arts Group Requirements (p. 255), excepting that the College's foreign language requirement need not be satisfied.
3. Satisfy the University General Education Requirements (p. 29).
4. Satisfy the major requirements listed below.

All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students wishing to apply transfer credits toward the B.P.A. major should consult the political science undergraduate advisor regarding departmental policies and restrictions on the use of these credits.

Major Requirements

A Bachelor of Public Affairs major must complete a minimum of ten courses, including seven prescribed core courses and three courses within the B.P.A. elective curriculum (see concentration areas below). A Writing Intensive course in political science with a co-registration in PS 5993 is also required. Any political science elective or concentration course at the 3000-level or higher, except PS 5630 and PS 6640, may be used to fulfill this requirement. Students must demonstrate proficiency

in writing on public affairs subject matter in a form and style consistent with B.P.A. standards. Election of a corequisite to PS 5993 must have approval from the instructor and students must follow the instructor's guidelines to demonstrate required proficiency. Upon certification by the instructor that the writing requirement has been fulfilled, a grade of Satisfactory ('S') will be awarded for PS 5993, a 'zero' credit course.

Core Curriculum

Candidates for the B.P.A. degree must satisfy the following core course requirements:

Code	Title	Credits
ECO 2010	Principles of Microeconomics	3-4
ECO 2020	Principles of Macroeconomics	3-4
PS 1010	American Government	3-4
or PS 1030	The American Governmental System	
PS 2410	Introduction to Public Policy	4
PS 2420	Ethics and Politics of Public Policy	4
or PS 2460	Policy and Rationality: Dilemmas of Choice	
PS 3600	Methods of Political Inquiry (for students with adequate background)	4
or PS 5630	Statistics and Data Analysis in Political Science I	
PS 4460	Techniques of Policy Analysis	4
PS 5993	Writing Intensive Course in Political Science	0
Total Credits		25-28

Required Concentrations

In addition to completion of required core work, students must select a minimum of three additional courses within the B.P.A. elective curriculum, which is comprised of the totality of the courses set forth below. Ideally, these courses should fall within a coherent area of concentration, such as those areas suggested below.

Code	Title	Credits
Governance: National, State, and Local		
Select at least three of the following:		11-12
PS 2240	Introduction to Urban Politics and Policy	
PS 2310	Introduction to Public Administration	
PS 3040	The Legislative Process	
PS 3050	Politics of the American Presidency	
PS 3060	State Government and Politics	
PS 3070	Michigan Politics	
PS 3100	American Legal Systems and Processes	
PS 4710	Democracy	
PS 5110	Constitutional Law	
PS 6020	Intergovernmental Relations and American Federalism	
Governmental Relations, Lobbying, and Electoral Politics		
Select at least three of the following:		9-12
PS 3010	Public Opinion and Political Behavior	
PS 3020	Political Parties and Elections	
PS 3025	Political Campaigns in America	
PS 3030	Political Interest Groups	
PS 3040	The Legislative Process	
PS 3050	Politics of the American Presidency	
PS 3060	State Government and Politics	
PS 3070	Michigan Politics	
PS 3080	Gender and Politics	

PS 5030	African American Politics
PS 5040	Religion and Politics
PS 5050	Mass Media and Politics
PS 6010	Political Psychology
PS 6070	Labor and American Politics

Public Management

Select at least three of the following:		9-12
PS 2310	Introduction to Public Administration	
PS 3430	Bureaucracy and Public Policy	
PS 5890	Dispute Resolution	
PS 6020	Intergovernmental Relations and American Federalism	
PS 6120	Administrative Law and Regulatory Politics	
PS 6700	Financial Management for Nonprofit Organizations	

Public Policy and Analysis

Select at least three of the following:		9-12
PS 2310	Introduction to Public Administration	
PS 3060	State Government and Politics	
PS 3070	Michigan Politics	
PS 3430	Bureaucracy and Public Policy	
PS 3450	Environmental Policy and Politics	
PS 3840	American Foreign Policy and Administration	
PS 4810	Foreign Policies of Major Powers	
PS 6020	Intergovernmental Relations and American Federalism	
PS 6455	Discrimination and Fair Housing	
PS 6640	Statistics and Data Analysis in Political Science II	

Urban Policy and Management

Select at least three of the following:		9-12
PS 2000	Introduction to Urban Studies	
or PS 2240	Introduction to Urban Politics and Policy	
PS 2310	Introduction to Public Administration	
PS 3060	State Government and Politics	
PS 3070	Michigan Politics	
PS 3250	Detroit Politics: Continuity and Change in City and Suburbs	
PS 3430	Bureaucracy and Public Policy	
PS 5030	African American Politics	
PS 6020	Intergovernmental Relations and American Federalism	
PS 6455	Discrimination and Fair Housing	
PS 6710	Foundations of Nonprofit Management	

Other Concentrations

With the assistance of the undergraduate advisor, an area of concentration may be specifically designed consisting of political science courses related to a student's particular career objectives. Such a concentration must consist of a minimum of three separate courses. Any proposal for substitutions of other political science courses for those within the above-designated B.P.A. elective curriculum must be submitted in writing to, and be approved by, the undergraduate advisor of the Department.

Political Science Honors Programs

Bachelor of Arts and Bachelor of Public Affairs majors with strong academic records are encouraged to pursue departmental honors. To

be eligible to enter the honors program, a major must have a cumulative grade point average of 3.3. To graduate with honors, students must:

1. Maintain a 3.3 grade point average.
2. Under the direction of one or more members of the department, complete a senior honors paper (PS 4995).
3. Complete all requirements for the Bachelor of Arts or Bachelor of Public Affairs degree.
4. Complete one 4200-level Honors seminar offered through the Honors College, see Honors Courses (HON).
5. Accumulate an additional eight credits in honors-designated course work beyond PS 4995, and the Honors Program seminar. These honors credits can be obtained from any department, including Political Science. For information about honors-designated coursework available each semester.

Students interested in participating in the program should contact the department's undergraduate advisor to determine their eligibility.

'AGRADE' Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: Bachelor of Arts and Bachelor of Public Affairs majors with superior academic records (top twentieth percentile overall, with at least a 3.6 g.p.a. in the major) are eligible in their senior year (a minimum of 90 credit hours earned) to participate in accelerated graduate enrollment ('AGRADE') programs leading to either a Master of Arts degree with a major in political science or a Master of Public Administration degree. The 'AGRADE' programs enable students to pursue graduate and undergraduate degrees simultaneously and to apply twelve to fifteen credits of approved course work to both degrees. To participate, students must apply and be accepted into the 'AGRADE' program by the Departmental Graduate Committee and secure the approval of the Graduate Officer of the College of Liberal Arts and Sciences in accordance with rules and procedures established by the College. Students should contact the Department's undergraduate advisor for further details.

Internships

Internships in government, political campaigns, political advocacy groups, civic organizations, or public agencies provide valuable work-educational experience that enables students to relate knowledge acquired in the classroom to the world-at-large. They also provide practical training that enhances future job prospects. Academic credit may be earned for an internship through enrollment in PS 2992, Political Science Internship, a course that helps to assure the educational relevance of the internship by requiring interns to prepare papers and reports based on their experiences. Interested students should consult the department's undergraduate advisor.

Study Abroad Exchange Program with the University of Salford

Students may study for one or two semesters at the University of Salford in Salford, England, and earn Wayne State credits through an exchange agreement between the two universities. Applications may be obtained from the Office of Study Abroad and Global Programs (<http://www.studyabroad.wayne.edu>). Interested majors or prospective majors should also consult with the Department's undergraduate advisor.

Political Science Minor

Students majoring in other subjects may obtain a minor in political science by completing a minimum of twenty credits in Political Science

course work. Information on combinations of courses which emphasize particular subfields of political science is presented in the listing of bachelor of arts concentrations (p. 335). For information on courses of relevance to such majors as economics, journalism, history, sociology, psychology, philosophy, criminal justice, or urban planning, students should consult the department's undergraduate advisor. A suitable sequence for pre-law students can be provided by the undergraduate advisor.

Psychology

Office: 7th floor, 5057 Woodward; 313-577-2800

Chairperson: Scott Bowen

Associate Chairperson: Emily Grekin

Undergraduate Academic Service Officer: Shelly Seguin

Undergraduate Academic Advisors: Cody Bailey-Crow, Corinne Forys, Solaf Matti

<http://www.clas.wayne.edu/psychology/>

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation.

Psychology Mass Advising Meeting

Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, the GRE, career resources, tips for success and much more. Attendance at one of the meetings is mandatory for all psychology majors. Students are encouraged to attend as soon as possible.

RSVP here (https://waynestate.az1.qualtrics.com/jfe/form/SV_4YqujklzrhRyZL/). You may attend without first RSVP'ing, but to ensure we have enough space we appreciate knowing that you are attending. Feel free to bring parents and/or interested friends.

- Psychology (B.A.) (p. 340)
- Psychology (B.S.) (p. 341)
- Psychology Minor (p. 342)
- Health Psychology Minor (p. 339)

Health Psychology Minor

Minor Requirements:

- For a minor in health psychology, a student must complete a minimum of twenty credits in psychology.
- This minor is **not** available to Psychology majors.
- At least three PSY courses must be taken at Wayne State.
- PSY 4993 or PSY 4994 (offered for S and U grades only) may not be counted in the twenty required credits.

- Students must have a cumulative minimum 2.0 GPA in PSY coursework to graduate.

Course Requirements:

- PSY 1010(minimum grade C) or PSY 1020+PSY 1030(minimum grade C)
- PSY 2020
- PSY 2410
- PSY 3120
- PSY 3310
- Choose from the following electives if needed to reach twenty credit minimum
 - PSY 2080
 - PSY 2400
 - PSY 3380

Psychology (B.A.)

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation. Psychology-related employment for graduates with a bachelor's degree has increased in recent years. Such employment, of course, has depended on the personal characteristics of the individual, on the special qualifications and training of the individual, and particularly on job opportunity.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Psychology Mass Advising / Information Meeting

Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, career development, tips for success and much more. Attendance at one of the meetings is mandatory for all psychology majors. Students are encouraged to attend as soon as possible.

RSVP here (https://waynestate.az1.qualtrics.com/jfe/form/SV_4YqujklzhRyZL/). You may attend without first RSVP'ing, but to ensure we have enough space we appreciate knowing that you are attending. Feel free to bring parents and/or interested friends.

Candidates must complete minimum of 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of

the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

- To graduate with a major in psychology, a student must complete satisfactorily at least thirty-four credits in PSY courses BEYOND the credits for PSY 1010 or PSY 1020+PSY 1030 (Introductory Requirement).
- Students must also attend the *Psychology Mass Advising Meeting*. This two hour meeting is offered approximately every two weeks at various days/times. Students need to attend only once, but must be present for the full meeting. Students are expected to attend either prior to or upon declaring major in psychology. Current schedule can be found at <http://www.clas.wayne.edu/Psychology/Advising> (<http://www.clas.wayne.edu/Psychology/Advising/>).
- Transfer students must complete at least twenty credits in the Psychology Department at Wayne State University.

Degree requirements include:

Code	Title	Credits
Introductory Requirement (Select one of the following):		
For psychology majors, a minimum grade of C in the Introductory Psychology Requirement is a pre-requisite for all other PSY courses. Students must have at least a 2.0 overall grade point average in their psychology coursework to graduate. PSY 1010 is recommended over PSY 1020 for students who intend to major in psychology.		
Option 1		
PSY 1010	Introductory Psychology (preferred option)	
Option 2		
PSY 1020	Elements of Psychology (or earned AP Psych credit)	
PSY 1030	Introductory Psychology Laboratory	
Mathematics		
Students can satisfy the Mathematics requirement through one of the course or test options below. Courses require a minimum grade of a C.		
PSY 1010	Introductory Psychology	
PSY 1030	Introductory Psychology Laboratory	
BA 2300	Quantitative Methods I: Probability and Statistical Inference	
STA 1020	Elementary Statistics	
MAT 1000-6999		
ACT Math score of 25 or better		
SAT Math score of 600 or better		
Michigan Transfer Agreement score of 100 or better		
Research Methods in Psychology		
PSY 2020	Research Methods In Psychology ¹	
Statistical Methods		
PSY 2030	Statistical Methods in Psychology ²	
Experimental Lecture (select one of the following):		
PSY 3040	Psychology of Perception: Fundamental Processes	
PSY 3060	Psychology of Learning and Memory: Fundamental Processes	
PSY 3080	Cognitive Psychology: Fundamental Processes	
Experimental Laboratory		
PSY 3993	Laboratory in Experimental Psychology (must be taken concurrently with or after one of the above Experimental Lecture courses. PSY 3993 must be completed with a grade of C or better.)	

Intermediate Composition (IC) course must be completed prior to PSY 3993. (p. 30)

Additional Core Courses

Select two of the following:

PSY 2100 Psychology and the Workplace

PSY 2400 Developmental Psychology

PSY 2600 Psychology of Social Behavior

PSY 3120 Brain and Behavior

PSY 3310 Abnormal Psychology

PSY 5020 Honors Research in Psychology

Elective Courses

As needed to satisfy the minimum credit requirement (thirty-four PSY credits BEYOND the Introductory Psychology Requirement). Students usually need three to five elective PSY courses.

¹ PSY 2020 is a mandatory prerequisite for other courses, such as PSY 2030, PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 2020 within one year after completion of the Introductory Psychology requirement. A minimum grade of C is required for Psychology majors. PSY 2020 can only be repeated one time.

² PSY 2030 is a mandatory prerequisite for other courses, such as PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 2030 within one year after completion of the Introductory Psychology requirement. A minimum grade of C is required for Psychology majors. PSY 2030 can only be repeated one time.

Preparation for Psychology Graduate Work

While individual graduate programs in psychology have different requirements for admission, students who intend to do graduate work are advised to earn the B.A. or B.S. degree and select courses that are consistent with their intended area of study. Students are also encouraged to obtain research experience. A psychology advisor will help tailor a plan-of-work that is based on academic and career goals. Additional courses in mathematics, computer science, biology, and sociology are strongly recommended for students pursuing graduate work in psychology and for students who plan to apply for professional programs.

Psychology Honors Program

Students with an overall grade point average of 3.3 and a Psychology grade point average of 3.5 are eligible for admission to the Department's Honors Program. Satisfactory completion of the Honors Program will lead to a degree 'With Psychology Honors' on the diploma. Students interested in the program should obtain detailed information from the Psychology Department Undergraduate Advising Office.

Honors Sections provide smaller classes, somewhat more advanced readings, and opportunities for independent work by students. Students must complete a minimum of eighteen credits in honors coursework, including: PSY 5020 (Honors Research in Psychology), PSY 4991 (three-credit Honors Directed Study), PSY 4998 (Senior Thesis), and one additional PSY course designated as honors through an honors section or honors option contract. Students must also complete an Honors Seminar from the HON 42xx series.

Psychology (B.S.)

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material

helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation. Psychology-related employment for graduates with a bachelor's degree has increased in recent years. Such employment, of course, has depended on the personal characteristics of the individual, on the special qualifications and training of the individual, and particularly on job opportunity.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Psychology Mass Advising / Information Meeting

Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, career development, tips for success and much more. Attendance at one of the meetings is mandatory for all psychology majors. Students are encouraged to attend as soon as possible.

RSVP here (https://waynestate.az1.qualtrics.com/jfe/form/SV_4YqujklInzrhRyZL/). You may attend without first RSVP'ing, but to ensure we have enough space we appreciate knowing that you are attending. Feel free to bring parents and/or interested friends.

Candidates must complete minimum of 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

- To graduate with a major in psychology, a student must complete satisfactorily at least thirty-four credits in PSY courses BEYOND the credits for PSY 1010 or PSY 1020+PSY 1030 (Introductory Requirement).
- Students must also attend the *Psychology Mass Advising Meeting*. This two hour meeting is offered approximately every two weeks at various days/times. Students need to attend only once, but must be present for the full meeting. Students are expected to attend either prior to or upon declaring major in psychology. Current schedule can be found at <http://www.clas.wayne.edu/Psychology/Advising> (<http://www.clas.wayne.edu/Psychology/Advising/>).
- Transfer students must complete at least twenty credits in the Psychology Department at Wayne State University.
- Bachelor of Science requires a minimum of 27 credits of non-Psychology science. See a Psychology advisor for list of applicable courses.

Degree requirements include:

Code	Title	Credits
------	-------	---------

Introductory Requirement (Select one of the following):

For psychology majors, a minimum grade of C in the Introductory Psychology Requirement is a pre-requisite for all other PSY courses. Students must have at least a 2.0 overall grade point average in their psychology coursework to graduate. PSY 1010 is recommended over PSY 1020 for students who intend to major in psychology.

Option 1

PSY 1010	Introductory Psychology (preferred option)	
----------	--	--

Option 2

PSY 1020	Elements of Psychology (or earned AP Psych credit)	
PSY 1030	Introductory Psychology Laboratory	

Mathematics

Students can satisfy the Mathematics requirement through one of the course or test options below. Courses require a minimum grade of a C.

PSY 1010	Introductory Psychology	
PSY 1030	Introductory Psychology Laboratory	
BA 2300	Quantitative Methods I: Probability and Statistical Inference	
STA 1020	Elementary Statistics	
MAT 1000-6999		
ACT Math score of 25 or better		
SAT Math score of 600 or better		
Michigan Transfer Agreement score of 100 or better		

Research Methods in Psychology

PSY 2020	Research Methods In Psychology ¹	
----------	---	--

Statistical Methods

PSY 2030	Statistical Methods in Psychology ²	
----------	--	--

Experimental Lecture (select one of the following):

PSY 3040	Psychology of Perception: Fundamental Processes	
PSY 3060	Psychology of Learning and Memory: Fundamental Processes	
PSY 3080	Cognitive Psychology: Fundamental Processes	

Experimental Laboratory

PSY 3993	Laboratory in Experimental Psychology (must be taken concurrently with or after one of the above Experimental Lecture courses. PSY 3993 must be completed with a grade of C or better.)	
----------	---	--

Intermediate Composition (IC) course must be completed prior to PSY 3993. (p. 30)

Additional Core Courses

Select two of the following:

PSY 2100	Psychology and the Workplace	
PSY 2400	Developmental Psychology	
PSY 2600	Psychology of Social Behavior	
PSY 3120	Brain and Behavior	
PSY 3310	Abnormal Psychology	
PSY 5020	Honors Research in Psychology	

Elective Courses

As needed to satisfy the minimum credit requirement (thirty-four PSY credits BEYOND the Introductory Psychology Requirement). Students usually need three to five elective PSY courses.

¹ PSY 2020 is a mandatory prerequisite for other courses, such as PSY 2030, PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 2020 within one year after completion of the Introductory Psychology requirement. A minimum grade of C is required for Psychology majors. PSY 2020 can only be repeated one time.

² PSY 2030 is a mandatory prerequisite for other courses, such as PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 2030 within one year after completion of the Introductory Psychology requirement. A minimum grade of C is required for Psychology majors. PSY 2030 can only be repeated one time.

Preparation for Psychology Graduate Work

While individual graduate programs in psychology have different requirements for admission, students who intend to do graduate work are advised to earn the B.A. or B.S. degree and select courses that are consistent with their intended area of study. Students are also encouraged to obtain research experience. A psychology advisor will help tailor a plan-of-work that is based on academic and career goals. Additional courses in mathematics, computer science, biology, and sociology are strongly recommended for students pursuing graduate work in psychology and for students who plan to apply for professional programs.

Psychology Honors Program

Students with an overall grade point average of 3.3 and a Psychology grade point average of 3.5 are eligible for admission to the Department's Honors Program. Satisfactory completion of the Honors Program will lead to a degree 'With Psychology Honors' on the diploma. Students interested in the program should obtain detailed information from the Psychology Department Undergraduate Advising Office.

Honors Sections provide smaller classes, somewhat more advanced readings, and opportunities for independent work by students. Students must complete a minimum of eighteen credits in honors coursework, including: PSY 5020 (Honors Research in Psychology), PSY 4991 (three-credit Honors Directed Study), PSY 4998 (Senior Thesis), and one additional PSY course designated as honors through an honors section or honors option contract. Students must also complete an Honors Seminar from the HON 42xx series.

Psychology Minor

Minor Requirements:

- For a minor in psychology, a student must complete a minimum of twenty credits in psychology.
- At least three PSY courses must be taken at Wayne State.
- PSY 4993 or PSY 4994 (offered for S and U grades only) may not be counted in the twenty required credits.
- Students must have a cumulative minimum 2.0 GPA in PSY coursework to graduate.

Course Requirements:

- PSY 1010 (minimum grade C) *or* PSY 1020 + PSY 1030 (minimum grade C)
- PSY 2020
- Three to four more PSY courses to reach twenty credit minimum
- At least one course must be at 3000-level or higher
- At least one course must not also be applied to a student's major.

Public Health

Program Directors: Heather Dillaway

Undergraduate Academic Advisors: Christie Pagel (A-J) and Margaret MacKeverican (K-Z; AGRADE)

<http://clas.wayne.edu/public-health> (<http://clas.wayne.edu/public-health/>)

Public health is the science of protecting and improving the health of people and their communities. This work is achieved by promoting healthy lifestyles, detecting and limiting health disparities, and researching disease and injury prevention. A large part of public health is also about promoting healthcare equity, quality and accessibility.

The College of Liberal Arts and Sciences offers training in a broad range of public health issues to undergraduate students interested in careers in both public health practice and applied public health research. Students will learn to ask questions, challenge assumptions, and explore answers to promote the health and well-being of communities locally, nationally and globally. In particular, students will learn how to be a catalyst for change in Detroit and beyond and facilitate health equity for years to come. Core courses in the public health major and minor allow students to gain competencies in the following areas:

- Social determinants of health
- Health disparities and health equity
- Environmental health
- Epidemiology
- Biostatistics
- Research methods and applied methodological approaches
- Public health practice

Students wishing to pursue the major or minor in Public Health should meet with an Undergraduate Academic Advisor in Public Health (<https://clas.wayne.edu/public-health/advising/>).

- Public Health (B.S.) (p. 343)
- Public Health Minor (p. 344)
- Public Health AGRADE (p. 344)

Public Health (B.S.)

The College of Liberal Arts and Sciences and the School of Medicine offers training in public health issues and policies to students interested in a broad range of health careers. Students will learn to ask questions, challenge assumptions, and explore answers to promote the health and well-being of communities locally, nationally and globally.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. Students must receive a grade of C or better in all Public Health core courses and a C- or better in all approved electives. A grade point average of 2.0 (C) in both Public Health and general required courses are required for graduation.

Major Requirements

Students must complete 38-41 credits distributed as follows:

Code	Title	Credits
Core (C or better)		
PH 2100	Introduction to Public Health	3
PH 3100	Social and Behavioral Aspects of Public Health	3
PH 3200	Introduction to Biostatistics ¹	4
PH 3300	Epidemiology ¹	4
PH 3500	Environmental Health	3
PH 4100	Public Health Principles and Practice	2
PH 4150	Public Health Practicum	2
PH 4400	Methodological Approaches in Public Health	4
PH 5100	Capstone Course in Public Health ²	4
Electives (C- or better)		
Select at least one public health (PH) elective (3-4 credits), and a minimum of two courses (6-8 credits) from the following:		
Anthropology		
ANT 3400	Introduction to Medical Anthropology	
ANT/GLS/PH 3410	Global Health	
ANT 5400	Anthropology of Health and Illness	
Arabic		
ARB 5700	Medical Arabic	
Biology		
BIO 2200	Introductory Microbiology	
BIO 2870	Anatomy and Physiology	
BIO 3070	Genetics	
BIO 3100	Cellular Biochemistry	
BIO 3200	Human Physiology	
BIO 3500	Ecology and the Environment	
BIO 5040	Biometry	
BIO 5640	Cancer Biology	
BIO/PSL 5680	Basic Endocrinology	
BIO 5750	Biology of Aging	
Criminal Justice		
CRJ 3050	Mental Health and Crime (Criminal Justice)	
CRJ 4050	Crime and Public Health	
Economics		
ECO 2550	U.S. Health Care: Policy and Economics	
ECO 5230	Environmental Economics	
ECO 5550	Economics of Health Care	
ECO 5560	Pharmaceutical Economics	
ECO 5600	Introduction to Development Economics	
ECO 6550	Advanced Economics of Health Care	
History		
HIS/SOC 3440	American Medicine in the Twentieth Century	
HIS 5540	World Environmental History since 1900	
Nutrition and Food Science		
NFS 2030	Nutrition and Health	
NFS 3230	Human Nutrition	
NFS 4160	Food Laws and Regulations	
NFS 5220	Community Nutrition	
NFS 5250	Nutrition and Disease	
Philosophy		
PHI 1110	Ethical Issues in Health Care	

PHI 1130	Environmental Ethics
PHI 2550	Introduction to Philosophy of Science
PHI 5250	Justice and Rights in Health Care
Polish	
POL 3060	Medical Polish I
POL 3061	Medical Polish II
Political Science	
PS 2410	Introduction to Public Policy
PS 2420	Ethics and Politics of Public Policy
PS 3450	Environmental Policy and Politics
Psychology	
PSY 2080	Introduction to Drugs, Behavior, and Society
PSY 2410	Health Psychology
PSY 2600	Psychology of Social Behavior
PSY 3120	Brain and Behavior
PSY 3380	Human Sexuality
PSY 5330	Human Neuropsychology
Public Health	
PH 3050	Mental Health and Crime
PH 3410	Global Health
PH 3550	Public Health and the City
PH 3600	Special Topics in Public Health
PH 3900	LGBTQ Health
PH 4050	Crime and Public Health
PH 4600	Special Topics in Health Disparities
PH 4900	Directed Study in Public Health
Sociology	
SOC 2205	Sociology of the Environment
SOC 2210	Sociology of Health and Medicine
SOC 4204	Seminar in Aging and the Life Course
SOC 4205	Seminar in Medical Sociology
SOC 5020	End-of-Life Issues
SOC 5360	Introduction to Medical Sociology
SOC 5760	Health and Life Course
SOC 6750	Sociology of Urban Health
Spanish	
SPA 3050	Spanish for the Health Care Profession
Urban Studies and Planning	
UP 5430	Cities and Food
College of Fine, Performing and Communication Arts - Communication	
COM 5320	Health Communication
College of Education - Health Education	
HE 1010	Foundations of Health and Health Promotion
HE 2310	Dynamics of Personal Health
HE 2320	Advancing Policy in Community Health Education
HE 3440	Nutrition and Health Education
HE 6310	Reproductive Health Education
HE 6320	Mental Health and Substance Abuse
HE 6330	Health Behavior Change

Elective courses allow students to specialize within the program in ways that enhance their academic and professional goals. Students should remember that elective courses may have their own prerequisite courses, and students should consult the Undergraduate Academic Advisors in

Public Health to learn more about the major prior to undertaking the program.

Public Health Honors

To be recommended for an honors degree from this program, a student must maintain a cumulative g.p.a. of at least 3.30 and complete a minimum of twelve honors course credits with a B or better, including:

Code	Title	Credits
PH 4150	Public Health Practicum (Honors Section)	2
PH 5100	Capstone Course in Public Health (Honors Section)	4
One Course in Public Health (PH) with an Honors Option ³		3-4
One 42XX level Honors Seminar ⁴		3

¹ Before enrolling in PH 3200 and 3300, students must complete STA 1020 or MAT 1800 or MAT 2010 or the equivalent with a C- or better (or place into MAT 2010).

² PH 5100 may be completed with a C- or better.

³ Consult an advisor or the University Schedule of Classes (<http://classschedule.wayne.edu/>) for available Honors Sections.

⁴ A list of seminars is available in the list of Honors (HON) (p. 574) courses.

Public Health Minor

Minor Requirements consist of 20-22 credits distributed as follows:

Code	Title	Credits
Core (C or better)		
PH 2100	Introduction to Public Health	3
PH 3100	Social and Behavioral Aspects of Public Health	3
PH 3200	Introduction to Biostatistics ¹	4
PH 3300	Epidemiology ¹	4
Electives (C- or better)		
Select two additional courses from the list of electives for the Bachelor of Science program		6-8
Total Credits		20-22

¹ Before enrolling in PH 3200 or PH 3300, students must complete STA 1020 or MAT 1800 or MAT 2010 or the equivalent with a C or better (or place into MAT 2010).

Students in the Public Health minor must complete all required courses with a C grade or better, and all elective courses with a C- grade or better.

Public Health AGRADE Program

AGRADE provides qualifying students in the Bachelor of Science in Public Health (BSPH) program in the College of Liberal Arts and Sciences with an opportunity to pursue an accelerated pathway to the Master of Public Health (MPH) program in the School of Medicine. The MPH prepares students for a professional career at the intersection of public, clinical and/or other allied health sciences.

Application

Undergraduate students enrolled in the BSPH major or minor are eligible to apply for AGRADE status in the semester in which they expect to complete 90 credits and have completed the following four undergraduate courses:

Code	Title	Credits
PH 2100	Introduction to Public Health	3
PH 3100	Social and Behavioral Aspects of Public Health	3
PH 3200	Introduction to Biostatistics	4
PH 3300	Epidemiology	4

Applicants must have a 3.6 GPA or better in BSPH major coursework, and a cumulative GPA of 3.5 or better. Students with a GPA of 3.3-3.49 will be considered on an individual basis.

Applications will be reviewed each semester. Applicants must submit a personal statement indicating their interest in the MPH program, their career goals, and the reasons why they are especially suited to join this accelerated track. Applicants must also submit two recommendation letters from faculty which address the student's capacity for graduate study.

The GRE may be waived based on satisfactory performance in the AGRADE courses (at least a B grade in each AGRADE class). Acceptance to the BSPH-MPH AGRADE program is competitive. The MPH program admissions committee reviews all AGRADE applicant applications and makes decisions about admission to this accelerated track.

Upon admission, students may elect 3-16 credits in approved graduate M.P.H. courses. These graduate level courses will complete elective bachelor's degree requirements as well as fulfill the beginning of study toward the master's degree.

Code	Title	Credits
FPH 7015	Biostatistics I	3
FPH 7100	Health Care Organization and Administration	3
FPH 7240	Epidemiology	3
FPH 7320	The Social Basis of Health and Health Care	3
FPH 7420	Principles of Environmental Health	3

The bachelor's degree will be awarded following the completion of the undergraduate degree requirements. Graduate course work taken in this program must be completed within eight years (from the time that the first graduate course is taken that is counted toward degree requirements) or within six years from the awarding of the bachelor's degree, whichever comes first.

For more information, contact the Public Health undergraduate academic advisors (<https://clas.wayne.edu/public-health/advising/>).

Religious Studies

Office: Room 12201, 5057 Woodward

Director: Sean C. Stidd

Email: sean.stidd@wayne.edu

Religious Studies aims at an academic investigation of the world's religions, of religious history, and of the place of religion in world cultures and societies from the ancient to the present. It draws on faculty resources from a wide range of traditional academic disciplines: anthropology, history, philosophy, classics, Near Eastern studies, Asian studies, literature, art history, political science, and sociology. Religious Studies respects the beliefs and backgrounds of the students who pursue courses in this area, but it also approaches its objects of study in a thoroughly scholarly manner, maintaining both intellectual openness and critical rigor.

The Wayne State Religious Studies Program, housed in the College of Liberal Arts and Sciences, at present offers an undergraduate Religious

Studies Minor and serves as an intercollegiate, interdepartmental, and interdisciplinary faculty body to sponsor visiting lectures and academic conferences on religious studies. Its Director works with a Faculty Steering Committee and group of faculty affiliated with the Program to develop curricular offerings and plan other Program activities.

This minor is designed for undergraduates majoring in other areas or disciplines and requires a minimum of eighteen credits including the following:

Code	Title	Credits
One course in Comparative Religion:		
NE 1900	Comparative Religion ¹	
A course in one of the following topics:		
Philosophy of Religion		
PHI 2400	Introduction to the Philosophy of Religion	
Anthropology of Religion		
ANT 5370	Magic, Religion and Science ¹	
Sociology of Religion		
SOC 2100	Topics in Sociology (when offered as The Sociology of Religion)	

¹ Suggested examples.

At least four additional religious-studies courses (12 credits minimum), either from the posted list or approved by consent of the Director of Religious Studies. Among these must be courses on least two different religious traditions, including at least one of the following:

- Judaism
- Christianity
- Islam
- Buddhism
- Hinduism

Sociology

Office: 2228 Faculty/Administration Building; 313-577-2930

Chairperson: Jeffrey Kentor

<http://www.clas.wayne.edu/Sociology/>

The courses in sociology are designed for various groups of students:

1. those desiring scientific knowledge of social relationships as a part of their general education;
2. those planning to enter a public service profession such as social and urban planning, public administration, nursing, medicine, dentistry, or law;
3. those expecting to engage in work that will require a broad grasp of the nature of society, of public opinion, and of social change such as public affairs, journalism, public relations, communications, marketing, etc.;
4. those anticipating a career in social and statistical research or evaluation and planning;
5. those looking forward to the teaching of social studies and sociology;
6. those preparing for a career in international studies or for service in foreign affairs;
7. those majoring in sociology as a preparation for graduate professional training in social work, public health, or urban planning;
8. those planning to pursue graduate studies in sociology.

A good background in Sociology can be a valuable component of preparation for a variety of careers, professions, and occupations. The

following information summarizes some of these opportunities. Faculty advisors in Sociology can provide additional information on these and other areas as well.

Human Services Work

Students whose occupational aspirations include working with families, or with men and women in various types of human services or therapeutic settings (Social Work, Nursing, Education, Psychology, Law, Medicine) might consider electing one or more of the following courses:

Code	Title	Credits
SOC 2201	Race Relations in Metro Detroit	3
SOC 2202	Gendered Worlds	3
SOC 2204	Outsiders and Deviants	3
SOC 2203	Social Psychology	3
SOC 4202	Seminar in the Sociology of Gender	3

Business

Students who are preparing for a career in business might consider taking:

Code	Title	Credits
SOC 1010	Understanding Human Society	3
SOC 1020	Social Problems	3
SOC 2203	Social Psychology	3
SOC 2300	Social Inequality	3
SOC 3200	Methods of Social Research	3
SOC 3220	Introduction to Social Statistics	3

Inter-Group Relations

Any student whose future occupation will entail working with peoples of diverse ethnic and racial groups might consider taking the following courses:

Code	Title	Credits
SOC 2204	Outsiders and Deviants	3
SOC 2300	Social Inequality	3
SOC 2201	Race Relations in Metro Detroit	3
SOC 2202	Gendered Worlds	3
SOC 4201	Seminar in Race and Ethnicity	3
SOC 4204	Seminar in Aging and the Life Course	3

Crime and Criminal Justice

Students whose career goals are in the areas of criminal justice, police work, corrections, probation, law, or related fields might be advised to select their elective courses from among the following:

Code	Title	Credits
SOC 1020	Social Problems	3
SOC 2203	Social Psychology	3
SOC 2204	Outsiders and Deviants	3
SOC 2201	Race Relations in Metro Detroit	3
SOC 2300	Social Inequality	3

Work with Health-Care Agencies or the Aged

Students who plan to work with the aged or in health care fields (social gerontology, public health, biomedicine, nursing) might consider taking one of more of the following courses:

Code	Title	Credits
SOC 2203	Social Psychology	3
SOC 2210	Sociology of Health and Medicine	3
SOC 4205	Seminar in Medical Sociology	3
SOC 4204	Seminar in Aging and the Life Course	3

- Sociology (B.A.) (p. 346)
- Sociology Minor (p. 347)

Sociology (B.A.)

Sociology is a social science discipline that enables us to understand how society is organized, how society is ever changing, and how groups experience the social world. It is a discipline that can also let us start to understand group attitudes and behaviors as well as individual lives. It examines the ways in which social categories (such as class, race, sex, age, nationality, or sexuality), and various social institutions (such as kinship, economic, political, or religious) affect human attitudes, actions, and opportunities. It also lets us begin to understand more broadly how our society is organized. One of the most important things that sociology does is to link individuals' private troubles to large public societal problems; this is called the "sociological imagination." For instance, if person in Detroit is laid off from his or her job, what are the larger societal trends that might be the reason for that layoff? Or, think about all of the people without health insurance around you – what are the real reasons for this lack of insurance and how can we understand this disparity?

In the Department of Sociology at Wayne State, we specialize in the study of health and illness, race and gender inequality, labor studies, and urban studies. Faculty members study a variety of things themselves, for instance, gender and race inequalities in paid work, policy changes in workplaces, fetal alcohol syndrome, elder abuse, menopause and midlife, religion and racial politics in Detroit, the Detroit gardening movement, motherhood, why different racial groups stay in Detroit, public health, and race disparities in education. We also have faculty studying paid work patterns, work-family policy, social movements, and the effects of natural disasters in countries such as Mexico, China, Germany and Japan. A good background in Sociology can be a valuable component of preparation for a variety of careers, professions, and occupations.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees. It is expected that Group Requirements will be fulfilled during the freshman and sophomore years. Language Group Requirements should normally be fulfilled before election of the major.

Major Requirements

Students majoring in sociology are required to elect a minimum of thirty-three credits in the field of sociology, including six required courses:

Code	Title	Credits
SOC 1010	Understanding Human Society	3
SOC 2200	Sociology as a Vocation I	2
SOC 3200	Methods of Social Research	3

SOC 3220	Introduction to Social Statistics	3
SOC 3050	Basic Sociological Theory	3
SOC 4010	Sociology as a Vocation II	1
SOC 4996	Sociology Capstone	3
Electives (at least 6 credits at the 4000/5000 level)		15
Total Credits		33

For SOC 4996, students are required to complete the first five required sociology courses with a grade of D- or better prior to enrollment. SOC 4996 also must also be completed with a grade of D- or better. In addition to required courses, all sociology majors are required to take at least fifteen credits in sociology elective courses. Students must maintain a 2.0 GPA within the major.

Sociology Honors Program

The honors designation is available to sociology students who fulfill all requirements for the major and who maintain a cumulative grade point average of at least 3.3 and at least 3.3 in sociology courses. Honors students must demonstrate the ability to do original work by writing an Honors Thesis during their senior year. The Sociology Honors Program is at least fourteen credits and leads to a degree designation 'With Honors in Sociology.'

Requirements for the Honors Degree are:

1. satisfaction of all requirements for a major in sociology;
2. completion of Honors section of SOC 3220 with grade of C or better;
3. completion of Honors Section SOC 4996 with a grade of C or better; or SOC 4999
4. At least one additional sociology course with the Honors designation (3 credits min.)
5. an approved Honors Thesis; and
6. at least one 4200-level seminar (HON 4200-HON 4280) offered through the Honors Program of the College of Liberal Arts and Sciences.

AGRADE Program (Accelerated Graduate Enrollment)

The Department of Sociology permits academically superior majors to petition for admission into the College's AGRADE Program. AGRADE procedures enable qualified seniors in the Department to enroll simultaneously in the undergraduate and graduate programs of the College and apply a maximum of fifteen credits towards both a bachelor's degree and a master's degree in the major field. Students who have a 3.6 GPA and who have completed 90 credits of their Bachelors degree can apply for AGRADE.

For more details about the AGRADE Program, contact the Undergraduate advisor in Sociology (313-577-2930), or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2690).

Sociology Minor

The minor in sociology requires 20 credits of coursework in sociology, including:

Code	Title	Credits
SOC 2200	Sociology as a Vocation I	2
At least one of the following courses:		3
SOC 1010	Understanding Human Society	
SOC 1020	Social Problems	
At least one of the following courses:		3

SOC 2201	Race Relations in Metro Detroit
SOC 2202	Gendered Worlds
SOC 2510	People on the Move
SOC 2203	Social Psychology
SOC 2204	Outsiders and Deviants
SOC 2300	Social Inequality
SOC 2205	Sociology of the Environment
SOC 2206	Political Sociology
SOC 2207	Sociology of Development
SOC 2208	Sociology of Sport
SOC 2209	Sociology of Religion

At least one of the following courses: 3

SOC 3050	Basic Sociological Theory
SOC 3200	Methods of Social Research
SOC 3220	Introduction to Social Statistics

At least one of the following courses: 3

SOC 4201	Seminar in Race and Ethnicity
SOC 4202	Seminar in the Sociology of Gender
SOC 4203	Seminar in Global Inequality and Development
SOC 4204	Seminar in Aging and the Life Course
SOC 4205	Seminar in Medical Sociology

Urban Studies and Planning

Office: 3198 Faculty Administration Building; 313-577-2701; Fax: 313-577-0022

Chairperson: Rayman Mohamed
<http://www.CLAS.wayne.edu/DUSP/>

The field of urban studies explores contemporary cities and urban trends and addressed some of today's most pressing problems. Globally, complex systems of urban settlement house the overwhelming majority of the population and dominate their residents' social, economic, cultural, and intellectual lives. In the U.S., in particular, exploring the development and transformation of metropolitan regions is essential to understanding some of the most significant dynamics affecting the nation. Especially pertinent are the powerful forces of suburbanization, political fragmentation, and residential segregation along lines of race and class that reshaped our society in the latter half of the 20th century. These forces structure the resources, activities, and opportunities that unite and divide Americans. Wayne State's Detroit location offers a powerful vantage point from which students may gain valuable insight these complex dynamics.

The profession of urban planning takes major responsibility for the development of comprehensive plans and programs for local communities as well as larger regional units. These plans visualize future conditions of social, economic, physical and environmental change, and provide an estimate of the community's long-range needs for various facilities and services. Professional urban planners perform a variety of tasks such as developing plans for housing, transportation, rehabilitation of blighted metropolitan areas, and improving the appearance and efficiency of communities. The program seeks to prepare individuals for working with local and state public agencies, nonprofit organizations and for consultants and others in the private sector.

- Urban Studies (B.A.) (p. 348)
- Urban Studies Minor (p. 348)
- Urban Sustainability Minor (p. 348)

Urban Studies (B.A.)

The field of urban studies explores contemporary cities and urban trends and addressed some of today's most pressing problems. Globally, complex systems of urban settlement house the overwhelming majority of the population and dominate their residents' social, economic, cultural, and intellectual lives. In the U.S., in particular, exploring the development and transformation of metropolitan regions is essential to understanding some of the most significant dynamics affecting the nation. Wayne State's Detroit location offers a powerful vantage point from which students may gain valuable insight these complex dynamics.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 29) and the College of Liberal Arts and Sciences Group Requirements (p. 255), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 17) and the College (p. 254) governing undergraduate scholarship and degrees.

Major Requirements

Students majoring in Urban Studies are required to complete a minimum of thirty-five credits. This consists of the completion of twenty-six credits in seven core courses, one three or four-credit research methods course, and five to six credits of additional urban-related electives, as outlined in the following curriculum.

Code	Title	Credits
Core Courses		
US 2000	Introduction to Urban Studies	4
PS 2240	Introduction to Urban Politics and Policy	4
GPH 3130	Introductory Urban Geography	4
GPH 3600	Introduction to Geographic Information Systems	4
US 4510	Cities and Regions	3
ECO 5800/ UP 5820	Urban and Regional Economics	4
US 4620	Urban Studies Senior Capstone Research	3
Research Methods Courses		
Select one of the following:		4
CRJ 3550	Research Methods in Criminal Justice	
GPH 6420	Quantitative Techniques I	
PS 3600	Methods of Political Inquiry	
SOC 3200	Methods of Social Research	
Elective Courses in Urban Studies		
Select 5 credits of the following:		5
AFS 3160	Black Urban History	
AFS 3180	Black Social Movements	
ANT 2200	Lost Cities and Ancient Civilizations	
ANT 3020	Introduction to Archaeology	
ANT 3020	Introduction to Archaeology	
ANT 5060	Urban Anthropology	

ANT 5280	Field Work in Archaeology of the Americas
ANT 5500	Historical Archaeology
CRJ/GSW 2750	Diversity Issues in Criminal Justice
CRJ 3120	Politics of the Criminal Justice Process
CRJ 5995	Special Topics in Criminal Justice
ECO 5600	Introduction to Development Economics
ELR 2500	Introduction to Labor Studies
GPH 4600	Advanced Geographic Information Systems
HIS 2050	Modern America: Since 1877
HIS 5665	Global Cities
HIS 5670	Modern American Cities
PS 3250/ HIS 3240	Detroit Politics: Continuity and Change in City and Suburbs
SOC 1020	Social Problems
SOC 2600	Race and Racism in America
SOC 5400	The Family
SOC/AFS 5570	Race Relations in Urban Society
SOC 6750	Sociology of Urban Health
UP 3530	Urban and Regional Planning
US 3650	History of Detroit
US 4000	Internship
UP 5650	Metropolitan Detroit

Total Credits

35

Urban Studies Honors Program

Students with a grade point average of 3.3 or higher may be admitted to the Honors Program in Urban Studies. The honors major must elect one semester of a 4000-level Honors College seminar and accumulate at least fifteen credits in honors-designated course work. Honors courses from any Department in the College, including this one, all contribute to the fifteen-credit requirement. The honors major student is permitted to follow a course of study somewhat independent of standard requirements, through the election of Honors Directed Study.

Urban Studies Minor

The requirements for a minor in Urban Studies include at least three courses from the core requirements for the Urban Studies Major (p. 348), including:

Code	Title	Credits
US 2000	Introduction to Urban Studies	4
GPH 3130	Introductory Urban Geography *	4
US 4510	Cities and Regions *	3

* This course cannot be listed or cross-listed as part of a student's declared major program.

The remainder of a student's 18 credits must be completed by selecting courses from the list of Urban Studies Electives, or from additional courses not included in the list but approved by the student's faculty advisor within the Department of Urban Studies and Planning.

Urban Sustainability Minor

The Minor in Urban Sustainability will provide students with an opportunity to further their understanding of the myriad issues in fostering environmental preservation, equity, and economic development (the 3-Es of sustainability) in urban areas, while providing them with

a foundation for advancing their academic and professional interests in the many directions related to sustainability. The minor requires the completion of 18 credits.

Requirements

Code	Title	Credits
US/GPH/HIS/PS 2000/SOC 2500	Introduction to Urban Studies	4
GPH 3130	Introductory Urban Geography	4
UP 4460	Sustainable Cities	3
Select two electives from the following:		7
ANT 2400	Food and Culture	
ANT 3100	World Cultures	
ANT 3410	Global Health	
ANT 5060	Urban Anthropology	
BIO 1500	Basic Life Diversity	
BIO 3500	Ecology and the Environment	
BIO 4130	General Ecology	
BIO 5440	Terrestrial Ecology	
BIO 5540	Landscape Ecology	
CHM 1000	Chemistry and Your World	
CHM 1020	Survey of General Chemistry	
CHM 1030	Survey of Organic/Biochemistry	
CHM 1040	Chemistry Skills and Reasoning	
CHM 1060	General, Organic and Biochemistry	
CHM 1220	General Chemistry I	
CHM 1230	General Chemistry I Laboratory	
CHM 1240	Organic Chemistry I	
CHM 1250	Organic Chemistry I Laboratory	
EVS 1500	Introduction to Environmental Science	
EVS 3000	Introduction to Environmental Analysis Using Geographic Information Systems (GIS)	
EVS 3100	Air and Water in Environmental Systems	
GEL 1010	Geology: The Science of the Earth	
GEL 1011	Geology: The Science of the Earth Laboratory	
GEL 1020	Interpreting the Earth	
GEL 1050	Oceanography	
GEL 1370	Meteorology: The Study of Weather	
GEL 2130	Mineralogy	
GEL 3160	Petrology	
GEL 3300	Structural Geology	
GEL 3400	Principles of Sedimentology and Stratigraphy	
GEL 3450	Principles of Paleontology	
GEL 3100	Air and Water in Environmental Systems	
GLS 5540	World Environmental History since 1900	
GPH 3600	Introduction to Geographic Information Systems	
HIS 5425	American Environmental History	
HIS/GLS 5540	World Environmental History since 1900	
HIS 5665	Global Cities	
HIS 5725	African Cities	
PS 2420	Ethics and Politics of Public Policy	
PS 3450	Environmental Policy and Politics	
PS 4460	Techniques of Policy Analysis	
PH 2100	Introduction to Public Health	
PH 3410	Global Health	
PH 3500	Environmental Health	

PH 3300	Epidemiology
US 4000	Internship
PH 3100	Social and Behavioral Aspects of Public Health
PH 3550	Public Health and the City
SOC 1010	Understanding Human Society
SOC 1020	Social Problems
SOC 2200	Sociology as a Vocation I
SOC 2203	Social Psychology
SOC 2205	Sociology of the Environment
SOC 2207	Sociology of Development
SOC 2300	Social Inequality
SOC 2510	People on the Move
UP 5430	Cities and Food
UP 5670	Modern American Cities
US 3550	Public Health and the City
US 3900	Topics in Urban Studies and Geography
Total Credits	18

SCHOOL OF MEDICINE

Dean: Mark Schweitzer, M.D.

The Wayne State University School of Medicine has been operating and granting degrees as a college of medicine since 1868. Originally called the Detroit Medical College, it was founded by Detroit native Theodore A. McGraw, M.D.

In 1879, a second medical college, the Michigan College of Medicine, opened in Detroit. The two colleges soon united to become the Detroit College of Medicine. In 1919, the Detroit College of Medicine and Surgery, as it was then known, became an official part of the Detroit Board of Education and thus an important unit in the rapidly developing Colleges of the City of Detroit. In 1933, the name of the Colleges of the City of Detroit changed to Wayne University in honor of the American Revolutionary War hero, Gen. Anthony Wayne. Wayne University became a state institution in 1956.

The School of Medicine entered its second century with a period of substantial growth and the creation of a new campus in midtown Detroit. With the opening of the Gordon H. Scott Hall of Basic Medical Sciences in 1971, the size of the entering class was increased to 256 students. With a recent increase to 290 medical students in entering classes, the Wayne State University School of Medicine is the largest single-campus medical school in the country, and the fourth largest overall.

Mission of the School

The primary mission of the Wayne State University School of Medicine is to educate a diverse student body in an urban setting and within a culture of inclusion, through high quality education, clinical excellence, pioneering research, local investment in our community and innovative technology, to prepare physician and biomedical scientific leaders to achieve health and wellness for our society.

The School of Medicine offers educational programs leading to the following degrees:

- Doctor of Medicine
- Doctor of Philosophy
- Master of Science

Graduate education in clinical fields, continuing medical education and post-doctoral training programs are offered. Two hundred and ninety students are admitted annually to the M.D. program and approximately 380 students are enrolled in doctoral or Master's degree study in more than twenty program and concentration areas, predominantly in the basic medical sciences. More than 2,000 learners are post-graduate trainees as medical residents, post-doctoral fellows or fellows in twenty-nine clinical research programs. The combined M.D./Ph.D. program admits highly qualified candidates each fall to participate in a rigorous seven- to eight-year program of study supported by scholarships from the University. Continuing education programs, seminars and colloquiums serve the faculty and students, as well as professionals throughout the community, as a resource for ongoing developments in the health sciences. In addition to degree programs, the School of Medicine offers courses in many basic medical science disciplines appropriate for students in other colleges and schools within the University. Non-degree enrollment in basic science courses at the graduate level is permitted on a limited basis for qualified students.

Research focusing on human health is the foundation of activities in the School of Medicine. Fundamental and applied research in biomedical sciences, clinical specialties and health care systems is directed by faculty. Research programs are supported by more than ninety million dollars annually through research grants, contracts and gifts. Members

of the faculty serve on scientific boards, panels, study groups and in professional leadership roles in health care regionally, nationally and internationally. The research facilities of the School of Medicine are modern, well-equipped and growing with the pace of technological advances.

Clinical services provided by the faculty, post-graduates and students are rendered predominantly through the Detroit Medical Center and Henry Ford Health System institutions. Through affiliations between the Detroit Medical Center and Wayne State University and the Henry Ford Health System and Wayne State University, DMC and Henry Ford serve as the primary teaching hospitals for the School of Medicine. The School is also closely affiliated with the John D. Dingell Veterans Administration Medical Center for education, research and clinical programs. The School of Medicine perceives a responsibility to the population of the Detroit metropolitan region as a whole, both as an educational institution and as a supplier of physicians who are highly-skilled providers of medical care.

Facilities: Wayne State University Medical School

Gordon H. Scott Hall provides facilities for pre-clinical and basic science education, basic science departments and research laboratories for basic and clinical programs. The dean's offices and the dean's administrators' offices are located here.

The Helen Vera Prentis Lande Medical Research Building houses research laboratories for clinical and basic science faculty.

The Vera P. Shiffman Medical Library houses a full medical reference library, as well as computer instruction facilities.

The Louis M. Elliman Clinical Research Building provides research laboratories, experimental surgical suites and specialized research facilities for the Departments of Internal Medicine, Surgery, Pediatrics and Neurology.

The C.S. Mott Center for Human Growth and Development provides research space for programs in human reproduction, growth and development.

The Hudson-Webber Cancer Research Center is the translational research flagship facility for Wayne State University cancer research in partnership with the Barbara Ann Karmanos Cancer Institute.

The Richard J. Mazurek, M.D., Medical Education Commons plays a key role in enriching medical education by providing access to spaces and services that enhance campus life, including a convenient location for students, faculty, health professionals and guests; state-of-the-art classrooms and laboratories; and educational opportunities such as a modern patient simulation technology, the Kado Clinical Skills Center.

In addition to training at the Detroit Medical Center (DMC), medical students may train at eighteen other medical facilities, as well as hundreds of local physician offices.

The Wayne State University Physician Group (WSAPG) affiliated with the Wayne State University School of Medicine. Many WSUPG physicians serve as faculty and teach medical students and hospital residents.

The School of Medicine is an active partner in nationally- and regionally-recognized research programs, and has defined several areas of noted excellence, including cancer, women's and children's medicine, cardiology and cardiovascular health, the neurosciences and ophthalmology.

Facilities: Detroit Medical Center and Other Clinical Education Partners

The Detroit Medical Center includes:

Children's Hospital of Michigan, which specializes in medical research and treatment of infants and children - in particular, pediatric hematology,

oncology, cardiac surgery and the treatment of renal disease - and houses the state's poison control center.

Detroit Receiving Hospital and University Health Center, which specializes in the treatment of adult emergency and trauma cases, and includes special facilities for the care of emergency psychiatry, burn and spinal injuries. The University Health Center, connected to the hospital, is one of the country's largest multidisciplinary outpatient facilities, with twelve primary care service groups and more than twenty-five medical specialty services for ambulatory care.

Sinai-Grace Hospital, a full-service hospital offering a wide range of outpatient services.

Harper Hospital, which specializes in oncology, cardiology general surgery and a number of additional surgical specialties and sub-specialties.

Huron Valley-Sinai Hospital, located in a northern suburb, provides community hospital inpatient and outpatient services.

Hutzel Hospital, which includes among its areas of excellence obstetrics, gynecology, gynecologic oncology, ophthalmology, neonatology, perinatology and orthopedic surgery.

Rehabilitation Institute of Michigan, which uses an interdisciplinary approach to help physically disabled people reach their maximum level of independence.

Kresge Eye Institute, which is a major center for research and treatment of eye diseases.

Barbara Ann Karmanos Cancer Institute, which provides comprehensive cancer prevention, screening, diagnostics, treatment and supportive care to more than 10,000 new patients annually, and is a National Institutes of Health National Cancer Institute Comprehensive Cancer Center.

Gershenson Radiation Oncology Center, which provides technologically advanced radiation oncology services for all DMC facilities. Unique services include neutron therapy, Gamma Knife procedures and total body irradiation.

Henry Ford Hospital is a 802-bed tertiary care hospital, education and research complex located in Detroit's New Center area. The hospital is a multi-organ transplantation center and Level 1 trauma center. Henry Ford Hospital is listed in "Best Hospitals in America" Its doctors are routinely named among America's best. Henry Ford Hospital received the 2011 Malcolm Baldrige award, the nation's highest honor for innovation and performance excellence in health care.

Oakwood Hospital & Medical Center has 632 beds, and is a full-service teaching hospital in partnership Wayne State University that has served southeast Michigan for more than fifty years. OHMC is the tertiary hub for the three community hospitals of the Oakwood Healthcare System, providing high-level clinical care in a setting designed around the individuality of each patient. OHMC offers state-of-the-art emergency medicine, general medicine and outpatient surgery, diagnostic imaging, labor and delivery/neonatal intensive care, pediatrics, intensive care and coronary units. Also opened in 2005, is the Fitzgerald Pavilion, the latest in fully integrated surgical suites. This \$110 million expansion brings the next generation of surgery to southeast Michigan and offers the best surgical care.

The John D. Dingell VA Medical Center is a 108-bed full service medical center that provides primary, secondary and tertiary care. The medical center provides acute medical, surgical, psychiatric, neurological, and dermatological inpatient care. Primary care, medical and surgical specialties are also provided, as are mental health clinics that include substance abuse treatment, a day treatment center and a community-

based psychiatric program with the goal of maintaining patients in their home community. The medical center also operates a 109-bed nursing home care unit and a Health Care for Homeless Veterans program.

St. John Health is comprised of seven hospitals plus more than 125 medical facilities in southeast Michigan offering heart, cancer, obstetrics, neurosciences, orthopedics, physical rehabilitation, behavioral medicine, surgery, emergency and urgent care.

Crittenton Hospital Medical Center provides a full continuum of clinical programs nationally ranked for quality excellence and a medical staff of nearly 500 physicians, representing a wide range of medical specialties providing primary, secondary and tertiary-level care. Crittenton has newly-renovated facilities and cutting-edge technology for providing patients with the most advanced medical care on both an inpatient and outpatient basis. Crittenton provides a campus for residents from Wayne State University's School of Medicine who are specializing in Family Medicine and Otolaryngology.

Shiffman Medical Library and Medical Learning Resource Centers

Director: Sandra Martin

The Shiffman Medical Library serves as the health sciences library for Wayne State University, including the School of Medicine, and the Eugene Applebaum College of Pharmacy and Health Sciences. The library encourages all Wayne State University students to take advantage of the wide range of health information resources and reference assistance available. In addition, the library provides open and restricted access computing areas for WSU students, faculty and staff. In keeping with its ongoing outreach mission, the library welcomes community residents conducting research, seeking health information and for other educational purposes. Online and remote access to digital information resources of the Shiffman Medical Library and all university libraries require a WSU AccessID. Contact the library at askmed@wayne.edu or 313-577-1088, or consult the School of Medicine website for instructions on accessing electronic biomedical information.

When not in use, a twenty-seat computer training lab is set aside for study. The library makes available course materials that are placed on reserve at its service desk, which also provides copies of textbooks, media and a variety of other resources.

Student Affairs

Assistant Dean of Student Affairs and Career Development:

Lisa MacLean, M.D.

Phone: 313-577-1463

Services include: career and supportive counseling; crisis intervention; liaison for referrals; guidance for residency application; support for student government and organization activities as well as oversight of Special Events, the Health and Wellness Program and the Medical Student Faculty Mentoring Program. The staff is committed to assisting students in every way possible as the students work toward M.D. degrees. These programs are part of the School's commitment to provide each matriculant with support services so that the rigorous educational program can be presented within as comfortable an environment as possible.

Services for Students

Health Services: Students are required to have personal comprehensive health insurance coverage through the School of Medicine health insurance plan. Students may qualify for the waiver program.

Counseling: Appointments for academic, personal and career counseling can be arranged through the Office of Student Affairs.

Mentoring: Faculty mentors are provided through the Office of Student Affairs for the purpose of giving guidance and support to the medical students throughout their medical school careers.

Health and Wellness: Health and Wellness Program was developed so that each student optimizes healthy coping strategies, finds good balance and achieves academic success throughout medical school.

Academic Resources Counseling: Referrals for academic support can be made by the student's assigned counselor to the Office of Learning and Teaching where an academic specialist is available to all students seeking to improve and/or enhance academic performance. Individual tutoring services and group review sessions are available. The mission of the School of Medicine's Office of Learning and Teaching is to provide educational services and programs for medical students who need academic support to improve their academic progress and for students to enhance their academic achievements. This Office also provides programming for Step 1 and Step 2 CK and CS support.

Medicine Degrees and Certificates (Graduate Programs)

There are two major types of academic programs in the School of Medicine - those leading to the M.D. degree and postgraduate medical education, and those programs in the basic medical sciences that offer Master of Science or Doctor of Philosophy degrees. For descriptions of these degree programs, see the Wayne State University Graduate Bulletin.

Doctor of Medicine (M.D. Program)

Admission to M.D. Program

The School of Medicine accepts 290 students for its entering class. The students are selected from a large number of applicants who apply through the American Medical College Application Service (AMCAS).

Academic Requirements for Admission

Wayne State University School of Medicine requires applicants for admission to have earned a bachelor's degree.

Required subjects for baccalaureate preparation are:

- general physics;
- inorganic and organic chemistry;
- general biology;
- college writing or composition

It is recommended that students complete lab work in the above science courses, and take a course in statistics, ethics, and biochemistry. The student is urged to select additional subjects which will contribute substantially to a broad cultural background.

It is to be noted that when students are accepted before completion of their premedical requirements, they must maintain a satisfactory

scholastic average in their continued premedical work to warrant enrollment in the School of Medicine.

The *Medical College Admission Test* is required of all applicants for admission into the first year class. Students seeking admission should take this test no later than September of the year prior to matriculation. After a preliminary review of application credentials, interviews are held with those applicants who warrant further consideration.

Admission to the First-Year Class

The School of Medicine adheres to the acceptance procedures of the Association of American Medical Colleges, including the 'Early Decision Plan.' Admission procedures of the School are:

1. No place in the first-year class shall be offered to an applicant more than one year before the actual start of instruction for that class.
2. Following the receipt of an offer of a place in the first-year class, a student shall be allowed three weeks in which to make a decision.
3. No student who has at any time been requested to withdraw for any reason from a medical school in which he/she has been registered will be accepted by the WSU School of Medicine. Students who have been dropped for poor scholarship by the School of Medicine should not expect favorable consideration for readmission.
4. Any applicant accepted by the School of Medicine who does not complete enrollment must apply for readmission and meet all requirements in force at the time of the new application.

Selection Factors

The Committee on Admissions will select applicants who, in its judgment, will make the best students and physicians. Consideration is given to the entire record, including grade point average, Medical College Admission Test scores, recommendations and interview results (one-on-one interview and multiple mini-interviews), as these reflect an applicant's personality, maturity, character and suitability for medicine. Additionally, the committee regards as desirable certain health care experiences, such as volunteering or working in hospitals, hospices, nursing homes or doctor's offices. The committee also values experience in biomedical laboratory research. Following an initial screening process, students with competitive applications are selected to complete a secondary application. Special encouragement is given to candidates from medically underserved areas in Michigan.

As a state-supported school, the institution must give preference to Michigan residents; however, out-of-state applicants are encouraged to apply. An applicant's residency is determined by university regulations. Applicants must be a U.S. or Canadian citizen or U.S. permanent resident to be eligible for admission. Students whose educational backgrounds include work outside the United States must have completed two years of course work, including the prerequisite courses at a U.S. or Canadian college or university. Canadian citizens are considered non-resident for both admission and tuition purposes. Interviews are required but are scheduled only with those applicants who are given serious consideration. Students are urged to apply by November 1.

Application and Acceptance Policies

The School of Medicine adheres to the acceptance procedures of the Association of American Medical Colleges, including the 'Early Decision Plan.' Admission procedures of this School are:

1. An American Medical College Application Services application must be filed between June 1 and December 31 of the year preceding anticipated matriculation.

2. Applicants must respond to acceptance offer within three weeks of the offer.

Diversity and Integrated Student Services

This unit supports the medical school to maintain its representation of diversity across economic, personal and social dimensions. This is accomplished through pipeline outreach programs and special projects that present a combination of academic and extracurricular activities designed to inform high school, undergraduate and post-baccalaureate students about career opportunities in medicine and other health professions, and prepare them to gain admission.

A special program feature of the unit is the Post Baccalaureate Program. This medical school preparatory program offers an opportunity to a small number of applicants who are Michigan residents, and whose undergraduate academic achievement has been compromised by certain disadvantaging factors to gain admission into medical school. Successful completion of this special one year program facilitates entry into medical school for those selected applicants from disadvantaged backgrounds.

Registration Requirements

Physical Examination

Each student must present proof of a physical examination at or before registration for the first year. Students are also required to be annually tested for TB (skin test or chest x-ray). Additional vaccines and titers may be required.

Health Insurance

Health insurance is mandatory and students must demonstrate proof of insurance at registration. Students have the option of purchasing the group plan offered by the Medical School, which can be purchased at registration.

Disability Insurance is mandatory and can be purchased at registration.

Criminal Background Check: All accepted applicants to the medical school will be required to complete a criminal background check through AMCAS and Certiphi, the selected vendor for criminal background checks.

Transcripts

Transcripts of all university-level work must be on file in the Registrar's Office for each medical student, including the degree statement from the university from which the student obtained his/her degree.

COLLEGE OF NURSING

Interim Dean: Ramona Benkert

The Wayne State University College of Nursing is regionally, nationally, and internationally recognized for educating graduate and undergraduate students as practitioners and scholars in the nursing profession. The College is committed to research and scholarly activity which contributes to the discipline of nursing and excels in the development, application, and dissemination of such knowledge to promote human health and well-being.

Nursing is an academic discipline and a profession. As a discipline, nursing develops knowledge concerning human beings, their care, health, and the environment. Concepts derived from such research order the discipline and profession of nursing as well as give identity to nursing practice and direct inquiry and theory development. As a profession, nursing creatively uses knowledge in response to the health care needs of society. Both of these functions are enhanced by the scholarly environment of the University and its multicultural urban setting as a context for professional nursing practice.

Consistent with this view of the nursing profession, the College supports the importance of the liberal arts, humanities, and the sciences in nursing education. The faculty believes that programs designed for the preparation of nurses must be composed of the intellectual, social, cultural, and technical components of liberal and professional education that are available to students within an institution of higher learning. The faculty also affirms the necessity and value of clinical practice within a professional nursing program. Experience within a variety of clinical and vulnerable populations is one of the primary modes for the development of nursing practice competencies.

Learners from diverse backgrounds enter the College to begin or continue their education and thereby add to the richness of this learning environment. The faculty supports the right of students to question, challenge and debate within the context of inquiry as an essential ingredient to their development. Continuing evaluation on the part of the students and the faculty is essential to advancing nursing knowledge and sustaining the integrity of the program.

The faculty of the College of Nursing, as members of the academic community, recognizes that its professional functions extend beyond contributions to formal teaching. Research, practice, and community service are important expectations of the faculty. The faculty views as essential, academic freedom, shared governance, opportunity to develop knowledge, and responsibility to incorporate new knowledge into teaching and nursing practice. The faculty assumes responsibility for enhancing the image of the College of Nursing and the University locally, nationally, and internationally through various avenues including research, scholarship, practice, consultation, and participatory decision making.

Accreditation

The baccalaureate program is approved by the Michigan State Board of Nursing, and graduates are admitted to the licensing examination for professional nurses in the State of Michigan. The baccalaureate, master's and doctorate in nursing practice programs of the College are accredited by the Commission for Collegiate Nursing Education (CCNE).

Academic Regulations

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations

(p. 17) section of this bulletin. The following additions and amendments pertain to College of Nursing students.

Academic Regulations Terminology

1. *Professional course* is any course required in the professional nursing curriculum.
2. *Satisfactory grade* is a grade of C (2.0) or better.
3. *Unsatisfactory grade* is a grade below 2.0, or a mark of X or an unauthorized mark of WP or WF.
4. *Probation* is a restricted status in the nursing program.
5. *Exclusion* from the program means that the student may not register in the program. (Continued registration in the University will necessitate that the student processes a Change of College to another academic program.)

Attendance

Regular punctual attendance in classes and clinical practice is expected. It is imperative that students maintain a perfect or near-perfect attendance record. Tardiness and/or failure to report to class can result in a lowering of the final course grade or exclusion from the course.

First Day of Class: Due to the nature of clinical courses and time requirements, first day class attendance is MANDATORY. Unexcused absences from the first day of any course may result in an administrative withdrawal for the student for that class and could delay progression in the program. If a student is removed from a class for non-attendance, clinical space in the subsequent class offering is not guaranteed.

Travel Requirements: It is the responsibility of the student to make all travel arrangements necessary to complete degree requirements. This includes travel arrangements required to reach all clinical agencies.

Examinations

Final Examinations for courses are offered on two occasions only; the day the University sets as the final examination date, and usually the Wednesday immediately following this date. The College will make no other arrangements for final examinations. If students miss both examination opportunities due to circumstances covered by one of the Special Circumstances (see below), they will receive an incomplete (I) grade for the course. They will have twelve months to convert the "I" grade into a passing grade (A to C). If the course is a clinical, the College will make every effort to enable the student to take the next offering of the course, subject to availability. However, the College makes no guarantees when a place will become available.

Other Examinations or Assessments (e.g., Midterms): The regulations for other examinations will be specified in the course syllabus. However, the regulations for notifying the College of missing an examination and the need to fulfill the Special Circumstances Rule (see below) to take a make-up examination will still apply.

Online Learning Assessments: The College of Nursing uses an educational software package that is integrated into the Nursing curriculum. It consists of tutorials, reviews, and assessments that will be included in certain courses. In the event that required assessments are not completed as required in the syllabi, students will receive an incomplete "I" grade for that assignment/course unless stated otherwise in the course syllabus. Students will have twelve months to convert the I grade into a passing grade (A to C). While carrying an I grade students will not be permitted to progress in their studies.

Missing an Examination: It is the students' responsibility to contact his/her instructor of record prior to the examination date to discuss arrangements for the missed examination.

Special Circumstance Rules: The following are examples of events that qualify as a Special Circumstance for the purposes of missing examinations as well as the documentation (when appropriate) expected of students claiming these circumstances:

- Illness on the day of the examination or receiving health treatment: Provider note
- Death in the immediate family: Death Certificate
- Jury Duty or Court Summons: Jury duty notification or Court notice of summons
- Incarceration: Court notice
- Military Service: Service notice
- Natural Disasters

In the event that a student finds him/herself in any of these circumstances he/she must call 313-577-0130 and inform the College. Such students must supply the appropriate documentation as evidence of their need to sit for the make-up examination. Documents must be presented to faculty within forty-eight hours of missing the examination.

Time Limitation

The Traditional Program (including B.S.N. Direct Admit for Freshmen students) is ideally completed within three calendar years of admission to professional course work, unless an extension is granted by the Scholastic Policy and Admissions (SPA) Committee.

The Second Career/Second Degree Program (including B.S.N. for Veterans students) is ideally completed within five consecutive semesters following admission to the program unless an extension is granted by the Scholastic Policy and Admissions (SPA) Committee.

All students whose progress is delayed by reason of academic failure and/or leaves of absence beyond the time limitation for the program may be required to repeat and/or take additional course work in order to assure graduation with appropriate preparation for current professional nursing practice. Such determination will be made by the Scholastic Policy and Admissions (SPA) Committee.

Authorized Leave of Absence

A leave of absence may be requested by a student when personal circumstances interfere with the student's ability to devote sufficient time to academic pursuits to assure reasonable expectation of success. Leaves of absence are requested from and granted by the Associate Dean for Academic and Clinical Affairs, in consultation with the Scholastic Policy and Admissions Committee. The student should contact the Office of Student Affairs for the necessary materials and deadline dates regarding leaves of absence. A leave of absence is granted to students in good academic standing only. A student who is granted an approved leave of absence may return only if there is available space in the program. A student who takes an unauthorized leave of absence will be considered to have voluntarily withdrawn from the program and must apply for readmission to the College.

Licensure Preparation

All students entering the undergraduate program in Fall 2002 and thereafter (who are not already RNs) are required to complete nationally normed tests throughout their undergraduate program of study. Individual course syllabi will indicate how this requirement is applied and what part of the course grade will be assigned to these tests. Successful

completion of these course requirements is integral to successfully passing the courses.

A satisfactory score is dictated by the comprehensive exam used and will be identified prior to the beginning of the semester in which the exam takes place. Each graduating student (who is not already a licensed RN) must also complete an approved NCLEX Review course in preparation for the NCLEX licensure examination as part of the program requirements. Students who achieve a score of **900** or better on the first HESI Comprehensive Exit Exam are exempt from the required NCLEX Review course although they may elect to participate in this review. The responsibility for the cost for the NCLEX Review course is that of the individual student. All program requirements must be met before a student can be certified as completing their degree requirements with the State of Michigan Licensing Board.

Students are allowed four attempts at successfully achieving a passing score on the HESI Exit Exam. The costs associated with the first two attempts are included in the students' fees and there is no additional charge. However, if a third or fourth exam is required, any and all costs associated with the third exam are the student's responsibility. Students will receive a grade of "Incomplete" until the 4th attempt has been scheduled and completed. If the student still fails to achieve a score of 900 on the HESI Exit exam, the student will receive a grade of "C" in NUR 4060 and counseled by the ASO as to the possible implications of the score on successful completion of the NCLEX exam. If the student still fails to achieve a score of 900 on the HESI Exit exam, the student will receive a grade of "C" in NUR 4060 and counseled as to the possible implications of the score on successful completion of the NCLEX exam. All program requirements must be met before a student can be certified as completing their degree requirements with the State of Michigan Licensing Board.

In order to begin a professional nursing career, successful writing of the National Council Licensure Examination for Registered Nurses (NCLEX-RN) is required. The NCLEX-RN is administered by state boards of nursing as part of the process used to determine whether registered nurse candidates meet licensure requirements. The examination is developed by the National Council of State Boards of Nursing to measure a candidate's ability to practice safely and effectively as a registered nurse in an entry-level position. It is designed to test the practical application of knowledge and skills in health care situations that occur frequently in entry-level nursing practice.

Graduates must satisfactorily complete the licensing examination before practicing as professional registered nurses (RNs).

Scholarship

1. All students must maintain a satisfactory (2.0) grade point average (g.p.a.) in both:
 - a. Cumulative grades (general education and nursing); and
 - b. Professional nursing courses.
2. Students must achieve a 2.0 g.p.a. in each nursing course. A student may not continue in subsequent courses for which the failed course is a prerequisite until a minimum of 2.0 has been achieved.
3. A grade below C (2.0) in a nursing course is unsatisfactory for progression.
4. Students may apply to repeat a nursing course, as space is available. The course may, only be repeated one time to raise the grade to the 2.0 g.p.a. level or above.
5. A maximum of one nursing course within the program may be repeated.

- No nursing course for which a student has received a passing grade may be repeated without written approval of the Associate Dean for Academic and Clinical Affairs.
- A student receiving a C-minus (1.67 g.p.a.) grade or less in either the theory or the clinical portion of any nursing course will have recorded no higher than a C-minus for the total course and will be required to successfully complete the re-entry process to repeat it before progressing to the next clinical course.
- The mark of "I" is appropriate if the student encounters a catastrophic situation which prevents completion of the final requirements of a course. The mark of I is not appropriate for unsatisfactory scholastic performance. In the event a mark of 'I' is given, the time limit for completion will be determined by the instructor, but may not exceed one year. In the event the mark of "I" is received for a prerequisite course, the 'I' must be removed prior to enrollment in the subsequent course. After one year, if the incomplete is not completed the grade will automatically change to an F (failure) and will be treated as a failing grade.

Probation

Probationary status is a warning to a student to improve his/her academic performance in order to remain in the program.

- A student is placed on probation if he/she does not maintain a minimum cumulative grade point average of 2.0.
- A student is placed on probation if he/she does not maintain a minimum grade point average of 2.0 in professional nursing courses.
- A grade point average must be returned to a minimum of 2.0 to remove probationary status. Probationary status must be removed within one calendar year.
- Students on probation are not eligible to represent the College in any student activity.

Exclusion

A student will be excluded from the College if any of the following conditions occur:

- Failure to satisfactorily complete a nursing course after **two** attempts;
- Failure of more than one professional nursing course;
- Failure to remove probationary status within one calendar year;
- Irresponsible attendance or irresponsible performance/behavior at any time while enrolled in the program;
- Failure to meet any special conditions required by the College Scholastic Policy and Admissions Committee for the student's continuation in the program;
- Failure to complete the program within the time limitations outlined above, unless granted an extension by the Scholastic Policy and Admissions Committee.
- Unsafe practice and/or unethical conduct as defined in the BSN student handbook.

Grade Appeals Policy

Basic Principles

Assistance. Student/faculty may contact the College of Nursing, Assistant Dean, Enrollment and Student Services and/or the Wayne State University Ombudsperson at any time for assistance with any problem associated with a grade decision or grade appeal.

Timeliness of appeals process. Failure of the instructor or any appeal officer to respond within the designated time frame of the formal appeal entitles the student to proceed to the next level of appeal. In no case

should there be any assumption that a failure to respond at any level signifies a granting of the appeal. Failure of the student to adhere to the time-frames specified in the policy will result in the appeal process being nullified (the appeal will not be heard).

Process. All steps of the formal grade appeal must be done in written format; no email correspondence is acceptable. Information submitted should be time stamped and dated as it is received.

Academic dishonesty. These policy guidelines do not apply to allegations of academic dishonesty. Academic dishonesty matters are addressed under the Student Code of Conduct.

Patient safety. Students may be removed from a clinical course at any time in which the faculty or clinical agency staff identifies an issue that would constitute unsafe practice in the clinical setting that may jeopardize patient safety.

Note that "days" are counted as Monday through Friday, excluding University holidays.

Appeal of Grade

What can be appealed:

Only the manner in which the grade was assigned can be appealed.

Instructors are expected to evaluate student work according to sound academic standards. It is the instructor's prerogative to assign grades in accordance with his/her academic/professional judgment. If the student believes the manner in which the grade was assigned was done in an unfair manner and the student is able to demonstrate that the unfair manner is based on one of the three criteria stated below, then the student may file an appeal pursuant to the process set forth below. The student assumes the burden of proof in the appeals process.

Grounds for appeals are:

- The application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
- Sexual harassment or discrimination; or
- Evaluation of student work by criteria not directly reflective of performance relative to course requirements.

Grade Appeal Process

Prior to implementing the formal appeal process, the student must discuss in person the disputed grade with the instructor of the course within ten days of notification of the grade. The faculty member will respond in writing with a copy to the student and the Assistant Dean, Enrollment and Student Services. If the dispute remains unresolved, the student may then initiate a formal appeal.

All steps of the appeal process must be followed within the stated time frame or the appeal process is nullified (will not be heard).

Steps to Initiate a Formal Appeal

- The student must submit a written statement detailing his or her objections to the faculty response, along with supporting documentation, to the Associate Dean of Academic & Clinical Affairs with copy to the Assistant Dean for Enrollment and Student Services. This statement must be submitted within 30 days following the response of the faculty member who assigned the grade.
- Upon review of the documentation, the Associate Dean of Academic & Clinical Affairs will notify the student in writing within 21 days of receiving the student's written appeal of the decision. As the Dean's

designee, the decision of the Associate Dean of Academic & Clinical Affairs shall be the final decision at the College level.

3. **Provost Review.** If after your School/College appeal path is exhausted and you wish to continue with the grade appeal process, per the University Academic policy, you may request a Provost Review within 30 days of this decision. The request should be submitted via the online form located at <https://provost.wayne.edu/academic-policy> (<https://provost.wayne.edu/academic-policy/>). For assistance with the appeal process, you may contact the Ombudsperson Laura Birnie-Lindemann at ombudsoffice@wayne.edu.

If, after your School/College appeal path is exhausted and you wish to continue with the grade appeal process, per the University Academic policy, you may request a Provost Review within 30 days of this decision. The request should be submitted via the online form located at <https://provost.wayne.edu/academic-policy> (<https://provost.wayne.edu/academic-policy/>). For assistance with the appeal process, you may contact the Ombudsperson Laura Birnie-Lindemann at ombudsoffice@wayne.edu.

Graduation Residency Requirement

The last thirty semester credits of the degree must be taken in residence at Wayne State University.

Graduation with Distinction

A candidate eligible for the bachelor's degree may receive a special diploma with *Cum Laude*, *Magna Cum Laude*, or *Summa Cum Laude* indicated. For the University guidelines regarding these distinctions, see Graduation with Distinction.

Dean's List and Honors List

Students completing twelve semester credits in study at Wayne State University are eligible for appointment to academic recognition lists each semester. The semester grade point average at Wayne State must be 3.75 or above in order to qualify for the Dean's List, or a 4.0 g.p.a. for students registered for six to eleven credits. The Honors List requires a minimum grade point average of 3.50. Lists of students on the Dean's List and Honors List will be posted in the College of Nursing. Students who receive marks of I or W or X and grades of N or U are not eligible. (For explanation of grades and marks, see Grading System, University (p. 64).)

Student Rights and Responsibilities

Continuance in the College is contingent upon compliance with official rules, regulations, requirements, and procedures of the University and the College of Nursing. *The student is responsible for reading the contents of this bulletin pertinent to the College of Nursing and otherwise becoming informed and fulfilling all course and degree requirements in proper sequence with satisfactory scholarship.* In case of doubt regarding any matter affecting his or her standing as a student, the student should consult with a College of Nursing advisor. The faculty reserves the right to amend or revise the policies and requirements set forth in the College of Nursing section of this bulletin.

A student may be required to withdraw from the College when, in the judgment of the faculty, behavior demonstrates that the student is unsuited for nursing, for unsafe practice, and/or for unethical conduct in the program without having been previously warned. (See also Exclusion, above.)

Nursing (B.S.N.)

The undergraduate nursing program is designed to prepare students who, upon graduation, will begin the practice of professional nursing. The program leads to the degree of Bachelor of Science in Nursing (B.S.N.)

and provides a basis for graduate study in this discipline. The curriculum consists of courses in both general and professional education and is offered with different options oriented to the varying admissions qualifications of the applicants:

- B.S.N. Direct admit for Freshmen (small cohort)
- Traditional, Second Career/Second Degree (including B.S.N. for Veterans)
- RN-B.S.N.
- RN-M.S.N. options (currently in moratorium)

Admission: B.S.N. Programs

All applications are reviewed to determine the capability of applicants to complete a Bachelor of Science in Nursing. Admission is highly competitive and is based primarily on academic performance. Prerequisite repeats are taken into account and can make an applicant ineligible to be considered for admission. Transcripts are also reviewed for full-time scholarly achievement and promise of success in this rigorous science-based curriculum. Prerequisite courses for the WSU College of Nursing Traditional BSN and BSN Second Career/Degree pathways must be completed within seven years of the application deadline in order to count toward admission.

Nursing: B.S.N. Direct Admit for Freshmen

Freshman Admission

Students in this category are presumed to be entering professional nursing for the first time. They are admitted through the Office of Undergraduate Admissions (p. 23) and complete general education/pre-professional courses offered through the College of Liberal Arts and Sciences. The students also complete a holistic admission process through the College of Nursing. The holistic admission process includes not only a critical evaluation of these same metrics, but also includes a requirement for community service, and an essay submitted by the applicant detailing any personal attributes and experiences that the applicant feels would support their admission to the CON. The entire application packet is evaluated by an admission committee composed of faculty from the Undergraduate program. If admitted into the pathway, one prerequisite course can be taken at a community college.

Nursing: B.S.N. Second Career/Second Degree Program Admission

Applicants in this category are eligible to apply for entry into Second Career/Second Degree Bachelor of Science in Nursing Program if they have completed a bachelor's degree in an area other than nursing and have completed the prerequisites (see below). Applicants must have completed all prerequisite courses with a grade of 'C' or better and candidates must have a minimum 3.0 grade point average in prerequisite courses to be eligible for consideration. A grade of 2.0 or higher in the science prerequisites is also required. The students also complete a holistic admission process through the College of Nursing. (Note: course prerequisites must be completed at time of application). The holistic admission process includes a critical evaluation of these same metrics as well as letters of recommendation, a requirement for community service and the submission of an essay detailing any personal attributes and experiences that the applicant feels would support their admission to the College of Nursing. The entire application packet is evaluated by an admission committee composed of faculty from the Undergraduate program. Admission to the program is highly competitive; completion of prerequisites with minimum requirements does not guarantee admission.

Prerequisites (Second Career/Second Degree Program)

The following are prerequisite requirements for admission consideration to the Second Career/Second Degree Program in the College of Nursing. If a second degree student is interested in pursuing the Traditional (three-

year) program rather than the Second Degree Program, the student must complete the prerequisites for the Traditional BSN program.

Code	Title	Credits
BIO 1510	Basic Life Mechanisms ¹	4
BIO 2200	Introductory Microbiology ¹	5
BIO 2870	Anatomy and Physiology ¹	5
CHM 1020	Survey of General Chemistry ¹	4
NFS 2030	Nutrition and Health	3
NUR 2030	Pathophysiology Related to Nursing Practice (or equivalent, must be taken at a four year institution)	3
PSY 2410	Health Psychology	4
or PSY 2400	Developmental Psychology	
Sociology Course (except Statistics)		
Cultural Inquiry (CI): Visual & Performing Arts or Philosophy & Letters course		

¹ Must have a lab component

RN-B.S.N. Program

The RN-B.S.N. program is geared toward Michigan-licensed registered nurses (RNs) who have completed an associate degree program or a diploma program and wish to continue their professional education. Progression into senior year clinical nursing courses is granted after completion of all prerequisite requirements. For requirements for this curriculum, see Nursing: RN to B.S.N. Completion Program (<https://nursing.wayne.edu/rn-bsn/>).

The RN to BSN pathway does not have course prerequisites; however, the following courses/requirements must be completed prior to graduation from WSU. These courses may have been completed within the associate degree.

Code	Title	Credits
CHM 1020	Survey of General Chemistry ¹	4
PSY 2410	Health Psychology	4
or PSY 2400	Developmental Psychology	

Six (6) Elective Credits

Application to B.S.N. Programs

Application to the Bachelor of Science in Nursing programs is a dual application process.

Step I - Application to Wayne State University: If the applicant is not already a Wayne State University student, he/she should submit an application prior to the stated deadline to the Office of Undergraduate Admissions and submit all required documentation and materials (including transcripts from all post-secondary institutions attended). All final transcripts for prerequisites completed during the winter semester must be submitted by June 1. Applicants must meet all the general requirements for undergraduate admission (p. 23) to the University.

Step II - Application to the College of Nursing: Applicants must submit to the College of Nursing Office of Student Affairs the on-line Application for Admission to the Bachelor of Science in Nursing Program. Applications must be submitted by the deadline. Freshman applicants will need to review the College of Nursing website for instructions. Official copies of all transcripts from all high school and post-secondary institutions attended, and any other required documentation (test scores, etc.) must be received in the Office of Student Affairs by June 1, not postmarked by that date.

Application Fees: All Traditional Bachelor of Science in Nursing and Second Career/Second Degree Bachelor of Science in Nursing applicants must submit a \$50.00 non-refundable application fee. The application fee is due at the time of application.

Application Deadlines: All admission materials listed above must be received in the appropriate offices by the program application deadline.

For students enrolled in prerequisite coursework during the admission process, evidence of completion of all prerequisites must be received by the College of Nursing Office of Student Affairs no later than June 1.

Non-native English-speaking candidates must submit Internet-Based Test of English as a Foreign Language (TOEFL) scores to the College of Nursing; a minimum total score of 101 is required, with minimum scores of 25 in listening, 25 in reading, 25 in writing and 26 in speaking.

Readmission

Nursing students whose attendance in the nursing clinical sequence of the undergraduate curriculum has been interrupted for more than one academic year must request reinstatement to the College of Nursing. Contact the College of Nursing Office of Student Affairs for application materials and deadline dates. There is no assurance that a student can be reinstated once the student withdraws from the program or does not progress in the program within the specified time limitations.

Enrollment in Professional Nursing Courses

1. Admission to the College of Nursing and successful completion of all prerequisites/corequisites identified for nursing courses.
2. Health Clearance

Students admitted to the College are required to have a valid clinical permit. The health clearance must indicate that the student is in good health, free from communicable disease, and able to engage in a rigorous professional program with extensive clinical experiences. Health requirements are specified on the clearance form; some must be repeated yearly. Verification of compliance must be supplied annually to CastleBranch Immunization Tracker prior to deadline.

Throughout the program students must maintain a level of health consistent with meeting the objectives of the curriculum and practicing nursing safely. If a health problem occurs during a student's educational program, the faculty member responsible for clinical practice will assess the student's ability to continue in the program and will make recommendations for action to the Associate Dean for Academic and Clinical Affairs. The University and the College reserve the right to refuse or cancel a student's admission or to restrict his/ her activities in the College if the health status indicates such action is warranted for safeguarding the patient, the student, other students, or the University.

3. Liability Insurance

The minimum amount of malpractice liability insurance acceptable is \$1,000,000/\$3,000,000 to cover each year of the student's nursing studies. Students must present a copy of their insurance policy from an approved insurer to the Office of Student Affairs by the stated deadline. This copy must show the amount of coverage, the expiration date, and the student's name. Students may not participate in clinical courses without a copy of this policy being on file.

4. BLS (Basic Life Support) for Health Care Providers Certification

All students must have BLS for Health Care Providers (BLS-HCP) Certification or the equivalent for entry to clinical courses. It must be updated each year and students must have current, updated

certification on file with CastleBranch Immunization Tracker by the deadline.

5. Criminal Background and Drug Testing History

Students admitted to the College of Nursing are required to have a Criminal Background Investigation and a ten panel drug test completed prior to beginning nursing courses. The urine drug screen must be completed by the Campus Health Center. The Criminal Background Investigation is intended to discover if the applicant has had a felony conviction in the fifteen years prior to application, or a conviction of a misdemeanor involving abuse, neglect, assault, battery, or criminal sexual conduct in the ten years prior to application. Conviction of either the felony or certain types of misdemeanor violations, as outlined, prohibits the student from participation in clinical courses.

6. Alliance for Clinical Education (ACE)

All undergraduate students are required to participate in the Michigan Health Council ACE program for clinical education and placement. Health status reports, liability insurance, BLS (Basic Life Support), criminal background checks and drug screens are tracked through the ACE and provided to participating clinical institutions. As part of the ACE program, students complete mandatory HIPPA, OSHA and blood-borne pathogen training.

Faculty are directed to deny students access to clinical experiences if the student has not met clinical clearance requirements.

Re-Entry into the Clinical Sequence of the Nursing Curriculum

Students whose progression in the clinical sequence of the program is interrupted due to unsatisfactory completion of prerequisite course work in a clinical course or to interruption in attendance in the program, must apply for re-entry into the clinical sequence. Contact the College of Nursing Office of Student Affairs for re-entry application materials. Students must file this application prior to August 1 for Fall Term re-entry, or December 1 for Winter Term re-entry. Re-entry decisions are based on the student's academic record in the program. Consideration is given to grades in prerequisite and nursing courses, length of time absent from the program, and potential for successful completion of the program. Re-entry into the clinical sequence and into the program option (traditional or second career/second degree) in which the student was previously enrolled is not guaranteed.

Registration for Classes

All students are required to register for required classes prior to attending classes. Registration procedures and schedules published in the official University Schedule of Classes (<http://www.classschedule.wayne.edu>). The usual full-time undergraduate program is 12-17 credits per term.

Clinical location assignments are created through the Office of Student Affairs and the Alliance of Clinical Education. Students are notified of assignments prior to registration.

Candidates for the Bachelor of Science in Nursing degree must complete the minimum 120 semester credits in course work including satisfaction of the University General Education Requirements (p. 29) and in accordance with the academic procedures of the University (p. 17) and the College (p. 354).

Residency: The last thirty credits of the degree must be taken at Wayne State University.

Grade Point Average: Students must maintain a grade point average (g.p.a.) of at least 2.0 in total residence credit and in all nursing courses.

Curriculum and Program Requirements: A student must complete all curriculum and program requirements, remove any marks of 'I' or 'Y', and be recommended by the faculty for the B.S.N. degree. Student must complete the required minimum number of credits, elect courses in the proper sequence in the appropriate curriculum (as shown below), and satisfy all course prerequisites or corequisites.

Professional and General Education Requirements for the Traditional B.S.N. Program

The following curriculum outlines the minimum of 120 semester credits required for the Bachelor of Science in Nursing, including 68 credits in nursing major courses.

First Year		Credits
Fall Semester		
BIO 1510	Basic Life Mechanisms	4
CHM 1020	Survey of General Chemistry	4
PSY 1020 or PSY 1010	Elements of Psychology or Introductory Psychology	3
Quantitative Experience (QE)		3
		Credits 14
Winter Semester		
BIO 2870	Anatomy and Physiology	5
ENG 1020	Introductory College Writing	3
PSY 2410 or PSY 2400	Health Psychology or Developr Psycholc	4
NFS 2030	Nutrition and Health	3
		Credits 15
Second Year		
Fall Semester		
NUR 2010	Health Assessment: History Taking and Physical Examination	3
NUR 2030	Pathophysio Related to Nursing Practice	3
NUR 2060	Nursing Implications of Drug Administration	3
ENG 3010	Intermediate Writing	3
		Credits 12

Winter Semester

NUR 2050	Supportive Measures for Basic Care Needs	5
NUR 2995	Foundations of Professional Nursing	3
NUR 3405	Introduction to Nursing Research and Evidence-Based Practice	3
BIO 2200	Introductory Microbiology	5
Credits		16

Third Year**Fall Semester**

NUR 3010	Restorative Care of Adults and Elders with Acute Illness	5
NUR 3015	Restorative Care: Psychiatric Mental Health Nursing Across the Lifespan	5
NUR 4300	Nursing Informatics	3
Cultural Inquiry		3
Social Inquiry (SI)		3
Credits		19

Winter Semester

NUR 3020	Restorative Care of Adults and Elders with Chronic Illness	5
NUR 4010	Integrative Care of Children and Their Families	5
NUR 4800	Transcultural Health Through the Life Cycle	3
Diversity, Equity and Inclusion (DEI)		3
Credits		16

Fourth Year**Fall Semester**

NUR 4020	Integrative Care of the Perinatal Family	5
NUR 4040	Leadership and Management in Nursing Practice	4
Oral Communication (OC)		3
Civic Literacy (Civ)		3
Credits		15

Winter Semester

NUR 4050	Theory of Caring for Complex, Critically Ill Patients	3
NUR 4060	Synthesis of Core Nursing Knowledge	5
NUR 4120	Community Focused Nursing Practice	5
Credits		13
Total Credits		120

Professional Requirements for the Second Career/Second Degree B.S.N. Program

In addition to the pre-nursing requirements for the Second Career/Second Degree Program (see Nursing: B.S.N. Second Career/Second Degree Program Admission) the following professional educational courses are required, in addition to a minimum of sixty-five credits in prior baccalaureate and pre-nursing requirements:

Code	Title	Credits
First Semester (Spring/Summer)		
NUR 2010	Health Assessment: History Taking and Physical Examination	3
NUR 2060	Nursing Implications of Drug Administration	3
NUR 4300	Nursing Informatics	3
Second Semester (Fall)		
NUR 2050	Supportive Measures for Basic Care Needs	5
NUR 2995	Foundations of Professional Nursing	3
NUR 3405	Introduction to Nursing Research and Evidence-Based Practice	3
NUR 4800	Transcultural Health Through the Life Cycle	3
Third Semester (Winter)		
NUR 3010	Restorative Care of Adults and Elders with Acute Illness	5
NUR 3015	Restorative Care: Psychiatric Mental Health Nursing Across the Lifespan	5
NUR 4020	Integrative Care of the Perinatal Family	5
Fourth Semester (Spring/Summer)		
NUR 3020	Restorative Care of Adults and Elders with Chronic Illness	5
NUR 4010	Integrative Care of Children and Their Families	5
NUR 4040	Leadership and Management in Nursing Practice	4
Fifth Semester (Fall)		
NUR 4050	Theory of Caring for Complex, Critically Ill Patients	3
NUR 4060	Synthesis of Core Nursing Knowledge	5
NUR 4120	Community Focused Nursing Practice	5
Total Credits		65

Nursing: RN to B.S.N. Completion Program

Requirements: All students must achieve a grade of C or better in all courses cited below. A cumulative grade point average of 2.00 or above

must be maintained. These courses may not be taken for Passed-Not Passed grades.

Admission to Senior Standing: All RN students must file an Application for Admission to Senior Standing by the appropriate deadline. Upon admission to Senior Standing, RN students will receive thirty three credits for having successfully passed NCLEX examination validated by a current license to practice in the State of Michigan.

Completion of the following courses (or equivalents) is required for admission to Senior Standing.

Code	Title	Credits
BIO 1510	Basic Life Mechanisms (Laboratory)	4
BIO 2200	Introductory Microbiology (Laboratory)	5
BIO 2870	Anatomy and Physiology (Laboratory)	5
CHM 1020	Survey of General Chemistry (Laboratory)	4
ENG 1020	Introductory College Writing	3
PSY 1010	Introductory Psychology	4
PSY 2400	Developmental Psychology	4
SOC 1010	Understanding Human Society	3
or ANT 1100	Introduction to Anthropology	

RN to B.S.N. Program: Senior Level Professional and General Education Requirements

In addition to the prerequisites for admission to Senior Standing listed above, the following upper-level professional nursing courses are required. The remaining General Education Requirements and liberal arts credits comprise the balance of the minimum 120 credits required for the Bachelor of Science in Nursing; these courses may be taken prior to the upper-level professional work. The balance of general education courses (taken at Wayne State University or a community college) equals 58 credits of course work. At least thirty-four credits in course work, which includes the 30 credits listed below, must be taken at Wayne State University.

First Year		
Fall Semester		
		Credits
NUR 2070	Professional Nursing in the Future: Strategies for Health Promotion	3
NUR 3405	Introduction to Nursing Research and Evidence-Based Practice	3
		Credits 6

Nursing: B.S.N. Honors Program

The College of Nursing Honors program offers a challenging and rewarding opportunity for students to further pursue their interests in the field of nursing. The Honors program is open to all students seeking their Bachelors of Science in Nursing and requires that students graduate with a GPA of 3.5. Completion of the honors program requirements results in an honors degree designation on the diploma. Interested students should contact their Academic Services Officer in the Office of Student Affairs.

Departmental Honors Requirements

In addition to the stated requirements for a Bachelor's of Science in Nursing, to earn Departmental Honors, students must complete the Honors Assignments associated with the Honors 1, 2, and 3 courses as outlined in the NURH Guidelines. In fulfilling these requirements, they *must* also complete an HON 42XX course that will count towards their accumulation of 12 Honors hours. While honors students must accumulate a minimum of at least 12 credits of Honors courses, nursing students typically accumulate 12-19 honors credits.

EUGENE APPLEBAUM COLLEGE OF PHARMACY AND HEALTH SCIENCES

Interim Dean: Catherine Lysack

In 1890, the Detroit College of Pharmacy was founded as a program in the Detroit Medical College, the forerunner of the Wayne State University School of Medicine. The Detroit College of Pharmacy later separated from its parent institution, operated independently for two years, and in 1907, affiliated with the Detroit Institute of Technology. In response to the urging of Detroit area pharmacists another program was developed from the six-year course in pharmacy established at Cass Technical High School into a new College of Pharmacy organized by the Detroit Board of Education in 1924. This College of Pharmacy and the Detroit Board of Education's Colleges of Medicine, Education, Liberal Arts, Engineering and Graduate School were united in 1933 into a university called the College of the City of Detroit and named Wayne University in 1934. In 1957, one year after Wayne University became Wayne State University, the College of Pharmacy at the Detroit Institute of Technology joined the College of Pharmacy at Wayne by merging into Wayne State University's system of schools and colleges.

In 1974, Pharmacy merged with the Division of Allied Health to form a college devoted to educating the modern health care team. Mortuary Science, which was started as a unit of the School of Business Administration in 1943, evolved into a separate department and eventually became part of the College of Pharmacy and Allied Health Professions in 1985. In 2002 the College changed its name to the Eugene Applebaum College of Pharmacy and Health Sciences to recognize the contributions of Eugene Applebaum, a 1960 alumnus of the college's pharmacy program, and occupied the new facility which opened in 2002. In 2003 the College reorganized from nine departments to the four departments that exist today.

The College occupies a state-of-the-art facility, located on the campus of the Detroit Medical Center, one of the Midwest's leading centers for healthcare, research, and education. The Center boasts a high concentration of health professionals including the faculty and students of the Wayne State University School of Medicine, one of the nation's largest medical schools. The Eugene Applebaum College of Pharmacy and Health Sciences is designed to provide students with the latest tools to prepare them for health careers in the new economy.

Mission and Vision

The College mission is to advance the health and well-being of society through the preparation of highly-skilled health care practitioners, and through research to discover, evaluate, and implement new knowledge to improve models of practice and methods of treatment in pharmacy and health sciences in ways of both local and global relevance.

Our vision is to serve as a preeminent model for learning, scholarship, and engagement impacting health, safety, and well-being worldwide through leadership, innovation, and the interconnectedness of our disciplines.

The College offers a variety of undergraduate, graduate-professional, and graduate programs designed to provide advanced-level professional training, basic research, and scholarly activities in the various health science fields. Detailed information on each program may be found in the Departmental sections.

College Organization

The Eugene Applebaum College of Pharmacy and Health Sciences is organized into four academic departments: Applied Health Sciences; Health Care Sciences; Pharmacy Practice; and Pharmaceutical Sciences. Academic programs exist within each department as follows:

Department of Applied Health Sciences

Clinical Laboratory Science

Students in clinical laboratory science learn the scientific principles and theories behind many laboratory tests performed to aid in the diagnosis of disease. During the latter part of the curriculum students become proficient in the performance of these tests and familiar with practical aspects of the clinical laboratory. This work is indispensable to effective patient care because results of laboratory analysis often establish a basis for diagnosis which must be made before treatment can be instituted.

Forensic Investigation

This is a post-bachelor's certificate program designed for students who have obtained a degree in another discipline from an accredited college or university who wish to acquire competence in the area of forensic investigation. The program is not designed to train forensic investigators; rather, its aim is to educate personnel whose professional scope and practice interface with the criminal justice system.

Mortuary Science

The program in mortuary science prepares students for a career in funeral service. The curriculum provides the study of the fundamentals of applied biological and physical sciences as background for understanding techniques and procedures applicable to the preparation and disposition of human bodies and to public health and safety measures. Other areas of study include a thorough understanding of the theory and a proficiency in the practice of the technical skills pertinent to funeral service and the instillation of high standards of ethical conduct required to foster and uphold the dignity of funeral service.

Pathologists' Assistant

The pathologists' assistant program trains personnel to assist the pathologist in the performance of postmortem examinations and in the preparation of surgical specimens for study. Additional training prepares the student to take responsibility for tasks designated by a supervising pathologist such as budgetary, superintendence, and teaching duties.

Department of Health Care Sciences

Nurse Anesthesia

The nurse anesthetist is a specialist with extensive education and training in Nurse Anesthesia leading to a Master of Science degree in Anesthesia. Graduates must take and pass a national certification examination to be granted a specialty license and title of Certified Registered Nurse Anesthetist (CRNA) and are re certified every two years. CRNAs are qualified to provide all types of anesthesia services to adults, children, and infants for any type of surgical interventions. They are employed in major teaching, and tertiary care institutions, trauma, community, and rural hospitals. CRNAs also function as a key member on the cardiopulmonary resuscitation team and are responsible for care of patients in respiratory distress to establish and secure a patent airway. This program is offered only at the graduate level and students should consult the Graduate Bulletin.

Occupational Therapy

The occupational therapy program prepares the student to assume clinician, researcher, educator, and consultative roles that assist individuals who are limited in the ability to perform tasks required in normal routines of daily living: self-care, work, and play/leisure. The entry level Master's Degree in Occupational Therapy incorporates undergraduate and graduate education. Students learn theoretical

concepts and their application related to the restoration, development, and maintenance of physical, psychological, social, emotional, and cognitive functions. The theory-based curriculum includes instruction in the use of specific evaluative procedures; the application of a wide variety of activities related to daily living tasks, including creative and manual skills; and the procedures for functioning as a member of a health care team. The occupational therapist's goal is to promote meaningful occupations and maximize functional independence in collaboration with the client. This program is offered only at the graduate level and students should consult the Graduate Bulletin for details.

Physical Therapy

Physical Therapy is a dynamic health profession that develops, coordinates and utilizes selected knowledge, skills and techniques in planning, organizing and directing programs for the care of individuals whose ability to function is impaired or threatened by disease or injury. The practice of physical therapy includes: examination, evaluation, diagnosis, prognosis, intervention, and analysis of outcomes.

Physical Therapists provide services to patients/clients who have impairments of body function and structure, activity limitations or participation restrictions or changes in physical function and health status resulting from injury, disease or other causes. Physical therapists must be able to collaborate with a variety of professionals, address risk factors to health, be leaders and providers in the areas of prevention and promoting health, wellness and fitness, serve as educators, consultants, administrators and advocates, utilize critical inquiry skills and direct and supervise the provision of physical therapy services (Guide to Physical Therapist Practice, APTA, 2003).

Some examples of diagnoses of individuals who might be seen by a physical therapist include stroke, low back pain, ACL knee injury, Parkinson's Disease, spinal cord injury, amputation, heart attack, athletic injury, arthritis, cerebral palsy, rotator cuff (shoulder) injury, total joint replacement, spina bifida, general health and personal training, congestive heart failure, emphysema, cancer, head injury, multiple sclerosis, learning disabilities, speed and agility training, and many more. This program is offered only at the graduate level and students should consult the Graduate Bulletin for details. Wayne State students may apply to the program with 90 undergraduate credit hours if all other pre-requisite courses are completed.

Physician Assistant Studies

The mission of the physician assistant studies program is to train highly-qualified physician assistants for primary care in inner-city and other under-served areas of the State of Michigan. This is a graduate-level program designed to meet the need for qualified medical professionals; it is two years in length, and classes begin in May of each year. Interested students should consult the Graduate Bulletin for details.

Radiation Therapy Technology

This health care discipline utilizes ionizing radiation for the treatment of malignant disease. This field requires a basic understanding of and interest in science, especially mathematics and physics, as well as emotional maturity and a desire to assist in the management of patient care. The program is a four-year curriculum consisting of two years of pre-professional and two years of professional course work.

Radiologic Technology

Radiologic Technology is a health care discipline that utilizes ionizing radiation for the diagnosis of disease processes in the human body. This field requires a basic understanding of mathematics and science and a desire to serve patients. As a radiographer, one has the opportunity to combine interpersonal and patient assessment skills while employing highly technical equipment. A diagnostic radiologic technologist is able to formulate exposure factors dependent on procedure, pathology and individual patient dynamics; assist radiologists in more invasive

procedures such as fluoroscopic studies; evaluate images for quality and accuracy; and provide support to patients anxious about their health. These technologists are typically employed in hospitals, clinics, educational institutions, and commercial equipment corporations as staff radiographers, clinical supervisors, administrators, educators, marketing personnel and applications specialists.

Department of Pharmacy Practice

The Department of Pharmacy Practice prepares students for entry into the pharmacy profession through coursework in the applied use of drug therapy in the treatment and prevention of human disease, provision of patient-centered care in clinical practice environments, and conducts research related to the rational use, delivery, and access to drugs and other therapeutic modalities. Pharmacy Practice also includes service and leadership to the University and profession of pharmacy and the public related to education and the optimal use of medications.

Department of Pharmaceutical Sciences

The Department of Pharmaceutical Sciences shares responsibility for the Doctor of Pharmacy program with the Department of Pharmacy Practice. Teaching and learning in the Pharm.D. program are designed for the graduate to improve human health, wellness and safety. The Pharmaceutical Sciences span from basic to multidisciplinary and translational aspects of human health, including the conception, discovery, formulation, delivery, action and safety of therapeutic medicines and other agents. Ph.D. and M.S. programs specializing in medicinal chemistry, pharmaceuticals and pharmacology / toxicology provide a stimulating and supportive environment for advanced education and for the successful completion of original research projects. Ph.D. candidates receive Graduate Research Assistantships consisting of competitive stipends, remission of tuition and full health insurance. The department is home to research-intensive programs of study covering a wide range of specialized areas for outstanding postdoctoral fellows and undergraduates. Department members provide much-needed expertise to organizations that are committed to the treatment and prevention of human disease, and to advancing the health and safety of animals and the environment. They are leaders in their service to the University and the professions of pharmacy and pharmaceutical sciences through research, education and outreach. Graduates of these programs are changing the world, one step at a time, through a rich academic tradition founded upon prizing excellence, extending collegiality and making a difference locally and globally.

Accreditation

The Higher Learning Commission accredits Wayne State University and professional programs in this College are accredited by their respective agencies. Please visit program tabs to see individual accreditation information or visit Accreditation (p. 12).

Academic Regulations: College of Pharmacy and Health Sciences

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 17) section of this bulletin. The following additions and amendments pertain to health sciences students.

Academic Regulations Terminology

1. *Professional course* means any course required in the Pharm.D., D.P.T. or M.O.T curriculum and any course approved for professional elective credit and elected by the student for that purpose.
2. *Satisfactory grade* means a grade of C or above, or a grade of S.

3. *Unsatisfactory grade* means a grade of C-minus or below 2.0 grade points, or a mark of X or unauthorized W Marks of X or marks of W which have not been authorized will be treated as an E.
4. *Probation* means a restricted status in the program (see below).
5. *Dismissal* from the program means that the student may no longer register in the program or elect professional course work. Continued registration in the University requires that a Change of Status to another program be initiated by the student.

Academic and Professional Progress

The College expects its students to develop professional competence and to satisfy the same high standards of exemplary character, appearance, and ethical conduct expected of health care professionals. To merit confidence and esteem, both personally and in the health care professions, appropriate dress and demeanor are expected of each student in their respective academic and professional program.

Each program has a process or committee in place to review student performance regularly and makes decisions concerning probationary status. A student may be dismissed from the College at any time for an unsatisfactory academic or professional record, for irresponsible attendance, or other failures to diligently pursue the academic and professional program.

Outside Employment

The curriculum has been arranged with the presumption that the student will devote full time and energy to their academic program. Internships, fieldwork and other pharmaceutical employment are recognized as an integral part of the academic and professional growth of a pharmacy or health science student. The student, however, is responsible for maintaining the appropriate balance between such activity and satisfactory achievement in the classroom.

Attendance

Regularity in attendance and performance is necessary for success in college work. At the beginning of each course the instructor will announce and/or include in the syllabus the specific attendance required of students as part of the successful completion of the course. Effective Fall semester 2016, a new policy requires students to respond to a request for course participation (<http://reg.wayne.edu/gotoclass.php>) confirmation.

Admission to Pre-professional Programs

Pre-professional programs in clinical laboratory science, mortuary science, occupational therapy, pharmacy, physical therapy, radiation therapy technology and radiologic technology are taken in the College of Liberal Arts and Sciences and students apply for admission to that College, and fulfill requirements for general undergraduate admission (p. 23) to the University. The Office of Admissions is located in the University Welcome Center, Wayne State University, Detroit, Michigan 48202; telephone: 313-577-3577. Admissions counselors are available for personal conferences to aid the prospective student.

Admission to Professional Programs

All professional programs in the College are limited in the number of applicants that can be accepted. This limitation is created not only by the number of faculty members available but also by the number of positions available in health care facilities where much of the field work experience is conducted at a 1:1 or 1:2 faculty-to-student ratio.

Students are admitted to the professional program annually. Since each program has special requirements for admission, students are

urged to attend one of the monthly Information Meetings (<http://www.cphs.wayne.edu/meetings.php>) (mandatory for some programs) for advising and application deadline dates a year before they plan to enter. Individuals can register for the free monthly Information Meetings online. Students are to check with each program to verify the deadline date for admission to that program.

For admission to the professional programs in the College, applicants must have completed all equivalent pre-professional courses and other requirements. Students admitted to the professional program usually have a grade point average of 2.5 ('A' = 4.0) or better.

Although academic achievement is important, personal qualities and professional behaviors are considered of equal importance since the students selected will eventually be working as members of a team in the delivery of health care. Therefore, criteria for selection are also based on such qualities as maturity, motivation, knowledge of the profession, ability to communicate, personal integrity and empathy for others. Consequently, evaluations from faculty and academic advisors, as well as a personal interview, are given great weight in the selection of candidates by admissions committees.

Academic Advising

A staff of academic advisors is available in the University Advising Center, 1600 Adamany Library, for students interested in health sciences professions.

Students, during their sophomore year, should confer with the professional program advisor of the health sciences profession of their choice, during attendance at one of the Monthly Information Meetings, whenever they have questions about degree requirements, academic regulations, course elections, programs of study, or difficulties in their academic work. Course elections are arranged in consultation with the professional program advisors.

Normal Program Load

The requirements for graduation are based upon a normal program of fifteen credits per semester for eight to ten semesters. Because courses are of varying length, students cannot always arrange programs of exactly fifteen credits; hence the normal load is fourteen to eighteen credits.

Academic Misbehavior

Academic Honesty: Students are expected to abide by the principle of honesty which is fundamental to the life of a scholarly community. If any act of academic misbehavior, which includes cheating, plagiarism, or other acts are discovered, the instructor is expected to take appropriate action, which can include one or more of the following: reprimand, repeat of assignment, a failing grade for the assignment, a failing grade for the course. Serious acts of dishonesty can lead to suspension or dismissal.

In any instance of academic misbehavior occurring in any course offered by the Eugene Applebaum College of Pharmacy and Health Sciences, as defined in section 2 of the WSU Student Code of Conduct (<http://www.doso.wayne.edu/assets/codeofconduct.pdf>), the provisions of Section 10.1 of the Student Code of Conduct will be implemented as follows:

The faculty member may, without filing a charge, adjust the grade downward (including downgrading to a failing grade) for the test, paper, or other course-related activity in question, or for the entire course. In any case, the faculty member shall provide the student with a copy of section 10.1 of the Student Code of Conduct and a copy of the member prepared

by the Ombudsperson, explaining the Ombudsperson's role, referred to in section 1.5 of the Student Code of Conduct.

Academic misbehavior policies of individual programs may vary from the above. Please see individual program for more information.

Probation

If a student's work falls below the required cumulative g.p.a. for professional studies, he/she will be placed on probation. If a student incurs a serious grade point deficiency in a semester, or remains on probation for more than one semester, he/she will not be allowed to re-register in the College unless he/she obtains permission from his/ her respective program or department. Such permission will be granted only after an appraisal of the student's situation and some assurance from the student that the previous causes of failure will not prevail in the proposed program.

Program Probation: A student whose semester g.p.a. falls below the required average will be placed on program probation. Each student must meet the academic and probationary requirements of his or her program.

Removal of Probation: The student will be removed from probation at the end of any semester in which he/she achieves a satisfactory overall g.p.a. as determined by the program.

Please see individual programs for more detailed information on program probation and dismissal policies.

Student Rights and Responsibilities

The College and its faculty reserve the right to dismiss a student at any time who does not appear to be suited for the work or whose conduct or academic standing is regarded as unsatisfactory. Students are urged to review the specific policies of their respective program or department.

Grade Appeals

Official Policies and Procedures
College Policy No. 89.01 FINAL COURSE GRADE APPEALS

Approved 4/30/2013, Correction 3/26/15, UPDATED August 14, 2015, Adopted September 16, 2015

Modifications April 26, 2016, Approved September 28, 2016, **Provost Office addendum September 13, 2017. Provost Office updates July 12, 2018 and November 13, 2018.**

THIS VERSION REPLACES AND SUPERSEDES ALL PRIOR VERSIONS OF FINAL COURSE GRADE APPEALS POLICY. This policy is effective immediately for final course grades received for Fall 2016 and all terms going forward.

The following is the policy implemented for Final Course Grade Appeals in the Eugene Applebaum College of Pharmacy and Health Sciences. At the beginning of each term, the instructor is to inform students in writing of the criteria used in arriving at grades for the class including the relative importance of prepared papers, quizzes and examinations, class participation and attendance. Where student performance in other practical and structured activities is relevant in evaluating professional competency, criteria used in such evaluations should be stated. Written materials should be graded in a timely manner and such materials, together with comments and an explanation of grading criteria, are to be made available to students. Students should be encouraged to discuss any class related problems with the instructor.

Instructors are expected to evaluate student work according to sound academic standards.

Equal expectations should be required of all students in a class (although more work is expected from graduate students than from undergraduates) and grades should be assigned without departing from announced procedures.

It is the instructor's prerogative to assign grades in accordance with his or her academic and professional judgment and the student assumes the burden of proof in the appeals process. Grounds for appeals are:

1. the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

This final course grade appeal policy does not apply to allegations of academic misbehavior. Academic misbehavior matters are addressed by Section 10.1 of the WSU Student Code of Conduct (<https://doso.wayne.edu/pdf/student-code-of-conduct.pdf>).

Definition: Instructor - Instructor applies to full-time, fractional-time, part-time faculty as well as Graduate Teaching Assistants, Adjuncts, and Academic Staff with teaching duties.

Final Course Grade Appeals Policy and Procedure

Informal Final Course Grade Review

1. Prior to an appeal of a course final grade all issues must first be directed to the instructor of the course for consideration of resolution.
2. The initial request of a grade review should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.
3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal grade appeal within thirty calendar days following posting of the final course grade. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

Formal Final Course Grade Appeal Policy and Procedure

If the final grade in question remains unchanged after the informal final course grade review, any formal Course Grade Appeal to change the grade in question must be initiated in writing by the student within thirty calendar days following the posting of the final course grade. The Student must submit a formal written appeal to the appropriate Department Chair. This formal appeal must include a copy of the current course syllabus and a student appeal letter including detailed justification for the appeal. This documentation must explicitly state which of the three criteria of allowable rationales is applicable and how the alleged violation occurred.

Formal Final Course Grade Appeal

1. The Department Chair shall provide a time-stamped and dated copy of the formal student course grade appeal to the instructor, program director or program/department grade appeal committee. The Department Chair will then request input and/or response from the instructor, program director or the program/department grade appeal committee.
2. Student or Faculty involved in a grade appeal process may contact the University Ombudsperson at any time for assistance with any

questions associated with a grade decision or the grade appeal process.

3. The Department Chair may convene an ad hoc special review committee (or charge an existing committee) to advise on any dispute.
4. The Department Chair shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal course grade appeal. The Department Chair will place, in writing, the final decision to the student, instructor, program director, program/department grade appeal committee or the reason for any delay in decision. The decision of the Department Chair can be appealed to the Office of the Dean.
5. Appeals to the Office of the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair. The Dean or his/her designee must respond to the student appeal within thirty calendar days. The decision of the Dean or his/her designee is the final decision at the College level.
6. If the appeal is denied at the Dean (or designee) of the College level, and the College appeal path is exhausted, if the student wishes to continue with the grade appeal process, per the University Academic policy (<https://provost.wayne.edu/academic-policy/>), the student may request a Provost Review within 30 days of this decision. The request should be addressed to Dr. R. Darin Ellis, Associate Provost for Academic Programs. **The request should be submitted via the online form (<https://provost.wayne.edu/academic-policy/>).** For assistance with the appeal process, the student may contact the Ombudsperson (<https://wayne.edu/ombuds/>). The student's formal appeal for Provost Review must include a copy of the current course syllabus, the initial student appeal letter including detailed justification for the appeal, the Department Chair's (or designee's) response letter, and the Dean's (or designee's) written response. The decision of the Provost or his/her designee is final. No further appeal is possible.

Dismissal Policy

College Policy No. 89.06

Established and Approved September 28, 2016

The following is the policy implemented when a student has been dismissed from a program or department in the Eugene Applebaum College of Pharmacy and Health Sciences. Specific guidelines for dismissal are available (by programs and departments) in student handbooks and in other electronic formats on program, department, and College web pages.

Combined Grade Appeal/Dismissal Policy

If the final course grade leads to dismissal, the dismissal will be considered simultaneously in the final course grade appeal process. There is no separate or additional appeal process for a dismissal based on a final course grade. This would be referred to as a "combined" appeal. In the event the combined final grade/dismissal appeal is denied by the Dean (or designee) a final appeal can be made by the student to the Provost as part of the combined grade appeal/dismissal process.

If dismissal results from an unprofessional behavior violation or other non-academic reason (<https://doso.wayne.edu/conduct/nonacademic-misconduct/>) not addressed within the program or department student handbook, the WSU Student Code of Conduct will be applied. Academic misbehavior matters are addressed by Section 10.1 of the WSU Student Code of Conduct (<https://doso.wayne.edu/pdf/student-code-of-conduct.pdf>).

Definition: Instructor - Instructor applies to full-time, fractional-time, part-time faculty as well as Graduate Teaching Assistants, Adjuncts, and Academic Staff with teaching duties.

Combined Grade Appeal/Dismissal Policy and Procedure Informal Grade Appeal/Dismissal Review

1. Prior to a combined appeal of a grade/dismissal all issues must first be directed to the instructor of the course for consideration of resolution.
2. The initial request should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.
3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal combined grade appeal/dismissal process. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

Formal Combined Grade Appeal/Dismissal Appeal Policy and Procedure

If the dismissal status remains unchanged after the informal meeting with the instructor, the formal Grade Appeal/Dismissal process must be initiated in writing by the student within thirty calendar days following the notification of the final course grade that precipitated the dismissal. The student must submit a formal written appeal to the appropriate Department Chair (or designee). This formal appeal must include a copy of the current course syllabus and a student appeal letter including detailed justification for the appeal of the dismissal.

Formal Combined Grade Appeal/Dismissal Process

1. The Department Chair (or designee) shall provide a time-stamped and dated copy of the formal student dismissal appeal to the instructor, program director or program/department appeal committee. The Department Chair (or designee) will then request input and/or response from the instructor, program director or the program/department appeal committee.
2. Student or Faculty involved in a dismissal appeal process may contact the University Ombudsperson at any time for assistance with any questions associated with a grade decision or the grade appeal/dismissal process.
3. The Department Chair (or designee) may convene an ad hoc special review committee (or charge an existing committee) to advise on any dismissal.
4. The Department Chair (or designee) shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal dismissal appeal. The Department Chair (or designee) will place, in writing, the final decision to the student, instructor, program director, program/department appeal committee or the reason for any delay in decision. The decision of the Department Chair (or designee) can be appealed to the Dean.
5. Appeals to the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair (or designee). The Dean or his/her designee must respond to the student appeal within thirty calendar days. The decision of the Dean or his/her designee is the final decision at the College level.
6. If the appeal is denied at the Dean (or designee) of the College level and the College appeal path is exhausted, if the student wishes to continue with the final grade/dismissal appeal process, per the University Academic policy (<https://provost.wayne.edu/academic-policy/>), the student may request a Provost Review within 30 days of this decision. The request should be addressed to Dr. R. Darin Ellis, Associate Provost for Academic Programs. **The request should be submitted via the online form ([366 Academic Regulations: College of Pharmacy and Health Sciences](https://provost.wayne.edu/academic-</div><div data-bbox=)**

policy/). For assistance with the appeal process, the student may contact the Ombudsperson (<https://wayne.edu/ombuds/>). The student's combined grade appeal/dismissal for Provost Review must include a copy of the current course syllabus, the initial student appeal letter including detailed justification for the appeal, the Department Chair's (or designee's) response letter, and the Dean's (or designee's) written response. The decision of the Provost or his/her designee is final. No further appeal is possible.

Dismissal Policy and Procedure

This applies to appeals of any and all dismissals that occurred because of academic, non-academic, or professional behavior violations.

Informal Dismissal Review

1. Prior to a dismissal all issues must first be directed to the instructor of the course for consideration of resolution.
2. The initial request should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.
3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal dismissal appeal process. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

Formal Dismissal Appeal Policy and Procedure

If the dismissal status remains unchanged after the informal meeting with the instructor, the formal dismissal process must be initiated in writing by the student within thirty calendar days following the notification of the action that precipitated the dismissal. The student must submit a formal written appeal to the appropriate Department Chair (or designee). This formal appeal must include a letter including detailed justification for the appeal of the dismissal.

Formal Dismissal Process

1. The Department Chair (or designee) shall provide a time-stamped and dated copy of the formal student dismissal appeal to the instructor, program director or program/department appeal committee. The Department Chair (or designee) will then request input and/or response from the instructor, program director or the program/department appeal committee.
2. Student or Faculty involved in a dismissal appeal process may contact the University Ombudsperson at any time for assistance with any questions associated with the dismissal process.
3. The Department Chair (or designee) may convene an ad hoc special review committee (or charge an existing committee) to advise on any dismissal.
4. The Department Chair (or designee) shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal dismissal appeal. The Department Chair (or designee) will place, in writing, the final decision to the student, instructor, program director, program/department appeal committee or the reason for any delay in decision. The decision of the Department Chair (or designee) can be appealed to the Dean.
5. Appeals to the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair (or designee). The Dean or his/her designee must respond to the student dismissal appeal within thirty calendar days. The decision of the Dean or his/her designee is the final decision at the College level.
6. If the dismissal appeal is denied at the Dean (or designee) of the College level and the College appeal path is exhausted, if the student wishes to continue with the dismissal appeal process, per the University Academic policy (<https://provost.wayne.edu/academic->

policy/), the student may request a Provost Review within 30 days of this decision. The request should be addressed to Dr. R. Darin Ellis, Associate Provost for Academic Programs. **The request should be submitted via the online form** (<https://provost.wayne.edu/academic-policy/>). For assistance with the appeal process, the student may contact the Ombudsperson (<https://wayne.edu/ombuds/>). The student's dismissal appeal for Provost Review must include a copy of the current course syllabus, the initial student appeal letter including detailed justification for the appeal, the Department Chair's (or designee's) response letter, and the Dean's (or designee's) written response. The decision of the Provost or his/her designee is final. No further appeal is possible..

Suspension

In extenuating circumstances, a suspension may be recommended during the appeal process. Suspension is a temporary removal of a student from participation in educational activities. While suspended, the student is placed on an administrative leave of absence.

Suspension may occur for failure to meet program/department, College or University requirements, because of a serious allegation of unprofessional behavior, or when a student is deemed to be a danger to others or him/herself. A recommendation for suspension can be made in writing to the student by the Assistant Dean for Student Affairs, the Associate Deans for Pharmacy or Health Sciences in consultation with the Dean of Students or the Office of the Provost.

Dismissal Policies Listed by Program/Department

Students should refer to their program or department for the applicable dismissal policy.

College Bachelor's Degree Requirements

Specific requirements for the several bachelor's degrees offered by the College are enumerated in the departmental and program sections of this bulletin. Following are general College and University policies governing baccalaureate programs.

High School Preparation (Recommended)

Students who plan to enter the University as freshmen should have included in their high school programs at least three years of English, one year of algebra, one year of plane geometry, at least one course in a laboratory science, and at least two years of a foreign language. Some programs require additional work in mathematics and science. High school students and their parents are encouraged to attend the Eugene Applebaum College of Pharmacy and Health Sciences Information Meetings (<http://www.cphs.wayne.edu/highschool.php>) held on the first Tuesday of each month at 6 p.m. at the College.

Residence

The last thirty credits of work applicable to the degree, exclusive of credit by special examination, must be completed in an undergraduate college or school of Wayne State University.

Time Limitations

It is the policy of the College that preprofessional science courses must be completed within six years just prior to admission to a professional program. Exceptions to this policy may be made on a case-by-case basis at the sole discretion of the program faculty. Documentation of competency during post-graduation/pre-admission employment must be provided by the applicant requesting the exception. There is no appeal for this exception request of this policy.

Student Support Services and Organizations

Office of Student Affairs

The Office of Student Affairs (OSA) provides program information, monthly information meetings and advising support to prospective and current students for the degree and certificate programs offered by the College. From this office prospective students can obtain advice about admission requirements and program prerequisites and have their transcripts evaluated for transfer equivalencies. Additionally, information on registration and financial aid; enrollment verification required for financial aid, internship licensing, or other purposes is processed through this office. The Office also audits student records for completion of General Education Requirements and program requirements prior to graduation. The OSA staff participates in the various activities with the main campus, including recruitment fairs, graduation, new student convocations, FestiFall, prospective student open house, and Scholars Day. The OSA staff supports EACPHS student organizations, facilitate Community Apple Days, participate in numerous recruitment activities such as career and educational fairs at local middle schools, high schools, colleges, and universities.

Student Organizations

There are many student organizations within the College that allow a student to be active in professional and extracurricular activities. Please contact individual program offices for more information regarding student organizations.

Applied Health Sciences

The mission of the Department of Applied Health Sciences is to provide students with highly effective and quality educational experiences that address contemporary challenges directly impacting public health, health care, environmental and workplace issues.

- Clinical Laboratory Science (B.S.) (p. 368)
- Forensic Investigation (Post-Bachelor's Certificate) (p. 370)
- Forensic Investigation and Policing Minor (p. 371)
- Laboratory Science Concentration (B.H.S.) (p. 370)
- Mortuary Science (B.S.) (p. 371)

Clinical Laboratory Science

Office: 401 Mortuary Science Building; 313-577-2050

Program Director: Karen K. Apolloni

<http://cphs.wayne.edu/cls> (<http://cphs.wayne.edu/cls/>)

The Clinical Laboratory Science programs (Bachelor of Science in Clinical Laboratory Science and Bachelor of Health Science with a concentration in Laboratory Science) encompass health professions dedicated to providing accurate diagnostic information to medical practitioners. The field offers challenging opportunities for people with aptitudes in the basic sciences and interest in a health care career. The programs at Wayne State University provide students with the technical knowledge and specialized skills necessary for entry-level work as laboratory professionals. Graduates of the BS in CLS program are eligible to take a national certification examination, which is required for most hospital-based clinical laboratory science positions. The Bachelor of Health Science with a concentration in Laboratory Science degree is a good choice for students interested in entering a subsequent graduate program.

Both programs have pre-professional and professional curriculum components. The pre-professional component consists of science and

non-science prerequisite courses and the general education curriculum.

The professional program begins with the junior year and is taught by the faculty of the Department of Applied Health Sciences. Didactic course work continues in the senior year and students in the BS in CLS program also complete a clinical experience in an affiliated clinical laboratory.

- Clinical Laboratory Science (B.S.) (p. 368)
- Laboratory Science Concentration (B.H.S.) (p. 370)

Clinical Laboratory Science (B.S.)

The Bachelor of Science in Clinical Laboratory Science program consists of two years of pre-professional courses and two years of professional courses. The program fulfills the requirements for clinical laboratory science education of the National Accrediting Agency for Clinical Laboratory Sciences. Upon completion of this program, the student receives a Bachelor of Science in Clinical Laboratory Science degree and is eligible to take a national certification examination in Medical Laboratory Science. Granting of the Bachelor of Science in Clinical Laboratory Science degree IS NOT contingent up the student's passing any type of external certification or licensure examination.

This program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences (NAACLS)

5600 N. River Road, Suite 720, Rosemont, IL 60018

Phone: 773-714-8880 Fax: 773-714-8886 Email: info@naacls.org
www.naacls.org

The work of the clinical laboratory scientist involves performing a vast array of laboratory tests to provide accurate diagnostic information to the physician and the health care team. The clinical laboratory scientist operates sophisticated laboratory instrumentation, evaluates and utilizes the best possible testing methods, and effectively teaches and supervises students and laboratory personnel. While the majority of clinical laboratory scientists work in hospitals or other clinical laboratories, graduates are also prepared for positions in federal, state and local public health departments, in industrial or research laboratories and in clinical laboratory science education.

The Clinical Laboratory Science program utilizes the facilities of the Eugene Applebaum College of Pharmacy and Health Sciences, the faculty of the Department of Applied Health Sciences, and the laboratories and pathology departments of clinical affiliates. This program includes clinical experiential coursework for all students who meet or exceed grade requirements.

Pre-professional Program

The first two years (pre-professional program) are taken in the College of Liberal Arts and Sciences, the admission requirements of which are satisfied by general admission (<http://bulletins.wayne.edu/undergraduate/general-information/admission/>) to the University. Students should consult with an Academic Services Officer in the Office of Student Affairs at the Eugene Applebaum College of Pharmacy and Health Sciences regarding course selection. Students are urged to seek additional career advisement from the Clinical Laboratory Science program faculty early in the pre-professional program.

Recommended High School Preparation: Students interested in a career in clinical laboratory science should take as many of the following courses as possible: biology, chemistry, mathematics, computer science, keyboarding, speech, and composition.

Professional Program

Admission

Admission to the professional program requires completion of the pre-professional course requirements and satisfaction of specific admission requirements listed below. The application deadline for matriculation into the professional program is May 1 of each year for the subsequent Fall semester.

Since applicants who are admitted will eventually be working as members of a health care team, the admissions committee evaluates candidates based on their personal qualities as well as their academic achievement. Therefore, throughout the interview and the completion of other application requirements, criteria such as an applicant's maturity, motivation, knowledge of the profession, interpersonal skills, personal integrity, and empathy for others are evaluated.

Admission Requirements: The student wishing to apply to the professional program must meet the following admission requirements:

1. Cumulative grade point averages by the end of the second semester of the year preceding admission to the professional program of
 - a. overall grade point average of 2.7 or above in pre-professional courses
 - b. grade point average of 2.7 or above in all science and mathematics prerequisite courses
 - c. no grade lower than 'C' in any pre-requisite course.
2. No more than two repeats or withdrawals (marks of 'W' or 'WF') in science courses preferred. (If all courses are withdrawn in a single semester, it counts as one 'W'.)
3. Completion of all pre-professional courses (or their equivalents) by the end of the Spring/Summer semester prior to beginning the professional program.
4. Completion of the professional program application form and associated requirements and submission of official transcripts to:

Eugene Applebaum College of Pharmacy and Health Sciences
Office of Student Affairs
259 Mack Avenue, Suite 1600
Detroit, MI 48201

APPLICATION DEADLINE: The deadline for applications is May 1. Prospective students are urged to submit applications as early as possible. Specific directions for submitting application materials are indicated on the website.

APPLICATION REVIEW: All applications will be reviewed for completeness. The Admissions Committee will interview qualified applicants with completed applications submitted by the deadline date. A number of criteria will be evaluated, including academic achievement and personal qualities. Upon completion of all admission interviews, applicants will be notified of the final admission decision. This typically occurs in June of each year.

All requests for additional information should be addressed to the Department of Applied Health Sciences, Clinical Laboratory Science Program, Eugene Applebaum College of Pharmacy and Health Sciences.

Preprofessional Curriculum

Preprofessional science courses must be completed within the six years just prior to admission to a professional program. Exceptions to this policy may be made on a case-by-case basis at the discretion of the program faculty. Documentation of competency must be provided by the applicant requesting the exception.

These courses are taken under direction of the College of Liberal Arts and Sciences.

Code	Title	Credits
Pre-professional Courses		
BIO 1510	Basic Life Mechanisms	4
BIO 2200	Introductory Microbiology	5
BIO 2870	Anatomy and Physiology	5
CHM 1220	General Chemistry I	4
CHM 1230	General Chemistry I Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II (recommended)	3
or CHM 2280	General Chemistry II: Analytical Chemistry	
CHM 2230	Organic Chemistry II Laboratory	1-2
or CHM 2290	General Chemistry II: Analytical Chemistry Laboratory	
CLS 2080	Clinical Laboratory Science Seminar	1
or CLS 2990	Pre-professional Directed Study	
CLS 3330	Medical Terminology	1
COM 1010	Oral Communication: Basic Speech	3
ENG 1020	Introductory College Writing	3
ENG 3010	Intermediate Writing (or any Intermediate Composition (IC) course)	3
MAT 1800	Elementary Functions	4
STA 1020	Elementary Statistics	3
University General Education Requirements:		
	Cultural Inquiry (CI)	3
	Social Inquiry (SI)	3
	Diversity, Equity and Inclusion (DEI)	3
	Global Learning Inquiry (GL)	3
	Civic Literacy (CIV)	3
	Wayne Experience (WE)	1
Total Credits		62-63

Candidates for the Bachelor of Science in Clinical Laboratory Science degree must complete 120-134 credits in course work, including sufficient credits to fulfill the University General Education Requirements (p. 29) not satisfied by either required courses or the student's choice of electives in the pre-professional program. The distribution of the total credits for the degree will be between the pre-professional program and the following professional program.

CLS Professional Curriculum

Science courses in this program are taken under the direction of the faculty of Clinical Laboratory Science in cooperation with the faculty of the Department of Fundamental and Applied Sciences and the staff of affiliated clinical institutions.

Third and Fourth Years

Code	Title	Credits
CLS 3020	Hematology Lecture and Laboratory	4
CLS 3040	Immunohematology I	4
CLS 3080	Instrumentation Lecture and Laboratory	4
CLS 3100	Urine and Body Fluid Analysis	3
CLS 3280	Clinical Chemistry Lecture and Laboratory	4

CLS 4000	Clinical Hematology	5
CLS 4010	Clinical Chemistry	3
CLS 4020	Clinical Blood Bank	3
CLS 4030	Clinical Microbiology	5
CLS 4050	Clinical Immunology	1
Total Credits		17

Courses are completed at a clinical laboratory affiliated with the Eugene Applebaum College of Pharmacy and Health Sciences.

Laboratory Science Concentration (B.H.S.)

The Bachelor of Health Science with a concentration in Laboratory Science is an excellent degree for students who wish to specialize in laboratory studies or advanced medical training outside of the typical hospital or clinical laboratory setting. This program is designed to provide students with necessary coursework to either continue with CLS studies after graduation or to apply to graduate programs in a health care field of their choice. The clinical experience is not included in this degree.

Students applying for admission to this program must apply through the Clinical Laboratory Science admission procedure. See the Bachelor of Science in Clinical Laboratory Science program page for details.

Pre-professional Curriculum

Preprofessional science courses must be completed within the six years just prior to admission to a professional program. Exceptions to this policy may be made on a case-by-case basis at the discretion of the program faculty. Documentation of competency must be provided by the applicant requesting the exception.

These courses are taken under direction of the College of Liberal Arts and Sciences.

Pre-professional curriculum requirements for the Bachelor of Health Science with a concentration in Laboratory Science are identical to those for the Bachelor of Science in Clinical Laboratory Science. Please see the Bachelor of Science in Clinical Laboratory Science requirements page for details.

The BHS with a concentration in Laboratory Science degree requires a total of 120 credits.

Professional Curriculum

Required Courses

Code	Title	Credits

Forensic Investigation (Post-Bachelor's Certificate)

The Certificate Program in Forensic Investigation is designed for students who have earned a four-year bachelor's degree in another discipline from an accredited college or university who wish to acquire competence in the area of forensic investigation. This program is not designed to train forensic investigators; rather, its aim is to educate personnel whose professional scope and practice interfaces with the criminal justice system. This program can assist students as a foundation in their pursuit of advanced degrees in forensic specialties including physical / forensic anthropology and forensic psychology among others. The Program is offered by the Department in cooperation with the Department of Criminal Justice (W.S.U.), the Department of Biomedical Engineering (W.S.U.), the offices of the Wayne County Medical Examiner, the Oakland County Medical Examiner, and the Bureau of Alcohol, Tobacco and Firearms (ATF), among others.

Admission Requirements

The program is open to graduates of four-year baccalaureate programs in any accredited college or university who have a grade point average of 2.50 or better. Students whose degree is from Wayne State should apply directly to the program through the Office of Student Affairs (<http://>

www.cphs.wayne.edu/program/forensic-post-apply.php), 259 Mack Avenue, Suite 1600, Detroit MI 48201; those from other institutions must submit the University application for undergraduate admission (p. 23). All application materials must be received by June 1 for fall admission only. Student informational interviews are conducted by members of the admissions committee prior to placement in the fall semester. All students admitted to the post-bachelor certificate program are expected to complete a Plan of Work during their first semester in the program. For information and application forms, contact the:

Department of Applied Health Sciences
Forensic Investigation Program
5439 Woodward Ave.
Detroit MI 48202
313-577-2050; Fax: 313-577-4456
<http://www.mortsci.wayne.edu/forensics.php>

The candidate for the post-baccalaureate Certificate in Forensic Investigation must complete the following program with a grade point average of 2.50 or above and completed all coursework at Wayne State University with a minimum of a C. Total credits for completion is a minimum of twenty-four credits.

Code	Title	Credits
Required Courses		
ANT 5180 or CRJ 4220	Forensic Anthropology Criminalistics	3-4
MS 4010	Forensic Laboratory Standards	3
MS 4011	Interview and Interrogation Techniques	3
MS 4200	Introduction to Forensic Anatomic Pathology	3
MS 5010	Forensic Analysis	2
MS 5011	Forensic Investigation of Firearms, Ballistics, and Explosives	4
Electives		
Select a minimum of six semester credits from the following:		6
Internship		
MS 4600	Clinical Forensic Pathology	
Expert Witness		
MS 5550	Special Topics in Mortuary Science	
Independent Study'		
MS 5990	Directed Study	
Loss, Grief and Stress		
MS 5550	Special Topics in Mortuary Science	
Advanced Case Studies in Forensics		
MS 5550	Special Topics in Mortuary Science	
Total Credits		24-25

Forensic Investigation and Policing Minor

The Forensic Investigation and Policing minor is 23- 24 credits of coursework, of which a maximum of 6 credits can be transferred from other institutions for the CRJ courses only.

Code	Title	Credits
CRJ 1010	Introduction to Criminal Justice	3
CRJ 3200	Police and Society	4
CRJ 3260	Investigation	3
CRJ 4220	Criminalistics	4
MS 4011	Interview and Interrogation Techniques	3

MS 5011	Forensic Investigation of Firearms, Ballistics, and Explosives	4
Students must choose at least one of the following courses:		2-3
MS 4010	Forensic Laboratory Standards	
MS 5010	Forensic Analysis	
Total Credits		23-24

Mortuary Science (B.S.)

Mark T. Evely, Program Director
313-577-1202; evely@wayne.edu

The Mortuary Science degree Program at Wayne State University is accredited by:

The American Board of Funeral Service Education (ABFSE)
992 Mantua Pike, Suite 108
Woodbury Heights, NJ 08097
(816) 233-3747
www.abfse.org (<http://www.abfse.org>)

National Board Examination pass rates, graduation rates, and employment rates for this and other ABFSE-accredited programs are available at www.abfse.org (<http://www.abfse.org/docs/ABFSEDirectory.pdf#page=38>). To request a printed copy of this program's rates, go to Room 114 of the Mortuary Science Building, 5439 Woodward Ave., Detroit, MI 48202 or by e-mail at fundappsciences@wayne.edu or telephone 313-577-2050.

Wayne State University is accredited by the Higher Learning Commission and complies with its provisions on ethical and responsible conduct as defined in Higher Learning Commission Assumed Practices, Number CRRT.B.10.020.

Program Learning Outcomes

1. Explain the importance of funeral service professionals in developing relationships with the families and communities they serve.
2. Identify standards of ethical conduct in funeral service practice.
3. Interpret how federal, state, and local laws apply to funeral service in order to ensure compliance.
4. Apply principles of public health and safety in the handling and preparation of human remains.
5. Demonstrate technical skills in embalming and restorative art that are necessary for the preparation and handling of human remains.
6. Demonstrate skills required for conducting arrangement conferences, visitations, services, and ceremonies.
7. Describe the requirements and procedures for burial, cremation, and other accepted forms of final disposition of human remains.
8. Describe methods to address the grief-related needs of the bereaved.
9. Explain management skills associated with operating a funeral establishment.
10. Demonstrate verbal and written communication skills and research skills needed for funeral service practice.

Traditional and Online Courses

Students may complete the program in a traditional, online or hybrid format. Please see the Handbook for Online Students (https://cphs.wayne.edu/mortuary-science/pdf/online_student_handbook.pdf) for additional information and requirements.

Clinical Requirements

Students must complete embalming and funeral directing clinical requirements as listed in the Mortuary Science Student Handbook (http://cphs.wayne.edu/mortuary-science/pdf/student_handbook.pdf).

Academic Advising and Transcript Evaluations

Academic advising, transcript evaluations, and questions regarding transfer credits are available through email to cphsinfo@wayne.edu or by calling 313-577-1716.

Grading Policy

Minimum Grade

Students in the Mortuary Science Program are required to maintain a program curriculum minimum GPA of 2.50 for continued enrollment and satisfactory completion. GPA is calculated at the end of each semester to determine whether continued enrollment is possible. Each course must be passed with a grade of "C" or better. A grade of less than "C" will require that the course be retaken. Courses in the Professional Program may only be retaken once.

Grade of 'F'

A grade of 'F' indicates that required class was failed. No credit will be given for the course. Receiving a grade of F in any course will result in dismissal from the program.

Mark of 'I'

A mark of 'I' indicates that course requirements were not completed or submitted as required. The mark is given at the discretion of the instructor. The student is required to meet with the instructor and submit a written Plan of Work confirming the agreement regarding the method, manner and timing of completing the requirements. Failure to complete requirements by the established deadline will result in the 'I' mark being converted to an 'F'.

The following scale will be used in course grading:

93 - 100% A
90 - 92% A-
87 - 89% B+
83 - 86% B
80 - 82% B-
77 - 79% C+
73 - 76% C
70 - 72% C-
67 - 69% D+
63 - 66% D
60 - 62% D-
below 60% F

Grades may be viewed in Academics (<http://academics.aws.wayne.edu/>). Grades are usually posted within 24 hours of an instructor submitting them. You will receive an e-mail informing you when grades are posted.

Time Limitations

Students may enroll full-time for three consecutive semesters (1 year to complete the program) or part-time for six consecutive semesters (2 years to complete the program). Students must complete the Program within two years of initial admission. Students who fail to complete the program within two years of initial admission must: (1) re-apply to the program and (2) fulfill all program requirements, including additional or different coursework in effect at the time of re-application.

Professional Licensure

The Bachelor of Science in Mortuary Science from Wayne State University meets or exceeds the educational requirements for licensure in every state.

Degree Requirements

Candidates for the Bachelor of Science in Mortuary Science must satisfactorily complete:

1. Sixty-four credits of Program-Specific Prerequisites and General Education requirements listed below;
2. Fifty-six credits in the Mortuary Science professional program curriculum;
3. Embalming and Funeral Directing clinical requirements as listed in the Mortuary Science Student Handbook (http://cphs.wayne.edu/mortuary-science/pdf/student_handbook.pdf)
4. Take the Arts and Sciences parts of the National Board Examination within thirty days of completion of coursework.

All prerequisite, general education, and professional courses must be passed with a grade of C or higher. The overall GPA for the professional courses must be 2.5 or higher.

Pre-professional Program

There are two components of coursework that must be completed prior to beginning the Mortuary Science program: (1) program specific prerequisites¹; and (2) University General Education requirements (p. 29). The professional curriculum in Mortuary Science consists of fifty-six credits, so an applicant must earn sixty-four credits, including the program prerequisites and general education requirements before entering the program. If the General Education and program prerequisites do not add up to sixty-four credits, elective courses must be taken to complete the sixty-four total credits needed prior to entering the program. This sixty-four plus fifty-six formula equals the 120 total credits required for the Bachelor of Science degree. The courses below are listed by their title and course number at Wayne State University. For comparable courses at other colleges, students should consult the Office of Transfer Credit (<http://transfercredit.wayne.edu>).

Prerequisite courses must be completed with a grade of 'C' or better.

Program-Specific Prerequisites

Code	Title	Credits
BIO 1510	Basic Life Mechanisms	4
BIO 2870	Anatomy and Physiology	5
CLS 3330	Medical Terminology	1
CHM 1000	Chemistry and Your World	4
COM 1010	Oral Communication: Basic Speech	3
PH 2100	Introduction to Public Health	3
COM 2200	Interpersonal Communication	3
MGT 2530	Management of Organizational Behavior ²	3
ENG 1020	Introductory College Writing	3
ENG 3010	Intermediate Writing	3
PSY 1010	Introductory Psychology	4
PHI 1050	Critical Thinking	3
SOC 1010	Understanding Human Society	3

University General Education Requirements

General Education courses are required for every graduate of Wayne State University. Applicants may satisfy the general education requirements in one of the following ways:

1. earning a bachelor's degree from a regionally accredited institution,
2. earning an Associate of Arts (AA), Associate of Liberal Arts (ALA), Associate of Science (AS) or Associate of Baccalaureate Studies (ABS) degree from a Michigan community college,
3. obtaining a Michigan Transfer Agreement (MTA) stamp
4. obtaining a MACRAO stamp, or
5. completing courses in satisfaction of the University General Education requirements.

¹ The previous Mortuary Science prerequisite plan will be accepted until Fall 2020.

² An introductory Business course is also acceptable

Professional Program

Admission Requirements

1. Minimum of 2.50 GPA
2. All pre-professional coursework must be completed with a grade of "C" or better.
3. All science and math coursework must be completed within six years of the time of application to the professional program.
4. Test of English as a Foreign Language (TOEFL)-required only if English is not your first language
5. Minimum of 64 credits, including all program specific pre-requisites and University General Education requirements.
6. Pre-professional coursework taken at an accredited college or university is acceptable
7. Completion of all pre-professional courses by the end of the spring/summer semester before admission to the program (unless an exception is granted by the program)
8. All applicants must attend one monthly Information Meeting at the Eugene Applebaum College of Pharmacy and Health Sciences.

How to Apply

Students must submit the Mortuary Science Program Application (<http://www.cphs.wayne.edu/mortuary-science/apply.php>). The application deadline is June 15th of the year an applicant wants to enter the program.

Health and Immunization Record

All applicants, including transfer students from Colleges within Wayne State University, are required to submit to the Mortuary Science Program the results of a TB test administered within six months preceding their entrance into the program and a copy of their immunization history. Immunization against Hepatitis B Virus (HBV) is strongly advised; enrollees declining immunization are required to do so in writing.

Professional Curriculum

All professional courses must be completed with a grade of "C" or better. The National Board Examination (NBE) is a degree requirement and must be taken within thirty (30) days of completing MS 5996. All coursework must be completed within two years of initial admission to the Program.

Fall Semester		Credits
MS 3100	Thanatochemistry	2

HEALTH CARE SCIENCES

The Department of Health Care Sciences consists of six programs that share a common theme of excellence in the education and training of those involved in patient care. The department is housed in the Eugene Applebaum College of Pharmacy and Health Sciences (EACPHS) building which is near main, large health care institutions and close to the Wayne State University Medical School. Many of the department's faculty, who are involved in health care related research, offer students opportunities to assist in research. This has enabled greater appreciation for health care management and clinical decision-making.

- Occupational Therapy Concentration (B.H.S.) (p. 374)
- Physical Therapy Concentration (B.H.S.) (p. 375)
- Radiation Therapy Technology (B.S.) (p. 376)
- Radiologic Technology (B.S.) (p. 378)

Occupational Therapy Concentration (B.H.S.)

Office: Room 2226 APHS: 313-577-5884

Program Director: Doreen Head

Admissions Coordinator: Regina Parnell

Fieldwork Education Level I and II: Kim Banfill

Department Secretary III: Ashley Willis-Bradley

Administrative Assistant III: Dawn Waltz

<http://cphs.wayne.edu/ot/>

Occupational therapy helps people enhance wellness at any stage of life and supports their ability to perform in activities important to them.

A patient learns how to prevent, overcome, or manage, physical and/or psychological impairments and to maintain health with the assistance of a qualified therapist. Occupational therapists show patients how to live life at optimal potential by using exercise, activity, and daily tasks. The vision of the Occupational Therapy program encompasses education, research, and service excellence in the promotion of occupations of meaning within a multicultural urban community.

Occupational Therapy

The program offers coursework leading to the Bachelor of Health Science degree with a concentration in occupational therapy. This degree is awarded upon completion of approximately 71-73 pre-professional semester credits and 56 professional program credits, and it is a prerequisite for entry into the graduate component of the professional program, the Master of Occupational Therapy. The Eugene Applebaum College of Pharmacy and Health Sciences must formally accept students before admission to the professional courses. Students who successfully complete the B.H.S. occupational therapy concentration and meet the requirements for admission to the Graduate School at Wayne State University, are eligible to continue into the graduate component of the program. Students who already hold an undergraduate degree are eligible to receive a second bachelor's degree.

The professional program is designed primarily for full-time enrollment; although part-time enrollment may be considered and must be approved by the program director on a case-by-case basis.

Accreditation

Wayne State University offers courses of study which are accredited by the Accreditation Council for Occupational Therapy Education (ACOTE (<http://www.acoteonline.org>)), located at 4720 Montgomery Lane, Suite 200 Bethesda, MD 20814-3449; 301-652-2682, and the accrediting body of the American Occupational Therapy Association (AOTA

(<http://www.aota.org>)), which prepare the student to take the national certification examination through the National Board for Certification in Occupational Therapy, Inc. (NBCOT (<http://www.nbcot.org>)) 301-990-7979. (The Bachelor of Health Science degree does not qualify the holder for certification.)

Pre-professional Program

Applicants must complete two years of pre-professional study including the General Education Requirements (p. 29) of the university, and prerequisite courses for the occupational therapy professional program. Decisions regarding the fulfillment of program prerequisites are made by the Department of Occupational Therapy.

The following curriculum is required of all degree candidates for subsequent admission to professional study in the Department of Occupational Therapy. Core courses must be completed by the end of the fall semester prior to application for admission to the professional program.

Code	Title	Credits
Core Courses

Professional Program

Admission Requirements

The professional program in occupational therapy is eight semesters in length and consists of an undergraduate component and a graduate component. Progression to the graduate component is achieved only through successful completion of the undergraduate component. Applications to the professional program (<http://cphs.wayne.edu/occupational-therapy/admissions.php>) are submitted through the Occupational Therapist Centralized Application Service (OTCAS) and may be obtained each November through February online from the College of Pharmacy and Health Sciences Office of Student Affairs. Applicants should also be familiar with general University (p. 23) and College (<http://www.cphs.wayne.edu/>) admission requirements. Students are admitted once per year during the spring/summer semester prior to Fall enrollment. In addition to the application, the student must:

1. Hold a minimum cumulative grade point average of 3.0 (on a 4.00 scale) for the pre-professional courses listed above. All prerequisite

courses must be completed with a 'C' or better. A maximum of two core prerequisite courses may be repeated to improve grades.

2. Complete a minimum of twenty hours contact with a registered occupational therapist. These contact hours may be in one facility with one therapist, or within a variety of facilities and with more than one therapist. The therapist(s) with whom the student had the contact experience(s) must complete documentation, which is provided in the application.
3. Complete a Personal/Professional Statement through OTCAS.
4. Submit a letter of recommendation from a current or former supervisor through OTCAS.

Students transferring from another institution should contact a representative at the Office of Student Affairs to ensure their credits are equivalent to Wayne State University courses. Equivalency guides are available from the University's Office of Transfer Credit (<http://transfercredit.wayne.edu/>) or by contacting the College's Office of Student Affairs (<http://cphs.wayne.edu/students/ofa.php>).

Academic Regulations

Once a student is enrolled in the professional program, a minimum cumulative grade point average (g.p.a.) of 3.0 or above must be maintained. A student must achieve an undergraduate g.p.a. of 3.00 to be eligible for regular graduate admission to the graduate component of the degree. Students apply for graduation and Graduate status during the fourth semester of the undergraduate component of the curriculum. Once admitted to Graduate School, students must maintain a g.p.a. of 3.0 in all graduate level courses. The student will apply for graduation and Graduate status during semester four. The student must maintain a g.p.a. of 3.0 in all graduate level courses.

Undergraduate Probation: A student whose g.p.a. falls below 3.0 in an academic semester is placed on curriculum probation for the following semester. The student must raise his/her g.p.a. in that semester, and must reach at least a 3.0 cumulative average at the end of the following semester; failure to accomplish this will result in dismissal from the program. A student is allowed a maximum of two semesters of probation during his/her entire enrollment in the occupational therapy program.

Repeating Courses: A grade of 'C-minus' or below in a prerequisite to a professional course, or in a professional course, indicates unsatisfactory performance, and the course must be repeated. No more than two professional courses may be repeated.

A course from which a student withdraws prior to the end of the semester, and in which he/she has maintained a 'C-minus' average, is counted as one of the two courses which the student is allowed to repeat. A failing grade ('F') in a professional course is unacceptable, and the student is automatically dismissed from the occupational therapy program. Failure in a Level I or Level II field experience will also result in dismissal from the program. If a student fails, he/she may, with the help of an occupational therapy faculty advisor, petition for readmission to the program.

Physical Therapy Concentration (B.H.S.)

Office: 2248 EACPHS; 313-577-1432

Chairperson: Sara F. Maher

Director: Kristina Reid, Physical Therapy Program

<http://www.pt.cphs.wayne.edu/> (<http://pt.cphs.wayne.edu/>)

Physical Therapists provide services to patients/clients who have impairments of body function and structure, activity limitations,

and participation restrictions or changes in physical function and health status resulting from injury, disease, or other causes. Physical therapists collaborate with a variety of professionals, address risk factors to health, are leaders and providers in the areas of prevention and promoting health, wellness and fitness, serve as educators, consultants, administrators, and advocates, utilize critical inquiry skills and direct and supervise the provision of physical therapy services. Physical Therapy services include examination, evaluation, diagnosis, prognosis, and intervention primarily for individuals with musculoskeletal, neuromuscular, cardiopulmonary, and/or integumentary conditions. Physical therapists practice in a wide variety of settings including hospitals, outpatient clinics, private practice, schools, academia, home care, industrial clinics, sports clinics, rehabilitation centers, and health and wellness programs. Students interested in the physical therapy profession should also visit the American Physical Therapy Association (<http://www.apta.org>) website.

The physical therapy curriculum at Wayne State University is a professional degree program leading to the Doctor of Physical Therapy (<http://bulletins.wayne.edu/graduate/college-pharmacy-health-sciences/health-care-sciences/physical-therapy-dpt/>) degree. The entire program involves a pre-professional component: ninety credits of undergraduate course work; a first year of physical therapy courses taken under qualified graduate status; and the final two and one half years of Physical Therapy courses taken under regular graduate status. Only those portions of the program that may be completed during the first four years of what is usually construed as an undergraduate matriculation are presented in this Bulletin. The balance of the program is presented in the Graduate Bulletin.

The program of study in physical therapy is accredited by the:

Commission on Accreditation in Physical Therapy Education for the Doctor of Physical Therapy program
Attn: Accreditation Dept.
1111 N. Fairfax St.
Alexandria VA 22314-1488
(<http://www.apta.org> (<http://www.apta.org/>))

Graduates who receive a Doctor of Physical Therapy degree are eligible to take the national physical therapy licensure examination and the Canadian licensure examination and for active membership in the American Physical Therapy Association.

Admission Requirements

Admission to the Doctor of Physical Therapy (D.P.T.) (<http://bulletins.wayne.edu/graduate/college-pharmacy-health-sciences/health-care-sciences/physical-therapy-dpt/>) degree program prior to the beginning of the senior year is required to complete the B.H.S. physical therapy concentration requirements. Admission to the D.P.T. program is highly competitive and requires completion of the pre-professional program. Students should refer to the Graduate Bulletin for admission and course requirements for the D.P.T. degree.

Program Requirements

PLEASE NOTE: Student may NOT apply to or earn the Bachelor of Health Science with a concentration in physical therapy degree retroactively or after a subsequent higher level degree has been conferred.

The Eugene Applebaum College of Pharmacy and Health Sciences has established a combined undergraduate and graduate program in Physical Therapy. Qualified senior students may enroll simultaneously in the undergraduate Bachelor of Health Science with concentration in physical therapy degree program and the graduate Doctor of Physical Therapy (D.P.T.) degree program and apply a maximum of thirty credits toward both the undergraduate and graduate degree. Those who elect the

combined program may expect to complete the B.H.S. physical therapy concentration and the D.P.T. degrees in 6.5 years of full-time study.

Degree Requirements

All course work for the B.H.S. physical therapy concentration must be completed in accordance with the academic procedures of the University (p. 17) and the College (p. 363) governing undergraduate scholarship and degrees. Students will need to complete one hundred and twenty credits with a g.p.a. of 2.0 or better, including courses taken that apply to the concentration. Students who have successfully completed at least 30 credits at Wayne State University are eligible.

Course Requirements

Code	Title	Credits
Science Prerequisite Courses		
BIO 1510	Basic Life Mechanisms	4
BIO 2870	Anatomy and Physiology	5
Biology class at the upper level (3 credits at the 3000 level or higher)		3
PHY 2130	Physics for the Life Sciences I	4
PHY 2131	Physics for the Life Sciences Laboratory	1
PHY 2140	Physics for the Life Sciences II	4
PHY 2141	Physics for the Life Sciences Laboratory	1
Two chemistry courses with at least one lab, as long as topics do not overlap (options for chemistry courses listed below)		
CHM 1020	Survey of General Chemistry	
CHM 1030	Survey of Organic/Biochemistry	
CHM 1220 & CHM 1230	General Chemistry I and General Chemistry I Laboratory	
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	
Non-Science Prerequisite Courses		
ENG 1020	Introductory College Writing	3
LFA 2330	First Aid and CPR (or equiv.)	3
PSY 1010	Introductory Psychology	4
or PSY 1020	Elements of Psychology

To reach 90 credits		0-12
B.H.S. Physical Therapy Concentration Courses		
Select up to 30 credits of the following:		30
PT 5010	Clinical Applications I	
PT 5020	Foundations of Physical Therapy	
PT 5030	Basic Patient Care in Physical Therapy	
PT 5120	Human Growth and Development	
PT 5300	Surface Anatomy	
PT 5320	Basic Examination and Evaluation Procedures	
PT 5400	Neurosciences for Health Care Professionals	
PT 5410	Clinical Medicine I	
PT 5430	Clinical Medicine II	
PT 5500	Kinesiology and Biomechanics	
PT 5505	Clinical Applications of Human Anatomy	

PT 5510	Clinical Applications of Human Anatomy: Laboratory
PT 5650	Pathophysiology for Health Sciences
PT 5660	Pathokinesiology
PT 6300	Research I: Critical Thinking
PT 6310	Advanced Exercise Physiology
PT 6400	Teaching and Learning in Health Care
PT 6700	Motor Learning and Motor Control

- 1 Can be completed by passing proficiency examination.
- 2 ECO 1000 or ECO 2010 recommended

Honors Designation

Students enrolled in the Irvin D. Reid Honors College while completing the pre-concentration requirements will be eligible for the Honors distinction with the B.H.S. degree if all requirements set forth by the Honors College have been met.

Radiation Therapy Technology (B.S.)

Office: 5134 EACPHS: 313-577-1137

Program Director: Jeannetta Greer

Chairperson: Sara Maher

<http://cphs.wayne.edu/rtt> (<http://cphs.wayne.edu/rtt/>)

Radiation therapy technology is a health care discipline which utilizes ionizing radiation for the treatment of malignant diseases. This field requires a basic understanding of and interest in science, especially mathematics and physics, as well as emotional maturity and a desire to assist in the management of patient care. A radiation therapist has the unique opportunity to blend knowledge and skills of mathematics, medical science, and psychology in his or her everyday work. The therapist comes to know patients over a period of several months and becomes an important presence in their health care, a continued contact that is the source of much satisfaction and professional pride. The Bachelor of Science Degree program in Radiation Therapy Technology at Wayne State University is designed to prepare students for the technical, theoretical and psychological aspects of this career.

Radiation therapists are typically employed in hospitals, clinics, educational institutions, and commercial equipment corporations as staff therapists, clinical supervisors, administrators, educators, and technical marketing personnel. A radiation therapist is able to:

- operate sophisticated radiation equipment to deliver a planned course of radiation therapy;
- assist the physicist in quality assurance and in treatment planning procedures, and in the calibration of equipment;
- observe the clinical progress of the patient undergoing radiation therapy, and recognize when a patient's condition requires the attention of a physician; and
- assist in providing psychosocial support for patients who are dealing with the stress of their illness.

The Bachelor of Science in Radiation Therapy Technology is a four-year degree program consisting of two years of pre-professional courses and two years of professional courses. The program is accredited by the:

Joint Review Committee on Education in Radiologic Technology (<http://www.jrcert.org/>)
20 N. Wacker Drive, Suite 2850
Chicago IL 60606-3182
312-704-5300.

The program complies with the professional curriculum of the American Society of Radiologic Technologists. Upon completion of the program, the student receives a Bachelor of Science Degree in Radiation Therapy Technology and is eligible to take the national certification examination administered by the American Registry of Radiologic Technologists.

Admission to Pre-professional Program

The first two years (pre-professional program) are taken in the College of Liberal Arts and Sciences, the admission requirements of which are satisfied by general admission (p. 23) to the University. Application forms are available from the Office of Admissions, University Welcome Center. Students should consult with the University Advising Center, 1600 Adamany Library, regarding course selection. Students are urged to seek additional pre-professional advisement by contacting the Office of Student Affairs in the Eugene Applebaum College of Pharmacy and Health Sciences for registration in a Monthly College Information Night.

Recommended High School Preparation: Students interested in a career in radiation therapy technology should take as many of the following high school courses as possible: biology, chemistry, mathematics, physics, computer science, keyboarding, speech, and composition.

Admission to Professional Program

Admission to the professional program requires completion of the above pre-professional course requirements and satisfaction of specific admission requirements listed below. The application deadline is on or about April 1 for matriculation into the professional program for the subsequent fall term.

Students should contact the University Advising Center (313-577-2680) prior to each fall term to obtain an updated list of pre-professional course and program admission requirements. The program faculty provides career advisement at the Eugene Applebaum College of Pharmacy and Health Sciences 'Monthly College Information Meeting held on the first Tuesday of each month. Attendance to at least one monthly meeting is a mandatory admission requirement prior to the beginning of the application process. Out-of-state applicants should contact a member of the Radiation Therapy Technology faculty for options to accommodate individual circumstances.

Since applicants who are admitted will eventually be working as a member of a health care team, the admissions committee evaluates candidates based on their personal qualities as well as their academic achievement. Therefore, throughout the interview and the completion of other application requirements, such criteria as a student's maturity, motivation, knowledge of the profession, interpersonal skills, personal integrity, and empathy for others is evaluated.

Professional Program Admission Requirements

The student applying to the professional program must meet the following admission requirements:

1. Completion of all pre-professional courses (or their equivalents) by the fall term in which admittance is desired.
2. Hold a combined cumulative grade point average of 2.50 or above (A = 4.00) for all college-level work at all institutions attended.
3. Completion of a professional program application (<http://www.cphs.wayne.edu>) and two reference forms.
4. Submission of official transcripts from all college institutions attended (other than Wayne State).
5. Attendance at a Monthly College Information Night (<http://cphs.wayne.edu/admissions/before-you-apply.php>) at the Eugene Applebaum College of Pharmacy and Health Sciences, held the first

Tuesday of each month at 6:00pm. Out-of-state applicants should contact a Radiation Therapy Technology faculty member for options to accommodate individual circumstances.

6. Completion of two clinical visits to affiliate institutions for the program. Call 313-577-5711 to make an appointment. Out-of-state applicants should contact a Radiation Therapy Technology faculty member for options to accommodate individual circumstances.
7. Submission of two reference forms (available on the online application site): one from an employer/supervisor and one from a college professor/advisor.
8. Completion of at least 57 credit hours before starting the professional program requirements.
9. Satisfaction of the University General Education requirements.

The information requested in requirements 3, 4, 7, and 9 above, should be submitted to the Eugene Applebaum College of Pharmacy and Health Sciences, Office of Student Affairs, 259 Mack, Suite 1600, Detroit, Michigan.

Application Deadline: The deadline for applications is on or about April 1. Applications which are incomplete by the deadline or are submitted after that date will be considered only with the approval of the Program Director. Prospective students are urged to submit applications as early as possible after the fall term.

Application Review: All applications will be reviewed for completeness. The Admissions Committee will review all qualified applicants with completed applications submitted by the deadline date. The Admissions Committee will notify applicants of their interview status. Admission interviews are typically conducted in May of each year. A number of criteria will be evaluated, including academic achievement and personal qualities. The Radiation Therapy Technology Program typically notifies each applicant of the final admission decision in June.

Pre-professional Program

Each of the following required pre-professional courses (or its equivalent) must be completed with a minimum grade of C (2.00 g.p.a., where A = 4.0)

First and Second Years

Code	Title	Credits
BIO 1500	Basic Life Diversity	4
BIO 1510	Basic Life Mechanisms	4
BIO 2870	Anatomy and Physiology	5

PSY 1010	Introductory Psychology	4
PSY 2300	Psychology of Everyday Living	4

University Requirements (see General Education Program Requirements)

Professional Program

Degree Requirements

Candidates for the degree Bachelor of Science in Radiation Therapy Technology must complete a minimum of 120 credits, plus sufficient credits to fulfill the University General Education Requirements (p. 29) not satisfied by either required courses or the student's choice of electives.

The total course work will be distributed between two years of pre-professional courses and the two-year professional program as outlined below. Courses in the professional program are taken in the Eugene Applebaum College of Pharmacy and Health Sciences. Enrollment requires full-time student status for six consecutive terms (twenty-four months), during which time students take didactic and clinical courses. The clinical program includes approximately twenty hours per week of clinical education at multiple affiliate institutions in the greater metropolitan Detroit area. Such institutions include urban and suburban hospitals.

While most required courses are scheduled during usual daytime hours, students are required to attend some courses or individual class sessions in early evening.

Third Year		Credits
RT 3000	Concepts of Clinical Care	3
RT 3010	Introductory Radiation Physics	3
RT 3020	Clinical Radiation Physics	3
RT 3110	Clinical Aspects of Radiation Therapy	3
RT 3140	Topographic Anatomy and Medical Imaging	3
RT 3200	Therapeutic Interactions in Oncology Care	2
RT 3310	Clinical Practicum I	4
RT 3320	Clinical Practicum II	4
RT 3330	Clinical Practicum III	4
RT 5650	Pathophysiology for Health Sciences	3
Credits		32
Fourth Year		
RT 4110	Clinical Radiation Oncology	4
RT 4120	Basic Clinical Dosimetry	4
RT 4140	Oncologic Pathology	2
RT 4150	Radiobiology of Radiation Oncology	2

RT 4220	Radionuclide Physics	3
RT 4240	Radiation Therapy Technology Seminar	3
RT 4300	Quality Assurance	2
RT 4350	Clinical Practicum IV	4
RT 4360	Clinical Practicum V	4
RT 4370	Clinical Practicum VI	4
RT 5990	Directed Study in Radiation Therapy Technology (Max 5)	1-5
Elective ¹		3
Credits		36-40
Total Credits		68-72

¹ Students are encouraged to take a course in the areas of management, education, humanities or social studies. The course selected may be used to fulfill the social science requirement of the General Education Requirements.

Scholarship

Students in the professional program are subject to high academic and professional standards. A grade of 'C' (2.00) or above is required in each professional course, and the student must maintain a term grade point average of 2.50 throughout the program. A grade of 'C-minus' (1.67) in a professional course indicates unsatisfactory performance; repetition of the course is required, and review by the Academic Committee will occur. A second grade of 'C-minus' or below, or a single grade of 'D' or less (1.00 or less) will result in immediate dismissal from the professional program. Academic standards and program probation policies are subject to change. Academic standards and policies are published annually; copies are available upon request from the Radiation Therapy Technology Program.

Liability Insurance

Each student is required to have professional liability insurance during the entire length of the professional program. Neither the clinical affiliates, nor Wayne State University, assume liability for student actions during clinical education.

Radiologic Technology (B.S.)

Office: 4604 EACPHS; 313-916-1348

Program Director: Sarah Borland

Chairperson: Sara Maher

The Bachelor of Science in Radiologic Technology is a four-year degree program consisting of two years of pre-professional courses and two years of professional courses. The program complies with the professional curriculum of the American Society of Radiologic Technologists. Upon completion of the program, a student receives a Bachelor of Science Degree in Radiologic Technology and is eligible to take the national certifying examination administered by The American Registry of Radiologic Technologists.

The program is accredited by the:

Joint Review Committee on Education in Radiologic Technology (<http://www.jrcert.org/>) (JRCERT)
20 N. Wacker Drive, Suite 2850
Chicago IL 60606-3182
telephone: 312-704-5300; Fax: 312-704-5304

Admission to Pre-professional Program

The first two years (pre-professional program) are taken in the College of Liberal Arts and Sciences, the admission requirements of which are satisfied by general admission (p. 23) to the University. Students should consult with an Academic Services Officer in the Office of Student Affairs at the Eugene Applebaum College of Pharmacy and Health Sciences regarding course selection. Students may seek additional career advisement from the Radiologic Technology program faculty during their pre-professional program.

Recommended High School Preparation: Students interested in a career in Radiologic Technology should take as many of the following courses as possible: biology, chemistry, mathematics, physics, computer science, keyboarding, speech, and composition.

Admission to Professional Program

Admission to the professional program requires completion of the above pre-professional course requirements and satisfaction of specific admission requirements listed below. The application deadline is December 15 for matriculation into the professional program for the subsequent Spring/Summer term. Prospective students may contact the program for additional information early in their University studies (313-916-1348).

Students are urged to attend a Monthly Information Meeting (<http://www.cphs.wayne.edu/meetings.php>), held on the first Tuesday of each month, for advising and application deadline dates a year before they plan to enter.

Since the applicants who are admitted will eventually be working as members of a health care team, the admissions committee evaluates candidates based on their personal qualities as well as their academic achievement. Therefore, throughout the interview and the completion of other application requirements, such criteria as a student's maturity, motivation, knowledge of the profession, interpersonal skills, personal integrity, and empathy for others is evaluated.

Admission Requirements: The student wishing to apply to the professional program must meet the following admission requirements:

1. Completion (minimum grade of "C" 2.0 where A = 4.0) of all pre-professional courses (or their equivalents) by the end of the Winter semester, prior to beginning the professional program. BIO 3200 (or equivalent) must be completed by December of the year of application.
2. Hold a grade point average of 2.70 or above in pre-professional courses and 2.70 ('A' = 4.00) for all college level work at all institutions attended.
3. Completion of the professional program application (<http://www.cphs.wayne.edu>) form and associated requirements and submission of official transcripts to:

Eugene Applebaum College of Pharmacy and Health Sciences
Office of Student Affairs
259 Mack Avenue, Suite 1600
Detroit, MI 48201

APPLICATION DEADLINE: The deadline for applications is December 15. Prospective students are urged to submit applications as early as

possible. Specific directions for submitting various application materials are indicated on the website.

APPLICATION REVIEW: All applications will be reviewed for completeness. The Admissions Committee will interview qualified applicants with completed applications submitted by the deadline date. A number of criteria will be evaluated, including academic achievement and personal qualities. Upon completion of all admission interviews, applicants will be notified of the final admission decision. This typically occurs in February.

Pre-professional Curriculum

Each of the following required pre-professional courses (or its equivalent) must be completed with a minimum grade of C (2.0 on a 4.0 scale).

First and Second Years

Total Credits		72

Additional undergraduate or professional courses may be needed to achieve the minimum 120 credits required to earn the degree.

Pharmaceutical Sciences

Office: 3610 EACPHS; 313-577-1047

Chairperson: George B. Corcoran

<http://cphs.wayne.edu/sciences/index.php> (<http://cphs.wayne.edu/sciences/>)

The Eugene Applebaum College of Pharmacy and Health Sciences has established a combined undergraduate and graduate program for those admitted to the Doctor of Pharmacy (PharmD) program. Qualified senior students may enroll simultaneously in the undergraduate Bachelor of Health Science with a concentration in pharmaceutical sciences degree program and the graduate Doctor of Pharmacy (Pharm.D.) degree program and apply a maximum of thirty credits toward both the undergraduate and graduate degree.

Those who are enrolled in this program may expect to complete the B.H.S. pharmaceutical sciences concentration and the Pharm.D. degrees in seven years of full-time study.

NOTE: The B.H.S. pharmaceutical sciences concentration does not qualify the holder for licensure as a pharmacist. The Pharm.D. degree is required to qualify the holder for licensure as a pharmacist.

- Pharmaceutical Sciences Concentration (B.H.S.) (p. 380)
- Pharmacy (Pharm.D.) (p. 381)

Pharmaceutical Sciences Concentration (B.H.S.)

PLEASE NOTE: Application to or awarding of the Bachelor of Health Science with a concentration in pharmaceutical sciences degree retroactively or after a subsequent higher level degree in this discipline has been conferred is not permitted.
