

## What's New in Degree Works?

An overall new look and feel- focuses on the user experience (the look, feel, and navigation capabilities)

- A new responsive dashboard which now includes
  - A circular Degree progress section displaying requirements and percentage complete
  - An improved process flow of the Exceptions tab, where the user can first review the audit before creating the exception; both the add-exception and remove-exception page have been combined into one
  - In-progress and pre-registered classes that can be sorted by term
  - External links are now allowed: you can link to any site on or off campus from within Degree Works
  - A combined Look Ahead and What-If audit
  - Fully responsive on a mobile device

- Advancements to the Student Education Planner
  - Additional Course Link functionality
  - Remaining requirements that are shown in the Still Needed display of the planner
